The student will complete a 6-credit thesis and will participate in a public discussion of the thesis with other students and faculty members. The student’s thesis committee will be responsible for reviewing and approving successful completion of the thesis. Credit may be divided over two or more semesters. Students can opt to defend their thesis in the Spring or Summer semester of their second year or Fall semester of third year.

**Accelerated B.F.A to M.F.A. in Interior Architecture**

**Application and Admission**

Qualified undergraduate IARc majors may apply for admission to the graduate program at the end of the Fall semester of the third year in the B.F.A. program. Once admitted, a student may earn a B.F.A. and a M.F.A. in five years (including Summer sessions). A cumulative GPA of at least 3.5 in the B.F.A. program is required. Additionally, standard application requirements for the M.F.A. in Interior Architecture include undergraduate transcripts, GRE scores, portfolio review, TOEFL scores for international students, recommendations, a personal statement and a personal interview (optional).

All applicants must complete the Accelerated Master’s Program (AMP) information when applying for admission to the graduate degree program.

**Courses**

Courses to be counted for the M.F.A. program must receive prior approval of the IARc Graduate Program Director. Admitted students may apply a maximum of 19 credits of graduate level course work toward completion of both the B.F.A. and M.F.A., provided a grade of B or better is earned in each graduate course and that graduate level requirements are fulfilled.

The M.F.A. degree requires 60 credits of graduate-level course work, and the B.F.A. requires 120 credits. Assuming 19 credits are double-counted for both degrees, students would need to complete an additional 41 credits of graduate courses to complete the M.F.A. degree.

The following courses (19 credits) may be counted toward both the B.F.A. and M.F.A. degrees:

<table>

Substitutes for the above courses require permission of the IARc Graduate Program Director.
Historic Preservation, Post-Baccalaureate Certificate

The 15-credit hour Post-Baccalaureate Certificate in Historic Preservation provides graduate students in history, interior architecture, and related fields training and credentials to pursue careers in historic preservation, management of historic sites, and related public history professions. The certificate can be earned in tandem with the M.F.A. in Interior Architecture or other graduate degree. It can also be pursued as a stand-alone certificate.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by the Graduate School, applicants must submit a 750-word personal statement.

Etsuko Kinefuchi, Department of Communication Studies
Kathleen Macfie, Director, International and Global Studies Program and Associate Professor, Department of Languages, Literatures, and Cultures
Natacha Nikojeza, The Center for New North Carolinians
Penelope Pynes, International Programs Center
Neelofer Qadir, International and Global Studies Program, Department of English
Linda Rupert, Department of History
William Zang, Assistant Director, International and Global Studies Program

Mission Statement
The International and Global Studies Program educates and empowers students to be engaged global citizens. Our interdisciplinary liberal arts approach emphasizes intercultural competency, strong foreign language proficiency, and a critical understanding of the complexity and interconnectedness of world regions and populations. Study Abroad and other cross-cultural experiences are also integral components of the Program. We therefore prepare our students for a variety of public- and private-sector careers where these qualities and experiences are valued, as well as for graduate and professional studies in fields with an international or global focus.

Liberal and Interdisciplinary Studies Major Concentrations in the International and Global Studies Program

Concentration areas afford intellectual and curricular definition to each student’s course of study. Majors, second majors, and minors should select the concentration area that best complements their interests.

Functional Studies
• International and Global Affairs and Development (major concentration)
  A study of the political, sociological, economic, environmental, and health-related issues and the interdependence among peoples, governments, and nations of the world.
• International and Global Arts and Belief Systems (major concentration)
  A study of the arts, literatures, philosophies, and belief systems unique to and interconnecting other nations and peoples of the world.
• International and Global Human Rights (major concentration)
  A study of the foundations of freedom, justice, and peace as they relate to the protection of the dignity and rights of human beings around the world.

Regional Studies
• Asian Studies (major concentration or minor)
• Latin American and Caribbean Studies (major concentration or minor)
• Russian Studies (major concentration or minor)
• African Studies (minor)
• European Studies (minor)

International/Global Experience (IGE)
By the end of their final semester of study, all IGS majors must have completed an approved “international” or “global” experience. This requirement will be met by completing a qualified study-abroad experience that satisfies the requirements listed below.

A Qualified Study-Abroad Experience
Study abroad affords the greatest opportunity for total immersion in another socio-political, economic, and cultural context, thus enhancing knowledge, skills, and dispositions central to the major. In addition, course work completed during study abroad typically has application toward the major’s curricular requirements (especially IGS’s foreign language and/or Additional Course requirements). The characteristics listed below shall distinguish such an experience as “qualified”.

• Any semester- or year-long study abroad experience with exchange partners arranged through UNC Greensboro’s International Programs Center (IPC).
• A short-term or summer study-abroad program approved by IPC or the IGS Director and equivalent to at least 6 credits of academic credit.

Note: whenever possible, students should select a study abroad site that affords an immersion experience for the foreign language they are studying to meet the IGS FL requirement.

Confirmation of completion of this requirement will be documented on the IGS Degree Audit following review of the student’s UNC Greensboro transcript or UNC Greensboro degree evaluation. This audit will be submitted to the University Registrar’s Office at the end of the major’s program of study.

Study Abroad Alternative
In circumstances where study abroad is unfeasible (e.g., in cases of serious financial or personal hardship) or redundant (e.g., in cases of international students), a major must submit a “Study Abroad Alternative” request to the IGS director, who will assess the validity of the case. Should the study abroad obligation be waived, the IGE requirement should be met by completing the UNC Greensboro Global Leadership Program (GLP) by the student’s final semester of study. The GLP offers students who are interested in international and global societies and issues an opportunity to hone the range of skills necessary to develop as global leaders. Through a combination of experiences involving work with immigrants and refugees in the local community and/or foreign students on campus, GLP participants will prepare themselves to become engaged world citizens with an appreciation of the importance of intercultural understanding.

Additional alternatives may be available. Contact the IGS director for details.

Category Descriptions for Major Requirements
Courses to fulfill the 18 credits in the major requirements are chosen from among the four categories. A unique set of courses by category are identified in the Additional Courses Options for each concentration.
Eligible courses must also focus at least 51 percent on the modern period (19th century to the present), except as noted in the Additional Courses Options.

**Category 1—Society and Politics (S&P)**
Any course with a 51 percent or more focus on social, historical, and political issues of international and/or global relevance.

**Category 2—Economics and Development (E&D)**
Any course with a 51 percent or more focus on issues related to international and global economics and development such as: regional and global economic integration, industrialization versus basic-needs, environmental sustainability, and international human health.

**Category 3—Arts and Literature (A&L)**
Any course with a 51 percent or more focus on the arts and/or literatures of nations and cultures outside of the United States, or any course reading literature in a foreign language at the 300 level or above.

**Category 4—Belief Systems and Cultures (BS&C)**
Any course with a 51 percent or more focus on ideologies, philosophies, and belief systems unique to and/or interconnected with other nations and peoples of the world.

- The International and Global Studies Program offers the following concentrations in the Liberal and Interdisciplinary Studies Major:
  - Asian Studies
  - International and Global Affairs and Development
  - International and Global Arts and Belief Systems
  - International and Global Human Rights
  - Latin American and Caribbean Studies
  - Russian Studies

See the Liberal and Interdisciplinary Studies Major (p. 444) for requirements.

- African Studies Undergraduate Minor (p. 379)

Languages, Literatures, and Cultures

College of Arts and Sciences

2321 Moore Humanities and Research Administration
336-334-5655
www.unCG.edu/llc (http://www.unCG.edu/llc/)

Roberto E. Campo, Department Head
Ana Hostanilla, Associate Department Head
Claudia Cabello Hutt, Graduate Program Director
Cybelle McFadden, Graduate Program Advisor, Director of Undergraduate Studies in LLC (includes concentrations in French and Francophone Studies, German Studies, Global Languages & Communities GLC), Program Advisor for French and Francophone Studies and GLC
Kelly Pereira, Director of Undergraduate Studies in Spanish, Director of Language Instruction for Spanish Basic Language Program
Catherine Viano-Laughon, Director of Language Instruction for the French Basic Language Program
Vacant, Director of Language Instruction for the Spanish Basic Language Program

Mission

The mission of the Department is to impart an understanding of world languages, literatures, and cultures within the context of a liberal and humanistic education. We afford students experiences that highlight oral and written literacy, literary analysis, critical skills, and cultural and aesthetic appreciation through instruction in literature, culture, and linguistics in various languages, including American Sign Language, Arabic, Chinese, French, German, Japanese, Korean, Russian, and Spanish.

Through engaged teaching, innovative research, diverse creative activity, and dedicated service, the Department strives to:

- Communicate an understanding of languages, literatures, and cultures within the context of a humanistic liberal education;
- Connect with individuals and communities within the department, across the campus, the state, the nation, and the world to foster a culture of meaningful intellectual inquiry, participatory and life-long learning that promotes respect for all;
- Contribute to the University’s strategic goal of internationalizing the campus as we prepare our students to excel in a variety of professions and graduate studies.

Programs

The Department offers the programs listed below.

- Languages, Literatures, and Cultures major with the following concentrations:
  - Applied Languages: French K–12 Teaching Licensure
  - Applied Languages: Spanish K–12 Teaching Licensure
  - French and Francophone Studies
  - German Studies
  - Global Languages and Communities
- Spanish Major
- Minors: American Sign Language, Chinese, French, German, Russian, and Spanish
- The Department also offers a sequence of courses in Arabic, Japanese, and Korean.

The Department contributes to various concentrations in the International and Global Studies program and the major in International Business Studies. We take very seriously our role in preparing students to apply their liberal arts education to future careers in areas such as education, business, health professions, and public service. We also offer Master of Arts and Master of Education degrees with concentrations in French and Spanish and a Post-Baccalaureate Certificate in Advanced Spanish Language and Hispanic Cultural Studies to provide further scholarly and professional training.

Through its courses, degree programs, and co-curricular activities, the Department contributes to the university’s goal of promoting diversity and internationalizing the curriculum. We foster students’ abilities to communicate within a global context and to reflect on their own heritage by supporting exchange and study abroad programs. The Department is also committed to promoting an atmosphere in which creativity and scholarly accomplishment may flourish for both students and faculty. Through our engaged teaching, innovative research and creative activity, and dedicated service, the faculty works to improve pedagogy, scholarship, and the community.

The Department promotes co-curricular activities through language clubs, honorary societies, film series, and other opportunities. Paid or unpaid internships requiring foreign language skills are increasingly available. Students may elect to live in the Global Village or UNC Greensboro’s International House and are encouraged to participate in study abroad opportunities through UNC Greensboro’s International Programs Center or through Summer Study Abroad sponsored by the Department.

German Studies and Russian Studies Consortia offer a broad array of German and Russian courses in language, literature, and culture taught by specialists in the UNC system through the N.C. Information Superhighway.

Students with special learning needs may qualify for the Modified Foreign Language Program in Spanish. Registration in the program requires written permission from the Department. Native or near-native speakers must consult with an appropriate departmental advisor before signing up for courses in the Department of Languages, Literatures, and Cultures. Students with one or more years of Chinese or Japanese must contact the course instructor or a departmental advisor before registering for courses.

Intermediate proficiency (equivalent to 204 or 241 level) is expected for major-level work in French, German, or Spanish. Students cannot receive credit for lower-level courses after taking and receiving credit for higher level ones.

Language Placement Test in French, German, Russian, or Spanish

Students with one or more years of high school French, German, Russian, or Spanish who wish to continue the study of that same language at UNC Greensboro must take the Language Placement Test.

Incoming transfer students returning to the study of French, German, Russian, or Spanish begun in high school but not previously pursued at the college level, must also take the test. Transfer students with college-level foreign languages credit are encouraged to take the placement test to determine their best starting point.

The Language Placement Test is administered at SOAR orientation sessions during the summer and before the beginning of each semester. The test may also be taken during the year on an individual basis.
by appointment, in the Department’s office. Students should call the Department at 336-334-5655 to schedule their appointment.

Language Placement Test scores are valid for one year after the test is taken. The test can be taken only once a year. Once a student has begun the lower-level sequence (101–204/241), she or he cannot retake the placement test in order to place out of any of the remaining courses in the sequence.

A student who scores at the interview-stage level and is planning to continue in the language at the 300 level should consult the Director of Undergraduate Study for the appropriate language or another designated faculty member before registering for any other course in the language. The advisor will interview the student in order to determine his or her placement at the 300 level or recommend courses at the intermediate level to reinforce the student’s background in language.

If a student who scores at the interview-stage level does not plan to continue study in the language, the Department of Languages, Literatures, and Cultures will confirm the student’s Language Placement Test scores with the University Registrar’s Office, and the student will be considered as having met the foreign language requirement at UNC Greensboro.

Students in need of additional advising or with concerns regarding the placement results are asked to make an appointment with a designated faculty member.

**Graduate Studies**

The Department of Languages, Literatures, and Cultures, as part of its commitment to further the study of foreign languages and literatures both regionally and nationally, offers the Master of Arts (M.A.) in Languages, Literatures, and Cultures with a concentration in French and Francophone Studies or Spanish. Students may choose from a broad spectrum of courses and possibilities, whether they are interested in perfecting their knowledge of French or Spanish or pursuing doctoral studies. Each program is balanced and comprehensive while allowing for electives in French, Spanish, or a related field. A Masters of Arts in Teaching (M.A.T) and a Masters of Education (M.Ed.) in Teacher Education with a concentration in French Education or Spanish Education are also offered. Most graduate classes are offered in the late afternoon, evening, or online to accommodate working professionals.

- Languages, Literatures, and Cultures, M.A. (p. 394)
- Master of Arts in Teaching, M.A.T. (p. 396)
Languages, Literatures, and Cultures, B.A.

The B.A. in Languages, Literatures, and Cultures provides opportunities for language-based global engagement. Students gain linguistic and intercultural competencies applicable to many fields.

All students in the major take a course in the common core and complete a high-impact Intercultural Experience requirement that can be met by study abroad, an LLC service-learning course, residence in the Global Village learning community, certificate of completion of the Global Leadership Program, Disciplinary Honors, or approval by the Program Director.

Student Learning Outcomes

Upon completion of the B.A. in Languages, Literatures, and Cultures, students will:

1. Communicate an understanding of languages, literatures, and cultures within a global context;
2. Speak, read, write, and comprehend the language(s) studied with sufficient ease to allow them to communicate effectively across cultures;
3. Demonstrate the ability to communicate in a culturally-informed manner in international, intercultural and/or multicultural contexts in order to connect meaningfully with individuals and communities across the campus, the state, the nation, and the world;
4. Understand the importance of transcultural encounters and employ intercultural competencies essential for success in our increasingly diverse global societies.

Applied Languages: French Education Concentration

Admission to the Languages, Literatures, and Cultures French K–12 Teaching Licensure Concentration

A student who seeks admission to the French with K–12 Teaching Licensure Concentration is expected to achieve:

- A minimum grade point average (GPA) of 2.75 overall and in the major
- Completion of all courses needed to fulfill the General Education requirements
- Satisfactory scores on the Praxis I (ACT or SAT- See Praxis I substitution table for ACT, SAT, and Praxis I)

Students interested in the K–12 Teaching Licensure major must consult the Director of Undergraduate Studies in Languages, Literatures, and Cultures for early discussion of all requirements as well as the K–12 advisor. Additionally, students must request for early admission to the Teacher Education Program from the School of Education Office of Student Services. Candidates should apply for admission to the School of Education Office of Student Services at the end of their sophomore year and be admitted no later than the first semester of their junior year. Please review requirements on their webpage (https://soe.uncg.edu/services/office-of-student-services-advising/teacher-education/). Consult the Teacher Education Handbook for details.

Admission to Student Teaching

During the Junior year, students already admitted to the Teacher Education Program must apply for admission to Student Teaching. Admission includes:

- Completion of requirements specific to the major.
- Eligibility to enter student teaching requires maintaining an overall GPA of 3.0 or better after being admitted to the major, and achieving a grade of C or better in each professional course.

After admission to the major, if a student fails to maintain an overall GPA of 3.0, the student has one semester to improve their GPA. If a student receives a C- or lower in a professional course, the student is eligible to retake the course at its next offering.

Application forms are available online from the Office of Student Services in the School of Education. Forms must be submitted by February 15 for student teaching in the spring of the following year. Student teaching assignments are usually made in schools within commuting distance from UNC Greensboro. Teacher education students are individually responsible for expenses incurred during student teaching, including transportation. Note: Student teaching is offered only in the spring semester.

Application for Teacher Licensure

An application for licensure should be filed with the School of Education Office of Student Services within two weeks of graduation. Students should be aware that the license process will take six weeks or longer after graduation to be completed. UNC Greensboro recommends for a teacher’s licensure those students who have completed the appropriate teacher education curriculum, attained acceptable competencies, and whose work has been approved by the appropriate department.

Successful completion of Praxis II (subject-area) exams is required by the state for students completing a degree program for their first license except in Elementary and Special Education. Lateral entry teachers are also required to take the Praxis II. To be licensed in North Carolina, students must meet the specific state requirements for licensure, including demonstration of technology competencies.

Applied Languages: Spanish Education Concentration

Admission to the Languages, Literatures, and Cultures Spanish K–12 Teaching Licensure Concentration

A student who seeks admission to the Spanish with K–12 Teaching Licensure Concentration is expected to achieve:

- A minimum grade point average (GPA) of 2.75 overall and in the major
- Completion of all courses needed to fulfill the General Education requirements
- Satisfactory scores on the Praxis I (ACT or SAT- See Praxis I substitution table for ACT, SAT, and Praxis I)

Students interested in the K–12 Teaching Licensure major must consult the Director of Undergraduate Studies in Languages, Literatures, and Cultures for early discussion of all requirements as well as the K–12 advisor. Additionally, students must request for early admission to the Teacher Education Program from the School of Education Office of
Overall Requirements

- 120 credit hours, to include at least 36 credits at or above the 300 course level
- No requirement for a concentration can be met by a grade lower than C- with an overall GPA of 2.0.
- Students must complete a High Impact Intercultural Experience (HIIE). One of the following must be met:
  - Study abroad
  - An LLC service-learning course (such as LLC 389, LLC 399, or LLC 499)
  - Residence in a Global Village
  - Certificate of completion of the Global Leadership Program
  - Disciplinary Honors
  - Approval of the Director of Undergraduate Studies

Literature and/or Film

Select 9 credits of the following:
FRE 353 Survey of French Literature
FRE 407 Teaching French through French Literature
FRE 450 Topics in French Literary Movements
FRE 451 Topics in French Prose Fiction
FRE 455 Topics in French and Francophone Literature and Film
FRE 456 Topics in French Theatre
FRE 457 Advanced Topics in French Literature
FRE 458 Topics in Francophone Literature
FRE 459 Topics in French Poetry
FRE 463 Studies in Film Genre

Qualified:
FRE 353 Survey of French Literature

Culture and Civilization

Select 3 credits of the following:
FRE 332 Contemporary French Culture
FRE 341 Business French
FRE 496 Directed Study in French and Francophone Civilization and Culture
FRE 433 French and Francophone Civilization and Culture
FRE 457 Advanced Topics in French Literature

Qualified:
FRE 353 Survey of French Literature

Electives

Select 6 credits from courses with the FRE course prefix
Qualified:
FRE 222 Explorations in French Literature: English Versions
FRE 232 Images of France and the Francophone World

* Select one of the courses listed or other approved course approved by the Program Director.

** The course is contingent. Qualifies only if taken before FRE 315 (or other courses above this course number).

1 The course listed is a prerequisite to 400-level literature courses.
2 The course listed qualifies only if the topic is Paris.
3 The courses listed below are excluded for credit toward the major:

German Studies Concentration Requirements

Required
Select a minimum of 27 credits in German above the 204 level, including at least the following:

Literature or Culture
Select four of the following:
GER 217 Masterworks of German Literature Read in English
GER 218 Masterworks of German Literature Read in English
GER 222 The Holocaust in Literature and Art
GER 305 German Literature: Advanced Intermediate Topics
GER 405 Advanced Topics in German Literature
GER 406 Advanced Topics in German Culture

Qualified:
GER 422 German Memory in Fiction and Film

Related Area Courses

The courses below are suggested but not required.

Code    Title                                      Credit Hours
ATY 385  Language and Culture                     1
ENG 201  European Literary Classics: Ancient to Renaissance  1
ENG 339  Shakespeare: Early Plays and Sonnets      1
ENG 340  Shakespeare: Later Plays                 1
HIS 376  German History, 1914-1945                1
HIS 392  The Holocaust: History and Meaning       1
PHI 342  History of Modern Philosophy             1
RUS 313  Major Authors in Russian Literature      1
RUS 314  Major Movements in Russian Literature and Culture  1

Global Languages and Communities Concentration Requirements

Language Series

Primary Language of Study
Complete a minimum of 12 credits in CHI, FRE, GER, JNS, RUS, or SPA courses taught in the language at or above the 300 course level

Additional Language of Study
All majors must demonstrate proficiency at or above the 204 level in an additional language (other than English). Students taking Intermediate level courses to fulfill requirement may count 203/204. If you are a native speaker of another language other than English, please provide documentation to demonstrate that you have met this requirement. The program director may approve alternatives to meet this requirement.

LLC Service Learning Courses
Select one course from below or another service-learning course approved by the director.

Spanish, B.A.

The Spanish Major is designed to ensure a well-rounded preparation in language, literature, and culture. The program is balanced and comprehensive, yet allows students the latitude to explore subjects of special interest to them. Specific course and area requirements and electives in language, literature, and culture characterize the program. The major in Spanish begins at the 300 level.

Overall Requirements

- 120 credit hours, to include at least 36 credits at or above the 300 course level
- No requirement for the major can be met by a grade lower than C-
- Minimum 30 credits at the 300 level or above, in the major, including the courses listed below:

Degree Program Requirements

Writing Courses
SPA 315 Intermediate Spanish Composition
or SPA 318 Intermediate Spanish Composition for Heritage Speakers

SPA 415 Advanced Spanish Composition

400-level Seminar
SPA 432 Seminar in Spanish Cultures, Literatures and Films
or SPA 435 Seminar in U.S. Latino/Latina Cultural Studies
or SPA 436 Seminar in Latin American Cultures, Literatures and Films
or SPA 462 Seminar in Film Genre

Additional Requirements
Students must complete at least 12 additional credit hours in Spanish at the 300 level and 400 level. Some LLC courses (such as LLC 389, LLC 399, LLC 419 and LLC 499) may also count toward the major.

The plan of study must include:

• Two additional 400 level courses
• Two additional 300 or above
• One High Impact Intercultural Experience (HIIE). One of the following must be met:
  • Study abroad in a Spanish-speaking country
  • An LLC service-learning course (such as SPA 302, SPA 310, SPA 321, SPA 499, LLC 389, LLC 399 or LLC 499)
  • Residence in the Global Village
  • Certificate of completion of the Global Leadership Program
  • Disciplinary Honors
  • Or approval by the Director of Undergraduate Studies.

Languages, Literatures, and Cultures, M.A.

The M.A. in Languages, Literatures, and Cultures with a concentration in French and Francophone Studies or Spanish offers two options: a thesis option requiring 30 credit hours of graduate study (24 credits of course work and 6 credits of thesis) and a comprehensive examination (if the degree is in French and Francophone Studies) and a non-thesis option requiring 30 credit hours of course work and a comprehensive examination.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants to the M.A. in Languages, Literatures, and Cultures must provide the following to the Graduate Program Director:

•  Statement of Purpose: 500-word statement of purpose in French or Spanish, highlighting prior experiences and explaining reasons for applying and expectations for the program.
•  Interview or Oral Sample: The candidate must contact the Graduate Program Director to schedule a face to face or online interview. This meeting needs to be scheduled at least a week before the deadline (if applying in the Spring). Alternatively, the candidate can submit a 3 to 5 minute unscripted standard audio digital format demonstrating speaking ability either in Spanish or French. The sample should discuss a topic related to the program of study as well as experiences and motivation and should be uploaded with the online application.
•  Writing Sample: An analytical paper in French, Spanish, or English written for a prior course in the humanities or a comparable writing sample (6 to 14 pages).
•  Test Scores: Qualifying examination scores, GRE or MAT, are recommended but not required.

Admission to the M.A. in Languages, Literatures, and Cultures assumes completion of an undergraduate program with a minimum of 24 credit hours in French or Spanish, as appropriate, above the 204 level. Candidates lacking the prior academic language training may be admitted provisionally (contact the Graduate Program Director for details).

Core Courses in French and Francophone Studies (18-30 credits)

Select 18-30 credits in one of the following options:

Thesis Option
Additional Language Requirement
The student will demonstrate a reading knowledge of a language other than French and English by one of the following methods:

• Passing a reading or translation examination
• Completing intermediate-low level (equivalent to UNC Greensboro’s 204 level) or higher course work in the additional language with a grade of B (3.0) or better documented by an official transcript
• Obtaining a score of 400 or higher on the department’s Computerized Adaptive Placement Exam

Contact the Graduate Advisor in French for details.

Comprehensive Examination (Capstone Experience)
The student must pass a written comprehensive examination based on the reading list and course work taken. Please consult with your graduate advisor for more information on formats and test dates.

Reading List
The student will read a prescribed list of major works of French literature.

Thesis (Thesis Option only)
The student selecting this option must write a thesis under the guidance of a committee consisting of a chair and two other members of the graduate faculty. An oral examination on the thesis is required. Please consult with your graduate advisor for further information.

Spanish Concentration
Required: 30 credit hours

</tr>
</tbody>
</table>

Core Courses in Spanish and Romance Languages (18 credits)
Select 18 credits in courses at the 500-level or above as indicated:

• 6 credits in Latin American Literature/Culture
• 6 credits in Spanish Peninsular Literature/Culture
• 6 credits in Linguistics, the three major areas of the program

Capstone Experience (0 or 6 credits)
Select one of the following options:

Non-Thesis Option (0 credits)
Complete a written comprehensive examination

Thesis Option (6 credits)
SPA 699 Thesis

Electives (0 or 6 credits)
Select one of the following options:

Non-Thesis Option (6 credits)
Select 6 credits of elective courses

Thesis Option (0 credits)
No elective courses required

Total Credit Hours 30

Courses must be selected in consultation with the Graduate Program Director in Spanish. At least 50% of the courses must be at the 600-level.

Non-Thesis Option students must pass a comprehensive examination based on the reading list. Examinations are scheduled once a semester in the Fall and Spring semesters; please consult with your graduate advisor for the examination dates.

Students selecting this option must complete 6 credits of SPA 699 and write a thesis under the guidance of a committee consisting of a chair and two other members of the graduate faculty. An oral examination on the thesis is required. Please consult with the graduate advisor for further information.

Thesis Option students do not have an elective course requirement.

Core Courses in Spanish and Romance Languages
Thesis option: Students who opt to write a thesis must develop a proposal and have it approved by the thesis chair and graduate program director by the end of their first year in the program. Students selecting this option must write a thesis under the guidance of a committee consisting of a chair and two other members of the graduate faculty. An oral examination on the thesis is required. Please consult with your graduate advisor for further information. Students who opt to write a thesis are exempt from comprehensive exams.

Non-Thesis option: Students in the non-thesis option must pass a written comprehensive examination based on the reading list.

Reading List
Students will read a prescribed list that includes major works on Spanish and Spanish American literature as well as works on Spanish and Spanish-American culture and civilization, and Hispanic linguistics. Students should consult regularly with their graduate advisor and with faculty specializing in the various areas, while working to complete preparation of the reading list.

Additional Language Requirement
The student will demonstrate a reading knowledge of a language other than Spanish and English by one of the following methods:

• Passing a reading or translation examination
• Completing intermediate-low level (equivalent to UNC Greensboro’s 204 level) or higher course work in the additional language with a grade of B (3.0) or better documented by an official transcript
• Obtaining a score of 400 or higher on the department’s Computerized Adaptive Placement Exam

Contact the Graduate Program Director in Spanish for details.

Accelerated B.A. to M.A. in Languages, Literatures, and Cultures

Application and Admission

Qualified UNC Greensboro undergraduate students who are pursuing a B.A in Spanish or a B.A in Languages, Literatures, and Cultures with a concentration in French and Francophone Studies may apply for admission to the Accelerated Master’s Program (AMP). A cumulative undergraduate GPA of 3.5, or at least 3.5 in a related major, based on a minimum of 30 credits earned at UNC Greensboro, is required. Applicants must have completed at least 60 credits and may not apply for admission to the AMP before the first semester of their junior year.

All applicants must begin by meeting with the Graduate Program Director to review eligibility and must complete the Accelerated Master’s Program information when applying for admission to the graduate degree program. Standard application requirements for the M.A. in Languages, Literatures, and Cultures program apply to the AMP.

Standardized entrance exams (GRE/ MAT) are not required for AMP students.

Courses

Admitted students may apply a maximum of 9 credits total from approved graduate-level courses (6 credits from 500-level courses and 3 credits from 600-level courses) toward completion of the undergraduate and graduate degree provided that: the courses are appropriate to attain the necessary competencies for the graduate degree; the student earns a grade of B (3.0) or better in each course; and the courses are at the 500-level or above and the student fulfills the graduate-level requirements of the courses.

The following courses may be counted towards both the B.A. and M.A. degrees:

Students admitted to the AMP for the M.A. with a Spanish Concentration may select from:

** A maximum of 6 credits from courses at the 500 level may be used.

** A maximum of 3 credits from courses at the 600 level may be used.

Students must have completed the appropriate prerequisites required for listed courses or permission of the department. All courses that lead to the completion of the M.A. degree must be approved by the Graduate Program Director.

Master of Arts in Teaching, M.A.T.

The Master of Arts in Teaching (M.A.T.) with a concentration in French Education or a concentration in Spanish Education culminates with the development of an Initial Competencies Portfolio, providing eligibility for candidates to apply for "A" licensure from the North Carolina Department of Public Instruction. The M.A.T. is designed for candidates who have a bachelor’s degree but did not pursue teacher education or licensure as undergraduates. It requires 39 credit hours with 18 credits in the content area. All students are required to demonstrate proficiency in phonetics.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants to the Master of Arts in Teaching with a concentration in French Education or Spanish Education must provide the following:

• 500-word Statement of Purpose in French or Spanish, highlighting prior experiences and explaining reasons for applying and expectations for the program.

• 3-to 5-minute unscripted digital recording demonstrating speaking ability in French or Spanish. The sample should discuss a topic related to the program of study as well as experiences and motivation.

• An analytical paper in French, Spanish, or English written for a prior course in the humanities or a comparable writing sample.

A minimum of 24 credit hours in French/Spanish above the 204 level in the undergraduate program.
A minimum of Advanced Low Proficiency (according to ACTFL guidelines). The department may request an Oral Proficiency Interview. An interview with the Graduate Program Director may be required.

Applicants who have not taken Phonetics will be required to take a remedial prerequisite or co-requisite course (not included in hours required for the degree).

* And demonstrate appropriate oral and written communication skills. Courses are selected in consultation with the Graduate Program Director in French or Spanish.

** May be based on an on-going teaching experience, a teaching assistantship in the Department of Languages, Literatures, and Cultures, or a student-teaching experience in a public school. Includes completion of the Teaching/Technology Portfolio.

**Capstone Experience: Teaching/Technology Portfolio (TaskStream)**
The portfolio will be aligned with the North Carolina Standards for Second Language Learners and the ISTE/National Educational Technology Standards for Teachers (NETS-T).

**Teacher Education, M.Ed.**
The M.Ed. in Teacher Education with a concentration in French Education or a concentration in Spanish Education is offered through the Department of Languages, Literatures and Cultures and culminates with the development of an Advanced Competencies Portfolio, providing eligibility for candidates to apply for “M” licensure from the North Carolina Department of Public Instruction. Field experiences (school-based activities) are required. The M.Ed. is designed for applicants who already hold “A” licensure and requires 36 credit hours with 18 credits in the content area. All students are required to demonstrate proficiency in phonetics.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants to the M.Ed. in Teacher Education with a concentration in French Education or Spanish Education must provide the following:

- 500-word Statement of Purpose in French or Spanish, highlighting prior experiences and explaining reasons for applying and expectations for the program.
- 3-5 minute unscripted digital recording demonstrating speaking ability in French or Spanish. The sample should discuss a topic related to the program of study as well as experiences and motivation.
- An analytical paper in French, Spanish, or English written for a prior course in the humanities or a comparable writing sample.

A minimum of 24 credit hours in French/Spanish above the 204 level in the undergraduate program.

A minimum of Advanced Low Proficiency (according to ACTFL guidelines). The department may request an Oral Proficiency Interview. An interview with the Graduate Program Director may be required.

Applicants who have not taken Phonetics will be required to take a remedial prerequisite or co-requisite course (not included in the credits required for the degree).

**Degree Program Requirements**

**Required:** 33 credit hours

In consultation with the appropriate Graduate Program Director, the student must select courses with at least 50% at the 600 level or above.

* And demonstrate appropriate oral and written communication skills. Courses are selected in consultation with the Graduate Advisor in French or Spanish.

**Clinical Experience in Teaching**

May be based on an on-going teaching experience, a teaching assistantship in the Department of Languages, Literatures, and Cultures or in a community college, or a student-teaching experience in a public school. Includes completion of the Teaching/Technology Portfolio.
All students will be required to complete a clinical experience, such as:

- On-going teaching experience
- Teaching assistantship in the department
- Teaching assistantship in a community college
- Student teaching in public schools

**Capstone Experience: Teaching/Technology Portfolio (TaskStream)**

The clinical experience will include completion of their Capstone Experience: the Teaching/Technology Portfolio - TaskStream. The portfolio will be aligned with the North Carolina Standards for Second Language Teachers and the ISTE/National Educational Technology Standards for Teachers (NETS-T) Standards.

**Advanced Spanish Language and Hispanic Cultural Studies, Post-Baccalaureate Certificate**

The Post-Baccalaureate Certificate in Advanced Spanish Language and Hispanic Cultural Studies requires 15 credit hours and is designed for professionals who may have a bachelor's degree in a field other than Spanish but who are able to demonstrate linguistic and analytical skills in Spanish equivalent to having completed a minimum of 21 undergraduate credits above the 204 level.

The program's goals are to:

- Increase student’s language skills in Spanish to a high level;
- Prepare qualified candidates for cross-cultural professions; and
- Help prepare instructors who must have at least 18 credits of graduate credit in order to teach Spanish at an accredited community college, four-year college or university.

Students may choose to continue with an additional 3-credit course or apply for admission as M.A. candidates.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants to the Post-Baccalaureate Certificate in Advanced Spanish Language and Hispanic Cultural Studies must provide the following:

- 500-word essay in Spanish describing their professional goals and motivation for pursuing graduate work in the certificate.
- 3-to 5-minute unscripted digital audio file (.wav or .mp3 format) in Spanish to introduce themselves and describe their academic or equivalent preparation to pursue advanced proficiency in Spanish.
- 5-to 10-page sample of professional or academic analytical writing in English or Spanish.

Applicants to the certificate program are expected to demonstrate at a minimum an “intermediate high” proficiency in Spanish by appropriate course work, by a personal interview with the faculty, or by an officially recognized testing procedure such as that of the American Council on the Teaching of Foreign Languages.

**Certificate Program Requirements**

Total Credit Hours: 15

1. May be repeated for credit when topic varies.
2. May be selected twice, once when the topic is Advanced Grammar Review and again when the topic is Advanced Phonetics. Not accepted for transfer to the M.A. in Languages, Literatures, and Cultures with a concentration in Spanish or the M.Ed. in Teacher Education with a concentration in Spanish.
3. Required for students with a master's degree in another field who enroll in the certificate as a credential for college-level teaching.

**Additional Information**

Upon completion of the certificate, the graduate faculty will conduct an interview in Spanish with the student.
Mathematics and Statistics

Sat Gupta, Department Head
Igor Erovenko, Associate Department Head
Sebastian Pauli, Director of Undergraduate Studies
Haimeng Zhang, Graduate Program Director

The Department of Mathematics and Statistics offers undergraduate and graduate degrees. The goal of all of the Department's programs is to produce students who are both technically competent and sufficiently well grounded in theory that they can contribute to fundamental research in their chosen specialty. There are many opportunities for graduates of mathematics programs in industry, government, business, research, and teaching.

The faculty consists of nationally and internationally recognized researchers in diverse areas of mathematics, statistics, and mathematics education. They are outstanding professionals committed to teaching excellence, and they take great pride in guiding students to enjoy the beauty of mathematics. The department has been hosting various professional conferences and special events, lecture series, colloquia, and seminars. These activities have greatly enhanced the student learning experience at UNC Greensboro.

Mission Statement
The mission of the Department of Mathematics and Statistics at UNC Greensboro is to provide intellectual leadership in the mathematical sciences that is of direct benefit to the State of North Carolina and that commands national and international respect for the quality of its educational programs and for its depth of scholarship.

Undergraduate
The Department of Mathematics and Statistics offers undergraduate programs leading to the B.A. and B.S. degrees in Mathematics, as well as a minor in Mathematics and a minor in Statistics. To give a professional direction to the student's liberal arts education, the mathematics major may choose a concentration in mathematics, statistics, or high school teaching licensure. There are many opportunities for math majors in industry, actuarial sciences, government, business, and secondary school teaching. The mathematics programs also provide excellent preparation for graduate studies in many areas, including computer science, economics, engineering, law, mathematics, operations research, and statistics.

Graduate
The department offers a variety of outstanding graduate programs. A graduate degree in Mathematics is not only an excellent choice for students who pursue a career in teaching and/or research, there are also many opportunities in banking, consulting, government, and the IT industry. Most of our graduate students are supported via attractive graduate assistantships.

The Department of Mathematics and Statistics offers a Ph.D. in Computational Mathematics, a M.S. in Applied Statistics, a M.A. in Mathematics, and a Post-Baccalaureate Certificate in Statistics.

Additionally, students pursuing a doctoral degree at UNC Greensboro may obtain a doctoral minor in statistics.

Mathematics, B.A.

Mathematics is an excellent major for the student whose immediate objective is to acquire a strong liberal arts education. Graduates may go on to work as an actuary with insurance companies; as a data
an analyst with pharmaceutical, biotechnology, or health care companies; as a quality assurance specialist with engineering companies; or in government agencies such as FDA, EPA, NSA, or USDA.

The B.A. program is more flexible than the B.S. program. It allows one to specialize in mathematics and at the same time either to follow a broad liberal arts program or to specialize in a second area (possibly even taking a second major). Students wanting to go to graduate school are encouraged to consider the Accelerated Degree Program (ADP) (p. 404) to earn a B.A. and M.A. in 5 years. Strong students can graduate with Disciplinary Honors (p. 399).

An undergraduate degree in mathematics also provides excellent preparation for graduate studies in many areas, including actuarial sciences, computer science, economics, engineering, law, mathematics, operations research, and statistics. The major can be specialized to allow preparation for any of these goals.

### Admission to the High School Teaching Licensure Concentration

A student who seeks admission to the Mathematics major with High School Teaching Licensure concentration is expected to achieve:

1. A minimum grade point average (GPA) of 3.0 overall for admission to the Professional Education Program;
2. Completion of all courses needed to fulfill the General Education Requirements; and
3. Satisfactory scores on the Praxis I (ACT or SAT—See Praxis I Substitution Table for ACT, SAT, and Praxis I).

Students interested in the High School Teaching Licensure concentration must consult the coordinator of the Secondary Licensure in Mathematics Program upon admittance to UNC Greensboro for early discussion of all requirements. Additionally, students must request Admission to the Teacher Education Program from the School of Education Office of Student Services. Candidates should apply for admission to the School of Education Office of Student Services at the end of their sophomore year and be admitted no later than the first semester of their junior year. Please review requirements on their Web page. Consult the Teacher Education Handbook for details. A criminal background check is a required part of the admission process.

### Admission to Student Teaching

During the junior year, students already admitted to the Professional Education Program must apply for admission to student teaching. Admission includes:

1. Completion of requirements specific to the major with the possible exception of the 400-level MAT course.
2. Eligibility to enter student teaching requires maintaining an overall GPA of 3.0 or better and a major GPA of 2.50 or better after being admitted to the concentration, and achieving a grade of C or better in each major course and in each professional course. After admission to the concentration, if a student fails to maintain an overall GPA of 3.0, the student has one semester to improve his or her grade point average. If a student receives a C- or lower in a professional course, the student is eligible to retake the course at its next offering. After admission to the concentration, if a student fails to maintain a major GPA of 2.50, the student has one semester to improve his or her grade point average. If a student receives a C- or lower in a major course, the student is eligible to retake the course at its next offering.

Application to student teaching forms are available online at https://soe.uncg.edu/services/office-of-student-services-advising/teacher-application/ Forms must be submitted by February 15 for student teaching in the spring of the following year. Student teaching assignments are usually made in schools within commuting distance of UNC Greensboro. Teacher Education students are individually responsible for expenses incurred during student teaching, including transportation. Note: Student Teaching is offered only in the spring semester.

### Overall Requirements

- 120 credit hours, to include at least 36 credits at or above the 300 course level;
- A minimum grade of C (2.0) is required for all CSC, MAT, and STA courses to count towards the major core and the concentrations;
- In the High School Licensure Concentration a minimum grade point average (GPA) of 3.0 overall for admission to the Professional Education Program is required.

Application for Teacher Licensure
An application for licensure should be filed with the School of Education Office of Student Services within two weeks of graduation. Students should be aware that the licensure process will take six weeks or longer after graduation to be completed. UNC Greensboro recommends for a teacher’s licensure those students who have completed the appropriate teacher education program, attained acceptable competencies, and whose work has been approved by the appropriate department.

Passing scores on the Praxis II (subject-area exams) are no longer required by the state to be recommended for licensure in secondary mathematics; however, successful completion of the Praxis II is required within three years of licensure. The Department of Mathematics and Statistics recommends that a student intending to be licensed take the Praxis II before graduation upon completion of their major courses. (Lateral-entry teachers are required to take the Praxis II.) To be licensed in North Carolina, students must meet the specific state requirements for
licensure in effect at the time of their application for licensure, including demonstration of technology competencies.

Statistics Concentration Requirements
- A minimum grade of C (2.0) is required for all CSC, MAT, and STA courses to count towards the major core and the concentration

- MAT 310 Elementary Linear Algebra
- MAT 311 Introduction to Abstract Algebra
- MAT 390 Ordinary Differential Equations
- MAT 395 Introduction to Mathematical Analysis

* To be taken before HSS 490

Recognition
Receive a Certificate of Disciplinary Honors in Mathematics; have that accomplishment, along with the title of the Senior Honors Project, noted on the official transcript; and be recognized at a banquet held at the end of the spring semester.

Honors Advisor
Contact Richard Fabiano at fabiano@uncg.edu for further information and guidance about Honors in Mathematics. To apply, visit http://honorscollege.uncg.edu/forms/disc-application.pdf

Accelerated B.A. or B.S. to M.A. in Mathematics
Application and Admission
Qualified UNC Greensboro undergraduate students who are pursuing the B.A. or B.S. in Mathematics may apply for admission to the Accelerated Master's Program (AMP) and the M.A. in Mathematics program. A cumulative undergraduate GPA of at least 3.5 based on at least 30 credits earned at UNC Greensboro is required. Applicants must have completed at least 60 credits and may not apply for admission to the AMP before the first semester of the junior year. All applicants must submit the Accelerated Master’s Program information when applying for admission to the M.A. in Mathematics, submitting all application materials excluding GRE scores.

Courses
Admitted students may apply up to 12 credits of graduate-level course work toward completion of both the undergraduate and graduate degree, providing that they earn a grade of B (3.0) or better in the course and fulfill graduate-level requirements. The graduate courses the student will take within the Accelerated Master’s Program in Mathematics must be approved by the Graduate Program Director, must be specified on the Accelerated Master’s Program request, and must be chosen from among the following courses:

<table>
<thead>
<tr>
<th>Code</th>

</tr>
</tbody>
</table>

Please consult with an advisor to determine how the courses taken at the graduate level will meet requirements in the bachelor's degree program. All degree requirements for the M.A. in Mathematics remain the same.

Mathematics, B.S.

Mathematics is an excellent major for the student whose immediate objective is to acquire a strong liberal arts education. Graduates may go on to work as an actuary with insurance companies; as a data analyst with pharmaceutical, biotechnology, or health care companies; as a quality assurance specialist with engineering companies; or in government agencies such as FDA, EPA, NSA, or USDA.

