One-Hundred-and-Thirtieth
Annual University Catalog

2021–22
ABOUT THIS UNIVERSITY CATALOG

The publisher of this bulletin has made every reasonable effort to attain factual accuracy herein and has attempted to present information that most accurately describes the course offerings, faculty listings, policies, procedures, regulations, and requirements of the university at the time of publication on June 1, 2021; however, it does not establish contractual relationships. No responsibility is assumed for editorial, clerical, or printing errors, or error occasioned by mistake.

In very rare instances, requirements, rules, procedures, courses, and informational statements may change during the academic year. The university reserves the right to revise any part without notice or obligation; however, this document will not be altered and changes will be reflected in the subsequent edition.

Catalog Issue for the Year 2021-22
Announcements for 2020-21
Vol. 109

Announcements are published online three times per year: Fall Schedule of Courses in March, annual University Catalog in June, and Spring Schedule of Courses in October.

The UNC Greensboro University Catalog is jointly edited and published by:

ACADEMIC CALENDAR

Fall 2021
August 9–13, Mon.–Fri. — Orientation, advising, and registration for all students based on student population and classification
August 9, Monday — Fall semester opens
August 10, Tuesday — UNCG Annual Kickoff
August 16, Monday — Convocation Day
August 17, Tuesday — Classes begin, 8:00 a.m.
August 17, Tuesday — Financial aid satisfactory academic progress appeals deadline
August 17–23, Tues.–Mon. — Late registration and schedule adjustment
August 23, Monday — Hours locked for financial aid purposes.
August 23, Monday — Drop/Add period ends; last day to change course(s) or course section(s) for the Standard Term.
August 23, Monday — Last day to withdraw from a course for tuition and fees refund; course withdrawal policy in effect after this date.
August 24, Tuesday — Deadline for graduate students to apply to graduate in December
August 30, Monday — Census reporting; no additional schedule adjustment for the Standard Term.
September 6, Monday — Labor Day holiday. Classes dismissed; offices closed.
October 1, Friday — Opening day for the financial aid priority filing period for the 2022–23 academic year; FAFSA (Free Application for Federal Aid) available.
October 5, Tuesday — Founders Day
October 8, Friday — Last day to withdraw from a course without incurring a WF grade (withdraw failing)
October 8, Friday — Deadline for undergraduates to apply to graduate in December
October 8, Friday — Instruction ends for Fall Break, 6:00 p.m.
October 13, Wednesday — Classes resume after Fall Break, 8:00 a.m.
Oct. 13–Nov. 16, Wed.–Tues. — Spring semester advising for continuing students, by appointment
October 22, Friday — Final date for December doctoral candidates’ oral examinations
Oct. 25–Nov. 16, Mon.–Tues. — Spring semester registration for continuing students
November 1, Monday — Deadline for undergraduates to apply to student teach during Fall 2022
November 5, Friday — Deadline for filing dissertation and original signature pages with the Graduate School
November 15, Monday — Deadline for filing thesis with the Graduate School
November 23, Tuesday — Instruction ends for Thanksgiving holiday, 10:00 p.m.
November 29, Monday — Classes resume, 8:00 a.m.
December 1, Wednesday — Last day of classes
December 2, Thursday — Final date for complete clearance of December graduate degree candidates.
December 2, Thursday — Deadline for final submission of thesis or dissertation to the Graduate School.
December 2, Thursday — Reading Day
Dec. 3 & 4, Fri. & Sat.; Dec. 6–9, Mon.–Thurs. — Final examinations
December 10, Friday — December Commencement, Greensboro Coliseum

December 10, Friday — December Doctoral Hooding Ceremony

Approved by the Faculty Senate May 4, 2016. Approved by the Chancellor May 13, 2016. Amended September 8, 2016.

Days of the Week Meeting Distribution for Fall
The one-day shortage of Mondays in the fall is made up with the one-day overage of Wednesdays (for MW or MWF meeting patterns). If a class meets only on Monday (three-hour class), then it is the instructor's responsibility to make up the 150 minute deficit via an online or other instructional method outside of the classroom.

Spring 2022
January 4–7, Tues.–Fri. — Orientation, advising, and registration for all students based on student population and classification

January 10, Monday — Classes begin, 8:00 a.m.

January 10, Monday — Financial aid satisfactory academic progress appeals deadline

January 10–14, Mon.–Fri. — Late registration and schedule adjustment

January 14, Friday — Hours locked for financial aid purposes.

January 14, Friday — Drop/Add period ends; last day to change course(s) or course section(s) for the Standard Term.

January 15, Saturday — Financial aid priority filing period ends for 2022–23 academic year.

January 17, Monday — Last day to withdraw from a course for tuition and fees refund; course withdrawal policy in effect after this date.

January 17, Monday — Dr. Martin Luther King Jr. holiday. Classes dismissed; offices closed.

January 17, Monday — Deadline for graduate students to apply to graduate in May

January 25, Tuesday — Census reporting; no additional schedule adjustment for the Standard Term. (Extended from January 24, 2022 due to winter weather delays.)

February 1, Tuesday — Summer session registration begins for continuing students.

February 15, Tuesday — Deadline for undergraduates to apply to student teach during Spring 2023

March 4, Friday — Last day to withdraw from a course without incurring a WF grade (withdraw failing)

March 4, Friday — Deadline for undergraduates to apply to graduate in May

March 5, Saturday — Instruction ends for Spring Break, 1:00 p.m.

March 14, Monday — Classes resume after Spring Break, 8:00 a.m.

March 14–Apr. 20, Mon.–Wed. — Fall semester advising for continuing students, by appointment

March 16, Wednesday — Final date for May doctoral candidates' oral examinations

March 23, Wednesday — Deadline for filing dissertation and original signature pages with the Graduate School

Mar. 28–Apr. 20, Mon.–Wed. — Fall semester registration for continuing students

April 15, Friday — Spring holiday. Classes dismissed; offices closed.

April 5, Tuesday — Deadline for filing thesis with the Graduate School

April 27, Wednesday — Last day of classes

April 28, Thursday — Final date for complete clearance of May candidates for graduate degrees.

April 28, Thursday — Deadline for final submission of thesis or dissertation to the Graduate School.

April 28, Thursday — Reading Day

April 29 & 30, Fri. & Sat.; May 2–5, Mon.–Thurs. — Final examinations
May 5, Thursday — May Doctoral Hooding Ceremony

May 6, Friday — May Commencement, Greensboro Coliseum

May 7, Saturday — Deadline for submission of final grades for the Standard Term

Approved by the Faculty Senate May 4, 2016. Approved by the Chancellor May 13, 2016. Amended September 8, 2016.

Days of the Week Meeting Distribution for Spring
The one-day shortage of Fridays in the spring is made up with the one-day overage of Wednesdays. If a class meets only on Friday (three-hour class), then it is the instructor's responsibility to make up the 150 minute deficit via an online or other instructional method outside of the classroom.

Summer 2022

May 9, Monday — MBA and BLS first summer session classes begin
May 11, Wednesday — First summer session classes begin
May 18, Wednesday — Deadline for graduate students to apply to graduate in Summer
June 15, Wednesday — First summer session final examinations
June 15, Wednesday — Final date for August doctoral candidates' oral examinations
June 16, Thursday — Second summer session classes begin
June 17, Friday — Deadline for filing thesis with the Graduate School
June 20, Monday — Juneteenth holiday (observed). Campus observance programs. Classes meet; offices open.
June 20, Monday — MBA and BLS first summer session final examinations
June 21, Tuesday — MBA and BLS second summer session classes begin
June 24, Friday — Deadline for filing dissertation and original signature pages with the Graduate School
July 8, Friday — Deadline for undergraduates to apply to graduate in August
July 21, Thursday — Second summer session final examinations
July 21, Thursday — Deadline for submission of thesis or dissertation to the Graduate School
August 2, Tuesday — MBA and BLS second summer session final examinations
August 5, Friday — Summer graduation date

Introduction to internal accounting and reporting of organizations,

Permission of instructor.

Written permission required. Restricted to students

Required entry course for all Accounting and Finance majors.

Required entry course for all Accounting and Finance majors.
ACC 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ACC 318 Intermediate Accounting I 3
Focuses on the conceptual framework underlying financial reporting by business enterprises, the processes by which authoritative accounting guidelines are promulgated, and the preparation, presentation, interpretation, and use of financial statements.
Prerequisites: Grade of B- or better in ACC 318. Grade of C or better in ECO 201.

ACC 319 Intermediate Accounting II 3
The second course in the two-course intermediate accounting sequence. Continues the examination of the preparation, presentation, interpretation, and use of financial statements.
Prerequisites: Grade of C or better in ACC 318.

ACC 325 Accounting Transaction Processing Systems 3
Designed to provide an understanding of a variety of accounting subsystems, systems analysis, and design issues reinforced through case studies.
Prerequisites: Grade of C or better in ACC 318.

ACC 330 Cost Accounting 3
Costs and cost accounting principles, costing systems, cost determination procedures; control and analytical practices for managerial decision-making.
Prerequisites: Grade of B- in ACC 302.

ACC 350 Internship in Accounting 3
This course provides students with an opportunity to apply accounting knowledge in a business environment and to gain a better understanding of the accounting profession.
Prerequisites: Grade of C or better in ACC 318. Accounting major; permission of internship coordinator.

ACC 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ACC 420 Federal Tax Concepts 3
Prerequisites: Grade of C or better in ACC 318 or FIN 410.

ACC 440 Auditing Concepts 3
Concepts underlying audit process, procedures used in external auditing, statistical application, preparation of audit programs, and reports. Use of audit software to conduct control risk assessment and substantive tests.
Prerequisites: Grade of C or better in ACC 318 and ACC 325.

ACC 461 Governmental and Nonprofit Accounting 3
This course will introduce students to accounting and financial reporting for nonprofit organizations and governmental entities.
Prerequisites: ACC 319.

ACC 493 Honors Work 3-6
Honors Work.
Prerequisites: 3.30 GPA in the major; 12 s.h. in the major
Notes: May be repeated for credit if the topic of study changes.

ACC 499 Independent Research in Accounting 1-3
Individual study of an issue or problem(s) in accounting of particular interest to the student. Student must arrange time and course requirements with instructor prior to registration.
Prerequisites: Accounting major, senior standing, and permission of Department Head.
Notes: May be repeated for credit with approval of Department Head.

ACC 518 Intermediate Accounting I 3
Focuses on the conceptual framework underlying financial reporting by business enterprises, the processes by which authoritative accounting guidelines are promulgated, and the preparation, presentation, interpretation, and use of financial statements.

ACC 519 Intermediate Accounting II 3
The second course in the two-course intermediate accounting sequence. Continues the examination of the preparation, presentation, interpretation, and use of financial statements.

ACC 525 Accounting Transaction Processing Systems 3
Designed to provide an understanding of a variety of accounting subsystems, systems analysis, and design issues reinforced through case studies.

ACC 531 Cost Accounting 3
Costs and cost accounting principles, costing systems, cost determination procedures, control and analytical practices for managerial decision-making.

ACC 561 Governmental and Nonprofit Accounting 3
This course will introduce students to accounting and financial reporting for nonprofit organizations and governmental entities.
Prerequisites: ACC 519 or grade of C or higher in intermediate financial accounting II course.

ACC 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ACC 602 Federal Tax Concepts 3
Prerequisites: ACC 518.

ACC 604 Auditing Concepts 3
Concepts underlying audit process, procedures used in external auditing, statistical application, preparation of audit programs, and reports. Use of audit software to conduct control risk assessment and substantive tests.
Prerequisites: ACC 519, ACC 525.

ACC 613 Directed Studies in Accounting 1-3
Individual study of an issue or problem of interest. Student must arrange time and course requirements with instructor prior to registration.
Prerequisites: 12 hours of graduate level accounting courses or permission of instructor.

ACC 621 Accounting Internship 3
Combined academic and work components allow students to gain experience in the professional field of accounting. Course supervised by a graduate faculty member and appropriate personnel of the approved organization.
Prerequisites: ACC 518 or grade of C or higher in intermediate financial accounting I course and permission of instructor.
ACC 630 Seminar in Contemporary Accounting Issues 3
Analysis, research, and presentation of current topics and issues relevant to professional accountants.
Prerequisites: ACC 519 or grade of C or higher in ACC 319.

ACC 631 Advanced Auditing 3
Ethics, reporting, law, statistics, and audit software; directed towards professional external and internal auditing.
Prerequisites: ACC 604 or grade of C or higher in ACC 440.

ACC 632 Principles of Fraud Examination 3
This course examines the nature of occupational fraud and abuse in organizations. Students will learn how and why occupational fraud is committed, how fraud can be detected, how fraud can be deterred, and how to proceed if fraud is suspected. Emphasis is placed on asset misappropriation schemes, corruption, and financial statement fraud.
Prerequisites: ACC 604 or grade of C or higher in auditing concepts course.

ACC 638 Information Technology Auditing and Accounting Data Analytics 3
Theory and practice of information technology auditing, computer based systems controls, data analytics models and methods focusing on accounting applications.
Prerequisites: ACC 604 or grade of C or higher in ACC 440.

ACC 642 Specialized Accounting Entities 3
Theory and practice associated with business combinations, consolidated financial statements, partnerships, international operations, bankruptcy and other accounting topics related to specialized accounting entities.
Prerequisites: ACC 519 or grade of C or higher in ACC 319.

ACC 646 Advanced Study in Business Environment and Concepts 1
An in-depth study and review of the underlying reasons for, and accounting implications of, business transactions. This course is only offered online.
Prerequisites: ACC 531 or grade of C or higher in ACC 440 or cost accounting course and permission of instructor or Program Director.

ACC 647 Advanced Study in Financial Accounting and Reporting 1
An in-depth study and review of the accounting and reporting represented on the four major financial statements.
Prerequisites: ACC 642 and permission of instructor or Program Director.
Notes: This course is only offered online.

ACC 648 Guided Study in Taxation and Business Law 1
An in-depth study and review of specialized current topics in tax and business law.
Prerequisites: ACC 651 and permission of instructor or Program Director.

ACC 649 Advanced Study in Auditing and Attestation 1
This course provides an in-depth study and review of advanced specialized current topics in auditing and attestation.
Prerequisites: ACC 631 or ACC 638 and permission of instructor or Program Director.
Notes: This course is only offered online.

ACC 651 Introduction to Business Entity Taxation 3
The principles of entity taxation associated with corporations, S corporations, and partnerships. Focuses on a life-cycle approach of tax accounting for these tax entities recognized in the U.S., focusing on issues such as formation, operation, and distributions of corporations.
Prerequisites: ACC 602 or grade of C or higher in ACC 420.

ACC 652 Taxation of Estates, Gifts and Trusts 3
Principles and procedures involved in determining federal estate tax; tax planning using gifts and trusts.
Prerequisites: ACC 602 or grade of C or higher in ACC 420.

ACC 655 Taxation of Corporations and Shareholders 3
Federal taxation of business transactions affecting corporations and shareholders.
Prerequisites: ACC 651 or permission of instructor or Program Director.

ACC 656 Taxation of Flow-Through Business Entities 3
Federal taxation of business transactions affecting flow-through business entities, including partnerships, S corporations, limited liability companies and their owners.
Prerequisites: ACC 651 or permission of instructor or Program Director.

ACC 688 Advanced Business Law 3
Explores legal issues in contract and sales law, negotiable instruments, agency, and business associations and at the same time considers ethical and managerial issues involved when these legal issues arise.
Prerequisites: MGT 330 or permission of Program Director.

ACC 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

Advanced Data Analytics (IAA)

IAA 621 Statistical Computing 3
Statistical methods requiring significant computing or specialized software. Simulation, randomization, bootstrap, Monte Carlo techniques; numerical optimization. Extensive computer programming involved. This course does not cover the use of statistical software packages.

IAA 622 Complex Data Analysis 3
Methods for modeling and understanding complex data. Topics include linear regression models for sparse and high dimensional data sets, nonlinear models, tree-based methods, and clustering methods.
Prerequisites: Permission of instructor.
Notes: Same as STA 622.

IAA 623 Categorical Data Analysis 3
Methods for analyzing dichotomous, multinomial and ordinal responses. Measures of association; inference for proportions and contingency tables; generalized linear models including logistic regression and loglinear models.
Prerequisites: STA 662 or permission of instructor.

IAA 689 Capstone Project in Advanced Data Analytics 3
Capstone course. Students work with local industries and nonprofit organizations to solve important data science problems under the supervision of a mentor.

African American and African Diaspora Studies (ADS)

ADS 200 African American Art History 3
The development of African American art placed within the context of mainstream American art and the history of the blacks in this country.
MAC: MAC CritThink Hum and Fine Art

ADS 201 Introduction to African American Studies 3
Introduction to African American culture through a historical and social perspective.
MAC: MAC CritThink Soc and BehavSci
ADS 210 Blacks in American Society: Social, Economic, and Political Perspectives 3  
Social, political, economic experience of blacks in the United States. Topics include the black family, Civil Rights Movement, black politicians, and blacks in the labor market.  
MAC: MAC Diversity and Equity

ADS 260 Understanding Race 3  
Race is among the most fundamental, yet profoundly misunderstood, aspects of socioculture. This course seeks to provide a comprehensive look at race, especially in its sociopolitical and biocultural dimensions.  
MAC: MAC Diversity and Equity

ADS 201X Experimental Course 1-6  
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ADS 305 Special Topics in African American Studies 3  
An in-depth study of a selected topic or topics in African American Studies involving directed reading and research.  
Notes: May be repeated for credit when topic varies.

ADS 360 Special Topics in the African Diaspora: Africa, the Indian Ocean, and the Americas 3  
Special topics course explores the histories, cultures, politics, and societies of the African Diaspora across the Indian Ocean and Atlantic worlds.  
Notes: May be repeated once for credit when topic varies.

ADS 310 The Portrayal of African Americans in Film 3  
An examination of African American film roles as a reflector of America's perception of black character and behavior. Various film genres will be considered for insight into movie portrayals as social commentary.

ADS 315 Theories and Paradigms in African American Studies 3  
A concentrated examination of the theories or systematic explanations of the social, cultural, and historical phenomena and/or experiences of African Americans.  
Prerequisites: ADS 201 or ADS 210, or permission of instructor.

ADS 320 The African American Athlete 3  
An examination of the lives and careers of African American athletes and their struggles to gain acceptance in both competitive and social settings.

ADS 325 Black Women in the U.S. 3  
Explores the historical experiences of women of African descent in America through an evaluation of relevant literature, film, and/or music.  
Prerequisites: ADS 201 and ADS 210 recommended.

ADS 330 Black Music as Cultural History: 1960-1980 3  
African-American urban music from the 1960s and 1970s as cultural history and as a reflector of social, political, and economic movements of the era.

ADS 351 Race and Gender in Black Performance 3  
Focus on the history of a relation between race and gender in Black performance as it relates to the enactment of and resistance to neocolonial, patriarchal control and captivity.

ADS 356 The Making of the African Diaspora 3  
Explores the making of the African Diaspora in the Atlantic and Indian Ocean worlds through a combination of historical and ethnographic studies.

ADS 376 Africana Literature 3  
Critical survey of literature written by people of Africa and the Diaspora and their cultures, ideas, and experiences from the eighteenth century to the present.  
CIC: CIC College Writing  
Prerequisites: Sophomore, junior, or senior standing.

ADS 400 Independent Study 1-3  
Intensive independent study on special topics related to the African American experience.  
Prerequisites: Permission of Director of African American Studies and faculty mentor.

ADS 400X Experimental Course 1-6  
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ADS 410 Seminar in African American Studies 3  
Capstone seminar on issues in African American Studies and their significance to American society and the world.  
CIC: CIC College Writing  
Prerequisites: Completion of 12 s.h. of AADS core requirements (ADS 201, ADS 210, ADS 356, ENG 374 or ENG 376, HIS 301 or HIS 302 or HIS 389). junior or senior status; AADS major status.

ADS 454 Independent Black Politics 19th Century 3  
The origins, rise, and collapse of Black Populism, the independent black political movement between Reconstruction and the consolidation of Jim Crow, in the South.

ADS 492 Internship in African American Studies 1-6  
Practical experience at sites serving populations of people of African descent. Two semester meetings with program director. Students must complete 8 to 15 hours per week at site.  
Prerequisites: ADS 201 and ADS 210, ENG 374 or ENG 376; HIS 301 or HIS 302 or HIS 389; AADS major or minor. For AAD minors: ADS 201, ADS 210, and two AAD-related courses;  
Notes: Interns must show 40 on-site hours each semester for each s.h. of credit sought. may be repeated a maximum of 3 times for course credit, but may not exceed 6 credit hours in total.

ADS 600 Independent Study 3  
A supervised research project related to African American Studies at the graduate level.

ADS 600X Experimental Course 1-6  
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ADS 610 African American Theoretical Perspectives 3  
Historical and theoretical approaches to analyzing race, gender, and class as related to African Americans.

ADS 650 Topics in African American Gender Studies 3  

ADS 652 Topics in Black Performance Studies 3  
Implications of historical displays of Black people in relation to contemporary black performance, particularly as it involves a shift in bodies and terms.

ADS 653 Perspectives on the African American Experience 3  
Investigates selected individuals, events, and social and cultural movements that have fundamentally shaped the course of African American advancement in mainstream society.
American Sign Language (ASL)

ASL 100X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ASL 101 Elementary American Sign Language I 3
Introduction to American Sign Language and the culture of the American Deaf Community. Emphasis on active comprehension and expression in culturally appropriate signs, and on applied vocabulary.
Notes: May not receive credit for both ASL 101 and SES 101. Students with previous knowledge of ASL are required to take the placement test. Students who are native or heritage ASL signers MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.

ASL 102 Elementary American Sign Language II 3
Continued introduction to American Sign Language and the culture of the American Deaf Community. Emphasis on active comprehension and expression in culturally appropriate signs, and on applied vocabulary.
Prerequisites: ASL 101 or permission of instructor.
Notes: May not receive credit for both ASL 102 and SES 102. Students with previous knowledge of ASL are required to take the placement test. Students who are native or heritage ASL signers MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.

ASL 200X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ASL 201 Directed Study in Applied Beginning American Sign Language 3
Intensive practice in applied beginning ASL. Active use of communicative language skills. Review and further study of basic ASL structures, vocabulary and study of cultural topics.
Prerequisites: Written permission.
Notes: This course is only open for transfer students with credit for ASL 101 and ASL 102 or institutional credit that is at least 5 years old or students with departmental permission.

ASL 203 Intermediate American Sign Language I 3
Development of intermediate American Sign Language and the continued study of American Deaf Community culture. Emphasis on active comprehension and expression in culturally appropriate signs, and on applied vocabulary.
Prerequisites: ASL 102 or permission of instructor.
Notes: May not receive credit for both ASL 203 and SES 203. Students with previous knowledge of ASL are required to take the placement test. Students who are native or heritage ASL signers MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.

ASL 204 Intermediate American Sign Language II 3
Further development of intermediate American Sign Language and the continued study of American Deaf Community culture. Emphasis on active comprehension and expression in culturally appropriate signs, and on applied vocabulary.
Prerequisites: ASL 203 or permission of instructor or placement test.
Notes: Community lab hours required. May not receive credit for both ASL 204 and SES 204. Students with previous knowledge of ASL are required to take the placement test. Students who are native or heritage ASL signers MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.

ASL 245 Introduction to the Deaf Community 3
Introduction to the diverse members of the Deaf Community with emphasis on Deaf people as a linguistic and cultural minority. Focus is on historical, educational, political, social, and vocational issues.
Prerequisites: ASL 101 or permission of instructor.
Notes: May not receive credit for both ASL 245 and SES 245.

Anthropology (ATY)

ATY 100 Contemporary Non-Western Cultures 3
Survey of contemporary non-Western societies which emphasizes their distinctive cultural characteristics and how these relate to changes taking place in the world today.
MAC: MAC Global and Intercultural

ATY 113 Introduction to Cultural Anthropology 3
Cultural anthropology attempts to stimulate interest in basic questions about human nature and human adaptation, including major theoretical approaches, the nature of field work, and an examination of selected topics.
MAC: MAC Global and Intercultural
Notes: Students cannot receive credit for both ATY 113 and HSS 138.

ATY 153 Introduction to Biological Anthropology 4
Lecture covering human biology from an evolutionary perspective. Topics include evolutionary theory, human variation, nonhuman primates, the fossil record, human osteology, molecular and population genetics.
MAC: MAC CritThink Nat Sci
Corequisites: ATY 153L.

ATY 153L Introduction to Biological Anthropology Laboratory 0
Laboratory supporting ATY 153.
Corequisites: ATY 153.
Notes: No grade is awarded with this course number. Grades are awarded with the lecture course.

ATY 158 Introduction to Archaeology 3
Development of culture from its Paleolithic beginnings through the rise of early civilizations.
MAC: MAC Global and Intercultural

ATY 200X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ATY 208 Lost Tribes and Sunken Lands 3
Using the scientific method and techniques from archaeology, students critically assess the evidence supporting popular myths such as sunken Atlantis, pyramid power, and extraterrestrial encounters.
MAC: MAC CritThink Soc and BehavSci
ATY 212 Introduction to Anthropology 3
Survey of general anthropology. Includes an inquiry into human origins, prehistory, and comparative study of culture.
MAC: MAC CrtThnk Soc and BehavSci

ATY 230 Cultures of Native North America 3
Traditional ways of life of indigenous peoples of North America.
MAC: MAC Global and Intercultural

ATY 231 Race and Human Diversity 3
Critically examines human biological diversity and the notion of "race" from a biocultural perspective and through an historical lens to understand the role that race has played and continues to play within the field of anthropology with a focus on the American experience.
MAC: MAC Diversity and Equity

ATY 235 Cultures of Africa 3
Study of the peoples of Africa emphasizing family, organization, religion, political organization, languages, and urbanism. Includes a study of African novelists.
MAC: MAC Diversity and Equity

ATY 240 Indigenous Towns and Temple Mounds: North American Archaeology 3
Transformation and resiliency in North American indigenous complex cultures are explored using data drawn from art, archaeology, ethnography, and oral histories. Northwest and southwest town cultures are compared/contrasted to the mound cultures of the mid-west/east. Their varied adaptive strategies for dealing with social, political, and climatic upheaval are revealed.
MAC: MAC Diversity and Equity

ATY 253 and ATY 253L.
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ATY 304 Anthropology through Film 3
An exploration, through documentaries, of the cultures, practices, tool technologies, and lifeways of various peoples around the world through the lens of anthropological themes and theory.

ATY 311 Reading Culture and Society 3
Examines key sociocultural issues through classic literary and cinematic works, emphasizing notions of modernity, the contemporary world, and the relationship they entertain; provides foundational reading and critical thinking skills.
CIC: CIC College Writing
Notes: Same as SOC 311.

ATY 312 The Anthropology of Children 3
A cross-cultural and evolutionary approach to the study of childhood from conception to adolescence that incorporates the five field perspective of anthropology.

ATY 315 World Ethnographies 3
Examines the primary genre and practice of cultural anthropology—ethnography—through a range of geographically and thematically diverse texts.

ATY 333 Latin American Societies and Cultures 3
Tribal and peasant groups with special emphasis on their place in contemporary Latin America.

ATY 334 Latin American Art and Archaeology 3
Explores the art, architecture, religious beliefs, technologies, and political organization of the Pre-Columbian societies of Mesoamerica and South America such as the Maya, Moche, Aztec, and Inca.

ATY 341 Paleolithic Archaeology 3
A survey of the archaeology of stone-tool-using peoples from the first Paleolithic cultures to the agricultural revolution.
Prerequisites: Junior or senior standing.

ATY 353 Music, Sound, and Power 3
Introduction to the anthropology of music. Cultural analysis of music and sound in resistance, protest, and government. This course examines relationships between music, sound, and power. We will examine the connections between various types of power (political, resistance, religious, charismatic, etc.) and various types of sound (concert music, protest, chant, propaganda, etc.). The course will serve as an introduction to the anthropology of music. We will focus on multiple case studies and examine the role of music/sound in asserting, maintaining or challenging a variety of beliefs or ideologies. Students will complete a power/music/sound project of their own choosing.

ATY 354 Modern Asia through its Music 3
Introduction to the musical traditions of Asia. Traditions are examined within their religious, philosophical and socio-political contexts allowing comparison of musical activity, concepts and sounds. No musical training required.

ATY 357 Monkeys, Apes, and Humans 3
An overview of primatology—the study of prosimians, monkeys, apes, and humans. Involves in-depth study of selected primates as well as discussion of major theoretical issues and ways in which the study of nonhuman primate behavior helps illuminate human evolutionary history.
CIC: CIC College Writing

ATY 359 Forensic Anthropology 3
Methods of recovery and analysis of human remains in medicolegal contexts, including human and nonhuman skeletal material, decomposition, crime scene recovery, and skeletal signs of age, sex, and trauma.

ATY 360 Methods in Archaeology 3
Analysis and evaluation of methods, theories, and concepts necessary for recovery and interpretation of cultural information about past societies relevant for anthropological goals. Includes issues of historiography, epistemology, and ethics.

ATY 361 Methods in Biological Anthropology 3
Provides students with an understanding of the basic research techniques utilized by physical anthropologists through hands-on experience and an introduction to the literature in the field.
Prerequisites: ATY 253 and ATY 253L.

ATY 362 Methods in Cultural Anthropology 3
This ethnographic methods course is designed to experience firsthand a variety of qualitative and quantitative methods in data collection and analysis traditionally used by cultural anthropologists.
CIC: CIC College Writing

ATY 363 History of Anthropological Theory 3
Developments in history of Western thought and study of culture leading to the emergence of anthropology as a scientific field.
Notes: Not open to freshmen.

ATY 369 Statistics for Anthropology 3
Validity and reliability, variables and constants, independence and dependence, scales, frequency distribution and graphs, variance of central tendency and dispersion, probability, hypothesis testing, difference between means, analysis of variance, comparison of samples, simple regression correlation analysis, and analysis of frequencies.
Prerequisites: Anthropology (ANTH) or Humanities (SPLS) major.
aty 370 historical archaeology 3
this course applies a multidisciplinary approach to explore issues such as transatlantic colonization, plantation life, urbanization, and global consumerism through historical archaeology methods and theories.

aty 377 disaster, self, and society 3
the anatomy of disasters examined from both anthropological and sociological perspectives. case studies are presented through several conceptual lenses for clarifying individual, social, cultural, and political responses to catastrophic events.

cic: cic college writing
prerequisites: 3 s.h. of course work with a prefix of aty or soc or permission of instructor.
notes: same as soc 377.

aty 385 language and culture 3
a survey of verbal and non-verbal behavior cross-culturally. emphasis on the use of language in the speech community, gestures, body language, expressive behavior, verbal art, and language learning.

aty 400 cults and conspiracy theories 3
an anthropological survey of cults, brainwashing, conspiracies, conspiracy theories, and the process of identity construction, initiation, and cultural practice as socio-cultural phenomena.

aty 400x experimental course 1-6
this number reserved for experimental courses. refer to the course schedule for current offerings.

aty 401 witch hunts and legal anthropology 3
a survey and exploration of the way that law produces culture and culture produces law through witch-hunts, european and american witch trials, and significant legal cases in american law.

aty 403 selected topics in anthropology 3
opportunity for advanced students to study in depth topic or issue of special interest.
prerequisites: permission of instructor.
notes: may be repeated for credit when topic varies.

aty 420 economic anthropology 3
an analysis of the economic organization of tribal and peasant peoples with special attention given to their participation in a world economy; emphasis is on economic models of social change.

aty 423 applying archaeology in the real world 3
overview of theory and skills needed to work as an applied archaeologist in the public sector. topics include cultural resource management and public outreach projects.
notes: open to sophomores, juniors, and seniors only.

aty 424 applying anthropology in the real world 3
application of anthropological method and theory in situations of directed sociocultural change.

aty 426 food and culture in a global context 3
examines the linkages among food producers, marketing strategies, and natural resource use in different cultures, and explores the influence of agriculture on society and the environment.

cic: cic college writing

aty 434 archaeology of south america 3
survey of the archaeology of south america from earliest evidence of human habitation up to the arrival of the spanish. emphasis placed on the andean area of western south america.

aty 440 colliding worlds: forming america 3
historical archaeological approach documenting the american experience for immigrant, enslaved, and freed african, chinese, irish, and other workers who crossed the seas, contributing to american culture.

aty 444 archaeology of power/politics 3
this course examines complex political organizations and power relations since the emergence of inequality. archaeological and historical examples will be compared to evaluate competing models of political development.

cic: cic college writing

aty 447 myth, magic, and religion 3
examination of sacred and secular beliefs in cross-cultural perspective. emphasis on symbols, ritual, and their functions.

aty 449 gender archaeology 3
through material culture this course examines gender in prehistoric, classical, and historic societies as an integral aspect of human societies and the social relations in families, communities, and complex polities.

cic: cic college writing
notes: open to sophomores, juniors, and seniors only.

aty 450 environmental anthropology 3
this course examines various theoretical approaches to human adaptation and the environment. various ecological perspectives are used to examine the larger questions of social justice, culture preservation, and resource access.
notes: not open to freshmen or sophomores.

aty 453 human osteology 3
detailed coverage of anatomical structures on bone and methods involving inventory, description, data collection, and analysis of human remains. topics include functional and comparative skeletal anatomy, bone microstructure, and physiology.
prerequisites: aty 253 or bio 105 or bio 111.

aty 453l human osteology lab 0
laboratory supporting aty 453.

corequisites: aty 453.
notes: no grade is awarded with this course number. grades are awarded with the lecture course.

aty 455 human evolution 3
biological and cultural evolution of humans from prehistoric forms.
prerequisites: aty 253 or bio 105 or bio 110.
notes: open to juniors and seniors only.

aty 457 primate behavior 3
an overview of primatology and of methods for studying the behavior of prosimians, monkeys, and apes. involves experience in data collection, computerized data analysis, and producing a scientific report.
prerequisites: aty 357 or aty 361.

aty 459 anthropology of global water, sanitation and hygiene (wash) 3
exploration of the importance of water for human and environmental health. this course draws on critical medical anthropology to situate resource inequity in its political, environmental, and cultural context. we explore anthropological and human geographical contributions to global water, sanitation, and hygiene initiatives.

aty 462 archaeology of the southeastern united states 3
investigation of indigenous cultural development in north america from earliest paleo-indian evidence to the european contact period, with special emphasis on the archaeology of southeastern north america including north carolina.

cic: cic college writing
ATY 465 Medical Anthropology 3
Explores multiple causes of disease and cultural variation in health practices. Topics include culture and political ecologies of disease, ethnomedical systems, and healers in cross-cultural perspectives.
Notes: Not open to freshmen and sophomores.

ATY 469 Anthropology of Infectious Disease 3
Exploration of emergent and re-emergent infectious disease in a global context. This course draws on critical medical anthropology and situates infectious disease in its political, environmental, and cultural context. We explore anthropological contributions to public health and infectious disease prevention.

ATY 475 Research Methods in Historical Archaeology 3
Advanced training in research methods in Historic Archaeology, involving on-site training in field, laboratory, and library components of Historic Archaeology.
Notes: Not open to freshmen and sophomores. Same as HIS 475.

ATY 477 Zooarchaeology 3
The identification and analysis of animal bones in archaeological contexts.
Prerequisites: ATY 258.

ATY 478 Field Methods in Archaeology 3
Methods, techniques, and theories of archaeological field investigation. Includes site survey, mapping, systematic sampling, and controlled excavation.
Prerequisites: Permission of instructor.

ATY 479 Analysis of Archaeological Data 3
Instruction on proper treatment of material recovered through archaeological investigation. Includes classification, statistical manipulation of data, seriation, and analysis of spatial and temporal dimensions. Attention to special analytical techniques (e.g., C14 dating, chemical analysis, faunal analysis) with stress on ecological interpretation.
Prerequisites: Permission of instructor.

ATY 493 Honors Work 3-6
Prerequisite: Permission of instructor; 3.30 GPA in the major; 12 s.h. in the major;
Notes: May be repeated for credit if the topic of study changes.

ATY 495 Contemporary Issues in Anthropology 3
A capstone seminar focusing on current issues in anthropology, how they relate to the discipline, and their significance to anthropology's role in today's world.
Prerequisites: ATY 363 and ATY 360 or ATY 361 or ATY 362. Open to Seniors only.

ATY 497 Special Problems in Anthropology 1-3
Opportunity for students to have directed instruction on problems of special interest.
Prerequisites: Permission of instructor.

ATY 499 Internship in Anthropology 3
Faculty supervised practicum experience in an off campus setting. Host organization will provide the student with applied experience directly relevant to a specific subfield of anthropology.
Prerequisites: Permission of instructor.

ATY 501 Selected Topics in Anthropology 3
Opportunity for advanced students to study in depth topic or issue of special interest.
Prerequisites: Permission of instructor.
Notes: May be repeated for credit when topic varies.

ATY 595 Contemporary Issues in Anthropology 3
A capstone seminar focusing on current issues in anthropology, how they relate to the discipline, and their significance to anthropology's role in today's world.

ATY 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ATY 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

Apparel Product Design (APD)

APD 200 Fundamentals of Apparel Product Development 3
Introduction to fundamentals of apparel product development. Emphasis on identifying, utilizing and developing technical skills in apparel production.
Prerequisites: CARS major.

APD 244 Visual Communication for the Textile Products Industry 3
Survey of industry methods for communicating design concepts and presenting finished products. Emphasis is on use of media and development of techniques for rendering fabrics and textile product designs.
Prerequisites: Minimum grade of C (2.0) in CRS 242.

APD 251 Studio I: Garment Construction 3
An examination and evaluation of ready-to-wear apparel including terminologies, production techniques and price/quality relationships.
Prerequisites: Written permission from the CARS department head.

APD 252 Studio II: Patternmaking and Draping 3
Introduction to the apparel design process. Introduction to basic flat pattern, draping, and fitting principles. Theories and methods in designing apparel for various target markets.
Prerequisites: Minimum grade of C (2.0) in APD 200, APD 251, CRS 211, CRS 242, and one of the following: MAT 115, MAT 118, MAT 120, MAT 150, MAT 151, MAT 190, MAT 191, MAT 292.

APD 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

APD 310 Portfolio Development for Apparel Design 3
Development of a professional design portfolio that will emphasize investigation of specific apparel markets, target customers, seasons and fabrications, and various illustrative techniques.
Prerequisites: Minimum grade of C (2.0) in APD 244 and APD 252.

APD 341 Studio III: Advanced Patternmaking and Draping 3
Development of apparel designs by flat pattern and draping techniques and original design process.
Prerequisites: Minimum grade of C (2.0) in APD 252.

APD 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.
APD 441 Computer Applications for Textile Products 3
Utilization of general graphics programs and CAD systems used extensively in the fashion industry to create digital presentation boards, fashion graphics, woven and print textile designs, and technical specification packages.
Prerequisites: ISM 110, grade of C (2.0) or better in APD 244.

APD 443 Studio IV: Creative and Technical Design 3
Principles and methods of product design with an emphasis on creative and experimental approaches. Development of visual vocabulary and knowledge of trend prediction to generate design ideas. Use of diverse materials and structures for three-dimensional design.
Prerequisites: Minimum grade of C (2.0) in APD 244 and APD 341.

APD 452 Textile Products Production Management 3
Overview of management issues in textile product production including raw material selection and evaluation, computer integration, equipment selection, planning production, costing, and quality control. Several manufacturing systems are analyzed.
Prerequisites: Grade of C (2.0) or better in CRS 231 and CRS 312.

APD 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

Arabic (ARB)
ARB 100X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ARB 101 Beginning Arabic I 3
Introduction to Modern Standard Arabic and the cultures of the Arabic-speaking world. Emphasis on active listening, speaking, writing, and reading, and applied vocabulary.
MAC: MAC Global and Intercultural
Prerequisites: None.
Notes: Students with previous knowledge of Arabic are required to meet with a designated faculty member. Students who are native or heritage speakers of Arabic MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.

ARB 102 Beginning Arabic II 3
Continued study of Modern Standard Arabic and the cultures of the Arabic-speaking world. Emphasis on active listening, speaking, writing, and reading, and applied vocabulary.
MAC: MAC Global and Intercultural
Prerequisites: ARB 101 or equivalent.
Notes: Students with previous knowledge of Arabic are required to meet with a designated faculty member. Students who are native or heritage speakers of Arabic MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.

ARB 200X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ARB 203 Intermediate Arabic I 3
Intermediate-level study of Modern Standard Arabic and the cultures of the Arabic-speaking world. Emphasis on active listening, speaking, writing, and reading, and applied vocabulary.
MAC: MAC Global and Intercultural
Prerequisites: ARB 102 or equivalent.
Notes: Students with previous knowledge of Arabic are required to meet with a designated faculty member. Students who are native or heritage speakers of Arabic MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.

ARB 204 Intermediate Arabic II 3
Continued study of the Modern Standard Arabic and the cultures of the Arabic-speaking world. Emphasis on active listening, speaking, writing, and reading, and applied vocabulary.
MAC: MAC Global and Intercultural
Prerequisites: ARB 203 or equivalent.
Notes: Students with previous knowledge of Arabic are required to meet with a designated faculty member. Students who are native or heritage speakers of Arabic MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.

Archeology (ARC)
ARC 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ARC 381 Study Abroad Experience in Archaeology 3
Students are immersed in a study abroad experience acquiring specific knowledge of local and regional archaeological sites and alternate methods and theoretical approaches to the discipline.
Prerequisites: Permission of Archaeology Program Director.
Notes: May be repeated for up to 9 credit hours (up to three different overseas archaeology courses, but at the 200-300 level equivalency only). ARC subject, SAB transferred credit hours, become ARC 381 credit hours with approval.

ARC 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ARC 493 Honors in Archaeology 3
Opportunity for qualified students to undertake an Honors Project in Archaeology.
Prerequisites: 3.30 GPA. 12 s.h. in the major, permission of instructor;
Notes: May be repeated for credit when topic varies, for up to 6 hours of credit.

ARC 498 Special Archaeological Research 1-3
Opportunity for Archaeology students to have directed instruction on problems of special archaeological interest.
Prerequisites: Permission of Archaeology Program Director.
Notes: May be repeated for credit when topic varies, for up to 3 hours of credit.
ARC 499 Internship in Archaeology 1-3
Opportunity for off-campus, high-impact experience in the community, such as in a museum setting, a cultural management firm, a heritage preservation program, a government agency, or a related non-profit.
Prerequisites: Permission of Archaeology Program Director.
Notes: May be repeated for credit when host/venue varies, for up to 9 hours of credit.

Art (ART)

ART 100 Introduction to Art 3
Intensive study of selected works of art with an emphasis on formal analysis and the relationship between art and culture.
MAC: MAC CritThink Hum and Fine Art
Notes: ART majors may not take this course for credit.

ART 105 Foundations Seminar 3
Becoming a successful student and great artist requires so much more than raw talent. This course connects the dots between creative, productive habits, scholarly pursuits, and professional planning.
MAC: MAC Foundations
Prerequisites: B.A. ART major with a concentration in Studio Art. or permission of instructor.

ART 120 Fundamentals of Drawing 3
Basic course in the practice and principles of drawing. Emphasis on working from observation with a wide variety of media and genres explored.

ART 121 Life Drawing I 3
Figure drawing from the model.
Prerequisites: ART 120.

ART 122 Life Drawing II 3
Figure drawing from the model.
Prerequisites: ART 122.

ART 123 Introduction to Visual Art Practices 3
This studio course introduces non-majors to traditional and contemporary visual art practices and relates these practices to broader cultural contexts external to visual art.

ART 140 Foundation Design I 3
Basic course in fundamentals of design. Work in two and three dimensions.

ART 141 Foundation Design II 3
Basic course in the practice and principles of design. Emphasis on conceptual development.
Prerequisites: ART 120.

ART 220 Intermediate Drawing 3
A continuation of the practices and principles of ART 120, with a greater emphasis on conceptual development.
Prerequisites: ART 120.

ART 221 Life Drawing I 3
Figure drawing from the model.
Prerequisites: ART 220.

ART 222 The Artist's Sketchbook 3
An intermediate level investigation into the methodology of keeping an artist's sketchbook through practice, investigation of contemporary and historical examples, collaborative work, and on-site drawing.
Prerequisites: ART 120.

ART 223 Variable Topics in Drawing 3
Practice and study of traditional and contemporary methods of drawing in a variety of media and genres.
Prerequisites: ART 221.
Notes: May be repeated once for a total of 6 semester hours.

ART 224 Screen Printing and Monoprint 3
Studio course emphasizing stencil based printing techniques merging hand made and photographic imagery.
Prerequisites: ART 220 and ART 240.

ART 225 Three-Dimensional Foundations II 3
Working from observation, students will increase their perceptual ability and skills through studio assignments. Emphasis on the comprehension of forms and structures in space.
Prerequisites: ART 150.

ART 226 Printmaking I 3
Introduction to Printmaking methods and concepts emphasizing multiple intaglio and relief techniques.
Prerequisites: ART 220 and ART 240.

ART 228 Digital Photography I 3
This course serves as an introduction to digital photography. The course will offer students an overview of analog photography focused on: Manual camera operations, black-and-white film development and darkroom printing. Equipment and basic techniques of photography. Students must purchase film and papers. 35 MM camera required.
Prerequisites: ART 140, or permission of instructor.

ART 229 Digital Photography II 3
This course serves as an introduction to black and white analog photography. The course will offer students an overview of analog photography focused on: Manual camera operations, black-and-white film development and darkroom printing. Equipment and basic techniques of photography. Students must purchase film and papers. 35 MM camera required.
Prerequisites: ART 140, or permission of instructor.

ART 230 Digital Photography III 3
This course serves as an introduction to digital photography. The course will offer students an overview of digital photography focused on: Manual camera operations, digital workflow, and basic digital manipulations.
Prerequisites: ART 140.

ART 231 Life Drawing II 3
Continuation of ART 221.
Prerequisites: ART 221.
Notes: May be repeated once for credit.

ART 232 Variable Topics in Drawing 3
Practice and study of traditional and contemporary methods of drawing in a variety of media and genres.
Prerequisites: ART 221.
Notes: May be repeated once for a total of 6 semester hours.

ART 233 The Arts as Human Experience 3
An examination of the meaning of the arts experience, including its historical and personal significance. Includes reading and related work in art, dance, drama, and music.
Notes: Same as VPA 323, DCE 323.

ART 234 Screen Printing and Monoprint 3
Studio course emphasizing stencil based printing techniques merging hand made and photographic imagery.
Prerequisites: ART 220 and ART 240.

ART 235 Printmaking II 3
Intermediate undergraduate studio course with emphasis on individual printmaking development.
Prerequisites: ART 234.
ART 329 Lithography 3
Planographic techniques as a printmaking medium.
Prerequisites: ART 220 and ART 240.
Notes: May be repeated once for credit.

ART 335 Painting II 3
Studio course with substantial work from the model. Emphasis on development of control of the medium for pictorial purposes.
Prerequisites: ART 232.

ART 337 Painting III 3
Studio course with work from the model and other subject matter; emphasis on control of pictorial elements and individual development.
Prerequisites: ART 335.

ART 340 Concepts in Time-based Media 3
Intermediate-level study of design fundamentals in time-based applications, with emphasis on cross application work and content.
Prerequisites: ART 140. ART 240 or ART 241.

ART 341 Letters, Signs, and Symbols 3
Letter forms, signs, and symbols as configurations for design study.
Prerequisites: ART 140 and ART 240 or ART 241.

ART 344 Digital Darkroom 3
Studio based study of photo-based imagery and digital imaging. In-depth study of Photoshop and complementary photo-based software.
Prerequisites: ART 140. ART 240 or ART 241; or permission of instructor.

ART 345 Introduction to Web Design 3
An introduction to the design on interfaces for the Web using HTML and CSS. The course also addresses the issues of fluid design in interactive media.
Prerequisites: ART 240 or ART 241.

ART 347 Color Theory 3
Major color theories and systems. Projects using properties of color in pigments, transparencies, and projected light.
Prerequisites: ART 140.

ART 349 Expanded Print Media 3
An inter-media course exploring traditional and digital print media in relation to studio process, multiplicity, dissemination, social architectures, and public engagement.
Prerequisites: ART 328. Studio Art major.

ART 353 Metal Casting 3
Basic course in casting metal as a sculpture medium. Theory and practice of mold-making and foundry processes.
Prerequisites: ART 253 or permission of instructor.
Notes: May be repeated for credit.

ART 354 Metal Sculpture 3
Studio course in non-cast metal sculpture techniques and concepts. Basic welding and fabrication of metal as a sculpture medium.
Prerequisites: ART 253.

ART 355 Sculpture I 3
Sculpture as a plastic idiom in creating forms in space. Emphasis on the development of individual expression.
Prerequisites: ART 253.

ART 356 Sculpture II 3
Advanced undergraduate work with emphasis on individual sculpture development.
Prerequisites: ART 355.

ART 357 Design Methods for the Crafts 3
Sources of and approaches to crafts design with materials such as wood, fiber, metal, and paper. Exploration of sources of design in natural and man-made worlds. Recommended for Art Education majors.
Prerequisites: ART 100 and ART 140; or permission of instructor.

ART 381 Ceramics II 3
Wheelthrown forms; glazing and decorating techniques.
Prerequisites: ART 281 or permission of instructor.

ART 382 Ceramic Glaze Techniques 3
Glaze formulae; mixing and testing of glazes, glaze application, the care and operation of equipment.
Prerequisites: ART 281.

ART 384 Photojournalism and Documentary Photography 3
Course examines photojournalism and the documentary tradition. Students will explore a local story idea while learning new technical and visual skills essential to creating a cohesive visual narrative.
Prerequisites: ART 285 or permission of instructor.
Notes: May be repeated once for credit when the topic varies.

ART 385 Photography II 3
This course further explores the technical and creative process of black-and-white and color photography through technical and creative instruction in both analog and digital photography.
Prerequisites: ART 285 and ART 286, or permission of instructor.

ART 386 Studio Lighting for Photography 3
Advanced photographic study of studio lighting practices and techniques, both traditional and exploratory.
Prerequisites: ART 285, ART 385.

ART 387 Alternative Photographic Processes 3
Explores historical and alternative photographic processes, both digital and non-silver.
Prerequisites: ART 285.

ART 388 Photographic Interaction 3
Course expands the boundaries of image-making in still life, nature and human relationships. Includes advanced techniques in printing and sequencing images, including digital technology.
Prerequisites: ART 285 or permission of instructor.

ART 392 Typographic Practice 3
This introductory studio functions as a survey of typographic practice across media platforms. Students relate typographic form to reading conventions, expression, visual communication, and reproduction technologies.
Prerequisites: ART 341.

ART 393 Practicum/Internship in Art Careers 1-3
Practical experience for art majors for developing career goals and skills.
Prerequisites: Prior written approval of supervising instructor and department head, with written agreement of expectations from sponsor.

ART 394 Advanced Studio Practicum: Art and Entrepreneurship 3
Development and operation of student-run art studio offering services ranging from graphic design and photography to painting and sculpture. Emphasis on developing professional and entrepreneurial skills.
Prerequisites: Junior or senior standing.
Notes: Grade: Pass/Not Pass (P/NP). May be repeated once; Same as ENT 394.

ART 395 Storyboarding for Animation 3
An introduction to the visual storytelling and storyboarding techniques of animation, including story development and compositional strategies.
Prerequisites: ART 221.
ART 396 Character Design Workshop 1
This three-day, 15 hour workshop provides extensive studio experience in the development of character designs for animation. Students will develop and present several preliminary designs before executing a final design.
Prerequisites: ART 221.
Notes: Grade: Pass/Not Pass (P/NP).

ART 397 Digital Publications: The Coraddi 3
Working as a team, students develop and publish the Coraddi, a nationally recognized on-line arts and literature publication that has been the voice of UNCG students for 125 years.
Prerequisites: Art 240 and permission of instructor.

ART 398 Introduction to Digital Modeling 3
Introduction to basic concepts and techniques of three-dimensional modeling within a digital environment.
Prerequisites: ART 240.

ART 399 Introduction to 3D Animation 3
Introduction to basic concepts and techniques of three-dimensional animation within a digital environment.
Prerequisites: ART 398.

ART 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ART 420 Advanced Drawing 3
An advanced investigation of drawing through practice, conceptual development, in-class critique, and independent research into contemporary and historical drawing.
Prerequisites: ART 220, ART 221, ART 322.

ART 427 Printmaking and Drawing Capstone 3
Students make a body of self-directed work in preparation for the Senior BFA Exhibition. This includes preparation, documentation and installation of artwork.
Prerequisites: ART 322 or ART 328.

ART 428 Etching II 3
Continued development of etching techniques introduced in Etching I. Emphasis placed on supervised independent work consistent with students’ personal artistic goals.
Prerequisites: ART 328.

ART 429 Lithography II 3
Continuation of ART 329 with additional emphasis on multi-color imagery and the integration of advanced lithographic processes in students’ assignments.
Prerequisites: ART 120 or ART 140, and ART 329.

ART 441 Books and Images 3
Advanced studio investigation into digital publishing with an emphasis on print-based and electronic publication forms. Primary focus on unique and challenging artist’s books and image-intensive works.
Prerequisites: ART 341.

ART 442 Image Sequencing/Sequential Images 3
Advanced studio-based exploration of digital video, sound, and animation through a range of digital software. Study of nonlinear editing, narrative, and experimental approaches to motion graphics and video.
Prerequisites: ART 340.

ART 443 Interactive Web Design 3
Development of Web graphics and interactive Web-based environments that demonstrate an understanding of navigation, usability, and functionality within a creative framework.
Prerequisites: ART 345, or permission of instructor.

ART 444 Advanced Digital Modeling 3
Advanced work in 3D modeling including digital sculpting, rigging and texturing/painting.
Prerequisites: ART 398.

ART 446 Graphic Design 3
An advanced investigation into graphic design; typography, branding, and information architecture. Advanced execution of print, Web-based, and motion graphics.
Prerequisites: ART 392.

ART 447 New Media and/or Design Capstone 3
Through independent and student-directed studio work and discipline-based writing and speaking intensive projects, students will engage in analytical discourse related to professional practice as a new media artist and designer in preparation to exhibit, present, and promote their work.
Prerequisites: ART major, New Media and Design concentration. ART 441 or ART 442 or ART 445 or ART 446 or ART 443.

ART 448 Variable Topics in New Media and Design 3
An advanced level New Media and Design course with a topical focus. Please check departmental listing for current description.
Prerequisites: Permission of instructor.
Notes: May be repeated for credit when topic varies.

ART 457 Site-Specific Sculpture 3
Provides opportunity to make site-specific sculptures; process of making work in the public arena from initial conception, interaction with jury committee to completed sculpture.
Prerequisites: ART 355 or permission of instructor.

ART 459 Sculpture and/or Ceramics Studio Capstone 3
Independent studio course with Speaking Intensive component. Students make a body of self-directed work in preparation for the Senior BFA Exhibition. This includes preparation, installation, documentation, and presentation of sculptures.
Prerequisites: ART 355, ART 356, and ART 481.
Notes: May be repeated once for credit with permission of instructor.

ART 481 Ceramics III 3
Advanced course in ceramics with emphasis on the entire ceramic process: preparation of clay body and glazes, forming, bisque and glaze firing.
Prerequisites: ART 281 and ART 381.
Notes: May be repeated three times for a total of 12 semester hours.

ART 482 Capstone Painting Studio and Practice Seminar 3
Through independent studio, discipline-based writing, and speaking projects, students will engage in analytical discourse related to museum exhibitions and lectures and in preparation to exhibit, present, and document their artwork.
Prerequisites: ART 321, ART 322, and ART 337.

ART 485 Photography Professional Practices Studio Capstone 3
Emphasis upon the application of advanced tools and techniques, where independent research and creative studio practice is required.
Prerequisites: ART 285, ART 286 and two photography courses at the 300 level.
ART 487 Variable Topics in Photography 3
This advanced photographic studio course will focus on variable topics in photography.
Prerequisites: ART 385.
Notes: May be repeated once for credit when topic changes, for a total of 6 s.h.
ART 493 Honors Work 3-6
Honors Work.
Prerequisites: Permission of instructor. 3.30 GPA in the major, 12 s.h. in the major;
Notes: May be repeated for credit if the topic of study changes.
ART 496 Special Problems, Studio 3
Independent studio work adjusted to needs and interests of individual student.
Prerequisites: Prior approval of supervising instructor required.
ART 557 Site-Specific Sculpture 3
Provides opportunity to make site-specific sculptures; process of making work in the public arena from initial conception, interaction with jury committee to completed sculpture.
ART 592 Professional Practices, Aesthetics, and Preparation for the Visual Artist 3
Emerging artists participate in their community and acquire the skills of career professionals. Students will engage in critical dialog related to gallery lectures, exhibitions, and symposia, and prepare to exhibit, present, and document their studio work.
ART 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.
ART 610 Graduate Studio Seminar 3
Advanced work in visual art combining studio practice, seminar discussions of contemporary art texts and group critiques.
Prerequisites: Admitted to MFA in studio arts.
ART 615 Graduate Studio and Colloquium 6
This course emphasizes individual artistic practice and the student-initiated creation of a relevant and critical public discourse centered on that practice.
ART 622 Drawing Marathon 3
Four two-day sessions of intensive drawing from figure, interior, still life, and imagination using a variety of materials. Emphasis on longer periods of uninterrupted drawing.
Prerequisites: Admitted to MFA in studio arts or permission of instructor.
Notes: May be repeated for credit when topic varies.
ART 627 Lithography 3
Aesthetic and technical exploration of planographic methods in lithography.
Prerequisites: Admitted to MFA in studio arts or permission of instructor.
Notes: May be repeated for credit when topic varies.
ART 629 Studio Problems in Drawing, Painting, or Printmaking 3
Independent work in drawing, painting, or printmaking.
Prerequisites: Admission to candidacy and permission of instructor.
Notes: May be repeated for credit.
ART 635 Painting 6
Advanced practice and theory of painting with an inclusive interpretation of painting.
Prerequisites: Admitted to MFA in studio arts or permission of instructor.
Notes: May be repeated for credit.
ART 641 New and Expanded Media 6
Special studio topics in design ranging from digital photography to systems based art.
Notes: May be repeated for credit when topic varies.
ART 649 Studio Problems in New Media 3
Independent work in digital media or photography.
Prerequisites: Admission to candidacy and permission of instructor.
Notes: May be repeated for credit.
ART 657 Sculpture 6
Advanced work in sculpture.
Prerequisites: 6 semester hours undergraduate sculpture or a working knowledge of basic sculpture techniques and permission of instructor.
Notes: May be repeated for credit when topic varies.
ART 659 Studio Problems in Sculpture 3
Independent work in sculpture.
Prerequisites: Admission to candidacy and permission of instructor.
Notes: May be repeated for credit.
ART 682 Ceramics 6
Advanced work in ceramics.
Prerequisites: 6 semester hours of undergraduate ceramics or a working knowledge of basic ceramic techniques and permission of instructor.
Notes: May be repeated for credit when topic varies.
ART 685 Photography 6
Advanced work in photography.
Prerequisites: 6 studio hours in undergraduate photography or a working knowledge of photographic techniques or permission of instructor.
Notes: May be repeated for credit when topic varies.
ART 699 Thesis 1-6
Prerequisite: Third or fourth semester MFA candidate.
ART 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.
ART 801 Thesis Extension 1-3
Thesis Extension.

Art Education (ARE)

ARE 260 Art, Education, and Social Practice 3
This course is concerned with art’s role(s) in community and explores the intersections between three major themes: contemporary art, educational theory and practice, and social and community engagement.
ARE 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.
ARE 361 Foundations of Art Education 3
Art media and curriculum foundation for Art Education K-12. Field placement practicum in schools or other appropriate settings.
Prerequisites: ARE 260.
ARE 363 Art Curriculum and Teaching Methods in the Elementary School 3
Aims, philosophy, and curricula of art education in the elementary school; selection, preparation, and use of teaching materials.
Prerequisites: ARE 260. Art Education major.
ARE 364 Practicum Service-Learning 3
Students participate in art education service learning project(s) in school or community based setting(s) under faculty supervision.
Prerequisites: Art Education major or permission of instructor.
ARE 365 Art Curriculum and Teaching Methods in the Secondary School 3
Aims, philosophy, and curricula of art education in the secondary school; selection, preparation, and use of teaching materials.
Prerequisites: ARE 260. Art Education major.

ARE 367 Child Art and Teaching 3
An introduction to the theoretical and philosophical foundations for Art Education (birth to middle school), including hands-on experience with school art media.
Prerequisites: Junior standing.
Notes: Not open to Art Education majors.

ARE 368 Research in Contemporary Issues in Art Education 3
Critical inquiry and analysis of topics and issues in contemporary art education and discussion of trends and educational policy fundamental to a foundation for research, theory development, and leadership.
Prerequisites: ARE 260. Art Education major.

ARE 369 Internship: Leadership in Art Education 1-3
Internship with emphasis on meeting children’s needs, while developing self, civic literacy, and leadership skills.
Prerequisites: B.F.A. ART major with Art Education concentration. Permission of faculty coordinator based on internship proposal;
Notes: Grade: Pass/Not Pass (P/NP).

ARE 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ARE 465 Student Teaching 12
Supervised student teaching at the elementary or the secondary school level.
Prerequisites: ARE 361, ARE 363, ARE 365, and ARE 368.
Notes: For Art Education majors only. Permission of Art Education Program Coordinator required.

ARE 468 Teaching Practice and Curriculum in Art 3
Curriculum development for K–12 art teaching, professional theory, development, standards and guides for effective teaching, and observations of student’s classroom practice.
Prerequisites: Admission to the Standard Professional I licensure program for Art K–12 and/or permission of the instructor.
Notes: Enrollment restricted to Standard Professional I teaching licensure students.

**Art History (ARH)**

ARH 110 Survey of Global Art Histories 1: Ancient to 15th century 3
Chronological survey of significant works representing visual traditions of Global art from the Paleolithic era to the 15th century.
MAC: MAC Global and Intercultural

ARH 111 Survey of Global Art Histories 2: 15th century to the Present 3
Chronological overview of primary traditions and trends in the history of Global art, fifteenth century to the twenty-first. Works of major artists in traditional and new media are included.
MAC: MAC Diversity and Equity

ARH 112 Survey of Global Art 3
A survey of the visual arts in India, China, Japan, Mesoamerica, Africa, and/or the South Pacific.
MAC: MAC Diversity and Equity

ARH 210 The Art of Disney and Pixar 3
Chronological survey of the preproduction and production art of the Disney and Pixar studios with an introduction to the history of the animated film and cartoon.

ARH 211 Art and the African-American Presence 3
The thematic study of key works by artists of African heritage and from the Western canon that reflect and construct race as a crucial dimension of American culture.

ARH 214 History of Ceramics: Critical Perspectives 3
A thematic exploration of the ceramic medium. Three foci are used as case studies demonstrating how art history can approach gender, globalization, and the debate surrounding art and craft.

ARH 219 Sophomore Seminar in Art History 3
Topic-based seminar in art history. Students acquire knowledge of current research methodology on the selected topic, undertake related independent research, and present findings in oral and written forms.
Prerequisites: ART major with Art History concentration. ARH 110, ARH 111, and ARH 112.

ARH 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ARH 302 Roman Art 3
Chronological survey of the art of ancient Italy and the Roman Empire from ca. 1000 BC to the death of Constantine in AD 337.
Prerequisites: ART 100 or ARH 110 or permission of instructor.

ARH 310 Early Medieval and Byzantine Art 3
Art and architecture of Early Medieval Europe and the Byzantine East from ca. 300 to ca. 800.
Prerequisites: ART 100 or ARH 110 or permission of instructor.

ARH 311 Medieval and Romanesque Art 3
Art and architecture of Western Europe from ca. 800 to ca. 1160.
Prerequisites: ART 100 or ARH 110 or permission of instructor.

ARH 312 Gothic Art 3
Art in Europe from ca. 1160 to ca. 1400: architecture, sculpture, manuscript illumination, and mural painting.
Prerequisites: ART 100 or ARH 110 or permission of instructor.

ARH 321 Early Italian Renaissance Art, 1300-1480 3
Italian art from 1300-1480 with particular focus on painting and sculpture in Florence.
Prerequisites: ART 100 or ARH 111 or ARH 395 or permission of instructor.

ARH 322 Art of the Italian High Renaissance and Maniera, 1480-1600 3
Italian art from 1480 to 1600 with a particular focus on painting and sculpture from Rome, Venice, and Florence.
Prerequisites: ART 100 or ARH 111 or ARH 321 or ARH 395 or permission of instructor.

ARH 340 European Art in the Eighteenth Century 3
A survey of European art media, practice, theory, and issues surrounding patronage during the century.
Prerequisites: ART 100 or ARH 111 or ARH 321 or ARH 395 or permission of instructor.

ARH 345 European Art in the Nineteenth Century 3
Painting, sculpture, and architecture from 1800 to 1900.
Prerequisites: ART 100 or ARH 111 or permission of instructor.

ARH 346 Art in the Global 19th Century 3
Study of artistic practices across geographies in the nineteenth century as interwoven global phenomenon, with particular attention to changing social structures, technological developments, and imperialist power systems.
Prerequisites: ARH 111.
ARH 347 American Art 3
Historical development of art in the United States including the colonial period. Painting and architecture emphasized.
Prerequisites: ART 100 or ARH 111 or permission of instructor.

ARH 348 Native Arts of North America 3
Study of Indigenous art practices across North America both past and present with attention to issues of settler colonialism, cross-cultural contact / exchange, sovereignty, and resistance.
Prerequisites: ARH 111.

ARH 349 Art and Politics of the United States 3
An interdisciplinary seminar combining analysis of the relationship between contemporary art and politics with community engagement via public-facing projects and discussions.
Prerequisites: ARH 110, ARH 111, ARH 353.
Notes: Same as PSC 307.

ARH 350 History of Photography 3
A lecture course in the exploration of the photographic image, how it was produced, how it has evolved, and the work of the photographers who make it an art.
Prerequisites: ART 100 or ARH 111 or permission of instructor.

ARH 351 Architecture in the Twentieth Century 3
The components of style, theory, structure, and material as embodied in the architecture of the century.
Prerequisites: ART 100 or ARH 111 or ARH 200 or permission of instructor.

ARH 352 Early Twentieth-Century Art 3
Painting, sculpture, architecture, and other media from 1900 to World War II.
Prerequisites: ART 100 or ARH 111 or permission of instructor.

ARH 353 Late Twentieth-Century Art 3
Traditional and new media in the last half of the century.
Prerequisites: ART 100 or ARH 111 or permission of instructor.

ARH 354 Art Since 2000 3
A global survey of traditional and new media art practices from the year 2000 to the present.
Prerequisites: ART 100 or ARH 111 or permission of instructor.

ARH 358 History of Performance, Interdisciplinary, and Social Practice Art 3
Global study of the histories of art based in performance, embodied installation, participation, social practice, and art between or across these mediums since the late 1950s.
Prerequisites: ARH 111.

ARH 359 Art and/as Social Justice 3
Traces how artists and artworks have directly and indirectly participated in social initiatives or movements for equity, inclusion, and justice. Era, mediums, and geographic scope variable.
Prerequisites: ARH 110 and ARH 111.

ARH 360 Women Artists of Disney and Pixar Animation 3
Study of the artistic production of women artists of the Walt Disney and Pixar Animation Studios.
Prerequisites: ARH 210 or permission of the instructor.

ARH 361 Art and Collaboration at Pixar 3
In-depth study of the collaborative process of Pixar Animation Studios, its dynamics, and the artwork produced within this process for the purposes of creating a feature-length film.
Prerequisites: ARH 210 or permission of the instructor.

ARH 370 African Art: Ancient Empires to Colonial Contact 3
Survey of the visual arts of Africa prior to and during colonialism. Divided into regional units stressing the religious and social functions of art and the dynamism of cultural change.
Prerequisites: ART 100 or ARH 112 or permission of instructor.

ARH 371 The TransAtlantic: Cross-Cultural Representations 3
Beginning with the colonization of the Americas, a chronological and topical analysis of art from Africa, the Americas, and Europe. Major themes: history of slavery, African diasporic religions, African tourism.
Prerequisites: ARH 112 or ARH 347 or ARH 352 or ARH 353 or ARH 370 or ADS 200 or HIS 204 or HIS 301 or permission of instructor.

ARH 372 African Art: Modern and Contemporary 3
Survey of the visual arts of Africa in the modern and contemporary periods. Course is divided into chronological units beginning with the multiple modernisms that emerged during the twentieth century and moving into the contemporary period.
Prerequisites: ART 100 or ARH 112 or ADS 200 or permission of instructor.

ARH 380 Introduction to Art Museum Studies 3
Introduces the functions of key art museum departments (Administration, Curatorial, Registration, Preparation/Installation, Education, Marketing, and Visitor Services/Security) and examines how they intersect to develop exhibitions, engage visitors, and build audiences.
Prerequisites: AAD 202 or ENT 202.
Notes: Same as AAD 380.

ARH 381 Intro to Art Museum Collections 3
For students interested in working in art museums. Topics include collection care, development, and utilization as well as museum organizational structures. Assignments include readings, discussions, lectures, and field trips.
Prerequisites: AAD 380/ARH 380.
Notes: Same as ARH 381.

ARH 390 Variable Topics in Art History 3
Variable topics in the history of art and its institutions.
Prerequisites: ART 110 or ARH 111 or ARH 112 or permission of instructor.
Notes: Students may repeat this course for credit for up to 6 credit hours, upon permission of instructor when topic varies.

ARH 395 Florence and the Medici 3
On-site study of art and architecture commissioned by the Medici between 1400 and 1621. Offered only during The Art of Italy program.
Prerequisites: Acceptance to The Art of Italy program. ART 100 or ARH 111 or permission of instructor.

ARH 400 Special Problems: Independent Study in Art History and Criticism 3
Directed program of reading and research.
Prerequisites: 15 s.h. of art history and criticism and approval of instructor.

ARH 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ARH 401 Special Problems: Internship in Museum Studies 3
Directed program of reading, research, or curatorial projects in the Weatherspoon Art Museum and other museums.
Prerequisites: 15 s.h. art history/criticism and approval of instructor.
Notes: May be repeated once for credit when topic varies.
ARH 405 Research Topics in Art
Topic-based seminar in art history and/or curatorial practices. Students acquire knowledge of current research on the selected topic, undertake related independent research, present findings in oral and written forms.
**Prerequisites:** 12 s.h. of art history above the 100 level including ARH 219, or permission of instructor.

ARH 411 Topics in the History of Art 3
Special topics in the history of art, ancient to contemporary.
**Prerequisites:** Completion of 15 or more undergraduate hours in Art History or graduate status in the Art Department or written permission of the instructor.

ARH 412 Historiography and Methodology 3
Case studies in the development of art history as a discipline and applied practice of methodologies developed for art-historical analysis.
**Prerequisites:** Graduate status in the Art Department, completion of 15 or more undergraduate hours in art history, or written permission of the instructor.

ARH 413 Perspectives in Contemporary Art 3
Seminar on artists whose work or writings have raised critical questions relevant to recent art. Open to MFA students and qualified undergraduates.
**Prerequisites:** Completion of 15 or more undergraduate hours in art history, graduate status in the Art Department, or written permission of the instructor.

ARH 414 Salon to Biennale and Beyond 3
A seminar on the development and transformation of art worlds and urban spaces with a specific focus on the development of Salons, Biennales, World’s Fairs, and Art Fairs.
**Prerequisites:** Completion of 15 or more undergraduate hours in art history, graduate status in the Art Department, or written permission of the instructor.

ARH 455 Contemporary Art of the Americas 3
Regional, national, and transnational currents of art of the Americas (including the Caribbean and colonial holdings and territories) since the late 1960s. Interactive lecture.
**Prerequisites:** ARH 110, ARH 111, and ARH 353.

ARH 490 Art Museums and Exhibition Spaces 3
A study of the diverse operations and institutional missions of art museums, including management, governance, development, collections management, education, and curatorial activities.
**Prerequisites:** Junior standing and permission of instructor.

ARH 493 Honors Work 3-6
Honors Work.
**Prerequisites:** Permission of instructor. 3.30 GPA in the major, 12 s.h. in the major.
**Notes:** May be repeated for credit if the topic of study changes.

ARH 500 Traditions of Art Criticism 3
A study of the major critical traditions from the Italian Renaissance to the present, aiming to define the role of criticism in the production and reception of works of art.
**Prerequisites:** Completion of 15 or more undergraduate hours in Art History or graduate status in the Art Department or written permission of the instructor.

ARH 501 Topics in the History of Art 3
Special topics in the history of art, ancient to contemporary.

ARH 503 Perspectives in Contemporary Art 3
Seminar on artists whose work or writings have raised critical questions relevant to recent art. Open to M.F.A. students.
**Prerequisites:** Completion of 15 or more undergraduate credits in art history, graduate status in the Art Department, or written permission of the instructor.

ARH 504 Salon to Biennale and Beyond 3
A seminar on the development and transformation of art worlds and urban spaces with a specific focus on the development of Salons, Biennales, World’s Fairs, and Art Fairs.
**Prerequisites:** Completion of 15 or more undergraduate hours in art history, graduate status in the Art Department, or written permission of the instructor.

ARH 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ARH 601 Public Art 3
Study of traditional monuments, such as the pyramids, Michelangelo’s David, and recent large-scale works, including the Vietnam Memorial, with attention to questions of site, scale, purpose, and audience.

ARH 619 Research Problems in Art History, Art Criticism 3
Independent research in art history or criticism. May be repeated for credit.

ARH 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

**Arts Administration (AAD)**

AAD 202 Arts Admin and Entrepreneurship 3
Introduces foundational skills for successful management, launching and growth of arts organizations. Topics include strategy, organizational structure, new venture launch, entrepreneurship, market analysis, marketing, fundraising and audience engagement.
**Notes:** Same as ENT 202.

AAD 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

AAD 301 Arts Management 3
Introduction to arts management for nonprofit arts organizations. Topics include arts programming, program evaluation, marketing, fundraising, and nonprofit structures in the arts. Students develop their communication and professional skills.
**Prerequisites:** AAD 202/ENT 202.

AAD 310 Managing and Leading in the Arts 3
Students will learn about their own work style and best practices of leading and managing people and teams in the specific context of arts and creative organizations.
**Prerequisites:** AAD/ENT 202 Arts Administration or permission of instructor.

AAD 320 Arts Marketing 3
Marketing, sales and public relations strategy, planning and tactics for arts organizations and businesses.
**Prerequisites:** AAD 202/ENT 202 or permission of instructor.

AAD 321 Fundraising in the Arts 3
Fundraising strategy, planning and tactics for arts organizations including grant research and writing, solicitation and donor retention tactics.
**Prerequisites:** AAD 202/ENT 202 or permission of instructor.
AAD 360 Introduction to Community Arts 3
This course introduces students to the history and theory of community arts, frameworks for building collaborative relationships and shared leadership in community, and current community arts projects around the world.
Prerequisites: Sophomore standing or above.

AAD 376 Micro-Enterprise for Creatives 3
Introduces foundational skills for micro-enterprise in the arts and creative industries aimed towards, but not exclusive to, visual artists, designers, and creative makers. Topics include venture analysis, business modeling, prototyping, financial/legal/structures, and market testing.
Notes: Same as ENT 376.

AAD 380 Introduction to Art Museum Studies 3
Introduces the functions of key art museum departments (Administration, Curatorial, Registration, Preparation/Installation, Education, Marketing, and Visitor Services/Security) and examines how they intersect to develop exhibitions, engage visitors, and build audiences.
Prerequisites: AAD 202 or ENT 202.
Notes: Same as ARH 380.

AAD 381 Intro to Art Museum Collections 3
For students interested in working in art museums. Topics include collection care, development, and utilization as well as museum organizational structures. Assignments include readings, discussions, lectures, and field trips.
Prerequisites: AAD 380/ARH 380.
Notes: AAD 381 same as ARH 381.

AAD 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

AAD 450 Careers in Arts Administration 3
Exploration of career paths and career planning for students entering the arts administration field. Students will practice speaking skills and other communication skills.
Prerequisites: AAD 202/ENT 202 and AAD 301. Arts Administration majors or minors only or permission of instructor.

AAD 455 Arts and Entrepreneurship: Career Strategies for Artists 3
Overview of professional performing arts career management tools. Students learn the basics of applying entrepreneurship skills and strategies to starting and sustaining an arts-related business.
Prerequisites: ARAD, DAN C, DRAM, MED U, MUSI, or PRF M major or permission of instructor.
Notes: Same as DCE 455, ENT 455.

AAD 475 Independent Study 1-3
Independent directed study or research in arts administration with faculty supervision in area of special interest.
Prerequisites: AAD 202/ENT 202 and AAD 301. Arts Administration major or minor AND permission of instructor.

AAD 478 Variable Topics in Arts Administration 1-3
Advanced level arts administration course with a topical focus.
Prerequisites: AAD 202/ENT 202.
Notes: May be repeated for up to 12 credits total.

AAD 489 Developing and Managing Educational Programs for Arts Organizations 3
Using a case study approach, students will learn about how education departments at arts organizations operate in the 21st century from both theoretical and practical perspectives.
Prerequisites: Must be majoring in a CVPA degree track or a School of Education degree track. Junior standing or above;
Notes: Same as THR 489.

AAD 493 Honors Work 3-6
Independent study course as required for Disciplinary Honors in Arts Administration. Student will complete Senior Honors Project.
Prerequisites: AAD 202/ENT 202 and AAD 301. Junior or senior Arts Administration major; Permission of instructor; Permission of Honors College; 3.30 GPA in the major; 12 s.h. completed in the major;
Notes: May be repeated for up to 6 credit hours.

AAD 498 Internship in Arts Administration and Entrepreneurship 3
Supervised work experience pre-approved that requires regularly scheduled hours in an entrepreneurial arts organization. The course meets online throughout the semester and requires reading, writing, and oral communication assignments.
Prerequisites: AAD 301 and AAD 202/ENT 202. Permission of instructor;
Notes: Same as ENT 498.

AAD 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

Astronomy (AST)
AST 233 Astronomy: The Solar System 3
Introductory study of the Sun and planets with special attention to results of recent planetary exploration missions. Telescopic and naked-eye observations of the planets and constellations included. Complements AST 235, although each course is independent of the other.
MAC: MAC CritThink Nat Sci
Prerequisites: None.
Notes: No science or math background beyond the level of high school algebra required.

AST 235 Astronomy: Stars and Galaxies 3
Introduction to stars, galaxies, and cosmology. Conceptual approach to topics including the evolution of stars, formation of galaxies, interstellar communication, and the Big Bang. Sky observations with UNCG telescopes included. Complements AST 233, although each course is independent of the other.
MAC: MAC Nat Sci Data Analysis
Prerequisites: None.
Notes: No science or math background beyond the level of high school algebra required.

AST 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

AST 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

AST 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.
AST 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

Bioinformatics (IAB)

IAB 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

IAB 620 Introduction to Bioinformatics 3
The class will introduce concepts and methods to analyze biological data including DNA sequence data, genome assembly and annotation, DNA sequence comparison, phylogeny construction and protein structure analyses.

IAB 621 Bioinformatics 3
A variety of concepts required to analyze biological data will be discussed. Sample topics include biological databases, sequence alignment, ontologies, reproducible science, etc.
Prerequisites: IAB 620 or permission of instructor.

IAB 622 Advanced Bioinformatics 3
Understanding key concepts and advanced tools in bioinformatics. Managing, manipulating, and analyzing biological data for genomics, haplotypes, data mining, transcriptomics, biological databases and ontologies, and hypothesis testing.
Prerequisites: IAB 620 or permission of instructor.

IAB 689 Capstone Project in Bioinformatics 3
Capstone course. Students work with local industries and nonprofit organizations to solve important data science problems under the supervision of a mentor.

Biology (BIO)

BIO 100 Orientation to the Biology Major 1
Introduction to the Biology major at UNCG. What it means to be a Biology major at UNCG, in our community, and as a career.

BIO 105 Major Concepts of Biology 3
Introduction to major concepts in biology. Topic sections emphasize specific areas including conservation biology, biotechnology, and current issues. Survey sections emphasize basic aspects of biology, including genetics, physiology and ecology.
MAC: MAC CritThink Nat Sci
Prerequisites: None.
Notes: For students not planning to take additional biology courses. Students who have prior credit for BIO 111, BIO 112 may not take BIO 105 for credit.

BIO 105L Major Concepts of Biology Laboratory 1
Designed to acquaint non-science majors with the process of scientific inquiry and major ideas in biology, including function of cells, the human body, mechanisms of heredity, ecology, and evolution. Online sections must have previously passed or be concurrently enrolled in online lecture.

BIO 111 Principles of Biology I 3
Prerequisite for most other biology courses. Lecture covers the fundamental principles of biology including the molecular and cellular basis of life, genetics, and biotechnology.
MAC: MAC CritThink Nat Sci
Corequisites: BIO 111L or permission of instructor.
Notes: May not be taken more than twice.

BIO 111L Principles of Biology I Laboratory 1
Laboratory supporting BIO 111. Prerequisite or Corequisites: BIO 111.

BIO 112 Principles of Biology II 3
Prerequisite for 300-level courses and above. Fundamental principles of biology including botany, zoology, evolution, and ecology. A passing grade in lecture and laboratory must be achieved for successful completion of this course.
MAC: MAC Nat Sci Data Analysis
Corequisites: BIO 112L
Notes: May not be taken more than twice.

BIO 112L Principles of Biology II Laboratory 1
Laboratory supporting BIO 112. Prerequisite or Corequisites: BIO 112.

BIO 271 Human Anatomy 3
Human anatomy with study of skeletons, models, and anatomical preparations. Includes dissection of cat.
Prerequisites: A grade of C- or better in BIO 110 or BIO 111 and in BIO 111L.
Corequisites: BIO 271L
Notes: May not be taken more than twice.

BIO 271L Human Anatomy Laboratory 1
Laboratory supporting BIO 271.
Corequisites: BIO 271.

BIO 277 Human Physiology 3
Human physiology with emphasis on homeostatic mechanisms.
Prerequisites: A grade of C- or better in BIO 110 or BIO 111 and in BIO 111L. and high school chemistry with grade of C or better;
Corequisites: BIO 277L
Notes: May not be taken more than twice.

BIO 277L Human Physiology Laboratory 1
Laboratory supporting BIO 277.
Corequisites: BIO 277.

BIO 280 Fundamentals of Microbiology 3
General survey of microscopic life and its impact on medicine, public health, and the environment. Includes laboratory work with bacteria, emphasizing aseptic technique.
Prerequisites: A grade of C- or better in BIO 110 or BIO 111 and in BIO 111L. and high school chemistry with grade of C or better;
Corequisites: BIO 280L
Notes: Students cannot receive credit for both this course and BIO 481. May not be taken more than twice.

BIO 280L Fundamentals of Microbiology Laboratory 1
Laboratory supporting BIO 280.
Corequisites: BIO 280.

BIO 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

BIO 301 Principles of Ecology 3
Introduction to fundamentals of ecology. Principles relating to populations, communities and ecosystems. Particular emphasis placed on the many dimensions of interdependence within ecosystems.
Prerequisites: Minimum grade of C- in BIO 111, BIO 111L, BIO 112, and BIO 112L, and completion of MAT 183, or MAT 151, or MAT 190 or satisfactory score on the Calculus Readiness Diagnostic Test.
Notes: May not be taken more than twice.
BIO 315 Ecology and Evolution Laboratory 2
This course is designed to help students understand, via hands-on activities, how species and populations evolve and how species and individuals interact with one another and with their environment.
CIC: CIC College Writing
Prerequisites: Either BIO 301 or BIO 330.
Corequisites: If not completed as a prerequisite, either BIO 301 or BIO 330.

BIO 330 Evolution 3
Fundamental principles of evolutionary biology, including processes and patterns of biological evolution and an overview of the historical and contemporary biodiversity resulting from evolution.
Prerequisites: Minimum grade of C- in BIO 111, BIO 111L, BIO 112, and BIO 112L, and completion of MAT 183, MAT 151, or MAT 190 or satisfactory score on the Calculus Readiness Diagnostic Test.
Notes: May not be taken more than twice.

BIO 355 Cell Biology 3
Study of cellular organization and function. Fundamental biochemical properties, including cellular components, enzyme function, energetics, and metabolism studied in relation to cellular structure, membrane function, cell movement, and cytoplasmic compartments.
Prerequisites: Minimum grade of C- in BIO 111, BIO 111L, BIO 112, and BIO 112L. CHE 114 (or equivalent);
Notes: May not be taken more than twice.

BIO 361 Biology and Conservation of Sea Turtles 3
Students spend 2 weeks in July/August in Tortuguero, Costa Rica assisting with tagging and collecting data on nesting turtles. Seminar and N.C. field trip in spring.
Prerequisites: Minimum grade of C- in both BIO 111 and BIO 112 and permission of instructor.
Notes: May not be taken more than twice. Travel fees involved; see instructor for details.

BIO 375 Cell Biology and Genetics Laboratory 2
Laboratory and online course that integrates modern genetic, cellular, and molecular techniques and methods to understand the concept of the gene to phenotype in biology and human health.
CIC: CIC College Writing
Prerequisites: Either BIO 355 or BIO 392.
Corequisites: If not completed as a prerequisite, either BIO 355 or BIO 392.

BIO 392 Genetics 3
Concepts and principles of genetics, including Mendelian inheritance, linkage, the molecular basis of inheritance and gene expression, tools of genetic analysis, gene regulation, population genetics, and genetic diseases.
Prerequisites: Minimum grade of C- in BIO 111, BIO 111L, BIO 112, and BIO 112L, and completion of MAT 183, or MAT 151, or MAT 190 or satisfactory score on the Calculus Readiness Diagnostic Test.
Notes: May not be taken more than twice.

BIO 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

BIO 401 Advanced Topics in Animal Ecology 3
Directed readings in the literature of physiological ecology, growth and regulation of populations, community structure, energy flow, mineral cycling, and other areas of current research interest.
Prerequisites: Permission of instructor.

BIO 402 Advanced Topics in Animal Physiology 3
Study of physiological mechanisms; selected problems from current literature.
Prerequisites: Permission of instructor.

BIO 406 Advanced Topics in Genetics 3
Basic mechanisms of gene action in microbes, animals, and plants.
Prerequisites: Permission of instructor.

BIO 407 Advanced Topics in Neurobiology 3
Directed readings on fundamental physiological principles of nervous system functioning. Topics may include motor pattern generation, sensory transduction, sensori-motor integration, neurohumoral modulation of behavior.
Prerequisites: Permission of instructor.

BIO 409 Advanced Topics in Microbiology 3
Critical review of current research covering a wide range of topics including infectious diseases, bacterial physiology, marine microbiology, and immunology. Focus on students’ interests or needs.
Prerequisites: Permission of instructor.

BIO 410 Advanced Topics in Plant Ecology 3
Studies of special terrestrial communities or plant groups.
Prerequisites: Permission of instructor.

BIO 418 Computational Biology 3
The class will introduce concepts and methods to analyze biological data including DNA sequence data, genome assembly and annotation, DNA sequence comparison, phylogeny construction and protein structure analyses.
Prerequisites: BIO 330 and BIO 392.

BIO 419 Introduction to Nanotechnology 3
This course introduces students to the emerging field of nanotechnology and exposes them to current research and topics that are being influenced by nanomaterials including biology, healthcare, and the environment.
Prerequisites: BIO 392, BIO 355, CHE 342, CHE 351, or permission of instructor.
Notes: Same as NAN 419.

BIO 420 Marine Biology 3
An introduction to marine organisms and their habitats; special attention given to adaptations necessary for marine life, physical oceanography, and basic ecological principles; one weekend coastal field trip is required.
Prerequisites: One of BIO 301, BIO 330, BIO 355, or BIO 392.

BIO 421 Ecosystem Ecology and Biogeochemistry 3
Introduction to ecosystem function, structure, and dynamics; basic ecosystem theories; discussions of key processes governing energy flow and nutrient cycling; comparison of ecosystems; selected original literature.
Prerequisites: BIO 301 or permission of instructor.

BIO 422 Plant Diversity 4
Introduction to plant, fungi, and protista kingdoms. Emphasis is on structure, reproduction, and life cycles of the organisms.
Prerequisites: BIO 330 or BIO 301 or BIO 392.
Notes: Passing grade in lecture must be achieved for successful completion of this course. May not be taken more than twice.

BIO 422L Plant Diversity Lab 0
Introduction to plant, fungi, and protista kingdoms. Emphasis is on structure, reproduction, and life cycles of the organisms. Passing grade in lecture must be achieved for successful completion of course. NOTE: Students cannot receive credit for both BIO 322 and BIO 422. (LAB)
BIO 423 Landscape Ecology Laboratory 1
Field labs to observe different landscape structures and conduct course projects for comprehending principles of landscape ecology. Students will use computer labs for GIS basics, landscape analyses.
Prerequisites: BIO 301.
Corequisites: BIO 427.

BIO 424 Plant Physiology and Biotechnology 3
This course will cover 1) the study of plant cells and functions, 2) transport processes in plants, 3) plant metabolism, 4) plant cellular signaling due to endogenous chemicals and environment, 5) plant development, and 6) plant adaptation to environment. Additionally, students will practice how to communicate science effectively through in-class discussions and oral presentations.
Prerequisites: BIO 355, BIO 375, and BIO 392.
Corequisites: BIO 424L.

BIO 424L Plant Physiology and Biotechnology Lab 1
This course will cover 1) Plant membranes and transport processes, 2) water potentials and transpiration, 3) plant nutrition and mineral deficiency, 4) plant composition analysis (macro and micronutrients and proteins), 5) the pigments of chloroplast, 6) measurement of photosynthesis and respiration, 7) the effect of chemicals and hormones on seed germination and plant growth and development, 8) Agrobacterium-mediated transformation of model plants, 9) Validation of transgenic plants using molecular techniques. Students will gain hands-on experience in plant physiology research. They will also develop data interpretation and report writing skills.
Prerequisites: BIO 355, BIO 375, and BIO 392.
Corequisites: BIO 424.

BIO 425 Biological Clocks 3
Descriptive survey of behavioral and physiological rhythms in humans and other animals, including circadian, tidal, lunar, seasonal and circannual cycles, with ecological considerations and implications for human health.
Prerequisites: One of BIO 301, BIO 330, BIO 355, BIO 392.

BIO 426 Conservation Biology 3
Introduction to habitat and species conservation; topics include genetic diversity, demographic patterns of rare species, habitat fragmentation, design and management of nature reserves, ecological restoration.
Prerequisites: BIO 301 and BIO 392. STA 271 recommended.

BIO 427 Landscape Ecology 3
Prerequisites: BIO 301. STA 271; recommended
Corequisites: BIO 423.

BIO 428 Microbial Ecology 3
Emphasis on current areas of active research with reference to applied problems.
Prerequisites: BIO 280 or BIO 481, or permission of instructor.

BIO 429 Aquatic Ecology 3
The study of the geology, physics, chemistry, and ecology of lakes, including reservoirs and streams with comparisons to the ocean.
Prerequisites: BIO 301 and CHE 114, or permission of instructor.

BIO 431 The Biosphere 3
A study of environmental issues in biology, specifically ecosystems, population dynamics, biodiversity and extinction.
Prerequisites: BIO 301.

BIO 432 Aquatic Ecology Laboratory 1
Practical study of water chemistry methods, lake and stream morphometry, identification of freshwater zooplankton, benthic invertebrates and fish, and field trips to area reservoirs and streams.
Prerequisites: BIO 301.
Corequisites: BIO 429.

BIO 435 Biochemistry: Metabolic Regulation in Health and Disease 3
Chemical properties of major cellular compounds; biosynthesis, degradation, and function of carbohydrates, lipids, proteins, nucleic acids, vitamins, and hormones; energy metabolism; enzymatic catalysis.
Prerequisites: BIO 355 and BIO 392 or permission of instructor.

BIO 436 Biology of Aging 3
An integrative look at biological theory and mechanisms to explain the diversity of the aging process, including human implications.
Prerequisites: BIO 301, BIO 355, BIO 392, or permission of instructor.

BIO 437 Human Evolutionary Genetics 3
Study of primary literature testing hypotheses about human ancestry and evolution using molecular genetic methods.
Prerequisites: BIO 330 and BIO 392 or permission of instructor.

BIO 438 Animal Behavior 3
Application of theory of evolution to the explanation of animal behavior. Surveys a variety of species, addressing several behavioral categories as well as issues in sociobiology and human evolution.
Prerequisites: Grade of at least C- in PSY 230. concurrent enrollment in PSY 311 OR previous credit for PSY 311;
Notes: Students cannot receive credit for both this course and PSY 438L or PSY 439 or BIO 439. Same as PSY 438.

BIO 441 Invertebrate Zoology 3
Major invertebrate groups with emphasis on their phylogenetic relationships, ecology, physiology, evolution, and structural adaptations of representative types. Weekend coastal field trip may be required.
Prerequisites: BIO 330.
Notes: Includes a laboratory component. May not be taken more than twice; Students cannot receive credit for both BIO 341 and BIO 441.

BIO 441L Invertebrate Zoology Laboratory 1
Major invertebrate groups with emphasis on their phylogenetic relationships, ecology, physiology, evolution, and structural adaptations of representative types. Weekend coastal field trip may be required.
Prerequisite or Corequisites: BIO 441.
Notes: Students cannot receive credit for both BIO 341 and BIO 441.

BIO 442 Genes and Signals 3
Investigates the regulation of gene expression in bacteria, yeast, and higher eukaryotes, and explores how such regulatory systems have evolved.
Prerequisites: BIO 355 and BIO 392.

BIO 443 Biophysics 3
Introduction to cellular biophysics, with emphasis on the physical properties of membranes, including membrane transport mechanisms and electrical properties of membranes.
Prerequisites: BIO 355, CHE 114, MAT 191, and either PHY 211 with PHY 212 or PHY 291 with PHY 292 or permission of instructor;
Notes: Same as PHY 443.

BIO 444 Entomology 3
A theoretical and practical overview of the insect orders, selected topics of insect behavior, ecology, and evolution, and an introduction to human-insect interactions. BIO 392 and BIO 441 recommended.
BIO 445 Disease Ecology 4
Understanding and managing emerging infectious diseases, primarily zoonotic, using an ecologically-based approach. Students learn theory and skills in the epidemiology and ecology of infectious diseases.
Prerequisites: BIO 301 or written permission of instructor.
Notes: Registration in both lecture and laboratory is mandatory.

BIO 449 Current Topics in Biology 1-3
Advanced topics courses in the biological sciences. Topics vary with instructor.
Prerequisites: Minimum grade of C- in both BIO 111 and BIO 112 and permission of instructor.

BIO 449C Current Topics in Biology: Neuron / Behavior 1-3
Advanced topics courses in the biological sciences. Topics vary with instructor.

BIO 451 Vascular Plant Systematics 4
Principles, methods, and the history of systematic biology are covered in the context of vascular plant classification and evolution.
Prerequisites: BIO 330 or BIO 301 or BIO 392.
Corequisites: BIO 451L.
Notes: Passing grade in lecture must be achieved for successful completion of this course. May not be taken more than twice.

BIO 451L Vascular Plant Systematics Lab 0
Principles, methods and the history of systematic biology are covered in the context of vascular plant classification and evolution. Passing grade in lecture must be achieved for successful completion of course. (LAB)

BIO 452 Metamorphosis 3
Readings, discussions, and oral presentations of current literature on metamorphosis in animals, mechanisms controlling metamorphosis, evolution of complex life cycles, and adaptations to differing habitats.
Prerequisites: Three courses selected from BIO 301, BIO 322, BIO 341, BIO 355, BIO 370, BIO 392, or permission of instructor.

BIO 453 Vertebrate Morphogenesis 3
Vertebrate development focused on cellular and molecular mechanisms of induction, differentiation, and morphogenetic processes that give rise to the adult body plan. Laboratory includes study of vertebrate embryos and adult specimens.

BIO 453L Vertebrate Morphogenesis Laboratory 1
Laboratory supporting BIO 453. Prerequisite or Corequisites: BIO 453.

BIO 455 Vertebrate Reproduction 3
An advanced treatment of the diversity of vertebrate reproductive biology, with emphasis on structural, regulatory, behavioral, and evolutionary aspects.
Prerequisites: One of BIO 277, BIO 425, BIO 453, BIO 464, BIO 470, or BIO 477.

BIO 456 Global Change 3
This class will cover (1) the causes of anthropogenic global change, (2) the consequences for biological and ecological processes, and (3) ecology and biotechnology-based solutions for mitigating and adapting to this new world. Students will read and discuss the primary literature on global change as well as explore policy makers’ perspectives. Additionally, students will practice how to communicate science effectively through in-class discussions and debates, written assignments, and multiple in-class oral presentations.
Prerequisites: BIO 301 or permission of instructor.

BIO 460 Symbiosis 3
Symbioses are intimate associations involving two or more species. Symbiotic associations are widespread in nature and we can expect to find them in every type of ecological niche. This course will cover the diversity of symbiotic interactions that exist between both microbes and fungi and various eukaryotic hosts, including plants, animals, and protists, as well as other microorganisms. This course will also include writing, presenting, and reviewing published work on various symbioses.
Prerequisites: BIO 330 and BIO 392.

BIO 464 Developmental Biology 3
A survey of developmental processes in plants and animals. Topics will include fertilization, achievement of multicellularity, cell determination and differentiation, pattern development, and the genetic regulation of such processes.
Prerequisites: C (2.0) or better in BIO 355 and BIO 392.

BIO 464L Developmental Biology Laboratory 1
Laboratory supporting BIO 464. Prerequisite or Corequisites: BIO 464.

BIO 467 Vertebrate Zoology 3
Evolution of major vertebrate groups with emphasis on morphology, ecology, and behavior. Comparisons of vertebrates in the laboratory through dissections and field work.
Prerequisites: BIO 330.
Notes: May not be taken more than twice. Students cannot receive credit for both BIO 370 and BIO 470.

BIO 467L Vertebrate Zoology Laboratory 1
Laboratory supporting BIO 467. Prerequisite or Corequisites: BIO 470.

BIO 472 Histology 3
Microscopic anatomy of vertebrate tissues. Emphasis on correlation of cell and tissue functions with structures visible under the light and electron microscopes.
Prerequisites: BIO 355. Prerequisite or Corequisites: BIO 472L.

BIO 472L Histology Laboratory 1
Laboratory supporting BIO 472. Prerequisite or Corequisites: BIO 472.

BIO 473 Drugs and the Brain 3
Pharmacology of major neurotransmitter systems in the brain and nervous system. Actions of clinically relevant drugs on these systems will be analyzed along with major drugs of abuse.
Prerequisites: BIO 355, and one of the following: BIO 277, BIO 477, BIO 479, PSY 230, or permission of instructor;
Notes: CHE 351 recommended.

BIO 474 Workshops in Biotechnology 1
Individual, intensive four-week workshops focused on specific techniques in biotechnology. Provides hands-on experience designing and implementing a focused project utilizing current methods and bioinformatics.
Prerequisites: BIO 494 or permission of instructor.
Notes: May be repeated for credit as long as letter suffix of course differs: workshops of a given letter may be taken only once.

BIO 476 Population Genetics and Molecular Evolution 3
Application of population genetic and molecular evolutionary theory to the study of natural history, natural selection, genome variation and organization, human evolution, conservation biology, and forensics.
Prerequisites: BIO 330 and BIO 392. or permission of instructor.
BIO 479L Neurobiology Laboratory 1
Computer-based laboratory exercises to complement BIO 479 lecture material, including intracellular and extracellular recording simulations.
Prerequisites: Pr. or Coreq.: BIO 479.
Notes: PHY 212 or PHY 292 recommended.

BIO 480 Environmental Physiology 3
Lectures, discussions, and student presentations on the physiology of animals as it is influenced by and is adapted to environmental conditions.
Prerequisites: BIO 355 and either BIO 277 or BIO 477.

BIO 481 General Microbiology 3
Introductory survey of microbiology, emphasizing the role of microorganisms in everyday life.
Prerequisites: BIO 301, BIO 355, and BIO 392, or permission of instructor.
Prerequisite or Corequisites: BIO 481L.

BIO 481L General Microbiology Laboratory 1
Laboratory supporting BIO 481. Prerequisite or Corequisites: BIO 481.

BIO 482 Molecular Biological Approaches in Research 1
Use of novel molecular approaches to address current questions in the life sciences will be explored by analyzing recent research reports and learning the principles underlying these approaches.
Prerequisites: BIO 392.
Notes: May be repeated for a total of 3 s.h. credit.

BIO 483 Virology 3
Selected topics in virology. Emphasis upon new trends in the study of animal, plant, and bacterial viruses at both molecular and cellular levels.
Prerequisites: BIO 355 and BIO 392. or permission of instructor.

BIO 486 Cell Cycle and Cancer 3
Molecular basis of cell division and cancer examined through lectures and discussions of primary literature. Topics include cell cycle control, genomic stability, carcinogenesis, and cancer genetics.
Prerequisites: BIO 355 and BIO 392, or permission of instructor.

BIO 487 Epigenetics 3
Study of epigenetic mechanisms involved in chromatin structure, DNA and histone modifications, gene expression, dosage compensation, imprinting, heterochromatin structure, stem cell differentiation, development, human disease, and environmental-gene interactions.
Prerequisites: BIO 355 and BIO 392.

BIO 488 Essentials of Toxicology 3
This course is designed to introduce undergraduate students to the fundamentals of toxicology and serve as the key introductory course for students who require a background in toxicology.
Prerequisites: Grade of C- or better in BIO 111, BIO 112, BIO 301 and BIO 355, or permission of instructor.

BIO 489 Introduction to Mathematical Models in Biology 3
Exploration of research and methodology at the interface of mathematics and biology, with an overview of relevant fields and in-depth case studies. Focus will be on mathematical models in biology.
Prerequisites: Minimum grade of C- in BIO 111 and minimum grade of B- in BIO 112 and either MAT 191 or STA 271. or permission of instructor;
Notes: Same as MAT 460.

BIO 492 Genetics of Complex Traits 3
Theory, experimental methods, and analysis related to the genetic basis for variation in complex traits, including quantitative and threshold traits in animals and plants, and complex human diseases.
Prerequisites: BIO 392 or permission of the instructor.

BIO 493 Honors Work 3-6
Honors Work. A maximum of 6 (six) s.h. of any combination of 493, 496, 497, and 499 allowed.

BIO 494 Introduction to Biotechnology 4
Introduction to the principles and techniques of biotechnology. Includes molecular cloning, DNA sequencing, and gene expression. Explores topics such as gene amplification, gene therapy, and DNA fingerprinting.
Prerequisites: BIO 392 and BIO 375.

BIO 495 Advanced Genetics 3
Selected topics in genetics at an advanced level. Emphasis placed on comparative view of molecular mechanisms underlying animal and plant development.
Prerequisites: BIO 392.

BIO 496 Science Pedagogy for Learning Assistants 1
Students learn about current research in science pedagogy in a weekly seminar and apply their knowledge to support active learning and inquiry as in-class learning assistants in a biology course.
Prerequisites: Permission of instructor.
Notes: May be repeated once for a total of 2 s.h.. A maximum of 6 s.h. total of any combination of BIO 493, BIO 496, BIO 497, or BIO 499 may be counted toward the BIOL major.

BIO 497 Internship in Biology 1-3
Students work at site outside University for a minimum of 45–135 hours under direction of faculty and on-site supervisor. Times vary. Prior approval required. A maximum of 6 (six) s.h. of any combination of 493, 496, 497, and 499 allowed.

BIO 499 Undergraduate Research 1-3
Biological research under the direction of a faculty member, culminating in a written report. Research will include laboratory and/or field work and/or directed readings of the literature. Times by arrangement. A maximum of 6 (six) s.h. of any combination of BIO 493, BIO 496, BIO 497, and BIO 499 allowed.
Prerequisites: One of the following: BIO 301, BIO 330, BIO 355, or BIO 392. and permission of instructor.

BIO 519 Introduction to Nanotechnology 3
This course introduces students to the emerging field of nanotechnology and exposes them to current research and topics that are being influenced by nanomaterials including biology, healthcare, and the environment.
Notes: Same as NAN 519.

BIO 600 Introduction to Graduate Studies 1
Training in research ethics and oral-visual communication. Topics include plagiarism, experimental design, statistical interpretation, conflicts of interest, animal safety, authorship, peer review, and scientific presentations.
Prerequisites: Biology graduate student or permission of instructor.
BIO 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

BIO 601 Seminar in Animal Ecology 3
Literature of animal ecology including both classical and recent papers. Using student presentations and class discussions, the ontogeny of some overarching ecological themes are explored.
Prerequisites: BIO 301.

BIO 605 Seminar in Ecology 3
Broad view of ecological literature and in-depth studies of selected aspects of population and community ecology.
Prerequisites: Previous course in ecology.

BIO 609 Seminar in Molecular Cell Biology 3
Topics in cell and molecular biology will be reviewed through discussion of research journal articles. Emphasis on modern experimental techniques and approaches.
Prerequisites: BIO 355.

BIO 610 Seminar in Molecular Genetics 3
Recent advances in molecular genetics, reinforcing basic concepts underlying these developments and understanding their impact on the life sciences.
Prerequisites: BIO 355 and BIO 392.

BIO 611 Advanced Topics in Animal Ecology 3
Directed readings in the literature of physiological ecology, growth and regulation of populations, community structure, energy flow, mineral cycling, and other areas of current research interest.
Prerequisites: Permission of instructor.

BIO 614 Prenatal Development: Embryology and Teratology 3
Human embryological development with emphasis on normal and abnormal development. Issues in teratology and birth defects, clinical problems associated with birth defects and their means of prevention.
Prerequisites: Enrollment in MS genetic counseling program or permission of instructor.

BIO 615 Advanced Topics in Animal Physiology 3
Study of physiological mechanisms; selected problems from current literature.
Prerequisites: Permission of instructor.

BIO 617 Advanced Topics in Genetics 3
Basic mechanisms of gene action in microbes, animals, and plants.
Prerequisites: Permission of instructor.

BIO 618 Computational Biology 3
The class will introduce concepts and methods to analyze biological data including DNA sequence data, genome assembly and annotation, DNA sequence comparison, phylogeny construction and protein structure analyses.

BIO 619 Plant Physiology 3
This course will cover the study of plant cells and functions, transport processes in plants, plant metabolism, plant cellular signaling due to endogenous chemicals and environment, plant development, and plant adaptation to environment.
Prerequisites: Approval of the instructor.

BIO 620 Ecosystem Ecology and Biogeochemistry 3
Introduction to ecosystem function, structure, and dynamics; basic ecosystem theories; discussions of key processes governing energy flow and nutrient cycling; comparison of ecosystems; selected original literature.

BIO 622 Seminar in Ecotoxicology 3
Topics will include sources and transport of environmental pollutants, and their adverse ecological impacts.
Prerequisites: Introductory undergraduate-level course in Ecology or Environmental Sciences or equivalent or permission of the instructor.

BIO 623 Landscape Ecology Laboratory 1
Field labs to observe different landscape structures and conduct course projects for comprehending principles of landscape ecology. Students will use computer labs for GIS basics, landscape analyses.
Corequisites: BIO 627.

BIO 624 Advanced Topics in Microbiology 3
Critical review of current research covering a wide range of topics including infectious diseases, bacterial physiology, marine microbiology, and immunology. Focus on students’ interests or needs.
Prerequisites: Permission of instructor.

BIO 626 Conservation Biology 3
Introduction to habitat and species conservation; topics include genetic diversity, demographic patterns of rare species, habitat fragmentation, design and management of nature reserves, ecological restoration.

BIO 627 Landscape Ecology 3
Corequisites: BIO 623.

BIO 628 Microbial Ecology 3
Emphasis on current areas of active research with reference to applied problems.

BIO 629 Aquatic Ecology 3
The study of the geology, physics, chemistry, and ecology of lakes, including reservoirs and streams with comparisons to the ocean.

BIO 630 Advanced Topics in Plant Ecology 3
Studies of special terrestrial communities or plant groups.
Prerequisites: Permission of instructor.

BIO 631 Human Evolutionary Genetics 3
Study of primary literature testing hypotheses about human ancestry and evolution using molecular genetic methods.

BIO 632 Aquatic Ecology Laboratory 1
Practical study of water chemistry methods, lake and stream morphometry, identification of freshwater zooplankton, benthic invertebrates and fish, and field trips to area reservoirs and streams.
Corequisites: BIO 629.

BIO 633 Biochemistry: Metabolic Regulation in Health and Disease 3
Chemical properties of major cellular compounds; biosynthesis, degradation, and function of carbohydrates, lipids, proteins, nucleic acids, vitamins, and hormones; energy metabolism; enzymatic catalysis.

BIO 640 Biology of Aging 3
An integrative look at biological theory and mechanisms to explain the diversity of the aging process, including human implications.
BIO 641 Stream Ecology 3
Study of ecology and management of flowing water ecosystems. Topics such as community and ecosystem processes, major paradigms, management of point versus non-point pollutants, and restoration addressed.
Prerequisites: BIO 301 or equivalent.

BIO 642 Genes and Signals 3
Investigates the regulation of gene expression in bacteria, yeast, and higher eukaryotes, and explores how such regulatory systems have evolved.

BIO 643 Biophysics 3
Introduction to biophysical principles, with emphasis on the physical properties of membranes, including membrane transport mechanisms and electrical properties of membranes.

BIO 644 Entomology 3
A theoretical and practical overview of the insect orders, selected topics of insect behavior, ecology, and evolution, and an introduction to human-insect interactions.

BIO 645 Disease Ecology 4
Understanding and managing emerging infectious diseases, primarily zoonotic, using an ecologically-based approach. Students learn theory and skills in the epidemiology and ecology of infectious diseases.
Prerequisites: Permission of Instructor.

BIO 646 Advanced Topics in Neurobiology 3
Directed readings on fundamental physiological principles of nervous system functioning. Topics may include motor pattern generation, sensory transduction, sensori-motor integration, neurohormonal modulation of behavior.
Prerequisites: Permission of instructor.

BIO 648 Current Topics in Biology 1-3
Advanced topics courses in the biological sciences. Topics vary with instructor.
Prerequisites: Permission of instructor.

BIO 649C Current Topics: Neurons / Behavior 1-3
Advanced topics courses in the biological sciences. Topics vary with instructor.
Prerequisites: Permission of Instructor.

BIO 651 Vascular Plant Systematics 4
Principles, methods, and the history of systematic biology are covered in the context of vascular plant classification and evolution.
Corequisites: BIO 651L.
Notes: Passing grade in lecture must be achieved for successful completion of this course. May not be taken more than twice.

BIO 651L Vascular Plant Systematics Laboratory 0
Principles, methods and the history of systematic biology are covered in the context of vascular plant classification and evolution.
Notes: Passing grade in lecture must be achieved for successful completion of course.

BIO 652 Metamorphosis 3
Readings, discussions, and oral presentations of current literature on metamorphosis in animals, mechanisms controlling metamorphosis, evolution of complex life cycles, and adaptations to differing habitats.

BIO 655 Vertebrate Reproduction 3
An advanced treatment of the diversity of vertebrate reproductive biology, with emphasis on structural, regulatory, behavioral, and evolutionary aspects.

BIO 656 Global Change 3
This course covers causes of anthropogenic global change, consequences for biological and ecological processes, and ecology and biotechnology-based solutions for mitigating and adapting to this new world. Students will read and discuss the primary literature on global change, explore policy makers' perspectives, and practice how to communicate science effectively through in-class discussions and debates, written assignments, and multiple in-class oral presentations.
Prerequisites: Biology graduate student or permission of instructor.

BIO 660 Symbiosis 3
Symbiotic interactions of living organisms from an evolutionary perspective. Metabolic, genetic, behavioral, and ecological adaptations which allow symbioses to be formed and maintained will be discussed.

BIO 673 Drugs and the Brain 3
Pharmacology of major neurotransmitter systems in the brain and nervous system. Actions of clinically relevant drugs on these systems will be analyzed along with major drugs of abuse.

BIO 674 Workshops in Biotechnology 1
Individual, intensive four-week workshops focused on specific techniques in biotechnology. Provides hands-on experience designing and implementing a focused project utilizing current methods and bioinformatics.
Notes: May be repeated for credit as long as letter suffix of course differs. Workshops of a given letter may be taken only once.

BIO 675 Population Genetics and Molecular Evolution 3
Application of population genetic and molecular evolutionary theory to the study of natural history, natural selection, genome variation and organization, human evolution, conservation biology, and forensics.

BIO 676 Hormones in Action 3
Hormonal signaling in humans and other animals is examined using developmental, physiological, behavioral, cellular, and molecular perspectives, with special emphasis on the adrenal glands and the gonads.

BIO 680 Environmental Physiology 3
Lectures, discussions, and student presentations on the physiology of animals as it is influenced by and is adapted to environmental conditions.

BIO 682 Molecular Biological Approaches in Research 1
Use of novel molecular approaches to address current questions in the life sciences will be explored by analyzing recent research reports and learning the principles underlying these approaches.
Notes: May be repeated for a total of 3 credits.

BIO 685 Virology 3
Selected topics in virology. Emphasis upon new trends in the study of animal, plant, and bacterial viruses at both molecular and cellular levels.

BIO 686 Cell Cycle and Cancer 3
Molecular basis of cell division and cancer examined through lectures and discussions of primary literature. Topics include cell cycle control, genomic stability, carcinogenesis, and cancer genetics.

BIO 687 Epigenetics 3
Study of epigenetic mechanisms involved in chromatin structure, DNA and histone modifications, gene expression, dosage compensation, imprinting, heterochromatin structure, stem cell differentiation, development, human disease, and environmental-gene interactions.

BIO 691 Genetics of Complex Traits 3
Theory, experimental methods, and analysis related to the genetic basis for variation in complex traits, including quantitative and threshold traits in animals and plants, and complex human diseases.
BIO 694 Advanced Genetics 3
Selected topics in genetics at an advanced level. Emphasis placed on comparative view of molecular mechanisms underlying animal and plant development.

BIO 695 Biological Research 1-6
Student engages in advanced biological research under the supervision of a member of the Graduate Faculty.
Notes: Course may be repeated with a maximum of 9 hours credit counting toward the MS degree. Grade: Satisfactory/Unsatisfactory (S/U).

BIO 699 Thesis 1-6
Individual research for the completion of a thesis.
Prerequisites: Successful presentation of thesis proposal to Biology Department.

BIO 707 Seminar in Environmental Health Science 2
Development of critical-thinking and writing skills through discussions and critiques of primary literature in environmental health science and through writing assignments.
Prerequisites: Biology graduate student or permission of instructor.

BIO 708 Biostatistics 1 3
Biological research requires testing hypotheses with adapted statistical analyses. This class will cover statistical concepts and methods to analyze biological data. Strong emphasis will be put on the representation, manipulation and hypothesis testing of biological data with R. The goal of this new class is to train students with statistical analyses to solve problems specifically encountered in biological analyses, such as the analysis of sequencing data, sampling bias and phylogenetic relatedness.

BIO 709 Biostatistics 2 3
The class will cover advanced concepts and methods to perform statistical tests on environmental and biological data, particularly those challenges that come with utilizing data that is collected from a non-laboratory (i.e. less controlled) setting.
Prerequisites: BIO 708 or permission of instructor.

BIO 731 Environmental Health Science I: Ecosystems to Individuals 3
Causes of environmental problems that society faces and the effects on ecosystem and community function and species survival. Implications for environmental and human health are explored.
Prerequisites: Biology graduate student or permission of instructor.

BIO 732 Environmental Health Science II: Individuals to Molecules 3
Introduction to fundamentals of toxicology with a focus on toxicological consequences of environmental perturbations on physiological and cellular processes, genome structure, and gene function.
Prerequisites: Biology graduate student or permission of instructor.

BIO 733 Workshops in Environmental Health Science 1
Individual six-week workshops focusing on analytical tools and experimental approaches used in freshwater/riparian ecosystem analysis, environmental genomics, environmental forensics, and cellular/physiological research.
Prerequisites: Biology graduate student or permission of instructor.

BIO 734 Current Research in Environmental Health Science 1
Weekly discussion of research journal articles in the area of environmental health science. Students will present and discuss research journal articles.
Notes: May be repeated for a total of 2 credit hours.

BIO 749 Research Lab Rotations 1
Course providing credit for participation in laboratory meetings and/or the initiation of preliminary research training in the labs of 1 to 3 potential dissertation or thesis advisors.
Notes: May be repeated for a total of 3 hours credit. Grading method is Satisfactory/Unsatisfactory (S/U).

BIO 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

BIO 790 Directed Study in Environmental Health Science 1-6
Advanced research in environmental health science under the direction of a graduate faculty advisor. Preparation of doctoral research proposal and planning for dissertation research.
Prerequisites: Admitted to PhD in environmental health science and approval of graduate faculty advisor.
Notes: May be repeated for a maximum of 12 hours credit counting towards the PhD degree. Grade: Satisfactory/Unsatisfactory (S/U).

BIO 791 Independent Doctoral Research 1-6
Independent research in environmental health science related to the student's primary area of research specialization leading to dissertation.
Prerequisites: Admitted to candidacy.
Notes: May be repeated for a maximum of 15 hours credit counting towards the PhD degree. Grade: Satisfactory/Unsatisfactory (S/U).

BIO 799 Dissertation 1-18
Individual research for the completion of the doctoral dissertation.
Prerequisites: Admitted to candidacy.
Notes: May be repeated for a maximum of 18 hours credit. Grade: Satisfactory/Unsatisfactory (S/U).

BIO 801 Thesis Extension 1-3
Thesis Extension.

BIO 802 Dissertation Extension 1-3
Dissertation Extension.

BIO 803 Research Extension 1-3
Research Extension.

Business Administration (BUS)

BUS 105 Blueprint for Professional Success 2
Establish business skills determined by employers as critical for success. Engage in professional development exercises. Explore academic opportunities to create student's personal and professional blueprint.
Prerequisites: Open to first and second semester freshmen who are Majors in ACCT, BADM, CARS, ECON, ENTR, FINC, INTB, ISSC, MKTG, or STHP.

BUS 115 Blueprint for Personal Development 1
The first step toward becoming a successful business professional is establishing a sense of self. Students engage in personal development to expand their self-awareness and identify opportunities for personal growth.
Prerequisites: Open to first and second semester freshmen who are PACC, PBAD, CARS, ECON, ECOS, PENT, PFIN, PHTM, PINT, PISC, or PMKT.

BUS 130 Entrepreneurship in a Sustainable Global Environment 3
Global forces will restructure the world economy for the foreseeable future. Entrepreneurship, sustainability, and innovation will drive companies and individuals and produce major changes within that environment.
MAC: MAC Global and Intercultural
Notes: Same as ENT 130.
BUS 215 Blueprint for Professional Development 1
Students engage in personal development to expand their self-awareness and identify opportunities for personal growth, to begin building a professional portfolio, and develop employment related skills.
Prerequisites: BUS 115. Open to sophomores who are PACC, PBAD, CARS, ECON, ECOS, PENT, PFIN, PHTM, PINT, PISC, or PMKT.

BUS 216 Blueprint for Personal and Professional Development 2
Students will begin building a professional portfolio and engaging in topics designed to promote the development of skills determined by employers as critical for success.
Prerequisites: Restricted to sophomore, junior or senior students who are pre-admitted to or admitted to majors in the Business School (PACC, PBAD, BADM, CARS, ECON, ECOS, PENT, ENTR, PFIN, FINC, PHTM, PINT, INTB, PISC, ISSC, PMKT, or MKTG).
Notes: Students may not receive credit for both BUS 216 and either BUS 115 or BUS 215.

BUS 240 Introduction to the Entrepreneurial Experience 3
Introduction to the entrepreneurial experience including historical perspectives, the role of entrepreneurs in supporting the economy, the entrepreneurial process, venture creation, and innovation.
Notes: Same as ENT 206.

BUS 300 Ideas to Sustainable Opportunities: Feasibility Analysis 3
Provides the knowledge and skills to develop a sustainable feasibility plan for a new business venture that will be the basis for developing a business plan.
Prerequisites: ENT/FIN 200 or ACC 201. or permission of instructor;
Notes: Same as ENT 300.

BUS 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

BUS 301 Creativity, Innovation, and Vision 3
Creativity and innovation is examined through an interdisciplinary lens. We examine how creative and innovative thinking gives us the vision to see opportunities and how they impact society.
MAC: MAC CritThink Soc and BehavSci
Notes: Same as ENT 201.

BUS 306 Start Something Sustainable! 3
Students learn the basics of establishing a new business from idea to inception through the finalized sustainable business model, including considering a direct selling model. Students may have the opportunity to apply for a loan to establish a viable business on campus.
Notes: Same as ENT 206.

BUS 308 Entrepreneurship and Innovation 1
This course examines the theories and models of leadership. Environmental pressures, organizational objectives, company culture, and individual ethical standards will be examined to incorporate the situational determinants of leadership effectiveness.
Prerequisites: Sophomore standing.

BUS 315 Global Franchising 3
Overview of operating a franchise, including the development of skills necessary to assess and acquire a franchise, and to implement a franchise in a new location.
Prerequisites: BUS 215 or BUS 216. concurrent enrollment in MGT 301 or MGT 301
Notes: Same as ENT 338.

BUS 316 International Entrepreneurship 3
Change on an issue of environmental sustainability. Exploration of models that respond to social, economic, environmental, and justice issues.
Prerequisites: Upper-division undergraduate status.
Notes: Same as ENT 440, PCS 440, WGS 440.

BUS 336 Opportunities to Action: Business Plan 3
This course introduces the student to opportunities in franchising including becoming a franchisee or franchisor.
Prerequisites: ACC 201 or ENT 200/FIN 200.
Notes: Same as ENT 338, STH 338.

BUS 337 Family Business 3
Overview of family business, including what is required for family harmony and business continuity.
Notes: Same as ENT 337.

BUS 338 Global Entrepreneurship 3
Introduction to entrepreneurship including identification of social problems and how they are solved through innovation, community impact, sustainability, ethical, scalable, economic value creation, and risk-taking efforts including in direct selling.
Notes: Same as ENT 340.

BUS 339 Entrepreneurial Leadership 3
Leadership theories, skills, and practices necessary for effectiveness in varied entrepreneurial settings, including private businesses, corporations, not-for-profit organizations, and social movements.
Notes: Same as ENT 339.

BUS 340 Social Entrepreneurship 3
Introduction to social entrepreneurship including identification of social problems and how they are solved through innovation, community impact, sustainability, ethical, scalable, economic value creation, and risk-taking efforts including in direct selling.
Notes: Same as ENT 340.

BUS 342 International Entrepreneurship 3
Creation and management of business ventures with international dimensions are examined, and economic and formal/informal institutions affecting entrepreneurship are discussed.
Notes: Same as ENT 342.

BUS 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

BUS 415 Leadership Development 1
Students learn the qualities of good leaders and demonstrate those qualities are exercised in a business environment with a specific focus on ethical and sustainable decision making.
Prerequisites: BUS 315. Open to Seniors who are Majors in ACCT, BADM, CARS, ECON, ECOS, ENTR, FINC, HTMT, INTB, PACC, PMKT, or MKTG.

BUS 440 Social Entrepreneurship: Justice and a Green Environment 3
Interdisciplinary engagement of social entrepreneurship as model for change on an issue of environmental sustainability. Exploration of models that respond to social, economic, environmental, and justice issues.
Prerequisites: Upper-division undergraduate status.
Notes: Same as ENT 440, PCS 440, WGS 440.

BUS 450 Directed Business Practice 3
Planned work experience approved in advance by instructor. This is a web-based course that requires regularly scheduled work in an organization that sponsors your internship. In addition, the course requires reading, writing, and skill practice assignments.
Prerequisites: Junior standing and written permission of the instructor.
Notes: Open to all majors. Same as ENT 450.
BUS 454 Coordination Work Based 3

BUS 493 Honors Work 3-6
Honors Work.
Prerequisites: Permission of instructor. 3.30 GPA in the major; 12 s.h. in the major;
Notes: May be repeated for credit if the topic of study changes.

BUS 494 Surv Bus/Mkt Education 3

BUS 495 Curr/Clrm Org Bus/Mkt Prog 3

BUS 496 Sel Topics Bus/Mkt Educ 1-3

BUS 499 Selected Topics in Entrepreneurship 1-3
Study of topics of common interest to those interested in entrepreneurship. Group discussion and study rather than independent study emphasized. Generally non-recurring topics studied.
Prerequisites: Junior standing. or permission of instructor
Notes: May be repeated for credit if the topic of study changes. Same as ENT 499.

BUS 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

BUS 606 International Entrepreneurship 3
This course is for students interested in starting, joining, or expanding international ventures. It examines dimensions affecting entrepreneurship, including modes of entry (direct selling, franchising, internet), economic, and formal/informal institutions.
Notes: Same as ENT 606.

BUS 609 Franchising 3
Develop knowledge and skills needed to succeed as a franchisee, franchisor, or franchise executive, including understanding the Franchise Disclosure Document and the role of entrepreneurship in franchising.

BUS 614 Leadership in the International Environment 3
Understanding and analyses of leadership and followership in an international context. Application of theoretical frameworks and provision of practical advice for leading across cultural boundaries and addressing international challenges.

BUS 615 Global Business 3
Principles, practices and processes of conducting businesses in the globalized environment.

BUS 616 International Business Negotiations 3
This course provides theoretical principles and concepts that aid students in preparing for, performing in, and evaluating international business negotiations.
Prerequisites: BUS 622.
Corequisites: BUS 614.

BUS 617 International Strategy 3
Examines key frameworks and theories in international strategy and their application to strategy practice and research.
Prerequisites: BUS 615, BUS 621, BUS 622.

BUS 618 International Collaboration Project I 3
The course offers an opportunity to learn international collaboration through practice; an experiential exercise where the students complete an international business consulting project working in global virtual teams.
Prerequisites: BUS 614, BUS 622, BUS 623.

BUS 619 International Collaboration Project II 3
Offers theoretical training and the opportunity to further develop international collaboration skills through practice by participating in an experiential learning exercise as a coach and manager of global virtual teams.
Prerequisites: BUS 618.

BUS 621 Research Methods 3
Familiarize students with inductive and deductive research in international business. Selecting a data gathering method, designing a survey/questionnaire, and sampling methods. Analyzing data and interpreting results to make international business decisions.

BUS 622 Cross-Cultural Management 3
Examines the effect of cultural differences on management in organizations. Provides students with an understanding of the challenges and opportunities in managing people from diverse cultural backgrounds at the workplace.

BUS 623 International Marketing 3
Issues in international marketing are addressed from both theoretical and experiential learning perspectives.

BUS 640 Experiences in Sustainable Entrepreneurship 3
Interdisciplinary course in sustainable entrepreneurship. Exploration of models for designing and implementing entrepreneurial projects which respond to social, economic, environmental, and justice issues. Introduction to direct action and evaluation.
Notes: Same as ENT 640, WGS 640.

BUS 695 Special Topics in International Business 3
This course focuses on current trends and topics in international business.

BUS 701 Doctoral Research Methods I (Quantitative Research Methods) 3
Examines multivariate statistical techniques including exploratory factor analysis and principal components analysis, confirmatory factor analysis; moderation and mediation analysis; structural equation modeling and hierarchical linear modeling.

BUS 702 Doctoral Research Methods II (Qualitative Research Methods) 3
Discussion of the nature of qualitative research in organization studies. Discuss qualitative methodological approaches, and the design, implementation and publication of qualitative research.

The application of quantitative and qualitative methods in conducting high quality research in business.
Prerequisites: BUS 701, BUS 702.

BUS 705 Seminar in Academic Writing and Publishing 3
Provides an in-depth review and understanding of academic and scholarly writing, explains the process of developing and publishing academic work, with the focus on publishing business research and scholarly work.

BUS 720 Seminar in Organization Theory 3
Examines the theory and research related to organizations, including theories that cross micro/macro boundaries and represent novel contributions from organizational perspectives; the history and development of research on organizations.

BUS 721 Seminar in Organization Behavior 3
Classic and current theory in organizational behavior, including the role and effects of individual differences, perception, job design, groups, motivation, job satisfaction, organizational commitment, and other aspect of organizational design.
BUS 722 Seminar in Organizational Leadership 3
Provides an in-depth review of classic and modern theories and application of leadership and followership models in organizations, including critical examination of leadership in cross-cultural settings.
Prerequisites: BUS 721.

BUS 730 Seminar in International Business Theory 3
Comprehensive overview of international business field, including theoretical and empirical approaches to the study of cross-border business, evolution of thought in international business, theory of the MNC, and contemporary perspectives.

BUS 731 Seminar in Cross-Cultural Management 3
Provides an in-depth review of the theories, concepts, and practices of management across and in different cultures; investigates the impact of national cultures on management practice.

BUS 740 Seminar in Strategic Management I 3
Theories and concepts in strategic management including the examination of behavioral and economic approaches to strategy research and the relationship of other areas of research to strategy formulation and implementation.
Prerequisites: BUS 720, BUS 721, and BUS 730.

BUS 741 Seminar in Strategic Management II 3
Examines theory and research on corporate level strategies and corporate governance.
Prerequisites: BUS 740.

BUS 750 Doctoral Research Methods IV (Regression Models) 3
Techniques of estimating multivariate relationships. Discusses multiple regression and problems associated with single equation modeling, moderation and mediation analysis, structural equation modeling, and hierarchical linear modeling.

BUS 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

BUS 789 Advanced Topics in Management 3-9
This course focuses on current research topics such as corporate social responsibility, human resources management, international business, organizational behavior, strategic management, and sustainability.

BUS 790 Doctoral Research Independent Study 1-6
Individual work on research topics that are related to student’s primary area(s) of specialization and research interest. Research conducted with faculty guidance and direction.
Prerequisites: BUS 701, BUS 702, BUS 705.

BUS 799 Dissertation 1-18
Students will finish a quality dissertation under the instruction of an instructor. The topic will fall within the field of general management. The instructor will determine the pedagogy.
Prerequisites: Permission of instructor.

CHE 103 General Descriptive Chemistry I 3
Chemistry course for pre-health, pre-nursing, pre-kinesiology and students building a foundation for CHE 111. Topics include states of matter, atomic and molecular structure, solutions, and nuclear chemistry.
MAC: MAC Nat Sci Data Analysis
Corequisites: CHE 110 must be taken concurrently unless student takes CHE 104 or CHE 111 later.
Notes: Not open to students who have already taken CHE 111.

CHE 104 General Descriptive Chemistry II 3
Applications of the principles introduced in CHE 103 to representative organic and biological systems. Topics include introductory organic and biochemical concepts.
MAC: MAC CritThink Nat Sci
Prerequisites: CHE 103 or permission of instructor.
Corequisites: CHE 110 must be taken concurrently unless taken with CHE 103.

CHE 110 Introductory Chemistry Laboratory 1
Designed to acquaint non-science majors with basic laboratory practices.
Corequisites: To be taken concurrently with either CHE 103 or CHE 104. Also may accompany CHE 101.

CHE 111 General Chemistry I 3
Fundamental principles of chemistry, including stoichiometry, atomic structure, and states of matter.
MAC: MAC Nat Sci Data Analysis
Prerequisites: One year of high school chemistry or CHE 103. students lacking high school chemistry should take the sequence CHE 103, CHE 111, CHE 114; Prerequisite or Corequisites: CHE 112.

CHE 112 General Chemistry I Laboratory 1
Laboratory work to accompany CHE 111. Prerequisite or Corequisites: CHE 111.

CHE 114 General Chemistry II 3
Continuation of CHE 111 with attention to ionic equilibria, elementary kinetics and thermodynamics, acid-base theory, coordination chemistry, and electrochemistry.
MAC: MAC CritThink Nat Sci
Prerequisites: CHE 103, CHE 104, and CHE 110 with performance in each at the B level or higher, or CHE 111, CHE 112. Prerequisite or Corequisites: CHE 115.
Notes: Designed primarily for science majors and is the prerequisite to upper level courses in chemistry.

CHE 115 General Chemistry II Laboratory 1
Laboratory work to accompany CHE 114. Prerequisites or Corequisites: CHE 114.

CHE 170 Engaging with Chemistry and Biochemistry 1
Introduction to careers with a chemistry or biochemistry foundation, and to successful academic approaches to preparing for those careers.
Prerequisites: Chemistry or Biochemistry majors.

CHE 191 Introduction to Research 1
Introduction to the basic concepts of research, involving multistep experiments and discussion of research opportunities.
Corequisites: CHE 114.

CHE 101 Introductory Chemistry 3
Survey of fundamentals of measurement, molecular structure, reactivity, and organic chemistry; applications to textiles, environmental, consumer, biological, and drug chemistry.
MAC: MAC Nat Sci Data Analysis
Notes: For elementary education, business, and liberal arts majors. Students cannot receive credit for both CHE 101 and either CHE 111 or CHE 103; CHE 110 is recommended as corequisite.
CHE 205 Introductory Organic Chemistry 3
A course in organic chemistry designed for students whose programs require only one semester in this area.
Prerequisites: CHE 104, CHE 110. or CHE 114, CHE 115;
Corequisites: CHE 206.

CHE 206 Introductory Organic Chemistry Laboratory 1
Laboratory work to accompany CHE 205.
Corequisites: CHE 205.

CHE 252 Chemistry and the Human Environment 3
Study of chemical problems central to current technological, biomedical, and environmental issues. Topics include energy alternatives, food chemicals, environmental chemistry, molecular basis of drug action, and consumer products.
Prerequisites: CHE 101, CHE 104, or CHE 114 or permission of instructor.

CHE 291 Sophomore Research 1-3
Sophomore-level research in chemistry and biochemistry. Participation in a research project directed by a faculty supervisor.
Prerequisites: CHE 114 and CHE 115.
Notes: May be repeated for credit for up to 3 s.h.

CHE 292 Sophomore Research 1-3
Sophomore-level research in chemistry and biochemistry. Participation in a research project directed by a faculty supervisor.
Prerequisites: CHE 114 and CHE 115.
Notes: May be repeated for credit for up to 3 s.h.

CHE 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

CHE 331 Quantitative Analysis 3
Introduction to the theory and practice of volumetric and gravimetric methods of analysis.
Prerequisites: CHE 114, CHE 115.
Corequisites: All students must take CHE 333 concurrently unless they have previous credit for an equivalent course.

CHE 333 Quantitative Analysis Laboratory 1
Laboratory work to accompany CHE 331.
CIC: CIC College Writing
Corequisites: CHE 331 must be taken concurrently.

CHE 342 Inorganic Chemistry 3
Introduction to theoretical principles, structure, and reactivity of main group metals and nonmetals and transition metals including industrial, bioinorganic and organometallic chemistry, and inorganic materials and nanomaterials.
Prerequisites: CHE 114.

CHE 351 Organic Chemistry I 4
Chemistry of aliphatic and aromatic compounds with attention to reaction mechanisms and synthetic applications, and the application of spectroscopy to structure determination.
Prerequisites: CHE 114.
Corequisites: CHEM and BCHE majors: CHE 353.
Notes: May not be taken more than twice.

CHE 352 Organic Chemistry II 3
Continuation of CHE 351 with attention to alcohols, ethers, aldehydes and ketones, carboxylic acids and derivatives, amines, lipids, carbohydrates, and organic spectroscopy.
Prerequisites: Grade of C or better in CHE 351.
Corequisites: CHEM and BCHE majors must take CHE 355 concurrently. Other students must take CHE 354 concurrently unless they have previous credit for an equivalent course.
Notes: May be repeated only once.

CHE 353 Organic Laboratory Techniques 1
Basic techniques for organic chemistry laboratory, with introduction of separation, characterization, and analysis of organic compounds including use of instrumental methods. To accompany CHE 351 for chemistry and biochemistry majors.
Prerequisites: CHEM or BCHE major.
Corequisites: CHE 351.

CHE 354 Organic Chemistry Laboratory 1
Laboratory work to accompany CHE 352.

CHE 355 Intermediate Organic Chemistry Lab 2
Advanced organic laboratory methods; modern reactions in synthesis; purification of compounds and characterization by spectroscopic instrumentation; qualitative organic analysis; chemical and biochemical literature; computational modeling; chemical database searching; safety resources.
Prerequisites: Chemistry or Biochemistry major. grade of C (2.0) or better in CHE 351 and CHE 353 or CHE 354;
Corequisites: CHE 352.

CHE 391 Junior Research 1-3
Junior-level research in chemistry and biochemistry. Participation in a research project directed by a faculty supervisor.
Prerequisites: CHE 352 and CHE 353 (or CHE 354) or CHE 331 and CHE 333 and permission of instructor.
Notes: May be repeated for credit for up to three (3) credits.

CHE 392 Junior Research 1-3
Junior-level research in chemistry and biochemistry. Participation in a research project directed by a faculty supervisor.
Prerequisites: CHE 352 with CHE 353 (or CHE 354) or CHE 331 with CHE 333. and permission of instructor.
Notes: May be repeated for credit for up to three (3) credits.

CHE 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

CHE 401 Chemistry Seminar Introduction 0
Preparation for seminar. Attendance at weekly seminars given by visiting speakers, faculty, and students.
Prerequisites: CHE 355 or CHE 372. CHEM or BCHE major; junior standing;
Notes: Grade: Pass/Not Pass (P/NP).

CHE 402 Chemistry Seminar 1
Oral reports and discussion of topics from the current chemistry literature by students, staff, and guest lecturers. Attendance at weekly seminars is required.
Prerequisites: CHE 401, senior standing.
CHE 406 Introductory Physical Chemistry 4
Study of the concepts basic to chemical kinetics, equilibrium, energetics, spectroscopy, solution phenomena, electrochemistry, and colloidal behavior with applications to biological systems. Theory of methods and instrumentation also examined.
Prerequisites: Two semesters of chemistry beyond general chemistry, MAT 292, one year of physics.
Notes: Students cannot receive credit for both CHE 406 and CHE 461 toward an undergraduate degree.

CHE 407 Introductory Physical Chemistry Laboratory 1
Laboratory work related to CHE 406 with emphasis on mathematical treatment of experimental data and communication of results in report form.
CIC: CIC College Writing
Corequisites: CHE 406.

CHE 420 Chemical Principles of Biochemistry 3
Introduction to major classes of biomolecules and to genetic and metabolic pathways in living systems; emphasis on chemical nature of biological processes and the driving forces that make them work.
Prerequisites: CHE 352, BIO 111 and BIO 112 strongly recommended.

CHE 431 Instrumental Analysis 3
Theory and practice of advanced analytical techniques with emphasis on instrumental methods of analysis.
Prerequisites: CHE 331, CHE 333, CHE 205 or CHE 352 (either may be taken concurrently), PHY 212 or PHY 292.

CHE 433 Instrumental Analysis Laboratory 1
Laboratory work to accompany CHE 431.
CIC: CIC College Writing
Corequisites: CHE 431 must be taken concurrently.

CHE 436 Computational Chemistry 3
Survey of modern computational chemistry methods, including molecular mechanics, molecular dynamics simulations, conformational searching, and computational quantum mechanics.
Prerequisites: CHE 352, PHY 212 or PHY 292, or permission of instructor.

CHE 442 Advanced Inorganic Chemistry I 3
Modern concepts of chemical bonding and its application to inorganic reactions and periodic relationships.
Prerequisites: CHE 342, CHE 406 or CHE 461.
Corequisites: CHE 406 or CHE 461 may be taken concurrently.

CHE 453 Advanced Organic Chemistry I 3
Advanced topics in organic chemistry with special emphasis on reaction mechanisms and stereochemistry.
Prerequisites: CHE 352.

CHE 455 Organometallic Chemistry 2
Theoretical and synthetic aspects of organometallic chemistry and applications to catalysis and synthetic organic chemistry.
Prerequisites: CHE 352, CHE 442.

CHE 456 Biochemistry I 3
Introductory biochemistry presented from a chemical perspective. Topics include amino acids, proteins and enzymes, carbohydrates, nucleic acids, lipids, membranes, and carbohydrate catabolism.
Prerequisites: CHE 352, BIO 111, BIO 112.

CHE 457 Biochemistry II 3
Continuation of CHE 456. Enzyme catalytic mechanisms, additional topics in intermediary metabolism, genetic biochemistry, and selected topics in molecular physiology.
Prerequisites: CHE 456.

CHE 458 Biochemistry Laboratory 1
Introduction to biochemical techniques, including isolation, purification and characterization of biological molecules.
CIC: CIC College Writing
Prerequisites: CHE 456 (or equivalent), CHE 353 (or CHE 354), and CHE 333. or permission of instructor.

CHE 461 Physical Chemistry I 4
Chemical thermodynamics and equilibrium processes covered, including phase equilibria, thermodynamics of solutions, kinetics, and electrochemistry.
Prerequisites: MAT 292 and PHY 292.
Notes: Students cannot receive credit for both CHE 461 and CHE 406 toward an undergraduate degree.

CHE 462 Physical Chemistry II 3
Subject material deals with microscopic world including introductions to quantum mechanics, molecular spectroscopy, and statistical mechanics.
Prerequisites: CHE 461.

CHE 463 Physical Chemistry I Laboratory 1
Laboratory work related to CHE 461 with emphasis on mathematical treatment of experimental data and communication of results in report form.
CIC: CIC College Writing
Prerequisites: CHE 331, CHE 333.
Corequisites: CHE 406 or CHE 461.

CHE 464 Physical Chemistry II Laboratory 1
Additional laboratory work primarily in kinetics and the determination of molecular structure. This is a writing emphasis course.
CIC: CIC College Writing
Prerequisites: CHE 461, CHE 463.
Corequisites: CHE 462.

CHE 470A Special Topics in Chemistry: Analytical 1-3
See CHE 470.
Prerequisites: Permission of instructor.

CHE 470B Special Topics in Chemistry: Biochemistry 1-3
See CHE 470.
Prerequisites: Permission of instructor.

CHE 470C Special Topics in Chemistry: Inorganic 1-3
Prerequisite: Permission of instructor.

CHE 470D Special Topics in Chemistry: Organic 1-3
See CHE 470.

CHE 470E Special Topics in Chemistry: Physical 1-3
See CHE 470.

CHE 470F Special Topics in Chemistry: Chemical Education 1-3
See CHE 470.
Prerequisites: Permission of instructor.

CHE 481 Synthetic Techniques 2
Theoretical discussion and laboratory practice in modern methods of synthesis in the areas of organic and inorganic chemistry. Emphasis given to regions of overlap such as organometallic chemistry.
CIC: CIC College Writing
Prerequisites: CHE 342, CHE 352, CHE 355.

CHE 490 Internship in Chemistry and Biochemistry 3
Practical experience in local industrial setting. Includes bi-weekly meeting with Departmental internship coordinator. Students must complete 12 hours a week at an internship site.
Prerequisites: CHE 333 and CHE 355. junior status; overall GPA of 3.0 or better; and permission of instructor.
CHE 491 Senior Research 1-3
Senior-level research in chemistry and biochemistry. Participation in a research project directed by a faculty supervisor.
Prerequisites: Three (3) years of chemistry or biochemistry and permission of instructor.
Notes: May be repeated for credit for a maximum of three (3) credits.

CHE 492 Senior Research 1-3
Senior-level research in chemistry and biochemistry. Participation in a research project directed by a faculty supervisor.
Prerequisites: Three (3) years of chemistry or biochemistry and permission of instructor.
Notes: May be repeated for credit for a maximum of three (3) credits.

CHE 493 Honors Work 3-6
Honors Work.
Prerequisites: Permission of instructor. 3.30 GPA in the major, 12 s.h. in the major;
Notes: May be repeated for credit if the topic of study changes.

CHE 499 Senior Thesis 1
Preparation of a thesis based on a student's undergraduate research.
Prerequisites: Senior standing, completion of five (5) semesters of undergraduate research, or permission of instructor.
Corequisites: CHE 492 for 2 or 3 s.h.

CHE 531 Instrumental Analysis 3
Theory and practice of advanced analytical techniques with emphasis on instrumental methods of analysis.

CHE 533 Instrumental Analysis Laboratory 1
Laboratory work to accompany CHE 531.
Corequisites: CHE 531 must be taken concurrently.

CHE 553 Advanced Organic Chemistry I 3
Advanced topics in organic chemistry with special emphasis on reaction mechanisms and stereochemistry.

CHE 555 Organometallic Chemistry 3
Theoretical and synthetic aspects of organometallic chemistry focusing on transition metal complexes and their applications to industrially important catalysis and to synthetic organic chemistry.

CHE 556 Biochemistry I 3
Introductory biochemistry presented from a chemical perspective. Topics include amino acids, proteins and enzymes, carbohydrates, nucleic acids, lipids, membranes, and carbohydrate catabolism.

CHE 557 Biochemistry II 3
Continuation of CHE 556. Enzyme catalytic mechanisms, additional topics in intermediary metabolism, genetic biochemistry, and selected topics in molecular physiology.
Prerequisites: CHE 556 or permission of instructor.

CHE 558 Biochemistry Laboratory 1
Introduction to biochemical techniques, including isolation, purification and characterization of biological molecules.
Prerequisites: CHE 556 (or equivalent) or permission of instructor.

CHE 570B Special Topics in Chemistry: Biochemistry 1-3
See CHE 570.
Prerequisites: Permission of instructor.

CHE 570C Special Topics in Chemistry: Inorganic 1-3
See CHE 570.
Prerequisites: Permission of instructor.

CHE 570D Special Topics in Chemistry: Organic 1-3
See CHE 570.

CHE 570E Special Topics in Chemistry: Physical 1-3
See CHE 570.

CHE 570F Special Topics in Chemistry: Chemical Education 1-3
See CHE 570.
Prerequisites: Permission of instructor.

CHE 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

CHE 601 Graduate Seminar I 1
Oral reports from the current literature of chemistry by the students, as well as attendance at presentations by other students, staff, and guest speakers.
Prerequisites: CHE 401 or equivalent.

CHE 602 Graduate Seminar II 1
Oral reports from the literature and the student's thesis research, as well as attendance at presentations by other students, staff, and guest speakers.
Prerequisites: CHE 601.

CHE 613 Teaching Chemistry: Theory and Practice 1
Introduction to teaching chemistry with emphasis on theory, practice, and techniques.

CHE 615 Entrepreneurship for the Sciences 3
Develop knowledge and skills in entrepreneurship to identify and evaluate science and technology ideas in chemistry and the life sciences as opportunities to take through the feasibility and business plan.
Notes: Same as ENT 615.

CHE 623 Learning Theories in Chemistry 3
Introduction to the learning theories that inform chemistry education research, with the focus on how research findings regarding how humans learn chemistry can be applied to improve teaching and learning.

CHE 624 Survey of Natural Products Research 3
Survey of many different areas of natural products research, including taxonomy, genetics, nomenclature, biosynthesis, and process methods.
Prerequisites: Two courses in undergraduate organic chemistry and one course in undergraduate biochemistry.

CHE 632 Advanced Analytical Chemistry 3
Current research activities in the analytical area, primarily for first year graduate students. Four areas emphasized: chemical equilibrium, spectroscopy, separations, and electrochemistry.
Prerequisites: CHE 462 or CHE 406 or equivalent. One semester of instrumental analysis (CHE 531) recommended.

CHE 633 Bioanalytical Chemistry 3
Comprehensive study on various analytical methods used to characterize nucleic acid and protein drug targets and their molecular interactions with therapeutic agents.
Prerequisites: Permission of instructor.

CHE 636 Computational Chemistry 3
Survey of modern computational chemistry methods, including molecular mechanics, molecular dynamics simulations, conformational searching, and computational quantum mechanics.

CHE 641 Advanced Inorganic Chemistry II 3
Group theory, its applications, and other topics in advanced inorganic chemistry.
Prerequisites: CHE 442.
CHE 651 Structure Elucidation in Medicinal Chemistry 3
Use of structure elucidation in medicinal chemistry including drug design, chemistry of High Throughput Screening and focused libraries, lead development/optimization.
Prerequisites: Two courses in undergraduate organic chemistry and one course in undergraduate biochemistry.

CHE 652 Synthetic Organic Chemistry 3
Methods and problems in multi-step organic synthesis, including use of transition metal reagents and asymmetric synthesis. Applications in drug synthesis.
Prerequisites: Two courses in undergraduate organic chemistry.

CHE 656 Enzyme Mechanisms 3
Detailed look at how enzymes catalyze a broad range of chemical reactions. Particular emphasis on the role of organic cofactors and metal ions in catalysis.
Prerequisites: CHE 352 and either CHE 420 or CHE 556, or permission of instructor.

CHE 658 Nucleic Acid Biochemistry 3
Structure and functions of nucleic acid and their biochemical reactions with cellular proteins. Emphasis on the genomic approach to identify and validate drug targets.
Prerequisites: Permission of instructor.

CHE 659 Receptor Biochemistry 3
Structure and biochemical properties of the various cell-surface receptors. Emphasis on specific receptors chosen as drug targets for various diseases.
Prerequisites: One course in undergraduate biochemistry.

CHE 660 Biochemical Pharmacology and Disease Targets 3
Drug action at the biochemical and molecular level. Focus on the biochemical and cellular mechanisms of action that guide the drug discovery and development process.
Prerequisites: One course in undergraduate biochemistry.

CHE 661 Advanced Physical Chemistry I 3
Selected topics in quantum chemistry, spectroscopy, statistical thermodynamics, and chemical kinetics will be developed with attention to methods of application.
Prerequisites: CHE 461 and CHE 462 or equivalent (one year of physical chemistry).

CHE 663 Spectroscopy and Structure of Proteins and Nucleic Acids 3
Spectroscopic and structural methods for the study of biological macromolecules, particularly proteins and nucleic acids. Topics include absorption spectroscopy, circular dichroism, fluorescence, FTIR, NMR, EPR, and X-ray crystallography.
Prerequisites: CHE 406 or CHE 461, CHE 420 or CHE 556, or permission of instructor.
Notes: May be repeated for a maximum of 6 credits when topic varies.

CHE 670B Adv Special Topic Biochemistry 1-6

CHE 670D Adv Special Topic Organic 1-6

CHE 680 Research Problems in Chemistry and Biochemistry 1-6
Advanced research in specialized areas of chemistry or biochemistry under the direction of a faculty member. Preparation for master’s thesis.
Prerequisites: Permission of instructor and department head.
Notes: May be taken for credit over two or more semesters.

CHE 691 Introduction to Graduate Research 1
Guides new students in the selection of a research advisor. Professors present brief summaries of their research projects. Topics relevant to research are also discussed.
Prerequisites: Admitted to graduate program in department.

CHE 699 Thesis 1-6
Individual guidance in the development of a specific research problem.
Prerequisites: Approval of research proposal by thesis committee.

CHE 703 Instrumental Analysis 3
Theory and practice of advanced analytical techniques with emphasis on instrumental methods of analysis.

CHE 704 Instrumental Analysis Laboratory 1
Laboratory work to accompany CHE 703.
Corequisites: CHE 703.

CHE 705 Advanced Organic Chemistry I 3
Advanced topics in organic chemistry with special emphasis on reaction mechanisms and stereochemistry.

CHE 706 Organometallic Chemistry 3
Theoretical and synthetic aspects of organometallic chemistry focusing on transition metal complexes and their applications to industrially important catalysis and to synthetic organic chemistry.

CHE 707 Biochemistry I 3
Introductory biochemistry presented from a chemical perspective. Topics include amino acids, proteins and enzymes, carbohydrates, nucleic acids, lipids, membranes, and carbohydrate catabolism.

CHE 708 Biochemistry II 3
Continuation of CHE 707. Enzyme catalytic mechanisms, additional topics in intermediary metabolism, genetic biochemistry, and selected topics in molecular physiology.
Prerequisites: CHE 707 or permission of instructor.

CHE 709 Biochemistry Laboratory 1
Introduction to biochemical techniques, including isolation, purification and characterization of biological molecules.
Prerequisites: CHE 707 or equivalent or permission of instructor.

CHE 713 Teaching Chemistry: Theory and Practice 1
Introduction to teaching chemistry with emphasis on theory, practice, and techniques.

CHE 720 Introduction to Graduate Research 1
Guides new students in the selection of a research advisor. Professors present brief summaries of their research projects. Topics relevant to research are also discussed.
Prerequisites: Admitted to graduate program in department.

CHE 724 Survey of Natural Products Research 3
Survey of many different areas of natural products research, including taxonomy, genetics, nomenclature, biosynthesis, and process methods.
Prerequisites: Two courses in undergraduate organic chemistry and one course in undergraduate biochemistry.

CHE 732 Advanced Analytical Chemistry 3
Current research activities in the analytical area, primarily for first year graduate students. Four areas emphasized: chemical equilibrium, spectroscopy, separations, and electrochemistry.
Prerequisites: CHE 462 or CHE 406 or equivalent, one semester of instrumental analysis (CHE 703) recommended.
CHE 733 Bioanalytical Chemistry 3
Comprehensive study on various analytical methods used to characterize nucleic acid and protein drug targets and their molecular interactions with therapeutic agents.
Prerequisites: Permission of instructor.

CHE 736 Computational Chemistry 3
Survey of modern computational chemistry methods, including molecular mechanics, molecular dynamics simulations, conformational searching, and computational quantum mechanics.

CHE 741 Advanced Inorganic Chemistry II 3
Group theory, its applications, and other topics in advanced inorganic chemistry.
Prerequisites: CHE 442.

CHE 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

CHE 751 Literature Seminar 1
A literature-based seminar focusing on scientific literature databases and presentation skills.
Prerequisites: CHE 780.

CHE 752 Dissertation Seminar 1
A research-based seminar focusing on the student's dissertation research during the semester the student expects to graduate.
Prerequisites: CHE 780.

CHE 753 Structure Elucidation in Medicinal Chemistry 3
Use of structure elucidation in medicinal chemistry including drug design, chemistry of High Throughput Screening and focused libraries, lead development/optimization.
Prerequisites: Two courses in undergraduate organic chemistry and one course in undergraduate biochemistry.

CHE 754 Synthetic Organic Chemistry 3
Methods and problems in multi-step organic synthesis, including use of transition metal reagents and asymmetric synthesis. Applications in drug synthesis.
Prerequisites: Two courses in undergraduate organic chemistry.

CHE 756 Enzyme Mechanisms 3
Detailed look at how enzymes catalyze a broad range of chemical reactions. Particular emphasis on the role of organic cofactors and metal ions in catalysis.
Prerequisites: CHE 352 and either CHE 420 or CHE 707, or permission of instructor.

CHE 758 Nucleic Acid Biochemistry 3
Structure and functions of nucleic acid and their biochemical reactions with cellular proteins. Emphasis on the genomic approach to identify and validate drug targets.
Prerequisites: Permission of instructor.

CHE 759 Receptor Biochemistry 3
Structure and biochemical properties of the various cell-surface receptors. Emphasis on specific receptors chosen as drug targets for various diseases.
Prerequisites: One course in undergraduate biochemistry.

CHE 760 Biochemical Pharmacology and Disease Targets 3
Drug action at the biochemical and molecular level. Focus on the biochemical and cellular mechanisms of action that guide the drug discovery and development process.
Prerequisites: One course in undergraduate biochemistry.
Chinese (CHI)

CHI 101 Elementary Chinese I 3
Introduction to the Chinese language and the cultures of the Chinese-speaking world. Emphasis on active listening, speaking, writing, and reading, and applied vocabulary.
MAC: MAC Global and Intercultural
Prerequisites: None.
Notes: Students with previous knowledge of Chinese are required to take the placement test. Students who are native or heritage speakers of Chinese MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course.

CHI 102 Elementary Chinese II 3
Continued study of the Chinese language and the cultures of the Chinese-speaking world at the introductory level. Emphasis on active listening, speaking, writing, and reading, and applied vocabulary.
MAC: MAC Global and Intercultural
Prerequisites: None.
Notes: Students with previous knowledge of Chinese are required to take the placement test. Students who are native or heritage speakers of Chinese MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course.

CHI 203 Intermediate Chinese I 3
MAC: MAC Global and Intercultural
CIC: CIC College Writing
Prerequisites: None.
Notes: Students with previous knowledge of Chinese are required to take the placement test. Students who are native or heritage speakers of Chinese MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course.

CHI 204 Intermediate Chinese II 3
Continued study of the Chinese language and cultures of the Chinese-speaking world at the intermediate level. Emphasis on active listening, speaking, writing, and reading, and applied vocabulary.
MAC: MAC Global and Intercultural
CIC: CIC College Writing
Prerequisites: None.
Notes: Students with previous knowledge of Chinese are required to take the placement test. Students who are native or heritage speakers of Chinese MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course.

CHI 210 Masterworks of Chinese Literature in Translation 3
Readings and discussion of the best works of Chinese literature in English translation from the traditional to the modern periods. Taught in English.

CHI 220 Modern Chinese Literature and Culture 3
Introductory Chinese culture course with interdisciplinary perspectives on modern Chinese society, history, literature, and art. Taught in English.
MAC: MAC Global and Intercultural

CHI 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

CHI 301 Third-Year Chinese Language 3
Third-year Chinese language course to improve oral and written proficiencies, including the Mandarin writing system. Taught in Chinese.

CHI 302 Third-Year Chinese Conversation and Composition 3
Third-year Chinese language course focusing on topics of current interest. Taught in Mandarin Chinese.

CHI 305 Topics in Chinese Culture 3
Third-year Chinese course exploring topical issues of China through art, literature, film, and popular media. Taught in English and/or Chinese.

CHI 313 Major Figures in Chinese Literature 3
Selected Chinese authors or figures read and discussed with attention to interpretation and literary analysis. Selection of figures vary. Taught in English with options to read and/or write in Chinese.
Notes: May be repeated once for credit when topic varies.

CHI 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

CHI 491 Chinese Tutorial 1-3
Directed program of conversation, reading, research, and individual instruction in Chinese language and literature.
Prerequisites: CHI 204 (or equivalent) and by permission of instructor.
Notes: Either CHI 491 (fall) or CHI 492 (spring), but not both, can be repeated once, up to three (3) semester hours each time.

CHI 492 Chinese Tutorial 1-3
Directed program of conversation, reading, research, and individual instruction in Chinese language and literature.
Prerequisites: CHI 204 (or equivalent) and by permission of instructor.
Notes: Either CHI 491 (fall) or CHI 492 (spring), but not both, can be repeated once, up to three (3) semester hours each time.

Classical Civilization (CCI)

CCI 105 The Fantastic World of Classics and Fiction 3
By comparing tales of fantasy and fiction from the ancient world and to modern science fiction classics students will investigate questions of mortality, ethics, civics, and the role of technology in the ancient world as well as their own.
MAC: MAC Foundations

CCI 117 The Spartans 3
This course explores Sparta, one of the strangest civilizations of the ancient world. How did a small, xenophobic, and authoritarian backwater fight off the mighty Persian Empire and dominate the Greek world for centuries? We will find out through readings and discussion of ancient literature, modern movies, and recent scholarship.
MAC: MAC Foundations
Prerequisites: Freshman standing.

CCI 201 Introduction to Greek Civilization 3
Introduction to Greek civilization from its beginnings to the Hellenistic age. Lectures and discussion will focus on the development of Greek literature, thought, and art in the context of society.
MAC: MAC Diversity and Equity
CCI 202 Introduction to Roman Civilization 3
Introduction to Roman civilization from its beginnings to the Roman Empire. Lectures and discussion will focus on the development of Roman literature, thought, and art in the context of society.
MAC: MAC Global and Intercultural

CCI 204 The Classical Art of Persuasion and Performance 3
An introduction to ancient theories and techniques of effective speech-making and persuasion and the modern study of taurascatics. Emphasis is placed on the ability to write persuasively using best practices in information literacy.

CCI 205 Mythology 3
Great myths of the world with emphasis on Greek and Roman mythology. Interpretation and evaluation of select works of literature dealing with mythological themes that have shaped human experience.
MAC: MAC Global and Intercultural

CCI 207 Ancient Sports and Society 3
Survey of the ancient Olympics and local games of Greece and the gladiatorial sports of the Roman world, with special attention to sociopolitical, economic, and religious impact of sporting behaviors.

CCI 211 Introduction to Greek Archaeology 3
Archaeological consideration of the Mycenaean, Archaic, Classical, and Hellenistic periods of Greek civilization.
MAC: MAC Global and Intercultural

CCI 212 Introduction to Roman Archaeology 3
Introduction to the archaeology of the Roman world, with particular emphasis on Rome and the monumental remains of its vast empire.
MAC: MAC Global and Intercultural

CCI 215 The Archaeology of Pompeii: A City Frozen in Time 3
This course focuses on the archaeological remains of Pompeii, a city buried by the eruption of Vesuvius in 79 CE, and the goal is to understand how different types of writing use the material evidence to provide insight into life in a Roman city.
MAC: MAC Written Communication

CCI 227 Comparative Studies in World Epics 3
Major world epics in translation including the following works in whole or in part: Gilgamesh, Iliad, Odyssey, Aeneid, Chanson de Roland, Divine Comedy, Jerusalem Delivered, Beowulf, Joyce's Ulysses.
MAC: MAC Global and Intercultural
CIC: CIC College Writing

CCI 228 Comparative Studies in World Drama 3
Greek, Latin, and modern plays in translation: representative plays from Aeschylus through Euripides, Seneca, Terence, Racine, O'Neil, Cocteau, Anouilh, et al.

CCI 240 Ancient Warfare 3
Survey of ancient warfare covering major battles, generals, strategy, tactics, weapons, and technology from the ancient Near East through the Roman Empire.
MAC: MAC Global and Intercultural

CCI 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

CCI 305 Classical Tragedy 3
Study of Greek tragedians of Athens in the fifth century and their subsequent influence on later literature. Readings from Aeschylus, Sophocles, Euripides, and Seneca.

CCI 306 Classical Comedy 3
Study of Greek comedy in the fifth and fourth centuries and its subsequent influence on later literature. Readings from Aristophanes, Menander, Terence, and Plautus.

CCI 312 The Art and Archaeology of Egypt 3
Introduction to the archaeology of Egypt, emphasizing the relations between Egypt and the Aegean in the Bronze Age.

CCI 313 Archaeology of the Aegean 3
Introduction to the Minoans and Mycenaean. The archaeology of the Aegean Islands, Crete, the coast of Asia Minor, including Troy, and the mainland of Greece in the Bronze Age.
CIC: CIC College Writing

CCI 314 Ancient Cities 3
Introduction to the great cities of the past, emphasizing the physical design of those cities, especially as it reflects changing political and social structures.
CIC: CIC College Writing

CCI 323 The World of Alexander the Great 3
An introduction to the Hellenistic period of Greek civilization, emphasizing its art and architecture, its religion and literature in their historical context.
Prerequisites: CCI 201 or CCI 211. or permission of instructor.

CCI 324 The Age of Cicero 3
Introduction to Roman literature and society in the first century BC Focus on the development of the genres of Latin literature and the relationship between politics and literature.

CCI 325 The Age of Augustus 3
Introduction to Roman literature and society during the reign of Augustus. Focus on the development of Latin epic poetry, historical writing, and elegy, and the relationship between authors and Emperor.

CCI 326 The Age of Nero 3
Introduction to Roman literature and society during the reign of Nero and his successors. Focus on readings that reflect changes in the Roman Empire of the first and second centuries.

CCI 327 The Age of Constantine 3
An introduction to the Roman empire under Constantine focusing on the major religious, political, artistic, and intellectual changes of the fourth century CE.
CIC: CIC College Writing

CCI 328 Spin, Opinion, Lies and the Caesars 3
A study of public opinion in the Roman Empire, in particular its use to legitimize and delitimize regimes and leaders and the important role that gossip played in the ability of emperors and usurpers to gain and maintain power.

CCI 329 Gates of Horn and Ivory: Dreaming in the Ancient World 3
Dreaming has always been part of our everyday experience. But did the Greeks and Romans dream any differently than we do? How and why did they extract meaning from their nightmares and daydreams? In this course, we will explore the cultural history of dreams and dream interpretation, a curious practice.
Prerequisites: Sophomore standing or above.

CCI 330 Women in Antiquity 3
Public and private lives of Greek and Roman women of the Classical Period, focusing on women’s political, religious, and domestic roles, their general social status, health and welfare.
CIC: CIC College Writing
Prerequisites: CCI 201, CCI 202, or CCI 205.
CCI 336 Language Change 3
What makes languages change and how does language change affect individuals and societies? Survey of the empirical study of language change, with insights drawn from linguistics, sociolinguistics, and anthropology.
CIC: CIC College Writing
Prerequisites: Sophomore standing or above.

CCI 340 Ancient Cosmology 3
Survey of ancient theories of the origins and configuration of the universe. Focus on Greek and Roman philosophical accounts, with some attention to Old Testament and Babylonian creation narratives.
CIC: CIC College Writing

CCI 350 Roman Law and Society 3
Exploration of major concepts and principles of Roman law and the society in which they developed, primarily through the study of cases from the writings by Roman jurists.
Prerequisites: CCI 202 or CCI 324 or permission of instructor.

CCI 360 Archaeology of the Roman Provinces: Britain and Gaul 3
Archaeological study of provinces of Gaul and Britain. Following in the footsteps of Julius Caesar to look at how incorporation into the empire changed the lives of the Celtic "barbarians."
Prerequisites: CCI 212 or permission of instructor.

CCI 365 Archaeology of the Roman Provinces: Asia Minor and Syria 3
Archaeological study of Asia Minor and Syria, a region at the crossroads between East and West. Focus on the impact of the Roman Empire on Eastern culture and society.
Prerequisites: CCI 212 or permission of instructor.

CCI 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

CCI 401 Archaeological Practicum 1-3
Participation in pre-approved archaeological work and opportunity to learn the field methods of classical archaeology firsthand.
Notes: May be repeated for a maximum of 6 s.h.

CCI 402 History of Latin Literature 3
A survey of Latin literature in English translation from the third century BC to the beginnings of the Middle Ages.
CIC: CIC College Writing
Prerequisites: Permission of instructor.

CCI 403 Independent Study 3
Directed program of reading, research, and individual instruction in Classical Studies.
Prerequisites: Permission of instructor.
Notes: May be repeated for credit for up to 6 s.h.

CCI 405 Advanced Studies in Mythology 3
Study of selected myths from Greece, Rome, and comparative cultures. Focus on original literature, supplemented by ancient and modern critical works. Topics will vary; see description for each term.
CIC: CIC College Writing
Prerequisites: CCI 205 or permission of the instructor.

CCI 407 Roman Myth and Legend 3
Examination of the myths and legends of ancient Rome and their connection to the history of Roman political and religious life.
CIC: CIC College Writing
Prerequisites: CCI 205.

CCI 412 The Archaeology of Roman Daily Life 3
Study of Roman daily life and the evidence from archaeology and ancient literature for daily life.
CIC: CIC College Writing

CCI 414 Ancient World: Selected Topics 3
Varying topics in ancient Near Eastern, Greek, and Roman history, including politics and public rituals, patterns of social organization, ancient slavery, and cross-cultural interactions.
Notes: May be repeated once for credit when topic varies. Same as HIS 441.

CCI 450 Internship in Classical Studies 1-6
Supervised field experience in museums or institutes devoted to the study of Ancient Greece or Rome and/or visitation of classical sites.
Prerequisites: Permission of department head.
Notes: May be repeated once, for a maximum of 6 s.h. credit.

CCI 455 UNCG in Rome 6
On-site study of the history and material culture of Rome in its social, literary, and political context from the prehistory of the city and its environs through Late Antiquity.
Prerequisites: Minimum overall GPA of 2.75 and CCI 202 or CCI 212 and permission of instructor.

CCI 475 Archaeology of Death in the Classical World 3
Survey of archaeological evidence for funerary customs and beliefs in the Bronze Age Aegean, Classical Greece, and Rome, with a study of comparative evidence from other ancient and modern cultures.
CIC: CIC College Writing
Prerequisites: CCI 211 or CCI 212 or ATY 258 or ATY 360.

CCI 479 Readings in Roman History 3
Survey of major topics in Roman history through primary sources in translation from the founding of the Republic in 509 BC to Marcus Aurelius’ death in AD 180.
Prerequisites: Permission of instructor.

CCI 490 Seminar in Classical Studies 3
Seminar on the history and methodologies of scholarship in Classical Studies. Topics will vary.
CIC: CIC College Writing
Prerequisites: Permission of instructor.
Notes: May be repeated once for credit when topic changes.

CCI 493 Honors Work 3-6
Honors Work.

CCI 512 The Archaeology of Roman Daily Life 3
Study of Roman daily life and the evidence from archaeology and ancient literature for daily life.

Communication Sciences and Disorders (CSD)

CSD 150 Communication Disabilities in Film 3
Popular films and their portrayal of individuals with various speech, language, or hearing problems; how that information promotes images that are positive and negative; and how those images influence public opinion.

CSD 219 Communication Disorders Laboratory 1
Supervised therapy for students with speech, voice, language, or hearing problems.
Prerequisites: Permission of instructor.
Notes: May be repeated for credit. Grade: Pass/Not Pass (P/NP).
CSD 250 Concepts in Communication Sciences 3
Concepts essential in understanding human communication; factors affecting life-long development and competency of speech, language and hearing.
Notes: For freshmen and sophomores.

CSD 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

CSD 306 Introduction to Phonetics 3
Recording of speech using the International Phonetic Alphabet in broad transcription. General American dialects and variations.
Prerequisites: Majors only, or by permission of instructor.
Corequisites: Must be taken concurrently with CSD 307, CSD 308, and CSD 309.
Notes: Not open to freshmen or sophomores.

CSD 307 Speech and Hearing Science 3
Acoustic principles of speech and hearing; analysis of the acoustic characteristics of speech and physiological correlates; speech perception.
Prerequisites: Majors only, or by permission of instructor.
Corequisites: Must be taken concurrently with CSD 306, CSD 308, and CSD 309.
Notes: Not open to freshmen or sophomores.

CSD 308 Language and Speech Development 3
Theory and evidence of the chronological development of phonology, syntax, semantics, and pragmatics in the child.
Prerequisites: Majors only, or by permission of instructor.
Corequisites: Must be taken concurrently with CSD 306, CSD 307, and CSD 309.
Notes: Not open to freshmen or sophomores. Students cannot receive credit for both this course and SES 240.

CSD 309 Anatomy and Physiology of the Speech and Hearing Mechanism 3
Anatomical and physiological bases of human communication.
Prerequisites: Majors only, or by permission of instructor.
Corequisites: Must be taken concurrently with CSD 306, CSD 307, and CSD 308.
Notes: Not open to freshmen or sophomores.

CSD 333 Independent Study 1-3
Directed study and/or research under faculty supervision.
Prerequisites: Permission of the instructor.
Notes: May be repeated once for credit for a total of 6 s.h. Grade: Pass/Not Pass (P/NP).

CSD 334 Introduction to Audiology 3
Basic anatomy and physiology of the auditory system, fundamental hearing science, and methods and techniques of hearing measurement and interpretation for the assessment, diagnosis, evaluation, and rehabilitation of hearing disorders.
Prerequisites: Pr. or Coreq.: CSD 308, and either SES 240 or CSD 307. or permission of instructor;
Notes: Speech Pathology/Audiology and Professions in Deafness majors only.

CSD 336 Speech Sound Disorders 3
Assessment and treatment procedures of speech and sound disorders.
Prerequisites: CSD 306, CSD 307, CSD 308, and CSD 309. or permission of instructor.

CSD 337 Language Disorders 3
Nature, theory, measurement, and management of language problems across the life span.
Prerequisites: CSD 306, CSD 307, CSD 308, CSD 309.

CSD 338 Voice and Fluency Disorders 3
Basic theories and principles in the onset, development, and maintenance of stuttering and voice disorders in children and adults. Primary factors in prevention, measurement, assessment, and management.
Prerequisites: CSD 306, CSD 307, CSD 308, CSD 309.

CSD 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

CSD 450 Diagnostic Procedures: Inquiry, Observation and Measurement 3
Processes and techniques of data acquisition and analysis for the diagnosis, assessment, and evaluation of communication disorders.
Prerequisites: Completion of all CSD 300-level courses required for the major or permission of the instructor.

CSD 452 Communication and Aging 3
Development of communication in old age; factors affecting development and competency; communication evidence and theories of aging; facilitation of life-long functional communication.
Prerequisites: CSD 308 or permission of instructor.

CSD 454 Advanced Speech Science 3
Acoustic theory and methods of analysis; acoustic structure of speech and its physiological correlates; application of acoustic information to clinical management of disorders of communication.
Prerequisites: CSD 306, CSD 307, CSD 308, CSD 309.

CSD 456 Aural Rehabilitation 3
Principles of aural rehabilitation with hearing impaired adults and their significant others.
Prerequisites: CSD 334.

CSD 457 Pediatric Aural Rehabilitation 3
Study of new technologies available for children with hearing impairment and the impact of these technologies on therapy and teaching.
Prerequisites: CSD 334 for undergraduates. permission of instructor for graduate students.

CSD 471 Honors Clinical Practice in Speech-Language Pathology 3
CSD 471 offers supervised clinical experience in the treatment of communication disorders to select undergraduate students majoring in Speech Language Pathology and Audiology (SPAU).

CSD 475 Instrumentation for Communication Disorders 3
Instrumentation commonly used in communication disorders; operation and measurement techniques for clinical and research applications.
Prerequisites: Permission of instructor.

CSD 476 Structured Clinic Observations 1
Guided clinical observations and experiences as a therapy assistant in the UNCG Speech and Hearing Center.
Prerequisites: CSD 334, CSD 336, and CSD 337. or permission of instructor;
Notes: Grade: Pass/Not Pass (P/NP).