The B.S. program is more technically oriented than the B.A. program. It provides solid preparation for work or study in mathematics or a related field. Students wanting to go to graduate school are encouraged to consider the Accelerated Degree Program (ADP) (p. 404) to earn a B.S. and M.A. in 5 years. Strong students can graduate with Disciplinary Honors (p. 404).

An undergraduate degree in mathematics also provides excellent preparation for graduate studies in many areas, including actuarial sciences, computer science, economics, engineering, law, mathematics,
operations research, and statistics. The major can be specialized to allow preparation for any of these goals.

**Overall Requirements**
- 120 credit hours, to include at least 36 credits at or above the 300 course level
- Students planning to pursue graduate study should contact their advisor as soon as possible to prepare a plan of study
- A minimum grade of C (2.0) is required for all CSC, MAT, and STA courses to count towards the major core and the concentration.

Accelerated B.A. or B.S. to M.A. in Mathematics

Application and Admission

Qualified UNC Greensboro undergraduate students who are pursuing the B.A. or B.S. in Mathematics may apply for admission to the Accelerated Master’s Program (AMP) and the M.A. in Mathematics program. A cumulative undergraduate GPA of at least 3.5 based on at least 30 credits earned at UNC Greensboro is required. Applicants must have completed at least 60 credits and may not apply for admission to the AMP before the first semester of the junior year. All applicants must submit the Accelerated Master’s Program information when applying for admission to the M.A. in Mathematics, submitting all application materials excluding GRE scores.

Courses

Admitted students may apply up to 12 credits of graduate-level course work toward completion of both the undergraduate and graduate degree, provided that they earn a grade of B (3.0) or better in the course and fulfill graduate-level requirements. The graduate courses the student will take within the Accelerated Master’s Program in Mathematics must be approved by the Graduate Program Director, must be specified on the Accelerated Master’s Program request, and must be chosen from among the following courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 695</td>
<td>Mathematical Analysis</td>
<td>3</td>
</tr>
<tr>
<td>MAT 696</td>
<td>Mathematical Analysis</td>
<td>3</td>
</tr>
<tr>
<td>STA 631</td>
<td>Introduction to Probability</td>
<td>3</td>
</tr>
<tr>
<td>STA 632</td>
<td>Introduction to Mathematical Statistics</td>
<td>3</td>
</tr>
<tr>
<td>STA 661</td>
<td>Advanced Statistics in the Behavioral and Biological Sciences I</td>
<td>3</td>
</tr>
<tr>
<td>STA 662</td>
<td>Advanced Statistics in the Behavioral and Biological Sciences II</td>
<td>3</td>
</tr>
</tbody>
</table>

Please consult with an advisor to determine how the courses taken at the graduate level will meet requirements in the bachelor’s degree program. All degree requirements for the M.A. in Mathematics remain the same.

Mathematics Undergraduate Minor

Students with a major in another department can strengthen their degree by adding a Minor in Mathematics. A mathematics minor enhances your resumé by providing training in a field that employers value.

The Minor in Mathematics is designed for students who want to learn more about mathematical sciences in support of their personal interests or major area of study. It offers students the opportunity to explore connections among mathematical ideas and to further develop mathematical ways of thinking. While the major will often be in a field which makes significant use of mathematics, such as a science or economics, it may be in any area of study.

Program Requirements

- The minor in mathematics consists of at least 15 credit hours of work as specified below.
- Only MAT or STA courses in which grades of C or better (not C-) are earned will be counted toward the minor.
Select one of these two sequences of Calculus courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 191 &amp; MAT 292</td>
<td>Calculus I and Calculus II</td>
<td>6 or 8</td>
</tr>
<tr>
<td>or</td>
<td>MAT 196 &amp; MAT 296</td>
<td>Calculus A and Calculus B</td>
</tr>
</tbody>
</table>

Select one of the following courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 310</td>
<td>Elementary Linear Algebra</td>
</tr>
<tr>
<td>MAT 353</td>
<td>Introduction to Discrete Mathematics</td>
</tr>
</tbody>
</table>

Select 6 MAT or STA credits at the 200 level or above *

• The following courses are not eligible:
  • MAT 405
  • MAT 406
  • MAT 465

**Statistics Undergraduate Minor**

The Minor in Statistics is designed to enable students with an interest in statistics to deepen their knowledge and thus strengthen their major in another field. A statistics minor enhances your resumé by providing training in a field that employers value.

While the major will often be in a field which makes use of statistics, such as business, economics, a quantitative social science or a health science, it may be in any area of study.

**Program Requirements**

The minor in statistics consists of at least 15 credit hours of work as specified below. Only courses in which grades of C or better (not C-) are earned will be counted toward the minor.

• Minimum of 15 credits

<table>

**Applied Statistics, M.S.**

The Department of Mathematics and Statistics offers a Master of Science degree with a major in Applied Statistics. The Applied Statistics graduate program is designed to provide students with excellent data analytics training and problem-solving skills for employment in various settings such as the health and insurance sectors, government agencies, and business entities.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit the following documents with the application:

- Personal statement summarizing the applicant’s background and professional interest
- Three reference letters
- Official transcripts from all previous institutions

Applicants are required to have a bachelor’s degree in math, statistics, or related quantitative field from an accredited college or university or appropriately evaluated credentials for non-U.S. institutions. An undergraduate minimum GPA of 3.0 is required. TOEFL or IELTS scores are required for international applicants.

**Mathematics, M.A.**

The Master of Arts in Mathematics degree has six concentrations: Actuarial Mathematics, Data Analytics, Mathematics, Mathematical Foundations of Data Science, Mathematical Statistics, and Teaching College Mathematics. The programs provide advanced training in these areas. Although it is often a terminal degree, the M.A. degree can also be viewed as a natural step towards a Ph.D. degree.

Students who plan to continue to the Ph.D. in Computational Mathematics (p. 410) program are urged to elect the concentration in Mathematics. They may then use the doctoral qualifying examinations to satisfy the comprehensive examination requirement in the non-thesis option for the M.A. degree.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a 500-700 word Personal Statement to be considered for admission.

### Degree Program Requirements

**Required:** 30 credit hours

#### Actuarial Mathematics Concentration

**Required:** 30 credit hours

The M.A. in Mathematics with a concentration in Actuarial Mathematics provides students wishing to pursue a career in actuarial science a solid foundation in Applied Probability and Statistical Models and their applications in the area of actuarial science. It is designed to help students pass the preliminary actuarial exams while providing educational experiences related to the actuarial field. Students will be encouraged to seek internship opportunities during the summer. The concentration requires 30 credit hours and is offered with a project. At least 15 credits must be at the 600-level or above.

The target student population for this program will be students with a bachelor’s degree in mathematics, statistics, economics, finance, or a related field who want to pursue an actuarial industry to advance their career.
The concentration in Data Analytics provides students with advanced analytical training to develop their ability to draw insights from big data, including: data collection, preparation and integration, statistical methods and modeling, and other techniques for analyzing complex data. The program is highly applied in nature, integrating project-based learning, simulations, case studies, and specific electives addressing the analytical needs of various industry sectors. The concentration requires a minimum of 30 credit hours including either a project (3 credits) or thesis (6 credits) option.

Data Analytics Concentration

Required: 30 credit hours

The concentration in Data Analytics provides students with advanced analytical training to develop their ability to draw insights from big data, including: data collection, preparation and integration, statistical methods and modeling, and other techniques for analyzing complex data. The program is highly applied in nature, integrating project-based learning, simulations, case studies, and specific electives addressing the analytical needs of various industry sectors. The concentration requires a minimum of 30 credit hours including either a project (3 credits) or thesis (6 credits) option.

Total Credit Hours 30

1. A student may prepare a thesis based on the investigation of a topic in statistics. A thesis director will be appointed by the Department Head after consultation with the student and the Graduate Program Director. Students will include 6 credits of thesis (STA 699) or 3 credits of STA 698 Project in Statistics and 3 credits of STA 699 in the 30 credits required for the concentration. An oral examination on the thesis is required.

2. A student who does not prepare a thesis must complete a project under the direction of an advisor chosen by the Graduate Program Director in consultation with the student. 3 credits of STA 698 Project in Statistics will be included in the 30 credits required for the concentration.

3. A student may pass a written comprehensive examination of their program. Please consult with the Graduate Program Director for information concerning the comprehensive examination. Under this option, 30 credits of course work is required.
of STA 698 Project in Statistics and 3 credits of STA 699 in the required 30 credits. An oral examination on the thesis is required.

**Project Option (3 credits)**  
A student who does not prepare a thesis must complete a project under the direction of an advisor chosen by the Graduate Program Director in consultation with the student. 3 credits of STA 698 Project in Statistics will be included in the 30 credits required for the concentration.

**Comprehensive Exam Option (0 credits)**  
A student may pass a written comprehensive examination of their program. Please consult with the Graduate Program Director for information concerning the comprehensive examination. Under this option, 30 credits of course work is required.

**Mathematics Concentration**

**Required:** 30 credit hours

The Mathematics concentration offers a thesis option, a project option and a comprehensive exam option. Each option requires 30 credit hours. At least half the work credited towards the degree must be in 600-level or above courses.

1. Students who have had appropriate algebra or analysis courses as undergraduates may be exempted from this requirement upon approval by the Graduate Program Director. In this case, these 3 credits must be replaced by 3 credits chosen in consultation with the Graduate Program Director.

2. At least 6 of these credits must constitute a complete year-long sequence.

3. With prior approval of the Graduate Program Director.

4. A student may prepare a project based on in-depth investigation of a topic in mathematics. A project director will be appointed by the Department Head after consultation with the student and the Graduate Program Director. Students may include up to 6 credits of thesis (MAT 699 or STA 699) in the 30 credits required for the concentration. An oral examination on the thesis is required.

5. A student who does not prepare a thesis must pass a written comprehensive examination of their program. Please consult with the Graduate Program Director for information concerning the comprehensive examination.

### Electives (12-18 credits)

Select 12-18 credits of electives from MAT and STA 600-level or higher courses

### Capstone Experience (6, 3, or 0 credits)

Select one of the following options:

- **Thesis Option (6 credits)**
  - STA 699 Thesis
- **Project Option (3 credits)**
  - STA 698 Project in Statistics

*With prior approval of the Graduate Program Director. At least 9 credits must be selected from MAT and STA graduate courses. At most, 6 credits may be selected from interdisciplinary courses in CSC, ECO, ERM, IAC, IAF, IAL, and ISM.*

### Teaching College Mathematics Concentration

**Required:** 30 credit hours

The concentration in Teaching College Mathematics is intended for students wishing to pursue a career in teaching at the community college level. This 30 credit hour concentration is offered with a project option or an exam option. At least half of the required credits (15 out of the 30) must be taken at the 600-level or above. Candidates must complete at least 18 credits of graduate course work with an MAT prefix. The concentration has three components: The Mathematics and Statistics core courses; Pedagogy, Educational Research, and Higher Education; and the Capstone Experience (Project or Exam).

### Mathematics and Statistics Core Courses (18 credits)

Select at least 18 credits from graduate-level MAT or STA courses, including at least one two-semester sequence from the following:

<table>
<thead>
<tr>
<th>Code</th>

</tbody>
</table>

### Project or Comprehensive Exam (Capstone Experience) (3 or 0 credits)

Select one of the following options:

- **Project Option (3 credits)**
  - MAT 687 Project in Mathematics
  or STA 698 Project in Statistics
- **Comprehensive Exam Option (0 credits)**

Total Credit Hours

1 Excluding MAT 503, MAT 513, MAT 601, MAT 603, MAT 699, and STA 699.

Students who select the project option must prepare a project on the investigation of a topic in mathematics or statistics. A project director will be appointed by the Department Head in consultation with the students the Graduate Program Director. Candidates may include up to 3 credits of MAT 687 or STA 698 in the required total for the concentration.

A student who does not prepare a project must pass a written comprehensive examination of their program. Please consult with the Graduate Program Director for information concerning the comprehensive examination.

Project or Comprehensive Exam (Capstone Experience)
Each student must elect to complete a project or comprehensive exam. Both options require 30 credits total.

**Accelerated B.A. or B.S. to M.A. in Mathematics**

**Application and Admission**

Qualified UNC Greensboro undergraduate students who are pursuing the B.A. or B.S. in Mathematics may apply for admission to the Accelerated Master's Program (AMP) and the M.A. in Mathematics program. A cumulative undergraduate GPA of at least 3.5 based on at least 30 credits earned at UNC Greensboro is required. Applicants must have completed at least 60 credits and may not apply for admission to the AMP before the first semester of the junior year. All applicants must submit the Accelerated Master’s Program information when applying for admission to the M.A. in Mathematics, submitting all application materials excluding GRE scores.

**Courses**

Admitted students may apply up to 12 credits of graduate-level course work toward completion of both the undergraduate and graduate degree, provided that they earn a grade of B (3.0) or better in the course and fulfill graduate-level requirements. The graduate courses the student will take within the Accelerated Master’s Program in Mathematics must be approved by the Graduate Program Director, must be specified on the Accelerated Master’s Program request, and must be chosen from among the following courses:

<table>

Please consult with an advisor to determine how the courses taken at the graduate level will meet requirements in the bachelor’s degree program. All degree requirements for the M.A. in Mathematics remain the same.

**M.A. Doctoral Track**

The M.A. Doctoral Track offers exceptionally well-qualified applicants the opportunity to gain admission to the master’s and doctoral programs simultaneously. This program is designed for students who would like to obtain their M.A. and then proceed directly to the Ph.D. program. Students accepted into the M.A Doctoral Track must fulfill all requirements for the M.A. and the Ph.D. and will earn both degrees. Students not accepted into the M.A. Doctoral Track may still be accepted into the M.A. only program.

**Computational Mathematics, Ph.D.**

In 2008, UNCG became the only university in the North Carolina system to offer a Ph.D. in Computational Mathematics. Following the advent of the computer, computational mathematics has emerged as an exciting, rapidly growing area of mathematics. Research in computational mathematics brings together computing power and theoretical mathematics. This challenging and rigorous program culminates in the defense of an original dissertation that is suitable for publication in a refereed journal. Upon completion of this degree, the successful student will be capable of producing new results in their chosen area of research.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a 500-700 word personal statement to be considered for admission.

**M.A. Doctoral Track**

The M.A. Doctoral Track offers exceptionally well-qualified applicants the opportunity to gain admission to the master’s and doctoral programs simultaneously. This program is designed for students who would like to obtain their M.A. and then proceed directly to the Ph.D. program. Students accepted into the M.A Doctoral Track must fulfill all requirements for the M.A. and the Ph.D. and will earn both degrees. Students not accepted into the M.A. Doctoral Track may still be accepted into the M.A. only program.

**Ph.D. Track**

Students who enter with an M.A. in Mathematics are required to earn a minimum of 48 credit hours, pass the preliminary examination, obtain approval of a dissertation topic, and successfully defend their dissertation. Students entering with other advanced degrees will have their transcripts individually evaluated by the Graduate Program Director to establish the minimum course work required.

**Degree Program Requirements**

**Required: 48 credit hours minimum**

**Course Work (27-30 credits)**

Select 27-30 credits from advanced courses in mathematics, statistics, and related areas

**Dissertation (18-21 credits)**

**Total Credit Hours** 48

* Courses at the 600 and the 700 level. The selection of course work must be approved by the Graduate Program Director.
Required Milestones*

- Residency (Immersion)
- Research Competency
- Plan of Study
- Comprehensive Exam (Written & Oral)
- Dissertation Proposal
- Admission to Candidacy
- Dissertation Defense
- Filing the Final Approved Dissertation

*General information about milestones for doctoral programs is available in Section III (p. 807) of the Graduate Policies (p. 788) page in the University Catalog. For information about how milestones are accomplished for a specific program, please refer to the doctoral program’s handbook.

Statistics, Doctoral Minor

The Doctoral Minor in Statistics is designed for Ph.D. students from a wide range of backgrounds to add a minor in statistics to their transcript. In today’s world of data analytics and big data, being able to collect and analyze data is even more critical than ever before. Our department offers courses in both theory and application of statistical ideas and techniques to help students gain an edge in the workplace. Adding the Doctoral Minor in Statistics to your transcript will enhance your resume, your job options, and the depth and breadth of your future research projects.

Statistics, Post-Baccalaureate Certificate

The Post-Baccalaureate Certificate in Statistics provides statistical training for persons who wish to enhance their knowledge of statistics but do not wish to pursue a formal degree and for professionals whose interests require a knowledge of statistics beyond the undergraduate level. The objective of the certificate is to offer a structured introduction to the basic ideas of graduate level statistical analysis.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

Kimberlianne Podlas, Department Head
Frank Donaldson, Director of Undergraduate Studies

The Department of Media Studies offers a Bachelor of Arts in Media Studies. The Media Studies major is an integrated program of study that focuses on the creative production and critical consumption of a range of moving-image media. Majors have opportunities to study and produce narrative and documentary film, interdisciplinary media productions, fiction and non-fiction television, and news and video journalism. Students can customize their program of study, drawing from courses on various aspects of film, video, and digital media production; screenwriting; media theory, history, and criticism; and news reporting and analysis. This is enhanced by providing students with co-curricular opportunities to participate in on-campus media productions, the student-run campus radio station (WUAG), and other client-based and internship programs.

The Department also offers two minors: a Media Studies minor and a Radio minor.

Criteria for Continuing in the Media Studies Major

Continuation in the Media Studies major is contingent upon the following requirements:

1. Only grades of C or better (C- is not accepted) taken in MST courses will count toward completion of a major or minor.
2. Adherence to all building and equipment policies and procedures.
3. Professional conduct and treatment of program equipment, including prompt payment of any charges assessed for equipment damage.
4. Compliance with all university regulations including the Academic Honor Policy. Plagiarism, submitting the same work to more than one class, falsified attendance records, etc., are grounds for dismissal from the major.

Overall Requirements

• 120 credit hours, to include at least 36 credits at or above the 300 course level
• Minimum 36 credits in Media Studies (all levels).
• Students must take the core requirements (12 credits) and eight additional courses (24 credits).

Philosophy

College of Arts and Sciences

239 Curry Building
336-334-5059
www.uncg.edu/phi

Heather Gert, Department Head and Director of Undergraduate Studies

The Department of Philosophy offers courses on the fundamental problems and methods of philosophy, the classics of philosophical literature, and the major figures in the history of philosophy.

Philosophy courses fall into natural groups. See Philosophy Course Groups as listed in the Philosophy Major.

Groups A and B are useful preparation for careers in law and government, and the department offers a major in philosophy with a Prelaw concentration. Group B provides knowledge and skills vital to careers in science and medicine. Group C relates philosophy to other humanistic disciplines and is vital to a liberal education. Group D is necessary for advanced work in philosophy.

All courses under 300 and many higher level courses are open to students without previous training in philosophy. Prerequisites for courses may be waived at the discretion of the instructor. Students are encouraged to begin work in Philosophy by taking PHI 111, PHI 115, PHI 119, PHI 341, PHI 342, or PHI 310.

The department sponsors The Great Conversation, a series of talks by UNC Greensboro Philosophy faculty and other distinguished scholars. Lectures by philosophers from other institutions are also offered. There is an informal philosophy club that is open to all undergraduates, regardless of major. The department also holds a biannual symposium on a topic of current research in philosophy (when the budget allows).

We are now able to offer financial assistance to Philosophy majors planning to study abroad through our Wyatt Lee Martin Memorial Fund. Please contact the Department for information about this opportunity.

There is a chapter of the national philosophy honor society, Phi Sigma Tau, at UNC Greensboro. Qualified students are invited to join this chapter.

Each March the department considers submissions from undergraduates for the Roger Schwirck Award for Excellence in Philosophy.

• Philosophy, B.A. (p. 415)
• Philosophical Ethics Undergraduate Minor (p. 416)
• Philosophy Undergraduate Minor (p. 417)
• Philosophy Second Academic Concentration (p. 417)

Philosophy, B.A.

The Philosophy major is recommended for students wishing a basic education in the liberal arts, students preparing for a career in law or government, and students contemplating graduate study in philosophy or a related discipline. Students who would like to major in philosophy but whose interests or career goals require substantial work in another field are encouraged to consider the option of a second major.

The Prelaw concentration provides a strong preparation for law school through courses in logic, epistemology, ethics, political philosophy, and the philosophy of law. These courses cover a broad range of skills and knowledge that are of fundamental importance in the field of law.

Both the Philosophy, B.A. major and the Prelaw concentration are available in traditional as well as online formats.

Physics and Astronomy

College of Arts and Sciences

321 Petty Building
336-334-5844
http://physics.uncg.edu

Edward Hellen, Department Head
Ian Beatty, Director of Undergraduate Studies

Physics and astronomy have long been recognized as constituting the basis for study, research, and understanding in the natural sciences. The undergraduate major program seeks to provide the student with a broad and general background in all areas of physics. With this background, the student should be able to adapt readily to the specialized requirements of a job in industry, as a teacher, or to the specialized graduate study in physics or a number of related fields. Opportunities are provided through electives to sample the concerns of many of these related fields.

The effort required for a non-scientist to understand our technological society is formidable, but essential if an educated man or woman is to intelligently understand and affect our natural surroundings. Recognizing this, the Department of Physics and Astronomy offers for the non-major, with no prerequisites, courses with an overview of physics as well as special interest courses dealing with topics of immediate concern.

Its faculty members are involved with students in research in computer simulation and computational physics, biophysics, observational astrophysics and digital image analysis, and science education research. The department uses and administers the Three College Observatory, located in a nearby dark-sky location. This observatory contains the state's largest (32 inch) reflecting telescope, along with a low light-level image acquisition system.

Non-Major Courses

Courses with no prerequisites that offer an overview of physics as well as special interest courses dealing with topics of immediate concern.

Physics, B.A.

The Physics Major is a firm basis for a career in medicine, law, business, sales, engineering, teaching, computing, biophysics, environmental science, or physics.

Students who elect physics as a major must complete specific courses no later than the end of their sophomore year. Any student who desires to major in physics should contact the head of the department as soon as possible so a proper schedule can be planned.

Specific Courses

Students who elect physics as a major must complete these courses no later than the end of their sophomore year.

Political Science

College of Arts and Sciences

324 Curry Building
336-334-5989
www.uncg.edu/psc (http://www.uncg.edu/psc/)

Gregory McAvoy, Department Head
Bill Crowther, Director of Graduate Studies
Hunter Bacot, Graduate Program Director

Political science is the study of the government, politics and policies of the United States and other nations; of levels of government, such as city and state, within those nations; and of relationships among nations. It studies the political behavior, attitudes, and ideas of groups and individuals.

All 100- and 200-level courses are introductions to the study of political science. Beginning students are urged to take any 100- or 200-level course in which they may be interested.

Students seeking electives in political science may select from almost the entire range of offerings. Non-majors are urged to select their electives widely to satisfy individual intellectual interests and are not restricted to 100- and 200-level courses.

Internships and field experiences are available to both majors and non-majors in national government, nonprofit agencies, public administration, and electoral politics.

G Graduate-level faculty

• Political Science, B.A. (p. 422)
• Political Science Undergraduate Minor (p. 424)
• Political Science Second Academic Concentration (p. 424)
• Public Affairs, M.P.A. (p. 424)
• Political Science, M.A. (p. 426)
• Nonprofit Management, Post-Baccalaureate Certificate (p. 427)
• Urban and Economic Development, Post-Baccalaureate Certificate (p. 427)

Political Science, B.A.

The Political Science Major is suitable for students with career interests in law, politics, or governmental service (at local, state, or federal levels), as well as for students who have more general intellectual interests in government, politics, and international relations as part of their effort to obtain a liberal education or to prepare for careers in business or nonprofit work.

Students should take a broad variety of courses in the major to become familiar with the diversity of topics and methods used by contemporary political scientists throughout the world. Majors should consult early with their faculty advisors to plan programs most suitable to their individual interests and needs.

Students seeking teacher licensure should see School of Education Licensure Programs. Licensure in social studies is available for political science majors. Additional hours may be required for completion of the degree.

The American Politics concentration provides Political Science majors with sufficient breadth and depth of knowledge in American political institutions and behavior to give students the academic background necessary to succeed in related jobs and professions and to prepare them for advanced study in this field.

The Global Politics concentration provides Political Science majors sufficient breadth and depth of knowledge in international relations and comparative politics to give students the academic background necessary to succeed in related jobs and professions and to prepare them for advanced studies in these fields.

The Prelaw concentration is designed for political science majors with a strong interest in law. The concentration provides majors with a breadth and depth of knowledge of legal issues and legal research, rigorously prepares them for advanced studies in law, and trains them for the legal professions using a broad variety of skills relating to legal institutions and particular subject areas related to law.

The Public Affairs concentration provides Political Science majors sufficient breadth and depth of knowledge in public policy, public affairs, and public administration to give students the academic background necessary to succeed in related jobs and professions and to prepare them for advanced studies in these fields.

Overall Requirements

• 120 credit hours, to include at least 36 credits at or above the 300 course level

### Public Affairs Concentration Requirements

In partial fulfillment of the major requirement of 18 credits at the 300 level or higher, the Public Affairs concentration requires the completion of 12
Political Science Undergraduate Minor

The student should select courses to best suit intellectual and career interests, in consultation with a member of the Political Science faculty.

Program Requirements
• Minimum of 15 credit hours

Political Science Second Academic Concentration
The second academic concentration in Political Science is designed specifically for Elementary Education Majors.

Requirements
• Minimum of 18 credit hours

Public Affairs, M.P.A.
The Master of Public Affairs requires 40 credit hours and is intended for persons interested in public service careers in local, state, and federal agencies; private, nonprofit agencies and voluntary organizations; public affairs offices in private businesses; and legislative staff positions. It provides professional training designed to meet current demands in public service positions and build the foundation for long-term development and advancement in a public service career. The M.P.A. program is accredited by the Network of Schools of Public Policy, Affairs and Administration (NASPAA).

The program provides a foundation in the major substantive areas of public affairs: policy-making and policy analysis; administration, management and organizational behavior; quantitative analysis and evaluation; and the political context of public administration. Beyond these areas, students can declare a concentration (Community and Economic Development; Local Government Management; or Nonprofit Management) or take a mix of electives in the department and up to 9 credits in other departments (e.g., geography, conflict and peace studies, public health education).

Students with no work experience in public or nonprofit agencies must complete an additional 3-credit supervised internship, along with a field research project.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).
In addition to the application materials required by The Graduate School, applicants must submit a personal statement. See www.uncg.edu/mpa/ (http://www.uncg.edu/mpa/) for the form.

GRE required, though the MAT may be substituted if the applicant has been out of college 3 or more years. The test requirement is waived for applicants with a 3.5 or better overall undergraduate GPA from an institution accredited by the Accrediting Commission for Community and Junior Colleges (ACCJC) Western Association of Schools and Colleges, the Higher Learning Commission (HLC), the Middle States Commission on Higher Education (MSCHE), the New England Commission of Higher Education (NECHE), the Northwest Commission on Colleges and Universities (NWCCU), the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC), or the WASC Senior College and University Commission (WSCUC).

Degree Program Requirements

Required: 40-43 credit hours

Prerequisite

The program requires students to have completed an undergraduate course in American government, politics, or public policy.

Core Courses

The eight required courses are to be taken in approximately the following order, when possible. Consult an advisor for specific sections of 511.

<table>
<thead>
<tr>

Total Credit Hours 40

* Students may take up to 9 credits from approved graduate courses in other departments.

Experiential Component

Students not having approved prior work experience will complete a supervised internship (PSC 695) in a public or nonprofit agency for 3-6 credits, depending on the duration of the placement, together with a directed field study (PSC 696). Students with prior work who desire experience in a new area of public affairs may choose to complete an internship as well.

Comprehensive Examination (Capstone Experience)

The required exam consists of two parts:

1. A written essay examination (based on core courses) when halfway through the graduate program.
2. A summary of learning paper completed near the end of graduate work.

Community and Economic Development Concentration

This concentration combines the M.P.A. core requirements with courses emphasizing the knowledge and skills to prepare students to work in organizations focusing on community and economic development activities. The prerequisite, comprehensive exam, and the experiential component are the same as for the M.P.A.

Total Credit Hours 21-24

1 Students must complete all of the M.P.A. core courses including the required research tools course. Students will need to consult with an advisor for specific section of 511. They must also complete 15 credits of course work related to community and economic development skills and knowledge.

2 With the approval of the Graduate Program Director, students may select additional course work from political science or other departments, such as geography, sociology, business administration, or economics.

3 An internship is required for students who have no prior experience in a professional or management position in community and economic development.
Local Government Management Concentration

This concentration combines the M.P.A. core requirements with courses emphasizing the knowledge and skills to prepare students to work as local government managers. The prerequisite, comprehensive exam, and experiential component are the same as for the M.P.A.

**Total Credit Hours**

1

*Students must complete all of the M.P.A. core courses (23 credits), including the required research tools course. For the concentration, they must complete 6 credits of required course work related to local government management skills and knowledge.*

2

*9 of the elective credits together with the 6 credits of required concentration courses listed above complete a 15-credit concentration in local government management.*

3

*An internship is required for students who have no prior experience in a professional or management position in a government agency.*

Electives

Recommended courses include:

<table>
<thead>
<tr>
<th>Code</th>

**M.P.A. with Post-Baccalaureate Certificate in Gerontology**

Students with an interest in public service work related to the elderly and meeting the needs of an aging society may complete elective course work in the M.P.A. degree by jointly completing the Post-Baccalaureate Certificate in Gerontology.

Political Science, M.A.

The M.A. in Political Science requires 30 credit hours and is for persons who wish to teach in community colleges and secondary schools or continue graduate study in a doctoral program or a professional school.

Course offerings and the thesis focus on public administration and policy.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by the Graduate School, applicants must submit a personal statement.

**Comprehensive Examination (Capstone Experience)**

A written comprehensive examination is required when 18 credits of course work have been completed.

**Nonprofit Management, Post-Baccalaureate Certificate**

The Post-Baccalaureate Certificate in Nonprofit Management requires 15 credit hours and is designed to meet the training needs of nonprofit professionals. Certificate graduates will be prepared for management positions in the nonprofit sector, including positions in human service agencies, foundations, or professional associations. The certificate program may be useful to government and business professionals who have significant voluntary or nonprofit agency responsibilities.

The program combines core courses and electives that allow a student some tailoring to specific interests with courses available online and/or on campus. At least 12 credits must be taken in the M.P.A. curriculum. A portfolio demonstrating skills and competencies acquired through course work in the program must be submitted and approved for completion of the certificate. If the portfolio is judged unacceptable, no more than one additional attempt to satisfy the requirement is permitted. If the student fails to meet the department’s minimum criteria for the portfolio on the second attempt, The Graduate School will be notified and will send the student a letter of dismissal.

For information regarding deadlines and requirements for admission, please see the [Guide to Graduate Admissions](https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a personal statement and a resume.

**Urban and Economic Development, Post-Baccalaureate Certificate**

The Post-Baccalaureate Certificate in Urban and Economic Development requires 18 credit hours and is offered jointly by the departments of Political Science and Geography, Environment, and Sustainability. It is designed to meet the training needs of those currently working in or planning to work in urban planning or community and economic development.

This certificate requires courses emphasizing the knowledge and skills to prepare students to work in organizations focusing on urban planning and community economic development activities in government and nonprofit organizations.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a personal statement.

Psychology

College of Arts and Sciences

296 Eberhart Building
336-334-5013
https://psy.uncg.edu/

Stuart Marcovitch, Department Head
Peter Delaney, Director of Undergraduate Study
Ethan Zell, Graduate Program Director

The Department of Psychology approaches its subject matter as a scientific discipline with emphasis placed on understanding behavior and cognition through experimentation and observation. We offer broad training in psychology that can prepare students for the working world and graduate training in most major branches of psychology. We offer specialized training in the major areas of psychology, including clinical psychology, cognitive psychology, cultural psychology, social psychology, personality psychology, developmental psychology, biological psychology, and quantitative and research skills.

At both the undergraduate and graduate levels, the major objectives of the curriculum include:

1. To provide an understanding of the use of scientific methodology in psychological research at both intermediate and advanced levels. This understanding will include a familiarity with the design of observational, survey, and experimental studies; principles of inference from scientific data; the logic of statistical testing; and the scientific literature.
2. To provide knowledge in primary areas of the discipline and how they interconnect to explain behavior through an array of required intermediate-level core courses.
3. To develop depth of understanding in areas of the discipline specific to students' individual interests.
4. To ensure that students can write clearly and effectively in an appropriate professional style.
5. To provide the combination of a sound scholarly foundation with methodological and practical skills that will enable the student to function in a variety of academic, research, and service settings.

Teacher Licensure
Students who wish to seek teacher licensure should see School of Education Initial Licensure Programs (p. 619) as well as below. Such persons should contact the departmental Director of Undergraduate Studies as early as possible.

Graduate Training Programs
The Psychology Department offers two graduate training tracks  a terminal M.A. in general experimental psychology and a Ph.D. with specializations in clinical, cognitive, developmental, and social psychology. Students may apply to either or both tracks. The M.A. degree is earned as part of the doctoral programs. The clinical program has been continuously accredited by the American Psychological Association since its initial accreditation in 1982. The next site visit is in 2021.

The goal of the terminal M.A. program is the conferral of the Master of Arts degree. Those who successfully complete the terminal M.A., however, may apply to the Ph.D. program. In addition, students with master's degrees from other institutions are welcome to apply to the Ph.D. program. Past work from other M.A. programs is evaluated to determine which requirements of our program have been satisfied.

The Psychology Department has additional policies and procedures that are described in the Psychology Graduate Student Handbooks, which are accessible from the Graduate Program Overview (https://psy.uncg.edu/graduate/graduate-overview/) page.

The graduate program has four major areas of concentration:

• Clinical (Eddington, Fields-Olivieri, Herndon, Jensen, Keane, Mendez Smith, Nelson-Gray, Stein, Vrshek-Schallhorn, and Wisco)—includes research training and clinical training in a variety of service settings.
• Cognitive (Delaney, Kane, Marcovitch, Touron, Wahlheim, and Wiley) — includes basic research in human memory, attention, cognition, and language.
• Developmental (Boseovski, DeJesus, Keane, Marcovitch, Nancekivell, Touron, and Wahlheim)—includes basic research in behavioral, cognitive, language, and social development in infant, child, adolescent, and adult humans and in animals.
• Social (Baker, Boseovski, Cassidy, Silvia, and Zell)—includes basic research in social phenomena, e.g., aggression, attitudes, communication, gender relations, intergroup comparison, and social competence.

The Psychology Major provides a background for entry into a variety of professions other than psychology where understanding the principles of behavior and cognition is important. It also provides the necessary background for individuals planning to do graduate work in either basic or applied psychology.

The curriculum provides students with a structured, sequenced exposure to six core areas in psychology. These are: behavior analysis; biopsychology; clinical psychology; cognitive psychology; development psychology; and, social psychology. Majors must sample from at least four domains at the intermediate (200) level, but can choose a narrower or broader sampling of upper level courses. The curriculum also affords hands-on experience with scientific psychology via laboratory courses and field experiences.

The Psychology Major for the Bachelor of Science degree serves students who want additional training in science, math, statistics, and research methods relative to the Bachelor of Arts degree.

Overall Requirements

- 120 credit hours, to include at least 36 credits at or above the 300 course level
- Minimum 35 credits in psychology.
- Students must earn a grade of at least C- in all psychology courses required for the major.

HIS 440 Principles and Practices for Teaching History

Choose one additional 300-level history course.

The following courses must be taken in a specified sequence, terminating in student teaching in the spring semester of the senior year. See the online Secondary Education Handbook for more information.

TED 435 Literacy in the Content Area
ERM 405 Measurement and Assessment in Teaching
TED 444 Educational Psychology for the Secondary Grades
TED 445 Human Diversity, Teaching, and Learning
TED 453 Teaching Practices and Curriculum in Social Studies
TED 465 Student Teaching: Secondary School
TED 466 Student Teaching Seminar

Disciplinary Honors in Psychology

Requirements
- At least 12 credit hours in psychology as detailed below.
- 3.30 or greater cumulative GPA at graduation
- 3.30 or greater GPA in Psychology
- A declared Psychology Major

Code Title Credit Hours

Select 6 credits from the following:

PSY 401 Academic Writing in Psychology 6
PSY 410 Intermediate Psychological Statistics
PSY 495 Senior Honors Seminar
PSY 415 History and Systems of Psychology
PSY 419 Special Topics in Psychology *

Both courses below in the order listed 6

PSY 493 Honors Independent Study
HSS 490 Senior Honors Project

* These courses may be taken more than once for credit to satisfy this requirement.

Recognition

The designation "Completed Disciplinary Honors in Psychology" and the title of the Senior Honors Project will be printed on the student’s official transcript.

Honors Advisor

Contact Janrt Boseovski at jjboseov@uncg.edu for further information and guidance about Honors in Psychology.

Psychology, B.S.

The Psychology Major provides a background for entry into a variety of professions other than psychology where understanding the principles of behavior and cognition is important. It also provides the necessary background for individuals planning to do graduate work in either basic or applied psychology.

The curriculum provides students with a structured, sequenced exposure to six core areas in psychology. These are: behavior analysis; biopsychology; clinical psychology; cognitive psychology; development psychology; and, social psychology. Psychology, M.A.

General Experimental Psychology Concentration

The terminal M.A. in Psychology with a concentration in General Experimental Psychology requires 36 credit hours.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

For information on the application and admission, please see https://psy.uncg.edu/graduate/applying/.

Degree Program Requirements

Required: 36 credit hours

Degree requirements for students in the terminal M.A. program in Psychology with a concentration in General Experimental Psychology are identical to those for students in the M.A. Doctoral Track (a M.A. to Ph.D. program) in Psychology with a Cognitive, Developmental, Social, or General Experimental concentration, with one exception: For students in M.A. Doctoral Track programs, only courses with grades of B or better may count toward the M.A. degree. Grades below B in courses to be counted toward the M.A. degree must be replaced either by re-taking the same course or by earning a grade of B or better in another course that the Department Head formally determines to be an equivalent course (upon consultation with the instructor(s) of the course in the Psychology Department).

Required:

M.A. Degree Program Requirements

Required: 45 credit hours

* Courses selected from other departments require the permission of the Graduate Program Director.

Psychology, M.A./Ph.D.

Clinical Psychology Concentration

Clinical students in the M.A./Ph.D. track are required to satisfy all requirements for the M.A. degree in clinical psychology as well as all requirements for the Ph.D. degree. A minimum of 45 credit hours is required for the M.A. The Ph.D. in Clinical Psychology requires 105 credit hours including internship hours (2 credits). All credits taken to satisfy the M.A. degree may be applied toward the Ph.D. degree requirements.

Students who receive an M.A. in Clinical Psychology from another institution will submit syllabi, thesis document, and other materials for review. The students will work closely with their advisor and the Director of Clinical Training to develop their doctoral plan of study. All courses taken at another institution are reviewed for course equivalence with our required courses. If deemed equivalent, the course requirement is waived. In addition, the thesis is reviewed by a committee of three faculty, and, if viewed as comparable in scope and theoretical focus to the UNC Greensboro thesis requirement, no additional thesis work will be required.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

For information on the application and admission, please see https://psy.uncg.edu/graduate/applying/.

It is important to note that the department does not accept students who seek a terminal M.A. degree in Clinical Psychology, only those seeking a Ph.D.

For clinical program students, course grades lower than a B cannot count toward either the M.A. degree or Ph.D. degree; these courses must be re-taken, or substitute courses taken. Course equivalents are decided according to departmental policy, which varies by course category (e.g. tools courses vs. clinical courses).

Total Credit Hours: 60

1. Specific courses fulfilling this requirement are individually planned for each student in consultation with the doctoral planning committee and are determined in part by the student’s pre-matriculation competencies and research and career goals. Courses offered at sister institutions may also fulfill this requirement as deemed by the planning committee.

2. Or another quantitative course approved by the doctoral planning committee. If only 3 credits of quantitative course work are taken (from the list of courses provided in the catalog for this requirement or a comparable course approved by the planning committee), then the student must also take 3 credits of PSY 735 (COURSE INACTIVE) covering a contemporary issue in the discipline of Psychology (i.e. covering Discipline-Specific Knowledge) or the integration of two or more areas within Psychology or a seminar outside the department approved by the committee. If 6 credits of quantitative course work are taken, then the requirement is satisfied.

3. 4 credits minimum must be completed in addition to the M.A. requirement, 1 credit in each of four semesters.

4. In addition to the credits earned for the M.A.

5. 1 credit in each of two semesters.

Discipline Specific Knowledge (Basic and Advanced integrative)

Coverage of basic knowledge in five core areas of Psychology (Biological, Developmental, Social, Cognitive, and Affective) and advanced integration of this knowledge across at least two of these areas is evaluated and met through a variety of ways including: 1) formal graduate level course work which builds on a student’s pre-matriculation experiences and competencies, 2) laboratory based research, including the thesis and dissertation, and 3) preliminary examination paper and oral defense. In some cases, pre-matriculation competencies may fulfill the basic foundational requirement for one or more areas. Regardless of the specific way in which a student meets these requirements outside of formal course work, a minimum of two graduate-level courses are required to complete this requirement.

Students select from a menu of courses, based on their pre-matriculation experiences and in consultation with the planning committee. At least two courses, each incorporating at least two of the basic core areas and including integration across the area, are required. In choosing from an array of courses, coverage of at least four different core areas must be attained. Students will obtain foundational coverage in the fifth basic area through other educational means (e.g., thesis prelim or dissertation, pre-matriculation competencies with graduate-level evaluation, etc.). Regardless of means of acquiring advanced integrative knowledge, all educational experiences are evaluated at the graduate level.

Specific courses fulfilling this requirement are individually planned for each student in consultation with the doctoral planning committee and are determined in part by the student’s pre-matriculation competencies and research and career goals.

Additional Quantitative Course/Seminar Requirement for the Ph.D. Degree

Note that a minimum of 3 credits must be in the Quantitative area. If 6 credits are taken in Quantitative, no additional seminar is required. If only 3 credits are taken in the Quantitative area, the student must supplement their course work with an additional seminar (a PSY 735 (COURSE INACTIVE) course either in clinical or within another area(s) of Psychology, or an outside seminar approved by the doctoral planning committee).

Required Milestones*

- Residency (Immersion)
- Plan of Study
- Research Competency
• Comprehensive Exam (Written & Oral)
• Dissertation Proposal
• Admission to Candidacy
• Dissertation Defense
• Filing the Final Approved Dissertation

* General information about milestones for doctoral programs is available in Section III (p. 807) of the Graduate Policies (p. 788) page in the University Catalog. For information about how milestones are accomplished for a specific program, please refer to the doctoral program's handbook.

**Psychology, Ph.D.**

**Cognitive, Developmental, Social, or General Experimental Psychology Concentration**

Entry into the Ph.D. program requires an M.A. in Psychology from UNC Greensboro or from another institution. For students continuing from the M.A. program at UNC Greensboro, only courses with grades of B or better may count toward the Ph.D. degree; grades below B in courses that were counted toward the M.A. degree must be replaced by either re-taking the same course or by earning a grade of B or better in a substitute course. Course equivalents are decided according to departmental policy, which varies by course category (e.g. tools courses vs. core courses). A minimum of 71 credits hours are required for the Ph.D. degree.

Students who receive an M.A. from another institution will submit syllabi, thesis document, and other materials for review to determine the portability of their MA degree. Typically, students earn credit for the M.A. degree and must complete remaining Ph.D. requirements and a minimum of 35 credits at UNC Greensboro.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

For information on the application and admission, please see https://psy.uncg.edu/graduate/applying/.

**Degree Program Requirements**

**Required:** 71 credit hours

**Core Courses and Electives (47 credits minimum, including credits acquired in the M.A.)**

In addition to core courses and electives taken to satisfy the M.A. requirements, students complete 18-30 credit hours in their area of concentration (cognitive, developmental, social or general experimental) and 18-30 credits outside their area of concentration. Of these credits, only 6 credits of independent study courses (PSY 601 Graduate Problems in Psychology) can be counted; at least an additional 3 credits of research tools courses beyond the M.A. statistics requirements must be taken; and at least four psychology seminars (PSY 735 (COURSE INACTIVE)) must be taken.

**Research (24 credits minimum, including credits acquired in the M.A.)**

In addition to the thesis completed to satisfy the M.A. requirements, all students complete the following:

<table>

Gregory P. Grieve, Department Head
Alyssa Gabby, Director of Undergraduate Studies

The Department of Religious Studies investigates a variety of religious traditions, movements, and expressions that play important roles either historically or in contemporary cultures.

The Department teaches courses on such traditions as Buddhism, Christianity, Confucianism, Hinduism, Islam, Judaism, Shinto, and Taoism. Historical studies include courses about religions in African, Asian, Middle East, European, and American (especially United States) history. Cultural and theoretical studies include courses on religious philosophies, ethics, and theologies; political, social, and psychological accounts of religious life; the role religion plays in politics, economics, social movements, arts, sciences, and diverse forms of personal conduct.

Religious Studies, B.A.

The Religious Studies Major participates in a diversified program in the humanities, studying religious history, imaginative literature, systems of thought, and criticisms of culture, politics, and society. Because religious studies majors engage in multidisciplinary studies in the liberal arts, they are well-qualified to enter any field that profits from disciplines of exposition, analysis, appreciation, criticism, and historical reflection. Upon graduation, Religious Studies majors have gone into teaching, medicine, nursing, law, business, ministry, journalism, and communications.

The Religious Studies Concentration in Nonprofit Management requires 15 credit hours and is designed to prepare students for entry-level positions in nonprofit agencies, including positions in faith-based organizations, human service agencies, foundations, or professional associations. The concentration combines core courses and electives that allow a student some tailoring to specific interests with the PSC 511 courses available online and/or on campus.

Members of the Religious Studies Department are available to advise students about career opportunities and to refer them to further information that may be of help.

Overall Requirements

• 120 credit hours, to include at least 36 credits at or above the 300 course level
• Students must complete a minimum of 27 credit hours in Religious Studies at the 200 level or higher (excluding the Senior Seminar); at least 9 credits must be at 300 level or higher
• Students must earn a grade of at least C- in all Religious Studies courses required for the major.

Sociology

College of Arts and Sciences

337 Graham Building
336-334-5609
http://soc.uncg.edu/

David Kauzlarich, Department Head
Daniel Huebner, Director of Undergraduate Studies
Sarah Daynes, Graduate Program Director

Mission Statement
The Department of Sociology supports the missions of the College of Arts and Sciences and the university in three areas: education, research and service. The Department fosters a community of sociologists, mentors students of sociology at the undergraduate and graduate levels, and provides general education for students throughout the university. Sociological knowledge helps students to understand how social structures and processes shape social life and how sociological analysis and empirical research are used as tools of understanding. The Department also encourages the research and professional development of faculty, contributes knowledge to the community of scholars and to the larger society, and provides service to the discipline, college, university, and extramural communities.

About
The undergraduate program in sociology is planned primarily as a part of a liberal arts education. The objective is to provide the student with an analytic and systematic approach to the understanding of social relations. The major provides a foundation for a variety of occupations and for advanced study.

Graduate study leading to the Master of Arts degree with a major in Sociology also is available.

• Sociology Second Academic Concentration (p. 442)
• Sociology, M.A. (p. 442)
• Teaching Sociology, Post-Baccalaureate Certificate (p. 443)

Sociology, B.A.
The Sociology major provides students with an understanding of the fundamental processes of social interaction that underlie all social organization and change. Beyond book and library study, students are required to develop skills in computer analysis and in survey and field research. Students may

1. Major in sociology,
2. Major in sociology with a concentration in criminology,
3. Complete the social studies licensure for secondary teachers with a major in sociology,
4. Major in both sociology and another field, or
5. Minor in sociology.

Requirements for these six options are described separately below.

Student Learning Goals
Sociology majors at UNC Greensboro will be expected to:

• Define and apply basic sociological concepts used in micro and macro sociological theory
• Explain the difference between personal opinion and theoretical insight based on research and between structural and individualistic explanations of human action
• Know how to formulate research hypotheses, collect, and do basic analysis of data
• Evaluate the appropriateness of various theories and research methods for answering different types of empirical questions
• Explain the differences among and the uses of different types of sociological research methods
• Be able to recognize and respond appropriately to the ethical issues involved in studying human subjects and organizations

Overall Requirements
• 120 credit hours, to include at least 36 credits at or above the 300 course level
• All sociology majors must complete a minimum of 36 credit hours in sociology with at least a 2.0 GPA in the major.

### Sociology, M.A.

The M.A. in Sociology offers a thesis and a non-thesis option. The thesis option requires 33 credit hours, including 6 credits of thesis. The non-thesis option requires 33 credit hours, including a 6 credit internship.

The program prepares students for further study, for research and administrative positions in public or private organizations, and for teaching sociology in a variety of settings. All of the students in the program acquire a general foundation in sociology, and some elect to complete a concentration in criminology. Other special interests may be pursued in particular substantive, applied, or cognate courses and extended in the writing of a thesis or completion of an internship.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions ([https://grs.uncg.edu/Prospective/Guide/](https://grs.uncg.edu/Prospective/Guide/)).

Teaching Sociology, Post-Baccalaureate Certificate

The Department of Sociology offers a program of study leading to a Post-Baccalaureate Certificate in Teaching Sociology that prepares graduates for teaching sociology courses at the college level. The program combines core courses, elective courses, and a major course in teaching sociology.

Certificate requirements must be successfully completed during five academic years to earn the certificate. Courses fulfilling the certificate program may be used to meet the requirements in a degree program in accordance with the policies of The Graduate School.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

Major Requirements
Select one of the concentrations following the major requirements.

Electives
Electives sufficient to complete the 120 credit hours required for degree.

Concentrations
The Liberal and Interdisciplinary Studies major offers multiple concentrations whose requirements are listed below.

Each concentration is administered by an interdepartmental program as follows:

- Archaeology Program
  - Archaeology (p. 444)
- Bachelor of Arts in Liberal Studies Program
  - General Psychology (p. 446)
  - Humanities (p. 446)
  - Professional Studies (p. 458)
  - Social Sciences (p. 459)
- International and Global Studies Program
  - Asian Studies (p. 445)
  - International and Global Affairs and Development (p. 447)
  - International and Global Arts and Belief Systems (p. 451)
  - International and Global Human Rights (p. 456)
  - Latin American and Caribbean Studies (p. 457)
  - Russian Studies (p. 458)

Program administrators are also identified within the requirements for each concentration.

Archaeology Concentration Requirements
Administered by the Archaeology Program (p. 297).

- Minimum 33 credit hours distributed as follows. Under special circumstances and with the permission of the Committee, some required courses may be substituted for others.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

<tr>
<td>CCI 212</td>
<td>Introduction to Roman Archaeology †</td>
<td></td>
</tr>
<tr>
<td>GES 121</td>
<td>Introduction to Geographic Information Science</td>
<td></td>
</tr>
</tbody>
</table>

Area Requirements 12
Old World Archaeology 3
Select one of the following:
- ATY 341 Paleolithic Archaeology
- CCI 312 The Art and Archaeology of Egypt
- CCI 313 Archaeology of the Aegean
- CCI 314 Ancient Cities
- HIS 380 Topics in the Near and Middle East

New World Archaeology 3
Select one of the following:
- ATY 334 Latin American Art and Archaeology
- ATY 370 Historical Archaeology
- ATY 434 Archaeology of South America
- ATY 440 Colliding Worlds: Forming America
- ATY 462 Archaeology of the Southeastern United States

Analytical Methods and Techniques 6
Select 6 credits of the following:
- ATY 477 Zooarchaeology
- ATY 479 Analysis of Archaeological Data
- ATY 453 Human Osteology
- ATY 475 Research Methods in Historical Archaeology
- GES 314 Physical Geography: Landscape Processes
- GES 314L Physical Geography Laboratory
- GES 357 Principles of Cartography
- GES 359 Remote Sensing of Environment
- GES 421 Geographic Information Science

Include no more than 3 credits from the following:
- ATY 478 Field Methods in Archaeology
- CCI 401 Archaeological Practicum
- CCI 450 Internship in Classical Studies

Related Area Electives 6
Select 6 credits from any of the above courses or choose from the following:
- ARC 381 Study Abroad Experience in Archaeology
- ATY 444 Archaeology of Power/Politics
- ARC 493 Honors in Archaeology
- ARC 498 Special Archaeological Research
- ARC 499 Internship in Archaeology
- ART 281 Ceramics I
- ART 285 Photography I
- ATY 113 Introduction to Cultural Anthropology
- ATY 208 Lost Tribes and Sunken Lands
- ATY 449 Gender Archaeology
- ATY 403 Selected Topics in Anthropology
- ATY 423 Applying Archaeology in the Real World
- CCI 360 Archaeology of the Roman Provinces: Britain and Gaul
- CCI 365 Archaeology of the Roman Provinces: Asia Minor and Syria
CCI 412  The Archaeology of Roman Daily Life
CCI 412  The Archaeology of Roman Daily Life
GES 358  Geographic Information Systems
HIS 220  The Ancient World

*  If in Archaeology.
†  Counts toward GE Marker GL/GN requirement.

Asian Studies Concentration Requirements
Administered by the International and Global Studies Program (p. 378).

• 30 credits at the 200 level and above.
• To complete a second major, at least 12 credits must be taken outside the major in which the first major is obtained.
• No requirements for the major can be met by a grade lower than C-.

- MUS 485 Music of the Nineteenth Century
- MUS 486 Music of the Twentieth Century
- PHI 322 Philosophy of the Arts

**Category 4—Belief Systems and Cultures (BS&C)**

**200-Level Course Options**
- ATY 213
- CHI 220 Modern Chinese Literature and Culture
- CRS 221 Culture, Human Behavior, and Clothing
- FRE 232 Images of France and the Francophone World
- IGS 295 Study Abroad for Global Engagement: Pre-Departure
- IGS 296 Study Abroad for Global Engagement: Field Experience
- IGS 297 Study Abroad for Global Engagement: Re-Entry Reflections and Applications
- JNS 220 Modern Japan
- PHI 252
- PHI 267 Existentialism
- REL 201 The Bible in Western Culture
- REL 215 Judaism
- REL 217 The Synagogue
- REL 221 Buddhism
- REL 223 Hinduism
- REL 225 Islam
- REL 226 Approaches to the Qur’an
- REL 240 Modern Judaism
- REL 248 Comparative Religious Ethics
- REL 250 Religious Traditions and Care of the Earth
- REL 251 Topics in Religious Social Ethics
- STH 231 Tourism, Cultures, and Places
- STH 251 Diversity and Equity in Hospitality and Tourism

**IGS Marker Required:**
- HSS 206 Seminar in Philosophical/Religious/Ethical Principles
- HSS 216 Seminar in Philosophical/Religious/Ethical Principles
- HSS 226 Seminar in Philosophical/Religious/Ethical Principles
- RCO 203 Residential College Seminar in Philosophical/Religious/Ethical Principles
- RCO 213 Residential College Seminar in Philosophical/Religious/Ethical Principles
- RCO 223 Residential College Seminar in Philosophical/Religious/Ethical Principles

**Upper-Level Course Options**
- ADS 306 Special Topics in the African Diaspora: Africa, the Indian Ocean, and the Americas

**African American Studies Courses:**
- ADS 306 Special Topics in the African Diaspora: Africa, the Indian Ocean, and the Americas

**Anthropology Courses:**
- ATY 315 World Ethnographies
- ATY 333 Latin American Societies and Cultures
- ATY 334 Latin American Art and Archaeology
- ATY 335
- ATY 385 Language and Culture
- ATY 426 Food and Culture in a Global Context
### ATY 434
Archaeology of South America

### ATY 447
Myth, Magic, and Religion

### Chinese Courses:
- **CHI 305**: Topics in Chinese Culture

### Communication Studies Courses:
- **CST 337**: Intercultural Communication

### French Courses:
- **FRE 332**: Contemporary French Culture
- **FRE 433**: French and Francophone Civilization and Culture

### German Courses:
- **GER 310**: German Culture: Advanced Intermediate-Topics in German Film
- **GER 309**: Topics in Central European Studies since 1918
- **GER 406**: Advanced Topics in German Culture
- **GER 422**: German Memory in Fiction and Film

### Humanities Courses:
- **BLS 381**: Old Europe/New Europe
- **BLS 386**: Women, War, and Terror

### Japanese Studies Courses:
- **JNS 306**: Current Issues in Japan

### Music Courses:
- **MUS 343**: Music Cultures of the World
- **MUS 354**: Modern Asia Through Its Music

### Nursing Courses:
- **NUR 390**: Culture and Health Care

### Peace and Conflict Studies Courses:
- **PCS 309**: Conflict and Culture

### Philosophy Courses:
- **PHI 338**: Ethics and International Affairs
- **PHI 348**: Existentialism, Phenomenology, and Structuralism
- **PHI 445**: Social Philosophy

### Religious Studies Courses:
- **REL 312**: Judaism and the Construction of Gender
- **REL 340**: Modern Jewish Thinkers
- **REL 368**: Religion in South Asia: Selected Topics

### Spanish Courses:
- **SPA 311**: Views of the Hispanic World Through Intermediate Conversation
- **SPA 332**: Foundations in Spanish Cultures, Literatures and Films
- **SPA 334**: Foundations in Latin American Cultures, Literatures and Films
- **SPA 432**: Seminar in Spanish Cultures, Literatures and Films
- **SPA 436**: Seminar in Latin American Cultures, Literatures and Films

### Sustainable Tourism and Hospitality Courses:
- **IGS Marker Required:**
- **ADS 305**: Special Topics in African American Studies
- **ATY 311**: Reading Culture and Society
- **ATY 450**: Environmental Anthropology
- **ATY 403**: Selected Topics in Anthropology
- **BLS 360**: Selected Topics: Philosophy/Religion/Ethics
- **BLS 383**: Religious Resistance to Political Power

### CST 460
Special Topics in Communication Research

### PHI 331
Social and Political Philosophy

### SPA 435
Seminar in U.S. Latino/Latina Cultural Studies

### WGS 333
Postcolonial and Transnational Feminisms

### WGS 450
Topics Seminar in Women's, Gender and Sexuality Studies

---

*Exception to the 51 Percent Modern Requirement.

**The courses listed apply only when carrying the IGS marker in the Schedule of Courses for the term taken.

1 credit Dance Courses. The courses listed must be taken three times to qualify.

### International and Global Arts and Belief Systems Concentration Requirements

Administered by the International and Global Studies Program (p. 378).

- 30 credits at the 200 level and above.
- To complete a second major, at least 12 credits must be taken outside the major in which the first major is obtained.
- No requirements for the major can be met by a grade lower than C-.

### Foreign Language Requirements

Select 6 credits at the 300 level or higher from the following:

- Chinese
- French
- German
- Italian
- Japanese
- Portuguese
- Russian
- Spanish

### Core Courses **

Select 3 credits from the following:

- **IGS 200**: Introduction to International and Global Studies †
- **IGS 400**: Capstone Seminar in International and Global Studies

### Additional Courses

Select 15 credits from Category 3 (A&L) or Category 4 (BS&C) ¹

Select 3 credits (200 level or above) from Category 1 (S&P) or Category 2 (E&D) ¹

*Note that Italian and Portuguese are not currently available at the upper levels at UNC Greensboro.*

**6 credits chosen from the courses listed or approved equivalents.

¹ Maximum of 9 credits in one category and no more than 6 credits in the other category. 9 credits must be upper level (300 level or above).

† Counts toward GE Marker GL/GN requirement.

### Additional Courses Options

The following courses are identified as options toward fulfilling the Additional Courses requirement (IV.C.) for the International and Global Affairs and Development concentration.
Note: Further options (subject to director approval) may appear in the guide published on the IGS website.

**Upper-Level Course Options**

### African American Studies Courses:

- ADS 376 Africana Literature

### Art History Courses:

- ARH 345 European Art in the Nineteenth Century
- ARH 351 Architecture in the Twentieth Century
- ARH 370 African Art: Ancient Empires to Colonial Contact

### Chinese Courses:

- CHI 313 Major Figures in Chinese Literature

### English Courses:

- ENG 315 Postcolonial Literatures
- ENG 316 Studies in Human Rights and Literature
- ENG 344 The Romantic Period
- ENG 345 The Victorian Period
- ENG 346 English Literature from Victorian to Modern
- ENG 348 Contemporary British Literature and Culture
- ENG 350 The Twentieth-Century English Novel
- ENG 445 Nineteenth-Century British Writers
- ENG 452 Modern British Writers
- ENG 459 Twentieth-Century British Poetry

### French Courses:

- FRE 353 Survey of French Literature
- FRE 455 Topics in French and Francophone Literature and Film
- FRE 458 Topics in Francophone Literature
- FRE 461
- FRE 463 Studies in Film Genre

### German Courses:

- GER 305 German Literature: Advanced Intermediate Topics
- GER 309 Topics in Central European Studies since 1918
- GER 405 Advanced Topics in German Literature
- GER 422 German Memory in Fiction and Film

### Humanities Courses:

- BLS 322 Revolutionary Lives
- BLS 327 Contemporary Asian Literature

### Media Studies Courses:

- MST 327 Non-Western Film: Asian

### Music Courses:

- MST 302 Introduction to Film History
- MST 420 History of Film to 1938
- MST 421 History of Film since 1938

### Russian Courses:

- RUS 306 Slavic Life and Letters: Topics
- RUS 313 Major Authors in Russian Literature
- RUS 314 Major Movements in Russian Literature and Culture

### Spanish Courses:

- SPA 351 Introduction to Literary Studies
- SPA 407 Topics in Spanish Literature
- SPA 452 Seminar in Spanish Literature
- SPA 462 Seminar in Film Genre

### Theatre Courses:

- THR 401 Theatre History II
- THR 402 Theatre History III
- THR 406 Histories of Global Performance and Theatre
- DCE 332 African Dance III

Foreign Language Requirements
Select 6 credits of a modern foreign language at the 300 level or higher from the following:

* Chinese
French
German
Italian
Japanese
Portuguese
Russian
Spanish

Core Courses
Select 3 credits of the following:

IGS 200  Introduction to International and Global Studies †
IGS 400  Capstone Seminar in International and Global Studies

Additional Courses
Select 15 credits from courses identified in the Additional Courses Options for the IGHR concentration. Must use the Additional Course Options for this concentration. 9 credits must be upper level (300 level or above). No more than 3 credits may focus on human rights in the U.S.

Select 3 credits (200 level and above) from courses identified in the Additional Courses Options for any concentration. May use the Additional Courses Options for any International and Global Studies concentration.

* Note that Italian and Portuguese are not currently available at the upper levels at UNC Greensboro.
** 6 credits chosen from the courses as listed or approved electives.
† No more than 9 credits may come from any single category. Once 9 credits are selected from any single category, no more than 6 credits may be taken in each of the remaining categories.
†† Counts toward GE Marker GL/GN requirement.

Additional Courses Options
The following courses are identified as options toward fulfilling the Additional Courses requirement (IV.C.) for the International and Global Human Rights concentration.

Note: Further options (subject to director approval) may appear in the guide published on the IGS website.

**Mission Statement**

The central focus of the Women’s and Gender Studies Program is to explain how gender is produced within social institutions and how these institutions affect individual lives and to analyze the mutual constitution of gender, race, ethnicity, class, sexuality, nationality, and religion. The Program addresses issues of neglect, omission, and bias in curricula while honing critical thinking skills vital to a liberal education. With the assistance of the community-based Friends of Women's and Gender Studies, the program sponsors visiting scholars, lectures, films, and conferences devoted to the advancement of women’s and gender studies.

• Women’s, Gender, and Sexuality Studies, Post-Baccalaureate Certificate (p. 465)

**Women's, Gender, and Sexuality Studies, B.A.**

**Student Learning Goals**

1. To explain how gender is produced within social institutions and how these institutions affect individual lives.
2. To discuss histories of feminism as a social movement and feminist theories of social transformation.
3. To explain theories of embodiment, such as how bodies are constituted within social and biological discourses, or the relationship between embodiment and subjectivity, consciousness, and agency.
4. To critique how hegemonic feminism includes and/or excludes different theoretical perspectives, such as theories of racial formation and theories of sexuality.
5. To analyze the mutual constitution of gender, race, ethnicity, class, sexuality, nationality, and religion.
6. To explain gender, race, ethnicity, class, sexuality, nationality, and religion from the perspective of postcolonial and transnational frameworks of analysis.
7. To identify how feminist theories are constructed and enacted both inside and outside of the classroom.
8. To identify the intellectual paradigms and political perspectives of different modes of knowledge production or interdisciplinary methodologies.
9. To analyze scholarship and a variety of media in order to create original arguments in writing.
10. To apply different modes of feminist praxis, such as fieldwork, performance, or research.

**Overall Requirements**

• 120 credit hours, to include at least 36 credits at or above the 300 course level  
• Minimum 30 credits above the 100 level
• Students must earn a grade of at least C- in all courses required for the major.

** WGS 490 Women's, Gender and Sexuality Studies Senior Capstone Course

** WGS 400 Independent Study **

* The course section must carry the WGS marker in the given semester. This list is not comprehensive as additional courses may appear on the Course Schedule within UNCGenie that will carry the WGS marker and may thus count toward major or minor requirements. Some sections of these courses might not carry the WGS marker in any given semester; check the Course Schedule for the list of courses that count for WGS credit during the current semester.

** Course may be taken for only 6 credit hours toward the WGST major.

### Special Topics

Special topics courses or sections with central focus on women and gender may be approved by the Director of WGS for elective credit.

### Electives

Electives should be sufficient to complete the 120 credit hours required for the degree.

### Disciplinary Honors in Women’s, Gender, and Sexuality Studies

**Requirements**

- A minimum of 12 credit hours as defined below.
- UNC Greensboro cumulative GPA of 3.30 or better or, for transfer students, cumulative GPA of 3.30 or better from all prior institutions.

* May be any combination of Contract courses and/or 400-level Women’s and Gender Studies courses

**Recognition**

Receive a Certificate of Disciplinary Honors in Women’s and Gender Studies; have that accomplishment, along with the title of the Senior Honors Project, noted on the official transcript; and be recognized at a banquet held at the end of the spring semester.

**Honors Advisor**

Contact Danielle Bouchard at dmboucha@uncg.edu for further information and guidance about Honors in Women’s and Gender Studies. To apply: [http://honorscollege.uncg.edu/forms/disc-application.pdf](http://honorscollege.uncg.edu/forms/disc-application.pdf)

### Accelerated B.A. to M.A.

**Application and Admission**

Undergraduate students at UNC Greensboro may apply for admission to the Accelerated Master’s Program in Women’s, Gender, and Sexuality Studies. A cumulative undergraduate GPA of at least 3.5, based on at least 30 credit hours earned at UNC Greensboro is required. Applicants must have completed at least 60 credits and may not apply for admission to the AMP before the first semester of the junior year.
All applicants must complete the Accelerated Master's Program information as part of the application for admission to the M.A. program.

Standardized entrance exams (GRE or MAT) are optional for AMP students, although they may be useful in future applications for graduate fellowships.

Applications to the Women's, Gender, and Sexuality Studies program require the following additional items: a statement of purpose; an academic writing sample; and a resume.

Courses
The M.A. degree requires 36 credit hours of graduate-level course work. AMP students may apply a maximum of 12 credits of graduate-level course work toward completion of both the undergraduate and the graduate degrees, provided that they earn a grade of B (3.0) or better in each graduate course and fulfill graduate-level requirements. No more than 9 credits at the 500 level may be counted toward the M.A. degree. Please see the University Catalog for a full description of the M.A. degree requirements.

The following courses may be counted toward both the B.A. and the M.A. degrees. All courses leading to the completion of the M.A. degree must be approved by the WGS Graduate Program Director.

In addition to the application materials required by The Graduate School, applicants must submit:
• A statement of purpose explaining how the WGS M.A. program aligns with their personal, academic, and/or professional experience and goals.
• An academic writing sample such as a research paper from an academic course.

If applying for an assistantship or other funding, applicants must also submit an academic and professional resume or CV (curriculum vitae).

M.A. students in WGS may apply for concurrent study in a graduate certificate program in such fields as Non-Profit Management or African-American Studies.

Individualized Plan of Study (21 credits)
Select a minimum of 9 credits from courses constituting a concentrated area of study
Select 12 credits from courses approved for WGS credit

Capstone Experience (6 credits)
Select one option (6 credits) from the following:

Thesis Option

WGS 699 Thesis

Internship Option

WGS 601 Women’s, Gender, and Sexuality Studies Internship
WGS 602 Internship Seminar

Total Credit Hours 36

1 That reflects the student’s goals and interests.
2 Or from other graduate offerings consistent with the student’s plan of study.
3 Must be taken concurrently with WGS 601.

Individualized Plan of Study

The proposed plan of study must be approved by the WGS Graduate Advisor (Graduate Program Director). These courses may be selected from those carrying a WGS marker or appropriate courses in relevant fields.

Representative Courses Approved for WGS Credit

Consult advisor for additional options. Students may not double-count courses taken to fulfill requirements.
Accelerated B.A. to M.A. in Women's, Gender, and Sexuality Studies

Application and Admission

Undergraduate students at UNC Greensboro may apply for admission to the Accelerated Master's Program in Women's, Gender, and Sexuality Studies. A cumulative undergraduate GPA of at least 3.5, based on at least 30 credit hours earned at UNC Greensboro is required. Applicants must have completed at least 60 credits and may not apply for admission to the AMP before the first semester of the junior year.

All applicants must complete the Accelerated Master’s Program information as part of the application for admission to the M.A. program.

Standardized entrance exams (GRE or MAT) are optional for AMP students, although they may be useful in future applications for graduate fellowships.

Applications to the Women’s, Gender, and Sexuality Studies program require the following additional items: a statement of purpose; an academic writing sample; and a resume.

Courses

The M.A. degree requires 36 credit hours of graduate-level course work. AMP students may apply a maximum of 12 credits of graduate-level course work toward completion of both the undergraduate and the graduate degrees, provided that they earn a grade of B (3.0) or better in each graduate course and fulfill graduate-level requirements. No more than 9 credits at the 500 level may be counted toward the M.A. degree.

At least 9 credits of course work must be at the 600 level or above. Courses fulfilling the certificate program may be used to meet the requirements in a degree program in accordance with the policies of The Graduate School.

Curriculum requirements consist of 6 credits of required core courses and 12 credits of electives. Students enrolled in a graduate degree program must take at least 3 credits of WGS certificate course work outside the degree-granting department.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants submit a statement of purpose explaining how the certificate program aligns with their personal, academic, and/or professional experience and goals.

No standardized tests (GRE, MAT) are required; certificate program applicants who are also applying to a graduate program (e.g. a M.A. or Ph.D.) should consult the degree-granting department for admission test requirements. Certificate applicants may hold a baccalaureate degree in any field.

Select a minimum of 12 credits of electives from WGS approved courses

Total Credit Hours 18

Women's, Gender, and Sexuality Studies, Post-Baccalaureate Certificate

The Post-Baccalaureate Certificate in Women's, Gender, and Sexuality Studies requires 18 credit hours and prepares graduates for interdisciplinary teaching; careers in nonprofit, governmental, and corporate settings; and entry into professional degree programs in such fields as law, child development, and public health. The program combines core courses, elective courses, independent study, and/or internship integrating theory and practice.

Certificate requirements must be completed within five academic years. At least 9 credits of course work must be at the 600 level or above. Courses fulfilling the certificate program may be used to meet the requirements in a degree program in accordance with the policies of The Graduate School.

Curriculum requirements consist of 6 credits of required core courses and 12 credits of electives. Students enrolled in a graduate degree program must take at least 3 credits of WGS certificate course work outside the degree-granting department.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

COLLEGE OF VISUAL AND PERFORMING ARTS

220 Music Building
336-334-5789
http://performingarts.uncg.edu

bruce d. mcclung, Dean

As the premier, most comprehensive, and largest set of visual and performing arts programs in North Carolina, we transform lives by providing exceptional artistic and scholarly experiences. Our vision is to build on our reputation by becoming one of the top arts institutions in the nation. The UNC Greensboro College of Visual and Performing Arts will make the arts essential to all in North Carolina, the Southeast, and the Nation.

The UNC Greensboro College of Visual and Performing Arts is guided and informed by our beliefs and commitments to the following:

• Excellence and Innovation
  Nurture curiosity, inspire creativity, develop skills, and encourage artistic practice, pedagogy, conservatory level training, research, and cutting-edge scholarship.

• Access and Inclusivity
  Serve the citizens of North Carolina and the nation by modeling an inclusive, collaborative, supportive, and student-oriented culture.

• Equity and Ethics
  Commit to equitable academic policies, curricular design, and decision-making with shared respect, accountability, and cooperation.

• Community and Place
  Engage local and global socio-political artistic performance, pedagogy, and scholarship, providing a supportive environment for community artists and real-world experiences for our students.

The UNC Greensboro College of Visual and Performing Arts helps students transform passion into professional purpose. Our unique pathway to career success unlocks creativity and assists students to develop into a visual or performing artist, scholar, or arts educator.

The College consists of four Schools: Art, Dance, Music, and Theatre. Within these schools, we offer nationally accredited programs and an impressive variety of degrees and certificates at the bachelor’s through the doctoral levels.

All students wishing to enter one of the professional degree tracks, the B.M. or the B.F.A., must audition or interview for placement. Refer to each School’s bulletin for specific information concerning auditions and admissions procedures.

In addition to the degrees and courses housed within the Schools of Art, Dance, Music, and Theatre, a number of interdisciplinary courses in the arts are offered and a minor in Interdisciplinary Art and Social Practice. Please see the listing of CVPA courses (https://vpa.uncg.edu/home/cvpa-courses-available-for-non-majors/), which are open to students in any major.

With around 1400 students, excellent facilities, and an internationally recognized faculty of well over 100 members, the College of Visual and Performing Arts is a vibrant community of artists that annually produces more than 350 performances, exhibits, lectures, and other events. The College is engaged with its community and committed to student success. As the largest and most comprehensive school of the visual and performing arts in North Carolina and one of the largest in the Southeast and the Nation, it has the capacity to provide experiences that other institutions cannot. We have a strong record of helping students develop their craft and the necessary knowledge to succeed in the highly competitive world of the arts. Because we are part of a comprehensive research university, a full range of interdisciplinary and collaborative opportunities are close at hand.

Mission Statement
In accordance with the mission of the University, the College of Visual and Performing Arts seeks to enable students to understand and embrace artistic expression, empowering them to enrich the human experience for themselves and others. Acknowledging the enduring traditions of excellence in each discipline, the College of Visual and Performing Arts, strives to:

• Teach the imaginative, critical, aesthetic, and technical skills essential to the creative process, scholarly inquiry, and professional engagement in the continually evolving fields of the visual and performing arts.

• Promote discovery and foster inclusive learning that enriches the understanding of human diversity and global issues as they relate to the visual and performing arts.

• Prepare undergraduate students with comprehensive curricula appropriate to the various degree programs offered by the College of Visual and Performing Arts.

• Equip graduate students to become experts and leaders in their fields through advanced study and training.

• Present public performances, shows, and events, and provide artistic resources, education, and outreach to the local, regional, national, and international communities while enhancing student learning, promoting faculty scholarship and creative activities, and enriching the lives of all citizens as well as showcasing the College and University.

School of Art

College of Visual and Performing Arts

138 Gatewood Studio Arts Center
336-334-5248
http://art.uncg.edu

Chris Cassidy, Director of the School of Art
Lee Walton, Associate Director of the School of Art
Jennifer Meanley, Graduate Program Director
Elizabeth Perrill, Director of Undergraduate Studies

The School of Art offers the following undergraduate degree programs:

- B.F.A.—Studio Art major, concentrations in New Media and Design, Painting, Photography, Printmaking and Drawing, and Sculpture and Ceramics
- B.F.A.—Art Education with K-12 Professional I Teaching Licensure
- B.A.—Art major, concentrations in Art History and Studio Art
- B.A. – Arts Administration major, with an available concentration in Art Museum Studies

The School of Art offers graduate work leading to a Master of Fine Arts with a major in Studio Arts.

UNCG is an accredited institutional member of the National Association of Schools of Art and Design (NASAD)

Only those students enrolled in a degree program with a full-time load of courses may use space, equipment, and facilities of the School of Art. Part-time students may use only the facilities directly connected with the courses in which they are enrolled.

Mission Statement

The mission of the School of Art is founded on three passionately held principles:

- First, that the exploration of ideas through the visual arts is both necessary and culturally valuable;
- Second, that an understanding of visual communication within contemporary society is critical for an informed world view; and
- Third, that an appreciation and knowledge of art history, past and present, is essential to both young scholars and developing artists.

In the School of Art, committed faculty, who actively exhibit and publish nationally and internationally, model the high standards we hold our students to in the visual arts, art history, and art education. Our students individually challenge, explore, and push the boundaries of their given field, whether it be establishing an independent vision or perspective in the studio, exploring new facets of art history, or developing their own voices as art educators. Through this diversity, our program offers students a strong, self-motivated course of study where majors have meaningful contact with faculty across disciplines, methodologies, and practices.

The school's studio and art education facilities are located in the Maud F. Gatewood Studio Arts Building on Highland Avenue. Art historians have offices located in the Weatherspoon Art Museum.

Art, B.A.

The Art History concentration is for those students wishing to pursue careers either in art scholarship or the museum and gallery profession. Those thinking primarily of Art History are encouraged to study the foreign languages needed for scholarship, particularly French and German.

The Studio Art concentration combines a liberal arts education grounded in the humanities with studio practice. A B.A. degree is ideal for students interested in a range of post-graduate fields and art-related professional careers. All studio and Art Education (K-12) students entering the art department begin in the B.A. Studio Art concentration.

Overall Requirements

- 120 credit hours, to include at least 36 credits at or above the 300 course level

Contact Heather Holian at hholian@uncg.edu for further information and guidance about Honors in Art. To apply: http://honorscollege.uncg.edu/forms/disc-application.pdf

Arts Administration, B.A.

The Arts Administration Program offers a B.A. in Arts Administration and a Minor in Arts Administration. Majors can choose to concentrate in Art Museum Studies.

Overall Requirements

- 120 credit hours, to include at least 36 credits at or above the 300 course level
- Minimum grade of C required for all courses to count toward the major.
- A minimum of 31 credits in residence at UNC Greensboro:
  - 12 credits must be in the major field
  - 9 credits must be in the minor

College of Visual and Performing Arts Minor Requirement

Students pursuing a B.A. degree in the College of Visual and Performing Arts must also complete all requirements in a minor area of study that is different from their declared major field. Students may select minors in or outside the College of Visual and Performing Arts, and students are encouraged to seek advice from CVPA advisors when making this choice. Any B.A. student who is pursuing a double major is exempt from this requirement. See the Minor Requirement topic on the College of Visual and Performing Arts page for more information.

Arts Administration majors should consider the available minors in Art, Business, Communication Studies, Dance, Entrepreneurship, Media Studies, Music, Political Science, or Theatre. Any B.A. student who is pursuing a double major is exempt from this requirement. It is common for Arts Administration students to pursue a double major or dual degree.

Disciplinary Honors in Arts Administration

Requirements
- A minimum of 12 credit hours as defined below.
- UNC Greensboro cumulative GPA of 3.30 or better, or, for transfer students, cumulative GPA of 3.30 or better from all prior institutions.

9 credits of courses in the major at the 300-level or above with an Honors contract or Graduate level grading.

Recognition
Receive a Certificate of Disciplinary Honors in Arts Administration; have that accomplishment, along with the title of the Senior Honors Project, noted on the official transcript; and be recognized at a banquet held at the end of the spring semester.

Honors Advisor
See Hannah Grannemann, Director of the Arts Administration Program for further information and guidance about Honors in Arts Administration. To apply: http://honorscollege.uncg.edu/forms/disc-application.pdf

Art Education (K–12), B.F.A.

The Art Education (K–12) B.F.A. program offers academic breadth and concentration in a studio discipline. Upon successful completion of the program, students in the Art Education program are recommended for Standard Professional I Teacher Licensure.

The Art Education program's goal is to contribute to preparing K-12 art teachers for the future, fully aware of the needs of a global and diverse society, highly knowledgeable in their field, committed to diversity and multiculturalism, open to new ideas and adaptable to change. Upon completion of the program, students will have developed advanced art studio skills, content knowledge of art history, education, art education theory and pedagogy from historical and contemporary perspectives, technology skills, and have had quality preparation in general education. In addition, the program aims to help develop in students and children appropriate dispositions to include respect and acceptance of diversity in a creative, productive, and peaceful society.

B.F.A. Portfolio Review
Admittance to the B.F.A. program in Art Education, New Media and Design, Painting, Photography, Printmaking and Drawing, or Sculpture and Ceramics is contingent upon successful review of a portfolio by a rotating committee of School of Art faculty.

Non-transfer students enrolled in the B.A. Studio Art degree program may seek entrance into the B.F.A. Studio Art degree program in the third semester of the Studio Foundation Program course sequence, and must apply before completing a total of 28 credit hours of ART, ARH, or ARE courses. Students who fail the portfolio review may re-apply once, and must do so in the following semester. Transfer students must complete the UNC Greensboro Studio Foundation Program and must apply as early as they are eligible to do so.

Students who apply to the B.F.A. program as second-degree students will be given the opportunity to appeal the initial portfolio review at the start of their application process.
Overall Requirements

• 120 credit hours, to include at least 36 credits at or above the 300 course level
• Core studio courses for major concentrations may be closed to students who are not enrolled in a degree program full-time.

Ted 401 | Child and Adolescent Development and Learning | 3            |
Ted 403 | Teaching English Learners with Diverse Abilities |              |
Ses 401 | Understanding and Teaching Students with Disabilities in Inclusive Settings |              |

#### Admission to Undergraduate Teacher Education Program

**Admission Requirements for Teacher Education**

During the spring semester of their sophomore year, students must apply for admission to Undergraduate Teacher Education.

1. Online application submission
2. Minimum Praxis I exam score of 522
3. Medical clearance
4. Criminal background check completed (BIB)
5. Minimum 3.0 GPA

**Admission Requirements for Student Teaching**

During the spring semester of their junior year, students must apply for admission to student teaching for the following spring. The Student Teaching course is offered only in the spring semester.

1. Application and attachments submitted to the Art Education Coordinator by February 10
2. Minimum 3.0 overall GPA
3. Criminal background check completed (BIB)
4. Pass Praxis 1 (Core Academic Skills-Reading, Math, and Writing) and Praxis 2 (Art Content Knowledge and Analysis)
5. Successful studio portfolio review and admission interview
6. Complete the Art Education courses in the Major requirements above.
7. Evidence of skills, knowledge, dispositions, and competencies as set and evaluated by the department

### Electives

Electives sufficient to complete the 120 credit hours required for the degree.

### Disciplinary Honors in Art

**Requirements**

- A minimum of 12 credit hours as defined below.
- UNC Greensboro cumulative GPA of 3.30 or better or, for transfer students, cumulative GPA of 3.30 or better from all prior institutions.

Select any 400-level ARE, ARH, or ART course

Select any ARE, ARH, or ART Honors contract course

### Recognition

Receive a Certificate of Disciplinary Honors in Art; have that accomplishment, along with the title of the Senior Honors Project, noted on the official transcript; and be recognized at a banquet held at the end of the spring semester.

**Honors Advisor**

Contact Heather Holian at hlholian@uncg.edu for further information and guidance about Honors in Art. To apply: [http://honorscollege.uncg.edu/forms/disc-application.pdf](http://honorscollege.uncg.edu/forms/disc-application.pdf)

### Studio Art, B.F.A.

The B.F.A. program is designed for students who are serious about pursuing careers as professional artists. The B.F.A. is a pre-professional degree leading to the M.F.A. or directly to a career in the Fine Arts.

#### B.F.A. Portfolio Review

Admittance to the B.F.A. program in Art Education, New Media and Design, Painting, Photography, Printmaking and Drawing, or Sculpture and Ceramics is contingent upon successful review of a portfolio by a rotating committee of School of Art faculty.

Non-transfer students enrolled in the B.A. Studio Art degree program may seek entrance into the B.F.A. Studio Art degree program in the third semester of the Studio Foundation Program course sequence, and must apply before completing a total of 28 credit hours of ART, ARH, or ARE courses. Students who fail the portfolio review may re-apply once, and must do so in the following semester. Transfer students must complete the UNC Greensboro Studio Foundation Program and must apply as early as they are eligible to do so.

Students who apply to the B.F.A. program as second-degree students will be given the opportunity to appeal the initial portfolio review at the start of their application process.

### Overall Requirements

- 120 credit hours, to include at least 36 credits at or above the 300 course level
• Core studio courses for major concentrations may be closed to students who are not enrolled in a degree program full-time.

**Studio Arts, M.F.A.**

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants should have a bachelor’s degree in a visual arts discipline and must submit 20 images of recent work through the online application portal. Applicants with bachelor's degrees in other fields will be considered for admission if their portfolio demonstrates the ability to pursue work at the graduate level.

**Degree Program Requirements**

**Required:** 60 credit hours

To complete the M.F.A. program, the student must complete 60 credit hours of course work in studio art, art criticism, art history and electives, pass all required examinations, and complete thesis work.

</tr>
</tbody>
</table>

Total Credit Hours 60

1. Required when offered as part of the Summer Study Initiative international experience.

2. Must be taken in each of the first three semesters; optional in the final semester.

3. 6 credits if ARH 501 was taken during the Summer.

Admission to Candidacy

To be formally admitted to candidacy for the M.F.A. degree, students must have successfully completed two semesters of full-time graduate work, including ART 622 Drawing Marathon, removed all deficiencies, possess a B (3.0) average in all courses taken during the first two semesters, and have an overall grade record consistent with the regulations stated in the University Catalog. In addition, the application to candidacy must be approved by a committee of the Art Department graduate faculty to be appointed by the Department Head. The committee will meet with students to review work and sign candidacy forms early in the fall semester of the second year of graduate work. Students are limited to two candidacy reviews. If a student is not admitted to candidacy during the first review, the review team will issue written recommendations for further studies. The second review will take place within a year of the first. Failure to pass candidacy for the second time will prohibit the student from continuing in the program.

Oral Thesis Presentation

In the Spring semester of the graduating year, each M.F.A. candidate will give a formal oral presentation to their thesis committee concurrent with the installation of their thesis exhibition.

After passing candidacy review in the Fall semester of the final year, the student and the Thesis Chair consult together to name the remaining members of the committee. The Department Head and the Graduate Program Director review the membership of the committee before the student begins thesis work. The committee consists of four to five faculty members who hold graduate faculty status in the University. Part-time faculty do not serve on thesis committees. At least one member of the committee is a studio faculty member who teaches in the same discipline as the student’s studio practice. One other member is an art historian, art educator, or member of the Weatherspoon Museum graduate faculty. It is optional for the student to select a graduate faculty member from another department in the university. This faculty member should pursue scholarly research that relates to the student’s field of interest. Thesis Chairs are selected from the studio art or art history faculty.

Early in the final semester of thesis work, the student arranges a meeting with the thesis committee to discuss all aspects of final thesis work, including the thesis paper, the oral presentation, the comprehensive art history exam, and the thesis exhibition. The thesis paper should be 5-10 pages in length, conform to Graduate School requirements, and be signed by all committee members before it is electronically submitted to The Graduate School. The body of work submitted for the thesis exhibition must receive final approval of all thesis committee members.
School of Dance

College of Visual and Performing Arts

323 Coleman Building
336-334-5570
http://dance.uncg.edu

Janet Lilly, Director of the School of Dance
Ana Paula Höfling, Graduate Program Director
Robin Gee, Director of Undergraduate Studies

Mission Statement
Within the context of UNC Greensboro’s comprehensive liberal arts curriculum, the School of Dance offers bachelor’s and master’s degrees that provide specialized skills for a variety of careers in the evolving field of dance. The school’s primary goal is to teach students the imaginative, critical, and technical skills essential to the creative process and to scholarly inquiry. Our comprehensive curricula foster inclusive learning and intellectual curiosity framed by an engagement with cultural diversity, community outreach, and global issues as related to dance. The school prepares undergraduate and graduate students for further study and successful and productive lives as artists, educators, and scholars at the state, regional, national and international levels.