CSD 487 Introduction to Adult Language Disorders 3
Assessment, treatment, and quality of life issues associated with acquired cognitive-linguistic disorders in adults will be addressed. The targeted disorders include aphasia, dementia, and traumatic brain injury.
CSD 488 Neurology of Speech, Language and Hearing 3
An overview of neuroanatomy and neurophysiology with a concentration on neurological mechanisms related to speech, language and hearing.
Prerequisites: CSD 309 or permission of instructor.

CSD 490 Senior Honors Project 3
Independent original scholarship, completed under the supervision of a faculty member. Culminates in an original oral presentation, written document, or other creative work.
Prerequisites: Senior status and admission to the Lloyd International Honors College and the CSD Honors Program, or permission of the instructor. Notes: May be repeated once for credit.

CSD 493 Honors Independent Study 3-6
Directed study and/or research under faculty supervision.
Prerequisites: Senior status and admission to the Lloyd International Honors College and the CSD Honors Program, or permission of the instructor.
Notes: May be repeated once for credit.

CSD 495 Special Topics Seminar 1
Critical analysis of contemporary topics in Communication Sciences and Disorders.
Prerequisites: CSD 334, CSD 336, and CSD 337, or permission of instructor.
Notes: May be repeated for credit twice during the senior year of UNCG undergraduates. Second degree students may enroll twice during the year they are taking undergraduate courses.

CSD 550 Diagnostic Procedures: Inquiry, Observation and Measurement 3
Processes and techniques of data acquisition and analysis for the diagnosis, assessment, and evaluation of communication disorders.

CSD 556 Aural Rehabilitation 3
Principles of aural rehabilitation with hearing impaired adults and their significant others.

CSD 557 Pediatric Aural Rehabilitation 3
Study of new technologies available for children with hearing impairment and the impact of these technologies on therapy and teaching.
Prerequisites: Permission of instructor.

CSD 587 Introduction to Adult Language Disorders 3
Assessment, treatment, and quality of life issues associated with acquired cognitive-linguistic disorders in adults will be addressed. The targeted disorders include aphasia, dementia, and traumatic brain injury.

CSD 588 Neurology of Speech, Language and Hearing 3
An overview of neuroanatomy and neurophysiology with a concentration on neurological mechanisms related to speech, language and hearing.

CSD 600 Professional Issues and Ethics in Speech-Language Pathology 3
Issues related to the profession, service delivery, ethics, legal considerations, funding issues, program administration and credentialing. Content is in accordance with the American Speech-Language-Hearing Association Scope of Practice.
Prerequisites: Admission to appropriate degree program or permission of instructor.

CSD 604 Fluency Disorders 2
Assessment, diagnosis, and treatment of fluency disorders in children, adolescents, and adults.
Prerequisites: Admission to appropriate degree program or permission of instructor.

CSD 605 Seminar in Speech and Language Pathology 3
Studies dealing with specialized areas of communication disorders. Topic to be announced each semester course is offered.
Prerequisites: Graduate-level courses in appropriate content area and admission to appropriate degree program or permission of instructor.
Notes: May be repeated for credit when topic varies.

CSD 606 Cognitive-Linguistic Disorders in Adults 3
Assessment, diagnosis, and treatment of communication disorders resulting from stroke, dementia, and traumatic brain injury.
Prerequisites: Admission to appropriate degree program or permission of instructor.

CSD 608 Seminar in Cleft Palate 3
Investigation of current literature and theories of cleft palate. Speech and hearing aspects; controversial procedures in repair and rehabilitation.
Prerequisites: CSD 551, CSD 570 or equivalent and admission to appropriate degree program or permission of instructor.

CSD 612 Augmentative and Alternative Communication 1
Knowledge of augmentative and alternative communications and problem-solving in the design and application of appropriate AAC systems.
Prerequisites: Admission to appropriate degree program or permission of instructor.

CSD 614 Language Learning Disabilities 3
Assessment and treatment of spoken and written language learning disabilities in school-age children and adolescents with special emphasis on the collaborative role of the speech-language pathologist in school-based settings.
Prerequisites: Admission to appropriate degree program or permission of instructor.

CSD 616 Motor Speech Disorders 3
Neurologic basis, assessment and treatment of dysarthria and apraxia.
Prerequisites: Admission to appropriate degree program or permission of instructor.

CSD 619 The Supervisory Process in Communication Sciences and Disorders 1
Study and practice of clinical supervision in speech-language pathology. Theoretical models of supervision, pertinent research, and clinical practice.
Prerequisites: Admission to appropriate degree program or permission of instructor.

CSD 627 Cultural and Linguistic Diversity in Communication Sciences and Disorders 1
Identification and treatment of speech and language differences in diverse populations.
Prerequisites: Admission to appropriate degree program or permission of instructor.

CSD 628 Cognitive and Linguistic Disorders in Adults 2 3
The purpose of this course is to provide the requisite knowledge required to understand, evaluate, and treat acquired adult cognitive-linguistic disorders including traumatic brain injury, right hemisphere disorder, and dementias.
Prerequisites: CSD 606 or permission of instructor.
CSD 629 Dysphagia 3
Anatomical bases of normal and disordered swallowing in children and adults; evaluation and treatment of swallowing disorders.
Prerequisites: Admission to appropriate degree program or permission of instructor.

CSD 632 Introduction to Research in Communication Sciences and Disorders 3
Introduction to research procedures in the study of communication sciences and disorders.
Prerequisites: Admission to appropriate degree program or permission of instructor.

CSD 633 Special Projects in Communication Sciences and Disorders 3
Individual scholarly project developed by the student with faculty guidance.
Prerequisites: Admission to appropriate degree program or permission of instructor.

CSD 634 Clinical Practicum for Speech-Language Pathology Majors 1
Instruction in the clinical process for providing evaluations and treatment for individuals with communication disorders or differences.
Corequisites: CSD 671L or permission of instructor.

CSD 639C Independent Study 1-3
Individual guidance in the development of a specific research problem.
Prerequisites: Admission to appropriate degree program, or permission of instructor and major advisor.

CSD 639L Clinical Practice II 2
Clinical practicum experience in providing screenings, evaluations and treatment for patients or clients with communication disorders or differences.
Prerequisites: CSD 671, CSD 671L.
Corequisites: CSD 678 or permission of instructor.

CSD 671 Clinical Foundations in Speech-Language Pathology I 3
Introduction to research procedures in the study of communication sciences and disorders.
Prerequisites: Admission to appropriate degree program or permission of instructor.

CSD 671L Clinical Practice I 2
Clinical practicum experience in providing screenings, evaluations and treatment for patients or clients with communication disorders or differences.
Corequisites: CSD 671 or permission of instructor.

CSD 672 Clinical Foundations in Speech-Language Pathology II 3
Instruction in specialized topics related to contemporary professional practice and use of instrumentation and technology for evaluating and treating individuals with communication disorders or differences.
Prerequisites: CSD 671, CSD 671L.
Corequisites: CSD 678L or permission of instructor.
CST 105 Introduction to Communication Studies 3
Students will learn to construct and deliver coherent oral arguments for various contexts. Principles of competent communication will be addressed. Recordings will be used to evaluate and enhance communication skills.

MAC: MAC Oral Communication

CST 199 Introduction to Communication Inquiry 1
This course prepares students to ask and answer questions from a communication perspective. Students will engage critical thinking skills to evaluate evidence, interpret communication journal articles, and package information.

CST 200 Communication and Community 3
Exploration of role and impact of communication in diverse communities. Ethical and social responsibilities of civic action are examined in the context of community problem solving. Includes service learning experience in a supervised setting.

CST 207 Relational Communication 3
Contemporary theory and practice of relational communication, with emphasis on increasing awareness of strategic and ethical uses of communication to build relationships.

CST 210 Communicating Ethically 3
Provides students with an opportunity to think critically about ethical and moral dimensions of current practices in interpersonal, institutional, and public communication.

CST 300 Communication Theory 3
Critical analysis and evaluation of scientific, rhetorical, and critical theories of communication. Emphasis on how theory assists us to understand, predict, and transform society.

Prerequisites: Junior status and above and any two courses from among CST 200, CST 207, and CST 210, or permission of instructor.

CST 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

CST 305 Persuasion in Western Culture 3
The history of rhetoric (persuasion) and its evolution in Western culture, from ancient Greece to our current age. Application of rhetorical theory/criticism to various historical and contemporary communicative events.

Prerequisites: CST 105 and junior standing.

CST 308 Organizational Communication 3
Examines contemporary organizational communication theory and practices as they enable organizations to function, change, learn, and create/recreate identities.

CST 311 Deliberation and Decision Making 3
Course content explores the theory and practice of collaborative argumentation. This includes analysis and deliberation over contemporary issues and training in reasoned, persuasive oral and written communications.

CST 315 Persuasion and Social Influence 3
Theories and practices of persuasion in critically evaluating and creating/composing persuasive messages. Role of ethics in relational, group, and mass mediated persuasive communication.

CIC: CIC College Writing

CST 333 Special Problems 1-3
Guided individual study in an area of special interest to the student.

Prerequisites: Permission of faculty supervisor.

Notes: May be repeated for credit.

CST 337 Intercultural Communication 3
Drawing from multiple theoretical perspectives, this course explores theories, research, and issues important to the understanding of communication between people from different racial, ethnic, national, and other cultural backgrounds.

CST 341 Communication and Workplace Relationships 3
Advanced communication skills applied to the workplace. Emphasis on both oral and written communication in interviewing, making presentations, and creating ethically grounded professional communication.

CST 342 Communication and Public Relations: Strategies and Innovations 3
Prepares students for effective and ethical public communication and relations on behalf of profit and not-for-profit organizations. Students conduct research, apply strategies, and utilize innovative methods to meet organizational communication objectives.

CIC: CIC College Writing

CST 343 Crisis Communication 3
Investigates the range of crises facing us in every segment of society. From readings, case studies, videos, and presentations an understanding of current communication functions relating to these issues are studied.

CIC: CIC College Writing

CST 344 Conflict Communication 3
Course explores how communication is central to expressing opposing voices and managing conflicted relationships, change, diversity/difference, and identities.

CIC: CIC College Writing

CST 350 Small Group and Team Communication 3
Theory and practice of small group/team communication, emphasizing student participation. Develops skills for leadership in small group/teams. Develops framework for analysis of effective small groups/teams.

CST 390 Speaking Center Theory and Practice 3
Explores principles of Communication Across the Curriculum, applying them to interpersonal communication, listening, group communication, public speaking, and pedagogy to prepare Communication Consultants in UNCG’s Speaking Intensive program.

Prerequisites: CST 105 or CST 341 (may be taken as a corequisite). 3.0 GPA in the student’s major; written permission from the Speaking Across the Curriculum Center Director.

CST 399 Communication Research Methods 3
Theoretical examination and practical application of the philosophical, ideological, and processual bases for selecting, using, and evaluating methods of conducting and reporting communication research.

CST 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.
CST 403 Communication Pedagogy 3
Seminar focusing on the effect of communication upon learning. For undergraduates interested in teaching or training. Emphasis on pedagogical principles and instructional materials.
Prerequisites: Permission of instructor.

CST 406 Speaking Out for Community Change 3
Exploration of theory and practice in community advocacy. Focus on public deliberation, moral conflict, and community dialogue in value-laden topics and controversies.
Prerequisites: CST 305 recommended for undergraduates.

CST 407 Gender and Communication 3
Using a case study method, this course examines the relationship of gender to communication process. Identity, language, and relationships within cultural context are key concepts under study.
Prerequisites: CST 207 or equivalent.

CST 408 Health Communication 3
Focuses on current trends in the design of health messages. Explores health campaigns, interpersonal interventions, health care institutions, and consumer-based models and participatory approaches to health.
Prerequisites: CST 105.
Notes: May be repeated once for credit.

CST 412 Communication Internship 3-6
Field learning experience using communication theory, research, and strategies in agencies and organizations within the larger community.
Prerequisites: Will vary. Junior or senior status, and permission of instructor;
Notes: May be repeated for maximum of 6 s.h. credit. Open to majors only.

CST 415 Family Communication 3
Exploration of family communication, including symbols, meanings, rules, traditions, stories, secrets, roles, artifacts, and theoretical frameworks. Practical application exercises and research related to family communication practices and patterns.

CST 416 Communication and Ethnography: Writing Life 3
Intensive study and practice of methodologies of personal narrative, ethnography, autoethnography, and memoir. Examination and expression of self, identity, and communication in close personal relationships via writing life histories.
CIC: CIC College Writing
Prerequisites: Junior or senior standing.

CST 417 Communication and Friendship 3
Course focuses on communication in friendships, via a close examination of friendships in everyday and popular culture contexts. Ethnographic methodology and dialectical, narrative, and identity theory frame our study.
CIC: CIC College Writing

CST 420 Environmental Communication 3
Explores environmental communication including current issues, theoretical frameworks, ethical frameworks, and the symbolic relationship of humans to nature. Emphasizes research, analysis, critical self-reflection, and practices.

CST 421 African American Culture and Identity 3
Examines dynamic ways that African Americans construct, maintain, and negotiate their social identities in a variety of contexts. Explores the connections among race/ethnic identity, communication, and culture.
Prerequisites: Junior, senior, or graduate standing.

CST 440 Reclaiming Democracy: Dialogue, Decision-Making, Community Action 4
This course asks: How do we reclaim our democracy as a humane, inclusive process responsible to the needs of all community members and what does this require of us?
Prerequisites: Junior or senior standing.

CST 455 Relational Communication and the Hollywood Feature Film 3
Analysis and application of images, discourses, and practices concerning human communication and relationships as they are represented in the powerful cultural medium of film.
Prerequisites: Undergraduates: CST 207, CST 300 or CST 305, and upper division standing.

CST 460 Special Topics in Communication Research 3
Seminar in applying communication theory and research to current topics.
Notes: May be repeated for credit an unlimited number of times when topics vary.

CST 499 Senior Capstone 3
Graduating seniors synthesize their experience of the communication studies major by reflecting on course work and scholarly focus areas, assessing departmental learning outcomes, and constructing a career portfolio.
Prerequisites: Senior status or permission of instructor.

CST 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

CST 601 Engaging Communication Scholarship I 3
Theories and research methodologies in communication studies. Emphasis on application of theory to social and cultural contexts and use of methods to solve research problems/answer research questions.

CST 602 Engaging Communication Scholarship II 3
Study of theories and research methodologies in communication studies. Application of communication theory to social and cultural contexts and use of methods to solve research problems/answer research questions.

CST 603 Communication Pedagogy 3
Seminar focusing on the effect of communication upon learning. For graduate teaching assistants in any discipline, graduates or undergraduates interested in teaching or training. Emphasis on pedagogical principles and instructional materials.

CST 605 Communicating for Social Change 3
Theoretical and practical views on how to work inside and outside institutions of power to transform values, assert credibility, and mobilize others. Emphasis on how communication creates social change. Topics and emphasis vary by semester.

CST 606 Speaking Out for Community Change 3
Exploration of theory and practice in community advocacy. Focus on public deliberation, moral conflict, and community dialogue in value-laden topics and controversies.

CST 612 Seminar in Communication Studies 3
Subject matter varies.
Prerequisites: Admission to appropriate degree program or permission of instructor.
Notes: May be repeated for credit.

CST 621 African American Culture and Identity 3
Examines dynamic ways that African Americans construct, maintain, and negotiate their social identities in a variety of contexts. Explores the connections among race/ethnic identity, communication, and culture.
CST 630 Communication, Organization, and Democracy 3
Draws upon critical organizational communication and critical/cultural studies to consider the role of communication in creating and sustaining democratic organizing in micro, meso, and macro contexts.

CST 632 Communication Ethics and Social Justice 3
Theory and practice of communication ethics in a free society. Issues and cases ranging from intrapersonal to mass media communication situations.
Prerequisites: Admission to appropriate degree program or permission of instructor.

CST 635 Identity, Culture, and Communication 3
Takes critical/cultural studies approaches to examine how culturally significant identity sites such as race, ethnicity, gender, and diaspora are constructed, negotiated, and resisted through communication.

CST 650 Independent Study 1-3
Topic to be determined by faculty advisor and student.
Prerequisites: Permission of Instructor.

CST 652 Research Practicum in Communication 1-3
Engagement in communication research with the direct supervision of a member of the Graduate Faculty.
Prerequisites: Permission of Graduate Faculty member with whom student wishes to work.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

CST 655 Relational Communication and the Hollywood Feature Film 3
Analysis and application of images, discourses, and practices concerning human communication and relationships as they are represented in the powerful cultural medium of film.

CST 659 Communication and Gender 3
Ways in which communication process constructs gendered communities. Analysis of gendered language codes, speech communities, and messages that transform community.

CST 663 Seminar in Relational Communication 3
Major interpersonal communication theories and constructs, and methods for investigating them.
Prerequisites: Admission to appropriate degree program or permission of instructor.

CST 698 Capstone Experience in Communication (Final Research Project) 1-3
Synthesis of theories, research methods, and practices of communication that will shape the 21st Century, demonstrated through independent scholarly research conducted in consultation with faculty committee.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

CST 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

CST 803 Research Extension 1-3
Research Extension.

Community and Therapeutic Recreation (CTR)

CTR 101 Leisure and American Lifestyles 3
Examination of personal, philosophical, socio-cultural, economic, behavioral, and historical dimensions of leisure; evolution of leisure lifestyles; exploration of the interrelationship between individuals, groups, and society in the context of leisure.
MAC: MAC Health and Wellness
Prerequisites: Major other than RPMT.
Notes: Students may not receive credit for both CTR 101 and CTR 111.

CTR 102 Creating a Meaningful Life 3
Examine personal, social, and cultural bases for a healthy and well-balanced life. Recognize and foster creative potential for lifelong personal growth, satisfying quality of life through leisure, and meaningful rewards.
MAC: MAC Health and Wellness

CTR 103 Sex, Drugs, & Rock n Roll 3
An exploration of deviant leisure through the lens of recreational sex; substance use in recreational settings; and the use of music for forming relationships and establishing identity in leisure.
MAC: MAC CritThink Soc and BehavSci

CTR 111 Introduction to Recreation and Parks 3
Historical and philosophical foundations of recreation and parks; examination of agencies providing services, social and economic factors influencing recreation in contemporary society, professional organizations, and career opportunities.
Notes: RPMT majors and minors only. Students may not receive credit for both CTR 111 and CTR 101.

CTR 203 Fundamentals of Outdoor Leadership 3
Introduction to basic wilderness living skills, conservation of wild areas, sound safety practices, outdoor leadership theory, and practical application as related to a college outdoor recreation program.
Prerequisites: Permission of instructor.

CTR 212 Leadership in Recreation and Parks 3
Analysis of techniques, principles, and practices of leadership and group dynamics in recreation and parks.

CTR 213 Program Planning in Recreation and Parks 4
General principles of program planning; intensive study of program areas available to participants; analysis of methods and techniques of program design, organization, implementation, and evaluation.

CTR 231 Introduction to Therapeutic Recreation 3
Survey of key concepts, theoretical underpinnings, and procedures in clinical and community recreation settings. Focuses upon varied special needs populations, prescriptive activities, and documentations using medical charting.
Prerequisites: RPMT major or minor.
Corequisites: CTR 111.

CTR 235 Disabling Conditions and Therapeutic Recreation 3
Major primary and secondary disabling conditions typically encountered in TR practice will be covered. These include, but not limited to, physical disorders, behavioral health/psychiatric disorders, and cognitive/developmental disorders. Implications, considerations, and treatment techniques will be covered.
Prerequisites: RPMT major or minor, CTR 111; Corequisites: CTR 111.
CTR 241 Community Recreation 3
Operation of public, nonprofit, and commercial recreation agencies, in a community, with emphasis on types of programs and services offered, current trends, and issues impacting delivery of services.
Prerequisites: RPMT majors and minors only, or permission of instructor.

CTR 251 Practicum Preparation in Recreation and Parks 1
A course preparing students to seek and apply for practicum positions in recreation and parks management and develop professional resumes, cover letters, and job search skills.
Prerequisites: CTR 111, RPMT majors or minors only.

CTR 252 Professional Internship Preparation in Recreation and Parks 1
Portfolio-based course preparing students to seek and apply for internship positions in recreation and parks management.
Prerequisites: CTR 315, RPMT majors.

CTR 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

CTR 314 Recreation Services with Underrepresented Groups 3
Awareness of and sensitivity to the needs of people with disabilities and other disenfranchised individuals with regard to planning, delivering, and evaluating recreation/leisure services in the community.

CTR 315 Practicum in Recreation and Parks 3,6
Directed practical experience in approved recreation and parks agency. Opportunities provide for student to develop knowledge, values, and skills appropriate for entry-level practice in the profession.
Prerequisites: CTR 111, CTR 212, CTR 213, CTR 231 or CTR 241; or permission of instructor; must have a cumulative 2.0 GPA to enroll.
Notes: A three (3) semester hour experience may be repeated once for a maximum of 6 s.h.

CTR 338 Client Assessment in Therapeutic Recreation 3
Introduction to the theories, concepts, and techniques used in client assessment for therapeutic recreation programs and treatment.
Prerequisites: CTR 111 or permission of instructor.

CTR 342 Recreation Area and Facility Development 3
Examination of the basic procedures involved in the planning process; basic considerations in park planning and maintenance management; analysis of the methods and techniques of site evaluation, design, and maintenance management.
Prerequisites: CTR 111.

CTR 346 Campus Recreation Management 3
Basic principles and procedures of campus recreation management with emphasis on programming, maintenance, budgeting, and risk management aspects of program development.

CTR 348 Evaluation Methods in Recreation and Parks 3
Examination and application of evaluation methods in recreation and parks including the reasons for conducting evaluations, evaluation questions, data collection methods and analysis, interpretation of results for making recommendations, and report writing.
Prerequisites: CTR major or minor (or permission from the instructor).

CTR 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

CTR 405 Special Topics Seminar 3
Specific course title identified by subscript, e.g., Problems Seminar: Leisure and Aging. Nature of problems themselves and their impact on societies studied.
Prerequisites: Course work in appropriate content area and/or permission of instructor.
Notes: May be repeated once for credit.

CTR 411 Financing and Budgeting in Recreation and Parks 3
Examination of the financial needs and techniques utilized in recreation and parks. Emphasis on philosophy, terminology, and measurement of economies, revenue streams, and budgets.
Prerequisites: CTR 315. Senior RPMT major, or permission of instructor.

CTR 415 Management in Recreation and Parks 3
Examination of the financial needs and techniques utilized in recreation and parks. Emphasis on philosophy, terminology, and measurement of economies, revenue streams, and budgets.
Prerequisites: CTR 315. RPMT major or minor, or permission of instructor.

CTR 416 Management in Recreation and Parks 3
Principles and practices of management in recreation and parks agencies with emphasis on motivation, leadership, finance and budgeting, personnel policies and practices, and marketing and public relations.
Prerequisites: CTR 315 or permission of instructor.

CTR 417 Internship in Recreation and Parks 12
Advanced practical experience in an approved recreation and parks agency. Internship consists of a full-time placement for a minimum of 12 weeks and 480 clock hours. Therapeutic Recreation students are required to complete a full-time placement for a minimum of 14 weeks and 560 clock hours to comply with national and state credentialing standards.
Prerequisites: CTR 315 and CTR 416. must have a cumulative 2.0 GPA to enroll.

CTR 419 Directed Research in Recreation, Parks, and Tourism 3
Identification and investigation of research questions in recreation and parks. Opportunity for students to conduct research with direction from scholars in the field.
Prerequisites: Permission of instructor.

CTR 423 Meeting and Event Planning and Management 3
Comprehensive understanding of the elements necessary to conduct a quality event or meeting; emphasis on skills needed to identify, create, organize, implement, and evaluate a special event, conference, or meeting.
Prerequisites: CTR 111 or permission of instructor.

CTR 429 Special Event Management 3
Study of elements necessary to manage and operate an event business; emphasis on development and presentation of event proposals, customer service, fee structures, event design, risk management, and legal issues.
Prerequisites: CTR 423 or permission of instructor.

CTR 433 Trends and Issues in Therapeutic Recreation 3
Study of trends and issues in therapeutic recreation; examination of current controversial issues, interdisciplinary team practice, supervisory functions, and professional advocacy.
Prerequisites: CTR 315 or permission of instructor.
Corequisites: CTR 439.

CTR 435 Animal Assisted Therapy 3
An introduction to the theories, concepts, and techniques used in animal assisted therapy in long-term care, rehabilitation, acute care hospitals, special schools, and other settings.
CTR 437 Interventions and Facilitation Techniques in Therapeutic Recreation 3
This course will prepare students to plan, implement, and evaluate a variety of therapeutic recreation using various therapeutic facilitation techniques. Relevant efficacy research and theoretical foundations will be included.

Prerequisites: Prerequisite or Coreq.: CTR 231.

CTR 439 Clinical Procedures in Therapeutic Recreation 3
Students learn clinical skills related to the therapeutic recreation process with a focus on developing individualized treatment plans; developing goals, objectives and treatment interventions; documentation skills, discharge planning, and evaluation.

Prerequisites: Concurrent enrollment in CTR 231 or previous credit for CTR 231, or permission of instructor.

CTR 444 Recreation, Parks, and Health 3
Examination of evidence regarding the impacts of recreation, parks, green space, and leisure on the health and well-being of individuals and communities.

Prerequisites: RPMT major or minor, or permission of instructor.

CTR 451 Service Management 3
Integration of service systems management, human behavior, and marketing in the creation, delivery, and assurance of service quality and customer service.

Notes: Same as ENT 451, STH 451.

CTR 493 Honors Work 3-6
Honors Work.

Prerequisites: Permission of instructor. 3.30 GPA in the major; 12 s.h. in the major.

Notes: May be repeated for credit if the topic of study changes.

CTR 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

CTR 611 Foundations of Recreation and Parks 3
Understand and apply various theories and concepts, as well as current research, which influence the study of leisure behavior and the delivery of recreation services.

CTR 613 Recreation and Parks Management 3
Theories and patterns of management appropriate for leisure service delivery systems. Organizational planning, legal foundations, financial management, personnel management, and the politics of leisure service delivery systems.

Prerequisites: CTR 611 or permission of instructor.

CTR 615 Financing and Budgeting in Recreation and Parks 3
Examination of the financial needs and techniques utilized in recreation and parks. Emphasis on philosophy, terminology, and measurement of economies, revenue streams, and budgets.

CTR 633 Professional Issues in Therapeutic Recreation 3
Study of professional issues in therapeutic recreation including professionalism, credentialing, research, professional preparation, continuing education, health care, ethics, advocacy, legislation, marketing, and role of TR managers in addressing these issues.

CTR 634 Advanced Procedures in Therapeutic Recreation 3
Health care delivery service in community and medical arenas. Role of therapeutic recreation within that system. Administrative/managerial procedures.

Prerequisites: CTR 611 or permission of instructor.

CTR 635 Animal Assisted Therapy 3
An introduction to the theories, concepts, and techniques used in animal assisted therapy in long-term care, rehabilitation, acute care hospitals, special schools, and other settings.

CTR 637 Advanced Interventions and Facilitation Techniques in Therapeutic Recreation 3
This course will prepare students to select, plan, implement, and evaluate advanced therapeutic recreation interventions using various therapeutic facilitation techniques. Relevant efficacy research and theoretical foundations will be included.

Prerequisites: CTR 611 or permission of instructor.

CTR 638 Advanced Client Assessment in Therapeutic Recreation 3
Introduction to the theories, concepts and techniques used in client assessment for therapeutic recreation programs and treatment. The course will also address the administrative issues surrounding the development of an assessment plan and supervision issues surrounding the assessment process.

Prerequisites: CTR 611 or permission from instructor.

CTR 639 Advanced Clinical Procedures in Therapeutic Recreation 3
In this advanced clinical procedures course, students learn clinical skills related to the therapeutic recreation process with a focus on developing individualized treatment plans; developing clinical goals, objectives and treatment interventions; learning documentation, discharge planning, and evaluation skills.

Prerequisites: CTR 611 or permission of instructor.

CTR 644 Recreation, Parks, and Health 3
Examination of evidence regarding the impacts of recreation, parks, green space, and leisure on the health and well-being of individuals and communities.

Prerequisites: CTR 611 or permission of instructor.

CTR 646 Community Development 3
Historical, sociological, and contemporary investigations of the concept of “community” and how it is used for bringing together disparate networks, negotiating resource allocation, group solidarity and collaboration, and civic engagement.

CTR 695 Independent Study 3
Independent study to support graduate-level research and demonstration projects under the close supervision of a graduate faculty member in CTR.

Prerequisites: Permission of instructor.

Notes: May be repeated once for credit.

CTR 696 Directed Readings 3
Opportunity to conduct in-depth study and library work on a particular topic in recreation and parks under close supervision of a graduate faculty member in CTR.

Prerequisites: Permission of instructor.

Notes: May be repeated once for credit.

CTR 697 Internship in Recreation and Parks 3-6
A supervised field experience including a final paper.

Prerequisites: CTR 544, CTR 611, CTR 613, CTR 633.

Notes: Grade: Satisfactory/Unsatisfactory (S/U).

CTR 698 Field Project in Recreation and Parks 3-6
A supervised field project including a major literature-based paper.

Prerequisites: CTR 544, CTR 611, CTR 613, CTR 645.
Individual guidance in the development and examination of a research problem.

**Prerequisites:** CTR 611, CTR 613 and either ERM 604, KIN 611, SOC 616, or GRO 620 and ERM 517, HEA 604, or KIN 723 and CTR 633 and either CTR 634 or CTR 646.

**CTR 750X Experimental Course 1-6**
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

**CTR 801 Thesis Extension 1-3**
Thesis Extension.

**CTR 803 Research Extension 1-3**
Research Extension.

### Comprehensive Transition and Postsecondary Education (CTP)

#### CTP 104 Principles of Advocacy 3
Introduction to principles of advocacy with emphasis on self-determination and personal responsibility in relationship to self, peers and community.

**Prerequisites:** Integrative Community Studies student.

#### CTP 106 Introduction to Personal Finance 3
Introduction to basic financial literacy skills including assessment of personal resources, budgeting and goal setting, and prioritization and/or tracking of personal spending habits.

**Prerequisites:** Integrative Community Studies student.

#### CTP 111 Academic Success Planning 3
Introduction to student-centered academic planning and goal setting with an emphasis on strategies for success in a college environment.

**Prerequisites:** Integrative Community Studies student.

#### CTP 124 Human Rights 3
Overview of concepts related to human rights, including Universal Declaration of Human Rights, different civil rights movement in the U.S., and the impact of discrimination on marginalized groups.

**Prerequisites:** Integrative Community Studies student.

#### CTP 126 Financial Services, Providers, and Products 3
Designed to increase knowledge of the different characteristics and functions of financial services and providers in the U.S., along with exploration of personal relationship to banking.

**Prerequisites:** Integrative Community Studies student.

#### CTP 158 Introduction to Dimensions of Campus and Community 3
Introduction to exploring a new campus community and making the most out of what it has to offer socially and recreationally, given individual interest and desires.

**Prerequisites:** Integrative Community Studies student.

**Notes:** May be repeated for a total of 6 s.h.

#### CTP 190 First Year Practicum 2
Course designed to enhance student’s understanding of personal management and success through experiential learning activities.

**Prerequisites:** Integrative Community Studies student.

**Notes:** May be repeated once for credit.

#### CTP 191 Introductory Independent Study 3
Course is designed to provide the student with an introductory opportunity to participate in the creation of academic learning experiences geared to individual needs, interests, aptitudes, and desired outcomes through and independent academic project.

#### CTP 204 Self-Determination and Community Engagement 4
Through this course, students will explore and apply knowledge of the relationship between personal advocacy and self-determination in the context of community engagement.

**Prerequisites:** Integrative Community Studies student.

#### CTP 206 Financial Security on a Budget 3
Expanding knowledge of personal finance methods and strategies for maximizing financial resources as a student in college.

**Prerequisites:** CTR 106. Integrative Community Studies student.

#### CTP 211 Navigating College Life 3
Interactive seminar designed to build on student’s knowledge of personal responsibility skills required for successful navigation of life on campus and in community.

**Prerequisites:** Integrative Community Studies student.

#### CTP 214 Legislative Action 4
Exploration of the basic functions of the various branches and areas of government, legislative processes, options for taking action, and personal interaction with legislators and public officials.

**Prerequisites:** Integrative Community Studies student.

#### CTP 224 Holistic Success Planning 3
Provides opportunities for deeper engagement with person-centered planning process through class-led meetings and activities.

**Prerequisites:** Integrative Community Studies student.

#### CTP 257 Career Exploration 3
Exploration of personal interests and strengths related to career goals: resume building, informational interviewing, and other discovery-related activities.

**Prerequisites:** Integrative Community Studies student.

#### CTP 258 Comprehensive Transition and Postsecondary Education 3
Follow-up to CTP 158, with emphasis on personal reflection and development of ability to adapt to a variety of social and recreational activities and/or settings in the greater community.

**Prerequisites:** CTP 158. Integrative Community Studies student;

**Notes:** May be repeated once for credit.

#### CTP 267 Internship Preparation 3
Professional preparation and planning for 156 hour internship experience.

**Prerequisites:** CTP 257. Integrative Community Studies student.

#### CTP 290 Sophomore Practicum 2
Course designed to give students an opportunity to further develop personal management and success through experiential learning activities.

**Prerequisites:** Integrative Community Studies student.

**Notes:** May be repeated once for credit.

#### CTP 291 Independent Study 3
Course is designed to provide the student with an opportunity to participate in the creation of academic learning experiences that are foundational to the ICS program of study through an independent academic project.

#### CTP 306 Essential Elements of Credit Management 3
Expanding knowledge of credit building and management skills including ability to protect oneself against identity theft, impact of bankruptcy, and other concepts related to long-term financial stability.

**Prerequisites:** Integrative Community Studies student.
CTP 314 Planning to Protect Your Rights 3
Exploration of individualized methods of goal planning and development of support networks with eye to preservation of person-centered process through a firm understanding of the Disability Rights Movement.
**Prerequisites:** CTP 224. Integrative Community Studies student.

CTP 324 Directing Your Resources 3
Interactive seminar designed to broaden knowledge of philosophy of self-direction and practical strategies for building self-directed supports in the community.
**Prerequisites:** CTP 224, CTP 314; or permission of instructor; Integrative Community Studies student.

CTP 326 Personal Financial Planning Seminar 3
Interactive seminar providing overview of taxpayer rights and responsibilities, tax regulations, and expansion of asset building strategies. Culmination of CTP finance curriculum offering basis for development of post-college financial plan.
**Prerequisites:** CTP 106. CTP 206; CTP 306; Integrative Community Studies student.

CTP 390 Junior Practicum 3
Course designed to enhance student’s understanding of personal management and success through experiential learning activities in their junior year at UNCG.

**Notes:**

CTP 391 Advanced Independent Study 3
Course is designed to provide the student with an opportunity to participate in the creation of academic learning experiences through the development of an advanced independent academic project that furthers learning in a desired area of interest.

**Notes:** May be repeated for a total of 6 s.h.

CTP 393 Internship 2
Practical experience in the desired career field.
**Prerequisites:** CTP 257. CTP 267; Integrative Community Studies student; Non-Computer Science majors only or permission of instructor.

CTP 404 Senior Seminar 3
Interactive seminar that focuses on the development of presentation skills and strategies for the effective use of the senior capstone portfolio as a tool for sustained self-direction.
**Prerequisites:** Integrative Community Studies student.
**Notes:** May be repeated once for credit.

CTP 459 Senior Practicum 3
Guided practice of activities designed to increase self-direction skills.
**Prerequisites:** Integrative Community Studies student.

CTP 490 Senior Capstone Portfolio 3
Development of senior portfolio that outlines student progress and overall command of the learning outcomes within the program of study.
**Prerequisites:** Integrative Community Studies student.
**Notes:** May be repeated once for credit.

CTP 492 Internship and Job Development 3
Practical experience in desired career field with emphasis on development of skills necessary to identify job-related needs and negotiate with potential employers.
**Prerequisites:** CTP 257. CTP 267; CTP 393; Integrative Community Studies student;
**Notes:** May be repeated once for credit.

---

### Computational Analytics (IAC)

**IAC 620 Algorithm Analysis and Design 3**
An examination of topics in algorithm design and analysis including sequential algorithm design and complexity analysis, dynamic programming, greedy algorithms, and graph algorithms. Also covers selected advanced topics from NP-completeness; approximation, randomized, parallel, number-theoretic algorithms; Fast Fourier Transform; computational geometry; and string matching.

**IAC 621 Data Science 3**
Problem-based learning introduction to data science, including programming with data; data mining, munging, and wrangling; statistics, analytics, and visualization towards scientific, social, and environmental challenges.

**IAC 622 Big Data and Machine Learning 3**
Big data definitions and characteristics, computing environment for big data management and processing, machine learning models and algorithms, and scaling up machine learning (high dimensionality reduction).

**IAC 689 Capstone Project in Computational Analytics 3**
Capstone course. Students work with local industries and nonprofit organizations to solve important data science problems under the supervision of a mentor.

### Computer Science (CSC)

**CSC 100 The Beauty and Joy of Computing 3**
A broad-based introduction to key concepts and principles of computer science. Exploration of seven big ideas of computing: creativity, abstraction, data, algorithms, programming, the Internet, and impact of computing.

**CSC 101 Introduction to Computer Concepts 3**
Introduction to computers and computing. Topics cover impact of computers on society, ethical issues, hardware, and software applications.

**CSC 105 Data, Computing, and Quantitative Reasoning 3**
Problem-based introduction to quantitative reasoning, including computational methods; formulation of quantitative arguments; algorithmic understanding, selection, and utilization; data modeling, interpretation, and summarization of results, on real world datasets.

**MAC: MAC Quantitative Reasoning**

**CSC 110 Computational Problem Solving 3**
Using computing to apply mathematical concepts in developing algorithmic solutions to real-world problems, stressing analysis and logical reasoning. A modern programming language will be introduced for examples and assignments.

**CSC 120 Introduction to Computer Programming for Non-Majors 3**
Introduction to computer programming for non-computer science majors, including programming concepts of variables, expressions, decision statements, iteration, functions, and modular design. Language and applications chosen to be relevant to non-majors.
CSC 130 Introduction to Computer Science 3
Programming in a high-level language. Emphasis on problem analysis, problem-solving techniques, and software design principles and techniques.
Prerequisites: Grade of at least C (2.0) in MAT 120, MAT 150, MAT 151, MAT 183, MAT 184, MAT 190, MAT 191, or MAT 196.
Notes: Computer Science majors should not take MAT 120, MAT 183, or MAT 184.

CSC 220 Elementary Data Structures-A Transition 3
Comparison between Java and other high level languages. Advanced syntax of Java. Emphasis on modularization and abstraction. Big-O analysis of algorithms. Design and use of abstract data types with various implementations.
Prerequisites: Grade of at least C (2.0) in CSC 120 or permission of the instructor.

CSC 230 Elementary Data Structures and Algorithms 3
Prerequisites: Grade of at least C (2.0) in CSC 130.

CSC 250 Foundations of Computer Science I 3
An introduction to the fundamental ideas underlying contemporary computer science with a focus on the computation and construction of objects.
Prerequisites: Grade of at least C (2.0) in CSC 130 or permission of instructor.

CSC 261 Computer Organization and Assembly Language 3
Introduction to the organization of the computer through the use of Assembly Language programming. Data representation, parts of the computer system, Assembly Language fundamentals, instruction sets, memory, and floating-point operations.
Prerequisites: Grade of at least C (2.0) in CSC 130 or permission of instructor.

CSC 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

CSC 312 Ethics in Computer Science 1
Historical and social context of computing, ethical responsibilities of the computing professional, intellectual property rights, and risks and liabilities.
Prerequisites: Grade of at least C (2.0) in CSC 230 and in CSC 250, or permission of instructor.
Notes: Computer Science majors only.

CSC 330 Advanced Data Structures 3
Prerequisites: Grade of at least C (2.0) in CSC 220 or CSC 230 and in CSC 250 or MAT 253.

CSC 339 Concepts of Programming Languages 3
Concepts of block-structured, object-oriented, functional, logic, and concurrent programming languages. Comparative study of syntactic and semantic features of these languages and writing programs using them.
Prerequisites: Grade of at least C (2.0) in CSC 330.

CSC 340 Software Engineering 3
Practical and theoretical concepts of software engineering.
CIC: CIC College Writing
Prerequisites: Grade of at least C (2.0) in CSC 330.

CSC 350 Foundations of Computer Science II 3
High level concepts in the theoretical foundations of computer science.
Prerequisites: Grade of at least C (2.0) in CSC 250, or permission of instructor.

CSC 362 System Programming 3
System programming with emphasis on processes, memory management, multithreaded programming, synchronization and deadlocks, interprocess communication, parallel and distributed computing, networking, files systems, security, signals, and virtualization containers.
Prerequisites: Grade of C or better in CSC 230 and CSC 261, or permission of instructor.

CSC 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

CSC 405 Data Science 3
Problem-based learning introduction to Data Science, including programming with data; data mining, munging, and wrangling; statistics, analytics, and visualization, towards scientific, social, and environmental challenges.
Prerequisites: A grade of B+ or better in CSC 330 and (STA 271 or STA 290), or permission of instructor (prior programming and statistics experience is required).

CSC 407 Network Analysis 3
Concepts and methods of network analysis, including network data extraction, management, model, visualization, and analysis of network structure and dynamics.
Prerequisites: Grade C or better in CSC 330, or permission of instructor.

CSC 410 Big Data and Machine Learning 3
Big data definitions and characteristics, computing environment for big data management and processing, machine learning models and algorithms, and scaling up machine learning (high dimensionality reduction).
Prerequisites: A grade of C or better in CSC 330 and (STA 271 or STA 290), or permission of instructor.

CSC 411 Advanced Data Science 3
Experiential learning towards advanced concepts of Data Science, including efficient and parallel programming with large scale datasets, advanced data organization and storage, applied machine learning and inferencing, towards real-world challenges.
Prerequisites: A grade of B+ or better in CSC 405 and CSC 410.

CSC 415 Computer Graphics 3
Survey of graphics algorithms, data structures, and techniques.
Prerequisites: Grades of at least C (2.0) in CSC 340, CSC 350, and either MAT 292 or MAT 296, or permission of instructor.

CSC 416 Digital Image Processing 3
Image representation, enhancement, compression, coding, restoration, and wavelet transforms.
Prerequisites: Grades of at least C (2.0) in CSC 330, CSC 350, and either MAT 292 or MAT 296, or permission of instructor. Successful completion of STA 271 or STA 290 recommended.
CSC 462 Principles of Operating Systems 3
Techniques and strategies used in operating system design and implementation: managing processes, input/output, memory, scheduling, file systems, and protection.
Prerequisites: Grades of at least C (2.0) in CSC 340 and CSC 362 or permission of instructor.
Notes: Successful completion of CSC 461 helpful.

CSC 471 Principles of Database Systems 3
Contemporary database systems. Emphasis on query processing, design, and implementation of applications in relational (SQL) databases. Introduction to other database models such as XML, object-oriented, and deductive.
Prerequisites: Grade of at least C (2.0) in CSC 330, or permission of instructor.

CSC 474 Principles of Data Mining 3
Foundation and principles of data mining-Architecture, languages, data preparation and core algorithms including association mining, classification and clustering will be discussed. Topics such as graph mining may also be covered.
Prerequisites: CSC 471 or permission of instructor.

CSC 477 Principles of Computer Networks 3
Hardware and software components of computer networks, their organization and operations. Topics: open system interconnection; local area networks; TCP/IP internetworking, routing, and packet switching; network programming.
Prerequisites: Grades of at least C (2.0) in CSC 261 and CSC 330, or permission of instructor.

CSC 478 Principles of Wireless Networks 3
Digital communications, communication networks, wireless communication technology, wireless networking, wireless LANs, and wireless network programming.
Prerequisites: Grades of at least C (2.0) in CSC 330 and CSC 477, or permission of instructor.

CSC 481 Principles of Computer Security 3
Core concepts in computer security, including the security goals of confidentiality, integrity, and availability; authentication; access control; security software development; use of cryptography; and basic network security.
Prerequisites: Grade of C or better in CSC 330 and CSC 362, or permission of instructor.

CSC 485 Modern Cryptography 3
Theory and practice of cryptography, emphasizing formal models and security reasoning. Primitives covered include private and public-key encryption, message authentication codes, hash functions, digital signatures, secret sharing, and zero-knowledge proofs.
Prerequisites: A grade of C or better in CSC 481, or permission of instructor.

CSC 487 Network Security 3
The course explores the network security concepts of communication protocols; security in routing; remote authentication; access policies; web security; network vulnerabilities; intrusion detection and prevention; and network traffic analysis.
Prerequisites: Grade of C or better in CSC 481 or permission of instructor.
CSC 490 Senior Capstone
Application of classroom knowledge and skills in computer science to solve real-world problems and to develop research and development skills.
CIC: CIC College Writing
Prerequisites: Permission of instructor. Student must be in the final semester of major coursework.

CSC 492 Directed Study in Computer Science 1-3
Directed Study in Computer Science.

CSC 493 Honors Work in Computer Science 3
Research in a topic of special interest at the Honors level.
Prerequisites: Permission of instructor.
Notes: May be repeated for credit when topic changes.

CSC 494 Directed Study in Computer Science 1-3
Notes: Grade: Pass/Not Pass (P/NP).

CSC 495 Selected Topics in Computer Science 3
A topic of special interest is studied in depth.
Prerequisites: Junior standing and permission of instructor.
Notes: May be repeated for credit for a total of 6 s.h. when topic of study changes.

CSC 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

CSC 605 Data Science 3
Problem-based learning introduction to Data Science, including programming with data; data mining, munging, and wrangling; statistics, analytics, and visualization, towards scientific, social, and environmental challenges.
Prerequisites: Permission of instructor (prior programming and statistics experience is required).

CSC 607 Network Analysis 3
Concepts and methods of network analysis, including network data extraction, management, model, visualization, and analysis of network structure and dynamics.

CSC 610 Big Data and Machine Learning 3
Big data definitions and characteristics, computing environment for big data management and processing, machine learning models and algorithms, and scaling up machine learning (high dimensionality reduction).

CSC 611 Advanced Data Science 3
Experiential learning towards advanced concepts of Data Science, including efficient and parallel programming with large scale datasets, advanced data organization and storage, applied machine learning and inferencing, towards real-world challenges.
Prerequisites: Grade of B+ or better in CSC 605 and CSC 610.

CSC 615 Computer Graphics 3
Survey of graphics algorithms, data structures, and techniques.

CSC 616 Digital Image Processing 3
Image representation, enhancement, compression, coding, restoration, and wavelet transforms.

CSC 617 Deep Learning in Computer Vision 3
Concepts of state-of-the-art deep learning architectures, algorithms for various computer vision tasks (e.g., such as image classification, object detection, semantic segmentation, image generation, and high-dimensional image analysis), hands-on exercises and project, and research topics.

CSC 625 Bioinformatics 3
Introduction to the problems and methods in Bioinformatics. Problem areas include restriction mapping, map assembly, sequencing, DNA arrays, and sequence comparison.
Prerequisites: Permission of instructor.

CSC 627 Numerical Analysis and Computing 3
Number systems and errors, solutions of non-linear and linear systems, interpolation, numerical differentiation and integration, solution of differential equations. Implementation of numerical methods using a high-level programming language.

CSC 629 Artificial Intelligence 3
Logical foundations, knowledge representation and reasoning, search, and selected topics such as natural language processing and reasoning under uncertainty.

CSC 639 Introduction to Compiler Design 3
Basic techniques of compiler design and implementation: lexical analysis, parsing, code generation. Sizable programming project implementing a compiler for a block-structured language with strong typing.
Notes: Successful completion of CSC 652 is helpful.

CSC 640 Software Engineering 3
Organization and scheduling of software engineering projects and structured software design. Specification methods, metrics, software engineering tools, design, prototyping, version control, and testing.

CSC 642 Human-Computer Interface Development 3
Survey of concepts and techniques for human-computer interface development. Topics include user-centered design, user interface programming, and usability evaluation.

CSC 652 Theory of Computation 3
Finite state automata and regular expressions, context-free grammars, push-down automata and their use in parsing, overview of language translation systems, models for programming language semantics, computability and undecidability.

CSC 653 Advanced Theory of Computation 3
Computability theory including Church-Turing thesis (Turing machines, variants, other models), decidability (decidable and undecidable problems for automata and grammars, the halting problem), reducibility (undecidability of mathematical truth).
Prerequisites: CSC 452, CSC 652, or permission of instructor.

CSC 654 Algorithm Analysis and Design 3
Sequential algorithm design and complexity analysis. Dynamic programming. Greedy algorithms. Graph algorithms. Selected advanced topics from NP-completeness; approximation, randomized, parallel, number-theoretic algorithms; Fast Fourier Transform; computational geometry; string matching.

CSC 655 Advanced Topics in Algorithms 3
Modern development of algorithm design and analysis for sequential and parallel computers; parallel, number-theoretic, probabilistic, and approximation algorithms, string matching, computational geometry, NP-completeness: worst-case versus average-case.
Prerequisites: Grade of at least C in CSC 454 or CSC 654.

CSC 656 Foundations of Computer Science 3
Introduces the mathematical foundations that support advanced studies in computer science including computer programming and the analysis of algorithms.
CSC 661 Principles of Computer Architecture 3
Hardware and software components of computer systems, their organization and operations. Topics: comparative instruction set architectures, microprogramming, memory management, processor management, I/O, interrupts, and emulation of processors.

CSC 662 Principles of Operating Systems 3
Techniques and strategies used in operating system design and implementation: managing processes, input/output, memory, scheduling, file systems, and protection.
Notes: Successful completion of CSC 661 is helpful.

CSC 663 Advanced Topics in Computer Systems 3
Prerequisites: CSC 330 and CSC 567 or CSC 561 or CSC 562 or permission of instructor.
Notes: May be repeated for credit when topics vary.

CSC 671 Advanced Database Systems 3

CSC 672 Database System Architecture 3
File organization and indexing techniques. Query processing and optimization. Concurrency control and crash recovery. Distributed and heterogeneous database systems. Selected topics of current interest in database and knowledge-base systems.
Prerequisites: CSC 471 or permission of instructor.

CSC 674 Principles of Data Mining 3
Foundation and principles of data mining-Architecture, languages, data preparation and core algorithms including association mining, classification and clustering will be discussed. Topics such as graph mining may be also covered.
Prerequisites: CSC 471 or permission of instructor.

CSC 676 Topics in Database Systems 3
Selected topics of current interest such as: deductive databases, modeling and management of uncertain and inaccurate information, multi-database systems, data mining, on-line analytical processing and data warehousing.
Prerequisites: CSC 671 or permission of instructor.

CSC 677 Principles of Computer Networks 3
Hardware and software components of computer networks, their organization and operations. Topics: open system interconnection; local area networks; TCP/IP internetworking, routing, and packet switching; network programming.

CSC 678 Principles of Wireless Networks 3
Digital communications, communication networks, wireless communication technology, wireless networking, wireless LANs, and wireless network programming.
Prerequisites: CSC 677 or permission of instructor.

CSC 681 Principles of Computer Security 3
Core concepts in computer security, including the security goals of confidentiality, integrity, and availability; authentication; access control; security software development; use of cryptography; and basic network security.

CSC 685 Modern Cryptography 3
Theory and practice of cryptography, emphasizing formal models and security reasoning. Primitives covered include private and public-key encryption, message authentication codes, hash functions, digital signatures, secret sharing, and zero-knowledge proofs.
Prerequisites: Grade of C or better in CSC 481 or CSC 681 or permission of instructor.

CSC 687 Network Security 3
The course explores the network security concepts of communication protocols, security in routing, remote authentication, access policies, web security, network vulnerabilities, intrusion detection and prevention, and network traffic analysis.
Prerequisites: Grade of C or better in CSC 481 or CSC 681 or permission of instructor.

CSC 692 Directed Study in Computer Science 1-3
Directed Study in Computer Science.

CSC 693 Advanced Topics in Computer Science 3-6
Algorithms, architecture, languages, systems, theory, or other areas of computer science.
Prerequisites: Permission of instructor.
Notes: May be repeated once for credit.

CSC 694 Directed Study in Computer Science 1-3
Notes: Grade: Pass/Not Pass (P/NP).

CSC 697 Research Problems in Computer Science 3
Advanced research in specialized areas of computer science under the direction of a faculty member. Preparation for master's thesis.
Prerequisites: Permission of instructor.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

CSC 698 Project in Computer Science 3-6
Prerequisite: Permission of instructor;
Notes: May be repeated for up to 6 credit hours with permission of instructor. Grade: Satisfactory/Unsatisfactory (S/U).

CSC 699 Thesis 1-6
Individual guidance in the development of a specific research problem.

CSC 701 Doctoral Student Orientation 3
Introduction to computer science research and standards in different areas of computer science. Particular emphasis on research in the department with faculty-presented research presentations.
Prerequisites: Permission of instructor.

CSC 710 Advanced Topics in Algorithms 3
In-depth exploration of an advanced topic in algorithms. Topic varies by semester, and includes topics such as randomized algorithms, parallel algorithms, online algorithms, approximation algorithms, and quantum computing/algorithms.
Prerequisites: CSC 654.

CSC 712 Advanced Topics in Image Processing 3
In-depth exploration of an advanced topic in image processing. Topic varies by semester, and includes topics such as image enhancement, image analysis, machine (deep) learning-based image processing.
Prerequisites: CSC 616.

CSC 722 Advanced Topics in Computer Security 3
In-depth exploration of an advanced topic in computer security. Topic varies by semester, and includes topics such as system security, software security, web security, and network security.
Prerequisites: CSC 681.
CSC 724 Advanced Topics in Networks 3
In-depth exploration of an advanced topic in networks. Topic varies by semester, and includes topics such as cloud systems, data center services, network computing, Internet of Things, social networks, software defined networks, and network security.
Prerequisites: CSC 677.

CSC 730 Advanced Topics in Artificial Intelligence 3
In-depth exploration of an advanced topic in artificial intelligence. Topic varies by semester, and includes topics such as natural language processing, argument mining, and intelligent tutoring systems.
Prerequisites: CSC 629.

CSC 732 Advanced Topics in Databases 3
In-depth exploration of an advanced topic in database. Topic varies by semester, and includes topics such as complex data types, big data analytics, parallel and distributed databases, advanced indexing, advanced application development, and blockchain databases.
Prerequisites: CSC 671.

CSC 734 Advanced Topics in Bioinformatics 3
In-depth exploration of an advanced topic in bioinformatics. Topic varies by semester, and includes topics such as omics, big biological data analysis, hypothesis testing for biological applications, text mining and natural language processing, etc.
Prerequisites: CSC 671.

CSC 736 Advanced Topics in Machine Learning 3
In-depth exploration of an advanced topic in machine learning. Topic varies by semester, and includes topics such as statistical computing approaches, model building techniques, graph analytics, big data analytics, and emerging machine learning approaches.
Prerequisites: CSC 610.

CSC 740 Current Research in Computer Science 3
Discussion of current research in an area of computer science not covered by available current research courses, including problems in theoretical computer science, programming languages, software engineering, or other areas.
Prerequisites: Permission of instructor.

CSC 741 Current Research in Artificial Intelligence 3
Discussion of current research in a focused problem area of artificial intelligence, which could include problems in natural language processing, argument mining, or intelligent tutoring systems. Topics will be announced with each offering.
Prerequisites: Permission of instructor.

CSC 742 Current Research in Systems 3
Discussion of current research in a focused problem area of computer systems, which could include problems in operating systems, architecture, networking, or security. Topics will be announced with each offering.
Prerequisites: Permission of instructor.

CSC 743 Current Research in Database 3
Discussion of current research in a focused problem area of database, which could include problems in data warehousing and online analytical processing, data mining, social networks, or data streaming.
Prerequisites: Permission of instructor.

CSC 745 Computing Research with Applications in Physical Sciences 3
Discussion of current research in a focused problem area of interdisciplinary computational research spanning across domains including but not limited to biology, chemistry, and geography. Problems will include novel computational approaches and developments in computer science with applications in one of the physical sciences.
Prerequisites: Permission of instructor.

CSC 746 Computing Research with Applications in Social Sciences 3
Discussion on research problems and solutions for large-scale datasets in the domain of Social Sciences. Research topics could include distributed databases, data mining/fusion/privacy, machine learning and/or statistical approaches.
Prerequisites: Permission of instructor.

CSC 747 Computing Research with Applications in Health Sciences 3
Discussion of current research in the domain-focused problems for health sciences which include biomedical image processing/analysis, multimodal/high-dimensional/longitudinal biomedical data analysis, machine/deep learning, and statistical analysis.
Prerequisites: Permission of instructor.

CSC 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

CSC 790 Independent Research 1-6
Work on a research problem, supervised by a faculty member.
Prerequisites: Permission of instructor.

CSC 799 Dissertation 1-12
Dissertation Research.
Prerequisites: Permission of instructor.
Notes: May be retaken for a total of at most 30 credits.

CSC 801 Thesis Extension 1-3
Thesis Extension.

CSC 803 Research Extension 1-3
Research Extension.

CNS 500 Consortium Elective 1-6
CNS 550 Consortium Elective 1-6
Consumer, Apparel, and Retail Studies (CRS)

CRS 211 Textile Science: From Fiber to Finish 3
Principles of textile science with emphasis on fiber chemical composition, physical structure, and properties; analyses of yarn and fabric structures and properties; and fundamentals of coloration and finishing.

CRS 221 Culture, Human Behavior, and Clothing 3
Interaction of clothing and textiles with the individual and society: sociological and psychological implications for non-Western cultures.
MAC: MAC Global and Intercultural

CRS 231 Introduction to Apparel and Related Industries: From Concept to Consumer 3
Interaction of the consumer with apparel, retail, and associated industries. Overview of industry processes from raw material to consumption for apparel and other consumer products. Career opportunities explored.

CRS 242 Design Principles and Technology 3
Application of the elements and principles of design to analysis of textile products and solution of design problems. Emphasis on textile product design evaluations through verbal and written communications.
Prerequisites: CARS major.

CRS 255 Consumer Behavior in Apparel and Related Industries 3
An interdisciplinary study of how and why consumers make specific decisions and behave as they do. Principles and strategic implications of consumer behaviors for apparel and related industries.

CRS 262 Fashion Marketing and Communication 3
Integrated marketing communication approach to consumer, apparel, and retailing communication issues. Special emphasis put on professional oral and visual communication of advertising and promotional concepts.

CRS 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

CRS 312 Technical Apparel Analysis 3
Overview of the physical structure and properties of fiber, yarns, fabric, and apparel. Examination and evaluation of ready-to-wear apparel and related consumer goods from a consumer perspective.
Prerequisites: Minimum grade of C (2.0) in CRS 211.
Corequisites: CRS 312L.

CRS 312L Technical Apparel Analysis Lab 0
Laboratory supporting CRS 312.
Prerequisites: Minimum grade of C (2.0) in CRS 211.
Corequisites: CRS 312.
Notes: No grade is awarded with this course number. Grades are awarded with the lecture course.

CRS 321 Social Psychology of Dress 3
Social and cognitive processes related to the meanings people assign to clothing cues when perceiving one another. Focus on appearance-related stereotypes: age, gender, physical attractiveness, status, and ethnicity.

CRS 331 Professional Development: Consumer, Apparel, and Retail Industries 3
Guidance and preparation for relevant and successful internship experiences in the major. Emphasis on professional norms and behavior. Examination of processes, content, requirements, and options for self-directed learning opportunities.
Prerequisites: Overall minimum GPA of 2.20 required for all concentrations. Minimum grade of C (2.0) in APD 252 for Apparel Design concentration; Minimum grade of C (2.0) in RCS 361 for GARI and RCS concentrations.

CRS 332 Internship: Consumer, Apparel, and Retail Industries 6
Campus-monitored, structured internship experiences in off-campus businesses, minimum 300 supervised clock hours. Application and development of professional skills directly related to the student's concentration in the major.
Prerequisites: Minimum grade of C (2.0) in CRS 231. overall GPA of 2.20; 18 s.h. in major; restricted to CARS majors;
Notes: May not be taken concurrently with CRS 331.

CRS 363 Global Sourcing of Apparel and Related Consumer Products 3
Sourcing strategies for apparel and related consumer products, global platforms, business and cultural environments, and financial transactions used in conducting business in the international marketplace.
Prerequisites: Minimum grade of C (2.0) in CRS 231.

CRS 372 Survey of Historic Costume 3
Survey of historic costume from prehistory to present, with emphasis on social, economic, and political events as well as various cultures that have influenced modern dress.

CRS 400 Special Problems in Consumer Apparel and Retail Studies 1-4
Individual study. Conference hours to be arranged.
Prerequisites: Permission of instructor.

CRS 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

CRS 405 Retail Data Analytics 3
Beginning course in research methodology within the domains of consumer, apparel, and retailing. Concepts, frameworks, and relationships of theory and research. Epistemological issues, types of analysis, methods.
Prerequisites: Minimum grade of C (2.0) in RCS 355.

CRS 450 Economics of the Textile and Apparel Complex 3
Economics and social aspects of production, distribution, and utilization of apparel and textiles.
Prerequisites: Grade of C or better in ECO 201 or its equivalent as determined by the instructor, or graduate standing.

CRS 470 Apparel Brand Management 3
All aspects of managing an apparel brand portfolio, including creating and positioning the brand, establishing brand equity and differentiation, and providing a brand experience for global apparel consumers.

CRS 481 Contemporary Professional Issues in Consumer, Apparel, and Retail Studies 3
Study of contemporary issues related to consumer, apparel, and retail studies. Application of knowledge and skills to solve real world industry problems.
Prerequisites: For Apparel Design concentration: minimum grade of C (2.0) in APD 341. For RCS concentration: pr. or co-req. RCS 484.

CRS 482 Special Problems in Consumer, Apparel, and Retail Studies 1-4
Study tours. Conference hours to be arranged.
Notes: May be repeated once for a total of four (4) semester hours.
CRS 483 Problems in Consumer, Apparel, and Retail Studies 2-6
Individual study.

CRS 493 Honors Work 3-6
Honors Work.
Prerequisites: Permission of instructor. 3.30 GPA in the major.

CRS 570 Apparel Brand Management 3
All aspects of managing an apparel brand portfolio, including creating and positioning the brand, establishing brand equity and differentiation, and providing a brand experience for global apparel consumers.

CRS 582 Problems in Consumer, Apparel, and Retail Studies 2-6
Individual study.

CRS 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

CRS 605 Retail Data Analytics 3
Beginning graduate course in research methodology within the domains of consumer, apparel, and retailing. Concepts, frameworks, and relationships of theory and research. Epistemological issues, types of analysis, methods.

CRS 620 Analysis of Apparel and Related Industries 3
Analysis of apparel and related industries from raw materials through consumption. Examination of production and marketing of products, technological developments, and domestic and global market strategies.

CRS 630 Economic Dynamics of the Retail Complex 3
Application of economic concepts to consumption behaviors in the retail industry with special emphasis on apparel and related products. Impact of history, trends, brands, and demographics explored.
Prerequisites: CRS 530 and MBA 603 or permission of instructor.

CRS 632 Supervised Industry Practicum in Consumer, Apparel, and Retail Studies 3-6
Supervised industry practicum combining practical and academic elements. Course supervised by the Director of Graduate Study or designated faculty member.
Prerequisites: Permission of Director of Graduate Study.
Notes: Six hours of this course may be taken in one semester or three hours may be taken in two consecutive semesters.

CRS 651 Advanced Retail Data Analytics 3
Designed to further introduce students to predictive and prescriptive analytics tools for business decisions. Students will also be introduced to the R language and R Studio for statistical analysis and graphics, in addition to Analytic Solver Basic, JMP, and SAS.
Prerequisites: CRS 605.

CRS 682 Graduate Seminar in Consumer, Apparel, and Retail Studies 3
Fundamentals of graduate studies in Consumer, Apparel, and Retail Studies, including guidelines for development and evaluation of research.

CRS 685 Problems in Retail and Consumer Studies 1-3
Individual study. Investigation of problems in retail and consumer studies.

CRS 690 Minor Research 2-6

CRS 699 Thesis 1-6

CRS 701 Literature and Thought in Consumer, Apparel, and Retail Studies 3
Overview of concepts, frameworks, theory, thought, and empirical research within the domains of consumer, apparel, and retailing. Emphasis on contemporary thinking and identifying opportunities and directions for future research streams.
Prerequisites: Admission to PhD in consumer, apparel, and retail studies and permission of instructor.

CRS 712 Theory Development in Consumer, Apparel, and Retail Studies 3
Examination of business related marketing theories to consumer, apparel, and retail studies. Analysis of marketing theories, models, and conceptual frameworks. Includes business-to-business, consumer, customer relationship, and economic theories.
Prerequisites: CRS 630, CRS 660, CRS 662 or permission of instructor.

CRS 713 Qualitative Methodology in Consumer, Apparel, and Retail Studies 3
Exploration of development and use of qualitative research methodology in consumer, apparel, and retail studies. Focus on application of qualitative methodology to diverse research problems, data collection procedures, and analysis approaches.

CRS 714 Advanced Quantitative Methods in Consumer, Apparel, and Retail Studies 3
Concepts, frameworks, theory, and empirical research methods and models within the consumer, apparel, and retailing domains. Emphasis on application of research methods and multivariate statistical models of consumer and retail research issues.
Prerequisites: STA 671 or ERM 682 or equivalent and admission to PhD in consumer, apparel, and retail studies or permission of instructor.

CRS 721 Consumer Behavior in Apparel and Retailing 3
Current theories and research in consumer behavior. Application of consumer behavior models to apparel, apparel-related products, and retailing through individualized research products.
Prerequisites: CRS 652 or permission of instructor.

CRS 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

CRS 765 College Teaching Practicum in Consumer, Apparel, and Retail Studies 3
Supervised, structured experiences in planning, teaching, and evaluating a college level course. Professors provide guidance and mentoring of graduate students during the experience.

CRS 781 Directed Independent Study in Consumer, Apparel, and Retail Studies 1-6

CRS 783 Problems in Apparel 1-3
Problems in Apparel.

CRS 784 Problems in Retail Marketing 1-3

CRS 786 Readings in Apparel 1-3
Readings in Apparel.

CRS 787 Readings in Retail Marketing 1-3
Readings in Retail Marketing.
Counseling and Educational Development (CED)

CED 210 Career and/or Life Planning 3
Introduction to career/life planning; knowledge of career development theories and decision-making theories; emphasis on collecting information related to the world of work and relating this information to the individual.

CED 274 Stress Management 3
This course addresses stress and related concepts, including how stress impacts human functioning and relevant coping skills to respond to stress and meet one's goals. Conceptualizations of the stress response, from biopsychosocial and cultural models, are explored.

MAC: MAC Health and Wellness

CED 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

CED 310 Helping Skills 3
Skills useful for facilitating helping relationships. Practical model for counseling and learning about helping by practicing the helping skills.

Prerequisites: Advanced undergraduates in appropriate major.

CED 392 Love, Sex, and Relationships: Skills for Building Satisfying, Healthy Relationships 3
This course promotes students' knowledge and skills that foster satisfying and healthy personal relationships. Students will learn strategies to strengthen all relationships, with a primary focus upon intimate partnerships.

CED 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

CED 474 Contemporary Topics in Counseling 3
Designed to study issues, problems, and new approaches in helping relationships. Emphasis placed on current topic(s) of interest.

Notes: May be repeated for credit when topics vary.

CED 474C Contemporary Topics in Counseling: Stress Management 3
Contemporary Topics in Counseling.

CED 516 Entrepreneurship in Clinical Settings 3
Designed to teach students how to effectively build and implement a successful business model for the design and delivery of clinical practices, or related services.

Notes: Same as ENT 516.

CED 574 Contemporary Topics in Counseling 3
Designed to study issues, problems, and new approaches in helping relationships. Emphasis placed on current topic(s) of interest.

Notes: May be repeated for credit when topics vary.

CED 574C Contemporary Topics in Counseling: Stress Management 3
Topics in Counseling.

CED 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

CED 602 Student Development in Higher Education 3
Study of development services. Areas such as admissions, orientation, career counseling, academic advising, student activities, housing, and financial aid are reviewed.

Prerequisites: CED 610 or permission of instructor.

Corequisites: CED 675.

Notes: Students who took this course as CED 579 are not eligible to take CED 602 and receive credit.

CED 603 Contemporary College Students 3
Developmental tasks and processes, including cognitive, moral, emotional, career, and identity, as applied to traditional and nontraditional students and diverse populations.

Prerequisites: CED 602 or permission of instructor.

CED 605 Counseling Diverse Populations 3
Examination of substantive and theoretical issues concerning counseling diverse populations. Includes study of counseling issues relevant to race/ethnicity, gender, sexual orientation, and other diversity topics.

Prerequisites: CED 610 and counseling major.

Corequisites: CED 653.

Notes: Students who took this course as CED 505 are not eligible to take CED 605 and receive credit.

CED 610 Helping Relationships 3
Fundamental principles of providing a helping relationship through counseling and interviewing are integrated in a conceptual framework for subsequent professional studies in counseling. Personal and professional development through skills training in techniques.

Corequisites: CED 653 for counseling majors.

CED 611 The Counselor as Scientist-Practitioner 3
Ways in which counselors can demonstrate accountability in a broad range of settings and from a variety of theoretical perspectives.

Prerequisites: Counseling major.

CED 612 Developmental Counseling 3
Developmental theories and processes of diverse individuals, families, and groups form the basis for understanding and applying techniques of developmental assessment and intervention. Cognitive-developmental approaches are emphasized.

Prerequisites: CED 610 and CED 620, counseling major, human development/developmental psychology or equivalent or permission of instructor.

Corequisites: CED 653.

CED 613 Helping Relationships for Non-Majors 3
Fundamental principles of creating a helping relationship are integrated in a conceptual framework for application in a range of applied fields (e.g., nutrition, applied sport psychology). Personal and professional development through skills training in techniques.

CED 616 Entrepreneurship in Clinical Settings 2
Designed to teach students how to effectively build and implement a successful business model (e.g. private practice) for the design and delivery of clinical practices, or related services.
CED 620 Counseling Theories and Practice 3  
Examine various counseling theories, their philosophical underpinnings, techniques, cultural implications, and the relationship between theory and practice. Apply theories through case conceptualization, observations, and supervised practice.  
**Prerequisites:** CED 610 and counseling major.  
**Corequisites:** CED 653.  

CED 642 Substance Abuse Counseling 3  
Counseling intervention strategies related to prevention, substance use, abuse and dependency will be emphasized. Etiology, assessment, and professional counseling concerns discussed.  
**Prerequisites:** CED 610 or permission of instructor.  
**Corequisites:** CED 653.  

CED 644 Foundations of Mental Health Counseling 3  
Theoretical and applied information for counselors working in clinical mental health counseling settings. Explores delivery systems, procedures, and techniques related to counseling individuals, groups, couples, and families in these settings.  
**Prerequisites:** CED 610, counseling major.  
**Corequisites:** CED 675.  

CED 645 Mental Health Issues for Genetic Counselors 3  
Overview of mental health-related theories and constructs relevant to genetic counseling. Development of interviewing skills and strategies. Focus on professional self-awareness, with emphasis on demands of professional practice.  
**Prerequisites:** Matriculation to fourth semester of the MS in genetic counseling.  

CED 648 Foundations of School Counseling 3  
The role and functions of school counselors, including their work with students, teachers, administrators, and parents, as well as their complimentary relationships with other student services personnel.  
**Prerequisites:** CED 610 and counseling major.  
**Corequisites:** CED 653.  
**Notes:** Must be completed successfully before post-master's certificate student can enroll in internship.  

CED 650 Group Counseling Theory and Practice 3  
Develop understanding and skills in the theory and practice of group work, the relationship of group activities to counseling, and fundamental group counseling techniques.  
**Prerequisites:** CED 610, CED 620, and counseling major.  
**Corequisites:** CED 653.  

CED 653 Practicum in Counseling 1  
Skill development and application of theory to practice in counseling, assessment and consultation through supervised work with clients in a laboratory setting.  
**Prerequisites:** Counseling major.  
**Corequisites:** Liability insurance.  
**Notes:** Grade: Satisfactory/Unsatisfactory (S/U).  

CED 653A Practicum in Counseling: Theories 1  
Skill development and application of theory to practice in counseling, assessment and consultation through supervised work with clients in a laboratory setting.  
**Prerequisites:** Counseling major.  
**Corequisites:** Liability insurance.  
**Notes:** Grade: Satisfactory/Unsatisfactory (S/U).  

CED 653B Practicum in Counseling: Assessment 1  
Skill development and application of theory to practice in counseling, assessment and consultation through supervised work with clients in a laboratory setting.  
**Prerequisites:** Counseling major.  
**Corequisites:** Liability insurance.  
**Notes:** Grade: Satisfactory/Unsatisfactory (S/U).  

CED 653D Practicum in Counseling: Group 1  
Skill development and application of theory to practice in counseling, assessment and consultation through supervised work with clients in a laboratory setting.  
**Prerequisites:** Counseling major.  
**Corequisites:** Liability insurance.  
**Notes:** Grade: Satisfactory/Unsatisfactory (S/U).  

CED 653E Practicum in Counseling: Advanced School Counseling 3  
Advanced School Counseling.  
**Prerequisites:** CED 610, CED 620, and counseling major.  
**Corequisites:** Liability insurance.  
**Notes:** Grade: Satisfactory/Unsatisfactory (S/U).  

CED 653F Practicum in Counseling: Lifespan 1  
Skill development and application of theory to practice in counseling, assessment and consultation through supervised work with clients in a laboratory setting.  
**Prerequisites:** Counseling major.  
**Corequisites:** Liability insurance.  
**Notes:** Grade: Satisfactory/Unsatisfactory (S/U).  

CED 653M Practicum in Counseling: Group Applications 1  
Skill development and application of theory to practice in counseling, assessment and consultation through supervised work with clients in a laboratory setting.  
**Prerequisites:** Counseling major.  
**Corequisites:** Liability insurance. Grade: Satisfactory/Unsatisfactory (S/U).  

CED 653N Practicum in Counseling: Family Counseling 1  
Skill development and application of theory to practice in counseling, assessment and consultation through supervised work with clients in a laboratory setting.  
**Prerequisites:** Counseling major.  
**Corequisites:** Liability insurance. Grade: Satisfactory/Unsatisfactory (S/U).  

CED 653P Practicum in Counseling: Assessment 1  
Skill development and application of theory to practice in counseling, assessment and consultation through supervised work with clients in a laboratory setting.  
**Prerequisites:** Counseling major.  
**Corequisites:** Liability insurance.  
**Notes:** Grade: Satisfactory/Unsatisfactory (S/U).  

CED 653Q Practicum in Counseling: Mid And Later Life 1  
Skill development and application of theory to practice in counseling.  

CED 664 Advanced Contemporary Topics in School Counseling 3  
Current topics affecting school counselors: the impact of leadership and advocacy, the ASCA National Model, and ethics and legal issues.  
**Prerequisites:** Admission to the Post-Master's Certificate Program in Advanced School Counseling.  

CED 669 Career Development and Career Counseling 3  
Traditional and contemporary career development theories. Career counseling processes, techniques, and information resources. Career development influences and needs of diverse populations.  
**Prerequisites:** CED 610, CED 620, and counseling major.  
**Corequisites:** CED 653.
CED 675 Counseling Field Practicum 3
Introduction to staff, structures, functions, programs, and policies of a counseling site through a minimum of 45 hours of field-based experiences and weekly supervision session on campus.
Corequisites: CED 605, CED 610, CED 620 and CED 678, CED 602 or CED 644, any CED 653 corequisite experiences for these courses. Must have liability insurance.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

CED 677 School Certification 3
Introduction to staff, structures, functions, programs and policies of a school counseling program through a minimum of 45 hours of field-based experiences and weekly supervision sessions on campus.
Corequisites: Liability insurance.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

CED 678 Professional Orientation 3
Goals and objectives of professional organizations, codes of ethics, legal considerations, standards of preparation, certification, licensing, and role identity of counselor and other personnel services specialists.

CED 679 Advanced Counseling Practicum 3
Application of counseling skills, theories and multicultural competencies through a minimum of 40 direct service hours with clients in Departmental Clinic, under intense/close supervision.
Prerequisites: Counseling major, CED 605, CED 610, CED 620, CED 678, and CED 602/644/648 and related CED 653 corequisites. Must have liability insurance.

CED 680A Counseling Internship 6
On-the-job experience for counselors totaling a minimum of 600 hours over a one-year period.
Prerequisites: Advanced standing and recommendation by the major professor.
Corequisites: Liability insurance.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

CED 680B Counseling Internship 6
On-the-job experience for counselors totaling a minimum of 600 hours over a one-year period.
Prerequisites: Advanced standing and recommendation by the major professor.
Corequisites: Liability insurance.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

CED 680C Counseling Internship 6
On-the-job experience for counselors totaling a minimum of 600 hours over a one-year period.
Prerequisites: Advanced standing and recommendation by the major professor.
Corequisites: Liability insurance.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

CED 680D Counseling Internship 6
On-the-job experience for counselors totaling a minimum of 600 hours over a one-year period.
Prerequisites: Advanced standing and recommendation by the major professor.
Corequisites: Liability insurance.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

CED 682 Application of Measurement and Clinical Appraisal Techniques 3
Selecting, administering, and interpreting a variety of standardized and nonstandardized instruments, assessments, and appraisal techniques in various settings with diverse populations. Relevant psychometric principles and ethical/legal issues.
Prerequisites: Counseling major.
Corequisites: CED 653.

CED 683 Diagnosis and Treatment Planning in Counseling 3
Provides the skills needed to diagnose accurately and effectively and to develop a comprehensive treatment plan. Emphasis on understanding and evaluating diagnosis with a diverse clientele.
Prerequisites: CED 610, CED 644 and counseling major.
Corequisites: CED 653.

CED 688 Contemporary Problems Seminar 1-3
Specific course title identified each semester by subscript, e.g., Contemporary Problems Seminar; Issues in Professional Counseling.
Prerequisites: Advanced master’s or doctoral standing, or permission of instructor.
Notes: May be repeated for credit when topic varies.

CED 690 Counselors Working with Families 3
Counseling families from family systems and multicultural theoretical perspectives. Clinical skills including assessment, treatment planning, and techniques.
Prerequisites: CED 610, CED 620.
Corequisites: CED 653.
Notes: Must be completed successfully before post-master’s certificate student can enroll in internship.

CED 691 Advanced Clinical Topics in Couple and Family Counseling/Therapy 3
Advanced seminar in the scientific and cultural foundations for practice of couple and family counseling/therapy.
Prerequisites: CED 690 or permission of instructor.
Corequisites: CED 653.
Notes: May be repeated for credit when topic varies. Must be completed successfully before post-master’s certificate student can enroll in internship.

CED 692 Independent Study 1-4
Guided readings, research, and individual project work under direction of a staff member.
Prerequisites: Permission of instructor.

CED 693 Evidence-Based Practice in Counseling 3
Overview of specific evidence-based practice interventions, methods, and approaches in counseling. The focus will depend on the course topic, but will focus on topics such as trauma-informed counseling/TF-CBT, Motivational Interviewing, Dialectical Behavior Therapy, Emotion-focused Therapy, etc.
Corequisites: CED 653.

CED 698 Implementing and Evaluating School Counseling Programs 3
Methods for designing, implementing, and evaluating comprehensive school counseling programs, in relation to the academic, career, and personal-social development of children and adolescents.
Prerequisites: CED 648.
Corequisites: CED 641, CED 671, and CED 680.
CED 720A Research Apprenticeship 3
Hands-on research experience working with CED faculty member(s) and/or research team (e.g., data collection, data coding, critiquing relevant literature, writing for publication) and focused reflection on the research process.

CED 720B Research Apprenticeship 3
Hands-on research experience working with CED faculty member(s) and/or research team (e.g., data collection, data coding, critiquing relevant literature, writing for publication) and focused reflection on the research process.

CED 740 Research Practicum in Counseling 3
Individual data-based work on problems of special interest in counseling and development. Registration requires approval of dissertation committee chair.
Prerequisites: ERM 680, ERM 681 or equivalent courses.

CED 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

CED 756A Advanced Counseling Theory and Research 3
Involves study of research about counseling theories, including discussion of common factor underlying counseling theories, strategies for evaluating theories, and critical analysis of research about theories.
Prerequisites: Admission to doctoral program or permission of instructor.

CED 756B Advanced Counseling Theory and Research 3
The second course of this two-course sequence focuses on exploring theories of change, particularly as they relate to research with contemporary career development, group counseling, and multicultural counseling theories.
Prerequisites: Admission to doctoral program or permission of instructor.

CED 757 Internship in University Teaching in Counseling 3
Supervised teaching in the area of counseling and development in a college or university setting.
Prerequisites: Permission of instructor.

CED 760A Consultation in Counseling and Counselor Education 3
Theory pertaining to the principles and practice of consultation in a variety of settings. Includes models, skills, issues, and ethical considerations in consultation.
Prerequisites: Doctoral standing or permission of instructor.

CED 760B Leadership, Advocacy, and Innovation in Counseling and Counselor Education 3
Theory pertaining to the principles and practice of leadership in a variety of settings. Includes models, skills, issues, and ethical considerations in leadership.
Prerequisites: Doctoral standing or permission of instructor.

CED 775 Directed Doctoral Research 3
Individual work on research problems consisting of collection, analysis, critical review, integration, and interpretation of research literature on a topic.
Prerequisites: Advanced doctoral standing or permission of instructor.
Notes: May be repeated for credit.

CED 777A Seminar in Counseling 3
Research methods in counseling; clinical assessment tools and issues; contemporary issues and trends in counselor education, including professional and ethical issues and global perspectives.
Prerequisites: Advanced doctoral standing in counselor education and recommendation of doctoral adviser.

CED 777B Seminar in Counseling 3
Research methods in counseling; clinical assessment tools and issues; contemporary issues and trends in counselor education, including professional and ethical issues and global perspectives.
Prerequisites: Advanced doctoral standing in counselor education and recommendation of doctoral adviser.

CED 777C Seminar in Counseling 3
Research methods in counseling; clinical assessment tools and issues; contemporary issues and trends in counselor education, including professional and ethical issues and global perspectives.
Prerequisites: Advanced doctoral standing in counselor education and recommendation of doctoral adviser.

CED 777D Seminar in Counseling 3
Research methods in counseling; clinical assessment tools and issues; contemporary issues and trends in counselor education, including professional and ethical issues and global perspectives.
Prerequisites: Advanced doctoral standing in counselor education and recommendation of doctoral adviser.

CED 779 Advanced Counseling Practicum 3
Counseling skills, multicultural competencies and applied counseling theories for 40 direct hours with actual clients under faculty supervision.
Prerequisites: Full doctoral admission.

CED 780A Advanced Counseling Internship 6
In-depth supervised field experience for advanced doctoral students in counselor education. Concentrated practice in individual, group, family, and/or consultation modes of counseling with individual faculty supervision in selected clinical settings.
Prerequisites: CED 756 or CED 774.
Corequisites: Liability insurance.

CED 780B Advanced Counseling Internship 6
In-depth supervised field experience for advanced doctoral students in counselor education. Concentrated practice in individual, group, family, and/or consultation modes of counseling with individual faculty supervision in selected clinical settings.
Prerequisites: CED 756 or CED 774.
Corequisites: Liability insurance.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

CED 780C Advanced Counseling Internship 6
In-depth supervised field experience for advanced doctoral students in counselor education. Concentrated practice in individual, group, family, and/or consultation modes of counseling with individual faculty supervision in selected clinical settings.
Prerequisites: CED 756 or CED 774.
Corequisites: Liability insurance.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

CED 780D Advanced Counseling Internship 6
In-depth supervised field experience for advanced doctoral students in counselor education. Concentrated practice in individual, group, family, and/or consultation modes of counseling with individual faculty supervision in selected clinical settings.
Prerequisites: CED 756 or CED 774.
Corequisites: Liability insurance.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).
Notes:

Prerequisites: for web scraping and text mining methods. Relevant issues pertaining to privacy rights and intellectual property rights.

Cultural Analytics (IAL)

IAL 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

IAL 620 Text Mining and Natural Language Processing 3
Students collect and analyze unstructured text data using web/API scraping methods, and then analyze their corpus using text mining and natural language processing. Additionally, students conduct a survey of relevant issues pertaining to privacy rights and intellectual property rights for web scraping and text mining methods.
Prerequisites: Admission to major or permission of instructor.
Notes: Same as ENG 607.

IAL 621 Content Analysis for Social Network Data 3
Students collect social network data to analyze trends (both hashtag trends and organic/non-tagged trends), focusing specifically on audience engagement and comments. Additionally, students conduct a survey of recent issues pertaining to privacy rights and intellectual property rights for social network trends and audience analytics.
Prerequisites: Admission to major or permission of instructor.
Notes: Same as ENG 610.

IAL 622 The Internet of Things and Wearable Analytics 3
Students collect remote/mobile data using a microcomputer (Arduino, Raspberry Pi) or mobile phone, and then analyze that data by creating a dashboard visualization of their data. Additionally, students conduct a survey of relevant issues pertaining to surveillance and privacy rights for remote/mobile data collection projects.
Prerequisites: Admission to major or permission of instructor.
Notes: Same as ENG 613.

IAL 689 Capstone Project in Cultural Analytics 3
Capstone course. Students work with local industries and nonprofit organizations to solve important data science problems under the supervision of a mentor.
Notes: Same as ENG 624.

Dance (DCE)

DCE 101 Introduction to Dance 3
Introduction to the basic concepts and principles of modern/postmodern dance through readings, studio experiences, discussions, and concert attendance.

MAC: MAC CritThink Hum and Fine Art
Notes: For non-majors. Dance majors should enroll in DCE 117.

DCE 102 Dance First-Year Foundations 3
Dance First-Year Foundations will provide Dance Majors with the skills to help them transition to and navigate the university academic experience. With an emphasis on connecting to peers, faculty and curriculum in the School of Dance, students will also develop introductory dance composition, qualitative research writing and critical thinking skills.

MAC: MAC Foundations
Prerequisites: Dance Major or Minor or permission of instructor.

DCE 111 Introduction to Contemporary Dance 1
Introduction to the movement techniques of contemporary dance, with emphasis on aesthetic and expressive qualities.
Notes: May be repeated for credit.

DCE 112 Contemporary Dance I 1-2
Development of technical skills in contemporary dance, including rhythmic perception and spatial awareness, with emphasis on aesthetic and expressive qualities that lead to performance.
Prerequisites: Department placement at this level. Ineligible students will be withdrawn; enrollment priority given to dance majors;
Notes: May be repeated for credit.

DCE 113 Introduction to Ballet 1
Introduction to basic ballet techniques.
Notes: May be repeated for credit.

DCE 114 Ballet I 1
Development of technical skills in ballet, including directions of the body, alignment, function and access of turnout, and use of the French ballet lexicon, with emphasis on safe and efficient body use.
Prerequisites: Department placement at this level. Ineligible students will be withdrawn; enrollment priority given to dance majors;
Notes: May be repeated for credit.
DCE 116 Jazz Dance I I
Introduction to the style, technique, and rhythmic structures of jazz dance with emphasis on increasing movement capabilities and personal expression.
Notes: May be repeated for credit.

DCE 117 Movement as a Medium 3
Orientation to the field of dance. Presentation of materials and experiences related to the roles of dance in societies.
Prerequisites: Dance majors only.

DCE 132 African Dance I I
Introduction to the history and vocabulary of West African dance, emphasizing the central role that dance plays in African cultures.
Notes: May be repeated for credit.

DCE 133 Tap Dance I I
Introduction to theory, historical context, and technique of traditional and contemporary tap dance forms.
Notes: May be repeated for a maximum of two (2) credits.

DCE 143 Dance Performance Workshop 1
Workshop experiences in dance creation and performance practices. Informal or formal presentation of choreographic works created with faculty and/or graduate students in dance.
Prerequisites: Dance major.
Notes: May be repeated once for credit.

DCE 200 Dance Appreciation 3
Introductory study of dance in historical and cultural contexts through a variety of critical lenses. Course includes lectures, discussions, analysis of dance on film, concert attendance, and practical dance experiences.
MAC: MAC CritThink Hum and Fine Art

DCE 206 Dance History: Global, Cultural, and Historical Considerations 3
Overview of dance history in cultural and historical contexts, from its earliest documentation to current practices, including the emergence of new dance forms through transmigration.
Prerequisites: Dance major, minor or permission of instructor.
Notes: Students must be simultaneously enrolled in OPDI (the Online Professional Development Institute of the National Dance Education Organization).

DCE 207 Dance History: Modernism and Postmodernism 3
Critical study of modernism and postmodernism in dance in the U.S. and Europe. Broadens the traditional dance history canon and focuses on sociocultural events that shaped innovation in dance.
Prerequisites: Dance majors and minors or permission of instructor.
Notes: Students may not receive credit for both DCE 207 and DCE 305.

DCE 212 Contemporary Dance II 1-3
Further development of technical skills in contemporary dance, including increased movement capabilities, rhythmic accuracy, and spatial relationships, with emphasis on aesthetic and expressive qualities that lead to performance.
Prerequisites: Department placement at this level. Ineligible students will be withdrawn; enrollment priority given to dance majors;
Notes: May be repeated for credit.

DCE 214 Ballet II 1-2
Development of technical skills in ballet, including safe and efficient alignment and clear articulation of movement vocabulary, with emphasis on increased vocabulary and musicality.
Prerequisites: Department placement at this level. Ineligible students will be withdrawn; enrollment priority given to dance majors;
Notes: May be repeated for credit.

DCE 216 Jazz Dance II 1
Continuation of DCE 116.
Prerequisites: School of Dance technique placement at 200 level. Ineligible students will be withdrawn. Enrollment priority given to dance majors;
Notes: May be repeated for unlimited credit.

DCE 217 Exploration and Improvisation in Dance 1
Guided exploration in the elements of dance for the creative development of personal movement repertoire, spontaneous group interaction, and choreographic and movement observation skills.
Prerequisites: Dance major or permission of instructor.

DCE 230 Somatic Practices in Dance 1
Study of the relationship of sound and movement, accompaniment/composer and teacher/choreographer, and a practical application of these understandings.
Prerequisites: DANC major or Minor or instructor permission.

DCE 233 Tap Dance II 1
Intermediate-level African dance technique. Further exploration of the principles of West African movement and the historic and cultural contexts in which the dances are presented.
Prerequisites: School of Dance technique placement at 200 level. Ineligible students will be withdrawn. Enrollment priority given to dance majors;
Notes: May be repeated for unlimited credit.

DCE 235 Yoga for Everybody 3
An introductory study of yoga as a mind and body practice that develops somatic (mind/body) wellness for everyone.
MAC: MAC Health and Wellness

DCE 241 Music for Dance 2
Study of the relationship of sound and movement, accompaniment and dance, accompaniment/composer and teacher/choreographer, and a practical application of these understandings.
Prerequisites: DANC major.

DCE 243 Dance Repertory II 1
Development of performance skills for dancers placed at the 200-technique level or higher through rehearsals and performances of a dance work choreographed by dance faculty or professional dance artists.
Prerequisites: Pr. or Coreq.: DCE 212 or DCE 214 or higher.
Notes: May be repeated for credit.

DCE 244 Pilates for a Healthy Body 3
An introductory study of Pilates as a body/mind practice that develops physical competency and enhances quality of life through exercise, breath awareness and healthy living practice.
MAC: MAC Health and Wellness
DCE 245 Creative Process for Dance Integration 3
An exploration of arts integration through use of the creative process as a method for developing movement and integrating dance into other subjects.
Prerequisites: Dance major or minor; or permission of instructor;
Notes: Students must be simultaneously enrolled in OPDI 105, offered through the Online Professional Development Institute of the National Dance Education Organization, to earn UNCG credit. Students not enrolled in OPDI 105 will be withdrawn from the UNCG course.

DCE 250 Dance Performance Practicum 1
Extensive rehearsal culminating in formal or informal presentation of choreography created by students.
Prerequisites: Open by audition or invitation.
Notes: May be repeated for a maximum of five credits. Grade: Pass/Not Pass (P/NP).

DCE 253 Choreography I: Craft 3
Study of the elements of time, space, and design as they are artistically significant in dance.
Prerequisites: DCE 217. DANC major.

DCE 255 Dance Production Practicum 1 I
Supervised experience in introductory level technical production work supporting dance performances.
Prerequisites: DCE 360 and Dance Major or Minor or permission of the instructor;
Notes: May be repeated twice for credit.

DCE 259 Introduction to Laban Movement Analysis 1
An exploratory introduction to LMA through movement integration.
Prerequisites: Dance Major or Minor or permission of the instructor.

DCE 300 Faculty Creative Research Project 1-3
Directed work with a dance faculty member on the exploration, development, and/or presentation of creative research methods, materials, and works.
Prerequisites: Dance Major or Minor or permission of instructor.
Notes: May be repeated for credit.

DCE 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

DCE 307 Dance History: Mapping Dance 3
Study of the routes and roots of dance practices: the changes over time of dance cultures that adapt to new places and contexts through migration, colonization, and globalization.
Prerequisites: DCE 207. Dance majors and minors or permission of instructor;
Notes: Students may not receive credit for both DCE 307 and DCE 205.

DCE 312 Contemporary Dance III 1-3
Further development of technical skills in contemporary dance. Increased complexity of movement, rhythm, and spatial design, with emphasis on aesthetic and expressive qualities.
Prerequisites: Department placement at this level. Ineligible students will be withdrawn; enrollment priority given to dance majors;
Notes: May be repeated for credit.

DCE 314 Ballet III 1-2
Further development of technical skills in ballet, including dynamic alignment, body/mind connection, and proprioception, with emphasis on self expression through the ballet aesthetic.
Prerequisites: Department placement at this level. Ineligible students will be withdrawn; enrollment priority given to dance majors;
Notes: May be repeated for credit.

DCE 316 Jazz Dance III 1
Continuation of DCE 216 for further development of skill, style, and understanding of the jazz form of dance.
Prerequisites: School of Dance technique placement at 300 or 400 level. Ineligible students will be withdrawn. Enrollment priority given to dance majors;
Notes: May be repeated for unlimited credit.

DCE 323 The Arts as Human Experience 3
An examination of the meaning of the arts experience, including its historical and personal significance. Includes reading and related work in art, dance, drama, and music.
Notes: Same as ART 323, VPA 323.

DCE 324 Contemporary Dance: Theory and High Intermediate-Level Technique 2
Theory and practice of intermediate-level contemporary dance technique and its relationship to the artistic and professional field.
Prerequisites: Department placement at this level. Ineligible students will be withdrawn; enrollment priority given to dance majors;
Notes: May be repeated for credit.

DCE 330 Iyengar Yoga: Somatic Practice 1
Study of a somatic artoform as articulated in the Iyengar Yoga method. Iyengar Yoga focuses on alignment, sequencing of poses and yoga philosophy through the study of Patanjali’s Yoga Sutras.
Notes: May be repeated twice for credit.

DCE 331 Musical Theatre Dance Styles I 1
Introduction to musical theatre dance styles and choreographers. Students will study musical theatre movement vocabulary, repertory and performance skills.
Prerequisites: DCE 113.

DCE 332 African Dance III 1
Advanced study of complex rhythms of African dance. The class will connect traditional songs, dances, and music with the culture and use those elements in choreography.
Prerequisites: School of Dance technique placement at 300 or 400 level. Ineligible students will be withdrawn. Enrollment priority given to dance majors;
Notes: May be repeated for credit.

DCE 333 Musical Theatre Dance Styles II 1
An advanced examination of musical theatre dance styles and contemporary choreographers. Students will study the movement vocabularies of a range of 21st Century choreographers, learn selections from their repertoire, marry acting techniques with dance performance, and become industry-ready by participating in mock audition experiences.
Prerequisites: DCE 331. Musical Theatre Majors, Dance Majors or by permission of instructor.

DCE 340 The Body and Motion in Dance 3
Study of the body and movement as relevant to dance. Emphasis on anatomical and kinesiological principles, alignment, body issues, prevention and care of injuries.
Prerequisites: Dance Major or Minor with junior or senior status or permission of instructor.
DCE 341 Dance Kinesiology and Applied Teaching Practices 3
Introduction to the field of dance kinesiology with an emphasis on applied teaching practices. Emphasis on the anatomy of the body as it pertains to dance movement and evaluating technique.
Prerequisites: Dance major, minor or permission of instructor.
Notes: Requires simultaneous enrollment in OPDI 110 (offered through the Online Professional Development Institute of the National Dance Education Organization). Students not enrolled in OPDI 110 will be withdrawn from the course.

DCE 343 Repertory III 1
Development of performance skills for dancers placed at the 300-level technique or higher through rehearsals and performances of a dance work choreographed by dance faculty or professional dance artists.
Prerequisite or Corequisites: DCE 312 or higher.

DCE 345 Dance in Preschool and Elementary Settings 3
Observe, participate, learn, and develop as a dancer. Create appropriate lesson plans integrating dance movement as a learning tool with 3–5 year old preschool students and with elementary school students.

DCE 347 Teaching Dance to Students with Disabilities 3
This course provides information on teaching dance students with disabilities in the P-12 private and public school environments. Students will acquire the knowledge and skills needed to plan and implement an effective and inclusive Dance Education program for students with disabilities.
Prerequisites: Dance Major or Dance Minor and Written Permission of Instructor.
Corequisites: Students must be simultaneously enrolled in the OPDI 114 course, offered through the Online Professional Development Institute of the National Dance Education Organization, to earn UNCG credit. Students not enrolled in OPDI 114 will be withdrawn from the UNCG course.

DCE 355 Dance Production Practicum II 1-3
Supervised experience in advanced level technical production work supporting dance performances.
Prerequisites: DCE 360 or permission of instructor.
Notes: May be repeated for credit.

DCE 359 Foundations for Dance Education 2
Introduction to major issues in the field as they affect decisions about teaching dance.
Prerequisites: Dance major.

DCE 360 Dance Production 3
Theory and practice in technical production areas of dance performance. Topics include lighting, sound, costumes, scenery, and video and production management. Laboratory work with department dance concerts and events.
Prerequisites: DANC major or minor.

DCE 390 Community and Studio Dance: Methods and Experience 2
Planning, teaching, and evaluating dance technique in studio and community settings for elementary, middle, and high school age students. Emphasis on fundamentals of developmentally appropriate practice in the teaching of dance.
Prerequisites: DANC major or minor. DCE 212 or DCE 214 or DCE 216 or DCE 232; or permission of instructor.

DCE 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

DCE 405 Choreographies and Choreographers 3
Exploration of concert dance over the twentieth and twenty-first centuries in a variety of geographic areas. Through various critical lenses, this course analyzes the choreographic production of influential dance makers.
Prerequisites: DCE 307. Dance Major or Minor; or permission of instructor.

DCE 412 Contemporary Dance IV 1-2
Refinement of technical skills in contemporary dance. Complex movement, rhythm, and spatial design, with emphasis on aesthetic and expressive qualities that lead to performance.
Prerequisites: Department placement at this level. ineligible students will be withdrawn; enrollment priority given to dance majors;
Notes: May be repeated for credit.

DCE 414 Ballet IV 1
Mastery of kinesthetic, expressive, and aesthetic principles of contemporary ballet at an advanced/professional level.
Prerequisites: Department placement at this level. ineligible students will be withdrawn; enrollment priority given to dance majors;
Notes: May be repeated for credit.

DCE 417 Contact Improvisation 1
Development of improvisational performance skills for advanced dancers through a thorough study of Contact Improvisation.
Prerequisites: DCE 217 or permission of instructor.
Notes: May be repeated for credit.

DCE 424 Contemporary Dance: Theory and Advanced Level Technique 2
Theory and practice of advanced-level contemporary dance technique and its relationship to the artistic and professional field.

DCE 431 Capoeira History and Practice 3
Introduction to the history and practice of Brazilian capoeira, with emphasis on the style known as capoeira angola. Includes readings, discussion, film viewing and studio practice.
Prerequisites: DCE 217 or permission of instructor.
Notes: May be repeated twice for credit.

DCE 433 Pilates Theory 3
A pilates theory course that develops knowledge and capacity to teach beginning and intermediate level pilates mat exercises. Course competencies also will focus on core strength, breath and spinal flexibility while challenging upper body strength, range of motion in the hips and spine, and spinal extension.
Prerequisites: DCE 432 or permission of instructor.

DCE 434 Advanced Dance Repertory 1-3
Development of performance skills for advanced dancers through rehearsals and performances of a significant dance work choreographed by dance faculty or approved dance artists in the field.
Prerequisites: DCE 312, DCE 324, DCE 412, or DCE 424, and permission of instructor.
Notes: May be repeated for credit. Enrollment by audition or by invitation of the instructor.
DCE 445 Introduction to Dance Education Research 3
Survey of current research paradigms in dance education inquiry with particular emphasis on research process, design, methodology, and pedagogical implications for improved dance teaching and curriculum.
Prerequisites: Dance major, minor or permission of instructor.
Notes: Students must be simultaneously enrolled in OPDI 105, offered through the Online Professional Development Institute of the National Dance Education Organization, to earn UNCG credit. Students not enrolled in OPDI 105 will be withdrawn from the UNCG course.

DCE 446 Choreographic Explorations Since 1953 3
Study of choreographic works viewed through six thematics: non-narrative dance, myth, gender and sexuality, culturally specific explorations, social and political commentary, and music and choreography.
Prerequisites: Dance major, minor or permission of instructor.
Notes: Students must be simultaneously enrolled in OPDI 105, offered through the Online Professional Development Institute of the National Dance Education Organization, to earn UNCG credit. Students not enrolled in OPDI 105 will be withdrawn from the UNCG course.

DCE 453 Choreography III: Group Forms 3
Study of and experience in developing choreographic materials for various sized groups. Special emphasis on techniques for the integration of formal values and artistic intention.
Prerequisites: DCE 217 and DCE 253.

DCE 455 Arts and Entrepreneurship: Career Strategies for Artists 3
Overview of professional performing arts career management tools. Students learn the basics of applying entrepreneurship skills and strategies to starting and sustaining an arts-related business.
Prerequisites: ARAD, DANC, DRAM, MEDU, MUSI, or PRFM major. or permission of instructor;
Notes: Same as ENT 455.

DCE 456 Field Study: Dance in New York City 1
A study trip to experience dance and performance in New York City; activities include attending dance concerts, classes, and meeting with dancers who live and work in NYC.
Prerequisites: Dance major or permission of instructor.

DCE 459 Dance Education Methods and Field Experience 3
Methods of teaching dance with observation, participation, and planning/teaching/evaluating at elementary, middle, or high school level.
Prerequisites: Permission of department. must have earned a grade of B (3.0) in DCE 212 before beginning high school placement; Pr. or Coreq.: DCE 395;
Notes: May be repeated twice for a total of 9 s.h. in order to repeat the course, one of ELC 401, ERM 401, SES 401, TED 401, TED 402, or TED 403 must be successfully completed and student must be admitted to the Teacher Education Program.

DCE 460 Assessment and Instruction in the Dance Classroom 1
An introduction to portfolio and performance assessment. Reliability, validity, and bias in the construction of classroom assignments and practice the cycle of planning, instructing, assessing for instruction in dance.
Prerequisites: DCE 459. Dance BFA and BA majors with K-12 Teaching Licensure.

DCE 461 Student Teaching in Dance Education 1
Supervised student teaching experience in dance education. Full-time teaching in a school setting.
Prerequisites: Admission to Student Teaching through application.
Notes: Grade: Pass/Not Pass (P/NP).

DCE 463 Seminar in Dance Education 1
Reflection on student teaching experiences and preparation for future career as a dance educator.
Prerequisites: All DANC licensure requirements except DCE 461.

DCE 465 Screen Dance 3
Exploration of how dance and dance film technologies work best together and why, including composing for the camera, recording dancers in action, and editing footage to create original work.
Prerequisites: DCE 253, DCE 453. or permission of instructor.

DCE 467 The Dancer's Body 3
An introduction to the study of body theories and practices in dance. Topics include somatic theory and practice, and body issues related to dance performance, choreography, and pedagogy.
Prerequisites: Two semesters of dance technique. DCE 340 or equivalent; or permission of instructor.

DCE 468 Advanced Study in Somatic Practices 3
Advanced work in a somatic practice. Areas of study include foundations, reading the body, student and teacher issues, resource lectures, and practice teaching.
Prerequisites: DCE 340 and DCE 630. or permission of instructor.

DCE 470 Creative Synthesis in Dance 3
Culminating choreographic experience for students completing choreography concentration in B.F.A.
Prerequisites: Grades of B or higher in DCE 453 and DCE 465. senior status in DANC B.F.A. major; or permission of instructor.

DCE 475 Independent Study 1-3
Intensive work in an area of special interest in dance. Available to exceptionally qualified students on recommendation of academic advisor and instructor.
Prerequisites: Demonstrated competency for independent work and permission of academic advisor and instructor.
Notes: May be repeated for a maximum of 6 s.h.

DCE 476 Selected Topics in Dance 1-3
Current topics and issues in dance as art, education, or therapy for students with sufficient preparation for intensive study of identified area.
Prerequisites: Permission of instructor.
Notes: May be repeated for credit if topic varies, up to a maximum of nine credits.

DCE 487 Performance Theory and Practice 2
Rehearsal and performance of choreography designed to challenge student dancers at their highest level of performance. Choreography by full time faculty. Selected readings and written assignments accompany practical work.
Prerequisites: Pr. or Coreq.: 3 s.h. of DCE 312, DCE 324, DCE 412, or DCE 424.

DCE 493 Honors Work 3-6
Honors Work.
Prerequisites: Permission of instructor. 3.30 GPA in the major, 12 s.h. in the major;
Notes: May be repeated for credit if the topic of study changes.

DCE 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.
DCE 605 Choreographies and Choreographers 3
Exploration of concert dance over the twentieth and twenty-first centuries in a variety of geographic areas. Through various critical lenses, this course analyzes the choreographic production of influential dance makers.
Prerequisites: Graduate standing in Dance or permission of instructor.

DCE 610 Dance Studies I: Theories and Methods 3
Introduction to scholarship and research methodologies in dance studies. Students will be introduced to key theories and methodologies that have shaped the interdisciplinary field of dance research.
Prerequisites: DCE 605 and admission to graduate degree program in dance.

DCE 611 Dance Studies II: Research Projects 3
In-depth personal inquiry into the nature and making of meaning for a selected area of concern in dance. Includes significant individual project.
Prerequisites: DCE 610 or permission of instructor.

DCE 614 New Media and Technology in Dance Education 3
Theory and practice related to teaching dance technology, including new media and interdisciplinary relationships. Includes planning, teaching, and assessing student learning in one unit of study.
Prerequisites: Admission to M.A. in Dance Education or permission of instructor.

DCE 620 Music for Dancers 3
The relationship of sound and movement, accompaniment and dance, accompanist/composer and teacher/choreographer, and bringing these understandings to practical application.
Prerequisites: Graduate standing in Dance or permission of instructor.

DCE 621 Administration of Dance 3
Introduction to the business of dance including aspects of building a professional practice relevant to career goals including grant writing, project development and management, public relations, and concert production and presentation.
Prerequisites: Graduate standing in Dance or permission of instructor.

DCE 624 Movement for Dance 1-2
Opportunities for dancers to practice their craft, developing working knowledge of different styles of African Dance, Contemporary Dance, Ballet, Jazz Dance, and other movement practices. Style and emphasis may vary each semester.
Prerequisites: Graduate standing in Dance.
Notes: May be repeated for a maximum of ten credits. Grading method is Satisfactory/Unsatisfactory (S/U).

DCE 630 Advanced Body Theories and Practices in Dance 4
Advanced study of body theories and practices in dance. Topics include sociocultural constructions of dancers’ bodies, somatic theory, body pedagogies, and somatic practices related to dance performance, choreography, and pedagogy.
Prerequisites: Graduate standing in Dance or permission of instructor.

DCE 631 Capoeira History and Practice 3
Introduction to the history and practice of Brazilian capoeira, with emphasis on the style known as capoeira angola. Includes readings, discussion, film viewing and studio practice.
Notes: May be repeated once for credit.

DCE 632 Pilates: Movement Fundamentals for Dancers 1
The course is designed to develop core strength, flexibility, posture, and range of motion and covers the fundamentals of Pilates with an emphasis on breathing, alignment, and core stability.
Prerequisites: DANC major or permission of instructor.
Notes: May be repeated twice for credit.

DCE 633 Pilates: Movement Fundamentals for Dancers 2
Continuation of study in Pilates as it relates to dance techniques and practice of Pilates in the classroom and in the studio.
Prerequisites: DCE 632 or permission of instructor.

DCE 634 Pilates: Movement Fundamentals for Dancers 3
Advanced study of Pilates and its applications in dance.
Prerequisites: DCE 633 or permission of instructor.

DCE 635 Pilates: Movement Fundamentals for Dancers 4
Practical and theoretical applications of Pilates to dance, and personal development of Pilates practice.
Prerequisites: DCE 634 or permission of instructor.

DCE 636 Pilates: Movement Fundamentals for Dancers 5
Advanced research and applications of Pilates to dance.
Prerequisites: DCE 635 or permission of instructor.

DCE 644 Pilates: Movement Fundamentals for Dancers 6
Research and applications of Pilates to dance.
Prerequisites: DCE 636 or permission of instructor.

DCE 645 Foundations for Assessment in Dance 3
Presentation of formative and authentic/performance assessment for dance, including construction and application of assessment instruments, evaluation of instruction, and assessment-based grading.
Prerequisites: Graduate standing in dance or education.
Notes: Students must be simultaneously enrolled in OPDI 105, offered through the Online Professional Development Institute of the National Dance Education Organization, to earn UNCG credit. Students not enrolled in OPDI 105 will be withdrawn from the UNCG course.

DCE 646 Reflective Practice in P-12 Dance Education 3
Planning and implementation of projects related to master’s standards for dance licensure, with ongoing reflection and dialogue.
Prerequisites: Admission to MA in dance education.

DCE 650 Dance Design Practicum 3
Advanced practicum in the technical, aesthetic and theoretical aspects of dance design.
Prerequisites: Graduate standing in Dance or permission of instructor.

DCE 651 Choreographic Practice 3
Advanced practicum in choreographic practice, including developing and assessing student learning in one unit of study.
Prerequisites: Admission to M.A. in Dance Education or permission of instructor.

DCE 652 Dance Technology Practicum 3
Advanced practicum in dance technology, including new media and interdisciplinary relationships. Includes planning, teaching, and assessing student learning in one unit of study.
Prerequisites: Admission to M.A. in Dance Education or permission of instructor.

DCE 653 P-12 Dance Education: Critical Thinking/Literacy 1-3
Theory and practice related to teaching choreography to school-aged populations, with an emphasis on collaboration. Includes planning, teaching, and assessing student learning in one unit of study.
Prerequisites: Admission to M.A. in Dance Education or permission of instructor.

DCE 654 P-12 Dance Education: Technique and Performance 1
Theory and practice related to teaching dance technique and performance to school-aged populations. Includes planning, teaching, and assessing student learning in one unit of study.
Prerequisites: Admission to M.A. in Dance Education or permission of instructor.

DCE 655 P-12 Dance Education: Choreography 1-3
Theory and practice related to teaching choreography to school-aged populations, with an emphasis on collaboration. Includes planning, teaching, and assessing student learning in one unit of study.
Prerequisites: Admission to M.A. in Dance Education or permission of instructor.

DCE 656 P-12 Dance Education: Critical Thinking/Literacy 1-3
Theory and practice related to teaching critical thinking and dance literacy with school-aged populations, including interdisciplinary relationships. Includes planning, teaching, and assessing student learning in one unit of study.
Prerequisites: Admission to M.A. in Dance Education or permission of instructor.

DCE 658 Performance Assessment in K-12 Dance Education 3
A systematic analysis of assessment in K-12 dance pedagogy. Reliability, validity, and bias in the construction of classroom assignments and practice the cycle of planning, instructing, assessing for instruction in dance.
Prerequisites: Graduate standing in Dance or permission of instructor.

DCE 659 Laban Movement Analysis 3
An introduction to Laban Movement Analysis through movement integration, observation, critical research, notation, and analysis.
Prerequisites: Graduate Dance standing or permission of instructor.
DCE 660 Issues in Planning the Dance Curriculum 3
Curriculum planning for dance in educational settings. Involvement with issues in the field.
Prerequisites: Graduate standing in dance.
Notes: Online only.

DCE 661 Dance Pedagogy in Higher Education 2
Consideration of pedagogical issues and strategies in teaching dance studio and theory courses at the undergraduate college/university level.
Prerequisites: Graduate standing in dance or permission of instructor(s).

DCE 662 Practicum in Teaching Dance 1-3
Observation of dance teaching and supervised practice at the university or K-12 level; some sections may include a required seminar.
Prerequisites: Graduate standing in Dance or permission of instructor.
Notes: May be repeated for a maximum of 6 credits, grading method is Satisfactory/Unsatisfactory (S/U).

DCE 663 PreK-12 Dance Education Practicum 1-3
Supervised teaching culminating in the development of a portfolio demonstrating competencies required for Standard Professional I licensure.
Prerequisites: Admission to graduate program in Dance.
Notes: May be repeated for a maximum of up to 6 credits.

DCE 665 Screen Dance 3
Exploration of how dance and dance film technologies work best together and why, including composing for the camera, recording dancers in action, and editing footage to create original work.
Prerequisites: Graduate standing in Dance or permission of instructor.

DCE 666 The Dancer's Body 3
An introduction to the study of body theories and practices in dance. Topics include somatic theory and practice, and body issues related to dance performance, choreography, and pedagogy.
Prerequisites: Graduate standing in Dance or permission of instructor.

DCE 668 Advanced Study in Somatic Practices 3
Advanced work in a somatic practice. Areas of study include foundations, reading the body, student and teacher issues, resource lectures, and practice teaching.
Prerequisites: Graduate standing in Dance or permission of instructor.

DCE 676 Problems Seminar 1-3
Specific course title identified each semester by subscript, e.g., Problems Seminar: Dance as Therapy.
Prerequisites: Graduate standing in dance.
Notes: May be repeated for credit when topic varies.

DCE 678 Performance Theory and Practice 2
Rehearsal and performance of work designed to challenge graduate students at their level of performance. Choreography by graduate faculty.
Prerequisites: Graduate standing in dance or permission of instructor.
Notes: May be taken three times for credit.

DCE 688 Practicum in Dance Performance 1-3
Rehearsal and performance of choreography created or reconstructed by faculty or guest artist.
Prerequisites: Graduate standing in dance or permission of the instructor.
Notes: One credit per 60 rehearsal hours. Only one credit per choreographer; May be repeated for three credits; Grade: Satisfactory/Unsatisfactory (S/U).

DCE 693 Portfolio in K-12 Dance Education 1-6
Development of teaching portfolio to meet specific requirements for MA licensure in dance. Students may substitute National Board Professional Teaching Standards portfolio with prior permission.
Prerequisites: Satisfactory completion of all required courses for the MA in dance with a dance education (M license) concentration, a Portfolio Review, and at least two years full-time or equivalent teaching K-12 dance.
Notes: May be repeated for a maximum of 6 semester hours. Grade: Satisfactory/Unsatisfactory (S/U).

DCE 694 Comprehensive Exams/Portfolio Review Preparation 1
Through individual instruction and mentorship, this course prepares students for both the oral presentation and the written portion of comprehensive exams/portfolio review.
Prerequisites: DCE 605, DCE 651.

DCE 695 Independent Study 1-3
Intensive study in an area of special interest in dance.
Prerequisites: Demonstrated competency for independent work and consent of academic advisor and the instructor.

DCE 697 Masters Production Project 1-6
Culminating choreography research with a performed or presented outcome. Possibilities include structured choreography, improvisation, lecture demonstration, master class, community based or historical research with performance, and digitally based projects.
Prerequisites: Admission to candidacy, successful completion of proposal.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

DCE 699 Thesis 1-6
Research, development, and completion of approved project which substantially contributes to mastery in MFA or MA concentration and integrates knowledge gained through the degree program.
Prerequisites: MA students and MFA candidates with approved project proposals.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

DCE 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

Economics (ECO)

ECO 100 Economics of a Global Sustainable Society 3
Sustainable development, with a natural emphasis on non-Western nations; will consider issues around such topics as demographics, development theories, the environment, health and education, the role of institutions, etc.
MAC: MAC Global and Intercultural

ECO 201 Principles of Microeconomics 3
Introduction to microeconomic principles and analysis. Topics include: the market economy, supply and demand, shortages and surpluses, competition and monopoly, international trade, and public policy issues.
MAC: MAC CritThink Soc and BehavSci
ECO 201R Principles of Microeconomics Recitation 0
Recitation supplements and expands upon the content of the co-requisite course: ECO 201: Principles of Microeconomics.

ECO 202 Principles of Macroeconomics 3
Introduction to macroeconomic principles and analysis. Topics include the national income, the monetary system, inflation, business cycles, fiscal policy, the national debt, exchange rates, balance of payments, and economic growth.

MAC: MAC CritThink Soc and BehavSci

ECO 219 Essential Mathematics for Economics 3
Pre-calculus mathematical applications in economics. Provides mathematical tools for upper-level courses in economics.

Prerequisites: At least one year of high school algebra.

ECO 250 Economic and Business Statistics I 3
Introduction to statistical methods with applications in economics and business. Topics include descriptive statistics, probability, statistical inference, correlation, and regression. Emphasis on problem solving with microcomputer applications.

Prerequisites: An acceptable score on the mathematics placement test or any one of the following: MAT 115, MAT 120, MAT 150, MAT 151, MAT 190, MAT 191, MAT 292, ECO 219.

ECO 250R Econ/Bus Stats I Recitation 0

ECO 300 The International Economy 3
Examines the history, structure, and institutional foundations of the international trading system. Analyzes the impact of trade on economic growth, employment and living standards with a focus on contemporary issues.

Prerequisites: ECO 201 and ECO 202, or permission of instructor.

ECO 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ECO 301 Intermediate Microeconomic Theory 3
Intermediate level analysis of consumer theory and theory of the firm. Other topics include market failure, savings and investment, risk and uncertainty, wage determination, and income distribution.

Prerequisites: ECO 201, MAT 120 or MAT 191 or ECO 219.

ECO 302 Intermediate Macroeconomic Theory 3
Intermediate level analysis of national income and employment with attention to fiscal and monetary policy, theories of business fluctuations, and economic growth.

Prerequisites: ECO 202.

ECO 312 Economics of Technology 3
Economic analysis of technological change. Topics include sources of productivity, inventive activity, entrepreneurship, innovation strategy, RD management, patenting, and technology assessment.

Prerequisites: ECO 201.

Notes: Same as ENT 312.

ECO 315 The Economics of Entrepreneurship 3
Study of entrepreneurship from history of economic thought perspective and application of such concepts to economic agents. Emphasis on economic thought, market activity, and economic growth.

Prerequisites: ECO 201.

Notes: Same as ENT 315.

ECO 319 Quantitative Analysis 3
Introduction to mathematical methods in economics. Includes applications of mathematics to consumer and production theory, equilibrium analysis, input-output models, and optimization.

Prerequisites: Minimum grade of B (3.0) in MAT 120 or minimum grade of C (2.0) in MAT 191 or minimum grade of B (3.0) in ECO 219. ECO 201.

ECO 323 Public Economics 3
The analysis of taxes and expenditures. Topics include: rationale for government (public goods, externalities), expenditure analysis (including income redistribution), tax analysis (including income, sales, and property taxes).

Prerequisites: ECO 301.

ECO 327 Money and Economic Activity 3
Emphasis on legal, institutional, and economic forces which mutually interact to determine supply of money. Elementary monetary theory and monetary flows, institutions, policies, and problems analyzed. International as well as domestic monetary analysis.

Prerequisites: ECO 202.

ECO 350 Economic and Business Statistics II 3
Continuation of ECO 250. Inference about population variance, inference about two populations, analysis of variance, bivariate regression, and multiple regression with empirical applications to business and economics using statistical software.

Prerequisites: Any one of the following: ECO 250, PSC 301, PSY 211, SOC 302, STA 271, STA 290, or STA 352.

ECO 355 Econometrics 3
The application of statistical models and methods to economic data and models. Topics include linear regression, interpretation of results, hypothesis testing, and specification testing.

Prerequisites: ECO 350.

ECO 360 International Monetary Economics 3
Analysis of balance of payments and international monetary systems. Monetary and fiscal policies under the gold standard, fixed exchange, and flexible exchange systems. Breakdown of the Bretton Woods system and the current exchange rate policies of central banks.

Prerequisites: ECO 302.

ECO 362 History of Economic Thought 3
The history of economic thought and criticism since the eighteenth century. Major topics include classical economics, socialism, communism, marginalism, Keynesianism, corporatism, Austrian economics, monetarism, developmentalism, neoliberalism, and modern anti-market revolutions.

Notes: Same as HIS 362.

ECO 367 Economic Growth and Development 3
Investigation of the determinants of the long-run economic growth of nations. Application of economic concepts to problems of developing and lesser developed countries.

Prerequisites: ECO 302.

ECO 370 Labor Economics 3
Examination of wage and employment determination in U.S. labor markets. Topics include labor supply and labor demand theory, investments in education and training, job search and migration, unemployment, unions, racial and sex discrimination, income inequality, and public policy.

Prerequisites: ECO 301.
ECO 380 Environmental and Natural Resource Economics 3
Examination of environmental problems in market economies. Topics include the economic theory of pollution and its control; common-property resources, renewable and other resources, endangered species, population growth, and international problems.
Prerequisites: ECO 201.

ECO 387 Entrepreneurship in American History 3
This course will examine entrepreneurs who shaped the contours of the American economy from the first transatlantic trade routes to the World Wide Web. We utilize entrepreneurship to analyze the development of American capitalism from a string of coastal colonies to an economic world power.
Notes: Same as BLS 387, ENT 387.

ECO 390 Health Economics 3
Examination of supply and demand for health care, medical malpractice, health insurance, government provision of health care, international comparisons, and health care reform.
Prerequisites: ECO 301.

ECO 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ECO 413 Directed Studies in Economics I 1-3
Individual study of economic problems of special interest to the student. Regular conferences with instructor required.
Prerequisites: 21 s.h. of economics and permission of instructor.

ECO 426 Internship: Experiential Learning in Economics 1-3
Campus-monitored, supervised off-campus internships that involve the application of economic analysis and methods and develop professional skills. Minimum of fifty supervised internship hours per one credit hour earned.
Prerequisites: Minimum overall GPA of 2.50 and permission of instructor. ECON/ECOS major.

ECO 493 Honors Work 3-6
Honors Work.
Prerequisites: Permission of instructor. 3.30 GPA in the major, 12 s.h. in the major;
Notes: May be repeated for credit if the topic of study changes.

ECO 498 Seminar in Economics 3
Examination of market failure, public goods, economic efficiency, and income incidence, allocative effects, and public policy.
Prerequisites: ECO 301, ECO 302, and ECO 350.

ECO 499 Problems in Economics 3
Independent study, research, and discussion covering a topic or group of related topics of current interest in economic policy or economic theory. Topics covered vary from semester to semester.
Prerequisites: Permission of instructor.
Notes: May be repeated for credit with approval of department head.

ECO 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ECO 613 Directed Studies in Economics II 1-3
Individual study of an advanced topic in economics. Regular conferences with the instructor are required.
Prerequisites: Permission of the Director of Graduate Study in Economics and the professor who will supervise the study.

ECO 625 Data Methods in Economics 3
Advanced techniques in data preparation. Topics include data formats, error checking, merging data, large data sets, and missing observations. Students work extensively with SAS.

ECO 630 Introduction to Cost Effectiveness 3
Methods used by health economists to evaluate health care technologies and programs. Learn how to critique and use health economic evaluations, common health economic evaluation tools and methods.

ECO 631 Applied Policy Methods 3
Provides applied foundation for policy study with emphasis on an economic efficiency perspective including history of policy analysis, market and government failure, and alternative methods for policy analysis.

ECO 637 Empirical Health Economics 3
Examines the market for health services and the production of health. Topics include the demand and supply for health care professionals, health insurance and financing, and regulation of medical markets.

ECO 641 Microeconomics I 4
Theory of consumer and firm behavior under certainty and uncertainty including exchange, production, income distribution, market structure and welfare economics.
Prerequisites: ECO 625 and ECO 631 or permission of the Director of Graduate Studies.

ECO 642 Microeconomics II 3
Examination of market failures that can occur within competitive, decentralized market systems. Topics include market power, uncertainty, asymmetric information, externalities, and public goods.
Prerequisites: ECO 641 or ECO 701.

ECO 643 Econometric Methods 4
Introduction to advanced econometric applications. Topics may include seemingly unrelated regressions, simultaneous equations, identification, two-stage least squares, and sample selection models. Application to economic data using statistical software emphasized.
Prerequisites: ECO 625 and ECO 631 or permission of the Director of Graduate Studies.

ECO 644 Econometric Theory 3
Foundations of mathematical statistics and linear econometric models. Topics include discrete and continuous probability distributions, random sampling and asymptotic analysis, the linear regression model, hypothesis testing, and statistical programming and simulation using SAS or other statistical software.
Prerequisites: ECO 643 or ECO 705.

ECO 646 Macroeconomics 4
Advanced theory of aggregate economic activity. Economic models developed to explain economic growth, activity, and fluctuations based on classical, Keynesian, monetarist, and new classical schools of thought.
Prerequisites: ECO 625 and ECO 631 or permission of the Director of Graduate Studies.

ECO 663 Predictive Data Mining 3
Provides a working knowledge of statistical tools important to the emerging and practically relevant field of predictive data mining and the discovery of patterns in big data sets.

ECO 664 Time Series and Forecasting 3
Students learn to analyze and forecast time series data. Topics include stochastic linear difference equations, tests for trends and stationarity, and ARIMA modeling. Application to economic data emphasized.
ECO 691 Economics Internship 1-3
Individual course of study consisting of an applied economics and/or data analysis component and written work that complements the program's academic work. Supervised by faculty and an appropriate manager.
Prerequisites: Permission of the Director of Graduate Study.
Notes: May be repeated for credit. Maximum of 3 credit hours may apply toward the M.A. degree, course cannot be applied toward the Ph.D. degree.

ECO 701 Microeconomics I 4
Theory of consumer and firm behavior under certainty and uncertainty including exchange, production, income distribution, market structure and welfare economics.
Prerequisites: ECO 625 and ECO 631 or permission of the Director of Graduate Studies.

ECO 702 Macroeconomics 4
Advanced theory of aggregate economic activity. Economic models developed to explain economic growth, activity, and fluctuations based on classical, Keynesian, monetarist, and new classical schools of thought.
Prerequisites: ECO 625 and ECO 631 or permission of the Director of Graduate Studies.

ECO 705 Econometrics Methods 4
Introduction to advanced econometric applications. Topics may include seemingly unrelated regressions, simultaneous equations, identification, two-stage least squares, and sample selection models. Application to economic data using statistical software emphasized.
Prerequisites: ECO 625 and ECO 631 or permission of the Director of Graduate Studies.

ECO 712 Directed Studies in Economics III 1-3
Individual study of an advanced topic in economics. Regular conferences with the instructor are required.
Prerequisites: Permission of Director of Graduate Study.
Notes: May be repeated for credit.

ECO 730 Introduction to Cost Effectiveness 3
Methods used by health economists to evaluate health care technologies and programs. Learn how to critique and use health economic evaluations, common health economic evaluation tools and methods.

ECO 731 Applied Policy Methods 3
Provides applied foundation for policy study with emphasis on an economic efficiency perspective including history of policy analysis, market and government failure, and alternative methods for policy analysis.

ECO 734 Public Policies Toward Innovation 3
Examines public-sector innovation policies from a domestic and global perspective.

ECO 735 Labor Economics 3
Examines the operation of the labor market, its institutions, and labor market policies. Topics include labor supply and demand, returns to education, family and household economics, wage inequality, and unions.
Prerequisites: ECO 643 or ECO 705.
Notes: May be repeated for credit.

ECO 736 Public Economics 3
Examines governmental expenditures and taxes and the constraints imposed on them within a federal, multi-tiered governmental structure. Topics include education, public health, housing and community development, infrastructure, and environmental regulation.
Prerequisites: ECO 641 or ECO 701.

ECO 737 Empirical Health Economics 3
Examines the market for health services and the production of health. Topics include the demand and supply for health care professionals, health insurance and financing, and regulation of medical markets.
Notes: May be repeated for credit.

ECO 738 Topics in Economics 3
Application of economic theory and econometrics to a specific topic in public, labor, or health.
Prerequisites: ECO 641 or ECO 701, ECO 643 or ECO 705.
Notes: May be repeated for credit.

ECO 739 Independent Field Course 1-4
A faculty-directed, independent study of a research area that is particularly related to a student’s primary field of interest.
Prerequisites: Permission of the Director of Graduate Study.
Notes: May be repeated for credit, may serve as one required major field course.

ECO 741 Advanced Mathematical Economics 3
Mathematical concepts and techniques that are used in advanced economic theory. Material includes sets and functions, constrained and unconstrained programming, and difference and differential equations.
Prerequisites: ECO 642.

ECO 742 Advanced Microeconomic Theory 3
Examines decision making by households and firms with an emphasis on the meaning and empirical interpretation of theoretical models. Topics include duality theory, general equilibrium, and welfare economics.
Prerequisite/Corequisite: ECO 741 or permission of instructor.

ECO 745 Advanced Econometric Theory 3
Presents fundamental concepts in statistics and least squares estimation and inference within single-equation linear models, instrumental variable approaches, and multivariate regression contexts. Concludes with introduction to nonlinear regression. Includes lab.
Prerequisites: ECO 644.

ECO 746 Advanced Econometric Theory II 3
Advanced methods in microeconomic analysis, covers linear models for panel data with unobserved heterogeneity, M-estimators, maximum likelihood, generalized methods of moments, and discrete response models. Includes lab.
Prerequisites: ECO 745 or permission of instructor.

ECO 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ECO 797 Seminar in Empirical Economics 3-6
A supervised seminar in which students formulate a major empirical research project and identify, collect, and assemble the data required to pursue that research.
Prerequisites: Permission of Director of Graduate Study.
Notes: May be repeated for credit.

ECO 798 Seminar in Economic Research 3-6
A supervised research seminar in which students complete an extensive review of the literature in their chosen area of research specialization.
Prerequisites: Permission of Director of Graduate Study.
Notes: May be repeated for credit.

ECO 799 Dissertation 1-12

ECO 802 Dissertation Extension 1-3
Dissertation Extension.

ECO 803 Research Extension 1-3
Research Extension.
Educational Leadership and Cultural Foundations (ELC)

ELC 201 Introduction to Community Leadership 3
An introduction to leadership studies through a multidisciplinary framework, this course provides an overview of leadership and personal development skills necessary to practice leadership in service to society. **Prerequisites:** First Year, Impact Living Learning Community Participants or Permission of Instructor.

ELC 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ELC 375 Philosophy of Education 3
Philosophical questions related to education, such as what is education, how are the aims of education to be decided, and what is knowledge, pursued in conjunction with classic historic readings in the philosophies of education and knowledge as well as selected contemporary reading.

ELC 381 Cultural Foundations of Education 3
Introduction to the ideological, ethical, and cultural dimensions of schooling, as well as the competing visions of education used to engage students in relevant issues of school life.

ELC 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ELC 401 Schooling in a Democratic Society 1
The historical and social purposes of schooling in a democratic society. Enrollment limited to students who are pursuing initial teaching licensure. **Prerequisites:** Admission to the Teacher Education Program. **Notes:** May be repeated for unlimited credit.

ELC 406 Institutes in Education 1-3
Practicum or workshop experiences to focus on issues, problems, or approaches in the profession. **Notes:** Students may apply no more than three (3) s.h. of this course to any degree program. Grade: Satisfactory/Unsatisfactory (S/U).

ELC 481 Teaching in the Urban School 3
This course is designed to provide an opportunity for educators to examine research and literature related to the problems of teaching in the urban school.

ELC 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ELC 609 Epistemology and Education 3
An overview of several systems of knowledge and the problems of knowing, knowing how, and belief. Deals with intellect, rationality, and positional knowledge. **Prerequisites:** ELC 696 or ELC 697 or their equivalents.

ELC 615 Foundations of Curriculum 3
Historical, cultural, and sociopolitical foundations of curriculum theory and practice. Emphasis on ideological shifts in transformative practice, curriculum development/analysis, and relations between curriculum, individual, and society.

ELC 616 Culturally Responsive Leadership 3
Theories of and strategies related to culturally responsive leadership that will prepare K-12 school leaders to develop effective and equitable, multicultural school communities.

ELC 625 Seminar in Teaching and Social Foundations of Education 3
Critical consideration of the purpose and philosophy of undergraduate social foundations courses, perspectives and approaches to teaching, and reflection on issues and problematics of critical pedagogy. **Notes:** This course can be taken up to 2 times for credit.

ELC 660 The School Principalship 3
For prospective principals. Functions in organizing people to meet educational goals, leadership in instruction, supervision, curriculum design and development, personnel administration, and ethical and legal responsibilities.

ELC 661 Ethics and Education 3
Appraisal of human aims and practices, attitudes towards character, and conceptions of desirable human life, as these are related to educational theory and practice. **Prerequisites:** ELC 697 or ELC 707 or their equivalents.

ELC 662 Power, Politics, and Schools 3
The politics of education as the set of interactions that influence and shape the authoritative allocation of values in this society and its educational organizations.

ELC 664 Introduction to Qualitative Inquiry: A Social Justice Approach 3
Theoretical and philosophical dimensions of interpretive inquiry in education; concepts that are the foundation for qualitative methodologies in educational research.

ELC 665 Approaches to Qualitative Inquiry 3
Introduction to empirical qualitative research: philosophical foundations, research design strategies, method for data collection and analysis (especially interviewing and field observation), options for reporting research. Emphasis on skill development. **Prerequisites:** ELC 609, ELC 664 recommended.

ELC 666 Writing Preparation and Proposal Development 3
Workshop addresses dissertation process and academic professional development in ways that build on the theory and practice of scholarly writing.

ELC 670 Leadership for Teaching and Learning 3
Examines conceptions of “good” schools and the nature of instruction, curriculum, assessment, and professional development. Explores leadership, change, and school renewal that works toward good schooling and pedagogy. **Prerequisites:** Admission to MSA, PMC, EdS, or EdD program in educational leadership or permission of instructor.

ELC 671 Principal Fellows Seminar 3
Provides enrichment activities for Principals Fellows as required by the Principal Fellows Program. **Prerequisites:** Enrollment as a Principal Fellow. **Notes:** Required for Principal Fellows each semester during their enrollment in the MSA program.

ELC 672 Technology and Administrative Leadership 3
How school leaders can use technology to meet their management, instructional, inquiry, and problem solving responsibilities.

ELC 673 Principal Leadership for Special Education 3
Strategies school principals can use to advocate and implement programs for exceptional children that are effective for students and compliant with legal requirements.
ELC 675 Schools as Centers of Inquiry 3
Effective schools function as professional learning communities characterized by a culture of inquiry and collaboration. Builds the skills of students in facilitating individual and whole school inquiry. **Prerequisites:** Admission to MSA, PMC, EdS, or EdD program in educational leadership or permission of instructor.

ELC 680 Transnational and Postcolonial Feminist Perspectives 3
Study of transnational and postcolonial feminist perspectives in multiple world regions. Emphasis on global political developments, grassroots efforts to use education as social change, and developing critical power literacies.

ELC 682 Teaching Social Justice 3
Examines various ways people might teach to promote social justice. Explores conceptual frameworks for understanding issues of oppression and privilege. Opportunity to apply diverse pedagogical strategies.

ELC 683 Engaging the Public in Education 3
Examination of parent involvement in schooling, school/family/community partnerships, civic deliberation about education, school's role in community transformation. Emphasis on equity/justice, school's accountability to the public, research evidence, effective practice.

ELC 684 Teacher Rights, Recruitment, Retention, and Evaluation 3
Processes and systems to recruit, induct, support, evaluate, develop, and retain a high quality staff. Legal and ethical reasoning systems influencing school administrators with regard to teachers' legal rights.

ELC 685 Passionate Pedagogies 3
Examination of how passion, on the part of both teachers and learners, can become a motivating force for deeper understandings of ourselves and critical social issues.

ELC 686 Curriculum Theory 3
The nature of theory and of theory building; application of theoretical criteria to the field of curriculum.

ELC 687 Legal and Ethical Dimensions of Leadership 3
The constitutional and statutory precedents and principles underlying the roles of federal, state, and local governments in public education. Recent court decisions relating to public education; development of awareness of freedoms and constraints of law and ability to implement and apply the intention of law and court decisions to practical problems of school administration. **Prerequisites:** Basic knowledge of history of American education, governance and organization of education and basic U.S. history and/ or constitutional law.

ELC 688 Contemporary Problems Seminar 1-3
Specific course title identified each semester by subscript, e.g., Contemporary Problems Seminar: Issues in Professional Negotiations. **Notes:** May be repeated for credit when topic varies.

ELC 688H Contemporary Problems Seminar 1-3
Specific course title identified each semester by subscript, e.g., Contemporary Problems Seminar: Issues in Professional Negotiations. **Notes:** May be repeated for credit when topic varies.

ELC 690 Practicum in Educational Administration 3-6
Planned administrative functions in appropriate school setting with objective of providing direct experience with processes and functions of educational administration. Supervision is shared responsibility of university and public school faculties. **Prerequisites:** For educational administration majors at either master's or sixth-year level. Completion of 12 hours in MSA program and permission of instructor. **Notes:** May be repeated for a maximum of 12 hours credit. Grade: Satisfactory/Unsatisfactory (S/U).

ELC 691 Urban School Organizational Leadership: Best Practices 3
Examines organizational dimensions of urban schooling including structure, culture, politics, bureaucracy, community. Explores practical organizational leadership reform initiatives that aim to promote educational excellence and encourage social justice.

ELC 692 Independent Study 1-4
Guided readings, research, and individual project work under direction of a staff member. **Prerequisites:** Permission of instructor.

ELC 694 Cultural and Political Dimensions of Schooling 3
Structures and processes of school governance, including the impacts of district, state and Federal policies, and influence of special interest groups. Attention to policy development, advocacy, implementation, analysis, and critique.

ELC 700 Critical Perspectives in Education, Leadership, and Culture 3
Explores the challenges of educational transformation, including improved teaching and learning, equity/social justice, and democracy in institutions with complex cultural contexts. Introduction to habits of mind for advanced graduate study.

ELC 701 The School Superintendency 3
Designed for both aspiring superintendents and central office administrators. Focuses on basic knowledge and skill development around a broad range of issues critical to superintendent success. **Prerequisites:** Admission to EdS or EdD program in educational leadership or permission of instructor.

ELC 702 School District Leadership 3
This course prepares school administrators to lead school districts. District leadership requires enacting a vision, organizing personnel, and managing operations to address human and community needs.

ELC 704 Moral Dimensions of Education 3
Values involved in educational decision making; application of various moral discourses to educational practices. **Prerequisites:** ELC 696 or ELC 697 or their equivalents.

ELC 705 Foundations of Critical Theory 3
Provides a survey of foundational critical theorists, the Frankfurt School, and contemporary fields of study on power, social, cultural, and economic life through historical and sociopolitical analysis.

ELC 706 History of Education in the United States 3
Historical foundations of the educational system in the U.S. Contributions of selected educational leaders and the responses of the educational system to the dilemmas posed by major events and movements in the history of the country.

ELC 707 Philosophies in Education 3
Major philosophic viewpoints (traditional and contemporary) as they apply to education; analysis of past and present changes in educational outlook and practices.
ELC 708 Educational Sociology: Race, Class, and Gender Power Dynamics 3
Key sociological concepts and theories are utilized to analyze, critique, and understand how power operates on both macro and micro levels within United States educational systems.

ELC 709 Introduction to Critical Pedagogy 3
Introduction to the theory and practice of critical pedagogy including its relationship to critical social theory. Emphasis on education as vehicle for social change, moral critique, and personal transformation.

ELC 710 Data Literacy and Structured Inquiry 3
This course focuses on data literacy and structured inquiry for educational leaders. Throughout the course, there will be an emphasis on ethical and equity issues regarding data and inquiry.

ELC 711 Ethics and Education 3
Appraisal of human aims and practices, attitudes towards character, and conceptions of desirable human life, as these are related to educational theory and practice.
Prerequisites: ELC 697 or ELC 707 or their equivalents.

ELC 712 Teaching Social Justice 3
Examines various ways people might teach to promote social justice. Explores conceptual frameworks for understanding issues of oppression and privilege. Opportunity to apply diverse pedagogical strategies.

ELC 713 Passionate Pedagogies 3
Examination of how passion, on the part of both teachers and learners, can become a motivating force for deeper understandings of ourselves and critical social issues.

ELC 714 Curriculum Theory 3
The nature of theory and of theory building. The application of theoretical criteria to the field of curriculum.

ELC 715 Foundations of Curriculum 3
Historical, cultural, and sociopolitical foundations of curriculum theory and practice. Emphasis on ideological shifts in transformative practice, curriculum development/analysis, and relations between curriculum, individual, and society.

ELC 716 Culturally Responsive Leadership 3
Theories of and strategies related to culturally responsive leadership that will prepare K-12 school leaders to develop effective and equitable, multicultural school communities.

ELC 717 Technology and Administrative Leadership 3
How school leaders can use technology to meet their management, instructional, inquiry, and problem solving responsibilities.

ELC 718 Principal Leadership for Special Education 3
Strategies school principals can use to advocate and implement programs for exceptional children that are effective for students and compliant with legal requirements.

ELC 719 Schools as Centers of Inquiry 3
Effective schools function as professional learning communities characterized by a culture of inquiry and collaboration. Builds the skills of students in facilitating individual and whole school inquiry.
Prerequisites: Admission to M.S.A., P.M.C., or Ed.D. program in Educational Leadership or permission of instructor.

ELC 722 Aesthetics, Visual Studies, and Critical Pedagogy 3
Aesthetics, visual literacy, visual culture, semiotics, and their influences in contemporary education. Development of critical visual literacy for the understanding and integration of the arts in pedagogy.

ELC 723 Urban School Organizational Leadership: Best Practices 3
Examines organizational dimensions of urban schooling including structure, culture, politics, bureaucracy, community. Explores practical organizational leadership reform initiatives that aim to promote educational excellence and encourage social justice.

ELC 724 Seminar in Teaching and Social Foundations of Education 3
Critical consideration of the purpose and philosophy of undergraduate social foundations courses, perspectives and approaches to teaching, and reflection on issues and problematics of critical pedagogy.
Notes: Can be taken up to 2 times for credit.

ELC 730 Democracy and Education 3
Study of the meaning of democracy, the relationship between democracy and education, and the role of schooling in preparing citizens.

ELC 731 Power, Politics, and Schools 3
The politics of education as the set of interactions that influence and shape the authoritative allocation of values in this society and its educational organizations.

ELC 732 Advanced Seminar in School Law Research 3
Case studies in school law.
Notes: For doctoral students writing a legal dissertation.

ELC 733 Cases and Concepts in Educational Leadership 3
Uses cases and problem-based learning as opportunities to explore key analytic/theoretical perspectives and research evidence relevant to leadership for meaningful and equitable educational reform.

ELC 734 Theories in Educational Administration 3
The nature of theory, definition, utilization; contemporary theories applied to educational administration; and system theory and its application possibilities to educational administration.

ELC 735 The School Principalship 3
For prospective principals. Functions in organizing people to meet educational goals, leadership in instruction, supervision, curriculum design and development, personnel administration, and ethical and legal responsibilities.

ELC 736 Leadership for Teaching and Learning 3
Examines conceptions of "good" schools and the nature of instruction, curriculum, assessment, and professional development. Explores leadership, change, and school renewal that works toward good schooling and pedagogy.
Prerequisites: Admission to M.S.A., P.M.C., or Ed.D. program in Educational Leadership or permission of instructor.

ELC 737 Teacher Rights, Recruitment, Retention, and Evaluation 3
Processes and systems to recruit, induct, support, evaluate, develop, and retain a high quality staff. Legal and ethical reasoning systems influencing school administrators with regard to teachers' legal rights.

ELC 738 Cultural and Political Dimensions of Schooling 3
Structures and processes of school governance, including the impacts of district, state and Federal policies, and influence of special interest groups. Attention to policy development, advocacy, implementation, analysis, and critique.
ELC 740 Practicum in Educational Administration 3-6
Planned administrative functions in appropriate school setting with objective of providing direct experience with processes and functions of educational administration. Supervision is shared responsibility of university and public school faculties.
Prerequisites: For educational administration majors at either master's or sixth-year level. Completion of 12 credit hours in the M.S.A. program and permission of instructor.
Notes: May be repeated for a maximum of 12 credits, grading method is Satisfactory/Unsatisfactory (S/U).

ELC 742 Engaging the Public in Education 3
Examination of parent involvement in schooling, school/family/community partnerships, civic deliberation about education, school's role in community transformation. Emphasis on equity/justice, school's accountability to the public, research evidence, effective practice.

ELC 744 Epistemology and Education 3
An overview of several systems of knowledge and the problems of knowing, knowing how, and belief. Deals with intellect, rationality, and positional knowledge.
Prerequisites: ELC 696 or ELC 697 or their equivalents.

ELC 745 Contemporary Problems Seminar 1-3
Specific course title identified each semester by subscript, e.g., Contemporary Problems Seminar: Issues in Professional Negotiations.
Notes: May be repeated for credit when topic varies.

ELC 749 Doctoral Dissertation Seminar 1-3
Develop, discuss, and defend a dissertation prospectus.
Prerequisites: Permission of instructor.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

ELC 750 Advanced Seminar in School Law Research 3
Case studies in school law.
Notes: For EdS students or the doctoral student writing a legal dissertation.

ELC 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ELC 751 Cases and Concepts in Educational Leadership 3
Uses cases and problem-based learning as opportunities to explore key analytic/theoretical perspectives and research evidence relevant to leadership for meaningful and equitable educational reform.

ELC 752 Theories in Educational Administration 3
The nature of theory, definition, utilization; contemporary theories applied to educational administration; system theory and its application possibilities to educational administration.

ELC 754 Personal Leadership Assessment and Enhancement 3
For students who intend to pursue educational leadership roles and careers in administration. Emphasizes development of creative leadership potential and maximization of personal growth.
Prerequisites: Admission to EdS or EdD program in educational leadership or permission of instructor.

ELC 764 Introduction to Qualitative Inquiry: A Social Justice Approach 3
Theoretical and philosophical dimensions of interpretive inquiry in education; concepts that are the foundation for qualitative methodologies in educational research.

ELC 765 Approaches to Qualitative Inquiry 3
Introduction to empirical qualitative research: philosophical foundations, research design strategies, method for data collection and analysis (especially interviewing and field observation), options for reporting research. Emphasis on skill development.
Prerequisites: ELC 744 or ELC 764 recommended.

ELC 766 Writing Preparation and Proposal Development 3
Workshop addresses dissertation process and academic professional development in ways that build on the theory and practice of scholarly writing.

ELC 767 Qualitative Data Collection and Analysis 3
In-depth experience in qualitative data collection and analysis beyond the introductory level. Completion of a qualitative research project in collaboration with other students in the class.
Prerequisites: ELC 664, ELC 665 or other course in qualitative research.

ELC 775 Directed Doctoral Research 3
Individual work on dissertation research problems: collection analysis, critical review, integration, and interpretation of research literature on a topic pertinent to the student's dissertation.
Prerequisites: Doctoral students in ELC or TED/HED and permission of instructor.
Notes: May be repeated once for credit.

ELC 790 Internship in Educational Leadership 3-18
Directed year-long internship in an appropriate educational administration field-based setting. Supervision shared by department faculty and field-based mentors.
Prerequisites: Minimum of 24 semester hours beyond the master's or a minimum of all prerequisite courses and 24 additional semester hours for those admitted to the program without a master's degree. All such work to be approved in writing by the student's Advisory/Dissertation Committee.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

ELC 799 Dissertation 1-12
Individual direction in the development and execution of a doctoral dissertation.

ELC 802 Dissertation Extension 1-3
Dissertation Extension.

ELC 803 Research Extension 1-3
Research Extension.

Educational Research Methodology (ERM)

ERM 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ERM 401 Assessment I: Accountability in Our Nation's Schools 1
Students will examine Federal, State, and classroom accountability systems. Enrollment is limited to students who are pursuing initial teaching licensure.
Prerequisites: Admission to the Teacher Education Program.

ERM 402 Assessment II: Standardized Tests 1
Students will examine standardized testing, key statistical terms, and the application of testing data to instructional planning. Enrollment is limited to students who are pursuing initial teaching licensure.
Prerequisites: Admission to the Teacher Education Program.
ERM 403 Assessment III: Classroom Assessment 1
Development, monitoring, and evaluation of student progress through classroom assessments. Enrollment is limited to students who are pursuing initial teaching licensure in B-K, K-12, and secondary programs. 
Prerequisites: Admission to the Teacher Education Program.

ERM 405 Measurement and Assessment in Teaching 3
The fundamentals of measurement and assessment used in teaching middle and secondary grades, including the concepts of assessment types, assessment development, reliability, validity, interpreting test results.

ERM 410 Data Literacy 3
This course provides students with an introductory set of tools for data literacy. The course introduces concepts related to the management, analysis, and presentation (figures and graphs) of data. While not a formal statistics class, fundamental concepts in statistics will be introduced as will relevant data management and statistical software.
Prerequisites: Completion of a quot.GMT" general education course or equivalent.

ERM 417 Statistical Methods in Education 3
Introductory course in applied descriptive statistics, correlational methods, and linear regression that provides a conceptual and theoretical foundation for more advanced work and a thorough grounding in the use of computers for descriptive statistical analysis, and interpretation of results.
Prerequisites: Elementary Algebra.

ERM 600 Validity and Validation 3
Validity is fundamental to all testing operations. The course covers seminal theories, critical perspectives, as well as prominent validation research of critical importance to professionals working in diverse industry settings.

ERM 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ERM 604 Methods of Educational Research 3
Techniques and uses of research in education. Designed to provide the student with the ability to read, understand, and critically evaluate published empirical research.
Notes: Students who took this course as EAR 593 are not eligible to take ERM 604 and receive credit.

ERM 605 Educational Measurement and Evaluation 3
For teachers, counselors, and administrators. Principles of measurement and evaluation, methods of scoring and interpreting tests. Construction and use of teacher-made tests. Statistical concepts basic to understanding and interpreting test data.
Notes: Students who took this course as EAR or ERM 670 are not eligible to take ERM 605 and receive credit.

ERM 633 Second Language Assessment and Testing 3
Theoretical and practical issues related to second language testing with special attention paid to the assessment of English as a second language, world Englishes, and foreign languages.

ERM 636 Advanced Studies in Second Language Testing 3
Language testing for English and foreign language learners, as well as the World Englishes domain. It investigates policies, theories, research, and tools employed to measure different language modalities.

ERM 642 Evaluation of Educational Programs 3
Existing and emerging formulations of educational evaluation. Developing operational guidelines for conducting evaluations in educational settings.

ERM 643 Applied Educational Evaluation 3
An application course that uses modern evaluation models, data collection, statistical analyses, and interpretation of findings to establish the effectiveness and utility of an educational program.
Prerequisites: ERM 642.

ERM 644 Approaches to Collaborative Research and Evaluation in Education 3
This course provides a comprehensive overview of collaborative and participatory approaches to evaluation and research in educational settings and how these approaches are differentiated from other methodological approaches.
Prerequisites: ERM 604.

ERM 645 Culturally Responsive Approaches to Research and Evaluation 3
This course provides a comprehensive overview of culturally responsive approaches to evaluation and research in educational settings and includes both theoretical and practical applications.
Prerequisites: ERM 604.

ERM 650 Foundations of Qualitative Research Methods 3
This course will provide graduate students with a theoretical understanding of qualitative research and practical, hands-on experience conducting a small-scale study.

ERM 667 Foundations of Educational Measurement Theory 3
Statistical foundations, classical test theory, reliability, validity, item analysis, and norms; selected topics in modern test theory. Designed for those who will develop, evaluate, and select measurement instruments in their professional roles.
Prerequisites: ERM 680 or equivalent course.
Notes: Credit may not be obtained for PSY 437.

ERM 668 Survey Research Methods in Education 3
Theory, methods, and procedures of survey research as this methodology is applied to problems in education. Sampling from finite populations.
Prerequisites: ERM 680 or equivalent.

ERM 669 Item Response Theory 3
Conceptual and mathematical foundations, parameter estimation, tests of model assumptions and goodness of fit, and practical applications of IRT.
Prerequisites: ERM 667 and either ERM 681 or STA 662 or equivalent courses.

ERM 675 Data Visualization and Presentation 3
Modern techniques for summarizing and visualizing univariate and multivariate data using various statistical and graphical software packages. Covers theories and research on graphics and the perception of visual data.
Prerequisites: ERM 680.

ERM 678 Intermediate Statistical Methods in Education 3
Applied descriptive and inferential statistics. Topics include applied probability, power analysis, chi-square distributions, hypothesis testing for a variety of applications, and correlation and regression. Concept learning, applications, and computer analyses are stressed.
Prerequisites: Elementary algebra.
Notes: Students who took this course as ERM 618 are not eligible to take ERM 680 and receive credit.

ERM 681 Design and Analysis of Educational Experiments 3
Advanced inferential statistics including factorial ANOVA, repeated measures design, multiple regression, ANCOVA, log-linear analysis. Applications in education and the social sciences.
Prerequisites: ERM 680 or equivalent, or permission of instructor.
ERM 682 Multivariate Analysis 3
Multivariate normal distribution. Cluster analysis, discriminant analysis, canonical correlation, principal component analysis, factor analysis, multivariate analysis of variance. Use and interpretation of relevant statistical software.
Prerequisites: ERM 680 and ERM 681, or STA 573, or STA 662, or permission of instructor.

ERM 685 R for Education and the Social Sciences 3
Using R to learn about programming fundamentals, data management, automating large numbers of analyses, conducting simulation studies, conducting specialized analyses, and producing high quality graphics.
Prerequisites: ERM 681.
Corequisites: ERM 681 or equivalent.

ERM 688 Contemporary Problems Seminar 1-3
Specific course title identified each semester by subscript, e.g., Contemporary Problems Seminar: Issues in Professional Negotiations.
Prerequisites: Advanced master's or doctoral standing or permission of instructor.
Notes: May be repeated for credit when topic varies.

ERM 688B Cont Pr Sem: Hot Topics Ed Res 3

ERM 692 Independent Study 1-4
Guided readings, research, and individual project work under direction of a staff member.
Prerequisites: Permission of instructor.

ERM 700 Validity and Validation 3
Validity is fundamental to all testing operations. The course covers seminal theories, critical perspectives, as well as prominent validation research of critical importance to professionals working in diverse industry settings.

ERM 704 Methods of Educational Research 3
Techniques and uses of research in education. Designed to provide the student with the ability to read, understand, and critically evaluate published empirical research.
Notes: Students who took this course as EAR 593 are not eligible to take ERM 704 and receive credit.

ERM 720 Evaluation and Public Policy 3
This course will provide students with a critical understanding of the multiple connections (and disconnections) between public policy and evaluation.
Prerequisites: ERM 741 or equivalent.

ERM 726 Advanced Topics in Educational Measurement 3
Technical developments and applications in classical test theory, item response theory, generalizability theory, models of selection bias, differential item functioning, and test score equating.

ERM 727 Computer-Based Testing: Methods and Applications 3
Computer-based testing applications including automated test assembly, item banking, computer-adaptive and multistage testing, web-based testing, large scale assessment development and support systems, and computer-based performance assessments. Covers state-of-the-art research and developments.
Prerequisites: ERM 767.

ERM 730 Practicum in Educational Research and Evaluation 3
Field-based and mentored practicum.
Prerequisites: Permission of instructor.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

ERM 731 Structural Equation Modeling in Education 3
Formulation of structural models, estimation of structural coefficients using LISREL, estimation of model fit, confirmatory factor analysis models, practical applications.
Prerequisites: ERM 782 or permission of instructor.

ERM 732 Hierarchical Linear Modeling 3
Structure of hierarchical data, random intercepts, individual change/growth models, applications in meta-analysis, assessing hierarchical models, hierarchical generalized linear models, hierarchical models for latent variables, cross-classified random effects, estimation.
Prerequisites: ERM 782 or STA 671 or permission of instructor.

ERM 733 Second Language Assessment and Testing 3
Theoretical and practical issues related to second language testing with special attention paid to the assessment of English as a second language, world Englishes, and foreign languages.

ERM 734 Equating 3
Equating designs, equating and scaling assumptions, design of anchor sets, observed score equating methods, true-score equating methods, standard error of equating, use and interpretation of relevant statistical software.
Prerequisites: ERM 781 or ERM 767 or permission of instructor.

ERM 736 Advanced Studies in Second Language Testing 3
Language testing for English and foreign language learners, as well as the World Englishes domain. It investigates policies, theories, research, and tools employed to measure different language modalities.

ERM 737 Diagnostic Classification Models 3
Prerequisites: ERM 769.

ERM 741 Evaluation of Educational Programs 3
Existing and emerging formulations of educational evaluation. Developing operational guidelines for conducting evaluations in educational settings.

ERM 742 Advanced Topics in the Evaluation of Educational Programs 3
Theoretical understanding of evaluation design and strengthening of practical program evaluation skills.

ERM 743 Advanced Theory in Program Evaluation 3
Advanced seminar of complex issues in program evaluation. Students will develop a deep synthesis of the major approaches and theories of evaluation. The purpose of evaluation in society will be examined.
Prerequisites: ERM 741 or equivalent.

ERM 744 Approaches to Collaborative Research and Evaluation in Education 3
This course provides a comprehensive overview of collaborative and participatory approaches to evaluation and research in educational settings and how these approaches are differentiated from other methodological approaches.
Prerequisites: ERM 704.

ERM 745 Culturally Responsive Approaches to Research and Evaluation 3
This course provides a comprehensive overview of culturally responsive approaches to evaluation and research in educational settings and includes both theoretical and practical applications.
Prerequisites: ERM 704.
ERM 749 Foundations of Qualitative Research Methods 3
This course will provide graduate students with a theoretical understanding of qualitative research and practical, hands-on experience conducting a small-scale study.

ERM 750 Case Study Methods in Educational Research 3
Overview of the methodology of case study research; enhancement of students' skills in using case study methods.
Prerequisites: ERM 704, ERM 741, or equivalent.

ERM 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ERM 752 Applied Educational Evaluation 3
An application course that uses modern evaluation models, data collection, statistical analyses, and interpretation of findings to establish the effectiveness and utility of an educational program.
Prerequisites: ERM 741.

ERM 767 Foundations of Educational Measurement Theory 3
Statistical foundations, classical test theory, reliability, validity, item analysis, and norms; selected topics in modern test theory. Designed for those who will develop, evaluate, and select measurement instruments in their professional roles.
Prerequisites: ERM 766 or equivalent.
Notes: Credit may not be obtained for ERM 766 and either ERM 781 or STA 662 or equivalent.

ERM 768 Research Methods in Education 3
Theory, methods, and procedures of survey research as this methodology is applied to problems in education. Sampling from finite populations.
Prerequisites: ERM 780 or equivalent.

ERM 769 Item Response Theory 3
Conceptual and mathematical foundations, parameter estimation, tests of model assumptions and goodness of fit, and practical applications of IRT.
Prerequisites: ERM 767 and either ERM 781 or STA 662 or equivalent courses.

ERM 771 Advanced Item Response Theory 3
Estimation techniques for various unidimensional dichotomous and polytomous IRT models using various software packages. IRT applications such as computerized testing, equating, test construction, and differential item/test functioning are also covered.
Prerequisites: ERM 769 or equivalent.

ERM 772 Multidimensional Item Response Theory 3
Multidimensional item response theory models including their estimation, representation, and application. Use of relevant estimation and graphing software discussed.
Prerequisites: ERM 769 and ERM 771 or permission of instructor.

ERM 774 Data Visualization and Presentation 3
Modern techniques for summarizing and visualizing univariate and multivariate data using various statistical and graphical software packages. Covers theories and research on graphics and the perception of visual data.
Prerequisites: ERM 780.

ERM 775 Directed Doctoral Research 1-6
Individual work on dissertation research problems: collection and analysis of data; critical review, integration, and interpretation of research literature on a topic pertinent to the student's dissertation.
Prerequisites: Doctoral students in ERM and permission of instructor.

ERM 780 Intermediate Statistical Methods in Education 3
Applied descriptive and inferential statistics. Topics include applied probability, power analysis, chi-square distributions, hypothesis testing for a variety of applications, and correlation and regression. Concept learning, applications, and computer analyses are stressed.
Prerequisites: Elementary algebra.
Notes: Students who took this course as ERM 618 are not eligible to take ERM 780 and receive credit.

ERM 781 Design and Analysis of Educational Experiments 3
Advanced inferential statistics including factorial ANOVA, repeated measures design, multiple regression, ANCOVA, log-linear analysis. Applications in education and the social sciences.
Prerequisites: ERM 780 or equivalent or permission of instructor.

ERM 782 Multivariate Analysis 3
Multivariate normal distribution. Cluster analysis, discriminant analysis, canonical correlation, principal component analysis, factor analysis, multivariate analysis of variance. Use and interpretation of relevant statistical software.
Prerequisites: ERM 780 and ERM 781, or STA 635, or STA 662, or permission of instructor.

ERM 785 R for Education and the Social Sciences 3
Using R to learn about programming fundamentals, data management, automating large numbers of analyses, conducting simulation studies, conducting specialized analyses, and producing high quality graphics.
Prerequisites: ERM 781.
Corequisites: ERM 781 or equivalent.

ERM 788 Contemporary Problems Seminar 1-3
Specific course title identified each semester by subscript, e.g., Contemporary Problems Seminar: Issues in Professional Negotiations.
Prerequisites: Doctoral standing or permission of instructor.
Notes: May be repeated for credit when topic varies.

ERM 791 Independent Study 1-4
Guided readings, research, and individual project work under direction of a staff member.
Prerequisites: Permission of instructor.

ERM 799 Dissertation 1-12
Individual direction in the development and execution of a doctoral dissertation.

ERM 801 Thesis Extension 1-3
Thesis Extension.

ERM 802 Dissertation Extension 1-3
Dissertation Extension.

ERM 803 Research Extension 1-3
Research Extension.

English (ENG)

ENG 101 Exploring Writing in College Contexts 3
A course in academic writing, focused on analysis, argument, and critical reflection. Instruction in writing for specific audiences, purposes, and contexts, with attention to drafting, revising, and compilation of a final portfolio.
MAC: MAC Written Communication
Prerequisites: None.
Notes: Equivalent to FMS 115 or RCO 101. Students may not receive credit for both ENG 101 and either FMS 115 or RCO 101.
ENG 102 Academic Research and Writing 3
A course in research-based writing, focused on analysis, argument, and critical reflection. Instruction in research methodologies as relevant to academic writing projects.
MAC: MAC Written Communication

ENG 103 Essentials of Professional and Business Writing 3
Focus: written skills needed for workplace success. Emphasizes process strategies for clear, concise, and accurate messages. Develops skills in producing professional documents, analyzing the writing of others, and collaborating on written assignments.
MAC: MAC Written Communication

ENG 104 Approach to Literature 3
Critical reading and analysis of fiction, poetry and drama with an emphasis on a variety of major themes and their relevance to contemporary life.
MAC: MAC CritThink Hum and Fine Art

ENG 105 Introduction to Narrative 3
Critical reading and analysis of American and British novels, short stories, and narrative poems. Attention to historical, cultural, and literary backgrounds as appropriate.
MAC: MAC CritThink Hum and Fine Art

ENG 106 Introduction to Poetry 3
Critical reading and analysis of British and American lyric, dramatic, and narrative poetry. Attention to historical, cultural, and literary backgrounds as appropriate.
MAC: MAC CritThink Hum and Fine Art

ENG 107 Introduction to Drama 3
Critical reading and analysis of British and American drama. Attention to historical, cultural, and literary backgrounds, especially the Continental dramatic background, as appropriate.
MAC: MAC CritThink Hum and Fine Art

ENG 108 Topics in British and American Literature 3
Variable topics. Offerings may include Southern Writers, The Mystery Novel, Women Writers, The Imperial Imagination, and Grail Literature.
MAC: MAC CritThink Hum and Fine Art

ENG 109 Introduction to Shakespeare 3
Intensive study of a limited number of plays (and perhaps some sonnets) using such approaches as textual analysis, historical material, filmed versions, attendance at productions, discussion, writing, and performance study.
MAC: MAC CritThink Hum and Fine Art

ENG 110 World Literature in English 3
Introductory survey of literature written in English by authors from regions outside the United States and the British Isles—the West Indies, India, Canada, Africa, Australia, and New Zealand.
MAC: MAC Global and Intercultural

ENG 140 Literature, Health, & Wellness 3
An exploration of literature in relation to mental and physical health and wellness. Variable topics and time periods, with emphasis on how literature represents, challenges, and changes historical and contemporary ideas about health and well-being.
MAC: MAC Health and Wellness

ENG 190 Literature, Gender, & Identity 3
Examines representations of gender in literary and other texts (e.g., film and photography) as they relate to identities shaped by multiple structures or systems of community or exclusion, including, among others, sexuality, race, class, age, and ability.
MAC: MAC Diversity and Equity

ENG 201 European Literary Classics: Ancient to Renaissance 3
Critical reading and analysis of works in translation: Homer, Dante, Cervantes, and others.
MAC: MAC Global and Intercultural

ENG 204 Nonwestern Literary Classics 3
Reading and analysis of the most influential literary texts of Non-Western cultures, ancient through modern; readings include translations of prose and poetry from Asia, the Middle East, and Africa.
MAC: MAC Global and Intercultural

ENG 205 Sports and Literature 3
Explores relationships between literature, culture, and sports; considers literary portrayals of exceptional and athletic bodies alongside investigations of athleticism, race, gender, and embodiment.
MAC: MAC Health and Wellness

ENG 208 Topics in Global Literature 3
Variable topics, with emphasis on regional interconnections. Offerings may include Europe at War, World Women Writers, Literature and Revolution, and Holocaust Literature.
MAC: MAC Global and Intercultural

ENG 209 Topics in Non-Western Literature 3
Variable topics, with emphasis on regional interconnections. Offerings may include South Asian Diaspora, Comparative Indigenous Writings, Postcolonial Childhood, Afro-Caribbean Writers, and Australasian Writers.
MAC: MAC Global and Intercultural

ENG 210 Literature and the Arts 3
Exploration of the relationships between literary and extraliterary arts such as music, visual arts, cinema, and architecture. Extraliterary focus will vary.
MAC: MAC CritThink Hum and Fine Art
CIC: CIC College Writing

ENG 211 Major British Authors: Medieval to Eighteenth Century 3
Major poets, dramatists, satirists read within the context of their times: Marie de France, Chaucer, Shakespeare, Milton, Behn, Pope, Swift, and others.
MAC: MAC CritThink Hum and Fine Art

ENG 212 Major British Authors: Romantic to Modern 3
Major authors of the Romantic, Victorian and Modern periods studied in relation to their times and traditions: Wordsworth, Tennyson, Yeats, Joyce, and others.
MAC: MAC CritThink Hum and Fine Art

ENG 213 Transcultural Literatures: Medieval to Enlightenment 3
Historical and transnational or transatlantic development of literatures in English from 700 to 1780.

ENG 215 Literature and Film 3
Selected short stories, novels, plays, film scripts and their film versions, with emphasis on rendering literary values into film.
MAC: MAC CritThink Hum and Fine Art

ENG 219 Journalism I: Fundamentals of Newswriting 3
Introduction to newspaper journalism. Emphasis on basic newswriting and reporting. Combines writing workshop and lecture.
MAC: MAC Written Communication
CIC: CIC College Writing

ENG 221 Writing of Poetry: Introductory 3
Introduction to the craft and practice of writing poetry, including reading and analysis of published poems, creative writing exercises, and submission of poems for group workshop discussion.
ENG 223 Advocacy Writing 3
Course focused on public-oriented writing around topics linked to students’ academic interests; students engage in reflection and develop public-facing arguments connected to an issue of concern for them.
MAC: MAC Written Communication
CIC: CIC College Writing

ENG 225 Writing of Fiction: Introductory 3
Introduction to the craft and practice of writing fiction, including reading and analysis of published stories, creative writing exercises, and submission of short fiction for group workshop discussion.

ENG 230 Writing for the Workplace and Public Audiences 3
Writing for diverse genres, contexts, and communities across a range of workplace and public settings.
MAC: MAC Written Communication

ENG 235 Special Topics: Speculative Fiction 3
Historical and critical study of texts from various kinds of speculative fiction, such as fantasy, science fiction, and utopian and/or dystopian writing.
MAC: MAC CritThink Hum and Fine Art
Notes: May be repeated once for credit when topic changes.

ENG 240 Health and Wellness in Cultural Context 3
Study of the composition and language of texts related to health, medicine, and wellness in historical and contemporary cultural contexts in the following realms: personal, interpersonal, medical, public health, health policy.
MAC: MAC Health and Wellness

ENG 251 Colonial and U.S. Literature to 1865 3
This course offers a survey of writings in the American colonies and the United States before the Civil War.
MAC: MAC CritThink Hum and Fine Art
Prerequisites: Sophomore, junior, or senior standing. or permission of instructor.

ENG 252 U.S. Literature Civil War to the Present 3
This course is a survey of writing in the U.S. from the Civil War to the present.
MAC: MAC CritThink Hum and Fine Art
Prerequisites: Sophomore, junior, or senior standing. or permission of instructor.

ENG 260 Introduction to the English Language 3
Relationship between the English language as a system and individual uses of language. Techniques for describing language, theories about language, and introduction to the structure and history of English.

ENG 262 Language and Society 3
Introduction to language in its sociocultural context. Topics include geographical and social dialects, language and identity, domains of language use, language attitudes, and the nature of multilingual societies.
MAC: MAC CritThink Hum and Fine Art

ENG 290 Social Movement and Social Justice Rhetorics 3
Drawing on historical and contemporary social movements, the course focuses on verbal and non-verbal rhetorical strategies of groups and individuals attempting to effect social change, and their opponents’ counter-strategies.
MAC: MAC Diversity and Equity

ENG 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ENG 303 Critical Approaches to the Study of Literature 3
Introduction to critical approaches to literature. Guidelines for and practice in writing about literature.
CIC: CIC College Writing
Prerequisites: ENGL major.

ENG 304 History and Theory of Rhetoric 3
An introduction to major rhetorical theories and philosophies in their socio-historical context from the ancient Greeks through the twentieth century.
CIC: CIC College Writing

ENG 305 Contemporary Rhetoric 3
Introduction to contemporary rhetorical theory and practice; practice with writing and reading in a variety of genres/disciplines using tools of rhetoric.
CIC: CIC College Writing

ENG 306 Digital Rhetoric 3
Study of rhetorical theory and practice in digital environments; practice analyzing and composing a variety of visual, online, and multimodal texts.

ENG 310 Young Adult Literature 3
Focus on the historical and critical study of the Young Adult genre; examination of themes; strategies of effective reading; discussion techniques for teachers.
Prerequisites: Permission of instructor.

ENG 315 Postcolonial Literatures 3
Literature from South Asia, Africa, the Caribbean, Australia, and Canada marked by the experience of European colonialism. Topics include non-European literary forms, colonization, political resistance, nationalism, gender, postcolonial predicaments.
Prerequisites: Sophomore, junior, or senior standing.

ENG 316 Studies in Human Rights and Literature 3
Exploration of how literature treats human rights violations and how human rights norms shape stories. Topics will vary and may include such subjects as genocide, hunger, child soldiers, censorship, torture.
Notes: May be repeated for credit when topic varies.

ENG 320 Journalism III: Feature Writing and Reviewing 3
Writing workshop: values and journalistic practices in writing feature articles and reviews; includes book reviewing and critical writing on other arts.
Prerequisites: ENG 219 or permission of instructor.

ENG 321 Linguistics for Teachers 3
Introduction to formal study of the English language, including intensive review of structural and transformational grammars. Other topics of interest to teachers of English, including geographical and social dialects and teaching composition. Course satisfies a Program requirement for prospective English teachers.

ENG 322 The Teaching of Writing 3
Principles of written discourse with a survey of techniques of teaching composition. Instruction in composing, editing, and criticizing written discourse.
CIC: CIC College Writing

ENG 323 Advocacy Writing 3
Course focused on public-oriented writing around topics linked to students’ academic interests; students engage in reflection and develop public-facing arguments connected to an issue of concern for them.
MAC: MAC Written Communication
CIC: CIC College Writing

ENG 325 Special Topics: Speculative Fiction 3
Historical and critical study of texts from various kinds of speculative fiction, such as fantasy, science fiction, and utopian and/or dystopian writing.
MAC: MAC CritThink Hum and Fine Art
Notes: May be repeated once for credit when topic changes.

ENG 326 Language and Society 3
Introduction to language in its sociocultural context. Topics include geographical and social dialects, language and identity, domains of language use, language attitudes, and the nature of multilingual societies.
MAC: MAC CritThink Hum and Fine Art

ENG 328 Introduction to the Study of Literature 3
Introduction to critical approaches to literature. Guidelines for and practice in writing about literature.
CIC: CIC College Writing
Prerequisites: ENGL major.

ENG 330 History and Theory of Rhetoric 3
An introduction to major rhetorical theories and philosophies in their socio-historical context from the ancient Greeks through the twentieth century.
CIC: CIC College Writing

ENG 335 Contemporary Rhetoric 3
Introduction to contemporary rhetorical theory and practice; practice with writing and reading in a variety of genres/disciplines using tools of rhetoric.
CIC: CIC College Writing

ENG 336 Digital Rhetoric 3
Study of rhetorical theory and practice in digital environments; practice analyzing and composing a variety of visual, online, and multimodal texts.

ENG 337 Public Advocacy and Argument 3
Designed for students of all majors, this course addresses the rhetorical dimensions of the advocacy and implementation of ideas and projects in professional and social arenas.

ENG 340 Young Adult Literature 3
Focus on the historical and critical study of the Young Adult genre; examination of themes; strategies of effective reading; discussion techniques for teachers.
Prerequisites: Permission of instructor.

ENG 345 Postcolonial Literatures 3
Literature from South Asia, Africa, the Caribbean, Australia, and Canada marked by the experience of European colonialism. Topics include non-European literary forms, colonization, political resistance, nationalism, gender, postcolonial predicaments.
Prerequisites: Sophomore, junior, or senior standing.

ENG 346 Studies in Human Rights and Literature 3
Exploration of how literature treats human rights violations and how human rights norms shape stories. Topics will vary and may include such subjects as genocide, hunger, child soldiers, censorship, torture.
Notes: May be repeated for credit when topic varies.

ENG 347 Journalism III: Feature Writing and Reviewing 3
Writing workshop: values and journalistic practices in writing feature articles and reviews; includes book reviewing and critical writing on other arts.
Prerequisites: ENG 219 or permission of instructor.

ENG 348 Linguistics for Teachers 3
Introduction to formal study of the English language, including intensive review of structural and transformational grammars. Other topics of interest to teachers of English, including geographical and social dialects and teaching composition. Course satisfies a Program requirement for prospective English teachers.

ENG 349 The Teaching of Writing 3
Principles of written discourse with a survey of techniques of teaching composition. Instruction in composing, editing, and criticizing written discourse.
CIC: CIC College Writing

ENG 350 Literary Nonfiction 3
Workshop in writing essays and other types of nonfiction with emphasis on audience and style.
ENG 324 Teaching Writing in Elementary and Middle Grades 3
Principles of written discourse with a survey of techniques of teaching composition in the middle and elementary grades. Instruction in composing, editing, and criticizing written discourse.
CIC: CIC College Writing
Prerequisites: MDED and ELED majors.

ENG 325 Writing of Fiction: Intermediate 3
Continuation of introductory workshop in writing fiction for students beyond the freshman year.
Prerequisites: ENG 225 or permission of instructor.

ENG 326 Writing of Poetry: Intermediate 3
Continuation of introductory workshop in writing poetry for students beyond the freshman year.
Prerequisites: ENG 221 or permission of instructor.

ENG 327 Writing for Professionals and Entrepreneurs 3
Principles of written communication emphasizing clarity, precision, audience analysis, arrangement, and collaboration applied to a variety of professional and entrepreneurial writing tasks and workplace settings; includes elements of summaries, reports, and proposals.
CIC: CIC College Writing
Prerequisites: General Education Reasoning and Discourse requirement (GRD) must already have been met.
Notes: May be repeated for credit. Same as ENT 327.

ENG 331 Women in Literature 3
Study of women as readers, writers, and characters in literature. Attention to questions of literary canon and to women's position in drama, the novel, and poetry.

ENG 332 English Women Writers before 1800 3
Study of the literary and social significance of texts written in various genres by English women prior to 1800.
CIC: CIC College Writing

ENG 333 Southern Writers 3
Fiction, poetry, drama of the modern and contemporary South. Emphasis on Southern perspectives, values, traditions. Faulkner, Welty, Wright, Tate, O'Connor, Percy, and others.

ENG 335 Dante in English 3
Introduction to Dante's Divine Comedy in English translation. Students examine and interpret Dante's epic poem and minor works; his sources and circumstances; and literature in English influenced by his works.
Prerequisites: Sophomore standing or higher.

ENG 336 Introduction to Chaucer 3
Chaucer's major poetry examined within the context of medieval cultural traditions. Readings in the early dream visions, Troilus and Criseyde, and selected Canterbury Tales. Attention given to language and pronunciation.

ENG 337 English Literature to 1500 3
Culture of the Middle Ages. Selected reading in English literature from Beowulf to Malory. Works in Anglo-Saxon and some in Middle English in translation.

ENG 339 Shakespeare: Early Plays and Sonnets 3
A selection of representative plays including Romeo and Juliet, A Midsummer Night's Dream, 1 Henry IV, Much Ado about Nothing, Henry V, and Hamlet.

ENG 340 Shakespeare: Later Plays 3
A selection of representative plays, including Othello, King Lear, Macbeth, Anthony and Cleopatra, Measure for Measure, and The Tempest.

ENG 342 The Seventeenth Century 3
Main lines of thought and style noted in major writers of the later Renaissance from Donne and Jonson through Milton. Emphasis on lyric and metaphysical poetry.
CIC: CIC College Writing

ENG 343 Topics in Pre-1800 Literature 3
Exploration of selected topics in literature in English before 1800.
CIC: CIC College Writing
Notes: May be repeated once for credit when topic changes.

ENG 344 The Romantic Period 3
Critical study of British literature, and its historical and/or cultural contexts, in the period from the French Revolution through the 1830s.

ENG 345 The Victorian Period 3
Critical study of British literature, and its historical and/or cultural contexts, from the late 1830s through the early 1900s.

ENG 346 English Literature from Victorian to Modern 3
Critical study of English literature from the end of Victorian period to beginning of the modern era. Features such writers as Pater, Wilde, Yeats, Shaw, Hardy, Conrad, Ford, and Wells.

ENG 347 Topics in Post-1800 Literature 3
Exploration of selected topics in literature in English after 1800.
Notes: May be repeated once for credit when topic changes.

ENG 348 Contemporary British Literature and Culture 3
Post-1945 British literature in cultural, political/historical context. Topics include history, social class, sexuality, gender, race, immigration, post-imperial nostalgia, realism, the legacy of modernism, postmodernism, and cultural studies.

ENG 350 The Twentieth-Century English Novel 3
Development of the English novel from Conrad through end of World War II, featuring such writers as Forster, Lawrence, Joyce, Woolf, Huxley, and Greene.

ENG 351 The American Novel through World War I 3
Historical and critical study of Hawthorne, Stowe, Twain, Alcott, Chesnutt, James, Johnson, and others.

ENG 352 The Twentieth-Century American Novel 3
Historical and critical study of Wharton, Cather, Fitzgerald, Hemingway, Hurston, Faulkner, Wright, Welty, and others.

ENG 353 The Contemporary Novel 3
Historical and critical study of Updike, McCarthy, Gaddis, Morrison, Tan, Pynchon, and others.

ENG 357 Modernism 3
A study of the avant-garde literature of the early twentieth-century, focusing on poetry, prose, and drama by writers such as Marcel Proust, Virginia Wolf, T. S. Eliot, Franz Kafka, and others.

ENG 358 Modern Poetry 3
Poets and schools of poetry, British and American, from 1915 to 1945, with emphasis on the great variety of styles and subjects.

ENG 359 Contemporary Poetry 3
British and American poetry 1945 to present. Emphasis on themes and styles, with particular attention given to classical sources, world history, and modern innovations in technique.

ENG 360 The Restoration and the Eighteenth Century 3
Selected writers of the Restoration and eighteenth century in a historical, literary, and cultural context: Dryden, Behn, Finch, Pope, Swift, Haywood, Johnson, and others.
ENG 363 Topics in Rhetoric and Composition 3
Exploration of selected topics in Rhetoric and Composition.
CIC: CIC College Writing
Notes: May be repeated once for credit when the topic changes.

ENG 365 Writing Across the University 3
Introduction to theories of genre and scholarship on writing across disciplines. Students investigate the communication practices of a selected academic community and propose a discipline-specific research project.
CIC: CIC College Writing

ENG 371 Literary Study of the Bible 3
The Bible as part of the world’s great literature. Designed to give students a better comprehension of the Bible through study of its origins, history, structure, and literary qualities.

ENG 372 Early American Literature 3
Literature in the New World to 1820. Topics include exploration and contact, Puritanism, the Great Awakening, the Revolution, and the rise of captivity and travel narratives and the novel.

ENG 373 American Romanticism 3
Survey of selected major romantic writers, c. 1800–1900: Irving, Bryant, Cooper, Prescott, Poe, Hawthorne, Melville, and authors from the Brahmin and Transcendentalist groups. Authors and topics will vary.

ENG 374 Early African American Writers 3
Critical survey of the traditions, ideas, techniques, and directions of African American writing from its beginnings to the early Harlem Renaissance.

ENG 375 Topics in Native American and Indigenous Studies 3
Exploration of the literatures, cultural productions, histories, and politics of indigenous peoples. Topic will vary depending on section.
Notes: May be repeated for credit when topic varies. Same as WGS 375.

ENG 376 African American Writers after the 1920s 3
Critical survey of the traditions, thought, and directions of African American writing from the late Harlem Renaissance to the present.
CIC: CIC College Writing

ENG 377 American Life-Writing 3
Survey of various forms of American life-writing, such as autobiographies, diaries, letters, journals, tribal history, narrative poetry, and travel writing; and affiliated critical work.

ENG 380 Literature and the Environment 3
Exploration of some important post-1800 literary texts about "nature," of ecocritical theories, and of affiliated social movements, with particular attention to place-based differences.
CIC: CIC College Writing

ENG 381 English Drama to 1800 3
Critical, cultural, and historical study of the English drama—excluding Shakespeare—from medieval plays to eighteenth-century comedy: Marlowe, Jonson, Webster, Dryden, Congreve, Sheridan, and others.

ENG 390 Studies in Writing Center Theory and Practice 3
Principles of writing center theory, including writing center history, philosophy, and pedagogy; training of writing center consultants and experience in teaching writing in individualized or small-group tutorial sessions.
CIC: CIC College Writing
Prerequisites: Permission of instructor.

ENG 391 Studies in Digital Studio Theory and Practice 3
Explores digital rhetoric, aesthetic design, and pedagogy; training Digital Studio consultants to conduct individualized tutorials and workshops.
CIC: CIC College Writing
Notes: ENGL major cannot receive elective credit for both ENG 390 and ENG 391.

ENG 400 Contemporary Publishing in America 3
An introduction to the issues and practices in contemporary publishing in America, from acquiring, editing, and preparing manuscripts to their publication as printed books and e-books.
Prerequisites: ENGL major and junior or senior standing, or permission of instructor.

ENG 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ENG 401 Internship in Journalism and Editing 3
Field experience for junior and senior English majors and minors with a newspaper or magazine publisher. Academic supervision provided by Internship Coordinator and direction in field provided by job supervisor.
Prerequisites: ENGL major or minor, junior or senior standing; 3.0 cumulative GPA; recommendation of UNCG English faculty member and permission of the Internship Coordinator.

ENG 402 Internship in English Studies 3
Field experience for junior and senior English majors and minors in jobs related to English studies. Academic supervision provided by Internship Coordinator and direction in field provided by job supervisor.
Prerequisites: ENGL major or minor, junior or senior standing; 3.0 cumulative GPA; recommendation of UNCG English faculty member and permission of the Internship Coordinator.

ENG 410 Old English 3
Language and literature of the Anglo-Saxon period (AD 600–1100). The language is studied primarily in conjunction with literary texts in the context of their history and culture.

ENG 413 History of the English Language 3
Origins and development of the English language, methods of historical language study, and competing theories of linguistic change. Practical emphasis on reading and analysis of texts in Old, Middle, and Early Modern English.

ENG 422 Teaching Composition: Theories and Applications 3
Theories of the composing process and of discourse generally as they apply to the problems of teaching composition. Background studies in language and other related areas. Specific approaches to teaching composition, their rationales and their comparative usefulness.
Notes: ENG 321 or ENG 660 recommended.

ENG 424 Writing-Advanced: Analytical and Technical 3
Problems of organization and expression in books, articles, and reports. For those writing for publication or whose work in business or government requires a great deal of writing.

ENG 425 Writing of Fiction: Advanced 3
Advanced workshop in writing fiction. Discussion of student fiction supplemented by readings of fiction and essays about fiction by historical and contemporary masters of the genre.
Prerequisites: ENG 325 or permission of instructor.

ENG 426 Writing of Poetry: Advanced 3
Advanced workshop in writing poetry. Discussion of student poetry supplemented by readings of poetry and essays about poetry by historical and contemporary masters of the genre.
Prerequisites: ENG 326 or permission of instructor.
ENG 431 Feminist Theory and Women Writers 3
Examines gender and creativity, women's place in literary tradition, and connections among art, gender, race, and class. Focuses on contemporary theory and on literary works from one historical period.

ENG 435 Entrepreneurship and Independent Press Publishing 3
Exploration, analysis, and participation in independent press publishing from inception to final product while practicing the entrepreneurial strategies needed to begin a successful venture.
Prerequisites: Permission of instructor.
Notes: Same as ENT 435.

ENG 437 Middle English Literature 3
Language and literature of the thirteenth-, fourteenth-, and fifteenth-century England.

ENG 440 Shakespeare 3
Major comedies, histories, tragedies selected for topical study. Related background readings and criticism.

ENG 441 Milton 3
Milton’s major poems and his most important prose works in their seventeenth-century setting.

ENG 445 Nineteenth-Century British Writers 3
Major Romantic and/or Victorian writers. Attention to poetry and prose.

ENG 449 The Critical Canon and Contemporary Issues 3
Important critical writings from ancient Greece through the nineteenth century, emphasizing their influence upon modern theory and practice.

ENG 452 Modern British Writers 3
Major novelists, poets, and playwrights of the modernist period.

ENG 453 Topics in English Studies 3
Studies in selected topics in English or American literature or language.
Notes: May be repeated once for credit when topic varies.

ENG 458 American Poetry After 1900 3
Critical and historical study of major twentieth-century American poets to World War II.

ENG 459 Twentieth-Century British Poetry 3
Critical and historical study of twentieth-century British poetry to World War II.

ENG 461 Eighteenth-Century British Writers 3
Selected major writers, 1660–1800, from among Dryden, Swift, Pope, Johnson, and others.

ENG 463 American Poetry Before 1900 3
American poetry and related critical theory with special emphasis on Taylor, Poe, Emerson, Whitman, and Dickinson.

ENG 464 American Prose Before 1900 3
Genres, themes, and movements of American prose, fiction and non-fiction, written before 1900.

ENG 465 American Prose After 1900 3
American prose written after 1900, with an emphasis on historical context, prose traditions in America, and the development of form, style, and genre.

ENG 482 Modern Drama 3
Drama of late nineteenth century and twentieth century, continental, English, and American.

ENG 490 Literacy, Learning, and Fieldwork 4
Examines the historical, pedagogical, ideological and theoretical threads of literacy studies, debates and programs. Includes training/tutoring fieldwork in local literacy programs, primarily in the public libraries.

ENG 493 Honors Work 3-6
Honors Work.
Prerequisites: Permission of instructor. 3.30 GPA in the major, 12 s.h. in the major.
Notes: May be repeated for credit if the topic of study changes.

ENG 513 History of the English Language 3
Origins and development of the English language, methods of historical language study, and competing theories of linguistic change. Practical emphasis on reading and analysis of texts in Old, Middle, and Early Modern English.

ENG 522 Teaching Composition: Theories and Applications 3
Theories of the composing process and of discourse generally as they apply to the problems of teaching composition. Background studies in language and other related areas. Specific approaches to teaching composition, their rationales and their comparative usefulness.
Notes: ENG 660 recommended.

ENG 535 Entrepreneurship and Independent Press Publishing 3
Exploration, analysis, and participation in independent press publishing from inception to final product while practicing the entrepreneurial strategies needed to begin a successful venture.
Prerequisites: Permission of instructor.
Notes: Same as ENT 535.

ENG 537 Middle English Literature 3
Language and literature of the thirteenth-, fourteenth-, and fifteenth-century England.

ENG 540 Shakespeare 3
Major comedies, histories, tragedies selected for topical study. Related background readings and criticism.

ENG 541 Milton 3
Milton’s major poems and his most important prose works in their seventeenth-century setting.

ENG 549 The Critical Canon and Contemporary Issues 3
Important critical writings from ancient Greece through the nineteenth century, emphasizing their influence upon modern theory and practice.

ENG 565 American Prose After 1900 3
American prose written after 1900, with an emphasis on historical context, prose traditions in America, and the development of form, style, and genre.

ENG 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ENG 610 English Studies: Content, Methods, and Bibliography 3
A general consideration of the discipline of English, the most useful materials and approaches, and the objectives, problems, and issues in the study of language and literature.
Prerequisites: Admission to MA program in English or permission of the instructor.

ENG 620 Electronic Research, Writing, and Editing 3
Theory and application of computer technology in the study of language, rhetoric and composition, and literature, including related ethical, social, and philosophical issues.

ENG 664 Electronic Discourse and User Documentation 3
The study of such user documentation as reference manuals, tutorials, and operating procedures in its traditional, paper-based form and its transformation into electronic form.
ENG 608 Chaucer 3
Chaucer’s major works, including The Canterbury Tales and Troilus and Criseyde.

ENG 610 Content Analysis for Social Network Data 3
Students collect social network data to analyze trends (both hashtag trends and organic/non-tagged trends), focusing specifically on audience engagement and comments. Additionally, students conduct a survey of relevant issues pertaining to privacy rights and intellectual property rights for social network trends and audience analytics.

Prerequisites: Admission to major or permission of instructor.
Notes: Same as IAL 621.

ENG 613 The Internet of Things and Wearable Analytics 3
Students collect remote/mobile data using a microcomputer (Arduino, Raspberry Pi) or mobile phone, and then analyze that data by creating a dashboard visualization of their data. Additionally, students conduct a survey of relevant issues pertaining to surveillance and privacy rights for remote/mobile data collection projects.

Prerequisites: Admission to major or permission of instructor.
Notes: Same as IAL 622.

ENG 618 Literary Citizenship 3
Exploration of the concepts and motivations of literary citizenship, focusing on its collaborative nature and its potential to enhance both your practice as a writer and your professional presence.

ENG 620 Contemporary Publishing 3
An introduction to current practices in the publishing industry from manuscript preparation to the printed book or magazine.

ENG 622 Internship in English 3
Practical experience in writing, editing, or other fields related to English studies. Students work under supervision of professionals.

Prerequisites: ENG 620 or permission of instructor.

ENG 623 Writing-Advanced: Nonfiction 3
Workshop in writing and publishing essays and nonfiction literature (including biography, autobiography, literary and cultural criticism, and extended forms of investigative and analytical reporting).

ENG 624 Capstone Project in Cultural Analytics 3
Capstone course. Students work with local industries and nonprofit organizations to solve important data science problems under the supervision of a mentor.

Notes: Same as IAL 689.

ENG 625 MFA Fiction Workshop 3
Notes: This course reserved for full-time MFA candidates.

ENG 626 MFA Fiction Workshop 3
Notes: This course reserved for full-time MFA candidates.

ENG 627 MFA Poetry Workshop 3
Notes: This course reserved for full-time MFA candidates.

ENG 628 MFA Poetry Workshop 3
Notes: This course reserved for full-time MFA candidates.

ENG 630 Early American Literature 3
Literature in the New World to 1820. Topics include exploration and contact, Puritanism, the Great Awakening, the Revolution, and the rise of captivity and travel narratives and the novel.

ENG 638 Southern American Writers 3
Principal authors, from colonial times to the present, and literary movements related to the development and influence of the Southern tradition in American literature.

ENG 642 Topics in Pre-1800 Literature 3
Exploration of selected topics in literature in English before 1800.

Notes: Course can be repeated twice for a total of 9 hours credit if the topic or instructor varies.

ENG 650 Modern Literary and Cultural Theory 3
Survey of literary theory from the linguistics of Saussure through recent developments such as poststructuralism, feminist theory, reception theory, and cultural studies. Emphasis on relationships among language, culture, and literature.

ENG 659 Digital Literacies and Online Rhetorics 3
Analysis of online rhetorics, digital literacies, and Internet/multimedia technologies as applicable to research on readers and writers interacting within online environments.

ENG 664 Topics in Post-1800 Literature 3
Exploration of selected topics in literature in English after 1800.

Notes: Course can be repeated twice for credit if the topic or instructor varies (total of 9).

ENG 665 Topics in Post-1800 Literature 3
Exploration of selected topics in literature in English after 1800.

ENG 670 Directed Master's Research 3
Directed research project for students in the MED program. To be taken at the end of the student’s plan of study.

Prerequisites: Limited to MED candidates.

ENG 671 Graduate Tutorial in Writing: Fiction 3
Notes: This course reserved for full-time MFA candidates.

ENG 672 Graduate Tutorial in Writing: Fiction 3
Notes: This course reserved for full-time MFA candidates.

ENG 673 Graduate Tutorial in Writing: Poetry 3
Notes: This course reserved for full-time MFA candidates.

ENG 674 Graduate Tutorial in Writing: Poetry 3
Notes: This course reserved for full-time MFA candidates.

ENG 675 Scholarly and Critical Writing for the Profession 3
Instruction in scholarly and professional writing for doctoral students in English. Emphasis on writing for presentation and publication in the field. Practice in disciplinary conventions through in and out-of-class exercises.

Prerequisites: Enrollment in PhD Program in English or permission of instructor.

ENG 677 Special Problems in Writing 3
Notes: This course reserved for full-time MFA candidates.

ENG 678 Special Problems in Writing 3
Notes: This course reserved for full-time MFA candidates.

ENG 680 Teaching Internships in English 3
Practice in planning and conducting college-level classes under guidance of senior faculty member. Research project in conjunction with internship, under guidance of supervisor and assigned faculty.

Prerequisites: Admission to graduate degree program.

Notes: Grade: Satisfactory/Unsatisfactory (S/U).
ENG 682 The Structure of Verse 3
Verse forms and sound patterns in English and American poetry.

ENG 683 The Structure of Fiction 3
Elements of prose fiction, with an emphasis on the theory and art of narrative structure.
Prerequisites: Admission to MFA program or permission of instructor.

ENG 688 Women's Rhetoric and Feminist Pedagogy 3
Seminar in history and theory of women's rhetoric and feminist approaches to teaching. Examines women's writing and teaching in their cultural, social, ethnic, racial contexts.
Notes: ENG 522, ENG 531, or ENG 747 recommended.

ENG 690 History of Rhetoric: Classical through Renaissance 3
Origins, developments, and competing views of rhetoric from classical antiquity into the 17th century; intersections of rhetoric and public discourse, poetics, education, and gender.

ENG 691 History of Rhetoric: Enlightenment through Contemporary 3
Developments and competing views of rhetoric from the Enlightenment to the present; intersections of rhetoric and public discourse, poetics, education, and gender.

ENG 698 Topics in Rhetoric/Composition 3
Exploration of selected topics in the study of rhetoric and composition.

ENG 699 Thesis 1-6
Individual guidance in the development of a specific research problem.

ENG 706 Topics in Gender and Sexuality Studies 3
Intensive work at an advanced level on a selected topic in Gender and Sexuality Studies.
Notes: Same as WGS 706. May be repeated once for credit when topic varies.

ENG 710 Studies in English Renaissance Literature 3
Investigation of selected authors or topics.
Notes: May be repeated once for credit when topic varies.

ENG 713 Studies in Seventeenth-Century British Literature 3
Selected writers, topics, and genres characteristic of the Stuart era in English literature. Topics include 17th century English lyrics and 17th century prose.
Notes: May be repeated once when topic varies.

ENG 717 Studies in Eighteenth-Century British Literature 3
Study of a major author, movement, or genre, 1660-1800.
Notes: May be repeated once for credit when topic varies.

ENG 719 Studies in British Romanticism 3
Study of one or more British Romantic writers, and of Romanticism as a movement.
Notes: May be repeated once for credit when topic varies.

ENG 721 Studies in Victorian Literature and Culture 3
Topics in Victorian literature, with emphasis on such broad cultural issues as empire, gender, industrialization, or aestheticism.
Notes: May be repeated once for credit when topic varies.

ENG 724 Studies in British Literature after 1900 3
Selected modern and contemporary writers, such as Conrad, Shaw, Forster, Larkin, Stoppard, and Byatt.
Notes: May be repeated once for credit when topic varies.

ENG 725 Studies in Modernism 3
Study of literary modernism in the period 1890-1940, with particular emphasis on the range of textual and ideological experiment characteristic of the era.
Notes: May be repeated once for credit when topic varies.

ENG 730 Studies in American Literature 3
Exploration of topics in American literature to connect works from different periods, genres, and communities, uncovering broad patterns and trends.
Notes: May be repeated once for credit when topic varies.

ENG 731 Studies in American Literature before 1900 3
Selected major literary figures and movements.
Notes: May be repeated once for credit when topic varies.

ENG 733 Studies in American Literature after 1900 3
Selected major literary figures and movements.
Notes: May be repeated once for credit when topic varies.

ENG 734 Studies in American Women Writers 3
Intensive study of a particular area of American women's writing and affiliated critical work.
Notes: May be repeated once for credit when topic varies.

ENG 735 Studies in African-American Literature 3
Topics, theories, movements, and authors that comprise the African-American literary tradition.
Notes: May be repeated once for credit when topic varies.

ENG 737 Studies in Multi-Ethnic American Literature 3
Literatures of American ethnic groups, especially less-taught texts written by Chicano/Latino/Latina-, Asian-, African-, Native-, and Euro-Americans (Jewish, Italian, Irish, German, etc.).
Notes: May be repeated once for credit when topic varies.

ENG 738 Topics in Native American and Indigenous Studies 3
Exploration of the literatures, cultural productions, histories, and politics of Indigenous peoples. Topic will vary depending on section.

ENG 740 Studies in Contemporary and Postmodern American Literature 3
Topics in contemporary and postmodern American literature, culture, and theory.
Notes: May be repeated once for credit when topic varies.

ENG 742 Studies in Rhetorical Theory and Practice 3
Themes, eras, and/or theorists in the history of rhetorical theory and practice.
Notes: May be repeated once for credit when topic varies.

ENG 744 Seminar in Composition Studies 3
Studies in special topics related to literacy, the process of composing, composition pedagogy, and composition research.
Prerequisites: ENG 522, ENG 747 or permission of instructor.
Notes: May be repeated once for credit when topic varies, same as TED 744.

ENG 746 Studies in Contemporary Rhetorical Theory 3
Problems and topics in contemporary rhetorical theory; recent trends, issues, methods of rhetorical theory and related disciplines.
Notes: May be repeated once for credit when topic varies.

ENG 747 Teaching College Writing 3
The teaching of first-year writing at the college level, including history and theories of writing pedagogy and current best practices.
Prerequisites: Teaching assistant appointment in English.
Notes: Required for new teaching assistants in English.

ENG 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.
ENG 778 Directed Reading 3-6
Individual conferences. Program of reading formulated to meet the varying needs of each student.
Prerequisites: Admission to PhD program, 18 hours of course work beyond the MA, and permission of the Director of Graduate Study.

ENG 780 Independent Doctoral Study 1-6
Intensive review of literature and criticism in a given field in preparation for preliminary examination or dissertation.
Prerequisites: 36 hours of PhD course work and permission of Director of Graduate Study.
Notes: May be repeated for up to six hours credit. Grade: Satisfactory/Unsatisfactory (S/U).

ENG 799 Dissertation 1-21
Individual direction in the development and execution of a doctoral dissertation.

ENG 801 Thesis Extension 1-3
Thesis Extension.

ENG 802 Dissertation Extension 1-3
Dissertation Extension.

ENG 803 Research Extension 1-3
Research Extension.

English as a Second Language (ESL)

ESL 600 Culture and Community for Graduate Studies I 1
This is a beginning level course that prepares students to integrate their understandings of their home cultures and communities into their graduate studies situated in the local cultures and communities.
Notes: Registration restricted to international graduate students with conditional admission.

ESL 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ESL 601 Culture and Community for Graduate Studies II 1
This is an intermediate level course that prepares students to integrate their understandings of their home cultures and communities into their graduate studies situated in the local cultures and communities.
Notes: Registration restricted to international graduate students with conditional admission.

ESL 602 Culture and Community for Graduate Studies III 1
This is an advanced level course that prepares students to integrate their understandings of their home culture and communities into their graduate studies situated in the local cultures and communities.
Notes: Registration restricted to international graduate students with conditional admission.

ESL 610 Academic Listening I 2
This is a beginning level course that prepares students to engage in academic lectures and participate in academic conversations through the use of effective listening strategies.
Notes: Registration restricted to international graduate students with conditional admission.

ESL 611 Communication and Presentation I 3
This is a beginning level course that prepares students to engage in academic dialogues with peers and faculty, participate in small group and class discussions, and present information in their academic discipline orally.
Notes: Registration restricted to international graduate students with conditional admission.

ESL 612 Academic Reading and Vocabulary Development I 3
This is a beginning level course that prepares students to apply academic reading strategies and vocabulary development skills in discipline-specific academic reading tasks.
Notes: Registration restricted to international graduate students with conditional admission.

ESL 613 Writing and Grammar I 3
This is a beginning level course that prepares students to apply their knowledge of English grammar, discourse, and writing conventions in academic writing for graduate-level courses.
Notes: Registration restricted to international graduate students with conditional admission.

ESL 620 Academic Listening II 1
This is an intermediate level course that prepares students to engage in academic lectures and participate in academic conversations through the use of effective listening strategies.
Notes: Registration restricted to international graduate students with conditional admission.

ESL 621 Communication and Presentation II 2
This is an intermediate level course that prepares students to engage in academic dialogues with peers and faculty, participate in small group and class discussions, and present information in their academic discipline orally.
Notes: Registration restricted to international graduate students with conditional admission.

ESL 622 Academic Reading and Vocabulary Development II 2
This is an intermediate level course that prepares students to apply academic reading strategies and vocabulary development skills in discipline-specific academic reading tasks.
Notes: Registration restricted to international graduate students with conditional admission.

ESL 623 Writing and Grammar II 2
This is an intermediate level course that prepares students to apply their knowledge of English grammar, discourse, and writing conventions in academic writing for graduate-level courses.
Notes: Registration restricted to international graduate students with conditional admission.

ESL 630 Academic Listening III 1
This is an advanced level course that prepares students to engage in academic lectures and participate in academic conversations through the use of effective listening strategies.
Notes: Registration restricted to students with conditional admission.

ESL 631 Communication and Presentation III 1
This is an advanced level course that prepares students to engage in academic dialogues with peers and faculty, participate in small group and class discussions, and present information in their academic discipline orally.
Notes: Registration restricted to international graduate students with conditional admission.

ESL 632 Academic Reading and Vocabulary Development III 1
This is an advanced level course that prepares students to apply academic reading strategies and vocabulary development skills in discipline-specific academic reading tasks.
Notes: Registration restricted to international graduate students with conditional admission.
ESL 633 Writing and Grammar III 1
This is an advanced level course that prepares students to apply their knowledge of English grammar, discourse, and writing conventions in academic writing for graduate-level courses.
Notes: Registration restricted to international graduate students with conditional admission.

Entrepreneurship (ENT)

ENT 130 Entrepreneurship in a Sustainable Global Environment 3
Global forces will restructure the world economy for the foreseeable future. Entrepreneurship, sustainability, and innovation will drive companies and individuals and produce major changes within that environment.
MAC: MAC Global and Intercultural
Notes: Same as BUS 132.

ENT 200 Introduction to Entrepreneurial Finance 3
Introduction to problems and methods in business finance within the context of entrepreneurial ventures. Topics include business formation, sources of financing, financial statements, business valuation, budgeting, and measuring financial performance.
Prerequisites: Entrepreneurship minor for non-business students.
Notes: Students may not receive credit for ENT 200, FIN 200, and FIN 315. Same as BUS 200.

ENT 201 Creativity, Innovation, and Vision 3
Creativity and innovation is examined through an interdisciplinary lens. We examine how creative and innovative thinking gives us the vision to see opportunities and how they impact society.
MAC: MAC CritThink Soc and BehavSci
Notes: Same as BUS 201.

ENT 202 Arts Admin and Entrepreneurship 3
Introduces foundational skills for successful management, launching and growth of arts organizations. Topics include strategy, organizational structure, new venture launch, entrepreneurship, market analysis, marketing, fundraising and audience engagement.
Notes: Same as AAD 202.

ENT 206 Start Something Sustainable! 3
Students learn the basics of establishing a new business from idea to inception through the finalized sustainable business model, including considering a direct selling model. Students may have the opportunity to apply for a loan to establish a viable business on campus.
Notes: Same as BUS 206.

ENT 240 Introduction to the Entrepreneurial Experience 3
Introduction to the entrepreneurial experience including historical perspectives, the role of entrepreneurs in supporting the economy, the entrepreneurial process, venture creation, and innovation.
Notes: Same as BUS 240.

ENT 250 Purpose-Driven Entrepreneurship 3
Students will engage in exercises to understand their purpose, develop a plan to create self-employed, meaningful work, and learn strategies to stay connected to the self and the world.
Notes: May be repeated once for credit. Business project must be different than the project completed first time taking the course; Same as HHS 250.

ENT 275 Entrepreneurial Personal Branding 3
Students will have a better understanding of the entrepreneurial mindset, how to use entrepreneurship strategies personally, and how to best brand and uniquely market themselves.
Notes: Same as HHS 275 and IPS 275.

ENT 276 Creative Space: The Meeting of Art and Entrepreneurship 3
Students develop self-employment skills with a focus on blending contemporary creative practices and entrepreneurship. Research and basic art skills are combined with entrepreneurship resulting in personal business models.
Prerequisites: ART or ENTR major.
Notes: Same as ART 276.

ENT 300 Ideas to Sustainable Opportunities: Feasibility Analysis 3
Provides the knowledge and skills to develop a sustainable feasibility plan for a new business venture that will be the basis for developing a business plan.
Prerequisites: ENT 200 or FIN 200 or ACC 201 or permission of instructor.
Notes: Same as BUS 300.

ENT 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ENT 307 Global Health 3
Study of disease burden and health systems in high-, middle-, and low-income countries. Emphasis on challenges and public health and entrepreneurial approaches to improvements in resource-constrained and emerging nations.
Notes: Same as HEA 307.

ENT 309 Entrepreneurship in the Public Sector 3
Introduction to principles and practices of entrepreneurship in the public sector through literature, case studies of initiatives, such as citizen innovation and cross-sectoral collaborations, online class discussions, and group projects.
Notes: Same as PSC 309.

ENT 312 Economics of Technology 3
Economic analysis of technological change. Topics include sources of productivity, inventive activity, entrepreneurship, innovation strategy, RD management, patenting, and technology assessment.
Prerequisites: ECO 201.
Notes: Same as ECO 312.

ENT 315 The Economics of Entrepreneurship 3
Study of entrepreneurship from history of economic thought perspective and application of such concepts to economic agents. Emphasis on economic thought, market activity, and economic growth.
Prerequisites: ECO 201.
Notes: Same as ECO 315.

ENT 321 Design Thinking and/or Entrepreneurial Thinking 3
Theories and applications of design thinking and entrepreneurial thinking will be explored. Students interested in innovation and creativity with application ranging from regional to global in practice will benefit.
Notes: Same as IAR 321.

ENT 324 Professional Selling 3
Professional selling provides students with the knowledge and skill sets needed to give them the ability to make effective sales presentations to businesses or consumers, including direct selling.
Notes: Same as MKT 324.

ENT 327 Writing for Professionals and Entrepreneurs 3
Principles of written communication emphasizing clarity, precision, audience analysis, arrangement, and collaboration applied to a variety of professional and entrepreneurial writing tasks and workplace settings; includes elements of summaries, reports, and proposals.
Prerequisites: General Education Reasoning and Discourse requirement (GRD) must already have been met.
Notes: May be repeated for credit. Same as ENG 327.
ENT 328 Sales Leadership 3
Problems in selling, direct selling, and sales management are dealt with from the strategic marketing perspective. The sales management process is addressed from the perspective of the profit-maximizing allocation of resources of the firm. Students in this class analyze cases in direct selling and evaluate optimal ways to build a strong direct selling team.
Prerequisites: Sophomore standing.
Notes: Same as MKT 328.

ENT 335 Entrepreneurial Finance 3
This course focuses on financial analysis, financial forecasting, financing, capital costs, and working capital management of start-up businesses and existing businesses in the early stages of development.
Prerequisites: FIN 315.
Notes: Same as FIN 335.

ENT 336 Opportunities to Action: Business Plan 3
Provides the knowledge and skills to develop a feasibility plan into a business plan for a new venture, which culminates in a business plan competition.
Prerequisites: BUS 300 or ENT 300.
Notes: Same as BUS 336.

ENT 337 Family Business 3
Overview of family business, including what is required for family harmony and business continuity.
Notes: Same as BUS 337.

ENT 338 Global Franchising 3
This course introduces the student to opportunities in franchising including becoming a franchisee or franchisor.
Prerequisites: ACC 201 or ENT 200/FIN 200.
Notes: Same as BUS 338, STH 338.

ENT 339 Entrepreneurial Leadership 3
Leadership theories, skills, and practices necessary for effectiveness in varied entrepreneurial settings, including private businesses, corporations, not-for-profit organizations, and social movements.
Notes: Same as BUS 339.

ENT 340 Social Entrepreneurship 3
Introduction to social entrepreneurship including identification of social problems and how they are solved through innovation, community impact, sustainability, ethical, scalable, economic value creation, and risk-takers including efforts in direct selling.
Notes: Same as BUS 340.

ENT 342 International Entrepreneurship 3
Creation and management of business ventures with international dimensions are examined, and economic and formal/informal institutions affecting entrepreneurship are discussed.
Notes: Same as BUS 342.

ENT 354 Restaurant Entrepreneurship 3
Students will explore the role of entrepreneurship in the hospitality and tourism industry, determine risks and rewards of self-employment, and develop business concepts based on the hospitality and/or tourism skill set.
Prerequisites: Junior or senior standing.
Notes: Same as STH 354.

ENT 362 Ethical Issues in Entrepreneurship 3
Application of ethical theory to global entrepreneurship; including entrepreneur’s role in ethical actions, economic justice, responsibility, self and government regulation, conflict of interest, investment policy, advertising, and environmental responsibility, and application to direct selling.
Notes: Students may not receive credit for both PHI 361 and PHI 362. Same as PHI 362.

ENT 376 Micro-Enterprise for Creatives 3
Introduces foundational skills for micro-enterprise in the arts and creative industries aimed towards, but not exclusive to, visual artists, designers, and creative makers. Topics include venture analysis, business modeling, prototyping, financial/legal/structures, and market testing.
Notes: Same as AAD 376.

ENT 387 Entrepreneurship in American History 3
This course will examine entrepreneurs who shaped the contours of the American economy from the first transatlantic trade routes to the World Wide Web. We utilize entrepreneurship to analyze the development of American capitalism from a string of coastal colonies to an economic world power.
Notes: Same as ECO 387, BLS 387.

ENT 394 Advanced Studio Practicum: Art and Entrepreneurship 3
Development and operation of student-run art studio offering services ranging from graphic design and photography to painting and sculpture. Emphasis on developing professional and entrepreneurial skills.
Prerequisites: Junior or senior standing.
Notes: Grade: Pass/Not Pass (P/NP). May be repeated once. Same as ART 394.

ENT 396 Transition Planning and School-Based Entrepreneurship 3
This course will provide a background in transition planning for students with disabilities. Emphasis is placed on career development and transition services and entrepreneurial efforts in schools and communities.
Prerequisites: Junior standing.
Notes: Same as SES 396.

ENT 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ENT 402 Entrepreneurship in the Performing Arts 3
Focus on entrepreneurship knowledge, skills and career development in the performing arts.
Prerequisites: Junior or senior standing.
Notes: Same as VPA 402, MUP 402.

ENT 403 Entrepreneurial Marketing 3
Focuses on marketing strategy, planning, and tactics for entrepreneurial firms. Addresses general marketing and selling issues -- including direct selling -- and specific "real world" marketing problems. Student teams will work with on a specific start-up case and develop a marketing plan for that firm.
Notes: Same as MKT 403.

ENT 410 Sustainable Urban Planning in an Entrepreneurial Environment 3
Fundamental concepts and techniques of urban planning as it relates to enhancing overall quality of life with a primary focus on land use patterns, the environment, business and entrepreneurship.
Notes: Same as GES 402.
ENT 411 Silver Industries 3
Overview of the longevity economy and its influences on entrepreneurial opportunities. Case illustrations highlighted. Using the entrepreneurial business model, students explore opportunities, risks, and rewards in the silver industries market.
Notes: Same as GRO 511.

ENT 422 Fundamentals of Marketing Research 3
Conceptual foundation of qualitative and quantitative marketing research, sampling theory, experimental design, and psychological scaling techniques, along with analytic skills using user-friendly data analysis software. Case analysis as well. Student develops application abilities through assignments and a course project.
Prerequisites: ECO 250, grade of C or better in MKT 320. major in ACCT, BADM, CARS, ENTR, FINC, HTMT, INTB, or MKTG;
Notes: Same as MKT 422.

ENT 427 Personal Selling Internship 3
Minimum of 100 hours planned work experience in an organization with a personal sales force. Instructor will provide placement or must approve placement in advance.
Prerequisites: Permission of Instructor.
Notes: Same as MKT 427.

ENT 430 Researching Opportunities in Entrepreneurship and Economic Development 3
Students will learn how to conduct research necessary to make informed decisions for an entrepreneurial venture and measure and assess economic development opportunities. No business research experience necessary.
Prerequisites: Junior, senior, or graduate standing.
Notes: Same as GES 430, LIS 430, MKT 430.

ENT 435 Entrepreneurship and Independent Press Publishing 3
Exploration, analysis, and participation in independent press publishing from inception to final product while practicing the entrepreneurial strategies needed to begin a successful venture.
Prerequisites: Permission of instructor.
Notes: Same as ENG 435.

ENT 440 Experiences in Sustainable Entrepreneurship 3
Interdisciplinary engagement of sustainable entrepreneurship as model for change on an issue of environmental sustainability. Exploration of models that respond to social, economic, environmental, and justice issues.
Prerequisites: Junior standing.
Notes: Same as BUS 440, PCS 440, WGS 440.

ENT 450 Directed Business Practice 3
Planned work experience approved in advance by instructor. This is a web-based course that requires regularly scheduled work in an organization that sponsors your internship. In addition, the course requires reading, writing, and skill practice assignments.
Prerequisites: Junior standing and written permission of the instructor.
Notes: Open to all majors. Same as BUS 450.

ENT 451 Service Management 3
Integration of service systems management, human behavior, and marketing in the creation, delivery, and assurance of service quality and customer service.
Notes: Same as CTR 451, STH 451.

ENT 455 Arts and Entrepreneurship: Career Strategies for Artists 3
Overview of professional performing arts career management tools. Students learn the basics of applying entrepreneurship skills and strategies to starting and sustaining an arts-related business.
Prerequisites: ARAD, DANC, DRAM, MEDU, MUSI, or PRFM major. or permission of instructor;
Notes: Same as DCE 455.

ENT 473 Wine Appreciation for the Business Professional 3
Introduction to the wine industry. Topics include pairing of wine and food in hospitality venues, history, geography, economics, health, and legal issues associated with wine.
Notes: Same as STH 473. Must be 21 years old or older.

ENT 486 Theatre Management and Entrepreneurship 3
Learn how to develop and manage a theatre in the twenty-first century. This class provides fundamental knowledge and critical thinking skills to prepare students for a career in Theatre Management. Students will actively engage with the most relevant challenges faced by leaders in contemporary Theatre/Entrepreneurship.
Notes: Same as THR 486.

ENT 493 Honors Work in Entrepreneurship 3
Paper or project in one of the seven profiles in Entrepreneurship; may be in conjunction with the North Carolina Entrepreneurship Center.
Prerequisites: Permission of instructor, 3.30 GPA in the major, 12 s.h. in the major.

ENT 498 Internship in Arts Administration and Entrepreneurship 3
Supervised work experience pre-approved that requires regularly scheduled hours in an entrepreneurial arts organization. The course meets online throughout the semester and requires reading, writing, and oral communication assignments.
Prerequisites: AAD 301 and AAD 202/ENT 202. Permission of instructor;
Notes: Same as AAD 498.

ENT 499 Selected Topics in Entrepreneurship 1-3
Study of topics of common interest to those interested in entrepreneurship. Group discussion and study rather than independent study emphasized. Generally non-recurring topics studied.
Prerequisites: Junior standing. permission of instructor;
Notes: May be repeated for credit if the topic of study changes. Same as BUS 499.

ENT 511 Silver Industries 3
Overview of the longevity economy and its influences on entrepreneurial opportunities. Case illustrations highlighted. Using the entrepreneurial business model, students explore opportunities, risks, and rewards in the silver industries market.
Notes: Same as GRO 511.

ENT 516 Entrepreneurship in Clinical Settings 3
Designed to teach students how to effectively build and implement a successful business model for the design and delivery of clinical practices, or related services.
Notes: Same as CED 516.

ENT 535 Entrepreneurship and Independent Press Publishing 3
Exploration, analysis, and participation in independent press publishing from inception to final product while practicing the entrepreneurial strategies needed to begin a successful venture.
Prerequisites: Permission of instructor.
Notes: Same as ENG 535.

ENT 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.
ENT 606 International Entrepreneurship 3
This course is for students interested in starting, joining, or expanding international ventures. It examines dimensions affecting entrepreneurship, including modes of entry (direct selling, franchising, internet), economic, and formal/informal institutions.
Notes: Same as BUS 606.

ENT 609 Franchising 3
Develop knowledge and skills needed to succeed as a franchisee, franchisor, or franchise executive, including understanding the Franchise Disclosure Document and the role of entrepreneurship in franchising.

ENT 610 Sustainable Urban Planning in an Entrepreneurial Environment 3
Fundamental concepts and techniques of urban planning as it relates to enhancing overall quality of life with a primary focus on land use patterns, the environment, business and entrepreneurship.
Notes: Same as GES 602.

ENT 615 Entrepreneurship for the Sciences 3
Develop knowledge and skills in entrepreneurship to identify and evaluate science and technology ideas in chemistry and the life sciences as opportunities to take through the feasibility and business plan.
Notes: Same as CHE 615.

ENT 616 Entrepreneurship in Clinical Settings 2
Designed to teach students how to effectively build and implement a successful business model (e.g. private practice) for the design and delivery of clinical practices, or related services.

ENT 630 Researching Opportunities in Entrepreneurship and Economic Development 3
Students will learn how to conduct research necessary to make informed decisions for an entrepreneurial venture and measure and assess economic development opportunities. No business research experience necessary.
Notes: Same as GES 630, LIS 530, MKT 530.

ENT 640 Experiences in Sustainable Entrepreneurship 3
Interdisciplinary course in sustainable entrepreneurship. Exploration of models for designing and implementing entrepreneurial projects which respond to social, economic, environmental, and justice issues. Introduction to direct action and evaluation.
Notes: Same as BUS 640, WGS 640.

ENT 661 Entrepreneurial Career Development in Music 3
Focus on the entrepreneurship knowledge, skills, and career development to enable students to become the architect of his/her future.
Notes: Same as MUP 661.

ENT 672 App Design and Programming 3
Apply fundamental programming concepts in designing and implementing applications for the web. This course provides students the necessary foundations for developing web applications and evaluating entrepreneurial opportunities.
Notes: Same as ISM 672.

ENT 677 Entrepreneurship Opportunities in Healthy Aging 3
Examination of entrepreneurship opportunities related to the aging population, with specific attention to products and services that extend the healthy lifespan. Includes development of Business Opportunity Analysis.
Notes: Same as GRO 677.

ENT 701 Promoting and Protecting Health through Entrepreneurship 3
Introduction to Federal Small Business Research grant mechanisms for entrepreneurial research. Preparation of a grant proposal for submission to NIH, CDC, or Department of Education.
Notes: Same as HEA 701.

ENT 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ENT 803 Research Extension 1-3
Research Extension.

Finance (FIN)

FIN 200 Introduction to Entrepreneurial Finance 3
Introduction to problems and methods in business finance within the context of entrepreneurial ventures. Topics include business formation, sources of financing, financial statements, business valuation, budgeting, and measuring financial performance.
Prerequisites: Entrepreneurship minor for non-business students.
Notes: Students may not receive credit for ENT 200, FIN 200, and FIN 315. Same as ENT 200.

FIN 300 The Management of Personal Finance 3
Personal budgeting and accounting; borrowing money; buying on credit; personal income tax returns; saving and wise investment of savings; insurance; home ownership.

FIN 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

FIN 315 Business Finance I 3
Recognition and analysis of financial problems. Integrated approach to financial management emphasizing basic concepts of valuation, investment, and financial structure.
Prerequisites: ACC 201 or ACC 218. ECO 201, ECO 202; major in ACCT, BADM, CARS, ECOS, ENTR, FINC, HTMT, INTB, ISSC, or MKTG.

FIN 330 Financial Institutions and Markets 3
Principal institutions and markets comprising the financial system; their roles in short-term, long-term and equity financing, interest rate determination and capital formation. Interrelationships between domestic and international financial markets. Government policy objectives and regulations as influences on the financial system.
Prerequisites: Grade of C or better in FIN 315.

FIN 335 Entrepreneurial Finance 3
This course focuses on financial analysis, financial forecasting, financing, capital costs, and working capital management of start-up businesses and existing businesses in the early stages of development.
Prerequisites: FIN 315.
Notes: Same as ENT 335.

FIN 360 Internship in Finance 3
Provides students with an opportunity to apply finance knowledge in a business environment and to gain a better understanding of the finance profession.
Prerequisites: Grade of C or better in FIN 315. Finance major; permission of internship coordinator.

FIN 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

FIN 410 Business Finance II 3
Theory and practical application of capital budgeting, cost of capital and capital structure analysis, working capital management, and financial analysis and planning.
Prerequisites: Grade of C or better in ACC 201 or ACC 218. ECO 250; and a grade of C or better in FIN 315.
FIN 442 Investments 3
Investment principles and practices, investment policies, security analysis, and the mechanics and mathematics of security purchases. Long- and short-term fluctuations of security prices, functions of securities markets and regulatory bodies, and individual investment needs.
Prerequisites: Grade of C or better in FIN 315.
FIN 449 Seminar in Finance 3
Independent study, research, and class discussion covering a topic or group of related topics of current interest in financial theory, policy, or practice. Topics may vary each semester.
Prerequisites: Grade of C or better in FIN 410.
FIN 450 Derivatives 3
Analysis of futures, options, swaps and a wide range of other derivatives products that are used by institutional investors and hedgers. Topics include how these markets work, how they can be used and what determines prices in them.
Prerequisites: Grade of C or better in FIN 315.
FIN 493 Honors Work 3-6
Prerequisite: Permission of instructor; 3.30 GPA in the major, 12 s.h. in the major;
Notes: May be repeated for credit if the topic of study changes.
FIN 499 Problems in Finance 3
Independent study, research, and class discussion covering a topic or group of related topics of current interest in theory or policy of finance. Topics may vary from semester to semester.
Prerequisites: Senior majors. permission of Department Head; grade of C or better in FIN 315;
Notes: May be repeated for credit with approval of Department Head.

First Year Experience (FYE)
FYE 100X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.
FYE 101 Succeed at the G: Topics 3
This course helps new students transition successfully to academic and student life. Students connect with the UNCG community, campus resources and opportunities, while developing skills essential for academic success, and beginning their journey to discovering their own purpose and potential. Topics addressed supplement discipline content, major, and professional progression.
MAC: MAC Foundations
Prerequisites: Written permission - All students will be pre-enrolled in the course.
Notes: FYE 101 is for new students only.
FYE 200X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

Foundations for Learning (FFL)
FFL 200 The Sophomore Experience 1
This course equips sophomores with essential competencies for academic and personal success including development of personal strengths, exploration of majors and careers, critical thinking, academic skills, and using campus resources.
FFL 200X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.
FFL 225 Special Topics in Social Movements 3
Examines principles and definitions of social justice through the focused study of specific social movements.
Prerequisites: UNCG students with 12 or more semester hours.
Notes: May be repeated twice for credit.
FFL 250 Enhancing the Transfer and Adult Student Experience 2
Engages transfer and adult students in an exploration of resources, skills, and competencies essential to academic success at UNCG, while also examining the role of higher education in achieving personal, academic, and career goals.

French (FRE)
FRE 101 Beginning French I 3
Introduction to the French language and the cultures of the French-speaking world. Emphasis on active listening, speaking, writing, and reading, and applied vocabulary.
MAC: MAC Global and Intercultural
Prerequisites: None.
Notes: Students with previous knowledge of French are required to take the placement test. Students who are native or heritage speakers of French MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.
FRE 102 Beginning French II 3
Continued study of the French language and the cultures of the French-speaking world at the introductory level. Emphasis on active listening, speaking, writing, and reading, and applied vocabulary.
MAC: MAC Global and Intercultural
Prerequisites: FRE 101 or met this level by the placement test.
Notes: Students with previous knowledge of French are required to take the placement test. Students who are native or heritage speakers of French MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.
FRE 203 Intermediate French I 3
MAC: MAC Global and Intercultural
Prerequisites: FRE 102 or equivalent or met this level by the placement test.
Notes: Students with previous knowledge of French are required to take the placement test. Students who are native or heritage speakers of French MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.
FRE 204 Intermediate French II 3
Continued study of the French language and cultures of the French-speaking world at the intermediate level. Emphasis on active listening, speaking, writing, and reading, and applied vocabulary.
MAC: MAC Global and Intercultural
Prerequisites: FRE 203 or equivalent or met this level by the placement test.
Notes: Students with previous knowledge of French are required to take the placement test. Students who are native or heritage speakers of French MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.
FRE 210 Intermediate French Conversation 1
Designed for students who wish to improve their oral proficiency in French. Topics of current interest as presented by various French media (radio, TV, newspaper/magazine reports).
Prerequisites: FRE 204/FRE 241 or equivalent, or departmental permission.
Notes: Grade: Pass/Not Pass (P/NP). May be repeated for credit up to 2 s.h.
FRE 222 Explorations in French Literature: English Versions 3
The best of French literature read and discussed in English. Topics vary, each taking a broad perspective on an important theme, genre, or period.
CIC: CIC College Writing
Notes: May not be used for credit toward French major or minor.
FRE 232 Images of France and the Francophone World 3
A study in English of French and Francophone civilizations and cultures and their impact on modern Western culture. Emphasis on understanding present-day issues and evaluating stereotypical images.
MAC: MAC Global and Intercultural
Notes: May not be used for credit toward French major or minor.
FRE 241 Intermediate French: Culture and Business 3
Further study of intermediate-level French focusing on topics and vocabulary pertaining to the culture and business practices of present-day France. Emphasis on active speaking, reading, writing, and grammar.
MAC: MAC Global and Intercultural
Prerequisites: FRE 203 or equivalent or met this level by the placement test.
Notes: Students with previous knowledge of French are required to take the placement test. Students who are native or heritage speakers of French MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.
FRE 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.
FRE 301 Bridges to French Literature and Culture 3
An opportunity to increase proficiency in oral and written language skills while extending knowledge of French literature and contemporary French culture. A bridge to advanced work in all areas.
CIC: CIC College Writing
Prerequisites: FRE 204 or FRE 241 or equivalent, or departmental permission.
Notes: May not be taken for credit by students who have successfully completed FRE 315 or above.
FRE 303 Francophone Cultures: An Introduction 3
An introduction to the Francophone cultures and literatures with focus on North Africa, sub-Saharan Africa, the Caribbean, and Quebec. Includes review of grammatical structures and development of language skills.
Prerequisites: FRE 204 or FRE 241, or permission of instructor.
FRE 311 French Conversation and Phonetics 3
Training in spoken French and phonetics.
Prerequisites: FRE 204 or FRE 241 or equivalent, or departmental permission.
FRE 312 French Conversation and Culture 3
Training in spoken French in the context of French culture.
Prerequisites: FRE 204 or FRE 241 or equivalent, or departmental permission.
FRE 313 Conversation in France 3
Intensive formal and informal training in French conversation in a living French setting.
FRE 315 Advanced Grammar and Composition: From Morphology to Meaning 3
An in-depth study of the rules of the French language from the form and function of words to their combination into meaningful statements, essays, and stories.
CIC: CIC College Writing
Prerequisites: FRE 204 or FRE 241 or equivalent, or departmental permission.
FRE 331 Culture and Civilization in France 3
Study of French culture and civilization in France.
FRE 332 Contemporary French Culture 3
An introduction to contemporary French thought and cultural practices with a focus on social, cultural, political, and economic components of France.
Prerequisites: FRE 204 or FRE 241 or equivalent, or departmental permission.
FRE 341 Business French 3
French used in various types of business, with practice in writing and speaking. Readings on economic aspects of the French-speaking world.
Prerequisites: FRE 204 or FRE 241 or equivalent, or departmental permission.
FRE 353 Survey of French Literature 3
French literature from Middle Ages through the twentieth century.
CIC: CIC College Writing
Prerequisites: FRE 204 or FRE 241 or equivalent, or departmental permission.
FRE 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.
FRE 407 Teaching French through French Literature 3
Strategies for teaching the French language through its literature. All major genres represented.
Prerequisites: FRE 353 or departmental permission.
Notes: For upper-level majors and graduate students who plan to teach French.
FRE 410 The Theory and Practice of French Translation 3
An exploration of the theory and practice of translation from and into French.
Prerequisites: FRE 315 or permission of instructor.
FRE 415 Advanced French Composition 3
Review of grammar and practice in informal and formal writing skills. Emphasis on the explication de texte and the dissertation littéraires. CIC: CIC College Writing
Prerequisites: FRE 315 or departmental permission.

FRE 418 Studies in Film Genre 3
Technical, dramatic, social, and rhetorical dimensions of a film genre or genres. Subject differs from offering to offering.
Prerequisites: Permission of department.
Notes: May be repeated for credit when the topic varies. Same as FRE 463, SPA 462.

FRE 433 French and Francophone Civilization and Culture 3
Study of the vast heritage of French civilization. Discovery of the historical, geographical, sociological, political, cultural, and artistic life of France and the Francophone world.
Prerequisites: FRE 331, FRE 332, or FRE 496, or permission of instructor.

FRE 450 Topics in French Literary Movements 3
In-depth study of a major literary trend: mannerism, classicism, realism, naturalism, and others.
Prerequisites: FRE 353 or departmental permission.
Notes: May be repeated for credit when topic varies.

FRE 451 Topics in French Prose Fiction 3
Studies in prose fiction—roman, conte, nouvelle, etc.—through a variety of critical and historical approaches, each topic focusing on one such approach.
Prerequisites: FRE 353 or departmental permission.
Notes: May be repeated for credit when topic varies.

FRE 455 Topics in French and Francophone Literature and Film 3
Advanced-level studies of a theme in French and/or Francophone literature and/or film that transcends the traditional period divisions. Taught in French.
Prerequisites: FRE 353 or departmental permission.
Notes: May be repeated for credit when topic varies.

FRE 456 Topics in French Theatre 3
Studies in French theatre through a variety of critical and historical approaches.
Prerequisites: FRE 353 or departmental permission.
Notes: May be repeated for credit when topic varies.

FRE 457 Advanced Topics in French Literature 3
Nontraditional perspectives on literature in the French language: thematic topics, and others.
Prerequisites: FRE 353 or departmental permission.
Notes: May be repeated for credit when topic varies.

FRE 458 Topics in Francophone Literature 3
Studies in Francophone literature through a variety of aspects or genres, each topic focusing on one such aspect or genre.
Prerequisites: FRE 353 or departmental permission.
Notes: May be repeated for credit when topic varies.

FRE 459 Topics in French Poetry 3
Studies in French poetry through a variety of critical and historical approaches.
Prerequisites: FRE 353 or departmental permission.
Notes: May be repeated for credit when topic varies.

FRE 463 Studies in Film Genre 3
Technical, dramatic, social, and rhetorical dimensions of a film genre or genres. Subject differs from offering to offering.
Prerequisites: Permission of department.
Notes: May be repeated for credit when topic varies. Same as ITA 418, SPA 462.

FRE 493 Honors Work 3-6
Honors Work.
Prerequisites: Permission of instructor. 3.30 GPA in the major, 12 s.h. in the major;
Notes: May be repeated for credit if the topic of study changes.

FRE 496 Directed Study in French and Francophone Civilization and Culture 3
Directed study and research in French and Francophone civilization and culture.
Prerequisites: Departmental permission required.
Notes: May be repeated for credit when topic varies.

FRE 497 Directed Study in French Language 3
Directed study and research in French language.
Prerequisites: Departmental permission required.
Notes: May be repeated for credit when topic varies.

FRE 498 Directed Study in French and Francophone Literature 3
Directed study and research in French and Francophone literature.
Prerequisites: Departmental permission required.
Notes: May be repeated for credit when topic varies.

FRE 499 Community-Based Service Learning in Francophone Studies 3
Field experience for French graduate students, French majors and minors, and advanced French undergraduates requiring interaction/active language use with Francophone immigrant families in the community.
Prerequisites: 15 s.h. of course work in French at the 300 level or above, minimum 3.0 GPA (overall and in major); and permission of the instructor.

FRE 507 Teaching French through French Literature 3
Strategies for teaching the French language through its literature. All major genres represented.
Prerequisites: Departmental permission.
Notes: For graduate students who plan to teach French.

FRE 511 The Theory and Practice of French Translation 3
An exploration of the theory and practice of translation from and into French.

FRE 532 French and Francophone Civilization and Culture 3
Study of the vast heritage of French civilization. Discovery of the historical, geographical, sociological, political, cultural, and artistic life of France and the Francophone world.

FRE 556 Topics in French Theatre 3
Studies in French theatre through a variety of critical and historical approaches.
Notes: May be repeated for credit when topic varies.

FRE 557 Advanced Topics in French Literature 3
Nontraditional perspectives on literature in the French language: thematic topics, and others.
Notes: May be repeated for credit when topic varies.

FRE 558 Topics in Francophone Literature 3
Studies in Francophone literature through a variety of aspects or genres, each topic focusing on one such aspect or genre.
Notes: May be repeated for credit when topic varies.
FRE 562 Studies in Film Genre 3
Technical, dramatic, social, and rhetorical dimensions of a film genre or genres. Subject differs from offering to offering.
Prerequisites: Departmental permission.
Notes: May be repeated for credit when the topic varies. Same as SPA 562, ITA 518.

FRE 599 Community-Based Service Learning in Francophone Studies 3
Field experience for French graduate students requiring interaction/active language use with Francophone immigrant families in the community.

FRE 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

FRE 653 Seminar in French Literature 3
Advanced study and investigation of current scholarship on a topic of French literature.
Notes: May be repeated for credit when topic varies.

FRE 693 Special Problems in French Language and Literature 3
Problems and area of French and Francophone civilization, language, and literature.
Notes: May be repeated for credit when topic varies, but no more than two (2) FRE 693 courses may be applied toward graduate credit without permission of the Director of French Graduate Study.

FRE 699 Thesis 1-6
Individual research for the completion of a thesis.

FRE 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

FRE 803 Research Extension 1-3
Research Extension.

Freshman Seminars Program (FMS)

FMS 100 College Connections 1
Introduction to learning in the College of Arts and Sciences.

FMS 100X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

FMS 115 Freshman Seminar in Reasoning and Discourse: Written Communication 3
Instruction and practice in deliberative, informative, and reflective writing based on the study of primary texts. Emphasis on the writing/revising process and on critical reading.
MAC: MAC Written Communication

FMS 116 Freshman Seminar in Reasoning and Discourse: Oral Communication 3
A course focused on oral communication and research-based analysis, argument, and critical reflection.
MAC: MAC Oral Communication

FMS 120 Freshman Seminar in Literature 3
A study of major selected works in literature.
MAC: MAC CritThink Hum and Fine Art
Notes: May be repeated once for credit when topic varies.

FMS 121 Freshman Seminar in Literature-Global Perspectives 3
Global perspectives on major works in literature.
Notes: May be repeated once for credit when topic varies.

FMS 122 Freshman Seminar in Literature-Global Non-Western Perspectives 3
Global Non-Western perspectives on major works in literature.
Notes: May be repeated once for credit when topic varies.

FMS 130 Freshman Seminar in Fine Arts 3
An introductory study of selected topics in the fine arts (which include painting, sculpture, cinema, dance, music, and theatre).
MAC: MAC CritThink Hum and Fine Art

FMS 131 Freshman Seminar in Fine Arts-Global Perspectives 3
Global perspectives on the study of selected topics in the fine arts (which include painting, sculpture, cinema, dance, music, and theatre).

FMS 140 Freshman Seminar in Philosophical, Religious, and Ethical Principles 3
Studies of the philosophical, religious, and/or ethical traditions that have shaped societies in the past and present.
MAC: MAC CritThink Hum and Fine Art

FMS 141 Freshman Seminar in Philosophical, Religious, and Ethical Principles-Global Perspectives 3
Global perspectives on the studies of the philosophical, religious, and/or ethical traditions that have shaped societies in the past and present.

FMS 142 Freshman Seminar in Philosophical, Religious, and Ethical Principles-Global Non-Western Perspectives 3
Global Non-Western perspectives on the studies of the philosophical, religious, and/or ethical traditions that have shaped societies in the past and present.

FMS 150 Freshman Seminar in Historical Perspectives 3
Introduction to the historical study of culture.
MAC: MAC CritThink Hum and Fine Art

FMS 151 Freshman Seminar in Historical Perspectives: Premodern-Global Perspectives 3
Global perspectives on the historical study of culture from ancient times through the Reformation.
Notes: May be repeated once for credit when topic varies.

FMS 152 Freshman Seminar in Historical Perspectives: Premodern-Global Non-Western Perspectives 3
Global Non-Western perspectives on the historical study of culture from ancient times through the Reformation.
Notes: May be repeated once for credit when topic varies.

FMS 160 Freshman Seminar in Historical Perspectives: Modern 3
Introduction to the historical study of culture from the 17th century through modern times.
Notes: May be repeated once for credit when topic varies.

FMS 161 Freshman Seminar in Historical Perspectives: Modern-Global Perspectives 3
Global perspectives on the historical study of culture from the 17th century through modern times.

FMS 170 Freshman Seminar in Social and Behavioral Studies 3
Introduction to the scientific study of individuals, societies, and human institutions with an emphasis on the methods and results of investigations in these areas.
MAC: MAC CritThink Soc and BehavSci
Notes: May be repeated once for credit when topic varies.
FMS 171 Freshman Seminar in Social and Behavioral Studies-Global Perspectives 3
Global perspectives on the scientific study of individuals, societies, and human institutions with an emphasis on the methods and results of investigations in these areas.
Notes: May be repeated once for credit when topic varies.

FMS 183 Freshman Seminar in Natural Science 3
Introduction to the study of natural science. Illustrates the nature of scientific inquiry and the formulation of hypotheses.
MAC: MAC CritThink Nat Sci

FMS 184 Freshman Seminar in Life Science 3
Introduction to the study of life science in the natural world. Illustrates the nature of scientific inquiry and the formulation of hypotheses.
Notes: May be repeated once for credit when topic varies.

FMS 184L Freshman Seminar in Life Science Laboratory 1
Laboratory work to accompany FMS 184.
Notes: May be repeated once for credit when topic varies.

FMS 195 Freshman Seminar in Mathematics 3
Introduction to selected areas of study in the mathematical sciences.
MAC: MAC Quantitative Reasoning

Genetic Counseling (GEN)

GEN 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

GEN 601 Principles of Genetic Counseling 3
Introduction to techniques used in genetic evaluation and counseling. Issues in preconception and prenatal genetic counseling. Skill development including basic interviewing techniques, psychosocial assessment, pedigree construction, searching on-line resources.
Prerequisites: Enrollment in MS genetic counseling program.

GEN 602 Principles of Genetic Counseling II 3
Issues in genetic counseling for pediatric and adult-onset genetic disorders including cancer genetics. Skill development, including working with special populations, decision-making, elements of informed consent.
Prerequisites: Matriculation to second semester of MS genetic counseling program.

GEN 610 Genetic Counseling and the Community 2
Impact of genetic disorders on patients and families, structure and function of support groups, and role of allied health professionals in evaluation, treatment and referral of patients with genetic disorders.
Prerequisites: Enrollment in MS genetic counseling program.

GEN 614 Prenatal Development: Embryology and Teratology 3
Human embryological development with emphasis on normal and abnormal development. Issues in teratology and birth defects, clinical problems associated with birth defects and their means of prevention.
Prerequisites: Enrollment in MS genetic counseling program or permission of instructor.
Notes: Same as BIO 614.

GEN 615 Introduction to Oncology and Genetic Counseling 1
Principles of oncology, cancer genetics, inherited syndromes, assessment, therapies and management in cancer care. Application to genetic counseling with an emphasis on familial and inherited risks.

GEN 618 Psychosocial Seminar 1
Application of psychosocial aspects of genetic and genomic medicine with an emphasis on genetic counseling and the general public. Implementation of peer-supervision for discussion of components of particularly challenging cases.

GEN 625 Introduction to Research Methods and Genetic Counseling Literature 2
Introduction to literature in genetic counseling including dissection of literature for critical assessment and application in clinical and research settings. Review of research methodology for preparation to be both consumers and producers of research.

GEN 630 Medical/Clinical Genetics I 3
Introduction to clinical/medical genetics for genetic counseling students. Topics include clinical cytogenetics and molecular genetics, Mendelian and non-traditional inheritance, dysmorphology, genetics of common cancers.
Prerequisites: Enrollment in MS genetic counseling program, BIO 614, BIO 616.

GEN 646 Advanced Clinical Genomics 2
Advanced principles and topics in genetics, genomics and clinical care in a genetic counseling setting.

GEN 648 Capstone Preparation Seminar 1
Introduction to research methods for genetic counselors. Knowledge and skills basic to critical analysis, interpretation of research findings, and proposal preparation.
Prerequisites: Enrollment in MS genetic counseling program or permission of instructor.

GEN 649 Independent Research Study 1
Guided and individualized mentorship for navigation of capstone project. First course in individual capstone plan.

GEN 658 Molecular Diagnostics 2
Survey of human molecular genetics and current clinical methods used for the diagnosis of human genetic disorders. Special emphasis given to the molecular principles, interpretations, and limitations of these tests.

GEN 668 Introduction to Clinical Encounters 2
Transition to clinical setting with integration of risk assessment. Experiential learning through simulated patient encounters, full case workups, clinical documentation and case management. Emphasis on skills used in patient care.

GEN 698 Summer Clinical Rotations 2
Introduction to clinical genetic counseling. Supervised observational and participatory activities, skill development.
Prerequisites: Matriculation to Summer Session II of MS genetic counseling program.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

GEN 701 Principles of Genetic Counseling III 3
Issues in professional development, public policy and health care systems. Introduction to legal issues in genetic counseling. Skill development including advanced genetic counseling skills, case management and preparing educational programs.
Prerequisites: Matriculation to third semester of MS genetic counseling program.
GEN 718 Clinical Rotations I 4
Supervised clinical experiences in genetic counseling: case preparation, risk assessment and intervention, psychosocial assessment and support, identification of testing and support resources for patients, skill development.
Prerequisites: Matriculation to second year of MS genetic counseling program.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

GEN 719 Clinical Rotations II 4
Supervised clinical experiences in genetic counseling: case preparation, risk assessment and intervention, psychosocial assessment and support, identification of testing and support resources for patients, skill development.
Prerequisites: Matriculation to second year of MS genetic counseling program.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

GEN 720 Peer Supervision in Genetic Counseling 1
Focus on building reflective practice, with heavy emphasis on retrospective case processing and review. Collaborative processing of cases to consider influential components and integrate awareness into future cases.

GEN 730 Medical/Clinical Genetics I 3

GEN 748 Research Project 2
Research project in genetic counseling.
Prerequisites: Matriculation to third semester (GEN 748) and fourth semester (GEN 749) of the M.S. Genetic Counseling program and successful completion of PSY 624.
Notes: Grading method is Satisfactory/Unsatisfactory (S/U).

GEN 749 Research Project 3
Research project in genetic counseling.
Prerequisites: Matriculation to third semester (GEN 748) and fourth semester (GEN 749) of MS genetic counseling program and successful completion of PSY 624.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

GEN 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

GEN 803 Research Extension 1-3
Research Extension.

Geography, Environment, and Sustainability (GES)

GES 102 The Historical Geography of the Western World 3
A study of the geographical factors which combine to form the major cultural regions of North America, Europe, and Australia-New Zealand.

GES 103 Introduction to Earth Science 3
Survey of basic concepts and processes integrating the nature of the earth's three primary physical systems: the solid earth and continents; the ocean basins and the oceans; and the atmosphere's weather.
MAC: MAC Nat Sci Data Analysis
Corequisites: GES 103L.

GES 103L Earth Science Laboratory 1
Laboratory exercises to accompany GES 103. Topics include atmospheric data analysis, topographic map interpretation, and hydrological measurements.
Corequisites: GES 103.

GES 104 World Regional Geography 3
Geographical criteria that define the major cultural and functional world regions. Emphasis on regional methods of geographical study, with applications to current world events and situations.
MAC: MAC Global and Intercultural

GES 105 Introduction to Human Geography 3
Introduction to geographical characteristics of population, political systems, settlement patterns, and cultural mosaics.
MAC: MAC CritThink Soc and BehavSci

GES 106 Our Dynamic Planet 3
The earth's atmosphere, hydrological, and tectonic systems. Includes applications to natural resources management and environmental planning. Emphasis on human interactions with Earth's physical processes.
MAC: MAC CritThink Nat Sci

GES 110 Introduction to Geography 3
Changing interaction of man and his environment and the resultant human and economic patterns in various parts of the world.

GES 111 Physical Geology 3
Survey of tectonic and erosional processes, mountain building, rivers, glaciers, deserts, and coastal landform development.
MAC: MAC Nat Sci Data Analysis
Corequisites: GES 111L.

GES 111L Physical Geology Laboratory 1
Laboratory demonstrations and map interpretation exercises to accompany GES 111, which must be taken concurrently.
Corequisites: GES 111.

GES 121 Introduction to Geographic Information Science 3
Introduction to the fundamental concepts of geographical information science (geographic data acquisition, representation, analysis, and interpretation). Technologies reviewed include topographic mapping, global positioning systems, aerial photography, and satellite remote sensing.
MAC: MAC Nat Sci Data Analysis

GES 121L Intro to Geographic Information Science Laboratory 1
Introduction to the fundamental concepts of geographic information science (geographic data acquisition, representation, analysis, and interpretation). Technologies reviewed include topographic mapping, global positioning systems, aerial photography, and satellite remote sensing.
Corequisites: GES 121.

GES 162 Introduction to Sustainability 3
Survey of sustainability from four perspectives: environment, economy, social equity, and aesthetics. Local, global, ethical, and experiential dimensions help prepare students to apply sustainability in a variety of contexts.

GES 163 North Carolina Environments 3
This interdisciplinary course provides a mountains-to-sea approach to places and people in North Carolina. Students address problem solving with UNCG as a living laboratory for environmental and sustainability issues.
MAC: MAC Foundations

GES 164 Introduction to Environment 3
Interdisciplinary survey of environmental issues. Emphasis on sciences (biology, chemistry, ecology, geography). Also includes perspectives from social sciences (anthropology, economics, politics, sociology) and humanities (arts, history, literature, philosophy, religion).
GES 205 Environmental Change: Its Nature and Impact 3
Environmental changes related to human use of land, water, soils, minerals, and natural amenities. Planning for sustained use or preservation of land-based natural resources.

GES 260 Sustainable Campus Operations 3
Study of facilities operations for universities and similar organizations, emphasizing sustainable infrastructure and institutional change. Focus on professional development, applied knowledge, and experiential learning.
Prerequisites: Either GES 162, GES 163, or GES 164, or permission of instructor.

GES 270 Environment and Experience 3
Consideration of an environment or place emphasizing sustainability and experiential learning. Involves readings/lectures on ecological, economic, social, and aesthetic aspects; field work and/or travel; and reflective, synthetic, and/or research writing.
Prerequisites: Either GES 162, GES 163, or GES 164, or permission of instructor.
Notes: May be repeated when the topic varies for up to 9 s.h. of credit in the major.

GES 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

GES 301 Cities of the World 3
Urbanization processes and the development of mega-cities and urban hierarchies emphasizing the differences between cities from across the world.

GES 302 Urban Geography: Sustainable Land Use 3
An introduction to theories of urban process and urban land-use change. Emphasis on basic forces acting on land-use patterns in American cities and neighborhoods to understand new processes, new problems, and new opportunities for urban sustainability.

GES 303 World Population Problems 3
Major world population problems, trends, and significant policy and action alternatives for the future. Impact of various geographical factors on problems and trends.

GES 304 Sustainable Transport and Mobility 3
Transportation systems as they affect urban and economic growth patterns, accessibility and mobility, and the environment. Emphasis will be given to the future of sustainable accessibility and mobility.

GES 305 Environmental Hazards Assessment 3
Nature and geographical distribution of short-lived environmental hazards including earthquakes, hurricanes, floods, volcanic eruptions, and landslides. Factors contributing to increased hazard potential. Alternative human responses to short-lived hazards.
Prerequisites: GES 103 or equivalent.

GES 306 World Economic Geography 3
Characteristics and location of the world’s resources, theory of industrial location, world patterns of industry.

GES 312 Geomorphology of North America 3
A survey of the various landscape regions of the North America. Emphasis on the relationships between the geologic, erosional, and climatic processes occurring in each region.

GES 313 Natural Resource Regions of North America 3
Regional natural resource use and associated human interaction with the natural environment. Instruction takes place during an extended field trip across portions of North America.
Prerequisites: GES 103 or GES 314 and permission of instructor.

GES 314 Physical Geography: Landscape Processes 3
Examination of the processes responsible for the development of the earth’s varied terrain characteristics. Analysis of environmental problems involving human impact on landscape and river systems.
Prerequisites: GES 103 or equivalent.
Corequisites: GES 314L.

GES 314L Physical Geography Laboratory 1
Laboratory demonstrations and map interpretation exercises to accompany GES 314, which must be taken concurrently.
Corequisites: GES 314.

GES 315 The Geography of World Affairs 3
Contemporary problems and issues of and between nations of the world as they have evolved in their geographical settings.

GES 319 Weather and Climate 3
Introduction to the nature, origin, processes, and dynamics of the atmosphere. Consideration also of human modification of the atmosphere and of climatic change.
Prerequisites: GES 103 or equivalent.
Corequisites: GES 319L.

GES 319L Climatology Laboratory 1
Laboratory work to accompany GES 319.
Corequisites: GES 319.

GES 320 Tourism Planning and Development 3
Geographic distribution of tourist development. Emphasis on the spatial dimension of origin-destination flows, economic geography of the travel industry, socio-economic and environmental impacts. Emphasis on tourism planning issues.
Notes: Same as STH 320.

GES 322 Research Methods in Spatial Science 3
Development of fundamental research and quantitative skills in Spatial Science. Use of the scientific method, data collection, spatial analysis, and technical writing.
CIC: CIC College Writing

GES 325 Introduction to Spatial Analysis 3
Introduction to the basic concepts of spatial analysis (space, scale, location, and spatial data and their representation) as well as elementary statistical methods and their application in geographical analysis.
Prerequisites: GES 121.

GES 328 The Water Planet 3
The course focuses on interactions between water and society, including the use of water as a natural resource and the impacts of humans on water quantity and quality.
Prerequisites: GES 103 or GES 106.

GES 330 Elements of Hydrology 3
Introduction to the origin, properties, occurrence, circulation of the waters of the earth, including the application of hydrologic techniques for the evaluation of regional water budgets and problems relating to the conservation of water resources.
CIC: CIC College Writing
Prerequisites: GES 103 or GES 319 or GES 314, or permission of instructor.
GES 331 Sustainable Tourism and Transportation 3
Explores transportation networks utilized by the global tourism sector; their social, economic, and environmental dimensions, associated trends, associated negative impacts and resource usage and opportunities for planning sustainable transportation networks.
Notes: Same as STH 331.

GES 333 Geography of Europe 3
Examination of human and physical characteristics of the European region. Topics include settlement patterns, landscape evolution, patterns and spatial variation of economic activity, urbanization, and political divisions.

GES 338 Regions of Latin America 3
Geographic distinctiveness of Latin American regions, with an emphasis upon the physical foundation, bases of past development, and recent transformation. Major consideration given to Mexico/Central America, Peru/Bolivia, and Brazil.

GES 340 Geography of East Asia 3
Examines dynamic economic, sociocultural, and political changes in East Asia by using geographical criteria to study physical and human resources influencing rapid modernization within an ancient framework.

GES 344 Geography of the United States and Canada 3
Study of the human and physical characteristics of the United States and Canada, with emphasis on the former.

GES 357 Principles of Cartography 3
The science of cartography with an emphasis on the use of maps as descriptive and analytical tools. Laboratory work introduces computer mapping, compilation, design, and symbolization.
Prerequisites: GES 121.

GES 358 Geographic Information Systems 3
Provides basic concepts and methods for capturing, storing, querying, analyzing, and displaying geospatial data using Geographic Information Systems (GIS).
Prerequisites: GES 121 or permission of instructor.

GES 359 Remote Sensing of Environment 3
Acquisition, analysis, and interpretation of digital and photographic imagery. Emphasis on use of satellite and aircraft imagery for classification and monitoring of the earth's physical and cultural landscape.
CIC: CIC College Writing
Prerequisites: GES 121.

GES 366 Internship in Environment & Sustainability 3
150 hours of supervised work in a private, nonprofit, or public environmental agency; seminars or meetings to discuss readings and internship experiences; research paper or written field project required.
Prerequisites: Written permission of instructor.
Notes: May be repeated once for credit when the internship site varies.

GES 367 Research in Environment & Sustainability 3
Considers various current environmental and sustainability issues in depth from interdisciplinary perspectives. Students conduct research, prepare a written report, and disseminate results.
CIC: CIC College Writing
Prerequisites: GES 162, GES 164, and junior or senior standing, or permission of instructor.

GES 368 Individual Study in Environment & Sustainability 1-3
Reading or research. Available to qualified students upon recommendation of supervising instructor.
Prerequisites: Departmental permission.
Notes: May be repeated for credit if the topic of study changes.

GES 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

GES 402 Sustainable Urban Planning in an Entrepreneurial Environment 3
Fundamental concepts and techniques of urban planning as it relates to enhancing overall quality of life with a primary focus on land use patterns, the environment, business and entrepreneurship.
Notes: Same as ENT 410.

GES 404 Political Geography 3
A systematic overview of relationships among space, place, and politics at multiple geographic scales. Topics include boundaries, geopolitics, nationalism, resource distribution, means of controlling space, and the spatiality of globalization.
Prerequisites: Junior standing or permission of instructor.

GES 405 Sustainable Regional Planning 3
Sustainable regional development and planning processes focused on regional planning techniques and law.

GES 415 National Parks and Protected Areas 3
This course is devoted to the changing geography of the National Park System and related protected areas in the USA, with an emphasis on their environmental, historical and political significance.
Prerequisites: GES 103 or GES 105 or permission of instructor. Junior or senior.

GES 418 Biogeography 3
Study of the geographic distribution of organisms and the factors/processes accountable. Emphasis on the increasingly important role humans play in influencing biogeographic processes.
Prerequisites: GES 314 or GES 319 or BIO 301. or permission of instructor.

GES 419 Advanced Weather and Climate-Synoptic Climatology 3
Exploration of atmospheric dynamics and general circulation patterns throughout the world. Emphasis on cyclogenesis, surface-upper atmosphere links, tropospheric waves, vorticity, and forecasting.
Prerequisites: GES 319 or permission of instructor.

GES 421 Geographic Information Science 3
Principles and use of geographic information; emphases are on data acquisition and techniques of spatial analysis and display. Requirements include a substantial applied research project.
Prerequisites: GES 121, GES 357, GES 359.

GES 430 Researching Opportunities in Entrepreneurship and Economic Development 3
Students will learn how to conduct research necessary to make informed decisions for an entrepreneurial venture and measure and assess economic development opportunities. No business research experience necessary.
Prerequisites: Junior or senior standing.
Notes: Same as ENT 430, LIS 430, MKT 430.

GES 432 Geography of Livable Cities 3
Advanced study on the processes of urban population and economic growth from the perspective of urban livability. Emphasis on accessing and interpreting data from public or private sources.

GES 433 Regional Economic Development 3
Theories of location of economic activity; techniques to assess impact of types of economic activity; policy and institutional issues related to local, state, and global economic development.
GES 450 Applied Physical Geography 3
Applications in physical geography. Topics include field experience in hydrology, dendrochronology, geomorphology, climatology, and mapping. 
Notes: May be repeated once when topic changes.

GES 451 Seminar in Regional Geography 3
Case studies of regionalism and the regional method in geography. 
Notes: May be repeated once for credit when topic changes.

GES 457 Advanced Cartography 3
Advanced instruction in cartographic production techniques and introduction to cartographic research. Students will learn to evaluate academic literature and to implement research ideas using state-of-the-art technology. 
Prerequisites: GES 357 or permission of instructor.

GES 458 Advanced Geographic Information Systems 3
Advanced concepts and methods in Geographic Information Systems (GIS). Emphasis is placed on the analysis and modeling of geospatial data using raster and vector data models. 
Prerequisites: GES 358 or permission of instructor.

GES 459 Advanced Remote Sensing-Imaging 3
Remote sensing of the environment using scientific visualization and digital image processing techniques. 
Prerequisites: GES 359 or permission of instructor.

GES 462 Sustainability 3
Seminar addressing sustainability in an interdisciplinary framework connecting environmental sciences, equity & society, development & economics, and ethics & aesthetics. 
Prerequisites: GES 162 and GES 164, or permission of instructor.

GES 464 Environment 3
Advanced study of coupled human-environmental problems and solutions. Focus on classic cases and current topics in environmental studies. 
Prerequisites: GES 162 and GES 164.

GES 482 Topics in Ethics and Aesthetics 3
Seminar dealing with topics in ethics and/or aesthetics as related to environmental and/or sustainability issues in an interdisciplinary framework. 
Prerequisites: GES 162 and GES 164 or permission of instructor. 
Notes: May be repeated twice for credit.

GES 484 Topics in Development and Economics 3
Seminar dealing with topics in development and/or economics as related to environmental and/or sustainability issues in an interdisciplinary framework. 
Prerequisites: GES 162 and GES 164 or permission of instructor. 
Notes: May be repeated twice for credit.

GES 486 Topics in Equity and Society 3
Seminar dealing with topics in equity and/or society as related to environmental and/or sustainability issues in an interdisciplinary framework. 
Prerequisites: GES 162 and GES 164 or permission of instructor. 
Notes: May be repeated twice for credit.

GES 488 Topics in Environmental Sciences 3
Seminar dealing with topics in environmental sciences as related to environmental and/or sustainability issues in an interdisciplinary framework. 
Prerequisites: GES 162 and GES 164 or permission of instructor. 
Notes: May be repeated twice for credit as topic varies.

GES 490 Special Problems in Geography 3
Opportunity for advanced students to undertake independent study of field research of special interest. 
Prerequisites: Permission of faculty member with whom student wishes to work and at least 3 s.h. of previous work in geography.

GES 491 Current Topics in Regional Geography 3
Seminar dealing with major national and international topics in their current geographical context. 
Notes: May be repeated for credit when topic varies.

GES 493 Honors Work 3-6
Honors Work. 
Prerequisites: Permission of instructor. 3.30 GPA in the major, 12 s.h. in the major; 
Notes: May be repeated for credit if the topic of study changes.

GES 495 Internship in Geography 3
Practical experience in a professional setting related to the student’s main topic of interest. Includes a research paper linking the topic to the experience. 
Prerequisites: Written permission required before registering for the internship.

GES 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

GES 601 Research Trends in Geography 1
Overview of major research themes in geography. Student will meet faculty and other professional geographers, facilitating the development of research through field experience, colloquia, and conferences. 
Prerequisites: Admission to graduate program in geography. 
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

GES 602 Sustainable Urban Planning in an Entrepreneurial Environment 3
Fundamental concepts and techniques of urban planning as it relates to enhancing overall quality of life with a primary focus on land use patterns, the environment, business and entrepreneurship. 
Notes: Same as ENT 610.

GES 603 Understanding Geographic Information Systems 3
Study and application of geographic information systems for professional problem-solving, spatial analysis, and mapping.

GES 604 Political Geography 3
A systematic overview of relationships among space, place, and politics at multiple geographic scales. Topics include boundaries, geopolitics, nationalism, resource distribution, means of controlling space, and the spatiality of globalization.

GES 605 Sustainable Regional Planning 3
Sustainable regional development and planning processes focused on regional planning techniques and law.

GES 606 Environmental Planning 3
Examination and analysis of environmental concepts and their relationship to various planning and management scenarios, including environmental issues, strategies, and plans.

GES 607 Earth Science for Educators 5
Study of the processes that shape Earth's lithospheric, hydrospheric, and atmospheric realms. Practicum and course content are synchronized with the NC Standard Course of Study for Earth and Environmental Science.
GES 608 Weather and Climate for Educators 5
Examination of Earth’s physical atmospheric processes as they apply to weather and climate systems. Practicum and course content are synchronized with the NC Standard Course of Study for Earth and Environmental Science.

GES 609 Hydrology for Educators 5
Examination of Earth’s water sphere, including Earth-Atmosphere interactions, and its importance as a resource. Practicum and course content are synchronized with the NC Standard Course of Study for Earth and Environmental Science.

GES 610 Physical Geology for Educators 5
Study of the materials that comprise Earth, and the processes shaping its near-surface environment. Practicum and course content are synchronized with the NC Standard Course of Study for Earth and Environmental Science.

GES 611 Natural Hazards and Society for Educators 5
Study of the Earth’s near-surface natural hazards, with discussion of anthropogenic influences and societal consequences. Practicum and course content are synchronized with the NC Standard Course of Study for Earth and Environmental Science.

GES 612 Natural Resource Geography 3
Application of geographical theory to natural resource use and distribution. Emphasis on resource use and constraints to development.

GES 614 GIS Programing and Design Application 3
Theory and practice in the creation of Geographic Information Systems using logic based programming and database construction tools. Emphasis on modeling of spatial information and logic-based approaches to GIS.

Prerequisites: GES 658.

GES 615 National Parks and Protected Areas 3
This course is devoted to the changing geography of the National Park System and related protected areas in the USA, with an emphasis on their environmental, historical and political significance.

GES 618 Biogeography 3
Study of the geographic distribution of organisms and the factors/processes accountable. Emphasis on the increasingly important role humans play in influencing biogeographic processes.

Prerequisites: GES 314 or GES 319 or BIO 301, or admission to graduate program in geography, or permission of instructor.

GES 619 Advanced Weather and Climate-Synoptic Climatology 3
Exploration of atmospheric dynamics and general circulation patterns throughout the world. Emphasis on cyclogenesis, surface-upper atmosphere links, tropospheric waves, vorticity, and forecasting.

Prerequisites: Admission to graduate program in Geography or permission of instructor.

GES 620 Spatial Analysis 3
Theory and practice in combining Geographic Information Systems software with statistical analysis software. Emphasis will be on the quantitative analysis and visual display of spatial information.

Prerequisites: GES 658 and STA 571 or equivalent.

GES 621 Seminar in Geographic Information Science 3
Research in geographic information science. Focus on current research in application of remotely sensed imagery, geographic information systems, and maps in the visualization and analysis of spatial data.

Prerequisites: GES 359 and GES 458 or GES 658 or permission of instructor.

Notes: May be repeated once for credit when topic changes.

GES 622 GIS Applications in Urban Planning 3
Theory and practice integrating Geographic Information Systems with land use planning practice. Emphasis on advanced analysis and display of spatial data and information in support of land use planning decision-making.

Prerequisites: GES 322 (or equivalent) and GES 603 or permission of instructor.

GES 630 Researching Opportunities in Entrepreneurship and Economic Development 3
Students will learn how to conduct research necessary to make informed decisions for an entrepreneurial venture and measure and assess economic development opportunities. No business research experience necessary.

Notes: Same as ENT 630, LIS 530, MKT 530.

GES 631 Sustainable Transportation Planning 3
Advanced theories, models, and practices of sustainable transportation planning with an emphasis on U.S. urban transportation systems.

Prerequisites: GES 602 or permission of instructor.

GES 632 Geography of Livable Cities 3
Advanced study on the processes of urban population and economic growth from the perspective of urban livability. Emphasis on accessing and interpreting data from public or private sources.

GES 633 Regional Economic Development 3
Theories of location of economic activity; techniques to assess impact of types of economic activity; policy and institutional issues related to local, state, and global economic development.

GES 634 Advanced Topics in European Geography 3
In-depth analysis of select advanced topics related to Europe. Combines systematic and regional traditions within geography. Possible themes include European integration, immigration, urbanization and cities, cultural preservation, tourism, the environment.

Notes: May be repeated for credit when topic varies.

GES 635 Geography of Asia 3
Examines dynamic economic, sociocultural, and political changes in Asia by looking at their roots in physical and human resources influencing rapid modernization within an ancient cultural framework.

GES 641 Earth Surface Processes and Landforms 3
Advanced systematic study of geomorphology with applications to human responses to natural hazards and environmental management.

Prerequisites: GES 314/GES 314L or equivalent advanced undergraduate course in geomorphology.

GES 650 Applied Physical Geography 3
Applications in physical geography. Topics include field experience in hydrology, dendrochronology, geomorphology, climatology, and mapping.

Notes: May be repeated once when topic changes.

GES 651 Seminar in Regional Geography 3
Case studies of regionalism and the regional method in geography.

Notes: May be repeated once for credit when topic changes.

GES 657 Advanced Cartography 3
Advanced instruction in cartographic production techniques and introduction to cartographic research. Students will learn to evaluate academic literature and to implement research ideas using state-of-the-art technology.

Prerequisites: GES 357 or permission of instructor.
GES 658 Advanced Geographic Information Systems 3
Advanced concepts and methods in Geographic Information Systems (GIS). Emphasis is placed on the analysis and modeling of geospatial data using raster and vector data models.
Prerequisites: GES 358 or permission of instructor.

GES 659 Advanced Remote Sensing-Imaging 3
Remote sensing of the environment using scientific visualization and digital image processing techniques.
Prerequisites: GES 359 or permission of instructor.

GES 660 Sustainable Campus Operations 3
Study of facilities operations for universities and similar organizations, emphasizing sustainable infrastructure and institutional change. Focus on professional development, applied knowledge, and experiential learning.
Prerequisites: GES 662 or permission of instructor.

GES 662 Sustainability 3
Seminar addressing sustainability in an interdisciplinary framework connecting environmental sciences, equity and society, development and economics, and ethics and aesthetics. Open to graduate students in any field of study.
Prerequisites: Permission of instructor.

GES 664 Environment 3
Advanced study of coupled human-environmental problems and solutions. Focus on classic cases and current topics in environmental studies.

GES 682 Topics in Ethics and Aesthetics 3
Seminar dealing with topics in ethics and/or aesthetics as related to environmental and/or sustainability issues in an interdisciplinary framework.
Prerequisites: GES 662 or permission of instructor.
Notes: May be repeated when the topic varies for up to 9 credits in the major.

GES 684 Topics in Development and Economics 3
Seminar dealing with topics in development and/or economics as related to environmental and/or sustainability issues in an interdisciplinary framework.
Prerequisites: GES 662 or permission of instructor.
Notes: May be repeated when the topic varies for up to 9 credits in the major.

GES 686 Topics in Equity and Society 3
Seminar dealing with topics in equity and/or society as related to environmental and/or sustainability issues in an interdisciplinary framework.
Prerequisites: GES 662 or permission of instructor.
Notes: May be repeated when the topic varies for up to 9 credits in the major.

GES 688 Topics in Environmental Sciences 3
Seminar dealing with topics in environmental sciences as related to environmental and/or sustainability issues in an interdisciplinary framework.
Prerequisites: GES 662 or permission of instructor.
Notes: May be repeated when the topic varies for up to 9 credits in the major.

GES 690 Research Problems in Applied Geography 3
Independent study on a special topic of interest.
Prerequisites: Graduate course on the topic.
Notes: May be repeated for credit when topic varies.

GES 695 Internship 1-6
Practical experience in a professional setting related to the student’s main topic of interest. Includes written paper linking the topic to the experience.
Prerequisites: 18 credit hours in the M.A. in Applied Geography or the M.S. in Sustainability and Environment.
Notes: May be repeated for a maximum of 6 credits.

GES 697 Capstone in Sustainability and Environment 3
Advanced research report on a sustainability and environment problem that proposes interdisciplinary solutions.
Prerequisites: Permission of instructor.

GES 699 Thesis 1-6
Individual guidance in the development of a specific research problem.
Prerequisites: Permission of GES Thesis Committee.

GES 700 Sustainable Urban Planning in an Entrepreneurial Environment 3
Fundamental concepts and techniques of urban planning as it relates to enhancing overall quality of life with a primary focus on land use patterns, the environment, business and entrepreneurship.
Notes: Students may not receive credit for both GES 602 and GES 700.

GES 701 History of Geographic Thought 3
Seminar on the nature of geography and what geographers do. Focus on the history of the discipline approaches to its study, major paradigms, and application of geographic theory.
Prerequisites: Admission to doctoral program in geography or permission of instructor.

GES 702 Research Design 3
Design and execution of applied research projects as practiced by professional geographers.
Prerequisites: STA 571 or equivalent.

GES 703 Understanding Geographic Information Systems 3
Study and application of geographic information systems for professional problem-solving, spatial analysis, and mapping.

GES 704 Political Geography 3
A systematic overview of relationships among space, place, and politics at multiple geographic scales. Topics include boundaries, geopolitics, nationalism, resource distribution, means of controlling space, and the spatiality of globalization.

GES 705 Regional Planning 3
Regional development and planning processes focused on regional planning techniques and law.

GES 706 Environmental Planning 3
Examination and analysis of environmental concepts and their relationship to various planning and management scenarios, including environmental issues, strategies, and plans.

GES 707 Earth Science for Educators 5
Study of the processes that shape Earth’s lithospheric, hydrospheric, and atmospheric realms. Practicum and course content are synchronized with the NC Standard Course of Study for Earth and Environmental Science.

GES 708 Weather and Climate for Educators 5
Examination of Earth's physical atmospheric processes as they apply to weather and climate systems. Practicum and course content are synchronized with the NC Standard Course of Study for Earth and Environmental Science.
GES 709 Hydrology for Educators 5  
Examination of Earth’s water sphere, including Earth-Atmosphere interactions, and its importance as a resource. Practicum and course content are synchronized with the NC Standard Course of Study for Earth and Environmental Science.

GES 710 Physical Geology for Educators 5  
Study of the materials that comprise Earth, and the processes shaping its near-surface environment. Practicum and course content are synchronized with the NC Standard Course of Study for Earth and Environmental Science.

GES 712 Natural Resource Geography 3  
Application of geographical theory to natural resource use and distribution. Emphasis on resource use and constraints to development.

GES 713 Natural Hazards and Society for Educators 5  
Study of the Earth’s near-surface natural hazards, with discussion of anthropogenic influences and societal consequences. Practicum and course content are synchronized with the NC Standard Course of Study for Earth and Environmental Science.

GES 714 GIS Programming and Design Application 3  
Theory and practice in the creation of Geographic Information Systems using logic based programming and database construction tools. Emphasis on modeling of spatial information and logic-based approaches to GIS.  
**Prerequisites:** GES 758.

GES 715 National Parks and Protected Areas 3  
This course is devoted to the changing geography of the National Park System and related protected areas in the USA, with an emphasis on their environmental, historical and political significance.

GES 716 Spatial Analysis 3  
Theory and practice in combining Geographic Information Systems software with statistical analysis software. Emphasis will be on the quantitative analysis and visual display of spatial information.  
**Prerequisites:** GES 758 and STA 571 or equivalent.  
**Notes:** Students may not receive credit for both GES 620 and GES 716.

GES 718 Biogeography 3  
Study of the geographic distribution of organisms and the factors/processes accountable. Emphasis on the increasingly important role humans play in influencing biogeographic processes.  
**Prerequisites:** Admission to graduate program in Geography or permission of instructor.

GES 719 Advanced Weather and Climate-Synoptic Climatology 3  
Exploration of atmospheric dynamics and general circulation patterns throughout the world. Emphasis on cyclogenesis, surface-upper atmosphere links, tropospheric waves, vorticity, and forecasting.  
**Prerequisites:** Admission to graduate program in Geography or permission of instructor.

GES 720 Advanced Spatial Analysis 3  
Theory and practice in spatial analysis with an emphasis on spatial statistics. Spatial pattern analysis, spatial association and interpolation, spatial data mining.  
**Prerequisites:** GES 620.

GES 721 Seminar in Geographic Information Science 3  
Research in geographic information science. Focus on current research in application of remotely sensed imagery, geographic information systems, and maps in the visualization and analysis of spatial data.  
**Prerequisites:** GES 359, GES 458 or GES 758, or permission of instructor.  
**Notes:** May be repeated once for credit when topic varies.

GES 722 GIS Applications in Urban Planning 3  
Theory and practice integrating Geographic Information Systems with land use planning practice. Emphasis on advanced analysis and display of spatial data and information in support of land use planning decision-making.  
**Prerequisites:** GES 322 or equivalent, and GES 703, or permission of instructor.

GES 730 Seminar in Earth Science/Natural Resources 3  
Directed readings and research proposal development on selected aspects of natural resource policy and management from the perspective of earth science.  
**Prerequisites:** GES 612 or GES 641 or permission of instructor.  
**Notes:** May be repeated once for credit when topic changes.

GES 731 Transportation Planning 3  
Theory and practice of transportation planning with an emphasis on urban transportation systems.  
**Prerequisites:** GES 700 or permission of instructor.

GES 732 Geography of Livable Cities 3  
Advanced study on the processes of urban population and economic growth from the perspective of urban livability. Emphasis on accessing and interpreting data from public or private sources.  

GES 733 Regional Economic Development 3  
Theories of location of economic activity. Techniques to assess impact of types of economic activity. Policy and institutional issues related to local, state, and global economic development.

GES 734 Advanced Topics in European Geography 3  
In-depth analysis of select advanced topics related to Europe. Combines systematic and regional traditions within geography. Possible themes include European integration, immigration, urbanization and cities, cultural preservation, tourism, the environment.  
**Notes:** May be repeated for credit when topic varies.

GES 735 Geography of Asia 3  
Examines dynamic economic, sociocultural, and political changes in Asia by looking at their roots in physical and human resources influencing rapid modernization within an ancient cultural framework.

GES 740 Seminar in Urban Planning/Economic Development 3  
Directed readings on selected aspects of urban planning/economic development focused on theory and policy issues from a geographic perspective.  
**Prerequisites:** GES 602 or GES 633 or permission of instructor.  
**Notes:** May be repeated once for credit when topic changes.

GES 741 Seminar in Regional Economic Development 3  
A geographic perspective is applied to analysis of regional economic performance and change in the developed and developing world. Theory is integrated with strategies for development policy and planning.  
**Prerequisites:** GES 633 or permission of instructor.

GES 742 Earth Surface Processes and Landforms 3  
Advanced systematic study of geomorphology with applications to human responses to natural hazards and environmental management.  
**Prerequisites:** GES 314 and GES 314L or equivalent advanced undergraduate course in geomorphology.  
**Notes:** Students may not receive credit for both GES 641 and GES 742.

GES 750 Applied Physical Geography 3  
Applications in physical geography. Topics include field experience in hydrology, dendrochronology, geomorphology, climatology, and mapping.  
**Notes:** May be repeated once when topic varies.
GES 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

GES 751 Seminar in Regional Geography 3
Case studies of regionalism and the regional method in geography.
Notes: May be repeated once for credit when topic changes.

GES 757 Advanced Cartography 3
Advanced instruction in cartographic production techniques and introduction to cartographic research. Students will learn to evaluate academic literature and to implement research ideas using state-of-the-art technology.
Prerequisites: GES 357 or permission of instructor.

GES 758 Advanced Geographic Information Systems 3
Advanced concepts and methods in Geographic Information Systems (GIS). Emphasis is placed on the analysis and modeling of geospatial data using raster and vector data models.
Prerequisites: GES 358 or permission of instructor.

GES 759 Advanced Remote Sensing-Imaging 3
Remote sensing of the environment using scientific visualization and digital image processing techniques.
Prerequisites: GES 359 or permission of instructor.

GES 760 Sustainable Campus Operations 3
Study of facilities operations for universities and similar organizations, emphasizing sustainable infrastructure and institutional change. Focus on professional development, applied knowledge, and experiential learning.
Prerequisites: GES 762 or permission of instructor.

GES 762 Sustainability 3
Seminar addressing sustainability in an interdisciplinary framework connecting environmental sciences, equity and society, development and economics, and ethics and aesthetics.
Prerequisites: Permission of instructor.
Notes: Open to graduate students in any field of study.

GES 764 Environment 3
Advanced study of coupled human-environmental problems and solutions. Focus on classic cases and current topics in environmental studies.

GES 771 Doctoral Seminar in Geographic Information Science 3
Advanced seminar in the theory, practice, and technical aspects of Geographic Information Science.
Notes: May be repeated once for credit when topic changes.

GES 782 Topics in Ethics and Aesthetics 3
Seminar dealing with topics in ethics and/or aesthetics as related to environmental and/or sustainability issues in an interdisciplinary framework.
Prerequisites: GES 662 or permission of instructor.
Notes: May be repeated when the topic varies for up to 9 credits in the major.

GES 784 Topics in Development and Economics 3
Seminar dealing with topics in development and/or economics as related to environmental and/or sustainability issues in an interdisciplinary framework.
Prerequisites: GES 762 or permission of instructor.
Notes: May be repeated when the topic varies for up to 9 credits in the major.

GES 786 Topics in Equity and Society 3
Seminar dealing with topics in equity and/or society as related to environmental and/or sustainability issues in an interdisciplinary framework.
Prerequisites: GES 762 or permission of instructor.
Notes: May be repeated when the topic varies for up to 9 credits in the major.

GES 788 Topics in Environmental Sciences 3
Seminar dealing with topics in environmental sciences as related to environmental and/or sustainability issues in an interdisciplinary framework.
Prerequisites: GES 762 or permission of instructor.
Notes: May be repeated when the topic varies for up to 9 credits in the major.

GES 790 Independent Geographic Research 3
Independent study on topic of interest in theoretical geography.
Prerequisites: Graduate course in topic.
Notes: May be repeated for up to 6 credit hours.

GES 799 Doctoral Dissertation Research 1-21
Individual direction in the development and execution of a doctoral dissertation.
Prerequisites: Completion of all PhD course requirements and examinations.
Notes: Required of all PhD in geography candidates. May be taken in two or more semesters.

GES 801 Thesis Extension 1-3
Thesis Extension.

GES 802 Dissertation Extension 1-3
Dissertation Extension.

GES 803 Research Extension 1-3
Research Extension.

Geospatial Analytics (IAG)

IAG 620 Understanding Geographic Information Systems 3
Study and application of geographic information systems for professional problem-solving, spatial analysis, and mapping.

IAG 621 Advanced Cartography 3
Advanced instruction in cartographic production techniques and introduction to cartographic research. Students will learn to evaluate academic literature and to implement research ideas using state-of-the-art technology.

IAG 622 GIS Applications in Urban Planning 3
Theory and practice integrating Geographic Information Systems with land use planning practice. Emphasis on advanced analysis and display of spatial data and information in support of land use planning decision-making.

IAG 623 Advanced Geographic Information Systems 3
Advanced concepts and methods in Geographic Information Systems (GIS). Emphasis is placed on the analysis and modeling of geospatial data using raster and vector data models.

IAG 624 Advanced Remote Sensing-Imaging 3
Remote sensing of the environment using scientific visualization and digital image processing techniques.
IAG 625 Spatial Analysis 3
Theory and practice in combining Geographic Information Systems software with statistical analysis software. Emphasis will be on the quantitative analysis and visual display of spatial information.

IAG 626 GIS Programming and Design Application 3
Theory and practice in the creation of Geographic Information Systems using logic-based programming and database construction tools. Emphasis on modeling of spatial information and logic-based approaches to GIS.

IAG 689 Capstone Project in Geospatial Analytics 3
Capstone course. Students work with local industries and nonprofit organizations to solve important data science problems under the supervision of a mentor.

German (GER)

GER 101 Beginning German I 3
First course in the introductory-level study of the German language and the cultures of the German-speaking world. Emphasis on active listening, speaking, writing, and reading, and applied vocabulary.
MAC: MAC Global and Intercultural
Prerequisites: None.
Notes: Students with previous knowledge of German are required to take the placement test. Students who are native or heritage speakers of German MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.

GER 102 Beginning German II 3
Second course in the introductory-level study of the German language and the cultures of the German-speaking world. Emphasis on active listening, speaking, writing, and reading, and applied vocabulary.
MAC: MAC Global and Intercultural
Prerequisites: GER 101 or met this level by the placement test.
Notes: Students with previous knowledge of German are required to take the placement test. Students who are native or heritage speakers of German MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.

GER 203 Intermediate German 3
First course in the intermediate-level study of the German language and the cultures of the German-speaking world. Emphasis on active listening, speaking, writing, and reading, and applied vocabulary.
MAC: MAC Global and Intercultural
CIC: CIC College Writing
Prerequisites: GER 102 or equivalent or met this level by the placement test.
Notes: Students with previous knowledge of German are required to take the placement test. Students who are native or heritage speakers of German MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.

GER 204 Intermediate German Topics 3
Second course in the intermediate-level study of the German language and the cultures of the German-speaking world. Emphasis on active listening, speaking, writing, and reading, and applied vocabulary.
MAC: MAC Global and Intercultural
CIC: CIC College Writing
Prerequisites: GER 203 or equivalent.
Notes: Students with previous knowledge of German are required to take the placement test. Students who are native or heritage speakers of German MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.

GER 217 Masterworks of German Literature Read in English 3
Discussions and readings in English translation of some of the best works of German literature. 217—the Middle Ages, Baroque and Classical Periods, Romanticism, Realism. 218—Selected literary prose and poetry from the Bismarck era to the present.
MAC: MAC Global and Intercultural
CIC: CIC College Writing

GER 218 Masterworks of German Literature Read in English 3
Discussions and readings in English translation of some of the best works of German literature. 217—the Middle Ages, Baroque and Classical Periods, Romanticism, Realism. 218—Selected literary prose and poetry from the Bismarck era to the present.
MAC: MAC Global and Intercultural
CIC: CIC College Writing

GER 221 Sagas, Legends, Fairy Tales: Readings in English 3
Taught in translation. Myths of Northern Europe, their main personages and events as preserved in the heroic sagas and epics, traces of these myths in later literature, in folklore and art, history of their revival in the nineteenth century (Brothers Grimm, Richard Wagner), the variety of interpretations given to them.
MAC: MAC Global and Intercultural
CIC: CIC College Writing

GER 222 The Holocaust in Literature and Art 3
Interdisciplinary course exploring the history and legacy of the Holocaust in memoir literature, prose, poetry, art, and film. Taught in English or 300-level German.
MAC: MAC Global and Intercultural

GER 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

GER 301 German Conversation and Composition: Topics 3
For students desiring proficiency in spoken and written German. Conversation and composition based on various announced cultural topics.
CIC: CIC College Writing

GER 302 German Language and Society: Topics 3
For students desiring proficiency in written German, especially geared toward students who plan to study abroad or who plan to enter graduate school. Compositions based on various announced topics.
CIC: CIC College Writing
GER 305 German Literature: Advanced Intermediate Topics 3
Course aims at improving students’ language proficiency and familiarity with German literature. Taught in English or advanced intermediate-level German.
CIC: CIC College Writing
Notes: May be repeated for credit when topic varies.

GER 306 German Culture: Advanced Intermediate Topics 3
Course aims at improving students’ language proficiency and familiarity with German civilization. Taught in advanced intermediate-level German or English.
CIC: CIC College Writing
Notes: May be repeated for credit when topic varies.

GER 307 Advanced German Grammar 3
Intensive study of grammar (including features not covered in lower levels of instruction) and of contrasting structures of German and English. Introduction to reference tools.

GER 309 Topics in Central European Studies since 1918 3
Interdisciplinary foci on modernist culture, literature, and media. Taught in English or advanced intermediate-level German.
CIC: CIC College Writing
Notes: May be repeated when topic varies.

GER 310 German Culture: Advanced Intermediate-Topics in German Film 3
Course aims at improving students’ language proficiency and familiarity with German films and filmmakers. Taught in English or advanced intermediate-level German.
Notes: May be repeated for credit when topic varies.

GER 311 German Conversation Topics 1
Intermediate-level speaking intensive training during formal and informal conversations in German. Interdisciplinary topics focus on current affairs in the German-speaking countries.

GER 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

GER 403 German Literary Studies: An Introduction 3
Readings from various genres by representative authors from the Age of Goethe to Symbolism, Expressionism, and contemporary literature. Introduction to methodologies of literary analysis. Taught in English or advanced-level German.

GER 405 Advanced Topics in German Literature 3
Topics will be of a literary nature. Reading and discussion of texts with attention to interpretation and analysis. Taught in English or advanced-level German.
CIC: CIC College Writing
Notes: May be repeated for credit when topic varies.

GER 406 Advanced Topics in German Culture 3
Focus on culture and civilization. Studying texts and multimedia materials with attention to interpretation and analysis. Taught in English or advanced-level German.
CIC: CIC College Writing
Notes: May be repeated for credit when topic varies.

GER 407 Advanced Topics in German Language 3
Linguistic or pedagogical topics include: history of the language; Indo-European to modern German. Reading Old High and Middle High texts. Taught in advanced German or English.
Notes: May be repeated for credit when topic varies.

GER 422 German Memory in Fiction and Film 3
Interdisciplinary course investigating cultural memory and notions of remembering and forgetting in autobiography, prose, poetry, art, and film. Taught in English or 300-level German.
CIC: CIC College Writing

GER 491 Tutorial 1-3
Directed program of reading, research, and individual instruction in Germanic literatures and languages. 
Prerequisites: Permission of instructor.
Notes: May be repeated for credit when topic varies.

GER 492 Tutorial 1-3
Directed program of reading, research, and individual instruction in Germanic literatures and languages. 
Prerequisites: Permission of instructor.
Notes: May be repeated for credit when topic varies.

GER 493 Honors Work 3-6
Honors Work. 
Prerequisites: Permission of instructor. 3.30 GPA in the major, 12 s.h. in the major; 
Notes: May be repeated for credit if the topic of study changes.

**Gerontology (GRO)**

GRO 201 Envisioning Your Old Age 3
Students think critically about aging in the current US context and develop proposals for change to ensure their ideal old age will be possible. Required for minor in Gerontology.

GRO 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

GRO 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

GRO 411 Silver Industries 3
Overview of the longevity economy and its influences on entrepreneurial opportunities. Case illustrations highlighted. Using the entrepreneurial business model, students explore opportunities, risks, and rewards in the silver industries market. 
Notes: Same as ENT 511.

GRO 444 Baby Boomers 3
Social and cultural impact of Baby Boomer phenomenon, including implications of cohort size, diversity, and life experiences (culture, relationships, politics, health, finances) for images of aging, products, services, and policies.

GRO 451 Gerontology Independent Study 3
Intensive independent study of specialized topics in gerontology. 
Prerequisites: Requires written plan including activities and assignments to facilitate achievement of one or more of the undergraduate gerontology SLOs, permission of sponsoring instructor, credentialing of the sponsoring instructor to teach gerontology, and approval of gerontology undergraduate coordinator and department head. 
Notes: May be repeated for credit when topics vary.

GRO 511 Silver Industries 3
Overview of the longevity economy and its influences on entrepreneurial opportunities. Case illustrations highlighted. Using the entrepreneurial business model, students explore opportunities, risks, and rewards in the silver industries market. 
Notes: Same as ENT 511.
GRO 570 Social Services for the Aging 3
An overview of current issues in the need and delivery of social services to the aging. Students learn skills designed to prepare them for effective practice with older adults and their families.
Notes: Same as SWK 570.

GRO 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

GRO 602 Seminar: Critical Issues of Aging 3
Analysis of critical issues affecting the aged and how these issues are being addressed using the social ecological model and life course theory.

GRO 620 Research Methods in Gerontology 3
The integration and application of qualitative and quantitative research designs and methods used in gerontology. Additional attention focuses on the formulation and writing of a research proposal.
Prerequisites: GRO 501 and permission of instructor.

GRO 621 Health and Aging 3
Explores the concept of successful aging from a holistic perspective using the seven dimensions of health and wellness and the use of interdisciplinary teams to support healthy aging.

GRO 622 Financing Longevity 3
Overview of concepts related to financing longevity in the United States. Topics include retirement, Social Security, Medicare, Medicaid, long term care insurance and related products.

GRO 631 Planning and Evaluation for Professionals in Aging 3
Introduction to the knowledge and skills related to planning and evaluating innovative responses to the aging of society using program theory as a foundation.

GRO 634 Diversity, Inclusion, and Aging 3
An examination of issues related to diversity among older adults. Focus will be on the interaction of class, gender, race/ethnicity, culture, sexual orientation, and historical period with the aging process.

GRO 645 Introduction to Cognitive Aging and Disorders 3
An examination of cognition and aging including normal aging, mild cognitive impairment, and dementia. Focus will be on preparing gerontologists to work with older adults with various cognitive function.

GRO 650 Administrator in Training - Assisted Living 3
Introduction of knowledge and skills necessary to be an administrator of adult and family care homes. Directed practical experience in approved assisted living or group home to meet state requirements for the administrator-in-training certification.

GRO 651 Theoretical Foundations of Aging 3
Examines the historical development of the profession and discipline of gerontology and various gerontology related roles in a range of settings based on theories of aging.

GRO 662 Seminar: Critical Issues of Aging 3
Analysis of critical issues affecting the aged and how these issues are being addressed using the social ecological model and life course theory.

GRO 679 Integrated Capstone in Gerontology 3
A synthesis of ideas, perspectives, and concepts gained from the study of gerontology. Students must utilize gerontology research and theory in a field experience to conclude their course of study.
Prerequisites: Admission to the M.S. in Gerontology. completion of at least two-thirds of coursework including GRO 602, GRO 620, GRO 621, GRO 651, and SWK 570; and permission of instructor.

GRO 680 Elder Law for Professionals in Aging 3
An examination of legal and financial topics related to aging. Focus will be on preparing gerontologists to work with older adults and their families as they navigate complex legal issues.

GRO 695 Independent Study 1-3
Intensive study in an area of special interest in gerontology.
Notes: May be repeated for a maximum of 6 semester hours credit.

GRO 699 Thesis 1-6
Individual guidance in the development of a specific research problem. May be repeated for a maximum of 6 hours credit. (Graded on S-U basis)

GRO 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

GRO 801 Thesis Extension 1-3
Thesis Extension.

GRO 803 Grad Resrch Proj Ext 1-3
Research Extension.

Graduate School (GRS)

GRS 801 Thesis Extension 1-3
Thesis Extension.

GRS 802 Dissertation Extension 1-3
Dissertation extension.

GRS 803 Research Extension 1-3
Research Extension.

Greek (GRK)

GRK 201 Elementary Ancient Greek I 3
Introduction to ancient Greek. Emphasis on understanding principles of grammar and developing skills for reading ancient Greek.

GRK 202 Elementary Ancient Greek II 3
Continuation of GRK 201. Emphasis on advanced grammar and reading of selections from ancient Greek authors (e.g., Euripides, Xenophon, Plato, New Testament).
Prerequisites: GRK 201.

GRK 203 Intermediate Ancient Greek I 3
Designed to develop proficiency in the reading of ancient Greek prose and to introduce students to Greek prose authors. Plato and Lysias and/or Herodotus (or another historian) taught in alternate years.
Prerequisites: A grade of C- or better in GRK 202 or permission of instructor.

GRK 204 Intermediate Ancient Greek II 3
Continuation of GRK 203. Designed to develop proficiency in reading ancient Greek poetry and to introduce students to Greek poets. Greek tragedy/Homer taught in alternate years.
Prerequisites: GRK 203.

GRK 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

GRK 303 Greek Drama 3
Selected works of Sophocles, Aeschylus, Euripides, and Aristophanes.
Prerequisites: GRK 204 or permission of instructor.
GRK 311 The Greek Orators 3
Selections from the works of Greek orators; emphasis on Antiphon, Lysias, Isocrates, and Demosthenes.
Prerequisites: GRK 204 or permission of instructor.

GRK 312 Greek Historical Writers 3
Selections from the works of the Greek historians; emphasis on Herodotus and Thucydides.

GRK 341 Homer 3
Selections from Iliad and Odyssey.
Prerequisites: GRK 204 or permission of instructor.

GRK 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

GRK 402 Independent Study 1-3
Directed program of reading, research, and individual instruction in Greek language and literature.
Prerequisites: Permission of Instructor.

Grogan College (GRC)

GRC 101 The Grogan College Experience 1
Introductory examination of critical issues in educational theory and practice related to the learning community concept. The course also exposes students to essential competencies for academic and personal success.
Prerequisites: Enrollment in a Grogan College Learning Community.

GRC 102 Topics in Connected Thinking: An Introduction to Interdisciplinary and Cross-Professional Problem So 1
Topical exploration of interdisciplinary and cross-professional thinking through real world applications and community engagement.
Prerequisites: GRC 101 or ISL 101. enrollment in Grogan College.

Higher Education (HED)

HED 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

HED 601 Foundations of College Student Affairs Administration 3
Historical, philosophical, ethical, cultural, and research foundations of higher education that inform student affairs practice. Learners articulate the inherent values of the profession as guided by key professional documents.

HED 602 Student Development Theory in Higher Education 3
Learning as a comprehensive, holistic, and transformative experience integrating academic learning and student development. Overview of campus programs and services. Review of research on the impact of college on undergraduates.

HED 603 Effects of College on Students 3
Reviews the theory and research on the effects of the college experience on contemporary college students.
Prerequisites: HED 601, HED 602, HED 609. Restricted to students enrolled in the SAAHE master's degree program or the Higher Education doctoral program (if needed as a supporting course and with instructor permission).

HED 606 Organization and Administration of Student Affair in Higher Education 3
Basic skills and theories of organization and administration of student affairs programs in higher education.
Prerequisites: HED 601.

HED 608 Leadership in Higher Education 3
Examines the concepts of "good" and "effective" leadership and the nature of leadership development in higher education. Explores and investigates leadership models, theories, and frameworks in higher education.

HED 609 Student Development Theory II 3
Examines the concepts of social justice in higher education. Explores and investigates various theories, perspectives, issues, and frameworks of social justice and social identities in higher education.

HED 612 Current Issues in Higher Education 3
Identification and analysis of current issues with discussion of proposals for resolution.

HED 625 Academic Advising and Retention in Higher Education 3
Addresses academic advising as a key element in the retention of college students; academic advising on the college campus.

HED 630 Life Design Coaching in Student Affairs 3
This course is intended to help student affairs and higher education professionals apply coaching activities and techniques to the questions of life design of students.

HED 650 Practitioner-Scholars and Research in Student Affairs 3
This course provides a broad overview of conducting research as a practitioner in Student Affairs and Higher Education. Students will engage in experiential learning by generating an individual research plan, considering current issues in higher education and effective methods of inquiry to address them.
Prerequisites: Completion of 6 credits of HED course work.

HED 663 Planning Programs in Postsecondary Education 3
Designing and implementing developmentally appropriate programs in higher education. Constructing learning outcomes. Evaluating and reporting program effectiveness.

HED 688 Contemporary Problems Seminar 1-3
Specific course title identified each semester by subscript (e.g., Contemporary Problems Seminar; Issues in Professional Negotiations).
Prerequisites: Advanced master's or doctoral standing, or permission of instructor.
Notes: May be repeated for credit when topic varies.

HED 690 Internship and Professionalism in Student Affairs 3
Provides experiential learning opportunities in functional area of higher education. Learners engage in professional work activities, explore career interests, and prepare for full-time employment.
Prerequisites: HED 601 and 602 and permission of instructor.

HED 692 Independent Study 1-4
Guided readings, research, and individual project work under direction of a staff member.

HED 699 Thesis 1-6
Individual guidance and direction in the development of a research problem in the master's degree thesis.

HED 728 Topics in Curriculum and Instruction 3
Advanced study of special topics in curriculum and teaching.
Prerequisites: Permission of instructor.
Notes: May be repeated up to three times for credit when topic varies.
HED 745 Higher Education: Equity, Inclusion and Learning 3
A review of theory and research on inclusion and equity in postsecondary education. Addresses skills, knowledge, and dispositions necessary for establishing culturally responsive learning environments.

HED 746 Organizational Theory in Higher Education 3
Competing theories of college and university organization form a transdisciplinary perspective with attention to the cultural singularities of academia. Production of an in-depth literature review on a related topic.
Prerequisites: HED 601, HED 606, and HED 661.

HED 747 Advanced Student Development Theory 3
Advanced study of the impact of college on students with emphasis on developmental needs and peer group characteristics. Requires an in-depth literature review on a related topic.

HED 748 The Law of Higher Education 3
An overview of law and implications for decision-making in higher education. Focus on constitutional, statutory, and case law. Prepares higher education leaders to protect rights of faculty, staff, students, others.

HED 749 Professional Seminar in Higher Education Research 3
Overview of higher education as a field of study. Participants develop research interests, practice critical reading and writing strategies, and produce an in-depth literature review.
Prerequisites: HED 601, HED 606, and HED 661.

HED 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

HED 759 College Teaching Practicum 3
Supervised experiences in teaching college level course(s).

HED 767 Qualitative Data Collection and Analysis 3
In-depth experience in qualitative data collection and analysis beyond the introductory level. Completion of a qualitative research project in collaboration with other students in the class.
Prerequisites: ELC 664, ELC 665 or other course in qualitative research.

HED 775 Directed Doctoral Research 3
Individual work on dissertation research problems: collection analysis, critical review, integration, and interpretation of research literature on a topic pertinent to the student's dissertation.
Notes: May be repeated once for credit.

HED 799 Dissertation 1-12
Individual direction in the development and execution of a doctoral dissertation.

HED 802 Dissertation Extension 1-3
Dissertation Extension.

History (HIS)

HIS 101 Contemporary World 3
This course explores the historical background behind major issues of the contemporary world, including: colonialism/decolonization; the Cold War and other global conflicts; genocide; religious fundamentalism; and the role of women.
MAC: MAC Foundations

HIS 203 History of Africa to 1870 3
Early African empires, the spread of Islam, European exploration, the Atlantic slave trade and its effects, slavery in Africa, white settlement in South Africa.
MAC: MAC Global and Intercultural

HIS 204 History of Africa since 1870 3
Colonial partition, missionaries, wars of resistance, styles of colonial rule, development and underdevelopment, independence movements and de-colonization, neo-colonialism, capitalism and socialism, civil wars, apartheid in South Africa.
MAC: MAC Global and Intercultural

HIS 205 Topics in African History 3
May be repeated for credit. Transnational themes in modern African history explored in a world context, such as: Merchants, Trade, and Cultural Encounters; Islam in Asia and Africa; Ancient African Empires.
MAC: MAC Global and Intercultural
Notes: May be repeated for credit when topic of study changes.

HIS 206 Topics in Premodern Western History 3
Cross-cultural themes in premodern continental European history explored in a world context, such as: History of Christianity; Atlantic Exploration and the Columbian Exchange; Everyday Life before 1750.
MAC: MAC CritThink Hum and Fine Art
Notes: May be repeated for credit when topic of study changes.

HIS 207 Topics in Premodern World History 3
Cross-cultural themes in premodern African, Asian, or Latin American/Caribbean history explored in a world context, such as: Merchants, Trade, and Cultural Encounters; Islam in Asia and Africa; Ancient American Empires.
MAC: MAC Global and Intercultural
Notes: May be repeated for credit when topic of study changes.

HIS 208 Topics on the West and the Modern World 3
Transnational themes in modern continental European history explored in a world context, such as: Emigration and Immigration; Nation States and National Identities; History of "Development"; European Expansion and Colonial Empires.
MAC: MAC Global and Intercultural
Notes: May be repeated for credit when topic of study changes.

HIS 209 Topics in Modern World History 3
Transnational themes in modern African, Asian, or Latin American/Caribbean history explored in a world context, such as: Merchants, Trade, and Cultural Encounters; Islam in Asia and Africa; Ancient American Empires.
MAC: MAC Global and Intercultural
Notes: May be repeated for credit when topic of study changes.

HIS 210 Human Rights in Modern World History 3
A historical survey of human rights as a concept and political cause in international law, transnational movements, and global events from the 18th century to the present.
MAC: MAC Global and Intercultural

HIS 211 The United States: A General Survey to 1865 3
First semester: to 1865. Second semester: since 1865.
MAC: MAC Diversity and Equity
CIC: CIC College Writing

HIS 212 The United States: A General Survey Since 1865 3
First semester: to 1865. Second semester: since 1865.
MAC: MAC Diversity and Equity
CIC: CIC College Writing

HIS 213 Topics in American History 3
Selected topics in American history at an introductory level. Topics may vary from colonial era through the twentieth century. This course stresses the analysis and interpretation of primary sources.
MAC: MAC Diversity and Equity

HIS 215 The Civilizations of Asia 3
History, institutions, and culture of India, China, and Japan, from earliest times to about 1700. Limited reference to Southeast Asia, Central Asia, and Korea.
HIS 216 The Civilizations of Asia 3
Impact of West on Asia and Asia’s response; development of nationalism and Communism. Focus is on India, China, and Japan in nineteenth and twentieth centuries.
MAC: MAC Global and Intercultural

HIS 217 The World in the Twentieth Century 3
Political, social, and economic forces affecting Africa, the Americas, Asia, and Europe. Issues include Cold War, imperialism, nationalism, terrorism, world war. Covers the twentieth century from 1900 to 1945.
MAC: MAC Global and Intercultural

HIS 218 The World since 1945 3
Political, social, and economic forces affecting Africa, the Americas, Asia, and Europe since 1945. Issues include Cold War, imperialism, nationalism, terrorism, and decolonization.
MAC: MAC Global and Intercultural

HIS 220 The Ancient World 3
Early civilizations: Near Eastern, Egyptian, Greek, and Roman to Reign of Constantine.
MAC: MAC CritThink Hum and Fine Art

HIS 221 Medieval Legacy 3
Survey of Western European history from the end of the Roman Empire to the fifteenth century exploring such varied aspects of the medieval experience as pilgrimage, crusade, peasant life, the emergence of national states, and the rise of the university.
MAC: MAC CritThink Hum and Fine Art

HIS 222 Europe 1400-1789 3
Survey of major socio-economic, political, and cultural trends in Europe from the Renaissance to the French Revolution.
MAC: MAC CritThink Hum and Fine Art

HIS 223 European Revolutions, 1789-1989 3
Survey of major socio-economic, political, and cultural trends in Europe from the French Revolution to the present.
MAC: MAC CritThink Hum and Fine Art

HIS 239 The First America: Latin America, 1492-1830 3
Introduction to the early history of Latin America. Emphasis on the clash of cultures, Indian-Spanish relations, and the structure and mechanisms of empire.
MAC: MAC Global and Intercultural

HIS 240 (Dis)order and Progress: Latin America since 1810 3
Introduction to the political and economic history of Latin America since independence. Survey covers political dynamics, social transformations, and the evolution of export economics.
MAC: MAC Global and Intercultural

HIS 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

HIS 301 Race and Slavery 3
Examination of the black experience from ancient to modern times, including pre-colonial Africa, the Atlantic slave trade, slavery in the Americas with special emphasis on the United States before 1865.

HIS 302 Race and Segregation 3
Race and segregation in the United States since the Civil War, including the origins of Jim Crow laws, civil rights movement, black urbanization, the Harlem Renaissance, black nationalism, and the black experience in America.

HIS 308 Navigating World History 3
Introduction to and overview of world history, ca. 8000 BCE to the present. Prepares Social Studies Licensure majors to teach world history at the middle grades and high school level.
Prerequisites: Social Studies Licensure candidates or permission of instructor.

HIS 309 Unity and Unrest in Medieval Towns 3
Examines the ways in which the towns of Medieval Europe constructed social unity and the ways in which that unity was threatened by cultural change and social unrest.

HIS 310 Daughters of Eve: Women in the Middle Ages 3
Examines the political, social, religious, and cultural experiences of women during the European Middle Ages. Consideration given to gender roles, family structure, and writings by and about women.

HIS 312 The Crusades 3
Social, political, and religious causes of crusading: events of the crusades (1097–1250); impact of the crusades on Christian Europe and the Muslim Near East.

HIS 313 The Viking Age 3
Examines the Scandinavian peoples of Europe during the Viking Age (750-1150), with focus on the internal culture, religion, and politics of Scandinavia and on external raids and colonization.

HIS 314 The Modern British Empire, 1750-Present 3
This course examines the British Empire from the mid-eighteenth century to the present. Themes include: the changing nature of imperial expansion, methods of colonial rule, decolonization, and legacies of empire.

HIS 315 Witchcraft and Magic in European History 3
Examination of witchcraft beliefs and persecution as a way of studying the social history of Europe before industrialization. Emphasizes the "Witch Craze" of the sixteenth and seventeenth centuries.

HIS 316 Interpreting American History 3
Examination of a broad variety of primary source evidence and historiographical methods for studying the American past from the colonial era through the twentieth century.
Prerequisites: Middle Grades or Secondary Social Studies Licensure candidates or permission of instructor.

HIS 317 Creating a Public Past: History beyond the University 3
Explores the place of the past in contemporary life and introduces the field of public history: the effort to make history for and with audiences beyond the university.

HIS 318 Revolution and Reform in Modern Latin America 3
Origins and historical influence of major social and cultural movements in Latin America since 1800. Topics include liberalism, populism, and communism; gender movements, countercultures, and Catholic traditionalism; and ethnic nationalisms.

HIS 319 Sugar, Soccer, Samba: History of Brazil 3
General history of Brazil since 1500. Topics include cultural and environmental history; the history of slavery and colonization; immigration, race, and economic development; and modern struggles for equality and democracy.

HIS 320 History of Mexico and Central America 3
The political and economic history of Mexico and Central America from the dissolution of colonial New Spain in 1821 to the debates over neoliberalism in the early 21st century.
HIS 321 Latin America and the United States 3
A history of inter-American relations from the Monroe Doctrine to the Caribbean Basin Initiative. An examination of traditional interpretations and contemporary arguments and the Latin American context and perspective.

HIS 322 American Indian History: 1840 to the Present 3
Explores the history of American Indians in the area now encompassed by the United States from 1840 to the present.

HIS 323 American Indians and Nature 3
Examines the interaction of American Indians and nature from before European arrival today.

HIS 326 Using Photographs as Historical Evidence 3
Case study approach using photographs as historical evidence from the Civil War to the Great Depression. History and interpretation of specific print materials. Identification, care and handling of historic photographs.

HIS 328 U.S. Women's History to 1865 3
A history of women in the U.S. to the Civil War. Topics include Native American gender systems, midwives, witchcraft, women's labor and education, families, slavery, and social reform.

HIS 329 U.S. Women's History Since 1865 3
A history of women in the U.S. since the Civil War. Topics include women's activism, labor, reproduction, public policy, race and class inequalities, and contemporary women's issues.

HIS 332 Civil Rights and Black Freedom, 1940-1980 3
Southern and national civil rights politics in light of local and human rights dimensions of the wider black freedom movement. Special attention to leadership, economics, local movements, and white resistance.

HIS 333 American Indian History to 1840 3
Explores the history of American Indians in the area now encompassed by the United States through the era of Indian Removal in the 1830s.

HIS 334 United States Environmental History 3
Examines the interaction of humans and nature in American history from the colonial period to today.

HIS 335 America Before the Revolution 3
Selected topics on North American history prior to the American Revolution, such as the lives of diverse groups of people, trade, war, rebellion, religion, and politics.

HIS 336 The American Revolutionary Era, 1763-1789 3
Selected topics in the history of the American Revolution, such as the roles of gender, class, race, politics, war, and various groups of peoples in the Revolutionary era.

HIS 337 Emerging Nation: US History 1789-1848 3
Selected topics in United States history during the early national era, such as the Market Revolution, the growth of slavery, foreign relations, Indian Removal, democratizing politics, and territorial expansion.

HIS 338 Civil War, Reconstruction, and Reunion, 1848-1896 3
American history from the end of the Mexican War to the Bryan campaign, centering on the slavery controversy, Civil War and Reconstruction, industrialization, urbanization, and agrarian problems.

HIS 339 From Civil War to Superpower: America 1896-1945 3
Examines the rise of American global power and its domestic foundations, includes coverage of the labor movement, the World Wars, progressive reform, the New Deal, civil rights issues, and the women's rights movements.

HIS 340 The United States since World War II II 3
Selected social, political, and international trends and events: Cold War and Vietnam; conservatism from McCarthy to Reagan; black freedom, radicalism and the Great Society; feminism; mass immigration and multicultural America.

HIS 341 Pirates of the Caribbean: The Real Story 3
Introduces students to the fascinating, complex, and changing roles of corsairs, buccaneers, and privateers in shaping the emerging colonial economies, societies, and cultures of the early modern Caribbean.

HIS 342 Gender, Sex, and Health in the 20th Century US 3
Women's bodies and health in historical perspective. Topics include: anatomy, menstruation, childbirth, birth control, abortion, violence, pregnancy, nutrition, eating disorders, HIV/AIDS, menopause, breast cancer, and sexuality.

HIS 344 The New South 3
Southern history from Reconstruction to the present. Emphasis on race, politics, agriculture, and industry.

HIS 346 Topics in Historical Memory 3
This course will provide insight into how understanding and representation of the past has been constructed and reshaped over time through memory and history. Topics examined can include the origin of national myths, heroes, celebrations and commemorations, monuments and memorials, national traumas, and more.

HIS 347 History of North Carolina 3
History of North Carolina from its colonial origins to the twentieth century, including the evolution of its political system, economy, social structure, and culture.

HIS 348 The World at War, 1914-1918 3
Origins, course, and impact of the First World War. Emphasis on political, social, and cultural as well as military perspectives.

HIS 349 The World at War, 1939-1945 3
Emphasis on the political systems responsible for the Second World War; military establishments that fought it, the populations that suffered it, and sociopolitical and cultural changes it brought about.

HIS 350 American Immigration: Newcomers and Gatekeepers 3
Examines how immigrants and immigration restrictionists shaped the society, culture, national identity, and politics of the U.S. since 1880. Work, community, poverty and opportunity, political organizing for and against immigration.

HIS 351 History of Greece, 2000 BC-31 BC 3
Mycenaean society, Greek "dark ages" colonization and tyranny, Athens and Sparta, flowering in the fifth and fourth centuries, conquests of Alexander, Hellenistic empires, and the diffusion of Greek civilization.

HIS 354 The Roman Republic, 754 BC-44 BC 3
Study of the social and political forces that led to Rome's conquest of the Mediterranean World—and of the transformation which world conquest wrought on Rome itself. Topics covered include: the Roman Constitution and politics, the Roman conquest of Italy and then of the whole Mediterranean, and the decline of the Republic.

HIS 355 The Roman Empire, 44 BC-AD 337 3
Survey of politics and society at Rome under the Empire, when Rome dominated Western Civilization. Topics covered include: Augustus and the rise of one-man rule at Rome, the long "Roman Peace" and the civilizing of Europe under the Emperors, the rise of Christianity, and the transformed Empire of Constantine the Great.
HIS 356 The Making of the African Diaspora
This course will explore the histories of Africans and their decedents across the Indian Ocean and Atlantic worlds.

HIS 362 History of Economic Thought 3
The history of economic thought and criticism since the eighteenth century. Major topics include classical economics, socialism, communism, marginalism, Keynesianism, corporatism, Austrian economics, monetarism, developmentalism, neoliberalism, and modern anti-market revolutions.

Notes: Same as ECO 362.

HIS 363 European Economic History 3
Study of the evolution of European economies from early modern times to the twentieth century. Emphasis on sources of growth: trade, migration, industry, technical change, labor, and capital.

Prerequisites: ECO 201.

HIS 364 The French Revolutionary Era 3
France in the age of the French Revolution, including the old regime, Enlightenment, narrative and interpretive treatment of the Revolution.

HIS 365 Modern France 3
Social, political, and cultural forces that shaped France through the Third Republic, World Wars, rise of communism and fascism, Occupation and Resistance, postwar Fourth and Fifth Republics.

HIS 369 History of Spain 3
Exploration of major themes in Spanish history, including the concept of crusade, the experience of empire, and struggle for religious, ethnic, and political unity. Focuses on Spain during its "Golden Age" (1500–1700).

HIS 371 Europe since World War I 3
A survey of modern Europe with emphasis on the two world wars, political ideologies and cultural developments, and the postwar movement to European integration.

HIS 373 English History to 1660 3
Origins and evolution of English culture and English constitution.

HIS 374 British History 1688-Present 3
Major landmarks in the social, political, intellectual, and cultural history of the diverse peoples of the British Isles from the Glorious Revolution of 1688 to the 21st century.

HIS 375 Germany in the Nineteenth Century, 1800-1914 3
Examination of German social and political structures and their functioning between 1800 and outbreak of World War I. Attendant emphasis placed upon cultural and intellectual issues which illuminate German (and European) culture of the nineteenth century.

HIS 376 German History, 1914-1945 3
German social and political structures and their functioning during World War I, Weimar Republic, and Third Reich with attendant emphasis on cultural and intellectual themes.

HIS 377 Russian History to 1900 3
Introduction to old Russia of Kiev and Muscovy, followed by a more intensive survey of eighteenth and nineteenth centuries.

HIS 378 Russian History since 1900 3
End of Tsarist Empire, Revolution of 1917 and its aftermath, Soviet Union under Stalin, and recent developments.

HIS 380 Topics in the Near and Middle East 3
Explores interdisciplinary topics in the Near and Middle East designed to enrich historical perspectives such as archaeology, environmental history, and travel literature. Emphasis is on the Islamic world.

Notes: May be repeated for credit when topic varies.

HIS 381 The Near and Middle East since World War I 3
Emphasizes developments since World War I.

HIS 383 Chinese History to 1800 3
Early Chinese civilization: Imperial Period; first dynasties; Early Modern China.

HIS 384 The Modern Transformation of China: 1800 to Present Day 3
Coming of Europeans; decline of imperial institutions to 1870; Western impact and Chinese reforms, 1870–1945; contemporary China.

HIS 389 West Africa during the Atlantic Slave Trade 3
Examines how trade between European and African countries developed into a trans-Atlantic slave trade. Focus on origins of slaves and effects of slave trade on Africa, ca. 1450–1850.

HIS 390 History Internship 3
Field learning experience in public or applied history, or archaeology. Academic supervision provided by job supervisor. Assigned reading and written reports.

Prerequisites: Permission of Instructor.

HIS 391 Historical Skills and Methods 3
Introduction to research methods in history. Topics include: analyzing varieties of primary and secondary source materials; designing a project focus; finding and evaluating appropriate sources; citation methods; historiography.

CIC: CIC College Writing

Prerequisites: History major or minor and completion of all 200-level requirements for the major.

HIS 392 The Holocaust: History and Meaning 3
This course examines the history of the Nazi Holocaust during World War II and explores a variety of meanings—intellectual and artistic—that have been imposed upon it.

HIS 400X Experimental Course 1-6

HIS 401 Individual Study 1-3
Directed program of reading or research. Available to qualified students upon the recommendation of an instructor and approval of department head.

HIS 402 Individual Study 1-3
Directed program of reading or research. Available to qualified students upon the recommendation of an instructor and approval of department head.

HIS 403 African American History: Selected Topics 3
Examination of selected topics in black history including African beginnings, slavery, racial attitudes, and civil rights.

Notes: May be repeated once for credit.

HIS 405 Introduction to Archival Management 3
Principles of archival management, featuring both classroom instruction in archival theory and practical experience in manuscript repositories and public and private archives.

Prerequisites: Permission of instructor.

HIS 408 Latin America and Caribbean: Selected Topics 3
A study of select political and economic developments from a historical perspective. Topics include an examination of Hispanic democracy, the evolution of the military, and land tenure. Seminar format.

Notes: May be repeated once for credit when topic varies.
HIS 411A Seminar in Historical Research and Writing 3
Locating and using historical source materials, written and oral, published and unpublished. 411A: American; 411B: European; and 411C: Wider World.
CIC: CIC College Writing
Prerequisites: For social studies licensure students: HIS 430 and permission of instructor. for all other history majors: HIS 391 and permission of instructor;
Notes: Required of history majors. May be repeated once for credit when topic varies.

HIS 411B Seminar in Historical Research and Writing 3
Locating and using historical source materials, written and oral, published and unpublished. 411A: American; 411B: European; and 411C: Wider World.
CIC: CIC College Writing
Prerequisites: For social studies licensure students: HIS 430 and permission of instructor. for all other history majors: HIS 391 and permission of instructor;
Notes: Required of history majors. May be repeated once for credit when topic varies.

HIS 411C Seminar in Historical Research and Writing 3
Locating and using historical source materials, written and oral, published and unpublished. 411A: American; 411B: European; and 411C: Wider World.
CIC: CIC College Writing
Prerequisites: For social studies licensure students: HIS 430 and permission of instructor. for all other history majors: HIS 391 and permission of instructor;
Notes: Required of history majors. May be repeated once for credit when topic varies.

HIS 412 Public History 3
A history of America's past through museums (indoor and outdoor); collections and their interpretation; exhibitions and park and wilderness areas.

HIS 414 Topics in World History 3
Selected topics in world history such as migration, religions, human and/or environmental interaction, imperialism, trade, urbanism, frontiers, and global networks.
Notes: May be repeated once for credit when topics varies.

HIS 415 American Diplomatic History: The Twentieth Century 3
Emphasis on most important crises and making of basic policy decisions from Spanish American war to present.

HIS 420 Southern History: Selected Topics 3
Selected topics in the history of the American South from the colonial origins to our time. Examples include politics, education, economic development, reform, race, and gender.
Notes: May be repeated once for credit when topic varies.

HIS 422 Early American History: Selected Topics 3
Varying topics in early American history including settlement, economic development, Puritanism, the Great Awakening, slavery, ethnicity, and pre-Revolutionary politics.
Notes: May be repeated once for credit when topic varies.

HIS 424 Twentieth-Century U.S. History: Selected Topics 3
Varying topics in twentieth-century U.S. history including Progressive Era, World War I, the 1920s, the Great Depression and New Deal, World War II, McCarthyism, Civil Rights Movement, Vietnam War, the 1960s.
Notes: May be repeated once for credit when topic varies.

HIS 426 The Civil War and Reconstruction: Selected Topics 3
Notes: May be repeated once for credit when topic varies.

HIS 430 Historical Methods for Social Studies Teachers 3
Introduction to research methods in history for social studies licensure students. Students write a research paper based on primary source evidence.
CIC: CIC College Writing
Prerequisites: Middle Grades or Secondary Social Studies Licensure candidates who have completed HIS 308, HIS 316, and one other 300-level History elective for a total of 9 s.h.. or permission of instructor.

HIS 434 The American Revolution: Selected Topics 3
Politics of Empire, colonial political culture, War for Independence, constitutionalism, race, partisanship from the 1750s to 1800.
Prerequisites: HIS 211 recommended.

HIS 440 Principles and Practices for Teaching History 3
Philosophy and methods for teaching historical reasoning. Topics include evaluating curricular standards, using primary sources in the classroom, teaching with historic places, creating and evaluating assignments, and teaching research methods.
Prerequisites: Middle Grades or Secondary Social Studies licensure candidates who have completed HIS 308, HIS 316, and any 300-level history elective, for a total of 9 s.h., or permission of the instructor.

HIS 441 Ancient World: Selected Topics 3
Varying topics in ancient Near Eastern, Greek, and Roman history, including politics and public rituals, patterns of social organization, ancient slavery, cross-cultural interactions.

HIS 442 Middle Ages: Selected Topics 3
Varying topics in medieval culture and society chosen from the broad categories of political, social, economic, intellectual, or religious history.
Notes: May be repeated once for credit when topic varies.

HIS 443 Historic Preservation: Principles and Practice 3
Study of change in historic preservation theory and practice since the 1800s with emphasis on preservation of built environment. Development of philosophical approach for designers to contemporary preservation projects.
Prerequisites: Admission to a graduate program in history or interior architecture, or permission of instructor.
Notes: Same as IAR 443.

HIS 444 Early Modern Europe: Selected Topics 3
Varying topics in early modern European history, including Renaissance cities, Protestant Reformation, Catholic Reformation, court cultures, impact of printing, gender and identity and the Age of Discovery.
Notes: May be repeated once for credit when topic varies.

HIS 445 Southern History and Southern Material Culture in a Museum Context 3
Combined southern history and material culture with a museum practicum. Students selected by individual application.
Prerequisites: Permission of instructor. students must submit written application;
Notes: May be repeated for credit when topic varies, with permission of instructor.
HIS 446 American Cultural History: Selected Topics 3
Varying topics in the creation and development of American culture including the role of technology, environment, ethnic diversity, and the history of ideas.
Notes: May be repeated once for credit when topic varies.

HIS 447 History Museum Curatorship: Collections Management 3
Professional practices in the care and management of historic site and history museum collections, including principles of collection development, object registration, cataloging, and preservation.
Prerequisites: Admission to a graduate program in history or interior architecture, or permission of instructor.
Notes: Same as IAR 447.

HIS 448 Architectural Conservation 3
Overview of contemporary architectural conservation principles, practice and technology. A series of field exercises, group projects and investigation of an individual research topic expand upon lectures and readings.
Prerequisites: Admission to a graduate program in history or interior architecture, or permission of instructor.
Notes: Same as IAR 448.

HIS 449 American Social History: Family and Religion 3
American social history from the eve of colonization to Reconstruction, the family and communal organization of early American society, and the assumptions about human nature and destiny underlying culture and change.

HIS 451 Gender and History: Selected Topics 3
Varying topics in Gender and History including Gender and Popular Culture; Gender, Labor, Race, and Class; History of Masculinity.
Notes: May be repeated once for credit when topic varies.

HIS 455 Field Methods in Preservation Technology 3
Intensive on-site fieldwork experience addressing issues of architectural conservation and historic building technology. Includes methods, techniques, and theories of preservation technology and accepted conservation practices.
Prerequisites: Admission to a graduate program in history or interior architecture, or permission of instructor.
Notes: Same as IAR 455.

HIS 460 Nineteenth-Century Europe: Selected Topics 3
Selected topics address comparative political, social, and economic development of major European states and changing power relationships from the defeat of Napoleon to the end of the First World War.
Notes: May be repeated once for credit when topic varies.

HIS 462 Twentieth-Century Europe: Selected Topics 3
Topics in 20th-century European history including World War I, its impact on European thought and culture, the origins of World War II, the movement for European Unity, the Cold War.
Notes: May be repeated once for credit when topic varies.

HIS 463 Early Modern England: Selected Topics 3
Varying topics in early modern British history, including the Protestant Reformation, political revolutions and economic and social change.
Notes: May be repeated once for credit when topic varies.

HIS 464 Modern Britain: Selected Topics 3
Varying topics in modern British history such as the industrial revolution, parliamentary reform, loss of one empire and the creation of a second, World War I and II.
Notes: May be repeated once for credit when topic varies.

HIS 467 French History: Selected Topics 3
Study of specific themes and/or problem areas in French History.
Notes: May be repeated once for credit when topic varies.

HIS 469 African History and Cultures through Film 3
Examines how Africans are portrayed in a variety of film genres, focusing on representations of race, gender, class, and sexuality in world cinema and legacies of colonialism.
Notes: Same as LLC 468. may be repeated once for credit when topic varies.

HIS 471 Modern European Thought: Selected Topics 3
Study of selected themes and/or problems in European intellectual and cultural history.
Notes: May be repeated once for credit when topic varies.

HIS 474 Modern Germany: Selected Topics 3
Varying topics in modern German history including the Third Reich, Germany during World War I, Bismarckian Germany, ideology in Germany.
Notes: May be repeated once for credit when topic varies.

HIS 475 Modern Russian History: Selected Topics 3
Varying topics in modern Russian history, including "Great Reforms," industrialization, revolutionary movement, Marxism–Leninism, tsarist and Soviet foreign policy, Soviet politics, post-World War II changes, Gorbachev era, and end of Soviet Union.
Notes: May be repeated once for credit when topic varies.

HIS 478 Research Methods in Historical Archaeology 3
Advanced training in research methods in Historic Archaeology, involving on-site training in field, laboratory, and library components of Historic Archaeology.
Prerequisites: Junior or senior status.
Notes: Same as ATY 475.

HIS 481 African History: Selected Topics 3
Varying topics in African history including Central African Kingdoms, Pre-colonial West African Kingdoms, "Stateless" Societies of Africa.
Notes: May be repeated once for credit when topic varies.

HIS 487 Southern African History 3
The rise and decline of African nations in nineteenth-century southern Africa: economic and social change; the creation of the Union of South Africa and the roots of apartheid.

HIS 488 East Asian History: Selected Topics 3
Varying history in East Asian history: a detailed examination of specific social, economic, political and intellectual facets of Chinese, Korean and Japanese history.
Notes: May be repeated once for credit when topic varies.

HIS 491 Honors Work: American History 3-6
Prerequisite: Permission of instructor; 3.30 GPA in the major; 12 s.h. in the major;
Notes: May be repeated for credit if the topic of study changes.

HIS 492 Honors Work: European History 3-6
Individual study.
Prerequisites: Permission of instructor. 3.30 GPA in the major; 12 s.h. in the major;
Notes: May be repeated for credit if the topic of study changes.

HIS 493 Honors Work: Wider World History 3-6
Honors Work.
Prerequisites: Permission of instructor. 3.30 GPA in the major; 12 s.h. in the major;
Notes: May be repeated for credit if the topic of study changes.
HIS 502 African American History: Selected Topics 3
Examination of selected topics in black history including African beginnings, slavery, racial attitudes, and civil rights.
Notes: May be repeated once for credit.

HIS 508 Latin America and Caribbean: Selected Topics 3
A study of select political and economic developments from a historical perspective. Topics include an examination of Hispanic democracy, the evolution of the military, and land tenure. Seminar format.
Notes: May be repeated once for credit when topic varies.

HIS 510 Historiography 3
Development of the historical profession and perspectives on historical methodology. Selected readings by philosophers of history and practicing historians.

HIS 512 Public History 3
A history of America's past through museums (indoor and outdoor); collections and their interpretation; exhibitions and park and wilderness areas.

HIS 514 Topics in World History 3
Selected topics in world history such as migration, religions, human and/or environmental interaction, imperialism, trade, urbanism, frontiers, and global networks.
Notes: May be repeated once for credit when topics vary.

HIS 515 American Diplomatic History: The Twentieth Century 3
Emphasis on most important crises and making of basic policy decisions from Spanish American war to present.

HIS 520 Southern History: Selected Topics 3
Selected topics in the history of the American South from the colonial origins to our time. Examples include politics, education, economic development, reform, race, and gender.
Notes: May be repeated once for credit when topic varies.

HIS 522 Early American History: Selected Topics 3
Varying topics in early American history including settlement, economic development, Puritanism, the Great Awakening, slavery, ethnicity, and pre-Revolutionary politics.
Notes: May be repeated once for credit when topic varies.

HIS 524 Twentieth-Century U.S. History: Selected Topics 3
Varying topics in twentieth-century U.S. history including Progressive Era, World War I, the 1920s, the Great Depression and New Deal, World War II, McCarthyism, Civil Rights Movement, Vietnam War, the 1960s.
Notes: May be repeated once for credit when topic varies.

HIS 526 The Civil War and Reconstruction: Selected Topics 3
Notes: May be repeated once for credit when topic varies.

HIS 534 The American Revolution: Selected Topics 3
Varying topics in the history of the American Revolutionary era, 1750s-1800, such as the roles of gender, class, race, politics, war, and various groups of peoples.
Notes: May be repeated once for credit when topic varies.

HIS 541 Ancient World: Selected Topics 3
Varying topics in ancient Near Eastern, Greek, and Roman history, including politics and public rituals, patterns of social organization, ancient slavery, cross-cultural interactions.

HIS 542 Middle Ages: Selected Topics 3
Varying topics in medieval culture and society chosen from the broad categories of political, social, economic, intellectual, or religious history.
Notes: May be repeated once for credit when topic varies.

HIS 543 Historic Preservation: Principles and Practice 3
Study of change in historic preservation theory and practice since the 1800s with emphasis on preservation of built environment. Development of philosophical approach for designers to contemporary preservation projects.
Prerequisites: Admission to a graduate program in history or interior architecture, or permission of instructor.
Notes: Same as IAR 543.

HIS 544 Early Modern Europe: Selected Topics 3
Varying topics in early modern European history, including Renaissance cities, Protestant Reformation, Catholic Reformation, court cultures, impact of printing, gender and identity and the Age of Discovery.
Notes: May be repeated once for credit when topic varies.

HIS 546 American Cultural History: Selected Topics 3
Varying topics in the creation and development of American culture including the role of technology, environment, ethnic diversity, and the history of ideas.
Notes: May be repeated once for credit when topic varies.

HIS 547 History Museum Curatorship: Collections Management 3
Professional practices in the care and management of historic site and history museum collections, including principles of collection development, object registration, cataloging, and preservation.
Prerequisites: Admission to a graduate program in history or interior architecture, or permission of instructor.
Notes: Same as IAR 547.

HIS 548 Architectural Conservation 3
Overview of contemporary architectural conservation principles, practice and technology. A series of field exercises, group projects and investigation of an individual research topic expand upon lectures and readings.
Prerequisites: Admission to a graduate program in history or interior architecture, or permission of instructor.
Notes: Same as IAR 548.

HIS 551 Gender and History: Selected Topics 3
Varying topics in Gender and History including Gender and Popular Culture; Gender, Labor, Race, and Class; History of Masculinity.
Notes: May be repeated once for credit when topic varies.

HIS 555 Field Methods in Preservation Technology 3
Intensive on-site fieldwork experience addressing issues of architectural conservation and historic building technology. Includes methods, techniques, and theories of preservation technology and accepted conservation practices.
Prerequisites: Admission to a graduate program in history or interior architecture, or permission of instructor.
Notes: Same as IAR 555.

HIS 560 Nineteenth-Century Europe: Selected Topics 3
Selected topics address comparative political, social, and economic development of major European states and changing power relationships from the defeat of Napoleon to the end of the First World War.
Notes: May be repeated once for credit when topic varies.
HIS 568 African History and Cultures through Film 3
Examines how Africans are portrayed in a variety of film genres, focusing on representations of race, gender, class, and sexuality in world cinema and legacies of colonialism.
Notes: Same as LLC 568.

HIS 571 Modern European Thought: Selected Topics 3
Study of selected themes and/or problems in European intellectual and cultural history.
Notes: May be repeated once for credit when topic varies.

HIS 575 Modern Russian History: Selected Topics 3
Varying topics in modern Russian history, including "Great Reforms," industrialization, revolutionary movement, Marxism–Leninism, tsarist and Soviet foreign policy, Soviet politics, post-World War II changes, Gorbachev era, and end of Soviet Union.
Notes: May be repeated once for credit when topic varies.

HIS 581 African History: Selected Topics 3
Varying topics in African history including Central African Kingdoms, Pre-colonial West African Kingdoms, "Stateless" Societies of Africa.
Notes: May be repeated once for credit when topic varies.

HIS 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

HIS 624 History of American Landscapes and Architecture 3
Examination of the social and cultural effects affecting the design and use of landscapes and buildings in North America from the colonial period through the mid-twentieth century.
Prerequisites: Admission to a graduate program in history or interior architecture, or permission of instructor.
Notes: Same as IAR 624.

HIS 625 Preservation Planning and Law 3
Examination and analysis of the relationship of government programs and policies, community and regional planning strategies, and legal case precedents to the field of historic preservation.
Prerequisites: Admission to a graduate program in history or interior architecture, or permission of instructor.
Notes: Same as IAR 625.

HIS 626 The Practice of Public History 3
Basic principles in the administration of museums, historic sites, and other cultural resources. Subjects include fundraising, personnel and volunteer management, working with board members, and museum law and ethics.
Prerequisites: Admission to a graduate program in history or interior architecture, or permission of instructor.
Notes: Same as IAR 626.

HIS 627 Museum and Historic Site Interpretation: Principles and Practice 3
Theory and practice of interpreting history to the public in the context of museums and historic sites. Topics include exhibit planning and technologies, living history, research methods, and audience evaluation.
Prerequisites: Admission to a graduate program in history or interior architecture, or permission of instructor.
Notes: Same as IAR 627.

HIS 629 Museum Education 3
Survey of the principles and practices of museum education. Explores the kinds of learning that occur in museums and how educational programming can engage diverse audiences.
Prerequisites: Admission to graduate study in history or interior architecture, or permission of instructor.

HIS 631 Digital History 3
This seminar explores the possibilities and challenges of doing history in digital spaces. Students will gain hands-on training in tools and practices and will design original digital public history projects.
Prerequisites: Restricted to graduate students in the History/Museum Studies or PhD Program, unless by written permission of the instructor.

HIS 633 Community History Practicum 3
Hands-on course, students work collaboratively and engage community partners as they research, design, and complete public projects that engage audiences in local/regional history.
Prerequisites: HIS and IAR graduate students who have completed HIS 626/IAR 626, or permission of instructor.

HIS 690 Internship 3
Supervised professional experience in selected museum, historic site, or other professional setting in accordance with the major course of study of the student. May be repeated for a maximum of 6 credits.
Prerequisites: At least 12 hours in history MA or interior architecture MS program and permission of Director of Graduate Study.
Notes: Grade: Satisfactory/Unsatisfactory, S/U. Same as IAR 690.

HIS 692 Advanced Topics in History 3
Topics in history and thematic topics not otherwise covered at the graduate level.
Prerequisites: Admission to graduate study in history and permission of instructor.
Notes: For details see the Director of Graduate Study.

HIS 697 Directed Reading 1-4
A directed program of reading and research, available to the qualified student upon the recommendation of an instructor and the department head.
Prerequisites: Admission to graduate study in history and permission of instructor and Director of Graduate Study.

HIS 699 Thesis 1-6
A directed program of reading and research, available to the qualified student upon the recommendation of an instructor and the department head.
Prerequisites: Admission to graduate study in history and permission of instructor and Director of Graduate Study.

HIS 702 Colloquium in American History after 1865 3
Issues of historical interpretation from the Colonial era through the Civil War.
Prerequisites: Admission to graduate study in history.

HIS 703 M.A. Research Project I 3
Research and writing on selected topics in American history.

HIS 704 M.A. Research Project II 3
Research and writing on selected topics in American history.

HIS 705 Colloquium in European History before 1789 3
Topics in European social, economic, political and intellectual history from the Middle Ages to the French Revolution. Methodology and the diversity of historical approaches.
Prerequisites: Admission to graduate study in history.

HIS 706 Colloquium in European History since 1789 3
Interpretations of selected historical problems from the French Revolution to the present.
Prerequisites: Admission to graduate study in history.

HIS 709 Introductory Research Seminar 3
Will focus on methods, sources, and writing; research paper based on primary and contextualized in secondary sources.
Prerequisites: Admission to graduate study in history.
Notes: May be repeated once for credit when topic varies.
HIS 710 Colloquium in the Atlantic World 3
Introduction to the history of the Atlantic trading system, the
historiography of Atlantic World studies, and comparative, cross-cultural
approaches to historical research.
Prerequisites: Admission to graduate study in history or permission of
instructor.

HIS 712 Slavery in the Americas 3
Comparative analysis of slavery and race relations in South and Central
America, the Caribbean, British North America, and the United States,
1501-1888.
Prerequisites: Admission to graduate study in history or permission of
instructor.

HIS 713 African Americans after Slavery 3
African American history during the Civil War, Reconstruction, the era of
Jim Crow, the civil rights and post-civil rights eras.

HIS 714 Varieties of Teaching 3
Introduction to college level teaching in history with attention to syllabi,
lecturing, examinations, discussions, grading, and responding to student
input. Students participate in teaching actual courses.
Notes: Grade: Satisfactory/Unsatisfactory, S/U.

HIS 715 Atlantic World: Selected Topics 3
Topics include European migration, comparative colonization, African
diaspora, and “underdevelopment” in Latin America and Africa.
Prerequisites: Admission to graduate study in history or permission of
instructor.
Notes: May be repeated once for credit when topic varies.

HIS 716 Graduate Colloquium in World History 3
Introduction to World history, the historiography of World studies, and
comparative, cross-cultural approaches to historical research.

HIS 720 Public History Capstone I 3
Conceiving, researching, planning, and creating an original public history
project, the first part of a two-semester sequence.
Prerequisites: Students must have completed 15 hours of graduate level
course credits.

HIS 721 Public History Capstone II 3
Conceiving, researching, planning, and creating an original public history
project, the second part of a two-semester sequence.
Prerequisites: HIS 720.

HIS 722 Early America: Selected Topics 3
Topics in early American history from New World encounters, popular
culture, race, gender, religion, or politics to 1800.
Prerequisites: Admission to graduate study in history or permission of
instructor.
Notes: May be repeated once for credit when topic varies.

HIS 723 Selected Topics in Nineteenth-Century United States History 3
Varying topics that explore political, social, economic, intellectual,
cultural, or religious history of nineteenth-century U.S. History.
Prerequisites: Admission to graduate study in history or permission of
instructor.
Notes: May be repeated once for credit when topic varies.

HIS 724 Selected Topics in Twentieth-Century American History 3
Major developments in the political, social, and cultural history of the
United States since 1900.
Prerequisites: Admission to graduate study in history or permission of
instructor.
Notes: May be repeated once for credit when topic varies.

HIS 740 Selected Topics in European History 3
Varying topics that explore political, social, economic, intellectual,
cultural, or religious history of European History.
Prerequisites: Admission to graduate study in history or permission of
instructor.
Notes: May be repeated once for credit when topic varies.

HIS 750 PhD Readings Course 3
Designed to provide doctoral students with a program of focused
readings in the student’s field of study.
Prerequisites: Permission of Director of Graduate Study.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

HIS 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course
Schedule for current offerings.

HIS 751 PhD Dissertation Proposal Course 3
Students will develop a doctoral dissertation topic.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

HIS 799 Dissertation 1-12
Individual direction in the development and execution of a doctoral
dissertation.

HIS 801 Thesis Extension 1-3
Thesis Extension.

HIS 802 Dissertation Extension 1-3
Dissertation Extension.

HIS 803 Research Extension 1-3
Research Extension.

Honors Programs (HSS)

HSS 102 First-Year Seminar in Historical Perspectives: Modern 3
Historical study of human culture from the 17th century to the present.
MAC: MAC Global and Intercultural
Prerequisites: Admission to Lloyd International Honors College. open to
first-year students only.

HSS 103 First-Year Seminar in the Physical Sciences 3
Study of physical sciences with attention to the methods of scientific
investigation.
Prerequisites: Admission to Lloyd International Honors College. open to
first-year students only.

HSS 105 First-Year Seminar in the Fine Arts 3
Study of selected topics in the fine arts, which include painting, sculpture,
cinema, dance, music, theatre, architecture, and design.
MAC: MAC Oral Communication
Prerequisites: Admission to Lloyd International Honors College. open to
first-year students only.

HSS 106 First-Year Seminar in Philosophical/Religious/Ethical Principles 3
Study of philosophical, religious, and ethical traditions that have shaped
societies in the past and the present.
MAC: MAC CritThink Hum and Fine Art
Prerequisites: Admission to Lloyd International Honors College. open to
first-year students only.

HSS 108 First-Year Seminar in Social and Behavioral Studies 3
Study of the interrelationship between individuals and society and of the
social and intellectual contexts of events and situations.
Prerequisites: Admission to Lloyd International Honors College. open to
first-year students only.
HSS 109 First-Year Seminar in Reasoning and Discourse 3
Study of intellectual discourse, including the construction, analysis, and synthesis of cogent arguments.
Prerequisites: Admission to Lloyd International Honors College. open to first-year students only.

HSS 112 First-Year Seminar in Historical Perspectives: Modern 3
Historical study of human culture from the 17th century to the present.
MAC: MAC Oral Communication
Prerequisites: Admission to Lloyd International Honors College. open to first-year students only.

HSS 116 First-Year Seminar in Philosophical/Religious/Ethical Principles 3
Study of philosophical, religious, and ethical traditions that have shaped societies in the past and the present.
MAC: MAC Diversity and Equity
Prerequisites: Admission to Lloyd International Honors College. open to first-year students only.

HSS 118 First-Year Seminar in Social and Behavioral Studies 3
Study of the interrelationship between individuals and society and of the social and intellectual contexts of events and situations.
Prerequisites: Admission to Lloyd International Honors College. open to first-year students only.

HSS 121 First-Year Seminar in Historical Perspectives: Premodern 3
Historical study of human culture from ancient times to the 17th century.
Prerequisites: Admission to Lloyd International Honors College. open to first-year students only.

HSS 122 First-Year Seminar in Historical Perspectives: Modern 3
Historical study of human culture from the 17th century to the present.
MAC: MAC Oral Communication
Prerequisites: Admission to Lloyd International Honors College. open to first-year students only.

HSS 125 First-Year Seminar in the Fine Arts 3
Study of selected topics in the fine arts, which include painting, sculpture, cinema, dance, music, theatre, architecture, and design.
Prerequisites: Admission to Lloyd International Honors College. open to first-year students only.

HSS 127 First-Year Seminar in Literature 3
Study of works of literature and the social and historical contexts from which they come.
MAC: MAC CritThink Hum and Fine Art
Prerequisites: Admission to Lloyd International Honors College. open to first-year students only.

HSS 128 First-Year Seminar in Social and Behavioral Studies 3
Study of the interrelationship between individuals and society and of the social and intellectual contexts of events and situations.
MAC: MAC Diversity and Equity
Prerequisites: Admission to Lloyd International Honors College. open to first-year students only.

HSS 138 First-Year Seminar in Cultural Anthropology 3
Cultural anthropology attempts to stimulate interest in basic questions about human nature and human adaptation, including major theoretical approaches, the nature of field work, and an examination of selected topics.
MAC: MAC Global and Intercultural
Prerequisites: Admission to Lloyd International Honors College. open to first-year students only;
Notes: Students may not receive credit for both ATY 113 and HSS 138.

HSS 198 Honors Colloquium 1
Introduction to a liberal education in a global context, to cultural self-awareness and shock, and to methods for taking ownership of one's own education.
Prerequisites: Must be taken in the first semester after being admitted to Lloyd International Honors College.
Notes: Grade: Pass/Not Pass (P/ NP).