Accreditation(s)
UNC Greensboro is an accredited institutional member of the National Association of Schools of Dance. The school’s program leading to K–12 teaching licensure (Standard Professional I) for public school teaching is accredited by the North Carolina Department of Public Instruction.

Admission to Dance Majors (B.A. and B.F.A.)
Admission for dance major programs in the School of Dance is by audition only. All prospective dance majors must participate in a selective admission process. This includes students currently at UNC Greensboro who have not been accepted as majors in the school. Prospective students apply to audition on the College of Visual and Performing Arts website and complete an on-site audition class.

Graduate Programs
- Master of Arts (M.A.) in Dance Education
- Master of Arts (M.A.) in Dance, Theories and Practices concentration
- Master of Fine Arts (M.F.A.) in Dance, Choreography concentration
- Post-Baccalaureate Licensure in Dance

Dance Studies, B.A.
The B.A. Dance Studies degree focuses on general studies in dance within a liberal arts framework. Dance Studies B.A. students may choose to add the Dance K–12 Teaching Licensure concentration. All students admitted to the School of Dance are accepted from a mandatory entry audition.

Overall Requirements
- 120 credit hours, to include at least 36 credits at or above the 300 course level (plus additional required hours for Dance Education concentration)
- Overall 2.50 or higher GPA in courses taken at UNC Greensboro (3.0 or higher GPA for Dance Education concentration); 2.75 GPA in all DCE courses applied to the major.
- 50 credits in the major.

Degree Program Requirements

* Requirements must be met with a grade of B or higher
** Recommended course: DCE 117

**College of Visual and Performing Arts Minor Requirement**

Students pursuing a B.A. degree in the College of Visual and Performing Arts must also complete all requirements in a minor area of study that is different from their declared major field. Students may select minors in or outside the College of Visual and Performing Arts, and students are encouraged to seek advice from CVPA advisors when making this choice. Any B.A. student who is pursuing a double major is exempt from this requirement. See the Minor Requirement topic on the College of Visual and Performing Arts page for more information.

**Disciplinary Honors in Dance Requirements**

- A minimum of 12 credit hours as defined below.
- A grade of A or B in all course work used to satisfy the Honors requirement in Dance and at least a 3.30 overall GPA at graduation.

**Dance, B.F.A.**

The Dance B.F.A. Choreography and Performance Major provides training in dance as an art form with emphasis on creative and performance activities. Course work in Contemporary dance, African dance, Jazz dance, Ballet, choreography, and performance are central in the curriculum, providing preparation for professional dance careers and graduate study in dance. The Dance B.F.A. Choreography and Performance with K–12 Standard Professional I Licensure concentration may be added by eligible students admitted to the school through audition and who are completing the B.F.A. in dance.

Dance Undergraduate Minor  
The Dance minor is available for students with an interest in dance who would like to minor in Dance as a complement to another major at the university. There is no audition required to declare the Dance minor.  

Dance majors are given registration priority for courses required in the Dance majors but minors may receive special consideration if they meet course prerequisites and space allows.  

A Dance minor is available for students not wishing to specialize but who have an interest in dance and want a concentration of study in the area to complement an affiliated program of study. Dance majors are given priority in registration for most courses, but minors may receive special consideration. The minor includes a minimum of 15 credit hours, with at least seven above the 100 level.  

Program Requirements

Dance, M.A.

The M.A. in Dance, Theories and Practices Concentration is a two-year in-residence program that requires 36 credit hours to complete. The program is designed to prepare students for professional dance careers or for doctoral work. Students develop knowledge in humanities-based dance studies and somatic practices culminating in thesis research located at the intersection of theory and practice.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants should submit a personal statement and samples of work to the school.

Admission to graduate study in dance is on the basis of competence as evidenced by the undergraduate record, demonstrated proficiency, and potential in the field of dance. Prospective students should contact the school before submitting an application.

Program entry is in the Fall term only; the application deadline is November 15.

Select 6 credits from the following:

DCE 663 PreK12 Dance Education Practicum
DCE 698 Field Project in Dance

DCE 699 Thesis

Total Credit Hours 36

* Must be related to the student’s research project.

Reviews

Students are reviewed by the dance faculty when 12 credits of graduate course work are complete. Faculty assesses student progress within the degree program.

Once students have completed at least 18 credits, are enrolled in DCE 610 Dance Studies I: Theories and Methods, and have achieved a minimum overall 3.0 GPA, students select a committee of at least three members of the graduate faculty and schedule a Portfolio Review and Thesis Proposal Defense. Students must pass the review before they can begin their culminating projects. Guidelines are listed in the Dance Graduate Handbook.

Dance, M.F.A.

The M.F.A. in Dance, Choreography Concentration is a three-year in-residence program that requires 60 credit hours to complete, culminating in a dance choreography project designed and carried out by the student with the support of faculty. The program is designed to prepare students for professional dance careers and teaching dance in higher education. Students develop knowledge in choreographic practice, dance scholarship, research methods, and somatic practices. The M.F.A. is a terminal degree commonly held by studio faculty at the university level.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants should submit a personal statement and samples of work to the school.

Admission to graduate study in dance is on the basis of competence as evidenced by the undergraduate record, demonstrated proficiency, and potential in the field of dance. Prospective students should contact the school before submitting an application.

Program entry is in the fall term only; the application deadline is November 15.

Reviews

Students are reviewed by the dance faculty when 12 credits of graduate course work are complete. Faculty assesses student progress within the degree program.

Once students have completed at least 18 credits, are enrolled in DCE 610 Dance Studies I: Theories and Methods, and have achieved a minimum overall 3.0 GPA, students select a committee of at least three members of the graduate faculty and schedule a Portfolio Review and Thesis Proposal Defense. Students must pass the review before they can begin their culminating projects. Guidelines are listed in the Dance Graduate Handbook.
Electives (19-20 credits)
Select 19-20 credits of electives, including 6 credits from outside of 19-20 the School of Dance

Recommended Dance Electives:
- DCE 631 Capoeira History and Practice
- DCE 632 Pilates: Movement Fundamentals for Dancers
- DCE 650 Dance Design Practicum
- DCE 659 Laban Movement Analysis
- DCE 665 Screen Dance

Culminating Project (6 credits)
Select one option from the following:

Option 1: For a full-length concert or equivalent artistic presentation
- DCE 697 Masters Production Project

Option 2: For significant research that directly informs a major choreographic work (or series of works) equivalent to half a concert
- DCE 697 Masters Production Project
- DCE 698 Field Project in Dance

Total Credit Hours 60

1 Taken three times for a total of 3 credits.
2 Taken four times for a total of 12 credits.
3 Taken for a total of 2 credits.
4 Capstone Experience enrolled in over two semesters.

Degree Program Requirements

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, the School of Dance requires additional materials. Prospective students should contact the School of Dance before submitting an application. Additional materials include academic transcripts, and three letters of recommendation, including at least one academic reference. No GRE is required for program entry.

Program entry is in the summer and students are admitted in alternate (even) years. Study begins with required summer course work.

Admission to graduate study in dance is on the basis of competence as evidenced by the undergraduate record and demonstrated proficiency and potential in the field of dance.

Alternate Technique Requirement
Select one of the following options:

- Equivalent in an approved studio technique
- Undergraduate dance technique courses
- DCE 624 Movement for Dance

Capstone Experience (6 credits)
Select one course (6 credits) from the following:

- DCE 693 Portfolio in K-12 Dance Education
- DCE 698 Field Project in Dance

Total Credit Hours 36

1 Summer courses.
2 DCE 662 must be taken twice for a total of 3 credits.
3 Students must complete two non-UNCG elective courses. The program coordinator must approve all courses. For students seeking advanced (M) teacher licensure, one course must be in differentiated assessment and one course must be in teacher leadership. For students not seeking advanced licensure, courses may be differentiated assessment, teacher leadership, or other topics.
Students may fulfill the alternate technique requirement with the equivalent in a non-credit approved studio. Students selecting this option must complete four 24 contact-hour movement classes, which must be approved by their advisor.

Students selecting this option must complete 4 credits in undergraduate dance techniques courses; credits are not counted towards the degree.

Students seeking advanced (M) teacher licensure must complete 6 credits of DCE 693 during their student teaching semester.

Students not seeking advanced licensure must complete 6 credits in DCE 698 as approved by their advisor. Students who have not completed course work in diverse learners will be required to do so for elective credit.

Reviews

Students are reviewed by the dance faculty when 9-15 credits of graduate course work are complete. Faculty assesses student progress in their degree program and makes recommendations for improvement.

Once students have completed at least two-thirds of the course work and they have achieved a minimum overall 3.0 GPA, a Portfolio and Project Proposal Review is scheduled. Guidelines are listed in the Graduate Handbook.

The final review takes place at the end of the semester when DCE 693 or DCE 698 is completed.

Dance, Post-Baccalaureate Certificate

Post-baccalaureate students with an undergraduate degree in Dance may complete a certificate to be eligible for Standard Professional I licensure. Completion of the certificate program does not guarantee licensure. Students are required to participate in field experiences and full-time student teaching in high-quality inclusive settings. These experiences are completed in public school settings arranged by the student and approved by the Director of Dance Education. Students are advised of additional requirements for documenting the evidence required for licensure.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

The admissions requirements for the Post-Baccalaureate Certificate in Dance are those required of all certificate programs by The Graduate School as well as:

- A professional statement
- Three letters of recommendation

Certificate Program Requirements

Total Credit Hours 24

1. Or other education course approved by the Director of Dance Education.
2. Must be taken twice for a total of 3 credits.
3. Students must complete 6 credits of DCE 663 during their student teaching semester.

Students who wish to pursue the M.A. in Dance Education upon completion of the initial licensure program may apply the 12 credits from DCE 614 (or DCE 667), DCE 655 (or DCE 656), DCE 660 (or DCE 646), and DCE 662 towards the requirements in the master’s program.

Dance, Post-Baccalaureate Licensure

Post-baccalaureate students with an undergraduate degree in Dance may complete additional course work to be eligible for Standard Professional I licensure. Enrolled students in the on-campus M.F.A. in Dance (Choreography Concentration) and the M.A. in Dance (Theories and Practice Concentration) are eligible. Completion of this course work does not guarantee licensure. Students are required to participate in field experiences and student teaching in high-quality inclusive settings. These experiences are completed in public school settings as approved by the Director of Dance Education. Students are advised of additional requirements for documenting the evidence required for licensure.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must provide a professional statement describing their interest and rationale for obtaining dance licensure and their career goals. One of the three required letters of recommendation must be from an academic reference.

School of Music
College of Visual and Performing Arts

328 Music Building  
336-334-5789  
music.uncg.edu (https://vpa.uncg.edu/music/)

Tami Draves, Interim Director of the School of Music  
Catherine Keen Hock, Assistant Director of the School of Music  
Randy Kohlenberg, Graduate Program Director  
Constance McKoy, Director of Undergraduate Studies

The School of Music was established in 1921 and became a member of the College of Visual and Performing Arts in 2016. UNC Greensboro has long been recognized as having one of the most well-respected music institutions in the United States and has been fully accredited by the National Association of Schools of Music since 1938. The School of Music offers the only comprehensive degrees in music education and music performance in the State of North Carolina, from the undergraduate level through doctoral study. The School of Music offers Bachelor of Arts degree in Music, and Bachelor of Music degrees in Performance and Music Education. At the graduate level, the School of Music offers Master of Music degrees in music composition, music education, conducting, music performance, and music theory, and also offers Post-Baccalaureate Certificates in ethnomusicology, historical keyboard performance, jazz studies, performance studies, musicology, music composition, music education, music technology, and music theory, and a Post-Master's Certificate in music theory pedagogy. Furthermore, the School of Music offers the doctoral degrees of Doctor of Philosophy in Music Education and Doctor of Musical Arts in Music. Our outstanding facilities, world-class faculty, and numerous ensemble experiences provide an environment for artistic and academic success.

Located in artistically-thriving Greensboro, Winston-Salem, and High Point, the Triad area provides a wealth of cultural and academic opportunities for our students. Students regularly attend and perform in concerts by the Greensboro Symphony Orchestra, the Greensboro Opera Company, the Winston-Salem Symphony and the Eastern Music Festival along with a myriad of musical theatre, jazz, and chamber music ensembles.

We welcome students who will strive for excellence and will contribute to the inclusiveness and diversity of our mission.

Mission Statement
We approach music as an essential part of human culture and therefore aspire to engage with the diversity of musical meanings and practices globally and locally; our student and faculty scholarship enrich understandings of music as sound, text, and activity. We engage with local, regional, national and international communities through teaching, performance, publications, lectures, conferences, symposia, festivals, and other educational and cultural programs.

Undergraduate Programs
The B.A. in music provides high-quality musical training with the versatility and breadth of a liberal arts education, it prepares students for a variety of careers and opportunities. With its emphasis on writing, speaking, and critical thinking skills, the B.A. degree is ideal for students wishing to pursue a double major in another academic field, pre-professional programs in law or medicine, study abroad, UNC Greensboro in 3, arts administration, or graduate programs in music theory, musicology, or ethnomusicology.

Undergraduate students in Music Performance pursue rigorous professional training in music along with a broad liberal arts education. Our students graduate as informed, responsible citizens with the tools to succeed and communicate effectively as musicians of the 21st century.

Undergraduate students in Music Education pursue rigorous professional training in music teacher education along with a broad liberal arts education that prepares them for positions as choral directors (principal performance area usually voice, piano, or organ), teachers of general music, or for positions as instrumental directors (principal performance area in orchestral or band instruments) in public schools. Our students graduate earning a Standard Professional 1 (SP1) North Carolina Educator’s License and are prepared as informed, responsible citizens with the tools to succeed and communicate effectively as musicians and educators of the twenty-first century. Music education students acquire valuable early field teaching experience in a wide variety of P-12 school settings beginning the Freshman year and continuing throughout the degree program.

Performance Studies
Throughout the four years of undergraduate enrollment, music students will have the opportunity to study in one or more performance studies areas: keyboard, voice, strings, winds, percussion, jazz, or composition. This study will include private instruction in the major or principal performance area alongside group instruction.

Ensemble Requirements
All undergraduate Music students enrolled for two or more credit hours of music performance studies must audition for and perform in an ensemble each semester. Performance majors will participate in one or more ensembles each semester according to concentration requirements. Students will have the opportunity to express their ensemble placement preferences, but they will be assigned according to audition results and ensemble priorities. Ensemble assignments and placement will be determined by the Director of Instrumental Ensembles, Director of Choral Activities, and the Director of the Miles Davis Jazz Program, in consultation with the performance teachers and appropriate area coordinator. Each year advanced voice students may apply for roles in the performance of opera and musical theatre, which the departments of music present in cooperation with the School of Theatre.

Student Information Manual
Additional policies and regulations are found online in the Music Student Information Manual. This manual is made available to all music students after entrance requirements are met. Adherence to the contents of this publication is the responsibility of the student.

Graduate Programs
The Master of Music in Music Education leads to graduate licensure and emphasizes the acquisition of a fundamental knowledge of research techniques and scholarly writing standards. Students develop an in-depth understanding of the historical, philosophical, psychological and cultural aspects of music education.

The Master of Music in Performance programs offer conservatory-type performance training and complement this with academic offerings directly related to careers in performance. These students graduate with performance and entrepreneurial skills enabling entry into the profession or further studies.
The Master of Music in Music Theory program offers students an opportunity to deepen and refine their knowledge of music theory, and to continue developing their analytical, keyboard, and aural skills. Most M.M. students gain valuable teaching experience as graduate assistants. Students who complete this course of study are qualified to teach pre-college or community college courses, or to apply for admission to a doctoral program.

Doctor of Musical Arts students are fully prepared as artist/scholars ready to join the academy. A large faculty of outstanding artists, teachers, and researchers supports a comprehensive program of study.

The Doctor of Philosophy in Music Education prepares students for careers as public school music administrators or college-level teachers. Such development requires a comprehensive knowledge of the psychological, social and musical values in music education; theories of learning as applied to music education; historical and theoretical properties of music education; and scholarly and research techniques required for understanding and investigating problems in music and education.

**Music, B.A.**

**Student Learning Goals**

The Bachelor of Arts degree with a major in music indicates the study of music in a liberal arts degree framework. It emphasizes a broad coverage of music rather than heavy concentration on any single segment. Studies develop musicianship, capabilities in the use of principles and procedures of music rather than heavy concentration on any single segment. Studies in music in a liberal arts degree framework. It emphasizes a broad coverage that leads to an intellectual grasp of the art, and the ability to perform. It serves individuals who seek a broad program of general education rather than intense specialization.

**Overall Requirements**

- 120 credit hours, to include at least 36 credits at or above the 300 course level

Select one of the following:

- MUP 402 Entrepreneurship in the Performing Arts
- MUP 413 Piano Literature I
- MUP 423 Jazz Arranging I
- MUP 424 Jazz Arranging II
- MUP 426 Song Literature I
- MUP 460 History of Jazz
- MUS 431 Selected Topics in Ethnomusicology
- MUS 455 The Symphonic Tradition
- MUS 483 Music before 1600
- MUS 484 Music from 1600 to 1800
- MUS 485 Music of the Nineteenth Century
- MUS 486 Music of the Twentieth Century
- MUS 495 History of Opera
- MUS 439 Tonal Counterpoint
- MUS 482 Advanced Analysis of Western European Tonal Music and Related Traditions
- MUS 492 Capstone Seminar in Music Studies or HSS 490 Senior Honors Project

**Applied Studies** **

* May be exempted with demonstrated proficiency. Not required of keyboard principals.

** Applied Studies

- Performance requirements are in a single category that incorporates both studio lessons and ensemble participation. This allows students to take 8 credits of applied study in any combination as defined by the categories below.

- The list of accepted ensembles include any ensemble course with the ENS course prefix. Students may also take any of the following applied instrumental and vocal lessons on condition of acceptance through the audition process: MUP 151, MUP 152, MUP 251, MUP 252, MUP 351, MUP 352, MUP 451, MUP 452, MUP 453, MUP 454.

- Students may take Music Performance courses in the following types: applied music lessons, ensembles, or class performance studies. This does not include Class Piano, which is a separate major requirement above.

- Dance courses approved by the advisor that engage with music-making practice in a physical way may also satisfy this requirement.

- Students may also choose from the following courses: MUP 125, MUP 180.

† Counts toward GE Marker GL/GN requirement.

**Electives**

Electives sufficient to complete the 120 credit hours required for the degree.
College of Visual and Performing Arts

Minor Requirement

Students pursuing a B.A. degree in the College of Visual and Performing Arts must also complete all requirements in a minor area of study that is different from their declared major field. Students may select minors in or outside the College of Visual and Performing Arts, and students are encouraged to seek advice from CVPA advisors when making this choice. Any B.A. student who is pursuing a double major is exempt from this requirement. See the Minor Requirement topic on the College of Visual and Performing Arts page for more information.

Disciplinary Honors in Music

Requirements

• A minimum of 12 credit hours as defined below.
• A grade of A or B in all course work used to satisfy the Honors requirements in Music.
• UNC Greensboro cumulative GPA of 3.30 or better or, for transfer students, cumulative GPA of 3.30 or better from all prior institutions.

</table>

Select 3 credits from the following:

Any Contract Honors course in Music
Any Honors course (whether or not in Music)

* Under certain circumstances, the Music Honors Panel may permit a graduate-level course to be taken in place of the listed required courses.

Recognition

Receive a Certificate of Disciplinary Honors in Music; have that accomplishment, along with the title of the Senior Honors Project, noted on the official transcript; and be recognized at a banquet held at the end of the spring semester.

Honors Advisor

Contact Alex Ezerman at abezerman@uncg.edu for further information and guidance about Honors in Music. To apply: http://honorscollege.uncg.edu/forms/disc-application.pdf

Music Education, B.M.

Student Learning Goals

The Bachelor of Music degree is the initial professional degree in music. Its primary emphasis is on development of the skills, concepts, and sensitivities essential to the professional life of the musician. In any of many possible roles, the professional musician must exhibit not only technical competence, but also a broad knowledge of music and music literature, the ability to integrate musical knowledge and skill, sensitivity in musical style, and an insight into the role of music in intellectual and cultural life.

Overall Requirements

• 120 credit hours, to include at least 36 credits at or above the 300 course level; 3.0 GPA

</tr>
</tbody>
</table>

- *Must be at the 300-level or above (e.g., MUE 356, MUE 357, MUE 367, MUE 461, MUE 462, MUE 463, MUE 464, MUE 467)*

### Recognition

Receive a Certificate of Disciplinary Honors in Music Education; have that accomplishment, along with the title of the Senior Honors Project, noted on the official transcript; and be recognized at a banquet held at the end of the spring semester.

### Honors Advisor

See Alex Ezerman at abezerma@uncg.edu for further information and guidance about Honors in Music Education. To apply: [http://honorscollege.uncg.edu/forms/disc-application.pdf](http://honorscollege.uncg.edu/forms/disc-application.pdf)

### Performance, B.M.

Performance majors must maintain a cumulative GPA of 2.50 or higher in Music courses.

### Student Learning Goals

Undergraduate students in Music Performance pursue rigorous professional training in music along with a broad liberal arts education. Our students graduate as informed, responsible citizens, with the tools to succeed and communicate effectively as musicians of the 21st Century.

Graduating Students in the B.M. Music Performance Program will:
- communicate clear musical intentions and understanding;
- demonstrate sufficient understanding of and capability with musical forms, processes, and structures in performance or creative applications according to the requisites of their specializations;
- demonstrate basic understanding of historical awareness in performance or creative applications according to the requisites of their specializations;
• demonstrate sufficient technical ability in performance or creative applications according to the requisites of their specializations; and,
• demonstrate entrepreneurial skills according to the requisites of their specializations.

Overall Requirements
• 120 credit hours
• Performance majors must maintain a cumulative GPA of 2.50 or higher in Music courses.

Degree Program Requirements

### University Requirements
University Requirements (p. 771)
General Education Requirements (MAC) (p. )

### Major Requirements
Select one of the concentrations as detailed following the major requirements.

- Brass and Percussion
- Composition
- Jazz
- Keyboard
- Strings
- Voice
- Woodwinds

### Electives
Electives sufficient to complete the 120 credit hours required for the degree.

Brass and Percussion Concentration Requirements
• 120 credit hours

Select 3 credits from the following:
Any Contract Honors course in Music
Any Honors course (whether or not in Music)

* Under certain circumstances, the Music Honors Panel may permit a graduate-level course to be taken in place of the listed required courses.

Recognition
Receive a Certificate of Disciplinary Honors in Music; have that accomplishment, along with the title of the Senior Honors Project, noted on the official transcript; and be recognized at a banquet held at the end of the spring semester.
Honors Advisor
Contact Alex Ezerman at abezerman@uncg.edu for further information and guidance about Honors in Music. To apply: http://honorscollege.uncg.edu/forms/disc-application.pdf

Music Undergraduate Minor
The 18 credit hours Music minor affords students majoring in other fields the opportunity to enrich their degree programs with applied and scholarly engagement with music.

Program Requirements
• Minimum of 18 credit hours
• Minimum grade of C in all courses taken to fulfill the minor.

Music Composition, M.M.
The M.M. in Composition is a two-year degree, which requires 33 credit hours. At least one half the course work credited toward the degree must be in 600-level courses or above. A diagnostic examination is administered prior to the first semester of enrollment. In addition to private composition study, students take courses in orchestration, electronic music, counterpoint, advanced theory and history, and electives.

Assistantships are available, as are a limited number of in-state and out-of-state tuition waivers. Graduate Assistants in Composition are routinely assigned to teach Composition Skills or Making Music with Computers, assist in activities of the Composition Studios, help maintain and organize the Electronic Music Studios, give tech support for public events, and teach or assist with Music Theory.

Additional policies and regulations are found in the Graduate Music Handbook, located at: vpa.uncg.edu/music/music-current-students/graduate/.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a personal statement. Samples of work are required and should be forwarded directly to the Music office. Some applicants may need to submit a resume/vita and/or participate in an interview or audition. Contact the Music office for more information.

Degree Program Requirements
Required: 33 credit hours

Enrollment in MUP 651 Performance Studies or MUP 699 Thesis is required during the semester of the degree recital.

A written Comprehensive Exam is required for graduation.

A thesis is required and at least one recital is required (Capstone Experience).

Courses in Support of the Major (12 credits)

Select 9 credits from the following:

- 3-6 credits of Musicology and Ethnomusicology
- 3-6 credits of Music Theory

Electives (3 credits)

Select 3 credits of electives

Total Credit Hours 33

1 Enrollment in at least two semesters of MUP 651 is required before the semester of the degree recital.

2 Must include one course focusing on music of the past 100 years.

3 Must be Music electives. Upon approval of the Composition Faculty and the Graduate Program Director in Music Performance, a course in digital media (e.g., film, video) offered in other departments such as Art or Media Studies may be used as an elective.

Graduate Music Handbook
Additional policies and regulations are found in the Graduate Music Handbook located at: vpa.uncg.edu/music/music-current-students/graduate/.

Music Education, M.M.
The M.M. in Music Education requires 32 credit hours. At least one-half the course work credited toward the degree must be in 600-level courses or above. Diagnostic examinations in music history and music theory are administered prior to the first semester of enrollment. Students complete their M.M. Portfolio either during the semester prior to the final semester or during the final semester. The portfolio demonstrates advanced competencies of teaching music.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

* Select from 600- and 700-level MUS courses.

** A minimum of two 3-credit courses are required; a maximum of 3 credits of music performance study in music ensembles (i.e., ENS 6XX) or private music lessons (e.g., MUP 653) may be completed for the remaining 3 credits of electives.

Music Theory, M.M.

The M.M. in Music Theory requires 34 credit hours. Thesis and non-thesis options are offered. At least one half the course work credited toward the degree must be in 600-level courses or above. A diagnostic examination is administered prior to the first semester of enrollment. The capstone experience is a required written comprehensive examination in the final semester and a thesis or document.

Additional policies and regulations are found in the Graduate Music Handbook, https://vpa.uncg.edu/music/music-current-students/graduate/.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must provide:

* A statement of intent that outlines their background, interest in music theory, and career goals.
* A scholarly paper on music, preferably one with an analytical focus.
* Applicants whose materials pass an initial screening by the music theory faculty will be invited for an interview that tests sight-reading, dictation, analysis, and keyboard skills. A diagnostic written exam is administered prior to the interview.

1 Should be chosen in consultation with the major advisor; MUE 618 Psychology of Music is recommended.

2 For both the thesis and non-thesis options, a comprehensive examination with both written and oral components is required. The thesis or document is to be presented in a public forum.

3 5 credits of MUS 699 are required for the Thesis Option.

4 2 credits of MUS 698 are required for the Non-Thesis Option.

Performance, M.M.

The M.M. in Performance requires 32 credit hours for all concentrations except Collaborative Piano, which requires 33 credit hours; Piano Pedagogy, which requires 35 credit hours; and Vocal Pedagogy, which requires 35 credit hours. At least one half the course work credited toward the degree must be in the 600-level courses or above. A
diagnostic examination is administered prior to the first semester of enrollment.

Assistantships are available, as are a limited number of in-state and/or out-of-state tuition waivers. Graduate Assistants in Performance are routinely assigned to teach performance studies, perform in ensembles, teach required classes depending on experience, and assist with other support duties in the School of Music.

Additional policies and regulations are found in the Graduate Music Handbook, https://vpa.uncg.edu/music/music-current-students/graduate/.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition, all students must present a performance audition and/or interview.

Performance auditions/interviews are required for acceptance as a music major and for approval of the area of study. M.M. Auditions should be arranged in advance through the graduate music office, and are to be scheduled on regularly scheduled audition dates. Visit: https://vpa.uncg.edu/music/apply/ for more information.

Additional policies and regulations are found in the Graduate Music Handbook located at: https://vpa.uncg.edu/music/music-current-students/graduate/.

Degree Program Requirements

Required: 32-35 credit hours

For all concentrations in the M.M. in Performance, enrollment in two semesters of MUP 651 Performance Studies is required before the degree recital may be scheduled. Enrollment in MUP 651 is required during the semester of the degree recital. A Final Comprehensive Evaluation (written and/or oral examination, comprehensive written document, or other format appropriate to and determined by concentration) is required for graduation. At least one recital is required for all concentrations. (Capstone Experience)

Additional degree requirements are listed by Concentration.

Ensemble Requirements

Masters students who are registered for 2 or more credits of music performance studies must audition for and perform in an ensemble each semester, as required by concentration. Students will have the opportunity to express their ensemble placement preferences, but they will be assigned according to audition results and ensemble priorities. Ensemble assignments and placement will be determined by the Director of Bands, Director of Orchestras, Director of Choral Programs and the Director of the Miles Davis Jazz Program in consultation with the performance teachers and appropriate Area Coordinator.

Collaborative Piano Concentration

Required: 33 credit hours

9 credits of language are required for collaborative piano majors, one semester each of French, German, and Italian. Also required is the equivalent of MUP 170 Italian and Latin Diction for Singers. Language and diction credits must be credited satisfactorily on a college transcript. If not, this requirement may be resolved with appropriate enrollment while working on the current degree; however, these credits will not count toward the degree.

Conducting (Choral) Concentration

Required: 32 credit hours

One semester of undergraduate conducting, two semesters of undergraduate diction including study of German and/or French diction, at least two semesters of undergraduate vocal study, and a history of participation in collegiate choral ensembles during the undergraduate degree must be satisfactorily credited on a college transcript. Deficiency in conducting study, voice study, and diction credits may be resolved with appropriate enrollment while working on the current degree; however, these credits will not count toward the degree.

  - Credit Hours: 4

### Total Credit Hours
- Credit Hours: 32

* ENS 648 Chamber Music is recommended.
Vocal Pedagogy Concentration

Required: 35 credit hours

12 credits of language are required for voice majors—one semester each of French, German, and Italian plus a second semester of one of these three languages. These credits must be satisfactorily credited on a college transcript. In addition to diagnostic exams in history and theory required of all graduate students, voice students will be assessed on competency in written International Phonetic Alphabet and spoken pronunciation of Italian, German, French, and English. Deficiencies may be resolved with appropriate enrollment in undergraduate courses while working on the current degree; however, these credits will not count toward the degree. For graduate credit, students may resolve the deficiency by enrolling in MUP 630 The Study and Pedagogy of Phonetics as Applied to Singing. Consult the Graduate Handbook in Music Performance for further information.

* By audition placement.
The D.M.A. in Music requires 90 credit hours of post-baccalaureate course work; 60 credits must be completed at UNC Greensboro (the Graduate School transfer credit policy applies). A diagnostic examination is administered prior to the first semester of enrollment.

Assistantships are available, as are a limited number of in-state and/or out-of-state tuition waivers. Graduate Assistants in Performance are routinely assigned to teach performance studies, perform in ensembles, teach required classes depending on experience, and assist with other support duties in the School.

Additional policies and regulations are found in the Graduate Music Handbook, https://vpa.uncg.edu/music/music-current-students/graduate/.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, D.M.A. applicants must submit a repertory list, resume, and scholarly writing sample (if required) with the pre-screening recording.

The GRE is not required.

Students who begin study at the master’s level at UNC Greensboro must successfully fulfill all requirements for the master’s degree and successfully present a doctoral audition/interview to be admitted into the doctoral program.

**Degree Program Requirements**

**Required: 60 credit hours**

The D.M.A. in Music requires a minimum of 90 credit hours of post-baccalaureate course work. Up to 30 credits earned in a master’s program from an accredited graduate school may be applied to the elective portion of this degree. These credits may count toward the required cognate or help to satisfy competencies with the approval of the Doctoral Advisory Committee in accordance with the academic regulations of The Graduate School. These credits may not be used to satisfy any non-elective requirements.

The plan of study is developed individually in consultation with the student’s advisory committee. At least 75% of all course work (36 credits), exclusive of the dissertation, must be at the 600- or 700-level. A diagnostic examination is administered prior to the first semester of enrollment.

The following 60 credits must be completed at UNC Greensboro (the Graduate School transfer credit policy applies):

</table>

**Electives (21 credits minimum)**

Select a minimum of 21 credits of elective courses

**Required Competencies**

Satisfactory completion of competencies is determined by the Doctoral Advisory Committee.

- **Area Literature**
- **Area Pedagogy**
- **Language** (if required by area, see Music Graduate Handbook for details)
- **Research** (Students who have not earned a B or higher in a bibliography/research course at the master’s level from a NASM accredited school must take MUE 601 Research Methods in Music or MUS 602 Seminar in Music Research and Writing)

**Required Cognates**

All students are required to develop a cognate that comprises 12 credits from any one area of study. These credits may come from the master’s degree, the required doctoral courses, or any other courses taken at UNC Greensboro as electives. If a student applies for and completes one of our P.B.C.s, P.M.C.s, or doctoral minors, this fulfills the cognate requirement.

For more information on our certificate programs, please see the Programs section in the University Catalog. Satisfactory completion of cognates is determined by the Doctoral Advisory Committee.
Required Milestones*

- Diagnostic Exam
- Residency (Immersion)
- Continuation Jury
- Plan of Study
- Research Competency
- Comprehensive Exam (Written & Oral)
- Dissertation Proposal
- Admission to Candidacy
- Dissertation Defense
- Filing the Final Approved Dissertation

* General information about milestones for doctoral programs is available in Section III (p. 807) of the Graduate Policies (p. 788) page in the University Catalog. For information about how milestones are accomplished for a specific program, please refer to the doctoral program’s handbook.

Music Education, Ph.D.

The Ph.D. in Music Education requires 54 credit hours. At least 75% of all course work, exclusive of the dissertation, must be at the 600 or 700 level. A diagnostic examination is administered prior to the first semester of enrollment. A cognate, or cognates, in any area approved by the student’s advisory/dissertation committee and The Graduate School may be elected as specified in the University Catalog.

Additional policies and regulations are found in the Graduate Music Handbook, https://vpa.uncg.edu/music/music-current-students/graduate/.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

** Students may select from any graduate-level courses.

Ethnomusicology, Post-Baccalaureate Certificate

The Post-Baccalaureate Certificate in Ethnomusicology requires 15 credit hours and provides students with global breadth and awareness of multiple music traditions, as well as theoretical principles and practical applications of ethnomusicology.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School:

- A statement of intent outlining background in ethnomusicology and particular goals and interests.
- A writing sample showing significant engagement with music and culture.
- An interview with participating faculty.

Certificate Program Requirements

Required: 15 credit hours

Course options will be decided in consultation with the student’s advisor.

3. Chosen in consultation with advisor.

**Historical Keyboard Performance, Post-Baccalaureate Certificate**

The Post-Baccalaureate Certificate in Historical Keyboard Performance provides students guidance in playing 16th- through 19th-century repertoire on instruments contemporaneous with the music, supported by course work in literature and performance practice.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School:
- An earned bachelor's degree in Music is a prerequisite.
- Students applying only for this P.B.C. will audition for the keyboard faculty, adapting the audition requirements of the M.M. in Early Keyboard Instruments in consultation with the Coordinator of the Keyboard Area.
- Such non-degree students must also submit all application materials required by the School of Music and the Graduate School, excluding GRE scores, by the appropriate deadline for Fall, Spring, or Summer admission.
- Admitted D.M.A. students in keyboard performance may contact the Coordinator of the Keyboard Area for permission to enroll in this P.B.C. without undergoing any additional auditions.

**Certificate Program Requirements**

Required: 12 credit hours (must be taken at UNC Greensboro)

1. Topic must be relevant to historical keyboard studies, such as: The 18th-Century Piano, The Mozart Piano Concertos, Haydn's Keyboard Music, The Pianist's Bach, Performance Practice on Historical Keyboard Instruments, Beethoven's Late Piano Music, Chopin and the Pleyel, Iberian keyboard music of the Renaissance and Baroque, The Keyboard Prelude and Fugue in 16th- and 18th-century Germany.

**Jazz Studies, Post-Baccalaureate Certificate**

The Post-Baccalaureate Certificate in Jazz Studies provides students and/or professionals with knowledge and skills needed to apply principles of jazz to a variety of musical careers.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School:
- An earned Bachelor's degree in Music; in exceptional cases, a student with an undergraduate degree outside of music may be considered.
- For current degree-seeking students, at least one letter of recommendation must be from a Jazz faculty member at UNC Greensboro.

**Certificate Program Requirements**

1. Must be taken at UNC Greensboro, at least 6 credits at the 600-level; the coordinator of the Miles Davis Program in Jazz will advise the student in course selection.
Music Composition, Post-Baccalaureate Certificate

The Post-Baccalaureate Certificate in Music Composition provides students with knowledge and skills needed to pursue music composition within a variety of musical careers.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School:

- For current degree-seeking students, at least one letter of recommendation must be from a Composition faculty member at UNC Greensboro.
- The application will also contain a portfolio of scores and recordings of original compositions (normally consisting of 3-5 works).
- An earned Bachelor's degree in Music; in exceptional cases, a student with an undergraduate degree outside of music may be considered.

* Must be taken at UNC Greensboro, at least 6 credits at the 600 or 700 level; the coordinator of the Composition area will advise the certificate student in course selection.
** Applied composition lessons. May be repeated. Maximum 3 credits per term for MUP 651 and maximum 2 credits per term for MUP 653.

Exit Requirements

Each certificate student must present a 30-minute recital (MUP 600 Recital) of their original compositions. Degree-seeking students must include a member of the composition faculty on their doctoral advisory committee or master's comprehensive exam committee. Testing conditions will follow those outlined in the Handbook for Graduate Study in Music for the student's degree program. Students will be afforded two opportunities to pass the recital requirement.
Music Education Methods and Approaches (3 credits)

Select one course (3 credits) from the following:

MUE 627 Issues in Multicultural Music Education
MUE 632 Methods and Materials of Music Reading Instruction
MUE 633 Music for Exceptional Children
MUE 645 Teaching Elementary Music: Theory and Practice
MUE 656 Advanced Choral and General Music Methods for the Adolescent

Total Credit Hours 12

Exit Requirements

To acquire the Post-Baccalaureate Certificate in Music Education, all students must complete the course work, as specified, with a grade of B or better to demonstrate that they have sufficient depth and breadth of music education.

Music Performance Study, Post-Baccalaureate Certificate

The Post-Baccalaureate Certificate in Music Performance Studies provides students and/or professional musicians with the knowledge and skill needed to pursue musical performance in a variety of musical careers.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

An in-person performance audition with School of Music faculty committee is required.

* Could include three separate ensemble credits.
** Could include instrumental study in a complementary area such as study in multiple woodwinds, historical keyboard, and others.

Music Technology, Post-Baccalaureate Certificate

The Post-Baccalaureate Certificate in Music Technology provides the opportunity for students who are enrolled in the M.M. or D.M.A. programs to add a focus, or competency, in Music Technology, which may be of benefit for their own creative work, and to expand their options in the job market after graduation. The P.B.C. is also an option for non-degree seeking students.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

An earned bachelor's degree in Music; in exceptional cases, a student with an undergraduate degree outside of music may be considered.

Total Credit Hours 12-13

* Must be taken at UNC Greensboro.
** Applied composition lessons, focused on music technology projects. May be repeated one time. A maximum of 4 credits may be counted toward the certificate.

Exit Requirements

The required recital may be 0-1 credits, and can take many forms: a half recital in Composition or Performance, or providing technical support for another student's recital, for example. Completion of all course work with a grade of B or better is required. Degree-seeking students must include a faculty member member with expertise in music technology on their doctoral advisory committee or master's comprehensive exam committee. Testing conditions will follow those outlined in the handbook for graduate study in music for the student's degree program.

Graduate Music Handbook

Additional policies and regulations are found in the Graduate Music Handbook located at vpa.uncg.edu/music/music-current-students/graduate/ (https://vpa.uncg.edu/music/music-current-students/graduate/).
Music Theory Pedagogy, Post-Master's Certificate

The Post-Master's Certificate in Music Theory Pedagogy provides Ph.D. or D.M.A. music students with the knowledge and skills necessary to be successful teaching music theory and ear training in higher education.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must:

• Be enrolled in a doctoral degree program in music.
• Earn a passing score on the Graduate Theory Diagnostic Exam.
• Provide a statement of intent that outlines their background and interest in music theory and their goals.
• Interview with participating faculty. The interview involves an assessment of skills required for the teaching of music theory and ear training. Contact the Director of Graduate Study in Music for more information.

Total Credit Hours 14

* Two semesters of MUS 789 are required for a total of 2 credits.
** MUS 707 may be taken twice with different topics to fulfill 6 credits of certificate requirements.

Musicology, Post-Baccalaureate Certificate

The Post-Baccalaureate Certificate in Musicology provides students with the opportunity to study music history in greater depth in a structured program, preparing M.M. and D.M.A. students to teach courses requiring music history knowledge, and thus enhancing their marketable skills. It also prepares other graduates of B.A. or B.M. programs for further graduate study in musicology and enhances the employability of students with an interest in public sector fields and arts administration.

The objectives of the Post-Baccalaureate Certificate in Musicology are to:

• Increase cultural awareness and understanding of the Western art music tradition in relation to non-European musical traditions.
• Develop practical skills for teaching music history in the classroom.
• Develop research and writing skills in the field of music history.

The program is open to students with a B.A., B.M., or other undergraduate four-year degrees who meet admission requirements. Additionally, it is open to UNC Greensboro students enrolled in M.M., D.M.A. and Ph.D. programs in the School of Music.

Music Theory, Post-Baccalaureate Certificate

The Post-Baccalaureate Certificate in Music Theory provides students and/or professionals with knowledge and skills needed to apply principles of music theory to a variety of musical careers.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).
For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School:

• Provide a statement of intent that outlines the candidate’s background, interests, and goals in musicology.
• Provide a writing sample that demonstrates intellectual engagement with music.
• Interview with participating faculty.
• Pass the music history diagnostic exam required of all incoming degree-seeking music graduate students.

Students in the Musicology certificate program will work with an advisor in the musicology area who will help the student design an integrated program specific to his or her needs and interests.

Certificate Program Requirements

Required: 13 credit hours taken at UNC Greensboro

</table>

* May be repeated with a different topic for a total of 6 credits.

** In consultation with the student’s musicology advisor, and as appropriate for the student’s plan of study, the student may substitute one relevant course outside of the area. Relevant courses could include MUE 601 Research Methods in Music or MUS 602 Seminar in Music Research and Writing, a language, a period or non-Western ensemble, or a 500/600 level course in such fields as History, Women’s and Gender Studies, African American Studies, Music Theory, or others.

Exit Requirements

Students must maintain a minimum 3.0 GPA in courses counting for credit towards the certificate.
School of Theatre

College of Visual and Performing Arts

200 Taylor Building
336-334-5576
http://vpa.uncg.edu/theatre

Natalie Sowell, Director of the School of Theatre
Deb Bell, Graduate Program Director

Mission

The UNC Greensboro School of Theatre educates and trains students as professional artists in performance, design and technology, theatre for youth, and theatre education. Our rigorous B.A., B.F.A., and M.F.A. programs produce exemplary theatre artists with the knowledge, skills, and vision to work professionally in the performing arts.

Undergraduate Study

The School of Theatre offers a full range of liberal arts and professional degree programs that prepare undergraduate students for a variety of career opportunities in theatre. The school offers the following undergraduate degree programs:

- B.A. in Drama
- B.F.A. in Drama, with concentrations in
  - Acting
  - Design and Technical Production
  - Musical Theatre
  - Theatre Education (Teacher Licensure)

The degrees, which are accredited by the National Association of Schools of Theatre, provide students with a vital mix of course work that combines both theory and practice and allows for the development of skills and talents.

The School also offers three minors in Drama, Musical Theatre, and Technical Theatre. Each minor requires completion of 18 credit hours of courses. The minors are broadly designed and include a variety of course selections and should be of interest to students with general interests in these areas who are majoring in complementary fields such as Media Studies, Communication Studies, English, Art, and Dance.

The School’s rich and varied curriculum is matched by an extensive co-curricular program that includes opportunities to participate in productions at UNC Greensboro Theatre, North Carolina Theatre for Young People, Triad Stage, and Workshop Theatre. Participation in school-sponsored plays and musicals is open to majors and non-majors alike.

The School encourages students to pursue internship opportunities, particularly in the summer months. Students are also encouraged to investigate study abroad programs offered by the university.