HSS 201 Seminar in Historical Perspectives: Premodern 3
Historical study of human culture from ancient times to the 17th century.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 202 Seminar in Historical Perspectives: Modern 3
Historical study of human culture from the 17th century to the present.
MAC: MAC Written Communication
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 203 Seminar in the Physical Sciences 3
Study of physical sciences with attention to the methods of scientific investigation.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 204 Seminar in the Life Sciences 3
Study of life sciences with attention to the methods of scientific investigation.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 205 Seminar in the Fine Arts 3
Study of selected topics in the fine arts, which include painting, sculpture, cinema, dance, music, theatre, architecture, and design.
MAC: MAC CritThink Hum and Fine Art
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 206 Seminar in Philosophical/Religious/Ethical Principles 3
Study of philosophical, religious, and ethical traditions that have shaped societies in the past and the present.
MAC: MAC Diversity and Equity
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 207 Seminar in Literature 3
Study of works of literature and the social and historical contexts from which they come.
MAC: MAC CritThink Hum and Fine Art
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 208 Seminar in Social and Behavioral Studies 3
Study of the interrelationship between individuals and society and of the social and intellectual contexts of events and situations.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 209 Seminar in Reasoning and Discourse 3
Study of intellectual discourse, including the construction, analysis, and synthesis of written, oral, and/or visual arguments.
MAC: MAC CritThink Hum and Fine Art
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.
HSS 217 Seminar in Literature 3
Study of works of literature and the social and historical contexts from which they come.
MAC: MAC CritThink Hum and Fine Art
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 216 Seminar in the Fine Arts: Global Non-Western 3
Study of selected topics in Global Non-Western fine arts, which include painting, sculpture, cinema, dance, music, theatre, architecture, and design.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 215 Seminar in the Fine Arts: Global Non-Western 3
Study of philosophical, religious, and ethical traditions that have shaped societies in the past and the present.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 214 Seminar in the Fine Arts: Global Non-Western 3
Study of selected topics in Global Non-Western fine arts, which include painting, sculpture, cinema, dance, music, theatre, architecture, and design.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 213 Seminar in the Fine Arts: Global Non-Western 3
Study of philosophical, religious, and ethical traditions that have shaped societies in the past and the present.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 212 Seminar in Historical Perspectives: Modern 3
Historical study of human culture from the 17th century to the present.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 210 Seminar in Historical Perspectives: Modern 3
Historical study of human culture from the 17th century to the present.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 209 Seminar in Historical Perspectives: Premodern 3
Historical study of human culture from ancient times to the 17th century.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 228 Seminar in Social and Behavioral Studies 3
Study of the interrelationship between individuals and society and of the social and intellectual contexts of events and situations.
MAC: MAC CritThink Soc and BehavSci
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 227 Seminar in Literature 3
Study of works of literature and the social and historical contexts from which they come.
MAC: MAC CritThink Hum and Fine Art
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 226 Seminar in Philosophical/Religious/Ethical Principles 3
Study of philosophical, religious, and ethical traditions that have shaped societies in the past and the present.
MAC: MAC CritThink Hum and Fine Art
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 225 Seminar in the Fine Arts 3
Study of selected topics in fine arts, which include painting, sculpture, cinema, dance, music, theatre, architecture, and design.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 224 Seminar in Historical Perspectives: Modern 3
Study of the interrelationship between individuals and society and of the social and intellectual contexts of events and situations.
MAC: MAC CritThink Soc and BehavSci
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 223 Seminar in the Physical Sciences 3
Study of physical sciences with attention to the methods of scientific investigation.
MAC: MAC CritThink Nat Sci
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 222 Seminar in Historical Perspectives: Modern 3
Historical study of human culture from the 17th century to the present.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 221 Seminar in Social and Behavioral Studies 3
Study of the interrelationship between individuals and society and of the social and intellectual contexts of events and situations.
MAC: MAC CritThink Soc and BehavSci
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 219 Seminar in Historical Perspectives: Modern 3
Historical study of human culture from the 17th century to the present.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 218 Seminar in Social and Behavioral Studies 3
Study of the interrelationship between individuals and society and of the social and intellectual contexts of events and situations.
MAC: MAC CritThink Soc and BehavSci
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 217 Seminar in Literature 3
Study of works of literature and the social and historical contexts from which they come.
MAC: MAC CritThink Hum and Fine Art
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 216 Seminar in the Fine Arts: Global Non-Western 3
Study of philosophical, religious, and ethical traditions that have shaped societies in the past and the present.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 215 Seminar in the Fine Arts: Global Non-Western 3
Study of selected topics in Global Non-Western fine arts, which include painting, sculpture, cinema, dance, music, theatre, architecture, and design.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 214 Seminar in the Fine Arts: Global Non-Western 3
Study of selected topics in Global Non-Western fine arts, which include painting, sculpture, cinema, dance, music, theatre, architecture, and design.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 213 Seminar in the Fine Arts: Global Non-Western 3
Study of philosophical, religious, and ethical traditions that have shaped societies in the past and the present.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 212 Seminar in Historical Perspectives: Modern 3
Historical study of human culture from the 17th century to the present.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 210 Seminar in Historical Perspectives: Modern 3
Historical study of human culture from the 17th century to the present.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 209 Seminar in Historical Perspectives: Premodern 3
Historical study of human culture from ancient times to the 17th century.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 228 Seminar in Social and Behavioral Studies 3
Study of the interrelationship between individuals and society and of the social and intellectual contexts of events and situations.
MAC: MAC CritThink Soc and BehavSci
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 227 Seminar in Literature 3
Study of works of literature and the social and historical contexts from which they come.
MAC: MAC CritThink Hum and Fine Art
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 226 Seminar in Philosophical/Religious/Ethical Principles 3
Study of philosophical, religious, and ethical traditions that have shaped societies in the past and the present.
MAC: MAC CritThink Hum and Fine Art
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 225 Seminar in the Fine Arts 3
Study of selected topics in fine arts, which include painting, sculpture, cinema, dance, music, theatre, architecture, and design.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 224 Seminar in Historical Perspectives: Modern 3
Study of the interrelationship between individuals and society and of the social and intellectual contexts of events and situations.
MAC: MAC CritThink Soc and BehavSci
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 219 Seminar in Historical Perspectives: Modern 3
Historical study of human culture from the 17th century to the present.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 218 Seminar in Social and Behavioral Studies 3
Study of the interrelationship between individuals and society and of the social and intellectual contexts of events and situations.
MAC: MAC CritThink Soc and BehavSci
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 217 Seminar in Literature 3
Study of works of literature and the social and historical contexts from which they come.
MAC: MAC CritThink Hum and Fine Art
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 216 Seminar in the Fine Arts: Global Non-Western 3
Study of selected topics in Global Non-Western fine arts, which include painting, sculpture, cinema, dance, music, theatre, architecture, and design.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 215 Seminar in the Fine Arts: Global Non-Western 3
Study of philosophical, religious, and ethical traditions that have shaped societies in the past and the present.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 214 Seminar in the Fine Arts: Global Non-Western 3
Study of selected topics in Global Non-Western fine arts, which include painting, sculpture, cinema, dance, music, theatre, architecture, and design.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 213 Seminar in the Fine Arts: Global Non-Western 3
Study of philosophical, religious, and ethical traditions that have shaped societies in the past and the present.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 212 Seminar in Historical Perspectives: Modern 3
Historical study of human culture from the 17th century to the present.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 210 Seminar in Historical Perspectives: Modern 3
Historical study of human culture from the 17th century to the present.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 209 Seminar in Historical Perspectives: Premodern 3
Historical study of human culture from ancient times to the 17th century.
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 228 Seminar in Social and Behavioral Studies 3
Study of the interrelationship between individuals and society and of the social and intellectual contexts of events and situations.
MAC: MAC CritThink Soc and BehavSci
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 227 Seminar in Literature 3
Study of works of literature and the social and historical contexts from which they come.
MAC: MAC CritThink Hum and Fine Art
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.

HSS 226 Seminar in Philosophical/Religious/Ethical Principles 3
Study of philosophical, religious, and ethical traditions that have shaped societies in the past and the present.
MAC: MAC CritThink Hum and Fine Art
Prerequisites: Admission to Lloyd International Honors College.
Notes: May be repeated for credit when topic varies.
HSS 499 Washington Internship 6-9
Field learning experience in governmental or private organizations in Washington, DC. Students will generate products such as briefings, research memoranda, and policy analyses.
Corequisites: HSS 330 independent study or equivalent 3 s.h. independent study in any department.

Human Development and Family Studies (HDF)

HDF 111 Human Development Across the Life Span 3
Study of how development unfolds in diverse contexts and cultures from conception to death and how individual characteristics, relationships, and social settings influence cognitive, social, and psychological development.
MAC: MAC CritThink Soc and BehavSci
Notes: Students may not receive credit for both HDF 111 and PSY 250.

HDF 112 Families and Close Relationships 3
Issues related to singleness, partnership, and families relationships over time. Topics include love, sexual intimacy, dating, cohabitation, marriage, remarriage, parenting, divorce, and family violence.
MAC: MAC CritThink Soc and BehavSci

HDF 201 Development of School-Age Children 3
Introduction to physical, social-emotional, and cognitive development of children age 5 to 12. Influence of families, culture, race/ethnicity, and teacher/school characteristics on children's development and school experiences emphasized.
MAC: MAC CritThink Soc and BehavSci

HDF 202 Infant and Child Development 3
An examination of development from conception through middle childhood across family, context, and culture. Explores variability in individual development and factors related to health and well-being.
MAC: MAC Health and Wellness

HDF 203 Adolescent Development: From Puberty to Young Adulthood 3
An examination of development from early adolescence into young adulthood across family, context, and culture. Explores how political, social, and cultural systems shape development of adolescents and young adults from diverse backgrounds.
MAC: MAC Diversity and Equity

HDF 204 Adult Development 3
An examination of development from early through late adulthood across family, context, and culture. Explores individual and systemic variability in development and well-being.
MAC: MAC Health and Wellness

HDF 221 Issues in Parenting 3
Examination of parenting behaviors from infancy through young adulthood across family, context, and culture. Explores how political, social, and cultural systems shape parenting choices, options, and experiences.
MAC: MAC Diversity and Equity

HDF 250 Introduction to Birth through Kindergarten Education and Programs 3
Introduction to Birth through Kindergarten programs and careers. Discussion of development from birth to six and developmentally appropriate practice. Overview and observations of program types for children with and without disabilities.
HDF 420 Birth to Kindergarten Teaching Practicum I 3
Introduction to teaching; requires six (6) hours per week placement in ECE classroom for typical and atypical children. Assignments include developing activities, tracking children’s learning, and reflecting on personal professional growth.
Prerequisites: Grade of C+ or better in HDF/SES 315 and HDF/SES 341. 2.60 GPA.

HDF 425 Infants and Toddlers: Development, Learning, and Curriculum 3
Theories, principles, methods, and issues related to infant and toddler development and inclusive programs. An emphasis on integrating knowledge with skills to design, implement, and evaluate programs will be taken.
Prerequisites: SES 242. Grade of C+ or better in HDF/SES 315 and HDF/SES 341; 2.60 GPA;
Notes: Same as SES 425.

HDF 435 Preschool: Development, Learning, and Curriculum 3
In-depth examination of typical and atypical development of diverse preschool-age children. Integrated teaching strategies and effective inclusive learning environments will be emphasized.
Prerequisites: SES 242. Grade of C+ or better in HDF/SES 315 and HDF/SES 341; 2.60 GPA;
Notes: Same as SES 435.

HDF 436 Kindergarten: Development, Learning, and Curriculum 3
In-depth examination of current policies and practices in public school kindergartens. Development of children with and without disabilities and appropriate teaching strategies in kindergarten will be emphasized.
Prerequisites: SES 242. Grade of C+ or better in HDF/SES 315 and HDF/SES 341; 2.60 GPA;
Notes: Same as SES 436.

HDF 440 Birth to Kindergarten Teaching Practicum II 3
Includes six (6) hour placement in ECE with typical and atypical children. Personal growth as a teacher will be highlighted. Assignments include activity planning for individual children’s learning, growth, and development.
Prerequisites: Grade of C+ or better in HDF 420. 2.60 GPA.

HDF 445 Current Family Theory and Research 3
Seminar designed to examine current issues in family studies. Emphasis placed on theories and current research literature. Writing and editing are emphasized.
Prerequisites: HDF 202, HDF 203, HDF 204, and HDF 375. 2.50 GPA.

HDF 450 Professional Experience in Early Childhood 6
Supervised professional experience for students working with children in early childhood settings.
Prerequisites: Grade of C+ or better in HDF 440, HDF/SES 425, HDF/SES 435, and TED 416. 2.60 GPA and permission of instructor.

HDF 455 Current Developmental Theory and Research 3
Seminar designed to examine current issues in development. Emphasis placed on current research literature, theories, and applications across the lifespan. Writing and editing are emphasized.
Prerequisites: HDF 202, HDF 203, HDF 204, and HDF 375. 2.50 GPA.

HDF 460 Supervised Student Teaching 9
Supervised student teaching in an infant and/or toddler, preschool, or kindergarten setting under direction of a cooperating teacher with university supervision.
Prerequisites: Grade of C+ or better in KIN 342, HDF/SES 425, HDF/SES 435, HDF/SES 436, HDF 440, TED 416. 3.0 GPA; admission to the Teacher Education Program, and permission of instructor;
Corequisites: HDF 461.

HDF 461 Student Teaching Seminar 3
This course is designed to accompany the student teaching experience. The foci of the seminar will be to prepare students to complete all state licensure requirements including edTPA and to provide facilitated opportunities to discuss student teaching experiences as well as to prepare students for the educational job market.
Prerequisites: Grade of C+ or better in KIN 342, HDF/SES 425, HDF/SES 435, HDF/SES 436, HDF 440, TED 416. 3.0 GPA; admission to the Teacher Education Program, and permission of instructor;
Corequisites: HDF 460.

HDF 464 Advanced Family and Developmental Studies Seminar 3
In-depth study of selected topics in Human Development and Family Studies. Particular section content is determined by the instructor.
Prerequisites: HDF 202, HDF 203, HDF 204, and HDF 375. 2.50 GPA;
Notes: May be repeated once for a total of six (6) credit hours when topic varies.

HDF 468 Diversity in Inclusive Early Care and Education 3
In-depth analysis of the issues, challenges, and recommended practices related to effectively serving diverse populations of young children and their families in inclusive early care and education settings.
Prerequisites: HDF 450, or HDF 460, or permission of instructor. 2.60 GPA;
Notes: Same as SES 468.

HDF 470 Leadership in Early Education 3
Identifying characteristics of leaders and effective leadership styles and how these can be applied in early care and education. Prepares students to advocate best practice in a community-based environment.
Prerequisites: HDF 450, or HDF 460, or permission of instructor. 2.60 GPA.

HDF 482 Administration of Dependent Care Programs 3
Major areas of planning and administering dependent care programs, including programming, scheduling, reporting, financing, housing, equipping, staffing, and working with families.
Prerequisites: Grade of C+ or better in HDF/SES 315 and HDF/SES 341. 2.60 GPA.

HDF 499 Supervised Professional Experience 1-6
Supervised professional experience in selected commercial or industrial organizations, public or private agencies.
Prerequisites: HDF 477. 2.50 GPA; and permission of instructor;
Notes: May be repeated for up to six (6) credit hours.

HDF 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

HDF 601 Directed Individual Study in Human Development and Family Studies 1-6
Prerequisite: 6 credit hours of HDF graduate courses and permission of instructor.

HDF 602 Special Topics in Human Development and Family Studies 2-4
Designated special topics such as Child Care Administration, Parent Education, Practicum, Child Guidance.
Notes: May be repeated for credit.

HDF 603 Research Laboratory Practicum in Human Development and Family Studies 1
Supervised practicum experiences in planning, designing, and implementing research investigations in the field of human development and family studies.
Notes: Students must obtain approval of a supervising graduate faculty member before registering. May be repeated for credit. credit cannot be used to meet minimum hour requirements of a degree program. Grade: Satisfactory/Unsatisfactory (S/U).
HDF 606 Preschool-Kindergarten Learning in Inclusive Settings 4
In-depth exploration of the principles of early childhood care and education and learning strategies for preschool/kindergarten children with and without disabilities. Field placements in BK setting are required.
Prerequisites: Admission to BKISED degree program and SES 601.
Notes: Same as SES 606.

HDF 607 Infant-Toddler Learning in Inclusive Settings 4
An examination of development in infancy and toddlerhood and strategies for facilitating very young children's growth and learning in early childhood care and educational settings. Field placement required.
Prerequisites: HDF or SES major or permission of instructor.
Notes: Same as SES 607.

HDF 633 Advanced Curriculum in Early Childhood Education 3
Examination of theoretical and developmental foundations of early childhood curriculum approaches, including critique of accepted early childhood practices, action research, and published research in curriculum and program effectiveness.

HDF 634 Contemporary Issues in Early Childhood Policy 3
Analysis of how federal, state, and local policies impact early childhood programs, early childhood professionals, children, and families.

HDF 636 Leadership and Mentoring in Educating Young Children 3
Examination of advanced leadership, mentoring, lifelong learning, and teaching skills for those who develop and implement early childhood programs.

HDF 637 Administration of Early Care and Education Programs: Financial and Personnel Management 4
This course will address knowledge and skills needed to administer early childhood programs, with a focus on personnel and financial management within child care centers. Organizational structures will be reviewed and critiqued. Students will learn how to develop and implement program policies, meet legal requirements, and promote best practices when administering programs.
Prerequisites: SES 601.

HDF 640 Professional Seminar 1
Conceptual and methodological perspectives of multidisciplinary study in the field of human development and family studies. Required of all first-year master's and doctoral students.

HDF 650 Theory and Research in Early Childhood 3
Examination of theory and current research pertaining to the development of children from birth through kindergarten within the context of the family, community, and larger society.
Prerequisites: ERM 604 and SES 601.

HDF 651 Contemporary Research in Human Development 3
Examination of contemporary research findings in the field of human development.

HDF 652 Theories of Human Development 3
Survey of selected theories of individual development.

HDF 653 Contemporary Research in Family Studies 3
Examination of contemporary research findings in the field of human development.

HDF 655 Family Theory 3
Theories that relate to studying families; linking conceptual ideas, theorizing, and research examples relevant to families.

HDF 656 Race, Class, and Culture 3
Examination and application of theory and research related to racial/ethnic, social class, and cultural issues; self-awareness and cultural competence are emphasized.
Prerequisites: HDF 651, 652, 653 or 655 or permission of instructor.

HDF 661 Professional Seminar II 1
Professional activities and ethical responsibilities of university teachers and research scholars; professional writing, peer-review, extramural funding, and research practices with human subjects.
Notes: Core requirement for MS and PhD degrees.

HDF 696 Supervised Professional Experience in Human Development and Family Studies 1-6
Supervised professional experience in selected commercial or industrial organizations, public or private agencies. Completion of a major project or activities appropriate to the goals of the agencies.
Prerequisites: Permission of instructor.

HDF 699 Thesis 1-6
Individual guidance in the development of a specific research problem.
Prerequisites: Permission of instructor.
Notes: Required of all candidates for the Master of Science degree. Credit may be divided over two or more semesters.

HDF 703 Contemporary Topics in Human Development and Family Studies 3
Advanced study of designated contemporary topics in Human Development and Family Studies.
Prerequisites: Doctoral standing or permission of instructor.
Notes: May be repeated for credit.

HDF 713 Social and Emotional Development 3
Integrates theory and research focusing on social-emotional growth across the lifespan. Importance of peer and family relations in personality development; social and emotional competence and adjustment difficulties.
Prerequisites: HDF 651 (or HDF 650) and HDF 652, or permission of instructor.
Notes: Same as PSY 715.

HDF 714 Intellectual Development in Young Children 3
Current theories and recent research on intellectual development from infancy through middle childhood; language acquisition, thinking, conceptual representation, learning, memory, and perceptual development.
Prerequisites: HDF 651 (or HDF 650 or HDF 654), HDF 652, or permission of instructor.

HDF 715 Infant Development 3
Principles of perceptual, motor, cognitive and socio-emotional development in infants and very young children.
Prerequisites: HDF 650 or HDF 651, HDF 652, or permission of instructor.

HDF 716 Seminar in Adolescence 3
Integrates theory, research, and practice focusing on dimensions of normative and problematic adolescent development within its ecological contexts.
Prerequisites: HDF 651 (or HDF 650) or permission of instructor.

HDF 721 Seminar in Parent-Child Relations 3
Synthesizes theoretical perspectives and current research on parent-child relations. Topics include: links between parenting and child outcomes, determinants of parenting, links between parenting and adult development/relationships. Integrates applied implications.
Prerequisites: HDF 651, HDF 652, and HDF 653. or permission of instructor.
HDF 722 Families in Middle and Later Life
This course examines family configurations and relationships as individuals move through middle and later life.
**Prerequisites:** Admitted to a graduate program or permission of instructor.

HDF 723 Divorce, Remarriage, Cohabitation 3
Integrates theory and research focusing on variations within and changes to family structures and processes (e.g., communication, intimacy, conflict management). Sociocultural variations within and across groups.
**Prerequisites:** HDF 653, HDF 655 or permission of instructor.

HDF 725 Psychobiology of Human Development and Family Processes 3
This seminar will focus on recent theoretical and empirical work on the genetic, physiological, and neural processes that play a role in human development and family functioning.
**Prerequisites:** HDF 651 (or HDF 650) and HDF 652, or permission of instructor.

HDF 726 Close Relationships in Adulthood 3
Interdisciplinary introduction to close relationships in adulthood, including the major theoretical perspectives scholars use to examine close relationships, the methods researchers employ, and the substantive foci that characterize the field.
**Prerequisites:** HDF 653 or HDF 644 or permission of instructor.

HDF 730 Cross-Cultural Perspectives on Child Development 3
Examines how culture influences children's development and also is influenced by members of that culture.

HDF 740 Social Justice Research with Diverse Families 3
Social justice theoretical perspectives and methods for studying diverse families including the variety of qualitative methods, analyses, and best practices that can be used to address contemporary social issues impacting families and their members.

HDF 745 College Teaching in Human Development and Family Studies 2
Introduction to college teaching through observation and exploration of issues for beginning teachers. Students are assigned to work with graduate faculty members.
**Prerequisites:** 2nd year master's student and above.
**Notes:** May be repeated with a different member of the graduate faculty. Grade: Satisfactory/Unsatisfactory (S/U).

HDF 750 Professional Seminar III 1
Job search methods and strategies in human development and family studies for doctoral students.
**Prerequisites:** HDF 640, HDF 661.

HDF 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

HDF 755 Advanced Theory in HDF 3
In-depth study of particular theories used to study children and families. Theories addressed will vary by instructor. May include mechanics of theory building and refining.
**Prerequisites:** HDF 652, HDF 655, or permission of instructor.

HDF 756 Advanced Research Design in Human Development and Family Studies 3
Methods and designs of research with individuals and families from problem specification, data collection and reduction, to data analysis.
**Prerequisites:** HDF core requirements and two graduate statistics courses or permission of instructor.
**Notes:** Core requirement for PhD degree.

HDF 765 College Teaching Practicum in Human Development and Family Studies II 3
Supervised experiences in planning, teaching, and evaluating a college-level course.
**Notes:** Student must obtain the approval of a supervising graduate faculty member before registering. May be repeated with a different member of the graduate faculty.

HDF 790 Independent Doctoral Research 1-6
Individual work on problems related to the student's primary area(s) of specialization. Work may consist of empirical research or of critical reviews and integrations of existing literature.

HDF 799 Dissertation Problem 1-12
Required of all candidates for the Doctor of Philosophy degree.
**Prerequisites:** Permission of instructor.
**Notes:** Credit may be divided over two or more semesters.

HDF 801 Thesis Extension 1-3
Thesis Extension.

HDF 802 Dissertation Extension 1-3
Dissertation Extension.

HDF 803 Grad Resrch Proj Ext 1-3
Research Extension.

**Informatics and Analytics Foundations (IAF)**

IAF 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

IAF 601 Introduction to Data Analytics-Methods and Approaches 3
Managing, manipulating, and analyzing structured/unstructured data to understand relationships and generate useful insights. Principles such as programming for analytics, data visualization, statistical modeling, database design, high performance computing are discussed.
**Prerequisites:** Programming and statistics experience (Permission of Instructor Required).

IAF 602 Statistical Methods for Data Analytics 3
This course introduces fundamental statistical techniques for data analytics such as hypothesis testing, data transformation, estimation, confidence intervals, regressions models, ANOVA, multivariate analysis, non-parametric methods, and design of experiments.
**Notes:** Same as STA 602.

IAF 603 Preparing Data for Analytics 3
Students are exposed to current approaches, techniques and best practices for collecting, cleaning and normalizing data, processing, storing, managing, securing and preparing structured and unstructured big data sets for analytics.

IAF 604 Machine Learning and Predictive Analytics 3
This course is an introduction to machine learning and predictive analytics for Big Data. Some key components include deep learning, supervised, unsupervised models, regression, inductive learning, and time series analysis.
**Prerequisites:** Grade of C or better in IAF 601 and IAF 603 or permission of instructor.
IAF 605 Data Visualization 3
Data are analyzed to answer questions. Students are exposed
to concepts and techniques to understand analytics results and
appropriately infer relationships to answer questions and visualize results
using contemporary techniques.

IAF 606 Solving Problems with Data Analytics 3
This course addresses how data analytics is used to solve applied
problems in varied contexts. Students will learn how to choose
appropriate methodologies, manage data, conduct analyses and report
results.
Prerequisites: IAF 601, IAF 602 or permission of instructor.
Notes: Same as STA 606.

IAF 695 Practicum 3
Directed practical experience in a professional setting in the student’s
area of interest within Informatics and Analytics.
Prerequisites: At least 15 credit hours of IAF courses.

Information Science (IST)

IST 200X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course
Schedule for current offerings.

IST 201 Introduction to Information Science 3
Introduces the major concepts, principles, theories, issues and trends in
information science.
Prerequisites: LIS 200. IST Majors.

IST 300 Human Information Behavior 3
Introduction to foundational and core concepts of human information
behavior, including models of information seeking behavior, information
needs and use, user-centered design, and human computer interaction.
Prerequisites: LIS 200. IST Majors.

IST 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course
Schedule for current offerings.

IST 301 Information Organization 3
This course presents the ideas, advantages, and challenges of
information organization and creating and ensuring access to
information in the 21st century.
Prerequisites: LIS 200. IST Majors.

IST 304 Project Management in Information Organizations 3
An introduction to modern methods for defining, planning, managing,
and controlling substantial projects in information organizations.
Computer technology is used to support the efficient management of
interdependent activities.
Prerequisites: LIS 200. IST Majors.

IST 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course
Schedule for current offerings.

IST 423 Information Storage and Retrieval 3
Examines theories and practical models in system-centered Information
Management Systems (IMS). Introduces IMS design, Information
retrieval, database systems, storage and manipulation of text, multimedia
information and data, and web search engines.
Prerequisites: CSC 120 and IST 301. IST Majors.

IST 436 Website Production and Usability For Information Professionals 3
An overview of a modern web site development for aspiring information
professionals with a focus on principals of usable design, and practice
using HTML, CSS, and Java to build usable websites.
Prerequisites: CSC 120 and IST 201, or permission of instructor.

IST 466 Information Ethics and Policy 3
Covers the ethical, legal, and policy foundations of contemporary
information technology and information services.
Prerequisites: IST 201. LIS 200; IST Majors.

IST 468 Community Informatics 3
A survey of key concepts in the field of Community Informatics, which
focuses on how communities access, learn, and apply information and
communications technologies (ICTs). Practical studies in this area
consider how social, cultural, political, and economic factors influence
the adoption and use of ICTs among members of specific communities.
This course introduces students to key concerns in community
informatics, including, among other things, digital literacy, digital divide
issues (e.g., access, skills, and cultural divides), the role of ICTs in cultural
heritage, and community development using ICTs. Learning experiences
in this course will employ literature-based discussion and experiential
learning at case sites using relevant ICTs, including public libraries.
Prerequisites: LIS 200.

IST 472 Instructional Design 3
Examination of the systems approach to instructional design (ID), which
is the process for determining what to teach and how to teach it. Focuses
on gaining hands-on experience in instruction and learning. Primary
emphasis on developing evidence-based training that is functional,
efficient, and appealing to meet the needs of their clients and other
stakeholders.
Prerequisites: LIS 200.

IST 488 Special Topics in Information Science 3
Covers emerging technologies, new trends and issues, and other current
developments in the field of information science.
Prerequisites: LIS 200. IST Majors Only;
Notes: May be repeated up to three times for credit when topic varies.

IST 490 Independent Study 1-4
Guided readings, research, and individual project work under direction of
faculty.
Prerequisites: IST majors and permission of the instructor.

IST 491 Practicum in Information Science 3
Provides a supervised work experience for students in information
science.
Prerequisites: CSC 120, ERM 410, IST 201, IST 300, IST 301, IST 304,
IST 423, IST 466, LIS 200. IST majors;
Notes: Graded on S/U basis only.

IST 498 Capstone in Information Science 3
A culminating experience for information science majors, which requires
a field-based project and the development of a graduation portfolio.
Prerequisites: Completion of all other degree requirements and
permission of instructor.
Information Systems and Operations Management (ISM)

ISM 110 Foundations for Analytics using Spreadsheets 3
The course develops introductory spreadsheet skills. Topics focus on the creation of effective spreadsheets and reports and the management of datasets to solve business problems.
Notes: Open to freshmen and other students seeking an introduction to computer usage.
ISM 116 Web Design and Development 3
Students learn skills needed to design effective Web pages by studying the best practices in website design.
Prerequisites: C or better in ISM 110 or equivalent.

ISM 201 Essentials of Cyber Security 3
This course provides an overview of cyber security essentials. Any loss of data or compromise devastates a corporation. This course covers essential aspects of cyber security management.
Prerequisites: ISM 110. Restricted to ISCI students and students who are Pre admitted to or admitted to majors in the Business School (PACC, ACCT, PBAD, BADM, CARS, PECO, ECON, ECOS, PENT, ENTR, PFIN, FINC, PHTM, HTMT, PINT, INTB, PISC, ISSC, or PMKT, MKTG).

ISM 210 Principles of Business Analytics 3
Principles of Business Analytics introduced students to the advanced techniques in the use of business computing applications, including spreadsheets, database systems, and linkage between applications to enhance productivity. Students study how end-user applications are managed and contribute to business.
Prerequisites: Grade of C or better in ISM 110 or equivalent and one of the following: MAT 112, MAT 115, MAT 120, MAT 191, STA 108, or permission of instructor.

ISM 218 Database Systems 3
Study of database management systems including their design, implementation, query and use. Includes an extensive case study requiring the development of a multiple table database system for organizational needs.
Prerequisites: Grade of C or better in ISM 110.

ISM 240 Business Programming I 3
Introduction to the planning and creation of computer programs for solving business-related problems. Emphasis on problem analysis and structured programming techniques. Students utilize a procedural programming language.
Prerequisites: MAT 115 or higher, and Grade of C or better in ISM 110 or equivalent, ISSC major.

ISM 280 Information Systems for Decision Making 3
The course covers the fundamentals of business information systems in the context of a modern organization. Topics focus on the use of information systems, technologies and business analytics for decision making and competitive advantages.
Prerequisites: ISM 110 or equivalent.

ISM 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ISM 301 Systems and Process Analysis 3
Focuses on systems and process concepts such as automation boundaries, feasibility assessments, performance measures, information modeling, process reengineering, quality, and value added. Course emphasizes analysis methodologies.
Prerequisites: C or better in ISM 280. ISSC or ISCI major.

ISM 310 Business Programming II 3
Study of advanced procedural software structures such as multidimensional arrays and tables, indexed file processing, and interactive processing. Introduction to object oriented software structure such as class definitions, object instances, and class methods.
Prerequisites: C or better in ISM 240.

ISM 324 Secure Networked Systems 3
Networking and telecommunication concepts are described. Technical and organizational activities for securing distributed systems are presented. System security and information assurance methodologies, procedures and best practices are studied.
Prerequisites: Grade of C or better in ISM 201. Restricted to IS majors and Information Technology minors only.

ISM 325 Topics in Applications Development 1-3
Study of specific application development environments and development tools to support business application development.
Prerequisites: ISSC Major.

ISM 326 Ethical Hacking 3
Ethical hacking is presented as a process of intentionally attempting to hack a computer system to understand potential vulnerabilities that a malicious hacker could exploit and find ways to mitigate them.
Prerequisites: ISM 201 and ISM 280. Admission to ISSC major.

ISM 328 Blockchain Technology Applications and Management 3
Evaluate strategies to protect data, including cryptographic systems and their use in real world applications. Examine latest developments in blockchains and their role in security and data management.
Prerequisites: C or better in ISM 201. Restricted to ISCI students and students who are Pre admitted to or admitted to majors in the Business School (PACC, ACCT, PBAD, BADM, CARS, PECO, ECON, ECOS, PENT, ENTR, PFIN, FINC, PHTM, HTMT, PINT, INTB, PISC, ISSC, or PMKT, MKTG).

ISM 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ISM 411 Undergraduate Internship in Information Systems 1-3
This course provides students with the opportunity to apply classroom knowledge and skills to a business situation and develop new work management skills and understandings.
Prerequisites: Admission to the ISSC major and approval of instructor.
Notes: May be repeated for credit for a maximum of 6 s.h.

ISM 425 Business Analytics 3
Study of the techniques and methods of business analytics, including gathering, processing and analyzing large volumes of data to generate insights that inform business decisions.
Prerequisites: ECO 250 and either ISM 218 or ACC 325. ISSC Major or ACCT Major.

ISM 452 Design of Management Information Systems 3
Development of cost effective computer-based systems to produce information needed for managerial decision making as specified in the information analysis phase.
Prerequisites: C or better in ISM 218 and ISM 240. Any two of the following courses: ISM 301, ISM 310, ISM 324, ISM 326, ISM 411, ISM 425, or SCM 260, ISSC major.
ISM 498 Independent Study 1-3
Individual study of issues or problems in information systems and/or supply chain management. Student must arrange time and course requirements with instructor prior to registration.

ISM 499 Problems in Information Systems and Supply Chain Management 3
Independent study and research with class discussion covering a topic or group of related topics of current interest in information systems and/or supply chain management.
Prerequisites: Permission of instructor.
Notes: May be repeated for credit with approval of Department Head.

ISM 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ISM 613 Directed Studies 1-3
Individual study problems in the field. Regular conferences with instructor required.
Prerequisites: Permission of MSITM Program Director and instructor who will supervise study.

ISM 635 Principles of Enterprise Resource Planning using SAP 3
A problem-based approach to SAP and Enterprise Resource Planning concepts. Hands-on learning of integrated SAP software modules for business processes such as sales, logistics, material management, procurement, and human resources.
Notes: Same as SCM 635.

ISM 645 Principles of Predictive Analytics 3
Predictive analytics are iteratively generated by analyzing and exploring enterprise data to predict relationships and generate insights for organizations. Principles, models, and methods of predictive analytics are discussed.

ISM 646 Visualizing Data to Design Strategy 3
Data are analyzed to answer questions. Students are exposed to concepts and techniques to understand analytics results and appropriately infer relationships to answer questions and visualize results using contemporary techniques.

ISM 647 Artificial Intelligence and Machine Learning Applications for Business 3
Cognitive computing and artificial intelligence based applications are increasingly employed by businesses to generate insight from data. Students are introduced to principles, techniques, and models for developing these systems.

ISM 655 Principles of Cyber Security 3
Study of the technical, managerial, and organization issues in systems security, including systems security models, analysis of business process and technology for systems security, and information assurance.

ISM 666 Blockchains and Cryptography 3
Evaluate strategies to protect data, including cryptographic systems and their use in real world applications. Examine latest developments in blockchains and their role in security and data management.

ISM 667 Global Cyber Threat Analysis 3
The course focuses on evaluating global cyber threats because of cyber weapons, cyber warfare, and other criminal activities. The course also evaluates defensive strategies and necessary capabilities to combat threats.

ISM 668 Enterprise and IT Risk Management 3
Focus on enterprise and IT risk identification, evaluation, mitigation, and risk-related decision making, given the resource constraints. Students learn foundational theories and framework in risk management. Standard risk management approaches for identifying, analyzing, and responding to risks are introduced. Tools and methodologies for metrics to monitor risk management activities presented.

ISM 670 IT Driven Disruptive Innovation Management 3
Examines the role of disruptive and emerging IT in reshaping business models, strategy, economics, and society by fueling disruptive product and process innovation. Explores processes and governance for IT-driven disruptive innovation.

ISM 671 Organizing Data for Analytics 3
Fundamental concepts of database management systems, including database design, implementation, and the use of the SQL query language.

ISM 672 App Design and Programming 3
Apply fundamental programming concepts in designing and implementing applications for the web. This course provides students the necessary foundations for developing web applications and evaluating entrepreneurial opportunities.
Notes: Same as ENT 672.

ISM 673 Designing Secure Computer and IoT Networks for Business 3
Technology related to internal and external network/telecommunication services. Managerial and business issues related to the identification, acquisition, and management of network/telecommunications services in the contemporary enterprise.

ISM 677 Information Systems Management 3
Examines the role of information technology to improve processes and business performance, analyze the interaction of business strategies, work processes, competitive markets, technology and people for effective IT management.

ISM 678 Project Management for Dynamic Environments 3
Modern methods of defining, planning and executing large IT and other projects. Computer software and network modeling are used to support the efficient scheduling of interdependent activities.
Notes: Students may not earn credit for both ISM 654 and 678.

ISM 688 Projects in Business Analytics 3
A capstone experience in which the students demonstrate a broad knowledge of Business Analytics by undertaking hands-on projects with realistic data.

ISM 695 Special Topics in IT 1.5
Same as ENT 695. Course may be repeated for credit when topic varies.

ISM 696 Organizational Internship 1-3
Academic and required work components allow students to gain organization experience. Course supervised by a designated graduate faculty member and an organization manager.
Prerequisites: Permission of MSITM Program Director.
Notes: May be repeated for credit.
ISM 698 Project in Information Technology 3
Capstone experience in which the student demonstrates a broad knowledge of the material covered in the MSITM curricula by undertaking a project approved in consultation with the MSITM Program Director.
Prerequisites: Completion of at least 18 credits of required coursework for MSITM.

ISM 699 Thesis 1-6
An independent, theory-based inquiry in which a student applies knowledge and skills acquired to the scholarly study of information technology and management.

ISM 701 Predictive Analytics in Information Systems Research 3
Introduction to various techniques available for extracting useful information and business value from the large volume of rich data at the disposal of organizations. Covers the concepts, principles, methodologies, and emerging trends in data mining and predictive analytics. Exposure to research questions that lend themselves to use of predictive analytics.
Prerequisites: Admission to ISCCM Ph.D. program or permission of instructor.

ISM 702 Data Visualization for Information Systems Research 3
Data are analyzed to answer questions. Students are exposed to concepts and techniques to understand analytics results and appropriately infer relationships to answer questions and visualize results using contemporary techniques.
Prerequisites: Admission to the ISCCM Ph.D. program or permission of instructor.

ISM 703 Cognitive Computing and Artificial Intelligence in Information Systems Research 3
Cognitive computing and artificial intelligence based applications are increasingly employed by businesses to generate insight from data. Students are introduced to the current and emerging research opportunities in all aspects these systems.
Prerequisites: Admission to ISCCM Ph.D. program or permission of instructor.

ISM 704 Cyber Security Principles in Information Systems Research 3
Study of the technical, managerial, and organizational issues in systems security, including systems security models, analysis of business processes and technology for systems security, and information assurance. Research issues and trends are identified and discussed.
Prerequisites: Admission to ISCCM Ph.D. or permission of instructor.

ISM 705 Blockchains and Cryptography in Information Systems Research 3
Evaluate strategies to protect data, including cryptographic systems and their use in real world applications. Examine latest developments in blockchains and their role in security and data management. Identify and discuss contemporary research issues and trends.
Prerequisites: Admission to ISCCM Ph.D. or permission of instructor.

ISM 706 Global Cyber Threats and Risk Management 3
The course introduces proactive methodologies for delivering mitigation strategies to protect against today's sophisticated threats. The course focuses on the global nature of threats and the formation of dark markets. Research trends and opportunities are identified and discussed.
Prerequisites: Admission to the ISCCM Ph.D. program or permission of instructor.

ISM 707 Information Technology Driven Disruptive Innovations 3
This course covers both conceptual and practical aspects of IT driven disruptive innovation management. This course primarily focuses on emerging information technologies that drive disruptive innovation and the research issues and opportunities that arise.
Prerequisites: Admission to ISCCM Ph.D. program or permission of instructor.

ISM 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ISM 753 Information Systems Research Seminar I 3
Study of the principles of scientific inquiry and its applications in information systems research. Topics may include different types of knowledge generation, foundations of theory and research design alternatives.
Prerequisites: Admission to the Ph.D. in Information Systems or permission of the instructor.

ISM 754 Information Systems Research Seminar II 3
Current research issues on the intersection of information systems and supply chain systems. Topics may include blockchains, Internet-of-Things, information asymmetry and strategic inter-organizational information systems.
Prerequisites: Admission to the Ph.D. program in Information Systems or permission of instructor.

ISM 755 Information Systems Research Seminar III 3
Study of contemporary and emerging topics in information systems. Topics may include cybersecurity, social and crowd-based technologies, health information and health IT, and analytics, artificial intelligence and machine learning.
Prerequisites: Admission to the Ph.D. program in Information Systems or permission of instructor.

ISM 756 Information Systems Research Seminar IV 3
Application of various research techniques in information systems research. Topics may include econometrics, game theory, analytical modeling, queueing models, decision theory, experiments, big data techniques, panel data analysis.
Prerequisites: Admission to the Ph.D. program in Information Systems or permission of instructor.

ISM 760 Contemporary Research Methods in Information Systems 3
Focuses on contemporary research methods for studying information systems phenomena, particularly those related to emerging technologies. Emphasizes enhancing doctoral students' ability to identify, examine, and evaluate different contemporary methodologies regarding philosophical underpinnings of the methodology and dominant research frameworks for use of those methodologies, research paradigms and theoretical conceptualizations.
Prerequisites: Admission to the ISCCM Ph.D. program or permission of instructor.

ISM 782 Practicum in IS Teaching 1-3
Supervised teaching of an information systems (IS) course. Faculty mentor will guide in planning and delivery.
Prerequisites: Permission of PhD Director.
Notes: Course may be repeated for credit. Grade: Satisfactory/Unsatisfactory (S/U).
ISM 783 Organizational Research Internship 3-6
Organizational work and research in information systems in actual organization. Expose student to practical and relevant research problems. Supervised by designated faculty member and organization manager.
Prerequisites: Permission of PhD Director.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

ISM 785 Theories of Information Systems 3
Examines underlying theories in information systems research. Theories from organizational behavior, strategic management, economics, other disciplines inside and outside business, and IS will be discussed.
Prerequisites: Permission of PhD Director.

ISM 786 Principles of Scientific Inquiry in Information Systems Research 3
This course is an introduction to topics ranging from the philosophical underpinnings of the field and the dominant research frameworks, paradigms, or theoretical conceptualizations. We will discuss fundamentals of undertaking research, including defining problems, research questions, conducting a literature review, collecting evidence, interpreting findings, and drawing conclusions and generalizations.
Prerequisites: Admission to ISM Ph.D. program or permission of Ph.D. Director.

ISM 789 Seminar in IS Research Methods 3
Research process and various design elements for quantitative and qualitative research in information systems.
Prerequisites: STA 661, STA 662, and permission of PhD Director.

ISM 789 Research Seminar in Information Systems 1-3
Explores current and emerging research topics in information systems.
Prerequisites: ISM 786 or permission of PhD Director.
Notes: May be repeated for credit.

ISM 790 Independent Doctoral Research 1-6
Individual work on research issues related to the student’s primary area(s) of specialization. Work may consist of original research and/or critical examination and integration of existing literature.
Prerequisites: Permission of PhD Director.

ISM 799 Dissertation 1-24
Prerequisite: Admission to candidacy.

ISM 801 Thesis Extension 1-3
Thesis Extension.

ISM 802 Dissertation Extension 1-3
Dissertation Extension.

ISM 803 Research Extension 1-3

Integrated Professional Studies (IPS)

IPS 200X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

IPS 201 BIPS Foundations 3
Provides foundational information for success in the BIPS program. Concepts for interdisciplinary study and the fundamentals of higher education are included. Fosters development through goal setting and planning exercises.
MAC: MAC Foundations

IPS 275 Entrepreneurial Personal Branding 3
Students will have a better understanding of the entrepreneurial mindset, how to use entrepreneurship strategies personally, and how to best brand and uniquely market themselves.
Notes: Same as ENT 275 and HHS 275.

IPS 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

IPS 301 Design Thinking 3
Design Thinking is a creative and pragmatic path to innovation. Students learn a human-centered approach to problem-solving, emphasizing experimental and collaborative learning and real-world applications.

IPS 302 Systems Thinking 3
Overview of theory and processes commonly used to apply systems thinking approaches to addressing complex problems across disciplines, including arts and health. A case study approach facilitates this process.

IPS 303 Understanding Data 3
Students learn to identify, analyze, use, and interpret data to solve problems and make decisions. Interactive data activities, case studies, videos, lectures, and dialogue will facilitate student understanding.

IPS 304 Contemporary Media Literacies 3
Students learn theories of contemporary media literacy in order to interpret and create research products in multiple modes and situated in global contexts.

IPS 305 Global Awareness and Intercultural Competence 3
Interdisciplinary course designed to enhance students’ global awareness by introducing them to contemporary global issues while increasing their intercultural competence.

IPS 306 Self-Awareness 3
Development of knowledge and skills to enhance personal success. Focus on self and other awareness and application to career and life goals.

IPS 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

IPS 401 Selected Topics in Health and Wellness Occupations 3
Integration of six universal program competencies applied to the study of selected topics in health and wellness occupations.
Notes: May be repeated for credit when topic changes.

IPS 402 Selected Topics in the Changing Workplace 3
Integration of six universal program competencies applied to the study of selected topics in the changing workplace.
Notes: May be repeated for credit when topic changes.

IPS 403 Selected Topics in Service Occupations 3
Integration of six universal program competencies applied to the study of selected topics in service occupations.
Notes: May be repeated for credit when topic changes.

IPS 404 Selected Topics in Arts, Entertainment, and Media Occupations 3
Integration of six universal program competencies applied to the study of selected topics in arts, entertainment, and media occupations.
Notes: May be repeated for credit when topic changes.

IPS 405 Selected Topics in Other Occupations 3
Integration of six universal program competencies applied to the study of selected topics in other occupations such as education, technology, etc.
Notes: May be repeated for credit when topic changes.
IPS 406 Integrative Thinking 3
Integrative Thinking is the intersection of Design Thinking, Systems Thinking, and Understanding Data. These tools and processes are applied together to address complex real-world problems and build evidence-based solutions. Students will use the 4 step integrative-thinking methodology to creatively solve problems building on the critical thinking skills they learned in the BIPS core courses.
Prerequisites: IPS 301, IPS 302, IPS 303.

IPS 410 Capstone 3
In this course, students will apply and integrate the core competencies they’ve been immersed in throughout the BIPS program to address a real-world problem that has importance and meaning for them.
Prerequisites: IPS 301, IPS 302, IPS 303, IPS 304, IPS 305, IPS 306, and IPS 406. Integrated Professional Studies major.

Integrated Studies Lab (ISL)

ISL 102 Research, Discovery, and Inquiry 1
Through project-based research on real world situations, students gather and evaluate information, make connections among diverse perspectives, and develop global awareness, capacity for active citizenship, and lifelong learning skills.
Prerequisites: Enrollment in a Learning Community.
Notes: May be repeated once for credit, based on course pair theme.

ISL 104 Service, Reflection, and Inquiry 1
Through hands-on service projects, students learn to: collaborate, gather, and evaluate information; make connections among diverse perspectives; develop global awareness, capacity for active citizenship, and skills for lifelong learning.
Prerequisites: Enrollment in a Learning Community.
Notes: May be repeated once for credit.

Interior Architecture (IAR)

IAR 101 Environmental Design I 4
Studio investigations of space design at small scale while exploring properties of basic materials. Development of conceptual thinking.
Prerequisites: Admission to the Interior Architecture Program or permission of the instructor.
Corequisites: IAR 110.

IAR 102 Environmental Design II 4
Studio investigations of space design at small scale while exploring properties of basic materials. Development of conceptual thinking.
Prerequisites: IAR 101.
Corequisites: IAR 112.

IAR 110 Design Visualization I 2
Study and application of basic drawing processes for the purpose of enhancing perceptual awareness and developing visual communication and analysis skills.
Prerequisites: IARC major.
Corequisites: IAR 101.

IAR 112 Design Visualization II 3
Continued directed drawing experiences intended to extend basic visual communication skills into compositional principles, color theory and application, technical drawing systems and techniques, and industry standards.
Prerequisites: IAR 110.
Corequisites: IAR 102.

IAR 124 Introduction to Sustainable Design 3
This course will provide an overview of sustainable design and the various systems that contribute to it, including the building arts, business, logistics, manufacturing, and energy production.
MAC: MAC CritThink Hum and Fine Art

IAR 201 Basic Environmental Design III 6
Studio investigations of spaces as articulated by the interaction of individual and place. Emphasis placed on cognitive understanding of design process, light and color, construction systems, and ongoing study of materials.
Prerequisites: IAR 102.
Corequisites: IAR 211.

IAR 202 Basic Environmental Design IV 6
Studio investigations of spaces as articulated by the interaction of individual and place. Emphasis placed on cognitive understanding of design process, light and color, construction systems, and ongoing study of materials.
CIC: CIC College Writing
Prerequisites: IAR 201.
Corequisites: IAR 212.

IAR 211 Visual Communication I 2
Two- and three-dimensional visual studies related to conceptual and definitive aspects of design process. Exercises aimed at developing a mastery of both technical and non-technical methods of visual communication.
Prerequisites: IARC major. IAR 112;
Corequisites: IAR 201.

IAR 212 Visual Communication II 2
Two- and three-dimensional visual studies related to conceptual and definitive aspects of design process. Exercises aimed at developing a mastery of both technical and non-technical methods of visual communication.
Prerequisites: IARC major. IAR 211;

IAR 221 History and Theory of Design I 3
Survey of design forms evolved in response to humankind’s needs for community, architecture, furnishings, and artifacts, with development from prehistoric to modern eras in cultural, political, and technological contexts.
MAC: MAC Global and Intercultural

IAR 222 History and Theory of Design II 3
Survey of design forms evolved in response to humankind’s needs for community, architecture, furnishings, and artifacts, with development from prehistoric to modern eras in cultural, political, and technological contexts.
MAC: MAC Global and Intercultural

IAR 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

IAR 301 Interior Architecture I 6
Studio investigations of increasingly complex spaces as articulated by the interaction of individual and place. Special emphasis on light, color, materials and structure as aspects of spatial design.
Prerequisites: IAR 202, IAR 212.
IAR 302 Interior Architecture II 6
Design investigations of spaces of increasing scale and complexity articulated by the interaction of individual and place. Special emphasis on social/behavioral aspects of interior architecture and responsibilities of designer to society.
Prerequisites: IAR 301.

IAR 311 Computer-Aided Design for Interior Architecture 3
Introduction to computer-aided design technology, historical context, and professional use in interior architecture and design. Use of CAD equipment and production of design drawings.
Prerequisites: IAR 212 or permission of instructor.

IAR 321 Design Thinking and/or Entrepreneurial Thinking 3
Theories and applications of design thinking and entrepreneurial thinking will be explored. Students interested in innovation and creativity with application ranging from regional to global in practice will benefit.
Notes: Same as ENT 321.

IAR 331 Social and Behavioral Aspects of Interior Architecture 3
Introduction to literature and methods of environmental design research as it applies to interior environments.
Prerequisites: IAR 202 or permission of instructor.

IAR 332 Interior Architecture Materials 3
Study of materials used in interior architecture applications.
Prerequisites: IAR 201 or permission of instructor.

IAR 333 Interior Architecture Construction and Building Systems 3
Study of interior architecture construction methods, structural systems, and building mechanical systems.
Prerequisites: IAR 202 or permission of instructor.

IAR 334 Light and Sound 3
Study of light and sound as potential creative mediums to meet functional, sensory, and behavioral needs. Emphasis placed on experimentation with light and sound in relation to other design elements.
Prerequisites: IARC major. IAR 301 or equivalent; or permission of instructor.

IAR 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

IAR 401 Advanced Interior Architecture I 6
Advanced design problems having complex functional, social, and economic implications, with emphasis on problem identification, formulation, and design development.
Prerequisites: IAR 412 for undergraduates.

IAR 411 Interior Architecture III 6
Studio investigations of multi-function environments incorporating understanding of light, color, materials, structure, and technology. Emphasis on individual competence with respect to design process.
Prerequisites: IAR 302.

IAR 412 Interior Architecture IV 6
Studio explorations encompassing the full range of interior architecture scale and complexity. Emphasis on individual competence with respect to design process.
Prerequisites: IAR 411.

IAR 427 Problems in Interior Architecture 2-6
Individual study.
Prerequisites: Permission of instructor.

IAR 430 Introduction to Public Interest Design 3
An introduction to the social, economic, and environmental theories and practices that define Public Interest Design, using a literature review and case studies in interior design, architecture, city planning, product design, and other related disciplines.
Prerequisites: Junior standing or above. or permission of instructor.

IAR 432 Special Problems in Interior Architecture 1-4
Independent study of topics of special interest.
Prerequisites: Permission of instructor with whom student wishes to work.
Notes: May be repeated for credit up to a maximum of 8 hours.

IAR 433 Interior Architecture Laboratory 1-3
Laboratory study with faculty to complete final phases of projects begun in previous semesters including the fabrication or prototyping of studio projects, preparation for design competition, or extended work with community partners.
Prerequisites: IAR 101.

IAR 434 Design Seminar 2
Investigation of current research and subjects of topical interest in environmental design.
Prerequisites: Permission of instructor.
Notes: May be repeated for a total of 4 hours credit.

IAR 435 Architectural Lighting Design 3
Advanced investigation of lighting design. Emphasis on architectural lighting including design process, sustainability, and quality of light.
Prerequisites: IAR 334.

IAR 436 History of Decorative Arts 3
Study of stylistic and cultural developments in the decorative arts with special concentration on America.
Notes: Same as HIS 436.

IAR 437 Historic Preservation: Principles and Practice 3
Change in historic preservation theory and practice since the 1800s with emphasis on preservation of built environment, and development of philosophical approach for designers to contemporary preservation projects.
Prerequisites: Admission to a graduate program in history or interior architecture, or permission of instructor.
Notes: Same as HIS 443.

IAR 447 History Museum Curatorship: Collections Management 3
Professional practices in the care and management of historic site and history museum collections, including principles of collection development, object registration, cataloging, and preservation.
Prerequisites: Admission to a graduate program in history or interior architecture, or permission of instructor.
Notes: Same as HIS 447.

IAR 448 Architectural Conservation 3
Overview of contemporary architectural conservation principles, practice and technology. Field exercises, group projects and investigation of an individual research topic expand upon lectures and readings.
Prerequisites: Admission to a graduate program in history or interior architecture, or permission of instructor.
Notes: Same as HIS 448.

IAR 451 Professional Practice in Interior Architecture 3
Investigation of business, legal, ethical aspects of professional practice in interior architecture by students, staff, and guest speakers.
Prerequisites: IAR 202.
IAR 452 Internship in Interior Architecture 3
The supervised internship provides practical work experience in which students' creative and technical experiences are applied within a project-based design environment.
Prerequisites: Third-year standing in Interior Architecture and written permission required.
Notes: May be taken twice for a total of 6 s.h. credit.

IAR 453 History and Theories of Material Culture 3
Material culture as it has been defined and interpreted in the past by scholars from the disciplines of history, anthropology, geography, art history, psychology, linguistics, and archaeology.
Prerequisites: Admission to a graduate program in history or interior architecture, or permission of instructor.

IAR 455 Field Methods in Preservation Technology 3
Intensive on-site fieldwork experience addressing issues of architectural conservation and historic building technology. Includes methods, techniques, and theories of preservation technology and accepted conservation practices.
Prerequisites: Admission to a graduate program in history or interior architecture, or permission of instructor.
Notes: Same as HIS 455.

IAR 460 Advanced Computer-Aided Design and Research Seminar 3
With specific attention to how computational tools affect interior architectural design decision-making processes, rigorous examination of their origins, evolution, applications, and significance will be undertaken.
Prerequisites: IAR 202, IAR 212, and IAR 222, or graduate standing; or permission of the instructor.

IAR 465 Materials and Methodologies Seminar 3
Investigation of materials, methods, and technologies for the design, fabrication, manufacturing, and production of products and components of interior architecture.
Prerequisites: IAR 333, or graduate standing, or permission of instructor.

IAR 499 International Field Studies in Interior Architecture 4-6
Investigation of international design contexts to be formulated in collaboration with faculty and undertaken through study abroad programs.

IAR 501 Advanced Interior Architecture I 6
Advanced design problems having complex functional, social, and economic implications, with emphasis on problem identification, formulation, and design development.

IAR 502 Advanced Interior Architecture II 6
Advanced design problems having complex functional, social, and economic implications, with emphasis on problem identification, formulation, and design development.
Prerequisites: IAR 631.

IAR 527 Problems in Interior Architecture 2-6
Individual study.
Prerequisites: Permission of instructor.

IAR 530 Introduction to Public Interest Design 3
An introduction to the social, economic, and environmental theories and practices that define Public Interest Design, using a literature review and case studies in interior design, architecture, city planning, product design, and other related disciplines.

IAR 532 Interior Architecture Laboratory 1-3
Laboratory study with faculty to complete final phases of projects begun in previous semesters including the fabrication or prototyping of studio projects, preparation for design competition, or extended work with community partners.

IAR 535 Architectural Lighting Design 3
Advanced investigation of lighting design. Emphasis on architectural lighting including design process, sustainability, and quality of light.

IAR 536 History of Decorative Arts 3
Study of stylistic and cultural developments in the decorative arts with special concentration on America.
Notes: Same as HIS 536.

IAR 540 Evolution of Furniture 3
A study of basic furniture forms—chairs, stools, tables, beds, chests—that follows a chronological route from Ancient Egypt to 21st-century Minimalism and examines changes in each historic period.

IAR 541 Contemporary Trends in Interior Product Design 3
Focusing on furniture, lighting, and textiles, the course studies trade events, showrooms, retailers, designers, and trade and consumer media all as forces shaping twenty-first-century trends.
Prerequisites: IAR 540 recommended.

IAR 543 Historic Preservation: Principles and Practice 3
Change in historic preservation theory and practice since the 1800s with emphasis on preservation of built environment, and development of philosophical approach for designers to contemporary preservation projects.
Prerequisites: Admission to a graduate program in history or interior architecture, or permission of instructor.
Notes: Same as HIS 543.

IAR 547 History Museum Curatorship: Collections Management 3
Professional practices in the care and management of historic site and history museum collections, including principles of collection development, object registration, cataloging, and preservation.
Prerequisites: Admission to a graduate program in history or interior architecture, or permission of instructor.
Notes: Same as HIS 547.

IAR 548 Architectural Conservation 3
Overview of contemporary architectural conservation principles, practice and technology. Field exercises, group projects and investigation of an individual research topic expand upon lectures and readings.
Prerequisites: Admission to a graduate program in history or interior architecture, or permission of instructor.
Notes: Same as HIS 548.

IAR 551 Professional Practice in Interior Architecture 3
Investigation of business, legal, ethical aspects of professional practice in interior architecture by students, staff, and guest speakers.

IAR 555 Field Methods in Preservation Technology 3
Intensive on-site fieldwork experience addressing issues of architectural conservation and historic building technology. Includes methods, techniques, and theories of preservation technology and accepted conservation practices.
Prerequisites: Admission to a graduate program in history or interior architecture, or permission of instructor.
Notes: Same as HIS 555.

IAR 560 Advanced Computer-Aided Design and Research Seminar 3
With specific attention to how computational tools affect interior architectural design decision-making processes, rigorous examination of their origins, evolution, applications, and significance will be undertaken.

IAR 565 Materials and Methodologies Seminar 3
Investigation of materials, methods, and technologies for the design, fabrication, manufacturing, and production of products and components of interior architecture.
IAR 600 Supervised Professional Experience 1-4
Supervised professional experience in selected residential, commercial or industrial organizations, public or private agencies in accordance with the major course of study of the student. May be repeated for a maximum of 8 credits.

IAR 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

IAR 601 Directed Self-Study in Interior Architecture 1-6
Individual Study.
Prerequisites: Permission of instructor.

IAR 602 Advanced Interior Architecture III 6
Design issues or problems relevant to the individual student’s concentration or area of specialization are explored in real or simulated studio projects.
Prerequisites: IAR 501 or IAR 502.

IAR 624 History of American Landscapes and Architecture 3
Examination of the social and cultural forces affecting the design and use of landscapes and buildings in North America from the colonial period through the mid-twentieth century.
Prerequisites: Admission to a graduate program in history or interior architecture or permission of instructor.
Notes: Same as HIS 624.

IAR 625 Preservation Planning and Law 3
Examination and analysis of the relationship of government programs and policies, community and regional planning strategies, and legal case precedents to the field of historic preservation.
Prerequisites: Admission to a graduate program in history or interior architecture or permission of instructor.
Notes: Same as HIS 625.

IAR 626 The Practice of Public History 3
Basic principles in the administration of museums, historic sites, and other cultural resources. Subjects include fundraising, personnel and volunteer management, working with board members, and museum law and ethics.
Prerequisites: Admission to a graduate program in history or interior architecture or permission of instructor.
Notes: Same as HIS 626.

IAR 627 Museum and Historic Site Interpretation: Principles and Practice 3
Theory and practice of interpreting history to the public in the context of museums and historic sites. Topics include exhibit planning and technologies, living history, research methods, and audience evaluation.
Prerequisites: Admission to a graduate program in history or interior architecture or permission of instructor.
Notes: Same as HIS 627.

IAR 631 Advanced Scholarship in Interior Architecture 3
Advanced skills for identifying questions and methods for accomplishing scholarship in Interior Architecture. Thesis and design projects are planned. Emphasis on process including problem identification, literature review, investigation, and analysis.
Prerequisites: IAR 629.

IAR 645 Introduction to Scholarship in Interior Architecture 3
Introduction to scholarly methodologies and examination of trends, issues, and theories in Interior Architecture.

IAR 665 Problems in Interior Architecture 2-4
May be repeated for a maximum of 8 credits.

IAR 690 Internship 3
Supervised professional experience in selected museum, historic site, or other professional setting in accordance with the major course of study of the student. May be repeated for a maximum of 6 credits.
Prerequisites: At least 12 hours in history MA or interior architecture MS program and permission of Director of Graduate Study.
Notes: Grade: Satisfactory/Unsatisfactory, S/U. Same as HIS 690.

IAR 699 Thesis 1-6
Required of all candidates for the Master of Science in interior architecture.
Notes: Credit may be divided over two or more semesters.

IAR 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

IAR 801 Thesis Extension 1-3
Thesis Extension.

Interlink (ITL)

ITL 001 Communicate (Aural/Oral) Skills 3

ITL 100 Reading and Writing Skills 3

ITL 101 Communicate (Aural/Oral) Skills 3

ITL 501 Communicate (Aural/Oral) Skills 3

International and Global Studies (IGS)

IGS 200 Introduction to International and Global Studies 3
An interdisciplinary course introducing students to terms, concepts and approaches employed in discussing, analyzing, and responding to today's international and global issues, with an emphasis on the non-Western world.

MAC: MAC Global and Intercultural

IGS 223 Foundational Topics in International and Global Studies 3
An intermediate-level course concentrating on foundational topics of international or global concern. Course content may grow out of issues explored in IGS 200 or IGS 210 or IGS 213.

IGS 295 Study Abroad for Global Engagement: Pre-Departure 1
First of three courses taken in conjunction with a UNCG Study Abroad Exchange. Focus on pre-departure basics, field study techniques, and goal setting for global engagement through cultural competency.
Prerequisites: Acceptance to a UNCG Study Abroad Exchange Program.
Notes: May repeated up to three times (for three different exchange experiences) for credit when topic varies for a total of 3 s.h., however, may apply only once toward Liberal and Interdisciplinary Studies, B.A.: IGS concentration requirements; Grade: Pass/Not Pass (P/NP).
IGS 296 Study Abroad for Global Engagement: Field Experience 1
Second of three courses taken in conjunction with a UNCG Study Abroad Exchange. Online individual study focusing on the field experience and appropriate engagement in international, intercultural, and/or multicultural contexts.

Prerequisites: IGS 295. Acceptance to a UNCG Study Abroad Exchange Program;
Notes: May repeated up to three times (for three different exchange experiences) for credit when topic varies for a total of 3 s.h.; however, may apply only once toward Liberal and Interdisciplinary Studies, B.A.: IGS concentration requirements; Grade: Pass/Not Pass (P/NP); Same as TED 296, SES 296.

IGS 297 Study Abroad for Global Engagement: Re-Entry Reflections and Applications 1
Third of three courses taken in conjunction with a UNCG Study Abroad Exchange. Focus on the re-entry and re-acculturation processes and the integration of intercultural development into future contexts.

Prerequisites: IGS 296. Acceptance to a UNCG Study Abroad Exchange Program;
Notes: May repeated up to three times (for three different exchange experiences) for credit when topic varies for a total of 3 s.h.; however, may apply only once toward Liberal and Interdisciplinary Studies, B.A.: IGS concentration requirements; Grade: Pass/Not Pass (P/NP); Same as TED 297, SES 297.

IGS 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

IGS 333 Selected Topics: International and Global Studies 3
An advanced-level course concentrating on topics of international or global concern. Course content may grow out of issues explored in IGS 200 or IGS 210 or IGS 213.

Notes: May be repeated for credit as topic changes.

IGS 400 Capstone Seminar in International and Global Studies 3
End-of-major interdisciplinary seminar involving advanced examinations of contemporary international and global issues, the production of a substantial research project related to the student’s concentration, and intercultural competence training.

CIC: CIC College Writing

IGS 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

IGS 493 Honors Work 3
Prerequisite: Permission of instructor; permission of IGS director; minimum 3.30 GPA and 12 s.h. in the major;
Notes: May be repeated for credit for a maximum of 6 s.h. if the topic of study changes.

IGS 495 Individual Study 1-3
Directed program of individual study or research. Available to qualified students in collaboration with a qualified instructor and/or the IGS director.

Prerequisites: IGS 200 or IGS 210 or IGS 213, and permission of IGS director;
Notes: May be repeated for a maximum of 6 s.h.

International Programs Center (IPC)

IPC 300 Applied Leadership Skills for a Global World 3
Concepts and skills essential for developing personal leadership and cross-cultural competencies are introduced; development of self-awareness as a means of preparing to be successful in a world which is global.

Prerequisites: Admission to program.
Corequisites: IPC 310 and IPC 320 and IPC 330.

IPC 310 Contemporary Global Leadership Issues 3
Current issues in the global context with the application of leadership and personal efficacy theory and skills; topics such as sustainability, climate change, and crisis management will be explored.

Prerequisites: Admission to program.
Corequisites: IPC 300 and IPC 320 and IPC 330.

IPC 320 Internship 3
Students apply intercultural leadership skills at a successful U.S. based global company and reflect on experiences through class assignments. Requirements include 300 hours of employment in an approved training role.

Prerequisites: Admission to program.
Corequisites: IPC 300 and IPC 310 and IPC 330.
Notes: Grade: Pass/Not Pass (P/NP).

IPC 330 Special Topics 3
Topics of interest to those studying leadership for a global world and relevant to the student’s concurrent training experience.

Prerequisites: Admission to program.
Corequisites: IPC 300 and IPC 310 and IPC 320.
Notes: Grade: Pass/Not Pass (P/NP).

IPC 999 One Way International 0

International Student Exchange (ISE)

ISE 999 International Student Exchange 3-12

Italian (ITA)

ITA 101 Beginning Italian I 3
Introduction to Italian with practice in hearing, speaking, reading, and writing. Supplementary instruction in the language laboratory.

Notes: Students with previous knowledge of Italian are required to contact the assigned instructor to have their language skills assessed.

ITA 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ITA 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ITA 418 Studies in Film Genre 3
Technical, dramatic, social, and rhetorical dimensions of a film genre or genres. Subject differs from offering to offering.

Prerequisites: Permission of department.
Notes: May be repeated for credit when the topic varies. Same as FRE 462, SPA 462.
ITA 518 Studies in Film Genre 3
Technical, dramatic, social, and rhetorical dimensions of a film genre or genres. Subject differs from offering to offering.
Prerequisites: Permission of department.
Notes: May be repeated for credit when the topic varies. Same as FRE 562, SPA 562.

Japanese Studies (JNS)

JNS 101 Elementary Japanese I 3
Introduction to the Japanese language and culture. Emphasis on basic writing systems (Hiragana, Katakana, Kanji), as well as on active listening, speaking, writing, and reading, and applied vocabulary.
MAC: MAC Global and Intercultural
Prerequisites: None.
Notes: Students with previous knowledge of Japanese are required to meet with a designated faculty member. Students who are native or heritage speakers of Japanese MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.

JNS 102 Elementary Japanese II 3
Continued introduction to the Japanese language and culture. Emphasis on basic writing systems (Kanji), active listening, speaking, writing, and reading, and applied vocabulary.
MAC: MAC Global and Intercultural
Prerequisites: JNS 101.
Notes: Students with previous knowledge of Japanese are required to meet with a designated faculty member. Students who are native or heritage speakers of Japanese MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.

JNS 203 Intermediate Japanese I 3
First course in the intermediate-level study of the Japanese language and culture. Emphasis on the further acquisition of Kanji, active listening, speaking, writing, and reading, and applied vocabulary.
MAC: MAC Global and Intercultural
Prerequisites: Proficiency level: JNS 102.
Notes: Students with previous knowledge of Japanese are required to meet with a designated faculty member. Students who are native or heritage speakers of Japanese MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.

JNS 204 Intermediate Japanese II 3
Second course in the intermediate-level study of the Japanese language and culture. Emphasis on the further acquisition of Kanji, on active listening, speaking, writing, and reading, and applied vocabulary.
MAC: MAC Global and Intercultural
CIC: CIC College Writing
Prerequisites: JNS 203.
Notes: Students with previous knowledge of Japanese are required to meet with a designated faculty member. Students who are native or heritage speakers of Japanese MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.

JNS 210 Current Topics Conversation 1
The course provides students with oral training for effective communication over current topics of global interest.
Prerequisites: JNS 204 or permission of instructor.
Notes: May be repeated for up to three (3) semester hours.

JNS 220 Modern Japan 3
Introduction to Japanese culture and society. This course examines Japan's modern development through selected topics on modern history, society, and pop-culture including media culture, film, and literature.
MAC: MAC Global and Intercultural
Notes: Taught in English.

JNS 230 Women in Japanese Literature and Film 3
The course focuses on various aspects of women's lives in modern Japanese society, providing an overview of modern Japanese society through representation of women's cultural film and literature.
Notes: Taught in English.

JNS 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

JNS 301 Advanced Grammar and Conversation 3
Advanced language course that aims at improving students' communication skills in Japanese and enhancing their global awareness. The course work involves grammar retention drills, reading/writing assignments, and various speaking exercises.
Prerequisites: JNS 204.

JNS 302 Third-year Japanese Language Conversation and Composition 3
The course is designed to improve students' communication skills through intensive lectures, grammar retention drills, and oral and writing exercises. Students deepen their understanding of cultural logics behind Japanese language.
Prerequisites: JNS 301.
Notes: May be repeated for credit when topic varies.

JNS 305 Topics in Japanese Culture 3
Focus on Japanese civilization to improve linguistic and/or cultural proficiency. Taught in either English or Japanese.
Notes: May be repeated for credit when topic varies.

JNS 306 Current Issues in Japan 3
The course focuses on current issues in Japan and non-traditional aspects of Japanese society. The course materials include literary texts, film, and other interdisciplinary materials. Taught in English.

JNS 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.
Kinesiology (KIN)

KIN 100X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

KIN 101 Beginning Volleyball 1
Development of fundamental skills, strategic elements, and knowledge of volleyball with opportunity for team play.

KIN 104 Beginning Basketball 1
Development of fundamental skills, strategic elements, and knowledge of basketball.

KIN 106 Beginning Soccer 1
Development of fundamental skill, strategies, and knowledge of soccer.

KIN 110 Ultimate 1
Development of fundamental skills, strategic elements, and knowledge of ultimate (ultimate Frisbee) with opportunity for team play.

KIN 115 Disc Golf 1
Development of fundamental skills, tactics and strategy, and knowledge of Disc Golf, with opportunity for competitive play.

KIN 130 Weight Training 1
Weight training with emphasis on principles, techniques, and development of individualized programs.

Notes: May be repeated once for credit.

KIN 131 Fitness Walking and Jogging 1
Designed for the beginner level student desiring to improve cardiorespiratory endurance through a graduated program from fitness walking through jogging. This course is not designed for already accomplished runners.

KIN 135 Fitness Running 1
Designed for the recreational runner striving to improve cardiorespiratory endurance, running mechanics, and program development knowledge. This course is designed for students who have a strong background in distance running (at least 5k).

KIN 140 Flag Football 1
Development of fundamental skills, tactics and strategy, and knowledge of flag football, with opportunity for competitive play.

KIN 150 Swimming for Non-Swimmers 1
Designed for students with a fear of the water who cannot swim.

KIN 151 Beginning Swimming 1
Development of fundamental swimming and safety skills; designed for students with little or no knowledge of strokes and limited deep water experience.

KIN 161 Yoga 1
All-level yoga class that focuses on anatomy, breathing and foundational yoga poses. Historical and current yoga philosophies will also be covered.

Notes: May be repeated once for credit.

KIN 171 Beginning Badminton 1
Development of fundamental skills, strategic elements, and knowledge of badminton with opportunity for match play.

KIN 175 Beginning Tennis 1
Development of fundamental skills, strategic elements, and knowledge of tennis with opportunity for match play in singles and doubles.

KIN 180 Rock Climbing 1
Development of fundamental rock climbing skills including knot tying, belaying, anchor building, and climbing and bouldering technique.

KIN 201 Intermediate Volleyball 1
Extension and refinement of beginning level skills, strategies, and knowledge of volleyball. Emphasis on tactical elements of team play.

KIN 203 Fitness Swim 1
Emphasis on stroke efficiency and lap swimming for conditioning. Principles of conditioning, assessment and periodization are applied to swimming. Emphasis on improvement and maintenance of personal fitness.

KIN 204 Intermediate Basketball 1
Extension and refinement of beginning level skills, strategies and knowledge of basketball. Emphasis on tactical elements of team play.

KIN 206 Intermediate Soccer 1
Extension and refinement of beginning level skills, strategies and knowledge of soccer. Emphasis on tactical elements of team play.

KIN 214 Sports Performance: Racquet Sports 1
Skill development and analysis of racquet skills. Learning and application of physical education content in a developmental model.

KIN 217 Introduction to the Teaching of Physical Education 3
Nature of teaching physical education; emphasis on its relationship to total educational experience. First-hand experience working with learners of diverse backgrounds and ability, grades K through 12, in varied settings.

KIN 220 Lifetime Wellness 3
Evidence-based approach to understanding and applying scientific principles of wellness, fitness, and lifestyle management. Includes a personal wellness and/or fitness assessment and developing a plan for immediate and long-term improvement and maintenance.

MAC: MAC Health and Wellness

KIN 230 Psychological Skills for Optimal Performance 3
Overview of sport psychology principles applied to sport and exercise activities. Includes experience in psychological skills training.

KIN 231 Recreational Games 2
Analysis of the nature and categorization of a selection of recreational games across the lifespan, with emphasis on skill development and tactical decision-making.

KIN 250 Introduction to Kinesiology 3
Survey of the discipline of kinesiology. Analysis of the nature and importance of physical activity, knowledge base of the discipline, and careers in physical activity professions.

KIN 252 Low Intermediate Swimming 1
Extension of basic swimming and safety skills; must be comfortable in deep water.

KIN 263 Basic SCUBA 1
Development of fundamental skills, knowledge, and techniques of skin and SCUBA diving. Opportunity provided for open water training and final certification.

Notes: Additional fees for equipment rental and certification. must provide own mask, fins, snorkel, and booties.
KIN 263L Skin and SCUBA Diving Lab 0
KIN 264 Advanced SCUBA 2
Extension of skills and knowledge beyond level of basic SCUBA diver, including familiarity with operation and maintenance of SCUBA equipment. Opportunities provided for specialty certifications.
Prerequisites: KIN 263 or equivalent and permission of instructor.
Notes: Additional fees for equipment rental, quarry use and certification. must provide own mask, fins, snorkel, and booties.

KIN 265 Strength Training and/or Conditioning 3
Lecture and/or lab course emphasizing the basic science underlying strength training and conditioning. Specific topics include program design, exercise techniques, strength, aerobic, speed and flexibility development, physical testing, and training adaptations.
Corequisites: KIN 265L.

KIN 265L Strength Training and/or Conditioning Laboratory 0
Lecture and/or lab course emphasizing the basic science underlying strength training and conditioning. Specific topics include program design, exercise techniques, strength, aerobic, speed and flexibility development, physical testing, and training adaptations.
Corequisites: KIN 265.

KIN 271 Intermediate Badminton 1
Extension and refinement of beginning level skills, strategies, and knowledge of badminton. Emphasis on tactical elements of match play.

KIN 272 Tae Kwon Do 1
Acquisition and development of the basic techniques and knowledge of Tae Kwon Do. Presented in the culturally correct form.

KIN 286 Foundations of Sport Coaching 3
Introduce undergraduate students to the profession of sport coaching including the nature of the profession, qualifications, skills and issues relative to coaching.

KIN 287 Coaching in Community-Based Sport Programs 3
Examination of community-based sport programs focused on the psycho-social dynamics of programs, their mission, cultural and economic representation of youth being served, staff, resources, and their influence on coaching effectiveness.
Prerequisites: Sport Coaching minor or permission of instructor.

KIN 291 Clinical Human Anatomy 4
In-depth anatomical examination of the human body for students seeking clinically-applied careers in Health and Human Sciences. Includes laboratory activities.
Prerequisites: A grade of C- or better in BIO 110 or BIO 111.
Corequisites: KIN 291L.

KIN 291L Clinical Human Anatomy Laboratory 0
In-depth anatomical examination of the human body for students seeking clinically-applied careers in Health and Human Sciences. Includes laboratory activities.
Corequisites: KIN 291.

KIN 292 Clinical Human Physiology 4
Introduction to basic concepts of human physiology at the cell, organ and systems levels with a focus on clinical applications related to physiological systems relevant to the allied health sciences.
Prerequisites: Minimum grade of C- in BIO 110 or BIO 111.
Corequisites: KIN 292L.

KIN 292L Clinical Human Physiology Laboratory 0
Introduction to basic concepts of human physiology at the cell, organ and systems levels with a focus on clinical applications related to physiological systems relevant to the allied health sciences.
Corequisites: KIN 292.

KIN 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

KIN 302 Movement Pedagogy for Elementary School Teaching 1.5
Introduction, for elementary school teaching majors, to physical activity and movement with a concentration on classroom curriculum integration.
Prerequisites: Junior or senior standing. Elementary Education majors.

KIN 307 Observation and Analysis of Fundamental Movement 3
Selected physical activities with special emphasis on movement observation and analysis. Fieldwork with children emphasized.
Notes: Professional liability insurance required.

KIN 330 Critical Analyses for a Physically Active Society 3
Analyses and critical perspectives on cultural events, resources, and moments affecting modern physical activity engagement in the U.S. and globally.
Prerequisites: Junior standing.

KIN 340 Healthful Living Pedagogy for Elementary School Teaching 3
Introduction to teaching physical education in grades K-6. Designed for preservice classroom and physical education teachers. Student will work in field experiences.
Prerequisites: Junior or senior Physical Education and Health Teacher Education or Elementary Education major. or MA in Teaching students only;
Notes: Professional liability insurance required.

KIN 342 Teaching Motor Skills to Preschool Children 3
Strategies and techniques to enhance motor skill development of children ages 2-5 in the home, on the playground, and in the classroom. Field work with children emphasized.
Prerequisites: Junior or senior Human Development and Family Studies majors.

KIN 350 History of American Sport 3
Examination of the development and significance of sport in American society.

KIN 351 History and Philosophy of Sport, Physical Activity, and Physical Education 3
Study of significant people, events, and institutions affecting the development of sport and exercise around the world. Analysis of major philosophic issues relating to sport and exercise.

KIN 352 Philosophy of Sport 3
Overview of philosophical concerns related to study of sport and sport experiences, examined with use of current sport philosophy literature.

KIN 353 Injuries and Illnesses in Physical Activity 3
Instruction in the prevention, recognition, and basic care of common injuries and illnesses that occur in a sport and exercise setting.
Prerequisites: KIN 291 (or BIO 271). Admission to Kinesiology or Physical Education and Health Teacher Education major or Pre-Physical Therapy or Pre-Occupational Therapy programs.
KIN 354 Curriculum and Teaching: Children's Physical Education 3
Planning and organizing for teaching and observation of movement in children's physical education. Special emphasis will be on philosophy, curriculum development, and selection of appropriate content for elementary students.
Prerequisites: Junior or senior Physical Education and Health Teacher Education major.
Notes: Professional liability insurance required.

KIN 355 Leadership and Collaboration 3
Examination of administrative considerations in conducting physical activity and athletic programs with emphasis on leadership, collaboration, and group dynamics.
Prerequisites: Kinesiology major, 2.50 GPA;
Notes: Professional liability insurance required.

KIN 356 Leadership and Collaboration 3
Examination of administrative considerations in conducting physical activity and athletic programs with emphasis on leadership, collaboration, and group dynamics.
Prerequisites: Kinesiology major, 2.50 GPA;
Notes: Professional liability insurance required.

KIN 357 Assessment and Evaluation in Kinesiology 3
Overview of assessment, evaluation, and research methods in kinesiology; emphasis on applications to professional practice.
Prerequisites: Sophomore standing.

KIN 358 Assessment and Evaluation in Kinesiology 3
Overview of assessment, evaluation, and research methods in kinesiology; emphasis on applications to professional practice.
Prerequisites: Sophomore standing.

KIN 359 Analysis of Motor Behavior 3
History of Motor Behavior, an overview of motor control, skilled performance and proficiency and how the individual learns skills through practice/and or experience.
Prerequisites: Admission to Kinesiology or Physical Education and Health Teacher Education major or pre-Physical Therapy or pre-Occupational Therapy programs.

KIN 360 Motor Control and Learning 4
KIN 359 Analysis of Motor Behavior, an overview of motor control, skilled performance and proficiency and how the individual learns skills through practice/and or experience.
Prerequisites: Admission to Kinesiology or Physical Education and Health Teacher Education major or pre-Physical Therapy or pre-Occupational Therapy programs.

KIN 361 Motor Control and Learning 4
KIN 359 Analysis of Motor Behavior, an overview of motor control, skilled performance and proficiency and how the individual learns skills through practice/and or experience.
Prerequisites: Admission to Kinesiology or Physical Education and Health Teacher Education major or pre-Physical Therapy or pre-Occupational Therapy programs.

KIN 362 Motor Control and Learning 4
KIN 359 Analysis of Motor Behavior, an overview of motor control, skilled performance and proficiency and how the individual learns skills through practice/and or experience.
Prerequisites: Admission to Kinesiology or Physical Education and Health Teacher Education major or pre-Physical Therapy or pre-Occupational Therapy programs.

KIN 363 Motor Control and Learning 4
KIN 359 Analysis of Motor Behavior, an overview of motor control, skilled performance and proficiency and how the individual learns skills through practice/and or experience.
Prerequisites: Admission to Kinesiology or Physical Education and Health Teacher Education major or pre-Physical Therapy or pre-Occupational Therapy programs.

KIN 364 Motor Control and Learning 4
KIN 359 Analysis of Motor Behavior, an overview of motor control, skilled performance and proficiency and how the individual learns skills through practice/and or experience.
Prerequisites: Admission to Kinesiology or Physical Education and Health Teacher Education major or pre-Physical Therapy or pre-Occupational Therapy programs.

KIN 365 Motor Control and Learning 4
KIN 359 Analysis of Motor Behavior, an overview of motor control, skilled performance and proficiency and how the individual learns skills through practice/and or experience.
Prerequisites: Admission to Kinesiology or Physical Education and Health Teacher Education major or pre-Physical Therapy or pre-Occupational Therapy programs.

KIN 366 Motor Control and Learning 4
KIN 359 Analysis of Motor Behavior, an overview of motor control, skilled performance and proficiency and how the individual learns skills through practice/and or experience.
Prerequisites: Admission to Kinesiology or Physical Education and Health Teacher Education major or pre-Physical Therapy or pre-Occupational Therapy programs.

KIN 367 Motor Control and Learning 4
KIN 359 Analysis of Motor Behavior, an overview of motor control, skilled performance and proficiency and how the individual learns skills through practice/and or experience.
Prerequisites: Admission to Kinesiology or Physical Education and Health Teacher Education major or pre-Physical Therapy or pre-Occupational Therapy programs.

KIN 368 Motor Control and Learning 4
KIN 359 Analysis of Motor Behavior, an overview of motor control, skilled performance and proficiency and how the individual learns skills through practice/and or experience.
Prerequisites: Admission to Kinesiology or Physical Education and Health Teacher Education major or pre-Physical Therapy or pre-Occupational Therapy programs.

KIN 369 Motor Control and Learning 4
KIN 359 Analysis of Motor Behavior, an overview of motor control, skilled performance and proficiency and how the individual learns skills through practice/and or experience.
Prerequisites: Admission to Kinesiology or Physical Education and Health Teacher Education major or pre-Physical Therapy or pre-Occupational Therapy programs.

KIN 370 Motor Development 3
Lifespan analysis of motor skill development as a function of chronological age.

KIN 371 Motor Development 3
Lifespan analysis of motor skill development as a function of chronological age.

KIN 372 Motor Development 3
Lifespan analysis of motor skill development as a function of chronological age.

KIN 373 Motor Development 3
Lifespan analysis of motor skill development as a function of chronological age.

KIN 374 Data Science in Kinesiology 1
This class is designed to introduce the concept of data science and how it applies to Kinesiology. Students will use common software to solve mathematical problems and visualize data.
Prerequisites: KIN 292 or BIO 277. Kinesiology major; junior standing.

KIN 375 Physiology of Sport and Physical Activity 4
Provides students with understanding of factors affecting the physiological function of the body related to exercise and physical performance. Laboratory provides experiences in evaluating these physiological factors.
Prerequisites: Grade of C or higher in KIN 291 (or BIO 271) and grade of C or higher in KIN 292 (or BIO 277), or permission of instructor; Admission to Kinesiology or Physical Education and Health Teacher Education or Nutrition major or pre-Physical Therapy or pre-Occupational Therapy programs;
Corequisites: KIN 375L.

KIN 375L Physiology of Sport and Physical Activity Laboratory 0
Laboratory supporting KIN 375.
Corequisites: KIN 375.

KIN 376 Biomechanics of Sport and Physical Activity 3
Anatomical and mechanical bases of physical activity with emphasis on the analysis of sport and exercise skills.
Prerequisites: KIN 291 (or BIO 271). Admission to Kinesiology major or Physical Education and Health Teacher Education major or Nutrition and Wellness concentration or pre-Physical Therapy or pre-Occupational Therapy programs; or permission of instructor.

KIN 377 Instructional Methods of Physical Activity 3
Designing and implementing exercise instruction techniques for individuals and groups.
Prerequisites: Sequence of KIN 220, KIN 265 (or sequence of KIN 120, KIN 130, KIN 220). or permission of instructor.

KIN 381 Physical Education for Individuals with Special Needs 3
Survey of all aspects of developmental, adapted, and corrective physical education for populations of children and adults with disabilities. Weekly field experiences required.
Prerequisites: KIN 120, KIN 130, and KIN 220. Kinesiology major;
Corequisites: KIN 381L.
Notes: Professional liability insurance required.
KIN 441 Foundational Skills in Sports Medicine 3
Development of foundational skills and techniques for medical health professionals. Emphasis on functional palpation, sport specific movement analysis, and understanding of orthopedic pathologies.
Prerequisites: KIN 291 (or BIO 271).

KIN 445 Psychology of Coaching 3
Overview of sport psychology principles applied to the teaching and coaching of sport activities.
Prerequisites: PSY 121 or permission of instructor.

KIN 450 Instructional Strategies for School Health Education 3
This course prepares students to teach K-12 health education. The course focuses on methods, instructional practices, assessment, and reflection on effective health education.
Prerequisites: KIN 354. Junior or senior Physical Education and Health Teacher Education or Public Health Education majors; Junior or senior Kinesiology majors with permission of the instructor;
Corequisites: KIN 454 and KIN 460.
Notes: Professional liability insurance required.

KIN 454 Curriculum and Teaching: Secondary School Physical Education 3
Planning and organizing for teaching and observation of movement in secondary school physical education. Emphasis on the analysis of the teaching process, curriculum development, and selection of appropriate content.
Prerequisites: KIN 354 and KIN 375. Seniors in the Physical Education and Health Teacher Education Concentration; admission to the Teacher Education Program;
Corequisites: KIN 450, KIN 460.
Notes: Professional liability insurance required.

KIN 456 Student Teaching and Seminar in Physical Education 12
Block courses in professional semester for teacher education majors. Techniques of teaching physical education under supervision. Full-time teaching in schools. Weekly seminars.
Prerequisites: Program requirements leading to student teaching. Methods courses (KIN 354, KIN 379, KIN 450, KIN 454, and KIN 460) must be taken at UNCG; Admission by application only; 3.0 GPA; All other course work in Physical Education and Health Teacher Education concentration plan of study must be successfully completed to enroll; Senior Kinesiology major with a concentration in Physical Education and Health Teacher Education; Successful completion of program requirements leading to student teaching;
Notes: Professional liability insurance required. Grade: Pass/Not Pass (P/NP); ARC FA and CPR must be current; Admission to Teacher Education Program is required.

KIN 456 History of the Olympic Games 3
Development of the Olympic Games movement in both the ancient world and modern era. Consideration of cultural, philosophical, political, economic, and performance perspectives.

KIN 458 Practicum in the HOPE Program 3
Practical experience working with a wide variety of individuals in the HOPE program designing and implementing exercise programs in a supervised setting. Emphasis on applying knowledge in a hands-on environment and building professional skills including: interpersonal, communication, leadership, and adaptability.
Prerequisites: KIN 379.
Notes: Professional liability insurance required. May be repeated twice for credit.

KIN 468 Exercise Assessment, Testing, and Prescription for Fitness and Rehabilitation Professionals 3
Developing proficiency in clinical skills related to health and fitness assessments and design of individualized exercise prescriptions in fitness and rehabilitation settings. Focus on experiential learning and hands-on skills.
Prerequisites: Grade of C or higher in KIN 265, KIN 291 (or BIO 271) and KIN 292 (or BIO 277).

KIN 468L Exercise Testing and Prescription I Laboratory 0
Laboratory supporting KIN 468.
Corequisites: KIN 468.

KIN 469 Exercise Testing and Prescription II 3
Scientific principles of safe and effective exercise testing and prescription for persons with chronic disease and other medical conditions. Includes basics of electrocardiography.
Prerequisites: Minimum grade of C (2.0) or higher in KIN 468, 2.50 GPA overall, Kinesiology major, or permission of instructor.
Corequisites: KIN 466.
KIN 470 Development and Implementation of Fitness Programs 3
Preparation in planning, designing, developing, organizing, programming, implementing, directing, and evaluating fitness programs.

KIN 471 Internship Preparation in Kinesiology 1
Professional preparation, planning, and placement for supervised internship experience (KIN 496).
Prerequisites: 2.50 overall GPA, Kinesiology major, or permission of instructor.

KIN 475 Independent Study 1-3
Intensive work in area of special interest in Kinesiology. Available to qualified students on recommendation of academic advisor, instructor, and undergraduate program coordinator.
Prerequisites: Demonstrated competency for independent work and permission of academic advisor, instructor, and undergraduate program coordinator.
Notes: May be repeated for a total of up to 6 s.h.

KIN 477 Coaching Practicum in a Selected Sport 3
Opportunity for prospective coach to assume various responsibilities in coaching a selected sport under the guidance of a qualified coach.
Prerequisites: Current First Aid/Sports Safety Certification. Upper division students seeking minor in sport coaching, or permission of instructor;
Notes: Professional liability insurance required.

KIN 479 Exercise and Older Adults 3
Basic principles underlying exercise/aging. The delivery of exercise information and the conduct of exercise programs for older adults.
Prerequisites: Junior admission only by permission of instructor.

KIN 481 Nutrition and Physical Fitness 3
Metabolism during exercise, ergogenic aids, nutrients’ effects on performance, and body composition alterations during training. Gender and age-specific needs and responses to exercise and dietary intake.
Prerequisites: Grade of C (2.0) or better in BIO 277 and NTR 213 and NTR 413 (or equivalents). KIN 375 recommended.

KIN 493 Honors Work 3-6
Prerequisite: Permission of instructor; 3.30 GPA in the major, 12 s.h. in the major;
Notes: May be repeated for credit if the topic of study changes.

KIN 496 Kinesiology Internship 3,6
A supervised field experience in qualified agencies. Application process is required for permission to register. Course involves specific assignments, supervision, seminars on campus, and evaluation of student’s performance.
Notes: An application process must be completed prior to registration. Course may be repeated for credit if taken for three (3) s.h.; total hours for course may not exceed six (6) s.h.

KIN 519 Mentoring in Community Youth Development Programs 2
Service learning experience mentoring an elementary or middle school youth in a community youth sport program. On campus seminars required.
Notes: May be repeated for credit.

KIN 520 Physical Activity Programs for Underserved Youth 3
Overview of community-based programs designed to meet the needs of underserved youth; roles of universities and community agencies in such programs; development of leadership skills.

KIN 521 Evaluation of Physical Activity Programs in Youth Development 3
Examination of traditional and nontraditional strategies for effective youth program evaluation; attention to analysis and interpretation of data used in conducting such evaluations.
Prerequisites: KIN 520.

KIN 536 Anatomical Basis of Athletic Injury 3
Focus on the link between anatomical structure, function, and athletic injury evaluation. The functional consequence of injury and rehabilitation on anatomical structures will also be addressed.
Prerequisites: Undergraduate anatomy and physiology.

KIN 570 Development and Implementation of Fitness Programs 3
Preparation in planning, designing, developing, organizing, programming, implementing, directing, and evaluating fitness programs.

KIN 576 Nutrition and Physical Fitness 3
Metabolism during exercise, ergogenic aids, nutrients’ effects on performance, and body composition alterations during training. Gender and age-specific needs and responses to exercise and dietary intake.

KIN 579 Exercise and Older Adults 3
Basic principles underlying exercise/aging. The delivery of exercise information and the conduct of exercise programs for older adults.

KIN 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

KIN 601 Applying Research to Professional Practice 3
This course is designed for future practitioners in health and physical activity to gather, read, interpret, assess, and apply research to their fields.

KIN 620 Athletic Training Clinical Experience 3
Supervised field experience in an assigned athletic training clinical setting. Students are required to complete 300 clock hours under the supervision of an approved clinical instructor.
Prerequisites: Admission to the MSAT degree program.
Notes: Must be taken four times.

KIN 622 Internship in Community Youth Sport Development Programs 6
Supervised field experience in qualified agencies. Course involves specific assignments, seminars on campus, and evaluation of student’s performance.
Prerequisites: KIN 520, KIN 521.
Notes: Grade: Satisfactory/Unsatisfactory, S/U.

KIN 623 Detection and Correction on Functional Movement Patterns in the Physically Active Population 2
The course addresses the detection and correction of functional movement patterns such as gait and throwing mechanics, and principles of basic strength and conditioning.

KIN 624 Assessment and Treatment of the Lumbo-Pelvic-Hip Complex 2
This course will review the anatomy, assessment, acute treatment, and rehabilitation of injuries in physically active populations as related to the lumbo-pelvic hip complex.

KIN 630 Sport and Society: Social Inequalities 3
Survey of current theories and research in the sociological study of sport, physical activity, and exercise; focus on sport and major social institutions, social inequalities, and social change.
Prerequisites: KIN 330, introductory sociology, or permission of instructor.

KIN 633 Emergency Care Athletic Training 3
Evaluation and treatment skills for athletic injuries to the head, face, neck, heart, trunk, thorax, abdomen, and those caused by the environment. Acute first-aid considerations in life-threatening and emergent situations will also be covered in-depth.
KIN 634 Athletic Training Foundations 3  
Introduction of concepts and skills related to the prevention and treatment of athletic injuries, and management of life-threatening and catastrophic injuries.  
**Prerequisites:** Admission to MSAT degree program or permission of instructor.

KIN 636 Assessment and Treatment of the Lower Extremity 4  
Recognizing, evaluating, treating, and rehabilitating various lower extremity orthopedic injuries commonly sustained in the athletic environment.  
**Prerequisites:** Admission into the MSAT degree program or permission of instructor.  
**Corequisites:** Admission into the MSAT degree program or permission of instructor.

KIN 640 Rehabilitation Techniques for Athletic Injuries 4  
Awareness, understanding, and application of principles and skills pertaining to rehabilitation of injuries in physically active populations.  
**Prerequisites:** Admission into the MSAT degree program or permission of instructor.  
**Corequisites:** Admission into the MSAT degree program or permission of instructor.

KIN 642 Optimizing Athletic Performance 3  
Exploration of sports nutrition, ergogenic aids, and strength and conditioning principles within the context of sport injury and rehabilitation.  
**Prerequisites:** Admission to MSAT degree program or permission of instructor.

KIN 643 Mechanical Analysis of Motor Skills 3  
Mechanical principles applied to the teaching and analysis of selected sports activities; evaluation of modern bio-mechanical techniques.

KIN 644 Psychology of Sport and Exercise 3  
Theories and research related to sport psychology; individual differences, motivation and social influence processes related to sport and exercise behavior.  
**Prerequisites:** Introductory psychology or permission of instructor.

KIN 645 Exercise Psychology 3  
Examination of the effects of exercise on various factors (e.g., stress, mood) and the effects of psychological variables (e.g., biofeedback, motivation) on exercise.

KIN 649 Principles of Physical Activity Behavior Change 3  
This course will acquaint graduate students with the application of major theories and models used to design and guide the development of contemporary physical activity interventions.  
**Prerequisites:** Students admitted to the Sport and Exercise Psychology and Applied Sport Psychology concentrations within the Kinesiology Department. Students from other program areas and departments may be admitted with instructor permission.

KIN 653 History of American Sport and Exercise Science 3  
Study of development of sport and exercise science in the U.S. with special emphasis on the evolving institutional involvement of schools and colleges.

KIN 656 Psycho-Social Aspects of Teaching Physical Education and Sport 3  
Social and psychological factors that influence instructional interactions and the perceptions of teachers, coaches, and students.  
**Prerequisites:** Previous teaching experiences or permission of instructor.

KIN 658 Multiculturalism and Physical Education Curriculum 3  
Cultures, cultural influence, race, gender and class roles, as they intersect with physical ability in physical activity, hidden curriculum issues, diverse cultures as curricular resources, culturally relevant pedagogy in PE.

KIN 667 Exercise Electrocardiography and Cardiopulmonary Medications 3  
Electrocardiography and mechanisms/side effects of cardiopulmonary medications most likely encountered in clinical exercise settings. Particularly appropriate for students interested in cardiopulmonary rehabilitation and clinical exercise testing.  
**Prerequisites:** KIN 375 or equivalent or permission of instructor.  
**Corequisites:** KIN 670 or permission of instructor.

KIN 668 Advanced Exercise Assessment 3  
In-depth study of the physiological basis of human physical performance with emphasis on the acute response and chronic adaptations of the body to exercise.  
**Prerequisites:** KIN 375 or permission of instructor.

KIN 669 Advanced Exercise Prescription 3  
Prescription of exercise for healthy, at-risk, and diseased individuals. Covers exercise prescription objectives for American College of Sport's Medicine's Exercise Specialist and Health Fitness certifications.  
**Prerequisites:** KIN 670 or permission of instructor.

KIN 670 Physiology of Exercise 3  
Examination of the components of physical activity and exercise prescription to achieve specific health or athletic performance goals.  
**Prerequisites:** KIN 375 or permission of instructor.

KIN 675 Applied Human Work Physiology 3  
Physiological factors which influence the exercise and performance capabilities of humans.  
**Prerequisites:** KIN 375 or equivalent or by permission of instructor.

KIN 694A Internship in Kinesiology 3-6  
Supervised field experience appropriate to the student's interests and background in selected settings during the final phases of the student's curricular plan.  
**Prerequisites:** Permission of Instructor.  
**Notes:** May be repeated once for credit.

KIN 694B Internship in Kinesiology 3-6  
Supervised field experience appropriate to the student's interests and background in selected settings during the final phases of the student's curricular plan.  
**Prerequisites:** Permission of Instructor.  
**Notes:** May be repeated once for credit.

KIN 695 Independent Study 1-3  
Intensive study in an area of special interest in physical education.  
**Prerequisites:** Demonstrated competency for independent work and permission of departmental academic advisor and the instructor.

KIN 699 Thesis 1-6  
Advanced study in special topics from the various subspecialties within the field of kinesiology.
KIN 701 Research Topics in Kinesiology 3
Intensive examination of specific topics; critical review of current literature.
**Prerequisites:** Prerequisites and defined research competencies will vary according to topic.
**Notes:** May be repeated for credit when topic varies.

KIN 702 Research Seminar in Applied Neuromechanics 1
Exploration of the assessment of neuromechanical function of the extremities and its relationship to performance, joint instability, and injury risk.
**Prerequisites:** Graduate student in KIN with an applied neuromechanical focus or permission of instructor.
**Notes:** May be repeated for a total of 3 credit hours when topic varies.
Grade: Satisfactory/Unsatisfactory (S/U).

KIN 704 Athletic Training Seminar 3
Study course for the National Athletic Trainers’ Association Board of Certification (BOC) examination involving review examinations and projects on the 5 BOC practice domains for athletic training.
**Prerequisites:** Admission into the MSAT degree program or permission of instructor.
**Corequisites:** Admission into the MSAT degree program or permission of instructor.

KIN 705 Applied Rehabilitation Concepts 3
Capstone experience involving the supervision of a comprehensive orthopedic rehabilitation project and writing a final document to summarize patient outcomes.
**Prerequisites:** Admission into the MSAT degree program or permission of instructor.
**Corequisites:** Admission into the MSAT degree program or permission of instructor.

KIN 706 Online Pedagogy in Kinesiology and Related Professions 3
Online course design in kinesiology and related professions using evidence-based best practices. Creation of online course and its modules using a collaborative, learner-centered approach to online instruction.

KIN 709 Mentored Teaching in Kinesiology 1-3
Mentored teaching experience in kinesiology developed by student and faculty mentor, beyond graduate assistantship.
**Prerequisites:** Permission of instructor.
**Notes:** May be repeated for a maximum of 6 credits. Grade: Satisfactory/Unsatisfactory (S/U).

KIN 712 Current Research and Issues in Sport and Exercise Psychology 1
Exploration of current research and issues within sport and exercise psychology; emphasis on developing a broad understanding of sport and exercise psychology scholarship and its relationship to Kinesiology. May be repeated for a total of 3 credit hours when topic varies.
**Notes:** Grade: Satisfactory/Unsatisfactory (S/U).

KIN 713 Internship in Kinesiology 3-6
Supervised field experience appropriate to the student’s interests and background in selected settings during the final phases of the student’s curricular plan.
**Prerequisites:** Permission of instructor in addition to the following: cumulative GPA of 3.0 or better. completed Core Required Course(s) or Core Requirement for concentration area with grade of B or better; KIN 713A: For internships that are not in preventative or clinical settings; No additional prerequisites; KIN 713B: For internships in preventative or clinical settings; Additional prerequisite: Grade of P in KIN 471;
**Notes:** May be repeated once for credit. Grade: Satisfactory/Unsatisfactory (S/U).

KIN 714 Field Practicum in Kinesiology 1-6
Developing, implementing, and/or evaluating a focused set of professional activities in a field setting. Requires guidance, approval, and evaluation by one faculty member.
**Notes:** May be repeated for a maximum of 9 credits. Grade: Satisfactory/Unsatisfactory (S/U).

KIN 715 Professional Ethics in Health and Human Sciences 3
A view of professional ethics in health and human sciences through the lens of Boyer’s model of scholarship (discovery/integration, application, teaching/learning).

KIN 716 Mixed Methods in Kinesiology Research 3
An overview of mixed method approaches to research in kinesiology with an emphasis on practical application.
**Notes:** Registration restricted to students enrolled in the Ed.D. in Kinesiology program.

KIN 717 Qualitative Research Methods in Kinesiology 3
Research design and methods for health and human science settings including data source sampling; collection/analysis of artifact, observation, interview, focus group data; within case analysis, writing case reports.

KIN 718 Cardiovascular Aspects of Exercise Physiology 3
Effects of acute and chronic exercise on heart function and size, peripheral vasculature, hemodynamics and cardiac output.
**Prerequisites:** KIN 670 or permission of instructor.

KIN 719 Muscular Aspects of Exercise Physiology 3
Effects of acute and chronic exercise on muscular mechanics, blood supply, size of muscle, fiber types, fatigue and physical performance.
**Prerequisites:** KIN 670 or permission of instructor.

KIN 720 Pathophysiology and Pharmacology 3
In-depth study of the pathophysiology and pharmacologic treatment of major illnesses, injuries, and diseases observed in clinical settings.
**Prerequisites:** KIN 375 and BIO 111 or equivalent or permission of instructor.

KIN 721 General Medical Conditions 3
Lecture and laboratory experiences to develop clinical skills in assessment and management of general medical situations common to athletic training.
**Prerequisites:** Admission to MSAT degree program or permission of instructor.
**Corequisites:** KIN 720.
**Notes:** Lab fee for supplies required.

KIN 723 Statistical Methods for Kinesiology 3
Basic statistics with applications for kinesiology.

KIN 724 Physical Activity and Health 3
Health benefits and risks of physical activity/exercise. Course content parallels the 1996 U.S. Surgeon General’s report Physical Activity and Health with updated referencing.
**Prerequisites:** KIN 375 or equivalent or permission of instructor.

KIN 725 Management and Professional Issues in Athletic Training 3
The administration and organization of athletic training health care programs and facilities. Current issues in athletic training professional conduct and practice will also be discussed.
**Prerequisites:** Admission to MSAT degree program or permission of instructor.

KIN 726 Development and Implementation of Fitness Programs 3
Preparation in planning, designing, developing, organizing, programming, implementing, directing, and evaluating fitness programs.
KIN 727 Nutrition and Physical Fitness 3
Metabolism during exercise, ergogenic aids, nutrients' effects on performance, and body composition alterations during training. Gender and age-specific needs and responses to exercise and dietary intake.

KIN 729 Learning and Performance of Physical Skills 3
Application of principles of learning to the learning and performance of physical skills, including the social, emotional, and personality factors affecting skill acquisition.
Prerequisites: General and developmental psychology (9 hours), or permission of the instructor.

KIN 730 Neural Aspects of Motor Control 3
Multi-disciplinary seminar exploring theories and mechanisms of neuromuscular control of human movement.
Prerequisites: Undergraduate survey course in motor learning/control or permission of instructor.

KIN 731 Curriculum Development in Kinesiology 3
Modern principles and practices in curriculum construction and current theories of curriculum development in Kinesiology.

KIN 732 Analysis of Teaching and Learning 3
Introduction to quantitative and qualitative methods for evaluating teaching and learning including techniques of classroom observation, classroom climate analysis, and student engagement. Extends the research competencies of those interested in pedagogical assessment.

KIN 735 Program Evaluation and Evidence-Based Practice in Physical Activity Programs 3
Concepts, processes and methods, results interpretations, and issues in the evaluation of in physical activity programs/interventions; reflection and critique of different evaluation philosophies, theories, methods, and policy ramifications in program evaluation.

KIN 738 Sport-based Youth Development 3
Current principles, practices, and research related to programs that promote youth development outcomes through sport participation.

KIN 740 Psychology of Sport and Exercise 3
Theories and research related to sport psychology. Individual differences, motivation and social influence processes related to sport and exercise behavior.
Prerequisites: Introductory psychology or permission of instructor.

KIN 741 Exercise Psychology 3
Examination of the effects of exercise on various factors (e.g., stress, mood) and the effects of psychological variables (e.g., biofeedback, motivation) on exercise.

KIN 742 Mechanical Analysis of Motor Skills 3
Mechanical principles applied to the teaching and analysis of selected sports activities. Evaluation of modern bio-mechanical techniques.

KIN 743 Psychological Aspects of Sport Injury 3
Psychological factors and intervention strategies as they relate to the risk, experience, and treatment of athletic injuries from a biopsychological perspective.
Prerequisites: KIN 644, Applied Sport Psychology concentration or permission of instructor.

KIN 744 Applied Sport Psychology 3
Current research in applied sport psychology; sport-specific individual differences, motivational approaches, and interventions.
Prerequisites: KIN 644.

KIN 745 Seminar: Social Psychology and Physical Activity 3
Current theories, research methodologies and findings related to the social psychological aspects of sport and exercise behavior; emphasis on application in professional practice.
Prerequisites: Permission of instructor.

KIN 746 Practicum in Applied Sport and Exercise Psychology 1-3
Skill development and application of theory in practice in applied sport psychology through supervised work in a laboratory and/or field setting.
Prerequisites: KIN 744 or equivalent and permission of instructor.
Notes: May be repeated for up to 10 credit hours. no more than 6 credit hours can count toward degree requirements; lab fee required each semester; grade method is Satisfactory/Unsatisfactory (S/U).

KIN 748 Advanced Topics in Sport Exercise and Psychology 3
Advanced study in special topics within a field of sport and exercise psychology.
Notes: May be repeated for credit when topic varies for a maximum of 12 credits.

KIN 750 Seminar in Kinesiology 3
Integrative seminar focusing on major issues confronting the field of kinesiology, and applying concepts to professional practice and higher education.
Notes: Registration restricted to students enrolled in the Ed.D. in Kinesiology program.

KIN 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

KIN 751 Advanced Research Seminar in Kinesiology 3
Integrative seminar focusing on development, refinement, and presentation of research.
Notes: Registration restricted to students enrolled in the Ed.D. in Kinesiology program.

KIN 752 Advanced Professional Seminar in Kinesiology 3
An advanced doctoral seminar focused on developing students' professional leadership and collaborative skills, while also supporting the advancement of dissertation research.
Notes: Registration restricted to students enrolled in the Ed.D. in Kinesiology program.

KIN 753 Professional Dissertation Seminar 1-3
Develop, discuss, and prepare to defend doctoral dissertation proposal.
Prerequisites: KIN 751 or permission of instructor.

KIN 754 Seminar: Social Psychology and Physical Activity 3
Current theories, research methodologies and findings related to the social psychological aspects of sport and exercise behavior; emphasis on application in professional practice.
Prerequisites: Permission of instructor.

KIN 754 Seminar: Social Psychology and Physical Activity 1-3
Skill development and application of theory in practice in applied sport psychology through supervised work in a laboratory and/or field setting.
Prerequisites: KIN 744 or equivalent and permission of instructor.
Notes: May be repeated for up to 10 credit hours. no more than 6 credit hours can count toward degree requirements; lab fee required each semester; grade method is Satisfactory/Unsatisfactory (S/U).

KIN 758 Multiculturalism and Physical Education Curriculum 3
Cultures, cultural influence, race, gender and class roles, as they intersect with physical ability in physical activity, hidden curriculum issues, diverse cultures as curricular resources, culturally relevant pedagogy in PE.

KIN 762 Program Design in Kinesiology and Related Professions 3
Methods for designing academic programs in Kinesiology and related fields. Leadership skills, strategic planning, and implementing a program are the focus of this class.
KIN 767 Exercise Electrocardiography and Cardiopulmonary Medications 3
Electrocardiography and mechanisms/side effects of cardiopulmonary medications most likely encountered in clinical exercise settings. Particularly appropriate for students interested in cardiopulmonary rehabilitation and clinical exercise testing.
Prerequisites: KIN 375 or equivalent or permission of instructor.
Corequisites: KIN 770 or permission of instructor.

KIN 768 Advanced Exercise Assessment 3
Exercise testing for cardiorespiratory fitness and disease diagnosis. Knowledge of ECG interpretation and cardiorespiratory pharmacology applied to clinical exercise testing. Also covers body composition and musculoskeletal fitness testing.
Prerequisites: KIN 468 or equivalent, KIN 770, or permission of instructor.

KIN 769 Advanced Exercise Prescription 3
Prescription of exercise for healthy, at-risk, and diseased individuals. Covers exercise prescription objectives for American College of Sport’s Medicine’s Exercise Specialist and Health Fitness certifications.
Prerequisites: KIN 770 or permission of instructor.

KIN 770 Physiology of Exercise 3
In-depth study of the physiological basis of human physical performance with emphasis on the acute response and chronic adaptations of the body to exercise.
Prerequisites: KIN 375 or permission of instructor.

KIN 775 Applied Human Work Physiology 3
Physiological factors which influence the exercise and performance capabilities of humans.
Prerequisites: KIN 375 or equivalent or permission of instructor.

KIN 777 Professional Seminar in Grant Writing 3
An advanced doctoral seminar on the grant writing process. Students will develop proposals appropriate for any agencies and foundations that fund applied research and professional programs.
Notes: Registration restricted to students enrolled in the Ed.D. in Kinesiology program.

KIN 779 Dissertation Presentation Seminar 1
A seminar focusing on students’ dissertation research. Satisfactory completion requires presentation of the dissertation in an on-campus seminar; typically completed in the student’s final semester.
Prerequisites: Admission to the EdD in Kinesiology degree program.

KIN 795 Independent Doctoral Research 1-6
In-depth study of a problem in exercise and sport science. May include a synthesis/review of literature, scientific investigation, or design, implementation, or evaluation of project.
Prerequisites: Prior approval of graduate faculty member who will supervise and evaluate the project.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

KIN 798 Doctoral Seminar in Grant Writing 3
The grant writing process, including the procedures and technical strategies for developing and submitting a grant proposal for funding.
Prerequisites: Prior approval of graduate faculty member who will supervise and evaluate the project.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

KIN 799 Dissertation 1-12
Individual direction in the development and execution of a doctoral dissertation.

KIN 801 Thesis Extension 1-3
Thesis Extension.

KIN 802 Dissertation Extension 1-3
Dissertation Extension.

KIN 803 Research Extension 1-3

Korean (KOR)

KOR 101 Elementary Korean I 3
Introduction to the Korean language and culture. Emphasis on the basic writing system (Hangul), as well as on active listening, speaking, writing, reading, and applied vocabulary.

KOR 102 Elementary Korean II 3
Continued study of elementary-level Korean language and culture. Further study of the Hangul writing system with continued emphasis on listening, speaking, writing, and reading skills and applied vocabulary.
Prerequisites: KOR 101 or permission of instructor.
Notes: Students with previous knowledge of Korean are required to meet with a designated faculty member. Students who are native or heritage speakers of Korean MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.

KOR 203 Intermediate Korean I 3
Intermediate-level study of the Korean language and culture. Further acquisition of the Hangul writing system with continuing development of listening, speaking, writing, and reading skills and applied vocabulary.
Prerequisites: KOR 102 or permission of instructor.
Notes: Students with previous knowledge of Korean are required to meet with a designated faculty member. Students who are native or heritage speakers of Korean MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.

KOR 204 Intermediate Korean II 3
The second intermediate-level course on the Korean language and culture. Further acquisition of Hangul with continuing development of grammar concepts, applied vocabulary, and skills in listening, speaking, writing, and reading.
Prerequisites: KOR 203 or permission of instructor.
Notes: Students with previous knowledge of Korean are required to meet with a designated faculty member. Students who are native or heritage speakers of Korean MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.

Languages, Literatures, and Cultures (LLC)

LLC 111 Connection, Collaboration, and Inquiry 1
This course explores connections among diverse fields of study and/or perspectives to promote deeper understanding and develop global awareness, a capacity for active citizenship, collaboration, communication, and lifelong learning skills.
Prerequisites: Enrollment in the Global Village.
Notes: May be repeated once for credit.
LLC 120 Global Crossings: Topics in Images, Media, and Texts 3
This course explores global topics embodied in literature, film, music, art, and other cultural practices, from humanistic perspectives. Topics may include national identity, citizenship, immigration, space, memory, revolution, and hegemony.

MAC: MAC Global and Intercultural
Prerequisites: Living Learning Community. Students: placement test or consult with instructor;
Notes: Intended for freshmen. May be repeated once, when topic varies.

LLC 120R Global Crossings Recitation 0
Breakout session for LLC 120.

LLC 130 Global Green: Cultures of Production and/or Consumption 3
This course explores global sustainability by tracing products from origin to consumer, examining related cultural practices, including those embodied in literature, film, music, and art. Topics include textiles, chocolate, tea, and ecotourism.

MAC: MAC Diversity and Equity

LLC 130R Global Green Recitation 0
Breakout session for LLC 130.

LLC 222 Foundational Topics in Languages, Literatures, and Cultures 3
Study of texts linking language areas and cultural traditions. Topics may include national identity, space, and memory as shaped by cultural intersections.

MAC: MAC Global and Intercultural
Notes: Taught in English. May be repeated for a total of 6 s.h.

LLC 250 Global Cultures Through Film: Angles of Vision 3
This course explores global topics embodied in films produced in different regions of the world. It provides diverse cultural frames of reference and alternative perspectives on current global issues.

MAC: MAC Diversity and Equity

LLC 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

LLC 340 Topics: Languages for Professions 3
This course provides basic language skills in the non-English languages taught at UNCG for working in a variety of professional contexts.
Prerequisites: SPA 301 or SPA 302 or FRE 301 or GER 301. or permission of instructor;
Notes: May be repeated up to three times for a total of 9 s.h.

LLC 355 Topics in Languages, Literatures, and Cultures 3
Study in English of selected topics in literature or film linking multiple periods, language areas, and cultural traditions represented in LLC; includes guest seminars by department and visiting experts.
Prerequisites: LLC 120 or LLC 130. or permission of instructor;
Notes: May be repeated up to three times for a total of 9 s.h.

LLC 389 LLC Service Learning 3
Through hands-on service projects, students learn to collaborate, gather, and evaluate information, make connections among diverse perspectives, and develop global awareness, capacity for active citizenship, and skills for lifelong learning.

LLC 399 Cultural Immersion through Community-Based Service Learning 3
Field experience for undergraduates with basic to intermediate proficiency requiring interaction and/or active-language use in the community.
Prerequisites: Completion (or proficiency equivalent to) of 204 course number in the target language or permission of instructor.
Corequisites: 300-level course taught in the target language or permission of instructor.
Notes: Offered by UNCG summer Study Abroad programs.

LLC 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

LLC 412 Teaching Second Languages in K-12 3
Study of second language teaching approaches applicable to the K-12 school classroom. Students learn to develop and evaluate materials applicable to effective second language programs in K-12 schools.
Prerequisites: TED 445 and admission to teacher education program or permission of department.

LLC 419 Second Language Acquisition 3
Introduction to scientific research of the various processes of how people learn a second or foreign language.
Prerequisites: FRE 415 or SPA 415 or SPA 442 or SPA 445, or permission of department.

LLC 455 Advanced Topics: Rebels and Revolutionaries in Languages, Literatures, and Cultures 3
In-depth study of world literature, through a variety of critical and historical approaches, based on themes, geographical areas, genres, or periods exploring the concepts of rebellion and revolution.

MAC: CIC College Writing
Prerequisites: LLC 120 or LLC 130 or LLC 250. or permission of instructor;
Notes: May be repeated up to three times for a total of 9 s.h.

LLC 465 Student Teaching and Seminar in World Languages 12
Supervised student teaching in K-12 setting under the direction of university supervisor. Observation, participation, and appropriate classroom teaching experience on a full-time teaching assignment for a full semester with weekly seminar.
Prerequisites: LLC 512. TED 445; Senior standing; Admission to the Teacher Education Program or permission of department; overall 2.75 GPA as well as 2.75 GPA in the major.

LLC 468 African History and Cultures through Film 3
Examines how Africans are portrayed in a variety of film genres, focusing on representations of race, gender, class, and sexuality in world cinema and legacies of colonialism.
Notes: Same as HIS 469. may be repeated once for credit when topic varies.

LLC 499 Community-Based Service Learning 3
Through interaction with immigrants and refugees in the Greensboro community, students will use their second language skills with native speakers and act as a cultural broker (a bridge between both cultures) in this service-learning internship course.

LLC 512 Teaching Second Languages in K-12 3
Study of second language teaching approaches applicable to the K-12 school classroom. Students learn to develop and evaluate materials applicable to effective second language programs in the K-12 schools.
Prerequisites: TED 445 or TED 545 or permission of department.
LLC 519 Second Language Acquisition 3
Introduction to scientific research of the various processes of how people learn a second or foreign language.

LLC 568 African History and Cultures through Film 3
Examines how Africans are portrayed in a variety of film genres, focusing on representations of race, gender, class, and sexuality in world cinema and legacies of colonialism.
Notes: Same as HIS 568.

LLC 599 Community-Based Service Learning 3
Through interaction with immigrants and refugees in the Greensboro community, students will use their second language skills with native speakers and act as a cultural broker (a bridge between both cultures) in this service-learning internship course.

LLC 600 Methods of Teaching Modern Languages 3
Methods and techniques for teaching modern languages at the college level.
Prerequisites: Admission to MA in Languages, Literatures, and Cultures or departmental permission.

LLC 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

LLC 601 Research Methods and Critical Analysis 3
Research and analysis in literary and cultural criticism. Designed especially for entering MA students.
Prerequisites: Admission to MA in Languages, Literatures, and Cultures or departmental permission.

LLC 665 Clinical Practice/Seminar in Teaching World Languages 3-6
Clinical practicum in teaching foreign language. Observation, participation, and appropriate classroom teaching experience in a full-time teaching assignment with a weekly seminar.
Prerequisites: Permission of instructor.

LLC 701 Languages for Graduate Studies 3
Language course for graduate students. This course will develop the students' proficiency in a selected language (Arabic, ASL, French, Spanish, German, Japanese, Chinese, Russian) and promote research skills in a global context.
Notes: This course can be repeated up to 9 s.h. so that students can reach the proficiency level required for their programs.

LLC 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

Latin (LAT)

LAT 101 Elementary Latin I 3
Introduction to Latin. Emphasis on understanding principles of grammar and developing skills for reading Latin.

LAT 102 Elementary Latin II 3
Continuation of LAT 101. Emphasis on advanced grammar and selected readings.
Prerequisites: LAT 101 or appropriate score on the Latin placement exam.

LAT 140 Elementary Latin Review 3
Accelerated elementary curriculum for students with previous Latin experience or a demonstrable aptitude for second-language acquisition.

LAT 198 Latin Sight Reading 1
Sight reading of Latin texts from all periods of Latin literature. Does not count toward the language requirements of the College of Arts and Sciences or the Classical Studies major.
Prerequisites: LAT 203.
Notes: Grade: Pass/Not Pass (P/NP). May be repeated once for credit.

LAT 199 Conversational and Modern Latin 1
Practice in Latin conversation, supplemented by readings and informal exercises. Does not count toward the language requirements of the College of Arts and Sciences or the Classical Studies major.
Prerequisites: LAT 102 or LAT 140 or permission of instructor.
Notes: Grade: Pass/Not Pass (P/NP).

LAT 203 Intermediate Latin I 3
Designed to develop proficiency in reading of Latin and introduce students to Latin prose and poetry.
Prerequisites: A grade of C- or better in LAT 102 (or LAT 140). appropriate score on the Latin placement exam; or permission of instructor.

LAT 204 Intermediate Latin II 3
Study of Latin prose and poetry with continued emphasis on developing proficiency in reading Latin.
Prerequisites: LAT 203. appropriate score on the Latin placement exam; or permission of instructor.

LAT 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

LAT 302 Roman Letters Public and Private 3
The literary and social practice of letter-writing in ancient Rome viewed through selections from Cicero, Seneca, Pliny, and other authors.
Prerequisites: LAT 204 or permission of instructor.

LAT 303 Roman Comedy 3
Exploration of the role of theater and comedy in ancient Rome with selected readings from Rome's most important comic playwrights (Plautus and Terence).
Prerequisites: LAT 204 or permission of instructor.

LAT 312 Interpreting the Roman Past 3
Exploration of the literary (re)creation of Rome's past through selected readings from Roman historical authors such as Sallust, Caesar, Livy, Tacitus, and Suetonius.
Prerequisites: LAT 204 or permission of instructor.

LAT 314 Love and Sex in Ancient Rome 3
Selected readings that reveal ancient Roman attitudes and practices regarding love and sex. Latin authors will include Ovid, Catullus, and Lucretius.
Prerequisites: LAT 204. or permission of instructor.

LAT 321 Roman Satire and Ridicule 3
Exploration of the role of satire and ridicule in Latin literature with select readings from Catullus, Horace, Petronius, Martial, Juvenal, and other authors.
Prerequisites: LAT 204 or permission of instructor.

LAT 350 Special Topics in Latin Literature 3
Opportunity for students to work individually or in small groups on problems of special interest in Latin literature or language. Work may represent either survey of a given field or intensive investigation of particular problem.
Prerequisites: LAT 204. Student should consult instructor before registering for course.
LAT 351 Special Topics in Latin Literature 3
Opportunity for students to work individually or in small groups on problems of special interest in Latin literature or language. Work may represent either survey of a given field or intensive investigation of particular problem.
Prerequisites: LAT 204. Student should consult instructor before registering for course.

LAT 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

LAT 421 Great Roman Questions 3
A sampling of Roman inquiries into the great questions about the meaning of life and the nature of the universe. Readings selected from Cicero, Seneca, Lucretius, and others.
Prerequisites: LAT 204 or permission of instructor.

LAT 430 Latin Grammar and Composition 3
Intensive study of Latin grammar, syntax, and prose style; includes reading of Latin texts and translation into Latin from English. Required for initial licensure in Latin.
Prerequisites: LAT 204, or permission of instructor.

LAT 452 Teaching Secondary-Level Latin: Current Trends 3
Trends and issues in teaching Latin at the secondary level. Topics include: review of textbooks, use of technology, research on second language acquisition, reaching diverse learners, and other current issues.
Prerequisites: Admission to the Standard Professional I License or M.Ed. in Latin program, or permission of instructor.
Notes: This course does not fulfill Latin language major requirements. May be repeated once for credit when topic varies.

LAT 465 Student Teaching and Seminar in Latin 12
Supervised student teaching of Latin. Observation, participation, and appropriate classroom teaching experience for a semester with weekly seminar.
Prerequisites: LAT 452. CLAS major with Latin licensure (U129); senior standing; 2.75 cumulative GPA; 3.0 GPA in LAT courses above the 100 level;
Notes: Grade: Pass/Not Pass (P/NP).

LAT 471 Medieval and Renaissance Latin 3
Selections from Medieval and Renaissance prose and poetry.
Prerequisites: Permission of the instructor.

LAT 552 Teaching Secondary-Level Latin: Current Trends 3
Trends and issues in teaching Latin at the secondary level. Topics include: review of textbooks, use of technology, research on second language acquisition, reaching diverse learners, and other current issues.
Prerequisites: Admission to the Standard Professional I License or M.Ed. in Latin program, or permission of instructor.
Notes: This course does not fulfill Latin language major requirements. May be repeated once for credit when topic varies.

LAT 571 Medieval and Renaissance Latin 3
Selections from Medieval and Renaissance prose and poetry.
Prerequisites: Permission of the instructor.

Liberal Studies (BLS)

BLS 221 Know Slow - Countering the Culture of Speed 3
This course examines the recent cultural movement of "slow," which includes Slow Food, Slow Looking, and Slow in the Arts, Literature, and Contemplative Practices. Slow arts and practices can help support students' metacognitive learning and their individual mental health and wellness.
MAC: MAC Health and Wellness

BLS 222 Notes from Underground: Resistance and Everyday Culture 3
Explores Cold War culture through the everyday ways Soviet citizens responded to official state narratives through literature, music, dress, and economic and consumer practices. Includes a comparative component with American culture of the same era.
MAC: MAC Global and Intercultural

BLS 241 Visualizing Disability 3
Students will compare and contrast various cultural frameworks for visualizing disability in art, film, television, and other forms of visual culture. Initial readings provide background on major issues and arguments in disability studies, as well as draw connections between disability and other aspects of identity, especially gender. The course will then move toward establishing techniques, drawn from core disability studies criticism, to analyze visual representation of disability in art, film, commercial advertising, charity depictions, medical images, and the freak show.
MAC: MAC Diversity and Equity

BLS 300 Seminar in Humanities 3
Interdisciplinary online seminar designed to introduce students to substantive concerns in the Humanities and methods of investigation they employ. Topics vary by semester.
Notes: May be repeated for credit when topics vary.

BLS 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

BLS 301 Pathways: Reading and Writing in the Humanities 3
Introduction to different modes of enquiry that make up the Humanities: Literature, Fine Arts, Philosophy/Religion/Ethics, and History. Emphasis on the development of academic skills in an online learning environment.
CIC: CIC College Writing

BLS 320 Selected Topics: Literature 3
Online course that examines selected topics in world literature exploring works of prose and/or poetry from diverse cultural traditions and periods. Topics vary by semester.
Notes: May be repeated for credit when topics vary.

BLS 321 Reading and the Human Experience 3
Exploration of individual experience, interpersonal relationships, and cultural identity through the reading and critical analysis of works of short fiction from the 19th through the 21st centuries.

BLS 322 Revolutionary Lives 3
Examination of 19th–20th century Russian novels of conscience within their historical contexts and as related to the broader struggle between authority and conscience throughout history.

BLS 323 Short Reads 3
21st-century stories and other short writings from around the world, with a focus on current social, cultural, and global issues.
BLS 324 Banned Books 3
A study of books that have been banned or censored in the US, the reasons for those restrictions, and the legal and social forces that opposed them.

BLS 325 Mystery, Mayhem, and Murder 3
Examination of mystery and detective fiction from British and American authors throughout the history of the genre. Considers theory about narrative and mystery, and genre fiction as social commentary.

BLS 326 Telling Stories: The Memoir 3
Examination and analysis of contemporary book-length memoirs, personal memory essays, and self-portrait paintings; includes some creative writing.

BLS 327 Contemporary Asian Literature 3
Exploration of novels by major authors from South Asia and East Asia in the last half century. Examines cultures and politics, and relationships with the Western world.

BLS 340 Selected Topics: Fine Arts 3
Online course that examines selected topics in the fine arts exploring the aims and methods of artistic expression and the role of cultural traditions and artistic values in human society.
Notes: May be repeated for credit when topics vary.

BLS 342 Painting on the Page 3
Studies literary texts about works of Western art; explores the relationship between the interpretation of pictures and written texts, and considers questions about art, beauty, truth, and aesthetic experience.

BLS 343 Big Plays, Big Ideas 3
Examines great plays, classic to modern, that grapple with significant issues and ideas, and illuminate the human experience on the page and on the stage.

BLS 345 Photography: Contexts and Illusions 3
Examines the history, theory, and contexts of photography since its development. Explores uses and abuses of photography in science, art, and media; examines how photography crosses and confuses visual genres.

BLS 346 The Art of Life 3
Explores the relationship between the creative arts and human values, ideas, and emotions. Theme of “getting lost” in the creative process, which leads to discovery and insight—the accidental masterpiece.

BLS 347 Shakespeare Off the Page 3
Examines a selection of Shakespeare’s major plays not only as universal and timeless works of literature, but as blueprints for live theatre productions and film performances for modern audiences.
CIC: CIC College Writing

BLS 348 Representing Women 3
Focuses on women as producers, consumers, and subjects of visual culture. Examines the Feminist art movement, Feminist critiques of popular culture, and the significance of visual representation to political representation.

BLS 360 Selected Topics: Philosophy/Religion/Ethics 3
Online course that examines selected topics in philosophy, religion, and ethics; compares assumptions, modes of thought, and attendant practices, and analyzes their effects on behavior and human society.
Notes: May be repeated for credit when topics vary.

BLS 361 American Dreams 3
Study of the “American Dream,” its origins and historical development through its contemporary relevancy. Themes include freedom, immigration, nationalism, commercialism, class in America, the Dream’s corollary: the American Nightmare.

BLS 362 Vice, Crime, and American Law 3
An examination of the moral concept of "vice" and its application in American criminal law. Topics include gambling, prostitution, pornography, drugs, hate speech, and laws prohibiting gay marriage.

BLS 363 Ethics and Technology 3
An examination of ethical problems created by technology. Additional emphasis given to the historical, legal, and cultural impacts technology has had on our society.

BLS 364 Mystics in America 3
Investigation of popular trends in contemporary American spirituality with attention to the historical roots that may or may not lie behind them.

BLS 365 Divided We Stand 3
Exploration of the relationship between religion and democracy in America. Topics include religion in the nation’s founding, America as a secular state, religious pluralism, and religion in public discourse.

BLS 366 Life, Death, and Meaning 3
An examination of philosophical writings concerning death and the meaning of life. Plays, poems, art, literature, and films that apply or illustrate the philosophical works are also examined.

BLS 380 Selected Topics: Historical Perspectives 3
Online course that examines selected topics in history and explores the context of events (social structure, economics, political systems, culture, or beliefs) in a specific region and period.
Notes: May be repeated for credit when topics vary.

BLS 381 Old Europe/New Europe 3
Interdisciplinary cultural history of Europe from the French Revolution to the present. Introduction to key historical figures, cultural movements, and artistic developments.

BLS 382 The Sixties 3
Exploration of the cultural and political changes in American society during the 1960s and early 1970s.

BLS 383 Religious Resistance to Political Power 3
Explores religious resistance to atheist Soviet doctrine within the Soviet Union itself, in Communist Poland, and in Soviet-occupied Afghanistan. Examines relationships between religion and society in each context.

BLS 384 Great Trials in American History 3
Explores changes in American culture, society, and legal customs through the study of specific trials throughout American history, from the colonial period through the twentieth century.

BLS 385 American Motherhood 3
Examines representations of motherhood throughout American history in the media and in scholarly and creative literature. Explores the mothering experiences of women of different races, classes, and generations.

BLS 386 Women, War, and Terror 3
Examines women as victims and critics of war and terror in the 20th century, primarily through autobiographical writings, and explores broader questions of gender, language, power, and resistance.
BLS 387 Entrepreneurship in American History 3
This course will examine entrepreneurs who shaped the contours of the American economy from the first transatlantic trade routes to the World Wide Web. We utilize entrepreneurship to analyze the development of American capitalism from a string of coastal colonies to an economic world power.
Notes: Same as ECO 387, ENT 387.

BLS 400 Senior Seminar in the Humanities 3
Online, capstone experience for majors. Students compile Web portfolio of work from classes in the major. Course serves as a method of assessment for majors.
CIC: CIC College Writing
Prerequisites: Admission to major. Written Permission Required.

BLS 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

BLS 401 Individual Study 1-3
Directed program of reading and/or research in the humanities. Available to majors upon recommendation of an instructor and approval of the program directors.
Prerequisites: Admission to major, successful completion of one semester of course work at UNCG; permission of an approved, cooperating instructor.

Library and Information Science (LIS)

LIS 120 Introduction to Instructional Technology for Educational Settings 1
Provides an introduction to instructional technology, knowledge, and skills for classroom settings.
Notes: For students seeking initial North Carolina teaching licensure in any area. Students may not receive credit for both LIS 120 and TED 120. Same as TED 120.

LIS 200 Information Use in a Digital World 3
Prepares students to access, evaluate, and manage information to meet personal and academic needs. Focuses on personal information management, digital security/privacy, and ethical issues, including plagiarism, source citation, and fair-use.

LIS 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

LIS 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

LIS 430 Researching Opportunities in Entrepreneurship and Economic Development 3
Students will learn how to conduct research necessary to make informed decisions for an entrepreneurial venture and measure and assess economic development opportunities. No business research experience necessary.
Prerequisites: Junior, senior, or graduate standing.
Notes: Same as ENT 430, GEO 430, MKT 430.

LIS 530 Researching Opportunities in Entrepreneurship and Economic Development 3
Students will learn how to conduct research necessary to make informed decisions for an entrepreneurial venture and measure and assess economic development opportunities. No business research experience necessary.
Notes: Same as GES 630, ENT 630, MKT 530.

LIS 600 Foundations of Library and Information Studies 3
Survey of access issues in library and information studies; professional operations and potential roles in society.
Notes: Required for all MLIS students in first year. Core course.

LIS 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

LIS 604 The History of Libraries and Librarianship 3
Examines the history of libraries in the western world with particular emphasis on the United States.

LIS 610 Collection Management 3
Principles, processes, and problems in selection, evaluation, and acquisition of resources for libraries and information centers.

LIS 617 Materials for Children 3
Survey of resources for early childhood through elementary school levels, study of selection aids and criteria, use of resources, and investigation of reading, listening, viewing interests.

LIS 618 Materials for Adolescents 3
Survey of resources and services appropriate for adolescents, study of selection aids and criteria, use of resources, and investigation of reading, listening, viewing interests.

LIS 619 Storytelling 3
Storytelling and digital storytelling methods, techniques, and materials including literature and programming.
Prerequisites: Admission to the MLIS degree program.

LIS 620 Information Sources and Services 3
Covers philosophy and techniques of matching information to people's needs. Introduces human information behavior and information retrieval concepts; prepares students to meet needs through needs assessment, source selection, and user-instruction.

LIS 623 Principles of Database Information Retrieval 3
Principles of bibliographic database structure, evaluation, and utilization for effective search strategy formulation, critical evaluation of retrieved information, and presentation of results.
Prerequisites: LIS 620.

LIS 628 Science and Technology Information Sources 3
Major bibliographic and information sources and services in the sciences and technology.
Prerequisites: LIS 600, LIS 620, or permission of instructor.

LIS 630 Computer Technologies for Information Management 3
Essential computer-related technologies in a library/school/information agency environment.
Prerequisites: LIS 600 or permission of instructor.

LIS 631 Emerging Technological Trends in Information Access 3
Emerging technologies in libraries including local regional, national, and international communication systems for information transfer as these trends impact delivery of information to library and information center users.
LIS 634 Libraries and Makerspaces 3
This course provides an introduction to makerspaces within libraries. Topics include financing, programming and assessment.
Prerequisites: Admission to the MLIS degree program.

LIS 635 Libraries and Technology 3
Media and technology applications in libraries and information agencies. Develops competencies in designing, developing and producing, and presenting media and technology.

LIS 636 Website Production and Usability for Librarians 3
Introduction to Website production and usability issues that are particularly relevant to librarians. Emphasis on seeking to understand and enhance users' experiences.

LIS 637 Instructional Communication and Technologies 3
This course will cover the theoretical foundations of communication and provide applied experience with contemporary instructional technologies across diverse learning environments. This will include social media, basic HTML, video production, screencasting, and use of other software to assist in both the synchronous and asynchronous teaching and learning process.

LIS 639 History of Information Technologies 3
This course covers the history of technologies used to record and disseminate information, focusing on books along with a variety of audiovisual technologies and digital formats. The course emphasizes the role of information professionals and institutions in preserving this history.

LIS 640 Information Organization and Access 3
Introduction to the organization of information and collections to enhance access. Topics include format choice, verification of appropriate sources, collection definitions, methods and systems of description, classification, and metadata assignment.

LIS 641 Cataloging and Classification 3
Cataloging and classification of materials using current cataloging codes and appropriate techniques of subject analysis and classification.
Prerequisites: LIS 640 or permission of instructor.

LIS 642 Seminar in Indexing and Abstracting 3
Critical study of print and computer-assisted indexes and indexing with creation of thesaurus, indexes, and concordances. Study of database management program indexing and indexing of internet resources.
Prerequisites: LIS 600, LIS 640, or permission of instructor.

LIS 643 Metadata 3
Introduces conceptual and practical metadata knowledge. Identifies commonalities among metadata schemas and reviews design and profiling processes related to needs of various application domains and environments.
Prerequisites: LIS 640 or permission of instructor.

LIS 644 Digital Libraries 3
Introduces processes, procedures, and systems for the collection development of unique digital resources in libraries, archives, and museums. Includes basics of digitization, standards for different formats, and curation of electronic materials.
Prerequisites: LIS 640.

LIS 649 Music Librarianship 3
This course covers a number of aspects of music librarianship, including music collections, reference, technology, and copyright.

LIS 650 Leadership and Management in Information Organizations 3
Emphasizes management functions, resource management, and application of concepts to management situations in libraries and information centers. (Core course)

LIS 653 The School Library 3
The role and function of the school library media center; planning, evaluation, and program development.
Prerequisites: LIS 600, LIS 650, or permission of instructor.

LIS 654 School Library Media Specialist and the Curriculum 3
Relationship of the library media program to the school curriculum; library/media and computer skills K-12 instructional program. Observation and practice in school settings.

LIS 655 The Public Library 3
The public library in the governmental structure, the librarian as a public administrator, financial and cooperative planning, library services, community analysis.

LIS 656 The Academic Library 3
Major trends, issues, and problems in the organization and provision of services in college and university libraries.
Prerequisites: LIS 600, LIS 650 or permission of instructor.

LIS 657 The Special Library 3
Major trends, issues, and problems in the provision of services in profit and not-for-profit special libraries.
Prerequisites: LIS 600, LIS 650, or permission of instructor.

LIS 658 Archival Management 3
Survey of archival management theory and practice, including the appraisal, acquisition, and organization of archival materials and the role of technology in preserving and providing access to collections.

LIS 661 Library and Information Science Research 3
Problems of concern to libraries and information center personnel, including application of interdisciplinary concepts and research methods.

LIS 662 Information Services to Diverse Client Groups 3
Changing demographic patterns affecting library and information services in all types of libraries. Services, collections and staffing to reflect a variety of cultural/ethnic experiences/needs.

LIS 663 Library Services for Young People 3
Planning, evaluation, and administration of programs and services designed to meet the needs of individuals and groups of children and adolescents; current issues in public libraries.

LIS 664 Reading, Literacy, and the Library 3
Introduction to the development of reading and literacy skills, the needs of readers (early childhood to adult), and strategies for librarians to support this development.

LIS 665 Information Literacy 3
Introduce concepts of information literacy, teaching philosophies and techniques, and assessment.
Prerequisites: LIS 620.

LIS 666 Information Ethics and Policy 3
Examination of legal and ethical aspects of information ethics and policies in libraries/information centers. Covers traditional concerns of access to print, government information, and issues of technology access, privacy concerns.

LIS 667 Information Services for Adults 3
Design, planning, evaluation, and administration of information services designed to meet lifelong learning goals and needs of individuals and groups of adults in information organizations. Primary emphasis on public libraries.
LIS 668 Community Informatics 3  
A survey of key concepts in the field of Community Informatics, which focuses on how communities access, learn, and apply information and communications technologies (ICTs). Practical studies in this area consider how social, cultural, political, and economic factors influence the adoption and use of ICTs among members of specific communities. This course introduces students to key concerns in community informatics, including, among other things, digital literacy, digital divide issues (e.g., access, skills, and cultural divides), the role of ICTs in cultural heritage, and community development using ICTs. Learning experiences in this course will employ literature-based discussion and experiential learning at case sites using relevant ICTs, including public libraries.

LIS 669 Educational Implications of Learning and Developmental Theory 3
How learning and developmental theories define the teacher's role as an instructional leader, how curricular materials might be designed and used, and student learning and motivation.  
Notes: Same as TED 669.

LIS 670 Educational Foundations for School Librarians 3
Focuses on historical, philosophical, sociological, and legal foundations of education with an overview of and introduction to the roles of the school library and librarian. Explores standards, assessment, issues, and trends.

LIS 671 Designing Blended and eLearning Environments 3
This course utilizes an advanced instructional design process to engage in designing, producing, managing and assessing learning environments delivered in multiple modalities, including blended, hybrid, synchronous, asynchronous, and hyflex. It considers strengths and weaknesses of each modality and helps learners identify best practices for designing effective instruction across modalities.  
Prerequisites: LIS 672.

LIS 672 Instructional Design 3
Components of the systems approach to instructional design.  
Notes: Same as TED 672.

LIS 674 Seminar: Issues and the Virtual Community 3
Major social and ethical issues emerging in the virtual community including those embraced by access, privacy, intellectual property, freedom of speech, institutional/social control, and evolving formats.  
Notes: Same as TED 674.

LIS 675 eLearning Design 3
Focuses on planning, design, implementation, facilitation, and assessment of learning in online and blended contexts.  
Prerequisites: Core courses, LIS 672.

LIS 676 Introduction to Equity Education 3
Designed to support students in expanding their views about equity and education to include family and community practices around broadened understandings of community/cultural assets for pedagogical practices.  
Notes: Same as TED 646.

LIS 677 Capstone Experience in Instructional Technology 3
Field-based capstone project and culminating portfolio. Must be taken in the final semester prior to graduation.  
Prerequisites: Completion of all other degree requirements and permission of instructor.  
Notes: Required in final semester of the program, consult department website for details. Grading method is Satisfactory/Unsatisfactory (S/U).

LIS 685 Seminar in Library Administration and Management 3
Exploration of advanced topics in library administration and management with an emphasis on library and information agencies.  
Prerequisites: LIS 650 or permission of instructor.

LIS 688 Seminar in Selected Topics 1-4
Contemporary issues and current trends in librarianship, educational technology, and information science. Topics to be identified for a particular seminar.  
Notes: Course may be repeated when topic varies.

LIS 690 Independent Study 1-4
Guided readings, research, and individual project work under direction of faculty.  
Prerequisites: LIS 600 or permission of instructor.

LIS 691 Practicum 3-6
Supervised field experience in library/media center settings, with seminars. Credit required will vary with individual needs.  
Prerequisites: LIS 600 and permission of instructor.  
Notes: Only 3 hours credit may count towards MLIS degree. Grade: Satisfactory/Unsatisfactory (S/U).

LIS 692 Field Experience in School Library Media 3
Supervised field experiences in a school library media center with seminars, observation, and exploration into the school setting and media coordinator roles, for students with no teaching license.

LIS 693 Practicum/Capstone Experience in School Library Media 3
Supervised capstone field experience in a school library media center with seminars and culminating portfolio. Must be taken in final semester prior to graduation.  
Prerequisites: Written permission of instructor.

LIS 694 Supervision: School System Library Media Programs 3
Principles and problems in administration and supervision of the district level library/media program of the school system.  
Prerequisites: Permission of instructor.

LIS 698 Capstone Experience in Library and Information Science 1-3
Capstone supervised field experience/project and culminating portfolio. Must be taken in the final semester prior to graduation.  
Prerequisites: Completion of all other degree requirements and permission of instructor.  
Notes: Required in final semester of M.L.I.S. program. Consult department website for details. Grading method is Satisfactory/Unsatisfactory (S/U).

LIS 700X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

LIS 803 Research Extension 1-3
Research Extension.

Management (MGT)

MGT 300 Management of Organizations 3
An introduction to how managers coordinate human and material resources to achieve organizational goals. Effective management practices that can be applied to business organizations.  
Prerequisites: Sophomore standing and a 2.0 GPA.

MGT 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.
MGT 301 Introduction to International Business 3
Introduction to the environmental factors which increasingly cause businesses to become international in the scope of their activities. Nature of global business and multinational organizations analyzed.
Prerequisites: Major in ACCT, BADM, ECOS, ENTR, FINC, HTMT, INTB, ISSC, or MKTG.

MGT 302 International Business: Operations and Environments in Foreign Jurisdictions 3
Study of international business environments from the managerial aspect, and of practices and principles of conducting international business from the perspective of a specific foreign country.
Prerequisites: Admission to an approved program.

MGT 303 Experience Business Abroad 2-6
Practices and principles for conducting business in foreign countries. Experiential learning in international management and entrepreneurship. Course is an approved substitute for study-abroad requirements for International Business Studies majors.
Prerequisites: Admission to an approved program. 3.0 GPA;
Notes: May be repeated for credit if course is taken in different country.

MGT 304 Current Issues in International Business 3
Selected topics in international business presented by visiting faculty. Topics are related to the expertise of the instructor.
Prerequisites: Major in ACCT, BADM, CARS, ENTR, FINC, HTMT, INTB, ISSC, or MKTG.

MGT 312 Organizational Behavior 3
Businesses as a generic class of organization. Relation of individual worker and manager to organization and its impact upon them. Formal and informal groups. Management from behavioral point of view. Stability and change within business organizations.
Prerequisites: Sophomore standing and Pre/Major in ACCT, BADM, CARS, ECON, ECOS, ENTR, FINC, HTMT, INTB, ISSC, or MKTG.

MGT 313 Human Resource Management 3
An analysis of how human resources contribute to organizational performance, and the management of those human resources including recruitment, selection, compensation, training and development, performance, appraisal, and union/management relations.
Prerequisites: Major in ACCT, BADM, CARS, ENTR, FINC, HTMT, INTB, ISSC, or MKTG.

MGT 314 Industrial and Organizational Psychology 3
Introduction to industrial and organizational psychology with special emphasis on employee motivation, selection, training, and organizational determinants of employee behavior.
Prerequisites: Major in ACCT, BADM, CARS, ENTR, FINC, HTMT, INTB, ISSC, or MKTG.
Notes: Same as PSY 314.

MGT 315 Selection and Compensation 3
Prerequisites: MGT 313. major in ACCT, BADM, CARS, ENTR, FINC, INTB, ISSC, MKTG, or STHP.

MGT 317 Training and Development in Organizations 3
Principles of training and development. Training needs, assessment, training solutions to organization problems, skill training, different training options, and ways of integrating new behavior and attitudes into the organizational system.
Prerequisites: Major in ACCT, BADM, CARS, ENTR, FINC, HTMT, INTB, ISSC, or MKTG.

MGT 318 Organizational Change and Development 3
Introduction to the professional practice of OCD. Topics include overcoming resistance to change, the consultant/client relationship, diagnosis of organizational problems, and interventions
Prerequisites: Junior standing. major in ACCT, BADM, CARS, ENTR, FINC, HTMT, INTB, ISSC, or MKTG.

MGT 330 The Legal Environment of Business 3
Survey of the legal, political, and ethical environment in which business decisions are made. Antitrust, employment, and consumer laws included. Federal, state, and international laws covered.
Prerequisites: Sophomore standing and Pre/Major in ACCT, BADM, CARS, ECON, ECOS, ENTR, FINC, HTMT, INTB, ISSC, or MKTG. or permission of instructor.

MGT 354 Diversity and Inclusion in Organizations 3
Explores diversity in the workplace. Diversity is defined, examined, and discussed as opportunities for companies to discover and appreciate differences while developing more effective organizations.
Prerequisites: Junior standing.

MGT 375 Management Process Skills 3
Practical application of management theory. Processes for performing the basic management functions of decision making, planning, organizing, leading, and controlling. Application of the processes to management cases.
Prerequisites: Admission to approved program.

MGT 400 Cybersecurity Management 3
Examines cyber-threats facing organizations and individuals and analyzes mechanisms to strengthen cybersecurity. Introduces tools, policies, concepts, safeguards, guidelines, risk management, actions, training, best practices, assurance and technologies to enhance cybersecurity.

MGT 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

MGT 403 Decision Making in Organizations 3
Examination of decision making from psychological, rational, and statistical approaches. Topics include common biases, rationality and bounded rationality, escalation of commitment, group, ethics, negotiations, and emotions in decision making, improving decision making.
Prerequisites: MGT 312. Junior standing.

MGT 414 Human Resource Information Systems 3
Application of ERP systems to managing human resource information. Topics include SAP, job analysis/evaluation, human resource planning, recruiting, screening, selection, training, employee development, performance appraisal, compensation, benefits.
Prerequisites: MGT 313 or ISM 301. major in ACCT, BADM, CARS, ENTR, FINC, HTMT, INTB, ISSC, or MKTG.

MGT 475 Employment and Human Resource Law 3
National Labor Relations Act, Fair Labor Standards Act (including equal employment), and other statutes and court decisions relating to employment relations and their effect on managerial practices.
Prerequisites: Junior standing. MGT 330; Admission to approved program.
MGT 491 Business Policy and Strategy 3
Capstone case course in top management policy and strategy determination. Students learn to integrate various business functions and to develop skills and judgment in solving problems of the organization as a total system in relation to its environment.
Prerequisites: FIN 315. ISM 280; MGT 301, MGT 312; MKT 309, MKT 320; senior standing; major in ACCT, BADM, ECOS, ENTR, FINC, HTMT, INTB, ISSC, or MKTG.

MGT 493 Honors Work 3-6
Honors Work.
Prerequisites: Permission of instructor. 3.30 GPA in the major, 12 s.h. in the major;
Notes: May be repeated for credit if the topic of study changes.

MGT 499 Problems in Management 3
Independent study, research, and class discussion covering a topic or group of related topics of current interest in theory or policy of the business enterprise. Topics vary from semester to semester.
Prerequisites: Senior majors. permission of instructor;
Notes: May be repeated for credit with approval of department head.

Marketing (MKT)

MKT 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

MKT 309 Business Communication & Innovation 3
Business and professional communication: teamwork, communication technology, verbal and non-verbal strategies in a problem-solving, innovation context. Emphasizes effective persuasive, interpersonal, intercultural, and organizational strategies through business styles, formats, and presentations.
Prerequisites: Junior standing, major in ACCT, BADM, CARS, ECOS, ENTR, FINC, HTMT, INTB, ISSC, or MKTG.

MKT 320 Principles of Marketing 3
Introduction to marketing with an emphasis on market segmentation, targeting, and positioning for consumer and business markets in domestic and international economics.
Prerequisites: ACC 201 (or ACC 218), CST 105, ECO 201, ISM 110, and any one of the following: MAT 115, MAT 120, MAT 150, MAT 151, MAT 191, MAT 292. major in ACCT, BADM, CARS, ECOS, ENTR, FINC, HTMT, INTB, ISSC, or MKTG.

MKT 324 Professional Selling 3
Professional selling provides students with the knowledge and skill sets needed to give them the ability to make effective sales presentations to businesses or consumers, including direct selling.
Notes: Same as ENT 324.

MKT 326 Introduction to Retailing 3
Introductory course in the fundamentals of store organization, management, and merchandising.
Prerequisites: Grade of C or better in MKT 320. junior standing; major in ACCT, BADM, CARS, ENTR, FINC, HTMT, INTB, ISSC, or MKTG.

MKT 328 Sales Leadership 3
Problems in selling, direct selling, and sales management are dealt with from the strategic marketing perspective. The sales management process is addressed from the perspective of the profit-maximizing allocation of resources of the firm. Students in this class analyze cases in direct selling and evaluate optimal ways to build a strong direct selling team.
Prerequisites: Sophomore standing.
Notes: Same as ENT 328.

MKT 330 Social Media: A Marketing Perspective 3
Students explore how stakeholders define, measure, and assign value to corporate social media efforts. Skills are developed in managing change, innovation, and stakeholder partnerships related to social media.
Prerequisites: Grade of C or better in MKT 320.

MKT 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

MKT 403 Entrepreneurial Marketing 3
Focuses on marketing strategy, planning, and tactics for entrepreneurial firms. Addresses general marketing and selling issues -- including direct selling -- and specific "real world" marketing problems. Student teams will work on a specific start-up case and develop a marketing plan for that firm.
Notes: Same as ENT 403.

MKT 407 Sports Marketing 3
Sports marketing applies marketing, promotion, and sales tools and techniques to the specific domain of sporting events, sporting activities, and sports related products.
Prerequisites: Junior standing.

MKT 420 Key Account Selling 3
Key account selling addresses the issues and problems salespeople must overcome when making a major sale (in terms of revenue or customer importance) in very competitive settings.

MKT 421 Promotion Management 3
Promotion process and decision criteria for making promotion management decisions. Emphasis on behavioral and communicative aspects of advertising, personal sales, direct selling, and other promotional tools from a management decision-making viewpoint.
Prerequisites: Grade of C or better in MKT 320. major in ACCT, BADM, CARS, ENTR, FINC, HTMT, INTB, ISSC, or MKTG.

MKT 422 Fundamentals of Marketing Research 3
Conceptual foundation of qualitative and quantitative marketing research, sampling theory, experimental design, and psychological scaling techniques, along with analytic skills using user-friendly data analysis software. Case analysis as well. Student develops application abilities through assignments and a course project.
Prerequisites: ECO 250. grade of C or better in MKT 320. major in ACCT, BADM, CARS, ENTR, FINC, HTMT, INTB, or MKTG;
Notes: Same as ENT 422.

MKT 424 Consumer Behavior 3
Psychological and socioeconomic factors affecting consumer motivation, behavior, and buying decisions. Emphasis on current research on, and theory about, behavior of consumers as individuals and as members of socioeconomic groups.
Prerequisites: Grade of C or better in MKT 320. junior standing; major in ACCT, BADM, CARS, ENTR, FINC, HTMT, INTB, ISSC, or MKTG.
MKT 426 International Marketing 3
Issues in international marketing are addressed from both theoretical and experiential learning perspectives. A comprehensive team-based project involves the intensive use of the Internet in accessing electronic databases.

Prerequisites: Grade of C or better in MKT 320, major in ACCT, BADM, CARS, ENTR, FINC, HTMT, INTB, ISSC, or MKTG.

MKT 427 Personal Selling Internship 3
Minimum of 100 hours planned work experience in an organization with a personal sales force. Instructor will provide placement or must approve placement in advance.

Prerequisites: Permission of Instructor.

Notes: Same as ENT 427.

MKT 429 Advanced Marketing Management 3
Advanced analysis and decision-making techniques in marketing. Emphasis on strategic view. Major group project involves working with organizations to develop and present an actual marketing plan.

Prerequisites: MKT 422 or MKT 440, major in ACCT, BADM, CARS, ENTR, FINC, HTMT, INTB, ISSC, or MKTG.

MKT 430 Researching Opportunities in Entrepreneurship and Economic Development 3
Students will learn how to conduct research necessary to make informed decisions for an entrepreneurial venture and measure and assess economic development opportunities. No business research experience necessary.

Prerequisites: Junior, senior, or graduate standing.

Notes: Same as ENT 430, GES 430, LIS 430.

MKT 440 Digital Marketing Analytics 3
Students are introduced to the marketing analytics process with emphasis on analyzing digital marketing data. Students learn common performance metrics of digital marketing data and how to analyze digital data.

Prerequisites: MKT 320 and MKT 330.

MKT 444 Effective Selling 3
Designed to enhance the student's ability to present a product/service in a sales setting and negotiate the sale through an effective and efficient process.

Prerequisites: Junior standing.

MKT 450 Marketing Internship 3
Planned work experience in a marketing firm or the marketing department of a business/organization. Instructor must approve internship in advance.

Prerequisites: MKT 320 and MKT 422. 2.75 or higher GPA; permission of instructor.

Notes: Grade: Pass/Not Pass (P/NP).

MKT 493 Honors Work 3-6
Honors Work.

Prerequisites: Permission of instructor. 3.30 GPA in the major, 12 s.h. in the major.

Notes: May be repeated for credit if the topic of study changes.

MKT 530 Researching Opportunities in Entrepreneurship and Economic Development 3
Students will learn how to conduct research necessary to make informed decisions for an entrepreneurial venture and measure and assess economic development opportunities. No business research experience necessary.

Notes: Same as GES 630, LIS 530, ENT 630.

Master of Applied Arts and Sciences (MAS)

MAS 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

MAS 610 Culture and Ideas 3
Artistic, literary, philosophical, or religious traditions, works of particular thinkers, and historical discourse on intellectual issues.

Notes: May be repeated for credit when topic varies.

MAS 610A Culture and Ideas 3
Artistic, literary, philosophical, or religious traditions, works of particular thinkers, and historical discourse on intellectual issues.

Notes: May be repeated for credit when topic varies.

MAS 610B Culture and Ideas 3
Artistic, literary, philosophical, or religious traditions, works of particular thinkers, and historical discourse on intellectual issues.

Notes: May be repeated for credit when topic varies.

MAS 610C Culture and Ideas 3
Artistic, literary, philosophical, or religious traditions, works of particular thinkers, and historical discourse on intellectual issues.

Notes: May be repeated for credit when topic varies.

MAS 610D Culture and Ideas 3
Artistic, literary, philosophical, or religious traditions, works of particular thinkers, and historical discourse on intellectual issues.

Notes: May be repeated for credit when topic varies.

MAS 610E Culture and Ideas 3
Artistic, literary, philosophical, or religious traditions, works of particular thinkers, and historical discourse on intellectual issues.

Notes: May be repeated for credit when topic varies.

MAS 610F Culture and Ideas 3
Artistic, literary, philosophical, or religious traditions, works of particular thinkers, and historical discourse on intellectual issues.

Notes: May be repeated for credit when topic varies.

MAS 611 Design Thinking 3
This course uses experiential learning and application of the design thinking process to teach tools and methodologies for approaching real world problems.

MAS 612 The Contemporary World 3
Examine issues in the contemporary world, focusing mainly on the post-World War II period, from the dropping of atomic bombs on Japan in August 1945, to the complex, high-tech world of today.

MAS 613 Literature of Migration 3
This course aims to deepen the understanding of how narratives help us connect our own lives to those who are in transition and crossing borders.

MAS 620 Human Nature and Society 3
Issues concerning human nature, society, or political life through works or problems from the various social sciences.

Notes: May be repeated for credit when topic varies.

MAS 620A Human Nature and Society 3
Issues concerning human nature, society, or political life through works or problems from the various social sciences.

Notes: May be repeated for credit when topic varies.
MAS 620B Human Nature and Society 3
Issues concerning human nature, society, or political life through works or problems from the various social sciences.
Notes: May be repeated for credit when topic varies.

MAS 620C Human Nature and Society 3
Issues concerning human nature, society, or political life through works or problems from the various social sciences.
Notes: May be repeated for credit when topic varies.

MAS 621 Systems Thinking 3
The primary goal of the course is for you to learn the tools of systems analysis and apply your skills to real world systemic problems to promote genuine, lasting change.

MAS 622 Global Trade 3
The course highlights the theory of free trade, investigating how free trade might or might not work, and for whose benefit.

MAS 623 Global Human Rights 3
Students utilize a fictional case study approach to develop human rights investigation and critical reporting skills, and analyze human rights documents.

MAS 624 Dignity, Identity, and Power 3
In this course, students will explore ways of understanding the problems of domination and injustice and real or perceived inequity-driven identity group or populist movement formation.

MAS 630 Scientific Reasoning 3
Reflections on scientific reasoning and/or investigations of particular problems to illustrate scientific reasoning.
Notes: May be repeated for credit when topic varies.

MAS 630A Scientific Reasoning 3
Reflections on scientific reasoning and/or investigations of particular problems to illustrate scientific reasoning.
Notes: May be repeated for credit when topic varies.

MAS 631 Understanding Data 3
Reflections on scientific reasoning and/or investigations of particular problems to illustrate scientific reasoning.

MAS 632 Integrative Thinking 3
Integrative Thinking is the intersection of Design Thinking, Systems Thinking, and Understanding Data. These tools and processes are applied together to address complex real-world problems and build evidence-based solutions.

MAS 633 Science, Environment, and the Media 3
Apply a systemic view of historic and current global environmental issues to deepen understanding and critical evaluation of media.

MAS 642 Foundations of the eLearning Classroom 3
In this course, students will gain knowledge, skills and experiences with a variety of information regarding instructional theory and principles. The content of this course will guide the student in preparing to teach in an online classroom setting.

MAS 643 Elements of eLearning Course Development 3
This course will focus on principles and practice related to pedagogy and andragogy, and the educational tools aligned with both to teach a full course. Deep dives surrounding course design and development of an eLearning course will be explored.

MAS 644 Designing and Developing for Blended eLearning Environments 3
This course will focus on implementing upon pedagogy and andragogy to execute the necessary educational tools to teach either a fully online, hybrid or hyflex course. Special focus will be placed on designing and delivering content for complex subject areas such as science labs and the arts.

MAS 645 Living the Online Course 3
This course focuses on engaging data, information, and insights related to the course content, learners, and yourself as the instructor to provide added value to the designed and static components of the course.

MAS 650 Independent Study 1-3
Guided readings, research and individual project work on an interdisciplinary topic under direction of a faculty member.
Notes: May be repeated for a maximum of 6 credits when topic varies.

MAS 695 Applied Capstone Experience 3
Apply knowledge and skills acquired from their course work to address a real-world problem.
Prerequisites: Permission of instructor.
Notes: Students must complete all other course work prior to taking MAS 695.

MAS 699 Thesis 1-6
Thesis.

MAS 701 Quantitative Analysis for Decision Making 3
Quantitative methods and spreadsheet skills to support management practice and decision making. Topics include statistical hypothesis testing, confidence intervals, regression analysis, optimization modeling, decision analysis and risk analysis.
Prerequisites: Pre-MBA workshop in statistics and spreadsheet skills or a spreadsheet-based undergraduate course in probability and statistics.

MAS 702 Financial and Managerial Accounting 3
Introduction to financial and managerial accounting. Topics include financial statements, financial analysis of those statements, cost accounting, and accounting’s role in managerial decision-making.

MAS 703 Economic Policies and Impact on Global Outcomes 3
Economic analysis of markets, and government intervention that addresses the sustainability of fiscal, monetary and exchange rate policy and their short-run and long-run impact on the global environment.

MAS 706 Marketing Management 3
Issues related to the marketing process, major trends and forces that are changing the marketing landscape, marketing information, building and managing brands, marketing strategy and roles of ethics in marketing.

Master of Business Administration (MBA)

MBA 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

MBA 701 Quantitative Analysis for Decision Making 3
Quantitative methods and spreadsheet skills to support management practice and decision making. Topics include statistical hypothesis testing, confidence intervals, regression analysis, optimization modeling, decision analysis and risk analysis.
Prerequisites: Pre-MBA workshop in statistics and spreadsheet skills or a spreadsheet-based undergraduate course in probability and statistics.

MBA 702 Financial and Managerial Accounting 3
Introduction to financial and managerial accounting. Topics include financial statements, financial analysis of those statements, cost accounting, and accounting’s role in managerial decision-making.

MBA 703 Economic Policies and Impact on Global Outcomes 3
Economic analysis of markets, and government intervention that addresses the sustainability of fiscal, monetary and exchange rate policy and their short-run and long-run impact on the global environment.

MBA 706 Marketing Management 3
Issues related to the marketing process, major trends and forces that are changing the marketing landscape, marketing information, building and managing brands, marketing strategy and roles of ethics in marketing.
MBA 707 Financial Management 3
Financial decision-making: time value of money, risk and return, valuation of securities, financial options, cost of capital, capital budgeting, working capital policy, financing decisions.
Prerequisites: MBA 701, MBA 702.

MBA 708 Operations for Competitive Advantage 3
The course examines design, operation, and control of organizations for gaining and maintaining competitive advantage in the market place. Strategic and tactical issues will be integrated with a systems approach.
Prerequisites: MBA 701.

MBA 712 Strategic Management 3
Examines the tools and techniques of strategic analysis, the formulation and implementation of competitive and corporate strategy for creating and sustaining competitive advantage.
Prerequisites: MBA 703, MBA 706, MBA 707, MBA 708, MBA 716, MBA 717.
Corequisites: MBA 703, MBA 717.

MBA 716 Leadership and Sustainable Business 3
Introduction to the values associated with ethics and sustainability relative to leadership, from idea formulation through communication within various constituencies across organizational contexts and communication media.

MBA 717 Innovation 3
Fundamentals and strategies of developing and managing innovations in organizations, with emphasis on group and individual processes, mindsets, and skills.

MBA 718 Global Business in Practice 3
Principles and practices of conducting business in a global environment.

MBA 719 Strategic Management in Action 3
Integration of tools and techniques of strategic analysis, formulation and implementation of competitive and corporate strategy. Students engage in professional consulting and/or experiential projects with local organizations.
Prerequisites: MBA 703, MBA 706, MBA 707, MBA 708, MBA 716, MBA 717.
Corequisites: MBA 703.

MBA 720 Investments 3
This course explores theories and applications related to portfolio theory, asset allocation and pricing, stock return predictability and anomalies, fixed income pricing and risk management using derivatives.

MBA 721 Financial Statement Analysis and Valuation 3
This course is about value. Emphasis is on equity analysis and valuation for public and private firms, but other types and purpose of valuation are covered.
Prerequisites: MBA 707.

MBA 724 Financial Institutions 3
Survey course intended for those interested in financial services careers and those with interest in general finance. Will cover financial institutions, investment funds, trading markets and financial market regulation.

MBA 730 Marketing Research 3
Defining the purpose of marketing research, selecting a data gathering method, writing a survey/questionnaire, and sampling methods. Using statistics and interpreting the results to make marketing decisions.
Prerequisites: MBA 706.

MBA 731 Brand Management 3
Examines brand management strategies, tools and decisions faced by organizations in planning, building and measuring brand equity for long term profitability.

MBA 732 Consumer Behavior 3
Applying behavioral theories to understand consumer consumption behaviors and the effect of environmental and psychological influences on the consumer decision-making process.

MBA 733 International Marketing Management 3
Activities that direct the flow of products to markets in a transnational, transcultural context; transcultural consumer behavior; channel strategy, physical distribution, promotion, and pricing.
Prerequisites: MBA 706.

MBA 734 Digital Marketing Analytics 3
This course covers some of the most important tools and techniques in marketing analytics with a focus on digital marketing applications. Topics revolve around three broad areas: owned (e.g. company’s website), paid (e.g. online advertising) and earned media (e.g. social media). This course provides the knowledge and analytics techniques for managerial decisions, which have emerged as the critical assets to business professionals and firms. Course will be taught with cases, articles, and related online discussions and also some lectures about the digital marketing and data analytics approaches.
Prerequisites: MBA 706 or permission of M.B.A. Program Director.

MBA 741 Capstone Consulting Project 3
Student teams will serve as consultants to area organizations and provide their managers with comprehensive solutions to strategic challenges.
Prerequisites: MBA 703, MBA 706, MBA 707, MBA 708, MBA 716, MBA 717.
Corequisites: MBA 703, MBA 717.

MBA 742 Organizational Internship 1.5-3
Academic and required work components allow students to gain organizational experience in an area of business. Course supervised by a designated graduate faculty member and an appropriate manager of the approved organization.
Prerequisites: MBA 706, MBA 707, MBA 708, MBA 717, or permission of MBA Program Director.
Notes: May be repeated for credit.

MBA 743 Directed Studies 1.5-3
Independent study of a business administration topic, not currently covered by courses in the MBA program, under the supervision of a faculty member(s).
Prerequisites: Completion of 12 hours or equivalent in the MBA program and permission of MBA Program Director.
Notes: May be repeated for a maximum of 6 hours credit when topic varies.

MBA 744 Special Topics in Business Administration 1.5,3
Specific course title identified each semester by the topical extension to the basic title: e.g., Special Topics in Business Law; Organizational Theory.
Notes: May be repeated for credit when topic varies.

MBA 745 Experience Business Abroad 1.5-3
Practices and principles involved in conducting business in a specified country. Lectures and seminars by local academicians and site visitations and lectures by foreign business people.
Prerequisites: Permission of MBA Director.
Mathematics (MAT)

MAT 110 Foundations of Calculus with Business Applications 3
Foundational concepts that supplement topics covered in Calculus with Business Applications.
Corequisites: MAT 120.

MAT 112 Contemporary Topics in Mathematics 3
Introductory topics in mathematics, including set theory and reasoning in mathematical systems. Contemporary applications may include algorithms, consumer mathematics, cryptography, and geometry.
MAC: MAC Quantitative Reasoning
Notes: Students may not receive credit for both MAT 112 and RCO 112.

MAT 115 College Algebra 3
Algebraic expressions, exponents, radicals, factoring, solving equations and inequalities, graphing, polynomial and rational functions.
MAC: MAC Quantitative Reasoning
Prerequisites: None.
Notes: This course is taught in three different formats. Section numbers with a L meet for three hours per week. Section numbers with an E meet for one hour and require three hours in a supervised computer lab. Section numbers with a W are taught online, exams can be taken off campus with a UNC Online certified proctor or on campus. Off campus proctors may charge a fee.

MAT 118 Algebra with Business Applications 3
Introductory survey of algebra with emphasis on techniques and applications related to business and the social sciences.
MAC: MAC Quantitative Reasoning

MAT 120 Calculus with Business Applications 3
Introductory survey of differential calculus with emphasis on techniques and applications related to business and the social sciences. This course does not serve as a prerequisite for MAT 292 (Calculus II). This is a terminal course and not adequate preparation for MAT 292.
MAC: MAC Quantitative Reasoning
Prerequisites: An acceptable score on the MAT 120 placement test or grade C or better in one of MAT 115, MAT 118, MAT 150, MAT 151, MAT 183 or MAT 190 or a Pass in MAT 110 or concurrent registration in MAT 110.

MAT 150 Precalculus I 3
Review of elementary algebra, equations, inequalities, relations, functions, transformations, graphing, complex numbers, polynomial and rational functions.
MAC: MAC Quantitative Reasoning
Notes: Credit can be earned for only one of MAT 115 or MAT 150.

MAT 151 Precalculus II 3
Properties, graphs, and applications of exponential, logarithmic, and trigonometric functions.
MAC: MAC Quantitative Reasoning
Prerequisites: An acceptable score on the mathematics placement test or a grade of C or better in MAT 115 or MAT 150.

MAT 181 Foundations of Calculus 3
Foundational concepts that supplement topics covered in Calculus I or Calculus A.
Corequisites: MAT 191 or MAT 196.
Notes: Grade: Pass/Not Pass (P/NP).

MAT 183 Mathematics for the Life Sciences 4
Functions and sets, descriptive statistics, probability, population genetics, matrices, discrete time modeling, and use of computational tools and visualization of data.
MAC: MAC Quantitative Reasoning

MAT 184 Calculus for the Life Sciences 4
Limits and precision, change in quantities, derivatives, integration, concentration gradients, and modeling processes with differential equations.
Prerequisites: A grade of C or better in MAT 183.

MAT 190 Precalculus 4
This course covers essential prerequisites for calculus. Topics include functions and graphs, equations and inequalities, polynomial and rational functions, trigonometry, functions of trigonometric, exponential, and logarithmic type.
MAC: MAC Quantitative Reasoning
Prerequisites: Acceptable score on the Calculus Readiness Diagnostic Test.

MAT 191 Calculus I 3
Limits and introductory differential calculus of the algebraic and transcendental functions of one variable.
MAC: MAC Quantitative Reasoning
Prerequisites: An acceptable score on the mathematics placement test or a grade of C or better in MAT 151 or MAT 190 or a Pass in MAT 181, or concurrent registration in MAT 181.

MAT 196 Calculus A 4
Limits, differential calculus, and introductory integral calculus of algebraic and transcendental functions of one variable.
MAC: MAC Quantitative Reasoning
Notes: Hours do not count toward degree requirements for MATH major.

MAT 220 Plane and Solid Analytic Geometry 3
Study of conic sections (including rotation of axes), graphing with polar coordinates, quadric surfaces, and vectors.
Prerequisites: Grade of C or better in MAT 151 (or equivalent).
Notes: Hours do not count toward degree requirements for MATH major.

MAT 253 Discrete Mathematical Structures 3
A rigorous introduction to discrete mathematical structures, proof techniques, and programming. Topics include sets, functions, sequences, relations, induction, propositional and predicate logic, modular arithmetic, and mathematical programming.
MAC: MAC Quantitative Reasoning
Notes: Only one of MAT 253 or MAT 295 can count toward degree requirements for MATH major.

MAT 292 Calculus II 3
Introductory integral calculus of the algebraic and transcendental functions of one variable, techniques of integration.
MAC: MAC Quantitative Reasoning
Prerequisites: Grade of C or better in MAT 191.

MAT 293 Calculus III 3
Infinite sequences and series, conic sections, polar coordinates, vectors in dimensions two and three, vector-valued functions.
Prerequisites: Grade of C or better in MAT 292.
MAT 296 Calculus B 4
Integral calculus of algebraic and transcendental functions of one variable, techniques of integration, applications of integration, infinite sequences and series, conic sections, and calculus in polar coordinates.

MAC: MAC Quantitative Reasoning
Prerequisites: Grade of C or better in MAT 196 or a passing grade in MAT 292.

MAT 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

MAT 310 Elementary Linear Algebra 3
Linear systems, matrices, determinants, eigenvalues and eigenvectors, finite-dimensional vector spaces, linear transformations.
Prerequisites: Grade of C or better in MAT 196 or MAT 253 or MAT 292.

MAT 311 Introduction to Abstract Algebra 3
Sets and mappings, equivalence relations, mathematical induction, introduction to theory of groups, rings, and fields.
Prerequisites: Grade of C or better in MAT 253 and MAT 310.

MAT 320 Introduction to Topology 3
Metric spaces, continuity, equivalence of various types of definitions of continuity, convergence, compactness, connectedness, topological spaces.
Prerequisites: Grade C or better in MAT 293 or MAT 296 and grade C or better in MAT 253 or MAT 310 or CSC 250.

MAT 322 Linear Programming 3
Covers simplex computational procedure, minimum feasible solutions, artificial-basis technique, slack variables, perturbation techniques, cycling, parametric objective and dual problems, sensitivity analysis, and decomposition algorithms.
Prerequisites: Grade of C or better in MAT 310.

MAT 330 Axiomatic Foundations of Geometry 3
Axiomatic systems, logic and proof, incidence geometries, absolute geometries, Euclidean geometry, and an introduction to non-Euclidean geometries and transformational geometry.
Prerequisites: Grade of C or better in MAT 292.
Notes: Required for students seeking secondary licensure in mathematics.

MAT 349 Preparation for Industrial Careers in Mathematical Sciences 3
This course prepares mathematical sciences students for industrial careers by engaging them in research problems that come directly from industry.
Prerequisites: Permission of instructor.

MAT 353 Introduction to Discrete Mathematics 3
Elementary graph theory, combinatorics, partially ordered sets.
Prerequisites: Grade of C or better in MAT 253 or CSC 250.

MAT 390 Ordinary Differential Equations 3
First order differential equations and linear equations of finite order, Laplace transforms, undetermined coefficients, variation of parameters, applications, numerical methods.
Prerequisites: Grade of C or better in MAT 292 or MAT 296.

MAT 394 Calculus IV 3
Multivariable functions, partial differentiation, multiple integrals, vector calculus.
Prerequisites: Grade of C or better in MAT 293.

MAT 395 Introduction to Mathematical Analysis 3
Properties of real numbers, sequences, limits of sequences and functions, continuity, differentiation, Riemann integral.
Prerequisites: Grade C or better in MAT 293 or MAT 296 and a grade C or better in MAT 253 and MAT 310.

MAT 396 Calculus C 4
Vectors in dimensions two and three, vector-valued functions, partial differentiation, multiple integrals, vector calculus.
Prerequisites: Grade of C or better in MAT 293 or MAT 296.

MAT 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

MAT 405 Foundations of Mathematics for Teaching I 3
Capstone survey of topics including functions; calculus concepts; geometry; probability; data analysis; and discrete mathematics. Special teaching problems and procedures for secondary education topics in relation to their mathematical foundations.
Prerequisites: Grade of C (2.0) or better in MAT 310. Admission to Teacher Education Program or permission of instructor.

MAT 406 Foundations of Mathematics for Teaching II 4
Capstone survey of topics including functions; calculus concepts; geometry; probability; data analysis; and discrete mathematics. Special teaching problems and procedures for secondary education topics related to their mathematical foundations, including 50-hour internship in secondary math classroom.
Prerequisites: Minimum grade of C (2.0) in MAT 405 and minimum grade of C (2.0) in one of either MAT 311 or MAT 395. Admission to the Teacher Education Program.

MAT 413 Historical Development of Mathematics 3
Study of the historical development of mathematics, not a history of persons involved in development.
CIC: CIC College Writing
Prerequisites: Grade of C or better in MAT 292 or MAT 296.

MAT 414 Theory of Numbers 3
An introductory course to both multiplicative and additive number theory. Divisibility, prime numbers, congruences, linear and nonlinear Diophantine equations (including Pell's equation), quadratic residues, number-theoretic functions, and other topics.
Prerequisites: Grade of C or better in either MAT 311 or MAT 395.

MAT 415 Mathematical Logic 3
Prerequisites: Grade of C or better in MAT 311 or MAT 353.

MAT 416 Intermediate Abstract Algebra 3
Rings, integral domains, fields, division algorithm, factorization theorems, zeros of polynomials, greatest common divisor, formal derivatives, prime polynomials, Euclidean domains, the fundamental theorem of algebra.
Prerequisites: Grade of C or better in MAT 311.

MAT 417 Theory of Groups 3
Elementary properties of groups and homomorphisms, quotients and products of groups, the Sylow theorems, structure theory for finitely generated abelian groups.

MAT 419 Intuitive Concepts in Topology 3
Basic concepts, vector fields, the Jordan curve theorem, surfaces, homology of complexes, continuity.
Prerequisites: Grade of C or better in MAT 311 or MAT 395.
MAT 420 Non-Euclidean Geometry 3
Fifth postulate, hyperbolic geometries, elliptic geometries, consistency of non-Euclidean geometries, models for geometries, elements of inversion.
Prerequisites: Grade of C or better in MAT 311 (or MAT 395).

MAT 421 Projective Geometry 3
Transformation groups and projective, affine and metric geometries of the line, plane, and space. Homogeneous coordinates, principles of duality, involutions, cross-ratio, collineations, fixed points, conics, models, and Euclidean specializations.
Prerequisites: Permission of instructor.

MAT 422 Introductory Functional Analysis 3
Basic concepts in Banach spaces, Hilbert spaces, linear operators, and their applications.
Prerequisites: Grade of C or better in MAT 395.

MAT 425 Intermediate Mathematical Analysis 3
Integration, infinite series, sequences and series of functions.
Prerequisites: Grade of C or better in MAT 395.

MAT 427 Numerical Methods 3
Number systems and errors, solutions of non-linear and linear systems, interpolation, numerical differentiation and integration, solution of differential equations. Implementation of numerical methods using a high-level programming language.
Prerequisites: A grade of at least C in MAT 293 or MAT 296.

MAT 428 Linear Programming and Optimization 3
This course is an introduction to linear programming and optimization including: the simplex method, degeneracy, efficiency, duality theory, convex analysis, game theory, financial applications, network flow problems, integer programming, quadratic programming.
Prerequisites: Grade C or better in MAT 310.

MAT 431 Combinatorial Analysis 3
The pigeon-hole principle, permutations, combinations, generating functions, principle of inclusion and exclusion, distributions, partitions, recurrence relations.
Prerequisites: Grade of C or better in MAT 253 (or MAT 295 or MAT 311 or MAT 395). or permission of instructor.

MAT 432 Introductory Graph Theory 3
Basic concepts, graph coloring, trees, planar graphs, networks.
Prerequisites: Grade of C or better in MAT 310 and any one of the courses MAT 253, MAT 295, MAT 311, MAT 395, MAT 431.

MAT 435 Differential Equations and Orthogonal Systems 3
An introduction to Fourier series and orthogonal sets of functions, with applications to boundary value problems.
Prerequisites: Grade of C or better in MAT 253 or MAT 296 and grade C or better in MAT 390.

MAT 436 Partial Differential Equations with Applications 3
Fourier integrals, Bessel functions, Legendre polynomials and their applications. Existence and uniqueness of solutions to boundary value problems.
Prerequisites: Grade of C or better in MAT 435.

MAT 439 Topics in Applied Mathematics 3
Selected topics of current interest in applied mathematics.
Prerequisites: Grade C or better in MAT 293 or MAT 296 and grade C or better in MAT 390.
Notes: May be repeated for credit with approval of the Department Head.

MAT 440 Introductory Complex Analysis 3
The complex number system, holomorphic functions, power series, complex integration, representation theorems, the calculus of residues.
Prerequisites: Grade of C or better in MAT 394 or MAT 396.

MAT 441 Stochastic Processes 3
Markov processes, Markov reward processes, queuing, decision making, graphs, and networks. Applications to performance, reliability, and availability modeling.
Prerequisites: Grade of C or better in MAT 394 and MAT 353. or equivalents.

MAT 442 Stochastic Processes 3
Markov processes, Markov reward processes, queuing, decision making, graphs, and networks. Applications to performance, reliability, and availability modeling.
Prerequisites: Grade of C or better in MAT 394 and MAT 353. or equivalents.

MAT 451 Topological Data Analysis 3
This course covers persistent homology and topological data analysis. Topics include persistence modules, bar codes, stability, and the use of statistics and machine learning in topological data analysis.
Prerequisites: C or better in MAT 310 and also a C or better in MAT 311 or CSC 350 or STA 301, or permission of instructor.

MAT 453 Mathematical Data Science I: Foundations 3
This course is for students to build up a solid mathematical foundation in order to thrive in the rapidly growing field of data science. Students will learn essential mathematical topics in data science, including linear algebra, matrix decomposition, probability, stochastic process, analysis, optimization, geometry, and algebraic topology.
Prerequisites: Grade C or better in MAT 292 or MAT 296 and grade C or better in MAT 310.

MAT 454 Mathematical Data Science II: Machine Learning 3
Selected well-known machine learning algorithms will be studied in great mathematical detail in order for students to understand the mathematics behind them. General topics may include Regression, Dimension Reduction, Density Estimations, and Classification. Advanced topics may include Google PageRank algorithm, Manifold Learning, and the Mapper algorithm.
Prerequisites: Grade of C or better in MAT 453.

MAT 465 Student Teaching and Seminar-Secondary Mathematics 12
Supervised student teaching in senior high school under direction of university supervisor. Observation, participation, and appropriate classroom teaching experience on full-time teaching assignment for full semester with weekly seminar.
Prerequisites: MAT 406. Admission to the Teacher Education Program.

MAT 486 Financial Mathematics for Actuaries 3
Measurement of interest, present and accumulated value, amortization, sinking funds, bonds, duration, immunization, and an introductory analysis of financial derivatives. Intended to help prepare for the FM/2 actuarial exam.
Prerequisites: Grade C or better in MAT 394 or MAT 396 or permission of instructor.

MAT 488 Directed Study in Mathematics 1-3
Individual study in an appropriate area of mathematics, directed through regular conferences with the instructor.
Prerequisites: Permission of Instructor.
MAT 490 Senior Seminar in Mathematics 3
Oral presentations on topics in mathematics, including current mathematics literature.
CIC: CIC College Writing
Prerequisites: Senior standing and mathematics major, or permission of instructor.

MAT 493 Honors Work 3-6
Honors Work.
Prerequisites: Permission of instructor. 3.30 GPA in the major, 12 s.h. in the major;
Notes: May be repeated for credit if the topic of study changes.

MAT 494 Directed Study in Mathematics 1-3
Individual study in an appropriate area of mathematics, directed through regular conferences with the instructor.
Prerequisites: Permission of instructor.

MAT 497 Research Experience in Mathematics 1-3
Supervised research activity on contemporary research questions in the fields of mathematics and its applications.
Notes: May be repeated for up to a total of six (6) credits. Grade: Pass/Not Pass (P/NP).

MAT 503 Problem Solving in Mathematics 3
Investigates the nature of problem solving, covers procedures involved in problem solving, develops individual problem solving skills, and collects a set of appropriate problems. Required for middle grades mathematics concentration.
Prerequisites: Grade of at least C in MAT 191 and MAT 303 or permission of instructor.
Notes: Hours do not count toward degree requirements for Mathematics majors. This course cannot be applied toward the requirements for the M.A. degree in Mathematics.

MAT 504 Foundations of Geometry for Teachers 3
Primarily for students seeking teacher certification. Includes logic and axiom systems, history, plane and solid Euclidean geometry, proof strategies, introduction to non-Euclidean geometries, and transformational geometry.
Prerequisites: Grade of C or better in MAT 292 or MAT 296.

MAT 505 Foundations of Mathematics for Teaching I 3
Capstone survey of topics including functions, calculus concepts, geometry, probability, data analysis, and discrete mathematics. Special teaching problems and procedures for secondary education topics related to their mathematical foundations.
Prerequisites: Admission to Masters of Arts in Teaching (M.A.T.) program.

MAT 506 Foundations of Mathematics for Teaching II 3
Capstone survey course of mathematics topics including functions, calculus concepts, geometry, probability, data analysis, and discrete mathematics. Includes special teaching problems and procedures for secondary education topics related to their mathematical foundations.
Prerequisites: Minimum grade of C (2.0) in MAT 505 and admission to the School of Education’s Master of Arts in Teaching program.

MAT 513 Historical Development of Mathematics 3
Study of the historical development of mathematics, not a history of persons involved in development.
Prerequisites: Grade of C or better in MAT 292 or MAT 296.
Notes: Credit hours do not count toward degree requirements for the M.A. in Mathematics.

MAT 591 Advanced Abstract Algebra 3
Groups: homomorphisms, quotient groups, Sylow theorems, finitely generated abelian groups. Rings: homomorphisms, ideals, quotient rings, integral domains, Euclidean domains, factorization. Fields: algebraic extensions of fields, Galois theory.
Prerequisites: Grade of C or better in MAT 516.

MAT 593 Directed Study in Mathematics 1-3
Individual study in an appropriate area of mathematics, directed through regular conferences with the instructor.
Prerequisites: Permission of Instructor.

MAT 594 Directed Study in Mathematics 1-3
Individual study in an appropriate area of mathematics, directed through regular conferences with the instructor.
Prerequisites: Permission of Instructor.

MAT 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

MAT 601 Seminar in the Teaching of Mathematics I 1
Seminar on practices and principles of undergraduate teaching in mathematics and statistics.
Notes: Required for all teaching assistants. Grade: Satisfactory/Unsatisfactory (S/U).

MAT 602 Seminar in Mathematical Software 3
Variety of issues in the design of mathematical software, i.e., type systems, user interfaces, and memory management. Each student investigates one computer algebra system more closely.
Prerequisites: Knowledge of a programming language.

MAT 603 Practicum in the Teaching of Mathematics 2
Practicum in teaching mathematics at the college/university level. Topics include course design, class materials, exams, grading, syllabus, choosing textbooks, dealing with difficult matters, and mathematical typesetting.
Corequisites: MAT 601.

MAT 614 Theory of Numbers 3
An introductory course to both multiplicative and additive number theory. Divisibility, prime numbers, congruencies, linear and nonlinear Diophantine equations (including Pell’s equation), quadratic residues, number-theoretic functions, and other topics.

MAT 616 Intermediate Abstract Algebra 3
Rings, integral domains, fields, division algorithm, factorization theorems, zeros of polynomials, greatest common divisor, formal derivatives, prime polynomials, Euclidean domains, the fundamental theorem of algebra.

MAT 617 Theory of Groups 3
Elementary properties of groups and homomorphisms, quotients and products of groups, the Sylow theorems, structure theory for finitely generated abelian groups.

MAT 619 Intuitive Concepts in Topology 3
Basic concepts, vector fields, the Jordan curve theorem, surfaces, homology of complexes, continuity.
MAT 620 Non-Euclidean Geometry 3
Fifth postulate, hyperbolic geometries, elliptic geometries, consistency of non-Euclidean geometries, models for geometries, elements of inversion.

MAT 621 Projective Geometry 3
Transformation groups and projective, affine and metric geometries of the line, plane, and space. Homogeneous coordinates, principles of duality, involutions, cross-ratio, collineations, fixed points, conics, models, and Euclidean specializations.

Prerequisites: Permission of instructor.

MAT 622 Introductory Functional Analysis 3
Basic concepts in Banach spaces, Hilbert spaces, linear operators, and their applications.

MAT 625 Intermediate Mathematical Analysis 3
Integration, infinite series, sequences and series of functions.

MAT 627 Numerical Methods 3
Number systems and errors, solutions of non-linear and linear systems, interpolation, numerical differentiation and integration, solution of differential equations. Implementation of numerical methods using a high-level programming language.

MAT 628 Linear Programming and Optimization 3
This course is an introduction to linear programming and optimization including: simplex method, degeneracy, efficiency, duality theory, convex analysis, game theory, financial applications, network flow problems, integer programming, and quadratic programming.

MAT 631 Combinatorial Analysis 3
The pigeon-hole principle, permutations, combinations, generating functions, principle of inclusion and exclusion, distributions, partitions, recurrence relations.

MAT 632 Introductory Graph Theory 3
Basic concepts, graph coloring, trees, planar graphs, networks.

MAT 635 Differential Equations and Orthogonal Systems 3
An introduction to Fourier series and orthogonal sets of functions, with applications to boundary value problems.

MAT 636 Partial Differential Equations with Applications 3
Fourier integrals, Bessel functions, Legendre polynomials and their applications. Existence and uniqueness of solutions to boundary value problems.

Prerequisites: Grade of C or better in MAT 635 or permission of instructor.

MAT 639 Topics in Applied Mathematics 3
Selected topics of current interest in applied mathematics.

Prerequisites: Permission of instructor.

MAT 640 Introductory Complex Analysis 3
The complex number system, holomorphic functions, power series, complex integration, representation theorems, the calculus of residues.

MAT 641 Stochastic Processes I 3

MAT 642 Stochastic Processes II 3

MAT 651 Topological Data Analysis 3
This course covers persistent homology and topological data analysis. Topics include persistence modules, bar codes, stability, and the use of statistics and machine learning in topological data analysis.

MAT 653 Mathematical Data Science I: Foundations 3
This course is for students to build up a solid mathematical foundation in order to thrive in the rapidly growing field of data science. Students will learn essential mathematical topics in data science, including linear algebra, matrix decomposition, probability, stochastic process, analysis, optimization, geometry, and algebraic topology.

MAT 654 Mathematical Data Science II: Machine Learning 3
Based on the specialty of the instructor, selected well-known machine learning algorithms will be studied in great mathematical detail. General topics may include Regression, Dimension Reduction, Density Estimations, and Classification. Advanced topics may include Google PageRank algorithm, Manifold Learning, and the Mapper algorithm.

Prerequisites: MAT 653.

MAT 655 Advanced Topics in Mathematics 3
Topics vary according to interest and demand, and include algebra, applied mathematics, combinatorics, dynamics, mathematical logic, topology, and other topics.

Prerequisites: Permission of instructor.

Notes: May be repeated for credit when topic varies.

MAT 686 Financial Mathematics for Actuaries 3
Measurement of interest, present and accumulated value, amortization, sinking funds, bonds, duration, immunization, and an introductory analysis of financial derivatives. Intended to help prepare for the FM/2 actuarial exam.

Prerequisites: Minimum grade of C (2.0) in MAT 394 or permission of instructor. Graduate students in MA in Mathematics, Ph.D. students in Computational Mathematics, or undergraduate students in the accelerated BS to MA in Mathematics.

MAT 687 Project in Mathematics 3
Directed research project in Mathematics.

Prerequisites: Admission to the MA in Mathematics and Permission of Instructor.

MAT 691 Abstract Algebra I 3
The first half of a year-long sequence in algebra. Topics include quotients and products of groups, the Sylow theorems, and structure theory for finitely generated abelian groups, representations of groups, and the basic theory of rings.

MAT 692 Abstract Algebra II 3
The second half of a year-long sequence in algebra. Topics include integral domains, ideals, factorization, polynomial rings, quotient rings, finite fields, field extensions, and Galois theory.

Prerequisites: MAT 691 or permission of instructor.

MAT 695 Mathematical Analysis 3
Real number axioms, metric spaces, sequences, series, continuity, differentiation, the Riemann-Stieltjes integral.

MAT 696 Mathematical Analysis 3
Real number axioms, metric spaces, sequences, series, continuity, differentiation, the Riemann-Stieltjes integral.

MAT 699 Thesis 1-6
Individual guidance in the development and examination of a research problem.
MAT 701 Graduate Seminar in Computational Mathematics 3
Readings from the literature of computational mathematics.
Prerequisites: Permission of instructor.

MAT 709 Topics in Computational Mathematics 3
Advanced study in special topics in computational mathematics.
Prerequisites: Permission of instructor.

MAT 721 Mathematical Cryptography 3
Mathematics of cryptography with emphasis on public key systems.
Applications of elliptic and hyperelliptic curves and lattice theory in
attacking and evaluating the security of cryptographic systems.
Prerequisites: Permission of instructor.

MAT 723 Numerical Mathematics 3
Functional analytic treatment of computation, approximation,
optimization, interpolation, smoothing equations, linear systems,
differential equations. Emphasis on the mathematical development and
analysis of numerical techniques.

MAT 726 Finite Element Methods 3
Introduce the fundamental concepts of the finite element method for
approximating solutions to boundary and initial boundary value problems.
Topics include modeling, mathematical formulations, convergence
analysis, and computer implementation.
Prerequisites: A grade of B or better in MAT 727.

MAT 727 Linear Algebra 3
An introduction to vector spaces over general fields. Topics include
linear transformations, dual spaces, inner product spaces, orthogonality,
spectral theory, and Jordan normal form.

MAT 728 Numerical Linear Algebra 3
An introduction to numerical linear algebra. Topics include conditioning
and stability, matrix factorizations, eigenvalue solvers, least-squares
problems, and iterative methods as well as the implementation of various
computational methods using a high-level programming language.

MAT 735 Ordinary Differential Equations 3
Existence and uniqueness theorems for initial value problems, theory of
linear equations, nonlinear equations, stability theory, boundary value
problems.

MAT 736 Partial Differential Equations 3
Derivation of partial differential equations (PDE) models and applications,
linear first order PDE's, elliptic equations and Green's function, PDE's of
parabolic and hyperbolic type.
Prerequisites: MAT 735 or permission of instructor.

MAT 737 General Topology 3
Topological spaces, point set topology, product and quotient spaces,
embedding and metrization, uniform spaces, function spaces, homotopy
theory, simplicial complexes and homology, more algebraic topology,
general homology theories.

MAT 740 Algebra I: Groups and Rings 3
The first half of a year-long sequence in algebra. Topics include basic
group and ring theory: quotient and products of groups, group actions,
the Sylow theorems, structure theory for finitely generated abelian
groups, rings, ideals, factorization, and polynomial rings.

MAT 741 Algebra II: Modules and Fields 3
The second half of a year-long sequence in algebra. Topics include
basic module and field theory: quotient modules, tensor products, exact
sequences, structure theory for finitely generated modules over a PID,
extension of scalars, finite fields, algebraic field extensions, and Galois
theory.
Prerequisites: MAT 740 or permission of instructor.

MAT 742 Computational Algebraic Number Theory 3
A constructive introduction to algebraic number theory. Topics include
algebraic number fields, integral bases, ideal factorization, system of
fundamental units, and the class group.
Prerequisites: Permission of instructor.

MAT 743 Complex Analysis 3
The complex number system, holomorphic functions, power series,
complex integration, representation theorems, the calculus of residues.

MAT 745 Measure Theory 3
Lebesgue measure, and integration; existence of non-measurable
sets; sigma-algebras; transfinite induction; abstract measure
spaces, measurable functions, and integration; outer measures and
Caratheodory's Extension Theorem; product measures; Fubini's Theorem;
Egorov's Theorem; Fatou's Lemma; Dominated Convergence Theorem;
modes of convergence, Borel-Cantelli Lemma.

MAT 746 Real Analysis 3
Lebesgue measure; the Lebesgue integral; differentiation and integration,
the classical Banach spaces; metric spaces, topological spaces, compact
spaces; Banach spaces, measure and integration, measure and outer
measure; the Daniell integral; mappings of measure spaces.
Prerequisites: Bachelor's degree with a major in mathematics. Credits
equivalent to credits for mathematics MAT 310, MAT 311, MAT 595, and
MAT 596, or permission of instructor and department head.

MAT 747 Computational Topology 3
This is an advanced course in topological data analysis. After covering
persistent homology, bar codes, and stability, the course will move into
research level topics drawn from recent papers.

MAT 749 The Mathematics of Machine Learning 3
This course covers the underlying mathematical theory behind common
machine learning methods: support vector machines, kernel methods,
decision trees, nearest neighbor, clustering, stochastic gradient descent,
and neural networks.

MAT 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course
Schedule for current offerings.

MAT 751 Advanced Topological Data Analysis 3
This is an advanced course in topological data analysis. After covering
persistent homology, bar codes, and stability, the course will move into
research level topics drawn from recent papers.

MAT 752 Computational Algebra and Number Theory 3
Advanced study in special topics in computational mathematics.
Prerequisites: Permission of instructor.

MAT 753 Advanced Topics in Cryptography 3
An introduction to advanced topics in cryptography. Topics include
modern cryptographic systems, cryptanalysis, and security protocols.
Prerequisites: MAT 721 or permission of instructor.
Media Studies (MST)

**MST 100 Understanding Media 3**
Introduction to the discipline of Media Studies with emphasis on industry development, delivery systems, and audiences in a changing media landscape.

**MST 190 WUAG Workshop 1**
Supervised participation in radio broadcasting or program production at the campus radio station WUAG.

**Notes:** May be repeated for credit for a maximum of 3 s.h.

**MST 204 Media Writing 3**
Introduction to theory and practice of media writing with concentrated exercises in developing messages and shaping those messages to the demands and characteristics of various media.

**CIC:** CIC College Writing

**Prerequisites:** Media Studies major or permission of instructor.

**MST 205 Media Literacy 3**
Introduction to the critical analysis of media, its impacts, and its methods.

**MST 225 Film Appreciation 3**
Analysis of selected, significant motion pictures of the world’s cinema, from the silent period to the present.

**MAC:** MAC CritThink Hum and Fine Art

**MST 226 Television Appreciation 3**
Analysis of the cultural and artistic significance of selected television programs.

**MAC:** MAC CritThink Hum and Fine Art

**MST 270 Introduction to Media Production for Non-majors 3**
Introduction to the basic aesthetic and technical concepts in media production and postproduction editing.

**Prerequisites:** Non-Media Studies majors.

**MST 271 Introduction to Media Production 3**
Introduction to techniques of media production with emphasis on video capture and editing.

**Prerequisites:** Media Studies major.

**MST 300X Experimental Course 1-6**
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

**MST 301 Media Theory 3**
Examination of media texts, contexts, influence, and effects from a variety of theoretical perspectives.

**Notes:** May be repeated for credit.

**MST 302 Introduction to Film History 3**
Introduction to the study of international film history from the late 19th century to the present.

**Prerequisites:** MST 225.

**MST 303 History of Electronic Media 3**
Emergence, structure, and scope of radio, television, and the Internet. Examination of broadcasting theories and practices and the influences the media forms have had on individuals and society.

**MST 305 Digital Media 3**
Introduction to the current development of digital media and social media platforms, with a global perspective and hands-on practice.

**MST 312 Topics in Film and Pop Culture 3**
Focusing on variable topics; examines film as a reflection of and expression of culture.

**Prerequisites:** MST 225.

**Notes:** May be repeated for credit when topic changes.

**MST 322 Media Programming 3**
Analysis of program sources for radio, television, cable, and the Internet.

**MST 325 Gender and Media Culture 3**
Examination of the nature of media contents and production processes as they influence the construction of gender identities.

**CIC:** CIC College Writing

**MST 326 News Analysis 3**
Analysis of news practices and presentation across multiple media formats from a variety of theoretical, philosophical, and historical perspectives.

**MST 327 Non-Western Film: Asian 3**
Study of films from Southeast Asia: Mainland China, Taiwan, Hong Kong, Japan, and Korea.

**MST 330 Cult Films 3**
Explores cultural contexts and technological developments that help form small but influential cults around certain films. Students will learn how taboo-breaking fringe filmmaking impacts mainstream cinema and culture.

**MST 335 Critiquing Popular Media 3**
Critical analysis of popular media with emphasis on writing critical reviews and essays.

**MST 341 Broadcast Newswriting 3**
Writing and planning newscasts for broadcast media.

**CIC:** CIC College Writing

**Prerequisites:** Media Studies major or Radio minor or permission of instructor.

**MST 343 Creative Copywriting 3**
Analysis of persuasive media and examination of radio, television, and Internet advertising techniques with emphasis on developing writing skills for electronic media advertising and promotional campaigns.

**CIC:** CIC College Writing

**MST 350 Writing for the Screen 3**
Study of film and video treatments and proposals for film and video.

**Prerequisites:** Media Studies major or permission of instructor.

**MST 352 Creative Process in Film and Video 3**
Various approaches for the enhancement of the visual imagination, emphasizing the origination of ideas and their development into treatments and proposals for film and video.

**MST 361 Radio and Television Announcing 3**
Theory and practice of announcing skills and techniques in radio and television broadcasting.

**Prerequisites:** Media Studies major or Radio minor or permission of instructor.

**MST 370 Single Camera Production I 3**
Introduction to narrative filmmaking, using moving images and sound to convey stories and ideas. Emphasis is given to narrative conceptualization and technical skills.

**Prerequisites:** MST 271 and MST 375 or permission of instructor.

**Notes:** May be repeated once for credit.
MST 372 Media Sound Production 3  
Techniques and aesthetics of digital sound design for the moving image.  
**Prerequisites:** MST 271 or permission of instructor.

MST 373 TV and Film Lighting 3  
Principles of light and color in lighting for television and film production. Application of the equipment and accessories used in the execution of lighting design through practical projects.  
**Prerequisites:** MST 271.

MST 374 Cinematography 3  
Principles and practice of cinematography. Application of the equipment and accessories used in cinematography through practical projects.  
**Prerequisites:** MST 271.

MST 375 Editing I 3  
Development of practical editing skills in pacing, shot selection, and the workflow necessary for delivery.  
**Prerequisites:** MST 271. Media Studies major, or permission of instructor.

MST 395 Special Problems 1-3  
Guided individual study in an area of special interest to the student.  
**Prerequisites:** Permission of faculty supervisor is required prior to registration.  
**Notes:** May be repeated for credit.

MST 398 Spartan Sportslink Practicum 2  
Supervised participation in the live video production of UNCG Athletics events.  
**Notes:** May be repeated once for credit.

MST 399 Independent Study 3  
Guided practice in a creative area of media.  
**Prerequisites:** Permission of faculty supervisor required prior to registration.  
**Notes:** May be repeated for credit.

MST 400X Experimental Course 1-6  
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

MST 407 Media Law and Ethics 3  
Study of media law and questions of ethics as they apply to the mass media.

MST 415 Film Theory 3  
Study of the principal theories of film through the writings of critics, theorists, and directors.  
**Prerequisites:** MST 225 or permission of instructor.

MST 420 History of Film to 1938 3  
Advanced study of world cinema from its prehistory in the late 19th century to the beginning of World War II in Europe, emphasizing significant movements, genres, and filmmakers.  
**Prerequisites:** MST 225 or permission of instructor.

MST 421 History of Film since 1938 3  
Advanced study of world cinema from the beginning of World War II in Europe through the present, emphasizing significant movements, genres, and filmmakers.  
**Prerequisites:** MST 225 or permission of instructor.

MST 423 Movies that Matter 3  
Examines films with social issue themes. Of late, fewer such films have been made; we will look at their relevance while examining the shifting corporate ownership of studios.  
**Prerequisites:** MST 225 or permission of instructor.

MST 424 Media Financing and Distribution 3  
The processes of raising and budgeting funds and distributing film and videos for theatrical release, direct DVD/video release, or television broadcast.

MST 425 Media Organization and Management 3  
Principles and practices of the organization and management of electronic media and motion pictures.

MST 427 Topics in Film Studies 3  
Study of selected topics in fictive or nonfictive films, including genres, works of an individual director, or other emphasis.  
**Prerequisites:** MST 225 or permission of instructor.  
**Notes:** May be repeated for credit when topic changes.

MST 428 Topics in Electronic Media 3  
Study of selected topics in fictive or non-fictive programming for the electronic media including genres, delivery systems, or other emphasis.  
**Notes:** May be repeated for credit when topic changes.

MST 441 Video Journalism 3  
Study and practice of electronic news reporting skills and newscasting. Focus on writing news copy, reporting, shooting, and editing news packages; basic newscast production techniques.  
**Prerequisites:** MST 271 and MST 341.

MST 450 Media Script Analysis 3  
Analysis of the key structural and thematic elements of narrative screenplays.  
**Prerequisites:** Junior or senior standing, or permission of instructor.

MST 451 Writing the Feature Film I 3  
Advanced study of screenwriting with emphasis on the creation of a step outline and first act for a feature length screenplay.  
CIC: CIC College Writing  
**Prerequisites:** MST 350 or permission of instructor.

MST 452 Writing the Feature Film II 3  
A writing workshop in which students complete the first draft and a polish of a feature-length screenplay, based on the outline and first act from MST 451.  
CIC: CIC College Writing  
**Prerequisites:** MST 451.

MST 453 Advanced Media Writing 3  
Practice in television script writing with emphasis given to development of concepts and proposals for episodic television. Practice in analyzing and writing for existing television series and/or development of new programs.  
CIC: CIC College Writing  
**Prerequisites:** Media Studies majors, or permission of instructor.  
**Notes:** May be repeated for credit when topic varies.

MST 454 Writing the One Hour Movie 3  
Development of and writing an original short form screenplay marketable to streaming venues.  
**Prerequisites:** MST 350.

MST 459 Doing Visual History 3  
Explores the interstices of history, documentary production, and personal narratives.

MST 468 Sportscasting 3  
Development of announcing skills and knowledge of sports necessary for sports broadcasting including play-by-play.  
**Prerequisites:** Media Studies major, Radio minor, or permission of instructor.
MST 470 Single Camera Production II 3
Further study and practice of narrative filmmaking using moving images and sound. Emphasis is given to collaboration on more advanced projects.
Prerequisites: MST 370, MST 373, and MST 375 or permission of instructor.

MST 471 Editing II 3
Survey of the history, aesthetics, and techniques in sequencing moving images.
Prerequisites: MST 375 or permission of instructor.

MST 479 Directing for the Screen 3
Fundamentals of screen directing, which includes directing actors, script breakdown, scene blocking, communication with cast and crew, and the logistics of production.
Prerequisites: MST 271.

MST 480 Directing for Television 3
Fundamental principles of directing for television. Studio directing experience.
Prerequisites: Junior or senior standing, or permission of instructor.

MST 481 Dance on Video 3
Introduction to working with dance and video, including composing for the camera, recording dancers in action, and editing footage to create an original work.
Prerequisites: MST 271 or permission of instructor.

MST 483 Advanced Media Production 3
Advanced application of principles and techniques of media production.
Prerequisites: MST 271. Media Studies majors only;
Notes: May be repeated for credit when topic varies.

MST 485 Client Based Production 3
Collaborative work on the production of a client sponsored program. Emphasis on collaboration in a timely, professional manner in an environment in which students may not have complete creative control.
Prerequisites: MST 271 and MST 375. or permission of instructor;
Notes: May be repeated for a total of 6 s.h.

MST 487 Animation Production 3
Study and practice of animation techniques.
Prerequisites: MST 271 and MST 375, or permission of instructor.

MST 488 Documentary Production 3
Documentary construction, research, planning, and production techniques. Further development of video production skills in a supervised project.
Prerequisites: MST 271 and MST 375. or permission of instructor.

MST 490 Advanced WUAG Workshop 1
Supervised participation at an advanced level of radio broadcasting or program production at the campus radio station WUAG.
Notes: May be repeated for credit for a maximum of 3 s.h.

MST 492 Media Internship 1-6
Field learning experience in media industries. Academic supervision provided by faculty member and direction in the field provided by job supervisor.
Prerequisites: Restricted to Media Studies majors and permission of the Director of Internships.
Notes: May be repeated for credit for total of 6 s.h.

MST 497 Advanced Media Production Practicum 1-3
Advanced, in-depth, hands-on exposure to the many aspects of the production and postproduction process of film and electronic visualization.
Prerequisites: Permission of instructor.
Notes: May be repeated for a total of three (3) semester hours.

MST 520 History of Film to 1938 3
Advanced study of world cinema from its prehistory in the late 19th century to the beginning of World War II in Europe, emphasizing significant movements, genres, and filmmakers.

MST 521 History of Film since 1938 3
Advanced study of world cinema from the beginning of World War II in Europe through the present, emphasizing significant movements, genres, and filmmakers.

MST 524 Media Financing and Distribution 3
The processes of raising and budgeting funds and distributing film and videos for theatrical release, direct DVD/video release, or television broadcast.

MST 525 Media Organization and Management 3
Principles and practices of the organization and management of electronic media and motion pictures.

MST 528 Topics in Film Studies 3
Study of selected topics in fictive or nonfictive films, including genres, works of an individual director, or other emphasis.
Notes: May be repeated for credit when topic changes.

MST 550 Media Script Analysis 3
Analysis of the key structural and thematic elements of narrative screenplays.

MST 551 Writing the Feature Film I 3
Advanced study of screenwriting with emphasis on the development of concepts and proposals for episodic television. Practice in analyzing and writing for existing television series and/or development of new programs.

MST 552 Writing the Feature Film II 3
A writing workshop in which students complete the first draft and a polish of a feature-length screenplay, based on the outline from MST 551.
Prerequisites: MST 551.

MST 553 Advanced Media Writing 3
Practice in television script writing with emphasis given to development of proposals for episodic television. Practice in analyzing and writing for existing television series and/or development of new programs.

MST 580 Directing for Television 3
Fundamental principles of directing for television. Laboratory directing experience.

MST 581 Dance on Video 3
Introduction to working with dance and video, including composing for the camera, recording dancers in action, and editing footage to create original work.

MST 587 Animation Production 3
Study and practice of techniques of animation.

MST 588 Documentary Production 3
Documentary construction, research, planning, and production techniques. Further development of video production skills in supervised laboratory project.

MST 803 Research Extension 1-3
Research Extension.

Music Education (MUE)

MUE 090 Music Education Convocation 0
Monthly presentations by music education majors, faculty and guests. See Student Information Manual.

MUE 110 Introduction to Music Education in the United States 1
An overview of music education and music curricula in US public schools. Students will explore a variety of teaching and learning settings.

MUE 111 Introduction to Teaching Techniques in Choral/General Music 2
Students will explore sequential processes of musical development (skills, content, methods, techniques and materials). Includes onsite teaching practicum.
Prerequisites: MUE 110.

MUE 208 Introduction to Teaching Instrumental Music 2
Includes the fundamentals of teaching band, orchestra, and guitar in US public schools. Includes basic playing skills and instrument pedagogy for group instruction.
Prerequisites: MEDU major with Choral/General Music Education concentration, and MUE 111. or permission of instructor.

MUE 209 Introduction to Teaching Choral Music 2
Includes the fundamentals of teaching choir in US public schools. Includes basic singing skills and choral/vocal pedagogy for group instruction.
Prerequisites: MEDU major with Instrumental/General Music Education concentration. admission to the Teacher Education Program; junior standing or permission of instructor.

MUE 261 Foundations of Teaching for Musical Understanding 2
Overview of teaching musical concepts within a developmentally appropriate P-5 U. S. general music curricular framework. Emphasizes theories of learning and development in relation to music.
Prerequisites: MUE 110 and either MUE 111 or MUE 363 or MUE 364 or MUE 365 or MUE 366. or permission of instructor.

MUE 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

MUE 356 Foundations of Teaching Vocal Music 3
Teaching and organizing vocal music in the US public schools, with a focus on secondary school choral music materials, instruction, rehearsal strategy, and evaluation. Supervised teaching practicum. Content in individual musicianship, culturally-responsive teaching and exceptional learners will be explored in detail.
Prerequisites: MUE 261. admission to the Teacher Education Program; junior standing; or permission of instructor.

MUE 357 Marching Band Techniques 3
Study of US show-, corps-, and hybrid-style marching bands with emphasis on drill design, auxiliary units, and repertoire selection. Includes organization, personnel, equipment management, budgeting, and traveling with high school students.
Prerequisites: Admission to the Teacher Education Program. junior standing or permission of instructor.

MUE 361 Music for Preschool and Elementary Teachers 3
Class instruction in playing and teaching violin, viola, cello, and bass. Includes basic playing skills on string instruments and preparation in string pedagogy for group instruction.
Prerequisites: MEDU major or permission of instructor.

MUE 363 Teaching Strings Laboratory 2
Class instruction in playing and teaching percussion instruments. Includes basic playing skills on percussion instruments and preparation in percussion pedagogy for group instruction.
Prerequisites: MEDU major or permission of instructor.

MUE 364 Teaching Brass Laboratory 2
Class instruction in playing and teaching brass instruments. Includes basic playing skills on brass instruments and preparation in brass pedagogy for group instruction.
Prerequisites: MEDU major or permission of instructor.

MUE 365 Teaching Woodwinds Laboratory 2
Class instruction in playing and teaching woodwind instruments. Includes basic playing skills on woodwind instruments and preparation in woodwind pedagogy for group instruction.
Prerequisites: MEDU major or permission of instructor.

MUE 366 Teaching Percussion Laboratory 2
Class instruction in playing and teaching percussion instruments. Includes basic playing skills on percussion instruments and preparation in percussion pedagogy for group instruction.
Prerequisites: MEDU major or permission of instructor.

MUE 367 Foundations of Teaching Instrumental Music 4
Teaching and organizing instrumental music in the US public schools. Includes planning and implementing pedagogical techniques for the instrumental music classroom. Includes supervised school internship. Cultural diversity and exceptional learner content explored in detail.
Prerequisites: MUE 261, MUE 363, MUE 364, MUE 365, and MUE 366. admission to the Teacher Education Program; junior standing or permission of instructor.
MUE 368 Instrument Repair 1  
Mechanics of brass, woodwind, percussion, and stringed instruments, plus laboratory time to develop skills in repairing instruments.  
**Prerequisites:** MUE 363, MUE 364, MUE 365, and MUE 366. or permission of instructor.

MUE 400X Experimental Course 1-6  
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

MUE 419 Choral Conducting II 2  
Supervised practice in conducting choral rehearsals; comparative study of rehearsal procedures and of choral objectives; continued study of choral repertoire.  
**Prerequisites:** MUP 319 or permission of instructor.

MUE 461 General Music in Elementary Schools 3  
Instructional methods and approaches to promote P-5 learners’ musical understanding. Includes supervised teaching practicum. Content in reading education, cultural diversity, and exceptional learners will be explored in detail.  
**Prerequisites:** MUE 261. admission to the Teacher Education Program; junior or senior standing or permission of instructor.

MUE 462 Singing Voice in Classrooms and Ensembles 2  
Provides an overview of vocal anatomy/function, care of the voice, vocal repertoire, teaching strategies, and other specialized topics related to singing instruction in music classrooms and choral settings.  
**Prerequisites:** MUE 261.

MUE 463 Advanced String Methods 3  
Overview of classroom methods teaching for teaching strings with an emphasis on advanced skills on secondary string instruments.  
**Prerequisites:** MUE 363. sophomore standing or permission of instructor.

MUE 464 Choral Music in the Schools 3  
Advanced treatment of choral curriculum, literature selection, and teaching/assessment of ensemble musicianship. Includes supervised teaching practicum. Content in reading education, cultural diversity, and exceptional learners will be explored in detail.  
**Prerequisites:** MUE 261. admission to the Teacher Education Program; senior standing or permission of instructor.

MUE 465 Student Teaching in Music 10  
Intensive, field-based internship in school music education. Includes practical applications of previous course work in supervised settings. Taught as Speaking Intensive Course.  
**Prerequisites:** MUE 461 or MUE 464 or MUE 467. senior standing; passed advanced piano proficiency (MEDU major, choral/general concentration only); admission to the professional semester for student teaching;  
**Corequisites:** MUE 466.

MUE 466 Student Teaching Seminar 2  
Forum providing special education opportunities in conjunction with student teaching experiences. Emphasis placed on professional aspects of teaching. Reading education content explored in detail. Required: student teachers.  
**Prerequisites:** MUE 461 or MUE 464 or MUE 467. senior standing; passed advanced piano proficiency (MEDU major, choral/general concentration only); admission to the professional semester for student teaching;  
**Corequisites:** MUE 465.

MUE 467 Instrumental Music in the Schools 4  
Methods of teaching instrumental music; study of administrative procedures, repertoire, personnel, and resources; application of music teaching techniques. Reading education, cultural diversity, and exceptional learner content will be explored in detail.  
**Prerequisites:** MUE 261, MUE 364, MUE 365, and MUE 366. admission to the Teacher Education Program; senior standing or permission of instructor.

MUE 472 Instrumental Conducting II 2  
Advanced conducting techniques, with emphasis on instrumental conducting.

MUE 497 Directed Study in Music 1-3  
Supervised research in advanced subject area resulting in written document or composition. Project outline (available in Music office) prepared by student and supervising professor and approved by Associate Dean and Dean of School of Music.  
**Prerequisites:** Permission of supervising professor and Dean of School of Music.  
**Notes:** May be repeated for credit if topic varies.

MUE 600X Experimental Course 1-6  
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

MUE 601 Research Methods in Music 3  
Writing skills, materials, and procedures utilized in music research; measurement, experimental design, theories/procedures for evaluation, statistics, computer applications, and initiation of scholarly research.

MUE 605 The Measurement of Musical Behavior 3  
Review of standardized music tests and an examination of methods for developing tests related to the measurement of musical behavior.

MUE 618 Psychology of Music 3  
The physical and psychological aspects of music involving human behavior.

MUE 627 Issues in Multicultural Music Education 3  
Overview of historical, philosophical, cultural, and pedagogical issues in multicultural music education. Emphasis on the development of knowledge that will inform and enhance instructional practice.

MUE 632 Methods and Materials of Music Reading Instruction 3  
Overview of methods and materials for music reading instruction. Emphasis on connections between language and music reading. Involves weekly online sessions, individual projects, and two related workshops.

MUE 633 Music for Exceptional Children 3  
Review of the learning styles of exceptional children and the implications for providing realistic musical activities in the classroom. Emphasis will be placed on developing musical skills with special learners.  
**Notes:** Non-music majors may enroll.

MUE 634 Contemporary Trends in Music Education 3  
Current philosophies and concepts influencing contemporary music education practices, methods, and materials. Investigation into social psychology of music as applied to existing music instruction in public schools.

MUE 639 Pedagogical Conducting 3  
Advanced classroom conducting skills including baton technique, score reading, rehearsal techniques, score analysis, repertoire, programming, and interpretation.  
**Prerequisites:** Graduate standing in any Music degree program.
MUE 645 Teaching Elementary Music: Theory and Practice 3
Emphasis on strategies and materials for developing children’s musicianship and problem-solving skills. Consideration of current child development and learning theories to teaching elementary general music.
**Prerequisites:** Music teaching experience in elementary school or the equivalent of MUE 465 Student Teaching in Music.

MUE 650 Seminar in Music Education 3
Salient philosophies, practices, and methods involving music education as considered in a social context; challenges in dealing with elementary and secondary students and opportunities for music education in the community. Individual research project required.

MUE 653 Music Supervision 3
Philosophical foundations of music education as related to the development of supervisory and administrative programs. Basic concepts of music education and means for evaluation of music education curricula.

MUE 656 Advanced Choral and General Music Methods for the Adolescent 3
Examination of contemporary research and pedagogy with an emphasis on developing appropriate instructional strategies for use with adolescent students in choral and general music classrooms.

MUE 657 Advanced Music Teaching Techniques 3
Overview of current practice in learning and teaching music with emphasis on the development of practical strategies for implementation within music classrooms and studios of all types.

MUE 659 Philosophy of Music 3
Overview of historical and current philosophies of music. Specific applications will be made to various areas of expertise, including music composition, education, history, performance, and theory.
**Prerequisites:** Admission to master’s or doctoral program in music.

MUE 692A Portfolio Development in Music Education 1
Development of a portfolio that reflects the application of course work in music education to classroom teaching.
**Prerequisites:** Acceptance in MM in Music Education or permission of instructor.

MUE 692B Portfolio Development in Music Education 1
Development of a portfolio that reflects the application of course work in music education to classroom teaching.
**Prerequisites:** Acceptance in MM in Music Education or permission of instructor.

MUE 697 Directed Study in Music 1-12
Individual guidance in the development of a specific research problem.

MUE 699 Thesis 1-6
Individual guidance in the development of a specific research problem.

MUE 700 Research Methods in Music 3
Writing skills, materials, and procedures utilized in music research; measurement, experimental design, theories/procedures for evaluation, statistics, computer applications, and initiation of scholarly research.

MUE 701 Research Methods in Music II 3
Advanced research methodology and procedures in music education.

MUE 703 Music and the Brain 3
An exploration of how music is processed in the brain from infancy through older age.

MUE 704 Creative Thinking in Music 3
Introduction to the major literature in creative thinking in music as it relates to music teaching and learning. Projects include creative work in music, journal entries, short papers, teaching strategies.

MUE 705 College and University Music Administration 3
Provide basic information and skills for those who are in administrative assignments, who desire careers as music administrators, or who desire and understanding of the operations of a music unit.

MUE 706 Choral Practice Around the World 3
An introduction to the issues, materials and pedagogy that inform teaching vocal music from diverse cultures to ensembles or classrooms of trained and untrained singers.

MUE 707 Qualitative Research in Music Education 3
Various inquiry approaches as practiced specifically in music education including case study, narrative, phenomenology, grounded theory, and ethnography; completion of small-scale research study; development of writing and presentation skills.

MUE 709 The Measurement of Musical Behavior 3
Review of standardized music tests and an examination of methods for developing tests related to the measurement of musical behavior.

MUE 718 Psychology of Music 3
The physical and psychological aspects of music involving human behavior.

MUE 727 Issues in Multicultural Music Education 3
Overview of historical, philosophical, cultural, and pedagogical issues in multicultural music education. Emphasis on the development of knowledge that will inform and enhance instructional practice.

MUE 732 Methods and Materials of Music Reading Instruction 3
Overview of methods and materials for music reading instruction. Emphasis on connections between language and music reading. Involves weekly online sessions, individual projects, and two related workshops.

MUE 733 Music for Exceptional Children 3
Review of the learning styles of exceptional children and the implications for providing realistic musical activities in the classroom. Emphasis will be placed on developing musical skills with special learners.
**Notes:** Non-music majors may enroll.

MUE 734 Contemporary Trends in Music Education 3
Current philosophies and concepts influencing contemporary music education practices, methods, and materials. Investigation into social psychology of music as applied to existing music instruction in public schools.

MUE 739 Advanced Conducting 3
Advanced conducting skills including baton technique, score reading, rehearsal techniques, score analysis, repertoire, programming, and interpretation.
**Prerequisites:** Graduate standing in any Music degree program.

MUE 740 Music Education in Society 3
An exploration of music education with particular attention to societal influences on teaching and learning music in the classroom and/or the studio.

MUE 745 Teaching Elementary Music: Theory and Practice 3
Emphasis on strategies and materials for developing children’s musicianship and problem-solving skills. Consideration of current child development and learning theories to teaching elementary general music.
**Prerequisites:** Music teaching experience in elementary school or the equivalent of MUE 465 Student Teaching in Music.

MUE 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.
MUE 751 Seminar in Music Education 3
Salient philosophies, practices, and methods involving music education as considered in a social context; challenges in dealing with elementary and secondary students and opportunities for music education in the community. Individual research project required.

MUE 753 Music Supervision 3
Philosophical foundations of music education as related to the development of supervisory and administrative programs. Basic concepts of music education and means for evaluation of music education curricula.

MUE 756 Advanced Choral and General Music Methods for the Adolescent 3
Examination of contemporary research and pedagogy with an emphasis on developing appropriate instructional strategies for use with adolescent students in choral and general music classrooms.

MUE 757 Advanced Instrumental Methods 3
Overview of current practice in learning and teaching music with emphasis on the development of practical strategies for implementation within the instrumental music classroom.

MUE 759 Philosophy of Music 3
Overview of historical and current philosophies of music. Specific applications will be made to various areas of expertise, including music composition, education, history, performance, and theory.
Prerequisites: Admission to master’s or doctoral program in music.

MUE 797 Directed Study in Music 1-12
Supervised advanced research requiring a written document or composition.

MUE 799 Dissertation 1-12

MUE 802 Dissertation Extension 1-3
Dissertation Extension.

MUE 803 Research Extension 1-3

Music Ensemble (ENS)

ENS 200X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ENS 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ENS 320 Flute Ensemble 1
Performance of literature from all eras, including contemporary works for this medium.
Notes: May be repeated every semester.

ENS 324 Saxophone Ensemble 1
Performance of literature from all eras, including contemporary works for this medium.
Notes: May be repeated every semester.

ENS 330 Violin Ensemble 1
Performance of literature from all eras, including contemporary works for this medium.
Notes: May be repeated every semester.

ENS 331 Viola Ensemble 1
Performance of literature from all eras, including contemporary works for this medium.
Notes: May be repeated every semester.

ENS 334 Camerata 1
Performance of literature from all eras, including contemporary works for this medium.
Prerequisites: PRFM, MEDU, or MUSI major. or permission of instructor;
Notes: May be repeated every semester.

ENS 347 Casella Sinfonietta 1
Performance of conducted chamber literature for winds, strings, and percussion from all areas, including contemporary works for this medium.
Prerequisites: Permission of instructor.
Corequisites: ENS 393 or ENS 391.
Notes: May be repeated every semester provided different repertoire is selected.

ENS 348 Chamber Music 1
Group study and performance of selected chamber music literature/jazz combo literature (nonconducted) with emphasis on development of independent chamber music performance skills. Personnel and repertoire assigned by performance faculty.
Notes: May be repeated every semester provided different repertoire is selected.

ENS 349 Keyboard Accompanying 1
Students are assigned vocal and/or instrumental students to accompany with literature appropriate to the student’s level. Fulfills large ensemble requirement for keyboard performance majors.
Prerequisites: MUP 284/MUP 285 or permission of instructor.
Notes: May be repeated for a total of 5 semester hours.

ENS 350 Service Playing for Organists 2
This course will develop essential skills in hymn-playing, organ accompaniment of choirs and soloists, keyboard improvisation, working knowledge of the major Western liturgical traditions and selection of appropriate solo literature for organ or piano within that context as well as within non-liturgical traditions; and conducting of a choir from a piano or organ within the context of a worship service.
Prerequisites: Organ playing ability at the 300 level or above, or written permission of instructor.
Corequisites: Current enrollment in studio organ or piano.

ENS 366 Trumpet Ensemble 1
Performance of literature from all eras, including contemporary works for this medium.
Prerequisites: MEDU or PRFM major. or permission of instructor;
Notes: May be repeated every semester.

ENS 367 Horn Ensemble 1
Performance of literature from all eras, including contemporary works for this medium.
Notes: May be repeated every semester.

ENS 368 Trombone Ensemble 1
Performance of literature from all eras, including contemporary works for this medium.
Notes: May be repeated every semester.

ENS 369 Tuba/Euphonium Ensemble 1
Performance of literature from all eras, including contemporary works for this medium.
Notes: May be repeated every semester.

ENS 370 Percussion Ensemble 1
Performance of literature from all eras, including contemporary works for this medium.
Notes: May be repeated every semester.
ENS 377 Old Time Ensemble 1-2
Performance of traditional Old Time repertoire.
Notes: Open to all university students. May be repeated provided different repertoire is selected.

ENS 378 Indian Music 1
Performance of Classical Indian Music.
Notes: May be repeated for credit.

ENS 379 Middle Eastern Ensemble 1
Performance of Arab, Turkish and other middle eastern musics.
Notes: May be repeated for credit as topic varies. New material/reertoire will be assigned each semester.

ENS 380 Spartan Voices 1
Choral organization open to all undergraduate voices.
Prerequisites: Open to all university students.
Notes: May be repeated for credit.

ENS 381 Spartan Voices II 1
Choral organization open to all voices.
Prerequisites: Open to all university students.
Notes: May be repeated for credit.

ENS 382 University Chorale 1
Mixed choral organization of approximately 50 graduate and undergraduate singers.
Prerequisites: Membership by audition.
Notes: Open to all university students. May be repeated for credit.

ENS 383 Touring Opera 1
Performance of literature from all eras, including contemporary works for this medium.
Prerequisites: PRFM, MEDU, or MUSI major. or permission of instructor;
Notes: May be repeated every semester.

ENS 384 Opera Role 1-2
Performance of literature from all eras, including contemporary works for this medium.
Prerequisites: PRFM, MEDU, or MUSI major. or permission of instructor;
Notes: May be repeated every semester.

ENS 385 Opera Chorus 1
Performance of literature from all eras, including contemporary works for this medium.
Prerequisites: PRFM, MEDU, or MUSI major. or permission of instructor;
Notes: May be repeated every semester.

ENS 387 Coro di Belle Voci 1
Choral Organization for graduate and undergraduate advanced soprano and alto voices.
Prerequisites: Membership by audition.
Notes: The course is open to all UNCG Sopranos and Altos. May be repeated every semester of enrollment for a total of 8 credit hours.

ENS 388 Chamber Singers 1
Select mixed vocal ensemble of 16 graduate and advanced undergraduate singers.
Notes: May be repeated for credit.

ENS 390 Sinfonia 1
String orchestra, performance of important works from symphonic repertoire of eighteenth, nineteenth, and twentieth centuries.

ENS 391 University Symphony Orchestra 1
Full symphony orchestra, performance of important works from symphonic repertoire of eighteenth, nineteenth, and twentieth centuries.

ENS 392 University Band 1
Performance of literature from all eras, including contemporary works for this medium.
Notes: Open to all university students. May be repeated for credit.

ENS 393 University Wind Ensemble 1
Wind ensemble for advanced students. Performance of appropriate wind ensemble works from all eras.
Notes: Open to all university students. May be repeated for credit.

ENS 394 Symphonic Band 1
Performance of literature from all eras, including contemporary works for this medium.
Notes: Open to all university students. May be repeated for credit.

ENS 395 Jazz Ensemble I 1
Performance of literature encompassing all of the jazz idioms with emphasis on contemporary composition.
Prerequisites: Membership by audition.
Notes: May be repeated for credit.

ENS 396 Jazz Ensemble II 1
Performance of literature encompassing all of the jazz idioms with emphasis on contemporary composition.
Prerequisites: Membership by audition.
Notes: May be repeated for credit.

ENS 397 Pep Band 1
The pep band performs music in a variety of styles, drives sports crowds to enthusiastic support of our Athletic teams, and provides in-game leadership in school spirit.
Notes: May be repeated every semester.

ENS 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ENS 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ENS 620 Flute Ensemble 1
Performance of literature from all eras, including contemporary works for this medium.

ENS 624 Saxophone Ensemble 1
Performance of literature from all eras, including contemporary works for this medium.
ENS 630 Violin Ensemble 1
Performance of literature from all eras, including contemporary works for this medium.

ENS 631 Viola Ensemble 1
Performance of literature from all eras, including contemporary works for this medium.

ENS 634 Camerata 1
Performance of literature from all eras, including contemporary works for this medium.

ENS 647 Casella Sinfonietta 1
Chamber literature for winds, strings, and percussion from all eras, including contemporary works for this medium.
Prerequisites: Permission of instructor.
Corequisites: MUP 691 or MUP 693.
Notes: May be repeated when repertoire varies.

ENS 648 Chamber Music 1
Group study and performance of selected chamber music literature/jazz combo literature (non-conducted) with emphasis on development of independent chamber music performance skills. Personnel and repertoire assigned by performance faculty.
Prerequisites: Permission of instructor.
Notes: May be repeated for credit when repertoire varies.

ENS 666 Trumpet Ensemble 1
Performance of literature from all eras, including contemporary works for this medium.

ENS 667 Horn Ensemble 1
Performance of literature from all eras, including contemporary works for this medium.

ENS 668 Trombone Ensemble 1
Performance of literature from all eras, including contemporary works for this medium.

ENS 669 Tuba/Euphonium Ensemble 1
Performance of literature from all eras, including contemporary works for this medium.

ENS 678 Indian Music 1
Performance of classical Indian music.

ENS 679 Middle Eastern Ensemble 1
Performance of Arab, Turkish and other middle eastern musics.
Notes: May be repeated for credit. New material repertoire will be assigned each semester.

ENS 680 Spartan Voices 1
Choral organization open to all graduate voices.

ENS 681 Spartan Voices II 1
Choral organization open to all voices.
Notes: Open to all university students. May be repeated for credit.

ENS 682 University Chorale 1
Mixed choral organization of approximately 50 singers.
Notes: Membership by audition.

ENS 683 Touring Opera 1
Performance of literature from all eras, including contemporary works for this medium.

ENS 684 Opera Role 1-2
Performance of literature from all eras, including contemporary works for this medium.
Prerequisites: By audition.

ENS 685 Opera Chorus 1
Performance of literature from all eras, including contemporary works for this medium.
Prerequisites: By audition.

ENS 687 Coro di Belle Voci 1
Choral organization for graduate and undergraduate advanced soprano and alto voices. Audition is required or permission of instructor for admittance into the course.

ENS 688 Chamber Singers 1
Select mixed vocal ensemble of graduate and advanced undergraduate singers.
Notes: Membership by audition.

ENS 690 Sinfonia 1
String orchestra, performance of important works from symphonic repertoire of eighteenth, nineteenth, and twentieth centuries.

ENS 691 University Orchestra 1
Full symphony orchestra performing works from the symphonic repertoire of the eighteenth, nineteenth, and twentieth centuries.

ENS 692 University Band 1
Performance of literature from all eras, including contemporary works for this medium.

ENS 693 University Wind Ensemble 1
Performance of selected works for wind ensemble including both original and transcribed literature.
Notes: Advanced performers only. Membership by audition.

ENS 694 Symphonic Band 1
Performs literature from all eras, including contemporary works for this medium.
Notes: Open to all University students.

ENS 695 Jazz Ensemble I 1
Performance of literature encompassing all of the jazz idioms with emphasis on contemporary composition.
Prerequisites: Membership by audition.
Notes: May be repeated for credit.
ENS 696 Jazz Ensemble II 1
Performance of literature encompassing all of the jazz idioms with emphasis on contemporary composition.
Prerequisites: Membership by audition.
Notes: May be repeated for credit.

ENS 720 Flute Ensemble 1
Performance of literature from all eras, including contemporary works for this medium.

ENS 724 Saxophone Ensemble 1
Performance of literature from all eras, including contemporary works for this medium.

ENS 730 Violin Ensemble 1
Performance of literature from all eras, including contemporary works for this medium.

ENS 731 Viola Ensemble 1
Performance of literature from all eras, including contemporary works for this medium.

ENS 734 Camerata 1
Performance of literature from all eras, including contemporary works for this medium.

ENS 747 Casella Sinfonietta 1
Chamber literature for winds, strings, and percussion from all eras, including contemporary works for this medium.
Prerequisites: Permission of instructor.
Corequisites: MUP 691 or MUP 693.
Notes: May be repeated when repertoire varies.

ENS 748 Chamber Music 1
Group study and performance of selected chamber music literature/jazz combo literature (non-conducted) with emphasis on development of independent chamber music performance skills. Personnel and repertoire assigned by performance faculty.
Prerequisites: Permission of instructor.
Notes: May be repeated for credit when repertoire varies.

ENS 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

ENS 766 Trumpet Ensemble 1
Performance of literature from all eras, including contemporary works for this medium.

ENS 767 Horn Ensemble 1
Performance of literature from all eras, including contemporary works for this medium.

ENS 768 Trombone Ensemble 1
Performance of literature from all eras, including contemporary works for this medium.

ENS 769 Tuba/Euphonium Ensemble 1
Performance of literature from all eras, including contemporary works for this medium.

ENS 770 Percussion Ensemble 1
Performance of literature from all eras, including contemporary works for this medium.

ENS 771 Steelpan Ensemble 1
Performance of steelpan music.
Notes: May be repeated for credit. New material/repertoire will be assigned each semester.

ENS 775 Present-Continuous New Music Ensemble 1
Provides advanced performers with the opportunity of performing contemporary repertoire as well as music of visiting composers and members of the UNCG community. The instrumentation of the ensemble varies from 4 to 18 performers.
Prerequisites: Permission of instructor.

ENS 776 Period Music Ensembles 1
Performance of conducted and non-conducted period literature for winds, string, percussion, and voice.
Prerequisites: Permission of instructor.
Notes: May be repeated for credit when different repertoire is selected.

ENS 778 Indian Music 1
Performance of classical Indian music.

ENS 779 Middle Eastern Ensemble 1
Performance of Arab, Turkish and other middle eastern musics.
Notes: May be repeated for credit. New material/repertoire will be assigned each semester.

ENS 783 Touring Opera 1
Performance of literature from all eras, including contemporary works for this medium.

ENS 784 Opera Role 1-2
Performance of literature from all eras, including contemporary works for this medium.
Prerequisites: By audition.

ENS 785 Opera Chorus 1
Performance of literature from all eras, including contemporary works for this medium.
Prerequisites: By audition.

ENS 787 Coro di Belle Voci 1
Choral organization intended for graduate advanced soprano and alto voices.
Prerequisites: Audition is required or permission of instructor for admittance into the course.

ENS 788 Chamber Singers 1
Select mixed vocal ensemble intended for graduate singers.
Notes: Membership by audition.

ENS 791 University Orchestra 1
Full symphony orchestra performing works from the symphonic repertoire of the eighteenth, nineteenth, and twentieth centuries.

ENS 793 University Wind Ensemble 1
Performance of selected works for wind ensemble including both original and transcribed literature.
Notes: Advanced performers only, membership by audition.

ENS 794 Symphonic Band 1
Performs literature from all eras, including contemporary works for this medium.
Notes: Open to all University students.

ENS 795 Jazz Ensemble 1
Performance of literature encompassing all of the jazz idioms with emphasis on contemporary composition.
Prerequisites: Membership by audition.
Notes: May be repeated for credit.
Music Performance (MUP)

MUP 104 Introduction to Jazz Listening 2
The jazz masters and significant jazz recordings of the 20th century will be introduced; these recordings will range from Louis Armstrong to John Coltrane. Aural recognition will be developed.

Prerequisites: Music major.

MUP 115 Composition Skills 3
Students will compose pieces and perform their compositions. Student works will imitate historical styles or be freely devised. Ability to read music and play an instrument or sing is required.

Prerequisites: Music major or permission of the instructor.

MUP 125 Class Voice 1
Study of basic principles of vocal production, to include acquaintance with a variety of solo literature and the development of poise and stage deportment.

Prerequisites: May be repeated for credit.

MUP 131 Class Piano 1
Laboratory instruction in piano. Offered as preparation for piano proficiency required of music majors whose major or principal area is not piano. MUP 131, first level; MUP 132, second level; MUP 133, third level; MUP 134, fourth level.

Prerequisites: MEDU, PRFM, or MUSI major. or permission of instructor.

MUP 132 Class Piano 1
Laboratory instruction in piano. Offered as preparation for piano proficiency required of music majors whose major or principal area is not piano. MUP 131, first level; MUP 132, second level; MUP 133, third level; MUP 134, fourth level.

Prerequisites: MEDU, PRFM, or MUSI major. or permission of instructor.

MUP 133 Class Piano 1
Laboratory instruction in piano. Offered as preparation for piano proficiency required of music majors whose major or principal area is not piano. MUP 131, first level; MUP 132, second level; MUP 133, third level; MUP 134, fourth level.

Prerequisites: MEDU, PRFM, or MUSI major. or permission of instructor.

MUP 134 Principles of Jazz Theory 3
Foundational knowledge for the study of jazz improvisation, composition, and arranging; stressing jazz nomenclature, basic chord substitution, voice leading, and jazz keyboard skills.

Prerequisites: MUP 104 or permission of instructor.

MUP 151 Performance Studies 1-3
Instruction on principal instrument or voice.

Prerequisites: Audition required.

Notes: May be repeated for credit if different instrument or with approval of Department Chair. Enrollment for 2–3 credits requires coregistration in an ensemble.

MUP 155 Secondary Piano for Music Education 1-3
Studio instruction for Music Education majors whose secondary instrument is piano.

Prerequisites: MUP 134, or pass first Music Education piano proficiency examination. MEDU Major.

MUP 170 Italian and Latin Diction for Singers 1
Study of International Phonetic Alphabet and its application to the pronunciation of Italian and ecclesiastical Latin and special problems involved in singing these languages.

MUP 171 English Diction for Singers 1
Study of the International Phonetic Alphabet and its application to the pronunciation of English and special problems involved in singing in English.

Prerequisites: MUP 170, or permission of instructor.

MUP 180 Beginning Guitar 2
The development of fundamental guitar proficiency, through a wide repertoire of folk and popular songs, for students with no previous experience. Must supply a 6-string acoustic guitar.

MUP 182 Beginning Piano 2
Beginning piano performance and music fundamentals for the student with little or no previous music study.

Prerequisites: Non-music majors only.

MUP 184 Beginning Ukulele 2
The development of fundamental ukulele proficiency, through a wide repertoire of folk and popular songs, for someone with no previous experience.

Notes: Students must supply a four-string acoustic ukulele.

MUP 204 Principles of Jazz Theory 3
Foundational knowledge for the study of jazz improvisation, composition, and arranging; stressing jazz nomenclature, basic chord substitution, voice leading, and jazz keyboard skills.

Prerequisites: MUP 104 or permission of instructor.

MUP 205 Composition Studies 3
Applied instruction in music composition.

Prerequisites: MUP 115 or permission of instructor. PRFM major, composition concentration.

MUP 206 Composition Studies 3
Applied instruction in music composition.

Prerequisites: MUP 115 or permission of instructor. PRFM major, composition concentration.

MUP 220 Making Music with Computers 3
Hands-on introduction to using computers to create music. Topics include sequencing, editing, sampling, and looping. Software includes Garage Band, Logic Express, Reason, and Audacity.

MAC: MAC CritThink Hum and Fine Art

MUP 251 Performance Studies 1-6
Instruction on principal instrument or voice.

Prerequisites: Audition required.

Notes: May be repeated for credit with approval of Department Chair. Enrollment in 2 or more credits requires coregistration in an ensemble.
MUP 252 Performance Studies 1-6
Instruction on principal instrument or in voice.
Prerequisites: Audition required.
Notes: May be repeated for credit with approval of Department Chair. Enrollment in 2 or more credits requires coregistration in an ensemble.

MUP 253 Performance Studies 1-3
Performance studies instruction for non-majors or majors on secondary instrument/voice.
Prerequisites: Admission as a Music major or special permission of Department. Enrollment in two (2) or more s.h. requires coregistration in an ensemble;
Notes: May be repeated for credit if different instrument.

MUP 255 Secondary Piano for Music Education 1-3
Studio instruction for Music Education majors whose secondary instrument is piano.
Prerequisites: MUP 155. MEDU Major.

MUP 270 French Diction for Singers 1
Phonetic alphabet as it relates to French language and special problems involved in singing this language.
Prerequisites: MUP 170, or permission of instructor.

MUP 271 German Diction for Singers 1
Phonetic alphabet as it relates to German language and special problems involved in singing this language.
Prerequisites: MUP 170, or permission of instructor.

MUP 284 Fundamentals of Keyboard Accompanying I 1
Class discussion, study and performance of literature for voice and/or instruments with keyboard accompaniment. Special attention given to sight reading techniques, German Lieder and Italian opera reductions.
Prerequisites: MUS 106, or permission of instructor.

MUP 285 Fundamentals of Keyboard Accompanying II 1
Class discussion, study, and performance of literature for voice and/or instruments with keyboard accompaniment. Special attention given to ensemble playing, orchestral transcriptions, and the style of French melodie.
Prerequisites: MUP 284, or permission of instructor.

MUP 300 Recital 0
Presentation of a varied program of music.

MUP 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

MUP 301 Repertoire Class 1
A workshop class where pedagogy of the performance medium is discussed and works of musical literature are performed, coached, and discussed.
Corequisites: MUP 151 or MUP 152 or MUP 251 or MUP 252 or MUP 351 or MUP 352 or MUP 451 or MUP 452.
Notes: May be repeated as often as the student is co-registered for performance studies instruction. Grade: Pass/Not Pass (P/NP).

MUP 302 Keyboard Harmony I 1
A keyboard approach to the study of harmony, emphasizing extemporaneous keyboard harmonization, harmonization of melodies, and figured bass realization.
Prerequisites: MUP 251 level in keyboard, or permission of instructor.

MUP 303 Keyboard Harmony II 1
A continuation of MUP 302; a keyboard approach to the study of harmony, emphasizing extemporaneous keyboard harmonization, harmonization of melodies, and figured bass realization.
Prerequisites: MUP 302, or permission of instructor.

MUP 305 Composition Studies 3
Applied instruction in music composition.
Prerequisites: MUP 115 or permission of instructor. PRFM major, composition concentration.

MUP 306 Composition Studies 3
Applied instruction in music composition.
Prerequisites: MUP 115 or permission of instructor. PRFM major, composition concentration.

MUP 307 Composition Seminar 1
A workshop class where pedagogy of musical composition is discussed and recent works by student and professional composers are presented, performed, coached, and/or discussed.
Corequisites: MUP 115 or MUP 205 or MUP 206 or MUP 305 or MUP 306 or MUP 405 or MUP 406.

MUP 310 Audiovisual Demos For Musicians 3
Workshop dedicated to basic audiovisual production focused on the practical needs of developing musicians. The course is designed to guide each student in producing documentation of their own creative and/or performing work.
Prerequisites: Music Major or permission of instructor.

MUP 316 Modular Sound Synthesis 3
Introduction to concepts of processing sounds using software-based sequencers and synthesizers. Sequencing software and virtual instruments; synthesizing and manipulating sounds with digital synthesizers and audio processing tools; resampling and working with audio; basic mixing and mastering for multitrack productions. Exposure to various forms of generative music for composing techniques.

MUP 319 Choral Conducting I 1
Conducting techniques, especially as related to choral conducting; rehearsal procedures, study of choral repertory.

MUP 321 Jazz Improvisation I 3
Basic course for the student with little or no previous experience in jazz improvisation. First semester: essential theoretical knowledge and practical skills and practice of integrating them into improvisation.
Prerequisites: MUP 204.

MUP 322 Jazz Improvisation II 3
Continued development of knowledge and skills present in MUP 321 with emphasis on increased fluency and mastery.
Prerequisites: MUP 321 or permission of instructor.

MUP 325 Singer Songwriting 3
This course is intended for anyone interested in learning the art of songwriting. To be successful, performance ability on an instrument or voice is highly recommended.
MUP 331 Free Improvisation 1
This course is designed for performers who want to develop their skill in spontaneous creative expression. It will focus on building competency and confidence in solo and collective improvisation for both vocalists and instrumentalists. Students will be led through a sequence specifically created to ease fears about improvisation and increase connectivity, creativity, and individual voice. Classes will be focused on practical experience as well as readings and activities to enhance musical intuition and instinct. The semester will culminate in a performance of improvisation.
Notes: May be repeated for credit.

MUP 344 Digital Music Composition I 3
Introductory course in electronic composition. Lecture and laboratory experience. Projects involving analog synthesis, tape techniques, computer and MIDI control of electronic instruments.
Prerequisites: Junior standing or permission of instructor
Notes: Open to all university students.

MUP 345 Digital Music Composition II 3
Further exploration of compositional concepts dealing with MIDI, sound synthesis, and multitracking basic recording techniques. Includes emphasis on live, interactive electronic music resources including Max/ MSP, C-sound, Reaktor, and others.
Prerequisites: MUP 344, or permission of instructor.

MUP 349 Audio Recording I 3
Basic concepts and techniques of audio recording, including microphones, microphone placement, recording techniques, editing and mixing. Final project is a professional-level recording of a small ensemble or band.

MUP 351 Performance Studies 1-6
Instruction on principal instrument or in voice.
Prerequisites: Audition required.
Notes: May be repeated for credit with approval of Department Chair. Enrollment in 2 or more credits requires coregistration in an ensemble.

MUP 352 Performance Studies 1-6
Instruction on principal instrument or in voice.
Prerequisites: Audition required.
Notes: May be repeated for credit with approval of Department Chair. Enrollment in 2 or more credits requires coregistration in a large ensemble.

MUP 353 Performance Studies 1-3
Performance studies instruction for non-majors or majors on secondary instrument/voice.
Prerequisites: Admission as a Music major or special permission of Department. Enrollment in two (2) or more s.h. requires coregistration in an ensemble;
Notes: May be repeated for credit if different instrument.

MUP 355 Secondary Piano for Music Education 1-3
Studio instruction for Music Education majors whose secondary instrument is piano.
Prerequisites: MUP 255. MEDU Major.

MUP 372 Instrumental Conducting I 1
Introductory course in instrumental conducting. Emphasis on baton technique and non-verbal communication.
Prerequisites: Junior standing or permission of instructor.

MUP 375 Opera Performance Techniques 2
Techniques for the singer-actor; study of the materials and nature of music theatre; development of basic skills required in opera and/or music theatre.
Prerequisites: Permission of instructor.
Notes: May be repeated for credit.

MUP 387 Historical Performance Consort 1
This course provides a setting in which music students will study principles, practices, and repertoire related to the historically informed performance of Western music of earlier ages, centering on the Baroque and Classical eras.
Prerequisites: MUP 252.
Notes: May be repeated for credit.

MUP 400 Recital 1
Performance of a faculty approved repertoire selection of approximately 50 minutes of music.
Prerequisites: Senior status in Performance Studies.

MUP 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

MUP 402 Entrepreneurship in the Performing Arts 3
Focus on entrepreneurship knowledge, skills and career development in the performing arts.
Prerequisites: Junior or senior standing.
Notes: Same as ENT 402, VPA 402.

MUP 405 Composition Studies 3
Applied instruction in music composition.
Prerequisites: MUP 115 or permission of instructor. PRFM major with a composition concentration.

MUP 406 Composition Studies 3
Applied instruction in music composition.
Prerequisites: MUP 115 or permission of instructor. PRFM major with a composition concentration.

MUP 409 Jazz Pedagogy 2
Prerequisites: MUP 204.

MUP 412 Piano Pedagogy I 3
Survey of current piano teaching philosophies, methods, and materials and their application for private and group instruction. Supervised teaching of beginning piano students.
Prerequisites: Keyboard principal or major or permission of instructor.

MUP 413 Piano Literature I 3
Survey of piano literature from ca. 1760–1825, with a preliminary investigation of music for other keyboard instruments from earliest extant sources.
Prerequisites: Junior or senior standing or permission of instructor.

MUP 414 Piano Literature II 3
Survey of piano literature from ca. 1825 to present.
Prerequisites: Junior or senior standing or permission of instructor.

MUP 417 Piano Pedagogy II 3
Survey of intermediate and moderately advanced teaching literature with emphasis on basic pedagogical approaches to technique, style, and interpretation. Procedures for teaching functional skills. Supervised teaching experience.
Prerequisites: Keyboard principal or major or permission of instructor.
MUP 421 Music Technology in Performance 3
This course is designed to develop proficiency for musicians interested in performing music that utilizes technology in many ways. Subjects include mixers, microphones, monitors, computer software programs, live looping, band setups and more. Open to everyone, including solo performers, bands/groups and performance artists.

Prerequisites: MUP 204.

MUP 424 Jazz Arranging I 3
Beginning study of language and techniques employed in arranging music for various jazz ensembles.
Prerequisites: MUP 423.

MUP 425 Organ Pedagogy 3
A study and evaluation of procedures used in the teaching of organ. Emphasis on skills and techniques through exercises and literature.
Prerequisites: Junior or senior keyboard major or principal.

MUP 426 Song Literature I 3
Survey of non-operatic solo vocal repertoire: Italian (Baroque and Classical), German, Nationalistic, Spanish. Brief historical study of major composers, poets, compositional style, and historical periods.

MUP 427 Song Literature II 3

MUP 428 Principles of Vocal Pedagogy 3
Teaching process as applied to singing. Includes historical development and an examination and comparison of concepts and approaches past and present.
Prerequisites: Senior standing as a voice major or principal or permission of instructor.

MUP 436 Band Literature 3
Band literature and origins of the band emphasizing its import and expanded cultivation during past century in United States and Europe.

MUP 447 Vocal Coaching 1
Facilitation of progressive development of voice students through advanced and comprehensive study of repertoire and performance practice, focusing primarily on diction, style, and interpretation.
Prerequisites: Voice Performance majors, junior or senior standing, and permission of coordinator of vocal area.
Corequisites: MUP 351 or MUP 352 or MUP 451 or MUP 452.
Notes: May be repeated as often as enrollment space permits.

MUP 451 Performance Studies 1-6
Instruction on principal instrument or in voice.
Prerequisites: Audition required.
Notes: May be repeated for credit with approval of Department Chair.
Enrollment in 2 or more credits requires coregistration in an ensemble.

MUP 452 Performance Studies 1-6
Instruction on principal instrument or in voice.
Prerequisites: Audition required.
Notes: May be repeated for credit with approval of Department Chair.
Enrollment in 2 or more credits requires coregistration in an ensemble.

MUP 455 Orchestration 3
Advanced techniques in instrumental scoring for large ensembles such as orchestra, wind ensemble, and jazz ensemble. Historical and stylistic analysis of the art of orchestration. Additional practical exercises in scoring and arranging for small and large ensembles.

MUP 460 History of Jazz 3
Chronological survey of jazz music and jazz history. Introduction to standard reference works and investigation of socio-cultural aspects.
Prerequisites: MUP 204, junior standing.

MUP 486 Advanced Instrumental Conducting 3
Topics include advanced non-verbal and gestural communication concepts, methods of score study, self-evaluation and reflection, critical listening, and application of leadership skills and rehearsal techniques in varied performance settings.
Prerequisites: MUE 472 or equivalent. Music majors only.

MUP 497 Directed Study in Music Performance 1-3
Supervised research in advanced subject area resulting in written document related to performance or composition. Project outline (available in Music office) prepared by student and supervising professor and approved by Department Head of Music Performance.
Prerequisites: Permission of supervising professor and Department Head of Music Performance.
Notes: May be repeated for credit if topic varies.

MUP 498 Italian for Singers 4
Study of basic grammar/vocabulary required to understand/pronounce texts from Italian opera/songs. Compares standard and operatic grammatical syntax. Covers material sufficient for basic needs and social demands of the language.
Prerequisites: MUP 170 or comparable Italian diction course from another institution.

MUP 600 Recital 1
Performance of a faculty approved repertoire selection of approximately 50 minutes of music.
Prerequisites: Permission of instructor.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

MUP 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

MUP 601 Repertoire Class 1
A workshop class where pedagogy of the performance medium is discussed and works of musical literature are performed, coached, and discussed.
Corequisites: Enrollment in Performance Studies Instruction.
Notes: Course may be repeated for credit.

MUP 602 Practicum in Piano Pedagogy 1
Practicum for students in the M.M. Piano Performance, Piano Pedagogy Concentration. In this practicum, students will be teaching weekly lessons to students in the Private Lesson Program at UNCG’s School of Music.
Prerequisites: M.M. in Piano Performance, Piano Pedagogy Concentration.

MUP 604 Composition Seminar 1
A workshop class where pedagogy of musical composition is discussed and recent works by student and professional composers are presented, performed, coached, and/or discussed.
Corequisites: Enrollment in Performance Studies Instruction.
MUP 605 Principles of Jazz Theory 2
Establishes a foundation of knowledge for the study of jazz improvisation and composition, stressing jazz nomenclature, chord/scale analysis, and basic chord substitution.
Prerequisites: Undergraduate degree in music or admission to the PBC in Jazz Studies.

MUP 606 Modular Sound Synthesis 3
Introduction to concepts of processing sounds using software-based sequencers and synthesizers. Sequencing software and virtual instruments; synthesizing and manipulating sounds with digital synthesizers and audio processing tools; resampling and working with audio; basic mixing and mastering for multitrack productions. Exposure to various forms of generative music for composing techniques.

MUP 609 Jazz Pedagogy 2
Prerequisites: Graduate music major.

MUP 610 Lecture-Demonstration 2
A research project leading to a public lecture recital.
Prerequisites: Permission of instructor.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

MUP 612 Piano Pedagogy I 3
Survey of current piano teaching philosophies, methods, materials, and their application for private and group instruction. Supervised teaching of beginning piano students.

MUP 613 Piano Literature I 3
Survey of piano literature from ca. 1760-1825, with a preliminary investigation of music for the other keyboard instruments from the earliest extant sources.

MUP 614 Piano Literature II 3
Survey of piano literature from ca. 1825 to the present.

MUP 617 Piano Pedagogy II 3
Survey of intermediate and moderately advanced teaching literature with emphasis on basic pedagogical approaches to technique, style, and interpretation. Procedures for teaching functional skills. Supervised teaching experience.

MUP 620 Seminar in Piano 3
Study of a particular composer or genre of piano literature emphasizing stylistic features, performance problems, pedagogy, and historical perspectives. Topic to be announced.
Prerequisites: Permission of instructor.
Notes: May be repeated once for credit when topic varies.

MUP 622 Seminar in Choral Literature 3
In-depth study of a limited area of choral literature, tracing its historical development and performance practice. Topic to be announced.
Notes: May be repeated once for credit when topic varies.

MUP 623 Jazz Arranging I 2
Beginning study of language and techniques employed in arranging music for various jazz ensembles.
Prerequisites: Graduate standing in music or permission of instructor.

MUP 624 Jazz Arranging II 2
Advanced study of techniques and disciplines employed in arranging for jazz ensembles.
Prerequisites: MUP 623.

MUP 626 Song Literature I 3
Survey of non-operatic solo vocal repertoire: Italian (Baroque and Classical), German, Nationalistic, Spanish. Brief historical study of major composers, poets, compositional style, and historical periods.

MUP 627 Principles of Vocal Pedagogy 3
Teaching process as applied to singing. Includes historical development and an examination and comparison of concepts and approaches past and present.
Prerequisites: Senior or graduate standing as a voice major or principal or permission of instructor.

MUP 630 The Study and Pedagogy of Phonetics as Applied to Singing 3
The International Phonetic Alphabet as applied to the singing of English, Italian, German, and French. Emphasis on vocal interpretation of the symbolic language and functional skills of teaching.

MUP 634 Song Literature II 3

MUP 636 Band Literature 3
Band literature and the origins of the band emphasizing its important and expanded cultivation during the past century in the United States and Europe.

MUP 638 Organ Pedagogy 3
A study and evaluation of procedures used in the teaching of organ. Emphasis on skills and techniques through exercises and literature.
Prerequisites: Junior, senior, or graduate keyboard major or principal.

MUP 640 Vocal Coaching 1
Facilitate the progressive development of voice students through advanced and comprehensive study of repertoire and performance techniques, focusing primarily on diction, style and interpretation.
Prerequisites: MUP 651 or higher standing in Performance Studies and permission of Vocal Area Coordinator.
Corequisites: MUP 651 or MUP 751.
Notes: May be repeated for credit.

MUP 644 Digital Music I 3
Introductory course in electronic composition. Lecture and laboratory experience.
Notes: Open to all University students.

MUP 645 Digital Music Composition II 3
Further exploration of compositional concepts dealing with MIDI, sound synthesis, multitacking, and recording techniques. Emphasis on live, interactive electronic music resources including Max/MSP, C-Sound, Reaktor, and others.
Notes: Registration restricted to graduate students in Music or with permission of instructor.

MUP 646 Audiovisual Demos For Musicians 3
Workshop dedicated to basic audiovisual production focused on the practical and needs of professional musicians. The course is designed to guide each student in producing documentation of their own creative and/or performing work.

MUP 649 Audio Recording I 3
Basic concepts and techniques of audio recording, including microphones, microphone placement, recording techniques, editing and mixing. Final project is a professional-level recording of a small ensemble or band.
MUP 651 Performance Studies 1-6
Performance studies instruction on principal instrument, voice, composition, or conducting.
Prerequisites: By audition.
Notes: Curricular Practical Training Required for F1 Visa Holders.

MUP 653 Performance Studies (Secondary) 0.5-2
Performance studies instruction on secondary instrument, voice, composition, or conducting.
Prerequisites: By audition.
Notes: Curricular Practical Training Required for F1 Visa Holders.

MUP 655 Orchestration 3
Advanced techniques in instrumental scoring for large ensembles such as orchestra, wind ensemble, and jazz ensemble. Historical and stylistic analysis of the art of orchestration. Additional practical exercises in scoring and arranging for small and large ensembles.

MUP 661 Entrepreneurial Career Development in Music 3
Focus on the entrepreneurship knowledge, skills, and career development to enable students to become the architect of his/her future.
Notes: Same as ENT 661.

MUP 663 History of Jazz 3
Chronological survey of jazz music and jazz history. Introduction to standard reference works and investigation of socio-cultural aspects.

MUP 664 Jazz Improvisation I 2
An introduction to jazz improvisation using modal forms, blues, and ii-VI progressions.
Prerequisites: Undergraduate degree in music or admission to the PBC Jazz Studies.

MUP 665 Advanced Jazz Improvisation 2
Continuation of Jazz Improvisation I; focus on standards through contemporary jazz performers and composers.
Prerequisites: MUP 664 Jazz Improvisation I or permission of instructor.

MUP 675 Opera Performance Techniques 2
Techniques for the singer-actor; study of the materials and nature of music theatre; development of skills required in opera/musical theatre.
Prerequisites: MUP 375 and/or permission of instructor.
Notes: May be repeated once for credit.

MUP 683 Instrumental Literature and Performance Practice 3
Survey of solo and chamber literature from the 17th century to the present. Emphasis on historical perspectives, development of instrumental genres, performance practices, listening, and general score analysis.

MUP 686 Advanced Instrumental Conducting 3
Topics include advanced non-verbal and gestural communication concepts, methods of score study, self-evaluation and reflection, critical listening, and application of leadership skills and rehearsal techniques in varied performance settings.
Prerequisites: Permission of instructor.
Notes: May be repeated twice for credit.

MUP 687 Historical Performance Consort 1
Provides a setting in which music students will study principles, practices, instruments, repertoire, and current professional activities related to the historically informed performance of Western music of earlier ages, centering on the Baroque and Classical eras.

MUP 689 Italian for Singers 4
Study of basic grammar/vocabulary required to understand/pronounce texts from Italian opera/songs. Compares standard and operatic grammatical syntax. Covers material sufficient for basic needs and social demands of the language.

MUP 699 Thesis 1-6
Individual guidance in the development of a specific performance or composition project.
MUP 701 Repertoire Class 1
A workshop class where pedagogy of the performance medium is discussed and works of musical literature are performed, coached, and discussed.
Corequisites: Enrollment in Performance Studies Instruction.
Notes: Course may be repeated for credit.

MUP 704 Composition Seminar 1
A workshop class where pedagogy of musical composition is discussed and recent works by student and professional composers are presented, performed, coached, and/or discussed.
Corequisites: Enrollment in Performance Studies Instruction.

MUP 705 Principles of Jazz Theory 2
Establishes a foundation of knowledge for the study of jazz improvisation and composition, stressing jazz nomenclature, chord/scale analysis, basic chord substitution.
Prerequisites: Undergraduate degree in music or admission to the P.B.C. in Jazz Studies.

MUP 709 Jazz Pedagogy 2
Prerequisites: Graduate music major.

MUP 710 Lecture-Demonstration 2
A research project leading to a public lecture recital.
Prerequisites: Permission of instructor.
Notes: Grading method is Satisfactory/Unsatisfactory (S/U).

MUP 712 Piano Pedagogy I 3
Survey of current piano teaching philosophies, methods, materials, and their application for private and group instruction. Supervised teaching of beginning piano students.

MUP 713 Piano Literature I 3
Survey of piano literature from ca. 1760-1825, with a preliminary investigation of music for the other keyboard instruments from the earliest extant sources.

MUP 714 Piano Literature II 3
Survey of piano literature from ca. 1825 to the present.

MUP 717 Piano Pedagogy II 3
Survey of intermediate and moderately advanced teaching literature with emphasis on basic pedagogical approaches to technique, style, and interpretation. Procedures for teaching functional skills. Supervised teaching experience.
MUP 719 Seminar in Vocal Literature 3
In-depth study of an area of vocal literature tracing the historical development and performance practice of that area. Topic to be announced.
Prerequisites: Permission of instructor.
Notes: May be repeated once for credit when topic varies.

MUP 720 Seminar in Piano 3
Study of a particular composer or genre of piano literature emphasizing stylistic features, performance problems, pedagogy, and historical perspectives. Topic to be announced.
Prerequisites: Permission of instructor.
Notes: May be repeated once for credit when topic varies.

MUP 721 Music Technology in Performance 3
This course is designed to develop proficiency for musicians interested in performing music that utilizes technology in many ways. Subjects include mixers, microphones, monitors, computer software programs, live looping, band setups and more. Open to everyone, including solo performers, bands/groups and performance artists.

MUP 722 Seminar in Choral Literature 3
In-depth study of a limited area of choral literature, tracing its historical development and performance practice. Topic to be announced.
Notes: May be repeated once for credit when topic varies.

MUP 723 Jazz Arranging I 2
Beginning study of language and techniques employed in arranging music for various jazz ensembles.
Prerequisites: Graduate standing in music or permission of instructor.

MUP 724 Jazz Arranging II 2
Advanced study of techniques and disciplines employed in arranging for jazz ensembles.
Prerequisites: MUP 723.

MUP 726 Song Literature I 3
Survey of non-operatic solo vocal repertoire: Italian (Baroque and Classical), German, Nationalistic, Spanish. Brief historical study of major composers, poets, compositional style, and historical periods.

MUP 727 Principles of Vocal Pedagogy 3
Teaching process as applied to singing. Includes historical development and an examination and comparison of concepts and approaches past and present.
Prerequisites: Graduate standing as a voice major or principal or permission of instructor.

MUP 728 Advanced Vocal Pedagogy 3
Practical application of proven pedagogical techniques in a supervised teaching situation.
Prerequisites: MUP 627.

MUP 731 Free Improvisation 1
Designed for graduate student performers who want to develop advanced skills in spontaneous creative expression. It will focus on building competency and confidence in solo and collective improvisation for both vocalists and instrumentalists. Students will be led through a sequence specifically created to ease fears about improvisation and increase connectivity, creativity, and individual voice. Classes will be focused on practical experience as well as readings and activities to enhance musical intuition and instinct. The semester will culminate in a performance of improvisation.

MUP 734 Song Literature II 3

MUP 736 Band Literature 3
Band literature and the origins of the band emphasizing its important and expanded cultivation during the past century in the United States and Europe.

MUP 738 Organ Pedagogy 3
A study and evaluation of procedures used in the teaching of organ. Emphasis on skills and techniques through exercises and literature.
Prerequisites: Permission of instructor.

MUP 740 Vocal Coaching 1
Facilitate the progressive development of voice students through advanced and comprehensive study of repertoire and performance techniques, focusing primarily on diction, style and interpretation.
Prerequisites: MUP 651 or higher standing in Performance Studies and permission of Vocal Area Coordinator.
Corequisites: MUP 651 or MUP 751.
Notes: May be repeated for credit.

MUP 744 Digital Music I 3
Introductory course in electronic composition. Lecture and laboratory experience.
Notes: Open to all University students.

MUP 745 Digital Music Composition II 3
Further exploration of compositional concepts dealing with MIDI, sound synthesis, multitracking, and recording techniques. Emphasis on live, interactive electronic music resources including Max/MSP, C-Sound, Reaktor, and others.
Notes: Registration restricted to graduate students in Music or with permission of instructor.

MUP 747 Audio Recording I 3
Basic concepts and techniques of audio recording, including microphones, microphone placement, recording techniques, editing and mixing. Final project is a professional-level recording of a small ensemble or band.

MUP 748 Practicum in Instrumental Pedagogy 3
Provides advanced knowledge of and practical experience in instrumental pedagogy through an interdisciplinary approach in areas of anatomy, physiology, kinesiology, pathology, technology, psychology, and applied performance.
Prerequisites: MUP 651.

MUP 750 College Teaching: The Tenure Track 3
Issues related to teaching performing arts in higher education. Topics include curriculum design, teaching methods, evaluation, promotion, school/departmental structure, job searching/resume preparation, copyright, publication, etc.
Prerequisites: MUP 651 or MUP 751.

MUP 755 Orchestration 3
Advanced techniques in instrumental scoring for large ensembles such as orchestra, wind ensemble, and jazz ensemble. Historical and stylistic analysis of the art of orchestration. Additional practical exercises in scoring and arranging for small and large ensembles.
MUP 763 History of Jazz 3
Chronological survey of jazz music and jazz history. Introduction to
to standard reference works and investigation of socio-cultural aspects.

MUP 764 Jazz Improvisation I 2
An introduction to jazz improvisation using modal forms, blues, and ii-VI
progressions.
Prerequisites: Undergraduate degree in music or admission to the P.B.C.
Jazz Studies.

MUP 765 Advanced Jazz Improvisation 2
Continuation of Jazz Improvisation 1; focus on standards through
contemporary jazz performers and composers.
Prerequisites: MUP 764 or permission of instructor.

MUP 768 Organ Literature 3
Survey of organ literature from sixteenth century to present.
Notes: Open to all graduate students by permission of instructor.

MUP 775 Opera Performance Techniques 2
Techniques for the singer-actor, study of the materials and nature of
music theatre, and development of skills required in opera/musical
theatre.
Prerequisites: MUP 375 and/or permission of instructor.
Notes: May be repeated once for credit.

MUP 783 Instrumental Literature and Performance Practice 3
Survey of solo and chamber literature from the 17th century to
the present. Emphasis on historical perspectives, development of
instrumental genres, performance practices, listening, and general score
analysis.

MUP 786 Advanced Instrumental Conducting 3
Topics include advanced non-verbal and gestural communication
concepts, methods of score study, self-evaluation and reflection, critical
listening, and application of leadership skills and rehearsal techniques in
varied performance settings.
Prerequisites: Permission of instructor.
Notes: May be repeated twice for credit.

MUP 787 Historical Performance Consort 1
Provides a setting in which music students will study principles,
practices, instruments, repertoire, and current professional activities
related to the historically informed performance of Western music of
earlier ages, centering on the Baroque and Classical eras.

MUP 797 Directed Study in Music Performance 1-12
Supervised advanced research requiring a written document or
composition.
Prerequisites: Permission of supervising professor. Director of Graduate
Study, Dean, and School of Music Director.

MUP 799 Dissertation 1-12

MUP 801 Thesis Extension 1-3
Thesis Extension.

MUP 802 Dissertation Extension 1-3
Dissertation Extension.

Music Studies (MUS)

MUS 100 Fundamentals of Western European Music Theory 2
Fundamentals of the notation and underlying concepts of Western
European art music and related traditions, including staves, clefs &
pitches, rhythm & meter, major & minor scales, key signatures, intervals,
and triads.

MUS 101 Analysis of Western European Music and Related Traditions I 3
Elements of Western European art music and related traditions, including
rhythm & meter, species counterpoint, figured bass, triads, and seventh
chords; introduction to part writing, diatonic harmonic progression,
phrases, and cadences. Intended to be taken with MUS 105.
Prerequisites: Passing score on the music fundamentals exam or
successful completion of MUS 100. Music major or music minor.

MUS 102 Analysis of Western European Music and Related Traditions II 3
Continued study of Western European art music and related traditions,
including part writing and diatonic harmonic progression; introduction to
sequences, motives, phrase types, secondary dominants, and modulation
to closely related keys. Intended to be taken with MUS 106.
Prerequisites: MUS 101 and MUS 105 or permission of instructor.

MUS 105 Aural Skills I 1
The study of elemental pitch patterns and rhythms from Western
European art music and related traditions through performance,
transcription, memory exercises, and structured improvisation. Intended
to be taken with MUS 101.
Prerequisites: Passing score on the music fundamentals exam or
successful completion of MUS 100. Music major or minor.

MUS 106 Aural Skills II 1
Continued study of pitch patterns and rhythms from Western European
art music and related traditions, including diatonic modes, chromatic
embellishment, modulation between relative keys, syncopation, and
hemiola. Dictation of melodies and harmonic progressions. Intended to
be taken with MUS 102.
Prerequisites: MUS 101 and MUS 105 or permission of instructor.

MUS 107 Technology for Musicians I 1
Introduction to computer/computer applications: word processing,
database, spreadsheet, music notation, Internet and online library, Web
page and multimedia development. Experience using, creating, and
evaluating computer media for music.
Prerequisites: Music major.

MUS 109 Orientation to College and the Music Major 3
The course will introduce students to the people and resources in the
community, on campus, and within the CVPA and School of Music that
can assist them in developing the general academic and musicianship
skills needed to be successful as they consider their individual interests
in music.
MAC: MAC Foundations
Prerequisites: The course is for new students only.

MUS 120 Freshman Seminar: Sound Listening 1
Freshman seminar developing attentive listening skills and examining
different theories of sound and/or music perception.
Notes: Required of MUSI majors, but open to MEDU and PRFM majors.

MUS 135 Musicology Research 3
Introduction to the basic tools of musicological inquiry, including
music vocabulary, reading in the discipline, basic library research, and
expository writing; cultural awareness; attentive listening to Western and
global music.
MAC: MAC CritThink Hum and Fine Art
Notes: Open to all University students.
MUS 201 Analysis of Western European Music and Related Traditions III
3
Advanced study of Western European art music and related traditions, including modulation, modal mixture, Neapolitan, and augmented-sixth chords; introduction to small forms, including binary, ternary, variations, and vocal forms. Intended to be taken with MUS 205.
Prerequisites: MUS 102 and MUS 106 or permission of instructor.

MUS 202 Analysis of Western European Music and Related Traditions IV
3
Advanced study of Western European art music and related traditions, including chromatic embellishing chords and modulation to distantly related keys; introduction to large forms, including rondo, sonata, and sonata-rondo, plus an introduction to twentieth-century approaches to pitch and rhythm. Intended to be taken with MUS 206.
Prerequisites: MUS 201 and MUS 205 or permission of instructor.

MUS 205 Aural Skills III 1
Advanced study of melody, harmony, and rhythm from Western European art music and related traditions, including tonization and modulation, modal mixture, and an introduction to cross rhythms, changing meter, and asymmetric meter. Intended to be taken with MUS 201.
Prerequisites: MUS 102 and MUS 106 or permission of instructor.

MUS 206 Aural Skills IV 1
Advanced study of melody, harmony, and rhythm from Western European art music and related traditions, including modulation to distantly related keys, whole-tone and octatonic scales, and continued study of cross rhythms and changing meter. Intended to be taken with MUS 202.
Prerequisites: MUS 201 and MUS 205 or permission of instructor.

MUS 211 Topics in Pop Music 3
Examines popular music in the context of social, cultural, and political climates. Illustrates how music is an inexorable agent of social change and identity. No previous musical experience required.
MAC: MAC CritThink Hum and Fine Art

MUS 212 Topics in Hip Hop 3
Examines Hip Hop music from 1970 through 2000 in the context of social, cultural, and political climates. Illustrates how the four art forms of Hip Hop are an inexorable agent of social change and identity. No previous musical experience required.
MAC: MAC Diversity and Equity

MUS 214 Jazz Appreciation 3
Introductory course focusing on jazz. Students gain understanding of aims and methods of artistic expression and the role of cultural traditions and artistic value in human society. No musical training required.
MAC: MAC CritThink Hum and Fine Art

MUS 241 Music Appreciation 3
Introduction to Western culture art music through a survey of its history, composers, forms, styles. Requires listening assignments and recital attendance. No musical training required.
MAC: MAC CritThink Hum and Fine Art
Prerequisites: Non-music majors only.

MUS 242 Music for Film 3
Familiarizes students with how music operates in films from the major film industries of the world, and introduces and engages musical-cinematic trends over the course of the twentieth and twenty-first centuries.
MAC: MAC CritThink Hum and Fine Art

MUS 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

MUS 301 Analysis of Western European Post-Tonal Music and Related Traditions 3
Analysis of selected post-tonal compositions from Western European art music and related traditions, as well as composition exercises based on models.
Prerequisites: MUS 202 and MUS 206 or permission of instructor.

MUS 311 Anthropology of Music, Sound, and Power 3
Introduction to the anthropology of music. Cultural analysis of music and sound in contemporary settings.
Notes: Students may not receive credit for both ATY 353 and MUS 311.

MUS 325 First Nights: Five Performance Premieres 3
Consideration of five pieces of music both as artworks and moments of cultural history. Study of the techniques of musical listening and the historical context of each premiere.

MUS 326 Music and Environment 3
Consideration of creative works and traditions relating human sound (music, noise, etc.) and the natural environment from artistic, humanistic, and scientific perspectives.

MUS 329 History of Rock Music 3
Survey of rock music from the 1950s to the present. Emphasis will be placed on identifying specific styles and explaining the influence of key performers.

MUS 332 History of Western Music II 3
History of Western art music traditions from the early Christian era to about 1750.
Prerequisites: MUS 135.
Notes: Open to all university students.

MUS 333 History of Western Music III 3
History of Western art music traditions from about 1750 to the present.
Prerequisites: MUS 135 or permission of instructor.

MUS 334 American Music 3
History of music in America. Ballads, spirituals, gospel, blues, jazz, bluegrass, musical theater, rhythm and blues, rock and roll, and Native American music.
Prerequisites: MUS 135.

MUS 343 Music Cultures of the World 3
Survey of major world music cultures moving from Africa through the Middle East, Iran, India, Indonesia, Japan, China, and America. No prior knowledge of music is required.

MUS 354 Modern Asia Through Its Music 3
Exploration of modern Asian music and culture. Examines relationships between music and national identity, ethnicity, politics, colonialism, religion, and other cultural phenomena in East, South, and Southeast Asia.

MUS 369 Music and the Grand Tour 3
Examines the historical phenomenon of the Grand Tour and its repercussions for European musical life since the seventeenth century; includes critical reflection on related modern tourism, including relevant sustainability issues.

MUS 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.
MUS 431 Selected Topics in Ethnomusicology 3
This course with rotating topics will examine particular music traditions and current issues in the field of ethnomusicology beyond the survey level. Topics may focus on geographical areas (Africa, Indonesia, Native American, etc.) or theoretical/methodological issues (Music and Gender, Music and Identity, Popular Music, Fieldwork, etc.).
Prerequisites: Junior or Senior standing.
Notes: May be repeated for credit.

MUS 439 Tonal Counterpoint 3
Contrapuntal techniques and standard forms of the middle and late Baroque. Analysis of music by composers from Corelli to Bach, composition in representative forms, and aural training.
Prerequisites: MUS 202 and MUS 206.

MUS 455 The Symphonic Tradition 3
Advanced study of symphonic styles and techniques from Baroque era to present.
Prerequisites: MUS 333 or permission of instructor.

MUS 482 Advanced Analysis of Western European Tonal Music and Related Traditions 3
Analysis of selected tonal compositions from Western European art music and related traditions. Reading and discussion of literature on theoretical concepts and on analysis and interpretation; analytical essay writing.
Prerequisites: MUS 202 and MUS 206 or permission of instructor.

MUS 483 Music before 1600 3
Examines musical traditions before 1600 beyond the survey level. Topics may include gender/sexuality, geography, institutions, orality, performance practice, print/manuscript culture, and/or religion.
Prerequisites: MUS 332 or permission of instructor.

MUS 484 Music from 1600 to 1800 3
Examines musical traditions ca. 1600–1800 beyond the survey level. Topics may include performance practice, nationalism, gender and sexuality, religion, orality/notation, organology, and iconography.
Prerequisites: MUS 332 or permission of instructor.

MUS 485 Music of the Nineteenth Century 3
Examines musical traditions ca. 1789–1914 beyond the survey level. Topics may include gender/sexuality, institutions, nationalism, nature, performance practice, and/or religion.
Prerequisites: MUS 333 or permission of instructor.

MUS 486 Music of the Twentieth Century 3
Examines musical traditions ca. 1880 to the present beyond the survey level. Topics may include music and the State, gender/sexuality, ethnicity and identity, cultural policy/politics, religion, and/or multimedia.
Prerequisites: MUS 333 or permission of instructor.

MUS 492 Capstone Seminar in Music Studies 3
This senior capstone course for the Bachelor of Arts in Music engages underpinnings. Readings from the secondary literature, analytical essay writing.
Prerequisites: MUS 332 or MUS 333 or permission of instructor.

MUS 495 History of Opera 3
Principal opera composers and styles from Monteverdi to the present; analytical study of selected major works.
Prerequisites: MUS 333 or permission of instructor.

MUS 497 Directed Study in Music 1-3
Supervised research in advanced subject area resulting in written document or composition. Project outline (available in Music office) prepared by student and supervising professor and approved by Associate Dean and Dean of School of Music.
Prerequisites: Permission of supervising professor and Dean of the School of Music.
Notes: May be repeated for credit if topic varies.

MUS 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

MUS 602 Seminar in Music Research and Writing 3
Musical bibliography encompassing a range of print and electronic sources and databases. Methods for researching and writing about music, including research papers, music criticism, and other genres.

MUS 631 Selected Topics in Ethnomusicology 3
Music traditions and current issues in the field of ethnomusicology. Topics may focus on geographical areas or theoretical/methodological issues.
Prerequisites: MUE 601 or MUS 602.
Notes: May be repeated for credit when topic varies.

MUS 638 Exploring Musical Cultures 1-3
This course is used for music-study trips.
Notes: Offered only when a course accompanies a specific trip. Variable credit.

MUS 639 Tonal Counterpoint 3
Contrapuntal techniques and standard forms of the middle and late Baroque. Analysis of music by composers from Corelli to Bach, composition in representative forms, and aural training.

MUS 644 Pedagogy of Music Theory 3
Survey of philosophies, curricula, course content, and teaching approaches for undergraduate courses in music theory and aural skills. Students will evaluate instructional materials, observe and evaluate the teaching of others, and undertake their own teaching demonstrations.
Prerequisites: Passing score on graduate theory diagnostic exam.

MUS 655 The Symphonic Tradition 3
Advanced study of symphonic styles and techniques from Baroque era to present.

MUS 660 Rhythm and Meter 3
A selective survey of analytic and theoretic approaches to rhythm and meter in Western concert music as well as a sample of non-notated music.
Prerequisites: Passing score on graduate theory diagnostic exam.

MUS 662 Schenkerian Analysis 3
Theories and analytical methods of Heinrich Schenker as applied to the tonal repertory. Selected readings from Schenkerian literature.
Prerequisites: MUS 639 or equivalent, passing score on graduate theory diagnostic exam.

MUS 664 Theory and Analysis of Western European Post-Tonal Music and Related Traditions 3
Analysis of selected post-tonal compositions from Western European art music and related traditions, as well as an exploration of their theoretical underpinnings. Readings from the secondary literature, analytical essay writing.
Prerequisites: Passing score on graduate theory diagnostic exam.
MUS 665 History of Opera 3
Principal opera composers and styles from Monteverdi to the present; analytical study of selected major works.

MUS 669 Music and the Grand Tour 3
Examines the historical phenomenon of the Grand Tour and its repercussions for European musical life since the seventeenth century. Includes critical reflection on related modern tourism, including relevant sustainability issues.

MUS 674 Five Music Performance Premieres 3
In depth study of five pieces of music history selected from a variety of periods.
Prerequisites: Passing score on graduate music history diagnostic exam.

MUS 685 Music of the Nineteenth Century 3
Examines musical traditions ca. 1879-1914 beyond the survey level. Topics may include gender/sexuality, institutions, nationalism, nature, performance practice, and/or religion.

MUS 686 Music of the Twentieth Century 3
Examines musical traditions from ca. 1880 to the present beyond the survey level. Topics may include music and the State, gender/sexuality, ethnicity and identity, cultural policy/politics, religion, and/or multimedia.

MUS 687 Aural and Keyboard Skills for Music Theory 1
Instruction and practice leading to the development of aural and keyboard skills sufficient for instructors of music theory and ear training.
Prerequisites: Admission to the master’s degree program in music theory or the certificate program for music theory pedagogy.
Notes: May be repeated for credit.

MUS 689 Practicum in Teaching Music Theory and Musicology 1
Supervised teaching of basic music theory and aural skills, music history, music appreciation, or world music.
Prerequisites: Admission to the certificate program in music theory pedagogy or in musicology.

MUS 690 Current and Historical Trends in Music Theory 3
Selective survey of the discipline of music theory. Current and historical topics such as rhythm and meter, form, tuning and temperament, scale theory, transformational theory, gender and identity, and meaning and embodiment; analytical approaches to a variety of repertoires such as pop-rock, jazz, and world music.
Prerequisites: Passing score on graduate theory diagnostic exam.

MUS 692 Advanced Analysis of Western European Tonal Music and Related Traditions 3
Analysis of selected tonal compositions from Western European art music and related traditions. Reading and discussion of literature on theoretical concepts and on analysis and interpretation; analytical essay writing.

MUS 697 Directed Study in Music Studies 1-12
Supervised advanced research requiring a written document or composition.
Prerequisites: Permission of supervising professor. Director of Graduate Study, and Dean School of Music Director.

MUS 698 Document in Music Theory 1,2
Development of research topic in music theory.
Notes: May be taken for 2 credits in one semester or 1 credit per semester for two semesters.

MUS 699 Thesis 1-6
Individual guidance in the development of a specific research problem.

MUS 706 Seminar in Musicology and Ethnomusicology 3
Selected topics in musicology and ethnomusicology, encompassing particular historical periods, geographical areas, genres, performance practices, technologies, politics, and theoretical or methodological approaches.
Prerequisites: MUE 601 or MUS 602 and passing score on the graduate music history diagnostic exam or permission of instructor.
Notes: May be repeated once for credit when topic varies.

MUS 707 Seminar in Musical Analysis 3
Rotating topics in musical analysis such as a particular historical period, genre, composer (or set of composers), style, and/or analytical methodology.
Prerequisites: Passing score on graduate theory diagnostic exam.
Notes: May be repeated once for credit when topic varies.

MUS 731 Selected Topics in Ethnomusicology 3
Music traditions and current issues in the field of ethnomusicology. Topics may focus on geographical areas or theoretical/methodological issues.
Prerequisites: MUS 602 or MUE 700.
Notes: May be repeated for credit when topic varies.

MUS 738 Exploring Musical Cultures 1-3
This course is used for music-study trips.
Notes: Offered only when a course accompanies a specific trip, course is variable credit.

MUS 739 Tonal Counterpoint 3
Contrapuntal techniques and standard forms of the middle and late Baroque. Analysis of music by composers from Corelli to Bach, composition in representative forms, and aural training.

MUS 744 Pedagogy of Music Theory 3
Survey of philosophies, curricula, course content, and teaching approaches for undergraduate courses in music theory and aural skills. Students will evaluate instructional materials, observe and evaluate the teaching of others, and undertake their own teaching demonstrations.
Prerequisites: Passing score on graduate theory diagnostic exam.

MUS 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

MUS 755 The Symphonic Tradition 3
Advanced study of symphonic styles and techniques from Baroque era to present.

MUS 760 Rhythm and Meter 3
A selective survey of analytic and theoretic approaches to rhythm and meter in Western concert music as well as a sample of non-notated music.
Prerequisites: Passing score on graduate theory diagnostic exam.

MUS 762 Schenkerian Analysis 3
Theories and analytical methods of Heinrich Schenker as applied to the tonal repertory. Selected readings from Schenkerian literature.
Prerequisites: MUS 739 or equivalent, passing score on graduate theory diagnostic exam.

MUS 764 Theory and Analysis of Western European Post-Tonal Music and Related Traditions 3
Analysis of selected post-tonal compositions from Western European art music and related traditions, as well as an exploration of their theoretical underpinnings. Readings from the secondary literature, analytical essay writing.
Prerequisites: Passing score on graduate theory diagnostic exam.
MUS 765 History of Opera 3
Principal opera composers and styles from Monteverdi to the present; analytical study of selected major works.

MUS 774 Five Music Performance Premieres 3
In depth study of five pieces of music history selected from a variety of periods.
Prerequisites: Passing score on graduate music history diagnostic exam.

MUS 785 Music of the Nineteenth Century 3
Examines musical traditions ca. 1789-1914 beyond the survey level. Topics may include gender/sexuality, institutions, nationalism, nature, performance practice, and/or religion.

MUS 786 Music of the Twentieth Century 3
Examines musical traditions from ca. 1880 to the present beyond the survey level. Topics may include music and the State, gender/sexuality, ethnicity and identity, cultural policy/politics, religion, and/or multimedia.

MUS 789 Practicum in Teaching Music Theory and Musicology 1
Supervised teaching of basic music theory and aural skills, music history, music appreciation, or world music.
Prerequisites: Admission to the certificate program in music theory pedagogy or in musicology.

MUS 790 Current and Historical Trends in Music Theory 3
Selective survey of the discipline of music theory. Current and historical topics such as rhythm and meter, form, tuning and temperament, scale theory, transformational theory, genre and identity, and meaning and embodiment; analytical approaches to a variety of repertoires such as rock, jazz, and world music.
Prerequisites: Passing score on graduate theory diagnostic exam.

MUS 792 Advanced Analysis of Western European Tonal Music and Related Traditions 3
Analysis of selected tonal compositions from Western European art music and related traditions. Reading and discussion of literature on theoretical concepts and on analysis and interpretation; analytical essay writing.

MUS 797 Directed Study in Music Studies 1-12
Supervised advanced research requiring a written document or composition.
Prerequisites: Permission of supervising professor, Director of Graduate Study, and School of Music Director.

MUS 801 Thesis Extension 1-3
Thesis Extension.

Nanoscience (NAN)

NAN 419 Introduction to Nanotechnology 3
This course introduces students to the emerging field of nanotechnology and exposes them to current research and topics that are being influenced by nanomaterials including biology, healthcare, and the environment.
Prerequisites: BIO 392, BIO 355, CHE 342, CHE 351, or permission of instructor.
Notes: Same as BIO 419.

NAN 450 Emerging Infectious Diseases and Biosafety Level-3 Laboratory Training 1
This is an elective course for students interested in learning more about emerging infectious diseases and the proper safety bio-safety protocols and procedures to study them in BSL3 lab.
Prerequisites: BIO 111 or permission of instructor.

NAN 519 Introduction to Nanotechnology 3
This course introduces students to the emerging field of nanotechnology and exposes them to current research and topics that are being influenced by nanomaterials including biology, healthcare, and the environment.
Notes: Same as BIO 519.

NAN 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

NAN 601 Nanomaterials Chemistry 3
Review of materials chemistry, synthesis of nanoparticles such as carbon nanotubes and fullerenes, chemical reactions and a survey of medicinal chemistry for pharmaceutical applications.
Prerequisites: Graduate student in Nanoscience or permission of instructor.

NAN 602 Physical Biology 3
Emphasis on cellular and intracellular mechanisms including biological self-assembly, single-molecule and single-cell biophysics, cytoskeletal interactions, protein folding, membrane dynamics, biological energetics, molecular biotechnologies, and cell-cell interactions as well as biomaterials.
Prerequisites: Graduate student in Nanoscience or permission of instructor.

NAN 603 Principles of Quantum and Solid State Physics 3
Emphasis on the areas of physics critical to nanoscience including solid state physics, statistical mechanics, quantum concepts, biophysics, chemical physics, and nanodevices based on semiconductors.
Prerequisites: Graduate student in Nanoscience or permission of instructor.

NAN 604 Nanotechniques 3
Fundamental techniques used in nanotechnology, including methods for nanofabrication, nanocharacterization, and nanomanipulation.
Prerequisites: Graduate student in nanoscience or permission of instructor.

NAN 605 Mathematical Methods in Modeling Complex Systems 3
An emphasis of this required course will be on the areas of mathematics critical to nanoscience and nanotechnology including application of differential equations to numerical and analytical modeling of nanostructures.
Prerequisites: Graduate student in Nanoscience or permission of instructor.

NAN 609 Nanosafety 3
An interdisciplinary course utilizing variety of academic disciplines (chemistry, physics, biology). Addresses the impact of nanomaterials through the range of organization that exists within living systems (molecular to societal).

NAN 610 Systems and Synthetic Biology 3
Systems and synthetic biology will address quantitative and computational approaches to the analysis and re-design of biological and biologically-inspired molecular systems for useful biotechnological or translational applications.
Corequisites: NAN 602 or permission of instructor.
NAN 611 Nanoscience Laboratory Rotation 1
A 7-week laboratory rotation intended to develop skills with scientific equipment and provide initial experience with nanoscale research. Four distinct laboratory rotations are required for the PhD in nanoscience.
Prerequisites: Graduate student in nanoscience or permission of instructor.
Notes: May be repeated for credit.

NAN 615 Introduction to Spectroscopy Methods in Nanoscience 3
This course will introduce spectroscopy methods that, widely used in physics, chemistry, and biological sciences, provide knowledge for estimating applicability ranges of various methods, and teach basics of spectroscopy instruments and data analysis.
Prerequisites: NAN 601, NAN 603, NAN 605.

NAN 616 Principles of Nanoscience I: Physical, Chemical, and Biological Foundations 3
Covers the fundamental concepts in chemistry, biology and physics that are central to the interdisciplinary field of Nanoscience. Topics covered in this course include concepts in statistical mechanics (thermal, entropic, quantum, and fluctuation effects), self-assembly, diffusion, molecular recognition, molecular nanotechnology and nanomaterials, intermolecular and surface/interfacial forces at the nanoscale, cell adhesion and recognition, quantum phenomena, polymer physics, near-field optics, and nanoscale metrology, microscopy, and imaging.

NAN 617 Principles of Nanoscience II: Analytical, Statistical, and Computational Foundations 3
Covers the application and theory of different mathematical techniques that enable the statistical analysis of data, modeling of complex systems, and the proper application of mathematical operations to describing nanoscale problems and mechanisms. Topics covered may include but are not limited to, descriptive statistics, practical algorithms for statistical analysis, and mathematical modeling of nanoscale systems: analytical and numerical solutions to differential equations and linear algebra methods.

NAN 618 Lab Protocols and Practice 3
Initial research experience for all incoming Nanoscience Ph.D. students. The goal of this course is to provide training in laboratory safety, basic laboratory techniques, oral and written communication, and review and criticism of scientific literature.

NAN 619 Science Communications 3
Seminar-style course that instructs the Nanoscience student in methods for critiquing scientific literature, methods for writing and organizing scientific proposals, and written and oral techniques for defending one's work.

NAN 620 Immunology 3
A study of the molecular and cellular basis of the immune system. Topics include the properties of antigens and immunoglobulins, the development and regulation of humoral and cell-mediated immunity, resistance and immunization to infectious diseases, allergies, and autoimmune and immunodeficiency disorders.
Prerequisites: UNCG graduate student in sciences.

NAN 621 Professional Development Seminar I 1
Workplace issues including ethics, confidentiality, writing and presentation skills, innovation, entrepreneurship, and emerging issues in nanotechnology.
Prerequisites: Graduate student in nanoscience or permission of instructor.

NAN 622 Professional Development Seminar II 1
Workplace issues including business plans, globalization, emerging issues in nanotechnology, and further development of writing and presentation skills, innovation, and entrepreneurship.
Prerequisites: Graduate student in nanoscience or permission of instructor.

NAN 623 Optical Microscopy for Nanoscience 4
This course presents the fundamental principles underlying modern optical microscopy in the context of nanoscience and the demonstrated application and practice of advanced optical microscopy techniques in the context of laboratory experiences.
Prerequisites: NAN 604 for Nanoscience students or permission of instructor for students in other programs.
Notes: Registration restricted to science majors (Nanoscience, Chemistry, Biology, Nutrition, or related majors).

NAN 624 Particle Beam Microscopy for Nanoscience 4
This course presents the fundamental principles underlying modern particle beam microscopy in the context of nanoscience and the demonstrated application and practice of advanced particle beam microscopy techniques in the context of laboratory experiences.
Prerequisites: NAN 604 or permission of instructor.

NAN 625 Molecular Biology in Nanosciences 3
A lecture and laboratory course introducing graduate level science students to the principles and practices of molecular biology with emphasis on its application and integration with nanoscience.
Prerequisites: Graduate students in nanoscience or other program with permission of instructor. Must have taken Basic Biology (Biology 111-112) and chemistry classes (Chem 111-115) or equivalent.

NAN 626 Introduction to Stem Cell Biology and Ethics 3
Fundamental issues, experimental approaches, and emerging areas in stem cell research accompanied by an understanding of the attendant ethical issues that arise from their use in healthcare applications.
Prerequisites: UNCG graduate student in sciences.

NAN 630 Advances in Nano-Biosensors 3
Interdisciplinary cutting-edge advances in biosensors with nano-perspectives; specific emphasis on fundamentals, principles and progresses of various types of nanobiosensors, and applications in disease diagnosis, biomedicines, life science and environmental monitoring.
Prerequisites: NAN 601, NAN 602, NAN 603, or equivalent courses.
Corequisites: Graduate students at UNCG or JSNN or permission of instructors.

NAN 634 Robust Equipment and Process Control Techniques 3
This course covers methods that enable proper and efficient instrument operation. Topics include calibration, process development, emerging technologies, and troubleshooting. The goal of the class is to reinforce the connection between data collection strategies and data analysis.
Prerequisites: Permission of the instructor.

NAN 635 Nanomechanics 3
Nanomechanics will address practical and theoretical topics regarding how forces arise and are measured at the nanoscale, and how they drive emergent behaviors in chemistry, biology, and materials science.
Prerequisites: NAN 605 or equivalent graduate-level mathematics.

NAN 640 The Science and Engineering of Thin Films 3
This course will discuss the science and engineering aspects of the most commonly used thin film formation techniques and their applications in research and technology.
NAN 641 SemiSynBio, Advanced Materials, and Beyond 3
Overview of nanoelectronics trends, an introduction into the emerging synthetic biology and advanced functional nanomaterials technology landscapes, applies critical thinking skills to uncover technology gaps and assess potential pathfinding opportunities, and exercises technical written and oral communication skills.
**Prerequisites:** Permission of the instructor.

**NAN 642 Breakthrough Convergence in Research and Development 3**
This course examines the roles of pathfinding, convergence, divergence, and diversity on research, translation, and society. Students apply and exercise written and oral communication and critical thinking skills to concurrently assess and prioritize convergent research strategies, translational opportunities, and the societal and ethical implications emerging technologies.
**Prerequisites:** Permission of the instructor.

**NAN 650 Emerging Infectious Diseases and Biosafety Level-3 Laboratory Training 1**
This introductory course introduces students to the basic biology of emerging infectious disease, immunological mechanisms of pathogenesis, and vaccine development. Students will be taught differences in BSL levels focusing on BSL-3 laboratory operation. The course is intended for anyone who seeks a basic understanding of infectious disease and BSL-3 facilities.
**Prerequisites:** A basic biology class or permission of instructor.

**NAN 655 Biomimetics and Biomaterials 3**
Emphasizes the biomimetic and biological materials development and characterization. Topics range from natural to synthetic biomaterials, characterization of biomaterial properties, and discovery and application of novel biologically inspired materials.
**Prerequisites:** NAN 602, NAN 604 or permission of instructor.

**NAN 659 Directed Studies in Nanoscience 1-4**
This course gives students flexibility in guided readings, research, and individual project work under direction of a staff member that compliments their graduate project related to nanoscience.
**Prerequisites:** Permission of the Director of Graduate Study in Nanoscience and the professor who will supervise the study.
**Notes:** Repeatable up to 4 credits.

**NAN 698 Professional MS in Nanoscience Internship 3**
Student will intern at facility engaged in nanotechnology activity in order to gain practical experience with aspects of nanotechnology.
**Prerequisites:** Graduate student in Nanoscience or permission of instructor.
**Notes:** Grading method is Satisfactory/Unsatisfactory (S/U).

**NAN 699 Thesis 1-6**

**NAN 700 Principles of Nanoscience I: Physical, Chemical, and Biological Foundations 3**
Covers the fundamental concepts in chemistry, biology and physics that are central to the interdisciplinary field of Nanoscience. Topics covered in this course include concepts in statistical mechanics (thermal, entropic, quantum, and fluctuation effects), self-assembly, diffusion, molecular recognition, molecular nanotechnology and nanomaterials, intermolecular and surface/interfacial forces at the nanoscale, cell adhesion and recognition, quantum phenomena, polymer physics, near-field optics, and nanoscale metrology, microscopy, and imaging.

**NAN 705 Macromolecular and Supramolecular Chemistry 3**
This course provides the fundamental concepts of macromolecular and supramolecular chemistry, self-assembly methodologies for supramolecular architectures, synthesis of hybrid nanomaterials and their applications in nanoscience and nanotechnology.
**Prerequisites:** Nanochemistry (NAN 601) or Advanced Organic Chemistry course (CHE 553) or equivalent.

**NAN 706 Principles of Nanoscience II: Analytical, Statistical, and Computational Foundations 3**
Covers the application and theory of different mathematical techniques that enable the statistical analysis of data, modeling of complex systems, and the proper application of mathematical operations to describing nanoscale problems and mechanisms. Topics covered may include but are not limited to, descriptive statistics, practical algorithms for statistical analysis, and mathematical modeling of nanoscale systems: analytical and numerical solutions to differential equations and linear algebra methods.

**NAN 707 Lab Protocols and Practice 3**
Initial research experience for all incoming Nanoscience Ph.D. students. The goal of this course is to provide training in laboratory safety, basic laboratory techniques, oral and written communication, and review and criticism of scientific literature.

**NAN 708 Science Communications 3**
Seminar-style course that instructs the Nanoscience student in methods for critiquing scientific literature, methods for writing and organizing scientific proposals, and written and oral techniques for defending one's work.

**NAN 710 Scientific Integrity 1**
Explores contemporary issues related to scientific integrity and responsible conduct in research. Case-driven topics expose students to the issues that arise in scientific research and ways to handle these issues.
**Prerequisites:** Student at UNCG or JSNN or Permission of Instructor.

**NAN 711A ExCr: Molecular Modeling Mthds 3**
The course will focus on the structure and function of biomolecules as a basis for nanomolecular design, via the use of computer modeling/simulation, including in-class assembly of a 3D-modeling workstation.

**NAN 711D ExCrThn Fm Dpsts Etg Nmndl Ap 4**
This course reviews techniques used for thin film deposition and patterning and discusses applications in the nanobiomedical space.

**NAN 711X EC: Nanotechnology in Drug Dlvry 1**
This course is designed to provide students with an understanding of the current state of the art for advanced drug delivery with particular focus on nanotechnology and highlight several areas of opportunity where current and emerging nanotechnologies could enable entirely novel classes of therapeutics.
NAN 727 Principles of Quantum and Solid State Physics 3
Emphasis on the areas of physics critical to nanoscience including solid state physics, statistical mechanics, quantum concepts, biophysics, chemical physics, and nanodevices based on semiconductors.
Prerequisites: Graduate student in Nanoscience or permission of instructor.

NAN 728 Nanotechniques 3
Fundamental techniques used in nanotechnology, including methods for nanofabrication, nanocharacterization, and nanomanipulation.
Prerequisites: Graduate student in Nanoscience or permission of instructor.

NAN 729 Mathematical Methods in Modeling Complex Systems 3
An emphasis of this required course will be on the areas of mathematics critical to nanoscience and nanoeengineering including application of differential equations to numerical and analytical modeling of nanostructures.
Prerequisites: Graduate student in Nanoscience or permission of instructor.

NAN 731 Systems and Synthetic Biology 3
Systems and synthetic biology will address quantitative and computational approaches to the analysis and re-design of biological and biologically-inspired molecular systems for useful biotechnological or translational applications.
Corequisites: NAN 733 or permission of instructor.

NAN 732 Nanomaterials Chemistry 3
Review of materials chemistry, synthesis of nanoparticles such as carbon nanotubes and fullerenes, chemical reactions and a survey of medicinal chemistry for pharmaceutical applications.
Prerequisites: Graduate student in Nanoscience or permission of instructor.

NAN 733 Physical Biology 3
Emphasis on cellular and intracellular mechanisms including biological self-assembly, single-molecule and single-cell biophysics, cytoskeletal interactions, protein folding, membrane dynamics, biological energetics, molecular biotechnologies, and cell-cell interactions as well as biomaterials.
Prerequisites: Graduate student in Nanoscience or permission of instructor.

NAN 734 Robust Equipment and Process Control Techniques 3
This course covers methods that enable proper and efficient instrument operation. Topics include calibration, process development, emerging technologies, and troubleshooting. The goal of the class is to reinforce the connection between data collection strategies and data analysis.
Prerequisites: Permission of the instructor.

NAN 740 Nonlinear Waves in Biological Excitable Media 3
Dynamics of reaction-diffusion waves and implementation of theoretical methods to the analysis of these waves in cardiac muscle and nerves.
Prerequisites: Graduate student in nanoscience or permission of instructor.

NAN 741 SemiSynBio, Advanced Materials, and Beyond 3
Overview of nanoelectronics trends, an introduction into the emerging synthetic biology and advanced functional nanomaterials technology landscapes, applies critical thinking skills to uncover technology gaps and assess potential pathfinding opportunities, and exercises technical written and oral communication skills.
Prerequisites: Permission of instructor.

NAN 742 Breakthrough Convergence in Research and Development 3
This course examines the roles of pathfinding, convergence, divergence, and diversity on research, translation, and society. Students apply and exercise written and oral communication and critical thinking skills to concurrently assess and prioritize convergent research strategies, translational opportunities, and the societal and ethical implications emerging technologies.
Prerequisites: Permission of the instructor.

NAN 743 Optical Microscopy for Nanoscience 4
This course presents the fundamental principles underlying modern optical microscopy in the context of nanoscience and the demonstrated application and practice of advanced optical microscopy techniques in the context of laboratory experiences.
Prerequisites: NAN 728 for Nanoscience students or permission of instructor for students in other programs.
Notes: Registration restricted to science majors (Nanoscience, Chemistry, Biology, Nutrition, or related majors).

NAN 744 Particle Beam Microscopy for Nanoscience 4
This course presents the fundamental principles underlying modern particle beam microscopy in the context of nanoscience and the demonstrated application and practice of advanced particle beam microscopy techniques in the context of laboratory experiences.
Prerequisites: NAN 728 or permission of instructor.

NAN 745 Nanolming 3
Use of nanoparticles for in vivo diagnostic medical imaging and therapy.
Prerequisites: Graduate student in nanoscience or permission of instructor.

NAN 746 Nanosafety 3
An interdisciplinary course utilizing variety of academic disciplines (chemistry, physics, biology). Addresses the impact of nanomaterials through the range of organization that exists within living systems (molecular to societal).

NAN 748 Macromolecular and Supramolecular Chemistry 3
This course provides the fundamental concepts of macromolecular and supramolecular chemistry, self-assembly methodologies for supramolecular architectures, synthesis of hybrid nanomaterials and their applications in nanoscience and nanoengineering.
Prerequisites: Nanochemistry (NAN 732) or Advanced Organic Chemistry course (CHE 705) or equivalent.

NAN 749 Introduction to Spectroscopy Methods in Nanoscience 3
This course will introduce spectroscopy methods that, widely used in physics, chemistry, and biological sciences, provide knowledge for estimating applicability ranges of various methods, and teach basics of spectroscopy instruments and data analysis.
Prerequisites: NAN 601, NAN 603, NAN 605.

NAN 750 Nanomedicine 3
General underlying mechanisms leading to inflammation, infectious disease, cancer, and autoimmune disease and the potential nanotechnology has on diagnosing, preventing, and treating these diseases.
Prerequisites: Graduate student in nanoscience or permission of instructor. Basic biology.

NAN 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.
NAN 752 Molecular Biology in Nanosciences 3
A lecture and laboratory course introducing graduate level science students to the principles and practices of molecular biology with emphasis on its application and integration with nanoscience.
Prerequisites: Graduate students in Nanoscience or other program with permission of instructor. Must have taken basic biology (BIO 111-112) and chemistry classes (CHE 111-115) or equivalent.

NAN 753 Introduction to Stem Cell Biology and Ethics 3
Fundamental issues, experimental approaches, and emerging areas in stem cell research accompanied by an understanding of the attendant ethical issues that arise from their use in healthcare applications.
Prerequisites: Graduate student in sciences.

NAN 754 Immunology 3
A study of the molecular and cellular basis of the immune system. Topics include the properties of antigens and immunoglobulins, the development and regulation of humoral and cell-mediated immunity, resistance and immunization to infectious diseases, allergies, and autoimmune and immunodeficiency disorders.
Prerequisites: Graduate student in sciences.

NAN 755 Biomimetics and Biomaterials 3
Emphasizes the biomimetic and biological materials development and characterization. Topics range from natural to synthetic biomaterials, characterization of biomaterial properties, and discovery and application of novel biologically inspired materials.
Prerequisites: NAN 728, NAN 733 or permission of instructor.

NAN 756 The Science and Engineering of Thin Films 3
This course will discuss the science and engineering aspects of the most commonly used thin film formation techniques and their applications in research and technology.

NAN 757 Nanomechanics 3
Nanomechanics will address practical and theoretical topics regarding how forces arise and are measured at the nanoscale, and how they drive emergent behaviors in chemistry, biology, and materials science.
Prerequisites: NAN 729 or equivalent graduate-level mathematics course.

NAN 758 Advances in Nano-Biosensors 3
Interdisciplinary cutting-edge advances in biosensors with nanoperspectives. Specific emphasis on fundamentals, principles and progresses of various types of nanobiosensors, and applications in disease diagnosis, biomedicines, life science and environmental monitoring.
Prerequisites: NAN 727, NAN 732, NAN 733, or equivalent courses.
Corequisites: Graduate students at UNCG or JSNN or permission of instructors.

NAN 762 Nanoscale Reactions 3
A comprehensive introduction to principles, mechanisms and applications of homo-and heterogeneous chemical or physic-reactions from nano-scale perspective incorporating recent research activities from selected peer-reviewed articles.
Prerequisites: NAN 727, NAN 732, NAN 733 or equivalent courses. Graduate student at UNCG or JSNN or permission of instructors; Notes: Registration restricted to Nanoscience, Chemistry, Biology and Physics graduate students.

NAN 764 Materials, Syntheses, and Processes by Design 3
Protocols for developing structure-property correlations, stable instrumentation, efficient nanomaterial experimentation, and concurrent hypothesis testing that facilitate structural and mechanistic insight into the properties of relevant nanochemical and nanobiological systems.
Prerequisites: NAN 601, NAN 602, NAN 603, NAN 604, and graduate student in Nanoscience, or permission of instructor.

NAN 771 Computational Quantum Nanochemistry 3
Fundamentals of computational quantum mechanics and related computational methods applicable to nanoscience. Includes hands-on computer exercises.
Prerequisites: Graduate student in nanoscience or permission of instructor.

NAN 776 Current Topics in Nanoscience 3
Seminar dealing with topics that include advances in nanoscience and corollary fields such as synthetic biology, materials science, nanomaterials, and nanotechnology.
Prerequisites: Graduate study in Nanoscience or another STEM field.

NAN 790 Doctoral Research 3
Research course for second year Nanoscience students to engage in independent research to collect the preliminary data that will be necessary for preparing their proposal document.

NAN 799 Nanoscience Dissertation Research 1-12
Student will carry out original research in nanoscience with the guidance of bis/her faculty advisor and committee as part of the Ph.D. in Nanoscience degree program.

NAN 801 Thesis Extension 1-3
Thesis Extension.

NAN 802 Dissertation Extension 1-3
Dissertation Extension.

NAN 803 Research Extension 1-3
Research Extension.

Nursing (NUR)

NUR 210 Fundamental Concepts in Nursing 3
Introduction to fundamental concepts in nursing.
Prerequisites: Admission to NURS major.

NUR 220 Nursing Assessment of Well Individuals 3
Introduction to basic nursing assessment of well individuals over the life span. Laboratory activities encourage development of skills in interviewing, physical examination, and documentation of information.
Prerequisites: Admission to NURS major. Pr. or Coreq.: NUR 210.

NUR 220L Nursng Assessmnt Well Indiv Lb 0

NUR 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

NUR 302 Health Assessment for ABSN Students 3
Introduction to basic nursing assessments of adults. Activities encourage development of skills in interviewing, physical examination, and documentation of information. This course is for ABSN students.
Prerequisites: Admission to Accelerated Bachelor of Science in Nursing (ABS N) program.
Corequisites: NUR 303, NUR 312, NUR 314, NUR 315, NUR 317, NUR 318.
NUR 303 Nursing Skills for ABSN Students 1
Introduction and practice of nursing skills necessary for care of clients. This course is for ABSN students. 
Prerequisites: Admission to the Accelerated BSN Program. 
Corequisites: NUR 302, NUR 312, NUR 314, NUR 315, NUR 317, NUR 318. 

NUR 310 Nursing Care of Individuals with Neurobehavioral Problems across the Lifespan 4 
Nursing care of individuals who have neurobehavioral problems. 
Prerequisites: NURS major. 
Corequisites: NUR 310L. 

NUR 310L Practicum for Nursing Care of Individuals with Neurobehavioral Problems across the Lifespan 1 
Practicum for nursing care of individuals who have neurobehavioral problems. Clinical activities in selected behavioral health settings. 
Prerequisites: NURS major. 
Corequisites: NUR 310. 
Notes: Students must provide own transportation to practicum experiences. 

NUR 312 Adult Health 3 
Nursing care of adults with acute and chronic physiological disorders. This course is for ABSN students. 
Prerequisites: Admission to Accelerated Bachelor of Science in Nursing (ABSN) program. 
Corequisites: NUR 302, NUR 303, NUR 314, NUR 315, NUR 317, NUR 318. 

NUR 314 Neurobehavioral Health 3 
Nursing care of individuals who have neurobehavioral disorders. This course is for ABSN students. 
Prerequisites: Admission to the Accelerated Bachelor of Science in Nursing (ABSN) program. 
Corequisites: NUR 302, NUR 303, NUR 312, NUR 315, NUR 317, NUR 318. 

NUR 315 Nursing Practicum 1 3 
Application of the nursing process to adults with acute or chronic common health disorders and to individuals with neurobehavioral disorders. This course is for ABSN students. 
Prerequisites: Admission to the Accelerated Bachelor of Science in Nursing (ABSN) program. 
Corequisites: NUR 302, NUR 303, NUR 312, NUR 314, NUR 317, NUR 318. 

NUR 317 Professionalism I: Foundations of Nursing 4 
Introduction to fundamental concepts of professional nursing practice. This course is for ABSN students. 
Prerequisites: Admission to Accelerated Bachelor of Science in Nursing (ABSN) program. 
Corequisites: NUR 302, NUR 303, NUR 312, NUR 314, NUR 315, NUR 318. 

NUR 318 Pathopharmacology I: Adult and Neurobehavioral Health 3 
Study of pathophysiologic changes that influence disease processes and related pharmacological concepts in adult health and mental health. This course is for ABSN students. 
Prerequisites: Admission to the Accelerated Bachelor of Science in Nursing (ABSN) program. 
Corequisites: NUR 302, NUR 303, NUR 312, NUR 314, NUR 315, NUR 317. 

NUR 319 Health Equity: An Introduction to Anti-Oppressive Practices 3 
Critical analysis of inequities in health outcomes with a focus on racism in the US. Strategies for eliminating health inequities and building anti-oppressive practices in health care. 
Prerequisites: Admission to the Lloyd International Honors College (preference given to Honors Nursing Majors). 

NUR 320 Nursing Care of Individuals with Chronic Physiological Problems 3 
Nursing care of clients who have chronic physiological problems. 
Prerequisites: NURS major. 
Corequisites: NUR 320L. 

NUR 320L Practicum for Nursing Care of Individuals with Chronic Physiological Problems 2 
Practicum for nursing care of clients who have chronic physiological problems. 
Prerequisites: Overall minimum GPA of C. NURS major; 
Corequisites: NUR 320. 
Notes: Students must provide own transportation to practicum experiences. 

NUR 330 Global Perspectives on the Health of Women 3 
Global perspectives on women’s health issues. 

NUR 340 Health and Illness in Infants, Children and Adolescents 3 
Nursing care and health promotion of infants, children, and adolescents with acute and chronic illness, special health care needs, and those receiving well child care. 
Prerequisites: NURS major. 
Corequisites: NUR 340L. 

NUR 340L Practicum for Health and Illness in Infants, Children and Adolescents 1 
Practicum for nursing care and health promotion of infants, children, and adolescents with acute and chronic illness, special health care needs, and those receiving well child care. 
Prerequisites: NURS major. 
Corequisites: NUR 340. 
Notes: Students must provide own transportation to practicum experiences. 

NUR 345 Basic Health Management of Children 3 
Health appraisal and recognition of symptoms of illness in children. Emphasizes needs of children in group settings from infancy through elementary school age. 
Prerequisites: HDF 111. 

NUR 346 Introduction to Health Care Informatics 3 
Exploration of informatics and health care technologies in the management of individuals, groups, and organizations for the improvement of patient outcomes. 
Prerequisites: Must be licensed Registered Nurse. minimum GPA of C (2.0), or permission of instructor. 

NUR 355 Pathophysiology and Pharmacology for Nursing 4 
Study of pathophysiologic changes that influence disease processes across the lifespan and related pharmacological therapies. 
Prerequisites: NURS major. 

NUR 360 Childbearing and Reproductive Health 3 
Nursing care of women and families along the childbearing continuum. Topics include reproductive health, promotion of health for pregnancy and birth, nursing management of complications, and newborn care. 
Prerequisites: NURS major. 
Corequisites: NUR 360L.
NUR 360L Practicum for Childbearing and Reproductive Health 1
Practicum for nursing care of women and families along the childbearing continuum. Topics include reproductive health, promotion of health for pregnancy and birth, nursing management of complications, and newborn care.
Prerequisites: NURS major.
Corequisites: NUR 360.
Notes: Students must provide own transportation to practicum experiences.

NUR 365 Interprofessional Education Seminar 1
Clinical application of theories, concepts, and research related to collaborative interprofessional education (IPE) across healthcare disciplines.
Prerequisites: NUR 380. NURS major.

NUR 370 Concepts of Professional Nursing 3
Study of basic concepts in professional nursing.
Prerequisites: STA 108 and satisfaction of GEC requirements for GHP; GNS, GSB, GRD, AND GRD1). must be licensed Registered Nurse; overall minimum GPA of C (2.0).

NUR 371 Nursing Health Assessment 3
Study of the health assessment of individuals over the life span. Laboratory activities promote the development of assessment skills.
Prerequisites: Must be licensed Registered Nurse. overall minimum GPA of C (2.0).

NUR 375 Nursing Informatics and Technology 2
Focus on the use of electronic technologies and the management of information to facilitate nursing practice and enhance quality care.
Prerequisites: NURS major.
Corequisites: NUR 310 and NUR 310L. or NUR 320 and NUR 320L; or NUR 340 and NUR 340L; or NUR 360 and NUR 360L.

NUR 380 Nursing Skills 2
Introduction and practice of nursing skills necessary for care of clients in clinical settings.
Prerequisites: NURS major.

NUR 385 Critical Reasoning 2
This application based course focuses on the development and improvement of critical reasoning skills for professional nursing practice.
Prerequisites: NURS major.
Corequisites: NUR 310 and NUR 310L. or NUR 320 and NUR 320L; or NUR 340 and NUR 340L; or NUR 360 and NUR 360L.

NUR 390 Culture and Health Care 3
Role of culture on the health and wellbeing of individuals and selected global communities, including indigenous peoples.

NUR 392 Transition to Civilian Professional Nursing Seminar 1
This seminar course compares military and civilian models of individual and family life, communication patterns, leadership styles and organizational structure.
Prerequisites: NUR 395 or RN Licensure. Admitted to School of Nursing upper division, VAP program.

NUR 395 Transition to Civilian Professional Nursing 2
This didactic course covers the fundamentals of professional civilian nursing. Similarities and differences between military and civilian models of care are presented.
Prerequisites: NURS majors enrolled in the Veterans Access Program (VAP).

NUR 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

NUR 405 Pharmacology in Nursing 3
Study of major drug groups and their action, use, side effects, and nursing care considerations. Emphasis on nursing care and teaching, built upon physiology and basic pharmacology.
Prerequisites: Admission to the School of Nursing, or permission of instructor.

NUR 406 Role of Nursing Administration in Quality and Safety 2
Prepares the student to apply principles of quality and safety at the unit level.
Prerequisites: Upper level undergraduates or graduate students.

NUR 410 Health and Illness in Older Adults 3
Nursing care of older adults: biopsychosocial, spiritual functioning, impact of developmental changes, illness, and dysfunction on health status and quality of life.
Prerequisites: NUR 310, NUR 310L, NUR 320, NUR 320L, NUR 340, NUR 340L, NUR 360, NUR 360L (or their equivalent). admission to NURS major; overall minimum GPA of C (2.0).
Corequisites: NUR 410L, NUR 450.

NUR 410L Practicum for Health and Illness in Older Adults 2
Practicum for nursing care of older adults: biopsychosocial, spiritual functioning, impact of developmental changes, illness, and dysfunction on health status and quality of life. Selected clinical activities.
Prerequisites: NUR 310, NUR 320, NUR 340, NUR 360.
Corequisites: NUR 410, NUR 450.

NUR 411 Global Health in Nursing 2
Critical analysis of healthcare practice within a global context. Reflective global community engagement experience integrating academic enhancement, personal growth, and global civic learning.
Prerequisites: NURS major. Pre-licensure BSN students: NUR 210, NUR 220 or equivalent, NUR 380; RN-BSN students: NUR 370, NUR 371; or permission of instructor.

NUR 412 Childbearing Family Health 3
Nursing care of women and families along the childbearing continuum to promote health and reduce risks. This course is for ABSN students.
Prerequisites: NUR 302, NUR 303, NUR 312, NUR 314, NUR 315, NUR 317, NUR 318.
Corequisites: NUR 414, NUR 417, NUR 418, NUR 445.

NUR 414 Child Health 3
Nursing care and health promotion of infants, children and adolescents with acute and chronic illness, special health care needs, and those receiving well child care. For ABSN students.
Prerequisites: NUR 302, NUR 303, NUR 312, NUR 314, NUR 315, NUR 317, NUR 318.
Corequisites: NUR 412, NUR 417, NUR 418, NUR 445.

NUR 415 Nursing Leadership and Management 3
Introduction to the leadership and management roles of the professional nurse in health care organizations.
Prerequisites: NUR 310/NUR 310L, NUR 320/NUR 320L, NUR 340/ NUR 340L, NUR 355, NUR 360/NUR 360L, NUR 375, and NUR 380 (or their equivalent). NURS major.

NUR 417 Professionalism II: Nursing in Practice 4
Application of the fundamental concepts of nursing in professional practice. This course is for ABSN students.
Prerequisites: NUR 302, NUR 303, NUR 312, NUR 314, NUR 315, NUR 317, NUR 318.
Corequisites: NUR 412, NUR 414, NUR 418, NUR 445.
NUR 418 Pathopharmacology II: Childbearing and Child Health
Study of pathophysiologic changes that influence disease processes and related pharmacological concepts of child health and the childbearing family health. This course is for ABSN students.
Prerequisites: NUR 302, NUR 303, NUR 312, NUR 314, NUR 315, NUR 317, NUR 318.
Corequisites: NUR 412, NUR 414, NUR 417, NUR 445.

NUR 420 Population Health Nursing 4
Nursing care of populations and communities through collaborative actions across care settings.
Prerequisites: NUR 310/NUR 310L, NUR 320/NUR 320L, NUR 340/NUR 340L and NUR 360/NUR 360L (or their equivalent). NURS major;
Corequisites: NUR 410/NUR 410L, NUR 420L, NUR 450.

NUR 420L Practicum for Population Health Nursing 1
Practicum for nursing care of populations and communities through collaborative actions across care settings.
Prerequisites: NUR 310, NUR 320, NUR 340, NUR 360.
Corequisites: NUR 410, NUR 420, NUR 450.

NUR 430 Nursing Care of Individuals with Acute Physiological Problems 3
Nursing care of individuals/families with acute physiological illness.
Prerequisites: NUR 410/NUR 410L, NUR 420/NUR 420L, and NUR 450. NURS major;
Corequisites: NUR 415, NUR 430L.

NUR 430L Practicum for Nursing Care of Individuals with Acute Physiological Problems 2
Practicum for nursing care of individuals/families with acute physiological illness.
Prerequisites: NUR 410/NUR 410L, NUR 420/NUR 420L, NUR 450. NURS major;
Corequisites: NUR 415, NUR 430.

NUR 440 Senior Capstone 4
A concentrated 7½ week practicum where students simulate the roles of the employed graduate under the guidance of a selected nursing preceptor and a faculty facilitator.
Prerequisites: NUR 310/NUR 310L, NUR 320/NUR 320L, NUR 340/NUR 340L, and NUR 360/NUR 360L. NURS major;
Corequisites: NUR 415, NUR 430/NUR 430L, and NUR 490.
Notes: Grade: Pass/Not Pass (P/NP). Students must provide own transportation to practicum experiences. Course intended for senior level baccalaureate nursing students in their final semester of the major.

NUR 445 Nursing Practicum II 3
Practicum for nursing care of childbearing and childrearing families. This course is for ABSN students.
Prerequisites: NUR 302, NUR 303, NUR 312, NUR 314, NUR 315, NUR 317, NUR 318.
Corequisites: NUR 412, NUR 414, NUR 417, NUR 418.
Notes: Grade: Pass/Not Pass (P/NP).

NUR 447 Global Health and Disaster Preparedness 3
This course explores concepts in global health and disaster preparedness using a nation as a microcosm to explore these concepts. Offered as a Study Abroad course.
Prerequisites: Undergraduate student in good academic standing and instructor permission.

NUR 450 Evidence-Based Practice and Nursing Research 3
Introduction to the professional nurse's role in evidence-based practice and nursing research.
Prerequisites: NUR 310, NUR 310L, NUR 320, NUR 320L, NUR 340, NUR 340L, NUR 360, NUR 360L. NURS major;
Corequisites: NUR 410, NUR 410L, NUR 420, and NUR 420L.

NUR 451 Integrating Technology in Nursing Education 3
This course examines the role of technology in healthcare and the integration of technology into nursing practice and education settings.

NUR 452 Pathophysiology for Nursing 3
Physiological changes across the life span and common pathophysiological mechanisms.

NUR 462 Older Adult and Complex Health Needs 3
Nursing care of older adults and individuals with complex health needs. This course is for ABSN students.
Prerequisites: NUR 412, NUR 414, NUR 417, NUR 418, NUR 445.
Corequisites: NUR 463, NUR 465, NUR 467, NUR 468, NUR 475, NUR 485.

NUR 463 Population Health Nursing Care and Concepts 2
Nursing care and concepts for populations and communities through collaborative actions across care settings. This course is for ABSN students.
Prerequisites: NUR 412, NUR 414, NUR 417, NUR 418, NUR 445.
Corequisites: NUR 462, NUR 465, NUR 467, NUR 468, NUR 475, NUR 485.

NUR 465 Nursing Practicum III 4
Practicum for nursing care of older adults and population health. This course is for ABSN students.
Prerequisites: NUR 412, NUR 414, NUR 417, NUR 418, NUR 445.
Corequisites: NUR 462, NUR 463, NUR 465, NUR 467, NUR 468, NUR 475, NUR 485.
Notes: Grade: Pass/Not Pass (P/NP).

NUR 467 Professionalism III: Clinical Leadership and Inquiry in Nursing 4
Application of concepts for clinical leadership and inquiry in nursing. This course is for ABSN students.
Prerequisites: NUR 412, NUR 414, NUR 417, NUR 418, NUR 445.
Corequisites: NUR 462, NUR 463, NUR 465, NUR 467, NUR 468, NUR 475, NUR 485.

NUR 468 Pathopharmacology III: Older Adult and Complex Health 2
Study of pathophysiologic changes that influence disease processes and related pharmacological concepts in the older adult, those with complex health needs, and in population health. This course is for ABSN students.
Prerequisites: NUR 412, NUR 414, NUR 417, NUR 418, NUR 445.
Corequisites: NUR 462, NUR 465, NUR 467, NUR 468, NUR 475, NUR 485.

NUR 470 Community Health Nursing Concepts and Care 4
Nursing concepts and care of individuals, families, and groups within community settings.
Prerequisites: NUR 370 and NUR 371. overall minimum GPA of C (2.0); Current unrestricted North Carolina RN license or unrestricted RN license in a state covered by the multi-state Nurse Licensure Compact.

NUR 471 Nursing Care of the Older Adult 4
Nursing concepts and care of older adults: theories of aging, physiological/psychological functioning, impact of developmental changes, illness, and chronic dysfunction.
Prerequisites: NUR 370 and NUR 371. overall minimum GPA of C (2.0); Current unrestricted North Carolina RN license or unrestricted RN license in a state covered by the multi-state Nurse Licensure Compact.
NUR 472 Nursing Leadership and Management 4
The professional nurse's role in applying principles of leadership and management in health care organizations across the continuum of care. 
Prerequisites: NUR 370 and NUR 371. overall minimum GPA of C (2.0); Current unrestricted North Carolina RN license or unrestricted RN license in a state covered by the multi-state Nurse Licensure Compact.

NUR 473 Nursing Research 4
Introduction to nursing research and the professional nurse's role in research. 
Prerequisites: NUR 370 and NUR 371. overall minimum GPA of C (2.0); Current unrestricted North Carolina RN license or unrestricted RN license in a state covered by the multi-state Nurse Licensure Compact. STA 108 or equivalent.

NUR 475 Nursing Capstone Practicum 3
A concentrated practicum where students assume the roles of the entry level registered nurse under the guidance of a selected nursing preceptor and a faculty facilitator. This course is for ABSN students.
Prerequisites: NUR 412, NUR 414, NUR 417, NUR 418, NUR 445.
Corequisites: NUR 462, NUR 463, NUR 465, NUR 467, NUR 468, NUR 485.
Notes: Grade: Pass/Not Pass (P/NP).

NUR 481 End-of-Life Care 3
Critical aspects of interdisciplinary approaches to quality care at end-of-life. Includes palliative care, family, advocacy, culture, special populations, systems of care, financial issues, life threatening illnesses, and sudden death.

NUR 485 Nursing Concepts Synthesis 3
Cumulative synthesis of concepts learned throughout the curriculum. Emphasis placed on analysis of critical thinking skills and clinical-decision making. Also includes preparation for NCLEX-RN. This course is for ABSN students.
Prerequisites: NUR 412, NUR 414, NUR 417, NUR 418, NUR 445.
Corequisites: NUR 462, NUR 463, NUR 465, NUR 467, NUR 468, NUR 475.
Notes: Grade: Pass/Not Pass (P/NP).

NUR 490 Synthesis of Nursing Concepts 2
Cumulative integration of concepts learned throughout the curriculum. Emphasis placed on analysis of critical thinking skills and synthesis of clinical decision making. Also includes preparation for NCLEX-RN.
Prerequisites: NUR 410, NUR 410L, NUR 420, NUR 420L and NUR 450. NURS major;
Corequisites: NUR 415, NUR 430, NUR 430L.

NUR 492 Independent Study 1-3
Guided readings in nursing as an individual project designed with a focus on the nursing profession and/or nursing practice. Course offering is dependent on faculty availability.
Prerequisites: Approval must be granted by a nursing faculty member prior to registration.
Notes: May be repeated for credit.

NUR 493 Honors Work 3-6
Honors Work.
Prerequisites: Permission of instructor. 3.30 GPA in the major, 12 s.h. in the major;
Notes: May be repeated for credit if the topic of study changes.

NUR 506 Role of Nursing Administration in Quality and Safety 2
Prepares the student to apply principles of quality and safety at the unit level.

NUR 511 Global Health in Nursing 2
Critical analysis of healthcare practice within a global context. Reflective global community engagement experience integrating academic enhancement, personal growth, and global civic learning.
Prerequisites: Admission to a Nursing graduate program.

NUR 540 Financial Management in Healthcare 3
Introduction to the principles of fiscal management, health care agency accounting practices, and the nurse administrator's role in budgeting processes.
Prerequisites: Graduate students enrolled in MSN in Nursing Administration or MSN/MBA program.

NUR 547 Global Health and Disaster Preparedness Graduate Level 3
This course explores concepts in global health and disaster preparedness using a nation as a microcosm to explore these concepts.
Prerequisites: Graduate student in good academic standing and instructor permission.

NUR 550 Pathophysiology for Nursing 3
Physiological changes across the life span and common pathophysiological mechanisms.

NUR 551 Integrating Technology in Nursing Education 3
This course examines the role of technology in healthcare and the integration of technology into nursing practice and education settings.

NUR 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

NUR 601 Critique and Utilization of Research in Nursing Administration 2
Development of knowledge and skill competencies basic to the critical interpretation and utilization of research findings in nursing administration. Graded on S/U basis.
Prerequisites: NUR 641.

NUR 606 Advanced Quality and Safety 3
Prepares the student to apply principles of quality and safety at the unit level.
Prerequisites: Enrolled in Nursing Leadership and Management concentration of the M.S.N. program or M.S.N./M.B.A. program or permission or instructor.

NUR 607 Interprofessional/Interdisciplinary Collaboration and Negotiation 3
An integrated approach to team development and function using an interprofessional/interdisciplinary model.

NUR 609 The Role of the Nurse Leader in Advanced Quality and Safety 4
Prepares the student to apply principles of quality and safety at the micro (unit) and macro (organizational) system level.
Prerequisites: Enrolled in Nursing Leadership and Management concentration of the M.S.N. program or M.S.N./M.B.A. program or permission or instructor.

NUR 612 Theoretical Foundations for the Advanced Nurse Educator 3
Professional development of the advanced nurse educator integrating theory, roles, and practice.
Prerequisites: NUR 616.

NUR 614 Information Technology in Nursing Administration 3
Prepares the student to apply principles and techniques of communication and computer technology in health care management settings.
Prerequisites: Enrolled in Nursing Leadership and Management concentration of the M.S.N. program or M.S.N./M.B.A. program or permission of instructor.
NUR 615 Curriculum Design and Evaluation in Advanced Nursing Education 3
An exploration of nursing curriculum development and program evaluation within a broad context.
Prerequisites: NUR 612.

NUR 616 Pedagogical Strategies for Advanced Nursing Education 4
Concepts of instructional design, media development and use, and technology in advanced nursing education. Pedagogical strategies for a variety of classroom and clinical settings.

NUR 620 Law, Policy, and Economics of Healthcare 3
Law, health policy, and economics related to advanced nursing practice. Key topics include policy development, state and federal statutes, and economics affecting delivery of nursing and healthcare.

NUR 641 Leadership and Management Essentials in Healthcare: Theories and Roles 4
Nursing management within the health care system. Management functions of planning, organizing and staffing studied within the framework of leadership in health care organizations.
Prerequisites: NUR 715.
Corequisites: NUR 715.

NUR 643 Nursing Administration Practicum 4
Application of leadership and administrative knowledge in a practice setting and completion of an administrative project while defining self in a professional leadership role.

NUR 644 Organizational Leadership and Management 4
Management functions of directing and controlling are studied within the framework of leadership in health care organizations.
Prerequisites: NUR 540, NUR 614, NUR 641.
Corequisites: NUR 614.

NUR 645 Strategic Management of Health Care Organizations 4
Application of leadership and administration knowledge in a practice setting while defining self in a professional leadership role.
Prerequisites: NUR 644.

NUR 646 Nursing Administration Practicum 4
Application of advanced leadership and administration knowledge in a practice setting while defining self in a professional leadership role.
Prerequisites: NUR 645.

NUR 651 Advanced Application of Nursing Concepts in Client Care (in clinical focus area) 4
Development of advanced clinical nursing interventions that influence health care outcomes for individuals, populations, or systems. Practicum emphasizes preparation for the direct care role of nurse educator.
Prerequisites: NUR 616, NUR 708, NUR 709, NUR 713.

NUR 653 Advanced Application of Nursing Concepts in Academic Education (in clinical focus area) 3
Development of competencies in preparation for academic educator roles. Seminars, conferences, and practica emphasize nursing education in academic settings.
Prerequisites: NUR 615 and NUR 651.

NUR 692 Independent Study 1-3
Guided readings, research, and individual project work under the direction of the School of Nursing faculty.
Notes: May be used as part of minimum 36 hours required for the MSN degree. May be repeated for a maximum of 6 hours credit.

NUR 695 Capstone Course for Advanced Nursing Education Practice 2
Critical analysis and synthesis of progress and achievement towards attainment of advanced nursing competencies for the MSN degree.
Prerequisites: NUR 612, NUR 651, NUR 715.
Corequisites: NUR 653.

NUR 698 Advanced Nursing Project 1-6
Scholarly inquiry project developed by the student with faculty guidance.
Prerequisites: NUR 705.
Notes: May be repeated for a maximum of 6 hours credit. Grading method is Satisfactory/Unsatisfactory (S/U).

NUR 699 Thesis 1-6
Individual guidance and direction in research to address a clinical or nonclinical problem.
Prerequisites: NUR 705.
Notes: May be repeated for a maximum of 6 hours credit. Grading method is Satisfactory/Unsatisfactory (S/U).

NUR 701 Statistical Applications for Nursing Research 3
Prerequisites: Admission to PhD in nursing and completion of a course in inferential statistics, or permission of instructor.

NUR 702 Statistical Applications for Nursing Research II 3
Advanced statistics for nursing and health care research, including general linear model, multifactorial ANOVA, multiple regression. Emphasis on selection and conduct of analysis and interpretation of results.
Prerequisites: NUR 701 or permission of instructor.

NUR 703 Qualitative Methods for Nursing 3
Philosophy, theory, and methods of qualitative research with an emphasis on the application to nursing and health research.
Prerequisites: NUR 702 and NUR 712, or permission instructor.

NUR 704 Quantitative Research in Nursing 3
Theoretical foundations, design, and techniques of quantitative research for nursing and health care.
Prerequisites: NUR 702 and NUR 712, or permission of instructor.

NUR 705 Research and Evidence Based Practice 3
Provides content about the core principles and application of research and the science of evidence based practice.
Prerequisites: Admission to the D.N.P. program and an undergraduate course in statistics.

NUR 707 Measurement in Nursing and Healthcare Research 3
Measurement of biophysical, psychomotor, cognitive, affective, and system-level phenomena for nursing and health research. Reliability, validity, item analysis, norms, selection and development of measures.
Prerequisites: NUR 704 or permission of instructor.

NUR 708 Pathophysiology for Advanced Practice Nursing 3
Examination of physiological changes, common pathophysiological and compensatory mechanisms of diseases across the lifespan.

NUR 709 Pharmacotherapeutics for Advanced Practice Nursing 3
Advanced principles of pharmacotherapeutics of broad categories of pharmacologic agents used in young adults, adults, and older adults, including discussion of advanced nursing roles in prescription practices.
Prerequisites: NUR 708, NUR 713, NUR 713L.
Corequisites: NUR 811 for A/GNP only.
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>NUR 709S</td>
<td>Pharmacology Seminar for Adult/Gerontological Nurse Practitioners 1</td>
<td>Application of clinical pharmacology knowledge and skills to ensure safe prescribing practices for adult-gerontology nurse practitioners. Prerequisites: NUR 708, NUR 713, NUR 713L. Corequisites: NUR 709, NUR 811.</td>
</tr>
<tr>
<td>NUR 710</td>
<td>Philosophy of Knowledge Development in Nursing 3</td>
<td>Philosophy, inquiry, and the development of knowledge within the discipline. Prerequisites: Admission to PhD in nursing.</td>
</tr>
<tr>
<td>NUR 713</td>
<td>Advanced Health Assessment and Diagnostic Reasoning 3</td>
<td>This course builds upon prerequisite assessment skills and present the advanced principles of health assessment. Methodologies of data gathering, data analysis and theoretical integration of health assessment are emphasized. Prerequisites: Baccalaureate-level health assessment course, NUR 708. Corequisites: NUR 708, NUR 713L.</td>
</tr>
<tr>
<td>NUR 713L</td>
<td>Advanced Health Assessment and Diagnostic Reasoning Skills Lab 1</td>
<td>Application of advanced health assessment and diagnostic reasoning skills using laboratory exercises. Prerequisites: NUR 713, NUR 708 (AGNP only).</td>
</tr>
<tr>
<td>NUR 714</td>
<td>Informatics in Healthcare 3</td>
<td>This course is focused on information systems, application of informatics in patient care, and data management to promote quality and safety in healthcare. Prerequisites: Admission to MSN or DNP program, or permission of instructor.</td>
</tr>
<tr>
<td>NUR 715</td>
<td>Research Methods in Nursing 3</td>
<td>Examines the basic concepts, strategies, and procedures used in conducting and analyzing nursing research. Emphasis will be on proposal development and quantitative and qualitative analysis of data. Prerequisites: An undergraduate statistics course (preferred within past 5 years).</td>
</tr>
<tr>
<td>NUR 727</td>
<td>Basic Principles of Nurse Anesthesia Practice 5</td>
<td>General introduction to basics of nurse anesthesia practice, including safety, assessment, pharmacology, monitoring, charting, positioning, care plan development, sequencing, and as a foundation to more advanced anesthetic concepts and techniques.</td>
</tr>
<tr>
<td>NUR 728</td>
<td>Physics and Mechanics of Anesthesia Delivery Systems 1</td>
<td>This course focuses on the application of the physical laws of gas, the study of compressed gases for clinical use, and the physical and mechanical considerations of anesthesia delivery systems. Corequisites: NUR 728L.</td>
</tr>
<tr>
<td>NUR 728L</td>
<td>Physics and Mechanics of Anesthesia Delivery Systems Laboratory 1</td>
<td>This course focuses on the application of the physical laws of gas, the study of compressed gases for clinical use, and the physical and mechanical considerations of anesthesia delivery systems. Corequisites: NUR 728.</td>
</tr>
<tr>
<td>NUR 729</td>
<td>Health Assessment for Nurse Anesthesia 1</td>
<td>This course emphasizes the principles of patient assessment for nurse anesthesia practice in the pre and perioperative periods. Corequisites: NUR 729L.</td>
</tr>
<tr>
<td>NUR 729L</td>
<td>Health Assessment Laboratory for Nurse Anesthesia 1</td>
<td>This laboratory course emphasizes the principles of patient assessment for nurse anesthesia practice in the pre and perioperative periods. Corequisites: NUR 729.</td>
</tr>
<tr>
<td>NUR 730</td>
<td>Neuropathophysiology of Nurse Anesthesia 3</td>
<td>This course focuses on the anatomy, physiology, and pathophysiology of the central nervous system, and anesthesia nursing care related to persons with neurological dysfunction. Prerequisites: Enrollment in the Nurse Anesthesia concentration of the DNP program.</td>
</tr>
<tr>
<td>NUR 732</td>
<td>Advanced Principles of Nurse Anesthesia Practice 4</td>
<td>This course focuses on the principles and theories of advanced nurse anesthesia practice necessary to effectively administer anesthesia for complex adult and pediatric patients. Prerequisites: NUR 727, NUR 728, NUR 728L, NUR 729, NUR 729L, NUR 730.</td>
</tr>
<tr>
<td>NUR 741</td>
<td>Nurse Scientists in Academia and Industry I 3</td>
<td>Integration of the nurse scientist role into an academic and industry environment. Prerequisites: NUR 704, NUR 712. Pr. or Coreq.: NUR 703, NUR 782.</td>
</tr>
<tr>
<td>NUR 742</td>
<td>Nurse Scientists in Academia and Industry II 3</td>
<td>Internship to apply the nurse scientist role in an academic or industry environment. Prerequisites: NUR 741.</td>
</tr>
<tr>
<td>NUR 750X</td>
<td>Experimental Course 1-6</td>
<td>This number reserved for experimental courses. Refer to the Course Schedule for current offerings.</td>
</tr>
<tr>
<td>NUR 751</td>
<td>Pharmacology of Nurse Anesthesia I 2</td>
<td>Advanced knowledge of pharmacologic principles related to anesthetic medications. Prerequisites: Admission to the Nurse Anesthesia concentration of the Doctor of Nursing Practice program.</td>
</tr>
<tr>
<td>NUR 752</td>
<td>Biochemistry for Nurse Anesthesia 1</td>
<td>Advanced knowledge of the biochemical basis and measurement of homeostasis and nursing interventions for fluid and electrolyte imbalance. Prerequisites: NUR 756, NUR 757, NUR 773A.</td>
</tr>
<tr>
<td>NUR 753</td>
<td>Cardiovascular Pathophysiology for Nurse Anesthesia 2</td>
<td>This course focuses on the principles and theories of advanced nurse anesthesia practice necessary to effectively administer anesthesia to individuals with cardiovascular dysfunction. Prerequisites: NUR 727, NUR 732. Corequisites: NUR 754.</td>
</tr>
<tr>
<td>NUR 754</td>
<td>Pharmacology of Nurse Anesthesia II 2</td>
<td>This course focuses on advanced nurse anesthesia knowledge of the pharmacology of cardiovascular drugs. Prerequisites: NUR 751.</td>
</tr>
<tr>
<td>NUR 755</td>
<td>Cell Pathophysiology for Nurse Anesthesia 1</td>
<td>Advanced knowledge of pathophysiology and anesthesia nursing care related to persons with cellular dysfunction. Prerequisites: NUR 730.</td>
</tr>
</tbody>
</table>
NUR 756 Respiratory Pathophysiology for Nurse Anesthesia 3
This course focuses on the principles and theories of advanced nurse anesthesia practice necessary to effectively administer anesthesia to individuals with respiratory dysfunction.
Prerequisites: NUR 753, NUR 754, NUR 772.
Corequisites: NUR 757, NUR 773.

NUR 757 Pharmacology of Nurse Anesthesia III 1
This course focuses on advanced nurse anesthesia knowledge of local anesthetics, neuromuscular blocking drugs, and adjunct medications necessary to effectively administer anesthesia to a diverse population.
Prerequisites: NUR 753, NUR 754, NUR 772.
Corequisites: NUR 756, NUR 773.

NUR 758 Pathophysiology of Abdominal Systems for Nurse Anesthesia 3
Advanced knowledge of pathophysiology and anesthesia nursing care related to persons with hepatic, renal, and endocrine dysfunction.
Prerequisites: NUR 727, NUR 729, NUR 732.

NUR 759 Pharmacology of Nurse Anesthesia IV 1
This course focuses on the principles of advanced nurse anesthesia knowledge of antimicrobials, adjunct agents, and concurrent outpatient drug therapy necessary to effectively administer anesthesia to a diverse population.
Prerequisites: NUR 757.

NUR 771A Clinical Practicum in Nurse Anesthesia I 6
This course focuses on the delivery of basic nurse anesthesia practice necessary to effectively administer anesthesia for a diverse patient population in a variety of institutional settings.
Prerequisites: NUR 727, NUR 728, NUR 729, NUR 730.
Corequisites: NUR 732, NUR 751.

NUR 771B Clinical Practicum in Nurse Anesthesia I 8
This course focuses on the delivery of basic nurse anesthesia practice necessary to effectively administer anesthesia for a diverse patient population in a variety of institutional settings.
Prerequisites: NUR 771A.

NUR 772 Clinical Practicum in Nurse Anesthesia II 6
This course focuses on the delivery of advanced nurse anesthesia practice necessary to effectively administer anesthesia for a diverse patient population in a variety of institutional settings.
Prerequisites: NUR 771B.
Corequisites: NUR 753, NUR 754.