The School utilizes office, classroom, laboratory, studio, and performance space in the Taylor, Brown, UNC Greensboro Auditorium, and Curry buildings on campus. Our buildings at 326 and 328 Tate Street house additional labs, studios, and our costume shop. Adjacent to campus is our scene shop located at 812 Lilly Street. The school’s faculty is composed of talented artists and scholars with excellent reputations as teachers. Students are encouraged to collaborate with faculty on creative and research projects during their course of study.

Admission to the School’s degree programs is competitive. The requirements stated below are minimum requirements, and marginal compliance with them does not automatically imply admission.

Graduate Study

The School of Theatre offers one graduate degree: the M.F.A. in Drama (with concentrations in acting, design, directing, and theatre for youth). The M.F.A. is a terminal master’s degree designed to develop individual artistry and provide advanced, specialized training in acting, design, directing, and theatre for youth. The M.F.A. is accredited by the National Association of Schools of Theatre.

The School offers a rich and varied curriculum that combines theory and practice and demands the development of skills and talents. Curricular offerings are matched by an extensive co-curricular program that includes opportunities to participate in the School’s extensive theatre production program, which includes UNC Greensboro Theatre, N.C. Theatre for Young People, Studio Theatre, Workshop Theatre, and a professional summer theatre workshop. Students may also be provided production opportunities at Triad Stage, an equity regional theatre in Greensboro.

Office, classroom, laboratory, studio, and performance space is used in Taylor, UNC Greensboro Auditorium, Brown, Ferguson, Curry, 812 Lilly, 326 Tate, and 328 Tate. The faculty of talented artists and scholars have excellent national reputations and are deeply committed to teaching and learning. Graduate students are expected to work closely with faculty on creative and research projects during their course of study.

VISIONS students are restricted from taking any 500-level course without the permission of the Director of the School of Theatre and course instructor. Only students officially admitted to the M.F.A program can register for 600-level courses.

In addition to the information contained in the University Catalog, students are also required to be familiar with the policies and procedures contained in all School handbooks that can be obtained from the school’s Main Office, Room 202, Taylor Building.

- Drama, M.F.A. (p. 523)

Drama, B.A.

The B.A. in Drama provides a broadly based approach for students who wish to emphasize theatre as an undergraduate major. A strong core of courses in acting, directing, stagecraft, playscript analysis, theatre history, and dramatic literature is supplemented by additional work in performance, technical theatre, and other theatre studies. B.A. Drama Majors have plentiful opportunities to develop analytical, communication, and presentational skills highly valued in university graduates.

All Theatre majors are expected to read and abide by the policies published in the Theatre Program student handbooks, available online.

Overall Requirements

- 120 credit hours, to include 50 credits in the major, and at least 36 credits at or above the 300 course level

Drama, B.F.A.

**Related Area Requirements**

**Foreign Language Requirement**

Foundational-level proficiency in a language other than English required. Proficiency may be demonstrated by placement test or by completion of course work through course number 102 or higher.

**Electives**

Electives sufficient to complete the 120 credit hours required for degree.

**College of Visual and Performing Arts Minor Requirement**

Students pursuing a B.A. degree in the College of Visual and Performing Arts must also complete all requirements in a minor area of study that is different from their declared major field. Students may select minors in or outside the College of Visual and Performing Arts, and students are encouraged to seek advice from CVPA advisors when making this choice. Any B.A. student who is pursuing a double major is exempt from this requirement. See the Minor Requirement topic on the College of Visual and Performing Arts page for more information.

**Disciplinary Honors in Theatre**

**Requirements**

- A minimum of 12 credit hours as outlined below.
- A grade of at least B in all course work used to satisfy the Honors requirements for Theatre
- A declared Theatre Major
- At least a 3.30 overall GPA at graduation

<table>
<thead>

</tbody>
</table>

* University Honors courses may be substituted for up to 6 credits of the 9 credits required. These courses offer a wide range of subjects and can often serve as GEC courses for the Theatre Major.

** May not be taken for more than 3 credits.

**400-level THR course**

Any 400-level THR course completing graduate work with graduate students. Instructor must be notified at the beginning of course.

**Contract Course**

Any THR course negotiated as a Contract Course between the Honors Candidate and the instructor meeting Honors council guidelines for Contract Courses. See advisor for application forms and deadlines for submission.

**Independent Study**

Taken under the guidance of a faculty member, perhaps taken in preparation for the Capstone Experience/Project. See advisor for approval.

**Recognition**

The designation "Completed Disciplinary Honors in Theatre" and the title of the Senior Honors Project will be printed on the student's official transcript.

**Honors Advisor**

See Deborah Bell and undergraduate curriculum advisor for further information and guidance about Honors in Theatre.

**Drama, B.F.A.**

**About the B.F.A. Drama (DRAM) Major**

The B.F.A. Drama Major emphasizes that theatre is a discipline involving aptitude, study, and practice. Students' development through classroom study combined with practical application in the production program is required to continue in the major. Students are formally reviewed for continuance in the B.F.A. programs each year.

Students pursuing the B.F.A. in Drama select from four concentrations:

- Acting
- Design and Technical Production
- Musical Theatre
- Theatre Education (with teacher licensure)

**Admission to the B.F.A. in Drama Major**

Students pursuing the B.F.A. in Drama select from four concentrations:

- Acting
- Design and Technical Production
- Musical Theatre
- Theatre Education (with teacher licensure)
Admission to Acting Concentration
Students in the B.F.A. Acting concentration audition prior to admittance, and, if accepted, enter the B.F.A. in Acting as freshmen. Transfer students may elect to audition as part of the transfer process (prior to matriculation) and if accepted will enter UNC Greensboro as part of the freshmen B.F.A. in Acting class. The B.F.A. in Acting requires a residency at UNC Greensboro of no fewer than seven semesters.

Admission to Design and Technical Production Concentration
Provisional admission is granted to the B.F.A. in Design and Technical Production concentration during the fall semester. At the end of the fall semester, students are interviewed for admission to the programs. Students should consult their faculty advisors for detailed interview requirements. Admission to the program is very competitive.

Admission to Musical Theatre Concentration
Students in the B.F.A. Musical Theatre concentration audition prior to admittance, and, if accepted, enter the B.F.A. in Musical Theatre as freshmen. Transfer students may elect to audition as part of the transfer process (prior to matriculation) and if accepted will enter UNC Greensboro as part of the freshmen B.F.A. in Musical Theatre class. The B.F.A. in Musical Theatre requires a residency at UNC Greensboro of no fewer than seven semesters.

Admission to Theatre Education Concentration
Provisional admission is granted to students in the Theater Education concentration during the first three semesters. After receiving passing scores on the Praxis I, and achieving a 3.0 GPA, students apply for admission to Teacher Education in the second semester of the sophomore year. A faculty interview is required for admission.

Transfer students should note that the program is concerned with the maturation and sequential training of the young artist/educator. Thus, enrollment for six semesters (three years) is required, even when students begin study in their junior year. Students planning to transfer to UNC Greensboro to pursue a B.F.A. in Theatre Education are cautioned to take courses that meet General Education Core (GEC) requirements instead of taking courses in the major.

Continuance in the B.F.A. Drama Major
Performance Practicums: As part of developing appropriate professional understanding, B.F.A. in Musical Theatre and Acting students are required to audition for the production season every semester and accept whatever role they are offered, beginning with the Spring semester of their Freshman year. In circumstances of extreme need, a BFA Musical Theatre or Acting student may petition to be excluded from the casting pool for a semester. Please note that this petition must be received and approved by performance faculty before the casting process begins.

Non-Performance Practicums: Before graduation, all B.F.A Musical Theatre and Acting students will complete two 140-level tech Practicums in the shops or on a production run crew and complete an additional 490-level non-performance Practicum assignment

B.F.A. Design and Technical Production students must complete one production assignment during the second semester in the freshman year and at least six more assignments during the sophomore, junior, and senior years. B.F.A. transfer students in Design and Technical Production are required to complete one production assignment each semester in the program.

B.F.A. in Theatre Education students must maintain a 3.0 minimum GPA, maintain active professional liability insurance, complete 100 hours of pre-approved field experience in K–12 schools prior to student teaching, audition at least once every year, complete a minimum of two stage management assignments, and complete an annual faculty review.

Internship Requirements
B.F.A. Design and Technical Production majors are required to complete an internship. Transfer students should make arrangements to schedule the internship as soon as possible. Internships must be approved prior to the completion of the internship duties.

All Theatre majors are expected to read and abide by the policies published in the student handbooks, available online.

Production Assignments
Credit is earned for these production assignments as noted in the outline of requirements within programs.

Overall Requirements
• 120 credit hours, to include at least 36 credits at or above the 300 course level

**Field Experience**
- 12 credit hours
  - THR 497 Student Teaching in Theatre Arts

**Professional Education Courses**
- 12 credit hours

**Disciplinary Honors in Theatre Requirements**
- A minimum of 12 credit hours as outlined below.
- A grade of at least B in all course work used to satisfy the Honors requirements for Theatre
- A declared Theatre Major
- At least a 3.30 overall GPA at graduation

Select 9 credits from the following:
- 400-level THR course
- Contract course
- Independent study
- THR 232 Acting II
- THR 483 Honors Work

Select 3 credits of the following:
- HSS 490 Senior Honors Project
- THR 483 Honors Work
- THR 498 Capstone Production Practicum

* University Honors courses may be substituted for up to 6 credits of the 9 credits required. These courses offer a wide range of subjects and can often serve as GEC courses for the Theatre Major.
** Course qualifies if taken toward completion of HSS 490.
† The B.A. Capstone Experience, building on earlier courses, and/or University Studies Abroad to create a capstone experience, can serve as credit or substitute for these course. Students present their topics to their B.A. Faculty Review Committees for approval at least one semester before completing the capstone project. Upon completing the project, students summarize and analyze their project with the Faculty Review Committee. See advisor for possible capstone project examples.

400-level THR course
Any 400-level THR course completing graduate work with graduate students. Instructor must be notified at the beginning of course.

Contract Course
Any THR course negotiated as a Contract Course between the Honors Candidate and the instructor meeting Honors council guidelines for
Contract Courses. See advisor for application forms and deadlines for submission.

**Independent Study**
Taken under the guidance of a faculty member, perhaps taken in preparation for the Capstone Experience/Project. See advisor for approval.

**Recognition**
The designation "Completed Disciplinary Honors in Theatre" and the title of the Senior Honors Project will be printed on the student's official transcript.

**Honors Advisor**
See Deborah Bell and undergraduate curriculum advisor for further information and guidance about Honors in Theatre.

**Musical Theatre Undergraduate Minor**

This minor is intended to provide introductory performance-related experiences for performing arts students not in the BFA theatre degree tracks. Students in the BFA theatre degree tracks may be able to earn a minor in musical theatre by taking 15 credit hours in the more advanced offerings in musical theatre.

**Program Requirements**

- Minimum of 18 credit hours
- This minor is intended to provide introductory performance-related experience in Musical Theatre for performing arts students majoring in theatre, dance, or voice, and exceptionally talented non-CVPA students with interest in Musical Theatre.

Acceptance to minor is contingent on an audition and interview with Program Coordinator and Faculty.

**Requirements for Dance Majors**

Includes only the following majors and concentrations:

- Dance Studies, B.A.
- Dance Studies, B.A. with K-12 Teaching Licensure Concentration
- Dance, B.F.A.: Dance (Choreography and Performance) Concentration
- Dance, B.F.A.: Dance (Choreography and Performance) with K-12 Standard Professional Licensure Concentration

### Drama, M.F.A.

The School of Theatre offers a Master of Fine Arts (M.F.A.) in Drama with concentrations in Acting, Design, Directing, and Theatre for Youth. The M.F.A. is a terminal master’s degree designed to develop individual artistry and provide advanced, specialized training in acting, design, directing, and theatre for youth. The M.F.A is accredited by the National Association of Schools of Theatre.

The School offers a rich and varied curriculum that combines theory and practice and demands the development of skills and talents. Curricular offerings are matched by an extensive co-curricular program that includes opportunities to participate in the School’s extensive theatre production program, which includes UNC Greensboro Theatre, N.C. Theatre for Young People, Studio Theatre, Workshop Theatre, and a professional summer theatre workshop. Students may also be provided production opportunities at Triad Stage, an equity regional theatre in Greensboro.

Office, classroom, laboratory, studio, and performance space is used in the Taylor, UNC Greensboro Auditorium, Brown, Ferguson, Curry, and the 326 and 328 Tate Street buildings. The faculty of talented artists and scholars have excellent national reputations and are deeply committed to teaching and learning. Graduate students are expected to work closely with faculty on creative and research projects during their course of study.

Non-degree students are restricted from taking any 500-level course without the permission of the Director of the School of Theatre and the course instructor. Only students officially admitted to the M.F.A program can register for 600-level courses.

In addition to the information contained in the University Catalog, students are also required to be familiar with the policies and procedures contained in all School handbooks that can be obtained from the School’s Main Office, Room 202, Taylor Building.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a detailed resume of theatre experience and participate in an interview. Acting concentration applicants are required to audition, and applicants to the Design, Directing, and Theatre for Youth concentrations must submit a portfolio. Please contact individual programs for specific program requirements.

Admission to the School’s degree programs is very competitive. Marginal compliance with the requirements does not automatically imply admission.

Students entering the program normally have an undergraduate degree in Theatre with a strong background in the concentration they wish to pursue. Exceptions are occasionally made for students with significant professional or practical experience. For the Design concentration, an undergraduate degree in a related field may be acceptable. Students admitted without the appropriate undergraduate background will be expected to complete remedial work, in addition to normal degree requirements.
## Degree Program Requirements

**Required:** 60 credit hours

### Acting Concentration

The M.F.A. in Drama with an Acting Concentration is a 60 credit hour degree that may be completed in four semesters (two years) for students on assistantships. The Acting Concentration is dedicated to the development of the advanced actor for professional and academic theatre. Students take classes in voice, movement, contemporary and period scene study, acting for the camera, audition techniques, and related coursework in academic and performance disciplines. The program consists of a core of acting courses and practicum experiences all students take and a series of electives the student selects in consultation with their advisor. Internships are required for students without experience in summer theatre or a professional equivalent.

Candidates for the degree are accepted every other year.

### Academic Studies (6 credits)

Select a minimum of two courses (6 credits) from the following: 6

- THR 500  Theatre History I $^3$
- THR 501  Theatre History II $^3$
- THR 502  Theatre History III $^3$
- THR 505  American Theatre History
- THR 506  Global Performance in Theatre
- THR 587  Theatre Field Studies
- THR 601  Drama Theory and Criticism
- THR 602  Seminar in Drama and Theatre History
- ENG 540  Shakespeare
- MUS 665  History of Opera
- MST 528  Topics in Film Studies

### Supportive Studies (12 credits)

Select a minimum of four courses (12 credits) from the following: 12

- THR 596  Applied Theatre II
- THR 610  Applied Play Directing
- THR 620  Stage Dialects
- THR 623  Advanced Physical Violence for the Stage
- THR 634  Acting for the Camera
- THR 695  Independent Study

### Design Concentration

The M.F.A. in Drama with a Design Concentration is a 60 credit hour degree that may be completed in four semesters (two years) for students on assistantships. The Design Concentration is dedicated to developing well-rounded theatre designers within a scenographic tradition. The program affords students the opportunity to develop and demonstrate competencies in the major design elements used in professional theatre production. Students take classes and execute realized productions in the areas of scenery, costume, and lighting design. They are trained as artists and artisans to work in the professional entertainment industry and higher education.

Candidates for the degree are accepted every year.

Total Credit Hours 60

1. Students must take a minimum of 12 credits of seminars. Two sections at 3 credits each.
2. Required if not in undergraduate academic background.
3. Students may take a maximum of 6 additional credits of seminars.

**Reviews**
All candidates are reviewed each semester for continuance in the program. Reviews assess the candidate’s artistic and academic development and success in meeting degree requirements.

**Directing Concentration**
The M.F.A. in Drama with a Directing Concentration is a 60 credit hour degree that may be completed in four semesters (two years). Two students are accepted every other year. The Directing Concentration trains advanced directors to work professionally and to teach at the collegiate level. Students direct a production every semester and take a core group of directing and academic studies classes with additional electives chosen in consultation with their advisor. Our relationship with Triad Stage, an Equity company in Greensboro, means that directing students work closely with professional directors, designers, and actors while at UNC Greensboro.

Total Credit Hours 525

1. Three sections, 2 credits each.
2. Required if not in undergraduate academic background.
3. In consultation with advisor.

**Reviews**
All candidates are reviewed each semester for continuance in the program. Reviews assess candidates artistic and academic development and their success in meeting degree requirements.

**Theatre for Youth Concentration**
The M.F.A. in Drama with a Theatre for Youth Concentration is a 60 credit hour degree. The program follows the guidelines established by the American Alliance for Theatre and Education and seeks to train theatre artists to take leadership roles in the growing field of theatre for youth. Students will have classes in process drama, theatre for youth, puppetry, and directing, as well as having the opportunity to select electives from a variety of courses. There is a heavy emphasis on directing; directing projects are required each semester. The student and advisor work closely together to develop an individualized program of courses and experiences tailored to meet specific career goals. Internships are required and are individually arranged by the student and advisor.

Candidates are accepted every other year.

JOSEPH M. BRYAN
SCHOOL OF BUSINESS AND ECONOMICS

516 Stirling Street
336-334-5338
http://bryan.uncg.edu

McRae C. Banks II, Dean of the School
William O. Brown, Associate Dean
Jaap-Jan van Duin, Assistant Dean

The Bryan School is preparing you to be a new kind of leader, the exceptional problem solver that our organizations and businesses need. We want to make sure that as you expand your leadership ability, you take advantage of everything the Bryan School has developed to support and engage you too take you to the next level of success and impact.

Mission Statement
In the Bryan School of Business and Economics, we create and disseminate knowledge about the theory and practice of business. In addition to our courses and research, we accomplish this through hands-on projects, global experiences, and outreach to the community. Our work produces principled leaders and exceptional problem solvers who have a global perspective, an innovative mindset, a broad understanding of sustainability, and a commitment to improve the organizations in which they work and the communities in which they live.

Student Learning Goals
Each program within the Bryan school has separate learning goals as listed with the degree program. The essential components of a professional education in business (excluding the B.S. and B.A. in Economics and the B.S. in Consumer, Apparel, and Retail Studies.) include common courses for breadth and opportunities for advanced work for depth in the various business disciplines. These core business programs share the following common learning goals:

1. Students will implement the various steps of the critical thinking process, supported by the appropriate use of analytical and quantitative techniques, to formulate recommendations for subsequent decision making.
2. Students will apply appropriate ethical standards when making recommendations for business decision making.
3. Students will evaluate business decisions in the context of sustainability goals, balancing environmental, social, and economic needs, conditions, and potential decision impacts.
4. Students will formulate appropriate strategies, in the context of global issues and forces, to improve business performance in the world economy.
5. Students will explain the roles of innovation and innovation management in achieving successful business strategies, decisions, and performance.
6. Students will be able to plan, schedule, contribute to, and lead projects.

Accreditation
The Bryan School is one of only 183 business schools in the world that is accredited in both business and accounting by AACSB International (The Association to Advance Collegiate Schools of Business), the premier accrediting body for business schools in the world.

Scope
Programs within the Bryan School of Business and Economics prepare students for careers in business and other managed organizations, teaching, and government, or for graduate study. These programs combine the essentials of a professional education and the breadth of general education.

Enrollment in Bryan School Courses

Enrollment in Bryan School courses requires a minimum cumulative GPA of 2.0 on UNC Greensboro course work, regardless of the student’s major or minor. This includes all courses offered under the following prefixes: ACC, BUS, ECO, ENT, FIN, ISM, MKT, MGT, and SCM. Courses in the Bryan School may have additional prerequisites or enrollment restrictions that are outlined in the university schedule and the description of each course.

Requirements for Majoring or Minoring in Bryan School Programs

Students pursuing a major or minor in the Bryan School of Business and Economics must have a cumulative grade point average no less than a 2.0 on UNC Greensboro course work. Requests to major or minor in one of the Bryan School’s programs can be made online. After being accepted as a pre-major in the Bryan School, students must then work toward being fully admitted to a specific program of study.

Criteria for Admission to Programs of Study in the Bryan School of Business and Economics

Bryan School Pre-Admission Courses are listed within the requirements for each program.

Application for Admission to Program of Study

Students who have met the admission criteria will be notified of admission into their major by Bryan Undergraduate Student Services at the following intervals:

- by October 15, if completing required admission course work during a fall semester
- by March 15, if completing required admission course work during a spring semester
- by July 15, if completing required admission course work during a summer semester.

Departments may require additional steps in the admission to major process.

Admission to a program of study may be denied in cases where additional enrollments would threaten the academic quality of classes or programs.

Criteria for Continuing in the Bryan School of Business and Economics

Students who have been admitted to the Bryan School of Business and Economics must be in good academic standing at UNC Greensboro, must maintain at least the GPA required for program admission, and must meet the continuation requirements of their programs of study.

Transfers

Since most of the courses in the major are taken during the junior and senior years, transfer students often complete their programs without extending their total stay beyond the usual four years. As a general guide, courses taught mainly to freshmen and sophomores here will usually, but not always, be accepted in transfer from accredited two-year colleges. Courses numbered 300 and above generally will not be accepted in transfer credit from two-year institutions. In order to allow timely completion of the required courses and required prerequisites, transfer students are encouraged to complete MAT 120 Calculus with Business Applications or MAT 191 Calculus I prior to transferring.

Second Baccalaureate Degrees

Students pursuing a second bachelor’s degree must meet all requirements within the Bryan School. The Bryan School cannot, at this time, accommodate persons who seek only to complete a series of courses in one field (such as Accounting or Information Systems).

Suggested Academic Workload Guidelines

The faculty of the Bryan School of Business and Economics recognizes that many Bryan School students hold jobs to support college expenses. The faculty wishes to emphasize that academic excellence and scholastic achievement usually require a significant investment of time in study, research, and out-of-class projects. To provide guidance to students in planning their academic and work schedules, the faculty of the Bryan School have endorsed the following recommendations:

1. In general, students should plan to devote between 2–3 hours outside of class for each hour in class. Thus, students with a 15 credit hour course load should schedule between 30–45 hours weekly for completing outside-of-class reading, study, and homework assignments.
2. Students who are employed more than 5–10 hours each week should consider reducing their course loads, depending upon their study habits, learning abilities, and course work requirements.
3. Students should take into consideration that many business courses require group work and plan accordingly.

Scholarships and Fellowships

Procedures and requirements for applying for undergraduate scholarships are described in Financial Aid.

Honors Programs

The Bryan School supports and encourages students to participate in the Honors Programs administered by the Lloyd International Honors College.

Additional Information

Additional information regarding academic planning, course sequencing, and course requirements can be found at http://bryan.uncg.edu/advise (http://bryan.uncg.edu/advise/).
Business Undergraduate Minor

The Business Minor, consisting of 21 credit hours, is available for majors outside the Bryan School of Business and Economics who are in good standing in the university and are NOT one of the following majors:

- Accounting
- Business Administration
- Economics (B.S. Degree Program only)
- Entrepreneurship
- Finance
- International Business Studies
- Information Systems and Supply Chain Management
- Marketing
- Hospitality and Tourism Management

The minor complements a variety of professional and arts and sciences fields.

Admission to the Minor

See Bryan School Undergraduate Student Services Office, Room 137, Bryan Building.

Admission to the minor may be denied in cases where additional enrollments would threaten the academic quality of classes or programs.

Program Requirements

- Minimum of 21 credit hours
- Completion of the courses below.
- Cumulative GPA of 2.0 in all courses taken for the Business minor
- 9 credits of the minor course work must be successfully completed at UNC Greensboro.

Accounting and Finance

Bryan School of Business and Economics

383 Bryan Building
336-334-5647

Randal J. Elder, Department Head
Amanda Cromartie, Graduate Program Director

Mission Statement
The mission of the Department of Accounting and Finance of the Joseph M. Bryan School of Business and Economics is

1. to provide high quality programs of education for accounting and finance majors at the undergraduate and graduate levels
2. to provide high quality courses to support the UNC Greensboro and Bryan School educational missions as they relate accounting and finance to global processes, sustainable enterprise, innovation and ethical awareness
3. to stimulate and support high quality research, scholarship, and publication
4. to provide service, largely through committee representation to the University, the Bryan School, the Department, the academic accounting and finance communities, and the accounting profession, and
5. to foster faculty interaction with the public in ways which enhance the common good.

The primary goal of the department is to provide programs of quality education in accounting and finance at the undergraduate and graduate levels. The undergraduate program provides an excellent foundation for careers in industry and is sufficiently broad to qualify graduates for a wide range of entry-level, business-related positions; and prepares students for further graduate-level studies in areas such as accounting, finance, law, and business administration.

Our accounting programs are separately accredited by The Association to Advance Collegiate Schools of Business (AACSB), the premier accrediting agency for business programs worldwide. Accounting is the only discipline within business for which separate accreditation is given. With this designation, we are among the top 1% of programs worldwide. We strive to maintain the quality and continuous improvement expected from programs which have achieved AACSB business and accounting accreditation.

The Department of Accounting and Finance also offers a Bachelor of Science degree with a major in finance. The undergraduate finance program deals with the theory, organization, and operation of the financial system from both a market and a managerial viewpoint. Students are expected to develop analytical abilities and to present their analyses in both written and oral form.

Undergraduate majors are offered a broad range of courses from the areas of financial management, financial institutions, and investments.

Graduates may take managerial positions in controllership or treasury work in non-financial businesses as well as a wide array of careers in financial services and banking. In addition, the degree may lead to positions in risk management and real estate departments of public agencies and private corporations as well as insurance and real estate companies.

At the graduate level, the Bryan School offers courses in finance as part of the Master of Business Administration (M.B.A.) program.

Student Learning Goals
Critical thinking, quantitative aptitude, teamwork, and good communication skills are necessary to function effectively in today's highly competitive, global environment. In order to assure that our graduates are prepared to meet the challenges of the future:

- Students will demonstrate problem solving skills and demonstrate technical competence necessary for entry-level accounting careers or entry into graduate programs in accounting.
- Students will demonstrate the ability to communicate effectively and efficiently.
- Students will have an understanding of ethical decision-making and understand the role of professional ethics including the importance of ethical conduct and decisions to the sustainability of the accounting profession.
- Finance students will be able to create forward-looking financial statements.
- Finance students will be able to analyze the current financial condition of the firm.
- Finance students will be able to thoroughly understand the mathematical process and application of capital budgeting.
- Finance Students will thoroughly understand the concepts of the time value of money (TVM), the characteristics of traditional financial securities, and the valuation of these securities.

Accelerated B.S. to M.S. in Accounting

Application and Admission

Qualified UNC Greensboro undergraduate students who are pursuing the Bachelor of Science in Accounting may apply for admission to the Accelerated Master’s Program. A cumulative undergraduate GPA of at least 3.5 based on at least 30 credits earned at UNC Greensboro is required. The Department of Accounting and Finance also requires an Accounting GPA of 3.5 based on at least 9 credits of accounting classes earned at UNC Greensboro. Students must have completed accounting courses through ACC 318 Intermediate Accounting I with a minimum grade of B or better. Applicants must have completed at least 60 credits and may not apply for admission to the accelerated program before the first semester of the junior year. Applicants will not be required to take the GMAT. All applicants must complete the Accelerated Master's Program information when applying for admission to the graduate degree program.

Courses

Admitted students may apply a maximum of 6 credits from the following graduate-level courses toward completion of both the undergraduate and graduate degree provided that they earn a grade of B (3.0) or better in the course and fulfill graduate-level requirements of the M.S. in Accounting:

Please consult with an advisor to determine how the courses taken at the graduate level will meet requirements in the bachelor’s degree program. All degree requirements for the Master of Science in Accounting remain the same.

Finance, B.S.

The Finance, B.S. major is available in traditional as well as online format.

Overall Requirements

• 120 credit hours, to include at least 36 credits at or above the 300 course level
• Minimum grade of C in all ACC, ECO, and FIN courses at the 300 level or above used toward the major
• At least 50 percent of the business credits required for the degree must be earned at UNC Greensboro.

Accounting Undergraduate Minor

The accounting minor is available to any UNC Greensboro student, other than ACCT majors, who is in good standing in the University. The minor complements a variety of professional and arts and sciences fields. It focuses on various accounting principles in order for students to be more successful in the professional pursuits.

Admissions and Policies

Students can submit a minor application online here (https://bryan.unCG.edu/current-students/forms/request-a-change-of-major-or-minor/) or you can visit our Bryan Student Services Office, Room 137 Bryan Building.

Program Requirements

- Minimum of 15 credit hours.
- 9 credits must be successfully completed at UNC Greensboro.
- To receive credit for the minor, the student must achieve a grade of B- or better in ACC 201 and ACC 202, as a prerequisite for ACC 318.
- The student must achieve a grade of C or better in ACC 318.

Select an additional 6 credits of upper division accounting courses at the 300- or 400-level

Accounting, M.S.

The M.S. in Accounting is one of the longest running and most successful programs in graduate-level accounting education in North Carolina and is among the top 1% of programs worldwide to have supplemental AACSB accreditation. The program satisfies the 150-hour educational requirement adopted by most states, including North Carolina, for certification and licensure as a CPA. The program has a strong reputation for its internship program and job placement as well as an excellent record of preparing students to pass the CPA examination. In addition, students in the M.S in Accounting program have the option to specialize in Tax or Financial Reporting and Assurance.

The M.S. in Accounting program admits students from all backgrounds. For students that have fulfilled the essential prerequisites, the program requires 30 credit hours of graduate course work. The program has a flexible structure designed to be full-time for the intensive student or part-time for the working professional. Due to the importance of a strong accounting foundation, students whose previous accounting course work indicate deficiency in one or more accounting courses may be required to complete one or more prerequisite courses as part of the program.

We also offer a professional entry option for students holding previous non-accounting degrees and who now have an interest in preparing for careers in public accounting, consulting, and corporate accounting. This option is also ideal for students who have an undergraduate degree in accounting from outside of the United States. The professional entry option requires any necessary qualifying prerequisite courses and two additional required core courses.

Applicants are expected to have a basic business background including an introduction to economics, statistics, financial accounting, and managerial accounting. Applicants that do not have this background will be expected to meet these minimum requirements before beginning the M.S. in Accounting program. These basic businesses courses are offered each semester, including summer. It is possible for students in need of these courses to apply to begin in the fall term and take any necessary introductory courses over the summer.

Most full-time students can complete the program in 12 to 18 months, and most part-time students can complete the program in 24 to 36 months. The length of time necessary to complete the program depends on the student’s accounting and business background as well as the course load chosen by the student.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a:

- Personal statement indicating the reasons for pursuing the M.S. in Accounting degree
- Resume

Applicants should consult with the M.S. in Accounting Program Director for specific admission requirements.

The M.S. in Accounting program is designed for qualified students from any academic background. Students admitted without the necessary accounting and business background will be required to take certain prerequisite and/or required elective courses. Individual prerequisite needs are assessed by the program director when admission decisions are made.

GMAT or GRE scores are accepted.

GMAT waivers are considered but are not automatic. The applicant must request a GMAT waiver in writing to the M.S. in Accounting Committee and provide all necessary documentation that verifies that they meet applicable criteria as listed below. Final waiver decisions will be entered by the M.S. in Accounting Program Director or Accounting and Finance Department Head. GMAT waiver decisions shall be made on a case-by-case basis using the following criteria.

To be eligible for a GMAT waiver based on:

- Beta Gamma Sigma membership, the applicant must provide evidence of Beta Gamma Sigma membership.
- An undergraduate degree earned at UNCG, the applicant must have earned the undergraduate degree within the past five years with a minimum cumulative undergraduate GPA of 3.3 or higher. An accounting undergraduate GPA of 3.0 or higher will also be considered.
- An undergraduate degree earned at another institution, the applicant must have earned the undergraduate degree within the past five years from at least an institution accredited by the Accrediting Commission for Community and Junior Colleges (ACCJC) Western Association of Schools and Colleges, the Higher Learning Commission (HLC), the Middle States Commission on Higher Education (MSCHE), the New England Commission of Higher Education (NECHE), the Northwest Commission on Colleges and Universities (NWCCU), the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC), or the WASC Senior College and University Commission (WSCUC) with a minimum cumulative undergraduate GPA of 3.0 or higher out of 4.0 and the school is recommended by accounting faculty or staff and approved by the M.S. in Accounting Committee.
- Experience, the applicant must have at least five years of significantly progressive professional work experience (may include military service) and an undergraduate degree from at least an institution accredited by the Accrediting Commission for Community and Junior Colleges (ACCJC) Western Association of Schools and Colleges, the Higher Learning Commission (HLC), the Middle States Commission on Higher Education (MSCHE), the New England Commission of Higher Education (NECHE), the Northwest Commission on Colleges and Universities (NWCCU), the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC), or the WASC Senior College and University Commission (WSCUC) with a minimum GPA of 3.0 or higher out of 4.0.
- Completion of the P.B.C. in Taxation at UNC Greensboro.
- Certification, the applicant must provide evidence of professional certification (e.g., CPA).
- An advanced degree (M.A., M.Sc., etc. or higher), the applicant must meet the following criteria: an advanced degree from at least an institution accredited by the Accrediting Commission for Community and Junior Colleges (ACCJC) Western Association of Schools and Colleges, the Higher Learning Commission (HLC), the Middle States Commission on Higher Education (MSCHE), the New England Commission of Higher Education (NECHE), the Northwest Commission on Colleges and Universities (NWCCU), the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC), or the WASC Senior College and University Commission
(WSCUC) which required a standardized test (such as the GMAT or equivalent) as an entrance requirement; and a graduate GPA of at least 3.3 out of 4.0; and at least five years of relevant professional work experience.

**Degree Program Requirements**

**Required: 30-42 credit hours**

Depending on the student’s accounting and business background, the length of the program will be 30-42 credit hours. All students will complete the Master of Science in Accounting core curriculum, electives, and capstone totaling 30 credits. A student that does not have an undergraduate degree in accounting or that earned the undergraduate degree in accounting from outside of the United States may have additional curriculum requirements of up to 12 credits. Students also have the option to concentrate in Tax or Financial Reporting and Assurance. The M.S. in Accounting does not require a thesis.

**Elective Courses (9 credits)**

Select 9 credits in elective courses

**Capstone Course (3 credits)**

ACC 630 Seminar in Contemporary Accounting Issues 3

**Total Credit Hours** 30-42

1. Qualifying prerequisite courses in intermediate accounting will be required for students who do not have an adequate background from their undergraduate degree program. These courses may be waived for students who have completed equivalent academic course work and who can meet specific learning objectives. Applicants should consult with the M.S. in Accounting Program Director for course waiver information.

2. Non-accounting undergraduate majors will be required to take ACC 602 Federal Tax Concepts and ACC 604 Auditing Concepts as part of the accounting elective hours.

3. Or other approved graduate-level ACC courses in consultation with the M.S. in Accounting Program Director.

4. ACC 621 is highly recommended as part of the M.S. in Accounting program. There will be opportunities to network with employers. Students in the program are not guaranteed an internship position.

5. Elective courses may be selected from other courses offered by the M.S. in Accounting program, courses from other master’s programs offered by the Bryan School of Business and Economics, and courses from other master’s programs offered by the university. Courses selected from other program may be taken only with the permission of the M.S. in Accounting Program Director and the program director for the specific program offering the course. Students that have not taken a financial management course previously will be required to take MBA 707 Financial Management as an elective course.

**Financial Reporting and Assurance Concentration**

The Financial Reporting and Assurance Concentration is designed for students who wish to specialize in areas such as corporate financial reporting and analysis, assurance service, and consulting. Students may enroll in the concentration with or without an undergraduate degree in accounting, however, careful planning is required. Students must consult with their academic advisor early in the degree program to meet all concentration requirements.

**Accelerated B.S. to M.S. in Accounting Application and Admission**

Qualified UNC Greensboro undergraduate students who are pursuing the Bachelor of Science in Accounting may apply for admission to the Accelerated Master’s Program. A cumulative undergraduate GPA of at least 3.5 based on at least 30 credits earned at UNC Greensboro is required. The Department of Accounting and Finance also requires an Accounting GPA of 3.5 based on at least 9 credits of accounting classes earned at UNC Greensboro. Students must have completed accounting courses through ACC 318 Intermediate Accounting I with a minimum grade of B or better. Applicants must have completed at least 60 credits and may not apply for admission to the accelerated program before the first semester of the junior year. Applicants will not be required to take the GMAT. All applicants must complete the Accelerated Master’s Program information when applying for admission to the graduate degree program.

**Courses**

Admitted students may apply a maximum of 6 credits from the following graduate-level courses toward completion of both the undergraduate and graduate degree provided that they earn a grade of B (3.0) or better in the course and fulfill graduate-level requirements of the M.S. in Accounting:

<table>

**Taxation, Post-Baccalaureate Certificate**

The Department of Accounting and Finance offers a Post-Baccalaureate Certificate in Taxation. It is intended for professionals with a bachelor’s degree in accounting or related field from an accredited college or university and is designed for students interested in an in-depth study of accounting taxation.

The certificate program consists of a minimum of 12 credit hours but may not exceed 15 credit hours.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit:

- Official transcript confirming a bachelor’s degree from an accredited college or university with indication of ability to succeed in graduate studies.
- Statement of purpose highlighting career and educational goals.
- Resume.
- Three letters of recommendation.

The UNCG MBA Program

301 Bryan Building • 336-334-5390 • www.mba.uncg.edu (http://www.mba.uncg.edu)

William Brown, Associate Dean of the Bryan School and M.B.A. Graduate Program Director
Tuisha Fernandes Stack, Administrative Director

About

The M.B.A. is a professional program built on a strategic management theme. The curriculum emphasizes an interdisciplinary approach to decision making in a changing global environment in which globalization and sustainability are changing the way all organizations function. Students in the Early Career Professional track complete 45 credit hours of course work. The Experienced Professional track requires 42 credit hours of course work and may take up to five years to complete depending on the number of credit hours taken each semester. Both tracks are available face to face and online. Concentrations in Business Analytics, Cyber Security, Finance, International Business, Information Technology, Marketing, and Supply Chain Management are offered both to Early Career Professional and Experienced Professional students.

Graduate Programs

• Post-Baccalaureate Certificate in Business Foundations
• Master of Business Administration (M.B.A.)
• Master of Science in Nursing/Master of Business Administration (M.S.N./M.B.A.) in Health Management [Offered jointly by the Bryan School of Business and Economics and the School of Nursing.]
• Business Administration, M.B.A. (p. 537)
• Business Foundations, Post-Baccalaureate Certificate (p. 539)

* The Health Management, M.S.N./M.B.A. is jointly offered by the UNCG M.B.A. Program in the Bryan School of Business and Economics and the School of Nursing.

Business Administration, M.B.A.

The Bryan School of Business and Economics offers a Master of Business Administration program with a 45 credit hour Early Career Professional track or a 42 credit hour Experienced Professional track. Students may be allowed to waive up to 9 credits of M.B.A. courses based on prior academic accomplishment. A minimum of 36 credits in the Early Career Professional track or 33 credits in the Experienced Professional track must be completed to earn the degree.

Concentrations in Business Analytics, Cyber Security, Finance, International Business, Information Technology, Marketing, and Supply Chain Management are offered both to Early Career Professional and Experienced Professional students.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the applicant’s materials required by The Graduate School, applicants must submit an admission essay, answering specific prompts, an introductory video and relevant preparation for either the Experienced Professional track or the Early Career Professional track. Applicants may be interviewed by the admission subcommittee.

The M.B.A. program is designed for qualified students from any academic background. Qualified applicants to the Experienced Professional track will have relevant managerial experience indicating increasing levels of managerial responsibilities. Qualified applicants to the Early Career Professional track will have five years or less full-time work experience and evidence of leadership potential. An interview may be required.

An applicant that is a member of the Beta Gamma Sigma (BGS) honor society with a minimum 3.3 GPA out of 4.0:

• No waiver application is necessary.
• BGS must be noted on application for admission and a copy of the BGS certificate must be submitted.

An applicant with a terminal/professional degree such as M.D., J.D., Ed.D., Ph.D., or D.B.A. may request to waive the GMAT/GRE requirement if the applicant has:

• A minimum GPA of 3.0 for these graduate degrees.

An applicant with a master’s degree may request to waive the GMAT/GRE requirement if the applicant has:

• A master’s degree from at least an institution accredited by the Accrediting Commission for Community and Junior Colleges (ACCJC) Western Association of Schools and Colleges, the Higher Learning Commission (HLC), the Middle States Commission on Higher Education (MSCHE), the New England Commission of Higher Education (NECHE), the Northwest Commission on Colleges and Universities (NWCCU), the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC), or the WASC Senior College and University Commission (WSCUC), which required a standardized test (such as the GRE or equivalent) as an entrance requirement; AND
• A graduate GPA of at least 3.0 out of 4.0; AND
• Relevant professional work experience (may include military service), to be determined by the department admission committee; AND
• A demonstration of adequate quantitative ability in the form of a statistics or algebra course at the college-level with a grade of C or better.

An applicant with a bachelor’s degree from an institution accredited by the Accrediting Commission for Community and Junior Colleges (ACCJC) Western Association of Schools and Colleges, the Higher Learning Commission (HLC), the Middle States Commission on Higher Education (MSCHE), the New England Commission of Higher Education (NECHE), the Northwest Commission on Colleges and Universities (NWCCU), the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC), or the WASC Senior College and University Commission (WSCUC) and significant work experience may request to waive the GMAT/GRE if the applicant has:

• At least seven years of significant progressive professional work experience (may include military service), to be determined by the department admission committee; AND
• A minimum GPA of 3.0.

Degree Program Requirements

Required: 42-45 credit hours

Students may be allowed to waive up to 9 credits of basic level M.B.A. courses based on prior academic accomplishment. A minimum of
36 credits in the Early Career Professional track or 33 credits in the Experienced Professional track must be completed to earn the degree.

Computer Literacy: M.B.A. degree program students should have a working knowledge of word processing and spreadsheet applications in a PC environment. Familiarity with Excel is required. Students must also be familiar with basic probability and statistics as covered in computer-based training modules.

Accelerated B.A. or B.S. to M.B.A. in Business Administration

Application and Admission

Qualified UNC Greensboro undergraduate students who are pursuing the Bachelor of Arts in Sustainable Tourism and Hospitality or a Bachelor of Science in Accounting, Business Administration, Entrepreneurship, Finance, Information Systems and Supply Chain Management, International Business, or Marketing may apply for admission to the Accelerated Master’s Program (AMP). A cumulative undergraduate GPA of at least 3.5 based on at least 30 credits earned at UNC Greensboro is required. Applicants must have completed at least 60 credits and may not apply for admission to the AMP before the first semester of the junior year. Applicants are not required to take the Graduate Management Admission Test (GMAT). All applicants must complete the Accelerated Master’s Program information when applying for admission to the graduate degree program.

Courses

Admitted students may apply up to, but not more than, 9 credits of graduate-level course work towards completion of both the undergraduate and the graduate degrees, provided that they earn a grade of B (3.0) or better in the course and fulfill graduate-level requirements. The following courses may be counted towards both the B.A or B.S. and the M.B.A. degrees:

<table>
<thead>
<tr>
<th>Code</th>

<td>3</td>
</tr>
<tr>
<td>MBA 718</td>
<td>Global Business in Practice</td>
<td>3</td>
</tr>
</tbody>
</table>

Please consult with an advisor to determine how courses taken at the graduate level will meet requirements in the bachelor’s degree program. All degree requirements for the Master of Business Administration degree remain the same.

Business Foundations, Post-Baccalaureate Certificate

The purpose of the 12 credit-hour Post-Baccalaureate Certificate in Business Foundations is to provide professionals who have a bachelor’s degree in a non-business field the opportunity to acquire education in business administration without committing to the lengthier M.B.A. program. The certificate is offered on campus and online.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit an admission essay, answering specific prompts, an introductory video and relevant reasons for pursuing the certificate. An interview may be required.

Qualified applicants will have relevant managerial experience indicating increasing levels of managerial responsibilities.

Current students in the M.B.A., M.S. in Accounting, or M.S. in Information Technology and Management programs will not be eligible for the Post-Baccalaureate Certificate.