NUR 773A Clinical Practicum in Nurse Anesthesia III 6
This course focuses on the delivery of complex nurse anesthesia practice necessary to effectively administer anesthesia for a diverse patient population in a variety of institutional settings.
Prerequisites: NUR 772.
Corequisites: NUR 756, NUR 757.

NUR 773B Clinical Practicum in Nurse Anesthesia III 7
This course focuses on the delivery of advanced nurse anesthesia practice necessary to effectively administer anesthesia for a diverse patient population in a variety of institutional settings.
Prerequisites: NUR 773A.

NUR 774 Clinical Practicum in Nurse Anesthesia IV 6
This course focuses on the delivery of increasingly complex nurse anesthesia practice necessary to effectively administer anesthesia for a diverse patient population in a variety of institutional settings.
Prerequisites: NUR 773B.
Corequisites: NUR 759.

NUR 775A Clinical Practicum in Nurse Anesthesia V 6
This course focuses on the integration of basic, advanced, and complex nurse anesthesia practice necessary to effectively administer anesthesia for a diverse patient population in a variety of institutional settings.
Prerequisites: NUR 774.
Corequisites: NUR 758.
Notes: May not be repeated for credit.

NUR 775B Clinical Practicum in Nurse Anesthesia V 6
This course focuses on the integration of basic, advanced, and complex nurse anesthesia practice necessary to effectively administer anesthesia for a diverse patient population in a variety of institutional settings.
Prerequisites: NUR 775A.
Corequisites: NUR 797.

NUR 780 Special Topics in Nursing Science 1-3
In depth topics of special interest related to nursing and health sciences.
Prerequisites: Permission of instructor.

NUR 781 Health Promotion Models and Interventions 3
Current epidemiological, methodological, and theoretical approaches to health promotion across the lifespan. Intervention strategies are evaluated.
Prerequisites: NUR 702 and NUR 712, or permission of instructor.

NUR 782 Health Disparities and Outcomes 3
Critical analysis of health disparities and outcomes. Differences in access, use, cost, and quality of health care services; causes of health disparities; and strategies to eliminate disparities.
Prerequisites: NUR 781 or permission of instructor.
Corequisites: NUR 704.

NUR 783 Advanced Health Policy and Ethics 3
Advanced analysis and evaluation of domestic and international regulation, financing, and delivery of health care; ethical issues and stakeholders that influence policy; evaluation of policies for selected populations.
Prerequisites: NUR 782 or permission of instructor.

NUR 789 Doctor of Nursing Practice Advanced Practicum 1-8
Integrate evidence-based research, advanced scholarship, and translational research principles to the advanced practice setting in accomplishment of the practicum hours needed to accomplish the DNP Project.
Prerequisites: Admission to Post-Master's DNP Program.
Notes: May be repeated for credit up to 4 times to achieve required total credits for the program, 1000 post-baccalaureate advanced practicum hours, and complete the DNP project.

NUR 790 Directed Research 3
Directed research that culminates in a scholarly product.
Prerequisites: NUR 704 and prior approval of graduate faculty member who will supervise and evaluate the project.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

NUR 792 Independent Study 1-3
Prerequisite: Permission of instructor, Director of Graduate Study and Dean of Graduate School;
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

NUR 797 Integrated Clinical Concepts 2
This course focuses on the integration of all aspects of nurse anesthesia practice and preparation for the national certification examination given by the National Board on Certification and Recertification.
Prerequisites: NUR 732, NUR 752, NUR 753, NUR 755, NUR 756, NUR 758, NUR 759.
Corequisites: NUR 775B.
NUR 799 Dissertation 1-12
Individual direction for the completion of doctoral dissertation research.  
Prerequisites: Satisfactory completion of written and oral comprehensive examinations and written permission of dissertation chair.

NUR 801 Thesis Extension 1-3
Thesis Extension.

NUR 802 Dissertation Extension 1-3
Dissertation Extension.  
Prerequisites: Permission of instructor.

NUR 803 Research Extension 1-3
Research Extension.  
Prerequisites: Permission of instructor.

NUR 810 Health Promotion and Disease Prevention for Advanced Practice Nursing 3
Theories and application of health promotion and disease prevention from adolescence to elder adulthood for advanced practice nursing.

NUR 811 Primary Care Management of the Adult I for Advanced Practice Nursing 4
Management of acute and chronic illness with emphasis on disease prevention and health promotion among young adults, adults, and older adults.  
Prerequisites: NUR 708, NUR 713, NUR 713L, NUR 810.  
Corequisites: NUR 709, NUR 709S, NUR 811L.

NUR 811L Practicum for Primary Care Management of the Adult I for Advanced Practice Nursing 3
First in a series of clinical courses. Practicum for management of acute and chronic illness with emphasis on disease prevention and health promotion among young adults, adults, and older adults.  
Prerequisites: NUR 708, NUR 713, NUR 713L, NUR 810.  
Corequisites: NUR 709, NUR 709S, NUR 811.

NUR 812 Primary Care Management of the Adult II for Advanced Practice Nursing 4
Management of acute and chronic illness with emphasis on disease prevention and health promotion among young adults, adults, and older adults.  
Prerequisites: NUR 709, NUR 709S, NUR 811, NUR 811L.  
Corequisites: NUR 812L.

NUR 812L Practicum for Primary Care Management of the Adult II for Advanced Practice Nursing 3
Practicum for management of acute and chronic illness with emphasis on disease prevention and health promotion among young adults, adults, and older adults.  
Prerequisites: NUR 709, NUR 709S, NUR 811, NUR 811L.  
Corequisites: NUR 812.

NUR 813 Primary Care Management of the Older Adult and Frail Elder 4
The management of older adults and frail elders by the Adult Gerontological Nurse Practitioner in primary care.  
Prerequisites: NUR 709, NUR 709S, NUR 811, NUR 811L.  
Corequisites: NUR 813L.

NUR 813L Practicum for Primary Care Management of the Older Adult and Frail Elder 3
Practicum for management of older adults and frail elders by the Adult Gerontological Nurse Practitioner in primary care.  
Prerequisites: NUR 709, NUR 709S, NUR 811, NUR 811L.  
Corequisites: NUR 813.

NUR 814 Integrated Clinical Management I for the Advanced Practice Nurse in Primary Care 2
Emphasis is integration of adult patient management with leadership, use of data, and interprofessional collaboration in promotion of healthy lifestyles; evaluation and management of acute and chronic health problems.  
Prerequisites: NUR 812, NUR 812L, NUR 813, NUR 813L.  
Corequisites: NUR 814L.

NUR 814L Integrated Clinical Practicum in Primary Care I for the Advanced Practice Nurse 3
Practicum for integration of adult patient management with leadership, use of data, and interprofessional collaboration in promotion of healthy lifestyles; evaluation, and management of acute and chronic health problems.  
Prerequisites: NUR 812, NUR 812L, NUR 813, NUR 813L.  
Corequisites: NUR 814.

NUR 815 Advanced Concepts for Professional Communication in Primary Health Care 2
Complex simulations providing practice in skills necessary for professional communication, critical decision making, and collaboration for advanced practice nursing in primary health care.  
Prerequisites: NUR 812, NUR 812L, NUR 813, NUR 813L.  
Corequisites: NUR 815L.

NUR 815L Advanced Procedures in Primary Care 1
Complex simulations providing advanced skills in primary care procedures.  
Prerequisites: NUR 812, NUR 812L, NUR 813, NUR 813L.  
Corequisites: NUR 815.

NUR 816 Integrated Clinical Management II for the Advanced Practice Nurse in Primary Care 6
Advanced primary care practicum emphasizing the ability to manage acute and chronic complex health conditions of adults demonstrating advanced critical decision making skills and integration of DNP essentials into advanced practice.  
Prerequisites: NUR 814, NUR 815.

NUR 817 Advanced Practice Nursing for the DNP: Role, Theory, and Practice 3
Theoretical application to the professional development of the DNP advanced practice nursing role in the health care delivery.  
NUR 818 Biostatistics and Epidemiology Principles for Advanced Practice Nursing 3
Application of biostatistics and epidemiology for clinical decision making in advanced practice nursing. Focus on application to populations and clients across the lifespan and to settings of care.  
Prerequisites: Admission to D.N.P. program or permission of faculty, undergraduate statistics course.

NUR 819 Effective Leadership for Practice 3
Principles and theories of leadership to effectively practice in complex systems, organizations, and processes.  
Prerequisites: Admission to DNP Program.

NUR 820 Seminar for Nurse Anesthesia Advanced Practice 1
This seminar course focuses on the analysis of professional issues affecting anesthesia nursing practice.  
Prerequisites: Pr. or Coreq. NUR 620.
NUR 824 Analysis and Application of DNP Essentials: Scientific Underpinnings for Practice and Advanced Nursing Practice
Integration of scientific underpinnings for practice and advanced nursing practice principles applied to the role of the D.N.P. in nursing practice. 
Prerequisites: Admission to the post master's D.N.P. program.

NUR 825 Analysis and Application of DNP Essentials: Clinical Scholarship and Analytical Methods for Evidence 1
Analysis and integration of clinical scholarship and analytical methods for evidence-based practice applied to the role of the D.N.P. in nursing practice. 
Prerequisites: Admission to the post master's D.N.P. program.

NUR 826 Analysis and Application of DNP Essentials: Health Care Policy for Advocacy in Health Care; and Inte 3
Analysis and integration of health care policy for advocacy in health care and interprofessional collaborations for improving outcomes applied to the roles of the D.N.P. in nursing practice. 
Prerequisites: Admission to the post master's D.N.P. program.

NUR 827 Analysis and Application of DNP Essentials: Organizational and Systems Leadership, Information Systems 3
Analysis and integration of organizational systems leadership, information systems and technology, and clinical prevention and population health applied to the role of the D.N.P. in nursing practice. 
Prerequisites: Admission to the post master’s D.N.P. program.

NUR 898A Applied Evidence-Based Practice & Translational Methods Project I 1
An applied evidence-based practice and translational methods project to be completed sequentially in a five-course series. 
Prerequisites: NUR 705.

NUR 898B Applied Evidence-Based Practice & Translational Methods Project II 1
An applied evidence-based practice and translational methods project to be completed sequentially in a five-course series. 
Prerequisites: NUR 898A.

NUR 898C Applied Evidence-Based Practice & Translational Methods Project III 1
An applied evidence-based practice and translational methods project to be completed sequentially in a five-course series. 
Prerequisites: NUR 898B.

NUR 898D Applied Evidence-Based Practice & Translational Methods Project IV 1
An applied evidence-based practice and translational methods project to be completed sequentially in a five-course series. 
Prerequisites: NUR 898C.

NUR 898E Applied Evidence-Based Practice & Translational Methods Project V 2
An applied evidence-based practice and translational methods project to be completed sequentially in a five-course series. 
Prerequisites: NUR 898D.

Nutrition (NTR)

NTR 103 Introduction to Food Science 3
Basic scientific principles of food preparation with emphasis upon the science of food, standards of selection, purchasing, preparation, storage, preservation, and sustainability.

NTR 203 Basic Quantitative Principles in Food and Nutrition 1
Basic quantitative principles of food production, food service operation, menu planning, food portioning, and menu costing developed through activities that stress adapting standard recipes, measurement conversions, developing basic culinary costing techniques, and use of nutrition-related calculations.
Prerequisites: Grade of C (2.0) or better in MAT 115. NUTR major or minor; Pr. or Coreq.: NTR 103.

NTR 213 Introductory Nutrition 3
Basic principles of human nutrition with emphasis on the nutrients and factors which affect their utilization in the human body.
MAC: MAC Health and Wellness

NTR 282 Introduction to Dietetics 1
An overview of dietetics profession that will cover scope of practice, code of ethics, resources for evidence based practice, professional organizations, career options, professional development, and professional trends.
Prerequisites: Nutrition major.

NTR 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

NTR 302 Nutrition Education and Application Processes 3
Study of communication of nutrition science through nutrition education, professional literature, and public media. Evaluation and use of professional and scientific literature in nutrition and food systems. 
Prerequisites: Grade of C (2.0) or better in NTR 213 and ENG 101. Written permission required.

NTR 309 Quantity Food Procurement and Production 3
Procurement and production of quantity foods with an emphasis on menu planning, pre-preparation, service, sanitation, delivery systems, selection, use, and care of quantity-food equipment. 
Prerequisites: Grade of C (2.0) or better in NTR 203. Written permission required; 
Corequisites: NTR 309L. 
Notes: Professional liability insurance required.

NTR 309L Qty Food Procurement / Prod Lab 0

NTR 313 Nutrition Throughout the Life Cycle 3
Principles of nutrition applied to meet the nutrient needs at different stages of the life cycle. Forces governing food availability, acceptability, nutritive quality and safety are stressed in the preparation of nutritional plans for individuals and groups. 
Prerequisites: Grade of C (2.0) or better in NTR 213 or permission of instructor.

NTR 400 Supervised Professional Experience 1-4
Supervised professional experience in selected commercial or industrial organizations, public or private agencies in accordance with the major course of study of the student.

NTR 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

NTR 401 Special Problems in Nutrition 1-4
Individual study. Conference hours to be arranged.
NTR 403 Food Science and Technology 2
Lecture covering experimental study of factors regulating the preparation of standard food products and review of current developments in food technology.

**Prerequisites:** Grade of C (2.0) or better in NTR 103, NTR 203, NTR 213, NTR 302, CHE 110 and CHE 101 or CHE 103 or CHE 111; Written permission required.

**Corequisites:** NTR 403L.

NTR 403L Food Science and Technology Laboratory 1
Laboratory covering experimental study of factors regulating the preparation of standard food products and review of current developments in food technology.

**Prerequisites:** Grade of C (2.0) or better in NTR 103, NTR 203, NTR 213, and NTR 302, CHE 110 and CHE 101, or CHE 103, or CHE 111; NTR 403.

**Notes:** All types of foods will be prepared and taste tested for sensory evaluation throughout the course and student grades will be based on participation in this course requirement.

NTR 413 Intermediate Nutrition 3
Intermediate approach toward understanding energy metabolism with an emphasis on mechanisms that regulate fuel intake, storage and utilization during normal and altered states of energy demands.

**Prerequisites:** Grade of C (2.0) or better in NTR 213, BIO 111, BIO 277 or KIN 292, CHE 103, CHE 104.

NTR 421 International Nutrition and Cultural Foods 3
This course examines issues related to food insecurity and malnutrition in developing countries. Diet and food choices are explored in the context of culture, religion, and geographical conditions.

**Prerequisites:** NUTR major or minor, grade of C (2.0) or better in NTR 213 and NTR 313.

NTR 423 Community Nutrition 3
Current community nutrition trends with emphasis on community services, government projects, and grant proposal writing. Students will engage in community service work to gain experience with important community issues.

**Prerequisites:** NUTR major or minor, grade of C (2.0) or better in NTR 213, NTR 302, and NTR 313; or permission of instructor.

NTR 426 Management Practices for Dietetics 3
Management practices and administration within foodservice and clinical dietetics settings. Operational assessment, evaluation, and cost control related to foodservice systems in commercial and noncommercial settings.

**Prerequisites:** Grade of C (2.0) or better in NTR 309.

NTR 427 Undergraduate Research 2-6
Individual study.

**Prerequisites:** GPA of 3.0 in nutrition, biology, and chemistry courses, or permission of the instructor.

**Notes:** May be repeated for credit if topic changes.

NTR 431 Nutrition and Human Metabolism 4
Structure, function, and metabolism of nutrients and related compounds; integration of nutrient metabolism at the cellular level with total body function; practical application of basic principles of nutrient metabolism.

**Prerequisites:** Minimum grade of C in BIO 277 or KIN 292, NTR 413, and CHE 103 (or CHE 111), CHE 104 (or CHE 114), CHE 110 (or CHE 112); CHE 205 (or CHE 351 and CHE 352); CHE 206 (or CHE 354); or their equivalents as determined by the instructor.

NTR 450 Nutrition Assessment 3
Assessment of nutritional status of healthy and ill persons before initiation of medical nutrition therapy.

**Prerequisites:** Grade of C (2.0) or better in BIO 277 or KIN 292. completion of NTR 213, NTR 313, and NTR 413.

NTR 450L Nutrition Assessment Lab 0

NTR 453 Child and Adolescent Nutrition 3
Nutritional needs of children and adolescents; methods of evaluating nutritional status of these groups; effects of nutrition on development.

**Prerequisites:** Grade of C (2.0) or better in NTR 213 or equivalent, and BIO 277 or equivalent.

NTR 460 Advanced Nutrition 4
Biochemical and physiological aspects of nutrient metabolism and utilization. Nutrient metabolism, flux, and requirements during the lifecycle and during fed/fasted states will be discussed, with emphasis on mechanisms that regulate these processes.

**Prerequisites:** Grade of C or better in NTR 313, NTR 413, NTR 431, and BIO 277 or KIN 292, or equivalents as determined by the instructor.

NTR 473 Medical Nutrition Therapy 4
Clinical aspects of nutrition. Development and use of therapeutic diets to combat nutritional diseases and physiological disorders.

**Prerequisites:** Grade of C or better in NTR 313, NTR 413, NTR 431, NTR 450, NTR 460, and BIO 277 or KIN 292.

NTR 473L Medical Nutrition Therapy Lab 0

NTR 474 Medical Nutrition Therapy 1 4
Part 1 of 2-semester course sequence. Course focuses on applying Nutrition Care Process to determine weight-inclusive medical nutrition therapy for patients/clients experiencing physiological stress or disease using evidence-based guidelines.

**Prerequisites:** NTR 413, NTR 431, BIO 277.

**Corequisites:** NTR 460.

NTR 475 Medical Nutrition Therapy 2 4
Part 2 of a 2-semester course sequence. Course focuses on applying Nutrition Care Process and evidence-based guidelines to treat clients experiencing physiological stress or disease using weight-inclusive medical nutrition therapy.

**Prerequisites:** NTR 413, NTR 431, NTR 474, BIO 277.

NTR 476 Sports Nutrition 3
Application of sports nutrition recommendations among athletes. Principles of diet planning and goal setting for optimizing training and athletic performance. Common and current nutrition-related topics in sports nutrition.

**Prerequisites:** Grade of C (2.0) or better in BIO 277, CHE 103, CHE 104, CHE 110 or CHE 111, CHE 112, CHE 114, CHE 115. and NTR 413 or equivalent required; instructor permission.

NTR 482 Professionalism in Dietetics 1
Capstone course in dietetics covering professional practice guidelines, public policy, healthcare systems and/or policies, reimbursement, and a review of the five subject areas of the Academy of Nutrition and Dietetics and registration exam.

**Prerequisites:** Minimum grade of C in BIO 277 or KIN 292, NTR 282, NTR 313, NTR 413, NTR 431, and NTR 450.

**Corequisites:** NTR 460.

NTR 493 Honors Work 3-6
Honors Work.

**Prerequisites:** Permission of instructor. 3.30 GPA in the major, 12 s.h. in the major.

**Notes:** May be repeated for credit if the topic of study changes.
NTR 500 Supervised Professional Experience 1-4
Supervised professional experience in selected commercial or industrial organizations, public or private agencies in accordance with the major course of study of the student.

NTR 531 Nutrition and Human Metabolism 4
Structure, function, and metabolism of nutrients and related compounds; integration of nutrient metabolism at the cellular level with total body function; practical application of basic principles of nutrient metabolism.

NTR 550 Nutrition Assessment 3
Assessment of nutritional status of healthy and ill persons before initiation of medical nutrition therapy.
Corequisites: NTR 550L.

NTR 550L Nutrition Assessment Lab 0

NTR 553 Child and Adolescent Nutrition 3
Nutritional needs of children and adolescents; methods of evaluating nutritional status of these groups; effects of nutrition on development.

NTR 560 Advanced Nutrition 4
Biochemical and physiological aspects of nutrient metabolism and utilization. Nutrient metabolism, flux, and requirements during the lifecycle and during fed/fasted states will be discussed, with emphasis on mechanisms that regulate these processes.
Prerequisites: Grade of C or better in NTR 531 or equivalent as determined by the instructor.

NTR 573 Medical Nutrition Therapy 4
Clinical aspects of nutrition. Development and use of therapeutic diets to combat nutritional diseases and physiological disorders.
Prerequisites: Grade of C or better in NTR 531, NTR 550, and NTR 560.
Corequisites: NTR 573L.

NTR 573L Medical Nutrition Therapy Lab 0

NTR 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

NTR 601 Directed Study in Nutrition 1-6
Prerequisite: Permission of graduate faculty member;
Notes: May be repeated for credit. Grade: Satisfactory/Unsatisfactory (S/U).

NTR 602 Supervised Preparation for Professional and Community Engagement 3
Preparation for clinical supervised practice experiences in dietetics; helping relationships skills, human resource management, marketing strategies for revenue generating services in dietetics, appropriate professional conduct in patient care.
Prerequisites: Admission into the DI program or NTR 573 and NTR 560.

NTR 605A Practicum in Clinical Dietetics 3-6
For Dietetic Internship students only. Practical experience in the professional areas of dietetics: management, clinical, and community.
Prerequisites: Grade of B or better in NTR 693.
Notes: Required for Dietetic Internship students. Combination of credit not to exceed 9 credit hours.

NTR 605B Practicum in Clinical Dietetics 3-6
For Dietetic Internship students only. Practical experience in the professional areas of dietetics: management, clinical, and community.
Prerequisites: Grade of B or better in NTR 693.
Notes: Required for Dietetic Internship students. Combination of credit not to exceed 9 credit hours.

NTR 606C Practicum in Clinical Dietetics 3-6
For Dietetic Internship students only. Practical experience in the professional areas of dietetics: management, clinical, and community.
Prerequisites: Grade of B or better in NTR 693.
Notes: Required for Dietetic Internship students. Combination of credit not to exceed 9 credit hours.

NTR 607 Nutrition Education 3
Philosophy, principles, methods, and materials involved in nutrition education. Emphasis on development of nutrition education curriculum and programs in school and community.
Prerequisites: NTR 550 or equivalent or permission of instructor.

NTR 609A Seminar in Nutrition 1
Review, analysis and presentation of recent research findings and issues in food and nutrition.
Notes: May be repeated for credit when topic varies. Enrollment for two credits requires presentation of seminar; Grade: NTR 609A, 1 hour credit, graded Satisfactory/Unsatisfactory (S/U); NTR 609B, 2 hours credit, graded by letter grade.

NTR 609B Seminar in Nutrition 2
Review, analysis and presentation of recent research findings and issues in food and nutrition.
Notes: May be repeated for credit when topic varies. Enrollment for two credits requires presentation of seminar; Grade: NTR 609A, 1 hour credit, graded Satisfactory/Unsatisfactory (S/U); NTR 609B, 2 hours credit, graded by letter grade.

NTR 623 Current Trends in Nutrition 3
Emphasis on current trends in nutrition research/education from a molecular, cellular and/or human perspective.
Prerequisites: Senior or graduate level course in nutrition or permission of instructor.
Notes: May be repeated for credit when topic varies.

NTR 624 Supervised Preparation for Culinary Medicine 3
Practical experience to combine a comprehensive knowledge of nutrition and dietetics, culinary medicine, and the art of food and cooking to prepare satisfying and delicious meals that are consistent with real-world budgets, time constraints and better overall physical and mental health.
Corequisites: Must be enrolled in the Dietetic Internship, Post-Baccalaureate Certificate program.

NTR 625 Gene Expression and Protein Metabolism 2
Prerequisites: Previous course in general nutrition, biochemistry and mammalian physiology and unconditional admission to the graduate program in Nutrition or other life sciences, or permission of instructor.

NTR 626 Energy, Carbohydrate, Lipid Metabolism 2
Analysis of energy intake and metabolism; carbohydrate and lipid absorption, transport, and tissue-specific utilization. Clinical applications. Critical analysis of recent literature.
Prerequisites: NTR 625, previous course in general nutrition, biochemistry and mammalian physiology, and unconditional admission to the graduate program in Nutrition or other life sciences. or permission of instructor.
NTR 627 Antioxidants and Bioactive Food Components 2
Metabolism and function of selected bioactive food components, such as flavonoids, stanols, and sterols, anthocyanins, carotenoids, polyphenolics, indole-3-carbinol. Clinical applications. Critical analysis of recent literature.
**Prerequisites:** NTR 625, previous course in general nutrition, biochemistry, and mammalian physiology, and unconditional admission to the graduate program in Nutrition or other life sciences. or permission of instructor.

NTR 628 Vitamins and Minerals 2
Metabolism functions of selected vitamins. Regulation of selected trace metals emphasizing nutrient-gene interactions. Clinical applications. Critical analysis of recent literature.
**Prerequisites:** NTR 625, previous course in general nutrition, biochemistry and mammalian physiology, and unconditional admission to the graduate program in Nutrition or other life sciences. or permission of instructor.

NTR 645 Teaching Practicum in Nutrition 3
Provides a supervised, structured learning experience in teaching for graduate students in the Department of Nutrition. Professors provide guidance for graduate students during the experience.
**Prerequisites:** Admission to the graduate program in nutrition or permission of instructor.

NTR 653 Problems in Food and Nutrition 2-4
Individual student problems related to food and nutrition.
**Prerequisites:** Permission of instructor.
**Notes:** May be repeated for credit. Grade: Satisfactory/Unsatisfactory (S/U).

NTR 670 Research Skill Development 2-6
Notes: May be repeated for credit; Grade: Satisfactory/Unsatisfactory (S/U).

NTR 673 Nutrition Research Methodology 3
Diverse research techniques used in cellular, small animal, and human experimental studies in nutritional sciences. Orientation to research methodologies, grant proposal writing, ethical use of human (IRB) and animal (IACUC) models, and policy in nutrition.
**Prerequisites:** NTR 531 or equivalent as determined by the department.

NTR 674 Medical Nutrition Therapy 1 4
Part 1 of 2-semester course sequence. Course focuses on applying Nutrition Care Process to determine weight-inclusive medical nutrition therapy for patients/clients experiencing physiological stress or disease using evidence-based guidelines.

NTR 675 Medical Nutrition Therapy 2 4
Part 2 of a 2-semester course sequence. Course focuses on applying Nutrition Care Process and evidence-based guidelines to treat clients experiencing physiological stress or disease using weight-inclusive medical nutrition therapy.
**Prerequisites:** NTR 674.

NTR 676 Nutrition and Physical Performance 3
Effects of nutrition on physical performance, alterations in nutrient metabolism from increased activity, interaction of diet and exercise on aging and disease processes, training and competition diets examined.
**Prerequisites:** Course work in biochemistry and physiology required, 531, 560, or equivalent courses, BIO 277.

NTR 693 Supervised Preparation for Practicum in Clinical Dietetics 3
Development of nutritional therapies for certain disease conditions. Evaluation of the physiological and biochemical bases for such therapies.
**Prerequisites:** Admission to DI program or NTR 573 and permission of instructor.

NTR 699 Thesis 1-6
Notes: Required of all candidates for the Master of Science degree; Credit may be divided over two or more semesters; Grade: Satisfactory/Unsatisfactory (S/U).

NTR 701 Directed Study in Nutrition 1-6
Prerequisite: Permission of graduate faculty member;
**Notes:** May be repeated for credit, grading method is Satisfactory/Unsatisfactory (S/U).

NTR 707 Nutrition Education 3
Philosophy, principles, methods, and materials involved in nutrition education. Emphasis on development of nutrition education curriculum and programs in school and community.
**Prerequisites:** NTR 550 or equivalent or permission of instructor.

NTR 709A Seminar in Nutrition 1
Review, analysis and presentation of recent research findings and issues in food and nutrition.
**Notes:** May be repeated for credit when topic varies. Enrollment for two credits requires presentation of seminar. NTR 709A, 1 hour credit, graded Satisfactory/Unsatisfactory (S/U). NTR 709B, 2 hours credit, graded by letter grade.

NTR 709B Seminar in Nutrition 2
Review, analysis and presentation of recent research findings and issues in food and nutrition.
**Notes:** May be repeated for credit when topic varies. Enrollment for two credits requires presentation of seminar. NTR 709A, 1 hour credit, graded Satisfactory/Unsatisfactory (S/U). NTR 709B, 2 hours credit, graded by letter grade.

NTR 723 Current Trends in Nutrition 3
Emphasis on current trends in nutrition research/education from a molecular, cellular and/or human perspective.
**Prerequisites:** Senior or graduate level course in nutrition or permission of instructor.
**Notes:** May be repeated for credit when topic varies.

NTR 724 Supervised Preparation for Culinary Medicine 3
Practical experience to combine a comprehensive knowledge of nutrition and dietetics, culinary medicine, and the art of food and cooking to prepare satisfying and delicious meals that are consistent with real-world budgets, time constraints and better overall physical and mental health.
**Corequisites:** Must be enrolled in the Dietetic Internship, Post-Baccalaureate Certificate program.

NTR 725 Gene Expression and Protein Metabolism 2
**Prerequisites:** Previous course in general nutrition, biochemistry and mammalian physiology, and unconditional admission to the graduate program in Nutrition or other life sciences or permission of instructor.

NTR 726 Energy, Carbohydrate, Lipid Metabolism 2
Analysis of energy intake and metabolism; carbohydrate and lipid absorption, transport, and tissue-specific utilization. Clinical applications. Critical analysis of recent literature.
**Prerequisites:** NTR 725, previous course in general nutrition, biochemistry and mammalian physiology, and unconditional admission to the graduate program in Nutrition or other life sciences or permission of instructor.
NTR 727 Antioxidants and Bioactive Food Components 2
Metabolism and function of selected bioactive food components, such as flavonoids, stanols, and sterols, anthocyanins, carotenoids, polyphenolics, indole-3-carbinol. Clinical applications. Critical analysis of recent literature.
Prerequisites: NTR 725, previous course in general nutrition, biochemistry, and mammalian physiology, and unconditional admission to the graduate program in Nutrition or other life sciences or permission of instructor.

NTR 728 Vitamins and Minerals 2
Metabolism functions of selected vitamins. Regulation of selected trace metals emphasizing nutrient-gene interactions. Clinical applications. Critical analysis of recent literature.
Prerequisites: NTR 725, previous course in general nutrition, biochemistry, and mammalian physiology, and unconditional admission to the graduate program in Nutrition or other life sciences or permission of instructor.

NTR 745 Teaching Practicum in Nutrition 3
Provides a supervised, structured learning experience in teaching for graduate students in the Department of Nutrition. Professors provide guidance for graduate students during the experience.
Prerequisites: Admission to the graduate program in Nutrition or permission of instructor.

NTR 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

NTR 753 Problems in Food and Nutrition 2-4
Individual student problems related to food and nutrition.
Prerequisites: Permission of instructor.
Notes: May be repeated for credit, grading method is Satisfactory/Unsatisfactory (S/U).

NTR 767 Nutrition and Physical Performance 3
Effects of nutrition on physical performance, alterations in nutrient metabolism from increased activity, interaction of diet and exercise on aging and disease processes, training and competition diets examined.
Prerequisites: Course work in biochemistry and physiology required, 531, 560, or equivalent courses, BIO 277.

NTR 770 Research Skill Development 2-6
Notes: May be repeated for credit, grading method is Satisfactory/Unsatisfactory (S/U).

NTR 773 Nutrition Research Methodology 3
Diverse research techniques used in cellular, small animal, and human experimental studies in nutritional sciences. Orientation to research methodologies, grant proposal writing, ethical use of human (IRB) and animal (IACUC) models, and policy in nutrition.
Prerequisites: NTR 531 or equivalent as determined by the department.

NTR 774 Medical Nutrition Therapy 1 4
Part 1 of 2-semester course sequence. Course focuses on applying Nutrition Care Process to determine weight-inclusive medical nutrition therapy for patients/clients experiencing physiological stress or disease using evidence-based guidelines.

NTR 775 Medical Nutrition Therapy 2 4
Part 2 of a 2-semester course sequence. Course focuses on applying Nutrition Care Process and evidence-based guidelines to treat clients experiencing physiological stress or disease using weight-inclusive medical nutrition therapy.
Prerequisites: NTR 774.

NTR 776 Nutrition and Physical Performance 3
Effects of nutrition on physical performance, alterations in nutrient metabolism from increased activity, interaction of diet and exercise on aging and disease processes, training and competition diets examined.
Prerequisites: Course work in biochemistry and physiology required, 531, 560, or equivalent courses, BIO 277.

NTR 790 Doctoral Research 1-6
Individual work on problems related to student’s primary area(s) of specialization. Empirical research or critical reviews and integrations of literature.
Prerequisites: Approval of graduate faculty member.
Notes: May be repeated for credit. Grade: Satisfactory/Unsatisfactory (S/U).

NTR 799 Dissertation Problem 1-12
Prerequisite: Completion of oral and written comprehensive examinations;
Notes: Required of all candidates for the Doctor of Philosophy degree. May be repeated for credit; Grade: Satisfactory/Unsatisfactory (S/U).

NTR 801 Thesis Extension 1-3
Thesis Extension.

NTR 802 Dissertation Extension 1-3
Dissertation Extension.

NTR 803 Research Extension 1-3

Online NC Interinstitutional (ONC)

ONC 101 Online NC Interinstitutional 0.5-12

Peace and Conflict Studies (PCS)

PCS 112 Introduction to Peace and Conflict Studies 3
Explore sources of conflict, war, social oppression, and violence and the challenges of promoting peace and justice. Examine the strategies for introducing equitable and nonviolent methods for conflict transformation.
MAC: MAC CritThink Soc and BehavSci

PCS 205 Violence in the Modern World 3
Designed to provide a cross-disciplinary examination of violence and peace. Students will be engaged in an exploration of world issues and their impact at the local level.
MAC: MAC Global and Intercultural

PCS 215 Conflict Transformation 3
Examine the theory, practice, and narrative of conflict transformation. Transformative models, locally and globally, are explored and, the process of ending destructive action and promoting constructive change are engaged.
MAC: MAC Written Communication

PCS 218 Managing Conflict in Professional Contexts 3
Through the study and application of multiple theories, principles, and skills, students will learn about methods and processes for managing conflict in professional contexts.
MAC: MAC Oral Communication

PCS 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.
PCS 305 Foundations of Peace and Conflict Studies 3
This course surveys the basic practical and theoretical foundations of peace and conflict transformation. The basic theories of conflict transformation provide a framework for understanding the dynamics of practice.

PCS 308 Working through Interpersonal Conflicts 3
Explores the causes of interpersonal and inter-group tensions and the techniques (micro-level processes) to address them effectively whether in the workplace, community, or at home.

PCS 309 Conflict and Culture 3
Critical multiculturalism provides the framework for exploring multiple dimensions of diversity and its impact on creating and transforming conflicts. The impact of cultural interactions is a core focus.

PCS 311 Conflict Research 3
This course is an introduction to qualitative, quantitative and mixed method research from social, organizational and conflict perspectives. Emphasis is placed on research design, question formulation, sampling, recruiting, data analysis and practical research activity.
Prerequisites: PCS 305.

PCS 312 Conflict Systems and Analysis 3
This course examines the practical and theoretical approaches to evaluating and remediating organizational conflict. Organizational analysis techniques and internal dispute resolution systems are explored.

PCS 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

PCS 405 Localizing Peace 3
This course will investigate local peace-building and sustainable development within diverse political, cultural and economic contexts. It explores models for collective action toward non-violent conflict and positive peace.

PCS 406 Environmental Justice: Interdisciplinary Response for Sustainability 3
Interdisciplinary exploration of models that address social, economic, environmental justice concerns and their impact on community, economic, and environmental sustainability.
Notes: Same as SWK 405.

PCS 415 Global Peacebuilding 3
This course explores the complexity of engaging local and global peace and conflict practice (macro-level process) that enhances the building and nurturing of civic society in the 21st century.

PCS 416 Practicum I 4
Through a directed learning experience in a practicum setting, students engage with communities through entry level practices and engaged inquiry experiences reflecting on the field of Peace and Conflict Studies.
Prerequisites: PCS 218, PCS 305, PCS 308, PCS 309, PCS 311. PCST major; Junior or senior standing.

PCS 417 Practicum II 3
Emphasis is placed upon extended application and evaluation in the practice or research environment. Continues critical review and analysis of setting for engagement.
Prerequisites: PCS 416. PCST major; senior standing;
Corequisites: PCS 415.

PCS 418 Peacemaking Challenges in a Complex World 3
Introduction to the interdisciplinary theory, research, and intervention strategies used in peacebuilding operations.

PCS 420 Senior Seminar 3
Final capstone course in which students integrate theory, models of practice and research/evaluation through a community based project documented with an electronic portfolio for presentation.
Prerequisites: PCS 215, PCS 218, PCS 305, PCS 308, PCS 309, PCS 311. PCST major; senior standing.
Corequisites: PCS 416.

PCS 430 The Power of Nonviolence for Social Change 3
Nonviolent protest has an important role to play in the 21st century for achieving justice, assuring human rights, and removing repressive regimes. The course considers the theory and practice of successful nonviolent movements such as the Liberian women's peace movement, the Velvet Revolution, and the outing of Serbian dictator Milosevic.

PCS 432 Conflict Transformation at the Food-Water Nexus 3
Contemporary issues in food and water systems are examined using the lens of conflict transformation. Through this lens, we will analyze associated social and environmental conflicts, with an emphasis on dynamics of power and justice. Students will learn about transformative interventions associated with the conflicts we cover in class.

PCS 433 Restorative Justice: Theory and Models 3
Examines the principles and practices of restorative justice, evaluating the potentials and limitations of restorative methods and interventions in the US and internationally.
Notes: Same as SWK 433.

PCS 434 Reconciliation, Spirituality, and Community in Peacebuilding 3
Explores reconciliation and spiritual beliefs in community settings to address local and global conflicts. Includes discussion of both indigenous beliefs and global social, political, and environmental consciousness in healing.

PCS 440 Social Entrepreneurship: Justice and a Green Environment 3
Interdisciplinary engagement of social entrepreneurship as model for change on an issue of environmental sustainability. Exploration of models that respond to social, economic, environmental, and justice issues.
Prerequisites: Upper-division undergraduate status.
Notes: Same as BUS 440, ENT 440, WGS 440.

PCS 450 Independent Study in Peace and Conflict Studies 1-3
Independent study opportunity for students to engage in an in-depth exploration of a topic of special interest within the context of Peace and Conflict Studies.
Prerequisites: Permission of instructor.
Notes: May be repeated once for credit when topic varies.

PCS 456 Sports, Conflict, and Peacebuilding 3
The role that sports play in reflecting political, religious, ethnoracial, and social class conflicts is explored. The possibilities for using sports to teach skills for peaceful transformation are examined.

PCS 457 Ecocultures and Sustainable Communities 3
Explore ecocultures as sustainable models of peacebuilding and as alternatives to the dominant approach to global development. Through a study of the four dimensions of regenerative sustainability, students will examine how ecocultures, including traditional communities and contemporary ecovillages, are designed to nurture healthy, resilient, and sustainable communities and ecosystems.

PCS 479 Gender and Peacebuilding 3
Examines the role of gender, sex, diversity, and power relations in the creation and resolution of conflict and building of peace.
Notes: Same as SWK 479.
PCS 505 Environmental Justice: Interdisciplinary Response for Sustainability 3
Interdisciplinary exploration of models that address social, economic, environmental justice concerns and their impact on community, economic, and environmental sustainability.
Notes: Same as SWK 505.

PCS 540 Social Entrepreneurship: Justice and a Green Environment 3
Interdisciplinary engagement of social entrepreneurship as model for change on an issue of environmental sustainability. Exploration of models that respond to social, economic, environmental, and justice issues.

PCS 579 Gender and Peacebuilding 3
Examines the role of gender, sex, diversity, and power relations in the creation and resolution of conflict and building of peace.
Notes: Same as SWK 579.

PCS 600 Transforming Conflict: Histories and Theories 3
Introduction to the interdisciplinary theory, research conflict analysis and intervention strategies which form the foundation of peace and conflict studies.

PCS 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

PCS 601 Indigenous Peace Practices 3
Explores multiple dimensions of diversity in creating and resolving conflicts. Students will explore their own culture beliefs and values as well as diverse conflict models and systems around the world.

PCS 605 Skills and Techniques of Conflict Management 3
Theory and practice to develop a foundation of interpersonal skills and techniques needed by conflict professionals such as communication, negotiation, mediation, assessment, and presentation. Service learning project required.

PCS 606 Organizational Conflict: Diagnostic and Intervention Tools 3
Theories, methods, and practices in assessing and transforming conflict in modern organizations.
Prerequisites: PCS 600 and PCS 601 or permission of instructor.

PCS 607 Conflict Analysis: Theories of Change 3
Students are introduced to key conflict analysis concepts and models. Different analytic frameworks are used to assess international conflicts. Students participate in simulation exercises.

PCS 608 Topics in Peace and Conflict Studies 3
Concepts such as peace, conflict, violence, war, international order, state actors, non-state actors, power, international law, international organization, terrorism, conflict management, political economy and peacebuilding, among others are examined based on particular contemporary conflict cases.
Notes: May be repeated for credit when topic varies.

PCS 609 Community Engaged Research 3
After exploration of qualitative, quantitative, mixed-method, and action research philosophy and methods. Teams of students design an action research proposal.
Prerequisites: PCS 607 or permission of instructor.

PCS 610 Transitional Justice 3
Explore nonviolent responses to conflict and violence that are oriented to the restoration of relationships damaged by crime, war, community, and workplace violence.

PCS 611 Governance in Conflict Environments 3
Introduction to key principles, functions, and institutions to develop enhanced governance in conflict environments worldwide. Exploration of concepts, contextual frameworks, and programs to provide assistance in conflict environments.

PCS 612 Civil Military Integration in Conflict Management 3
Exploration of the mission, roles, and responsibilities of civil-military interaction teams in their collaboration to assess, design, and implement interventions to stabilize conflict environments after violent encounters.

PCS 613 Developing Civil-Military Partnerships in Conflict Environments 3
Through contemporary case studies, this course examines how senior civilian and military leaders and their supporting organizations analyze conditions and identify challenges in civil military engagement in conflict environments.

PCS 615 War and Peace in the Modern World 3
War and morality are concerns within the theoretical framework of peace and conflict studies, providing the base for practice as viewed within an historical and cultural context.

PCS 625 Conflict Resolution in Education: K-12 3
Explores conflict resolution theory, practice, and programming in educational settings and community organizations. Peer, professional, and systemic conflicts will be examined.
Prerequisites: PCS 600 or permission of instructor.

PCS 627 Seminar in Contemporary Issues in Peace and Conflict Studies 3
An investigation of current Global North and Pan-Western peace and conflict models and their impact on human security and humanitarian assistance.

PCS 630 The Power of Nonviolence for Social Change 3
Introduces students to the theory and practice of nonviolence as a manner of social change and as a philosophy. Explores classic thinking on nonviolence by Gandhi and Martin Luther King, Jr. as well as current research on nonviolent social change.

PCS 631 Crisis Management: Response and Resolution 3
Overview of critical incident response, management and resolution in relation to individual, family, community, and organizational perspectives.

PCS 632 Conflict Transformation at the Food-Water Nexus 3
Contemporary issues at the nexus of food and water systems are examined using the lens of conflict transformation. Through this lens, we will analyze associated social and environmental conflicts, with an emphasis on dynamics of power and justice. Students will learn about transformative interventions associated with the conflicts we cover in class.

PCS 633 Restorative Justice: Theory/Practice 3
Examines the principles and practices of restorative justice, evaluating the potentials and limitations of restorative methods and interventions in the US and internationally.

PCS 634 Reconciliation, Spirituality, and Community in Peacemaking 3
Explores reconciliation and spiritual beliefs in community settings to address local and global conflicts. Includes discussion of both indigenous beliefs and global social, political, and environmental consciousness in healing.
PCS 647 Facilitation, Mediation, and Negotiation 3
Engage with negotiation and mediation practices for transforming conflict. Build from negotiation and mediation theory to strategies and tactics. Learn and apply skills.
Prerequisites: None for certificate or master’s students. permission of instructor for non-majors;
Corequisites: None for certificate or master’s students. permission of instructor for non-majors.

PCS 650 Independent Study 3
Intensive study guided by the graduate faculty.
Prerequisites: Permission of instructor or the Program Director.

PCS 656 Sports, Conflict, and Peacebuilding 3
The role that sports play in reflecting political, religious, ethnорacial, and social class conflicts is explored. The possibilities for using sports to teach skills for peaceful transformation are examined.

PCS 657 Ecocultures and Sustainable Communities 3
Explores ecocultures as sustainable models of peacebuilding and as alternatives to the dominant approach to global development. Through a study of the four dimensions of regenerative sustainability, students will examine how ecocultures, including traditional communities and contemporary ecovillages, are designed to nurture healthy, resilient, and sustainable communities and ecosystems.

PCS 665 Religion: Conflict and Confrontation 3
Overview of conflict analysis and intervention strategies in religious communities and organizations. Analyze and implement models of reconciliation and forgiveness.

PCS 667 Borders, Partitions, and Generative Othering Narratives 3
Explores the use of borders/partitions by providing historical perspective on the dynamics of redrawing territorial space. Memories of these "sovereign" territorial displacements are interrogated to understand conflict systems.
Corequisites: PCS 600, PCS 601.

PCS 667 Peace Development and Community Building 3
Approaches to community and peacebuilding, with emphasis on understanding power and conflict, are taught within a global context. Strategies are developed for building peace and community through civic engagement.
Prerequisites: PCS 600 and PCS 601 or permission of instructor.

PCS 677 International Human Rights Advocacy 3
Course will explore international human rights norms, laws, theory and practice, with an emphasis on analytical and advocacy skills. Current debates in the field will be explored with implications for policy.

PCS 679 Gender and Peacebuilding 3
Examines the role of gender, sex, diversity, and power relations in the creation and resolution of conflict and building of peace.

PCS 685 Resolving Conflict in Health Care Systems: Achieving Peace through Health 3
Peace building and conflict resolution in health care and humanitarian initiatives; human rights and social justice perspective.

PCS 690 Integrated Colloquium: Professional Development Project 3
Final capstone course in which students integrate theory, research, and practice skills through an integrative project. (Research or Field Hours required).
Prerequisites: PCS 600, PCS 601, PCS 605, PCS 610.
Corequisites: PCS 607.
PHI 135 God 3
This course focuses on questions in the philosophy of religion relating to the existence of God, the possibility of evil, objective moral truth, divine attributes, and more. This course also provides foundational skills necessary for academic success at UNCG.
MAC: MAC Foundations

PHI 136 Philosophy of Education 3
This course explores a variety of philosophical theories about the aims and nature of education, and addresses questions which arise from the application of these theories. Readings include representatives of traditionalist, nativist, progressive and liberatory theories of education.
MAC: MAC Foundations

PHI 137 Minds & Brains 3
This course deals with philosophical questions concerning the human mind, its relation to the body, the brain, consciousness, what is sometimes called the "soul," etc. This course also provides foundational skills necessary for academic success at UNCG.
MAC: MAC Foundations

PHI 138 Good & Evil 3
This course focuses on fundamental moral issues, including objective and subjective morality, whether the means justifies the ends, and the moral status of ordinary forms of behavior that we typically take to be unobjectionable. This course also provides foundational skills necessary for academic success at UNCG.
MAC: MAC Foundations

PHI 141 What Makes a Life Good? 3
This course is an introduction to philosophy through consideration of theories about what makes a life a good one, and the relation between one's own well-being and the well-being of others.
MAC: MAC Health and Wellness

PHI 220 Medical Ethics 3
Moral problems in medicine including the patient's right to know, the confidentiality of doctor-patient communications, informed consent and experimentation with human subjects, abortion, euthanasia, socialized medicine, conflicts between medicine and religion, and genetic engineering.
MAC: MAC CritThink Hum and Fine Art

PHI 221 Philosophical Concepts in Everyday Contexts 3
This course introduces students to philosophical problems that touch our lives, engaging two basic branches of philosophy: theory of knowledge and study of the nature of reality. This course will also focus heavily on the development of clear writing skills.
MAC: MAC Written Communication
CIC: CIC College Writing

PHI 222 Ethics in the Computer Age 3
The course will survey select moral problems arising from computer technology in contemporary life, focusing on analysis of specific problems, stakeholders, and consequences, and the historical impact of computer technology.
MAC: MAC CritThink Hum and Fine Art

PHI 224 Philosophy of Race and Gender 3
This course provides historical background for understanding racial inequalities, focuses on the concepts of race and gender and how they are connected to racism and sexism, and explores the concept of intersectionality.
MAC: MAC Diversity and Equity
Notes: Same as WGS 224.

PHI 225 Philosophy of Bodies 3
This course deals with philosophical questions regarding the human body, especially the ways in which a normal body is defined impacts how we think about health, wellness, and disability. We will also look at imaginative alternatives for defining the human body, its possibilities, and its boundaries.
MAC: MAC Health and Wellness

PHI 267 Existentialism 3
Introduction to the fundamental ideas of existentialism. Readings from Kierkegaard, Heidegger, Sartre.

PHI 275 Philosophy of Aging 3
Are "you" the same "you" across a lifespan? What do we owe the elderly and our future, older selves? What is a good old age? How can age and ability-related discrimination affect the experience of growing old? This course engages these questions from various philosophical, interdisciplinary and international perspectives.

PHI 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

PHI 301 Topics in Philosophy 3
Variable content.
Notes: May be repeated for credit when topic varies.

PHI 310 Introduction to Formal Logic 3
Validity, consistency, implication, and the formal analysis of language. Propositional logic and quantification theory.

PHI 319 Knowledge, Truth, and Belief 3
Discussion of concepts central to an understanding of the nature of human knowledge, such as truth, evidence, certainty, intuition, perception, the reasonableness of belief, and the reliability theory of justification.
Prerequisites: PHI 310.

PHI 321 Ethical Theory 3
Analysis of the meaning of moral concepts such as good, right, ought, duty, and of the nature of ethical argument. Attention to current theories in normative ethics.
Prerequisites: One course in Philosophy.

PHI 322 Philosophy of the Arts 3
Philosophical problems concerning description, interpretation, and evaluation of the visual, performing, and literary arts, discussed generally and in relation to specific works of art. Readings in philosophy and art theory.
CIC: CIC College Writing

PHI 325 Introduction to the Philosophy of Science 3
Concepts important to an understanding of the nature and goals of research in the natural sciences, such as observation, experiment, theory, law, and explanation. Philosophical problems about objectivity and conceptual change in science based on examples from the history of science. Nature of scientific knowledge.
Notes: One course in natural science recommended.

PHI 331 Social and Political Philosophy 3
Theories of the origin and justification of legal systems, our obligation to obey the law, justice, punishment, and related issues. Readings from classical and contemporary sources. Course available via a WEB D-section for PHI Online Degree Completion Program students only.

PHI 335 Philosophy of Law 3
Theories of the origin and justification of legal systems, our obligation to obey the law, justice, punishment, and related issues. Readings from classical and contemporary sources.
PHI 336 Philosophy of Crime and Punishment 3
Critical discussion of philosophical questions raised by criminal law, including the moral justification of punishment, the theoretical underpinnings of various criminal defenses, and the conceptual distinctions among types of crimes.

PHI 338 Ethics and International Affairs 3
Critical discussion of topics such as human rights, the morality of war and terrorism, international distributive justice, poverty and international aid, self-determination and secession, immigration policy, and global environmental issues.

PHI 341 History of Ancient Philosophy 3
Survey of Western philosophical thought in the ancient period from the pre-Socratics, Plato, Aristotle, the Sceptics, Stoics, Epicureans. Particular choices of texts and philosophical ideas may vary.
CIC: CIC College Writing

PHI 342 History of Modern Philosophy 3
Survey of Western philosophical thought in the seventeenth and eighteenth centuries, its historical background and its influences on subsequent intellectual developments. Reading from major figures of the period, such as Descartes, Hobbes, Locke, Hume, and Kant.
CIC: CIC College Writing

PHI 348 Existentialism, Phenomenology, and Structuralism 3
Recent philosophical movements in France and Germany. Application of structuralist models to the human sciences. Post-structuralist developments such as Deconstruction and Hermeneutics. Selections from such writers as Husserl, Levi-Strauss, Foucault, Lacan, Althusser, Derrida, Gadamer, and Ricoeur.

PHI 351 Major Philosophers 3
Systematic examination of the works of a major philosopher.

PHI 357 Metaphysics 3
Selected metaphysical issues such as personal identity and the immortality of the soul, freedom and determinism, the nature of space, time and substance, the problem of universals, forms of realism, and theory of reference. Course available via WEB D-section for PHI Online Degree Completion Program students only.
CIC: CIC College Writing

PHI 359 Philosophy of Religion 3
Arguments concerning God's existence, the problem of evil, God's foreknowledge and human freedom, the analysis of divine attributes, immortality, and the soul.

PHI 361 Ethical Issues in Business 3
Ethical theory and its application to business: economic justice, corporate responsibility, self-regulation and government regulation, conflict of interest, investment policy, advertising, and environmental responsibility.
Notes: Students may not receive credit for both PHI 361 and PHI 362.

PHI 362 Ethical Issues in Entrepreneurship 3
Application of ethical theory to global entrepreneurship; including entrepreneur's role in ethical actions, economic justice, responsibility, self and government regulation, conflict of interest, investment policy, advertising, and environmental responsibility, and application to direct selling.
Notes: Students may not receive credit for both PHI 361 and PHI 362. Same as ENT 362.

PHI 363 Environmental Ethics 3
The ethics of our relationship to the environment. Traditions in environmentalism; treatment of animals, nature, plants, and species; application of environmental ethical theory to real-world environmental problems.

PHI 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

PHI 401 Reading Course for Seniors 1-3
Supervised reading and research for philosophy majors.
Prerequisites: Permission of instructor.
Notes: May be repeated for credit.

PHI 402 Independent Study 1-3
Prerequisite: Satisfaction of requirements for the major in philosophy and permission of instructor;
Notes: May be repeated for credit.

PHI 420 Advanced Topics in Biomedical Ethics 3
Detailed examination of a particular issue in biomedical ethics, such as research ethics, assisted suicide and euthanasia, and the acquisition and allocation of organs for transplantation.
Prerequisites: PHI 220.

PHI 424 Philosophy of Social and Behavioral Science 3
Issues in philosophy of social and behavioral science from Hume to the present: explanation, theory construction, methodology of the social sciences, the status of the sociology of knowledge.

PHI 426 Philosophy of Physical Science 3
Study of a major current issue in the philosophy of science such as scientific progress and change, scientific methods, experiment and theory, scientific explanation, rationality, scientific realism, relations between philosophy of science and history of science. Examples drawn from modern history of the physical sciences.

PHI 445 Social Philosophy 3
Topics from social, political, and legal philosophy, such as property, justice, punishment, liberalism, conservatism, and a study of such major figures as Hobbes, Locke, Mill, and Rawls.

PHI 458 Philosophy of Mind 3
The mind-body problem, identity theories, functionalism, reductive and eliminative materialism, behavioral and causal theories of mind.

PHI 474 Advanced Logic 3
Axiomatic first order quantification theory with completeness theorems. Numbers and sets. Paradoxes and type theory. Introduction to modal logic.
Prerequisites: PHI 311 or permission of instructor.

PHI 493 Honors Work 3-6
Prerequisite: Permission of instructor; 3.30 GPA in the major, 12 s.h. in the major;
Notes: May be repeated for credit if the topic of study changes.

PHI 494 Senior Capstone Course 3
Variable content. Senior-level philosophical work on some thematic topic. Elements and methods of philosophical argument, research and debate. Technology competencies and information skills/ research competencies in the major. Course available via WEB D-section for PHI Online Degree Completion Program students only.
CIC: CIC College Writing
PHI 523 Philosophy of Social and Behavioral Science 3
Issues in philosophy of social and behavioral science from Hume to the present: explanation, theory construction, methodology of the social sciences, the status of the sociology of knowledge.

PHI 525 Philosophy of Physical Science 3
Study of a major current issue in the philosophy of science such as scientific progress and change, scientific methods, experiment and theory, scientific explanation, rationality, scientific realism, relations between philosophy of science and history of science. Examples drawn from modern history of the physical sciences.

PHI 559 Philosophy of Mind 3
The mind-body problem, identity theories, functionalism, reductive and eliminative materialism, behavioral and causal theories of mind.

PHI 575 Advanced Logic 3
Axiomatic first order quantification theory with completeness theorems. Numbers and sets. Paradoxes and type theory. Introduction to modal logic.

PHI 589 Experimental Course 1
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

PHI 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

PHI 601 Advanced Topics in Philosophy 3
Topics may include relativism, legal ethics, and artificial intelligence.
Prerequisites: Permission of Instructor.
Notes: May be repeated for credit when topic varies.

PHI 620 Ethics and Genetics 3
Ethical issues in the acquisition and application of knowledge about the human genome. Topics include genetic testing and abortion, predictive testing, testing for minors, confidentiality, gene therapy, and human cloning.
Prerequisites: Matriculation to third semester of MS genetic counseling program or permission of instructor.

PHI 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

Physics (PHY)

PHY 101 Methods, Skills, and Strategies for Physics 3
Knowledge, skills, and strategies for surviving and excelling at physics. Includes essential analytical skills, key physics ideas, problem-solving techniques, critical-thinking practice, and academic success tips.

PHY 196 Individual Study 1-3
Individual study on a topic of personal interest, mentored by a willing faculty member. Appropriate for topics requiring no prior physics knowledge.
Prerequisites: Permission of instructor.
Notes: May be repeated for a total of 6 credit hours with permission of department.

PHY 205 Conceptual Physics 3
Introduction to basic laws of physics made by extensive use of demonstrations. Concepts emphasized and mathematical manipulations held to a minimum.
MAC: MAC CritThink Nat Sci
Prerequisites: None.
Notes: No student may receive credit for this course if credit has previously been earned for PHY 211, PHY 212, PHY 291, or PHY 292. Registration in laboratory (PHY 205L) optional.

PHY 205L Conceptual Physics Laboratory 1
The discovery approach will be used to conduct experiments in mechanics, fluids, heat, electricity and magnetism, optics and modern physics.
Corequisites: PHY 205 .

PHY 211 General Physics I 4
Introduction of laws and properties of matter, sound, heat, optics, electricity, and magnetism. Algebra and trigonometry used in development of this material.
MAC: MAC CritThink Nat Sci
Prerequisites: A grade of C or better in MAT 151 or MAT 190 or MAT 191, or permission of instructor.
Corequisites: PHY 211L (the attached laboratory section).
Notes: Laboratory is included in PHY 211 and PHY 212. No student may receive credit for PHY 211 or PHY 212 if credit has previously been earned for PHY 211A or PHY 212A or PHY 291 or PHY 292.

PHY 211A General Physics I 4
Introduction of laws and properties of matter, sound, heat, optics, electricity, and magnetism. Algebra and trigonometry used in development of this material.
MAC: MAC CritThink Nat Sci
Prerequisites: A grade of C or better in MAT 151 or MAT 190 or MAT 191, or permission of instructor.
Corequisites: PHY 211L (the attached laboratory section).
Notes: Laboratory is included in PHY 211 and PHY 212. No student may receive credit for PHY 211 or PHY 212 if credit has previously been earned for PHY 211 or PHY 212A or PHY 291 or PHY 292.

PHY 211L General Physics Lab 1 0

PHY 212 General Physics II 4
Introduction of laws and properties of matter, sound, heat, optics, electricity, and magnetism. Algebra and trigonometry used in development of this material.
MAC: MAC CritThink Nat Sci
Prerequisites: A grade of C or better in PHY 211 or permission of instructor.
Notes: Laboratory is included in PHY 211 and PHY 212. No student may receive credit for PHY 211 or PHY 212 if credit has previously been earned for PHY 211A or PHY 212A or PHY 291 or PHY 292.

PHY 212A General Physics II 4
Introduction of laws and properties of matter, sound, heat, optics, electricity, and magnetism. Algebra and trigonometry used in development of this material.
MAC: MAC CritThink Nat Sci
Prerequisites: A grade of C or better in PHY 211 or permission of instructor.
Notes: Laboratory is included in PHY 211 and PHY 212. No student may receive credit for PHY 211 or PHY 212 if credit has previously been earned for PHY 211A or PHY 212 or PHY 291 or PHY 292.
PHY 212L General Physics Lab II 0

PHY 291 General Physics I with Calculus 4
Introduction to the laws and properties of mechanics and heat using calculus.
MAC: MAC Nat Sci Data Analysis
Prerequisites: Grade of C or better in either MAT 191 or MAT 196.

PHY 291L General Physics I with Calculus Lab 0
Laboratory supporting PHY 291.
Corequisites: PHY 291.
Notes: No grade is awarded with this course number. Grades are awarded with the lecture course.

PHY 292 General Physics II with Calculus 4
Introduction to the laws and properties of electricity, magnetism, sound, and optics using calculus.
Prerequisites: Grade of C or better in PHY 291. grade of C or better in either MAT 292 or MAT 296;
Corequisites: Students must register concurrently for the laboratory section, PHY 292L.
Notes: PHY 291 and PHY 292 together constitute a one-year university physics course. No student may receive credit for this course if credit has previously been earned for PHY 212 or PHY 212A.

PHY 292L General Physics II with Calculus Lab 0
Laboratory supporting PHY 292.
Corequisites: PHY 292.
Notes: No grade is awarded with this course number. Grades are awarded with the lecture course.

PHY 294 Introduction to Computational Physics Laboratory 1
Introduction to computational techniques used in physics and engineering. Use of software to solve problems in physics and astronomy, including simulation of interesting physical situations.
Prerequisites: Grade of C or better in PHY 292. or grade of C or better in PHY 291 and concurrent registration in PHY 292; Pr. or Coreq.: PHY 292.

PHY 296 Individual Study 1-3
Individual study on a topic of personal interest, mentored by a willing faculty member. Appropriate for topics comparable to PHY 291/PHY 292 in level and requiring some prior physics knowledge.
Prerequisites: Permission of instructor.
Notes: May be repeated for a total of 6 credit hours with permission of department.

PHY 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

PHY 311 Intro to Experimental Methods 3
Selected experiments with emphasis on laboratory techniques, methods of data analysis, knowledge of instrumentation, and the writing of laboratory reports. Intended to prepare students for research and advanced laboratory work.
CIC: CIC College Writing
Prerequisites: Grade of C or better in PHY 321 and grade of C or better in PHY 351. or permission of instructor.

PHY 321L Modern Physics Laboratory 1
Performance of atomic, nuclear, and solid state physics experiments and analysis of data in a quantitative and scientific manner. Simple computer programs used to study the concepts of error and least-square-fit techniques.
Prerequisites: Completion of or current registration in PHY 321. Pr. or Coreq.: PHY 321.

PHY 323 Mechanics 3
Mathematical treatment of classical kinematics and dynamics of a particle in a uniform field, in oscillatory motion and simple motions of systems of particles. Analytical and numerical techniques of problem solution stressed.
Prerequisites: Grade of C or better in PHY 292 and PHY 351. or permission of instructor;
Corequisites: MAT 390. MAT 394 or MAT 396; or permission of instructor. Corequisites need not be taken concurrently; prior completion is adequate.

PHY 325 Electricity and Magnetism I 3
A study, developing and using techniques of vector algebra and calculus, of topics in the theory of static electric and magnetic fields including the divergence and Stokes' theorems and the law of Gauss, Biot-Savart, and Ampere. Application to the properties of conductors, dielectric, and magnetic materials.
Prerequisites: Grade of C or better in PHY 292, PHY 351, MAT 390, and either of MAT 394 or MAT 396.

PHY 325L Electricity and Magnetism Laboratory 1
Performance of electricity and magnetism and electronic experiments with analysis of these basic phenomena as applied to research laboratory.
Prerequisites: Completion of or current registration in PHY 325.
Corequisites: PHY 325 (if not satisfied as a prerequisite)

PHY 327 Thermal Physics 3
Properties of matter developed by combining thermodynamic reasoning with molecular theory.
Prerequisites: Grade of C or better in MAT 394 or MAT 396, PHY 321, and PHY 351.

PHY 331 Experimental Physics 1
Advanced courses in laboratory techniques as involved in special laboratory problems.
PHY 333 Selected Topics 1-3
Primarily intended for those who are not physical science majors. Topics vary with instructor and with semester. Contemporary topics may include subjects such as analysis of physical resources, their inherent energy limitations and new sources of energy (such as solar, geothermal, etc.); development and adaptation of nuclear energy to electric power plants and armaments systems and the ensuing environmental and political problems. No previous science course required. Interested students should inquire at Physics and Astronomy Department office for further details. Selected topics for science majors may also be given upon request.

PHY 351 Intro to Computational Physics 3
Introduction to computational methods used in physics and engineering, including computational simulation of physical systems, numerical solution of mathematical problems, and familiarity with scientific programming tools.
Prerequisites: Grade of C or better in PHY 292 and grade of C or better in CSC 120, or permission of instructor.
Corequisites: PHY 321, or permission of instructor.

PHY 395 Computational Physics Laboratory II 1
Use of numerical methods and computational models to simulate and investigate the behavior of various physical systems, including ODE integration, PDE mesh relaxation, and/or Monte Carlo methods.

PHY 396 Individual Study 1-3
Individual study on a topic of personal interest, mentored by a willing faculty member. Appropriate for topics comparable to 300-level physics courses and requiring solid knowledge of introductory physics.
Prerequisites: Permission of instructor.
Notes: May be repeated for a total of 6 credit hours with permission of department.

PHY 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

PHY 401 Physics Senior Seminar 1
Topics from current physics literature, and presentations by students, faculty and guest lecturers. Oral reports on research topics. Attendance at weekly seminars required.
Prerequisites: PHYS major. senior standing;
Notes: Required of all Physics majors. Grade: Pass/Not Pass (P/NP).

PHY 402 Conceptual Physics for Teachers 3
The basic laws of physics are introduced by extensive use of demonstrations. Concepts are emphasized and mathematical manipulation is minimal. Teaching materials and strategies are developed.

PHY 411 Experimental Physics II 3
Experiments investigating electrical phenomena, modern physics, and current faculty research. This course builds on experience from PHY 311. Intended to prepare students for graduate school or careers in research and development.
Prerequisites: PHY 311, PHY 323, and PHY 325.

PHY 412 Electronics for Scientists 3
Electronic circuits useful for measurement, signal processing, and control. This course is especially designed to meet needs of experimental scientists.
Prerequisites: Grade of C or better in MAT 390, PHY 292, PHY 311, and PHY 351. or permission of instructor.

PHY 419 Advanced Laboratory 1-3
Methods and techniques of electronic connection between computer and other devices and programming methods to facilitate use of the computer as a laboratory instrument are introduced. Assembly language used primarily.
CIC: CIC College Writing
Prerequisites: Grade of C or better in PHY 311 and PHY 351, or permission of instructor.

PHY 420 Selected Topics in Physics 3
A topic of special interest is studied in depth.

PHY 421 Quantum Mechanics 3
Modern theories of matter are studied by applying quantum mechanics to atomic, molecular, nuclear, and solid state systems.
Prerequisites: Grade of C or better in PHY 321, PHY 325, and PHY 351.

PHY 423 Analytical Mechanics 3
Classical laws of particle motion are extended to the treatment of general motion of a rigid body, noninertial reference frames, generalized coordinates, normal coordinates, and to topics and techniques based on calculus of variations.
Prerequisites: Grade of C or better in PHY 323 and MAT 390.

PHY 431 Astrophysics 3
Stellar evolution through study of white dwarves and black holes; galaxy structure and cosmology. Observational project will use Three College Observatory. Intended as follow-up to introductory astronomy and physics.
Prerequisites: Grade of C or better in PHY 321, PHY 323, PHY 325, PHY 327, and PHY 351. or permission of instructor.

PHY 443 Biophysics 3
Introduction to cellular biophysics, with emphasis on the physical properties of membranes, including membrane transport mechanisms and electrical properties of membranes.
Prerequisites: BIO 355. CHE 111 and CHE 114; MAT 191; PHY 211 and PHY 212 (or PHY 291 and PHY 292); or permission of instructor;
Notes: Same as BIO 443.

PHY 453 Analytical Methods for Physics 3
Mathematical applied to diverse physics topics such as power series expansions, complex numbers, curvilinear coordinate systems, ordinary and partial differential equations, Lagrange multipliers, orthonormal basis expansions, and functional transformations.
Prerequisites: Grades of C or better in PHY 321, PHY 323, MAT 390, and either of MAT 394 or MAT 396.

PHY 495 Research Experience in Physics 1-3
A significant research project directed by faculty member. Student must submit written proposal, develop approved written plan, and deliver formal report of results.

PHY 496 Individual Study 1-3
Individual study on a topic of personal interest, mentored by a willing faculty member. Appropriate for advanced or specialized topics requiring solid knowledge of core (300-level) physics.
Prerequisites: Permission of instructor.
Notes: May be repeated for a total of 6 credit hours with permission of department.
PSC 101 Politics in a Digital World 3
Introduction to the analysis of politics (domestic and international) through the study of social media, databases, polls, blogs, and on-line news sources.
MAC: MAC CritThink Soc and BehavSci

PSC 105 Exploring Political Issues 3
Introduction to the main intellectual traditions of political science. Discusses basic problems, political ideologies, and competing theories of politics.
MAC: MAC CritThink Hum and Fine Art

PSC 200 American Politics 3
Organization and behavior of the institutions, groups, and persons in American national government and politics. Introductory level course.
MAC: MAC CritThink Soc and BehavSci

PSC 210 Introduction to Health Policies 3
Analysis of governmental health policies with emphasis on the impact of these policies on the individual, states, and the nation.
MAC: MAC Health and Wellness

PSC 240 The International System 3
Introduction to international politics focusing upon major changes in the international system since 1945.
MAC: MAC CritThink Soc and BehavSci

PSC 250 Model United Nations 1
Introduces students to the structure and processes of the United Nations and involves participation in a simulation of the UN at the Southern Regional Model UN.
Notes: May be repeated for credit.

PSC 260 Introduction to Comparative Politics 3
Basic concepts and methods of comparative political analysis. Introduction to political institutions, processes, and problems of democratic, non-democratic, and transitional political systems.
MAC: MAC CritThink Soc and BehavSci

PSC 270 Introduction to Political Theory 3
Examines the tradition of Western political thought beginning with Plato and ending with twentieth century philosophers. Topics include the nature and meaning of liberty, justice, and equality and the purpose of politics.
MAC: MAC CritThink Soc and BehavSci
CIC: CIC College Writing

PSC 280 Introduction to Law 3
Introduction to legal method and principles and the legal profession. Students acquire knowledge of substantive areas of law and recognition of legal issues and resolution through the legal process.

PSC 290 The Politics of the Non-Western World 3
Introduces students to the problems facing countries in Asia, Africa, and Latin America. Introduces the social science literature concerning globalization, conflict and conflict resolution, political economy, and democratization.

PSC 300 Special Topics 3
Study of an issue in political science.
Notes: May be repeated for credit when topic varies.

PSC 309 Entrepreneurship in the Public Sector 3
Introduction to principles and practices of entrepreneurship in the public sector through literature, case studies of initiatives, such as citizen innovation and cross-sectoral collaborations, online class discussions, and group projects.
Notes: Same as ENT 309.

PSC 307 Art and Politics of the United States 3
An interdisciplinary seminar combining analysis of the relationship between contemporary art and politics with community engagement via public-facing projects and discussions.
Prerequisites: ARH 110, ARH 111, ARH 353.
Notes: Same as ARH 349.

PSC 308 Identities and Politics 3
This course considers the relationship between social identities and politics within the United States. It addresses how the experiences of different groups inform opinions and actions, and how the political system helps create these experiences. Topics include the political construction of social groups, group-based appeals and representation, and how social group evaluations shape opinions.

PSC 309 Entrepreneurship in the Public Sector 3
Introduction to principles and practices of entrepreneurship in the public sector through literature, case studies of initiatives, such as citizen innovation and cross-sectoral collaborations, online class discussions, and group projects.
Notes: Same as ENT 309.

PSC 310 Public Administration 3
Major concepts in administration of public bureaucracies, including comparative administration, organization theory, budgeting, public personnel, and decision-making.

PSC 311 The Nonprofit Sector and Governance 3
Development of nonprofit organizations and their contributions in the U.S. and internationally; their political, social, and economic roles; nonprofit governance; relationships to government; types of nonprofits; contemporary issues. Service-learning course.
PSC 312 Environmental Law and Policy 3
Study of federal and international environmental law and policy: topics include air and water pollution, hazardous and toxic substances, climate change, atmospheric pollution, and related issues.
CIC: CIC College Writing
Notes: Same as ENV 312.

PSC 313 Natural Resources Law and Policy 3
Study of state, federal, and international natural resources law and policy: topics include acquisition and management of public lands, wildlife, biodiversity, resource conservation.
CIC: CIC College Writing
Notes: Same as ENV 313.

PSC 316 Judicial Process 3
Analysis of the American legal system, focusing on the behavior of actors in that system, theoretical foundations of the system, and policy-making role of the courts.

PSC 318 Constitutional Law 3
Case-method approach to the most important aspects of constitutional law regarding separation of powers, federalism, and economic regulation. Emphasis on importance of historical eras to the evolution of these cases, and current reassessment.

PSC 320 Civil Liberties 3
Case-method approach to issues involving civil liberties and civil rights. Examination of historical evolution of Supreme Court decisions and evaluation of the Court’s reassessment of previous decisions.

PSC 322 American State Politics 3
Comparison of political behavior and institutions among the 50 American states.
CIC: CIC College Writing

PSC 323 Urban Politics 3
Examination of political behavior, processes, and institutions in city as a special focus for study of politics and government in United States. Discussion and readings directed to current development in American cities.
CIC: CIC College Writing

PSC 327 American Political Parties 3
Analysis of the role of political parties in the American political process, with emphasis on recent elections and campaigns.

PSC 328 North Carolina and Southern Politics 3
Examination of contemporary political and governmental developments in the American South. Particular attention to North Carolina politics and government.

PSC 329 American Interest Group Politics 3
Emphasis on interest groups’ ideologies, tactics, and effect on public policy.

PSC 330 Internship in Campaigns and Elections 3
Analysis of electoral campaign strategies by party and candidate through actual participation in campaigns and by writing of case studies based on student campaign participation. Spring semester in even numbered years covers primary elections; fall semester concentrates on general elections. Either semester may be taken independently.
Prerequisites: PSC 200 or its equivalent and at least Junior standing.
Notes: PSC 327 or PSC 328 recommended.

PSC 332 Elections and Voting 3
Analysis of influences on voting behavior and of the relationship among voting behavior, elections, and the political process as a whole, with emphasis on contemporary U.S. presidential elections.

PSC 333 The U.S. Congress 3
Examination of the U.S. Congress, its evolution and contemporary standing. Attention given to internal organization—rules, committees, voting behavior—and relationship to constituencies, especially campaigns, elections, and home styles.

PSC 334 The American Presidency 3
Examination of the contemporary American presidency. Attention given to the multiple roles of the president, to the rise of the presidency in American government and politics, and to the implications of a powerful presidency for democratic government.

PSC 336 Women and the Law 3
Examination of interaction between women and the legal system. Role of women in legal professions and the impact of the legal system on women in American society.

PSC 337 Politics and the Media 3
Analysis of the interaction between the American media, and public and political institutions. Particular attention is given to how media interact with the three branches of government, particularly the executive.

PSC 341 International Law 3
Introduction and analysis of the fundamentals of international law and its role in the contemporary international system.
Prerequisites: PSC 240 or permission of instructor.

PSC 342 American Foreign Policy 3
Analysis of the decision-making process concerning formulation and execution of American foreign policy.
CIC: CIC College Writing
Prerequisites: PSC 240, its equivalent, or permission of instructor.

PSC 344 Politics of Globalization 3
Political impact of globalization at the international, national, and subnational levels. Attention given to its implications for the politics of international civil society, world affairs, and citizenship.

PSC 347 International Security 3
Examines traditional security threats such as war, conflict, and instability as well as more recent security challenges including weapons proliferation, terrorism, and human security concerns.
Prerequisites: PSC 240 or permission of instructor.

PSC 348 International Organization 3
The role of international organizations in international affairs with a special emphasis on the United Nations, its special agencies, and regional organizations such as the European Union.
Prerequisites: Any international relations course or permission of instructor.

PSC 349 Human Rights and the Global Citizen 3
Explores the role of international and nongovernmental organizations, and other non-state actors in the development of international human rights. Analyzes advocacy networks’ role in the protections of those rights.

PSC 350 Democratic Political Systems 3
Comparative examination of political institutions and behavior in selected industrialized and non-industrialized countries.
CIC: CIC College Writing

PSC 352 Nationalism and Ethnic Politics 3
Explores competing explanations of nationalism and ethnic politics. Course focuses on comparative analysis in a global context, and examines strategies that have been employed by governments to manage ethnic tension.
Prerequisites: PSC 260 or permission of instructor.
PSC 354 Post-Conflict Politics 3
Examines the post-conflict reconstruction and reconciliation process in war-torn societies. Among the topics covered are security sector reform, elections, institutional design, transitional justice, and economic stabilization efforts.
Prerequisites: PSC 240 or PSC 260 or PSC 290.

PSC 355D Selected Topics in Comparative Politics: Politics of Industrial Societies 3
See PSC 355.

PSC 355J Selected Topics in Comparative Politics: Middle East Politics 3
See PSC 355.

PSC 355K Selected Topics in Comparative Politics: Russian Politics 3
See PSC 355.

PSC 355M Selected Topics in Comparative Politics: Political Economy 3
See PSC 355.

PSC 355N Selected Topics in Comparative Politics: European Union 3
See PSC 355.

PSC 355P Selected Topics in Comparative Politics: Politics of Latin America 3
See PSC 355.
CIC: CIC College Writing

PSC 371 American Political Thought 3
Examines major works in American political thought by authors such as Madison, Jefferson, Lincoln, Thoreau, Emerson, King, Malcolm X, and Friedan. Special Emphasis on tracing the promise and problems of American life.

PSC 375 Democracy and Its Critics 3
What does it look like when the people rule themselves? This course explores classical and contemporary accounts of the meaning, value, and challenges of democracy to answer this question.

PSC 376 Critical Political Theory 3
This course introduces various modes of thinking critically about modern political and social life, focusing specifically on how power and resistance work in economic, moral, cultural, racial, and gender relations.

PSC 391 African Political Systems 3
Survey and analysis of the institutions and current problems of African states. Emphasis on Sub-Saharan Africa.
CIC: CIC College Writing
Prerequisites: PSC 240 or PSC 290 or permission of instructor.

PSC 392 The Politics of South Africa Through Film and Literature 3
This course uses film and literature as the vehicle to examine the issues associated with the remarkable evolution of South African politics from the institutionalized racism of apartheid through the transformation to majority rule.

PSC 399 Public Affairs Internship 1-3
Field learning experience in governmental agencies and private organizations involved in the political process. Academic supervision provided by faculty advisor and direction in field provided by job supervisor. Written report on a substantive topic related to the internship required.
Prerequisites: Permission of instructor.
Notes: May be repeated for a total of 9 s.h.

PSC 400 Selected Topics in Political Science 1-3
Opportunity for advanced students to study in depth a topic of special interest.
Prerequisites: Major in political science or permission of instructor.
Notes: May be repeated for credit when topics vary.

PSC 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

PSC 401 Individual Study 1-3
Reading or research. Available to qualified students upon recommendation of an instructor.
Prerequisites: Departmental permission.

PSC 402 Individual Study 1-3
Reading or research. Available to qualified students upon recommendation of an instructor.
Prerequisites: Departmental permission.

PSC 403 Survey Methods for Policy Research 3
Theoretical and practical issues involved in designing and using sample surveys for political and policy research. Emphasis on survey methods used by the government and others in public sector.

PSC 410 Topics in Public Policy 3
Intensive analysis of a major area of public policy. Examination of sources of policymaking, the policymaking process, and the impact of policy. PSC 410A-Politics of Education; PSC 410B-Criminal Justice; PSC 410C-Labor Relations; PSC 410D-Foreign and Defense Policy; PSC 410E-Environmental Policy; PSC 410F-Urban Development Policy; PSC 410G-Health Strategies; PSC 410H-Global Challenges; PSC 410I-Press and Politics; PSC 410J-Politics of Industrial Policy; PSC 410K-Ethics in Public Policy.
Notes: May be repeated for credit when topic varies.

PSC 410E Topics in Public Policy: Environmental Policy 3
See PSC 510.

PSC 410F Topics in Public Policy: Urban Development Policy 3
See PSC 410.

PSC 410G Topics in Public Policy: Health Strategies 3
See PSC 510.

PSC 410H Topics in Public Policy: Global Challenges 3
See PSC 510.

PSC 410K Topics in Public Policy: Ethics in Public Policy 3
See PSC 510.

PSC 410L Topics in Public Affairs 1-3
Topics in Public Policy.

PSC 411 Topics in Public Affairs 1
Prerequisites: for senior PSCI major: completion of PSC 310 (or PSC 311).
Notes: May be repeated when topics vary up to a limit of 6 s.h.. Graduate standing; or senior PSCI major; or permission of the Graduate Director.

PSC 411A Topics in Public Affairs: Oral Communication Skills 1
See PSC 411.

PSC 411B Topics in Public Affairs: Marketing for Public and Nonprofit Agencies 1
See PSC 411.
PSC 411C Topics in Public Affairs: Information Technology and Management 1
See PSC 411.

PSC 411D Topics in Public Affairs: Strategic Planning 1
See PSC 411.

PSC 411E Topics in Public Affairs: Legislative Relations 1
See PSC 411.

PSC 411G Topics in Public Affairs: Grant Writing 1
See PSC 411.

PSC 411J Topics in Public Affairs: Legal Issues in Public Administration 1
See PSC 411.

PSC 411K Topics in Public Affairs: Legal Issues in Local Government 1
See PSC 411.

PSC 411M Topics in Public Affairs: Media Relations 1
See PSC 411.

PSC 411N Topics in Public Affairs: Nonprofit Law 1
See PSC 411.

PSC 411O ExpCrs: Program Evaluation 1
Coverage of the types of evaluation approaches, including needs assessment, formative research, process evaluation, monitoring of outputs and outcomes, impact assessment, and cost analysis.

PSC 411P Topics in Public Affairs: Program Evaluation 1
See PSC 411.

PSC 411R Topics in Public Affairs: Diversity and Culture 1
See PSC 411.

PSC 411S Topics in Public Affairs: Social Entrepreneurship in Nonprofits 1
See PSC 411.

PSC 412 Federalism and Intergovernmental Relations 3
Focuses on changing relationships of local-state-federal agencies, expanding role of regional cooperation, and recent developments in subnational governments.

PSC 411T Topics in Public Affairs: Volunteer Management 1
See PSC 411.

PSC 411V Topics in Public Affairs: Oral Communication Skills 1
See PSC 411.

PSC 412 Federalism and Intergovernmental Relations 3
Focuses on changing relationships of local-state-federal agencies, expanding role of regional cooperation, and recent developments in subnational governments.

Prerequisites: Graduate standing or permission of instructor.

PSC 420 Urban Political System 3
Examination of major topics in the study of urban government and policy. Systems approach to provide an analytic framework for interrelating specific topics such as citizen participation, interest groups, parties, types of elections, forms of government, community power, and racial politics.

PSC 435 Citizen Participation in Policy-Making 3
Political participation and citizen involvement in governmental policymaking. Both citizen initiated and government sponsored efforts to increase popular input analyzed. Assessment of impact of citizen participation on policy-making in specific areas of policy and on performance of government in general.

PSC 440 Nonprofit Management and Leadership 3
Overview of major concepts and concerns of nonprofit organizations, including tax-exempt status, incorporation, nonprofit-government relations, board-director-staff relations, volunteers, services and program planning, implementation, resource development.

Prerequisites: Senior standing.

PSC 460 Special Topics in Public Administration 1-3
Students may repeat three-semester-hour courses when topics vary, but one-semester-hour courses when topics vary only for a maximum of three semester hours. Specific topic identified by extension to basic title, e.g., Special Topics in Public Administration: Public Financial Management; Financial Analysis Techniques; Grants and Contract Administration.

Prerequisites: Permission of instructor.

PSC 493 Honors Work 3-6
Honors Work.

Prerequisites: Permission of instructor. 3.30 GPA in the major, 12 s.h. in the major;

Notes: May be repeated for credit if the topic of study changes.

PSC 499 Legislative Internship 0

PSC 503 Survey Methods for Policy Research 3
Theoretical and practical issues involved in designing and using sample surveys for political and policy research. Emphasis on survey methods used by the government and others in public sector.

PSC 510 Topics in Public Policy 3

Notes: May be repeated for credit when topic varies.

PSC 510E Topics in Public Policy: Environmental Policy 3
See PSC 510.

PSC 510F Topics in Public Policy: Urban Development Policy 3
See PSC 510.

PSC 510K Topics in Public Policy: Ethics in Public Policy 3
See PSC 510.

PSC 511 Topics in Public Affairs 1
Examination of a current topic in the management of public and nonprofit agencies.

Notes: May be repeated when topics vary up to a limit of 6 credits.

PSC 511A Topics in Public Affairs: Oral Communication Skills 1
See PSC 511.

PSC 511B Topics in Public Affairs: Marketing for Public and Nonprofit Agencies 1
See PSC 511.

PSC 511D Topics in Public Affairs: Strategic Planning 1
See PSC 511.

PSC 511E Topics in Public Affairs: Legislative Relations 1
See PSC 511.

PSC 511G Topics in Public Affairs: Grant Writing 1
See PSC 511.

PSC 511J Topics in Public Affairs: Legal Issues in Public Administration 1
See PSC 511.

PSC 511N Topics in Public Affairs: Nonprofit Law 1
See PSC 511.

PSC 511P Topics in Public Affairs: Program Evaluation 1
See PSC 511.
PSC 511R Topics in Public Affairs: Diversity and Culture 1
See PSC 511.

PSC 511S Topics in Public Affairs: Social Entrepreneurship in Nonprofits 1
See PSC 511.

PSC 511V Topics in Public Affairs: Volunteer Management 1
See PSC 511.

PSC 520 Urban Political System 3
Examination of major topics in the study of urban government and policy. Systems approach to provide an analytic framework for interrelating specific topics such as citizen participation, interest groups, parties, types of elections, forms of government, community power, and racial politics.

PSC 540 Nonprofit Management and Leadership 3
Overview of major concepts and concerns of nonprofit organizations, including tax-exempt status, incorporation, nonprofit-government relations, board-director-staff relations, volunteers, services and program planning, implementation, resource development.

PSC 560 Special Topics in Public Administration 1-3
Students may repeat three-semester-hour courses when topics vary, but one-semester-hour courses when topics vary only for a maximum of three semester hours. Specific topic identified by extension to basic title, e.g., Special Topics in Public Administration: Public Financial Management; Financial Analysis Techniques; Grants and Contract Administration.

PSC 600 Public Administration and Management 3
Political environment, structure and process of public bureaucracies; organizational theory; professional ethics; and administrative functions including management, budgeting, and personnel.
Prerequisites: Admission to the MPA program or permission of instructor.

PSC 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

PSC 601 Politics of Public Policy 3
Public policy process from agenda-setting to policy formation, legitimation, and implementation.
Prerequisites: Admission to the MPA program or permission of instructor.

PSC 602 Quantitative Analysis and Program Evaluation 3
Basic principles of research design, measurement, data analysis, and computer usage for research in politics and public policy.
Prerequisites: Admission to the MPA program or permission of instructor.

PSC 603 Budgeting and Fiscal Administration 3
Purposes of budgets. The political and economic environment that surrounds the budgetary process in government. Budget preparation, enactment, execution, and decision making at the federal, state, and local levels.
Prerequisites: Admission to the MPA program or permission of instructor.
Corequisites: PSC 603 and PSC 603L.

PSC 603L Budget Analysis Laboratory 1
Problems and exercises designed to assist students in understanding public budgeting. Emphasis on analyzing and communicating budget data.
Prerequisites: Admission to the MPA program or permission of instructor.
Corequisites: PSC 603 and PSC 603L.

PSC 604 Public Personnel Management 3
Employment practices as applied in the public sector; merit and merit systems, position management, equal employment opportunity and affirmative action, unionization, employee rights, and representative bureaucracy.
Prerequisites: PSC 600 or permission of instructor.

PSC 611 Program and Policy Evaluation 3
Structure of program evaluation; identification and measurement of program outcomes; use of experiments and quasi-experiments in evaluation; development of performance measures; analysis of program evaluation data.
Prerequisites: PSC 602 or permission of instructor.

PSC 612 Organizational Behavior and Leadership 3
Behavior of public and nonprofit organizations. Problems of leadership, group dynamics, conflict resolution, and organizational change.
Prerequisites: PSC 600 or permission of instructor.

PSC 613 Local Government Administration 3
Administrative process, management, personnel, budget and finance, and intergovernmental relations in local government.
Prerequisites: Graduate standing or permission of MPA program director.

PSC 615 Human Resource Development and Performance Management 3
Public and nonprofit employee performance evaluation and development: theories of motivation, workforce trends, training techniques and trends, career development, employee performance and evaluation techniques. Workshop format with group exercises.

PSC 620 Urban and Regional Development Policy 3
Adapted each year, according to the interests of the class, this course examines 21st century urban and regional development policy, focusing on innovations emerging at the intersection of economy, equity, and the environment in the US and elsewhere.

PSC 630 Community and Economic Development Theory and Practice 3
Critical analysis of community and economic development theory and practice and its historical and theoretical roots, methods, strategies, and tactics.
Prerequisites: Permission of MPA program director or graduate standing.

PSC 645 Nonprofit Financial Management and Budgeting 3
Nonprofit financial management and budgeting concepts, techniques and practices, including management control, budgeting, cost accounting, long-term financing, nonprofit accounting and financial reporting, financial analysis, cash management, and accountability and control.
Prerequisites: Graduate standing or permission of instructor.

PSC 650 Philanthropy and Resource Development 3
Major concepts, strategies, issues, and approaches to resource development and philanthropy in nonprofit and educational organizations.
Prerequisites: PSC 540 or permission of instructor.

PSC 695 Public Affairs Internship 3-6
A full-time work and learning experience in a public or nonprofit agency of approximately three months duration designed to provide the graduate student with practical experience in the ongoing operations of an agency of government or an organization engaged in public affairs activities.
Prerequisites: PSC 600, PSC 601, PSC 602, at least three other graduate level courses in political science, and permission of instructor.
PSC 696 Directed Field Research 3-6
Field research on selected problems and issues in public policy, including research design, data collection, data analysis, and interpretation of results. Open to advanced graduate students in the Master of Public Affairs program.
Prerequisites: PSC 600, PSC 601, PSC 602, three other graduate level courses, and permission of instructor.

PSC 697 Special Problems in Political Science 1-3
Independent study or research in political science. Prior consent of faculty member with whom student wishes to work.

PSC 698 Special Problems in Political Science 1-3
Independent study or research in political science. Prior consent of faculty member with whom student wishes to work.

PSC 699 Thesis 1-6
Individual guidance in the development of a specific research problem.

PSC 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

PSC 801 Thesis Extension 1-3
Thesis Extension.

PSC 803 Research Extension 1-3

Psychology (PSY)

PSY 121 General Psychology 3
Survey of psychology. Includes psychology as science, nervous system, growth and development, sensory and perceptual processes, motivation, emotion, learning, social behavior, personality (normal and pathological), statistics, testing, intelligence, aptitudes, and achievement.
MAC: MAC CritThink Soc and BehavSci

PSY 122 Careers in Psychology 1
Provides a road map for how students can prepare for a career in psychology with a bachelor’s degree, including how to prepare for graduate education, if desired.
Prerequisites: C- or better in PSY 121.
Notes: Grade: Pass/Not Pass (P/NP).

PSY 123 Early Research Careers in Psychology 1
This course is for students in the Early Scientist Program. It provides students with basic research skills and explores different approaches to the conduct of laboratory- and community-based psychological research.
Prerequisites: Grade of A- or better in PSY 121. Written permission required for enrollment in this course; see instructor or department for instructions;
Corequisites: PSY 122.

PSY 211 Statistics in Behavioral Science Research 3
Descriptive and inferential statistics, including estimating parameters and testing significance, as applied to psychological research. Taught at an introductory level. Requires knowledge of elementary algebra.
Prerequisites: Grades of at least C- in PSY 121 and in STA 108 (or MAT 115 or MAT 150).
Notes: Online course requires on campus exams, contact instructor. Students may not receive credit for more than one of the following: PSY 211 and also STA 271 (or STA 352 or ECO 250).

PSY 212 Introduction to Ethical Research 1
An introduction to ethical issues in research. Topics include research ethics, human subjects protection, and ethical dilemmas in psychological research.
MAC: MAC CritThink Nat Sci

PSY 213 Research Methods in Psychology 3
Survey of scientific theories and research on learning and motivation according to classic theorists and contemporary behavioral psychologists. Topics include reinforcement, punishment, stimulus control, and examples from the real world.
Prerequisites: Grade of at least a C- in PSY 121.

PSY 220 Principles of Learning 3
Survey of scientific theories and research on learning and motivation according to classic theorists and contemporary behavioral psychologists. Topics include reinforcement, punishment, stimulus control, and examples from the real world.
Prerequisites: Grade of at least a C- in PSY 121.

PSY 230 Biological Psychology 3
An introduction to the contributions of molecular, genetic, cellular, developmental, physiological, and evolutionary biology to the scientific understanding of psychological processes.
MAC: MAC CritThink Nat Sci
Prerequisites: Grade of at least a C- in PSY 121 or BIO 111 or BIO 105.

PSY 240 Principles of Learning 3
Survey of scientific theories and research on learning and motivation according to classic theorists and contemporary behavioral psychologists. Topics include reinforcement, punishment, stimulus control, and examples from the real world.
Prerequisites: Grade of at least a C- in PSY 121.

PSY 250 Developmental Psychology 3
Survey of scientific theories and research findings in human psychological development, including its biological, behavioral, cognitive, social, and emotional aspects.
MAC: MAC CritThink Soc and BehavSci
Prerequisites: Grade of at least a C- in PSY 121.
Notes: Students may not receive credit for both HDF 111 and PSY 250.

PSY 251 Introduction to Clinical Psychology 3
Survey of scientific theories and research on the nature, causes, and consequences of individual behavior in social context. Topics include relationships, groups, attitudes, persuasion, aggression, altruism, and prejudice.
MAC: MAC CritThink Soc and BehavSci
Prerequisites: Grade of at least a C- in PSY 121.

PSY 260 Psychological Perspectives on Social Psychology 3
Survey of scientific theories and research on the nature, causes, and consequences of individual behavior in social context. Topics include relationships, groups, attitudes, persuasion, aggression, altruism, and prejudice.
MAC: MAC CritThink Soc and BehavSci
Prerequisites: Grade of at least a C- in PSY 121.

PSY 265 Theories of Personality 3
Major theories of personality including psychodynamic, humanistic, behavioral, cognitive, biological, and trait perspectives. Additional focus on methods of research and assessment that provide the theoretical foundation for studying individual differences.
Prerequisites: Grade of at least a C- in PSY 121.

PSY 275 Introduction to Clinical Psychology 3
Survey of main issues within clinical psychology. Includes nature and ethics of profession, research methodologies, clinical assessment, models of therapy including empirically validated treatments, and systems of care principles.
Prerequisites: Grade of at least a C- in PSY 121.

PSY 280 Cognitive Psychology 3
Survey of scientific theories and research in cognitive psychology. Topics include human learning, attention, memory, and problem solving.
Prerequisites: Grade of at least a C- in PSY 121.

PSY 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

PSY 311 Research Methods in Psychology 3
Introduction to the research methodologies of psychology and to analysis and interpretation of data. Experience with methods of data collection, basic statistical ways to display and analyze data, and writing reports.
Prerequisites: Grades of at least C- in ENG 101 and (PSY 211 or STA 271 or STA 352 or ECO 250).
Corequisites: PSY 122, waived for anyone who previously earned a P in PSY 122 (or its equivalent).
PSY 311L Research Methods in Psychology: Lab 1
Laboratory to complement PSY 311, including developing research proposals, scientific writing in APA style, and communicating research ideas.
CIC: CIC College Writing
Corequisites: PSY 311, waived for anyone who previously earned a C- or better in PSY 311 (or its equivalent).

PSY 314 Industrial and Organizational Psychology 3
Introduction to industrial and organizational psychology with special emphasis on employee motivation, selection, training, and organizational determinants of employee behavior.
Prerequisites: Grade of at least a C- in PSY 121.
Notes: Same as MGT 314.

PSY 318 Belief in "Weird" Things 3
Psychological research on belief in extraordinary, "weird" phenomena, including, but not limited to, the paranormal, superstition, divination, projective tests of personality, alternative healing practices, and unconscious mind control and repression.
Prerequisites: Grade of at least a C- in PSY 121.

PSY 319 Integrative Topics in Psychology 3
Examination of theories, methods, and research in a specialized area of psychology or in integrative topics across two or more areas of psychology. Check with department for offerings.
Prerequisites: Grade of C- or better in PSY 121.
Notes: May be repeated once for credit when topic varies.

PSY 341 Abnormal Psychology 3
A description of the various psychological disorders is presented along with the research methods used to study them. Each disorder is approached from a number of perspectives: biological, psychosocial (psychodynamic, interpersonal, behavioral, cognitive, and humanistic) and sociocultural.
Prerequisites: Grade of at least a C- in PSY 121.

PSY 346 The Psychology of Gender 3
Evaluation of effects of biological sex and gender role socialization on personality and behavior through examination of empirical research.
Prerequisites: Minimum grade of C- (1.7) in PSY 121.

PSY 365 Psychology of Art, Creativity, and Genius 3
Scientific research on psychological aspects of art, the creative process, and the nature of genius and expertise, with examples from fine art, music, literature, architecture, and industrial design.

PSY 370 Ethnicity, Development, and Psychopathology 3
Survey of research exploring the interplay between ethnicity and child development, including the intersection of ethnicity with socioeconomic status, immigration, and mental health.
Prerequisites: Grade of C- or better in PSY 121.

PSY 375 Psychology of Aging 3
Overview of psychological issues in aging. Students evaluate research findings in the psychology of aging and apply this knowledge to understanding personal development and the development of others.
Prerequisites: PSY 121 or permission of instructor.

PSY 380 Psychology and the Law 3
Psychological research on issues associated with legal proceedings, including but not limited to, jury selection and behavior, eyewitness memory and testimony, and standards of proof will be discussed.
Prerequisites: Grade of at least a C- in PSY 121. freshmen must have permission of instructor.

PSY 385 IQ and Intelligence 3
Psychological research on intelligence and intelligence testing, addressing questions about single versus multiple intelligences, genetic versus environmental influences, sex and race biases, development and aging, social and emotional intelligence, and learning disabilities.
Prerequisites: Grade of at least a C- in PSY 121.

PSY 390 Health Psychology and Culture 3
Focuses on understanding the relationship between health and illness by exploring biological, psychological, and social factors across select cultures.
Prerequisites: Grade of at least a C- in PSY 121.

PSY 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

PSY 401 Academic Writing in Psychology 3
Advanced training in academic writing in psychology and related fields, with an emphasis on the goals of scholarly writing, scientific usage and style, and strategies for composing and revising.
CIC: CIC College Writing
Prerequisites: Grade of C- or better in PSY 311 or SSC 300.

PSY 410 Intermediate Psychological Statistics 3
Second course in psychological statistics recommended for students planning to attend graduate school. Includes basic probability, ANOVA, correlation and regression.
Prerequisites: Minimum grade of C in PSY 211. PSYC major.

PSY 415 History and Systems of Psychology 3
Discussion of prescientific thinking on psychological problems, origin of systems of psychology, and ways systems are reflected in contemporary psychology.
Prerequisites: Permission of instructor. concurrent enrollment in PSY 311 OR previous credit for PSY 311.

PSY 419 Special Topics in Psychology 3
Intensive examination of current theories and research in a specific area of biopsychology, learning, development, cognition, social psychology or clinical psychology. Check with department for offerings.
Prerequisites: Graduate standing in UNCG Psychology programs, or permission of instructor. concurrent enrollment in PSY 311 OR previous credit for PSY 311;
Notes: May be repeated for credit when topics vary.

PSY 433 Research Experience in Psychology 1-3
Opportunity for students to participate in various phases of research projects being conducted by faculty members in the Department of Psychology.
Prerequisites: Nine (9) s.h. in Psychology, and permission of instructor.
Notes: May be repeated for credit.

PSY 435 Brain and Psychological Processes 3
Study of brain mechanisms for feeding, aggression, sexuality, cognition, consciousness, sleep, learning, memory, thinking, and communication. Examination of brain defects in abnormal behavior and responses to drugs and psychotherapy.
Prerequisites: Grade of at least C- in PSY 230. concurrent enrollment in PSY 311 OR previous credit for PSY 311;
Notes: Students cannot receive credit for both this course and PSY 435L.
PSY 438 Animal Behavior 3
Application of theory of evolution to the explanation of animal behavior. Surveys a variety of species, addressing several behavioral categories as well as issues in sociobiology and human evolution.
**Prerequisites:** Grade of at least C- in PSY 230. concurrent enrollment in PSY 311 OR previous credit for PSY 311;
**Notes:** Students cannot receive credit for both this course and PSY 438L or BIO 438 or BIO 439. Same as BIO 438.

PSY 444 Changing Behavior in Real World Settings 3
Principles and applications of behavior analysis in human service, educational, home, and medical settings. Recommended for psychology majors, and graduate and undergraduate students in related human service fields.
**Prerequisites:** Grade of at least C- in PSY 240. concurrent enrollment in PSY 311 OR previous credit for PSY 311.

PSY 455 Social and Personality Development 3
Examination of current theories and empirical research concerned with social, emotional, and personality development.
**Prerequisites:** Grade of at least C- in PSY 250. concurrent enrollment in PSY 311 OR previous credit for PSY 311;
**Notes:** Students cannot receive credit for both this course and PSY 455L.

PSY 456 Cognitive Development 3
Examination of current theories and empirical research concerned with perceptual and cognitive development.
**Prerequisites:** Grade of at least C- in PSY 250. concurrent enrollment in PSY 311 OR previous credit for PSY 311;
**Notes:** Students cannot receive credit for both this course and PSY 456L.

PSY 460 Interpersonal Behavior and Group Processes 3
In-depth analysis of interpersonal behavior and group processes. Topics include aggression, prosocial behavior, attraction, prejudice and discrimination, social comparison, close relationships, and groups.
**Prerequisites:** Grade of at least C- in PSY 260. concurrent enrollment in PSY 311 OR previous credit for PSY 311;
**Notes:** Students cannot receive credit for both this course and PSY 460L.

PSY 461 Attitudes and Social Influence 3
In-depth analysis of attitudes and social influence. Topics include attitude structure, formation and change, propaganda and persuasion; attitude-behavior consistency; conformity; compliance; and obedience.
**Prerequisites:** Grade of at least C- in PSY 260. concurrent enrollment in PSY 311 OR previous credit for PSY 311;
**Notes:** Students cannot receive credit for both this course and PSY 461L.

PSY 462 Social Cognition: Perceiving and Thinking in a Social Context 3
In-depth analysis of how we think about ourselves and others. Topics include impression formation, attribution, affect and cognition, social judgement, stereotyping and the self in social context.
**Prerequisites:** Grade of at least C- in PSY 260. concurrent enrollment in PSY 311 OR previous credit for PSY 311;
**Notes:** Students cannot receive credit for both this course and PSY 462L.

PSY 463 Psychological Perspectives on Personal Relationships 3
In-depth examination of current theories and empirical research focusing on psychological perspectives of personal relationships. Includes topics related to relationship forms and processes such as intimacy and power.
**Prerequisites:** Grade of at least C- in PSY 260. concurrent enrollment in PSY 311 OR previous credit for PSY 311;
**Notes:** Students cannot receive credit for both this course and PSY 463L.

PSY 470 Psychological Disorders of Children 3
Etiology, assessment, and treatment of various psychological disorders of children, e.g., conduct disorder, attention deficit/hyperactivity disorder, depression, anxiety.
**Prerequisites:** Grade of at least C- in PSY 275. concurrent enrollment in PSY 311 OR previous credit for PSY 311;
**Notes:** Students cannot receive credit for both this course and PSY 470L.

PSY 472 Field Experience in Applied Settings 3
Community field experience designed to illustrate practical applications of psychological principles and research. Class meetings and written work required in addition to field placement.
**Prerequisites:** Grade of C- or better in PSY 341 or PSY 470. junior standing; and permission of instructor;
**Notes:** Malpractice insurance fee required for certain placements. Be advised that internship sites will require a criminal background check and/or drug test, and reserve the right to reject applicants on the basis of the results.

PSY 481 Cognition and Consciousness 3
In-depth discussion of psychological processes of attention and memory and their relationship to consciousness. Analyses of theories, experimental techniques, and results.
**Prerequisites:** Grade of at least C- in PSY 280. concurrent enrollment in PSY 311 OR previous credit for PSY 311;
**Notes:** Students cannot receive credit for both this course and PSY 481L.

PSY 482 Human Memory 3
Memory is involved in many everyday activities and is essential for personal identity. This course is about theories and applications of research on human memory and learning.
**Prerequisites:** PSY 121 and PSY 280.

PSY 483 The Psychology of Thinking 3
Research and theory on human problem-solving and reasoning. Topics include classification, categorization, decision-making, rational thought, and a discussion of awareness in thinking.
**Prerequisites:** Grade of at least C- in PSY 280. concurrent enrollment in PSY 311 OR previous credit for PSY 311;
**Notes:** Students cannot receive credit for both this course and PSY 483L.

PSY 490 Directed Readings in Psychology 1-3
Reading and library research on a specialized topic in the primary scientific literature in psychology under the supervision of a faculty member.
**Prerequisites:** 18 s.h. in psychology, and permission of instructor.
**Notes:** May be repeated for credit.

PSY 492 Honors Thesis Development 3
This course is designed for Disciplinary Honors students in psychology. In this course, students will conduct preparatory work and build relevant skills for beginning the Honors Proposal and Thesis. Students will also develop relevant professional skills that apply to career goals both in and beyond academic settings.
**Prerequisites:** Acceptance and enrollment in the Disciplinary Honors Program via Lloyd International Honors College. successful completion of PSY 311 or enrollment in PSY 311 as a co-requisite; a faculty adviser for the thesis project; instructor permission.

PSY 493 Honors Independent Study 3
Opportunity for qualified students to complete directed study and/or research under faculty supervision. Work will lead to a written proposal for and enrollment in Senior Honors Project (see HSS 490).
PSY 495 Senior Honors Seminar 3
Provides students with advanced study and critical analysis of contemporary problems in psychology.

PSY 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

PSY 601 Graduate Problems in Psychology 1-3
Work individually or in small groups in psychological problems of special interest. Work may represent either a survey of a given field or an intensive investigation of a particular problem.
Notes: For students with a strong background in psychology, students should consult instructor before registering; Grade: Satisfactory/Unsatisfactory (S/U).

PSY 602 Seminar in Systematic Issues 3
Contemporary state of knowledge with regard to the logic and language of psychology.

PSY 605 First Year Research Practicum 3
First-year psychology graduate students design and formally propose a directed research project.
Prerequisites: Permission of the instructor.

PSY 609 Statistical Methods in Psychology I 4
Summarizing and comparing distributions. Thorough review of statistical estimation and hypothesis testing for linear models, e.g., t-test, one-way ANOVA, multiple comparisons.
Prerequisites: Graduate standing in UNCG psychology programs, or permission of instructor.

PSY 610 Statistical Methods in Psychology II 4
Statistical estimation and hypothesis testing for linear models, e.g., ANOVA for crossed, nested, incomplete, and repeated measures designs, ANCOVA; multiple regression and correlation; general linear model.
Prerequisites: PSY 609, graduate standing in UNCG psychology programs, or permission of instructor.

PSY 615 History and Systems of Psychology 3
Discussion of prescientific thinking on psychological problems, origin of systems of psychology, and ways systems are reflected in contemporary psychology.
Prerequisites: Graduate standing in UNCG Psychology programs or permission of instructor.

PSY 619 Special Topics in Psychology 3
Intensive examination of current theories and research in a specific area of biopsychology, learning, development, cognition, social psychology or clinical psychology. Check with department for offerings.
Prerequisites: Graduate standing in UNCG Psychology programs or permission of instructor.
Notes: May be repeated for credit when topics vary.

PSY 624 Research Methods in Psychology 3
Broad-based philosophical and methodological perspectives on conducting and interpreting psychological research; considers basic, applied, and translational research, laboratory- and field-based research, and experimental, quasi-experimental, correlational, and longitudinal research designs.
Prerequisites: Pr. or Coreq.: PSY 609 and graduate standing in UNCG psychology programs or permission of instructor.

PSY 630 Proseminar in Experimental Psychology I 3
Introduction to theoretical concepts, research methodologies, and empirical findings in foundational areas of experimental psychology and cognitive, developmental, and social psychology.

PSY 631 Proseminar in Experimental Psychology II 3
Advanced theoretical concepts, research methodologies, and empirical findings in foundational areas of experimental psychology and cognitive, developmental, and social psychology.
Prerequisites: PSY 630.

PSY 699 Thesis 1-6
Individual guidance in the development of a specific research problem.

PSY 703 Developmental Psychology 3
Systematic survey of theories and content of developmental psychology. Developmental issues and research examined in areas including attention, memory, language, socialization, sex roles, and aggression.
Prerequisites: Graduate standing in UNCG psychology programs, or permission of instructor.

PSY 704 Advanced Social Psychology 3
Theoretical concepts, research methodologies, and empirical findings; aggression, attitude change, attribution, and exchange theory.
Prerequisites: Graduate standing in UNCG psychology programs, or permission of instructor.

PSY 705 Physiology of Sensory and Behavioral Processes 3
Neural substrates of motivation, emotion, sleep, motor acts and coordination, learning, language, complex processes, and psychopathology.
Prerequisites: Enrollment in or completion of PSY 705.

PSY 706 Cognitive Processes 3
Human intellectual functioning including pattern recognition, attention, memory, comprehension, reasoning, and problem solving.
Prerequisites: Graduate standing in UNCG psychology programs, or permission of instructor.

PSY 707 Psychological Disorders in Children 3
Empirical approach to etiology, assessment, and treatment of psychological problems of children, emphasis on development factors. Not intended for students without a strong background in abnormal psychology, child development, and developmental theory.
Prerequisites: Graduate standing in UNCG psychology programs, or permission of instructor.

PSY 708 Psychological Disorders in Adults 3
Prerequisites: Graduate standing in UNCG psychology programs, or permission of instructor.

PSY 718 Matrix Algebra Useful for Statistics 1
Matrix manipulation and understanding the language of matrix algebra rather than formal mathematics.
Prerequisites: One basic graduate statistics course.

PSY 721 Teaching of Psychology 3
Introduction to pedagogical theories, research, styles, and strategies related to the college teaching of psychology. Considers the presentation of course material, learning assessment tools, test construction, and grading.
Prerequisites: Admission to the graduate program in psychology, or graduate standing in UNCG psychology programs, or permission of instructor.

PSY 723 Evidence-based Practice with Children and Adolescents 3
Psychotherapy concepts and research from interpersonal, behavioral, humanistic, and cognitive perspectives. Supervised introductory practicum experience in therapeutic methods.
Prerequisites: Pr. or Coreq.: PSY 707, PSY 708, and graduate standing in UNCG psychology programs, or permission of instructor.
PSY 724 Ethical Responsibilities of Clinical Psychologists 3
In-depth coverage of professional ethics as they pertain to the many
different settings in which clinical psychologists often work, including
clinical practice, research, teaching, consultation, and other professional
activities.
Prerequisites: Admission to graduate program in clinical psychology,
graduate standing in UNCG psychology programs, or permission of
instructor.

PSY 725 Psychological Assessment in Adults 3
Construction, evaluation, and interpretation of objective and projective
measures of personality as used with normal and clinical groups.
Laboratory practice in personality assessment and in diagnosis.
Prerequisites: Pr. or Coreq.: PSY 724, malpractice insurance; and
graduate standing in UNCG psychology programs; or permission of
instructor.

PSY 727 Theory and Methods of Behavioral Assessment and Therapy 3
Evaluation of research and theory underlying behavioral assessment
and behavior therapy. Supervised introductory experiences in the use of
behavioral assessment and therapy techniques.
Prerequisites: PSY 724 and graduate standing in UNCG psychology
programs or permission of instructor.

PSY 728 Theory and Methods of Intellectual Assessment 3
Research and theory underlying intellectual assessment. Supervised
introductory experience in the use of standardized intelligence tests,
including evaluation and communication of test results.

PSY 735C Contemporary Problems 3
PSY 735D Contemporary Problems 3
PSY 735I Contemporary Problems 3
PSY 735J Contemporary Problems 3
PSY 735S Contemporary Problems 3

PSY 741 Contemporary Topics in Clinical Practice 1
Specific course title identified for each section (e.g. Contemporary Topics
in Clinical Practice: Models of Supervision). Course is taken as 1 credit
per semester and can be repeated up to 6 credits.
Prerequisites: PSY 707, PSY 708, and malpractice insurance.
Corequisites: PSY 742 pre-MA, PSY 762 post-MA.

PSY 742 Practicum in Clinical Intervention 1-6
Supervised application of psychological principles to the assessment and
therapeutic change of individual or group behavior, generally with clients
in the UNCG Psychology Clinic. Course is taken over four semesters with
1 credit in year 1, 4 credits in each semester of year 2.
Prerequisites: PSY 724, PSY 707, PSY 708, and malpractice insurance.

PSY 745 Multicultural Issues in Clinical Psychology 3
Examination of psychological research, theory, and clinical practice using
a multicultural perspective so as to increase awareness, knowledge, and
skills involved in the development of cultural competence.
Prerequisites: Admission to graduate program in clinical psychology,
graduate standing in UNCG psychology programs, or permission of
instructor.

PSY 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course
Schedule for current offerings.

PSY 751 Independent Doctoral Research 1-6
Individual work on psychological problems of special interest culminating
in an intensive, critical review of literature in a given field or scientific
investigation of problem.
Notes: Before registering, student should obtain the approval of graduate
faculty member who agrees to monitor and evaluate the proposed
research. Grade: Satisfactory/Unsatisfactory (S/U).

PSY 761 Preliminary Examination: Integration Across at Least Two Areas
Within Psychology 3
Independent reading on a committee-approved topic. Thorough review
and synthesis of major theory and findings in the field. Written and oral
examination demonstrating competency across two areas in the field.
Prerequisites: Permission of instructor required to register.

PSY 762 Advanced Practicum in Clinical Psychology 1-12
Individual work on psychological problems of special interest culminating
in an intensive, critical review of literature in a given field or scientific
investigation of problem.
Notes: Before registering, student should obtain the approval of graduate
faculty member who agrees to monitor and evaluate the proposed
research. Grade: Satisfactory/Unsatisfactory (S/U).

PSY 763 Internship in Clinical Psychology 1-12
Application of psychological principles to the assessment and
therapeutic change of individual or group behavior in an APA-accredited
off-campus setting. Students are individually supervised by appropriate
agency staff.
Prerequisites: PSY 642, PSY 762, malpractice insurance.
Notes: Must be repeated once for credit. Open only to clinical psychology
graduate students; Grade: Satisfactory/Unsatisfactory (S/U).

PSY 799 Doctoral Dissertation Research 1-24
Individual direction in the development and execution of a doctoral
dissertation.

PSY 801 Thesis Extension 1-3
Thesis Extension.

PSY 802 Dissertation Extension 1-3
Dissertation Extension.

PSY 803 Research Extension 1-3

Public Health (HEA)

HEA 113 Medical Terminology for Public Health Professionals 3
An examination of medical terminology with an emphasis on terms
related to prevention, diagnosis, and treatment of acute and chronic
health conditions.

HEA 201 Personal Health 3
Study of determinants of healthful and safe living for various age groups;
emphasis on analyses and interpretations of research methods and
findings within a social ecological conceptual framework.
MAC: MAC Health and Wellness
Notes: Fulfills teacher licensure requirements. Elective for all others.

HEA 202 Introduction to Peer Health Education 3
Study of health issues integrating methods of peer education, preparing
students through experiential learning to serve the university community
as peer educators. Four tracts: sexual health; alcohol and other drugs;
wellness; diversity.
Prerequisites: Freshman or Sophomore standing.
HEA 203 Peer Health Education: Selected Topics 1
Continued study in one of four tracts of health topics: sexual health, alcohol and other drugs; wellness; diversity. Students utilize and demonstrate methods of peer health education.
Prerequisites: HEA 202.
Notes: May be repeated twice for a total of three (3) credits.

HEA 210 Public Health and Film 3
Addresses critical issues in public health as they are portrayed in film. Emphasis on narrative storytelling as a method of engagement and exploration of ethics in public health.

HEA 231 Athlete Health and Sport Performance 3
This course will address the prevention of acute and chronic effects of health issues on athlete health and sport performance within various socio-ecological systems that athletes operate within.

HEA 260 Human Sexuality 3
Study of psychosocial, biological, cultural, and developmental research aspects of human sexuality emphasizing methods of sexuality research, relationships, gender issues, intimacy, sexual response, reproduction, exploitation, and dysfunctions.
MAC: MAC Health and Wellness
HEA 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

HEA 307 Global Health 3
Study of disease burden and health systems in high-, middle-, and low-income countries. Emphasis on challenges and public health and entrepreneurial approaches to improvements in resource-constrained and emerging nations.
Notes: Same as ENT 307.

HEA 308 Introduction to Public Health 3
Introduction to public health terminology, history, core disciplines, professional roles and services. Overview of current public health challenges and impact of the public health efforts on population health.
Prerequisites: Public Health Education major or permission of instructor.

HEA 310 Mental Health and Well-Being 3
Study of mental health issues and emotional well-being emphasizing mental disorders, stigma, and disparities in intervention approaches. Also covers social, emotional, and spiritual health and wellness.

HEA 312 Public Health and Healthcare Systems in the US 3
Study of how the public health system and the health care system interact to influence society’s health. Differential impact on stakeholders, professional roles and services. Overview of current public health needs and assets. Focus on cultural competence, knowledge of community agencies and gatekeepers, and community data collection methods.
Prerequisites: HEA 308. or permission of instructor; Corequisites: HEA 308.

HEA 316 Environmental Health 3
An analysis of the identification, assessment, and control of environmental health risks. Focus on the effects of specific toxicants and the prevention of their negative impact on health and well-being.

HEA 325 Public Health Data Analysis 3
Applied course to develop skills in finding, understanding and analyzing public health data that is essential for needs assessment, program planning, and evaluation. Prerequisite or Corequisites: MAT 115 or STA 108 or higher level MAT or STA course, or permission of instructor.

HEA 331 Alcohol, Tobacco, and Other Drugs 3
Analysis of the epidemiological, physiological, psychosocial, and public health considerations of alcohol, tobacco, and other drug use. Emphasis on public health education theory and approaches to prevention, intervention, and treatment.

HEA 334 Community Health 3
Overview of complex social, health, and medical problems of modern society, with special emphasis on community programs for solving them. Study of programs of official and voluntary health agencies designed to promote and protect the health of citizens, observed through field trips, discussed by guest lecturers, and studied through other forms of enrichment.
Prerequisites: Sophomore standing.

HEA 338 Safety and First Aid 3
Study of factors essential to safety in home, school, and community, with emphasis on First Aid and emergency care knowledge and skills. Cardiopulmonary Resuscitation (CPR) included.
Notes: Students may not take both HEA 236 and HEA 338 for credit.

HEA 339 Introduction to Public Health Education Practice 3
Meetings with health educators and field trips to introduce students to the application of health education principles. Course is the first in a sequence of four experiential courses.
Prerequisites: HEA 308. or permission of instructor; Corequisites: HEA 308.

HEA 340 Community Observation and Assessment 3
Process for working within a community or population to assess its health needs and assets. Focus on cultural competence, knowledge of community agencies and gatekeepers, and community data collection methods.
Prerequisites: HEA 308. HEA 314; HEA 315; HEA 339; admission to the PHTH major, Community Health Education concentration; or permission of instructor; Pr. or Coreq.: HEA 325.

HEA 341 Health Pedagogy for Elementary School Teachers 1.5
Introduction to the design and implementation of learning tasks that demonstrate the importance of proper nutrition, promotion of healthy relationships, consequences of substance abuse, and prevention of accidents and injuries.
Prerequisites: Acceptance into Teacher Education Program.

HEA 350 Race, Ethnicity, and Health 3
This course considers the implications of both race and ethnicity for understanding health determinants, as well as policy and programming for addressing population level health concerns.

HEA 366 Community Health Interventions I 3
Theory and practice in planning and using health education strategies for individuals and small groups.
Prerequisites: HEA 308, HEA 314, HEA 315, HEA 339. admission to a professional program for community health education concentration; or permission of instructor; Pr. or Coreq.: HEA 325.
HEA 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

HEA 405 Program Planning and Evaluation 3
Methods used by health educators to respond to health problems and opportunities. Emphasis on comprehensive program planning that includes assessment, community involvement, intervention selection and development, implementation, and evaluation.
Prerequisites: HEA 340 and HEA 366. admission to professional program for community health education concentration; or permission of instructor;
Corequisites: HEA 466.

HEA 412 Community Health Organizations 3
Study of the structure and operation of community health organizations.
Prerequisites: HEA 308, HEA 314, HEA 315, HEA 316, and HEA 325. or permission of instructor.

HEA 426 Internship Planning 3
Professional preparation, planning, and placement practicum for the 400-hour supervised internship experience (HEA 428). Should be taken one semester prior to HEA 428.
Prerequisites: HEA 339, HEA 340, HEA 366. admission to professional program.

HEA 428 Health Education Internship (Fieldwork IV and Seminar) 12
Experience in using public health education techniques and practices in a community organization/agency. Emphasis on functioning as a professional health educator under supervision.
Prerequisites: HEA 340, HEA 366, and HEA 466. PUBH major with Community Health education concentration or permission of instructor; overall 2.50 GPA; grade of C or better in all required HEA courses;
Notes: Minimum 320 contact hours. Grade: Pass/Not Pass (P/NP).

HEA 433 Gender and Health 3
This course considers the implications of both gender and biological sex for understanding health determinants as well as policy and programming for addressing population level health concerns.

HEA 435 Introduction to Health Coaching 3
Using socio-behavioral theory and communication techniques to understand health behaviors, the context in which they occur, and how to help people reach their optimal health through self-management and lifestyle changes.

HEA 447 Income, Social Status, and Health 3
This course considers the population health implications of income and social status as structural determinants of health. Policy and program interventions will be explored as practical solutions.

HEA 450 Current Health Problems 3
Examination of selected health problems and/or populations that are of current pertinence. Populations and/or problems will be explored within the context of their impact on society.

HEA 466 Community Health Interventions II 3
Theory and practice in selecting, developing and implementing community-level interventions to improve the health of individuals and communities.
Prerequisites: HEA 308, HEA 314, HEA 325, HEA 339, HEA 340, HEA 366. admission to the professional program for community health education concentration; or permission of instructor.

HEA 470 Adolescent Health 3
Survey of adolescent health problems and needs. Focus on epidemiological trends, behavioral and social etiological factors, and public health interventions to reduce specific adolescent health problems.
Prerequisites: Junior or senior standing.

HEA 471 Immigrant and Refugee Health 3
Overview of issues affecting health promotion among immigrant and refugee populations. Focus on migration, dislocation, resettlement, adjustment, historical, epidemiological, behaviors, cultural, socioeconomic, and political factors, and interventions to address needs.
Prerequisites: Junior or senior standing.

HEA 475 Independent Study 1-3
Intensive work in an area of special interest in health education. Available to qualified students on recommendation of academic advisor and instructor.
Prerequisites: Demonstrated competency for independent work and permission of academic advisor and instructor.
Notes: May be repeated once for credit.

HEA 490 Capstone Experience 6
Capstone experience designed to apply knowledge and skills from core areas of public health using a problem-based approach to address public health challenges.
Prerequisites: HEA 308, HEA 314, HEA 315, HEA 316, HEA 325, HEA 350, HEA 432, HEA 447. PHTH major: Health Studies Online concentration.

HEA 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

HEA 601 Foundations of Public Health 3
Examination of public health and health education, principles underlying health education practice, and the roles and responsibilities of a community health educator.
Prerequisites: Admission to the M.P.H. program or permission of instructor.

HEA 602 Epidemiology Methods 3
Overview of basic epidemiologic concepts and methods used to understand the distribution of health and disease in populations. Focus is on application to community health education.
Prerequisites: HEA 601, HEA 604.

HEA 603 Community Health Analysis 3
Assessment of community structure, residents, organizations and associations, to determine health-related capacities, needs, and interests. Emphasizes the use of both primary and secondary data sources for community analysis.
Prerequisites: Admission to the MPH program or permission of instructor.

HEA 604 Quantitative Methods 3
Introduction to statistical concepts and descriptive and inferential statistics. Applied course with a focus on accessing public data sets, interpreting published results, using statistical software, and disseminating health information.
Prerequisites: Admission to the M.P.H. program or permission of instructor.
HEA 607 Determinants of Health 3
Examines how biology, behavior, psychology, culture, and the environment affect population-level health with an emphasis on social, political, economic contexts and structural/institutional bias, racism, and discrimination.
Prerequisites: Admission to the MPH program or permission of the instructor.

HEA 608 Environmental Health 3
Analysis of local, national, and international environmental issues influencing the health of individuals and communities; air and water quality, waste management, disease control, occupational settings, population, and environmental planning.

HEA 609 Community Health Interventions 3
Overview of theories, successful intervention strategies, and methods of implementation across the social ecology and their application to the development of health education programs.
Prerequisites: HEA 601, HEA 603, HEA 604, HEA 608. Pr. or Coreq.: HEA 602.

HEA 612 Management of Community Health Organizations 3
Analysis and skill development in management of community health organizations, including self-reflection, planning, staffing, marketing, building and managing agency and community teams. Literature reviews, community interviews, case study and experiential analysis.
Prerequisites: Admission to a graduate degree program or permission of instructor.

HEA 614 Assessment and Program Planning II 3
Provides development of essential skills in community health assessment and program planning. Emphasis is on the application of skills in different settings and across social ecological levels.
Prerequisites: HEA 618 and HEA 619. Admission to the MPH program or permission of the instructor.

HEA 615 Systems, Leadership, and Policy II 3
Application of the policy-making processes and issues at the organizational level. Focus on using systems thinking tools in leadership and management as well as in policy analysis.
Prerequisites: HEA 618 and HEA 619. Admission to the MPH program or permission of the instructor.

HEA 616 Workplace Health Promotion 3
Public and private worksite health promotion programs. Skills and knowledge to oversee the planning, implementation, and evaluation of these programs. Links to employee benefits and successful programs to be critically examined.
Prerequisites: Admission to a graduate degree program or permission of instructor.

HEA 617 Assessment and Program Planning I 3
Introduction to methods of community health assessment and program planning. Application of methods through case studies and direct experience.
Prerequisites: HEA 601 and HEA 621. Admission to the MPH program or permission of the instructor.

HEA 618 Systems, Leadership, and Policy I 3
Provides an overview of health policy issues and analyses using systems thinking tools. Introduces leadership and advocacy skills for engaging communities in health policy change.
Prerequisites: HEA 601 and HEA 607. Admission to the MPH program or permission of the instructor.

HEA 621 Public Health Theories and Strategies 3
Foundations in public health theories and theoretical thinking; major interventions and strategies in community health education; linking theories, health issues, and strategies.
Prerequisites: Admission to the MPH program or permission of the instructor.

HEA 622 Social Epidemiology 3
Content, methods, and theory of social epidemiology.
Prerequisites: Pr. or Coreq: HEA 602, HEA 604.

HEA 623 Assessment and Program Planning II 3
Provides development of essential skills in community health assessment and program planning. Emphasis is on the application of skills in different settings and across social ecological levels.
Prerequisites: HEA 618 and HEA 619, admission to the M.P.H. program, or permission of the instructor.

HEA 624 Systems, Leadership, and Policy II 3
Application of the policy-making processes and issues at the organizational level. Focus on using systems thinking tools in leadership and management as well as in policy analysis.
Prerequisites: HEA 618 and HEA 619, admission to the M.P.H. program, or permission of the instructor.

HEA 625 Evaluation Methods 3
Standards of and methods in the evaluation of community health education programs and policies. Focus on connecting tools and techniques of evaluation to assessment, program planning, and community engagement.
Prerequisites: HEA 603, HEA 604.

HEA 630 Foundations of Health Coaching 3
Theories, vocabulary, philosophies, tools, and core skills essential to becoming a certified health coach. Emphasis on supporting client’s behavior change through a coaching spirit, change framework, and effective communication strategies.
Prerequisites: Admission to the MPH or PhD program in Community Health Education or permission of the instructor.

HEA 640 Global Health Issues 3
Examine global health issues with an analysis of the determinants of health status in selected world regions and analyze global prevention efforts. Study of international organizations; roles and programs.

HEA 645 Health Policy 3
Health policy process in the US; examination of historical and current health policy issues, and survey of methods for analyzing health policy options.
Prerequisites: Admission to a graduate degree program or permission of instructor.

HEA 648 Applied Program Planning 3
Methods and models of planning health education programs for various settings.
Prerequisites: GPA of 3.0 or better, HEA 609 and HEA 645, or permission of instructor.

HEA 650 Community Health Internship/Practicum 6
Supervised experience in the observation, delivery, and evaluation of health education services in community settings.
Prerequisites: GPA of 3.0 or better and HEA 648, or permission of instructor.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).
HEA 662 Gender and Health 3
Health issues and health problems with respect to gender differences, similarities and historical conceptions. 
**Prerequisites:** Admission to a graduate degree program or permission of instructor.

HEA 665 Violence and Public Health 3
The origins and epidemiology of violence, factors influencing our social response to violence and role of public health professionals in a community response. Literature and field-based analysis. 
**Prerequisites:** Admission to a graduate degree program or permission of instructor.

HEA 676 Problems Seminar 3
Specific course title identified each semester by a subscript, e.g., Problems Seminar: Professional Literature in Health Education. 
**Prerequisites:** Previous course work in appropriate content areas or permission of instructor. 
**Notes:** May be repeated for credit.

HEA 695 Independent Study 1-3
Intensive study in an area of special interest in health education. 
**Prerequisites:** Demonstrated competency for independent work and permission of departmental academic advisor and the instructor. 
**Notes:** May be repeated for credit.

HEA 700 Foundations of Public Health 3
Examination of public health and health education, principles underlying health education practice, and the roles and responsibilities of a community health educator. 
**Prerequisites:** Major in the Public Health Education department or permission of instructor.

HEA 701 Promoting and Protecting Health through Entrepreneurship 3
Introduction to Federal Small Business Research grant mechanisms for entrepreneurial research. Preparation of a grant proposal for submission to NIH, CDC, or Department of Education. 
**Notes:** Same as ENT 701.

HEA 702 Professional Grant Writing for Community Organizations 3
Theoretical and applied avenues to learning Professional Grant Writing for Health and Human Service Organizations in the Community. 
**Prerequisites:** Enrolled graduate students in the School of HHS, or permission of instructor. 
**Notes:** Same as HHS 702.

HEA 703 Community Health Analysis 3
Assessment of community structure, residents, organizations and associations, to determine health-related capacities, needs, and interests. Emphasizes the use of both primary and secondary data sources for community analysis. 
**Prerequisites:** Major in the Public Health Education department or permission of instructor.

HEA 704 Quantitative Methods 3
Introduction to statistical concepts and descriptive and inferential statistics. Applied course with a focus on accessing public data sets, interpreting published results, using statistical software, and disseminating health information. 
**Prerequisites:** Major in the Public Health Education department or permission of instructor.

HEA 705 Qualitative Methods in Public Health 3
Qualitative methodology from question formation to dissemination of findings in public health research and evaluation. Includes design, sampling, data collection and analysis. 
**Prerequisites:** Major in the Public Health Education department or permission of instructor.

HEA 707 Determinants of Health 3
Examines how biology, behavior, psychology, culture, and the environment affect population-level health with an emphasis on social, political, economic contexts and structural/institutional bias, racism, and discrimination. 
**Prerequisites:** Major in the Public Health Education department or permission of instructor.

HEA 709 Community Health Interventions 3
Overview of theories, successful intervention strategies, and methods of implementation across the social ecology and their application to the development of health education programs. 
**Prerequisites:** HEA 601, HEA 602, HEA 603, HEA 604, HEA 608. 
**Corequisites:** HEA 602.

HEA 710 Epidemiology Methods 3
Overview of basic epidemiologic concepts and methods used to understand the distribution of health and disease in populations. Focus is on application to community health education. 
**Prerequisites:** HEA 700, HEA 704.

HEA 712 Management of Community Health Organizations 3
Analysis and skill development in management of community health organizations, including self-reflection, planning, staffing, marketing, building and managing agency and community teams. Literature reviews, community interviews, case study and experiential analysis. 
**Prerequisites:** Admission to a graduate degree program or permission of instructor.

HEA 716 Promoting Worker and Workplace Health and Safety 3
Methods of assessing and addressing worker and workplace health and safety, including advocating for, planning, and evaluating workplace initiatives within the NIOSH Total Worker Health framework. 
**Prerequisites:** HEA 616.

HEA 718 Assessment and Program Planning I 3
Introduction to methods of community health assessment and program planning. Application of methods through case studies and direct experience. 
**Prerequisites:** HEA 700 and HEA 721. Major in the Public Health Education department or permission of instructor.

HEA 719 Systems, Leadership, and Policy I 3
Provides an overview of health policy issues and analyses using systems thinking tools. Introduces leadership and advocacy skills for engaging communities in health policy change. 
**Prerequisites:** HEA 700 and HEA 707. Major in the Public Health Education department or permission of instructor.

HEA 721 Public Health Theories and Strategies 3
Foundations in public health theories and theoretical thinking; major interventions and strategies in community health education; linking theories, health issues, and strategies. 
**Prerequisites:** Major in the Public Health Education department or permission of instructor.

HEA 722 Social Epidemiology 3
Content, methods, and theory of social epidemiology. 
**Prerequisites:** HEA 704, HEA 710. 
**Corequisites:** HEA 704, HEA 710.

HEA 723 Assessment and Program Planning II 3
Provides development of essential skills in community health assessment and program planning. Emphasis is on the application of skills in different settings and across social ecological levels. 
**Prerequisites:** HEA 718 and HEA 719. Major in the Public Health Education department or permission of instructor.
HEA 724 Systems, Leadership, and Policy II 3
Application of the policy-making processes and issues at the organizational level. Focus on using systems thinking tools in leadership and management as well as in policy analysis.
Prerequisites: HEA 718 and HEA 719. Major in the Public Health Education department or permission of instructor.

HEA 725 Advanced Community Health Projects 1-6
Scholarly inquiry project developed by the student with faculty guidance.
Prerequisites: Permission of instructor.
Notes: May be repeated for a maximum of 6 credit hours. Grade: Satisfactory/Unsatisfactory (S/U).

HEA 726 Evaluation Methods 3
Standards of and methods in the evaluation of community health education programs and policies. Focus on connecting tools and techniques of evaluation to assessment, program planning, and community engagement.
Prerequisites: HEA 703, HEA 704.

HEA 735 Topics in Community Health Research 3
Specific course title identified each semester offered by subtitle (e.g., Organizational Behavior, Women and Girls Health, Applied Research in Communities). May be repeated for credit when topic varies.
Prerequisites: Permission of instructor.

HEA 740 Global Health Issues 3
Examine global health issues with an analysis of the determinants of health status in selected world regions and analyze global prevention efforts. Study of international organizations, roles, and programs.

HEA 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

HEA 751 Foundations of Research for Public Health Education 3
Central issues in the philosophy of social and behavioral science applied to public health. Assumptions, conceptual frameworks, ethics and methodologies necessary to pursue research in community health education are examined.
Prerequisites: Admission to Ph.D. program or permission of instructor.

HEA 752 Quantitative Methods in Public Health 3
Research methods and ecologic, experimental, and observational research designs in community health education. Topics include advanced study designs, reliability, validity, generalizability, bias, sampling, and power.
Prerequisites: HEA 751.

HEA 753 Research Programs in Public Health Education
On evaluation practices relevant for Community-Based Participatory Research programs in public health education.
Prerequisites: HEA 703, HEA 704.

HEA 755 Advanced Theoretical Basis for Community Health Education 3
Examination of theories used by health educators to conduct research in organizational, community, or individual change and improvement in health and quality of life.
Prerequisites: HEA 609, HEA 751, HEA 752, or permission of instructor.

HEA 762 Gender and Health 3
Health issues and health problems with respect to gender differences, similarities and historical conceptions.
Prerequisites: Admission to a graduate degree program or permission of instructor.

HEA 765 Advanced Program Evaluation in Public Health Education 3
Advanced education in program evaluation, evaluation designs, and their application to complex public health interventions. Emphasis on evaluation practices relevant for Community-Based Participatory Research programs in public health education.
Prerequisites: Pr. or Coreq.: HEA 602, HEA 604, HEA 622, HEA 751, HEA 752, HEA 753.

HEA 776 Problems Seminar 3
Specific course title identified each semester by a subscript, e.g., Problems Seminar: Professional Literature in Health Education.
Prerequisites: Previous course work in appropriate content areas or permission of instructor.
Notes: May be repeated for credit.
HEA 799 Doctoral Dissertation Research 1-15
Research Extension.

Religious Studies (REL)

REL 100 Introduction to World Religions 3
This course introduces major religious traditions, including Hinduism, Buddhism, Confucianism, Daoism, Judaism, Christianity, and Islam. We will begin with a brief survey of theoretical approaches to the study of religion. Topics of study will include each tradition's historical origins, conceptions of the sacred, rituals and practices, and contemporary trends.
MAC: MAC Global and Intercultural

REL 101 Introduction to Religious Studies 3
Inquiry into religion through consideration of forms, patterns, categories, symbols, and practices which characterize various religious experiences.
MAC: MAC CritThink Hum and Fine Art

REL 102 Faith, Culture, and Community in Greensboro 3
Introduces students to study of religion, with emphasis on religious/cultural diversity in Greensboro/Guilford County. It provides students with an understanding of major religious/cultural groups in the area through site visits, readings, lectures, and guest speakers, as well as develops foundational college skills and familiarity with key programs on campus.
MAC: MAC Foundations

REL 103 Sex, Death, and Spirituality 3
Evaluates answers to the question, “Is love stronger than death?” Examines love, death, and the body in thinkers belonging to one or more religious traditions. May be repeated if topic changes.
MAC: MAC CritThink Hum and Fine Art

REL 104 Religion, Ritual, and the Arts 3
A study of how myths and stories are used in ritual and the arts. The specific traditions treated will vary.
MAC: MAC Global and Intercultural

REL 105 Islam and Popular Culture: Ms. Marvel, Movies, and Hip-Hop Hijabis 3
Explores how Muslim Americans express their religious identities through comic books, hip hop, movies, and other forms of popular culture.
MAC: MAC Diversity and Equity

REL 108 Religion and Food 3
This course will explain and compare Hindu, Jain, Christian, Jewish and Muslim foodways and evaluations of food. In the process of this comparative study, we will appraise how each of tradition conceptualizes wellness, and evaluates eating, feeding, overeating, dieting and fasting to promote or impede upon wellness.
MAC: MAC Health and Wellness

REL 109 Religion and Contemporary Culture 3
Understandings of religion as shaped by contemporary social institutions, the arts, politics, and philosophy.
MAC: MAC Global and Intercultural
REL 111 Introduction to Asian Religion 3
Comparative study of Asian religions and their contributions to modern religious self-understanding, focusing critically and evaluatively on such patterns of expression as myth, ritual, and social forms.
MAC: MAC Global and Intercultural

REL 112 Spirituality, Health, and Wellness 3
This course examines the intersections of spirituality, health, and wellness across diverse cultures and religious traditions.
MAC: MAC Health and Wellness

REL 113 Supernatural Encounters 3
Concepts of the “supernatural” have shaped religious imaginaries of cultures/societies throughout history. To gain insights into historical/cultural contexts of these concepts, this course surveys beliefs/practices associated with supernatural beings and forces. The scope of this survey will include, but not be limited to Eastern, Western, and Indigenous Religions.
MAC: MAC Foundations

REL 115 Religion and Science 3
This course is a study of the relationship between religion and science. Primary but not exclusive emphasis will be placed on the religion-science debates as they have developed in relation to modern science and understandings of Western theism.
MAC: MAC Diversity and Equity

REL 132 Religious Diversity in America 3
American religion has been defined by immigration and new religious movements, creating a staggering array of religious communities in the United States. This course introduces the diversity of religions in the United States and focuses on the difference between encounter, tolerance, religious creativity, and pluralism.
MAC: MAC Diversity and Equity

REL 190 Introduction to Scriptural Language 1-3
Introduction to the language of a major scriptural tradition, such as Hebrew, Chinese, Tibetan, or Sanskrit. Emphasis on writing system, grammar, and vocabulary.
Notes: May be repeated when topic changes.

REL 201 The Bible in Western Culture 3
Study of significant themes and issues in the Bible and their expression in the religious literature and history of Europe and America.
MAC: MAC CritThink Hum and Fine Art

REL 202 Hebrew Bible 3
Study of the Hebrew scriptures (the Old Testament) in historical, sociological, and literary context.
MAC: MAC Global and Intercultural

REL 204 New Testament and the Origins of Christianity 3
Study of the New Testament texts in their historical, sociological, and literary contexts.
MAC: MAC Global and Intercultural

REL 207 Critical Thinking about Religion, Faith and Spirituality: Selected Topics 3
Exploration of ways in which religion, faith and spirituality have been understood in the context of the eclipse of religion in Western culture from the Enlightenment to the present.
MAC: MAC CritThink Hum and Fine Art

REL 209 Elements of Christian Thought 3
Investigates the coherence of Christian accounts of such topics as incarnation, trinity, creation, evil, sacraments, the body, and salvation.
MAC: MAC Global and Intercultural

REL 210 Christianity to the Reformation 3
Study of classic Christian texts, symbols, rituals, and social movements to the dawn of the Reformation.
MAC: MAC Global and Intercultural

REL 212 Christianity from the Reformation to the Present 3
Examination of a range of themes in the history of Christian thought from the sixteenth century to present, through reading of a variety of texts representative of Christian traditions.
MAC: MAC Global and Intercultural

REL 215 Judaism 3
Introductory study of Judaism, its history, texts, life, and thought.
MAC: MAC Global and Intercultural

REL 217 The Synagogue 3
The synagogue has been and remains the center of Jewish life. This course will explore the nomenclature, history, architecture, art, and literature of the synagogue in ancient, medieval, and modern times.

REL 218 Chinese Religion 3
A study of the religions of China in the classical and modern periods focusing on thought, ritual, social structure, and aesthetics.

REL 220 East Asian Religions 3
A study of the religions of East Asia in the classical and modern periods focusing on thought, ritual, social structure, and aesthetics.
MAC: MAC Global and Intercultural

REL 221 Buddhism 3
Introduction to the origin, development, and impact of Buddhism in Asian cultures. Focus on religious doctrines, forms of community, religious practices, techniques, art and iconography, and the implications of the Buddhist perspective for the contemporary world in both Asia and the West.
MAC: MAC Global and Intercultural

REL 222 Hinduism 3
Introduction to the Hindu religious tradition, its myths, rituals, music, social structure, and philosophical thought.
MAC: MAC Global and Intercultural

REL 224 Yoga: Theory And Practice 3
This course will introduce the broad array of mental and bodily disciplines and philosophies that fall under the term “yoga”. Exploring foundational texts and contemporary yoga communities, we will identify and compare how various strands of yoga understand, define and pursue holistic wellness through bodily and mental disciplines.
MAC: MAC Health and Wellness

REL 225 Islam 3
Introduction to origins of Islam and its development as a world religion focusing on doctrine, ritual practices, and community structures.
MAC: MAC Global and Intercultural

REL 226 Approaches to the Qur'an 3
Study of significant themes and stories of the Qur’an, with an emphasis on diversity of interpretations.
CIC: CIC College Writing

REL 229 Introduction to African American Religions 3
Examination of the diverse beliefs and practices of African American religious traditions and their development in the Americas.
MAC: MAC Diversity and Equity
REL 231 Religion in America 3
Diverse religious traditions and thinkers that have played a significant role in the history of the United States from Native American beginnings to the present.
MAC: MAC Diversity and Equity

REL 233 Witches, Spirits, and Metaphysicalism in America 3
This course focuses on the traditions of paganism, the occult, and metaphysicalism in the US. We will learn about New England witches, Black conjure, spiritualist seances, and the flowering of New Age and Neopaganism in the twentieth century. We will also consider how these traditions relate to institutional religion.
MAC: MAC CritThink Hum and Fine Art
CIC: CIC College Writing

REL 234 Religion and Race in the Americas 3
This course focuses on race as a component of religious experience as well as the role of religion in "racialization." We will focus on the Iberian categories of "bad blood," Afro-Atlantic religions, Nation of Islam, Mormons and whiteness, and the role of Christianity in American white supremacy.
MAC: MAC Diversity and Equity

REL 236 Politics and Religion 3
This course examines politics and religion in North America, Europe, and Asia. The class also focuses heavily on building foundational academic skills and acquainting students with university services and learning resources.
MAC: MAC Foundations

REL 240 Modern Judaism 3
A survey of key topics in modern Judaism.

REL 241 Jewish Bioethics 3
This course explores topics in contemporary Jewish Bioethics, including maintaining health, bodily integrity, vaccination, mental health, genetic testing, contraception and abortion, and end of life care.
MAC: MAC Health and Wellness

REL 242 Jews, Bodies, Race 3
This course explores global Jewish diversity, perceptions of Jewish bodies, and past and present uses of the terms "Jew" and "Hebrew" as racial categories.
MAC: MAC Diversity and Equity

REL 245 Video Games and The Problem of Evil 3
Using a wide range of topics, analytical theories and methods, as well as ethical perspectives, the course introduces students to the concept of evil, digital media, networked society and consumer culture through the critical interpretation of video gaming.
MAC: MAC CritThink Hum and Fine Art

REL 248 Comparative Religious Ethics 3
Comparative study of the ethical teachings of two or more Western and non-Western religious traditions focusing on the diversity within and among traditions and their effects on modes of life.

REL 249 Religion and Public Health 3
This course examines both the compatibility and conflict between religious perspectives and the scientific foundations of public health. Emphasis will be focused on the cultural influence of religion on individual and community attitudes toward health care practices and how these influence achieving and maintaining public health goals.
MAC: MAC Health and Wellness
CIC: CIC College Writing

REL 250 Religious Traditions and Care of the Earth 3
Examination of the thought, ethics, and practice of major religious traditions and worldviews with regards to the care of the earth. Emphasis on non-Western, indigenous, and ecofeminist traditions.
MAC: MAC Diversity and Equity

REL 251 Topics in Religious Social Ethics 3
Inquiry into the social teachings of diverse religious traditions with respect to such current topics as economic development and social justice, human rights, democracy, freedom, human well-being and the environment.
Notes: May be repeated for credit when topic varies.

REL 254 Religion in Traditional Societies 3
Study of religion in traditional societies in which the basic question "What is it to be human?" is raised by entering into the diverse symbolic worlds of native Americans, Africans, or others.

REL 255 Spirituality and the 12 Steps 3
This course will address Alcoholism and other substance use disorders on society and individuals. The course will critically examine the dynamics of substance use disorder with an emphasis on the history, spirituality, and practice of 12-step recovery as developed by Alcoholics Anonymous. Interfaith influences on the 12-steps will be considered.

REL 259 Philosophy of Religion 3
Arguments concerning God's existence, the problem of evil, God's foreknowledge and human freedom, the analysis of divine attributes, immortality and the soul.

REL 298 Thinking About Religion 3
Critical reflection on the academic study of religion. Evaluation of theories of religion drawn from the social sciences, humanities, and religious traditions themselves through their application to case studies.
CIC: CIC College Writing

REL 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

REL 301 Early Christianity 3
Development of various kinds of Christian beliefs and practices from the second to seventh centuries. Focus on primary sources.
CIC: CIC College Writing

REL 303 Christianity in Byzantium 3
Explores the formation of Orthodox Christianity from the sixth to the twelfth century. Topics include liturgy, icons, church architecture and decoration, saints' cults, monasticism, and lay practice.
CIC: CIC College Writing

REL 305 Religions of the Greco-Roman World 3
Study of themes in Judaism, Christianity, and pagan religious movements of the Mediterranean world from Alexander to Constantine.
CIC: CIC College Writing

REL 310 Christianity and the Construction of Gender 3
Study of the role of categories of male and female in the creation and maintenance of Christian notions of holiness, authority, and hierarchy in historical perspective.
CIC: CIC College Writing
Notes: Same as WGS 310.
REL 311 Topics in Biblical Studies 3
Examination of specific biblical texts, themes, or interpretations in the context of Jewish and Christian religious traditions or in terms of significant literary or historical issues.
CIC: CIC College Writing
Notes: May be repeated for credit when topics vary, with permission of instructor.

REL 312 Judaism and the Construction of Gender 3
Jewish understandings of gender from ancient to modern times, with focus on law and tradition, roles in the Jewish community, family, sexuality, and Jewish theology.
CIC: CIC College Writing
Notes: Same as WGS 312.

REL 313 Topics in Ancient Judaism 3
Diversity of Judaism in the ancient world; study of major themes, texts, and movements in ancient Judaism; focus on primary texts, material culture, and scholarly approaches.
CIC: CIC College Writing
Notes: May be repeated for credit when topics vary, with permission of instructor.

REL 314 Saint and Society in the Early Middle Ages 3
Examination of the concept of sanctity and of the rise and function of the veneration of holy men and women in Christian tradition from the fourth to the seventh century.
CIC: CIC College Writing

REL 317 Islam and the Construction of Gender 3
Study of the role of gendered categories in the creation and maintenance of Islamic notions of piety, authority, and community.
CIC: CIC College Writing

REL 323 Religious Movements and Communities: Selected Topics 3
Selected topics will bring to bear historical, analytical, theological, and ethical tools to understand religious movements. Faculty and topics will vary.
CIC: CIC College Writing
Notes: May be repeated when topic varies.

REL 324 Philosophical Issues in Religion 3
Modes of philosophical reflection, groups of human conceptuality and their relation to the truth of religious claims.
CIC: CIC College Writing
Notes: May be repeated for credit when topic varies.

REL 330 Major American Religious Thinkers 3
Topics to vary. Analysis and evaluation of major works by an American religious thinker, e.g., Jonathan Edwards, or works exemplifying a particular intellectual movement, e.g., the Puritan Christian Enlightenment.
CIC: CIC College Writing

REL 332 Contemporary African American Religious Thought 3
Explores the variety of contemporary African American religious thought: Buddhist, Christian, Islamic, Judaic, and New World Yoruba. The relation between religious racial identities is a primary focus.
CIC: CIC College Writing

REL 333 Religion and Psychology 3
Presents classic Western and/or Asian psychological theories of religion and shows how various religious traditions understand the human psyche.
CIC: CIC College Writing

REL 334 American Cults 3
This course will explore the history of schismatic religious groups, anti-cult hysteria, and controlling religious authority in American history by focusing on Jonestown, Waco, and NXIVM. This course asks who gets to call a religion a cult, and whether the term is a useful category for cultural analysis.

REL 336 Native American Religions 3
In this class we focus on Nave American fights for sovereignty and control of sacred lands in the twentieth and twenty-first centuries. We also consider how Nave Americans are using religion, ritual, and spirituality as a mode of identity formation in contemporary America.

REL 337 Enslaved Religion 3
We will look at how enslaved people remade Christianity and how many enslaved people rejected Christianity and continued to practice their own traditions, from Islam to the Afro-Atlantic religions of the African Diaspora. We will also read cultural theories of “power,” in both the material and spiritual sense.

REL 340 Modern Jewish Thinkers 3
Analysis and evaluation of major works by a Jewish thinker, e.g., Martin Buber, or works exemplifying a particular intellectual movement, e.g., Jewish existentialism. Topics will vary.
CIC: CIC College Writing
Notes: May be repeated for credit when topic varies.

REL 341 Topics in Jewish Thought 3
Explores specific topics in Jewish thought. Topics vary and may include studies in mysticism, philosophy, literature, or culture.
CIC: CIC College Writing
Notes: May be repeated for credit when topic varies.

REL 355 The Religious Discourse of Civil Rights 3
Explores Protestant, Catholic, and Jewish involvement in American racial reform in the twentieth century.
CIC: CIC College Writing

REL 368 Religion in South Asia: Selected Topics 3
Selected aspects of religion in South Asia. Possible topics include ritual, myth, festivals, and pilgrimage in Jainism, Islam, Hinduism, Buddhism, or other religions of the Indian subcontinent.
CIC: CIC College Writing
Notes: May be repeated for credit when topic varies.

REL 370 Religions of Iran: Selected Topics 3
Explores selected aspects of Iranian religions. Possible topics include Zoroastrianism, Sufism, Twelver Shi‘ism, and the Babi and Baha‘i faiths.
CIC: CIC College Writing
Notes: May be repeated up to three times as the topic varies.

REL 371 Topics in Islam: Islamic Thought, Culture, and History 3
Explores specific topics in Muslim thought, culture, or history. Topics vary and may include studies in hadith, mysticism, philosophy, or literature.
Notes: May be repeated for up to 9 hours of credit when topic varies.

REL 375 Religion and Popular Culture: Selected Topics 3
This course examines the relationship between religion and popular culture. We will read foundational texts in the field of religious studies, explore academic writings on the intersections of religion and popular culture, and watch, listen, discuss, and critically analyze television, film, music, sports, celebrity, and other popular cultural movements.

REL 382 Topics in Christian Thought 3
Exploration of an issue in Christian thought or history.
CIC: CIC College Writing
Notes: May be repeated for credit when topic varies.
REL 400 Topics in Religious Studies 3
Study of role, nature, and function of selected social forms of religious life through cross-cultural comparison or intensive study of one religious tradition.

Notes: May be repeated once for credit.

REL 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

REL 401 Tutorial 1-3
Directed program of reading, research, and private instruction.
CIC: CIC College Writing
Prerequisites: Permission of instructor.

REL 402 Tutorial 1-3
Directed program of reading, research, and private instruction.
Prerequisites: Permission of instructor.

REL 403 Tutorial 1-3
Directed program of reading, research, and private instruction.
Prerequisites: Permission of instructor.

REL 404 Tutorial 1-3
Directed program of reading, research, and private instruction.
Prerequisites: Permission of instructor.

REL 410 Senior Seminar 3
Colloquium on a unifying theme or major recent work in Religious Studies. Topic will vary with instructor.
CIC: CIC College Writing
Prerequisites: REL 298. RELS major; Required of all seniors;
Notes: May be repeated for up to 9 hours of credit when topic varies.

REL 420 Internship in Religious Studies 3
Practical experience in a variety of professional settings. Includes 10 hours per week at internship site, plus regular meetings with a faculty advisor.

REL 493 Honors Work 3-6
Honors Work.
Prerequisites: Permission of instructor. 3.30 GPA in the major, 12 s.h. in the major;
Notes: May be repeated for credit if the topic of study changes.

REL 503 Topics in Religious Studies 3
Study of role, nature, and function of selected social forms of religious life through cross-cultural comparison or intensive study of one religious tradition.
Notes: May be repeated once for credit.

REL 695 Independent Study 1-3
Directed program of reading, research, and individual instruction.
Prerequisites: Permission of department head and instructor.

Residential College (RCO)

RCO 101 College Writing I 3
A course in academic writing, focusing on analysis, argument, and critical reflection using the tenets of rhetoric. Instruction in drafting, revising, and compilation of a final portfolio.
MAC: MAC Written Communication
Prerequisites: Permission of instructor. Admission to a Residential College;
Notes: Equivalent credit to ENG 101 and/or FMS 115. students may receive credit for only one of RCO 101 or ENG 101 or FMS 115.

RCO 102 College Writing II 3
A course in research-based writing, focused on analysis, argument, and critical reflection using the tenets of rhetoric. Instruction in research methodologies as relevant to college writing projects.
MAC: MAC Written Communication
Prerequisites: ENG 101, or FMS 115 or RCO 101.

RCO 112 Contemporary Topics in Mathematics 3
Practical mathematical topics including set theory, properties and operations of number systems, algebra, geometry and consumer mathematics. Additional topics may be selected from logic, systems of numeration, and mathematical systems.
MAC: MAC Quantitative Reasoning
Prerequisites: Permission of instructor. Admission to a Residential College;
Notes: Students may not receive credit for both MAT 112 and RCO 112.

RCO 114 Elementary Introduction to Probability and Statistics 3
Survey of statistics intended for undergraduates in any discipline. Graphical displays, numerical measures, relationships between variables, elements of good data collection. Basic probability, introduction to inferential techniques including confidence intervals and significance testing. Emphasis on statistical literacy.
MAC: MAC Quantitative Reasoning
Prerequisites: None.
Notes: This course is taught in three different formats. Section numbers with an L meet for one hour and require three hours in a supervised computer lab. Section numbers with a W are taught online, exams can be taken off campus with a UNC Online certified proctor or on campus. Off campus proctors may charge a fee.

RCO 122 Beginning Spanish I 3
Introduction to Spanish with practice in listening, speaking, writing, and reading. Students may not receive credit for both RCO 122 and SPA 101.
MAC: MAC Global and Intercultural

RCO 133 Residential College Service-Learning Seminar 3
Focus on community service in readings and field experience. Topics vary relevant to the instructor’s area of expertise.
Prerequisites: Permission of instructor. Admission to a Residential College;
Notes: May be repeated for credit when topic varies.

RCO 155 Residential College Seminar in the Art of Discourse 3
An introduction to discourse in global professional, social, digital, and academic contexts, with an emphasis on oral communication and professional written and digital documents.
MAC: MAC Oral Communication
Prerequisites: Permission of instructor. Admission to a Residential College;
Notes: May be repeated for credit when topic varies.
RCO 181 Residential College Foundations Seminar 3
An intensive focus on the successful transition to UNCG, combining university transition content, information literacy, and transferable skills acquisition to facilitate academic and personal development.
MAC: MAC Foundations
Prerequisites: Restricted once for credit when topic varies.
Notes: May be repeated once for credit when topic varies.

RCO 184 Residential College Quantitative Reasoning Seminar 3
An intensive focus on the application of mathematical reasoning to formulate and solve problems from a variety of contexts and real-world situations.
MAC: MAC Quantitative Reasoning
Prerequisites: Restricted to students in the Residential Colleges.
Notes: May be repeated up to three (3) times for credit as topic varies.

RCO 185 Residential College Health & Wellness Seminar 3
An intensive focus on the intersection of health and wellness and information literacy, with explicit instruction in how to understand decisions as they impact the health and wellness of individuals or communities.
MAC: MAC Health and Wellness
Prerequisites: Restricted to students in the Residential Colleges.
Notes: May be repeated up to three (3) times for credit as topic varies.

RCO 186 Residential College Critical Thinking and Inquiry in the Humanities and Fine Arts Seminar 3
An intensive focus on foundational tools for reasoning, including constructing sound arguments; evaluating the quality of evidence; and forming judgments about the evidence, arguments, and conclusions of others in Humanities and Fine Arts disciplines.
MAC: MAC CritThink Hum and Fine Art
Prerequisites: Restricted to students in the Residential Colleges.
Notes: May be repeated up to three (3) times for credit as topic varies.

RCO 187 Residential College Critical Thinking and Inquiry in the Social and Behavioral Sciences Seminar 3
An intensive focus on foundational tools for reasoning, including constructing sound arguments; evaluating the quality of evidence; and forming judgments about the evidence, arguments, and conclusions of others in Social and Behavioral Sciences disciplines.
MAC: MAC CritThink Soc and BehavSci
Prerequisites: Restricted to students in the Residential Colleges.
Notes: May be repeated up to three (3) times for credit as topic varies.

RCO 188 Residential College Critical Thinking in the Natural Sciences Seminar 3
An intensive focus on explaining, predicting, and reasoning about the behavior of natural systems, or the outcomes of observations or measurements; using arguments based on established scientific principles and models; and developing, deepening, refining, or extending concepts, principles, and models to explain natural systems, based on empirical observations.
MAC: MAC CritThink Nat Sci
Prerequisites: Restricted to students in the Residential Colleges.
Notes: May be repeated up to three (3) times for credit as topic varies.

RCO 189 Residential College Global Engagement and Intercultural Learning Seminar 3
An intensive focus on knowledge and critical understanding of similarities and differences across world cultures over time, emphasizing the development of global perspectives and skills to engage cross-culturally.
MAC: MAC Global and Intercultural
Prerequisites: Restricted to students in the Residential Colleges.
Notes: May be repeated up to three (3) times for credit as topic varies.

RCO 190 Residential College Diversity and Equity Seminar 3
An intensive focus on systems of oppression, structures of power, and institutions, with connections to US or global societies and the examination of intellectual traditions that address systems of injustice.
MAC: MAC Diversity and Equity
Prerequisites: Restricted to students in the Residential Colleges.
Notes: May be repeated up to three (3) times for credit as topic varies.

RCO 191 Residential College Data Analysis and Interpretation in the Natural Sciences Seminar 3
An intensive focus on the role of quantitative data analysis and interpretation of empirical information in the development of scientific theories and models.
MAC: MAC Nat Sci Data Analysis
Prerequisites: Restricted to students in the Residential Colleges.
Notes: May be repeated up to three (3) times for credit as topic varies.

RCO 192 Residential College Written Communication Capstone 3
An intensive focus on the teaching and learning of transferable writing strategies, including invention, arrangement, style, and revision.
MAC: MAC Written Communication
Prerequisites: Restricted to students in the Residential Colleges.

RCO 193 Residential College Oral Communication Capstone 3
An intensive focus on student development of oral communication knowledge and abilities, including presenting and interacting in contexts such as public speaking, interpersonal communication, and group communication.
MAC: MAC Oral Communication
Prerequisites: Restricted to students in the Residential Colleges.

RCO 202 Residential College Seminar in Historical Perspectives: Modern 3
Historical study of human culture from the 17th century to the present.
MAC: MAC CritThink Hum and Fine Art
Prerequisites: Permission of instructor. Admission to a Residential College.
Notes: May be repeated once for credit when topic varies.

RCO 203 Residential College Seminar in Philosophical/Religious/Ethical Principles 3
Study of philosophical, religious, and ethical traditions that have shaped societies in the past and the present.
MAC: MAC CritThink Hum and Fine Art
Prerequisites: Permission of instructor. Admission to a Residential College.
Notes: May be repeated twice for credit when topic varies.

RCO 204 Residential College Seminar in Literature and Rhetoric 3
Study of works of literature and the social and historical contexts from which they come.
MAC: MAC CritThink Hum and Fine Art
Prerequisites: Permission of instructor. Admission to a Residential College.
Notes: May be repeated twice for credit when topic varies.
RCO 205 Residential College Seminar in Social and Behavioral Studies 3
Study of the interrelationship between individuals and society and of the social and intellectual contexts of events and situations.
MAC: MAC CritThink Soc and BehavSci
Prerequisites: Permission of instructor. Admission to a Residential College;
Notes: May be repeated twice for credit when topic varies.

RCO 206 Residential College Studies in the Arts 3
Lecture and/or seminar in the arts.
MAC: MAC CritThink Hum and Fine Art
Prerequisites: Permission of instructor.
Notes: May be repeated for credit when topic varies.

RCO 211 Residential College Seminar in Historical Perspectives: Premodern 3
Historical study of human culture from ancient times to the 17th century.
MAC: MAC Diversity and Equity
Prerequisites: Permission of instructor. Admission to a Residential College;
Notes: May be repeated twice for credit when topic varies.

RCO 212 Residential College Seminar in Historical Perspectives: Modern 3
Historical study of human culture from the 17th century to the present.
MAC: MAC Diversity and Equity
Prerequisites: Permission of instructor. Admission to a Residential College;
Notes: May be repeated twice for credit when topic varies.

RCO 213 Residential College Seminar in Philosophical/Religious/Ethical Principles 3
Study of philosophical, religious, and ethical traditions that have shaped societies in the past and the present.
MAC: MAC Diversity and Equity
Prerequisites: Permission of instructor. Admission to a Residential College;
Notes: May be repeated twice for credit when topic varies.

RCO 214 Residential College Seminar in Literature and Rhetoric 3
Study of works of literature and the social and historical contexts from which they come.
MAC: MAC Diversity and Equity
Prerequisites: Permission of instructor. Admission to a Residential College;
Notes: May be repeated twice for credit when topic varies.

RCO 215 Residential College Seminar in Social and Behavioral Studies 3
Study of the interrelationship between individuals and society and of the social and intellectual contexts of events and situations.
MAC: MAC Diversity and Equity
Prerequisites: Permission of instructor. Admission to a Residential College;
Notes: May be repeated twice for credit when topic varies.

RCO 221 Residential College Seminar in Historical Perspectives: Premodern 3
Historical study of human culture from ancient times to the 17th century.
MAC: MAC Global and Intercultural
Prerequisites: Permission of instructor. Admission to a Residential College;
Notes: May be repeated twice for credit when topic varies.

RCO 222 Residential College Seminar in Historical Perspectives: Modern 3
Historical study of human culture from the 17th century to the present.
MAC: MAC Global and Intercultural
Prerequisites: Permission of instructor. Admission to a Residential College;
Notes: May be repeated twice for credit when topic varies.

RCO 223 Residential College Seminar in Philosophical/Religious/Ethical Principles 3
Study of philosophical, religious, and ethical traditions that have shaped societies in the past and the present.
MAC: MAC Global and Intercultural
Prerequisites: Permission of instructor. Admission to a Residential College;
Notes: May be repeated twice for credit when topic varies.

RCO 224 Residential College Seminar in Literature and Rhetoric 3
Study of works of literature and the social and historical contexts from which they come.
MAC: MAC Global and Intercultural
Prerequisites: Permission of instructor. Admission to a Residential College;
Notes: May be repeated twice for credit when topic varies.

RCO 225 Residential College Seminar in Social and Behavioral Studies 3
Study of the interrelationship between individuals and society and of the social and intellectual contexts of events and situations.
MAC: MAC Global and Intercultural
Prerequisites: Permission of instructor. Admission to a Residential College;
Notes: May be repeated twice for credit when topic varies.

RCO 226 Residential College Seminar in Fine Arts 3
A historical survey of various art form(s) within historical, cultural, and material contexts. Students will explore the art form(s) through historical texts that emphasize artistic technique and production.
MAC: MAC Global and Intercultural
Prerequisites: Permission of instructor. Admission to a Residential College;
Notes: May be repeated twice for credit when topic varies.

RCO 233 Non-Western Fine Arts Seminar 3
A global historical survey of non-Western art form(s) through an examination of historical, cultural, and material contexts. Students will explore the art form(s) through global historical texts and in-class experiential practice.
Prerequisites: Permission of instructor.

RCO 237 Introductory Concepts in Biology 3
Introduction to major concepts in biology for students who do not plan to take additional biology courses. Explores basic aspects of biology, including genetics, physiology, and ecology. Specific topics may include conservation biology, biotechnology, and current issues.
MAC: MAC CritThink Nat Sci
Prerequisites: Permission of instructor. Admission to a Residential College;
Notes: Students may not earn credit for both BIO 111/BIO 112 and RCO 252. Students may not earn credit for both BIO 105 and RCO 252.

RCO 253 Residential College Seminar in Life Sciences 3
Conceptual explorations in the life sciences.
MAC: MAC CritThink Nat Sci
Prerequisites: Permission of instructor.
Notes: May be repeated for credit when topic varies.
RCO 254 Residential College Seminar in Physical Sciences 3
Conceptual explorations in the physical sciences.
MAC: MAC CritThink Nat Sci
Prerequisites: Permission of instructor.
Notes: May be repeated for credit when topic varies.

RCO 255 Introductory Concepts in Earth Science 3
Survey of basic concepts and processes. Integration of issues pertaining to environmental sustainability with the nature of the earth’s three primary physical systems: the solid earth and continents; the ocean basins and the oceans; and the atmosphere’s weather.
MAC: MAC CritThink Nat Sci
Prerequisites: Permission of instructor. Admission to a Residential College;
Notes: Students cannot earn credit for both GES 103 and RCO 255.

RCO 273 General Psychology 3
Survey of psychology as science, nervous system, growth and development, sensory and perceptual processes, motivation, emotion, learning, social behavior, personality (normal and pathological), statistics, testing, intelligence, aptitudes, and achievement.
MAC: MAC CritThink Soc and BehavSci

RCO 301 Independent Study 1-3
This course is designed to provide a comprehensive introduction to the nature and structure of research/scholarship in a variety of academic disciplines.
Prerequisites: Permission of instructor. Admission to a Residential College;
Notes: May be repeated for credit when topic varies.

RCO 302 Advanced Study 3
Advanced-level study.
Prerequisites: Permission of instructor. Admission to a Residential College;
Notes: May be repeated for credit when topic varies.

RCO 306 Music in Context 3
Consideration of musical works in social, artistic, and economic contexts.
Prerequisites: Permission of instructor.

RCO 390 Research Capstone 3
Locating and using primary and/or secondary source materials, published and unpublished. Variable topics, related to residential colleges’ curriculum. Offerings may include digital publications, fieldwork, or professional development research.
Prerequisites: Permission of instructor. Admission to a Residential College.

Retailing and Consumer Studies (RCS)

RCO 264 Fashion Retail Management 3
Knowledge and skills in retail operation strategy and management. Emphasis will be placed on applications of operation management concepts as well as the role of technology employed to manage inventory.

RC 361 Fundamentals of Retail Buying and Merchandising 3
Investigation of the roles and responsibilities of buyers and managers in retail operations. Fundamentals of merchandise mathematics and buying.
Prerequisites: Minimum grade of C (2.0) in both RCS 264 and one of the following: MAT 115, MAT 118, MAT 120, MAT 150, MAT 151, MAT 190, MAT 191, MAT 292.

RCO 355 Retail Consumer Research 3
An introduction to reading and evaluating retail consumer data to make key merchandise buying and planning decisions. Analysis of retail consumer data as applied to the development of business strategy.
Prerequisites: ECS 250. Restricted to students who are admitted to the Retailing and Consumer Studies concentration.

RCO 464 Global Retail Strategy and Management 3
Investigation of consumer benefits offered by multichannel retailing of apparel and related consumer products. Focus on the importance of culture to successful retailing to diverse global consumers.
Prerequisites: Minimum grade of C (2.0) in RCS 361.

RCO 460 Advanced Retail Buying and Merchandising 3
Advancing the strategies of inventory acquisition and control. Application of retail math to Excel spreadsheets in planning the assortment plan, six-month merchandise plan, and model stock plans.
Prerequisites: Undergraduates: minimum grade of C (2.0) in RCS 361. Graduate students: permission of instructor.

RCO 484 Advanced Retail Analysis 3
Investigation of retailing from a strategic perspective. Concepts are analyzed and integrated into applied problem-solving scenarios focused on consumer needs.
Prerequisites: Minimum grade of C (2.0) in RCS 264.

RCO 560 Advanced Retail Buying and Merchandising 3
Advancing the strategies of inventory acquisition and control. Application of retail math to Excel spreadsheets in planning the assortment plan, six-month merchandise plan, and model stock plans.

RCO 584 Advanced Retail Analysis 3
Investigation of retailing from a strategic perspective. Concepts are analyzed and integrated into applied problem-solving scenarios focused on consumer needs.

RCO 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

RCO 662 Behavior-Soft Lines Consumers 3
Study of environmental, individual, and psychological influences on behavior of consumers during the soft lines products consumption process.

RCO 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.
Russian (RUS)

RUS 101 Elementary Russian I 3
First course in the introductory-level study of the Russian language and the cultures of the Russian-speaking world. Emphasis on active listening, speaking, writing, and reading, and applied vocabulary.
MAC: MAC Global and Intercultural
Prerequisites: None.
Notes: Students with previous knowledge of Russian are required to take the placement test. Students who are native or heritage speakers of Russian MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.

RUS 102 Elementary Russian II 3
Second course in the introductory-level study of the Russian language and the cultures of the Russian-speaking world. Emphasis on active listening, speaking, writing, and reading, and applied vocabulary.
MAC: MAC Global and Intercultural
Prerequisites: None.
Notes: Students with previous knowledge of Russian are required to take the placement test. Students who are native or heritage speakers of Russian MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.

RUS 203 Intermediate Russian I 3
First course in the intermediate-level study of the Russian language and the cultures of the Russian-speaking world. Emphasis on active listening, speaking, writing, and reading, and applied vocabulary.
MAC: MAC Global and Intercultural
Prerequisites: None.
Notes: Students with previous knowledge of Russian are required to take the placement test. Students who are native or heritage speakers of Russian MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.

RUS 204 Intermediate Russian II 3
Second course in the intermediate-level study of the Russian language and the cultures of the Russian-speaking world. Emphasis on active listening, speaking, writing, and reading, and applied vocabulary.
MAC: MAC Global and Intercultural
CIC: CIC College Writing
Prerequisites: None.
Notes: Students with previous knowledge of Russian are required to take the placement test. Students who are native or heritage speakers of Russian MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.

RUS 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

RUS 301 Conversation, Composition, and Grammar Topics 3
Reading and discussion of unedited Russian texts. Formal and informal writing. Study of grammar and idiom.
Notes: Proficiency level: RUS 204 or equivalent.

RUS 306 Slavic Life and Letters: Topics 3
Study of Slavic civilization. Emphasis on selected periods, genres such as films, memoirs, folklore, mythology, women’s lives, etc. Taught in Russian.
Notes: Proficiency level: RUS 204 or equivalent. May be repeated for credit when topic varies.