Course work taken as part of the certificate program may be applied towards the M.B.A. degree in accordance with the policies of The Graduate School.

Total Credit Hours 12
Consumer, Apparel, and Retail Studies

Bryan School of Business and Economics

210 Stone Building
336-334-5250
http://bryan.uncg.edu/cars

Nancy Hodges, Department Chair
Kittichai Watchravesringkan, Graduate Program Director

The Consumer, Apparel, and Retail Studies Department offers two concentrations: Apparel Design and Retailing & Consumer Studies. These concentrations prepare students for positions with companies that focus on the process of concept to consumer for apparel and consumer-related products. Graduates may take positions in apparel design, apparel product development, fashion trend forecasting and analysis, quality control, sourcing, merchandising, buying, and retail management.

During the first two years of study, students will complete the majority of their general education requirements and begin introductory consumer, apparel, and retailing courses. In order to develop a strong knowledge base and build upon previously learned concepts, many of these courses are sequential and must be completed in the established order.

International exposure is built into the curriculum. Study of foreign languages is encouraged and international study experiences are possible. All majors take supporting courses in the Bryan School of Business and Economics. Students in the Retailing and Consumer Studies concentration can elect to fulfill a business minor with two additional Business electives.

The Apparel Design concentration is restricted to a limited number of students in the studio courses. All students wishing to enroll in the Apparel Design studio courses must submit an Apparel Design Application. Only students who have formal, written acceptance into the Apparel Design studio courses will be permitted to register in APD 251, APD 252, APD 341, and APD 443. Admission to the university does not guarantee acceptance into the Apparel Design studio courses. In all cases, admission is competitive and limited by space available in the program.

Internship experiences are required of all CARS students through a structured two-course sequence that includes a professional development class that prepares them both to find internships and to achieve successful internship experiences. The CARS Internship Program Coordinator structures and supervises internships to ensure quality experiences. Because of the proximity to North Carolina's strong apparel and retailing industries, the majority of students have internships within the state; however, the long-standing relationships between CARS and the apparel, fashion, and retailing industries link students to opportunities for out-of-state internships in such exciting places as New York City, Atlanta, and the West Coast.

The Department of Consumer, Apparel, and Retail Studies offers graduate programs leading to a Post-Baccalaureate Certificate and the Master of Science and Doctor of Philosophy degrees. Course work and research focus on primary concepts in the study of consumer, apparel, and retailing, integrating perspectives from the social sciences, business, economics, and humanities.

Graduate courses focus on consumer, apparel, and retail issues with emphasis on consumer behavior and marketing. Students are encouraged to select supporting course work in related disciplines such as business, economics, sociology, psychology, anthropology, statistics, and information science.

**Recognition**
Receive a Certificate of Disciplinary Honors in Consumer Apparel and Retail Studies; have that accomplishment, along with the title of the Senior Honors Project, noted on the official transcript; and be recognized at a banquet held at the end of the spring semester.

**Honors Advisor**
Contact Kittichai Watchravesringkan at k_watchr@uncg.edu for further information and guidance about Honors in Consumer Apparel and Retail Studies. To apply: http://honorscollege.uncg.edu/forms/disc-application.pdf

**Accelerated B.S. to M.S.**

**Application and Admission**
Qualified UNC Greensboro undergraduate students who are pursuing the B.S. in Consumer, Apparel, and Retail Studies may apply for admission to the Accelerated Master’s Program (AMP). A cumulative undergraduate GPA of at least 3.5 based on at least 30 credits earned at UNC Greensboro is required. Applicants must have completed at least 60 credits and may not apply for admission to the AMP before the first semester of the junior year. Applicants are not required to take the GRE. All applicants must complete the Accelerated Master’s Program information when applying for admission to the graduate degree program.

**Courses**
Admitted students may apply up to, but not more than, 12 credit of graduate-level course work towards completion of both the undergraduate and the graduate degrees, provided that they earn a grade of B (3.0) or better in the course and fulfill graduate-level requirements.

The following courses may be counted towards both the B.S. and the M.S. degrees:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CRS 605</td>

<tr>
<td>RCS 584</td>
<td>Advanced Retail Analysis</td>
<td>3</td>
</tr>
<tr>
<td>RCS 662</td>
<td>Behavior-Soft Lines Consumers</td>
<td>3</td>
</tr>
</tbody>
</table>

Please consult with an advisor to determine how courses taken at the graduate level will meet requirements in the bachelor’s degree program. All degree requirements for the M.S. in Retail Studies remain the same.

**Retailing and Consumer Studies Undergraduate Minor**

**Program Requirements**
- Minimum of 15 credit hours
- Majors in programs outside of the Consumer, Apparel, and Retail Studies Department may elect to add a minor in Consumer, Apparel, and Retail Studies by completing 15 credits, one course of which must be at the 400-level.

**Required**

<table>
<thead>
<tr>

<td></td>
</tr>
</tbody>
</table>

*The remaining credits can be selected from the courses listed below.*

- CRS 211 Textile Science: From Fiber to Finish
- CRS 221 Culture, Human Behavior, and Clothing
- CRS 262 Fashion Marketing and Communication
- CRS 321 Social Psychology of Dress
- CRS 372 Survey of Historic Costume
- CRS 470 Apparel Brand Management

* Provided prerequisites are met.

**Retail Studies, M.S.**

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by the Graduate School, applicants must submit a current resume and a 1-2 page goals statement. Statements should clearly outline career goals, relevant work experience, and reasons for pursuing a graduate degree; address why the Consumer, Apparel and Retail Studies program is of interest; and include
specific areas of research interest related to the department's graduate program emphasis. Of the three letters of reference, one should be written by a former instructor or academic contact.

## Degree Program Requirements

### Required: 30 credit hours

### Thesis Option

The M.S. in Consumer, Apparel, and Retail Studies, thesis option, requires a minimum of 30 credit hours and focuses on research issues in consumer, apparel, and retailing. It is designed to provide students with the necessary knowledge and skills to pursue careers in academics and business.

### Course Requirements:

**Required Core Courses (9 credits)**

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

</table>

**Total Credit Hours**: 30

* As approved by the student's chair in consultation with the committee.

### Thesis Advisory Committee

The student will select a graduate advisor and two other graduate faculty members to serve as a Thesis Advisory Committee. The graduate advisor must be from the Department of Consumer, Apparel, and Retail Studies. The committee must be chosen and a program of study approved no later than the second semester enrolled in graduate courses.

### Global Apparel and Retail Management Concentration (Non-Thesis Option)

**Required: 30-31 credit hours**

The concentration in Global Apparel and Retail Management provides a non-thesis option for the M.S in Retail Studies. The concentration requires 30-31 credit hours of online course work and provides state-of-the-art skills for decision making in global apparel management with a consumer focus. Additionally, the concentration requires an applied industry practicum which serves as a capstone experience. In addition, students in this concentration have two tracks to choose from: Merchandising and Brand Management and Retail and Consumer Data Management.

### Merchandising and Brand Management Track

**Required Core Courses (18 credits)**

<table>
<thead>
<tr>

**Total Credit Hours**: 31

---

**Retail and Consumer Data Analytics**

- **Required Core Courses (12 credits)**
  - CRS 620: Analysis of Apparel and Related Industries (3 credit hours)
  - CRS 682: Graduate Seminar in Consumer, Apparel, and Retail Studies (3 credit hours)
  - RCS 560: Advanced Retail Buying and Merchandising (3 credit hours)
  - RCS 662: Behavior-Soft Lines Consumers (3 credit hours)
  - Required Research Techniques (7 credits)
    - CRS 605: Retail Data Analytics (3 credit hours)
    - CRS 651: Advanced Retail Data Analytics (3 credit hours)
    - SCM 650: Principles of Supply Chain Management (3 credit hours)
    - SCM 652: Strategic Cost, Procurement, and Supply Chain Finance (3 credit hours)
  - Elective Courses (6 credits)
    - Select two courses from the following:
    - SCM 650: Principles of Supply Chain Management (3 credit hours)
    - SCM 651: Analytics for Logistics and Distribution Management (3 credit hours)
    - SCM 652: Strategic Cost, Procurement, and Supply Chain Finance (3 credit hours)
  - Capstone (6 credits)
    - CRS 632: Supervised Industry Practicum in Consumer, Apparel, and Retail Studies (6 credit hours)

**Total Credit Hours**: 31
The goals statements should clearly:

- Outline career goals, relevant work experience, and reason for pursuing a graduate degree;
- Address why the Consumer, Apparel and Retail Studies program is of interest; and
- Include specific areas of research interest related to the department's graduate program emphasis.

Of the three letters of reference, one should be written by a former instructor or academic contact.

### Degree Program Requirements

**Required:** 60 credit hours minimum (90 credits minimum beyond the bachelor's degree)

<table>
<thead>
<tr>

**Research Techniques (9 credits)**

- ERM 780 Intermediate Statistical Methods in Education 3
- ERM 781 Design and Analysis of Educational Experiments 3
- ERM 782 Multivariate Analysis 3

**Cognate Area (9 credits)**

Select 9 credits of cognate courses

**Teaching (3 credits)**

- CRS 765 College Teaching Practicum in Consumer, Apparel, and Retail Studies 3

**Electives (3 credits)**

Select 3 credits from available 600-and 700-level CRS courses

**Research and Dissertation (15 credits)**

Select 15 credits from the following:

- CRS 790 Independent Doctoral Research 15

**Total Credit Hours**

60

1. In consultation with the student's chair and Advisory/Dissertation Committee, the student will identify a supporting area that will enrich and expand their research interest. The student will take a minimum of 9 credits within this area.

2. As approved by the student's chair in consultation with the Advisory/Dissertation Committee.

3. A minimum of 12 dissertation credits (CRS 799) are required.

### Required Milestones*

- Residency (Immersion)
- Research Competency
- Plan of Study

---

* Or data analytics courses as approved.

** Students must demonstrate a broad knowledge of the material covered in the curriculum by undertaking an approved industry practicum. A formal contract will be established between the CARS graduate program committee and each student to clearly define the scope and requirements for the project. The student will be permitted to enroll in CRS 632 once the Required Core Courses are complete.

### Accelerated B.S. to M.S. in Retail Studies

**Application and Admission**

Qualified UNC Greensboro undergraduate students who are pursuing the B.S. in Consumer, Apparel and Retail Studies may apply for admission to the Accelerated Master's Program (AMP). A cumulative undergraduate GPA of at least 3.5 based on at least 30 credits earned at UNC Greensboro is required. Applicants must have completed at least 60 credits and may not apply for admission to the AMP before the first semester of the junior year. Applicants are not required to take the GRE. All applicants must complete the Accelerated Master’s Program information when applying for admission to the graduate degree program.

**Courses**

Admitted students may apply up to, but not more than, 12 credit of graduate-level course work towards completion of both the undergraduate and the graduate degrees, provided that they earn a grade of B (3.0) or better in the course and fulfill graduate-level requirements.

The following courses may be counted towards both the B.S. and the M.S. degrees:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CRS 605</td>
<td>Retail Data Analytics</td>
<td>3</td>
</tr>
<tr>

<td>3</td>
</tr>
<tr>
<td>CRS 682</td>
<td>Graduate Seminar in Consumer, Apparel, and Retail Studies</td>
<td>3</td>
</tr>
<tr>
<td>RCS 560</td>
<td>Advanced Retail Buying and Merchandising</td>
<td>3</td>
</tr>
<tr>
<td>RCS 584</td>
<td>Advanced Retail Analysis</td>
<td>3</td>
</tr>
<tr>
<td>RCS 662</td>
<td>Behavior-Soft Lines Consumers</td>
<td>3</td>
</tr>
</tbody>
</table>

Please consult with an advisor to determine how courses taken at the graduate level will meet requirements in the bachelor’s degree program. All degree requirements for the M.S. in Retail Studies remain the same.

### Consumer, Apparel, and Retail Studies, Ph.D.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a current resume and a one to two-page goals statement.

The goals statements should clearly:

- Outline career goals, relevant work experience, and reason for pursuing a graduate degree;
Global Fashion Industry Management, Post-Baccalaureate Certificate

The online Post-Baccalaureate Certificate in Global Fashion Industry Management consists of a minimum of 12 credit hours of course work. It is intended for professionals with a bachelor's degree from an accredited institution working in any field who are interested in gaining state-of-the-art, product-specific knowledge to address issues and problems within the global fashion industry.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

Economics

Bryan School of Business and Economics

462 Bryan Building
336-256-1010
http://economics.uncg.edu

Anne Royalty, Department Head
Dora Gicheva, Graduate Program Director

Mission

The Department of Economics supports the teaching, research, and service missions of the university and the Bryan School of Business and Economics. The department's undergraduate courses and programs prepare students for the competitive global marketplace, career and professional development, and graduate education. Its innovative graduate programs, the M.A. in Applied Economics and the Ph.D. in Economics with a focus on applied microeconomics, provide students with a mastery of advanced empirical and analytical methods so they can conduct high-quality research and contribute to the knowledge base in business, government, nonprofit, and research settings. The department conducts high-quality nationally recognized research that supports its academic programs, promotes economic understanding, and fosters economic development in the Triad and in the State.

Undergraduate

Economics is a discipline concerned with the choices made by people, firms, and governments and with public policies that affect those choices including protection of the environment, the quality and cost of health care, business productivity, inflation and unemployment, poverty, globalization, and the material well-being of the residents of the nation and of the planet. The Department of Economics offers both Bachelor of Science in Economics (B.S.) and Bachelor of Arts in Economics (B.A.) undergraduate degrees through the Bryan School of Business and Economics. These undergraduate programs prepare students for careers in business, government, or not-for-profit organizations that involve the application of economic analysis and methods or for entry into post graduate degree programs.

Graduate

The faculty of the Department of Economics has an established national reputation for scholarship in applied microeconomic research. The department's graduate programs are specially focused on developing the theoretical and econometric tools required to formulate and interpret quality empirical research and the data handling and communication skills required to conduct and disseminate the outcomes of that research.

Programs of study offered by the Department of Economics at the graduate level include both a Master of Arts in Applied Economics (M.A.), a Doctor of Philosophy in Economics (Ph.D.), and two graduate certificates. Students without a completed master's degree in economics can apply directly to the Ph.D. program through the M.A. in Applied Economics Doctoral Track. This enables prospective students with only a bachelor's degree to be admitted to the Ph.D. program and complete the M.A. in Applied Economics degree as part of their graduate plan of study.

• Economics, B.A. (p. 547)
• Economics, B.S. (p. 549)
• Economics Undergraduate Minor (p. 551)
• Applied Economics, M.A. (p. 551)
• Economics, Ph.D. (p. 555)
• Economics of Health Analytics, Post-Baccalaureate Certificate (p. 557)
• Quantitative Business Economics, Post-Baccalaureate Certificate (p. 557)

Business Undergraduate Minor

The Bryan School of Business and Economics offers the Business Undergraduate Minor (p. 529).

Economics, B.A.

The Bachelor of Arts (B.A.) in Economics degree builds on a comprehensive liberal arts education in the sciences, humanities, and arts and develops the student's ability to apply economic reasoning and analysis to issues of concern in economics, public and social policy, and other disciplines in the humanities and social sciences. The B.A. in Economics provides the flexibility to take courses outside the department and the opportunity to double major in disciplines outside the Bryan School of Business & Economics. Students in the B.A. program can choose to double major in the liberal arts, the social sciences, or the natural sciences.

Undergraduate Student Learning Goals

Critical thinking, quantitative analysis, communication skills, and economic reasoning are highly valued in the competitive global economy. In order to prepare our students for their careers and possible future graduate work, our B.A. and B.S. graduates will be able to:

• Identify economic issues
• Analyze economic issues
• Propose policies to address economic issues
• Communicate effectively about economic issues
Overall Requirements

• 120 credit hours, to include at least 36 credits at or above the 300 course level
• A cumulative GPA of at least 2.0
• Grades of C (2.0) or better in each ECO course used to meet major requirements

Degree Program Requirements

University Requirements (p. 771)
General Education Requirements (MAC) (pp. )

Major Requirements

Code Title Credit Hours
ECO 201 Principles of Microeconomics
ECO 202 Principles of Macroeconomics
ECO 250 Economic and Business Statistics I (prereq MAT 115 or higher)
or PSC 301 Research Methods in Political Science
or PSY 211 Statistics in Behavioral Science Research
or SOC 302 Introduction to Data Analysis
or STA 271 Fundamental Concepts of Statistics
or STA 290 Introduction to Probability and Statistical Inference
or STA 352 Statistical Inference
ECO 301 Intermediate Microeconomic Theory (prereq ECO 201; MAT 120 or MAT 191)
ECO 302 Intermediate Macroeconomic Theory (prereq ECO 202)
ECO 350 Economic and Business Statistics II (prereq Any of the following: ECO 250, PSC 301, PSY 211, SOC 302, STA 271, STA 290, or STA 352)
or STA 301 Statistical Methods
ECO 498 Seminar in Economics (capstone course, prereq: ECO 301; ECO 302; ECO 350 OR STA 301)

Select an additional 6 credits of Economics electives at the 300 level or above

Graduate Program Preparation

Students planning to extend their studies to a graduate program (such as the Masters in Applied Economics offered at UNC Greensboro) should select economics elective course work to better prepare for graduate studies: ECO 319 and ECO 355. Additional upper-level mathematics courses can be highly beneficial when preparing for graduate studies in economics.

Disciplinary Honors in Economics

Requirements

• A minimum of 15 credit hours as defined below.
• UNC Greensboro cumulative GPA of 3.30 or better or, for transfer students, cumulative GPA of 3.30 or better from all prior institutions.

Electives

Electives sufficient to complete 120 total credit hours required for degree.

Advising

A Plan of Study for the Economics B.A. degree should be developed in consultation with a Bryan Undergraduate Student Services Advisor (https://bryan.uncg.edu/current-students/advising/). It is strongly encouraged for students to meet with an Adviser at least once per academic term. Economics faculty are also available to discuss ECO course sequencing, elective decisions, preparation for economics graduate programs, or career discussions. Students may contact the Department of Economics by telephone at 336-256-1010 or email economics@uncg.edu to make arrangements to speak with a department faculty member.

A bachelor’s in economics degree requires the application of Calculus in upper-level economics courses (e.g. ECO 301). Students should plan to complete a minimum level of MAT 120 or MAT 191 course work by the end of their Junior year in order to meet the prerequisites of the program’s core curriculum. For this reason, it is highly recommended to begin mathematics courses early in your academic career and to continue to build on this quantitative skill set. Principle-level economics courses may be taken as early as the first semester.
on the official transcript; and be recognized at a banquet held at the end of the spring semester.

Honors Advisor
For more information on Disciplinary Honors in Economics, students are encouraged to contact the department honors liaison, Jeremy Bray at jwbray@uncg.edu

To apply: http://honorscollege.uncg.edu/forms/disc-application.pdf

Note: Graduate course work completed for the Accelerated Master’s Program and counted towards undergraduate degree requirements may also be counted towards Disciplinary Honors requirements.

Accelerated Master’s Program (AMP)
The department offers an Accelerated Master’s Program (AMP) that allows exceptional UNC Greensboro undergraduate students to complete a bachelor’s degree and the M.A. in Applied Economics in five years with only two additional semesters of course work beyond the bachelor’s degree. Students interested in this program or the UNC Greensboro M.A. in Applied Economics program are encouraged to speak with economics faculty or an advisor early in their undergraduate studies for course selection and sequencing.

Application and Admission
Qualified UNC Greensboro undergraduate students may apply for admission to the Accelerated Master’s Program (AMP) and the M.A. in Applied Economics program. A cumulative undergraduate GPA of at least 3.5 based on at least 30 credits earned at UNC Greensboro is required.

Applicants must have completed at least 60 credits and may not apply for admission to the AMP before the first semester of the junior year. All applicants must submit the Accelerated Bachelor’s to Graduate Degree Program Petition to the Graduate School and must simultaneously apply for admission to the M.A. in Applied Economics (form is located within the online application to the M.A. in Applied Economics program).

Courses
Admitted students may apply 12 credits of graduate-level course work toward completion of both the undergraduate and graduate degree, provided that they earn a grade of B (3.0) or better in the course and fulfill graduate-level requirements. The graduate courses the student will take within the Accelerated Master’s Program must be approved by the Graduate Program Director, must be specified on the Graduate Degree Program Petition, and must be chosen from among the following required courses in the M.A. in Applied Economics curriculum:

Graduate courses counted for the Accelerated Master’s Program should be selected in consultation with the Graduate Program Director. Please consult with an undergraduate adviser to determine how the courses taken at the graduate level will meet requirements in the bachelor’s degree program. All degree requirements for the M.A. in Applied Economics remain the same.

Economics, B.S.
The Bachelor of Science (B.S.) in Economics builds on the analytical business foundation required of all Bryan School of Business and Economics students and develops the student’s ability to apply economic reasoning and analysis to business and public policy issues. Curriculum under the B.S. degree provides the opportunity to develop synergies with other areas of study within the Bryan School. The B.S. degree requires completion of the Bryan School Pre-Admission Courses and the Bryan Business Core curriculum.

Undergraduate Student Learning Goals
Critical thinking, quantitative analysis, communication skills, and economic reasoning are highly valued in the competitive global economy. In order to prepare our students for their careers and possible future graduate work, our B.A. and B.S. graduates will be able to:

- Identify economic issues
- Analyze economic issues
- Propose policies to address economic issues
- Communicate effectively about economic issues

Overall Requirements
- 120 credit hours, to include at least 36 credits at or above the 300 course level
- A cumulative GPA of at least 2.0
- Grades of C (2.0) or better in each ECO course used to meet major requirements, including ECO courses in the Bryan Pre-Admission Courses and Common Business Core.
- At least 50 percent of the business semester hours required for the degree must be earned at UNC Greensboro

Select 3 credits of Economics Electives Courses at the 300 level

Electives

Electives sufficient to complete 120 total credit hours required for degree.

Advising

A Plan of Study for the Economics B.S. degree should be developed in consultation with a Bryan Undergraduate Student Services Advisor. It is strongly encouraged for students to meet with an advisor at least once per academic term. Economics faculty are also available to discuss ECO course sequencing, elective decisions, preparation for economics graduate programs, or career discussions. Students may contact the Department of Economics by telephone at 336-256-1010 or email economics@uncg.edu to make arrangements to speak with a department faculty member.

The Economics major requires the application of Calculus in upper-level economics courses (e.g. ECO 301). Students should plan to complete a minimum level of MAT 120 or MAT 191 course work by the end of their junior year in order to meet the prerequisites of the program’s core curriculum. For this reason, it is highly recommended to begin mathematics courses early in your academic career and to continue to build on this quantitative skill set. Introductory-level economics courses may be taken as early as the first semester.

Graduate Program Preparation

Students planning to extend their studies to a graduate program (such as the Masters in Applied Economics offered at UNC Greensboro) should select economics elective course work to better prepare for graduate studies: ECO 319 and ECO 355 Econometrics. Additional upper-level mathematics courses can be highly beneficial when preparing for graduate studies in economics.

Disciplinary Honors in Economics

Requirements
- A minimum of 15 credit hours as defined below.
- UNC Greensboro cumulative GPA of 3.30 or better or, for transfer students, cumulative GPA of 3.30 or better from all prior institutions.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

<td>6</td>
<td></td>
</tr>
<tr>
<td>Select 3 credits of honors course work in the major or another area</td>
<td>3</td>
<td></td>
</tr>
</tbody>
</table>

Recognition

Receive a Certificate of Disciplinary Honors in Economics; have that accomplishment, along with the title of the Senior Honors Project, noted on the official transcript; and be recognized at a banquet held at the end of the spring semester.

Honors Advisor

For more information on Disciplinary Honors in Economics, students are encouraged to contact the department honors liaison, Jeremy Bray at jwbay@uncg.edu

To apply: http://honorscollege.uncg.edu/forms/disc-application.pdf

Note: Graduate course work completed for the Accelerated Master's Program and counted towards undergraduate degree requirements may also be counted towards Disciplinary Honors requirements.

Application and Admission

Qualified UNC Greensboro undergraduate students may apply for admission to the Accelerated Master’s Program (AMP) and the M.A. in Applied Economics program. A cumulative undergraduate GPA of at least 3.5 based on at least 30 credits earned at UNC Greensboro is required.

Applicants must have completed at least 60 credits and may not apply for admission to the AMP before the first semester of the junior year. All applicants must submit the Accelerated Bachelor’s to Graduate Degree Program Petition to the Graduate School and must simultaneously apply for admission to the M.A. in Applied Economics (form is located within the online application to the M.A. in Applied Economics program).

Courses

Admitted students may apply 12 credits of graduate-level course work toward completion of both the undergraduate and graduate degree, provided that they earn a grade of B (3.0) or better in the course and fulfill graduate-level requirements. The graduate courses the student will take within the Accelerated Master’s Program must be approved by the Graduate Program Director, must be specified on the Graduate Degree Program Petition, and must be chosen from among the following required courses in the M.A. in Applied Economics curriculum:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>

</tr>
<tr>
<td>ECO 691</td>
<td>Economics Internship</td>
<td></td>
</tr>
<tr>
<td>MBA 703</td>
<td>Economic Policies and Impact on Global Outcomes</td>
<td></td>
</tr>
</tbody>
</table>

Graduate courses counted for the Accelerated Master’s Program should be selected in consultation with the Graduate Program Director. Please consult with an undergraduate adviser to determine how the courses taken at the graduate level will meet requirements in the bachelor’s degree program. All degree requirements for the M.A. in Applied Economics remain the same.

Economics Undergraduate Minor

An economics minor provides a background in the discipline without the depth or breadth of a major and is particularly appropriate for students whose majors are business administration, finance, geography, history, marketing, mathematics, psychology, political science, sociology, statistics, or for students doing interdisciplinary study in the social sciences.

Admission to the Minor

For admission to the Minor, please see Bryan Undergraduate Student Services, located in Bryan 137.

Requesting a minor can be completed online: https://bryan.uncg.edu/current-students/forms/request-a-change-of-major-or-minor/

Program Requirements

Applied Economics, M.A.

The M.A. in Applied Economics is designed for students who seek careers in business, finance, or government as economists, forecasters, policy analysts, economic researchers, or managers with strong quantitative skills. The program is structured to develop the theoretical, quantitative, and statistical skills that are required to perform and interpret economic analyses on a wide range of policy-oriented issues. Excellent training is also provided for students who wish to enter the Ph.D. program at
 UNC Greensboro or to pursue additional graduate education at other institutions.

Course work for the 30 credit-hour degree combines core knowledge of economic theory and econometrics, specialized applied research methods, advanced electives, and a capstone seminar focused on the development of applied empirical research skills based on the integration of microeconomic theory and econometrics.

Students pursuing the M.A. in Applied Economics may select an optional concentration in Data Analytics. Course work must be approved by the Graduate Program Director and must include certain courses as explained in the discussion of the concentration.

Student Learning Outcomes

- **Microeconomic Theory.** Students will apply microeconomic theory to the analysis of economics issues.
- **Macroeconomic Theory.** Students will apply macroeconomic theory to the analysis of economics issues.
- **Econometrics.** Students will apply econometric procedures in the empirical analysis of economic issues.
- **Prepare Data for Economic Analysis.**
  - Manage, clean, and use data sets to construct descriptive, graphical, and statistical representations of economic phenomena.
  - Diagnose and identify data issues.

Admission to the program requires a completed baccalaureate degree with an earned cumulative GPA of 3.0 or higher plus acceptable scores in the GRE or GMAT standardized tests OR the completion of one or more economics post-baccalaureate certificates awarded from UNC Greensboro.

For information regarding deadlines and other requirements for admission, please see the Guide to Graduate Admissions.

<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>30</td>
</tr>
</tbody>
</table>

1. ECO 701, ECO 702, ECO 705, and ECO 731 are reserved for students admitted to the M.A. Doctoral Track (M.A./Ph.D.). Registration in these courses must be approved by the Director of Graduate Studies.

2. Electives may be earned with 600- or 700-level economics courses or with graduate courses taken outside the department. Electives not listed above must be approved by the Director of Graduate Studies.

3. Electives acceptable for the M.A. Doctoral Track. Doctoral Track elective courses are reserved for students admitted to the M.A. Doctoral Track (M.A./Ph.D.). Registration in these courses must be approved by the Director of Graduate Studies.

### e-Portfolio

As a requirement for graduation, each student must successfully complete an e-Portfolio of significant assignments and final projects. The e-Portfolio demonstrates a student’s cumulative program knowledge and fulfills the capstone requirement of the program. This body of work can be shared with prospective employers to help students distinguish themselves in the job market. Students must receive approval of their e-Portfolio from the Director of Graduate Studies in order to meet the graduation requirement.

A student may apply course work from a certificate program toward a graduate degree at UNC Greensboro with the approval of the department offering the degree and The Graduate School.

### Data Analytics Concentration

The Data Analytics concentration combines the M.A. core knowledge and advanced theory with courses emphasizing the combination of skills, technologies, applications, and processes used by organizations to perform advanced data analysis. The concentration is chosen in consultation with the Graduate Program Director.

Graduate courses counted for the Accelerated Master’s Program should be selected in consultation with the Graduate Program Director. Please consult with an undergraduate adviser to determine how the courses taken at the graduate level will meet requirements in the bachelor’s degree program. All degree requirements for the M.A. in Applied Economics remain the same.

M.A. in Applied Economics Doctoral Track

Overview

The M.A. in Applied Economics Doctoral Track is offered to superior applicants who have completed a baccalaureate degree and who seek careers in academic departments that focus on public policy and applied microeconomics, in nonacademic research organizations, in business and financial institutions, and in agencies of federal, state and local governments. The program is structured to develop the theoretical, quantitative, and statistical skills that are required to perform and interpret economic analyses on a wide range of policy-oriented issues. The Doctoral Track program is specifically designed to train students in the fields of labor, health, and public economics (including the economics of education, science and technology policy, urban economics, and resource and environmental economics).

The Doctoral Track requires 69 credit hours to complete and results in students earning both an M.A. and a Ph.D.

Application and Admission

Admission to the program requires a completed baccalaureate degree and completion of undergraduate courses in Intermediate Microeconomics (ECO 301 Intermediate Microeconomic Theory at UNC Greensboro), Intermediate Macroeconomics (ECO 302 Intermediate Macroeconomic Theory at UNC Greensboro), Mathematical Economics (ECO 319 Quantitative Analysis at UNC Greensboro), and Economics and Business Statistics II (ECO 350 Economic and Business Statistics II at UNC Greensboro). Equivalent course work in mathematics and statistics may substitute for the latter two.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

Master’s Doctoral Track Capstone Experience Requirement

Complete an e-Portfolio of significant assignments and final projects

Doctoral Advanced Theory Requirement (6 credits)
must prepare and present a dissertation that reflects an independent investigation of an economic topic that is acceptable in form and content to the students advisory/dissertation committee and The Graduate School.

**Ph.D. Required Milestones***

- **Residency (Immersion)** – Doctoral students are expected to satisfy a residence requirement, which provides them the opportunity for an extended period of intensive study and intellectual and professional development among a community of scholars. The basic requirement is two consecutive semesters (minimum of 6 hours per semester) of graduate coursework (excluding independent study and dissertation hours) on the Greensboro campus after admission to a doctoral program. University requirements aside, a critical aspect of the graduate experience is participation in events beyond the coursework requirements. Graduate students are expected to attend professional conferences, seminars, lectures, and Brown Bags, and participate in professional development activities sponsored by the Department, the Bryan School, or the Graduate School. Economics graduate students are highly encouraged to present and/or publish their research.

- **Qualifying Exams** – In addition to the course requirements, doctoral students must pass two Ph.D. qualifying examinations. These examinations take place typically after the first year of doctoral studies following the completion of the advanced theory coursework and will focus on a student’s comprehensive knowledge in the areas of economic theory and econometrics, respectively. Students are required to pass both examinations in order to retain placement in the doctoral program. Students who do not pass either or both examination(s) may retake the failed examination(s) one time.

- **Advisory/Dissertation Committee** – Students must form an Advisory/Dissertation Committee before the end of their first year. The committee (minimum of three members) must be formalized with the Graduate School. The Committee Chair will serve as your primary advisor and mentor throughout your dissertation.

- **Research Competency** – Work on the dissertation proposal takes place in supervised research seminars under the guidance and supervision of the student’s Advisory/Dissertation Committee. The preliminary written and oral examination takes place after submission of the dissertation proposal and is expected to occur by the end of the semester in which the student completes the ECO 798 requirement.

- **Plan of Study** – The Graduate School requires you to file a plan of study outlining all the courses you will take or have taken to meet the requirements of your graduate degree. Graduate students are expected to file a preliminary plan of study with The Graduate School no later than the semester in which they complete 18 hours of graduate study. This preliminary plan is completed by the student in consultation with the Director of Graduate Study and must be approved by the student’s dissertation committee chair and members.

- **Written Dissertation Proposal & Written Part of the Comprehensive Examination** – The student will prepare a written Dissertation Proposal and submit that written proposal to their dissertation committee. Following that submission, the written part of the Comprehensive Examination is scheduled and prepared by the dissertation advisor with the assistance of the dissertation committee. Questions may cover any aspect of the coursework taken by the student during the period of this graduate study or any subject logically related and basic to an understanding of the subject matter.

**e-Portfolio**

As a requirement for graduation, each student must successfully complete an e-Portfolio of significant assignments and final projects. The e-Portfolio demonstrates a student’s cumulative program knowledge and fulfills the capstone requirement of the master’s program. This body of work can be shared with prospective employers to help students distinguish themselves in the job market. Students must receive approval of their e-Portfolio from the Graduate Program Director in order to meet the graduation requirement.

**Doctoral Qualifying Examinations**

In addition to the course requirements, doctoral students must pass two Ph.D. qualifying examinations. These examinations focus on a student’s comprehensive knowledge in the areas of economic theory and econometrics, respectively. Students are required to pass both examinations in order to retain placement in the doctoral program. Students who do not pass either or both examination(s) may retake the failed examination(s) one time.

**Dissertation Research**

Work on the dissertation proposal takes place in supervised independent field research courses (ECO 797 Seminar in Empirical Economics and ECO 798 Seminar in Economic Research) under the guidance and supervision of the student’s advisory/dissertation committee. The preliminary written and oral examination takes place after submission of the dissertation proposal and is expected to occur by the end of the semester in which the student completes the ECO 798 requirement.

Before registering for dissertation credit (ECO 799 Dissertation), Ph.D. students must be admitted to candidacy by The Graduate School. To make formal application for admission to candidacy, student must have completed all major required courses, have passed their qualifying examinations, have submitted a dissertation proposal that has been approved by their advisory/dissertation committee, and have passed their preliminary written and oral examination.

After being admitted to candidacy for the doctoral degree, the candidate must prepare and present a dissertation that reflects an independent
of the major area of study. Any transferred coursework is subject to examination at the time of the preliminary examination.

- **Oral Part of the Comprehensive Examination & Oral Presentation of the Dissertation Proposal** – The oral part of the Comprehensive Examination should be scheduled within one month following the written part of the Comprehensive Examination, and the entire dissertation committee must participate. The oral part of the comprehensive Examination will consist of an oral presentation of the dissertation proposal and a discussion in which the student responds to questions posed by the dissertation committee and which occurs after the oral presentation of the dissertation proposal. The content of these questions is at the discretion of the dissertation committee.

- **Assessment** – After the oral part of the Comprehensive Examination has concluded, the dissertation committee meets privately to evaluate the dissertation proposal, the written part of the Comprehensive Examination, and the oral part of the Comprehensive Examination. The committee then decides whether the student has passed without conditions, passed conditionally, or failed the preliminary examination. The student is then informed of the result.

- **Admission to Candidacy** – A minimum of 12 credits will be devoted to research that culminates in the preparation of the required doctoral dissertation.

Before registering for dissertation credit (ECO 799 Dissertation), Ph.D. students should be admitted to candidacy by The Graduate School. To make formal application for admission to candidacy, the student must have completed all major required courses, have passed their qualifying examinations, have submitted a dissertation proposal that has been approved by their advisory/dissertation committee, and have passed both the written and oral parts of their Comprehensive Examination.

After being admitted to candidacy for the doctoral degree, the candidate must prepare and present a dissertation that reflects an independent investigation of an economic topic that is acceptable in form and content to the students Advisory/Dissertation Committee and The Graduate School.

- **Dissertation Defense** – Doctoral candidates will successfully pass an oral examination of their independent dissertation study to members of their doctoral committee. In accordance with Graduate School policy. The defense must be formally scheduled with the Graduate School at least two weeks in advance. The defense is open to all members of the University community who may wish to attend, as required by state laws on public meetings. However, the deliberations of the Dissertation Committee are private.

- **Filing the Final Approved Dissertation** – The Graduate School requires Electronic Thesis/Dissertation submission. The dissertation must be filed in compliance with Graduate School policies and guidelines for acceptable formatting and deadlines. The Graduate School dissertation templates should be used to mitigate errors or delays.

- **Job Market Paper** – Along with the process of preparing and defending a dissertation, graduating Ph.D. students are expected as an integral part of the dissertation process to prepare a job market paper in preparation for job interviews held at the ASSA Annual Meeting in early January. Doctoral students planning to participate in the market are expected to have a completed market-ready paper and presentation prepared no later than September of the preceding year.

---

**Economics, Ph.D.**

The Ph.D. in Economics is offered to superior applicants who hold a master's degree in economics and seek careers in academic departments that focus on public policy and applied microeconomics, in nonacademic research organizations, in business and financial institutions, and in agencies of federal, state and local governments. The program is structured to develop the theoretical, quantitative, and statistical skills that are required to perform and interpret economic analyses on a wide range of policy-oriented issues. Our doctoral program is specifically designed to train students in the fields of labor, health, and public economics (including the economics of education, science and technology policy, urban economics, and resource and environmental economics).

The degree requires 45-57 credit hours.

**Student Learning Outcomes**

- **Economic Theory.** Students will display a mastery of doctoral-level economic theory.
- **Econometrics.** Students will demonstrate a mastery of doctoral-level econometric methods.
- **Integration of Economic Theory and Econometrics.** Students will integrate economic theory and econometric methods in the critical analysis of empirical economic issues.
- **Explain Advanced Economic Analysis.** Organize and integrate critical analyses of technical economic literature suitable for professional economists.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

Admission to the Ph.D. program requires a completed master's degree in economics with two courses in microeconomic theory, two courses in econometrics, one course in macroeconomics, and demonstrated skills in applied research methods. Students who enter the program with a master's degree in economics may be required to take additional courses (up to a program total of 60 credit hours) if their prior degree does not fully cover these course requirements.

Students interested in earning a Ph.D. in economics who do not have a master's degree in economics or who have a master's degree in economics that deviates significantly from these course requirements should apply to the M.A. in Applied Economics Doctoral Track (a combined M.A./Ph.D. program in economics).

Required Milestones* 

- **Residency (Immersion)** – Doctoral students are expected to satisfy a residency requirement, which provides them the opportunity for an extended period of intensive study and intellectual and professional development among a community of scholars. The basic requirement is two consecutive semesters (minimum of 6 hours per semester) of graduate coursework (excluding independent study and dissertation hours) on the Greensboro campus after admission to a doctoral program. University requirements aside, a critical aspect of the graduate experience is participation in events beyond the coursework requirements. Graduate students are expected to attend professional conferences, seminars, lectures, and Brown Bags, and participate in professional development activities sponsored by the Department, the Bryan School, or the Graduate School. Economics graduate students are highly encouraged to present and/or publish their research.

- **Qualifying Exams** – In addition to the course requirements, doctoral students must pass two Ph.D. qualifying examinations. These examinations take place typically after the first year of doctoral studies following the completion of the advanced theory coursework and will focus on a student’s comprehensive knowledge in the areas of economic theory and econometrics, respectively. Students are required to pass both examinations in order to retain placement in the doctoral program. Students who do not pass either or both examination(s) may retake the failed examination(s) one time.

- **Advisory/Dissertation Committee** – Students must form an Advisory/Dissertation Committee before the end of their first year. The committee (minimum of three members) must be formalized with the Graduate School. The Committee Chair will serve as your primary advisor and mentor throughout your dissertation.

- **Research Competency** – Work on the dissertation proposal takes place in supervised research seminars under the guidance and supervision of the student’s Advisory/Dissertation Committee: ECO 797 Seminar in Empirical Economics and ECO 798 Seminar in Economic Research. The preliminary written and oral examination takes place after submission of the dissertation proposal and is expected to occur by the end of the semester in which the student completes the ECO 798 requirement.

- **Plan of Study** – The Graduate School requires you to file a plan of study outlining all the courses you will take or have taken to meet the requirements of your graduate degree. Graduate students are expected to file a preliminary plan of study with The Graduate School no later than the semester in which they complete 18 hours of graduate study. This preliminary plan is completed by the student in consultation with the Director of Graduate Study and must be approved by the student’s dissertation committee chair and members.

- **Written Dissertation Proposal & Written Part of the Comprehensive Examination** – The student will prepare a written Dissertation Proposal and submit that written proposal to their dissertation committee. Following that submission, the written part of the Comprehensive Examination is scheduled and prepared by the dissertation advisor with the assistance of the dissertation committee. Questions may cover any aspect of the coursework taken by the student during the period of this graduate study or any subject logically related and basic to an understanding of the subject matter of the major area of study. Any transferred coursework is subject to examination at the time of the preliminary examination.

- **Oral Part of the Comprehensive Examination & Oral Presentation of the Dissertation Proposal** – The oral part of the Comprehensive Examination should be scheduled within one month following the written part of the Comprehensive Examination, and the entire dissertation committee must participate. The oral part of the comprehensive Examination will consist of an oral presentation of the dissertation proposal and a discussion in which the student responds to questions posed by the dissertation committee and which occurs after the oral presentation of the dissertation proposal. The content of these questions is at the discretion of the dissertation committee.

- **Assessment** – After the oral part of the Comprehensive Examination has concluded, the dissertation committee meets privately to evaluate the dissertation proposal, the written part of the Comprehensive Examination, and the oral part of the Comprehensive Examination. The committee then decides whether the student has passed without conditions, passed conditionally, or failed the preliminary examination. The student is then informed of the result.

- **Admission to Candidacy** – A minimum of 12 credits will be devoted to research that culminates in the preparation of the required doctoral dissertation.

Before registering for dissertation credit (ECO 799 Dissertation), Ph.D. students should be admitted to candidacy by The Graduate School. To make formal application for admission to candidacy, the student must have completed all major required courses, have passed their qualifying examinations, have submitted a dissertation proposal that has been approved by their advisory/dissertation committee, and have passed both the written and oral parts of their Comprehensive Examination.

After being admitted to candidacy for the doctoral degree, the candidate must prepare and present a dissertation that reflects an independent investigation of an economic topic that is acceptable in form and content to the students Advisory/Dissertation Committee and The Graduate School.
* Dissertations Defense – Doctoral candidates will successfully pass an oral examination of their independent dissertation study to members of their dissertation committee. In accordance with Graduate School policy, the defense must be formally scheduled with the Graduate School at least two weeks in advance. The defense is open to all members of the University community who may wish to attend, as required by state laws on public meetings. However, the deliberations of the Dissertation Committee are private.

* Filing the Final Approved Dissertation – The Graduate School requires Electronic Thesis/Dissertation submission. The dissertation must be filed in compliance with Graduate School policies and guidelines for acceptable formatting and deadlines. The Graduate School dissertation templates should be used to mitigate errors or delays.

* Job Market Paper – Along with the process of preparing and defending a dissertation, graduating Ph.D. students are expected as an integral part of the dissertation process to prepare a job market paper in preparation for job interviews. Held at the ASSA Annual Meeting in early January. Doctoral students planning to participate in the market are expected to have completed a market-ready paper and presentation prepared no later than September of the preceding year.

* General information about milestones for doctoral programs is available in Section III (p. 807) of the Graduate Policies (p. 788) page in the University Catalog. For information about how milestones are accomplished for a specific program, please refer to the doctoral program’s handbook.

Economics of Health Analytics, Post-Baccalaureate Certificate

The Post-Baccalaureate Certificate in Economics of Health Analytics is designed for individuals currently working in health care fields as well as those considering such work who are interested in learning how to analyze health care issues from an economic perspective. The certificate focuses on health policy, health econometrics, analytics, and data skills. Students learn to manage and use data to evaluate new health care policies, technologies and programs with cutting edge statistical tools.