RUS 313 Major Authors in Russian Literature 3
Selected Russian authors read and discussed with attention to literary interpretation and analysis. Selection of authors and periods vary. Taught in English or Russian.
CIC: CIC College Writing
Notes: May be repeated for credit when topic varies.

RUS 314 Major Movements in Russian Literature and Culture 3
Topics vary, each taking a broad perspective on an important movement, social trend, literary development, or cultural period. Taught in English or Russian.
CIC: CIC College Writing
Notes: May be repeated for credit when topic varies.

RUS 315 Twentieth-Century Russian Literature/Translation 3
Notes: Proficiency level: RUS 204 or equivalent.

RUS 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

RUS 491 Tutorial 1-3
Directed program of reading, research, and individual instruction in Russian and Polish language and literature.
Notes: May be repeated for credit when topic varies.

RUS 492 Tutorial 1-3
Directed program of reading, research, and individual instruction in Russian and Polish language and literature.
Notes: May be repeated for credit when topic varies.

RUS 493 Honors Work 3-6
Honors Work.
Prerequisites: Permission of instructor. 3.30 GPA in the major, 12 s.h. in the major;
Notes: May be repeated for credit if the topic of study changes.

School of Health and Human Sciences (HHS)

HHS 110 Bridging Differences through Community Relationships: Health and Human Sciences 1
Expanding experience of race, gender, ethnicity, social class, and/or other identities through developing relationships in community settings related to health and human sciences.
Notes: Open to all undergraduates. Grade: Pass/Not Pass (P/NP).

HHS 120 College, Career & Life (Part I) 3
Preparing students for the realities of college, career and life. Topics include current events, financial literacy, personal branding, life design, multiculturalism, and identity development.
Prerequisites: First-year college students and Middle College students and written permission.
HHS 125 Design Your Life I: What Could I Do With My Life? 1
Develop essential knowledge and skills to enhance personal and academic success, with emphasis on self-awareness, self-management, interdependence, and self-responsibility.
Notes: May be repeated once for a total of 2 s.h.

HHS 131 College, Career & Life (Part II) 3
Prepares students for the realities of college, career and life. Topics: personal and academic success; higher education decision-making; reliance on self and establishing routes from college to career.
Prerequisites: First-year college students and Middle College students and written permission.

HHS 135 Design Your Life II: Redesign a Life You’ll Love 1
Students identify meaningful learning opportunities based on purpose, mission, dreams, and vision; create specific projects to move toward a desired state; and then engage in coaching techniques to accomplish projects.
Notes: May be repeated once for credit.

HHS 140 College, Career & Life (Part III) 3
Prepare students for the realities of college, career and life - with emphasis on career focused goal-setting. Topics: fiscal responsibilities & solutions; career goal planning; meaningful work.
Prerequisites: First-year college students and Middle College students and written permission.

HHS 150 Design your Life III: Enhancing Personal and Academic Success 3
Develop essential knowledge and skills to enhance personal and academic success, with emphasis on campus resources and services as explored through self-awareness, self-management, interdependence, and self-responsibility.
MAC: MAC Foundations

HHS 250 Purpose-Driven Entrepreneurship 3
Students will engage in exercises to understand their purpose, develop a plan to create self-employed, meaningful work, and learn strategies to stay connected to the self and the world.
Notes: May be repeated once for credit. Business project must be different than project completed the first time taking the course; Same as ENT 250.

HHS 275 Entrepreneurial Personal Branding 3
Students will have a better understanding of the entrepreneurial mindset, how to use entrepreneurship strategies personally, and how to best brand and uniquely market themselves.
Notes: Same as ENT 275 and IPS 275.

HHS 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

HHS 376 Race, Class and Health Equity: Examining Systems, Power and Institutions in Society 3
Provides an understanding and definition of racism, power, and privilege; historic and current structures that sustain racism, power, and privilege and how these structures contribute to health inequities.
Prerequisites: A grade of C or better in ENG 101 and one of the following courses: CST 105 or CST 207 or CST 341. Junior or Senior standing; or permission of instructor.

HHS 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

HHS 554 Exploring Intersections of Latino Individual, Family, and Community Life 6
This course is an in-depth study of Latina/o culture in Costa Rica. Students will examine the psychosocial intersections of how individuals, families and communities experience economic, political and gendered lives.

HHS 600 Qualitative Research Methods for Consumers 3
Foundations of qualitative methodology, exploring the history, philosophy, and epistemologies of qualitative research.

HHS 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

HHS 601 Qualitative Research Methods for Producers 3
The specific focus is on the choice of methods used in the construction of qualitative research. Students will practice selecting and collecting qualitative data for research skill development.

HHS 625 Research Methods in the Health and Human Sciences 3
Research methods and designs for the study of families and individuals across the lifespan. Focus is on application of method to research in the health and human sciences.

HHS 630 Survey Design: Health and Human Sciences 3
Survey design and implementation applied to problems in health and human sciences. Topics: maximizing response rates; selecting/writing/evaluating questions for different populations; reliability; validity; layout; modes of survey administration.

HHS 650 Applied Multiple Regression 4
Applied instruction on the theoretical underpinnings and assumptions of multiple regression analysis and the valid implementation of this statistical model in testing of meaningful and nuanced research questions and hypotheses.
Prerequisites: ERM 680, STA 571, PSY 609, or permission of instructor.

HHS 654 Ethics in Practice, Teaching, and Research 3
In-depth coverage of contemporary ethical issues facing practitioners, teachers, and researchers in health and human science fields. Focus on providing the tools necessary for addressing situations requiring ethical decision-making.
Notes: Open to master’s and doctoral level students.

HHS 700 Qualitative Research Methods for Consumers 3
Foundations of qualitative methodology, exploring the history, philosophy, and epistemologies of qualitative research.

HHS 701 Qualitative Research Methods for Producers 3
The specific focus is on the choice of methods used in the construction of qualitative research. Students will practice selecting and collecting qualitative data for research skill development.

HHS 702 Professional Grant Writing for Community Organizations 3
Theoretical and applied avenues to learning Professional Grant Writing for Health and Human Service Organizations in the Community.
Prerequisites: Enrolled graduate students in the School of HHS, or permission of instructor.
Notes: Same as HEA 702.

HHS 703 Teaching Undergraduates in Health and Human Services 3
Analysis and application of innovative approaches to undergraduate course design, teaching, and evaluation in Health and Human Sciences.

HHS 725 Research Methods in the Health and Human Sciences 3
Research methods and designs for the study of families and individuals across the lifespan. Focus is on application of method to research in the health and human sciences.
HHS 730 Survey Design: Health and Human Sciences 3
Survey design and implementation applied to problems in health and human sciences. Topics: maximizing response rates; selecting, writing, and evaluating questions for different populations; reliability; validity; layout; and modes of survey administration.

HHS 745 Cluster and Mixture Modeling 3
Theoretical underpinnings and assumptions in the application of finite mixture modeling in the study of health behavior, formulation of research questions, and strategies for reporting of results.
Prerequisites: HHS 650 or NUR 702 or ERM 681 or permission of instructor.

HHS 746 Applied Longitudinal Analysis 3
Theoretical underpinnings and assumptions of statistical techniques for the analyses of data from longitudinal designs, formulation of research questions, and strategies for reporting of results.
Prerequisites: HHS 650 or NUR 702 or ERM 681 or permission of instructor.

HHS 749 Applied Multiple Regression 4
Applied instruction on the theoretical underpinnings and assumptions of multiple regression analysis and the valid implementation of this statistical model in testing of meaningful and nuanced research questions and hypotheses.
Prerequisites: ERM 780 or STA 571 or PSY 609, or permission of instructor.

HHS 750 Professional Development Seminar 3
Preparation for academic careers, including expectations for promotion and tenure; effective writing techniques for publishing in academic journals; and planning for the academic job market, job applications, and campus interviews.

HHS 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

HHS 754 Ethics in Practice, Teaching, and Research 3
In-depth coverage of contemporary ethical issues facing practitioners, teachers, and researchers in health and human science fields. Focus on providing the tools necessary for addressing situations requiring ethical decision-making.

HHS 776 Higher Education Administration and Leadership in Health and Human Sciences 3
Addresses the major areas of responsibilities of a variety of academic administrative roles within a university, from program director and department char/head to provost, from the base of HHS.
Prerequisites: Students must have an administrative mentor who agrees to participate in the practicum section of this course.

HHS 797 Directed Studies in HHS: Writing NRSA Fellowship Grants 1-3
In collaboration with faculty sponsor, write an individualized, mentored training plan to support pre-doctoral (F31) or post-doctoral (F32) research and career development. Regular meetings with the faculty sponsor are required.
Prerequisites: permission from graduate faculty sponsor who will supervise and evaluate the directed studies activities.

Social Sciences (SSC)

SSC 300 Doing Social Sciences 3
Introductory course for the online SPLS Social Sciences major. Topics include epistemology, theory development, research ethics, study design, data collection, and data analysis.
CIC: CIC College Writing
Prerequisites: SPLS Social Sciences major. junior or senior standing; or permission of the instructor.

SSC 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

SSC 301 Contemporary Issues in the Social Sciences 3
Introductory course for the online SPLS Social Sciences major. Analysis of a single contemporary issue using each of the academic disciplines in the SPLS Social Science concentration.
Prerequisites: SPLS Social Sciences major. junior or senior standing; or permission of the instructor.

SSC 350 Inequality in a Changing World 3
This course introduces major schools of social science theory from several areas of study and applies them to the study and explanation of domestic and global inequality.
Prerequisites: SSC 300, SSC 301; 12 s.h. in residence at UNCG (can include SSC 300 and SSC 301); SPLS major with a concentration in Social Sciences.

SSC 400 Senior Seminar in the Social Sciences 3
Capstone seminar for Liberal and Interdisciplinary Studies students pursuing the Social Science, Professional Studies, or General Psychology concentration. To be taken in the final year of the major for Social Science, General Psychology, or Professional Studies Concentration students.
CIC: CIC College Writing
Prerequisites: LINS major and permission of the instructor.

SSC 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

SSC 401 Individual Study in the Social Sciences 1-3
Directed program of reading and/or research in the Social Sciences. The credits can be used to fulfill either "distribution" or "area of emphasis" requirements.
Prerequisites: SSC 300 and SSC 301. permission of instructor and program director;
Notes: May be repeated once for credit, for up to 6 s.h.

SSC 402 Topics in Social Sciences 3
Online course that examines selected topics in the social sciences in an interdisciplinary fashion. Topics vary by semester.
Notes: May be repeated for credit when topics vary.

Social Work (SWK)

SWK 215 Introduction to Social Work 3
Introduction to social welfare programs and social work practice. Topics include: social problems confronting society; societal and community helping resources; social work practice in a changing society. Field observation required.
SWK 250 Introduction to Social Work Data Analysis 3
Designed to introduce students to the application of basic statistics and data analysis encountered in social work practice. Topics include elementary descriptive and inferential procedures.
Prerequisites: Pr. or Coreq.: SWK 215.

SWK 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

SWK 310 Social Policy and Services 4
Examination and survey of historical development of the concept of social welfare; analysis of theoretical framework used to organize the study of social welfare services. Supervised volunteer experience required.
Prerequisites: SWK 215. major or minor in social work.

SWK 311 Human Behavior and Social Environment 3
Emphasis on theories relevant to understanding and influencing change on the societal, organizational, group, and individual levels.
Prerequisites: SWK 215 or permission of instructor.

SWK 315 Social Work, Diversity, and Vulnerable Populations 3
Examination and understanding of cultural and human diversity with focus on oppressed groups. Students will have the opportunity to learn about broad differences and likenesses among diverse populations and cultures.
Prerequisites: SWK 215. major or minor in social work.

SWK 325 Research in Social Work Practice 3
Focus on social workers as both consumers and producers of research. Emphasis on using research for needs assessment, evaluation of social work interventions, and creation of new social work knowledge.
Prerequisites: SWK 215 and SOWK major. Pr. or Coreq.: SWK 250 or STA 108.

SWK 351 Professional Skills 3
Lecture-laboratory course to teach verbal and written skills necessary for conducting the helping interview and other related social work activities. Extensive use of simulated role play experience and instructor/peer feedback.
Prerequisites: SWK 215, SWK 310, and SWK 311. SOWK major.

SWK 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

SWK 405 Environmental Justice: Interdisciplinary Response for Sustainability 3
Interdisciplinary exploration of models that address social, economic, environmental justice concerns and their impact on community, economic, and environmental sustainability.
Notes: Same as PCS 406.

SWK 410 Selected Topics in Social Work 3
Opportunity for students to study in depth topic of special interest.
Prerequisites: Permission of instructor.
Notes: May be repeated for credit when topic varies.

SWK 410A Sel Tpcs: School Social Work 1-3
SWK 410B Sel Tpc: Soc Serv/Mnt Ill / Fam 1-3
SWK 410C Sel Tpcs: SWK w/ Religious Orgn 1-3
SWK 410D Sel Tpcs: Soc Serv for Ment Ill 1-3
SWK 411 Social Work Methods I 3
Emphasis on knowledge, values, process, and skills in social work practice and introduction to interventional methods.
Prerequisites: Admission to field instruction.
Corequisites: SWK 413 and SWK 415.
Notes: SOWK major only.

SWK 412 Social Work Methods II 3
Focus on development of social work practice skills emphasizing delivery of social services.
Prerequisites: SWK 411.
Corequisites: SWK 414 and SWK 416.
Notes: SOWK major only.

SWK 413 Field Instruction I 5
Educationally directed learning experienced by performing a range of activities related to entry level practice.
Prerequisites: SOWK major. SWK 215, SWK 310, SWK 311, SWK 315, SWK 325, and SWK 351; admission to field instruction;
Corequisites: SWK 411 and SWK 415.
Notes: Grade: Pass/Not Pass (P/NP).

SWK 414 Field Instruction II 5
Continuation of SWK 413. Emphasis placed upon extended application and evaluation in the practice environment.
Prerequisites: SOWK major. SWK 411, SWK 413, and SWK 415;
Corequisites: SWK 412 and SWK 416.
Notes: Grade: Pass/Not Pass (P/NP).

SWK 415 Field Instruction Seminar I 1
Critical review and analysis of application of social work theory in practice setting.
Prerequisites: Admission to field instruction.
Corequisites: SWK 411 and SWK 413.

SWK 416 Field Instruction Seminar II 1
Continues critical review and analysis of social work theory in practice setting.
Prerequisites: SWK 415.
Corequisites: SWK 412 and SWK 414.

SWK 422 Comparative Study of Cross-Cultural Social Work Practice 3
Compares social work, social service programs, and social policies of the U.S. with those of selected other countries throughout the world, emphasizing services for families, children, and vulnerable populations.
Prerequisites: SWK 215, SWK 310, SWK 311, SWK 315, SWK 325, and SWK 351. or graduate standing;
Notes: May be repeated for credit when topic varies.

SWK 427 Human Services for Immigrants and Refugees 3
A perspective on the history of immigration, its role in the U.S.A., immigrants in North Carolina, their process of integration, cross-cultural competency, and the challenges in services delivery to immigrants.

SWK 430 Social Agency Program Development 3
Organization of new agencies or those initiating additional services. Needs assessment, resource development, grant writing, agency operations, and relationships with funding agencies.
SWK 433 Restorative Justice: Theory and Models 3
Examines the principles and practices of restorative justice, evaluating
the potentials and limitations of restorative methods and interventions in
the US and internationally.
Notes: Same as PCS 433.

SWK 451 Independent Study in Social Work 1-3
Intensive independent study of specialized topics.
Prerequisites: Requires written plan, permission of sponsoring instructor,
and approval of department head.
Notes: May be repeated for credit when topics vary.

SWK 454 Mental Health Social Work 3
This course will provide knowledge and skills necessary for practicing
effective social work with people who have mental illness and their
families.

SWK 455 Substance Use and Social Work Practice 3
Introduction to the issues of substance use and addiction and their
impact on clients and their families. Social work assessment and
intervention methods will be taught.
Prerequisites: SWK 325 and SWK 351.

SWK 470 Social Services for the Aging 3
Systematic study of social work approaches to providing services to the
aging. Focus on current policies, services, and models of practice.

SWK 479 Gender and Peacebuilding 3
Examines the role of gender, sex, diversity, and power relations in the
creation and resolution of conflict and building of peace.
Notes: Same as PCS 479.

SWK 482 School Social Work 3
Examination and understanding of school social work services with
emphasis on professional standards, cultural sensitivity, accountability,
and program planning.
Prerequisites: SWK 215, SWK 310, SWK 311, SWK 315, SWK 325,
SWK 351, senior standing, and SDWK major. or permission of instructor.

SWK 484 Social Services for Children 3
Designed for practitioners and students to provide knowledge for working
with children and to teach strategies, techniques, and skills for effective
treatment.

SWK 505 Environmental Justice: Interdisciplinary Response for
Sustainability 3
Interdisciplinary exploration of models that address social, economic,
environmental justice concerns and their impact on community,
economic, and environmental sustainability.
Notes: Same as PCS 505.

SWK 510 Selected Topics in Social Work 3
Opportunity for students to study in depth topic of special interest.
Prerequisites: Permission of instructor.
Notes: May be repeated for credit when topic varies.

SWK 551 Special Problems in Social Work 1-3
Intensive, independent study of specialized topics.
Prerequisites: Requires written plan, permission of sponsoring instructor,
and approval of department head.

SWK 555 Substance Abuse and Social Work Practice 3
Introduction to the issues of substance abuse and addiction and their
impact on clients and their families. Social work assessment and
intervention methods will be taught.

SWK 570 Social Services for the Aging 3
An overview of current issues in the need and delivery of social services
to the aging. Students learn skills designed to prepare them for effective
practice with older adults and their families.
Notes: Same as GRO 570.

SWK 579 Gender and Peacebuilding 3
Examines the role of gender, sex, diversity, and power relations in the
creation and resolution of conflict and building of peace.
Notes: Same as PCS 579.

SWK 582 School Social Work 3
Examination and understanding of school social work services with
emphasis on professional standards, cultural sensitivity, accountability,
and program planning.

SWK 584 Social Services for Children 3
Designed for practitioners and students to provide knowledge for working
with children and to teach strategies, techniques, and skills for effective
treatment.

SWK 600 Field Instruction and Seminar I 3
Application of theories and concepts to professional social work practice
within a field agency. Seminar assists students to integrate theory and
classroom learning into agency practice.
Prerequisites: Admission to the JMSW Program.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

SWK 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course
Schedule for current offerings.

SWK 608 Field Instruction and Seminar II 3
Application of theories and concepts to professional social work practice
within a field agency. Seminar assists students to integrate theory and
classroom learning into agency practice.
Prerequisites: SWK 624.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

SWK 609 Family Theory and Intervention 3
Introduction to family treatment. Course will include assessment and
intervention with families using the structural, strategic, solution-focused,
object relations and narrative theoretical intervention approaches.
Prerequisites: SWK 624.

SWK 618 Social Work and Social Justice 3
This course will teach knowledge and skills students need for social
justice work, including advocacy and community organization, within the
scope of multicultural clinical practice.
Prerequisites: SWK 624.

SWK 619 Foundations of Clinical Social Work Practice 3
Introduction to clinical practice theories and skills including human
development and personality theories, strength-based perspectives,
and an overview of diagnosis and assessment in the service planning
process.

SWK 621 Foundations of Social Work and Social Policy 3
Explores the history and development of social welfare institutions and
social work. Examines the relationships between social problems, social
policies, and social work practice from historical and contemporary
perspectives.
Prerequisites: Admission to the MSW program.
SWK 622 Social Work Practice with Individuals 3
Introduction to direct social work practice. Students gain knowledge, skills and values necessary to provide a wide scope of developmental, preventive and therapeutic services to individuals.
Prerequisites: Admission to the MSW program.

SWK 623 Social Work with Groups 3
Designed to teach group process and strategies, techniques, and skills for working with groups such as support groups and task groups in human services settings.

SWK 624 Social Work Practice and Human Diversity 3
Examines cultural and social diversity; addresses theoretical and practical dimensions of social work practice with oppressed people of color, women, the aged, the sexually diverse, and the physically disabled.
Prerequisites: Admission to the MSW program.

SWK 626 Social Work Research Methods 3
Research methodology as it relates to the professional practice of social work. Examines quantitative and qualitative methods as means for solving social problems.
Prerequisites: SWK 624.

SWK 631 Social Work with Individuals: Theory and Practice 3
Social work assessment and intervention with individuals, including application of developmental theory, personality theories, diagnostic classifications, and social work ethical principles and practice theories.
Prerequisites: Admission to the Advanced Standing program option.

SWK 632 Social Work with Families and Groups 3
Theories related to group and family dynamics and functioning and social work assessment and intervention with families and groups from a multicultural clinical perspective.
Prerequisites: Admission to the Advanced Standing program option.

SWK 634 Research Designs and Data Analysis for Social Work Practice 3
Advanced skills in (a) conceptualizing research problems, (b) completing research in the social work domains: needs assessment, program evaluation, and single subject research, and (c) using inferential skills for data analysis.
Prerequisites: SWK 626.

SWK 640 Field Instruction III 5
Application of theories and concepts to the role of a professional social work practitioner within a field agency. Taken concurrently with SWK 641 Field Seminar III.

SWK 641 Field Seminar III 1
Field seminar to be taken concurrently with SWK 640 Field Instruction III; assists student to integrate theory and classroom knowledge into their agency field practice.

SWK 644 Organizational Context of Clinical Social Work Practice 3
Focuses on a range of organizational and professional issues social workers encounter as clinicians, service providers, and administrators in diverse clinical settings, with emphasis on culturally responsive social work practice.
Prerequisites: SWK 626.

SWK 647 Field Instruction IV 5
Application of theories and concepts to the role of a professional social work practitioner within a field agency.
Prerequisites: SWK 626.
Corequisites: SWK 648 and SWK 653.
Notes: Taken concurrently with SWK 648 Field Seminar IV. Grade: Satisfactory/Unsatisfactory (S/U).

SWK 648 Field Seminar IV 1
Field seminar to be taken concurrently with SWK 647 Field Instruction IV; assists students to integrate theory and classroom knowledge into their agency field practice.

SWK 650 Clinical Assessment in Social Work 3
Skill-building for competency-based assessment and diagnosis using a biopsychosocial social work framework to assess client strengths and disorders.

SWK 651 Advanced School Social Work 3
Skill-building for social work practice in the schools with emphasis on culturally sensitive student assessment and intervention, and professional standards and accountability.
Prerequisites: SWK 624 and SWK 626 or permission of instructor.
Corequisites: SWK 640 or SWK 647 or permission of instructor.

SWK 652 Advanced Clinical Social Work Practice I 3
The first of two advanced level courses in clinical social work practice, this course will focus on building competencies in clinical assessment and diagnosis of mental and substance abuse disorders.
Prerequisites: SWK 626.
Corequisites: SWK 640.

SWK 653 Advanced Clinical Social Work Practice II 3
This second advanced clinical practice course will focus on expanding competencies in clinical assessment and diagnosis of mental and substance abuse disorders, as well as applying culturally responsive clinical interventions.
Prerequisites: SWK 652.
Corequisites: SWK 647.

SWK 654 Special Topics in Social Work 3
Opportunity for students to study in depth topic of special interest. JMSW students only or with permission of instructor. Course may be repeated for a maximum of 6 credit hours.

SWK 680 Financial Health for Individuals, Families, and Communities 3
Through this course, students will gain valuable assessment and intervention skills for helping clients address financial problems such as difficulty meeting basic needs, coping with financial emergencies, and managing debt. Students will also learn how to advocate for clients concerning their collective economic concerns and promote community change to advance economic justice. Students will also gain personal finance knowledge they can apply in their own lives.
Prerequisites: SWK 621.

SWK 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

SWK 799 Dissertation 3
Supervision of a faculty committee, to successfully develop a written dissertation proposal, successfully orally defend it before the committee, then write and orally defend the dissertation.
Prerequisites: SWK 799.

SWK 850 Independent Study 1-3
Intensive independent study of specialized topics.
Prerequisites: JPh.D. student or permission of instructor.
Notes: Course may be repeated for a maximum of 18 credits.
SWK 851 Foundations and Theories of Multiculturally Informed Social Work Research 3
Introduction to foundational theories and approaches to research in social work including critical theories, strength-based perspectives, and multiculturally responsive, theoretical perspectives.
Prerequisites: Admission to the Joint Ph.D. Social Work Program.

SWK 853 Quantitative Methods in Social Work 3
This course will focus on quantitative methods in social work research as an integral part of problem solving and innovating social work practice and college teaching.
Prerequisites: Admission to the Joint Ph.D. Social Work Program.

SWK 854 Qualitative Methods in a Multicultural Context 3
This course introduces doctoral students to the field of qualitative research methods in a multicultural context with a particular focus on the operational issues inherent in conducting qualitative research.
Prerequisites: Admission to the Joint Ph.D. Social Work Program.

SWK 855 Quantitative Data Analysis in Social Work 3
This course includes construction and analysis of data tables, graphs, and charts; interpretation, and application of descriptive and inferential statistics; use of a statistical software program to analyze data.
Prerequisites: Admission to the Joint Ph.D. Social Work Program.

SWK 856 Community-Engaged Research in Social Work 3
Advanced course in approaches, methodology, and methods associated with community-engaged research and inquiry with an emphasis on developing skills in translational research and participatory action research.
Prerequisites: Admission to the Joint Ph.D. Social Work Program.

SWK 885 Issues and Trends in Social Work 3
The purpose of this course is to introduce and critically analyze the current set of Grand Challenges in the social work profession, rethinking them and their relevance to society.
Prerequisites: Admission to the Joint Ph.D. in Social Work program.

SWK 886 Intervention Design to Eliminate Disparities and Promote Social Justice 3
The focus of this course is on developing analytical skills to design, plan, adapt, and test multiculturally-informed interventions to reduce and eliminate social, health, and/or economic disparities, improve outcomes for vulnerable populations, and promote social justice through healthcare, education, human services, and community settings.
Prerequisites: Permission of instructor for master’s students. SWK 851 for Joint Ph.D. students. None for other Ph.D. students in HHS.

SWK 887 Causal Inference in Social Sciences Research 3
A social sciences researcher, often motivated by the pursuit for social justice, needs a sound understanding of the research designs and methodologies that pursue causality. The aim of this course is to introduce students to different methodologies that prioritize the pursuit of causality in social sciences research.

SWK 890 Independent Study 3
Guided readings, research, and individual project work under direction of a faculty member.
Prerequisites: Permission of instructor.

Sociology (SOC)

SOC 101 Introduction to Sociology 3
Scientific study of social behavior including factors involved in functioning and development of human society such as culture, identity, social organization, institutions, stratification, social process, and social change.
MAC: MAC CritThink Soc and BehavSci

SOC 201 Social Problems 3
Analysis of contemporary social problems from a sociological perspective.
MAC: MAC CritThink Soc and BehavSci

SOC 202 Social Problems in Global Context 3
This course examines causes of and responses to critical social problems in different world regions with a focus on the dimensions and impacts of globalization.
MAC: MAC Global and Intercultural

SOC 225 Race, Class, and Gender: Social Inequalities 3
Study of social inequalities, with a particular focus on race, class, and gender.

SOC 290 Social Theory I 3
Introduction to the history, reading, and practice of social theory, with a focus on pre-war texts.
SOC 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

SOC 301 Introduction to Methods and Research 3
Topics include the function of theory in research, concept formation, study design, data collection, and analysis strategies.
CIC: CIC College Writing
Prerequisites: One sociology course or permission of instructor.
Notes: SOC majors only.

SOC 302 Introduction to Data Analysis 3
Application of statistical concepts and procedures to sociological inquiry. Topics include elementary descriptive and inferential procedures and use of computers in data analysis.
Prerequisites: SOC 101 and SOC 301 (or PSC 301 for students double majoring in Sociology and Political Science) and one additional sociology course.
Notes: SOC majors only, except by permission of instructor.

SOC 311 Reading Culture and Society 3
Examines key sociocultural issues through classic literary and cinematic works, emphasizing notions of modernity, the contemporary world, and the relationship they entertain; provides foundational reading and critical thinking skills.
Notes: Same as ATY 311.

SOC 317 Criminal Justice 3
Adjudication of criminal defendants from arrest through appellate process. Special attention given to current issues in administration of justice, e.g., the death penalty, plea bargaining, alternatives to incarceration.
SOC 323 Deviance and Social Control 3
This course takes an institutional approach to analyzing the social control of deviant behaviors and stigmatized social groups, with in-depth discussions of medicine, public health, and the criminal justice system.

SOC 324 Theoretical Analysis of Crime & Deviance 3
Sociological consideration of crime causation, patterns of crime, and responses to crime and other socially defined forms of deviance.
Prerequisites: SOC 222.

SOC 326 The Community 3
Recent changes and current structure of communities, with special attention to urbanization, bureaucratization, industrialization, social class systems, land use, inter-organizational relationships, urban life styles, and community power.
Prerequisites: SOC 101 or SOC 201 or SOC 202, or permission of instructor.

SOC 327 Race and Ethnic Relations 3
Interaction between peoples of differing racial, ethnic, and cultural backgrounds, with comparison of American relationships to those in other parts of the world.

SOC 328 Social Movements 3
Systematic study of such forms of collective social behavior as social movements and revolutions with a strong international and comparative focus.
Prerequisites: SOC 101 or SOC 201 or SOC 202 or permission of instructor.

SOC 329 Sociological Perspectives on Gender 3
Inquiry into status of genders in society with emphasis on structural and institutional relationships as well as socialization and the continuities and discontinuities in gendered displays across the life cycle.
Notes: Same as WGS 329.

SOC 330 Urban Society 3
Analysis of emergence of urban society including formation and growth of urban centers and problems associated with ecological, social, and cultural differentiation within urban settlements.

SOC 332 Law and Society 3
Examines law as a social process that differs from case to case according to the social characteristics of the parties involved. Criminal and civil law are discussed.
Notes: Freshmen must have permission of instructor to register for this course.

SOC 333 Political Sociology 3
Competing perspectives on power, theories of state, political parties, ideologies and institutions. Examination of conflicting political sociological theories of what the state is, how it emerged, and how it develops in relation to class structure, economy, civil society and social movements.
Prerequisites: One course in SOC or permission of instructor.

SOC 335 Sociology of the Family 3
Sociological analysis of the family with particular attention to change, patterns of behavior, and diversity in families.

SOC 338 Sex and Society 3
Study of sexual activity and sexuality from a sociological perspective, including sociological theories and studies of sex, social patterns of sexuality, sex and social institutions, and contemporary sexual practices in society.
Prerequisites: SOC 101 or SOC 329 or SOC 334 or SOC 335.

SOC 340 An Introduction to Cultural Sociology 3
An introduction to cultural sociology and exploration of cultural products and practices, the relationship between culture and society, and issues pertaining to meaning, interpretation, and representation.

SOC 341 Sociological Perspectives on Social Psychology 3
Conceptual frameworks of social psychology for selected topics: theories of social psychology, socialization, social perception, acquisition of self, gender, race and ethnicity, social interaction, and attitude and behavior change.
Prerequisites: SOC 101 and one additional sociology course or permission of instructor.
Notes: May not be taken for credit if student has had SOC 471.

SOC 342 Global Inequalities 3
Examination of social stratification systems and theories, economic prestige, power inequalities, social mobility, and class consciousness.
Prerequisites: SOC 101 and one additional sociology course or permission of instructor.

SOC 344 Global Society 3
Topics in global sociology, with a special focus on countries and regions beyond the U.S. Subjects covered may include politics and states, social policy, historical development of the world-system, international and transnational institutions and processes, development and globalization, and political economy. Application to contemporary social issues is stressed.
Prerequisites: SOC 101 and one additional sociology course or permission of instructor.

SOC 346 Population Problems 3
Sociological study of basic population processes of fertility, migration, and mortality, including examination of problems associated with changing population size, composition, and distribution.
Prerequisites: SOC 101 and one additional sociology course or permission of instructor.

SOC 350 Juvenile Delinquency 3
Course assesses the nature and extent of juvenile participation in unconventional behavior and identification with norms and values promoting delinquency.
Prerequisites: SOC 222.

SOC 362 Sociological Perspectives on Education 3
Introduction to sociological theories and research about how social forces influence schools, inequality and conflict in schools, how schools confer status on people, and how schools are organized and changed.

SOC 364 African American Social Thought 3
An introduction to perspectives advanced by black scholars concerning black power and pride, stratification, social order, culture, intraracial socialization, interaction, mate selection, and consequences of skin-tone variance.

SOC 370 Environmental Sociology 3
Introduction to major sociological theories, perspectives and research useful for understanding environmental issues and environmentalism. Primary focus on the U.S., with some attention to Europe and developing countries.

SOC 371 Race, Ethnicity, and Migration in a Global Context 3
Examination of processes of racialization and ethnic identification, especially in societies outside of the U.S. Special attention to the causes of international migration and its consequences for ethno-racial classification and identification.
SOC 373 Green Criminology 3
Study of harms and crimes against the natural environment and the related impacts on human and non-human animals. Students will assess and analyze the causes and consequences of environmental crime.

SOC 377 Disaster, Self, and Society 3
The anatomy of disasters examined from both anthropological and sociological perspectives. Case studies are presented through several conceptual lenses for clarifying individual, social, cultural, and political responses to catastrophic events.
Prerequisites: 3 s.h. of course work with a prefix of ATY or SOC or permission of instructor.
Notes: Same as ATY 377.

SOC 390 African American Perspectives on Crime 3
An introduction to perspectives in criminology that focus on African American participation in crime and the significance of race for legal sanctioning.
Prerequisites: SOC 222 or SOC 324. SOCI major.

SOC 393 Drugs and Society 3
This course focuses on drug (mis)use as a social phenomenon. We discuss the history of drug (mis)use, causes of drug use, and the development and enforcement of drug laws.
Prerequisites: SOC 101 or SOC 222 or SOC 324.

SOC 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

SOC 419 Gender, Crime, and Deviance 3
Examines key questions in scholarly literature on gender, crime, and deviance: how gender socialization, gender roles, and institutions affect males' and females' offending, deviant behavior, and victimization.
Prerequisites: SOCI major.
Notes: Same as WGS 419. Students cannot receive credit for both SOC 419 and WGS 311.

SOC 420 Family Violence 3
Examines the forms, causes, incidence, and prevention of violence within the family and other intimate relationships.
Prerequisites: Junior or senior standing and sociology major. or permission of instructor.

SOC 421 Seminar in Population and Urban Studies 3
Advanced study of population processes and urban concepts from an interdisciplinary viewpoint. Emphasis on accessing and interpreting data from the U.S. census and other sources.

SOC 422 Crimes of the Powerful 3
Study of the types, causes, consequences, and control of white-collar crime.
Prerequisites: SOC 222 or SOC 324, or permission of the instructor.

SOC 425 Contemporary Gangs in America 3
Examines the nature and extent of gang membership in America: activities of cliques, near groups, cultural gangs, and established gangs.

SOC 426 Comparative Minority Relations 3
Comparative study of ethnic, class, and cultural conflict in developing and developed societies. Attention is given to the impact of ethnicity and class conflict upon societal development and change in the international setting.

SOC 429 Collective Violence and Nonviolence in Global Perspective 3
Study of social dynamics underlying events of collective violence and collective nonviolence globally and historically. Explores why contentious politics take a violent turn sometimes and a nonviolent turn at other times.
Prerequisites: Junior standing or permission of instructor.

SOC 434 Considering Ourselves as Offenders, Victims and Survivors 3
Using biographical history, the course will highlight connections between individual identity, ideologies and socio-political context, especially as they relate to the labels of offenders, victims and survivors.
Prerequisites: SOC 290 and SOC 324, and 3 hours of additional Sociology course credit or permission from instructor. Sociology majors and minors.

SOC 441 The Real You 3
Study of the social factors that impact contemporary culture and the individual's sense of self and identity.
Prerequisites: SOC 101, SSC 301, or permission or the instructor.

SOC 452 Sociology of Science and Technology 3
Nature and origins of modern science; relations of science and technology; science in democratic and authoritarian societies; images of scientists; origins and recruitment of scientists; career patterns; the organizational setting.
Prerequisites: 3 s.h. in sociology and 3 s.h. in psychology, or permission of instructor.

SOC 471 Advanced Topics in Social Psychology 3
Study of social dynamics underlying events of collective violence and the significance of race for legal sanctioning.
Prerequisites: Junior standing and sociology major. or permission of instructor.

SOC 477 Disaster, Self, and Society 3
Examines key questions in scholarly literature on gender, crime, and deviance: how gender socialization, gender roles, and institutions affect males' and females' offending, deviant behavior, and victimization.
Prerequisites: SOCI major.
Notes: Same as WGS 419. Students cannot receive credit for both SOC 419 and WGS 311.

SOC 490 Social Theory II 3
Introduction to the history, reading, and practice of social theory, with a focus on post-war texts.
CIC: CIC College Writing
Prerequisites: SOC 290.

SOC 493 Honors Independent Study 3-6
Opportunity for Honors students to have directed instruction on problems of special interest.
Prerequisites: Permission of instructor. 3.30 GPA in the major, 12 s.h. in the major;
Notes: May be repeated for credit if the topic of study changes.

SOC 497 Independent Study 2-3
Opportunity for students to have directed instruction on problems of special interest.
Prerequisites: Permission of faculty member with whom student wishes to work.
Notes: May be repeated for up to 6 hours credit.

SOC 498 Research Experience in Sociology 2-3
Opportunity for students to have directed instruction on problems of special interest.
Prerequisites: Permission of faculty member with whom student wishes to work.
Notes: May be repeated for up to 6 hours credit.
**SOC 499 Internship in Sociology 3-6**
Undergraduate students will complete at least 120 internship hours (graduate students, at least 300 hours) with a local public sector agency, and through the application of sociological concepts, will examine interpersonal, organizational, and public policy issues.

**Prerequisites:** Graduate standing, junior or senior standing; Sociology major; minimum 2.80 GPA; 3 letters of recommendation (at least one must be from the Sociology faculty).

**SOC 527 Social Conflict and Social Change 3**
This course introduces salient topics about social conflict and social change. It discusses origins, characteristics, and transformation of social conflict by focusing on both group level processes and structural factors.

**SOC 552 Sociology of Science and Technology 3**
Nature and origins of modern science; relations of science and technology; science in democratic and authoritarian societies; images of scientists; origins and recruitment of scientists; career patterns; the organizational setting.

**SOC 571 Advanced Topics in Social Psychology 3**
Social impact, exchange, equity, and attribution theories intensively examined as basic in understanding specific substantive problems of reciprocal influences of groups and individuals in socio-cultural context.

**Prerequisites:** 3 credit hours in sociology and 3 credit hours in psychology or permission of instructor.

**SOC 593 Thesis Proposal Seminar 3**
Provides an overview of sociological theory, epistemological issues, and research design; leads to a written thesis proposal.

**SOC 599 Internship in Sociology 3-6**
Students will complete at least 300 internship hours with a local public sector agency, and through the application of sociological concepts, will examine interpersonal, organizational, and public policy issues.

**Prerequisites:** Sociology major, minimum 2.80 GPA, 3 letters of recommendation (at least one must be from the Sociology faculty).

**SOC 600X Experimental Course 1-6**
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

**SOC 601 Seminar in Criminological Analysis 3**
Intensive work at an advanced level on a selected topic in the sociology of crime and social deviance.

**SOC 614 Social Theory 3**
Advanced seminar in the history, reading, and practice of social theory.

**SOC 616 Advanced Research Methods 3**
The function of theory in research, concept formation, study design, data collection and analysis.

**SOC 617 Ethnography 3**
Provides students with the tools necessary to use ethnographic methods, including practical training, epistemological and ethical issues, and the history of ethnography in sociology.

**Notes:** Graduate standing.

**SOC 618 Advanced Data Analysis 3**
Application of advanced statistical concepts and procedures in multivariate analyses of discrete and continuous data.

**Prerequisites:** SOC 302 or permission of instructor.

**SOC 628 Social Movements 3**
Systematic study of forms of collective social behavior, contentious politics, social movements and revolutions with a global and comparative-historical focus.

**SOC 636 Seminar in Social Inequalities: Theory and Research 3**
Basic systems of social stratification. Theoretical and methodological trends.

**SOC 640 Cultural Sociology 3**
Graduate seminar in cultural sociology; an exploration of cultural products and practices, the relationship between culture and society, theories of culture, and issues pertaining to meaning, interpretation, and representation.

**SOC 644 Sociology of Globalization 3**

**SOC 646 Teaching and Learning Sociological Concepts 3**
Goals, methods, and evaluation in teaching and learning sociology at the college level. Students prepare course objectives and outlines, select instructional materials, and present demonstration lectures and discussions.

**SOC 651 Criminology 3**
Critical examination of central sociological formulations of criminal behavior and victimization, and societal responses to each; integration of theories of criminal behavior with appropriate research strategies for theory advancement.

**Prerequisites:** Six hours of sociology at 300-level or permission of instructor.

**SOC 653 Social Control 3**
Theoretical and empirical analysis of institutions of social control through an examination of societal responses to groups and behaviors labeled as deviant.

**Prerequisites:** Six credit hours of sociology at 300-level or permission of instructor.

**SOC 695 Internship 3-6**
Directed practical experience in a professional setting in the student's area of interest. Includes written paper(s) applying sociological theories and methodologies to analysis of the setting.

**Prerequisites:** 21 hours in sociology at 500-level or above.

**SOC 697 Special Problems in Sociology 3**
Independent study or research.

**SOC 698 Research Experience in Sociology 3**
Independent research.

**Prerequisites:** Permission of faculty member with whom students wish to work.

**SOC 699 Thesis 1-6**
Individual guidance in the development of a specific research problem.

**SOC 750X Experimental Course 1-6**
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

**SOC 801 Thesis Extension 1-3**
Thesis Extension.

**SOC 803 Research Extension 1-3**
Spanish (SPA)

SPA 101 Beginning Spanish I 3
Introduction to the Spanish language and the cultures of the Spanish-speaking world. Emphasis on active listening, speaking, writing, and reading, and applied vocabulary. Equivalent to SPA 121; students may not receive credit for both SPA 101 and SPA 121.
MAC: MAC Global and Intercultural
Prerequisites: None.
Notes: Students with previous knowledge of Spanish are required to take the placement test. Students who are native or heritage speakers of Spanish MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.

SPA 102 Beginning Spanish II 3
Continued study of the Spanish language and the cultures of the Spanish-speaking world at the introductory level. Emphasis on active listening, speaking, writing, and reading, and applied vocabulary.
MAC: MAC Global and Intercultural
Prerequisites: SPA 101 or SPA 121 or met this level by the placement test.
Notes: Students with previous knowledge of Spanish are required to take the placement test. Students who are native or heritage speakers of Spanish MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.

SPA 103 Intensive Beginning Spanish 4
Study of Spanish and the cultures of the Spanish-speaking world. Emphasis on active listening, speaking, writing, and reading, and applied vocabulary. Review of SPA 101 combined with SPA 102.
Prerequisites: Minimum of one year of high school Spanish and placement test or permission of department.
Notes: This class is complemented by one hour of online instruction/practice. Students with previous knowledge of Spanish are required to take the placement test. Students who are native or heritage speakers of Spanish MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for SPA 102 (or equivalent), an equivalent or higher-level course or have been placed into a higher-level course.

SPA 105 Applied Beginning Spanish 3
Intensive practice in beginning Spanish. Active use of language skills: listening, speaking, writing, reading. Review and further study of basic Spanish structures and vocabulary. Includes study of cultural topics.
MAC: MAC Global and Intercultural
Prerequisites: This course is only open to students with transfer credit for SPA 101 and SPA 102 or institutional credit that is at least 5 years old who elect or need to take another class in beginning-level Spanish, and who are seeking to improve their oral communication skills in Spanish before continuing to SPA 203 or students with departmental permission.
Notes: SPA 105 does not count toward the College Foreign Language requirement. Students who are native or heritage speakers of Spanish MUST obtain permission from the instructor before enrolling in the course.

SPA 121 Basic Spanish for Teachers 3
Designed for teacher licensure candidates; students who successfully complete SPA 121 will be able to communicate with Spanish-speaking students and their families at a basic conversational level.
Prerequisites: Junior or senior standing in the Teacher Education Program.
Notes: Equivalent to SPA 101. students may not receive credit for both SPA 101 and SPA 121. Students with previous knowledge of Spanish are required to take the placement test. Students who are native or heritage speakers of Spanish MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.

SPA 201 Applied Intermediate Spanish 3
Intensive practice in spoken intermediate low Spanish. Active use of language skills (listening, speaking, writing, and reading). Study of intermediate low Spanish structures and vocabulary. Further discussion of cultural topics.
Prerequisites: This course is only open to students with transfer credit for SPA 203 or institutional credit that is at least 5-years old who elect or need to take another class in intermediate-low level Spanish and who are seeking to improve their oral communication skills before continuing to SPA 204, or students with departmental permission.
Notes: SPA 201 does not count towards the College Foreign Language requirement. Students who are native or are heritage speakers of Spanish MUST obtain permission from the instructor before enrolling in the course.

SPA 203 Intermediate Spanish I 3
Intermediate-level study of the Spanish language and cultures of the Spanish-speaking world. Emphasis on active listening, speaking, writing, and reading, and applied vocabulary.
MAC: MAC Global and Intercultural
Prerequisites: SPA 102 or equivalent or met this level by the placement test.
Notes: Students with previous knowledge of Spanish are required to take the placement test. Students who are native or heritage speakers of Spanish MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.

SPA 204 Intermediate Spanish II 3
Continued study of the Spanish language and cultures of the Spanish-speaking world at the intermediate level. Emphasis on active listening, speaking, writing, and reading, and applied vocabulary.
MAC: MAC Global and Intercultural
Prerequisites: SPA 203 or SPA 240 or equivalent or met this level by the placement test.
Notes: Students with previous knowledge of Spanish are required to take the placement test. Students who are native or heritage speakers of Spanish MUST obtain permission from the instructor before enrolling in the course. No academic credit will be given without department permission if students have already earned credit for an equivalent or higher-level course or have been placed into a higher-level course.

SPA 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.
SPA 301 Spanish Language and Cultures 3
An opportunity to increase proficiency in oral and written language skills while extending knowledge of Hispanic culture. A bridge course required for advanced work in all areas.
Prerequisites: SPA 204 or departmental permission.
Notes: Students cannot receive credit for both SPA 301 and SPA 302.

SPA 302 Spanish Language and Cultures for Heritage Speakers 3
Advanced Spanish grammar and strong emphasis on literacy-building and culture in this language. For heritage speakers only.
Notes: Students cannot receive credit for both SPA 301 and SPA 302.

SPA 310 Advanced Spanish Language and Cultures for Heritage Speakers 3
Continued literacy building in Spanish with a focus on advancing oral and writing skills. Students will engage with the local Latino community through service-learning.
Prerequisites: SPA 302 or departmental permission.
Notes: For heritage speakers only.

SPA 311 Views of the Hispanic World Through Intermediate Conversation 3
Intensive and methodical training in spoken Spanish.
Prerequisites: SPA 204 or permission of instructor.

SPA 313 Views of the Hispanic World Through Intermediate Conversation Abroad 1-3
Intensive formal and informal training in Spanish conversation in a Spanish or Latin American setting. Offered only in UNCG Program Abroad.
Prerequisites: SPA 204 or permission of instructor.
Notes: May be repeated up to three times for credit.

SPA 315 Intermediate Spanish Composition 3
Intensive study of grammar and idiom. Formal and informal writing.
CIC: CIC College Writing
Prerequisites: SPA 301 or SPA 302 or departmental permission.

SPA 317 Foundations in Hispanic Cultures, Literatures, and Films 3
Introduction to Hispanic cultures and histories through literature, film, and other cultural practices. Development of skills in Spanish.
Prerequisites: SPA 204 or departmental permission.

SPA 318 Intermediate Spanish Composition for Heritage Speakers 3
Emphasis on expansion of bilingual range in reading and writing. Course develops informal and formal writing skills through exploration of contemporary social and cultural topics.
CIC: CIC College Writing
Prerequisites: SPA 302 or departmental permission. Permission of course instructor required;
Notes: For heritage speakers only.

SPA 321 Spanish in a Public School Setting 3
Field experience in a public school setting that requires interaction with native speakers of Spanish. This course has a service-learning designation.
Prerequisites: SPA 204 or SPA 241 or equivalent or departmental permission.

SPA 332 Foundations in Spanish Cultures, Literatures and Films 3
Introduction to the culture of Spain. Selected readings on the culture by noted Spanish authors, films, slides with classroom discussion.
CIC: CIC College Writing
Prerequisites: SPA 204 or departmental permission.

SPA 334 Foundations in Latin American Cultures, Literatures and Films 3
Introduction to the culture of Spanish America. Selected writings by noted Spanish American authors, films, slides with classroom discussion.
CIC: CIC College Writing
Prerequisites: SPA 204 or departmental permission.

SPA 342 Introduction to Hispanic Linguistics 3
Introduction to the scientific study of Spanish, covering the core linguistic sub-fields (phonetics, phonology, morphology, syntax, semantics, and pragmatics) to understand Spanish language use and analysis in real-world contexts.
Prerequisites: SPA 301 or SPA 302, or departmental permission.

SPA 351 Introduction to Literary Studies 3
Reading of representative Hispanic texts, by genres. Attention will be given to basic vocabulary, concepts and techniques of literary analysis.
CIC: CIC College Writing
Prerequisites: SPA 301 or SPA 302, or permission of the department.

SPA 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

SPA 401 Special Topics in Language and Literature 3
Directed study and research in language and literary topics of special interest to the locale of the UNCG Study Abroad Program in a Spanish-speaking country.
Prerequisites: SPA 315 and SPA 351 and departmental permission.
Notes: May be repeated for credit when topic varies.

SPA 406 Topics in Latin American Literature 3
Topics in Latin American literature that explore the development of literary genres and themes, with attention to cultural and historical background as well as techniques of literary analysis.
CIC: CIC College Writing
Prerequisites: SPA 315 or SPA 318 and SPA 351, or permission of the department.
Notes: May be repeated once for credit when topic varies.

SPA 407 Topics in Spanish Literature 3
Topics in Spanish Literature that explore the development of literary genres and themes, with attention to cultural and historical background as well as techniques of literary analysis.
CIC: CIC College Writing
Prerequisites: SPA 315 or SPA 318 and SPA 351, or permission of the department.
Notes: May be repeated once for credit when topic varies.

SPA 409 Topics in Literature from the Spanish Speaking World 3
Topics in Literatures from the Spanish Speaking World explores the development of literary genres and/or themes, with attention to cultural and historical background as well as techniques of literary analysis in Spanish.
CIC: CIC College Writing
Prerequisites: SPA 315 or SPA 318 and SPA 351, or permission of the department.
Notes: May be repeated once for credit when topic varies.

SPA 411 Cultural Expressions in the Hispanic World Through Advanced Conversation 3
Further intensive and methodical training in spoken Spanish.
Prerequisites: SPA 310 or SPA 311 or SPA 313 or SPA 317 or SPA 332 or SPA 334, or permission of the department.
SPA 415 Advanced Spanish Composition 3
Intensive practice in the written and spoken language, focusing on refinements in structure, vocabulary development, informal conversation, and formal writing styles.
CIC: CIC College Writing  
Prerequisites: SPA 315 or SPA 318 or permission of the department.

SPA 417 Topics in Hispanic Cultures, Literatures and Films 3
Development of Hispanic cultures and histories through literature, film and other cultural practices. Further skills training in Spanish.
Prerequisites: SPA 315 or SPA 318 and SPA 351, or permission of the department.  
Notes: May be repeated once for credit when topic varies.

SPA 432 Seminar in Spanish Cultures, Literatures and Films 3
Major topics in Spanish culture, history, and civilization. Special emphasis on the development of customs, national traits, cultural movements, and institutions.
Prerequisites: SPA 351 and SPA 415 and one of the following courses: SPA 401 or SPA 406 or SPA 407 or SPA 409 or SPA 417 or SPA 442, or permission of the department.  
Notes: May be repeated once for credit when topic varies.

SPA 435 Seminar in U.S. Latino/Latina Cultural Studies 3
An examination of issues relating to U.S. Latino/Latina ethnic identity as defined in literature, performance, art, music, and film. Special emphasis given to the dialogue with the English-speaking community.
Prerequisites: SPA 351 and SPA 415 and one of the following courses: SPA 401 or SPA 406 or SPA 407 or SPA 409 or SPA 417 or SPA 442, or permission of the department.  
Notes: May be repeated once when topic varies for a total of 6 s.h.

SPA 436 Seminar in Latin American Cultures, Literatures and Films 3
Major topics in Spanish culture, history, and civilization. Special emphasis on the development of customs, national traits, cultural movements, and institutions.
Prerequisites: SPA 351 and SPA 415 and one of the following courses: SPA 401 or SPA 406 or SPA 407 or SPA 409 or SPA 417 or SPA 442, or permission of the department.  
Notes: May be repeated once for credit when topic varies.

SPA 442 Topics in Hispanic Linguistics 3
Studies in topics of Hispanic linguistics. Exploration of linguistic theoretical frameworks, methodologies, and current scholarship.
Prerequisites: SPA 342 or permission of the department.  
Notes: May be repeated once for credit when topic varies.

SPA 443 Spanish in the U.S. 3
This course will study Spanish in its socio-cultural context as a language of the U.S. and examine the Spanish linguistic characteristics of different Spanish-speaking communities across the U.S., such as those in New York, Chicago, Miami, Los Angeles, the Southeast, the Southwest, etc.
Prerequisites: SPA 342 or permission of the department.

SPA 445 Spanish Phonetics 3
Spanish phonetics and intonation. Students learn to read and write symbols for sounds and inflections of Spanish and study mechanics of production of these sounds, accompanied by intensive drill in pronunciation and intonation.
Prerequisites: SPA 342 or permission of the department.

SPA 446 Seminar in Hispanic Linguistics 3
Selected topics of Hispanic linguistics. Students delve into the study of Pragmatics/Sociolinguistics/Spanish linguistics, discourse analysis and the analysis of Spanish in context or in contact with other languages.
Prerequisites: SPA 342.  
Notes: May be repeated once for credit when topic varies.

SPA 452 Seminar in Spanish Literature 3
In-depth studies, through a variety of critical and historical approaches, based on themes, geographical areas, outstanding figures, genres, or periods.
Prerequisites: SPA 351 and SPA 415 and one of the following courses: SPA 401 or SPA 406 or SPA 407 or SPA 409 or SPA 417 or SPA 442, or permission of the department.  
Notes: May be repeated for credit when topic varies.

SPA 454 Seminar in Latin American Literature 3
In-depth studies, through a variety of critical and historical approaches, based on geographical areas, outstanding figures, genres, or periods.
Prerequisites: SPA 351 and SPA 415 and one of the following courses: SPA 401 or SPA 406 or SPA 407 or SPA 409 or SPA 417 or SPA 442, or permission of the department.  
Notes: May be repeated for credit when topic varies.

SPA 459 Seminar in Literatures from the Spanish Speaking World 3
This seminar explores the development of the literary genres and themes, examining similarities and differences across major areas of the Spanish-speaking world while exploring a variety of critical and historical approaches.
Prerequisites: SPA 351 and SPA 415 and one of the following courses: SPA 401 or SPA 406 or SPA 407 or SPA 409 or SPA 417 or SPA 442, or permission of the department.  
Notes: May be repeated once for credit when topic varies.

SPA 462 Seminar in Film Genre 3
Technical, dramatic, social, and rhetorical dimensions of a film genre or genre. Subject differs from offering to offering.
Prerequisites: SPA 351 and SPA 415 and one of the following courses: SPA 401 or SPA 406 or SPA 407 or SPA 409 or SPA 417 or SPA 442, or Departmental permission.  
Notes: May be repeated for credit when the topic varies. Same as FRE 463, ITA 418.

SPA 493 Honors Work 3-6
Honors Work.
Prerequisites: Permission of instructor. 3.30 GPA in the major, 12 s.h. in the major;  
Notes: May be repeated for credit if the topic of study changes.

SPA 497 Directed Study in Spanish Language 3
Directed study and research in Spanish language.
Prerequisites: Departmental permission required.  
Notes: May be repeated for credit when topic varies.

SPA 498 Directed Study in Hispanic Cultures and/or Literatures 3
Directed study and research in literary topics.
Prerequisites: Departmental permission required.  
Notes: May be repeated for credit when topic varies.

SPA 499 Internship in Spanish 3
Prerequisite: Min. 15 hours of Spanish above the 204 level; Min. 3.0 GPA; written permission of instructor;  
Notes: Must be planned and requested one semester prior to placement.
SPA 502 Selected Topics in Spanish Literature 3
In-depth studies, through a variety of critical and historical approaches, based on themes, geographical areas, outstanding figures, genres, or periods.
Notes: May be repeated for credit when topic varies.

SPA 504 Selected Topics in Latin American Literature 3
In-depth studies, through a variety of critical and historical approaches, based on geographical areas, outstanding figures, genres, or periods.
Notes: May be repeated for credit when topic varies.

SPA 509 Selected Topics in Literatures from the Spanish-Speaking World 3
Topics explore the development of literary genres and themes, examining similarities and differences across major areas of the Spanish-speaking world while exploring a variety of critical and historical approaches.

SPA 532 Selected Topics in Spanish Cultures, Literatures, and Films 3
Major topics in Spanish culture, history, and civilization. Special emphasis on the development of customs, national traits, cultural movements, and institutions.
Notes: May be repeated for credit when topic varies.

SPA 534 Selected Topics in Latin American Cultures, Literatures, and Films 3
Major topics in Spanish culture, history, and civilization. Special emphasis on the development of customs, national traits, cultural movements, and institutions.
Notes: May be repeated for credit when topic varies.

SPA 535 Selected Topics in U.S. Latino/Latina Cultural Studies 3
An examination of issues relating to U.S. Latino/Latina ethnic identity as defined in literature, performance, art, music, and film. Special emphasis given to the dialogue with the English-speaking community.
Notes: May be repeated for credit when topic varies.

SPA 546 Selected Topics in Hispanic Linguistics 3
Selected topics of Hispanic linguistics. Students delve into the study of Pragmatics/Socilinguistics/Spanish linguistics, discourse analysis and the analysis of Spanish in context or in contact with other languages.

SPA 562 Studies in Film Genre 3
Technical, dramatic, social, and rhetorical dimensions of a film genre or genres. Subject differs from offering to offering.
Prerequisites: Departmental permission.
Notes: May be repeated for credit when the topic varies. Same as FRE 562, ITA 518.

SPA 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

SPA 603 Seminar in Spanish Literature 3
Advanced study and investigation of current scholarship on a topic of Spanish literature.
Prerequisites: LLC 601 or permission of department.
Notes: May be repeated for credit when topic varies.

SPA 604 Seminar in Spanish American Literature 3
Advanced study and investigation of current scholarship on a topic of Spanish American literature.
Prerequisites: LLC 601 or permission of department.
Notes: May be repeated for credit when topic varies.

SPA 605 Seminar in Hispanic Linguistics 3
Advanced study and investigation of current scholarship on a topic of Hispanic linguistics.
Prerequisites: Permission of department.
Notes: May be repeated for credit when topic varies.

SPA 693 Special Topics in Spanish Language and/or Literature 3
Study of Hispanic language and literature.
Prerequisites: Permission of instructor and Director of Spanish Graduate Study.

SPA 695 Directed Study 3
Directed program of reading or research in an area of special interest in Hispanic studies. Regular conferences with the instructor will be scheduled.
Prerequisites: Permission of instructor and Director of Spanish Graduate Study.

SPA 699 Thesis 1-6
Individual research for the completion of a thesis.

SPA 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

SPA 801 Thesis Extension 1-3
Thesis Extension.

SPA 803 Research Extension 1-3

Specialized Education Services (SES)

SES 100 Visual Gestural Communication 2
Development of skills in nonverbal communication. Topics of spatial awareness, visual processing skills, and the use of facial expression, gestures, pantomime, and body language as it pertains to interpreting.
Prerequisites: SES 101 recommended.

SES 101 American Sign Language I 3
American Sign Language (ASL) with emphasis on the development of basic receptive and expressive skills. ASL grammar will be covered to develop rudimentary conversational skills in ASL. Introduction to Deaf culture and community.
Prerequisites: Professions in Deafness major.
Corequisites: SES 245.
Notes: May not receive credit for both ASL 101 and SES 101.

SES 102 American Sign Language II 3
Development of conversational skills in American Sign Language (ASL). Review of origin and application of contemporary manual communication systems.
Prerequisites: SES 101. Professions in Deafness major.

SES 200 People with Disabilities in American Society 3
Exploration of the treatment of people with disabilities in American society from a personal, historical, political, and social perspective, including related legislation, portrayal in popular media, and contemporary issues.

SES 203 American Sign Language III 3
Continuation of Sign Language II with an increased emphasis on expressive skills, receptive skills, linguistic knowledge, and integration of cultural behaviors in conversational settings.

SES 204 American Sign Language IV 3
Continuation of American Sign Language III with an increased emphasis on expressive skills, linguistic knowledge, and integration of cultural behaviors in conversational settings. Community lab hours required.
SES 240 Communication Development in Children 3
Psychosociolinguistic and developmental processes in the acquisition of communication in typically developing children. Emphasis on interpersonal communication patterns in diverse cultures that contribute to and influence social interaction.
MAC: MAC CritThink Soc and BehavSci
Notes: Students cannot receive credit for both this course and CSD 308.

SES 242 Introduction to Exceptional Children: Early Years 3
Provides an overview to early childhood special education. Issues related to legislation, identification, characteristics, family roles, and programmatic concerns will be addressed.
MAC: MAC CritThink Soc and BehavSci

SES 244 Cognitive Processing Skills for Interpreting 3
Development of cognitive processing skills within ASL and English. Abilities to manipulate with accuracy two languages involved in the interpreting process in order to interpret a message accurately.
Prerequisites: SES 101. PRDF major.

SES 245 History and Culture of the Deaf Community 3
Introduction to the diverse members of the Deaf Community with emphasis on Deaf people as a linguistic and cultural minority. Focus is on historical, educational, political, social, and vocational issues.
Prerequisites: PRDF major
Notes: May not receive credit for both ASL 245 and SES 245.

SES 250 Introduction to Professions in Specialized Education 3
Study of fundamental concepts on teaching and learning, applicable to educational services to students with disabilities. Particular emphasis is given to teachers' perspectives with required field experience in schools.

SES 251 Introduction to Deaf Education 3
An introduction to professional standards, ethics and expectations in Deaf Education, while also exploring historical/cultural perspectives and service delivery options for students who are deaf/hard of hearing.

SES 252 Survey of Learning and Behavior Differences 3
Overview of learning and behavior differences as related to special education. Addresses etiology prevalence, characteristics, diagnosis, and treatment. Historical and legal aspects of educational programs also are addressed.
MAC: MAC Written Communication
Prerequisites: SES 250 or permission of instructor. admission to the Teacher Education Program.

SES 270 Fingerspelling and Numbers in ASL 2
Provides concentrated instruction and practice in fingerspelling and numbers as used in ASL. Assists students in acquiring fluent fingerspelling ability through the use of receptive and expressive skills.
Prerequisites: SES 102 or permission of instructor.

SES 296 Study Abroad for Global Engagement: Field Experience 1
Second of three courses taken in conjunction with a UNCG Study Abroad Exchange. Online individual study focusing on the field experience and appropriate engagement in international, intercultural, and/or multicultural contexts.
Prerequisites: IGS 295. Acceptance to a UNCG Study Abroad Exchange Program;
Notes: May repeated up to three times (for three different exchange experiences) for credit when topic varies for a total of 3 s.h.; however, may apply only once toward Liberal and Interdisciplinary Studies, B.A.: IGS concentration requirements; Grade: Pass/Not Pass (P/NP); Same as IGS 296, TED 296.

SES 297 Study Abroad for Global Engagement: Re-Entry Reflections and Applications 1
Third of three courses taken in conjunction with a UNCG Study Abroad Exchange. Focus on the re-entry and re-acclimation processes and the integration of intercultural development into future contexts.
Prerequisites: IGS 296. Acceptance to a UNCG Study Abroad Exchange Program;
Notes: May repeated up to three times (for three different exchange experiences) for credit when topic varies for a total of 3 s.h.; however, may apply only once toward Liberal and Interdisciplinary Studies, B.A.: IGS concentration requirements; Grade: Pass/Not Pass (P/NP); Same as IGS 297, TED 297.

SES 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

SES 305 American Sign Language: English Translation 3
A continuation of the grammatical aspects of ASL with emphasis on conceptualization. Beginning translation activities including famous quotes, speeches, pledges, and songs.
Prerequisites: PRDF or SPED or SPEL major. SES 204 or permission of instructor.

SES 306 Advanced Narrative Structures and Storytelling in American Sign Language 3
Narrative skills will be enhanced by using fairy tales and folktales to free students up to imagine, develop characters, identify basic storytelling techniques and formal presentations in ASL.
Prerequisites: SES 305 or permission of instructor.

SES 315 Assessment and Planning for Inclusive B-K Programs 4
Theoretical, practical, ethical issues in observing, assessing, and planning for young children with and without disabilities. Individualized approaches for program planning and monitoring development are integrated.
Prerequisites: HDF 111, HDF 112, and HDF 202. Pr. or Coreq.: SES 242 and HDF 250;
Notes: Same as HDF 315.

SES 321 Seminar/Practicum with Deaf Students I 3
The field component of the Birth–12 Deaf and Hard-of-Hearing Teacher Preparation program; allows students to work in various settings with students who are Deaf and process these experiences in a weekly seminar.
Prerequisites: Admission to the Teacher Education Program.

SES 333 Special Projects 1-3
Guided individual study in an area of special interest to the student.
Prerequisites: Permission of faculty supervisor.
Notes: May be repeated for credit.

SES 340 Strategies for Teaching Students with Disabilities in General Education Settings 3
Provides teacher candidates with essential knowledge and skills for understanding and addressing academic and behavioral needs of students with disabilities in their classrooms.
Prerequisites: TED 250 and/or admission to the Teacher Education Program and/or permission of instructor.
SES 341 Social Emotional Competence in Inclusive Settings 3
Social, emotional, and physical environments of inclusive early childhood settings (birth to kindergarten) and their role in promoting optimal development and successful learning.
**Prerequisites:** HDF 111, HDF 112, and HDF 202. Pr. or Coreq.: SES 242 and HDF 250;
**Notes:** Same as HDF 341.

SES 350 Interprofessional and Instructional Field Experience 1 3
Field component of special education teacher preparation program. Provides opportunities for teachers to apply their knowledge and skills in a variety of settings with students with disabilities.
**Prerequisites:** SES 250 or TED 250 or permission of instructor. admission to the Teacher Education Program.

SES 351 Interprofessional and Instructional Field Experience 2 3
Second in a series of field-based components of special education teacher preparation program. Provides opportunities for teachers to apply their knowledge and skills in a variety of settings with students with disabilities.
**Prerequisites:** SES 250 or TED 250 or permission of instructor. admission to the Teacher Education Program.

SES 352 Interprofessional and Instructional Field Experience 3 3
Third field-based component of special education teacher preparation program. Provides opportunities for teachers to apply their knowledge and skills in a variety of settings with students with disabilities.
**Prerequisites:** SES 250 or TED 250 or permission of instructor. admission to the Teacher Education Program.

SES 353 Lesson Design for Deaf Learners 3
Foundational knowledge and strategies for creating effective, appropriate and inclusive research-based lesson plans for K-12 learners who are deaf or hard of hearing.
**Prerequisites:** Admission to the Teacher Education Program.

SES 357 The Profession of Interpreting 3
An overview of the profession of interpreting including its history, organizations, guidelines for ethical decision-making, conduct, basic business practices, roles and responsibilities, legislative issues, health concerns, and certification requirements.

SES 360 Assessment for Exceptional Learners 3
Formal and informal assessment approaches for identification and eligibility for special education for students who access the general curriculum. Strategies for planning and evaluating programs for students receiving special education.
**Prerequisites:** SES 250 or TED 250, SES 252, or permission of instructor. admission to the Teacher Education Program.

SES 361 Language and Emergent Literacy: Foundational Skills for Teaching Reading 3
This course will provide a foundation in language and emergent literacy skills necessary to teach reading. The purpose of the course is to provide students with a breadth of knowledge in the areas of language development and acquisition (birth through school age), including typical development, major contributing theoretical foundations, links between language and literacy and other developmental areas, and characteristics of children with at risk conditions or disabilities and from culturally and linguistically diverse families. This course is designed to provide students with practical knowledge and experience that will reflect their knowledge of all components of language development and the impact this knowledge has on effective teaching practices.
**Prerequisites:** Admission to teacher education. 3.0 GPA.

SES 366 Discourse Analysis: English/American Sign Language 3
Analyzing discourse in English and American Sign Language (ASL) toward an awareness of language features. Theoretical notions underlying language are presented, discussed, and applied through feature transcription and analysis.
**Prerequisites:** SES 204 and SES 369.

SES 369 Linguistics of American Sign Language 3
Provides an introduction to sociolinguistics and the linguistic structures of American Sign Language including phonology, morphology, syntax, and pragmatics through lecture and analysis of native ASL users.

SES 370 American Sign Language/Deaf Literature 3
Study of literature by deaf authors and poets. Videotapes and reading selections pertaining to everyday lives of deaf people including ABC and number stories, residential stories, and ASL poetry.
**Prerequisites:** SES 204 or permission of instructor.

SES 378 Language Teaching Methods with Deaf Students 3
Principles and strategies for developing English language proficiency in deaf and hard of hearing students. Emphasis on integration of English instruction with academic content.
**Prerequisites:** 2.75 overall GPA. SES 240; admission to the Teacher Education Program or permission of instructor.

SES 381 Bilingual Methods for Teaching Deaf Students 3
To prepare the student to teach deaf/hard-of-hearing children/youth via a bilingual approach (American Sign Language [ASL]/English). Focus is on increasing ASL literacy, English literacy and oracy, and integrated content instruction. Designed for students possessing a theoretical foundation in first and second language acquisition, bilingual education, ESL, linguistics, and cognitive development.
**Prerequisites:** SES 204 or ASLPI Level 2 Score. admission to the Collaborative for Educator Preparation (CEP) or permission of instructor.

SES 385 Structure of English & ASL 3
To review and analyze linguistic structures (commonly known as “parts of speech”) in both American Sign Language (ASL) and English. Focus is on understanding and teaching language to deaf/hard-of-hearing children and youth via a bilingual (ASL/English) approach. Designed for students who have proficiency in ASL and English.
**Prerequisites:** SES 204 or ASLPI Level 2 Score. admission to the Collaborative for Educator Preparation (CEP) or permission of instructor.

SES 396 Transition Planning and School-Based Entrepreneurship 3
This course will provide a background in transition planning for students with disabilities. Emphasis is placed on career development and transition services and entrepreneurial efforts in schools and communities.
**Prerequisites:** SES 204 or ASLPI Level 2 Score. admission to the Collaborative for Educator Preparation (CEP) or permission of instructor.

SES 400 Perspectives on the Global Deaf Community 3
Global perspectives of deaf people in other countries including perspectives on identity, language, human rights issues, education, advocacy, and social and economic self-sufficiency.
**Prerequisites:** SES 204, SES 245, SES 370, and permission of instructor.

SES 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.
**SES 401 Understanding and Teaching Students with Disabilities in Inclusive Settings 1**
Legal and pedagogical understandings related to teaching students with disabilities and related special needs in general education settings. Enrollment is limited to students pursuing initial teaching licensure.
**Prerequisites:** Admission to the Teacher Education Program.

**SES 409 Interpreting Strategies: Language Facilitation 3**
Assessment, best practices, and collaboration in facilitating language learning in students who are Deaf/deaf or hard of hearing. This course will also deal with the educational interpreter’s role as a member of the educational team.
**Prerequisites:** SES 240 or permission of instructor.

**SES 411 Diagnostics and Assessment of Interpreters 2**
Preparation for state and national interpreting assessments; emphasis on ethical decision-making with regard to laws, best practices, policies, and Code of Professional Conduct.
**Prerequisites:** Permission of instructor.

**SES 425 Infants and Toddlers: Development, Learning, and Curriculum 3**
Theories, principles, methods, and issues related to infant and toddler development and inclusive programs. An emphasis on integrating knowledge with skills to design, implement, and evaluate programs will be taken.
**Prerequisites:** SES 242. Grade of C+ or better in HDF/SES 315 and HDF/SES 341; 2.60 GPA;
**Notes:** Same as HDF 425.

**SES 435 Preschool: Development, Learning, and Curriculum 3**
In-depth examination of typical and atypical development of diverse preschool-age children. Integrated teaching strategies and effective inclusive learning environments will be emphasized.
**Prerequisites:** SES 242. Grade of C+ or better in HDF/SES 315 and HDF/SES 341; 2.60 GPA;
**Notes:** Same as HDF 435.

**SES 436 Kindergarten: Development, Learning, and Curriculum 3**
In-depth examination of current policies and practices in public school kindergartens. Development of children with and without disabilities and appropriate teaching strategies in kindergarten will be emphasized.
**Prerequisites:** SES 242. Grade of C+ or better in HDF/SES 315 and HDF/SES 341; 2.60 GPA;
**Notes:** Same as HDF 436.

**SES 438 Literacy Methods with Deaf Learners 3**
Foundational knowledge and evidenced-based strategies for facilitating literacy education for K-12 learners who are deaf or hard of hearing.
**Prerequisites:** Admission to the Teacher Education Program.

**SES 440 Intro to Special Education 3**
Introductory course designed to survey the field of students with disabilities. Major attention focused on characteristics of students with disabilities, free appropriate public education, and the least restrictive environment.
**Prerequisites:** Senior standing.

**SES 445 Advocacy and Services for the Deaf 3**
Overview of services, laws, demographics, and ethical issues necessary to work with deaf people in nontraditional settings.
**Prerequisites:** Permission of instructor.

**SES 446 Working with Diverse Deaf Populations 3**
Course is designed to equip professionals to work with Deaf and hard of hearing individuals with significant learning and communication challenges including deaf-blind, autism, and developmental disabilities.
**Prerequisites:** SES 204. PRDF major.

**SES 447 Service Delivery Systems and Role Management 3**
Design and delivery of school service delivery models for students with mild/moderate disabilities (e.g., general education, resource programs; co-teaching; consultation); management of exceptional children’s teachers’ many roles and responsibilities.
**Prerequisites:** SES 250 or TED 250 or permission of instructor. Admission to the Teacher Education Program.

**SES 451 Spoken Language Facilitation in Deaf Children 4**
Assessment procedures and strategies for developing spoken language in naturalistic and school settings with children with hearing impairments.
**Prerequisites:** CSD 250 and SES 240. 2.75 overall GPA; admission to the Teacher Education Program.

**SES 453 IEPs and Assessment 3**
This course will cover content and experiences to teach students majoring in special education about Individualized Education Programs (IEPs) and assessment to inform the development and implementation of IEPs. The purpose of the course is to provide students with a breadth of knowledge and skills to develop and implement appropriate IEPs as part of a team that comply with the law governing services for students with disabilities, Individuals with Disabilities Education Act. This course is designed to provide students with the practical knowledge and experiences that reflect relevant high leverage practices within the areas of collaboration, assessment, social-emotional-behavioral practices, and instruction. The course will prepare students to lead IEP meetings, collaborate with parents and other professionals, contribute to the development of the IEP and ensure the implementation of the IEP.
**Prerequisites:** Admission to teacher education program. 3.0 GPA.

**SES 460 Home-School Partnerships for Students with Exceptional Needs 3**
Focuses on the needs of parents and families as they interact with personnel in schools, including procedural safeguards for parents/families, formal and informal meetings, culturally competent interactions, and home-school communication systems.

**SES 461 Internship in Teaching Students with Hearing Loss 12**
Full-time supervised student teaching in one or more educational settings with deaf and hard of hearing students under direction of university supervisor. Conferences and seminars required.
**Prerequisites:** 2.75 overall GPA and admission to the Student Teaching Program.

**SES 462 Interpreting in Educational Settings 3**
Overview of the roles and responsibilities of the interpreter as a member of the educational team. Includes professional protocol, and the academic, social, and emotional implications of mainstreaming.

**SES 463 Visual English Systems 3**
Learn and apply various systems for visually representing English including sign-supplemented speech, oral transliterating, Cued Speech, and Visual Phonics.

**SES 465 Student Teaching: Students with Mild and/or Moderate Disabilities 9**
Student teaching emphasizing teaching students with mild/moderate learning disabilities in K-12 settings with university supervision. Full-time special education teaching assignment in cooperating schools for a full semester. Conferences and seminars required.
**Prerequisites:** Permission of department chair and admission to the Teacher Education Program.
**Corequisites:** SES 475.
**Notes:** Must have completed all major coursework and maintain at least a 3.0 GPA.
SES 466 Positive Behavior Supports for Exceptional Learners I 3
Perspectives on cultural influences on school behaviors. Skills for completing functional assessment for systemic, classroom, and individual strategies using constructive therapeutic approaches to support exceptional learners in general curriculum emphasized.
Prerequisites: SES 250 and SES 252, or permission of instructor. Admission to the Teacher Education Program.

SES 467 Advocacy and Services for the Deaf Internship 12
Internship component of Advocacy and Services for the Deaf concentration. Provides students with opportunities to apply knowledge and skills in working with individuals with disabilities in nontraditional educational settings in community.
Prerequisites: Permission of instructor.

SES 468 Diversity in Inclusive Early Care and Education I 3
In-depth analysis of the issues, challenges, and recommended practices related to effectively serving diverse populations of young children and their families in inclusive early care and education settings.
Prerequisites: SES 250 or TED 250 or permission of instructor. 2.60 GPA; Notes: Same as HDF 468.

SES 469 Reading Instruction for Learners with Disabilities I 3
Course is designed to provide students with the instructional methodology to remediate students with disabilities through the use of direct, explicit, and systematic instructional strategies in reading.
Prerequisites: SES 250 or TED 250 or permission of the instructor. Admission to the Teacher Education Program.
Corequisites: SES 469L.

SES 469L Laboratory in Mild Disabilities: Reading Instruction 1
Error analyses, practice teaching, and adapting reading materials. A passing grade in SES 469 must also be achieved for successful completion of this course.
Prerequisites: Admission to the Teacher Education Program.
Corequisites: SES 469.

SES 471 Teaching Exceptional Learners the General Curriculum I 3
Part of a two-course sequence for teachers of students with learning, behavioral, and mild/moderate cognitive disabilities. Provides a knowledge base for developing and managing educational programs for this population.
Prerequisites: Both SES 250 (or TED 250) and SES 252, or permission of instructor. Admission to the Teacher Education Program.

SES 472 Teaching Exceptional Learners the General Curriculum II 3
Second of a two-course sequence for teachers of students with learning, behavioral, and mild/moderate cognitive disabilities. Provides a knowledge base for developing and managing general curriculum programs for this population.
Prerequisites: SES 250 (or TED 250) and SES 252 and SES 471, or permission of instructor. Admission to the Teacher Education Program.

SES 475 Student Teaching Seminar: Students with Mild and/or Moderate Disabilities I 3
Student Teaching Seminar for Students with Mild/Moderate Disabilities, is a corequisite course for SES 465, the student teaching course designed to prepare special education teacher candidates to teach exceptional students with mild/moderate disabilities in inclusive K-12 settings. The seminar will address specific topics related to the profession and the student teaching experience.
Prerequisites: Successful completion of all major courses and admission to the teacher education program.
Corequisites: SES 465.

SES 476 Positive Behavior Supports for Exceptional Learners II 3
Develops skills in producing a linguistic and culturally equivalent ASL message from an English source message. Emphasis on discourse analysis, translation, and consecutive interpreting exercises.
Prerequisites: SES 204.

SES 477 Interpreting English to ASL I 3
Develops skills in producing a linguistic and culturally equivalent ASL message from an English source message. Emphasis is placed on simultaneous interpreting of narrative discourse and interactive interpreting.
Prerequisites: SES 477.

SES 478 Interpreting English to ASL II 3
Focuses on techniques, ethics, and specific terminology associated with interpreting for diverse populations within the Deaf Community. Included are mental health, medical, performing arts, religious, social services, and vocational settings.
Prerequisites: SES 204 and SES 357.

SES 480 Interpreting in Specialized Settings 3
Strategies for facilitating deaf and hard of hearing students’ acquisition of curricular content in inclusive educational settings. Emphasis on developing and implementing individualized learning plans.
Prerequisites: 2.75 overall GPA and admission to the Teacher Education Program.

SES 481 Instructional ASL for Educating Deaf Students I 3
To improve students’ American Sign Language vocabulary and conceptual accuracy for a variety of content areas in the K–12 setting, and provide techniques for teaching through a bilingual instructional approach.
Prerequisites: SES 101. SES 102; SES 203; SES 204; PRDF major with Birth–12 Deaf and Hard of Hearing Teacher Licensure concentration or permission of instructor; Notes: May be repeated for credit.

SES 482 Instructional Methods: Students with Hearing Loss I 3
Perspectives on cultural influences on school behaviors. Skills for completing functional assessment for systemic, classroom, and individual strategies using constructive therapeutic approaches to support exceptional learners in general curriculum emphasized.
Prerequisites: SES 250 and SES 252, or permission of instructor.

SES 483 Instructional Methods: Students with Hearing Loss II 3
Develops skills in producing a linguistic and culturally equivalent ASL message from an English source message. Emphasis is placed on rehearsed and spontaneous consecutive interpreting.
Prerequisites: SES 477.

SES 486 Seminar and Practicum 3
Designed to prepare students for entrance into their professional careers. Includes portfolios, resumes, invoices, interview skills, and assessment instruments. Professional Development Plans, which incorporate practicum experiences, are constructed.
Prerequisites: Permission of instructor.

SES 487 Interpreting Internship 12
Full-time supervised field experiences in a variety of settings related to the student’s professional goals. Regularly scheduled conferences, seminars, and other projects are required.
Prerequisites: SES 486 and completion of Interpreting Assessment I.

SES 488 Interpreting ASL to English I 3
Develops skills in producing a linguistic and culturally equivalent English message from an ASL source message. Emphasis is placed on rehearsed and spontaneous consecutive interpreting.
Prerequisites: SES 204.

SES 489 Interpreting in Medical Settings 2
Apply principles of ASL in primary and emergency care medical settings and gain knowledge of specialized vocabulary, appropriate roles, standards of practice and ethical codes involved in medical interpreting.
Notes: Recommended for students with advanced skills in American Sign Language.
SES 496 Interpreting ASL-to-English II 3
Development of skills in producing a linguistic and culturally equivalent English message from an ASL source message. Emphasis is placed on simultaneous interpreting.
Prerequisites: SES 488.

SES 497 Interpreting in Mental Health Settings 2
Techniques specific to interpreting in mental health and substance abuse settings. Application of the demand-control schema framework and a teleological approach to ethical decision making.
Notes: Recommended for students with advanced skills in American Sign Language.

SES 498 Interpreting in Social Service Settings 2
Apply principles of American Sign Language in various social service settings and gain an understanding of the specialized vocabulary, appropriate roles, standards of practice, sensitive issues, and ethical codes involved.

SES 499 Theatrical/Artistic Uses of American Sign Language 2
Notes: Recommended for students with advanced skills in American Sign Language.

SES 540 Introduction to Special Education 3
Introductory course designed to survey the field of students with disabilities. Major attention focused on characteristics of students with disabilities, free appropriate public education, and the least restrictive environment.

SES 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

SES 601 Introduction to Inclusive Birth-Kindergarten Services 3
Introduction to issues and policies in inclusive birth through kindergarten programs. Legislation, service delivery models, policy issues, family roles, and research outcomes discussed.

SES 602 Inclusive Family-Centered Practices in Early Childhood 3
Analysis of theoretical perspectives, intervention strategies, and research outcomes for young children with disabilities in inclusive settings and their families. Family-centered practices emphasized.
Prerequisites: SES 601.

SES 603 Screening/Assessment in Inclusive Early Childhood Services 3
Conceptual knowledge and practical application of screening and assessment techniques and procedures for infants, toddlers, preschoolers, and kindergartners. Report writing, IFSPs, IEPs, family assessments, and program evaluation included.
Prerequisites: SES 601, ERM 604, SES 406/HDF 606 or permission of instructor.

SES 604 Internship in Inclusive Early Childhood 6
An in-depth exploration of the principles of early childhood care and education and learning strategies for young children with and without disabilities. Field placements in BK setting are required.
Prerequisites: HDF 636, admission to BKISED program, or permission of instructor.

SES 605 Diversity and Inclusive Early Care and Education 3
In-depth analysis of issues, recommended practices, and experiences to prepare students for meeting the needs of young children from diverse populations in inclusive early care and education settings.
Prerequisites: Admission to Leadership in Early Care and Education certificate, MEd BKISED, or permission of instructor.

SES 606 Preschool-Kindergarten Learning in Inclusive Settings 4
In-depth exploration of the principles of early childhood care and education and learning strategies for preschool/kindergarten children with and without disabilities. Field placements in BK setting are required.
Prerequisites: Admission to BKISED degree program and SES 601.
Notes: Same as HDF 606.

SES 607 Infant-Toddler Learning in Inclusive Settings 4
An examination of development in infancy and toddlerhood and strategies for facilitating very young children's growth and learning in early childhood care and educational settings. Field placement required.
Prerequisites: HDF or SES major or permission of instructor.
Notes: Same as HDF 607.

SES 610 Ecologically Based Instruction 3
This course will enable the participant to identify psychological, physical, educational, medical, behavioral, and learning characteristics and needs of students with disabilities.

SES 611 Universal Design for Learning 3
Content includes strategies for developing curriculum and instructional techniques for teaching students with disabilities, including vocational/career assessment and individualized programs integrating family, agencies, and business.

SES 612 Transition Across the Age-Span 3
Course content focuses on implementing transition programs from school to career and daily living for students with disabilities, including vocational/career assessment and individualized programs integrating family, agencies, and business.

SES 640 Policies and Procedures in Special Education 3
Detailed study of federal and North Carolina policies and procedures that ensure that students with disabilities receive a free appropriate public education in the least restrictive environment.

SES 641 Assessment in Special Education 3
Provides a knowledge base, guided practice, and practical application of assessment practices for making eligibility and instructional planning decisions for students with disabilities, with emphasis on authentic assessment practices.
Notes: For special education majors.

SES 642 Reading Instruction 3
Emphasizes systematic, explicit practices for teaching essential skills in phonemic awareness, emergent literacy, the alphabetic principle, fluency, vocabulary, and reading comprehension to students with disabilities.

SES 643 Special Education Trends/Issues 3
Explores critical issues and strategies in developing, implementing, evaluating, and financing programs and services for students with disabilities.

SES 644 Advanced Seminar: Special Education 3
Research and current issues in the psychology and education of students with disabilities.
Notes: May be repeated for credit when topic varies.

SES 647 Collaboration and Leadership 3
Provides a knowledge base, guided practice, and practical application of consultation skills and consultation-based services needed for implementing effective instructional programs for students with disabilities.
Notes: For special education majors.
SES 649C Practicum in Special Education 4-6
Eight or ten weeks of supervised experience in inclusive early childhood education settings designed to offer opportunities for practice of skills and professional development within program goals.
Prerequisites: Core courses and permission of program coordinator.

SES 650 Independent Study 1-3
Topic to be determined by faculty advisor and student.
Prerequisites: Admission to appropriate degree program or permission of instructor and major advisor.

SES 652 Writing Instruction 3
Emphasizes Universal Design for Learning, systematic and explicit practices for teaching written language skills to students with disabilities using evidence and research based practices.

SES 656 Math and Science Instruction 3
Addresses broad array of evidence-based instructional strategies for working with students with disabilities to teach math and science.
Prerequisites: Pr. or Coreq.: SES 655.

SES 658 Positive Behavior Supports 3
Addresses broad array of instructional strategies for working with students with disabilities using contemporary educational and therapeutic practices to address instructional as well as social/emotional needs.

SES 659 Behavior Management 3
Concepts, skills, and practices for understanding and using principles of behaviorism in the education of students.

SES 661 Student Teaching: Special Education 3-6
Supervised experience in a variety of classroom or other public school settings and related seminar emphasizing the design and delivery of best-practices services and instruction to students with disabilities.
Notes: May be repeated for credit. Grade: Satisfactory/Unsatisfactory (S/U).

SES 662 Assistive Technology for Inclusive Education 3
Overview of assistive technology in meeting the educational goals of individuals with disabilities. Includes experiences with devices and services associated with assistive technology and instructional technology.

SES 688 Contemporary Problems Seminar 1-3
Specific course title identified each semester by subscript (e.g., Contemporary Problems Seminar: Issues in Professional Negotiations). May be repeated for credit when topic varies.

SES 711B EC:Teacher Ldrshp for Inclsion 3
This course provides Dale Carnegie's (DC) "Emerging Teacher Leaders" Training that consists of a curriculum that focuses on three intentional developmental foci: leading oneself, leading others, and communicating leadership.

SES 747 Seminar in Special Education 3
Current trends and issues in the field of special education. May be repeated for a total of nine semester hours credit when topic varies.

SES 749 Internship in Specialized Education 3
Directed internship in an advanced leadership position related to the chosen area of specialization in which the knowledge base is integrated with the profession.
Prerequisites: Admission to PhD in special education and permission of instructor.
Notes: May be repeated for credit.

SES 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

SES 753 Issues and Trends in Special Education 3
This seminar is designed to provide doctoral students with opportunities to explore current issues and trends in special education within the broader context of education, society, and history.
Prerequisites: Admission to PhD in special education or permission of instructor.

SES 755 Critical Review of Special Education Literature 3
This seminar is designed to provide doctoral students with opportunities to critically analyze professional literature and grant proposals; and write literature reviews for publication, dissertation and research.
Prerequisites: Admission to PhD in special education or permission of instructor.

SES 757 School Reform and Leadership in Special Education 3
This seminar addresses the research and professional literature related to changing schools to improve academic and behavior outcomes for all students.
Prerequisites: Admission to PhD in special education or permission of instructor.

SES 758 History and Future of Specialized Education 3
Overview of the history of special education with implications for facilitation of more effective practice in the field.
Prerequisites: Admission to PhD in special education or permission of instructor.

SES 759 Grant Writing in Special Education 3
As future leaders in the field, doctoral students will be charged with securing funding for programs/research. The purpose of this course is to help students develop grant-writing skills.
Prerequisites: Admission to PhD in special education or permission of instructor.

SES 760 Single Subject Research Design 3
Understanding the rationale, purpose, design, analysis and implementation of single subject research. Implementation within classroom settings will be discussed.
Prerequisites: Admission to PhD in special education or permission of instructor.

SES 761 Coaching and Supervision of Teaching & Learning 3
This course provides opportunities for doctoral students to develop a knowledge base in coaching and supervision. Topics include: coaching models, supervisory approaches, professionalism, and methods for giving and receiving feedback.
Prerequisites: Admission to PhD in special education or permission of instructor.

SES 763 College Teaching & Adult Learning Theory 3
This course will prepare doctoral students for teaching at the collegiate level. Topics include: adult learning, course design, professional and ethical issues in teaching, and evidence-based approaches to teaching.
Prerequisites: Admission to PhD in Specialized Education or permission of instructor.
SES 765 Advanced Qualitative Research for Specialized Education and Related Professionals
The purpose of this course is to provide training in qualitative research methodologies as they are deployed in special education and related professions. This course will address the unique expectations within qualitative methods for special education and related field audiences (e.g. inter rater on qualitative coding).
**Prerequisites:** Introductory-level qualitative course.

SES 775 Directed Research
Individual work on dissertation or research problems, including literature analysis, critical review, data analysis, and integration; or completion of a pilot study in preparation for the dissertation.
**Prerequisites:** Admission to PhD in special education and permission of instructor.
**Notes:** May be repeated once for credit.

SES 790 Independent Doctoral Study
Advanced guided readings, research, and individual project work under the direction of a graduate faculty member.
**Prerequisites:** Admission to PhD in special education and permission of instructor.
**Notes:** May be repeated for credit.

SES 799 Dissertation 1-12
Individual direction in the development and execution of the doctoral dissertation.
**Prerequisites:** Admission to candidacy for the PhD in special education and permission of instructor.

SES 802 Dissertation Extension 1-3
Dissertation Extension.

SES 803 Research Extension 1-3

**Statistics (STA)**

STA 108 Elementary Introduction to Probability and Statistics
Survey of statistics intended for undergraduates in any discipline. Graphical displays, numerical measures, relationships between variables, elements of good data collection. Basic probability, introduction to inferential techniques including confidence intervals and significance testing. Emphasis on statistical literacy.
**MAC:** MAC Quantitative Reasoning
**Prerequisites:** None.
**Notes:** May not be taken for credit by students who have received credit for ECO 250 or ECO 350 or who are concurrently enrolled in ECO 250. Students may not earn credit for both RCO 114 and STA 108.

STA 271 Fundamental Concepts of Statistics
Survey of basic descriptive and inferential statistics. Graphs and descriptive measures, simple linear regression and correlation, data collection, basic probability and probability models, interval estimation and significance testing, analysis of variance, use of statistical software. An appropriate preparation for more advanced statistics courses in any discipline.
**Prerequisites:** Minimum grade of C in MAT 115 or MAT 150 or MAT 151 or MAT 190 or MAT 191 or STA 108. or permission of department.

STA 290 Introduction to Probability and Statistical Inference
Introduction to probability models and statistical inference. Descriptive statistics, basic probability laws, discrete and continuous probability models, sampling distributions, central limit theorem, estimation, hypothesis testing, simple regression, and correlation.
**Prerequisites:** Minimum grade of C (2.0) or concurrent registration in MAT 292. or permission of instructor.

STA 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

STA 301 Statistical Methods
Two-group comparisons, simple and multiple regression, one and two factor ANOVA, categorical data analysis, nonparametric methods.
**CIC:** CIC College Writing
**Prerequisites:** Minimum grade of C (2.0) in either STA 271 or STA 290. or permission of instructor.

STA 352 Statistical Inference
Descriptive and inferential statistics. Emphasis on sampling distributions; theory of estimation and tests of hypotheses, linear hypothesis theory, regression, correlation and analysis of variance.
**Prerequisites:** Grade of at least C in STA 290 or permission of instructor.

STA 382 Introduction to Sampling Methods
Designing survey instruments; estimation of population mean, total, and proportion using simple random, stratified, systematic, and cluster sampling; other sampling techniques such as pps sampling and randomized response methods.
**Prerequisites:** Minimum grade of C (2.0) in STA 301. or permission of instructor.

STA 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

STA 431 Introduction to Probability
Events and probabilities (sample spaces), dependent and independent events, random variables and probability distribution, expectation, moment generating functions, multivariate normal distribution, sampling distributions.
**Prerequisites:** Grade of at least C in STA 290 and MAT 293 or permission of instructor.

STA 432 Introduction to Mathematical Statistics
Point estimation, hypothesis testing, confidence intervals, correlation and regression, small sample distributions.
**Prerequisites:** Grade of at least C in STA 431 or permission of instructor.

STA 435 Theory of Linear Regression
Linear regression, least squares, inference, hypothesis testing, matrix approach to multiple regression. Estimation, Gauss-Markov Theorem, confidence bounds, model testing, analysis of residuals, polynomial regression, indicator variables.
**Prerequisites:** Grade of at least C in STA 352 and MAT 310, or STA 662, or permission of instructor.

STA 440 SAS System for Statistical Analysis
Creating, importing, and working with SAS data sets. Using SAS procedures for elementary statistical analysis, graphical displays, and report generation.
**Prerequisites:** STA 271 or STA 290 or similar introductory statistics course.

STA 442 Statistical Computing
Statistical methods requiring significant computing or specialized software. Simulation, randomization, bootstrap, Monte Carlo techniques; numerical optimization. Extensive computer programming involved. This course does not cover the use of statistical software packages.
**Prerequisites:** Minimum grade of C (2.0) in STA 301. knowledge of a scientific programming language.

<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>STA 445</td>
<td>Nonparametric Statistics 3</td>
<td>Introduction to nonparametric statistical methods for the analysis of qualitative and rank data. Binomial test, sign test, tests based on ranks, nonparametric analysis of variance, nonparametric correlation and measures of association.</td>
</tr>
<tr>
<td></td>
<td><strong>Prerequisites:</strong> Grade of at least C in STA 352 or STA 662. or permission of instructor.</td>
<td></td>
</tr>
<tr>
<td>STA 465</td>
<td>Analysis of Survival Data 3</td>
<td>Methods for comparing time-to-event data, including parametric and nonparametric procedures for censored or truncated data, regression model diagnostics, group comparisons, and the use of relevant statistical computing packages.</td>
</tr>
<tr>
<td></td>
<td><strong>Prerequisites:</strong> STA 301 or STA 352. or permission of instructor.</td>
<td></td>
</tr>
<tr>
<td></td>
<td><strong>Prerequisites:</strong> Minimum grade of C (2.0) in STA 301. or permission of instructor.</td>
<td></td>
</tr>
<tr>
<td>STA 482</td>
<td>Introduction to Time Series Models 3</td>
<td>Estimation/removal of trend and seasonality, introduction to stationary stochastic processes, fitting ARMA/ARIMA models, forecasting techniques, miscellaneous topics, and introduction to a time series modeling software package.</td>
</tr>
<tr>
<td></td>
<td><strong>Prerequisites:</strong> STA 352 or permission of instructor.</td>
<td></td>
</tr>
<tr>
<td>STA 491</td>
<td>Actuarial Exam Preparation Seminar 1</td>
<td>Topics vary according to interest and demand. Intended to help prepare for the P/1, FM/2, or MLC exam.</td>
</tr>
<tr>
<td></td>
<td><strong>Prerequisites:</strong> STA 431 or STA 687 or permission of instructor.</td>
<td></td>
</tr>
<tr>
<td></td>
<td><strong>Notes:</strong> One credit maximum. May be repeated; Grade: Pass/Not Pass (P/np).</td>
<td></td>
</tr>
<tr>
<td>STA 493</td>
<td>Directed Study in Statistics 1-3</td>
<td></td>
</tr>
<tr>
<td>STA 494</td>
<td>Directed Study in Statistics 1-3</td>
<td></td>
</tr>
<tr>
<td>STA 497</td>
<td>Research Experience in Statistics 1-3</td>
<td>Supervised research activity on contemporary research questions in the fields of statistics and its applications.</td>
</tr>
<tr>
<td></td>
<td><strong>Notes:</strong> May be repeated once for credit as topic varies. Grade: Pass/Not Pass (P/np).</td>
<td></td>
</tr>
<tr>
<td>STA 571</td>
<td>Statistical Methods for Research I 3</td>
<td>Introduction to statistical concepts. Basic probability, random variables, the binomial, normal and student’s t distributions, hypothesis tests, confidence intervals, chi-square tests, introduction to regression, and analysis of variance.</td>
</tr>
<tr>
<td></td>
<td><strong>Notes:</strong> Hours do not count toward degree requirements for a mathematics major.</td>
<td></td>
</tr>
<tr>
<td>STA 572</td>
<td>Statistical Methods for Research II 3</td>
<td>Statistical methodology in research and use of statistical software. Regression, confidence intervals, hypothesis testing, design and analysis of experiments, one-and two-factor analysis of variance, multiple comparisons, hypothesis tests.</td>
</tr>
<tr>
<td></td>
<td><strong>Prerequisites:</strong> STA 571 or permission of instructor.</td>
<td></td>
</tr>
<tr>
<td>STA 593</td>
<td>Directed Study in Statistics 1-3</td>
<td></td>
</tr>
<tr>
<td>STA 600X</td>
<td>Experimental Course 1-6</td>
<td>This number reserved for experimental courses. Refer to the Course Schedule for current offerings.</td>
</tr>
<tr>
<td>STA 602</td>
<td>Statistical Methods for Data Analytics 3</td>
<td>This course introduces fundamental statistical techniques for data analytics such as hypothesis testing, data transformation, estimation, confidence intervals, regressions models, ANOVA, multivariate analysis, non-parametric methods, and design of experiments.</td>
</tr>
<tr>
<td></td>
<td><strong>Notes:</strong> Same as IAF 602.</td>
<td></td>
</tr>
<tr>
<td>STA 606</td>
<td>Solving Problems with Data Analytics 3</td>
<td>This course addresses how data analytics is used to solve applied problems in varied contexts. Students will learn how to choose appropriate methodologies, manage data, conduct analyses and report results.</td>
</tr>
<tr>
<td></td>
<td><strong>Prerequisites:</strong> IAF 601, IAF 602 or permission of instructor.</td>
<td></td>
</tr>
<tr>
<td></td>
<td><strong>Notes:</strong> Same as IAF 606.</td>
<td></td>
</tr>
<tr>
<td>STA 622</td>
<td>Complex Data Analysis 3</td>
<td>Methods for modeling and understanding complex data. Topics include linear regression models for sparse and high dimensional data sets, nonlinear models, tree-based methods, and clustering methods.</td>
</tr>
<tr>
<td></td>
<td><strong>Prerequisites:</strong> Permission of instructor.</td>
<td></td>
</tr>
<tr>
<td></td>
<td><strong>Notes:</strong> Same as IAA 622.</td>
<td></td>
</tr>
<tr>
<td>STA 631</td>
<td>Introduction to Probability 3</td>
<td>Events and probabilities (sample spaces), dependent and independent events, random variables and probability distribution, expectation, moment generating functions, multivariate normal distribution, sampling distributions.</td>
</tr>
<tr>
<td>STA 632</td>
<td>Introduction to Mathematical Statistics 3</td>
<td>Point estimation, hypothesis testing, confidence intervals, correlation and regression, small sample distributions.</td>
</tr>
<tr>
<td></td>
<td><strong>Prerequisites:</strong> Grade of at least C in STA 631 or permission of instructor.</td>
<td></td>
</tr>
<tr>
<td>STA 635</td>
<td>Theory of Linear Regression 3</td>
<td>Linear regression, least squares, inference, hypothesis testing, matrix approach to multiple regression. Estimation, Gauss-Markov Theorem, confidence bounds, model testing, analysis of residuals, polynomial regression, indicator variables.</td>
</tr>
<tr>
<td></td>
<td><strong>Prerequisites:</strong> Grade of at least C in STA 662 or permission of instructor.</td>
<td></td>
</tr>
<tr>
<td>STA 642</td>
<td>Statistical Computing 3</td>
<td>Statistical methods requiring significant computing or specialized software. Simulation, randomization, bootstrap, Monte Carlo techniques; numerical optimization. Extensive computer programming involved. This course does not cover the use of statistical software packages.</td>
</tr>
<tr>
<td>STA 645</td>
<td>Nonparametric Statistics 3</td>
<td>Introduction to nonparametric statistical methods for the analysis of qualitative and rank data. Binomial test, sign test, tests based on ranks, nonparametric analysis of variance, nonparametric correlation and measures of association.</td>
</tr>
<tr>
<td>STA 648</td>
<td>Topological Data Analysis 3</td>
<td>This course covers persistent homology and topological data analysis. Topics include persistence modules, bar codes, stability, and the use of statistics and machine learning in topological data analysis.</td>
</tr>
<tr>
<td></td>
<td><strong>Prerequisites:</strong> STA 352 and either MAT 394 or MAT 395 or MAT 595.</td>
<td></td>
</tr>
</tbody>
</table>
STA 652 Mathematical Statistics 3
Prerequisites: STA 352 and either MAT 394 or MAT 395 or MAT 595.

STA 654 Mathematical Data Science II: Machine Learning 3
Based on the specialty of the instructor, selected well-known machine learning algorithms will be studied in great mathematical detail. General topics may include Regression, Dimension Reduction, Density Estimations, and Classification. Advanced topics may include Google PageRank algorithm, Manifold Learning, and the Mapper algorithm.
Prerequisites: MAT 653.

STA 655 Applied Probability Models 3
An introduction to Markov chains, Poisson processes, renewal processes, Brownian motion, and survival models. Examples drawn from applied field such as engineering, management, finance, and sciences.
Prerequisites: STA 631 or permission of instructor.

STA 661 Advanced Statistics in the Behavioral and Biological Sciences I 3
Statistical techniques and design considerations for controlled experiments and observational studies. Exploratory data analysis, elementary probability theory, principles of statistical inference, contingency tables, one-way ANOVA, bivariate regression and correlation.
Prerequisites: STA 271 or an equivalent introductory statistics course.

STA 662 Advanced Statistics in the Behavioral and Biological Sciences II 3
Continuation of STA 661. Multiple regression and correlation, analysis of covariance, factorial ANOVAs, randomized block designs, multiple comparisons, split-plot designs, repeated measures.
Prerequisites: STA 661 or permission of instructor.

STA 665 Analysis of Survival Data 3
Methods for comparing time-to-event data, including parametric and nonparametric procedures for censored or truncated data, regression model diagnostics, group comparisons, and the use of relevant statistical computing packages.
Prerequisites: STA 662 or permission of instructor.

STA 666 Statistical Consulting 1
Statistical consultation on a doctoral or master's research. Access to the Statistical Consulting Center. Students are required to attend the initial class meeting during the beginning of the semester.
Prerequisites: Permission of instructor.
Notes: Credit is not applicable to a graduate plan of study. Grade: Satisfactory/Unsatisfactory (S/U).

STA 668 Consulting Experience 1
Development of consulting skills through reading and discussion of literature on statistical consulting and participation in statistical consulting sessions.
Prerequisites: STA 662 or permission of instructor.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

STA 670 Categorical Data Analysis 3
Methods for analyzing dichotomous, multinomial and ordinal responses. Measures of association; inference for proportions and contingency tables; generalized linear models including logistic regression and loglinear models.
Prerequisites: STA 662 or permission of instructor.

STA 671 Multivariate Analysis 3
Multivariate normal distribution. Cluster analysis, discriminant analysis, canonical correlation, principal component analysis, factor analysis, multivariate analysis of variance. Use and interpretation of relevant statistical software.
Prerequisites: ERM 680 and ERM 681, or STA 573, or STA 662, or permission of instructor.

STA 673 Statistical Linear Models I 3
Abstract vector spaces, inner product spaces, projections, the Spectral Theorem, least squares, multiple regression, ANOVA, multiple comparisons, data analysis.
Prerequisites: STA 352 and MAT 310 or permission of instructor.

STA 674 Statistical Linear Models II 3
Abstract vector spaces, inner product spaces, projections, the Spectral Theorem, least squares, multiple regression, ANOVA, multiple comparisons, data analysis.
Prerequisites: STA 352 and MAT 310 or permission of instructor.

STA 675 Advanced Experimental Design 3
Topics include factorial and fractional factorials, incomplete block designs, split-plot and repeated measures, random and mixed effects models, crossover designs, response surface designs, power analysis.
Prerequisites: STA 662 or permission of instructor.

STA 676 Sample Survey Methods 3
Survey methods for students from any discipline. Random, stratified, cluster, multi-stage and other sampling schemes. Estimation of population means, variances, and proportions. Questionnaire design and analysis.
Prerequisites: STA 662 or permission of instructor.

STA 677 Advanced Topics in Data Analysis and Quantitative Methods 3
Topics vary according to interest and demand. Quantitative methods not normally covered in detail in other statistics courses. Topics may be selected from psychometrics, econometrics, biometrics, sociometrics, quantitative epidemiology.
Prerequisites: STA 662.

STA 682 Theory of Time Series 3
Examples of time series, objectives in time series modeling, theory and applications of linear and non-linear time series models, ARMA/ARIMA/ARCH/GARCH models, and time series modeling using computer packages.
Prerequisites: STA 631 or STA 651 or permission of instructor.

STA 690 Graduate Seminar 1
Development of presentation skills through reading, discussions, and presentation of current research topics in applied statistics.
Prerequisites: STA 662 or permission of instructor.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

STA 691 Actuarial Exam Preparation Seminar 1
Topics vary according to interest and demand. Intended to help prepare for the P/1, FM/2, or MLC exam.
Prerequisites: STA 631 or STA 687 or permission of instructor.
Notes: May be repeated when topic varies, grading method is Pass/Not Pass (P/NP).

STA 698 Project in Statistics 3
Directed research project in statistics.
Prerequisites: Permission of instructor.
Notes: Grade: Satisfactory/Unsatisfactory (S/U).

STA 699 Thesis 1-6
Individual guidance in the development of a specific research problem.
STA 701 Seminar in Computational Statistics 3
Readings from the literature in Computational Statistics.
Prerequisites: Either STA 651, and STA 652. or STA 676; or permission of instructor;
Notes: May be repeated up to 9 hours as topics vary.

STA 703 Topics in High Dimensional Data Analysis 3
Advanced study in special topics in statistical data analysis with large scale data sets. The course may be repeated up to 9 hours as topics vary.
Prerequisites: STA 642, STA 673, or permission of instructor.
Corequisites: STA 674.

STA 709 Topics in Computational Statistics 3
Advanced study in special topics in Computational Statistics.
Prerequisites: STA 552 or STA 652 or permission of instructor.
Notes: May be repeated for credit.

STA 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

STA 801 Thesis Extension 1-3
Thesis Extension.

STA 803 Research Extension 1-3

Strong College (STR)

STR 301 Strong College Tutorial 1
A small number of Strong College students meet with a faculty member to explore an agreed upon topic. Faculty member will guide the discussion.
Prerequisites: Students must be members of Strong College.
Notes: May be repeated for 3 hours of credit.

Supply Chain Management (SCM)

SCM 206 Logistics and Transportation Management 3
Microanalysis of logistics and transportation services including customer service, distribution operations, and purchasing. Topics include customer service operations, order processing, facility design and operations, carrier selection, transportation costing and negotiation.
Prerequisites: ISM 110. Sophomore Standing and restricted to students who are pre-admitted to or admitted to majors in the Business School (PACC, ACCT, PBAD, BADM, CARS, ECON, PECO, ECOS, PENT, ENTR, PFIN, FINC, PHTM, HTMT, PINT, INTB, PISC, ISSC, PMKT, or MKTG).

SCM 260 Essentials of Enterprise Requirements Planning (ERP) 3
Provides an overview of enterprise systems and supply chain business processes. It will introduce students to how enterprise systems are used to manage supply chains and make effective business decisions.
Prerequisites: ISM 110. Sophomore Standing and restricted to students who are Pre admitted to or admitted to majors in the Business School (PACC, ACCT, PBAD, BADM, CARS, ECON, PECO, ECOS, PENT, ENTR, PFIN, FINC, PHTM, HTMT, PINT, INTB, PISC, ISSC, PMKT, or MKTG).

SCM 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

SCM 302 Operations Management 3
Survey of the operations functions of organizations with emphasis on design and control decisions. Qualitative and quantitative problem-solving methods used to enhance managerial competence in the operations functions.
Prerequisites: Junior standing. ISM 110; major in ACCT, BADM, CARS, ECOS, ENTR, FINC, HTMT, INTB, ISSC, or MKTG.

SCM 304 Managing and Organizing Projects 3
An introduction to modern methods for defining, planning, managing, and controlling large projects. Computer software and network modeling are used to support the efficient scheduling of interdependent activities.
Prerequisites: Major in ACCT, BADM, CARS, ECON, ENTR, FINC, HTMT, INTB, ISSC, or MKTG;

SCM 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

SCM 402 Logistics and Supply Chain Management 3
Roles of distribution and materials management in operations. Topics include inventory and distribution management, purchasing, logistics and supply chain management. Appropriate software used to facilitate decision-making.
Prerequisites: ECO 250. major in ACCT, BADM, CARS, ENTR, FINC, HTMT, INTB, ISSC, or MKTG; or permission of the instructor.

SCM 411 Undergraduate Internship in Supply Chain Management 1-3
Campus monitored, supervised internship experiences in organizations that involve the application of supply chain and operational analysis and methods and the development of professional skills in the field of study. Internships may be either paid or voluntary and must include a minimum of 50 supervised internship hours per one credit hour earned.
Prerequisites: Minimum 2.50 GPA. ISSC major with a Supply Chain Management concentration and permission of instructor.

SCM 432 Supply Chain Management Project 3
Semester-long project involving Supply Chain Management topics. Activities will include project planning, assessment and implementation planning, application of SCM knowledge and critical thinking to real world problems.
Prerequisites: Any two of the following courses: SCM 206, SCM 302, or SCM 402. ISSC major.

SCM 498 Independent Study 1-3
Individual study of issues and problems in supply chain management. May include certification components and instruction. Students must arrange time and course requirements with instructor prior to registration.
Prerequisites: Permission of instructor, senior standing, and approval of written plan of study prior to registration.
Notes: May be repeated for a total of 6 semester hours with approval of department head.

SCM 499 Problems in Supply Chain Management 3
Group study and research with class discussion covering current supply chain management topics. Student teams interact with local firms via company projects.
Prerequisites: Permission of instructor.
Notes: May be repeated for a total of 6 semester hours with approval of department head.

SCM 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

SCM 635 Principles of Enterprise Resource Planning using SAP 3
A problem-based approach to SAP and Enterprise Resource Planning concepts. Hands-on learning of integrated SAP software modules for business processes such as sales, logistics, material management, procurement, and human resources.
Notes: Same as ISM 635.
SCM 650 Principles of Supply Chain Management 3
This course presents core knowledge related to supply chain management. It provides insight into the complex, cross-functional elements of demand and supply planning and execution in a global environment.

SCM 651 Analytics for Logistics and Distribution Management 3
Course will focus on the analytic tools to make decisions related to logistics and distribution management. Topics will include demand management, sales and operations planning, network design, and location analysis.

SCM 652 Strategic Cost, Procurement, and Supply Chain Finance 3
Overview of strategic cost management and procurement in the supply chain; tactics in effective management of the procurement process and total cost of ownership; management of total supply chain costs.

SCM 678 Project Management for Dynamic Environments 3
Modern methods of defining, planning and executing large scale projects. Computer software and network models are used to support the efficient scheduling of interdependent activities.

SCM 680 Independent Study in Supply Chain Management 3
Explore in-depth contemporary issues of relevance and interest to the student under the guidance of a faculty member.
Prerequisites: Admission to the graduate certificate in Supply Chain, Logistics and Transportation Management (SCLTM).

SCM 682 Executive Mentorship in Supply Chain Management 3
Students in the experimental learning course interact with instructor and mentor to gain in-depth knowledge related to supply chains, logistics and transportation. The mentor is an executive within the industry.
Prerequisites: Admission to the graduate certificate in Supply Chain, Logistics and Transportation Management (SCLTM).
Notes: May be repeated for a maximum of 6 credits.

SCM 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

Sustainable Tourism and Hospitality (STH)

STH 102 Introduction to Tourism and Hospitality 3
Overview of the products, services and experiences provided by the various sectors of tourism and hospitality industries, including lodging, restaurants, attractions, destination management. Introduction to the roles of industry managers at all organizational levels.

STH 200 Introduction to Sustainable Development 3
Explores the social, environmental, and economic dimensions of sustainable development; introduces sustainable development concepts and challenges; prepares students for the application of these concepts in functional business contexts.
MAC: MAC Global and Intercultural

STH 201 Corporate Social Responsibility and Change Management 3
Students explore how stakeholders define, measure, and assign value to corporate efforts in social responsibility. Skill development in managing change and innovation, stakeholder partnerships, social media, and volunteerism.

STH 231 Tourism, Cultures, and Places 3
A study of tourism as a vehicle for increasing understanding of cultural differences and spatial interaction within and between different ethnic, linguistic, and religious groups across the world.
MAC: MAC Global and Intercultural

STH 251 Diversity and Equity in Hospitality and Tourism 3
Diversity and equity issues in hospitality and tourism management. Political, social, and cultural variables impacting hospitality supervision and human resources.

STH 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

STH 310 Hotel Operations 3
Exploration of lodging operations and management, which include hotels, resorts, cruise ships, and rentals. Topics include revenue-management, forecasting, budgeting, measuring operational and employee performance, ethics, sustainability and property management technology.

STH 311 Sustainable Food and Craft Beverage 3
Explores the evolution of food and beverage as a commodity; ethical issues of industrializing and globalizing foodservice systems; strategies for successfully incorporating sustainability and ecogastronomy into commercial food and beverage operations.

STH 312 Hospitality Facilities Management 3
An overview of managing hospitality facilities such as restaurants, hotels, and attractions. Students learn to communicate functional goals from an operator's viewpoint such as operating costs for various types of facilities, types and characteristics of major building systems, and sustainable aspects of building equipment and management.

STH 313 Revenue Management 3
Applies economic principles of demand and supply to hotel and resort revenue management; addressing sources of revenue, inventory control, pricing decisions, customer relationships, sustainability and strategic partnerships.

STH 331 Sustainable Tourism and Transportation 3
Explores transportation networks utilized by the global tourism sector; their social, economic, and environmental dimensions, associated trends, associated negative impacts and resource usage, and opportunities for planning sustainable transportation networks.
Notes: Same as GES 331.

STH 332 Sustainable Destination and Experience Management 3
Introduction to the management of sustainable tourism destinations. Students will be exposed to the entire destination and experience management process including basic concepts, planning, development, management, and marketing of tourism experiences.

STH 338 Global Franchising 3
This course introduces the student to opportunities in franchising including becoming a franchisee or franchisor.
Prerequisites: ACC 201 or ENT 200/FIN 200.
Notes: Same as ENT 338, BUS 338.

STH 354 Restaurant Entrepreneurship 3
Students will explore the role of entrepreneurship in the hospitality and tourism industry, determine risks and rewards of self-employment, and develop business concepts based on the hospitality and/or tourism skill set.
Prerequisites: Junior or senior standing.
Notes: Same as ENT 354.
SCH 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

SCH 401 Hotel and Travel Services Sales and Marketing 3
Explores marketing of tourism and hospitality services with an emphasis on matching tourism and hospitality products to visitor demand, while achieving organizational sustainability objectives.
Prerequisites: STH 332 or MKT 320.

SCH 417 Internship in Hospitality and Tourism Management 3
This internship enables STHP students to gain valuable work experience within the hospitality industry. 100 supervised clock hours required for completion of this 3-credit course.
Prerequisites: HTMT major.

SCH 433 Meeting, Conference and Event Tourism 3
Explores community tourism management with a focus on destination event portfolios, including travel involving Meetings, Incentives, Conventions/Conferences, and Exhibits (MICE). Students learn to plan and execute MICE tourism and community event portfolio management.

SCH 445 Community-Based Sustainable Tourism Planning 6
Theory and practical applications of tourism planning, which includes market analysis, infrastructure proposal and development, and implementation strategies. International travel required.
Prerequisites: Minimum 2.0 GPA.
Notes: May be repeated once for credit.

SCH 451 Service Management 3
Integration of service systems management, human behavior, and marketing in the creation, delivery, and assurance of service quality and customer service.
Notes: Same as ENT 451, CTR 451.

SCH 459 Independent Study in Sustainable Tourism and Hospitality 1-3
Independent research experience conducted by individual students under the supervision of a selected program faculty member.
Prerequisites: HTMT major and department approval.
Notes: May be repeated once for a total of 6 s.h.

SCH 473 Wine Appreciation for the Business Professional 3
Introduction to the wine industry. Topics include pairing of wine and food in hospitality venues, history, geography, economics, health, and legal issues associated with wine.
Notes: Same as ENT 473. Must be 21 years old or older.

SCH 488 Special Topic in Resorts and Entertainment Attractions 3
A review of current trends and management topics related to entertainment attractions, including theme parks, spectator sports, theaters, concert venues, and resorts. This course includes practical experience with reflection and discussion.
Prerequisites: Department approval.

SCH 491 Tourism and Hospitality Strategic Management 3
A capstone case course where students utilize the integration of knowledge and skills, acquired throughout their course work, through the strategic management process to address issues facing tourism and hospitality organizations.
Prerequisites: HTMT major. Senior standing.

Teacher Education (TED)

TED 198 Freshman Teaching Fellows Seminar I 1
This course is designed to assist first-year Teaching Fellows into the academic and social systems of higher education and provide an introduction to the field of public school education.
Prerequisites: North Carolina Teaching Fellow.

TED 199 Freshman Teaching Fellows Seminar II 1
This course is designed to assist first-year Teaching Fellows into the academic and social systems of higher education and provide an introduction to the field of public school education.
Prerequisites: North Carolina Teaching Fellow.

TED 222 Mathematics for Teaching 3
Focuses on the mathematical understanding needed for elementary grades mathematics instruction as related to K-5 learners. Content emphases include number and operations, algebra, and data analysis and probability.
Prerequisites: MAT 112 or higher.

TED 223 Mathematics for Teaching Middle Grades 3
This course explores the mathematical content of middle school mathematics: numbers and operations, algebra, measurement, statistics, probability, and geometry. It is structured to build students’ conceptual understanding of mathematics.
Prerequisites: TED 222. MDED major.

TED 224 English Language Arts Concepts for Middle Grades Teachers 3
The course addresses foundational concepts in middle school English language arts, including the cultural and historical contexts of adolescent literature; genre, form, and literary analysis; writing processes; and grammar essentials.
Prerequisites: MDED major. Admission to the Teacher Education Program.

TED 250 Teaching as a Profession 3
A study of traditional and contemporary perspectives on teaching and learning; analysis of contemporary educational issues from teachers’ perspectives; exploration of personal needs and goals in relation to teaching. Field experience in schools required.

TED 275 Professional Development Schools 9
Placeholder course for Elementary and Middle Grades Education students (undergraduates) who apply for admission to the Teacher Education major in the spring and early summer.

TED 296 Study Abroad for Global Engagement: Field Experience 1
Second of three courses taken in conjunction with a UNCG Study Abroad Exchange. Online individual study focusing on the field experience and appropriate engagement in international, intercultural, and/or multicultural contexts.
Prerequisites: IGS 295. Acceptance to a UNCG Study Abroad Exchange Program;
Notes: May repeated up to three times (for three different exchange experiences) for credit when topic varies for a total of 3 s.h.; however, may apply only once toward Liberal and Interdisciplinary Studies, B.A.: IGS concentration requirements; Grade: Pass/Not Pass (P/NP); Same as IGS 296, SES 296.
TED 297 Study Abroad for Global Engagement: Re-Entry Reflections and Applications 1
Third of three courses taken in conjunction with a UNCG Study Abroad Exchange. Focus on the re-entry and re-acculturation processes and the integration of intercultural development into future contexts.
**Prerequisites:** IGS 296. Acceptance to a UNCG Study Abroad Exchange Program;
**Notes:** May repeated up to three times (for three different exchange experiences) for credit when topic varies for a total of 3 s.h.. however, may apply only once toward Liberal and Interdisciplinary Studies, B.A.: IGS concentration requirements; Grade: Pass/Not Pass (P/NP); Same as IGS 297, SES 297.

TED 298 Sophomore Teaching Fellows Seminar I 1
This course is designed to assist sophomore Teaching Fellows in exploring their beliefs about teaching with emphasis on cultural, legal, and ethical dimensions of teaching in schools.
**Prerequisites:** North Carolina Teaching Fellow .

TED 299 Sophomore Teaching Fellows Seminar II 1
This course is designed to assist sophomore Teaching Fellows in exploring their beliefs about teaching with emphasis on cultural, legal, and ethical dimensions of teaching in schools.
**Prerequisites:** North Carolina Teaching Fellow .

TED 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

TED 320 Language Arts Education 3
Curriculum and teaching strategies in the Language Arts with emphasis on the interrelatedness of all language processes: reading, writing, listening, and speaking.
**Prerequisites:** ELED or ELSP major.

TED 335 Language Foundations for Teachers 3
Introductory study of the components of English phonology, morphology, semantics, syntax, and sociolinguistics with a special emphasis on the K-12 classroom application of this knowledge.

TED 350 Internship I: Inquiry in Teaching and Learning 3
Supervised in-school internship and on-campus seminar focused on applying research-based principles from educational psychology and classroom management to teaching and learning.
**Prerequisites:** ELED, MDED, or SPEL major.

TED 360 Integrating the Social Studies in Elementary Grades 3
An examination of curriculum, instruction, and learning in K-6 social studies education. Emphases include development of the social studies; curricular principles and components; teaching strategies; and learner outcomes.
**Prerequisites:** ELED or ELSP major.

TED 370 Science Education in the Elementary School 3
Curriculum and teaching techniques in science for undergraduate prospective elementary school teachers (K-6) with emphasis on problem solving and critical thinking abilities.
**Prerequisites:** ELED or ELSP major.

TED 375 Internship II: Inquiry in Teaching and Learning 3
Supervised in-school internship and on-campus seminar focused on applying research-based principles from educational psychology and classroom management to teaching and learning.
**Prerequisites:** ELED major.

TED 380 Mathematics Education 3
Provides for the development of knowledge and skills necessary to prepare students to teach mathematics in elementary/middle school classrooms.
**Prerequisites:** ELED, ELSP, or MDED major.

TED 398 Junior Teaching Fellows Seminar I 1
This course is designed to assist junior Teaching Fellows in exploring the community aspects of teaching to diversity.
**Prerequisites:** North Carolina Teaching Fellow .

TED 399 Junior Teaching Fellows Seminar II 1
This course is designed to assist junior Teaching Fellows in exploring the community aspects of teaching to diversity.
**Prerequisites:** North Carolina Teaching Fellow .

TED 400 Internship III: Inquiry in Teaching and Learning 3
Supervised in-school internship and on-campus seminar focused on multicultural education teaching to diversity, and understanding the classroom as culture.
**Prerequisites:** ELED or SPEL major.

TED 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

TED 401 Child and Adolescent Development and Learning 1
Definitions and content of theories of development and learning. Enrollment is limited to students who are pursuing initial teacher licensure.
**Prerequisites:** Admission to the Teacher Education Program.

TED 402 Student Engagement in the Classroom 1
Environmental and interpersonal factors in effective classroom management. Enrollment is limited to students who are pursuing initial teacher licensure.
**Prerequisites:** Admission to the Teacher Education Program.

TED 403 Teaching English Learners with Diverse Abilities 1
Cultural, legal, and pedagogical understandings related to teaching English learners with diverse abilities in general education classrooms. Enrollment is limited to students pursuing initial teaching licensure.
**Prerequisites:** Admission to the Teacher Education Program.

TED 406 Institutes in Education 1-3
Practicum or workshop experiences to focus on issues, problems, or approaches in the profession.

TED 416 Emergent Literacy and Literature 3
Explores emergent literacy development from birth to age 5 and investigates the role that texts play in young children's development.

TED 420 Reading Education 3
Curriculum and teaching strategies with emphasis on reading/writing connections, corrective reading, and differentiated instruction.
**Prerequisites:** Admission to Elementary Education or dual major in Elementary and Special Education.

TED 421 Reading Education in the Middle Grades 3
This course examines who middle grades struggling readers are, what challenges content learning may present them, and how content area teachers can address the diverse literacy needs of students.
**Prerequisites:** MDED major.
TED 423 Legal, Historical, and Cultural Issues in ESL 3
Exploration of legal and historical bases of English as a Second Language. Analysis of differences among home and school cultures, especially related to language.
Prerequisites: Standard Professional I License in another area or permission of instructor.

TED 425 Dual Language Instructional Practice 3
This course focuses on teaching in a dual language classroom setting including instructional methods as well as a theoretical framework that supports bilingualism and biliteracy practices.
Prerequisites: Permission of instructor.

TED 428 Advanced Methods in the Elementary Grades 3
Advanced study of methods for teaching, integrating, differentiating, and assessing a specific discipline in the elementary education curriculum. Content area will coincide with team focus.
Prerequisites: Satisfactory standing in Elementary Teacher Education or dual major in Elementary and Special Education.

TED 430 Middle Grades Language Arts 3
Course develops competencies in middle grades language arts instruction as related to adolescent learners. Emphasizes include practical and theoretical attention to best-practices, curriculum, assessment, and standards of practice.
Prerequisites: MDED major.

TED 435 Literacy in the Content Area 3
Designed to prepare middle grades, secondary, and special subject or content area teachers to work with students who exhibit a variety of reading and writing levels.
Prerequisites: Admission to the Teacher Education or M.Ed. Program.

TED 442 Teaching and Learning in the Middle Grades 3
Students will explore the developmental needs of early adolescents, analyze educational practices designed to meet those needs and investigate issues identified in internship experiences.
Prerequisites: TED 250.

TED 444 Educational Psychology for the Secondary Grades 3
The application of the principles of educational psychology (i.e., adolescent development, diversity, learning theory, motivation, and assessment) to teaching high school students.

TED 445 Human Diversity, Teaching, and Learning 3
Examines how the multiple identities of race, ethnicity, socioeconomic status, gender, and religion affect the teaching and learning environment. Issues of classroom management for maximum instructional delivery are also included.

TED 450 Psychological Foundations of Education 3
Designed to develop and demonstrate application of knowledge and understanding of the processes and methods of learning and teaching in respective school settings. Includes study of learner’s growth and maturation, individual differences, and application of psychology to task of the teacher in evaluating pupil progress. Classroom observation and simulated experiences emphasized. Appropriate emphasis on adolescent.

TED 451 Teaching Practices and Curriculum in English 3
Designed to acquaint prospective teachers with modern concepts and practices of English instruction in secondary schools; emphasis on teaching four fundamental language arts: speaking, writing, reading, and listening.
Prerequisites: TED 445, admission to the Teacher Education Program, and an overall minimum GPA of 2.75. or permission of instructor;
Notes: Required of student teachers in English.

TED 452 Educational Psychology for the Middle Grades 3
The application of the principles of educational psychology (i.e., adolescent development, diversity, learning theory, motivation, and assessment) to teaching middle school students.
Prerequisites: MDED major.

TED 453 Teaching Practices and Curriculum in Social Studies 3
Organization of social studies in secondary schools; classroom methods, techniques, and activities; teaching materials; and testing and evaluation.
Prerequisites: TED 445, admission to the Teacher Education Program, and an overall minimum GPA of 3.0. or permission of instructor;
Notes: Required of student teachers in social studies.

TED 454 Middle Grades Social Studies Education 3
Examination of candidate competencies in middle grades social studies instruction. Emphases include practical and theoretical attention to curriculum development, planning, resources, standards, instructional strategies, and assessment.

TED 458 Middle Grades Mathematics Education 3
Development of middle grades mathematics instruction as related to adolescent learners. Emphasizes include practical and theoretical attention to best practices, curriculum, assessment, and standards of practice.
Prerequisites: MDED major. CPT student; lateral-entry middle grades mathematics teacher status (without having completed a middle-grades mathematics methods course); or permission of instructor;
Corequisites: MDED major or CPT student: TED 375 or equivalent.
Notes: CPT (classroom practice track) students have a bachelor’s degree in a discipline other than education and want to pursue an education degree.

TED 459 Teaching Practices and Curriculum in Science 3
Development of philosophy of science teaching and of attitudes and values relative to science teaching in secondary school. Emphasis on recent curriculum studies in biology, chemistry, physics, and earth-science and the changing approaches to teaching these subjects.
Prerequisites: TED 445 and admission to the Teacher Education Program. or permission of instructor;
Notes: Required of student teachers in science.

TED 460 Middle Grades Science Education 3
Develops candidate competencies in middle grades science instruction as related to adolescent learners. Emphasizes include practical and theoretical attention to best practices, curriculum, assessment, and standards of practice.
Prerequisites: MDED major.

TED 461 Student Teaching: Elementary Grades 9
Supervised student teaching in an elementary setting (grades K–6) under direction of a cooperating teacher with university supervision. Full-time teaching assignment in cooperating schools for a full semester. Conferences and seminars required.
Prerequisites: Admission to the Teacher Education Program.
Notes: Grade: Pass/Not Pass (P/NP).

TED 462 Student Teaching: Middle Grades 9
Supervised student teaching in a middle grades setting (grades 6–9) under direction of a cooperating teacher with University supervision. Full-time teaching assignment in cooperating schools for a full semester.
TED 463 Nature of Science, Technology, and Society 3
Study of nature of science, encompassing literature from history, philosophy, and sociology of science. Applications of this literature on school science instruction.
Prerequisites: TED 493 or equivalent science methods course.
Notes: May be repeated for credit when topic varies.

TED 465 Student Teaching: Secondary School 9
Supervised student teaching in senior high school under direction of university supervisor. Observation, participation, and appropriate classroom teaching experience on a full-time teaching assignment for full semester with weekly seminar.
Prerequisites: Admission to Student Teaching.

TED 466 Student Teaching Seminar 3
The Student Teaching Seminar course is designed to accompany the student teaching experience. A primary focus of the Seminar will be to prepare students to complete all state licensure requirements (e.g., edTPA). A secondary focus will be to serve as a space to debrief about the student teaching experience as well as to prepare students for the educational job market.

TED 480 Education in Global Settings 6
The course is designed for students who are interested in exploring education issues through guided study-abroad experiences. Students will participate in field experiences and interact with students and teachers abroad.
Notes: May be repeated for a cumulative total of 6 s.h.

TED 490 Community Literacies and Adult Learners 3
This course focuses on working with adult learners, including families of K–12 English learners, who are learning English as an additional language, in both formal and informal settings.

TED 491 Independent Study 1-3
Guided readings, research, or individual project work under direction of a staff member.
Prerequisites: Permission of instructor.

TED 494 Decolonizing Approaches to Education and Research 3-6
Students learn approaches to decolonizing research and education through readings and in partnership with local community members.
Notes: May be repeated for credit when topic varies.

TED 498 Senior Teaching Fellows Seminar I 1
This course is designed to assist senior Teaching Fellows in synthesizing learnings from prior Teaching Fellows seminars and preparing for positions in public schools.
Prerequisites: North Carolina Teaching Fellow.

TED 499 Senior Teaching Fellows Seminar II 1
This course is designed to assist senior Teaching Fellows in synthesizing learnings from prior Teaching Fellows seminars and preparing for positions in public schools.
Prerequisites: North Carolina Teaching Fellow.

TED 506 Institutes in Education 1-3
Practicum or workshop experiences to focus on issues, problems, or approaches in the profession.
Notes: Grade: Satisfactory/Unsatisfactory (S/U). Students may apply no more than three (3) s.h. of this course to any degree program.

TED 516 Emergent Literacy and Literature 3
Explores emergent literacy development from birth to age 5 and investigates the role that texts play in young children's development.

TED 518 Mathematics in the Elementary Schools 3
Current mathematics program, including emphasis on meaning theory and on instructional materials, methods, and procedures in teaching fundamental operations.

TED 519 Science in the Elementary School 3
Designing and developing science learning experiences for children in the biological, physical, earth, and space sciences. The nature of elementary school science and children's interests are considered.

TED 520 Social Studies in the Elementary School 3
Designed to help educators gain more complete understanding of elementary school social studies. Special emphasis given to evaluation of the field beginning with the separate subjects approach to correlation, to broad fields, to integration, and separate disciplines approach. Emphasis also given to identification of key skills that help children function intelligently in this field. Development of democratic citizens also a major consideration.

TED 523 Legal, Historical, and Cultural Issues in ESL 3
Exploration of legal and historical bases of English as a Second Language. Analysis of differences among home and school cultures, especially related to language.
Prerequisites: Standard Professional I License in another area or permission of instructor.

TED 525 Dual Language Instructional Practice 3
This course focuses on teaching in a dual language classroom setting including instructional methods as well as a theoretical framework that supports bilingualism and biliteracy practices.
Prerequisites: Permission of instructor.

TED 530 Middle Grades Language Arts 3
Course develops competencies in middle grades language arts instruction as related to adolescent learners. Emphases include practical and theoretical attention to best-practices, curriculum, assessment, and standards of practice.
Prerequisites: MDED major.

TED 535 Literacy in the Content Area 3
Designed to prepare middle grades, secondary, and special subject or content area teachers to work with students who exhibit a variety of reading and writing levels.
Prerequisites: Admission to the Teacher Education or M.Ed. Program.

TED 545 Human Diversity, Teaching, and Learning 3
Examines how the multiple identities of race, ethnicity, socioeconomic status, gender, and religion affect the teaching and learning environment. Issues of classroom management for maximum instructional delivery are also included.
Prerequisites: Admission to the Teacher Education Program or permission of department.

TED 551 Teaching Practices and Curriculum in English 3
Designed to acquaint prospective teachers with modern concepts and practices of English instruction in secondary schools; emphasis on teaching four fundamental language arts: speaking, writing, reading, and listening.
Prerequisites: TED 445, admission to the Teacher Education Program, and an overall minimum GPA of 2.75. or permission of instructor;
Notes: Required of student teachers in English.
TED 553 Teaching Practices and Curriculum in Social Studies 3
Organization of social studies in secondary schools; classroom methods, techniques, and activities; teaching materials; and testing and evaluation. 
**Prerequisites:** TED 445, admission to the Teacher Education Program, and an overall minimum GPA of 3.0. or permission of instructor; 
**Notes:** Required of student teachers in social studies.

TED 554 Middle Grades Social Studies Education 3
Examination of candidate competencies in middle grades social studies instruction. Emphases include practical and theoretical attention to curriculum development, planning, resources, standards, instructional strategies, and assessment. 
**Prerequisites:** MDED major.

TED 558 Middle Grades Mathematics Education 3
Development of middle grades mathematics instruction as related to adolescent learners. Emphases include practical and theoretical attention to best practices, curriculum, assessment, and standards of practice. 
**Prerequisites:** TED 545 and admission to the Teacher Education Program, or permission of instructor; 
**Notes:** Required of student teachers in science.

TED 560 Middle Grades Science Education 3
Develops candidate competencies in middle grades science instruction as related to adolescent learners. Emphases include practical and theoretical attention to best practices, curriculum, assessment, and standards of practice. 

TED 580 Education in Global Settings 6
The course is designed for students who are interested in exploring education issues through guided study-abroad experiences. Students will participate in field experiences and interact with students and teachers abroad. 
**Notes:** May be repeated for a cumulative total of 6 s.h.

TED 590 Community Literacies and Adult Learners 3
This course focuses on working with adult learners, including families of K–12 English learners, who are learning English as an additional language, in both formal and informal settings.

TED 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

TED 603 Literacy Instruction for English Language Learners 3
Basic knowledge of theory and research in second language acquisition and literacy development and strategies and techniques for effective literacy instruction for English language learners.

TED 604 Applied Linguistics for ESL Teachers 3
Linguistics theories on phonology, morphology, syntax, psycholinguistics and sociolinguistics; basic theories of second language acquisition; and application of the theories and models of applied linguistics in ESL classroom teaching.

TED 610 Integrating Technology into Subject Matter Instruction 3
Study of ways to integrate a variety of computer-based technologies for teaching and learning content in the K-12 curriculum. Designed for classroom teachers, computer teachers, and computer specialties.

TED 614 Word Study 3
Designed to familiarize educators with underlying developmental theories and teaching strategies for word recognition, spelling, and vocabulary development. Special attention given to issues surrounding phonics.

TED 615 Literacy in the Early Years 3
Course explores how children learn to read and how to facilitate readers' growth in the primary grades. Emphasis on at-risk readers.

TED 616 Literacy Development and Instruction Across the Elementary Grades 3
Designed to give teachers a deeper understanding of the theories and research behind effective reading instruction for students in the elementary grades.

TED 617A Practicum in Literacy Assessment and Instruction 3
Causes of reading disabilities, diagnostic instruments, standard and informal assessments, report writing, and materials and methods of struggling readers. Work with individual students or small groups identified as struggling readers. 
**Prerequisites:** TED 614, TED 615, and TED 616 or permission of instructor.

TED 617B Advanced Practicum in Literacy Assessment, Instruction, and Leadership 3
Further examination of struggling readers in a supervised, clinical context. Evaluation of formal and informal assessments, the generation of educational prescriptions, and the directions of assessment procedures. 
**Prerequisites:** TED 617A or permission of instructor.

TED 618 Teaching English as a Second Language 3
Specific instructional methods and strategies to facilitate content area instruction and English language development for students who speak languages other than English.

TED 619 Issues and Trends in Literacy Education 3
Examines contemporary issues in Literacy Education. Special attention to the changing contexts of literacy curricula and instruction. 
**Prerequisites:** Minimum of 9 hours in reading education and TED 604 or 605 or permission of instructor.

TED 623 Environmental Education 3
Teachers will design, conduct, and evaluate environmental education activities. Course activities partially fulfill requirements for North Carolina environmental education certification. 
**Prerequisites:** TED 545, TED 669, ERM 605, or permission of the instructor. 
**Notes:** Weekend field trip is required. May be repeated for credit when topic varies.

TED 625 Mathematics in the Elementary School II 3
**Prerequisites:** Admission to the MAT, Elementary Education concentration, or permission of instructor.

TED 626 Middle Grades Curriculum and Instruction 3
Curricular and instructional principles, processes, and designs applicable to students in the middle grades. Particular emphasis is given to exemplary middle school programs. 
**Prerequisites:** Permission of instructor.
TED 628 Trends and Issues in Curriculum and Instruction 3
Examination of selected current trends and issues in curriculum and instruction, focusing on causes, intentions, and effects of policies at the local, state, and national levels.
Notes: May be repeated for credit when topic varies.

TED 629 Academic Discourse Communities in Graduate Studies 3
Examines efficient techniques for evaluating academic research and for developing writing and oral skills in different genres of academic discourses appropriate to disciplinary communities.

TED 630 Mathematics Teaching in Middle and Secondary Studies 3
Examines models of mathematics instruction in middle grades and secondary mathematics classrooms.
Prerequisites: Permission of instructor.
Notes: May be repeated for credit when topic varies.

Historical development and objectives of social studies curriculum in schools; structure of individual disciplines in social studies, trends and new direction in curriculum, and implications of significant research in social studies curriculum and methodology.
Prerequisites: Permission of instructor.
Notes: May be repeated once for credit when topic varies.

TED 632 Science Education: Teaching Practices and Curriculum 3
Application of reform efforts in the sciences with attention given to eco and social justice perspectives.
Prerequisites: Permission of instructor.
Notes: May be repeated once for credit when topic varies.

TED 634 Seminar in Middle Grades Education 3
Will focus on the unique needs of students and teachers in middle level schools.
Prerequisites: Completion of a course in middle grades curriculum and instruction.

TED 636 Educational Psychology and Differentiated Instruction 3
Understanding and applying current theory and research addressing education psychology (child/adolescent development, learning theory and motivation) and differentiated instruction.
Prerequisites: Admission to the Master of Arts in Teaching (M.A.T.) program.

TED 640 Writing Instruction Across the Grade Levels 3
Interrelates knowledge, research and practice in teaching writing as a process across grade levels from elementary through secondary levels. Special attention to implementing the writing process across the curriculum.

TED 641 Literacy I: Reading Instruction 3
Course focuses on how children learn to read and write and what classrooms teachers can do to facilitate their growth as readers and writers in the elementary grades.
Prerequisites: Admission to the MAT in Elementary Education, or permission of instructor.

TED 642 Literacy II: Language Arts Instruction 3
Integrated reading and language arts course designed to prepare students to teach reading and writing in the elementary grades.
Prerequisites: Admission to the MAT in Elementary Education, or permission of instructor.

TED 646 Introduction to Equity Education 3
Designed to support students in expanding their views about equity and education to include family and community practices around broadened understandings of community/cultural assets for pedagogical practices.
Notes: Same as LIS 676.

TED 647 Teaching and Learning in Makerspaces 3
This course focuses on Making/Makerspace across formal and informal learning contexts. Students will learn a suite of making practices, informed by theoretical lenses grounded in equity and strength-based approaches.

TED 648 Design-based Action Research in Education 3
In this course students in the Design and Making in Education Certificate Program develop and implement a design-based research project to integrate Making into their professional context.
Prerequisites: TED 646, TED 647, and TED 618 or TED 619 or TED 623 or TED 667 or other course approved by advisor.

TED 650 Establishing and Maintaining a Responsive Classroom Environment 3
Competencies in motivating and increasing student learning through the development of positive interpersonal relationships in the classroom, effective classroom organization and instruction, and altering unproductive student behavior.
Prerequisites: Permission of instructor.

TED 651 Life Sciences in the Elementary School 3
Analysis and expansion of content knowledge and pedagogical content knowledge related to core ideas and crosscutting concepts in earth sciences appropriate for elementary teachers.
Prerequisites: Graduate student in teacher education program or permission of instructor.

TED 652 Physical Sciences in the Elementary School 3
Analysis and expansion of content knowledge and pedagogical content knowledge related to core ideas and crosscutting concepts in earth sciences appropriate for elementary teachers.
Prerequisites: Graduate student in teacher education program or permission of instructor.

TED 653 Earth and Space Sciences in the Elementary School 3
Analysis and expansion of content knowledge and pedagogical content knowledge related to core ideas and crosscutting concepts in earth sciences appropriate for elementary teachers.
Prerequisites: Graduate student in teacher education program or permission of instructor.

TED 657 Nature of Science, Technology, and Society 3
Study of nature of science, encompassing literature from history, philosophy, and sociology of science. Applications of this literature on school science instruction.
Prerequisites: TED 559 or equivalent science methods course.
Notes: May be repeated for credit when topic varies.

TED 658 Number Systems and Operations: K-5 Mathematical Tasks 3
Analysis and construction of effective mathematical tasks in teaching number systems and operations at the K-5 level; attention also given to expansion of content knowledge.
Prerequisites: Teacher licensure.

TED 659 Rational Numbers and Operations: K-5 Learning Trajectories 3
Focus on rational number concepts through learning trajectories at the K-5 level; attention also given to problem solving and content knowledge.
Prerequisites: TED 658.
TED 660 Data Analysis and Measurement: K-5 Classroom Interactions 3
Focus on statistical literacy of elementary teachers and the teaching of data analysis and measurement to K-5 students; attention also given to learning methods that facilitate appropriate classroom interactions.
Prerequisites: TED 658.

TED 661 Algebraic Reasoning: K-5 Discourse and Questioning 3

TED 662 Geometry and Spatial Visualization: K-5 Assessment 3

TED 663 Mathematical Modeling: K-5 Leadership 3

TED 664 Teaching Problem Solving 3
Prerequisites: Admission to a graduate program, or permission of instructor.

TED 668 Seminar in Mathematics Pedagogy 3
Analysis of alternative pedagogy for specific mathematics content, with design of instruction and assessment based on that analysis.
Notes: May be repeated for credit. Maximum of 6 hours applicable toward any degree.

TED 669 Educational Implications of Learning and Developmental Theory 3
How learning and developmental theories define the teacher's role as instructional leader, how curricular materials might be designed and used, and student learning and motivation.
Notes: Same as LIS 669.

TED 670 Research in Mathematics Education 3
Research in mathematics instruction and learning; attention to synthesizing and identifying educational implications of research.

TED 671 Thinking and Learning in Middle Grades and Secondary Mathematics: Number and Algebra 3
An examination of research on the teaching and learning of number and algebra in middle grades and secondary mathematics classrooms.

TED 672 Instructional Design 3
Components of the systems approach to instructional design.
Notes: Same as LIS 672.

TED 673 Thinking and Learning in Middle Grades and Secondary Mathematics: Geometry, Statistics, and Probabil 3
An examination of research on the teaching and learning of geometry, statistics, and probability in middle grades and secondary mathematics classrooms.

TED 676 Teacher as Researcher and Leader I 3
Leadership skills for teachers working with school, district, state, and/or national initiatives and issues. Course focuses on inquiry, developing an action research proposal, and practical application of findings.
Prerequisites: ERM 605 and 24 hours of MEd course work, or permission of instructor.

TED 677 Teacher as Researcher and Leader II 3
Conducting and interpreting a teacher action project investigating curriculum, instruction, teaching, and learning. Course focuses on systematic inquiry, conducting research, practical application of findings, and sharing research in professional settings. May be repeated once for credit.
Prerequisites: TED 676.
Notes: May be repeated once for credit.

TED 680A Clinical Experience in Teaching 3-6
Supervised in-school clinical experience. Required full-time teaching.
Prerequisites: Admission to Med, MAT program, or permission of department.

TED 680B Clinical Experience in Teaching Seminar 3
Seminar focused on the ways students learn within the classroom and community context.
Prerequisites: Admission to Med, MAT program, or permission of department.

TED 688 Contemporary Problems Seminar 1-3
Specific course title identified each semester by a subscript (e.g., Contemporary Problems Seminar; Issues in Professional Negotiations).
Prerequisites: Advanced master's or doctoral standing, or permission of instructor.
Notes: May be repeated for credit when topic varies.

TED 692 Independent Study 1-4
Guided readings, research, and individual project work under direction of a staff member.
Prerequisites: Permission of instructor.

TED 695 Youth Literacies: Advanced Topics in Education 3

TED 696 Classroom Language Assessment 3
An introduction to classroom-based approaches to language assessment for bi-/multi-lingual language learning contexts for in-service and pre-service language teachers.

TED 699 Thesis 1-6
Individual guidance and direction in the development of research problem in the master's degree thesis.

TED 728 Topics in Curriculum and Instruction 3
Advanced study of special topics in curriculum and teaching.
Prerequisites: Permission of instructor.
Notes: May be repeated up to three times for credit when topic varies.

TED 729 Topics in Math and Science Education 3
This variable-topics course provides an opportunity for advanced study of conceptual or methodological topics in math and science education. Specific course title identified each semester by an extended title.
Prerequisites: Permission of Instructor.
Notes: May be repeated up to three times for credit when topic varies.

TED 730 Qualitative Methods in Curriculum and Instruction 3
Qualitative research design in education, including its history, philosophy and nature. Includes discussion of types of qualitative research, assessment issues, and critical reading of qualitative research.
Prerequisites: TED 749 or permission of instructor.

TED 735 Design-Based Research in Education 3
Overview of design-based research methods including its history and current literature. Topics include research design, data collection, data analysis, and proposed writing for a design-based research study.

TED 738 Mixed Methods Research Design in Curriculum and Instruction 3
Overview of mixed methods research including its history, current literature, and typology. Topics include research design, data collection, data analysis, validity, and proposed writing for a mixed methods study.
TED 744 Seminar in Composition Studies 3
Studies in special topics related to literacy, the process of composing, composition pedagogy, and composition research.
Prerequisites: ENG 522, ENG 747 or permission of instructor.
Notes: May be repeated once for credit when topic varies, same as ENG 744.
TED 746 Seminar: Research on Teaching 3
Competencies in thinking critically about research on teaching with respect to the findings of research and the methodologies for conducting research on teaching.
Prerequisites: Admission to TED/HED doctoral program and grade of B (3.0) or better in TED 749.
TED 747 Doctoral Seminar in Learning and Cognition 3
TED 749 Disciplined Inquiry in Teacher Education 3
Students will learn about various methods for disciplined inquiry in the fields of curriculum and instruction, begin to develop their research interests, and practice critical reading and writing strategies.
TED 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.
TED 759 College Teaching Practicum 3
Supervised experiences in teaching college level course(s).
Prerequisites: Advanced standing in the curriculum and teaching doctoral track and permission of instructor.
TED 760 Theory in Math and Science Education 3
Overview of major topics, theories, and influential research programs in math and science education. Students will consider educational research, practice, and policy as well as their intersections.
Prerequisites: Permission of instructor.
TED 761 Student Reasoning in Math and Science Education 3
Course will showcase the complexity and power of K-12 students’ ways of reasoning in math and science in conjunction with research methods for capturing this reasoning.
Prerequisites: Permission of instructor.
TED 762 Pedagogy in Math and Science Education 3
Course will focus on scholarship related to math and science teaching and the development of this expertise, including teacher education for prospective teachers and professional development for practicing teachers.
Prerequisites: Permission of instructor.
TED 765 Research in Equity Education 3
Examines the research knowledgebase in equity education and facilitates the design of culturally sensitive studies. Particular emphasis on race/ethnicity, gender, and class issues related to the design of research studies that affirm equity and perpetuate social justice.
Prerequisites: TED 646 and TED 730 or other qualitative research methodology course or permission of instructor.
TED 767 Qualitative Data Collection and Analysis 3
In-depth experience in qualitative data collection and analysis beyond the introductory level. Completion of a qualitative research project in collaboration with other students in the class.
Prerequisites: ELC 664, ELC 665 or other course in qualitative research.
TED 770 Community Engaged Research and Practice 3
An in-depth exploration of the history, theory, ethics, research methods, and reporting of community-engaged research with an emphasis on positionality and reflexivity. Research practices in community settings are required.
Prerequisites: TED 730, ELC 664, ELC 665, ERM 750 or permission of instructor.
Notes: Same as ELC 770 and SES 770.
TED 775 Directed Doctoral Research 3
TED 776 Becoming a Scholar in Math and Science Education 3
Individualized directed doctoral research and participation in a collaborative scholarly community of math and science education researchers, which includes engagement in reading group discussions, research meetings, and research sites.
Prerequisites: Permission of instructor.
Notes: May be repeated up to three times for credit.
TED 799 Dissertation 1-12
Individual direction in the development and execution of a doctoral dissertation.
TED 801 Thesis Extension 1-3
Thesis Extension.
TED 802 Dissertation Extension 1-3
Dissertation Extension.
TED 803 Research Extension 1-3
Research Extension.

Theatre (THR)

THR 100 Drama Appreciation 3
Theatre as an art form: how the actor, director, and designer function. Outstanding plays of major periods demonstrate the technical and aesthetic aspects of theatrical production. Illustrated lectures, demonstrations, and classroom experiments.
MAC: MAC CritThink Hum and Fine Art

THR 107 Musical Theatre Repertoire 0
A weekly class focusing on the vast array of Musical Theatre repertoire and styles. Students will also discuss industry trends and topics, as well as the business of auditioning, self-promotion, and marketing.
Prerequisites: BFA Drama with Musical Theatre concentration.
Corequisites: THR 118 or THR 119 or THR 218 or THR 219 or THR 318 or THR 319 or THR 418 or THR 419.

THR 108 Musical Theatre Studio I 3
A studio course that synthesizes the work being done in students’ acting, dynamics, vocal, dance, and analysis courses and allows for practical application through Musical Theatre performance.
Prerequisites: THR 118. THR 201; THR 235; Open only to students in the BFA Drama with Musical Theatre Concentration.

THR 110 Designing Weddings and Other Ceremonies 3
This course explores how to design local ceremonies associated with life transitions (birthdays, initiations, weddings, and memorials), while considering theatre design elements and ritual found in comparable non-Western cultures.
MAC: MAC CritThink Hum and Fine Art
THR 118 Musical Theatre Voice I
Vocal technique studies focusing specifically on technique related to musical theatre vocal production. This is the first in an eight semester sequence. In the first year students should demonstrate healthy habits of breathing and resonance techniques and be able to sing in fundamental classic and contemporary musical theatre styles. Development of consistent, effective practice habits will be monitored and expected.
Prerequisites: Audition Required. Open only to those in the BFA Drama with Musical Theatre Concentration;
Corequisites: THR 107.

THR 119 Musical Theatre Voice II
Vocal technique studies focusing specifically on technique related to musical theatre vocal production. This is the second in an eight semester sequence. In the first year students should demonstrate healthy habits of breathing and resonance techniques and be able to sing in fundamental classic and contemporary musical theatre styles. Development of consistent, effective practice habits will be monitored and expected.
Prerequisites: THR 118.
Corequisites: THR 107.
Notes: Audition Required. Open only to those in the BFA Drama with Musical Theatre Concentration.

THR 120 Voice for the Actor
The study of the mechanics of the voice for dramatic literature, developing intelligible speech through the use of Standard American Sounds.
Prerequisites: DRAM major.

THR 130 Fundamentals of Acting
Understanding and appreciation of the problems, demands, and disciplines of the actor’s art.
MAC: MAC CritThink Hum and Fine Art
Prerequisites: Non-DRAM majors.

THR 140 Stagecrafts: Scenery
Introduction to technical theatre practice, backstage organization, tools, hardware, materials, and current scenery construction methods.
Prerequisites: Concurrent enrollment in THR 140L or previous credit for THR 140L. DRAM major or School of Theatre minor or permission of instructor.

THR 140L Stagecrafts: Scenery Lab
Crew experience working either backstage or in the scene studio for a School of Theatre production.
Prerequisites: Concurrent enrollment in THR 140 or previous credit for THR 140. DRAM major or School of Theatre minor or permission of instructor.

THR 145 Stagecrafts: Costume
Study of costume technology, including garment construction, fabrics, and history, for the creation of theatrical costumes.
Prerequisites: Concurrent enrollment in THR 145L or previous credit for THR 145L. DRAM major or School of Theatre minor or permission of instructor.

THR 145L Stagecrafts: Costume Lab
Costume construction experience working in the costume studio for a School of Theatre production.
Prerequisites: Concurrent enrollment in THR 145 or previous credit for THR 145. DRAM major or School of Theatre minor or permission of instructor.

THR 146 Stagecraft: Lighting & Sound
An introduction to the vocabulary, history, equipment, and techniques of sound and lighting equipment used in a performing arts environment. The class will combine hands-on projects and demonstrations to support lectures and textbook material.
Prerequisites: Concurrent enrollment in THR 146L or previous credit for THR 146L. DRAM major or School of Theatre minor or permission of instructor.

THR 146L Stagecrafts: Lighting & Sound Lab
Crew experience working either backstage or in the lighting studio for a School of Theatre production.
Prerequisites: Concurrent enrollment in THR 146 or previous credit for THR 146. DRAM major or School of Theatre minor or permission of instructor.

THR 147 Stagecrafts: Makeup & Wardrobe
An introduction to the basics of stage make-up application and wardrobe crew work for theatrical performances.
Prerequisites: Concurrent enrollment in THR 147L or previous credit for THR 147L. DRAM major or School of Theatre minor or permission of instructor.

THR 147L Stagecrafts: Makeup & Wardrobe Lab
Wardrobe experience working as the wardrobe crew for a School of Theatre production.
Prerequisites: Concurrent enrollment in THR 147 or previous credit for THR 147. DRAM major or School of Theatre minor or permission of instructor.

THR 191 Theatre Practice - Scenery
Open to any student interested in participating in the scenery phase of production.
Prerequisites: THR 140.
Notes: May be repeated for credit.

THR 192 Theatre Practice - Costumes
Open to any student interested in participating in the costuming phase of production.
Prerequisites: THR 145.
Notes: May be repeated for credit.

THR 194 Apprentice Production Practicum
Beginning-level production work in scenery, lighting, costuming, sound, or stage management.
Prerequisites: THR 140 or THR 145 or THR 146 or THR 147. B.F.A. DRAM major. Design and Technical Production Concentration; or permission of instructor;
Notes: May be repeated for credit.

THR 200X Experimental Course
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

THR 201 Playscript Analysis
Systems for analyzing playscripts which may be adapted and employed by directors, actors, and/or designers.
Prerequisites: DRAM major or School of Theatre minor or permission of instructor.
THR 208 Musical Theatre Studio II 3
A studio course that synthesizes the work being done in students' acting, dynamics, vocal, dance, and analysis courses and allows for practical application through Musical Theatre performance. MT Studio II focuses on extension of scene study to longer work development, including new works.
Prerequisites: THR 236, THR 119; Open only to students in the BFA Drama with Musical Theatre Concentration.

THR 218 Musical Theatre Voice III 2
Vocal technique studies focusing specifically on technique related to musical theatre vocal production. This is the third in an eight semester sequence. In the second year students should demonstrate continued development of technique as well as growth in vocal range and stamina. Students will begin to understand styles and vocal type and exhibit greater mastery of fundamental functional vocal techniques. Students will continue classic and contemporary musical theatre styles, as well as some pop styles. Repertoire with greater vocal demands will be assigned at the discretion of instructor, and students should begin to assess level of appropriateness of music based on difficulty, range, and type.
Prerequisites: THR 119. Audition Required; Open only to those in the BFA Drama with Musical Theatre Concentration;
Corequisites: THR 107.

THR 219 Musical Theatre Voice IV 2
Vocal technique studies focusing specifically on technique related to musical theatre vocal production. This is the fourth in an eight semester sequence. In the second year students should demonstrate continued development of technique as well as growth in vocal range and stamina. Students will begin to understand styles and vocal type and exhibit greater mastery of fundamental functional vocal techniques. Students will continue classic and contemporary musical theatre styles, as well as some pop styles. Repertoire with greater vocal demands will be assigned at the discretion of instructor, and students should begin to assess level of appropriateness of music based on difficulty, range, and type.
Prerequisites: THR 218. Audition Required; Open only to those in the BFA Drama with Musical Theatre Concentration;
Corequisites: THR 107.

THR 221 Dynamics in Acting: Movement I 3
Practical exercise in physical disciplines to develop concentration, imagination, and the body as the actor's instrument.
Prerequisites: B.F.A. in Acting Students only.

THR 222 Dynamics in Acting: Voice I 3
Beginning course in the voice/speech sequence in the B.F.A. Acting program. Understanding of breath, foundations of voice production, elements of speech.
Prerequisites: B.F.A. in Acting Students only.

THR 231 Acting I 3
Introduction to the ideas of Konstantin Stanislavsky's system for modern acting. Voice and movement warm-up exercises along with beginning acting exercises that culminate in basic scene study.
MAC: MAC Oral Communication
Prerequisites: Restricted to Theatre Department majors and minors.

THR 232 Acting II 3
Application of basic techniques developed in 231 to elementary scene study. Introduction to the Stanislavski System. Further study in movement, voice, and improvisation.
Prerequisites: THR 231.

THR 235 Acting Studio 1 3
The foundational course in the study of the Stanislavski acting system. Students will begin their exploration of "living truthfully in a set of imaginary circumstances.”
Prerequisites: B.F.A. Acting major.

THR 236 Acting Studio 2 3
An introduction to the Sanford Meisner technique: emphasis on moment-to-moment work, playing simple actions, and personalizing the imaginary circumstances.
Prerequisites: THR 235.

THR 242 Technical Production: Scenery 2
Further develop the theatrical construction skills and knowledge necessary for advanced construction techniques and installation of scenic units.
Prerequisites: THR 140 or permission of instructor.

THR 244 Technical Production: Costumes 2
To further develop costume technology skills taught at the beginning level in THR 145.
Prerequisites: THR 145 or permission of instructor.

THR 245 Theatre Graphics 3
Introduction to the basic materials and techniques of graphic presentation in scenic, costume, and lighting design for the theatre.
Prerequisites: THR 140 or THR 145 or THR 146 or THR 147.

THR 246 Technical Production: Sound and Lighting 2
Enhance the student's familiarity with the process and equipment used in modern theatre production.
Prerequisites: THR 146 or permission of instructor.

THR 248 Portfolio Preparation for the Theatre 3
This course guides students in developing the materials and skills necessary to present their education and experience to employers in the most effective manner, including resumes, cover letters, and portfolios.
MAC: MAC Oral Communication
Prerequisites: At least two courses from the following: THR 140, THR 145, THR 146, or THR 147. Design and Technical Production concentration; or permission of the instructor.

THR 260 Advanced Makeup 3
Special emphasis on character analysis, physiognomy, color, three-dimensional make-up, rubber prosthesis, beard and wig make-up for theatre, film and television production.
Prerequisites: THR 147 or permission of instructor.

THR 280 The Mask in Performance 3
A cross-cultural introduction to masks throughout history, their construction, and use in performance.
Prerequisites: THR 130 or THR 231.

THR 291 Applied Theatre I 1-4
Supervised practical experience in various areas of theatre production.
Notes: May be repeated for credit.

THR 294 Intern Production Practicum 2
Intermediate-level production work in scenery, lighting, costuming, sound, or stage management.
Prerequisites: THR 140 or THR 145 or THR 146 or THR 147. BFA in DRAM: Design and Technical Production concentration;
Notes: May be repeated for a total of 12 s.h.

THR 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.
THR 305 Broadway: Development of the American Musical 3
Exploring Musical Theatre's development from European tradition to a uniquely American art form. Places operetta, minstrelsy, vaudeville, burlesque, revue, and musical comedy into historical context. Illustrated lectures and demonstrations.

THR 306 Musicianship for Musical Theatre I 3
Development of musicianship skills to be used specifically for the Musical theatre genre.

THR 308 Musical Theatre Studio III 3
A studio course that synthesizes the work being done in students' acting, dynamics, vocal, dance, and analysis courses and allows for practical application through Musical Theatre performance. MT Studio III focuses on full works and character narrative.
Prerequisites: THR 208, THR 219; THR 332; Open only to students in the BFA Drama with Musical Theatre Concentration.

THR 309 Singing for the Actor 1
Study of basic principles of vocal production for Musical Theatre repertoire, to include acquaintance with appropriate style, song choice, and performance.
Prerequisites: Open to all Theatre Majors (BA, BFA) and Music Theatre Minors.

THR 315 Creative Drama for the Classroom Teacher 3
Preschool and elementary school creative drama and its place in preschool and K–5 curricula. Emphasis on fundamentals, materials, teaching techniques, and evaluation.

THR 316 Musicianship for Musical Theatre II 3
Continued development of musicianship skills to be used specifically for the Musical theatre genre.
Prerequisites: THR 306.

THR 318 Musical Theatre Voice V 2
Vocal technique studies focusing specifically on technique related to musical theatre vocal production. This is the fifth in an eight semester sequence. In the third year students will sing effectively in a variety of styles while continuing to strengthen healthy vocal technique. As development allows, students will collaborate in choosing repertoire with further varied singing styles that suit individual needs.
Prerequisites: THR 219.
Corequisites: THR 107.
Notes: Audition Required. Open only to those in the BFA Drama with Musical Theatre Concentration.

THR 319 Musical Theatre Voice VI 2
Vocal technique studies focusing specifically on technique related to musical theatre vocal production. This is the sixth in an eight semester sequence. In the third year students will sing effectively in a variety of styles while continuing to strengthen healthy vocal technique. As development allows, students will collaborate in choosing repertoire with further varied singing styles that suit individual needs.
Prerequisites: THR 318.
Corequisites: THR 107.
Notes: Audition Required. Open only to those in the BFA Drama with Musical Theatre Concentration.

THR 320 The Actor's Space 3
Concentrated study of kinesthetic and spatial awareness. Special emphasis on physical and vocal adjustments to the demands of different performance spaces.

THR 321 Dynamics in Acting: Movement II 3
Advanced daily practical exercise in physical disciplines to develop concentration, imagination, and the body as the actor's instrument.
Prerequisites: THR 221. B.F.A. in Acting Students only.

THR 322 Dynamics in Acting: Voice II 3
Continuation course in the voice/speech sequence in the B.F.A. Acting program. IPA, vocal range, elements of speech, application to dramatic text.
Prerequisites: THR 222. B.F.A. in Acting Students only.

THR 331 Acting Studio 3 3
Concentrated study in script and role analysis. Intensive improvisation to develop acting techniques.
Prerequisites: THR 236.

THR 332 Acting Studio 4 3
Working in the Stanislavski system as it applies to performance for the camera rather than a live audience. Focus will include film work, episodic television, soap operas, and sitcoms.
Prerequisites: THR 331.

THR 340 Scenic Automation and Technology 3
Introduction to mechanical devices used for automation of stage scenery. Topics covered will include stage winches, fluid power (hydraulics & pneumatics), control systems, and system design.
Prerequisites: THR 140 and THR 242 or permission of instructor.

THR 345 Theatre Properties & Crafts 3
An introduction to materials and methods for theatre properties or costume crafts. These may include upholstery, vacuum forming, food crafts, painting, furniture construction & repair, fabric dyes, and fabric paints.
Prerequisites: THR 140 or permission of instructor.

THR 346 Costume Crafts 3
Exploration of basic design elements and fabrics relative to costuming. Laboratory projects in costume crafts.
Prerequisites: THR 145 or permission of instructor.

THR 349 Workshop in Musical Theatre 3
An exploration of musical theatre in a studio workshop setting.
Prerequisites: By audition only and THR 307 and THR 231 or THR 235.
Notes: May be repeated when topic varies for a total of 9 s.h.

THR 351 Scene Design 3
Principles and practice of scene design for performance.
Prerequisites: THR 140 or permission of instructor.

THR 357 Musical Theatre Audition Technique I 2
For undergraduate students interested in developing their musical-theatre audition skills.
Prerequisites: THR 306.

THR 361 Costume Design 3
Principles and practice of costume design for performance.
Prerequisites: THR 145 or permission of instructor.

THR 370 Lighting Design 3
Principles and practice of lighting design for theatre, television and film.
Prerequisites: THR 146. or permission of instructor.

THR 375 Theatrical Sound Design and Technology 3
An introduction to the theory, aesthetics, and technology of theatrical sound design.
Prerequisites: THR 146. BFA in DRAM: Design and Technical Production concentration; or permission of the instructor.
THR 380 Playwriting 3
Exercises in dramaturgical techniques including adapting literature for performance. Composition of one-act plays.

THR 386 Introduction to Stage Management 3
Introduction to the duties and responsibilities of the theatrical stage manager; emphasis on the stage manager's place in the theatrical organization and their interaction with other members of the production.

Prerequisites: At least two courses from the following: THR 140, THR 145, THR 146, or THR 147. BFA in DRAM: Design and Technical Production concentration; or permission of instructor.

THR 394 Journeyman Production Practicum 3
Advanced-level production work in scenery, lighting, costuming, sound, or stage management.

Prerequisites: THR 140 or THR 145 or THR 146 or THR 147. BFA in DRAM: Design and Technical Production concentration; or permission of instructor.

THR 395 Special Problems 1-3
Guided individual study in an area of special interest to the student.

Prerequisites: Permission of faculty supervisor is required prior to registration.

Notes: May be repeated for credit.

THR 400 Theatre History I 3
Specific conditions under which the great plays of the world have been produced. Origins through the late French Renaissance up to the English Restoration.

Prerequisites: THR 201. Junior standing or higher.

THR 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

THR 401 Theatre History II 3
Specific conditions under which the great plays of the world have been produced. The English Restoration and German Romanticism through Modern and Postmodern movements.

Prerequisites: THR 201. Junior standing or higher.

THR 402 Theatre History III 3
Specific conditions under which the great plays of the world have been produced. I: Origins to Renaissance; II: Early Modern to Realism; III: Modernism to Postmodernism.

THR 403 Western Period Architecture and Decor in Design for Performance 3
Study of Western period styles and how they are used in design for performance: architecture and decor from antiquity to the present.

Prerequisites: Admission to BFA Drama, Design amp. Technical Production concentration; or permission of instructor.

THR 404 Western Period Fashion and Accessories in Design for Performance 3
Study of Western period styles and how they are used in design for performance: fashion and accessories from antiquity to the present.

Prerequisites: Admission to BFA Drama, Design amp. Technical Production concentration; or permission of instructor.

THR 405 American Theatre History 3
Development of Theatre in America from its beginnings to the present. Includes consideration of theatre artists and companies, audiences, performance spaces, production and business practices, plays, and playwrights.

Prerequisites: Junior standing or permission of instructor.

THR 406 Histories of Global Performance and Theatre 3
Global cultural performance, dramatic literature and theatre including but not limited to the peoples of Africa, Asia, Latin America, Pasifika, and South America. Subject varies with instructor.

Prerequisites: Sophomore standing or higher.

Notes: May be repeated for up to 6 s.h., depending on course content.

THR 407 Feminist Theatre 3
Survey of twentieth and twenty-first century British and American feminist theatre, focusing on performance texts that address salient concerns of first, second, and third wave feminisms.

THR 408 Musical Theatre Studio IV 3
A studio course that synthesizes the work being done in students' acting, dynamics, vocal, dance, and analysis courses and allows for practical application through Musical Theatre performance. MT Studio IV focuses on continuation of practical performance application, as well as final industry preparation for seniors majoring in Musical Theatre.

Prerequisites: THR 108. THR 118; THR 201; THR 208; THR 218; THR 219; THR 235; THR 236; THR 308; THR 318; THR 319; THR 331; THR 332; Open only to students in the BFA Drama with Musical Theatre Concentration.

THR 410 Directing I 3
Fundamental principles of directing for the theatre including adapting literature for performance.

Prerequisites: THR 201, junior standing, and Theatre Major. or permission of the instructor.

THR 411 Directing II 3
An intermediate directing course that involves the student in the theory and practice of contemporary plays.

Prerequisites: Two theatre courses and THR 201 and THR 410. or permission of instructor.

THR 415 Drama in Education 3
Research and literature of drama strategies and techniques for children, ages 5 through 14. Practice in leading groups of children in drama in educational settings.

Prerequisites: B.A., B.F.A., and M.F.A. Theatre Majors, or permission of the instructor.

THR 416 Puppetry 3
Scope and development of puppetry throughout the world. Practical experience in the design, making, and performing of puppets.

Prerequisites: B.A., B.F.A., and M.F.A. Theatre Majors, or permission of the instructor.

THR 417 Devised Theatre 3
Research and literature of devised theatre in pedagogy and methodology. Practice in facilitating devised theatre in education and in the community.

Prerequisites: B.A. and B.F.A. Theatre Majors, or permission of the instructor.

THR 418 Musical Theatre Voice VII 2
Vocal technique studies focusing specifically on technique related to musical theatre vocal production. This is the seventh in an eight semester sequence. In the fourth year a variety of cuts and/or full songs chosen by student with approval by instructor will be worked and perfected in order to expand students’ repertoire and audition book. Students will continue to expand healthy technique and style, and learn to further assess and self-correct general vocal challenges.

Prerequisites: THR 319. Audition Required; Open only to those in the BFA Drama with Musical Theatre Concentration.

Corequisites: THR 107.
THR 419 Musical Theatre Voice VIII 2
Vocal technique studies focusing specifically on technique related to musical theatre vocal production. This is the eighth in an eight semester sequence. In the fourth year a variety of cuts and/or full songs chosen by student with approval by instructor will be worked and perfected in order to expand students’ repertoire and audition book. Students will continue to expand healthy technique and style, and learn to further assess and self-correct general vocal challenges.
Prerequisites: THR 418. Audition Required; Open only to those in the BFA Drama with Musical Theatre Concentration;
Corequisites: THR 107.