The P.B.C. is composed of four courses that can be completed in as little as two semesters. Admission in either the fall or the spring semester is possible.

Completion of the P.B.C. in Economics of Health Analytics allows the the GMAT/GRE admission requirement for the Masters of Arts in Applied Economics to be waived; courses completed as part of the certificate program may count toward completion of the M.A. subject to the Graduate School policy on time limits for master’s degrees.

Students may pursue a post-baccalaureate certificate concurrently with a master’s degree in Applied Economics. Courses taken as part of the certificate program may also satisfy degree requirements subject to Graduate School policy. Certificates function similarly to a cognate, which is course work organized around a narrow subfield. Certificates provide master’s students with the ability to earn enhanced credentials. Enrolled master’s students do not have to pay the application fee to pursue a concurrent certificate.

Student Learning Outcomes

• Integration of Economic Theory and Econometrics.
• Assemble, Clean, and Use Databases.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

Total Credit Hours 12

* Courses taken at the 700 level must be approved by the Graduate Program Director.

e-Portfolio

As a requirement for completion of the certificate, each student must successfully complete an e-Portfolio of significant assignments and final projects. The e-Portfolio demonstrates a student’s cumulative program knowledge and fulfills the capstone requirement of the program. This body of work can be shared with prospective employers to help students distinguish themselves in the job market. Students must receive approval of their e-Portfolio from the Graduate Program Director in order to meet the graduation requirement.

Quantitative Business Economics, Post-Baccalaureate Certificate

The Post-Baccalaureate Certificate in Quantitative Business Economics is designed for individuals interested in developing broad perspectives on the use of economics in evaluating business decision making. The certificate delivers high-demand skills such as time series and forecasting, managerial economics, policy evaluation, and the ability to develop and evaluate the models used for stress testing.

The P.B.C. in Quantitative Business Economics is composed of four courses that can be completed in as little as two semesters. Admission in either the fall or the spring semester is possible.

Completion of the P.B.C. in Quantitative Business Economics allows the the GMAT/GRE admission requirement for the Masters Arts in Applied Economics to be waived; courses completed as part of the certificate program may count toward completion of the M.A. subject to the Graduate School policy on time limits for master’s degrees.

Students may pursue a post-baccalaureate certificate concurrently with a master’s degree in Applied Economics. Courses taken as part of the certificate program may also satisfy degree requirements subject to Graduate School policy. Certificates function similarly to a cognate, which is course work organized around a narrow subfield. Certificates provide master’s students with the ability to earn enhanced credentials. Enrolled master’s students do not have to pay the application fee to pursue a concurrent certificate.
Student Learning Outcomes

- **Demonstrate Mastery of Master’s-Level Econometric Methods.**
- **Assemble, Clean, and Use Databases.**

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

Information Systems and Supply Chain Management

Bryan School of Business and Economics

479 Bryan Building
336-334-5666
http://bryan.uncg.edu/isscm

Vidyaranya B. Gargeya, Head of Department

Mission

Our mission is to integrate quality instruction in information systems and supply chain management with relevant research and professional services. This integration will help students develop an appropriate background and critical skills needed to function effectively in a global, technology-driven environment. We strive to fulfill this mission as an integral part of the Bryan School of Business and Economics and in support of its mission and purposes. Our chief goal is to provide top-tier information systems and supply chain management programs in North Carolina as assessed by employers of our graduates.

Programs offered by the department include study of information technology and supply chain analysis applied to business operations and management decision making. Career opportunities are excellent for quality graduates of either of the concentrations. All students in departmental programs gain extensive experience using networked computer systems and contemporary applications software.

The department assists professional student development, and assists students with career planning. Students with appropriate academic records are encouraged to seek an internship as juniors or seniors.

Student Learning Goals

The primary Learning Goal for both the Information Systems and Supply Chain Management concentrations is to prepare students to utilize various information technologies and tools and deliver enhanced business productivity.

The following Learning Objectives have been endorsed by the faculty to guide the development, evaluation, and continuous improvement of the ISSC undergraduate degree program. The first two objectives are common to both concentrations, and these are followed by two more objectives for the IS concentration and two more for the SCM concentration.

- Students will be skilled in the application of appropriate end-user computing tools to enhance productivity.
- Students can model business data requirements and utilize relational database technology.

Students concentrating in Information Systems will be able to:

- Employ a systems approach and a system development method to understand business problems.
- Design and develop business software applications.

Students concentrating in Supply Chain Management will be able to:

- Apply process analysis to document supply chain management components and propose improvements.

- Apply appropriate methods and techniques to analyze and solve supply chain management problems.

Admission and Repeat Policies

Admission to the ISSC Department requires a minimum cumulative GPA of 2.0.

Requirements in future years may be higher depending upon departmental capacity and student demand. If enrollments threaten program quality, students’ registration in upper level courses will be based upon their cumulative GPAs. Information about current ISM admission requirements and policies is available in Rooms 479 and 137 in the Bryan Building.

The Bryan School of Business and Economics offers the Business Undergraduate Minor (p. 529).

Information Systems and Supply Chain Management, B.S.

Overall Requirements
- 120 credit hours, to include at least 36 credits at or above the 300 course level
- Grade of C or higher in ISM 110
- A cumulative GPA of at least 2.0
- For Business Analytics concentration, grades of C or better in ISM 210, ISM 218, and ISM 240.
- For Cyber Security concentration, grades of C or better in ISM 201, ISM 218, and ISM 240.
- For Information Systems concentration, grades of C or better in ISM 218, ISM 240, ISM 280, and ISM 301.
- At least 50 percent of the business semester hours required for the degree must be earned at UNC Greensboro

- SCM 260 Essentials of Enterprise Requirements Planning (ERP)
- SCM 411 Undergraduate Internship in Supply Chain Management
- SCM 498 Independent Study
- SCM 499 Problems in Supply Chain Management
- STH 313 Revenue Management

* Or other approved electives.

### Disciplinary Honors in Information Systems and Supply Chain Management

Requirements

- A minimum of 12 credit hours as defined below.
- UNC Greensboro cumulative GPA of 3.30 or better, or, for transfer students, cumulative GPA of 3.30 or better from all prior institutions.
All degree requirements for the M.S. in Information Technology and Management remain the same.

**Information Technology Undergraduate Minor**

The Information Technology minor is available to any UNC Greensboro student (other than ISSC majors) who is in good standing in the University. The minor complements a variety of professional and arts and sciences fields. It focuses on various IT tools and applications and the use of these technologies to improve decision-making in a variety of professional environments.

**Admissions and Policies**

Students can submit a minor application online here (https://bryan.uncg.edu/current-students/forms/request-a-change-of-major-or-minor/) or you can visit our Bryan Student Services Office, Room 137 Bryan Building.

**Program Requirements**

- Minimum of 15 credit hours, 9 of which must be successfully completed at UNC Greensboro.
- A minimum grade of C (2.0) in all courses used toward the completion of the minor.

**Information Technology and Management, M.S.**

The M.S. in Information Technology and Management (MSITM) program focuses on both information technology and the management of information technology resources. The program combines technological and managerial components to train graduates who can deal effectively with the variety and complexity of issues involved in applying information technology successfully within organizations. The MSITM program seeks to extend both the knowledge of students and their ability to effectively utilize their knowledge in a collaborative work environment.

The curriculum is designed to be flexible and dynamic and provides state-of-the-art exposure to both information technology and management practices. The program places an emphasis on problem solving activities, multi-functional group decision making, and communication skills. In addition to technology and business studies, all students will be required to demonstrate acceptable competence in communication and

### Accelerated B.S. to M.S. in Information Technology and Management

**Application and Admission**

Qualified UNC Greensboro undergraduate students who are pursuing the B.S. in Information Systems and Supply Chain Management may apply for admission to the Accelerated Master’s Program (AMP) and the M.S. in Information Technology and Management. A cumulative undergraduate GPA of at least 3.5 based on at least 30 credits earned at UNC Greensboro is required. Applicants must have completed at least 60 credits and may not apply for admission to the AMP before the first semester of the junior year. Applicants will not be required to take the GRE or GMAT entrance exam. All applicants must complete the Accelerated Master’s Program information when applying for admission to the M.S. in Information Technology and Management.

**Courses**

Admitted students may apply a maximum of 12 credits from the following graduate-level courses toward completion of both the undergraduate and graduate degree provided that they earn a grade of B (3.0) or better in the course and fulfill graduate-level requirements of the M.S. in Information Technology and Management:

<table>
<thead>
<tr>
<th>Code</th>

</tr>
</tbody>
</table>

Only four of the above seven courses will be specified on a student’s AMP application after consultation with the Graduate Program Director. Please consult with an advisor to determine how the courses taken at the graduate level will meet requirements in the bachelor’s degree program.

**Recognition**

Receive a Certificate of Disciplinary Honors in Information Systems and Supply Chain Management; have that accomplishment, along with the title of the Senior Honors Project, noted on the official transcript; and be recognized at a banquet held at the end of the spring semester.

**Honors Advisor**

Contact Gurpreet Dhillon at gsdhillon@uncg.edu for further information and guidance about Honors in Information Systems and Supply Chain Management. To apply: http://honorscollege.uncg.edu/forms/disc-application.pdf

presentation skills, interpersonal skills, teamwork skills, and problem-solving capabilities.

Students in the MSITM program have the option to specialize in one of three concentrations in Business Analytics, Cyber Security, Enterprise Resource Planning, or Supply Chain Management. Depending on the business and information technology background the student possesses, the length of the program will vary. A student can complete the program in 18 to 24 months, depending on the individual student's background and course load.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants are encouraged to submit a resume and a personal statement. Applicants should consult the ISSCM Graduate Program Director for specific admission requirements.

GMAT or GRE scores are required.

GMAT waivers are considered but are not automatic. To be considered for a GMAT waiver, an application needs to be submitted to the MSITM Admissions Committee or to the Graduate Program Director. The applicant must provide all necessary documentation that verifies that she/he meets applicable criteria as listed below. The MSITM Admissions Committee decision shall be made on a case-by-case basis using the following criteria and is at the sole discretion of the Admissions Committee:

- To be eligible for a GMAT waiver based on military experience, the applicant must have at least 3 years full-time O-3 or higher or E-7 or higher-level experience AND an undergraduate degree with a minimum cumulative undergraduate GPA of 3.0 or higher from an institution accredited by the Accrediting Commission for Community and Junior Colleges (ACCJC) Western Association of Schools and Colleges, the Higher Learning Commission (HLC), the Middle States Commission on Higher Education (MSCHE), the New England Commission of Higher Education (NECHE), the Northwest Commission on Colleges and Universities (NWCCU), the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC), or the WASC Senior College and University Commission (WSCUC).

- To be eligible for a GMAT waiver based on work experience, the applicant must have at least five years of full-time IT or management experience that includes significant budgetary or leadership responsibility and an undergraduate degree with a minimum cumulative undergraduate GPA of 3.0 or higher from an institution accredited by the Accrediting Commission for Community and Junior Colleges (ACCJC) Western Association of Schools and Colleges, the Higher Learning Commission (HLC), the Middle States Commission on Higher Education (MSCHE), the New England Commission of Higher Education (NECHE), the Northwest Commission on Colleges and Universities (NWCCU), the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC), or the WASC Senior College and University Commission (WSCUC).

- An applicant with a terminal/professional degree such as M.D., J.D., Ed.D., Ph.D., or D.B.A. may request to waive the GMAT/GRE requirement if the applicant has a minimum GPA of 3.0 for these graduate degrees.

- To be eligible for a GMAT waiver based on past graduate academic qualification, the applicant must have a Masters degree from an accredited institution AND a minimum cumulative Graduate GPA of 3.0 or higher.

- To be eligible for a GMAT waiver based on academic performance in any of the completed graduate certificates offered by the ISSCM Department at UNCG, the applicant must have an undergraduate degree with a minimum cumulative undergraduate GPA of 3.0 or higher from an institution accredited by the Accrediting Commission for Community and Junior Colleges (ACCJC) Western Association of Schools and Colleges, the Higher Learning Commission (HLC), the Middle States Commission on Higher Education (MSCHE), the New England Commission of Higher Education (NECHE), the Northwest Commission on Colleges and Universities (NWCCU), the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC), or the WASC Senior College and University Commission (WSCUC) AND must have completed ONE or more ISSCM graduate certificates with a minimum cumulative Graduate GPA of 3.0 or higher AND must have applied for admission to the MSITM degree program within 5 years of completion of the first ISSCM graduate certificate.

### Degree Program Requirements

**Required: 30-36 credit hours**

Depending on the business background the student possesses, the length of the program will be 30-36 credit hours. Incoming students will take the Master of Science in Information Technology and Management (MSITM) core curriculum. Students also have the option to specialize in one of four concentrations in Business Analytics, Cyber Security, Enterprise Resource Planning, or Supply Chain Management. MSITM thesis option is offered.

Graduate Certificates

Students also have the option to earn one or more graduate Post-Baccalaureate Certificates in Business Analytics, Cyber Security, and Supply Chain Management areas by completing 12 credits which includes 9 core credits in the certificate area and 3 credits in an elective. Students electing to earn a post-baccalaureate certificate must apply separately to Graduate School through the application process for the certificate program of choice and should consult with their advisor or the ISSCM Graduate Program Director for additional information. Elective course credits earned in the MSITM core and concentrations may count towards the certificates and vice versa.

Information about the post-baccalaureate certificates core and elective courses can be found on the pages for each certificate:

Business Analytics, Post-Baccalaureate Certificate (p. 566)
Cyber Security, Post-Baccalaureate Certificate (p. 566)
Supply Chain Management, Post-Baccalaureate Certificate (p. 568)

Accelerated B.S. to M.S. in Information Technology and Management

Application and Admission

Qualified UNC Greensboro undergraduate students who are pursuing the B.S. in Information Systems and Supply Chain Management may apply for admission to the Accelerated Master’s Program (AMP) and the M.S. in Information Technology and Management. A cumulative undergraduate GPA of at least 3.5 based on at least 30 credits earned at UNC Greensboro is required. Applicants must have completed at least 60 credits and may not apply for admission to the AMP before the first semester of the junior year. Applicants will not be required to take the GRE or GMAT entrance exam. All applicants must complete the Accelerated Master’s Program information when applying for admission to the M.S. in Information Technology and Management.

Courses

Admitted students may apply a maximum of 12 credits from the following graduate-level courses toward completion of both the undergraduate and graduate degree provided that they earn a grade of B (3.0) or better in the course and fulfill graduate-level requirements of the M.S. in Information Technology and Management:

<table>

ISM 673  Designing Secure Computer and IoT Networks for Business  3
ISM/SCM 678  Project Management for Dynamic Environments  3
SCM 650  Principles of Supply Chain Management  3
SCM 652  Strategic Cost, Procurement, and Supply Chain Finance  3

Only four of the above seven courses will be specified on a student's AMP application after consultation with the Graduate Program Director. Please consult with an advisor to determine how the courses taken at the graduate level will meet requirements in the bachelor's degree program. All degree requirements for the M.S. in Information Technology and Management remain the same.

**Information Systems, Ph.D.**

The Ph.D. in Information Systems requires 71 credit hours and is an innovative research degree program designed to prepare professionals and research scholars of the highest quality for careers in academic information systems units and other organizations. The program enhances the traditional Ph.D. program with four distinctive elements: commitment to practical relevance, emphasis on producing quality teachers, research apprenticeship, and interdisciplinary research.

The program is primarily for full-time students and is available to students with master's degrees in appropriate areas such as business, computer science, public administration, engineering, or the social sciences.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a one-page personal statement and a resume. Applicants should consult the Ph.D. Program Director for specific admission requirements.

Students without a master's degree in business will need to take additional courses to establish an understanding of business processes.

Organizational Research Internship
Required of students lacking relevant work experience, as determined by the Ph.D. Program Director.

Research Apprenticeship
Two papers must be submitted for publication in conference proceedings or journals prior to taking written comprehensive examinations.

Comprehensive Written Examination
Upon completion of the required course work and research apprenticeship, the student will be eligible to sit for written comprehensive examinations. The major examination will have two parts:

- The first part will be composed of IS content from various courses and existing literature.
- The second part will be designed to evaluate the research readiness of the student.

Typically, the major examination is given in the Fall semester. If the student fails at the first attempt, a second attempt may be allowed by the Ph.D. Program Director.

Oral Examination
Following the successful completion of the written comprehensive examination, the student will be given an oral examination by the doctoral Advisory/Dissertation Committee. Upon successful completion of the oral examination, the student may apply for doctoral candidacy.

Proposal Defense
Following the oral examination, the student will prepare a dissertation proposal that will be defended before the doctoral Advisory/Dissertation Committee. The defense may be attended by others outside the committee.

Dissertation
A minimum of 18 credits will be devoted to research that culminates in the preparation of the required doctoral dissertation.

Business Analytics, Post-Baccalaureate Certificate

The Department of Information Systems and Supply Chain Management offers an online Post-Baccalaureate Certificate in Business Analytics. The certificate program consists of a minimum of 12 credit hours but may not exceed 15 credit hours. It delivers state-of-the-art knowledge and skills in models, methods, tools, and techniques in business analytics.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

Cyber Security, Post-Baccalaureate Certificate

The online Post-Baccalaureate Certificate in Cyber Security consists of a minimum of 12 credit hours. It is intended for professionals with a bachelor’s degree in any field from an accredited institution who are interested in gaining state-of-the-art knowledge and skills in the application of information security and privacy to solve organizational problems. The program offers an innovative and relevant educational opportunity that reflects the changing information security and privacy environment of the 21st Century by incorporating the latest thinking and best practices in the field with a solid foundation in theory and proven principles. Additionally, the program provides knowledge and skills on all aspects of information security and privacy technologies, tools, methodologies, and management.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

Enterprise Resource Planning, Post-Baccalaureate Certificate

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

Students must have a bachelor’s degree with a minimum cumulative GPA of 3.0 or above from an institution accredited by the Accrediting Commission for Community and Junior Colleges (ACCJC) Western Association of Schools and Colleges, the Higher Learning Commission (HLC), the Middle States Commission on Higher Education (MSCHE), the New England Commission of Higher Education (NECHE), the Northwest Commission on Colleges and Universities (NWCCU), the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC), or the WASC Senior College and University Commission (WSCUC).

Admissions exams are not required.

Certificate Program Requirements

Required: 12 credit hours

The Post-Baccalaureate Certificate in Enterprise Resource Planning offers theories and concepts in Enterprise Resource Planning (ERP) and their applications using SAP. It will explore state-of-the-art methods in successful integration of ERP systems into enterprise architectures.

Students must complete the following three required courses and one elective course, with a minimum cumulative GPA of 3.0 or higher, in order to earn the certificate:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>

Management

Bryan School of Business and Economics

366 Bryan Building
336-334-5691
http://bryan.uncg.edu/mgt

Moses Acquaah, Department Head
Aichia Chuang, Graduate Program Director

Mission

The mission of the Department of Management is to support the mission of the Bryan School, primarily through the imparting of knowledge through instructional programs and secondarily through the creation of knowledge through basic and applied research. A third priority is to provide service through involvement in university, professional and community activities.

The Department of Management offers two majors that lead to the Bachelor of Science degree: Business Administration and International Business Studies. The Business Administration major is comprised of three concentrations: Business Studies, Human Resources, and Management.

Business Administration Major

The objective of the Business Administration major is to provide liberally educated students with a broad exposure to the functional areas of business and a more comprehensive understanding of one of the managerial specialties through a choice of a concentration:

- **Business Studies** is most appropriate for those who want a broad business exposure without the need to concentrate specifically in only one functional area. (A student can complete the Business Studies concentration by careful planning of the Career Profile.)
- **Human Resources** focuses on skills and knowledge needed by the professional human resources manager: job analysis, recruiting, screening, selection, training and development, performance appraisal, job evaluation, and salary administration.
- **Management** focuses on courses in the management area with courses in leadership, organizational behavior, human resources, decision-making, cross cultural management, and strategy. The concentration is designed for students that want a more focused education on issues and problems faced by those involved in business management.

International Business Studies Major

The International Business Studies major is distinctive in the Bryan School by requiring experiences and competence in areas such as language and study abroad that are not required in other business programs. The need to understand other cultures, societies, and economies is met by requiring/recommending more in liberal education and related areas than is required in General Education requirements for other business programs.

- MKT 424 Consumer Behavior
- MKT 426 International Marketing
The M.S. in International Business program is designed for qualified students from any academic background. Students are admitted to the program only in August of each academic year.

An applicant that is a member of the Beta Gamma Sigma (BGS) honor society with a minimum 3.3 GPA out of 4.0:

- No waiver application is necessary.
- BGS must be noted on the application for admission, and a copy of the BGS certificate must be submitted.

An applicant with a terminal/professional degree such as M.D., J.D., Ed.D., Ph.D., or D.B.A. may request to waive the GMAT/GRE requirement if the applicant has:

- A minimum GPA of 3.0 for these graduate degrees.

An applicant with a master’s degree may request to waive the GMAT/GRE requirement if the applicant has:

- A master’s degree from at least an institution accredited by the Accrediting Commission for Community and Junior Colleges (ACCJC) Western Association of Schools and Colleges, the Higher Learning Commission (HLC), the Middle States Commission on Higher Education (MSCHE), the New England Commission of Higher Education (NECHE), the Northwest Commission on Colleges and Universities (NWCCU), the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC), or the WASC Senior College and University Commission (WSCUC), which required a standardized test (such as the GRE or equivalent) as an entrance requirement; AND

- A graduate GPA of at least 3.0 out of 4.0; AND
- Relevant professional work experience (may include military service), to be determined by the department admission committee.

An applicant with a bachelor’s degree from an institution accredited by the Accrediting Commission for Community and Junior Colleges (ACCJC) Western Association of Schools and Colleges, the Higher Learning Commission (HLC), the Middle States Commission on Higher Education (MSCHE), the New England Commission of Higher Education (NECHE), the Northwest Commission on Colleges and Universities (NWCCU), the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC), or the WASC Senior College and University Commission (WSCUC) and significant work experience may request to waive the GMAT/GRE if the applicant has:

- At least seven years of significant progressive professional work experience (may include military service), to be determined by the department admission committee; AND
- A minimum GPA of 3.0.

Business Administration, Ph.D.

The Ph.D. in Business Administration is an innovative research program designed to prepare students for careers as faculty in academic institutions and as professionals in research organizations and government institutions. The program is intended for faculty members in business schools who do not have a Ph.D. but are interested in a research-based doctoral degree and individuals in government or industry who would like to transition to academia and are looking to enroll in a research-based doctoral program.

The Ph.D. in Business Administration is a cohort-based, part-time program that requires a total of 60 credit hours. A student in the program is expected to complete the program in four years with two and a half years of course work. It is mandatory that students take two courses per semester so that they complete the core courses of the program in the first two years. The core course work includes major courses, field courses and courses in research methods. Students will select one of the three areas in the program - international business, organizational behavior, and strategic management - to be their major area and another area to be their supporting area. The program is available to students with a master's degrees in a business field or related area to be their major area and another area to be their supporting area. The program is designed to prepare students for careers as faculty in academic institutions and as professionals in research organizations and public administration.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

Admission into the doctoral program in Business Administration is highly selective. At a minimum, applicants should possess a completed master's degree in a business field or related area with superior performance in graduate course work.

Required Milestones*

- Residency (Immersion)
- Research Competency
- Plan of Study
- Comprehensive Exam (Written & Oral)
- Dissertation Proposal
- Admission to Candidacy
- Dissertation Defense
- Filing the Final Approved Dissertation

* General information about milestones for doctoral programs is available in Section III (p. 807) of the Graduate Policies (p. 788) page in the University Catalog. For information about how milestones are accomplished for a specific program, please refer to the doctoral program's handbook.

Global Leadership and Strategy, Post-Baccalaureate Certificate

The Post-Baccalaureate Certificate in Global Leadership and Strategy consists of 12 credit hours and is intended for professionals who have a bachelor's degree in any field from an accredited institution and are interested in an international business career or an opportunity to gain knowledge in leading and designing strategy in the international environment.
For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

An earned bachelor’s degree from an accredited university.

Zhiyong Yang, Head of Department

Vision Statement
To be a leader in marketing, entrepreneurship, hospitality, tourism, and business communication education that is recognized for our innovative and dynamic curriculum and multidisciplinary faculty and scholarship.

Mission
To create and disseminate knowledge through research, experiential education, and service, by: equipping students with relevant knowledge and skills to participate, communicate, and compete successfully in 21st century global society and economy; preparing students to use innovation to achieve the triple bottom line of economic viability (profit), social responsibility (people), and environmental protection (planet); preparing students to contribute positively to the betterment of society and the environment; helping to develop sustainable and innovative businesses; producing and disseminating high-quality scholarship that responds to timely and relevant social, cultural, economic, and environmental domains; and utilizing skills and expertise of faculty and students in collaboration with community partners for the benefit of UNC Greensboro, the Bryan School of Business and Economics (BSBE), entrepreneurs, marketing professionals, the tourism and hospitality sectors, and the economic, social, and environmental wellbeing of the local and global community.

Entrepreneurship Major
The entrepreneurship major focuses on the skills necessary to start a business, grow a business, or enhance creativity and innovation in a corporate environment. These skills are necessary in today’s competitive business world.

Marketing Major
The Marketing major is concerned with the development and pricing of products, selection of distribution channels, and promotion of products to consumers and businesses. This major leads to careers in sales, sales management, advertising, and retailing as well as marketing management.

Hospitality and Tourism Management Major
The Hospitality and Tourism Management major prepares students for a variety of management positions in the hotel, restaurant, meeting, travel, tourism, attractions, craft beverage, and experience management fields. Students complete a set of courses that gives them a broad foundation in all areas of hospitality and tourism management.

**Electives**

To qualify for a specific Profile, the student must complete a minimum of one 3 credit course in the Profile.

- Entrepreneurship and Marketing double majors are permitted only 6 credits of duplicated credits. Only two of the following courses may count for both majors: MKT 328/ENT 328, MKT 403/ENT 403, MKT 427/ENT 427, ENT 430/MKT 430/JS 430/GES 430, or MKT 324/ENT 324.
- Entrepreneurship and Business Studies double majors, only the ENT 300/BUS 300 and ENT 336/BUS 336 courses will count for both majors.

In rare cases an Independent Study focused on entrepreneurial research or a special project may qualify with faculty approval.

Electives sufficient to complete 120 total credit hours required for the degree.
Disciplinary Honors in Marketing, Entrepreneurship, and Hospitality and Tourism

Requirements
- A minimum of 12 credit hours as defined below.
- UNC Greensboro cumulative GPA of 3.30 or better or, for transfer students, cumulative GPA of 3.30 or better from all prior institutions.

2 Only one of the following internship courses may count as a Marketing major elective: MKT 427 or MKT 450.
Entrepreneurship Undergraduate Minor

The Entrepreneurship minor, consisting of 15 credit hours, is available for majors outside of the Bryan School of Business and Economics, as well as for majors in the Bryan School—other than Entrepreneurship majors—who are in good standing with the university.

Program Requirements

- Minimum of 15 credit hours
- Minimum average GPA of 2.0 required in all courses used toward minor.

Non-Business Majors

The minor brings an entrepreneurial perspective to all major fields of study, either to start or grow a business or to be creative and innovative in any organization, profit or nonprofit. To earn an entrepreneurship minor, a student must meet the following requirements in the order listed below.

Apply

Apply for the entrepreneurship minor in the Bryan School Student Services Office

Disciplinary Honors in Marketing, Entrepreneurship, and Hospitality and Tourism

Requirements

- A minimum of 12 credit hours as defined below.
- UNC Greensboro cumulative GPA of 3.30 or better or, for transfer students, cumulative GPA of 3.30 or better from all prior institutions.

Entrepreneurship and Marketing double majors are permitted only 6 credits of duplicated credits. Only two of the following courses may count for both majors: MKT 324, MKT 328, MKT 403, MKT 427, and MKT 430.

Franchising; Health Care; International; Social; Sports; or Technology, Innovation, and Sciences

Profile courses
Once admitted to minor, student takes at least 3 credits within the selected profile.

Electives
At least 3 credits from approved electives to meet minimum of required 15 credits

Track choice
B.A. in ECON majors and CARS majors, should follow the non-business track. Students in the B.S. in ECON majors should follow the Bryan School track.

Bryan School Majors
The minor is intended to bring an entrepreneurial perspective to all majors in the Bryan School. To earn an entrepreneurship minor, a student must meet the requirements listed below in the order listed.

Apply
Apply for the Entrepreneurship minor in the Bryan School Student Services Office, (Bryan 137).

Professional Selling Undergraduate Minor

The Professional Selling Minor, consisting of 15 credits is available for majors outside of the Bryan School of Business and Economics, as well as for majors in the Bryan School who are in good standing with the university. Minimum average GPA of 2.50 is required in all courses used toward minor.

Business and Non-Business Majors

The minor is useful to majors in the professional and arts and sciences fields of study, as well as business majors. The professional selling minor is intended to provide students with skills useful in sales positions and in making the individual more effective in any knowledge-based position in all major fields of study where one may need to influence people. To earn a professional selling minor, a student must meet the following requirements in the order listed below.

Admission to the Minor

Students can submit a minor application online here (https://bryan.uncg.edu/current-students/forms/request-a-change-of-major-or-minor/) or you can visit our Bryan Student Services Office, Room 137 Bryan Building.

Jewell Cooper, Associate Dean of Academic Affairs and Student Services  
Robert Henson, Associate Dean for Research

About

The SOE has a student body of approximately 1,500 students that is among the most diverse in the UNC system. Approximately 75% of our students are enrolled in graduate programs and 25% are enrolled in undergraduate programs.

The faculty of the SOE includes nearly 100 full-time professors who are highly accomplished scholars, teachers, and partners with community organizations and schools.

The Departments in the School of Education are as follows:

- Counseling and Educational Development  
- Educational Leadership and Cultural Foundations  
- Educational Research Methodology  
- Library and Information Science  
- Specialized Educational Services  
- Teacher Education and Higher Education

The Department of Teacher Education and Higher Education and the Department of Specialized Education Services offer Bachelor of Science programs several of which prepare students for the Standard Professional I License in North Carolina. Undergraduate majors include Elementary Education, Middle Grades Education, Professions in Deafness (Advocacy and Services for the Deaf, Auditory-Oral/Birth–Kindergarten Teacher Licensure; Birth–12 Deaf and Hard of Hearing Teacher Licensure; and Interpreter Preparation), Special Education (including the Dual Elementary Education and Special Education Concentration with Teacher Licensure), and Elementary Education. All departments in the School of Education offer graduate programs leading to master's, specialist's, and doctoral degrees, as well.

The School of Education also supports programs in teacher education conducted under the auspices of other schools (Visual and Performing Arts; Health and Human Sciences) and departments within the College of Arts and Sciences by responding to course requirements in the areas of social, philosophical, and psychological foundations; methodology; curriculum; and student teaching. Recent emphases in competency-based curricula and individualized programming contribute to newly designed teacher education programs.

All licensure programs for school personnel are approved by the North Carolina State Department of Public Instruction. The University of North Carolina at Greensboro is accredited under the National Council for Accreditation of Teacher Education (NCATE) Standards through the CAEP Accreditation System, for a period of six years, from 2015-21. UNC Greensboro will seek accreditation under the Council for the Accreditation of Educator Preparation (CAEP) Standards in 2021. Formed in 2013, CAEP is the single specialized accreditor for educator preparation, and administers NCATE accreditation.

The School of Education is a professional school that strives to prepare outstanding practitioners, study the profession, create and disseminate new knowledge in professional education, and engage in field services and apply research findings. A general discussion of Teacher Education may be found under School of Education Licensure Programs in this Catalog.

The SOE offers over 20 different graduate degree programs, many of which include a range of specialty concentrations to allow our students to focus on topics most relevant to their interests and professional goals. Degree programs include 5 undergraduate programs and 15 graduate programs spanning Master, Specialist, and Doctoral degrees. The 20 degree programs are complemented by numerous non-degree certificate and add-on licensure programs.

Kelly L. Wester, Chair of the Department
L. DiAnne Borders, Graduate Program Director

About

There are two primary program areas in counselor education for which the master’s and doctoral degrees are offered: clinical mental health counseling and school counseling. Within these two program areas, the Council for Accreditation of Counseling and Related Educational Programs (CACREP), a specialized accrediting body recognized by the Council on Postsecondary Accreditation (COPA), has conferred accreditation to the following programs and specializations in the Department of Counseling and Educational Development at UNC Greensboro: clinical mental health counseling (M.S.), school counseling (M.S.), couple and family counseling (M.S.), and counseling and counselor education (Ph.D.). Applicants admitted to a program are expected to enroll as full-time students, registering for a minimum of 12 credit hours each semester. Students appointed to graduate assistantships, however, may reduce their credit load and retain full-time status.

Curriculum

The Counselor Education program faculty adheres to the scientist-practitioner model of training. Consistent with this approach is the program’s goal of graduating students who have broad knowledge of counseling theory and process, possess a high level of competency in providing professional services to diverse client populations, and view assessment and research in counseling as a continuous cyclical activity throughout the counseling process. Research is a means of obtaining and using information to generate and establish counseling goals and strategies, and for identifying “best practices” or empirically-based practices that are integral to effectiveness in counseling. The focus of this ongoing process is to bring about client change. The major tenets underlying the program include the following:

1. Exposure to a variety of theoretical orientations to counseling,
2. Reliance on both the clinical-counseling and vocational-educational approaches in designing counseling and programmatic interventions,
3. A commitment to developing the student’s skills as a clinician who uses research methodology in practice,
4. A strong emphasis on the normal developmental issues of the individual as opposed to an approach based on pathology, and
5. Intentionality around challenging students to increase their self-awareness about and knowledge of diverse populations, and to use culturally-appropriate interventions in an effort to become multiculturally competent practitioners.

Especially important to the program faculty are the commitment to mental “health” (or wellness) and the value attached to understanding the common developmental themes throughout a person’s life. An appealing feature is the diversity of the faculty’s theoretical orientations, which translates into a variety of research opportunities available to creative students, as well as varied counseling approaches and different applied settings for gaining training experience.

To achieve the program’s curriculum goals of the scientist-practitioner model of training, students are required to demonstrate satisfactory knowledge in each of the following core areas: the helping relationship; group dynamics, process, and counseling; social and cultural diversity; human growth and development; career and lifestyle development; appraisal of individuals; research and evaluation; and professional orientation. Available within the program requirements are courses offered by other departments that enable students to benefit from the resources of the entire University.

Required professional core courses constitute the cognitive foundation for the development of skills in providing professional services. Also available are specialized courses dealing with particular groups and environmental settings, such as courses in family intervention, counseling children and adolescents, and substance use. Supervised clinical experience in the Vacav Counseling and Consulting Clinic is offered throughout the program parallel to core and specialty courses. Supervised experience in applied settings is available on campus as well as at off-campus sites; these include community mental health services; career counseling and placement; inpatient facilities; college counseling centers; public and private K-12 schools; child, youth, and family agencies; and sports, outreach, and alcohol and drug programs. Students are encouraged to explore internships experiences specifically tailored to their individual needs and interests. This diversity of opportunities allows students to develop programs consistent with their own particular goals and talents.

Students are given strong encouragement to participate in professional organizations and collaborate on original research projects. Opportunities for professional involvement and leadership development include the student honor association in the Department as well as state and national counseling organizations. Applied research courses are available at the entry level and required at the doctoral level. To help students design and complete high quality, relevant dissertations, doctoral students are required to take courses in research design and statistics, and quantitative and qualitative methods of data analysis. In addition to being given strong encouragement to participate in original research projects and presentations at professional meetings, students are expected to work closely with their selected professors in conducting their research projects. Close consultation with the faculty is strongly encouraged, particularly for students working on doctoral dissertations. The faculty views doctoral research as providing students with a starting point for developing an ongoing research program that continues beyond completion of their degree.

Mechanisms for student evaluation include progress evaluations by instructors, practicum supervisors, and internship supervisors – both at the University and at internship sites. Capstone projects and comprehensive exams provide valuable feedback to students regarding their progress in the program. Faculty supervisors appraise students’ clinical skills, and this feedback is available to students.

A majority of M.S. students complete the required curriculum in two years. Ph.D. students generally complete their degree in three years. Although a few doctoral students complete their dissertations after their full-time study at the University, students are strongly encouraged to complete all degree requirements before leaving.

Graduates are eligible for one or more state and national credentials. Because the program is CACREP-approved, all fully enrolled master’s
students can take the National Counselor Examination for Licensure and Certification (NCE) during their last semester of the program. The NCE is the first step toward becoming a National Certified Counselor (NCC) and a Licensed Clinical Mental Health Counselor (LCMHC) in North Carolina. In addition, the post-master’s experience requirement for the NCC credential is waived. The NCC credential is a prerequisite for national specialty certifications offered by the National Board of Certified Counselors (NBCC), including school counseling and clinical mental health counseling. School counseling graduates are eligible for the "G" state school counseling license. Those who complete the Post-Baccalaureate Certificate in Mental Health in Children and Adolescents are eligible for the "S" state school counseling license. Graduates of the clinical mental health counseling specialization in couple and family counseling qualify for the National Academy for Certified Family Therapist (NACFT) credential and can also receive preparation for American Association of Marriage and Family Therapy (AAMFT) membership (see Departmental Office Manager for additional information). For aspiring substance use counselors, preparation is available for both the Certified Alcohol and Drug Counselor pre-certification and the Licensed Clinical Addiction Specialist-Associate.

Recent graduates of the program have accepted positions in diverse settings similar to the breadth of internships available for students. The interest and talents of the students have served as the major criteria for determining the type of internship and employment obtained.

**Counseling, M.S.**

The M.S. in Counseling with a concentration either in Clinical Mental Health Counseling or School Counseling requires 60 credit hours. The M.S. in Counseling with a concentration in Couple and Family Counseling requires 63 credit hours.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a current resume/vita and a personal statement.

Applicants should have vocational goals compatible with the selected program and subspecialty. Program standards are competitive and not all applicants may be admitted. Preference is given to students desiring full-time study.

For more information, please visit our Admissions Process page (https://soe.uncg.edu/academics/departments/ced/ced-future-students/ced-admissions-process/).

Total Credit Hours 60

1 When the seminar topic is Counseling Children and Adolescents as indicated by the course section title in the course schedule.
2 Consists of 12 credits of school counseling internship across two semesters, 3 credits of counseling field practicum (CED 677), 3 credits of advanced counseling practicum and other practicum experiences across the curriculum as required in the Schedule of Courses.
3 Does not count towards the required credits. Corequisite course for CED 605, CED 610, CED 611, CED 612, CED 620, CED 650, CED 642, CED 648, CED 669, CED 682, CED 687, CED 690, CED 691, and CED 693.
Collateral Expertise
A student must demonstrate satisfactory performance in professional practice. This requirement is satisfied by successfully completing practicum and internship requirements.

Comprehensive Examination (Capstone Experience)
Please consult with departmental office for dates of this examination.

Counseling and Counselor Education, Ph.D.
The Ph.D. in Counseling and Counselor Education requires 76-82 credit hours beyond the master’s degree. Because master’s-level preparation programs vary, the doctoral program requirements are cumulative from the baccalaureate degree for entering Ph.D. students who have completed a master’s degree program at another institution. The doctoral program focuses on developing professional competencies of the student through advanced study of theory and practice of counseling as it relates to research, the behavioral sciences, teaching, and clinical supervision.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, doctoral applicants are required to have graduated from a master’s program in counseling or acceptable equivalent that is accredited by the Council for Accreditation of Counseling and Related Educational Programs. They also may present evidence of an appropriate degree from an institution accredited by the Accrediting Commission for Community and Junior Colleges (ACCJC) Western Association of Schools and Colleges, the Higher Learning Commission (HLC), the Middle States Commission on Higher Education (MSCHE), the New England Commission of Higher Education (NECHE), the Northwest Commission on Colleges and Schools Commission on Colleges (SACSCOC), or the WASC Senior College and University Commission (WSCUC). (CACREP requirements for a master’s program are needed; if missing, these are prerequisites for admission.)

Applicants to all graduate counseling programs should have vocational goals compatible with the selected program and subspecialty. Program standards are competitive and not all applicants may be admitted. Preference is given to students desiring full-time study.

For more information, please visit our Admissions Process page (https://soe.uncg.edu/academics/departments/ced/ced-future-students/ced-admissions-process/).

1. A minimum of 10 credits is required; additional credits are based on admissions, successful completion of CED 779, and students’ electing to enroll in more than one semester of clinical supervision and/or teaching internship. Students may enroll in additional semesters of teaching (CED 757) and supervision (CED 781 Clinical Supervision Internship and CED 781D Clinical Supervision Internship), assuming successful experience in prior semesters.

2. Required each semester a student is teaching CED 310 Helping Skills, CED 392 Love, Sex, and Relationships: Skills for Building Satisfying, Healthy Relationships, etc.

3. Required for students who enroll in the Ph.D. program directly from their master’s degree. May be required for other students based on their CED 779 work.

4. In a department or program outside of the School of Education.

Mental Health in Children and Adolescents, Post-Baccalaureate Certificate
For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).
Students enrolling in the Post-Baccalaureate in Mental Health in Children and Adolescents must be fully-admitted to the counseling program and the M.S. in Counseling, School Counseling Concentration.

About

The Department of Educational Leadership and Cultural Foundations (ELC) is concerned with issues of educational theory and philosophy, sociocultural analysis, educational leadership and school organization, educational policy, and critical pedagogy. The faculty members share a sociopolitical perspective that undergirds our scholarship, teaching, and service. We are committed to the development of a just and caring democratic society in which schools serve as centers of inquiry and forces for social transformation that foster social, economic, and educational equity by honoring differences in race, class, gender, ethnicity, and sexual preference. The ELC faculty seek to prepare thoughtful and effective leaders in education through programs of study that are interdisciplinary in focus and that emphasize questions of moral concern, the cultural context of education, and a reconstructive vision for excellent and equitable schooling. Our purpose is to create change agents who work with parents, staff, students, and communities to develop critical understandings of the assumptions, beliefs, and regularities that support schooling and who identify and create practices that allow schools to function more fully as democracies while preparing students for democracy.

The department offers four graduate programs and two certificate programs: Master of School Administration, Specialist in Education in Educational Leadership, Doctor of Education in Educational Leadership, and Doctor of Philosophy in Educational Studies with a concentration in Cultural Studies and Post Masters in School Administration and Post Masters in Cultural Foundations and Social Justice Education. As a valued member of our academic community, you will have the advantage of a supportive environment in which you are known, cared for, challenged and invested in. Faculty members take your preparation and your success very seriously. For that same reason, we equip you with more than knowledge; we give you the tools and experience to understand what your future decisions in the field will mean to learners and how you can use your position to bring about positive change for education. ELC is committed to embodying our shared commitments in all of our actions, with social justice and equity as the expressed centerpiece of who we are.

A major component of this department is an undergraduate course, ELC 381, “The Institution of Education,” which is required of all students who are planning to seek teacher licensure.

School Administration, M.S.A.

The Master of School Administration (M.S.A.) meets state standards for North Carolina Level I administrator licensure (school principal). The degree requires 42 credit hours. Students engage the content of leadership preparation through graduate classroom engagement and assignments, observing schools and school leaders in their practice, and performing tasks under the supervision of a school-based and university mentor during the internship.

Courses are offered in the evenings during the Fall and Spring terms and at various times in the Summer term. Courses are offered off campus or in blended, online formats. Most students are enrolled part-time.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a resume or curriculum vitae and a personal statement (see departmental website for topic and details).

Qualified applicants will have at least three years of teaching or other professional educational experience (not limited to public schools).

Application deadline: March 30

Degree Program Requirements

Required: 42 credit hours
The Ed.D. in Educational Leadership is designed to offer K-12 educational administrators and other K-12 educational leaders a unique and research-based experience. The program combines authentic scholarly inquiry with exposure to site-based best practices. The Ed.D. requires commitment to the pursuit of four ambitious goals:

- In-depth inquiry and research on issues and topics related to educational administration and leadership,
- Leadership for improvement in teaching and learning,
- Equity and social justice for all students, and
- The development of schools as democratic communities.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, the applicant must submit a resume or curriculum vitae and a personal statement (see departmental website for topic and details).