THR 421 Physical Violence for the Stage 3
Intensive study and practice of the mechanics of stage violence for advanced performance students. Focus on safe performance techniques for violence in period and contemporary texts.
Prerequisites: THR 332. Drama Major.

THR 422 Stage Dialects 3
A study of selected dialects of English for performance, including dialect in cultural context and the application to dramatic text.
Prerequisites: THR 322. B.F.A. in Acting Students only.

THR 431 Acting Studio 5 3
Study and practice of acting styles outside contemporary realism, focusing on techniques required for the heightened language & physicality of non-Shakespearean Western texts, including plays in translation, from the Greeks to the present day.
Prerequisites: THR 332. BFA majors only.

THR 432 Advanced Shakespeare Studio 3
Study and practice of Shakespearean acting styles. Performance emphasizing manners, movement, and vocal delivery of the Elizabethan period.
Prerequisites: THR 332. B.F.A. or M.F.A. Acting Majors Only.

THR 434 Camera Acting: Basic Techniques 3
An examination of the differences between acting on film and acting on stage. Students will act in a variety of different types of camera work including feature films, dramas, sitcoms, and commercials.
Prerequisites: THR 231. Theatre Majors only.

THR 435 Performance Styles 3
Introduction to acting styles such as Greek, Commedia dell’Arte, Shakespeare, and Comedy of Manners, with pedagogical opportunity to lesson-plan for additional genres and styles.
Prerequisites: THR 232. Drama major.

THR 436 Advanced Acting for the Camera Studio 3
An advanced study of performance for the camera. Camera scene study will continue with added emphasis on clarity of intention and accuracy of repetition.
Prerequisites: THR 332 or THR 534. B.F.A. Actors Only.

THR 439 Professional Theatre Audition Techniques 3
Audition theory, techniques, and practice for theatre, television, and films.
Prerequisites: THR 332. B.F.A. and M.F.A. Actors only; or permission of instructor.

THR 440 Advanced Stagecrafts 3
Study of advanced scenic construction, property construction, and rigging techniques for the stage. Supervised laboratory work in wood, plastics, metal, and other materials.
Prerequisites: THR 140 and THR 242. or permission of instructor.

THR 441 Technical Direction 3
Theatrical technical direction with emphasis on organizational, managerial, and problem-solving duties and responsibilities. Lecture combined with practical projects.
Prerequisites: THR 140 and THR 444. or permission of instructor.

THR 442 Scene Painting I 3
Tools, materials, and techniques of scene painting.
Prerequisites: THR 242. Design and Technical Production concentration; or permission of instructor.

THR 444 Computer Aided Drafting for the Theatre 3
Introduction to the fundamentals of Computer Aided Drafting and its use in theatre.
Prerequisites: THR 245 or permission of instructor.

THR 446 Advanced CAD for the Theatre 3
Continuation of Computer Aided Drafting for the Theatre concentrating on 3-D virtual modeling and visualization and its use in theatre.
Prerequisites: THR 444 or permission of instructor.

THR 448 Stage Millinery and Accessories 3
Historical millinery and accessories in relation to stage adaptation; design and construction techniques.
Prerequisites: THR 145. or permission of instructor.

THR 449 Historical Costume Pattern Drafting and Draping 3
Historical pattern-making techniques for stage costumes; theory and practice in costume construction.
Prerequisites: THR 145. or permission of instructor.

THR 450 Advanced Scene Design 3
Advanced problems in set design for performance. Topics may vary with each offering.
Prerequisites: THR 351. BA or BFA in DRAM; or permission of instructor.

THR 460 Advanced Costume Design 3
Advanced problems in costume design for performance. Topics may vary with each offering.
Prerequisites: THR 361. BA or BFA in DRAM; or permission of instructor.

THR 467 BFA Performance Senior Seminar: Preparing to Showcase Your Talents Post Graduation 3
Preparing the graduating theatre artist for a New York showcase and assisting them in the transition from college to their first year as a professional actor.
Prerequisites: THR 332.

THR 470 Advanced Lighting Design 3
Advanced problems in lighting design for performance. Topics may vary with each offering.
Prerequisites: THR 370 and THR 444. BA or BFA in DRAM; or permission of instructor.

THR 480 Playwriting II 3
Focus on advanced play construction and dramatic writing.
Prerequisites: THR 380.

THR 482 Teaching Methods in Theatre Arts 3
Philosophy, means, and methods for conducting classes and structuring curricular and cocurricular theatre activities. Includes internship in public schools as lab. Required for Theatre Education teacher licensure.

THR 483 Honors Work 3-6
Honors Work.
Prerequisites: Permission of instructor. 3.30 GPA in the major, 12 s.h. in the major;
Notes: May be repeated for credit if the topic of study changes.
THR 484 Theatre Management 3
Theatre organization and operation. Practical problems of financing, promoting, and staffing various theatre programs.
Prerequisites: B.A., B.F.A., and M.F.A. Theatre Majors, or permission of the instructor.

THR 485 Directing Practicum 1
Practice in directing the play; preparations of a 25-minute play or excerpt, and presentation in the Workshop Theatre.
Prerequisites: THR 410 and B.A., B.F.A., and M.F.A. Theatre Majors, or permission of the instructor.
Notes: May be repeated for a total of two semester hours.

THR 486 Theatre Management and Entrepreneurship 3
Learn how to develop and manage a theatre in the twenty-first century. This class provides fundamental knowledge and critical thinking skills to prepare students for a career in Theatre Management. Students will actively engage with the most relevant challenges faced by leaders in contemporary Theatre/Entrepreneurship.
Notes: Same as ENT 486.

THR 487 Theatre Field Studies 1-3
Guided off-campus study in the Theatre disciplines. Travel required. Site and topic will vary from semester to semester.
Notes: May be repeated for up to four (4) semester hours.

THR 488 Applied Theatre II 1-4
Intensive experience in one or more areas of theatre production.
Prerequisites: THR 291. B.A., B.F.A., and M.F.A. Theatre Majors, or permission of the instructor.

THR 489 Developing and Managing Educational Programs for Arts Organizations 3
Using a case study approach, students will learn about how education departments at arts organizations operate in the 21st century from both theoretical and practical perspectives.
Prerequisites: Must be majoring in a CVPA degree track or a School of Education degree track. Junior standing or above;
Notes: Same as AAD 489.

THR 490 Advanced Theatre Practice-Performance 1
Departmental auditions are open to all students, and credit is given to those who are cast.
Prerequisites: Written permission required.
Notes: May be repeated up to six (6) times for credit.

THR 491 Advanced Theatre Practice-Scenery 1
Open to non-Design and Technical Production students interested in participating in the scenery phase of production.
Prerequisites: THR 140. or permission of the instructor;
Notes: May be repeated for credit.

THR 492 Advanced Theatre Practice-Costumes 1
Open to non-Design and Technical Production students interested in participating in the costuming phases of production.
Prerequisites: THR 145. or permission of the instructor;
Notes: May be repeated for credit.

THR 493 Advanced Theatre Practice - Theatre Management 1
Open to non-Design and Technical Production students interested in Theatre Management.
Prerequisites: One (1) s.h. of THR 191 or THR 192 and junior standing. or permission of the instructor;
Notes: May be repeated for credit.

THR 494 Advanced Theatre Practice-Production 1
Open to non-Design and Technical Production students interested in participating in the technical phases of production.
Prerequisites: THR 140 or THR 145. Permission of Instructor;
Notes: May be repeated for credit.

THR 495 Advanced Theatre Practice-Lighting 1
Open to non-Design and Technical Production students interested in participating in the lighting phase of production.
Prerequisites: One (1) s.h. of THR 191 and junior standing. or permission of instructor;
Notes: May be repeated for credit.

THR 496 Advanced Theatre Practice-Running Crew 1
Open to any student interested in participating in the running crew phase of production.
Prerequisites: One (1) s.h. of THR 191 or THR 192 and junior standing. or permission of instructor;
Notes: May be repeated for credit.

THR 497 Student Teaching in Theatre Arts 12
Capstone experience for theatre education majors: student teaching at elementary, middle, or high school levels; classroom management; discipline; lesson design and implementation; and assessment. Includes biweekly seminars.
Prerequisites: Grade of B- or better in THR 482. completion of all major and teacher licensure course work; and completion of 100 hours of pre-student teaching field experience in K-12 schools.

THR 498 Capstone Production Practicum 3
Capstone experience for a BFA DRAM major: Design and Technical Production concentration student.
Prerequisites: THR 140 or THR 145 or THR 146 or THR 147. junior standing and BFA DRAM major: Design and Technical Production concentration; or permission of instructor.

THR 500 Theatre History I 3
Specific conditions under which the great plays of the world have been produced. Origins through the late French Renaissance up to the English Restoration.

THR 501 Theatre History II 3
Specific conditions under which the great plays of the world have been produced. The English Restoration and German Romanticism through Modern and Postmodern movements.

THR 502 Theatre History III 3
Specific conditions under which the great plays of the world have been produced. I: Origins to Renaissance; II: Early Modern to Realism; III: Modernism to Postmodernism.

THR 503 Western Period Architecture and Decor in Design for Performance 3
Study of Western period styles and how they are used in design for performance: architecture and decor from antiquity to the present.
Prerequisites: Admission to M.F.A. in Drama or permission of instructor.

THR 504 Western Period Fashion and Accessories in Design for Performance 3
Study of Western period styles and how they are used in design for performance: fashion and accessories from antiquity to the present.
Prerequisites: Admission to M.F.A. in Drama or permission of instructor.

THR 505 American Theatre History 3
Development of Theatre in America from its beginnings to the present. Includes consideration of theatre artists and companies, audiences, performance spaces, production and business practices, plays, and playwrights.
THR 506 Global Performance in Theatre 3
Global cultural performance, dramatic literature and theatre including but not limited to the peoples of Africa, Asia, Latin America, Pasifika, and South America. Subject varies with instructor.

THR 507 Feminist Theatre 3
Survey of twentieth and twenty-first century British and American feminist theatre, focusing on performance texts that address salient concerns of first, second, and third wave feminists.

THR 511 Directing II 3
An intermediate directing course that involves the student in the theory and practice of contemporary plays.
Prerequisites: Two theatre courses and THR 201 and THR 410. or permission of instructor.

THR 515 Drama in Education 3
Research and literature of drama strategies and techniques for children, ages 5 through 14. Practice in leading groups of children in drama in educational settings.
Prerequisites: M.F.A. Theatre majors or permission of the instructor.

THR 516 Puppetry 3
Scope and development of puppetry throughout the world. Practical experience in the design, making, and performing of puppets.
Prerequisites: M.F.A. Theatre Majors or permission of the instructor.

THR 517 Devised Theatre 3
Research and literature of devised theatre pedagogy and methodology. Practice in facilitating devised theatre in education and in the community.
Prerequisites: M.F.A. Theatre majors or permission of the instructor.

THR 532 Advanced Shakespeare Studio 3
Study and practice of Shakespearean acting styles. Performance emphasizing manners, movement, and vocal delivery of the Elizabethan period.
Prerequisites: M.F.A. Acting concentration only.

THR 539 Professional Theatre Audition Techniques 3
Audition theory, techniques, and practice for theatre, television, and films.
Prerequisites: M.F.A. Actors concentration only or permission of instructor.

THR 540 Advanced Stagecrafts 3
Study of advanced scenic construction, property construction, and rigging techniques for the stage. Supervised laboratory work in wood, plastics, metal, and other materials.

THR 541 Technical Direction 3
Theatrical technical direction with emphasis on organizational, managerial, and problem-solving duties and responsibilities. Lecture combined with practical projects.

THR 542 Scene Painting I 3
Tools, materials, and techniques of scene painting.

THR 546 Advanced CAD for the Theatre 3
Continuation of Computer Aided Drafting for the Theatre concentrating on 3-D virtual modeling and visualization and its use in the theatre.
Prerequisites: THR 444 or permission of instructor.

THR 548 Stage Millinery and Accessories 3
Historical millinery and accessories in relation to stage adaptation; design and construction techniques.

THR 549 Historical Costume Pattern Drafting and Draping 3
Historical pattern-making techniques for stage costumes; theory and practice in costume construction.

THR 584 Theatre Management 3
Theatre organization and operation. Practical problems of financing, promoting, and staffing various theatre programs.
Prerequisites: M.F.A. Theatre Major, or permission of the instructor.

THR 585 Directing Practicum 1
Practice in directing the play; preparations of a 25-minute play or excerpt, and presentation in the Workshop Theatre.
Prerequisites: THR 410 and M.F.A. Theatre Majors, or permission of the instructor.
Notes: May be repeated for a total of two semester hours.

THR 587 Theatre Field Studies 1-3
Guided off-campus study in the Theatre disciplines. Travel required. Site and topic will vary from semester to semester.
Notes: May be repeated for up to four (4) semester hours.

THR 588 Applied Theatre II 1-4
Intensive experience in one or more areas of theatre production.
Prerequisites: THR 291. B.A., B.F.A., and M.F.A. Theatre Majors, or permission of the instructor.

THR 596 Applied Theatre II 1-4
Intensive experience in one or more areas of theatre production.
Prerequisites: THR 291. B.A., B.F.A., and M.F.A. Theatre Majors, or permission of the instructor.

THR 600 Introduction to Graduate Study 3
An intermediate directing course that involves the student in the theory and practice of contemporary plays.
Prerequisites: Two theatre courses and THR 201 and THR 410. or permission of instructor.

THR 600X Experimental Course 1-6
Investigation of special topics in drama and theatre history. Topics vary from semester to semester.
Required of MEd and MFA degree candidates.

THR 601 Drama Theory and Criticism 3
Major concepts representative of Aristotelian drama and the chief artistic and philosophical trends underlying much of contemporary or non-Aristotelian drama.
Prerequisites: Admission to appropriate School of Theatre degree program or permission of instructor.
Notes: Required of MEd and MFA degree candidates.

THR 602 Seminar in Drama and Theatre History 3
Investigation of special topics in drama and theatre history. Topics vary each semester.
Prerequisites: Admission to appropriate School of Theatre degree program or permission of instructor.
Notes: May be repeated for a maximum of 3 hours credit.

THR 603 Acting Seminar 3
Historical and theoretical perspectives related to acting. Topics vary each semester.
Prerequisites: Admission to appropriate School of Theatre degree program or permission of instructor.
Notes: May be repeated twice for credit when topic varies.

THR 610 Applied Play Directing 3
Guided study and practice in developing directorial approaches and techniques through scene work and the production of a complete play.
Prerequisites: Admission to appropriate School of Theatre degree program or permission of instructor.
THR 611 Advanced Play Directing 3
Problems of play directing emphasizing the use of modified proscenium, arena, thrust, and experimental forms of stages.
Prerequisites: Admission to appropriate School of Theatre degree program or permission of instructor.

THR 612 Directing Period Plays 3
Theories of directing and their application in the direction of period plays.
Prerequisites:THR 610 or THR 611 and admission to appropriate School of Theatre degree program or permission of instructor.

THR 613 Directing Seminar 3
Investigation in the art of directing. Topics vary each semester.
Prerequisites:THR 610 or THR 611 and admission to appropriate School of Theatre degree program or permission of instructor.
Notes: May be repeated for credit.

THR 614 Collaboration in Theatrical Production 3
An examination of the creative working relationship between the director and designers in theatre production. Students learn to effectively articulate, experiment with, synthesize, and integrate best practices in theatrical collaboration.
Prerequisites: Admission to appropriate School of Theatre graduate degree program or permission of instructor.

THR 615 Advanced Drama in Education 3
Current trends in advanced philosophies in drama in education and aesthetic education. Practical experience arranged with classes in local schools.
Prerequisites:THR 515 and admission to appropriate School of Theatre degree program or permission of instructor.

THR 617 Trends in Theatre for Young Audiences 3
Focus on analysis of nationally successful Theatre for Youth companies. Exploration of seasons, budgets, and outreach components of various companies.
Prerequisites:THR 517, THR 584, THR 615.

THR 620 Stage Dialects 3
Stage dialects most frequently used by the actor: Standard British, Cockney, Irish, Scots, French, German, Italian, Russian, Japanese, Brooklynese, American Southern.
Prerequisites: Admission to appropriate School of Theatre degree program or permission of instructor.

THR 621 Advanced Dynamics: Movement 3
Movement laboratory for the advanced actor.
Prerequisites: Admission to the appropriate degree program (MFA in Drama, Acting Concentration).
Notes: May be repeated for a total of six credits.

THR 622 Advanced Dynamics: Voice 3
Voice and speech training to develop skills necessary for performance.
Prerequisites: Admission to MFA in Drama, Acting Concentration.
Notes: Three consecutive semesters to be repeated for a total of six credits.

THR 623 Advanced Physical Violence for the Stage 2
Advanced study and practice in the mechanics of stage violence. Designed for graduate actors, this course will focus on safe performance techniques for violence in period and contemporary texts.
Prerequisites: Admission to MFA in Drama, Acting Concentration.

THR 631 Studies in Acting 3
Special studies and practices in acting techniques. Emphasis on contemporary drama.
Prerequisites: Admission to appropriate School of Theatre degree program or permission of instructor.

THR 632 Contemporary Acting II 3
Contemporary ensemble acting techniques and their application to ensemble style and playing.
Prerequisites: Admission to appropriate School of Theatre degree program or permission of instructor.

THR 633 Period Acting II 3
Study and practice of acting styles from the periods of Classical Greek, Roman, Medieval, Restoration/Georgian, Victorian/Edwardian drama.
Prerequisites: Admission to appropriate School of Theatre degree program or permission of instructor.

THR 634 Acting for the Camera 3
An introductory examination and exploration of the technique of acting for the camera. Students will refine and adjust the way they work, but the core technique remains the same.
Prerequisites: M.F.A. Actors or permission of the instructor.

THR 636 Advanced Acting for the Camera Studio 3
An advanced study of performance for the camera. Camera scene study will continue with added emphasis on clarity of intention and accuracy of repetition.
Prerequisites: THR 332 or THR 534, M.F.A. Actors only.

THR 644 Developing and Managing Educational Programs for Arts Organizations 3
Using a case study approach, students will learn about how education departments at arts organizations operate in the 21st century from both theoretical and practical perspectives.

THR 645 Advanced Theatre Graphics 3
Theatre graphics for performance design, drafting, perspective, figure drawing, and rendering.

THR 648 Portfolio Preparation for the Theatre and Academia 3
This course guides students in developing the materials and skills necessary to present their education and experience to employers in the most effective manner, including resumes, cover letters and portfolios.

THR 649 Developing and Managing Educational Programs for Arts Organizations 3
Using a case study approach, students will learn about how education departments at arts organizations operate in the 21st century from both theoretical and practical perspectives.

THR 650 Costume Design Seminar 3
Topics in costume design. Topics may include conceptual development, drawing and rendering techniques, model building, and generation of computer graphics.
Prerequisites: Admission to MFA in Drama, Design Concentration.
Notes: This course may be repeated once for 3 credits when topic varies.

THR 655 Scene Design Styles 3
Topics in Scene Design Applications. Topics may include study of theatrical genres and variations in physical space and relationship to audiences.
Prerequisites: Admission to MFA in Drama, Design Concentration.

THR 656 Scene Design Application 3
Topics in Scene Design Applications. Topics may include design conceptualization and development, professional standards for drafting and elevations, rendering and models.
Prerequisites: THR 655 and admission to MFA in Drama, Design Concentration.

THR 660 Costume Design Seminar 3
Topics in costume design. Topics may include conceptual development, drawing and rendering techniques, and generation of computer graphics.
Prerequisites: Admission to MFA in Drama, Design Concentration.
Notes: This course may be repeated once for 3 credits when topic varies.
THR 665 Costume Design Styles 3
Topics in Costume Design Styles. Topics may include varying dramatic genres, studies of costume style presentation appropriate for performance trends.
Prerequisites: Admission to MFA in Drama, Design Concentration.

THR 666 Costume Design Application 3
Topics in Costume Design Applications. Topics may include design conceptualization and development, as well as professional standards for illustrating action figures, specific fabrics, and developing costume production charts.
Prerequisites: THR 665 and admission to the MFA in Drama, Design Concentration.

THR 671 Lighting Design Seminar 3
Topics in lighting design. Topics may include technology of moving fixtures, techniques of image and effect projection, and techniques of lighting for film.
Prerequisites: Admission to MFA in Drama, Design Concentration or permission of instructor.
Notes: May be repeated once when topic varies for a total of 6 credit hours.

THR 675 Lighting Design Styles 3
Advanced problems of lighting design for theatrical productions in performance. Studies can include studio design exploration in the different genres of plays, musicals, and opera.
Prerequisites: Admission to MFA in Drama, Design Concentration or permission of instructor.

THR 676 Lighting Design Application 3
Creative topics in lighting design emphasizing collaborative approaches to produced work for public performance.
Prerequisites: THR 675 and admission to MFA in Drama, Design Concentration or permission of instructor.

THR 680 The Art and Craft of Playwriting 3
Theory and practice of writing plays for stage production.
Prerequisites: Permission of instructor.
Notes: May be repeated once for credit.

THR 685 Seminar in Scenography 3
Scenographic theory and practice for performance design.

THR 690 Graduate Practicum in Theatre 2
Guided practice under rigorous artistic standards in carrying out major responsibilities in UNCG Theatre or Theatre for Youth major productions.
Prerequisites: Admission to appropriate School of Theatre degree program and permission of instructor.

THR 691 Graduate Practicum in Costume Design 2
Guided practice under rigorous artistic standards in carrying out major costume design responsibilities in the School of Theatre’s production season or other faculty approved venues.
Prerequisites: Admission to appropriate School of Theatre degree program.

THR 692 Graduate Practicum in Lighting Design 2
Guided practice under rigorous artistic standards in carrying out major lighting design responsibilities in the School of Theatre’s production season or other faculty approved venues.
Prerequisites: Admission to appropriate School of Theatre degree program.

THR 693 Graduate Practicum in Scene Design 2
Guided practice under rigorous artistic standards in carrying out major scene design responsibilities in the School of Theatre’s production season or other faculty approved venues.
Prerequisites: Admission to appropriate School of Theatre degree program.

THR 695 Independent Study 1-3
Prerequisite: Admission to appropriate School of Theatre degree program or permission of instructor, major advisor and School Director.

THR 696 Advanced Experimentation 3
Preparation for the evaluation of experiences in the creative processes of theatre, broadcasting, or film. Analysis, documentation, and critical evaluation of the specific experience.
Prerequisites: Admission to appropriate School of Theatre degree program or permission of instructor.

THR 698 Graduate Internship 3
Field experience in local production companies, post-production houses, television stations or professional theatre companies. Academic supervision provided by faculty and directed activity in the field provided by site supervisor.
Prerequisites: Second or third year standing in the graduate program.

THR 699 Master Production in Theatre 3
Research, development, and execution in acting, directing, or design of a major theatrical production.
Prerequisites: Admission to appropriate School of Theatre degree program or permission of instructor.

THR 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

UNC Exchange (UNCX)

UNCX 110 UNC Online Placeholder 1
UNCX 120 UNC Online Placeholder 2
UNCX 130 UNC Online Placeholder 3
UNCX 140 UNC Online Placeholder 4
UNCX 610 UNC Online Placeholder 1
UNCX 620 UNC Online Placeholder 2
UNCX 630 UNC Online Placeholder 3
UNCX 640 UNC Online Placeholder 4
UNCX 730 UNC Online Placeholder 3

Visual and Performing Arts (VPA)

VPA 210 Body Mapping: What Every Performer Needs to Know About the Body 2
Introduces the concept of body mapping (our mental representations of structure, function, and size) and provides a weekly laboratory for “updating” these maps during practical activity and experimental movement.
Prerequisites: Freshman, sophomore, or junior standing.

VPA 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.
VPA 323 The Arts as Human Experience 3
An examination of the meaning of the arts experience, including its historical and personal significance. Includes reading and related work in art, dance, drama, and music.
Notes: Same as ART 323, DCE 323.

VPA 324 The Arts as Social Change: Theory and Practice 3
Students will examine the ways in which the arts create social change in our institutions and communities through an exploration of theory and case studies, and an engagement in practice.

VPA 330 Dance for Musical Theatre 3
For students interested in developing dance skills to be used specifically for the musical theatre genre, including tap, ballet, jazz and contemporary. Various pieces of choreography will be set in class.

VPA 338 Exploring Performing Arts Cultures 1-3
Course is used for Music, Theatre and Dance study trips. Offered only when a course accompanies a specific trip.
Prerequisites: Determined by needs of specific trip.
Notes: Grade: Pass/Not Pass (P/NP).

VPA 351 Musical Theatre Audition Technique II 1
For undergraduate students interested in the continued and advanced development of their musical-theatre audition skills.
Prerequisites: THR 357 or permission of instructor.

VPA 361 Community Arts Methods 3
This course explores a range of community arts methods including community research and relationship building, project development and logistical planning, social practice methods, developmentally appropriate teaching strategies, and curriculum development.
Prerequisites: VPA 360.

VPA 364 Community Arts Intensive 6
In 10 full days of collaborative workshops with UNCG faculty and guest artists, immersive creative experiences, and site visits with community partners, students will develop a tool-kit of specific strategies and evaluation methods as they workshop, troubleshoot, and refine their ideas for community arts projects and programs.

VPA 369 Community Arts Internship 3
During this course, students will implement a previously planned community arts project with an established community partner, under supervision of UNCG faculty.
Prerequisites: VPA 361.

VPA 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

VPA 402 Entrepreneurship in the Performing Arts 3
Focus on entrepreneurship knowledge, skills and career development in the performing arts.
Prerequisites: Junior or senior standing.
Notes: Same as ENT 402, MUP 402.

VPA 428 Research Methods in Social Practice 3
This interdisciplinary course explores research methods in Social Practice, an art form that employs diverse strategies for participatory and experiential art within a range of contexts, spaces and media.
Notes: May be repeated twice for credit.

VPA 454 The Alexander Technique for Performers 3
An active and scholarly exploration of the Alexander Technique to unlock creativity, discover freedom and ease in performance, reduce stress and tension throughout the body, and prevent performance-related injuries.
Prerequisites: Junior, senior, or graduate standing.

VPA 496 Independent Study / Directed Research 1-3
Independent directed study or research with faculty supervision in an area of special interest.

VPA 528 Research Methods in Social Practice 3
This interdisciplinary course explores research methods in Social Practice, an art form that employs diverse strategies for participatory and experiential art within a range of contexts, spaces and media.
Notes: May be repeated twice for credit.

VPA 555 The Alexander Technique for Performers 3
An active and scholarly exploration of the Alexander Technique to unlock creativity, discover freedom and ease in performance, reduce stress and tension throughout the body, and prevent performance-related injuries.

VPA 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

VPA 638 Exploring Performing Arts Cultures 1-3
Music study trips. Offered only in conjunction with a specific trip.
Prerequisites: To be determined by needs of specific trip.

Western Civilization (WCV)

WCV 101 Western Civilization 3
Interdisciplinary study of Western Civilization emphasizing critical developments from ancient to modern times.

Women's, Gender, and Sexuality Studies (WGS)

WGS 150 Gender, Race, and Sexuality 3
Students will address the complex historical and contemporary relationships among gender, race, and sexuality as important and interdependent aspects of social life.

WGS 224 Philosophy of Race and Gender 3
This course provides historical background for understanding racial inequalities, focuses on the concepts of race and gender and how they are connected to racism and sexism, and explores the concept of intersectionality.
MAC: MAC Diversity and Equity
Notes: Same as PHI 224.

WGS 250 An Introduction to Women's, Gender and Sexuality Studies 3
An interdisciplinary introduction to frameworks and approaches in the field of women's, gender and sexuality studies.
MAC: MAC Diversity and Equity

WGS 260 Writing in Women's, Gender and Sexuality Studies 3
Focuses on the development of writing skills for the discipline of Women's, Gender and Sexuality Studies. Fosters information literacy, proficiency in engaging with and responding to scholarship, and the cultivation of strong research practices.
Prerequisites: WGS 250 or WGS 270.

WGS 270 Introduction to LGBTQI Studies 3
An introduction to the academic study of lesbian, gay, bisexual, transgender, queer, and intersex histories, experiences, and cultures.
MAC: MAC Diversity and Equity
WGS 280 Women's Health and Bodies 3
How politics and culture shape ideas about diverse women's health and bodies. Topics include gender, race, sexuality, disability, reproduction, disease, violence, and the health care system.
MAC: MAC Health and Wellness

WGS 300X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

WGS 310 Christianity and the Construction of Gender 3
Study of the role of categories of male and female in the creation and maintenance of Christian notions of holiness, authority, and hierarchy in historical perspective.
Notes: Same as REL 310.

WGS 311 Gender and Violence 3
An exploration of gender-based violence in contemporary culture and social life. Topics discussed may include assault, stalking, intimate partner violence, and media portraits of gender violence.
Notes: Students cannot receive credit for both WGS 311 and SOC 419 or WGS 419.

WGS 312 Judaism and the Construction of Gender 3
Jewish understandings of gender from ancient to modern times, with focus on law and tradition, roles in the Jewish community, family, sexuality, and Jewish theology.
Notes: Same as REL 312.

WGS 329 Sociological Perspectives on Gender 3
Inquiry into status of genders in society with emphasis on structural and institutional relationships as well as socialization and the continuities and discontinuities in gendered displays across the life cycle.
Notes: Same as SOC 329.

WGS 333 Postcolonial and Transnational Feminisms 3
Examines histories of, and critical feminist responses to, western colonialism and imperialism. Explores the construction of race, gender, class, and sexuality within imperial projects and anti-imperial movements.
Prerequisites: WGS 250 or WGS 270.

WGS 350 Introduction to Feminist Theories 3
Explores and evaluates feminist theories in a socio-historical context. Raises questions about their implications for different methods of inquiry and about the nature of knowledge and rational thought.
CIC: CIC College Writing
Prerequisites: WGS 250 or WGS 270.

WGS 374 ECOFeminism 3
Study of ECOFeminism as a philosophy and social movement that focuses on interconnections between feminism and environmentalism. Analysis of paradigms and inequalities that devalue and oppress both 'women' and 'nature'.

WGS 375 Topics in Native American and Indigenous Studies 3
Exploration of the literatures, cultural productions, histories, and politics of indigenous peoples. Topic will vary depending on section.
Notes: May be repeated for credit when topic varies. Same as ENG 375.

WGS 400 Independent Study 1-3
Intensive independent study of specialized topics.
Prerequisites: Permission of sponsoring instructor.
Notes: May be repeated once for credit.

WGS 400X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

WGS 419 Gender, Crime, and Deviance 3
Examines key questions in scholarly literature on gender, crime, and deviance: how gender socialization, gender roles, and institutions affect males' and females' offending, deviant behavior, and victimization.
Notes: Same as SOC 419. Students cannot receive credit for both WGS 419 and WGS 311.

WGS 430 Critical Sexuality Studies and Queer Theory 3
Examines sexuality as an identity and an object of knowledge in connection to race, class, and gender. Includes exploration of the history of, and new developments in, queer theory.
Prerequisites: WGS 350 or permission of instructor.

WGS 440 Social Entrepreneurship: Justice and a Green Environment 3
Interdisciplinary engagement of social entrepreneurship as model for change on an issue of environmental sustainability. Exploration of models that respond to social, economic, environmental, and justice issues.
Prerequisites: Upper-division undergraduate status.
Notes: Same as BUS 440, ENT 440, PCS 440.

WGS 450 Topics Seminar in Women's, Gender and Sexuality Studies 3
An in-depth study of a selected topic or topics in Women's, Gender, and Sexuality Studies involving directed reading and research.
Notes: May be repeated up to three (3) times for credit as topics vary.

WGS 460 Internship in Women's, Gender and Sexuality Studies 3
Practical experience in a variety of professional settings. Includes biweekly seminar with internship coordinator. Students complete at least 7-10 hours a week at internship sites.
Prerequisites: WGS 250, plus 6 additional hours in WGS. 6 hours in core courses in major, if other than WGS;
Notes: For Women's, Gender and Sexuality Studies majors and minors only.

WGS 490 Women's, Gender and Sexuality Studies Senior Capstone Course 3
Senior-level work on a major theme in the field of Women's, Gender and Sexuality Studies. Each student will design and complete a culminating research project.
CIC: CIC College Writing
Prerequisites: Women's, Gender and Sexuality Studies Major.

WGS 493 Honors Work 3-6
Prerequisite: Permission of instructor; 3.30 GPA in the major, 12 s.h. in the major;
Notes: May be repeated for credit if the topic of study changes.

WGS 530 Critical Sexuality Studies and Queer Theory 3
Examines sexuality as an identity and an object of knowledge in connection to race, class, and gender. Includes exploration of the history of, and new developments in, queer theory.

WGS 600 Independent Study 3-6
A research or creative project related to women's and gender studies supervised by a WGS faculty member.
Prerequisites: At least 9 hours with a B (3.0) average or better.

WGS 600X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.
WGS 601 Women's, Gender, and Sexuality Studies Internship 3
Supervised experience related to women's, gender, and sexuality studies. May include teaching internship, service learning opportunity, applied research experience, or internship in social justice organizations and agencies.
Prerequisites: For master’s students, at least 15 credit hours of graduate-level course work including WGS 650 and WGS 651.

WGS 602 Internship Seminar 3
Prerequisite: At least 15 credit hours of graduate level course work including WGS 650 and WGS 651;
Corequisites: WGS 601.

WGS 640 Experiences in Sustainable Entrepreneurship 3
Interdisciplinary course in sustainable entrepreneurship. Exploration of models for designing and implementing entrepreneurial projects which respond to social, economic, environmental, and justice issues. Introduction to direct action and evaluation.
Notes: Same as ENT 640, BUS 640.

WGS 650 Feminist Theory: Intersections of Gender, Race and Class 3
Introduces feminist social movements across historical and global contexts. Relies on interdisciplinary lenses and epistemologies, particularly as contested identity politics intersect with other systems of power and relationships.

WGS 651 Feminist Research Analysis 3
Feminist approaches to philosophical and practical inquiries: data collection, analysis, and presentation. Prepares students to critically read research to understand the place of gender in lived experiences and institutional spaces.
Prerequisites: WGS 650.

WGS 670 Race, Gender, and U.S. Empire 3
Interdisciplinary investigation of the social construction of race and gender in the context of U.S. warfare and imperial statecraft. Examines critiques of US empire using critical race and feminist frameworks.

WGS 699 Thesis 1-6
Individual guidance in the development of a specific research problem.
Notes: May be repeated for a maximum of 6 hours credit.

WGS 706 Topics in Gender and Sexuality Studies 3
Intensive work at an advanced level on a selected topic in Gender and Sexuality Studies.
Notes: Same as ENG 706. May be repeated once for credit when topic varies.

WGS 750X Experimental Course 1-6
This number reserved for experimental courses. Refer to the Course Schedule for current offerings.

WGS 801 Thesis Extension 1-3
Thesis Extension.

WGS 803 Research Extension 1-3
Research Extension.

The College of Arts and Sciences promotes discovery and learning by students and faculty in the sciences, the humanities, and the arts. Firmly grounded in a tradition of rigorous disciplinary inquiry, the College also recognizes the value of connections made across disciplinary boundaries and so supports and encourages interdisciplinary and collaborative scholarship and teaching. The College is dedicated to the liberal arts mission of higher education, which is to develop the knowledge and understanding needed by citizens of a free and just society. The College faculty are committed to offering courses and programs that prepare students to meet the challenges they will face throughout their lives by emphasizing skills of reasoning, writing, speaking, and independent thinking.

Mission Statement

The College of Arts and Sciences empowers students to succeed by embracing the challenges of a complex, changing world. A liberal education also prepares students for informed and reflective participation in society, for sustained cultural and aesthetic enjoyment, and for a lifetime of learning.

Dean's Welcome

Welcome to The College of Arts & Sciences at The University of North Carolina at Greensboro. We are the largest of the university's seven academic units, with 19 departments and six interdepartmental programs that encompass the arts, humanities, social sciences, natural sciences, and mathematics. Through this diversity of offerings, the College provides an education that will give you the skills and knowledge needed for success in the complex and changing world you will face after graduation.

No matter where your career takes you, it will be important to remain flexible and confident of your ability to succeed throughout your working life. Employers are interested in people with flexible skills and a wide-ranging, multidisciplinary perspective. This is just what the College of Arts & Sciences has designed its curriculum to provide. The 21st century world may be full of unexpected challenges, but your experience here will prepare you to embrace those challenges as well as the opportunities they bring with them.

There are a number of ways in which faculty and staff guide your intellectual development so that you can succeed in your studies and prepare for the wide variety of career paths that will be open to you. We emphasize, for example, strong writing and speaking skills, critical thinking, international understanding, research and other "hands-on" experience. As you gain deeper knowledge in your major, you'll be encouraged to also explore electives across a variety of subjects.

Therefore, becoming conversant in more than one field is another important benefit of your time in the College.

Across all of the College's academic programs, our renowned faculty members share a deep commitment to advancing discovery and learning; they bring that commitment both to classroom settings and to hands-on experiences such as research and internships. Your professors will be accomplished researchers, scholars, and artists, many with national and international reputations. At the same time, they are enthusiastic and dedicated teachers. Whatever the setting, their teaching and mentoring is informed and enlivened by their personal involvement in discovering new knowledge, exploring new artistic forms, or applying the results of research in new contexts.

I invite you to explore the College and what a learning experience here might mean for you. Each of our departments and programs (https://aas.uncg.edu/departments/) has its own website. You'll find that by maintaining strong programs of research and scholarship, the College faculty work to advance our understanding of fundamental problems facing society today. You, too, will be able to use the knowledge and skills you learn here to succeed in the paths you take after graduation, enriching your own life while contributing to society.

John Z. Kiss, Ph.D.
Dean

Advising

CASA, the College advising center, provides academic assistance for first-year students.

General Education and/or CIC Credit through Study Abroad

In addition to the previously listed General Education courses, students may receive General Education Core and Marker credit and Additional College General Education (CIC) credit for courses taken through Study Abroad. For more information, see the General Education Program topic in the University Requirements section of this catalog.

 Majors

Requirements for each of the degrees offered by the College of Arts and Sciences are included in the descriptions of majors, concentrations, and minors under the respective departments.

Major Requirements

Major requirements are described for each program listed. A course cross-listed in the major department must be taken within the major and counts toward the total hours in the major.

Minor Requirements

Most departments and interdepartmental programs of the College offer a minor program which may be taken in conjunction with a major. A minor usually requires 15 to 21 credit hours in a department and at least 9 credits must be taken in residence at UNC Greensboro.

Second Majors

A student may take a second major in conjunction with the first major. This program requires a minimum of 27 credits in each of two approved majors. All requirements of each major must be met; hours from the second major can be applied toward the General Education requirements.

A student with a first major outside the College who chooses a second major in one of the College departments is required to complete all of the departmental requirements for the second major but need not satisfy the
Communicating Ideas in Context requirements (CIC). Similarly, students who are seeking either a dual degree or a second degree are exempt from the Communicating Ideas in Context requirements (CIC). In the case of transfer students, at least 15 credits in each major must be taken at UNC Greensboro.

Communicating Ideas in Context (CIC)

In addition to developing the core competencies of UNC Greensboro's Minerva's Academic Curriculum (MAC) and the specialized knowledge within their field, College of Arts and Sciences majors will also complete the College of Arts and Sciences' Communicating Ideas in Context (CIC) curriculum. Answering the important questions of our time and solving the serious problems that we face will require the cooperation and the collaboration of a diverse group of committed, thoughtful, and knowledgeable people. Such cooperation and collaboration are built on excellent communication skills.

The College of Arts and Sciences' Communicating Ideas in Context (CIC) curriculum is designed to strengthen your communication skills by developing:

- your skill as a writer so that you can communicate effectively;
- your understanding of how and why different types of academic disciplines make sense of our world and the people within it, so that you can work successfully with diverse teams who approach tasks with different assumptions, perspectives, and values;
- and your ability to communicate multilingually, so that you can be an active, contributing partner in our global community.

CIC Requirements

1. Complete 2 courses with a College Writing (CW) attribute.

2. Complete 12 additional credit hours distributed across three categories:

   - CIC Humanities (6 credits)
   - CIC Natural and Data Sciences (3 credits)
   - CIC Social and Behavioral Sciences (3 credits)

3. Demonstrate intermediate-level proficiency in an additional language.

1. CIC College Writing Requirement

In addition to the MAC Written Communication competency, students in the College of Arts and Sciences must complete 2 courses at the 200 level or above carrying the College Writing (CW) attribute. At least 1 of these courses must be in the student's major.

Courses with a College Writing attribute can also be used to fulfill requirements for the student's majors and/or minors and the CIC Breadth of Knowledge requirement.

Students who transfer 60 or more credits to UNC Greensboro are exempt from the CIC College Writing Requirement.
2. CIC Breadth of Knowledge Requirement
In addition to the MAC, students must complete 12 additional credits distributed across three categories:

- **CIC Humanities**: 6 credits
- **CIC Natural and Data Sciences**: 3 credits
- **CIC Social and Behavioral Sciences**: 3 credits

The categories of courses are defined by the following course prefixes:

- **CIC Humanities**: ADS, ASL, BLS, CCI, CHI, ENG, FRE, GER, HIS, IAR, JNS, LLC, MST, PHI, REL, RUS, SPA, WGS
- **CIC Natural and Data Sciences**: AST, BIO, CHE, CSC, GES, MAT, PHY, STA
- **CIC Social and Behavioral Sciences**: ATY, CST, IGS, PSC, PSY, SOC, SSC

The 12 credits can be at any undergraduate level (100-499). Transfer credits that are not equivalent to specific UNC Greensboro courses can also be used to fulfill the Breadth of Knowledge requirements, as long as they are at the undergraduate level and include these course prefixes: ADS, AST, ATY, BIO, BLS, CCI, CHE, CSC, CST, ENG, GES, HIS, IAR, IGS, LLC, MAT, MST, PHI, PHY, PSC, PSY, REL, SOC, SSC, STA, WGS.

Three of the 12 Breadth of Knowledge credits may also be used to fulfill requirements for the student’s primary major (i.e., the 3 credits can be used to fulfill both a major requirement and a Breadth of Knowledge requirement).

Credits used to fulfill the College Writing requirement may also be used to fulfill the Breadth of Knowledge requirement.

However, credits used to fulfill the Additional-Language Requirement cannot be used to fulfill the Breadth of Knowledge requirement.

Students who transfer 60 or more credits to UNC Greensboro are exempt from the CIC Breadth of Knowledge Requirement.

3. CIC Additional Language Proficiency Requirement
Students are required to demonstrate intermediate-level proficiency in an additional language. The typical sequence of UNC Greensboro courses for language is 101, 102, 203, and 204. The College of Arts and Sciences considers successful completion of the 204 course a demonstration of proficiency.

Students who transfer 60 or more credits to UNC Greensboro can satisfy this requirement by successfully completing a 102 level course. Students who transfer 90 or more credits to UNC Greensboro are exempt from this requirement.

The CIC requirements are waived for students in the Interior Architecture BFA program.

The following modification of the CIC requirements apply to students in the Bachelor of Arts in Liberal Studies program:

1. Students who transfer in 60+ credit hours and do not have 101 and 102 of an additional language can complete 6 credit hours (or 3 credit hours if they have 101 credit) of MAC Global Engagement and Intercultural Learning (C9) courses to satisfy the additional language requirement.

2. The breadth of knowledge requirement and the additional language requirement are waived for reactivated students and students who change their major from outside of CAS with 90 or more credits.

Second Majors
A student may take a second major in conjunction with the first major. This program requires a minimum of 27 credits in each of two approved majors. All requirements of each major must be met; hours from the second major can be applied toward the General Education requirements.

A student with a first major outside the College who chooses a second major in one of the College departments is required to complete all of the departmental requirements for the second major but need not satisfy the Communicating Ideas in Context requirements (CIC). Similarly, students who are seeking either a dual degree or a second degree are exempt from the Communicating Ideas in Context requirements (CIC). In the case of transfer students, at least 15 credits in each major must be taken at UNC Greensboro.
African American and African Diaspora Studies

College of Arts and Sciences

Noelle Morrissette, Department Head
Micheal Cauthen, Director of Undergraduate Studies

Mission Statement
The African American and African Diaspora Studies Program (AADS) advances the university's commitment to diverse perspectives and inclusive learning environments through course offerings, programming, and community engagement. It fosters interdisciplinary study for undergraduate and post-baccalaureate students by examining how people of African descent have shaped our world. As a program located in a city with a history of Black sociopolitical movements, we provide a forum to engage the complexities of Black life across African diasporas.

About
Since 1982, the AADS Program has been central to UNC Greensboro’s goal to provide its increasingly diverse student population with an opportunity to study the cultures, histories, and experiences of the African World—from Africa, to the Americas, the Caribbean, and the Indian Ocean.

African American and African Diaspora Studies, B.A.

The African American and African Diaspora Studies major provides students with an integrated and critical understanding of the experiences and contributions of peoples of African descent throughout the world.

The African American and African Diaspora Studies Program is committed to offering an academically challenging curriculum coupled with the solid foundation of a liberal arts education. African American and African Diaspora Studies students will be able to apply theories and methods to better understand the social, political, and economic problems facing people of African descent.

The Cultural Arts concentration is for majors interested in developing their knowledge of African American performance, art, film, and music. Students who pursue this concentration will enhance their understanding of the intersections between African American and African Diaspora cultures, history, politics, gender, and artistic expression.

Students graduating with the major will be well prepared for leadership roles in the African American community, in particular, and American society in general.

Overall Requirements
• 120 credit hours, to include at least 36 credits at or above the 300 course level

Mission Statement
The mission of the UNC Greensboro Department of Anthropology is to strive for excellence in research, teaching, and service. We are firmly committed to the pursuit of anthropological knowledge, and we challenge students to explore the diversity of human experience critically and holistically, both in the past and present. The faculty is committed to advancing foundational anthropological ethics such as the value of human diversity, cultural tolerance, and respect for the practice of different lifeways across the globe. We provide students with the knowledge and skills necessary to accomplish their personal goals whether they pursue advanced graduate study or the practical application of anthropological knowledge in the workplace. Anthropology coursework is designed to foster the critical thinking skills necessary to devise realistic solutions, public policy, and effective interventions to address both local and international economic, environmental, health, political, and social problems. This is achieved by incorporating students in active research programs that provide real-world, hands-on experiences and nurture creative problem-solving skills and examples that promote responsible community engagement, heritage conservation, and service.

About
Anthropology is a broad discipline which includes biological anthropology—the study of humans as biological animals; cultural anthropology—the study of humankind in a cultural perspective; archaeology—the recovery and interpretation of ancient human cultural remains; and linguistics—the study of language in culture and society.

The undergraduate major provides for extensive study in cultural anthropology, archaeology, and biological anthropology. Majors who develop a particular interest in one of the subdisciplines may pursue a concentration in that area, or they may choose to take electives in multiple sub-fields. Majors have opportunities to work closely with members of the faculty on current research projects in the lab and in the field. Internships in various agencies are also available.

Anthropology as a major prepares individuals to pursue many avenues of career development. It is the basis for a career as a professional anthropologist. Anthropology combined with other courses of study as double majors enhances career possibilities and professional development. There are, moreover, increasing opportunities for anthropologists to work in government agencies, non-profits, and business. In such settings, anthropological knowledge of biology, culture, and long term patterns of cultural change may be applied to the solution of human problems.

Anthropology, B.A.
The Anthropology Major provides training in cultural awareness, understanding, and tolerance, human biological development and variation, as well as social and behavioral science of the past and present. The program presents a holistic view of humans interacting in society and with their environments to explore cultural and biological change through time. The impact of social, political, economic, health and environmental factors on modern, multi-ethnic populations across the globe, including the United States, is emphasized. Through courses in anthropological archaeology, biological anthropology, and cultural anthropology the Anthropology Major enriches a foundational liberal arts education and prepares students to pursue professional careers in our diverse, multi-cultural world, or graduate or professional studies.

Building Knowledge, Obtaining Life-Long Skills
The Anthropology Major is designed to create globally aware, life-long learners with critical thinking and communication skills necessary to be successful in an ever-shifting marketplace of ideas, technology, and employment. Coursework in Anthropology offers students high-impact, hands-on research opportunities, problem-solving, written and oral communication, social agility, and cultural competence. Anthropology faculty bring their research, which is based in Africa, Asia, Europe, Latin America, and the US, into the classroom and offer courses in primatology, human evolution, race and biological diversity, forensics, historic and prehistoric archaeology, community responses to crisis and disaster, public health, medical anthropology, environmental anthropology, economics, politics, gender, and social inequality. The program welcomes all second majors or minors seeking to enrich their program of study.

Overall Requirements

• 120 credit hours, to include at least 36 credits at or above the 300 course level
• All anthropology majors must complete a minimum of 34 credits in anthropology with an overall GPA in the major of at least a 2.0, including the courses as listed below.

• Although not a requirement beyond the 34 credit minimum, majors may choose to take additional courses in any of the subdisciplines: Archaeology, Cultural Anthropology, or Biological Anthropology. Students may select appropriate courses in consultation with a faculty member in one of the subdisciplines.

| ATY 360 | Methods in Archaeology | |
| ATY 361 | Methods in Biological Anthropology | |
| ATY 362 | Methods in Cultural Anthropology | |

Electives | 15 |
Select five additional ATY courses. | |

* Three of these courses must be at the 400 level (in addition to ATY 495).

Optional Concentration

The optional concentration as detailed following the major requirements may be added, but is not required.

• Anthropology Licensure in Social Studies High School Teaching

Electives

Electives sufficient to complete the 120 credit hours required for the degree.

Anthropology Licensure in Social Studies High School Teaching

Students majoring in anthropology may seek Standard Professional I teacher licensure in comprehensive social studies with an endorsement in anthropology. Completion of licensure requirements will allow majors to teach Social Studies as well as anthropology in secondary school. See School of Education Licensure Programs for complete requirements. Many of the requirements for licensure satisfy liberal education requirements in the college as well as for the major and the Social Studies requirements. Majors who wish to pursue the Standard Professional I License in social studies should consult with the departmental Social Studies committee representative.

Disciplinary Honors in Anthropology

Requirements

• A minimum of 15 credit hours as defined below.
• UNC Greensboro cumulative GPA of 3.30 or better or, for transfer students, cumulative GPA of 3.30 or better from all prior institutions.

<table>

3 credits of other Honors course work in the major or another area | 3 |

* ATY 495 cannot be used as an Honors course.
** ATY 493 should be taken before HSS 490.

Working with a faculty mentor, a senior honors project HSS 490 needs to consist of a 10,000 – 15,000 word thesis (or higher depending on the topic and size of the dataset) or a publishable paper (excluding title page and bibliography).

Recognition

Receive a Certificate of Disciplinary Honors in Anthropology; have that accomplishment, along with the title of the Senior Honors Project, noted on the official transcript; and be recognized at a banquet held at the end of the spring semester.

Honors Advisor

Contact Charles Egeland at cpegeland@uncg.edu for further information and guidance about Honors in Anthropology. To apply: http://honorscollege.uncg.edu/forms/disc-application.pdf

Anthropology Undergraduate Minor

Students in consultation with a member of the department may plan a minor to enhance their career objectives as they choose. They may also take approved independent study courses or approved selected topics courses.

Program Requirements

• Minimum of 15 credit hours with the ATY prefix.

Recommended Courses

General Anthropology courses include:
• ATY 113 Introduction to Cultural Anthropology
• ATY 311 Reading Culture and Society
• ATY 363 History of Anthropological Theory

Ethnology and/or Ethnography courses focused on the study of living populations and cultural diversity that are especially useful for majors in Economics, Geography, International Studies, and Social Studies include:
• ATY 113 Introduction to Cultural Anthropology
• ATY 230 Cultures of Native North America
• ATY 315 World Ethnographies
• ATY 333 Latin American Societies and Cultures
• ATY 426 Food and Culture in a Global Context
• ATY 450 Environmental Anthropology
• ATY 465 Medical Anthropology

**Archaeology and Historical Archaeology** courses focused on the societies of the past that are especially useful for majors in Classical Studies, History or Social Studies include:

• ATY 158 Introduction to Archaeology
• ATY 208 Lost Tribes and Sunken Lands
• ATY 334 Latin American Art and Archaeology
• ATY 341 Paleolithic Archaeology
• ATY 370 Historical Archaeology
• ATY 440 Colliding Worlds: Forming America
• ATY 462 Archaeology of the Southeastern United States

**Physical and/or Biological Anthropology** courses focused on evolution, human biological diversity, health, biology, chemistry, nutrition or forensics include:

• ATY 153 Introduction to Biological Anthropology
• ATY 231 Race and Human Diversity
• ATY 357 Monkeys, Apes, and Humans
• ATY 359 Forensic Anthropology
• ATY 426 Food and Culture in a Global Context
• ATY 453 Human Osteology
• ATY 455 Human Evolution
• ATY 459 Anthropology of Global Water, Sanitation and Hygiene (WASH)
• ATY 465 Medical Anthropology

**Anthropology Second Academic Concentration**

The second academic concentration in Anthropology is designed specifically for Elementary Education Majors.

**Requirements**

• 18 credit hours

The Archaeology Program at UNC Greensboro introduces students to past civilizations and cultures around the globe and to the analytical methods, techniques, and theories that archaeologists use to facilitate their study. The major is designed to develop anthropological, historical, and geographical perspectives in archaeological research, encompassing prehistoric and early historic cultures. The Program's faculty is actively involved in research and/or fieldwork in the Mediterranean region, the Middle East, North America and South America, and students participate in these or other field work projects in addition to meeting classroom requirements. Graduates of the Program are prepared for advanced training in archaeology and museum studies; cultural resource management; team leading in a variety of settings; and other professions for which critical thinking and good communication skills are necessary.

- The Archaeology Program offers the Archaeology concentration in the Liberal and Interdisciplinary Studies Major. See the Liberal and Interdisciplinary Studies Major (p. 444) for requirements.
- Archaeology Undergraduate Minor (p. 297)

Archaeology Undergraduate Minor

Program Requirements

- Minimum of 15 credit hours

The Archaeology Undergraduate Minor requires completion of a minimum of 15 credits with 9 credits chosen from the Core Requirements and 3 credits chosen from each category of the Area Requirements.

Programs of Study

Humanities

The Liberal and Interdisciplinary Studies, Humanities Concentration, is an interdisciplinary and multidisciplinary online degree program. The program is designed to provide students with an opportunity to earn their baccalaureate degree online by gaining a thorough understanding of the humanities, the interconnections among them, and their relevance to individuals and to modern society. The humanities are broadly defined to include those disciplines that study people—their ideas, their history, their literature, their artifacts, and their values. The program will investigate individual people in their solitude, life together in societies, and models of and for reality that constitute cultures. Individual courses will tackle the Big Questions that have been the traditional province of the humanities such as “What makes a life worth living?” Upon completion of the Liberal and Interdisciplinary Studies Humanities Concentration students will be able to:

• Think critically and analytically.
• Communicate clearly and effectively.
• Understand and explain interconnections among the Humanities disciplines.
• Appreciate the wide range of human experience.
• Achieve increased depth of knowledge in one of the four categories of the Humanities: Literature, Fine Arts, Philosophy/Religion/Ethics, Historical Perspectives.

Professional Studies

The Liberal and Interdisciplinary Studies, Professional Studies concentration, is an interdisciplinary and multidisciplinary online program. The program is designed to provide students with an opportunity to earn their baccalaureate degree online by combining course work from the humanities, social sciences, and other fields in a curriculum that emphasizes the skills and knowledge that will be helpful in the workplace. Upon completing the Liberal and Interdisciplinary Studies Professional Studies Concentration students will be able to:

• Communicate clearly and effectively in an appropriate professional style.
• Read texts with careful attention.
• Think critically and analytically.
• Connect learning in the humanities, social sciences, and other fields to their professional lives.

Social Sciences

The Liberal and Interdisciplinary Studies, Social Sciences Concentration, is an interdisciplinary and multidisciplinary online program. The program is designed to provide students with an opportunity to earn their baccalaureate degree online by gaining a broad-based understanding of the social sciences. The social sciences are the fields of academic scholarship that explore aspects of human behavior and societies. Upon completing the Liberal and Interdisciplinary Studies Social Sciences concentration students will be able to:

• Engage theory and practice in the social sciences to better understand human behavior, activities, organizations, and cultures.
• Critically analyze social science related information in the popular media.
• Explain the interconnections, differences, and interdependence among the social sciences.
• Read, evaluate, and interpret research in the social sciences.
• Communicate clearly and effectively in an appropriate professional style.

General Psychology

The Liberal and Interdisciplinary Studies, General Psychology concentration, creates an opportunity path for students interested in human services careers, which require psychological knowledge but not necessarily all the specific technical “know-how” of a Psychology BA or BS. UNC has many students who graduate every year and work in the field broadly described as “human services” that include everything from activities coordinators at nursing homes to case managers in the juvenile justice system. These students are often interested in psychology and require knowledge about human behavior and cognition but will not be working in the therapeutic or research settings that a Psychology BA or BS prepares them for. The BLS General Psychology concentration allows these students to tailor psychology class selections to the settings they plan on working in, with a broader research methods class that provides preparation applicable in most workplaces (survey and observational research, rather than laboratory experiments). The BLS
General Psychology concentration also requires a capstone experience designed to reinforce the knowledge students have gained from an interdisciplinary point of view, preparing them for their careers of interest. Upon completion of the Liberal and Interdisciplinary Studies General Psychology Concentration students will be able to:

- Communicate clearly and effectively in an appropriate professional style.
- Connect learning in the humanities, social sciences, and other fields to their professional lives, emphasizing current research in the field of psychology.
- Think critically and analytically about behavior and mental processes.
- Understand and explain interconnections between psychology and other fields.

**Senior Lecturer**

Joyce F. Clapp  
Matthew John McKinnon  
Ann E. Millett

**Lecturer**

Sarah A Krive  
Carrie Levesque  
Jay Parr  
Joseph A Ross  
Jana F Walser-Smith

The Bachelor of Arts in Liberal Studies Program offers the following concentrations in the Liberal and Interdisciplinary Studies Major:

- Humanities
- Professional Studies
- Social Sciences
- General Psychology

---

**All four concentrations are available in online format. The Humanities concentration and the Social Sciences concentration are also available in traditional format.**

The following modification of the CIC requirements apply to students in the Bachelor of Arts in Liberal Studies program:

1. Students who transfer in 60+ credit hours and do not have 101 and 102 of an additional language can complete 6 credit hours (or 3 credit hours if they have 101 credit) of MAC Global Engagement and Intercultural Learning (C9) courses to satisfy the additional language requirement.

2. The breadth of knowledge requirement and the additional language requirement are waived for reactivated students and students who change their major from outside of CAS with 90 or more credits.

Students in the BLS Program who have previously completed a foreign language through the 102 level, with a subsequent learning gap of five years or more, may apply to the program for permission to use culture-track courses in English (from a list pre-approved by the College Appeals Committee) as substitutions for the intermediate-level 203 and 204 language classes.

See the Liberal and Interdisciplinary Studies Major (p. 444) for requirements.
Biology

College of Arts and Sciences

Malcolm Schug, Department Head
David Remington, Director of Undergraduate Studies
Paul Steimle, Graduate Program Director

Mission Statement

The UNC Greensboro Department of Biology endeavors towards excellence in conducting research and teaching biological concepts and skills to biology majors and graduate students, to prepare them for professional careers and more advanced study. We introduce non-biology majors to the foundations and applications of biology. By involving undergraduate and graduate students in research, we contribute to and increase society's knowledge across the broad spectrum of biology. We train doctoral students in Environmental Health Science, a complex and rapidly changing discipline. Through laboratory training and directed research experiences, we enhance our students' technical and analytical skills so that they can contribute meaningfully to an increasingly technological world. Our leadership in scientific innovation and discovery serves our students, profession, and our local and global communities.

About

The Department of Biology has a strong commitment to teaching at both the undergraduate and graduate levels. Recipients of undergraduate biology degrees find employment in a wide range of fields and are well-prepared for further study in graduate school and in health-related professions such as medicine, dentistry, and veterinary medicine. Writing-and speaking-intensive courses and laboratory classes help develop communication and research skills.

The department's tradition of excellence in education is complemented by a faculty actively engaged in research in areas ranging from molecular biology and biochemistry to ecology and evolution. Students are encouraged to gain research experience through independent study with a faculty mentor.

Transfer Credit

Credit for courses above the 100 level is transferred as Biology elective credit only. To establish transfer credit for specific Biology courses above the 100 level, students should contact the Director of Undergraduate Studies or Associate Head. Transfer students are reminded that at least 12 semester hours in the major must be completed at UNC Greensboro.

Biology as a Second Major

Students who wish to declare a second major in Biology must complete all requirements listed above under the degree selected.

Biology Standard Professional I License Only

Students who have already completed an undergraduate degree and who are now seeking the Standard Professional I License in Biology must complete the requirements for a B.A. or B.S. in Biology at UNC Greensboro with a biology grade point average of 2.50 or better. Course selection must be completed in consultation with the Head of the Department of Biology.

Students who have already taken biology courses as part of their undergraduate program should contact the Head of the Department of Biology to determine if any of those courses can be accepted as meeting some of the requirements for the Standard Professional I License in Biology at UNC Greensboro.

Direct questions about these requirements to the Head of the Department of Biology.

Graduate Programs

Graduate students enrolled in either program have the opportunity to work with a research advisor from among 23 full-time faculty. Research areas range from the ecological to the cellular level, and include aquatic ecology, trophic interactions in lakes and streams, plant-microbe-herbivore interactions, microbial food chains, infectious disease ecology, plant evolution and population ecology, animal behavior, aging, cell motility, developmental, chromosome, cell cycle and viral genetics, neuroendocrine control of metamorphosis and glucose homeostasis. (Go to https://biology.uncg.edu/position/research-faculty/ for a detailed descriptions of faculty research). The broad range of training and research expertise among faculty members allows for an integrative approach to research studies in Biology for the M.S. degree and in Environmental Health Science for the Ph.D. degree. Faculty in the department are funded from the National Institutes of Health, the National Science Foundation, and a variety of private funding agencies.

Biology, B.A.

The Department offers a full range of courses leading to the B.A. degree. The degree may lead to further study in graduate school, medicine, dentistry, veterinary medicine, medical technology, biotechnology, and environmental biology. See also Preprofessional Programs. Both study and laboratory facilities are available to advanced undergraduates.

Overall Requirements

- 120 credit hours, to include at least 36 credits at or above the 300 course level; note that licensure programs may require hours beyond the minimum listed.
- Students must have a grade point average of at least 2.0 in Biology courses completed at UNC Greensboro.
- A minimum of 30 credits of Biology course above the 100 level.
- A maximum of 4 credits at the 200 level may be counted toward the major.

Optional Concentration

The optional concentration as detailed following the major requirements may be added, but is not required.

- Biology Major with Comprehensive Science High School Teaching Licensure
Electives
Electives sufficient to complete the 120 credit hours required for the degree.

Biology Major with Comprehensive Science High School Teaching Licensure Concentration Requirements
The Comprehensive Science High School Licensure (BIOL) program provides a strong background in biology as well as licensure for high school biology teaching. In addition, successful completion of this program qualifies candidates to teach other high school science subjects as well.

The Department offers a full range of courses leading to the B.A. degree. The degree may lead to further study in graduate school, medicine, dentistry, veterinary medicine, medical technology, biotechnology, and environmental biology. See also Preprofessional Programs. Both study and laboratory facilities are available to advanced undergraduates.

Students seeking admission to the UNC Greensboro Teacher Education Program with a major in Biology must meet the following minimum requirements of the Department of Biology:

1. Completion of a minimum of 9 credit hours in biology courses, with at least six of those hours from courses taken at UNC Greensboro
2. A grade point average of at least 2.50 for biology courses completed at UNC Greensboro

Students already admitted to the UNC Greensboro Teacher Education Program with a major in Biology who are seeking admission to Student Teaching must meet the following requirements of the Department of Biology:

1. Completion of a minimum of 18 credits of biology courses, with at least 15 of those credits from courses taken at UNC Greensboro
2. A grade point average of at least 2.50 for biology courses completed at UNC Greensboro

Code | Title | Credit Hours
--- | --- | ---

Additional Requirements for Teacher Licensure *

Required
GES 103 | Introduction to Earth Science | 3
GES 111 | Physical Geology | 3
GES 205 | Environmental Change: Its Nature and Impact | 3
GES 319 | Weather and Climate | 3
GES 314 | Physical Geography: Landscape Processes | 3

The following courses must be taken in a specified sequence terminating in student teaching in the spring semester of the senior year. See the online Secondary Education Handbook for more information.

TED 435 | Literacy in the Content Area | 3
ERM 401 | Assessment I: Accountability in Our Nation’s Schools | 3
ERM 402 | Assessment II: Standardized Tests | 3
ERM 403 | Assessment III: Classroom Assessment | 3

Biology, B.S.

The Bachelor of Science degree is offered for those students aspiring to a professional career in biology, and for those students with particularly strong interests in the discipline. See also Preprofessional Programs. A student pursuing the Bachelor of Science is expected to develop a stronger background in mathematics and related sciences and to attain a greater understanding of biology than will a student pursuing a Bachelor of Arts degree. Bachelor of Science students will also be
strongly encouraged to undertake an individual research project with a faculty member during their junior and/or senior year.

The B.S. in Biology offers three concentrations for students to choose from.

**Biotechnology Concentration**
The concentration in biotechnology is designed for students with a strong interest in molecular biology and genetics. Courses will prepare students in both conceptual aspects of molecular biology and their practical application in biotechnology and genetic engineering.

**Environmental Biology Concentration**
This concentration is designed for students with a strong interest in environmental biology. The concentration provides students with a breadth and depth of environmental awareness, rigorously prepares them for advanced studies in environmental biology and trains them for environmentally-oriented professions.

**Human Biology Concentration**
This concentration is designed for biology majors who want to develop the ability to integrate biological knowledge as it relates to human beings. The study of human biology requires fundamental knowledge of basic life science, since humans and other animals share a large number of structural, chemical, and control mechanisms. Moreover, human behavior occurs within a specific evolutionary and ecological setting, just as it does in other animals. Our complex brains, our communication and conceptual abilities, and our social structures, can be more fully understood by those who complete this concentration.

**Overall Requirements**
- 120 credit hours, to include at least 36 credits at or above the 300 course level; note that licensure programs may require hours beyond the minimum listed.
- Students must have a grade point average of at least 2.0 in Biology courses completed at UNC Greensboro.
- A minimum of 30 credits of Biology courses above the 100 level.
- A maximum of 4 credits at the 200 level may be counted toward the major.

Disciplinary Honors in Biology

Requirements

• A minimum of 18 credit hours as defined below.
• UNC Greensboro cumulative GPA of 3.30 or better or, for transfer students, cumulative GPA of 3.30 or better from all prior institutions.
• A grade of B or higher in all course work used to satisfy the Honors requirements in Biology.

Select two 400-level Biology courses

Select a third 400-level course in Biology or a Contract course in Biology at the 300 or 400 level

Any of the Department’s journal clubs

Oral presentation of Honors Thesis to a committee of three Biology Faculty or public presentation of research at a local, regional, or national meeting is required.

* Only 6 credits may be counted toward the 30 credit minimum in the Biology major

Recognition

Receive a Certificate of Disciplinary Honors in Biology; have that accomplishment, along with the title of the Senior Honors Project, noted on the official transcript; and be recognized at a banquet held at the end of the spring semester.

Honors Advisor

Biology Second Academic Concentration for Special Education: General Curriculum, B.S.

Requirements

• Minimum of 18 credit hours
The second academic concentration in Biology is designed specifically for Elementary Education students.

### Biology, M.S.

The 30 credit-hour M.S. in Biology prepares students for careers in the biological sciences and provides a strong foundation for further academic training, such as medical school or a doctoral program. An advisory committee works closely with each student to tailor a specific curriculum to meet that student’s needs and interests. Students typically complete work for the master’s degree in 2-3 years.

Students in the biology master’s program have research and/or course work opportunities that reflect the diverse interests of faculty members within the department. Please see the description of research of Biology faculty members and description of graduate courses in Biology.

The capstone experience provides graduates with specific knowledge and skills to be competitive in the life-sciences workplace. The capstone experience is a thesis or comprehensive written examination. Students will choose a capstone experience (thesis or exam) before matriculation into the program.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a personal statement explaining how the master’s degree at UNC Greensboro will help them achieve their career ambitions.

Qualified applicants will have a strong undergraduate background in biology and science.

### Degree Program Requirements

#### Required: 30 credit hours

<td></td>
</tr>
<tr>
<td>BIO 699 Thesis</td>
<td></td>
</tr>
</tbody>
</table>

Total Credit Hours: 30

* Completion of these courses may also count toward completion of the 18 credit requirement.

† Counts toward GEC GNS requirement.

### Environmental Health Science, Ph.D.

The Ph.D. in Environmental Health Science requires a minimum of 55 credit hours and prepares students for senior-level positions in professions related to environmental health science in its broadest sense. The program trains students to become leaders in biological research relevant to environmental issues that directly and/or indirectly affect human health, and the program trains students to convey information effectively to the public. Students acquire an understanding of the multidisciplinary nature of environmental health issues from ecosystem to molecular levels. Students learn relevant research skills and conduct research under the guidance of one or more faculty members in the department.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a Curriculum Vitae and a personal statement that includes educational background, professional activities, research interests, career goals, reasons for choosing the program, and UNC Greensboro faculty whose research is of interest.

### Degree Program Requirements

#### Required: 55 credit hours

The departmental Graduate Studies Committee determines the number of non-dissertation credits required based on a student’s prior course work.
No more than 25% of total credits (exclusive of dissertation) may be at the 500 level.

<table>

</tr>
</tbody>
</table>

1. Students, with the approval of the departmental Graduate Studies Committee, research advisor, and/or Dissertation Committee, may replace BIO 708 with STA 661 Advanced Statistics in the Behavioral and Biological Sciences I.

2. 3 credits total of BIO 734 are required.

3. 2 credits total of BIO 749 are required.

4. Students, with the approval of the departmental Graduate Studies Committee, research advisor, and/or Dissertation Committee, will select additional courses that pertain to their area of research to fulfill their degree requirements. A minimum of 9 credits of Biology courses at the 500-700 level must be earned and a maximum of 6 credits can be at the 500 level.

5. A minimum of 12 credits in BIO 799 is required and a maximum of 18 credits is allowed.

**Comprehensive Examination**

The comprehensive examination consists of a written research proposal that must be orally defended in a public seminar and before a student’s dissertation committee. Successful completion and defense of the proposal allows the student to achieve candidate status, and thus, register for BIO 791 Independent Doctoral Research and BIO 799 Dissertation.

**Dissertation Defense**

Students must present a seminar that is open to the public and satisfactorily defend their completed dissertation research to her/his dissertation committee.

**Required Milestones**

- Residency (Immersion)
- Plan of Study
- Research Competency

* General information about milestones for doctoral programs is available in Section III (p. 807) of the Graduate Policies (p. 788) page in the University Catalog. For information about how milestones are accomplished for a specific program, please refer to the doctoral program’s handbook.
Chemistry and Biochemistry

College of Arts and Sciences
435 Science Building
336-334-5714
http://chem.uncg.edu

Mitchell Croatt, Department Head
Jerry Walsh, Director of Undergraduate Studies
Liam M. Duffy, Graduate Program Director

Undergraduate Programs
The Department of Chemistry and Biochemistry offers five undergraduate programs: the Bachelor of Science in Chemistry, the Bachelor of Science in Biochemistry, the Bachelor of Science in Chemistry with a Concentration in Biochemistry, the Bachelor of Science in Chemistry with a Concentration in Research, and the Bachelor of Arts in Chemistry. A licensure program to prepare students to teach high school chemistry is offered. The Master of Science in Chemistry, Master of Science in Chemistry with Biochemistry Concentration, and Ph.D. in Chemistry and Biochemistry are offered at the graduate level (see the University Catalog). Students who follow the program leading to the Bachelor of Science in Chemistry degree are certified to the American Chemical Society as having met its rigorous requirements for undergraduate professional training in chemistry.

The Department’s biochemistry programs (B.S. in Biochemistry and B.S. in Chemistry with Concentration in Biochemistry) provide students with excellent preparation for graduate work in biochemistry and related life sciences, as well as for employment in chemical and biotechnological industries. These programs are also attractive to students planning careers in the medical, dental, or pharmaceutical professions.

The department emphasizes the opportunity for students to engage in undergraduate research. Many of our majors do so, principally in their junior and senior years, and this provides excellent training for those who intend to continue their studies at the graduate level.

Graduate Programs
UNC Greensboro has a tradition of excellence in advanced training for careers in the chemical and biochemical sciences. Our faculty is committed to providing one-on-one learning opportunities for all our students in the laboratory, and this dedication to quality graduate education translates into very high success rates for our graduates as they pursue careers in science. Our Department has a strong research emphasis on Medicinal Biochemistry, and our students engage in a diverse array of research projects related to that theme. For example, students work to develop or synthesize new drug candidates, identify and study mechanism of action of natural products, or explore the chemical properties of human drug metabolizing systems. In support of these efforts, our department is home to the Medicinal Chemistry Collaborative (MC2) directed by Dr. Nadja Cech and Dr. Nicholas Oberlies. The mission of this center is to broaden the impact of natural products and drug discovery research on the UNC Greensboro campus, and to facilitate university-industry relationships with local pharmaceutical and biotechnology companies.

The Department has a well-established Master’s level program that offers an M.S. in Chemistry within which a Concentration in Biochemistry can be chosen. These are very well-rounded terminal degree programs. In addition to course-work in core areas of Chemistry or Biochemistry, each program emphasizes training in research by requiring a significant research project with a Master’s thesis under the supervision of a professor. Students also receive experience in professional presentation through the seminar program and attendance at professional meetings to present research results.

Our Ph.D. program in Chemistry and Biochemistry is unique in the state of North Carolina. Target-based rational drug design, with its emphasis on biochemical and molecular biological receptors, is now central to the development of new and more effective pharmaceuticals. The Ph.D. program offers students an innovative curriculum and research environment that emphasizes fundamental biochemical interactions and mechanisms guiding drug design and development. Students who complete the program will have a strong biochemical perspective on drug design, discovery, and function, and will have specialization in any of several disciplines which connect biochemical interactions with pharmaceutical development: computational chemistry, bioanalytical chemistry, biophysical chemistry, natural product isolation, molecular biology and enzymology, or drug synthesis.

Graduate-level faculty

- Biochemistry, B.S. (p. 309)
- Chemistry, B.A. (p. 310)
- Chemistry, B.S. (p. 312)
- Chemistry Undergraduate Minor (p. 314)
Biochemistry, B.S.

The Biochemistry Major (B.S.) is designed to prepare students for graduate education in the biochemical sciences, for medical, dental, or pharmaceutical professions, or for employment in biotechnology, pharmaceutical, and chemical industries. Students who complete the Bachelor of Science in Biochemistry will meet all or most of the academic requirements for admission to medical, dental, veterinary, or pharmacy schools.

The curriculum involves a solid foundation of Chemistry and Biology courses, along with core and advanced elective courses in Biochemistry. Undergraduate research is encouraged, and students may collaborate with participating faculty from a variety of departments (Chemistry, Biology, Nutrition, Physics, and Kinesiology).

This program follows the biochemistry curriculum recommendations of the American Society of Biochemists and Molecular Biologists.

Overall Requirements

- 120 credit hours, to include at least 36 credits at or above the 300 course level
- Only major requirement and related area requirement courses at or below the 300-level in which grades of C- or better are earned will be counted toward the major. Students must earn a C- or better in prerequisite major requirement and related area requirement courses before advancing to subsequent courses. Students must have an overall GPA of at least 2.0 in CHE courses at UNC Greensboro.

Chemistry, B.A.
The Chemistry Major (B.A.) provides sound education in chemistry but is less specialized and more flexible than the B.S. program. It offers solid preparation for those planning to enter medicine or dentistry, secondary school teaching, technical writing, sales, or various other vocations within the chemical industry. In fact, by electing some additional courses in chemistry beyond the minimum required, the student may prepare for graduate work under this program as well as under the B.S. While this program allows a more flexible arrangement of schedules, the student should work closely with a chemistry advisor to be certain that the proper sequence of chemistry and related area courses are taken with regard to the prerequisites.

Overall Requirements
- 120 credit hours, to include at least 36 credits at or above the 300 course level; note that licensure programs may require credits beyond the minimum listed.
- Only major requirement and related area requirement courses at or below the 300-level in which grades of C- or better are earned will be counted toward the major. Students must earn a C- or better in prerequisite major requirement and related area requirement courses before advancing to subsequent courses. Students must have an overall GPA of at least 2.0 in CHE courses at UNC Greensboro.

* This course is taken as an audit.

Optional Concentration
The optional concentration as detailed following the major requirements may be added, but is not required.

- Chemistry Major with Comprehensive Science High School Teaching Licensure
Electives

Electives should be sufficient to complete the 120 credit hours required for the degree. Additional advanced courses in mathematics are advised. Additional chemistry courses above the 100 level may be taken.

Chemistry Major with Comprehensive Science High School Teaching Licensure Concentration Requirements

The Comprehensive Science High School Licensure (CHEM) program provides a strong background in chemistry as well as licensure for high school chemistry teaching. In addition, successful completion of this program qualifies candidates to teach other high school science subjects as well.

Disciplinary Honors in Chemistry and Biochemistry Requirements

- A minimum of 12 credit hours as defined below.
- UNC Greensboro cumulative GPA of 3.30 or better or, for transfer students, cumulative GPA of 3.30 or better from all prior institutions.

**Code** | **Title** | **Credit Hours**
--- | --- | ---
Required
HSS 490 | Senior Honors Project | 3

6 credits of Honors course work in the major | | 6

3 credits of Honors course work in the major or another area | | 3

**Recognition**
Receive a Certificate of Disciplinary Honors in Chemistry and Biochemistry; have that accomplishment, along with the title of the Senior Honors Project, noted on the official transcript; and be recognized at a banquet held at the end of the spring semester.

**Honors Advisor**
Contact Liam Duffy at liam.duffy@uncg.edu for further information and guidance about Honors in Chemistry and Biochemistry. To apply: http://honorscollege.uncg.edu/forms/disc-application.pdf

### Chemistry, B.S.

The Chemistry Major (B.S.) provides very thorough undergraduate training in chemistry and an excellent background for students planning to undertake graduate work or to enter the chemical industry. It differs from the B.A. in requiring additional advanced courses in chemistry and/or related sciences. Students who complete this program will be certified to the American Chemical Society upon graduation as having fulfilled the Society’s rigorous requirements for undergraduate professional training. The sequence in which the required courses are taken is important, and the student should work closely with a chemistry advisor in planning a schedule.

The concentration in Chemistry Research offers students the option to specialize in research and be exposed to three or more years of research. The concentration is designed to prepare students for graduate study in chemistry, biochemistry, medicine, and related professions, or for employment in biochemistry or biotechnology related industries. The exposure to research will build strong research, communication, and leadership skills. Such skills are in great demand.

The concentration in Biochemistry offers students the option to specialize in biochemistry within the curriculum leading to the B.S. in Chemistry. This concentration is designed to prepare students for graduate study in biochemistry, medicine and related professions, or for employment in biochemistry or biotechnology related industries. The sequence in which the required courses are taken is important, and the student should work closely with a chemistry advisor in planning a schedule.

### Overall Requirements

- 120 credit hours, to include at least 36 credits at or above the 300 course level; note that licensure programs may require credits beyond the minimum listed.
- Only major requirement and related area requirement courses at or below the 300-level in which grades of C- or better are earned will be counted toward the major. Students must earn a C- or better in prerequisite major requirement and related area requirement courses before advancing to subsequent courses. Students must have an overall GPA of at least 2.0 in CHE courses at UNC Greensboro.

### Degree Program Requirements

6 credits of Honors course work in the major | | 6

3 credits of Honors course work in the major or another area | | 3

**Major Requirements**
Select one of the concentrations as detailed following the major requirements.

- Chemistry
- Chemistry Research
- Biochemistry

### Electives

Electives should be sufficient to complete the 120 credit hours required for the degree. Additional advanced mathematics courses are advised. Additional chemistry courses above the 100 level may be taken.

### Chemistry, M.S.

The M.S. in Chemistry gives students the opportunity to develop and demonstrate their potential for work in biochemistry and attracts individuals who have been out of an academic environment for some time or who wish to bolster their undergraduate science experience. The successful candidate will be prepared for positions of responsibility in industry or government or for further study toward a doctoral degree.

The required 30 credit hours includes courses in the four major areas of chemistry (analytical, inorganic, organic, and physical), courses in other areas, and a research thesis based on original research carried out under the direction of a faculty advisor. In addition, the student gains experience in professional speaking by preparing and presenting two public seminars.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a one-page personal statement by the appropriate deadline to be considered for Fall, Spring, or Summer admission.
The reporting of GRE scores, general and subject test, is optional. GRE scores will only be taken into consideration for admission if scores are reported by the applicant.

**Degree Program Requirements**

</tr>
</tbody>
</table>

**Total Credit Hours**

30

**Research Techniques**

Students take CHE 691 before beginning research. Students must carry out a research project under the supervision of a faculty member and write a thesis on the research (CHE 699). Students may take additional research hours of CHE 680 and up to 6 credits of CHE 699 for a total of 12 credits.

**Seminars**

Students must present two seminars, the first on a literature topic (CHE 601) and the second on their thesis research (CHE 602), normally given during the last semester of study.

**Electives**

Up to 9 credits may be earned in chemistry or biochemistry or in approved (by Department Graduate Studies Committee and student’s research advisor) graduate courses in biology, mathematics or physics.

**Comprehensive Examination**

The comprehensive examination consists of a research proposal on the student's thesis research, including a literature review. The proposal must be approved by the student's thesis committee before the student may enroll in CHE 699.

**Thesis Defense**

Students must defend the completed thesis before the thesis committee.

**Biochemistry Concentration**

**Required:** 30 credit hours

The concentration in Biochemistry gives M.S. Chemistry students the opportunity to demonstrate and develop specialization for work in biochemistry. The successful candidate will be prepared for positions of responsibility in industry or government or for further study toward a doctoral or other professional degree.

The required 30 credit hours for this concentration include a specialized core of introductory and advanced biochemistry courses, courses in chemistry and other areas, and a research thesis based on original research carried out under the direction of a faculty advisor. In addition, the student gains experience in professional speaking by preparing and presenting two public seminars.

**Total Credit Hours**

30

* In biochemistry or from courses approved by the Department Graduate Studies Committee in areas related to biochemistry (cell biology, genetics, microbiology, metabolism, biophysics, or other areas).

**Indicates Capstone Experience.**

**Electives**

Additional courses needed to bring the total credits up to at least 30 should be chosen from graduate-level chemistry and biochemistry courses offered by the department or from approved biochemistry-related courses.

**Research Techniques**

Students take CHE 691 before beginning research. Students must carry out a research project under the supervision of a faculty member and write a thesis on the research (CHE 699). Students may take additional research hours of CHE 680 and up to 6 credits of CHE 699 for a total of 12 credits.

**Seminars**

Students must present two seminars, the first on a literature topic (CHE 601) and the second on their thesis research (CHE 602), normally given during the last semester of study.
Comprehensive Examination
The comprehensive examination consists of a research proposal on the student’s thesis research, including a literature review. The proposal must be approved by the student’s thesis committee before the student may enroll in CHE 699.

Thesis Defense
Students must defend the completed thesis before the thesis committee.

Chemistry and Biochemistry, Ph.D.
The Ph.D. in Chemistry and Biochemistry requires 56 credit hours in advanced biochemical and medicinal chemistry course work and a dissertation culminating from extensive laboratory research experience carried out under the direction of a faculty advisor. Additional course work is offered in specialized areas such as synthetic chemistry, bioanalytical chemistry, and computational chemistry. The student gains experience in professional speaking by giving public oral scientific presentations through the departmental seminar program. The successful candidate will be well prepared for careers in biotechnology, pharmaceutical or medical research, or academia.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a one-page personal statement by the appropriate deadline to be considered for Fall or Spring admission.

A minimum of a B.S. in Chemistry, Biochemistry, or related field is required.

* A minimum of 12 credits in CHE 799 is required.
** In approved (by the Department Graduate Studies Committee and student’s research advisor) elective graduate courses in chemistry, biology, mathematics or physics. Students who plan to pursue employment in industry are encouraged to enroll in CHE 790 Chemistry and Biochemistry Internship.

Required Milestones*
- Residency (Immersion)
- Plan of Study
- Research Competency
- Comprehensive Exam (Written & Oral)
- Dissertation Proposal
- Admission to Candidacy
- Dissertation Defense
- Filing the Final Approved Dissertation

* General information about milestones for doctoral programs is available in Section III (p. 807) of the Graduate Policies (p. 788) page in the University Catalog. For information about how milestones are accomplished for a specific program, please refer to the doctoral program’s handbook.
Mission Statement

Our program offers students the opportunity to engage with the diverse peoples and cultures of the ancient Mediterranean world. This engagement encourages students to reflect upon the past in order to bridge time and distance in pursuit of answers to fundamental questions about what it means to be human. Students grapple with the origins of urban life; ancient Mediterranean systems of belief and myth; ancient cosmology; the meaning of the major monuments, literature, and artifacts from the Mediterranean region; Roman law; the lives of women in Antiquity; ancient Greek and Latin languages, and much more. This breadth of courses fosters intellectual curiosity and allows students to consider multiple viewpoints, understand different methodologies, and engage in creative inquiry across disciplines.

The study of the ancient Mediterranean world at UNC Greensboro has been a foundational discipline since the college first opened its doors in 1891, when all students studied Greek and Roman history and three years of Latin were required for graduation. While Classical Studies has been part of UNC Greensboro’s curriculum for over 125 years, the discipline, like the university, has grown and expanded and changed. Students in Classical Studies now engage with a vast and interconnected cultural diversity that spanned the entire ancient Mediterranean world, a diversity which in many ways reflects the diversity of the student body at UNC Greensboro.

About

The Department of Classical Studies provides a comprehensive approach to the study of the ancient Greek and Roman world. The Department believes that students should have a solid foundation in the language, history, and culture of Greek and Roman civilization. To this end, the program is designed to ensure that all students gain proficiency in the Greek or Latin language, as well as a broad understanding of Classical literature in its cultural and historical context, the influence of Graeco-Roman civilization on the conceptions and values of Western civilization, and the methods of critical inquiry which are central to the discipline of Classical Studies.

The Department offers a wide variety of courses in English on mythology, archaeology, literature and culture, as well as courses in ancient Greek and Latin at all levels. Courses with a CCI prefix require no knowledge of either language; GRK courses require reading of texts in Greek and LAT courses require reading of texts in Latin.

Students also have an opportunity in the summer to visit Athens, Rome, and other parts of the Classical world, to participate in archaeological excavation, and to earn semester hours of credit through the following or through Study Abroad Programs.

Overall Requirements

- 120 credit hours, to include at least 36 credits at or above the 300 course level
- Minimum 33 credits distributed as follows in one of the three possible concentrations. Students must have at least a 2.0 GPA for courses in the major, and a minimum of 9 credits at the 300 level or above.

Classical Studies, B.A.

The Department offers a B.A. in Classical Studies, with three distinct concentrations in Classical Language and Literature, Classical Civilization, and Classical Archaeology. All three concentrations offer a broad liberal arts experience that provides an excellent foundation for a variety of careers including law, business, government, journalism, and teaching.

The Classical Language and Literature concentration is designed to ensure a solid preparation in the chosen language and to acquaint students with those works that form the origin of European literature, history, and philosophy. This concentration prepares students for graduate work in the Classical languages and literature and for secondary school language teaching.

The Classical Civilization and Classical Archaeology concentrations provide a solid and wide-ranging background for understanding the origin and development of our Western ideas, values, languages, institutions, attitudes, and art. The Classical Civilization concentration is an excellent major for Prelaw students, who should choose courses on Roman Civilization CCI 202, Roman Law and Society (CCI 350), and Latin to fulfill major requirements. It is also an excellent second major for those interested in any area of primary or secondary school teaching. The Classical Archaeology concentration is intended especially for students wishing to pursue graduate work in Classical Archaeology. Students interested in other areas of archaeology should also consider the Liberal and Interdisciplinary Studies Major: Archaeology Concentration.

* Must be above the 100 level with at least 6 credits at the 300 level or above.

Recognition

The designation “Completed Disciplinary Honors in Classical Studies” and the title of the Senior Honors Project will be printed on the student’s official transcript.

Honors Advisor

Contact Jonathan Zarecki at jpzareck@uncg.edu for further information and guidance about Honors in Classical Studies. To apply: http://honorscollege.uncg.edu/forms/disc-application.pdf

Classical Studies Undergraduate Minor

The Classical Studies Minor complements majors in a variety of fields including anthropology, art, English, foreign languages, history, philosophy, and religious studies. Requirements are flexible enough to permit students to develop and extend their major plan of study.

- Minimum of 15 credit hours in Classical Studies courses above the 100-level to be worked out with the department advisor as best suited to each student’s academic program.
- A minimum of 9 credits toward the minor must be taken in residence at UNC Greensboro.

*Classical Studies courses include CCI, GRK, and LAT.

Classical Studies Second Academic Concentration

Classical Studies Second Academic Concentration for Elementary Education with K–6 Teacher Licensure, B.S.

This concentration is designed for students in the Elementary Education and Special Education programs. Much of the subject matter in the concentration (mythology, language and reading study, word origins, history, and culture) is easily adaptable for use with elementary grades students, and the flexibility of the concentration is designed to accommodate the schedules of Elementary Education and Special Education majors.

Requirements

- Minimum of 18 credit hours

Communication Studies

College of Arts and Sciences

102 Ferguson Building
336-334-5297
cst.uncg.edu (https://cst.uncg.edu/)

Roy Schwartzman, Department Head
Jenni Simon, Director of Undergraduate Studies
Marianne LeGreco, Graduate Program Director

About

There is nothing on this earth more fascinating than the study of human communication. Meaning making is a complex, continuous, collaborative, dynamic process. Sometimes, we are transported into a world we could hardly imagine as we engage in deep listening and active dialogue with friends, loved ones, and colleagues. Sometimes a great speech will take us to soaring heights of understanding and even epiphany. Sometimes we are like ships passing in the night, hardly even understanding one another. And sometimes, we crash into each other like rams on a hillside, embroiled in conflict, with no apparent exit!

Friends, families, work groups, organizations, communities—we study them all, and all offer endless opportunities for study, sense making, and intervention. All of this action, and more, will confront you as you engage in your studies. And, at the end of it all, you will not only have a lifelong quest ahead of you (as you come to understand and engage in various forms and practices of communication), you will also find yourself equipped to succeed in a wide variety of fields and careers.

Mission Statement

We teach and research communication to connect people, create change, and work toward a just world.

Commitments

• We engage communication knowledge to understand, advance, and challenge human interaction processes locally and globally.
• We promote the centrality of communication to personal, professional, and public lives.
• We seek to invigorate our collective moral imagination to build a world of hope, justice, and peace.
• We engage pressing social and relational issues through written and spoken communication, active research and teaching, and involvement in the world around us.
• We foster learning and application of communication knowledge and skill to transform relationships and communities.
• We affirm, practice, and teach service and community engagement.
• We teach the art of living well together.

Values

We actively value and promote:

• Honesty
• Trust
• Respect
• Fairness
• Responsibility
• Care
• Ethics
• Justice
• Courage
• Equality
• Creativity
• Compassion
• Engagement
• Critical Thinking
• Holistic Thinking
• Incremental Thinking
• Learner-centered practice
• Independence
• Interdependence
• Difference
• Relationships
• Connection
• Self-discipline
• Focus
• Service

Philosophy of Scholarship

We believe that communication is formative and foundational to human identities, relationships, and communities—and that ethical and strategically effective communication can be the means of critiquing, constructing, and transforming identities, relationships, and communities.

We engage in communication scholarship in the form of research, teaching, and service that:

• Integrates dialogue and other approaches to communication as the foundation for scholarly inquiry and application to the world
• Cultivates diversity and respect for differences
• Promotes change that leads to more democratic, just, and peaceful relationships and communities
• Engages creative partnerships of faculty, students, and other stakeholders in addressing contemporary challenges and opportunities for improving communication

The Department offers the B.A. in Communication Studies as well as an undergraduate minor. The M.A. degree is also offered in the department. For details on the graduate program see the University Catalog.

The Department of Communication Studies offers required and elective courses that are designed to make productive use of differing learning styles among students: theoretical and applied, textual and experiential, topical and case study, course work and internships/service learning, individual and group/team based performances. A number of courses involve service learning to link communication, action, and academic study.

The Department of Communication Studies provides opportunities to study relational, group, workplace, and community communication. Communication courses contribute to a liberal education by teaching creative thinking and problem-solving, critical reasoning, and effective oral, written, and mediated communication. The faculty strongly believe in the interdisciplinary nature of communication, and this curriculum encourages elective course work be taken in allied disciplines such as African American and African Diaspora Studies, Anthropology, Business,
English, Media Studies, Philosophy, Political Science, Psychology, Sociology, and Women's and Gender Studies. Additionally, the Department participates in high-impact educational experiences, such as Service-Learning, the Honors Programs administered by the Lloyd International Honors College, Writing Across the Curriculum and Speaking Across the Curriculum programs, and regularly offers freshman seminars. Opportunities also exist for Study Abroad including exchanges in Europe. Communication Studies majors with a 3.0 GPA may apply to go abroad in the spring semester of their junior year to participate in various Study Abroad opportunities.

The undergraduate program in Communication Studies is designed to serve as a solid foundation for a variety of professional and entrepreneurial careers; it also provides preparatory work for graduate studies in communication, as well as related fields such as law, business, media studies, and education. Faculty and students in the Department of Communication Studies are actively involved in research, service, and consulting with community, state, regional, national, and international organizations and agencies.

Student Learning Goals

As a reflection of the mission statement, the UNC Greensboro general education goals, and in consultation with the National Communication Association, the Department of Communication Studies has the following student learning outcomes for the B.A. degree. At the completion of the major, the student should be able to:

- Speak effectively and ethically to a public.
- Utilize communication concepts and competencies to build relationships and/or community.
- Apply a communication perspective to identify and analyze social issues/problems.
- Engage communication scholarship using appropriate theory and research methods.

Graduate Programs

The Master of Arts program in Communication Studies prepares students for scholarly or applied communication careers in the social, public, and private sectors, community college teaching, or advancement to a doctoral program. As they master the tools of scholarship, students acquire:

1. A deep, research-based, critical understanding of communication in relation to public and private contexts and issues, and
2. The ability to participate in and contribute to the communication discipline as scholars and practitioners.

Electives sufficient to complete the 120 credit hours required for degree.

Disciplinary Honors in Communication Studies

Requirements

• A minimum of 12 credit hours as defined below.
• UNC Greensboro cumulative GPA of 3.30 or better or, for transfer students, cumulative GPA of 3.30 or better from all prior institutions.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
</table>
| Required
  HSS 490  Senior Honors Project             | 3            |
  6 credits of Honors coursework in the major | 6            |
  3 credits of Honors course work in the major or another area | 3

*  Students may choose from an approved Communication Studies Honors course or 300-400-level Contract course

Recognition
Receive a Certificate of Disciplinary Honors in Communication Studies; have that accomplishment, along with the title of the Senior Honors Project, noted on the official transcript; and be recognized at a banquet held at the end of the spring semester.

Honors Advisor
Contact Roy Schwartzman at doc_roy@uncg.edu for further information and guidance about Honors in Communication Studies. To apply: http://honorscollege.uncg.edu/forms/disc-application.pdf

Accelerated B.A. to M.A. in Communications Studies

Application and Admission
Qualified UNC Greensboro undergraduate students may apply for admission to the Accelerated Master’s Program (AMP) in Communication Studies. A cumulative undergraduate GPA of at least 3.5 based on at least 30 credit hours earned at UNC Greensboro is required. Applicants must have completed at least 60 credits and may not apply for admission to the AMP before the first semester of the junior year.

Communication Studies has the following additional requirements:
At least 15 credits of undergraduate Communication Studies courses, with an earned 3.5 GPA in these courses. The 15 credits must include CST 300 Communication Theory, with a minimum grade of B. Of the remaining 12 credits, 6 credits must be from among CST 105 Introduction to Communication Studies, CST 200 Communication and Community, CST 207 Relational Communication, and CST 210 Communicating Ethically. Standard application requirements for the Master of Arts (M.A.) program (i.e., undergraduate transcript(s), GRE scores, three letters of recommendation, personal statement, writing sample, interview).

Courses
Admitted students may apply a maximum of 12 credits of graduate-level course work toward completion of both the undergraduate and graduate degrees, provided that they earn a grade of B (3.0) or better in each graduate course and fulfill graduate-level requirements.

As with all graduate students in Communication Studies, courses counted toward the M.A. degree need the prior approval of the Graduate Program Director. Up to, but not more than, 12 credits of graduate courses may be double-counted. For a course to apply toward both degrees, the student must earn a grade of B (3.0) or better in the course and fulfill graduate-level requirements.

The M.A. degree requires 30 credit hours of graduate-level course work. If the maximum of 12 credits is double-counted toward both the undergraduate and graduate degrees, the student must complete an additional 18 credits of graduate-level course work to complete the M.A. degree. No more than 9 credits at the 500-level courses may be counted toward the M.A. degree. Please see the section below for a full description of the M.A. degree requirements. The following courses have been identified as those that may be counted toward the B.A. and M.A. degrees. These courses have been chosen because they are well suited to AMP students and because they are offered frequently enough to provide students substantial opportunity to enroll in them. All courses that lead to the completion of the M.A. degree must be approved with the Graduate Program Director.

The following courses may be counted toward the bachelor’s and the master’s degrees:

<table>
<thead>
<tr>
<th>Code</th>

- CST 207 Relational Communication
- CST 210 Communicating Ethically

Select at least 12 credits of CST electives at the 300 level or above

Procedural Guidelines

Upon admission to the Department, the Graduate Program Director will advise students on Departmental and Graduate School processes and procedures.

After completing the core requirements, students will be informed by the Graduate Program Director if they are or are not meeting the academic standards and requirements of the program. At that time, students may be allowed to continue in the program or be asked to leave the program.

Fully admitted graduate students in the Department of Communication Studies must achieve at least a 3.0 GPA each semester and on a cumulative basis throughout their program of study. Failure to meet this expectation will result in dismissal from the program. Further, any fully admitted graduate student earning 2 grades of C+ or C or 1 grade of U, WF, or F in any CST graduate course will be dismissed from the M.A. program. Students have the right to appeal for reinstatement to the CST Graduate Admissions Committee.

In the semester immediately prior to their final semester, students will form a Capstone Committee to assist with completion of the Final Research Project. The committee will consist of two CST Graduate Faculty members with whom the student has taken courses toward the degree and/or have expertise in the capstone topic area. Typically, one of these faculty members will serve as the major guiding professor on the project. The committee will guide the student through the development and execution of a research project appropriate to the culmination of the M.A. degree. The final product will be a scholarly essay. Satisfactory projects, with revisions, are typically suitable for submission for presentation at a local, regional, or national conference.

Total Credit Hours

30

Required Core Courses

The core courses form the foundation for proper socialization into the communication discipline, development of skills required for graduate-level work, and knowledge of theories and methodologies necessary to engage in communication scholarship. Students are required to take CST 601 Engaging Communication Scholarship I and CST 602 Engaging Communication Scholarship II during their first semesters in the program.

Elective Course Work

In addition to the required core courses, students need to satisfactorily complete 21 credits in elective, graded courses. It is recommended that the students choose courses from the following categories within CST.
Exit Questionnaire
All graduating students must complete an exit questionnaire on the M.A. program.

SACSCOC 18 Credit-Hour Requirement
Community college instructors interested in earning 18 credit hours in communication to satisfy SACSCOC requirements should consult the Graduate Program Director for guidance in course selection.

Accelerated B.A. to M.A. in Communications Studies

Application and Admission
Qualified UNC Greensboro undergraduate students may apply for admission to the Accelerated Master's Program (AMP) in Communication Studies. A cumulative undergraduate GPA of at least 3.5 based on at least 30 credit hours earned at UNC Greensboro is required. Applicants must have completed at least 60 credits and may not apply for admission to the AMP before the first semester of the junior year.

Communication Studies has the following additional requirements:

Computer Science

College of Arts and Sciences

167 Petty Building
336-256-1112

Jing Deng, Head of Department
Mark Armstrong, Director of Undergraduate Studies
Shan Suthaharan, Graduate Program Director

Undergraduate

The courses in the Computer Science Department are designed to teach the foundations of computing rather than a particular technology, so that the student is prepared to adapt to changing technology. Students are exposed to various programming languages and computing systems.

The job market in computer science is strong. A student completing a bachelor’s degree with a strong academic record can expect job offers as a systems programmer or analyst, applications programmer, systems support staff member, technical staff member, or similar position. The undergraduate curriculum has also been designed to prepare students for graduate studies (master’s and doctoral degrees) in computer science. Qualified students who have an interest in research will have opportunities to participate in projects with department faculty during undergraduate or graduate studies.

Graduate

About

The Master of Science is designed to build computer science depth and research competence, to prepare students for advanced careers in computing fields. Students completing the M.S. degree are also well-prepared for doctoral study in computer science.

M.S. students may pursue an optional concentration in Data Science and Big Data, which provides students key knowledge of appropriate theories, algorithms, and technologies, towards development of analytical systems/models for disparate, complex, and small/large scale datasets. Students completing this concentration will have demonstrated skills to become productive professionals and/or to contribute to research in computer science, and supporting general liberal education through courses for non-majors that promote critical thinking and skills for life in a technical and information-based society.

Mission Statement

The Department of Computer Science supports the university mission of being a student-centered research university by fostering discovery and intellectual growth through the traditional activities of education, research, and service, with stated missions in each of these areas.

- Education Mission: To provide excellence in teaching and education, providing rigorous undergraduate and graduate programs that produce graduates who have the theoretical foundation and technical skills to become productive professionals and/or to contribute to research in computer science, and supporting general liberal education through courses for non-majors that promote critical thinking and skills for life in a technical and information-based society.

- Research Mission: To contribute to the creation and dissemination of ideas through research and scholarly activities, such as publication of original research, presentations at scholarly meetings, and participation in externally funded research projects, in the context of a program which values the academic freedom of faculty to set their own research directions in basic or applied research.

- Service Mission: To support the university and computer science profession through participation in activities, committees, and policy making.

- Computer Science, M.S. (p. 329)

Computer Science, B.S.

The courses in the Computer Science Department are designed to teach the foundations of computing rather than a particular technology, so that the student is prepared to adapt to changing technology. Students are exposed to various programming languages and computing systems.

The job market in computer science is strong. A student completing a bachelor’s degree with a strong academic record can expect job offers as a systems programmer or analyst, applications programmer, systems support staff member, technical staff member, or similar positions. The undergraduate curriculum has also been designed to prepare students for graduate studies (master’s and doctoral degrees) in computer science. Qualified students who have an interest in research will have opportunities to participate in projects with department faculty during undergraduate or graduate studies.

In addition to the regular B.S. program, students may pursue a concentration in Data Science and Big Data, which is designed to provide Computer Science B.S. students with key knowledge of appropriate theories, algorithms, and technologies, towards development of
analytical systems/models for disparate, complex, and small/large scale datasets. Students completing this concentration will have learned skills necessary to tackle a wide variety of data-focused scientific, social, and environmental challenges.

Students must maintain a grade point average of at least 2.0 in the core courses, required electives, and required supporting discipline courses. Because computer science courses change rapidly, it is recommended that the sequence CSC 130, CSC 230, CSC 330 be completed within 4 consecutive semesters.

The B.S. degree in Computer Science program is accredited by the Computing Accreditation Commission of ABET (www.abet.org (http://www.abet.org)).

Overall Requirements
- 120 credit hours, to include at least 36 credits at or above the 300 course level

Accelerated B.S. to M.S.

Application and Admission
Qualified UNC Greensboro undergraduate students who are pursuing the Bachelor of Science (B.S.) in Computer Science may apply for admission to the Accelerated Master's Program (AMP). A cumulative undergraduate GPA of at least 3.5 based on at least 30 credits earned at UNC Greensboro is required. Applicants must have completed at least 60 credits and may not apply for admission to the AMP before the first semester of the junior year. Applicants will not be required to take the GRE. All applicants must complete the Accelerated Master’s Program information along with their application for admission to the graduate degree program.

Courses
Admitted students may apply the following 12 credits of graduate-level course work toward completion of both the undergraduate and graduate degree, provided that they earn a grade of B (3.0) or better in the course and fulfill graduate-level requirements:

<table>

Computer Science, M.S.

The M.S. in Computer Science requires 30 credit hours with at least 24 credits in computer science (CSC) courses. Three options for the capstone experience are offered: comprehensive examination, project, or thesis. An optional concentration in Data Science and Big Data is available for Computer Science M.S. students.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

STA 682  Theory of Time Series

Total Credit Hours  15

Accelerated B.S. to M.S. in Computer Science

Application and Admission
Qualified UNC Greensboro undergraduate students who are pursuing the Bachelor of Science (B.S.) in Computer Science may apply for admission to the Accelerated Master's Program (AMP). A cumulative undergraduate GPA of at least 3.5 based on at least 30 credits earned at UNC Greensboro is required. Applicants must have completed at least 60 credits and may not apply for admission to the AMP before the first semester of the junior year. Applicants will not be required to take the GRE. All applicants must complete the Accelerated Master’s Program information along with their application for admission to the graduate degree program.

Courses
Admitted students may apply the following 12 credits of graduate-level course work toward completion of both the undergraduate and graduate degree, provided that they earn a grade of B (3.0) or better in the course and fulfill graduate-level requirements:

<table>

</table>

Please consult with an advisor to determine how the course taken at the graduate level will meet requirements in the bachelor’s degree program. All degree requirements for the M.S. in Computer Science remain the same.
English

College of Arts and Sciences
3143 Moore Humanities and Research Administration
336-334-5311
www.uncg.edu/eng

B. Scott Romine, Department Head
Jennifer Keith, Director of Undergraduate Studies
Jennifer Feather, Graduate Program Director
Terry Kennedy, Graduate Program Director, M.F.A.
Risa Applegarth, Director of College Writing
Jeanie Reynolds, Director of English Education

The Department of English offers courses in major authors, in all major literary periods, in literary theory, in linguistics and rhetoric, in journalism, and in writing essays, fiction, and poetry. Senior-graduate courses are available to advanced students, and the graduate program offers the full range of literary and rhetorical studies leading to the M.A. and Ph.D. The creative writing program offers courses both to undergraduates seeking the B.A. degree and to graduate students seeking the M.F.A. degree.

The department offers two major programs leading to the B.A. degree: “English” and “English—High School Teaching.” Successful completion of the latter program qualifies the graduate to teach in high schools in North Carolina and other states with which North Carolina has reciprocal licensure agreements. A student may declare either major upon matriculation; to change one’s major to English, or to change from one degree program to the other, one must have permission of the department. (See the Director of Undergraduate Studies in English.)

Graduate

The Department of English offers degree programs leading to the Master of Arts, the Master of Fine Arts, and the Doctor of Philosophy. The Greensboro Review, a magazine of poetry and fiction is published here.

Scheduling of M.A. classes and some Ph.D. classes is intended to meet the needs of students already employed in teaching or other professions.

- English, Ph.D. (p. 341)

English, B.A.

The English Major provides a flexible program. Students who major in English participate in increasingly intensified study of language and literature that includes English, American, and foreign literature in translation. Upon graduation, English majors are well qualified to enter nearly all fields that do not require previous technical and professional training.
Although the English major is an excellent preparation for a variety of careers, many students will seek licensure to teach, and others will choose to enter graduate school. English has long been recognized as a desirable major for prelaw and premedical studies. It is also beneficial for students who enter such fields as journalism, editing, communications, diplomacy, advertising, and personnel work.

A “Guide for English Majors and Minors” is available upon request from the departmental office. It provides current advice on planning a major or minor. Additional guidance is available from the Director of Undergraduate Studies in English and from faculty advisors.

**Overall Requirements**

- 120 credit hours, to include at least 36 credits at or above the 300 course level
- Minimum of 36 credits of English above the 100 level is required.
- No requirement for the major may be met by a grade lower than C-

**Electives**

Select electives sufficient to complete the 120 credit hours required for degree

**Disciplinary Honors in English Requirements**

- A minimum of 12 credit hours as defined below.
- UNC Greensboro cumulative GPA of 3.30 or better or, for transfer students, cumulative GPA of 3.30 or better from all prior institutions.
of both the undergraduate and graduate degrees, provided that they earn a grade of B (3.0) or better in each graduate course and fulfill graduate-level requirements.

**Courses**

Up to, but not more than, 12 credits of graduate courses may be double-counted. For a course to apply toward both degrees, the student must earn a grade of B (3.0) or better in the course and fulfill graduate-level requirements.

The M.A. degree requires 30-36 credit hours of graduate-level course work. If the maximum of 12 credits is double-counted toward both the undergraduate and graduate degrees, the student must complete a minimum of 18 credits of further graduate-level course work to complete the M.A. degree. No more than 9 credits at the 500 level may be counted toward the M.A. degree. Please see the University Catalog for a full description of the M.A. degree requirements.

The following courses have been identified as those that may be counted toward the B.A. and M.A. degrees. These courses have been chosen because they are well suited to AMP students and because they are offered frequently enough to provide students substantial opportunity to enroll in them. All courses that lead to the completion of the M.A. degree must be approved by the Graduate Program Director.

The following courses may be counted toward both the bachelor and master's degrees:

<table>

**Core Requirements**

*Historical Perspectives*
- Medieval to Enlightenment - Select one of the following:
  - ENG 211 Major British Authors: Medieval to Eighteenth Century
  - ENG 213 Transcultural Literatures: Medieval to Enlightenment
  - ENG 251 Colonial and U.S. Literature to 1865

*Romantic to Postmodern - Select one of the following:*
- ENG 212 Major British Authors: Romantic to Modern
- ENG 252 U.S. Literature Civil War to the Present

*Perspectives on Literature*
- Pre-1800 - Select two courses in literature before 1800 (only one of which may be Shakespeare) of the following:
  - ENG 332 English Women Writers before 1800
  - ENG 335 Dante in English
  - ENG 336 Introduction to Chaucer
  - ENG 337 English Literature to 1500
  - ENG 342 The Seventeenth Century
  - ENG 343 Topics in Pre-1800 Literature
  - ENG 360 The Restoration and the Eighteenth Century
  - ENG 372 Early American Literature
  - ENG 381 English Drama to 1800
  - ENG 410 Old English
  - ENG 437 Middle English Literature
  - ENG 441 Milton
  - ENG 461 Eighteenth-Century British Writers
  - ENG 339 Shakespeare: Early Plays and Sonnets
    or ENG 340 Shakespeare: Later Plays
    or ENG 440 Shakespeare

*Post-1800 - Select one course in literature after 1800 of the following:*
- ENG 315 Postcolonial Literatures
- ENG 316 Studies in Human Rights and Literature
- ENG 331 Women in Literature
- ENG 333 Southern Writers
- ENG 344 The Romantic Period

**Contemporary Theoretical Approaches**
- ENG 303 Critical Approaches to the Study of Literature

**Approaches to Rhetoric**
- ENG 304 History and Theory of Rhetoric
- ENG 305 Contemporary Rhetoric
- ENG 306 Digital Rhetoric

**Additional Requirements**
- ENG 322 The Teaching of Writing
- ENG 321 Linguistics for Teachers

**World Literature**
- ENG 201 European Literary Classics: Ancient to Renaissance
- ENG 204 Nonwestern Literary Classics
- ENG 209 Topics in Non-Western Literature
- ENG 315 Postcolonial Literatures
- ENG 316 Studies in Human Rights and Literature

Select two additional courses in English at or above the 200 level

Besides completing the above courses in English, candidates for teaching licensure must meet additional requirements, including admission to teacher education (end of sophomore year) and to student teaching (junior year), successful completion of Praxis, and course work outside the English Department. For full current information about all requirements contact the School of Education Office of Student Services at 336-334-3410 and consult the UNC Greensboro Teacher Education Handbook. Note: admission to teacher education and student teaching
in English requires a minimum grade point average of 2.75, overall and in the major.

**Electives**
Select electives sufficient to complete the 120 credit hours required for degree

**Disciplinary Honors in English**

**Requirements**
* A minimum of 12 credit hours as defined below.
* UNC Greensboro cumulative GPA of 3.30 or better or, for transfer students, cumulative GPA of 3.30 or better from all prior institutions.

</thead>
<tbody>
<tr>
<td>ENG 493</td>
<td>Honors Work</td>
</tr>
<tr>
<td>ENG 642</td>
<td>Topics in Pre-1800 Literature *</td>
</tr>
<tr>
<td>ENG 664</td>
<td>Topics in Post-1800 Literature *</td>
</tr>
</tbody>
</table>

Any other Honors course outside of the English department *

* Taken for up to 3 credits.

**Recognition**
Students who complete the program will be recognized at a banquet held at the end of the spring semester. The designation “Completed Disciplinary Honors in English” and the title of the Senior Honors Project will be printed on the student’s official transcript.

**Honors Advisor**
Contact Amy Vines at anvines@uncg.edu for further information and guidance about Honors in English. For further information, see the Honors Programs. To apply: [http://honorscollege.uncg.edu/forms/disc-application.pdf](http://honorscollege.uncg.edu/forms/disc-application.pdf)

**Accelerated B.A. to M.A.**
The Accelerated BA to MA in English requires 30-36 credit hours and is designed for those planning to pursue a doctorate; to teach in community colleges, technical institutes, or some undergraduate colleges; and to work in non-academic settings. Three plans of study beyond the core requirements are offered:

1. Thesis Plan
2. Teaching Composition Plan
3. Careers in the Humanities Plan

**Application and Admission**
Qualified UNC Greensboro undergraduate students may apply for admission to the Accelerated Master’s Program (AMP) in English. A cumulative undergraduate GPA of at least 3.5 based on at least 30 credits earned at UNC Greensboro is required. Applicants must have completed at least 60 credits and may not apply for admission to the AMP before the first semester of the junior year.

English has the following additional requirements for AMP applicants:
At least 15 credits of undergraduate English courses at the 200 level or above, with an earned 3.5 GPA in these courses.

Standard application requirements for the Master of Arts (M.A.) degree program, excluding GRE scores (i.e., undergraduate transcript(s), three letters of recommendation, statement of purpose, writing sample, and resume or cv).

AMP applicants must complete the Accelerated Master’s Program information along with their application for admission to the English M.A. degree program. Students admitted to the AMP program may apply a maximum of 12 credits of graduate-level course work toward completion of both the undergraduate and graduate degrees, provided that they earn a grade of B (3.0) or better in each graduate course and fulfill graduate-level requirements.

**Courses**
Up to, but not more than, 12 credits of graduate courses may be double-counted. For a course to apply toward both degrees, the student must earn a grade of B (3.0) or better in the course and fulfill graduate-level requirements.

The M.A. degree requires 30-36 credit hours of graduate-level course work. If the maximum of 12 credits is double-counted toward both the undergraduate and graduate degrees, the student must complete a minimum of 18 credits of further graduate-level course work to complete the M.A. degree. No more than 9 credits at the 500 level may be counted toward the M.A. degree. Please see the University Catalog for a full description of the M.A. degree requirements.

The following courses have been identified as those that may be counted toward the B.A. and M.A. degrees. These courses have been chosen because they are well suited to AMP students and because they are offered frequently enough to provide students substantial opportunity to enroll in them. All courses that lead to the completion of the M.A. degree must be approved by the Graduate Program Director.

The following courses may be counted toward both the bachelor and master’s degrees:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
<tr>
<td>ENG 642</td>
<td>Topics in Pre-1800 Literature *</td>
<td>3</td>
</tr>
<tr>
<td>ENG 664</td>
<td>Topics in Post-1800 Literature *</td>
<td>3</td>
</tr>
</tbody>
</table>

* May be repeated twice for credit when topic or instructor varies.

Please consult with an advisor to determine how the courses taken at the graduate level will meet requirements in the bachelor’s degree program. All degree requirements for the M.A. in English will remain the same.

**Creative Writing Undergraduate Minor**
Creative Writing minors have a wide choice among courses offered in fulfilling the minimum of 18 credits. They are urged, however, to consult
with the Director of Undergraduate Studies as early as possible for help in planning a program.

**Program Requirements**

- 18 credit hours as described below. No more than 6 credits at the 100 level and at least 6 credits at the 300 level or above.

<table>

**Additional Courses**

Select no more than 6 credits at the 100 level (but see head note, above) and at least 6 credits at the 300 level or above.

For information on licensure toward a high school English endorsement, fulfilling the English minor requirements, see the Director of English Education.

**Rhetoric and Public Advocacy Undergraduate Minor**

The courses listed below satisfy the College Reasoning and Discourse (CRD) requirement and do not, therefore, count as part of the credit hours for an English minor.

- ENG 101
- ENG 102

Rhetoric and Public Advocacy minors have wide choice among courses offered in fulfilling the minimum of 18 credits. They are urged, however, to report to the Director of Undergraduate Studies as early as possible for help in planning a program.

**Program Requirements**

- 18 credit hours with a minimum of 9 credits at the 300 level.

English Second Academic Concentration

English Second Academic Concentration for Elementary Education with K–6 Teacher Licensure, B.S.

The English department offers an 18 credit second academic concentration in English that meets requirements for Elementary Education and Special Education (School of Education) and certain other university programs in education. Consult with your major advisor or with the Director of Undergraduate Studies in English. Education students who are required to complete another approved concentration in a basic academic discipline, must fulfill the following requirements (18 credits) for a second academic concentration in English.

* Students cannot apply both ENG 390 and ENG 391 to the minor.

** With approval of the specific topic by the English Department Director of Undergraduate Studies.

1 Additional English Courses may be included for this category by approval of the Director of Undergraduate Studies.
Creative Writing, M.F.A.

The M.F.A. in Creative Writing, one of the oldest and most prestigious programs of its kind in the nation, is offered to a limited number of students with superior ability in writing original works of poetry or fiction. The program requires 36-48 credit hours and permits students to develop particular talents in small classes and in conferences with writers in residence and distinguished visiting writers. The best student work may be published in *The Greensboro Review*. The most talented students are considered for fellowships as well as research and teaching assistantships. The M.F.A. is a residency program for full-time students.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a writing sample by January 1 to be considered for Fall admission.

** May be a novel, a collection of short stories, or a volume of poetry.

### Elective Academic Courses

Students may, with permission of the Director of the M.F.A. Writing Program, take 500- and 600-level courses offered by other departments in the College of Arts and Sciences, most often in the departments of Languages, Literatures, and Cultures, Media Studies, and Art.

Students who plan a career in college teaching should take as many courses as possible in literature, criticism, and composition and rhetoric, including ENG 680 Teaching Internships in English.

Students who plan careers in publishing and editing should select courses focusing on contemporary publishing:

</tbody>
</table>

### English, M.A.

The M.A. in English requires 30-36 credit hours and is designed for those planning to pursue a doctorate; to teach in community colleges, technical institutes, or some undergraduate colleges; and to work in non-academic settings. Three plans of study beyond the core requirements are offered:

- Thesis Plan
- Teaching Composition Plan
- Plan of Study for Careers in the Humanities

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a 1-2 page statement of purpose, a writing sample (less than 30 pages), and a current cv or resume.

## Degree Program Requirements

### Required: 30-36 credit hours

No more than three courses at the 500 level may be submitted for the degree. All other work must be at the 600 level and above.

<table>

</tbody>
</table>

* Or ENG 252 U.S. Literature Civil War to the Present
M.A. students in the thesis plan must demonstrate reading knowledge of a foreign language. A level of proficiency in one foreign language, equivalent to completion of the first semester of an intermediate course (such as 203 at UNC Greensboro), must be documented either by previous course work completed during the last five years and approved by the Graduate Program Director, or by course work while enrolled in the M.A. program, or by an appropriate score on a written examination. Because of the language requirement, a minimum of credits is required for the degree: 24 core credits and 6 thesis credits. Native speakers of other languages can demonstrate foreign language proficiency through their graduate course work in English. Students in the M.A. Doctoral Track will ultimately have to fulfill the foreign language requirement for the Ph.D.

Students who have been admitted into the Ph.D. program and/or who have the permission of their thesis committee and the Graduate Program Director may elect to write a two-paper thesis instead of the traditional single-topic thesis. Recommended for those students for whom the M.A. will not be the terminal degree, the two-paper thesis will consist of two graduate papers expanded and revised to publishable quality.

Teaching Composition Plan
A total of 36 credits is required for the degree; the 24-credit core plus 12 thesis credits distributed as follows:

<table>
<thead>

</tbody>
</table>

* Capstone Experience. ENG 622 with approval in advance from the Graduate Program Director.

Accelerated B.A. to M.A. in English
The Accelerated B.A. to M.A. in English requires 30-36 credit hours and is designed for those planning to pursue a doctorate; to teach in community colleges, technical institutes, or some undergraduate colleges; and to work in non-academic settings. Three plans of study beyond the core requirements are offered:

1. Thesis Plan
2. Teaching Composition Plan
3. Careers in the Humanities Plan

Application and Admission
Qualified UNC Greensboro undergraduate students may apply for admission to the Accelerated Master's Program (AMP) in English. A cumulative undergraduate GPA of at least 3.5 based on at least 30 credits earned at UNC Greensboro is required. Applicants must have completed at least 60 credits and may not apply for admission to the AMP before the first semester of the junior year.

English has the following additional requirements for AMP applicants:
At least 15 credits of undergraduate English courses at the 200 level or above, with an earned 3.5 GPA in these courses.
Standard application requirements for the Master of Arts (M.A.) degree program, excluding GRE scores (i.e., undergraduate transcript(s), three letters of recommendation, statement of purpose, writing sample, and resume or cv).

AMP applicants must complete the Accelerated Master’s Program information along with their application for admission to the English M.A. degree program. Students admitted to the AMP program may apply a maximum of 12 credits of graduate-level course work toward completion of both the undergraduate and graduate degrees, provided that they earn a grade of B (3.0) or better in each graduate course and fulfill graduate-level requirements.

Courses
Up to, but not more than, 12 credits of graduate courses may be double-counted. For a course to apply toward both degrees, the student must earn a grade of B (3.0) or better in the course and fulfill graduate-level requirements.

The M.A. degree requires 30-36 credit hours of graduate-level course work. If the maximum of 12 credits is double-counted toward both the
undergraduate and graduate degrees, the student must complete a minimum of 18 credits of further graduate-level course work to complete the M.A. degree. No more than 9 credits at the 500 level may be counted toward the M.A. degree. Please see the University Catalog for a full description of the M.A. degree requirements.

The following courses have been identified as those that may be counted toward the B.A. and M.A. degrees. These courses have been chosen because they are well suited to AMP students and because they are offered frequently enough to provide students substantial opportunity to enroll in them. All courses that lead to the completion of the M.A. degree must be approved by the Graduate Program Director.

The following courses may be counted toward both the bachelor and master's degrees:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 549</td>
<td>The Critical Canon and Contemporary Issues</td>
<td>3</td>
</tr>
<tr>
<td>ENG 601</td>
<td>English Studies: Content, Methods, and Bibliography</td>
<td>3</td>
</tr>
<tr>
<td>ENG 642</td>
<td>Topics in Pre-1800 Literature *</td>
<td>3</td>
</tr>
<tr>
<td>ENG 664</td>
<td>Topics in Post-1800 Literature *</td>
<td>3</td>
</tr>
</tbody>
</table>

* May be repeated twice for credit when topic or instructor varies.

Please consult with an advisor to determine how the courses taken at the graduate level will meet requirements in the bachelor's degree program. All degree requirements for the M.A. in English will remain the same.

**M.A. Doctoral Track**

Individuals intending to continue on to doctoral studies in English at UNC Greensboro may apply to the M.A. Doctoral Track which offers exceptionally well-qualified applicants the opportunity to gain admission to the master's and doctoral programs simultaneously. This program is designed for students who would like to obtain their M.A. and then proceed directly to the Ph.D. program. Students accepted into the Doctoral Track must fulfill all requirements for the M.A. and the Ph.D. and will earn both degrees. Students not accepted into the M.A. Doctoral Track may still be accepted into the M.A. only.

**Ph.D. Track**

Students who enter with an M.A. in English are required to earn a minimum of 27 credit hours, fulfill the foreign language requirement, pass the preliminary comprehensive examination, and successfully defend their dissertations. Students entering with other advanced degrees will have their transcripts individually evaluated by the Graduate Program Director to establish the minimum course work required.

**Degree Program Requirements**

**Required: 42-48 credit hours**

No more than three courses at the 500 level may be submitted for the degree. All other work must be at the 600 level and above.

**Required Core Courses (9-12 credits)**

All students have three course requirements in their doctoral program, and all are taken as a part of the 27-credit plan of study. The course requirements are based on the student's declared primary area of specialization from the following options:

**Area of Specialization**

- Old and Middle English Literature
- Renaissance/Early Modern Literature
- Restoration and Eighteenth-Century Literature
- Nineteenth-Century British Literature
- Post-1900 British and Anglophone Literature
- Postcolonial and World Literatures and Theory
- American Literature Before 1900
- American Literature After 1900
- Native American Literature
- African American Literature
- History and Theory of Rhetoric
- History and Theory of Writing Studies
- Literary Theory

If a student's specialization is in literature before 1800, the course requirements are:

- 2 courses in literature after 1800
- 1 course in rhetoric, writing studies, or literary theory

If a student's specialization is in literature after 1800, the course requirements are:

- 2 courses in literature before 1800
- 1 course in rhetoric, writing studies, or literary theory

If a student's specialization is in history and theory of rhetoric, the course requirements are:

**M.A. Doctoral Track**

Individuals intending to continue on to doctoral studies in English at UNC Greensboro may apply to the M.A. Doctoral Track which offers...
• 1 course in literature
• 1 course in language (ENG 513), literacy (ENG 590 [inactive]), research (ENG 601, ENG 602), or publishing (ENG 620, ENG 621 [inactive]), or an additional literature course.
• 1 course in literary theory

If a student’s specialization is in history and theory of writing studies, the course requirements are:

• 1 course in literature
• 1 course in language (ENG 513), literacy (ENG 590 [inactive]), research (ENG 601, ENG 602), or publishing (ENG 620, ENG 621 [inactive]), or an additional literature course.
• 1 course in literary theory

If a student’s specialization is in literary theory, the course requirements are:

• 1 course in literature before 1800
• 1 course in literature after 1800
• 1 course in rhetoric or writing studies

In addition, all graduate teaching assistants are required to take ENG 747 Teaching College Writing. This course does not fulfill a doctoral course requirement but may be included in the plan of study.

Electives (15-18 credits)
For the remaining credits of electives, students should choose from the graduate offerings that will help them specialize in their primary and secondary areas in English and in supporting fields. These courses, selected in consultation with the Graduate Program Director and the student’s advisory committee, should form a coherent plan to prepare the student in the areas of specialization.

Dissertation (15-21 credits)

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 799</td>
<td>Dissertation</td>
<td>15-21</td>
</tr>
</tbody>
</table>

A dissertation demonstrates ability to do original research and to present this investigation in an orderly, exact, and complete manner.

Minor in a Supporting Field
With the approval of the student’s advisory/dissertation committee and the Graduate Program Director, students may use their electives and additional courses toward achieving a minor in certain supporting fields outside of English. A minor consists of at least 12 credits of advanced work in a single cognate subject. All course work applied toward the minor must be approved by the Graduate Program Director.

Required Milestones*
• Residency (Immersion)
• Plan of Study
• Foreign Language Requirement
• Comprehensive Exam (Written & Oral)
• Dissertation Proposal
• Admission to Candidacy
• Dissertation Defense
• Filing the Final Approved Dissertation

* General information about milestones for doctoral programs is available in Section III (p. 807) of the Graduate Policies (p. 788) page in the University Catalog. For information about how milestones are accomplished for a specific program, please refer to the doctoral program’s handbook.
Geography, Environment, and Sustainability

College of Arts and Sciences

237 Graham Building
336-334-5388
http://ges.uncg.edu/

Corey M. Johnson, Department Head
Dan Royall, Associate Department Head
Jay Lennartson, Director of Undergraduate Studies
Rick Bunch, Graduate Program Director
Aaron S. Allen, Director of Environment and Sustainability Program

Mission Statement

The mission of the Department of Geography, Environment, and Sustainability is to advance understanding of the interconnected natural and human worlds through our interdisciplinary research, teaching, and service. GES is a student-centered department with a commitment to rigorous classroom instruction and providing opportunities for field-based inquiry. Our faculty are leaders in their fields who translate their expertise into cutting-edge applied and theoretical teaching and research in our undergraduate, masters and doctoral programs. We prepare students for a wide range of careers and advanced research fields including sustainability, physical geography, urban planning, Geographic Information Science (GISc), and environmental fields.

GES believes that our work can and should contribute to a more just, equitable, and sustainable world. We affirm UNC Greensboro’s commitment to equal opportunity in education and employment for all persons and actively seek to increase representation from historically underrepresented groups. We acknowledge that fields of study represented in GES historically have struggled to attract students and faculty from diverse backgrounds and that the current makeup of GES does not mirror the diversity of UNC Greensboro. We therefore seek to create spaces that are welcoming of diversity in many forms, including race, religion, gender identity, sexual orientation, geographic origin, immigration status, socioeconomic background, political beliefs, veteran status, disability, family status, and age.

About

The Department of Geography, Environment, and Sustainability offers curricula with three principal objectives: to promote the understanding of the locational dimensions of human behavior in their environmental context; to offer courses of study through which concepts and methods are applied to understanding economic, environmental, and social problems at the local, regional, and global scales; and to promote sustainability through the interconnected lenses of social equity, the environment, economy, and aesthetics. Thus, the Department contributes an important dimension to the university student’s liberal education and provides practical training in important contemporary areas of concern as well as the background appropriate for certain vocations.

Graduates of geography programs have found careers in business and industry, in urban and regional planning agencies, in departments of federal and state governments, and in teaching. Job titles include city or regional planner, cartographer, demographer, resource analyst, land or economic developer, location analyst, and teacher. Many graduates find that an undergraduate degree in geography is an excellent foundation for advanced graduate work or professional training in planning, business, or law.

Graduates of environmental and sustainability programs go on to careers in non-profits, government, and the private sector as well as to graduate studies in a variety of disciplines. Career paths are numerous and include advocacy, agriculture, business, design, education, enforcement, journalism, law, nature and land protection, organizing for social and environmental justice, tourism and recreation, etc. Our students come from diverse backgrounds, participate regularly in internships and study abroad, and benefit from personalized advising.

Special facilities of the department include fully equipped laboratories in computer cartography, geographic information systems, remote sensing, and physical geography. The Department has led annual credit-bearing field courses since the early 1980s.

Graduate Programs

The Department of Geography, Environment, and Sustainability offers a M.A. in Applied Geography, a M.S. in Environment and Sustainability, a Ph.D. in Geography, a Post-Baccalaureate Certificate in Global and Regional Studies Geography, a Post-Baccalaureate Certificate in Conservation, and a Post-Baccalaureate Certificate in Sustainability. The department also offers a a Post-Baccalaureate Certificate in Urban and Economic Development jointly with the Department of Political Science; for more information, see the program page at https://catalog.uncg.edu/arts-sciences/political-science/urban-economic-development-pbc/. The programs focus on the application of theory and methods in geography toward the understanding of problems related to economic development, environmental quality, population change, and social well-being in urban, rural, regional, and international contexts.

Environment and Sustainability Program

Aaron S. Allen, Director and Honors Program Liaison

The Environment & Sustainability Program is an interdisciplinary program that fosters understanding of the relationships between human societies and the natural, physical, and biological settings in which life on Earth exists. Our graduate degree (M.S.), two undergraduate majors (B.A.), and two minors all integrate perspectives of the natural sciences, social sciences, and arts and humanities.

The Program degrees build on the unique definition of sustainability at UNC Greensboro (http://sustainability.uncg.edu), where “Academics, operations, and outreach are conducted with careful attention to the enduring interconnectedness of social equity, the environment, the economy, and aesthetics.” Our degrees require electives in each of those four areas: natural sciences, equity and society, development and economics, and ethics and aesthetics.

Students work with diverse faculty and staff from across campus and community (1) to learn how to gather and integrate information about environmental and sustainability problems from multiple disciplines, (2) to think critically about the causes of environmental and sustainability problems, (3) to propose effective solutions and evaluate their strengths and weaknesses, and (4) to communicate their ideas clearly. Our students come from a variety of backgrounds and are eligible for internships and study abroad, and all receive expert advising from Program faculty. Graduates will be well prepared for roles as educated citizens who are especially well informed about the environment and for numerous career
paths that require a broad range of knowledge about environmental and sustainability issues.

**Overall Requirements**

- 120 credit hours, to include at least 36 credits at or above the 300 course level
- A minimum of 65 credits toward the major, comprised of core courses (37 credits) and concentration-specific options (28 credits).
- Only grades of C- or higher will count toward completion of the required core courses in the major as well as BIO 105/105L, BIO 111/111L, and BIO 112/112L used toward completion of the concentration requirements.

**Concentrations**

Students must select one of the concentrations as detailed following the major requirements.

- Natural Sciences
- Equity, Development, and Ethics

**Electives**

Electives sufficient to complete the 120 credit hours required for degree.
Natural Sciences Concentration Requirements

In addition to the required 28 credits of Options and Electives specified below, all students in the Natural Sciences concentration are required to have a minor in Biology. All courses in the Biology minor already on the Environmental Science Options and Elective lists below will count toward the requirements for the Natural Sciences concentration.

A grade of C- or higher is required in BIO 105/105L, BIO 111/111L and BIO 112/112L.

Equity and Society

Select 3 credits from the following:

- ATY 362 Methods in Cultural Anthropology
- ATY 377 Disaster, Self, and Society
- ATY 420 Economic Anthropology

Development and Economics

Select 3 credits from the following:

- BUS 130 Entrepreneurship in a Sustainable Global Environment
- BUS 340 Social Entrepreneurship
- ENT 440 Experiences in Sustainable Entrepreneurship
- ECO 100 Economics of a Global Sustainable Society
- STH 200 Introduction to Sustainable Development
- STH 311 Sustainable Food and Craft Beverage
- STH 312 Hospitality Facilities Management
- STH 331 Sustainable Tourism and Transportation
- STH 332 Sustainable Destination and Experience Management

Ethics and Aesthetics

Select 3 credits from the following:

- ARE 260 Art, Education, and Social Practice
- CST 420 Environmental Communication
- ENG 380 Literature and the Environment
- IAR 124 Introduction to Sustainable Design
- LLC 130 Global Green: Cultures of Production and/or Consumption
### Equity, Development, & Ethics Concentration Requirements

A grade of C- or higher is required in BIO 105/BIO 105L, BIO 111/BIO 111L, and BIO 112/BIO 112L.

**6 credits of Honors course work in the major**

**3 credits of Honors course work in the major or another area**

### Recognition

Receive a Certificate of Disciplinary Honors in Environment and Sustainability Studies; have that accomplishment, along with the title...
of the Senior Honors Project, noted on the official transcript; and be recognized at a banquet held at the end of the spring semester.

Honors Advisor
Contact Aaron Allen at asallen@uncg.edu for further information and guidance about Honors in Environment and Sustainability Studies. To apply: http://honorscollege.uncg.edu/forms/disc-application.pdf

Geography, B.A.

Students may elect a general geography major or they may complete additional courses for a concentration in Urban Planning, Earth Science, or Geographic Information Science. Students may also complete a major in Geography with Social Studies High School Teaching Licensure.

Student Learning Goals
Students completing this major are expected to demonstrate a basic competence in earth science, human geography, and regional geography. In addition, they are expected to be able to successfully investigate geographic problems using the current research techniques and methodologies of the discipline and to clearly and effectively express their findings in both written and oral form.

Overall Requirements
- 120 credit hours, to include at least 36 credits at or above the 300 course level
- A minimum of 27 credits in geography above the 100 level. Only grades of C- or higher will count toward completion of the major and concentrations.
- No more than 6 credit hours from GES courses numbered 160-170 and 360-400 may be applied to the major.

Human Geography

Select one of the following:
- GES 105 Introduction to Human Geography
- GES 301 Cities of the World
- GES 302 Urban Geography: Sustainable Land Use
- GES 303 World Population Problems
- GES 304 Sustainable Transport and Mobility
- GES 306 World Economic Geography
- GES 315 The Geography of World Affairs

Regional Geography

Select one of the following:
- GES 102 The Historical Geography of the Western World
- GES 104 World Regional Geography
- GES 313 Natural Resource Regions of North America
- GES 333 Geography of Europe
- GES 340 Geography of East Asia
- GES 344 Geography of the United States and Canada
- GES 491 Current Topics in Regional Geography
- GES 451 Seminar in Regional Geography

Optional Concentrations

Any of the optional concentrations as detailed following the major requirements may be added, but a concentration is not required.

- Earth Science
- Geographic Information Science
- Urban Planning

Electives

Electives sufficient to complete the 120 credit hours required for degree.

Earth Science Concentration Requirements

A central theme of geography is human interaction with the earth’s physical environment. This concentration permits students to apply the basic scientific principles of physical geography, cartography, and natural resource analysis to the problem of ensuring a high quality of life through maintenance of the natural processes that support human existence. This concentration also provides training to enhance the employment opportunities of students with a strong interest in environmental assessment and resource evaluation.

- Geographic Information Science Concentration Requirements

Students with this concentration will develop skills in using maps, geospatial computer programs, and remotely sensed images to answer geographic questions relevant to land use planning, urban development, geomorphic or biogeographic processes, or environmental impact assessment. A capstone course (GES 421), which includes a faculty-directed major project, is completed in the final semester.

- Geography as a Second Major

- Minimum of 27 credit hours

A student may obtain a second major in geography along with any other major. The student should take 27 credits, including four core courses listed above for the Geography Major. Students considering this option should consult a faculty member in the department.

- Disciplinary Honors in Geography

**Requirements**

- A minimum of 12 credit hours as defined below.
- UNC Greensboro cumulative GPA of 3.30 or better or, for transfer students, cumulative GPA of 3.30 or better from all prior institutions.

**Recognition**

Receive a Certificate of Disciplinary Honors in Geography; have that accomplishment, along with the title of the Senior Honors Project, noted on the official transcript; and be recognized at a banquet held at the end of the spring semester.

**Honors Advisor**

Contact Jay Lennartson at gjlennar@uncg.edu for further information and guidance about Honors Geography. To apply: http://honorscollege.uncg.edu/forms/disc-application.pdf

- Accelerated B.A. to M.A. in Applied Geography

**Application and Admission**

Qualified UNC Greensboro undergraduate students who are pursuing the B.A. in Geography may apply for admission to the Accelerated Master's Program (AMP). A cumulative undergraduate GPA of at least 3.5 based on at least 30 credits earned at UNC Greensboro is required. Applicants must have completed at least 60 credits and may not apply for admission to the AMP before the first semester of the junior year. Applicants will not be required to take the GRE. All applicants must complete the Accelerated
Master’s Program information along with their application for admission to the graduate degree program.

**Courses**

Admitted students may apply a maximum of 12 credits of graduate-level course work from the following course list toward completion of both the undergraduate and graduate degree, provided they earn a grade of B (3.0) or better in each course and fulfill graduate-level requirements:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GES 602</td>
<td>Sustainable Urban Planning in an Entrepreneurial Environment</td>

<td>3</td>
</tr>
</tbody>
</table>

Please consult with an advisor to determine how the courses taken at the graduate level will meet requirements in the bachelor's degree program. All degree requirements for the B.A. and M.A. degree in Geography remain the same.

**Geography, B.S.**

**Overall Requirements**

- 120 credit hours, to include a minimum of 36 credits at or above the 300 course level
- 64-78 credits from the major plus electives, with 12-24 credit hours of electives in each concentration.
- A minimum of 27 credits in geography above the 100 level. Only grades of C- or higher in GES courses will count toward completion of the concentration.

**Degree Program Requirements**

**University Requirements (p. 771)**
**General Education Requirements (MAC) (p.  )**
**College of Arts and Sciences Additional Requirements (CIC) (p. 289)**

**Major Requirements**

Select one of the concentrations as detailed following the major requirements.

- Earth Science
- Geographic Information Science (GIS)
- Urban Planning

**Electives**

Electives sufficient to complete the 120 credit hours required for the degree.

**Earth Science Concentration Requirements**

A central theme of geography is human interaction with the earth’s physical environment. This concentration permits students to apply the basic scientific principles of physical geography, cartography, and natural resource analysis to the problem of ensuring a high quality of life through maintenance of the natural processes that support human existence. This concentration also provides training to enhance the employment opportunities of students with a strong interest in environmental assessment and resource evaluation.

Only grades of C- or higher in GES courses will count toward completion of the concentration.

### Geography, Secondary Education, B.A.

#### Student Learning Goals

Students completing this major are expected to demonstrate a basic competence in earth science, human geography, and regional geography. In addition, they are expected to be able to successfully investigate geographic problems using the current research techniques and methodologies of the discipline and to clearly and effectively express their findings in both written and oral form.

#### Overall Requirements

- 120 credit hours, to include at least 36 credits at or above the 300 course level
- A minimum of 27 credits in geography above the 100 level. Only grades of C- or higher will count toward completion of the major and concentrations.

Please consult with an advisor to determine how the courses taken at the graduate level will meet requirements in the bachelor's degree program. All degree requirements for the B.A. and M.A. degree in Geography remain the same.

Environment Undergraduate Minor

Program Requirements

- Minimum of 21 credit hours
- Minimum grade of C- required in Core Courses
- Major in any field except B.A. in Environment & Sustainability

### Core Courses

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GES 164</td>
<td>Introduction to Environment</td>
<td></td>
</tr>
<tr>
<td>GES 162</td>
<td>Introduction to Sustainability</td>
<td></td>
</tr>
<tr>
<td>GES 488</td>
<td>Topics in Environmental Sciences</td>
<td></td>
</tr>
</tbody>
</table>

Select from the following Options lists below: 3 credits in Environmental Science, 3 credits in GES 486 or Equity & Society, 3 credits GES 484 or Development & Economics, and 3 credits in GES 482 or Ethics & Aesthetics.

*In addition, either GES 260, GES 462, GES 464, or any Core Course or Option approved for inclusion in the B.A. in Environment & Sustainability could be substituted with Program Director's approval.

Geography Undergraduate Minor

Any six courses (18 credit hours) constitute a minor, but the suggested course sequences in the Requirements tab will be of interest to certain students pursuing specific majors and with certain career objectives such as planning, environmental conservation, or business.

Program Requirements

- Minimum of 18 credit hours
- No credit hours from GES courses numbered 160-170, and 360-400 may be applied towards the Geography Minor.

General Geography Minor

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

### Geography Second Academic Concentration

The second academic concentration in Geography is designed specifically for Elementary Education Majors.

**Requirements**

- Minimum of 18 credit hours

**Core Courses**

12

Select one of the following:

- GES 121 Introduction to Geographic Information Science
- GES 322 Research Methods in Spatial Science
- GES 357 Principles of Cartography
- GES 358 Geographic Information Systems
- GES 359 Remote Sensing of Environment

Select one of the following:

- GES 103 Introduction to Earth Science
- GES 106 Our Dynamic Planet & GES 103L and Earth Science Laboratory

Select one of the following:

- GES 105 Introduction to Human Geography
- GES 301 Cities of the World
- GES 302 Urban Geography. Sustainable Land Use
- GES 303 World Population Problems
- GES 306 World Economic Geography
- GES 315 The Geography of World Affairs

Select one of the following:

- GES 102 The Historical Geography of the Western World
- GES 104 World Regional Geography
- GES 313 Natural Resource Regions of North America
- GES 344 Geography of the United States and Canada

**Additional Courses**

6

Select any two additional GES courses at the 300 level or higher

### Applied Geography, M.A.

The M.A. in Applied Geography offers three options: a thesis option or an internship option requiring a minimum of 34 credit hours, including a maximum of 6 credits dedicated to thesis or internship work, and a
portfolio option requiring a minimum of 37 credits plus completion of a significant project. The two non-thesis options result in a terminal degree.

The program leads to the acquisition of research skills and expertise appropriate to geographic analysis in a range of related fields including: business site selection, environmental assessment, geographic techniques such as cartography, geographic information systems and remote sensing, transportation planning, as well as urban and regional development. Emphasis is placed in application of theoretical constructs in geography to solve real world problems at a variety of scales from the Triad and state to national and global issues.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a 250-500 word personal statement concerning your interest in geography.

**Degree Program Requirements**

**Thesis Option**

*Required: 34-37 credit hours*

**Formal Review**

- Approval of master’s plan of study
- Assessment of academic performance, which will be determined by the approval of thesis, internship, or professional portfolio proposal
- Final thesis defense, internship presentation, or completion of portfolio

Details concerning specific core requirements, plans of study, theses, internships, and competency portfolios can be obtained from the Graduate Program Director.

**Geosciences Education for Teachers Concentration**

*Required: 38 credit hours*

The Geosciences Education for Teachers concentration is directed towards students and educators interested in expanding their expertise in teaching geosciences. Completing the Master of Arts in Applied Geography with this concentration requires students to combine the core requirements of the M.A. degree with courses emphasizing the knowledge and skills needed to teach geosciences at the middle grades, secondary grades, and community college levels. The required core courses, formal reviews and examinations are the same as for the M.A. in Applied Geography, non-thesis, course work option with a competency portfolio. Within this framework, students will complete 38 credit hours by taking the required courses specified below. Note that GES 650 Applied Physical Geography and GES 651 Seminar in Regional Geography will be field course experiences for the concentration and students will present their portfolios as part of GES 650 and GES 651. (Students’ competency portfolios will be comprised of self-selected geosciences instructional modules designed while students were enrolled in GES 607 Earth Science for Educators, GES 608 Weather and Climate for Educators, GES 609 Hydrology for Educators, GES 610 Physical Geology for Educators, and GES 611 Natural Hazards and Society for Educators.)
The Sustainability concentration in the M.A. in Applied Geography is directed towards students who have an interest in connecting approaches to addressing coupled human environmental problems in the context of broader studies in geography. Students completing this concentration will combine the core requirements of the M.A. in Applied Geography with departmental courses emphasizing interdisciplinary approaches to social and environmental challenges alongside classes from outside the department (chosen in consultation with the advisor). The concentration provides foundational and advanced knowledge and skills necessary for sustainability-related careers in a variety of sectors. The core seminar, GES 662 Sustainability, offers a translational experience around the unique definition of sustainability at UNC Greensboro, where academics, operations, and outreach are conducted with careful attention to the enduring interconnectedness of social equity, environment, economy, and aesthetics.

### Urban Planning and Economic Development Concentration

**Required:** 15 credit hours (for the concentration)

The Urban Planning and Economic Development concentration is directed towards students who have an interest in preserving and enhancing the quality-of-life of urban areas and dealing effectively with growth and development issues. Students completing this concentration will combine the core requirements of the M.A. degree in Applied Geography with courses emphasizing the knowledge and skills required to provide effective leadership in urban and economic development for metropolitan areas. The required core courses, electives, research courses, collateral expertise, and formal reviews and examinations are the same as for the M.A. degree in applied geography. Within this framework, the following 15 credits must be completed:

<table>

### Accelerated B.A. to M.A. in Applied Geography

**Application and Admission**

Qualified UNC Greensboro undergraduate students who are pursuing the B.A. in Geography may apply for admission to the Accelerated Master's...
Program (AMP). A cumulative undergraduate GPA of at least 3.5 based on at least 30 credits earned at UNC Greensboro is required. Applicants must have completed at least 60 credits and may not apply for admission to the AMP before the first semester of the junior year. Applicants will not be required to take the GRE. All applicants must complete the Accelerated Master’s Program information along with their application for admission to the graduate degree program.

Courses
Admitted students may apply a maximum of 12 credits of graduate-level course work from the following course list toward completion of both the undergraduate and graduate degree, provided they earn a grade of B (3.0) or better in each course and fulfill graduate-level requirements:

<table>

Please consult with an advisor to determine how the courses taken at the graduate level will meet requirements in the bachelor's degree program. All degree requirements for the B.A. and M.A. degree in Geography remain the same.

Sustainability and Environment, M.S.

With a focus on the interconnectedness of social equity, the environment, the economy, and aesthetics, the customizable M.S. in Sustainability and Environment is designed for professionals pursuing sustainability in any field. The program is intended for students interested in sustainability-related careers in governmental and non-governmental organizations and the private sector, as well as professionals already working in sustainability or related fields. Students in the program develop skills in critical and systems thinking, problem-solving, communication, and navigating relevant research. Specifically, students are trained in identifying problems and potential solutions; analyzing quantitative data and scientific literature; developing research/business proposals; and effectively communicating through oral, written, and online multimedia formats.

The degree requires 36 credit hours, of which 18 are required core courses (all offered asynchronously online) and 18 are electives chosen in consultation with the advisor. Nine of the elective credits must be interdisciplinary and come from outside the Department of Geography, Environment, and Sustainability (GES). The other nine credits of electives must be from inside GES, including the required final project (either an internship, capstone, or thesis). The M.S. is designed so that it can be completed entirely online; electives may be taken either online or face-to-face. More information is available at https://ges.uncg.edu/msse/.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

Applicants are required to have a bachelor's degree from an accredited college or university or appropriately evaluated credentials for non-U.S. schools. An undergraduate minimum GPA of 3.0 is preferred. GRE scores are optional.

Documents to be submitted for admission:
- Two letters of recommendation
- Resume/c.v.
- Personal statement summarizing student’s background and interests
- Official undergraduate transcripts

Department Electives (9 credits)
Select three courses (9 credits) from GES graduate courses relevant to sustainability and environment

Interdisciplinary Electives (9 credits)
Select three courses (9 credits) from graduate courses outside of GES relevant to sustainability and environment

Final Project
Select one of the following options:
- Internship (3 credits)
- Capstone (3 credits)

Thesis (6 credits)

Total Credit Hours 36

1. As approved by advisor. May include repeats of one or more courses from the Core Courses requirement if the topic varies.
2. As approved by advisor. May include transfer credits.
3. A final project (internship, capstone, or thesis) as approved by the student’s advisor is required and counts as credits towards the Department Electives. The final project satisfies the capstone experience or thesis requirements for master's degrees. Students electing the:
   - Internship option must complete 3 credits in GES 695
   - Capstone option must complete 3 credits in GES 697
   - Thesis option must complete 6 credits in GES 699
Electives
The department and interdisciplinary electives will be customized with the student based on interests and professional needs in one of four focus areas:

- Natural Sciences (courses from e.g. biology, chemistry, physics, mathematics, geography, etc.)
- Equity and Society (courses from e.g. policy, sociology, history, women's and gender studies, African and African Diaspora Studies, geography, etc.)
- Development and Economics (courses from e.g. business, economics, sustainable tourism, etc.)
- Ethics and Aesthetics (courses from e.g. philosophy, literature, art, music, theater, dance, etc.)

Geography, Ph.D.
The Ph.D. in Geography is an innovative program centered on the research-oriented application of geographical concepts and theories to the solving of real-world problems. The program requires 45-54 credit hours.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a 250-500 word personal statement.

Degree Program Requirements
Required: 45-54 credit hours

At least 27 of the 33 credits in required core and cluster courses (excluding dissertation) must be at the 600 level or higher. Up to 9 credits of course work may be transferred from another institution on approval of the department.

Required Milestones*
- Diagnostic Exam
- Residency (Immersion)
- Plan of Study
- Research Competency
- Comprehensive Exam (Written & Oral)
- Dissertation Proposal
- Admission to Candidacy
- Dissertation Defense
- Filing the Final Approved Dissertation

* General information about milestones for doctoral programs is available in Section III (p. 807) of the Graduate Policies (p. 788) page in the University Catalog. For information about how milestones are accomplished for a specific program, please refer to the doctoral program's handbook.

Conservation, Post-Baccalaureate Certificate
The Post-Baccalaureate Certificate in Conservation provides foundational and advanced knowledge and skills necessary for transitioning to conservation-related careers in governmental and non-government organizations and the private sector. The curriculum includes the student's choice of a selection of conservation-focused classes from the Department of Geography, Environment, and Sustainability (GES) and the Department of Biology.

The core courses are part of the M.S. in Sustainability and Environment and provide a strong interdisciplinary foundation in UNC Greensboro's approach to sustainability, which is conducted with careful attention to the enduring interconnectedness of social equity, the environment, the economy, and aesthetics. More information is available at https://ges.uncg.edu/msse/.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

Undergraduate degree in any field, with a demonstrable interest in conservation and with pre-requisites necessary for advanced course work in Geography and Biology.

Global and Regional Studies Geography, Post-Baccalaureate Certificate

The Post-Baccalaureate Certificate in Global and Regional Studies Geography emphasizes knowledge and skills needed to prepare students to work in positions in government, international business, and global non-profit organizations. Courses focus on the contemporary political economy of countries in various global regions from East Asia to Europe.

The program requires 18 credit hours of course work (15 credits of core courses and 3 credits of approved elective courses).

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

Sustainability, Post-Baccalaureate Certificate

With a focus on the interconnectedness of social equity, the environment, the economy, and aesthetics, the Post-Baccalaureate Certificate in Sustainability provides foundational and advanced knowledge and skills necessary for transitioning to sustainability-related careers in a variety of sectors from sciences to the arts, from business to education, and from governmental to non-governmental organizations.

In addition, the P.B.C. in Sustainability is a direct pathway into the M.S. in Sustainability & Environment (all courses from the P.B.C. count toward the M.S. subject to the policies of The Graduate School). The curriculum includes two required core classes and the student’s choice of a selection of sustainability classes in the Department of Geography, Environment, and Sustainability. The student may choose, in consultation with the advisor, up to two sustainability-relevant classes from other departments at UNC Greensboro. The core classes focus on developing conceptual knowledge and cultivating transferable skills for applications of sustainability. More information is available at https://ges.uncg.edu/msse/.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

History

College of Arts and Sciences

2129 Moore Humanities and Research Administration
336-334-5992
http://his.uncg.edu

Greg O'Brien, Department Head
Mark Elliott, Associate Department Head
Jamie Anderson, Director of Undergraduate Studies
Jill Bender, Graduate Program Director
Anne Parsons, Director of Public History and Graduate Program Director, Museum Studies

The Department of History offers a program which has four principal objectives:

1. to provide a general knowledge of the history of the United States, Europe, and the wider world (as we have defined our fields of concentration);
2. to teach students to think and read critically and thereby to develop the ability to analyze historical documents and to appreciate the nature of historical interpretations;
3. to improve students' ability to communicate both orally and in writing; and,
4. to foster the ability to conduct historical research.

The Department offers a broad spectrum of courses in U.S., European, and wider world history; in the ancient, medieval, and modern periods; in social, cultural, political, economic, intellectual, military, and diplomatic history; the history of science; and in a variety of special topics including gender, sexuality, witchcraft, and terrorism.

The History Major prepares students for career opportunities in a wide range of employment, where liberally educated minds can be turned to fruitful account. It offers an excellent general background for later, more specialized studies in fields such as law and journalism. A number of history majors go on to work in public service at the local, state, and federal levels or find employment in those areas of the private sector where a premium is put on a sound general education. Finally, many history majors employ their skills more directly: in the teaching profession (from the primary through graduate school levels), in museums and archives, or in the expanding field of historical preservation work.

The department offers programs leading to the Bachelor of Arts degree in history, a M.A. in History, a M.A. in History with a Museum Studies concentration, and a Ph.D. in history. The Public History Program (Museum Studies) works in partnership with the Department of Interior Architecture, cross-listing many core classes. Classes in each of our programs are generally small and, through an intensive mentoring program, faculty-student interaction has become a hallmark of graduate study in the department.

Although the department does not formally restrict admission to its courses with regard to level, it recommends its 300-level courses to sophomores and above and its 400-level courses to juniors and seniors.

Recognition

Receive a Certificate of Disciplinary Honors in History; have that accomplishment, along with the title of the Senior Honors Project, noted on the official transcript; and be recognized at a banquet held at the end of the spring semester.

Honors Advisor

See Lisa Tolbert at lctolber@uncg.edu for further information and guidance about Honors in History. To apply, http://honorscollege.uncg.edu/forms/disc-application.pdf

History, Secondary Education, B.A.

Overall Requirements

- 122 credit hours, to include at least 36 credits at or above the 300 course level
- Minimum 30 credits above the 100 level. The department divides its undergraduate offerings into three fields: Western Europe, United States, and the Wider World. The minimum of 30 credits must include courses as provided below.
- History majors must maintain a cumulative grade point average of at least 2.0 in history courses to qualify for a degree in History.

<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

#### 200-Level Courses
- Select 3 credits from Field I: Western Europe at the 200 level *
- Select 3 credits from Field II: United States at the 200 level *
- Select 3 credits from Field III: Wider World at the 200 level *

#### 300-Level Courses
- Select 3 credits from Field I: Western Europe at the 300 level *
- Select 3 credits from Field II: United States at the 300 level *
- Select 3 credits from Field III: Wider World at the 300 level *

#### 400-Level Courses
- HIS 430 Historical Methods for Social Studies Teachers **
  Select 9 credits at the advanced (400) level, which must include one of the following:
  - HIS 411A Seminar in Historical Research and Writing
  - HIS 411B Seminar in Historical Research and Writing
  - HIS 411C Seminar in Historical Research and Writing

### Courses by Field

To ensure that each major has breadth in his or her program, of the 30 credit hour minimum, a student must take at least 6 credits from each of the three fields (Western Europe, United States, Wider World). In addition, at least 3 credits of the 6 credits from each of the three fields must be at the intermediate (300) or advanced (400) level.

### Related Area Requirements

Because history is closely related to many other disciplines, we strongly recommend that history majors consult their advisors about using their liberal education requirements and electives to build a coherent series of related courses. Students interested in the various national histories may wish to pursue language and literature courses in the same area; students interested in social and institutional history may wish to pursue courses in the social sciences such as anthropology, sociology, political science, and economics; students interested in cultural and intellectual history will profit by work in philosophy, religious studies, and art and music history.

### Teacher Licensure Requirements

The courses listed below satisfy competencies for the Standard Professional I License in Secondary Social Studies.

**Strongly Recommended**

LIS 120 Introduction to Instructional Technology for Educational Settings

*Note that some courses identified below may have prerequisites and many satisfy general education requirements.

**This course serves as a prerequisite for other courses for History, Secondary Education majors.
The M.A. in History offers excellent preparation for those planning to teach history at community colleges and secondary schools and provides a solid foundation for those who go on to Ph.D. programs or who find employment in government and business. The M.A. improves analytic, research, and writing skills.

The M.A. in History with a concentration in Museum Studies requires 36 credit hours. The program provides graduate-level preparation in the core history program and grounding in the theory and practice of public history. Through mentorship, significant hands-on training, and an internship program, students are prepared to enter the professional world of public history in museums, historic sites, and other venues.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit:

- Personal Statement
- Resume
- Three Letters of Recommendation
- 15-page Writing Sample

Qualified applicants must present an approved undergraduate background (though not necessarily a major) in History. At least 9 credit hours of advanced undergraduate history is required.

### History Second Academic Concentration for Special Education: General Curriculum, B.S.

</table>

Select 12 credits of which two courses are at the 200 level and two courses are at the 300 level

### Language Requirement

Many areas of historical research require proficiency in a foreign language. Students who intend to concentrate in such areas are encouraged to pass the written language examination, administered by the department. In lieu of the language examination, students may substitute an extra 3-credit course. Students who intend to pursue a Ph.D., especially in areas other than U.S. history, are strongly encouraged to pass the language examination. Students may retake a failed language exam.

### Comprehensive Examination

Students will develop three fields of study based upon the specializations of their three-member faculty committee. If a student selects a faculty member whose specialization is in U.S. history as main advisor, then at least one of the committee members must be a specialist in a non-U.S. field. If a student selects a faculty member whose specialization is in European history as main advisor, then at least one of the committee members must be a specialist in a non-European field. Similarly, if a student selects a faculty member whose specialization is outside United States or European history, at least one of the committee members must come from either U.S. or European history. Some faculty members may require that students have completed at least one course with them before agreeing to serve on a committee; students should consult with prospective committee members early in their graduate career. A faculty member from another UNC Greensboro department or program who has
graduate faculty status can serve on a M.A. committee and create a field of study.

All students must pass a written comprehensive examination in each of their three fields of study. The exams are usually administered twice a year, during Fall and Spring. Students may retake a failed comprehensive exam once.

**Research Seminars Capstone Experience**

Students may take HIS 703 M.A. Research Project I/HIS 704 M.A. Research Project II or have the option of completing a 6-credit thesis (HIS 699 Thesis), with the approval of the main faculty advisor and the Graduate Program Director. Students will present the findings of their research at a History Department Graduate Conference.

**Museum Studies Concentration**

**History, Ph.D.**

The Ph.D. in history prepares students to teach and conduct research in American history and to understand it within an expanded global perspective. Students are required to integrate the major field with a minor field outside of U.S. history. This broader intercontinental perspective enables students to explore themes such as the interaction of political, economic and cultural systems, questions of race and ethnicity, and the transnational dimensions of national experience. This global perspective is encouraged by providing a selection of courses that are cross-national, comparative, and integrative in content and format.

Students are encouraged to enlarge their perspective by understanding and analyzing national history in broader, international contexts. This goal is facilitated in two ways: first, a close integration of the minor into the major area; second, a selection of courses that are cross-national and integrative in format.

In a setting of relatively small classes, individualized research projects, and frequent contact with faculty, students are trained in the arts of scholarly research and writing. No less is the emphasis placed on fostering teaching skills. Through a required teaching seminar, hands-on teaching experience, and careful mentoring, students are prepared for teaching in a college or university environment.

A total of 45-72 credit hours of course work and dissertation credit, including a minimum of 33-39 credits of course work beyond the M.A. in history and a minimum of 12 credits of dissertation credit, are required to complete the Ph.D. in history. Upon entering the program, all students will develop a Plan of Study with the approval of the Graduate Program Director.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a writing sample and a personal statement to be considered for admission.

The Ph.D. program admits only a few highly-qualified students each year. To enroll in the program, students must first obtain a M.A. in History, as well as a B.A. in History or a closely-related field.

**Degree Program Requirements**

Additional Minor in Public History

With the approval of the students' advisory/dissertation committee and the Graduate Program Director, doctoral students may undertake a second minor field in Public History (in addition to a first minor field in World History). The Public History Minor will consist of two required courses HIS 631 Digital History and HIS 627 Museum and Historic Site Interpretation: Principles and Practice and one elective course for a total of 9 credits. The elective may be chosen from the following courses (or other public history offering with approval of the Graduate Program Director):

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIS 547</td>
<td>History Museum Curatorship: Collections Management</td>
<td>3</td>
</tr>
<tr>
<td>HIS 629</td>
<td>Museum Education</td>
<td>3</td>
</tr>
<tr>
<td>HIS 690</td>
<td>Internship</td>
<td>3</td>
</tr>
</tbody>
</table>

All course work applied toward the minor must be approved by the Graduate Program Director and listed on the student's Plan of Study. Course work for the Public History Minor may be carried out simultaneously with HIS 750 PhD Readings Course and HIS 751 PhD Dissertation Proposal Course since this field will not be included as part of Ph.D. comprehensive examinations.

Faculty Mentor

A mentor must be named after 9 credits of course work. Normally, the mentor will be the graduate faculty member in the Department whose research and teaching interests most closely correspond to those of the student. Prospective mentors must agree to serve on the committee. Mentors will be responsible for the pedagogical, scholarly, and professional development of their students during their program of study, will chair their Doctoral Advisory/Dissertation Advisory Committee, and will direct the student's dissertation.

Permission to Proceed and Grade Point Average (GPA)

All students in the Ph.D. program must obtain "permission to proceed" at the end of their first year of courses (normally 18 credits). This permission is granted by a collective decision of the Doctoral Advisory/Dissertation Advisory Committee and the departmental Graduate Committee.

Students must maintain a 3.5 GPA to proceed to the writing of the dissertation.

Required Milestones*

- Residency (Immersion)
- Plan of Study
- Foreign Language Requirement
- Comprehensive Exam (Written & Oral)
- Dissertation Proposal
- Admission to Candidacy
- Dissertation Defense
- Filing the Final Approved Dissertation

* General information about milestones for doctoral programs is available in Section III (p. 807) of the Graduate Policies (p. 788) page in the University Catalog. For information about how milestones are accomplished for a specific program, please refer to the doctoral program's handbook.
Interior Architecture

College of Arts and Sciences

102 Gatewood Studio Arts Building
336-334-5320
https://iarc.uncg.edu

Lucinda Havenhand, Department Head
Maruja Torres, Director of Undergraduate Studies
Amanda Gale, Graduate Program Director

About

Interior Architecture is a holistic and integrative practice dedicated to the design and making of interior environments that support the human experience. As a discipline, Interior Architecture interweaves the arts and the sciences, discipline, both mutually informing and connecting with the allied disciplines of interior design, architecture, historic preservation, engineering, and graphic, industrial, and product design.

Becoming an Interior Architecture designer requires devotion, passion, and a fundamental interest in human and environmental relationships. Our curriculum focuses on the understanding and application of design composition and visual representation; design history and theory, placemaking, and the transactions between society and the environment; sustainable design and interior architecture materials; interior construction, building systems, light and sound; and professional practice and experience. Instruction in these areas fosters the development of comprehensive design skills and knowledge while converging with general education requirements at UNC Greensboro to prepare the student for a successful career in designing interiors.

Mission Statement

Students and faculty engage in regional, national, and international design discourses, practices, and processes to unite interior spaces with enclosing architecture and the objects contained within them. M.F.A. students are expected to engage in design discourse, problem-solving, and research to develop a body of work anchored in our values of promoting ethical, sustainable, inclusive, and meaningful built environments. In addition, we expect that our students display a strong sense of professionalism, are independent and critical thinkers, and examine historical context while adapting to the future by means of intellectually informed and thoroughly articulated designs.

Undergraduate

The Interior Architecture program is structured as a continuing sequence of studio courses that help the student develop a deepening mastery of the processes of designing architectural interiors. The first year presents small-scale problems that take the student through the total design process, from problem identification to graphic communication of the solution. Methods of drawing, making, and craft are emphasized. Second-year design studios focus on the development of interior design skills such as space planning, the satisfaction of human needs, and attention to function within the context of interior spaces. Visual communication skills are stressed. Third- and fourth-year studio courses engage students with typical interior environments, with emphasis on institutional and commercial interiors, but also including residential design, historic restoration, adaptive reuse, and interior product design. Attention is also directed toward the environmental needs of special populations. The Interior Architecture Internship provides opportunities for experiential learning in design practice through private design firms, government agencies, or health care facilities.

Accreditation

The Interior Architecture program is accredited by the Council for Interior Design Accreditation (CIDA).

Departmental Admission

Enrollment in the Interior Architecture program is limited. Students are admitted on evidence of scholastic and design potential, motivation, and self-direction. A personal interview or group orientation during a scheduled Open House is required. Students may not enroll in interior architecture courses without formal admission to the Interior Architecture program or written permission of the instructor.

Transfer students applying for advanced studio placement must present a portfolio and transcript evidence of relevant achievement through prior course work or experiences.

Curriculum Policies

The policies of the Undergraduate Program were developed with the best interests of the students in mind. Minimum requirements for overall and studio performance ensure that students understand the rigors of design, and by doing well in an academic setting, will be prepared to enter a competitive workforce. See IARc Website’s Departmental Policies (https://iarc.uncg.edu/wp-content/uploads/2021/02/IARc-Departmental-Policies_Final_2021.pdf) for details.

Experiential Learning Opportunities

Experiential Learning is a vital element of the Interior Architecture education. Students are offered travel opportunities through short- and long-term national and international faculty-led programs. Students are encouraged to take part in these experiences which are carefully curated to support their design education. Qualified third- and fourth-year students also have the opportunity to take a semester abroad through the International Programs Center without extending their graduation date. Most such programs are exchange-based, meaning the tuition and fees for study abroad are the same as those at UNC Greensboro.

Engagement and Service

Opportunities for engaging with the profession and leveraging the power of design for transforming society are offered throughout the curriculum. Studio courses often engage students in real-life problem solving and offer interaction with practicing professionals through guest lectures and critiques, and site visits. Through the Center for Community-Engaged Design students participate in service projects benefiting real stakeholders within the region and in the Main Street Program serving North Carolina’s rural towns. The Interior Architecture Diversity and Equity Initiative promotes educational cross-cultural exchange centered around racial, ethnic, and gender-based inclusion.

Graduate

The Master of Fine Arts (M.F.A.) in Interior Architecture offers students a venue for advanced investigations of the built environment in close collaboration with faculty mentors. Students pursuing an M.F.A. in Interior Architecture develop their own intellectual interests in design while preparing for careers in teaching, research, or specialized practice.
The program offers distinctly strong student-faculty relationships, where students work closely with faculty members to gain expertise. The Department of Interior Architecture supports a broad range of student interests reflecting IARC’s values of promoting sustainable design for social, psychological, and ecological well-being. The department offers particular strengths in historic preservation, interior product design, community-engaged design, and human-environment relationships.

In the M.F.A. graduate studios, students will demonstrate their competency to gather, evaluate, and apply appropriate information and evidence to solve the problem. Their design investigations will demonstrate creative thinking and originality through presentation of a variety of ideas, approaches, and concepts. Students will apply a variety of communication techniques and technologies to their projects and communicate their designs through competent drawings and models across a range of appropriate media.

The M.F.A. is a post-professional degree program. Through course work, studios, and thesis development, students will undertake advanced research investigations on topics related to architectural interiors. These investigations must align with faculty interests and connect theory with application. By the time students finish their graduate studies, they will have developed expertise on a relevant topic of interest and demonstrated that expertise through public defense of their written theses and public exhibit of their design work.

- 3 credits of Honors course work in the major or another area

**Interior Architecture, B.F.A.**

**Overall Requirements**

- 120 credit hours, to include at least 36 credits at or above the 300 course level
Recognition
Receive a Certificate of Disciplinary Honors in Interior Architecture; have that accomplishment, along with the title of the Senior Honors Project, noted on the official transcript; and be recognized at a banquet held at the end of the spring semester.

Honors Advisor
Contact Jo Leimenstoll at jingleimen@uncg.edu for further information and guidance about Honors in Interior Architecture. To apply: http://honorscollege.uncg.edu/forms/disc-application.pdf

Accelerated B.F.A to M.F.A.
Application and Admission
Qualified undergraduate IARc majors may apply for admission to the graduate program at the end of the Fall semester of the third year in the B.F.A. program. Once admitted, a student may earn a B.F.A. and a M.F.A. in five years (including Summer sessions). A cumulative GPA of at least 3.5 in the B.F.A. program is required. Additionally, standard application requirements for the M.F.A. in Interior Architecture include undergraduate transcripts, GRE scores, portfolio review, TOEFL scores for international students, recommendations, a personal statement and a personal interview (optional).

Program Requirements
- Minimum of 18 credit hours

<table>
<thead>
<tr>

<td>3</td>
</tr>
</tbody>
</table>

* Additional IAR curriculum courses and electives may be taken with the approval of the IAR advisor and the corresponding course instructor.

Courses
Courses to be counted for the M.F.A. program must receive prior approval of the IARc Graduate Program Director. Admitted students may apply a maximum of 19 credits of graduate level course work toward completion of both the B.F.A. and M.F.A., provided a grade of B or better is earned in each graduate course and that graduate level requirements are fulfilled.

The M.F.A. degree requires 60 credits of graduate-level course work, and the B.F.A. requires 120 credits. Assuming 19 credits are double-counted for both degrees, students would need to complete an additional 41 credits of graduate courses to complete the M.F.A. degree.

The following courses (19 credits) may be counted toward both the B.F.A. and M.F.A. degrees:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>IAR 101</td>
<td>Environmental Design I</td>

<tr>
<td>IAR 332</td>
<td>Interior Architecture Materials</td>
<td>3</td>
</tr>
<tr>
<td>IAR 427</td>
<td>Problems in Interior Architecture</td>
<td>3</td>
</tr>
</tbody>
</table>

Substitutes for the above courses require permission of the IARc Graduate Program Director.

Design Studies Undergraduate Minor
A minor in Design Studies is available for majors outside the Department of Interior Architecture. The minor requires a total of 18 credit hours selected from the list provided. Applicants are required to attend an open house, meet with the Director of Undergraduate Studies or the Department Chair in IARc. Once admitted into the Design Studies minor, the student meets with the Department Chair to identify appropriate courses to take. The plan of study for the minor can be designed to focus on sustainability, design thinking, design theory, entrepreneurship, historic perspectives, or design fundamentals.

Students interested in a Design Studies minor must consult with an IARc advisor before declaring the minor. A cumulative GPA of C (2.0) or better must be achieved in the courses taken toward a minor.

Program Requirements

</tbody>
</table>

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit the following items to the department:

- GRE scores
- 1-2 page personal statement including the reason for applying to the M.F.A. program in Interior Architecture at UNC Greensboro, how it relates to the candidate’s career goals, and what they may want to specialize in and why, if admitted.
- Portfolio of design work. Representative examples of design work including short written descriptions of the projects to provide an overview of the candidate’s design skills and design experience. Examples of 2-D or 3-D art work could be included, if applicable.

Applicants will be invited for a personal interview face-to-face or online after all the documents for admission are submitted.

An undergraduate degree in interior design or interior architecture is preferred. Candidates who do not hold an undergraduate degree in interior design or interior architecture but are graduates of a related environmental design program, such as architecture, industrial design, etc., may be required to complete specific undergraduate prerequisite courses in interior architecture as a part of their graduate studies. Such
decisions would be based upon an individual evaluation of credentials, portfolio, and design experience.