**Foundational Course Work (18 credits)**

Course work from the areas of administration and leadership, curriculum and instruction, social and cultural foundations, or research that provides a foundation for the student's in-depth inquiry in the major focus area (see below). Course work in this category may be counted from the Ed.S. program if courses meet Graduate School regulations and are approved by the student's doctoral committee.

**Major Focus Area Course Work (12 credits)**

Course work in this category should be carefully selected to help the student develop scholarly expertise in her/his chosen area of focus within educational leadership. Focus areas and supporting course work include the following:

**Organizational and Leadership Studies**

Educational Studies, Ph.D.

The Ph.D in Educational Studies with a concentration in Cultural Foundations is concerned with the breadth and depth of what is fundamental to educational practice-its ideology, philosophical assumptions, and moral claims-and is grounded in the study of education and culture with a particular interest in the integration of social analysis, cultural analysis and praxis.

The program focuses on theoretical and policy issues related to educational practice. In particular the degree emphasizes the following concerns:

- A concern for the disciplined study of the relationship between culture and education, encompassing philosophy, sociology, history, critical theory and pedagogy as it pertains to issues of power, equity, access, and privilege.
- A concern for providing broad philosophical, moral, and spiritual perspectives on educational policies and practices.
- A concern for the impact of current important intellectual movements in educational theory, including feminist theory, gender studies, queer studies, critical race theory and neoliberal critiques.
- A concern for the disciplined study of the relationships among visual studies, media culture, and community engaged work.
- A concern for the interdisciplinary work and serious study of emerging forms of inquiry.
- A concern for integrating personal and professional selves and for providing synthesis, perspective, and direction.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a resume or curriculum vitae and a personal statement (see departmental website for details).

Cultural Foundations and Social Justice Education, Post-Master's Certificate

The Post-Master's Certificate in Cultural Foundations and Social Justice Education requires 18 credit hours and offers students a broad, interdisciplinary, scholarly tradition that currently shapes cultural foundations and social justice education. Attention is given to preparing students to teach in this area. Students have five academic years to complete the certificate.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

School Administration, Post-Master's Certificate

The Post-Master's Certificate in School Administration requires 24-27 credit hours and is designed to prepare students for positions as principals or assistant principals and meets the requirements of the state legislation that supports an alternative path to school administration licensure (also known as “add-on” principal licensure).

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a current resume that details all previous leadership and professional roles and a personal statement (see departmental website for topic and details). One of the required recommendations must come from a principal or education supervisor. Some applicants may be requested to participate in an interview.

Qualified applicants will have a master's degree in education or a field closely affiliated with youth or adult development and at least three years of teaching or other professional educational experience (not limited to public schools).

Application deadlines: March 30 (face-to-face P.M.C.) and April 30 (online P.M.C.).

* Based on an assessment of a student's academic and professional background as reflected in the application, the P.M.C. committee may require students to take an additional course in the ELC department to help prepare them for a school leadership role.

** Students are required to complete an internship experience equivalent to one year of full-time administrative field experience.

Capstone Experience

To be eligible to receive NC state licensure as a principal, students must submit a Licensure Portfolio to the department for review. The portfolio will include material drawn from the student's course work and internship and provide documentary evidence of meeting state leadership standards. ELC faculty members will review the student's portfolio for approval.

John Willse, Chair of the Department
Bob Henson, Graduate Program Director

Graduates of the degree programs offered by the Department of Educational Research Methodology are prepared for careers in such settings as universities and colleges, school systems, state and federal departments of education, social service agencies, educational research and development centers, and the corporate sector. Course work is supplemented with research experience on grants and funded projects that include measurement research and evaluation that are being conducted by individual faculty and the UNC Greensboro Center for Educational Research and Evaluation.

Total Credit Hours 6
Accelerated B.A. or B.S. to M.S. in Educational Research, Measurement, and Evaluation

Application and Admission

Qualified UNC Greensboro undergraduate students may apply for admission to the Accelerated Master’s Program (AMP) in Educational Research Methodology. A cumulative undergraduate GPA of at least 3.5 based on at least 30 credits earned at UNCG is required. Applicants must have completed at least 60 credits and may not apply for admission to the AMP before the first semester of the junior year. Standard application requirements for the Master of Science (M.S.) degree program (i.e., undergraduate transcript(s), three letters of recommendation, personal statement; GRE scores are not required) apply to the AMP.

All applicants must complete the Accelerated Master’s Program information along with their application for admission to the Educational Research Methodology M.S. degree program. Admitted students may apply a maximum of 12 credits of graduate-level course work toward completion of both the undergraduate and graduate degrees, provided that they earn a grade of 3.5 or better in each graduate course and fulfill graduate-level requirements.

Courses

As with all graduate students in Education Research Methodology, courses counted toward the M.S. degree need the prior approval of the Graduate Program Director. Up to, but not more than, 12 credits of graduate courses may be double-counted. For a course to apply toward both degrees, the student must earn a grade of B (3.0) or better in the course and fulfill graduate-level requirements.

The M.S. degree requires 33 credit hours of graduate-level course work. If the maximum of 12 credits is double-counted toward both the undergraduate and graduate degrees, the student must complete an additional 21 credits of graduate-level course work to complete the M.S. degree. Please see the University Catalog for a full description of the M.S. degree requirements.

The following courses have been identified as those that may be counted toward the M.S. degree while also counting toward the student’s bachelor degree. These courses have been chosen because they are well suited to AMP students and because they are offered frequently enough to provide students substantial opportunity to enroll in them. All courses that lead to the completion of the M.S. degree must be approved with the Graduate Program Director. The following courses may be counted toward the bachelor and master’s degrees:

<table>

</tbody>
</table>

Substitutions for the above courses require the permission of the Graduate Program Director in the Educational Research Methodology department. Please consult with an advisor to determine how the courses taken at the graduate level will meet requirements in the B.A. or B.S. program.

Educational Research, Measurement, and Evaluation, M.S./Ph.D.

The Ph.D. in Educational Research, Measurement, and Evaluation requires 78 credit hours beyond the baccalaureate degree (for student’s entering the program in the M.S./Ph.D. track).

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

Additional Required Core (12 credits)

Select 12 credits in one of the following concentrations:

- Program Evaluation Concentration
- Measurement and Quantitative Methods Concentration

Electives (30 credits)

Select 30 credits in elective courses at the 600 level or higher

Dissertation

ERM 799 | Dissertation | 12 |

Total Credit Hours | 78

1 In cases where students have previously satisfied these requirements, course substitutions may be allowed with the approval of the major advisor.

2 Electives may come from any ERM courses not included in the required core or from non-ERM courses with the approval of the major advisor. At least 15 credits must be ERM courses.

3 Research that culminates in the preparation of a required doctoral dissertation.

Comprehensive Examination

Students are required to take the M.S. comprehensive exam following 24 credits of core courses and electives. Students must successfully pass the M.S. comprehensive exam and formally apply to graduate from the M.S. program by The Graduate School deadline before taking courses in the doctoral program.

The student will successfully complete a written comprehensive examination to be arranged by the doctoral advisor, usually in the semester in which course work is completed.

Lisa O'Connor, Professor and Chair of the Department
Nora Bird, Graduate Program Director

Mission
The central mission of the program is to “connect people, libraries, and information through research, teaching and service to enrich living and working in a global environment.” This informs the work of its faculty, students and alumni.

This program is accredited by the American Library Association and leads to the Master of Library and Information Science degree and appropriate state-level certification for school media personnel and public librarians.

About
The Master of Library and Information Science program prepares its graduates for an exciting and rewarding career in a field that is broad and deep in its vocational variety and committed to freedom of speech, equitable access to information and lifelong learning. The program is accredited by the American Library Association and graduates find positions in academic, public, school and special libraries, as well as in a wide array of other information work.

The M.L.I.S. program is available on the main campus in Greensboro and also totally online for students unable to attend class in Greensboro. Our online program is based on a philosophy of connection and for many classes attendance at synchronous web sessions is required. It is a 36 credit hour degree program designed for either working or full-time students and the average completion rate is 2.5 years for part-time study. There are only four core courses that cover the essential concepts common to all information work and these are supplemented by a full complement of elective courses in specialized information resources, archival management and computer applications. Every student works with an advisor to construct a program that fits the student’s interests, background and career aspirations. There is room for customization with the possibility of two independent study courses and a practicum, or field experience.

The Department also offers the degree with a school library focus that has additional accreditation by the Council for the Accreditation of Educator Preparation (formerly NCATE). This concentration includes all of the courses necessary to prepare students for licensure by the North Carolina Department of Public Instruction which carries reciprocity with many other states.

Academic Concentration Requirements

12 credits with a grade of C or better as listed below.

All students majoring in Information Studies are required to complete an approved academic concentration consisting of 12 credits in one of the following areas: Organizational & Community Informatics, Information Technology Training and Development, or Geographic Information Systems.

Select one of the concentrations as detailed following the major requirements.

- Organizational and Community Informatics
- Information Technology Training and Development
- Geographic Information Systems

Electives

Electives sufficient to complete the 120 credit hours required for degree.

Library and Information Science, M.L.I.S.

The M.L.I.S. in Library and Information Science emphasizes the rapidly changing library and information field and prepares students for positions of leadership in school, public, special, and academic libraries and other information centers, and for a variety of roles in both public and private agencies as information specialists. The M.L.I.S. requires 36 credit hours. In addition to the general M.L.I.S. degree, there are two concentrations that students may select: the Instructional Technology Concentration and the School Library Media Coordinator Concentration. The Instructional Technology Concentration requires 36 credit hours and prepares students to apply for 077 licensure in North Carolina. The School Library Media Coordinator Concentration requires 36 credit hours and prepares students to apply for 076 licensure. All M.L.I.S. graduates may qualify for North Carolina Public Library Certification.

The M.L.I.S. program is accredited by the American Library Association and is approved by the North Carolina Department of Public Instruction for the licensure of school library media personnel. The school library media specialist program is approved by CAEP using the AASL/ALA professional education association guidelines.

The M.L.I.S. program with all concentrations is offered on the UNC Greensboro campus and online.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials requested by The Graduate School, applicants for the M.L.I.S. program and for the licensure only programs must submit a resume and personal statement.

Admission for all programs are processed as received and there is no fixed deadline for fall and spring admission. Applicants are urged to submit complete applications as early as possible for thorough review.

Electives (6 credits)
Select 6 credits of electives from LIS graduate courses * 6

Total Credit Hours 36

* With the advisement of the student's advisor. Students may select elective courses outside LIS with approval from their advisor or the School Library Media Program Coordinator.

Teacher Education, M.Ed.
The Master of Education (M.Ed.) in Teacher Education with a concentration in Instructional Technology is for people who want to work as an instructional designer and training specialist in a wide array of environments including K-12, higher education, non-profit, government, corporate, and military settings. Students will gain learning experiences and applied skills in the design, production, application, and evaluation of a broad range of media and technology for innovative teaching, instruction, training, and development.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the applicant's materials required by The Graduate School, applicants must submit a statement of interest. No letters of recommendation or tests are required.

Special Endorsement in Computer Education, Post-Baccalaureate Certificate
The Post-Baccalaureate Certificate for Special Endorsement in Computer Education requires 18 credit hours and is offered jointly by the departments of Library and Information Science and Teacher Education and Higher Education. The certificate provides educators with extensive knowledge and skills to work with students and other teachers to use computers in on-going instructional programs and to serve as a computer education leader for a school. Completion of the certificate provides NC
licensed teachers the opportunity to fulfill requirements to apply for the NC endorsement for the position of Technology Facilitator. Offered on-campus or online.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the requirements set forth by The Graduate School, applicants must submit a resume and personal statement and currently hold a NC teaching license.

Specialized Education Services

School of Education
444 School of Education Building
336-334-5843
www.uncg.edu/ses

Morgan Chitiyo, Professor and Chair of Department
Sam Parker, Clinical Professor and Associate Chair of Department
Marcia Rock, Graduate Program Director

About
The primary goal of the Department of Specialized Education Services is to prepare professionals for diverse roles in working with individuals with disabilities and individuals who are Deaf or hard of hearing across the life span in a variety of educational and community environments. Programs in the department emphasize the delivery of services in the continuum settings, with a focus on interdisciplinary and interagency collaboration.

Upon graduation from the undergraduate programs, students are prepared for professional careers in public and private schools, residential settings, community agencies, clinics, and organizations. Faculty teaching, research, and service activities facilitate these outcomes.

Upon graduation from the graduate programs, students are prepared for leadership roles in early childhood, special education, and deaf education that enable them to assume positions such as consultant, teacher, early interventionist, community college teacher, special services administrator, advocate, researcher, and university faculty member or other leadership roles.

All students in SES programs are required to demonstrate that they have read, understand, and are able to completely meet the technical standards for their programs. Technical standards are outlined in each program’s handbook. All students in SES programs must have reliable transportation to and from practicum and/or internship sites.

The department also offers several graduate interdisciplinary programs jointly with the Department of Human Development and Family Studies: a M.Ed. in Birth-Kindergarten Interdisciplinary Studies in Education and Development; a Post-Baccalaureate Certificate in Birth-Kindergarten Initial Licensure; and a Post-Baccalaureate Certificate in Leadership in Infant and Toddler Learning. For information about these programs, see the Birth Through Kindergarten section under Interdisciplinary Programs at https://catalog.uncg.edu/interdisciplinary-programs/birth-kindergarten/.

Accreditation(s)
All teacher education programs are fully accredited by the Council for Accreditation of Educator Preparation. Graduate study in the Department of Specialized Education Services may lead to teacher licensure with the degree of Master of Education. All students enrolled in SES programs must meet departmental technical standards.

G Graduate-level faculty

• Professions in Deafness, B.S. (p. 605)
• Special Education: General Curriculum, B.S. (p. 610)
• Special Education: General Curriculum, M.Ed. (p. 612)
• Special Education, Ph.D. (p. 613)
• Alternative Initial Teacher Licensure, Post-Baccalaureate Alternative Initial Teacher Licensure (PAIL) (p. 613)

Professions in Deafness, B.S.
The Professions in Deafness B.S. offers three concentrations from which students may choose. All areas of study focus on the unique educational needs of deaf and hard of hearing children emphasizing language acquisition, teaching methods, and communication modes. Specialized training in communication modes is offered through sign classes and the Sign Language Laboratory. Supervised experiences are available for student observations, volunteer work, and practicum in area public schools and other settings.

See also School of Education Licensure Programs for Teacher Education admission requirements.

Advocacy and Services for the Deaf Concentration
The Advocacy and Services for the Deaf concentration is designed to prepare professionals to work with individuals who are Deaf or hard of hearing in a variety of settings other than K–12 schools. Students in the concentration have required courses in SES and a variety of options
Upon completion of this program, students will be able to:

- Identify and explain the services/roles of different community agencies available to individuals who are Deaf or hard of hearing.
- Identify specific needs of individuals who are Deaf or hard of hearing relative to their age, gender, ethnicity, and English language ability to identify appropriate services in the community where these individuals’ needs may be addressed.
- Identify different helping professions and select one in which they would like to pursue graduate-level studies.
- Discuss the organizational structures and funding sources of community agencies that advocate for and serve individuals who are Deaf or hard of hearing.
- Take part in collaborating with service providers from multiple agencies to develop a rehabilitation/habilitation plan for clients who are Deaf or hard of hearing.

**Interpreter Preparation Concentration**

The Interpreter Preparation concentration provides training at the undergraduate level to prepare students to work as interpreters for Deaf and Hard of hearing individuals in the community as well as in educational settings. Internships take place in inclusive settings in the public schools, post-secondary institutions, and in the community.

Students desiring to pursue a degree in interpreting must:

- have adequate visual and auditory abilities necessary to interpret in a variety of settings.
- have time available in their schedules for the purpose of interacting with the Deaf Community and completing their observation, community service, and interpreting hours.
- be physically capable of completing all movements that occur in the production of American Sign Language that is conveyed via hands, mouth, morphemes, eyebrows, torso, eyes, and facial expressions.
- have reliable transportation to and from practicum and/or observation sites.

Upon completion of this program, students will be able to:

- Demonstrate a basic level of proficiency in interpreting consecutively and/or simultaneously from the source language to the target language via American Sign Language or various forms of English.
- Incorporate various interpreting and facilitation techniques with regard to the setting and the age, gender, ethnicity, and special needs of the clients involved.
- Articulate the roles and responsibilities of the interpreter/transliterator as well as the Code of Ethics, health issues, certification process, and best practices established by the profession.
- Discuss the audiological, social, emotional, linguistic, cultural and academic implications for individuals who are Deaf or hard of hearing and their impact on the interpreting process.
- Utilize the broad spectrum of information learned through various liberal arts, communication, and educational courses to enhance their ability to interpret general discourse within several fields.
- Assess their interpreting/transliterating performance and develop a plan for continued professional growth.

**K-12 Deaf and Hard of Hearing Teacher Licensure Concentration**

The K–12 Deaf and Hard of Hearing Teacher Licensure program provides preparation at the undergraduate level for students planning to provide educational services for children who are D/deaf or hard of hearing from kindergarten through grade 12 and for school-aged learners with mild to moderate disabilities (specific learning disabilities, emotional disabilities, and mild intellectual disabilities). Students successfully completing all program requirements will be recommended for initial licensure from the North Carolina Department of Public Instruction in K–12 Deaf and Hard of Hearing Teacher Licensure and in Special Education: General Curriculum (K–12). Coursework and field work are designed to ensure that graduates acquire the twenty-first-century professional teaching knowledge and skills to communicate with and facilitate language and academic learning in students with hearing loss and students with mild to moderate disabilities.

**Student Learning Goals**

Students completing the program are able to:

- Demonstrate understanding of current federal and North Carolina law and policy related to special education and related services.
- Explain the basic educational and clinical concepts relative to definitions, characteristics, identification, and diagnosis of students with hearing loss and students with mild to moderate disabilities.
- Demonstrate a comprehensive working knowledge of language through spoken and signed communication, and implement programs for infants, young children, and youth who are D/deaf or hard of hearing that successfully incorporate these understandings.
- Use a variety of assessments to develop educational plans, document learning, and evaluate the effectiveness of instruction with young children and youth who are D/deaf or hard of hearing and with students in K–12 settings who have mild to moderate disabilities.
- Facilitate access to the standard curriculum by young children and youth who are D/deaf or heard of hearing and by school aged learners with mild to moderate disabilities based on communicative, linguistic, social, and cognitive abilities of the learner.
- Work collaboratively with other school professionals, paraprofessionals, parents, and community and agency personnel to meet the needs of students with mild to moderate disabilities and/or those with hearing loss.

**Advocacy and Services for the Deaf Concentration**

**Admission Process**

There is no formal admission into the program. Upon enrollment in the university, students must meet with the advisor designated for their specific concentration to review forms outlining technical standards, dispositions, and program requirements. Students must then satisfy the progression requirements in order to continue in the program.

**Progression Requirements**

1. Satisfactory progress on Dispositions Review each semester
2. Continued demonstration of required competencies outlined in the Technical Standards
3. Passing scores on the Professions in Deafness program benchmark assessments. If the student does not pass any of the benchmark assessments, they will not be permitted to continue in the program.
4. Achievement of a B- or higher in SES courses
5. Achievement of the following minimum GPA Requirements:
   a. Freshman year—1.75
   b. Sophomore year—2.0
   c. Junior and Senior year—2.50

**Interpreter Preparation Concentration**

**Admission Process**

   b. Sophomore year—2.0
   c. Junior and Senior year—2.50

**K–12 Deaf and Hard of Hearing Teacher Licensure Concentration**

**Program Admission Requirements**
1. Documentation of an overall 3.0 or better GPA and 20 hours of documented successful experience with children
2. A passing score on the PEPSI (Program Entry Potential Signing and Interpreting) and SPIL (Sign Potential at the Intermediate Level)
3. Signed and completed forms outlining Technical Standards, Dispositions, and Program Requirements
4. Grade of B- or better in a specified course
5. Completed application form and successful acceptance into the Teacher Education Program
6. A passing score on Praxis I or documented passing scores on the SAT and/or ACT as required by the NC Department of Public Instruction

* Specified Course SES 250.

**Progression Requirements**
1. Grades
   Maintain an overall GPA 3.0 or better throughout the program and receive at least a B- or better grade in all SES and related area courses. A student will be required to retake any SES or related area course if he or she earns a grade lower than B- in the course.
2. Admission
   Students must be admitted to Teacher Education before enrolling in the courses listed below.

**Fieldwork and Student Teaching Internship**
Students complete three field experiences prior to student teaching. Before being placed at a school site for student teaching, a student must earn a passing score on the American Sign Language Proficiency Interview (ASLPI). Students must have reliable transportation to and from practicum and/or internship sites.

**Sign Proficiency Requirement**
Students progress in developing receptive and expressive American Sign Language (ASL) throughout their course work. Prior to being placed for student teaching, students must earn a passing score on the American Sign Language Proficiency Interview (ASLPI).

**Competency Assessment (PEPSI)**
The Program Entry Potential for Signing and Interpreting (PEPSI) is delivered during the course listed below.

**Program Completion Requirements**
Students must be admitted to the Teacher Education program at least one semester before being admitted to Student Teaching. Practicum and student teaching internship experiences take place within the Piedmont area in public and private school programs.

Students will be required to take and attain passing scores on standardized tests required by the NC Department of Public Instruction before being recommended for licensure.
Students will be required to complete an electronic teaching portfolio of successfully completed required artifacts before being recommended for licensure.

Transfer students may require additional semesters to complete the undergraduate degree program.

**Overall Requirements**
- 120 credit hours, to include at least 36 credits at or above the 300 course level

disabilities, behavior and/or emotional disabilities, and educable mental disabilities. Students enrolling in this program learn about trends and issues in the field of special education, characteristics and needs of students with mild to moderate disabilities, specialized teaching methods for working with these students, strategies for collaboration with parents and/or families and colleagues, positive means for providing behavior support, and technology applications that support students’ education.

In addition to courses in the major area, students elect a second academic concentration (e.g., psychology, sociology, interdepartmental studies). Field experiences and student teaching take place at local public and private schools with students who have mild to moderate disabilities. Students completing this program and its requirements are eligible for licensure by the North Carolina Department of Public Instruction in special education: general curriculum (K-12).

Transfer students may require additional semesters to complete this undergraduate degree program.

Also see Teacher Education and Higher Education for Teacher Education admission requirements and second academic concentration requirements.

**Student Learning Goals**

Students completing the teacher preparation program in Special Education: General Curriculum are able to:

- Demonstrate understanding of current federal and North Carolina law and policy related to special education and related services.
- Explain the basic educational and clinical concepts relative to definition, characteristics, identification, and diagnosis of students with mild to moderate disabilities.
- Create or revise program models for effective special education service delivery, including transition, based on a system of care philosophy and issues related to competent professional role management.
- Use exemplary diagnostic, instructional, and therapeutic approaches, including those based on technology applications, for effectively and positively meeting the academic and social and/or emotional needs of students with mild to moderate disabilities.
- Evaluate the effectiveness of students’ special education programs and services as well as overall program and service structures.
- Work collaboratively with other school professionals, paraprofessionals, parents, and community and agency personnel to meet the needs of students with mild to moderate disabilities.

**Overall Requirements**

- 120 credit hours, to include at least 36 credits at or above the 300 course level

**Special Education: General Curriculum, B.S.**

The Special Education Program provides opportunities for the study of school-age learners with mild to moderate disabilities (learning disabilities, behavior and/or emotional disabilities, and educable mental disabilities). Students enrolling in this program learn about trends and issues in the field of special education, characteristics and needs of students with mild to moderate disabilities, specialized teaching methods for working with these students, strategies for collaboration with parents and/or families and colleagues, positive means for providing behavior support, and technology applications that support students’ education.

In addition to courses in the major area, students elect a second academic concentration (e.g., psychology, sociology, interdepartmental studies). Field experiences and student teaching take place at local public and private schools with students who have mild to moderate disabilities. Students completing this program and its requirements are eligible for licensure by the North Carolina Department of Public Instruction in special education: general curriculum (K-12).

Transfer students may require additional semesters to complete this undergraduate degree program.

Also see Teacher Education and Higher Education for Teacher Education admission requirements and second academic concentration requirements.

**Student Learning Goals**

Students completing the teacher preparation program in Special Education: General Curriculum are able to:

- Demonstrate understanding of current federal and North Carolina law and policy related to special education and related services.
- Explain the basic educational and clinical concepts relative to definition, characteristics, identification, and diagnosis of students with mild to moderate disabilities.
- Create or revise program models for effective special education service delivery, including transition, based on a system of care philosophy and issues related to competent professional role management.
- Use exemplary diagnostic, instructional, and therapeutic approaches, including those based on technology applications, for effectively and positively meeting the academic and social and/or emotional needs of students with mild to moderate disabilities.
- Evaluate the effectiveness of students’ special education programs and services as well as overall program and service structures.
- Work collaboratively with other school professionals, paraprofessionals, parents, and community and agency personnel to meet the needs of students with mild to moderate disabilities.

**Overall Requirements**

- 120 credit hours, to include at least 36 credits at or above the 300 course level

* SES 240 not required for Dual Elementary Education and Special Education Concentration.

** Dual Elementary Education and Special Education Concentration Students, SES 250 or TED 250.

1 SES 352 not required for Dual Elementary Education and Special Education Concentration.

### Teacher Licensure Requirements

Students must have a 3.0 overall grade point average to be admitted to teacher education, and a 3.0 grade point average in all courses with an SES prefix in order to be admitted to student teaching. Students must earn a C or better in program course work. Students must also have a passing score on the Praxis I, as required by the North Carolina Department of Public Instruction, to be admitted to the Teacher Education Program. In addition to the General Education Core Requirements as identified above, students must complete the following courses:

### Second Academic Concentration Requirement*

All students majoring in Special Education: General Curriculum are required to complete an approved second academic concentration consisting of course work in an academic discipline.

The following 18 credits concentrations have been approved for Special Education: General Curriculum: Biology, Chemistry and Biochemistry, English, History, Interdisciplinary Science, Mathematics, and Physics and Astronomy.

The following 24 credit concentration has been approved for Special Education: General Curriculum: Spanish.

* Dual Elementary Education and Special Education Concentration is exempt from Second Academic Concentration requirement.

### Optional Concentration

The optional concentration as detailed following the major requirements may be added, but is not required.

- Dual Elementary Education and Special Education Concentration

### Electives

Electives sufficient to complete the 120 credits required for degree.

* Teacher Licensure Requirements
Students are admitted in Fall, Spring, and Summer semesters. Applicants must submit a resume and personal statement of goals, past experience, and unique skills. Applicants must submit all application materials required by The Graduate School by the appropriate deadline.

In addition to the application materials required by The Graduate School, applicants must submit two prerequisite courses (6 credits) before beginning the M.Ed. program. Throughout the course work, students have numerous opportunities to use cases and problem-based learning that include multiple service delivery models, interdisciplinary planning and service delivery, advanced skills for assessing learner needs, advanced skills for effective instruction, collaborative planning and intervention, and improved special education services. Each student's portfolio will be developed in consultation with an advisor and will be based on the student's particular educational and work experiences. The portfolio is designed during the initial semester, refined each semester, and included in the portfolio meet program objectives and demonstrate attainment of competencies required for advanced licensure. An oral presentation related to the reflective portfolio and essays also are required. If the portfolio and presentation do not meet departmental technical standards, one revision is allowed. Detailed instructions for completing the reflective essays are located on the SES website (www.uncg.edu/ses/).
Special Education, Ph.D.

The Ph.D. in Special Education is intended for students interested in special education, deaf education, or early intervention. The program requires a minimum of 69 credit hours beyond the master's degree, and it emphasizes four areas: generating knowledge to help shape the future of the field; sharing knowledge with others so that they can understand it and use it to improve their practice; facilitating strong professional relationships through collaboration; and creating, interpreting, and implementing special education policy and procedures. Students in the SES doctoral program are required to successfully complete all listed course work. Additional course requirements are determined on an individual basis and in consultation with the student’s major advisor and advisory/dissertation committee.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a resume and a personal statement of goals, past experience and unique skills. Applicants must have three years of related professional experience.

Total Credit Hours 69-81

1 May be repeated once.
2 Selected with advice and approval of the student's doctoral committee members.
3 Students are expected to work closely with the major advisor and advisory/dissertation committee members to identify a set of courses in a related area of interest that forms a specialization, including an internship. This course work may be in the areas of counseling, educational leadership, teacher education, early childhood, family studies, psychology, or others.
4 Each candidate for a doctoral degree must prepare and present a dissertation that focuses on some aspect of special education, that is, in one of the three areas noted above (early childhood, special education, deaf education). This product must demonstrate independent investigation and a synthesis of the skills learned in the program. The dissertation must be acceptable in form and content to the student's dissertation committee and The Graduate School.

Required Milestones*

- Residency (Immersion)
- Plan of Study
- First Year Review
- Research Competency
- Comprehensive Exam (Written & Oral)
- Dissertation Proposal
- Admission to Candidacy
- Dissertation Defense
- Filing the Final Approved Dissertation

* General information about milestones for doctoral programs is available in Section III (p. 807) of the Graduate Policies (p. 788) page in the University Catalog. For information about how milestones are accomplished for a specific program, please refer to the doctoral program’s handbook.

Alternative Initial Teacher Licensure, Post-Baccalaureate Alternative Initial Teacher Licensure (PAIL)

The Post-Baccalaureate Alternative Initial Teacher Licensure (PAIL) program is designed to provide the opportunity for initial teacher licensure in Special Education: General Curriculum to individuals who have an undergraduate degree in a field other than special education. In PAIL, students complete foundation courses in assessment in special education, instructional practices for students with mild to moderate disabilities, learning theory, and models of teaching. Specialty area courses in instructional practices for students with mild to moderate disabilities provide an introduction to the field, methods for teaching in the field, programming for the field, and clinical field experience. Throughout the course work, students have numerous opportunities...
to use cases and problem-based learning that include appropriate implementation of inclusive practices.

Students also have an option for transitioning from this program into the M.Ed. program in which they may be eligible for an advanced license in special education general curriculum. Course work from the plan of study for the Post-Baccalaureate Alternative Initial Teacher Licensure program in Special Education: General Curriculum may be applied to the M.Ed. in Special Education provided the student meets all admission requirements of The Graduate School and the Department of Specialized Education Services.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a resume and Personal Statement of goals, past experience and unique skills.

Students who wish to transition into the M.Ed. program must submit a new application for the M.Ed. to The Graduate School. It is the students’ responsibility to initiate the process and review it with their advisor. It is recommended that the student take the GRE within the first 6 credits of study to guarantee a timelier processing of their application package. Students must maintain a GPA of 3.0.

Laura Gonzalez, Graduate Program Director for the Higher Education Ph.D. Program

About
The Department of Teacher Education and Higher Education (TEHE) brings together outstanding faculty mentors with scholars from all levels of educational experience to pursue one common goal: to become leaders driven to make a difference in the lives of learners, who, in turn, are prepared to make their own positive difference in the world. Whether your professional goal is to be a leader in elementary schools, secondary schools or higher education, we are here to provide the best possible preparation and support.

From the undergraduate to master’s to doctoral level, our programs offer exceptional value and opportunity. As a result, dedicated students are empowered to create a path to their own success. Our graduates become teachers, improve their current teaching practice, work in colleges or universities as instructors or administrators, and work with preservice or inservice teachers in university teacher educator programs and school district offices — many earning positions even before earning their degrees.

The Higher Education Program
The M.Ed. program in Student Affairs Administration in Higher Education (SAAHE) is designed to prepare entry-level professionals to work in student affairs and student services at higher education institutions. The curriculum closely follows the ACPA/NASPA Professional Competencies as well as the CAS Standards for graduate professional preparation.

The Ph.D. in Educational Studies with a concentration in Higher Education requires 60 credit hours and is intended for experienced administrators and qualified scholars. Graduates pursue careers as scholar-practitioners in areas such as student affairs, community college leadership, and general higher education administration.

The Teacher Education Program
Our program offerings range from those who are brand new to teaching to those who wish to pursue an advanced degree in education. At the bachelor of science level we offer degrees in Elementary Education, Middle Grades Education, and Secondary (High School) Social Studies Education. Other content areas at the secondary level are offered through the College of Arts and Sciences. At the masters level, we offer two options, one for initial licensure (Master of Arts) and one for advanced licensure (Master of Education). Go https://soe.uncg.edu/academics/departments/tehe/tehe-programs/ to view the various concentrations for teaching in K-12 environments.

English, History, Mathematics. The following 24 credit second academic concentrations have been approved: French, Spanish.

Electives
Electives sufficient to complete the 120 credit hours required for the degree. Electives should increase students’ knowledge in general education and in a content field (such as psychology or multicultural education).

Disciplinary Honors in Elementary and Middle Grades Education
Requirements
- A minimum of 12 credit hours of Honors course work with grades of A or B as defined below.
- UNC Greensboro cumulative GPA of 3.30 or better or, for transfer students, cumulative GPA of 3.30 or better from all prior institutions.
- Maintain a “good standing” status in the Elementary and Middle Grades Education program, which means the student is not on a Professional Improvement Plan and is managing the extensive workload and internship.

Select 6-9 credits of Honors course work in the major 6-9
Select 0-3 credits of Honors course work in the major or another area 0-3

Recognition
Students who complete the requirements for the Disciplinary Honors Program receive a Certificate of Disciplinary Honors in Elementary and Middle Grades Education; have that accomplishment, along with the title of their Senior Honors Project, noted on their official transcript; and are recognized at a banquet held at the end of the academic year.

Honors Advisor
Contact Jennifer Mangrum at jrmangru@uncg.edu for further information and guidance about Honors in Elementary and Middle Grades Education. To apply: http://honorscollege.uncg.edu/forms/disc-application.pdf

Teaching English to Speakers of Other Languages (TESOL) as a Second Academic Concentration for Elementary Education Majors
The TESOL concentration is designed to prepare prospective elementary teachers for multilingual and multicultural classrooms.

There are two options available within the TESOL concentration:
- a focus on ESL certification (designed for any Elementary Education major), or
- a focus on dual-language certification (designed for Elementary Education majors with advanced foreign language proficiency).

Requirements
- 18 credit hours

Middle Grades Education, B.S.
Overall Requirements
- 120 credit hours, to include at least 36 credits at or above the 300 course level.
- Minimum grade of C required in all courses listed under Major Requirements.
- Minimum grade of C required in all courses listed under Concentration Requirements.

- Math with Grade 6–9 Teacher Licensure
- Science with Grade 6–9 Teacher Licensure
- Social Studies with Grade 6–9 Teacher Licensure

Electives
Electives sufficient to complete the 120 credits required for the degree. Electives should increase students’ knowledge in general education and in a content field (such as psychology or multicultural education).

#### Disciplinary Honors in Elementary and Middle Grades Education

**Requirements**

- A minimum of 12 credit hours of Honors course work with grades of A or B as defined below.
- UNC Greensboro cumulative GPA of 3.30 or better or, for transfer students, cumulative GPA of 3.30 or better from all prior institutions.
- Maintain a “good standing” status in the Elementary and Middle Grades Education program, which means the student is not on a Professional Improvement Plan and is managing the extensive workload and internship.

</tr>
</tbody>
</table>

**Recognition**

Students who complete the requirements for the Disciplinary Honors Program receive a Certificate of Disciplinary Honors in Elementary and Middle Grades Education; have that accomplishment, along with the title of their Senior Honors Project, noted on their official transcript; and are recognized at a banquet held at the end of the academic year.

**Honors Advisor**

Contact Jennifer Mangrum at jrmangru@uncg.edu for further information and guidance about Honors in Elementary and Middle Grades Education. To apply: http://honorscollege.uncg.edu/forms/disc-application.pdf

---

**School of Education Initial Licensure Programs**

**Office of Student Success**

142 School of Education Building
336-334-3410
https://soe.uncg.edu/home/licensureprograms/

**About**

Teacher licensure in North Carolina and qualification for licensure in most of the other states may be earned at four UNC Greensboro professional schools and various departments within the College of Arts and Sciences. Students may select licensure programs in a variety of subject areas.

The School of Education offers programs in Elementary Education, Middle Grades Education, Professions in Deafness, and Special Education; and jointly directs, with departments in the College of Arts and
Sciences, programs for teacher licensure in core academic subjects at the secondary level.

The School of Health and Human Sciences, the College of Visual and Performing Arts, and the College of Arts and Sciences, in collaboration with the School of Education, offer teacher education curricula.

Graduates of approved teacher education curricula are eligible for initial licensure on the basis of UNC Greensboro’s recommendation to the State Department of Public Instruction. As requirements may vary among departments, students should check with their major advisor for specific information regarding their program.

Important information for all education students at UNC Greensboro can be found in the Teacher Education Handbook.

Admission to Teacher Education

All students who wish to be recommended for teacher licensure in any of the subject areas must be admitted to a specific Teacher Education Program. Students should apply for admission to Teacher Education at the end of their sophomore year and be admitted no later than the first semester of their junior year.

The following requirements must be met:

1. Grade point average of at least 2.70 (some departments require a GPA higher than a 2.70 to be admitted to teacher education). To determine if students meet this standard, the grade point average (GPA) is calculated using all relevant undergraduate course work.
2. Recommendation of the school or department where major is to be taken
3. Achievement of minimum score requirements as set by the North Carolina Department of Public Instruction on the Professional Assessment for Beginning Teachers (Praxis Core, ACT, or SAT)
4. Completion of at least 12 credit hours at UNC Greensboro. The 12 credits shall be waived for any transfer student who meets all of the aforementioned requirements for admission to Teacher Education. The grade point average for transfer students will be the transferable GPA as computed by the Office of Undergraduate Admissions.
5. Background check requested through UNC Greensboro’s affiliated company as described in the Teacher Education Handbook.

For additional requirements specific to a program, students should check with their major school or department. Students should contact the Office of Student Success (located in the School of Education Building, 334-3410) for:

1. Clarification of admission requirements.
2. Appeal of the application of a rule or regulation.

More information on this topic can be found in the Teacher Education Handbook.

Admission to Student Teaching

During the junior year, students already admitted to the Teacher Education Program must apply for admission to Student Teaching.

Student Teaching admission includes:

1. Grade point average of at least 2.70 (some departments require a GPA higher than a 2.70 for student teaching).
2. Approval of the school or department in which the student is majoring.
3. Completion of additional requirements specific to the major department or school teacher education program.

Application forms are available online from the School of Education Licensure Programs website. Forms must be submitted by November 1 for student teaching in the fall of the following year, and by February 15 for student teaching in the spring of the following year.

Student teaching assignments are usually made in schools within commuting distance of UNC Greensboro. Teacher education students are individually responsible for expenses incurred during student teaching, including transportation.

Student teaching in some subject areas is offered only in either the fall or the spring semester. Any student who plans to student teach should check with his or her major program about when student teaching will be offered in a particular subject area.

More information on this topic can be found in the Teacher Education Handbook.

General and Professional Education Requirements

Requirements for teacher licensure are specified in the respective program descriptions. Candidates should know program specific requirements. This information is available on the department websites, handbooks of their licensure programs, and/or in the University Catalog. Students should also speak with their advisors about admission requirements as all licensure programs rely heavily on early and adequate advising.

Second Academic Concentration Requirement

All students majoring in Elementary, Middle Grades, and Physical Education are required to complete an approved second academic concentration consisting of a minimum of 18 credit hours in a basic academic discipline or an approved interdisciplinary field of study. Depending on the academic discipline selected, a maximum of 6 credit hours may be counted toward General Education requirements and the second concentration. This requirement became effective for all students who entered the university in Fall 2005. Students should check with the major school and/or department about this requirement or additional requirements specific to individual programs.

Teacher Licensure in Comprehensive Secondary Social Studies

Students majoring in anthropology, geography, history, political science, psychology, or sociology, can seek teacher licensure in comprehensive secondary social studies. Students seeking social studies licensure must take a total of 18 credit hours in history and economics beyond their major requirements from the departments of anthropology, political science, psychology, and sociology. Because history majors need to achieve breadth in social science content and methods, history majors must complete an additional 15 hours of social science electives. Courses must be selected from the following approved list. This list is also available from the School of Education Office of Student Success (School of Education Building), the student’s major advisor, or the social studies advisor in the School of Education. Substitution of any
requirements needed for licensure may be made by the social studies advisor in the School of Education.

**Application for Teacher Licensure**
An application for licensure should be filed with the Office of Student Success within two weeks of graduation. Students should be aware that the licensure process will take six weeks or longer after graduation to be completed.

UNC Greensboro recommends for a teacher’s licensure those students who have completed the appropriate teacher education curriculum, attained acceptable competencies, submitted the appropriate state board licensure exams, and whose work has been approved by the appropriate department. Meeting these guidelines will move students forward to attain licensure in the State of North Carolina.

**Teacher Education Curricula**
Programs in teacher education are offered at UNC Greensboro in the four broad areas listed below. Their description is found under the school and/or department listed beside each program. Requirements for teacher licensure are specified in the program descriptions under each respective department.

### Birth—12 Licensure
Professions in Deafness—Specialized Education Services

### Birth—Kindergarten, Elementary, and Middle Grades Licensure
Birth through Kindergarten (B–K)—Human Development and Family Studies
Elementary Education (Grades K–6)—Teacher Education and Higher Education
Middle Grades Education (Grades 6–9)—Teacher Education and Higher Education

### K–12 Special Subject-Area Licensure
Art Education—Art
Music—Music Education
Physical Education and Health Teacher Education—Kinesiology
Professions in Deafness—Specialized Education Services
School Social Work—Social Work
Second Language in French and Spanish—Languages, Literatures, and Cultures
Special Education—Specialized Education Services
Theatre Education—Theatre

### Secondary Subject-Area Licensure (Grades 9–12)
Comprehensive Science—Biology
Comprehensive Science—Chemistry and Biochemistry
English—English
Mathematics—Mathematics and Statistics
Comprehensive Science—Physics and Astronomy
Comprehensive Social Studies—Teacher Education and Higher Education

### Master of Arts in Teaching, M.A.T.
The Master of Arts in Teaching offers eight concentrations—Elementary Education, Middle Grades Education, Secondary English Education, Secondary Mathematics Education, Secondary Science Education, Secondary Social Studies Education, Special Education, and Teaching English to Speakers of Other Languages (TESOL)—that culminate with the development of an Initial Competencies Portfolio, providing eligibility for candidates to apply for “A” licensure from the North Carolina Department of Public Instruction.

The Master of Arts in Teaching is designed for candidates who have a bachelor’s degree but did not pursue teacher education or licensure as an undergraduate. All concentrations in this track will also have prerequisite or corequisite courses, which are required for teaching licensure in North Carolina. The prerequisite or corequisite courses must be completed before a candidate can be recommended for licensure. A list of prerequisite or corequisite courses is available on the Teacher Education and Higher Education website at http://soe.uncg.edu/academics/departments/tehe/tehe-programs/ or the School of Education’s list of majors and degrees (http://soe.uncg.edu/academics/majors-and-degrees/).

The Department of Languages, Literatures, and Cultures offers a Master of Arts in Teaching with a concentration in French Education or Spanish Education.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

Total Credit Hours: 33
Student Affairs Administration in Higher Education, M.Ed.

The M.Ed. in Student Affairs Administration in Higher Education prepares graduates to implement transformative and integrated learning experiences in college, university, and other postsecondary settings. In preparation for careers in college student affairs administration, graduate learners complete a minimum of 42 credit hours in foundation studies, professional studies, assessment and research, and a coherent sequence of supporting courses as well as an internship in college student affairs administration. Graduates may select supporting courses for an emphasis in student affairs.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a personal statement and resume. GRE score submission is optional.

Capstone Experience

In lieu of a thesis or comprehensive examinations, students will complete an academic portfolio of their work accomplished during the program as submission for their capstone experience.
Teacher Education, M.Ed.

The M.Ed. in Teacher Education offers 10 concentrations, including seven concentrations that culminate with the development of an Advanced Competencies Portfolio, providing eligibility for candidates to apply for “M” licensure from the North Carolina Department of Public Instruction or preparation for advanced graduate study in educational research or policy. All concentrations and tracks require 33-36 credit hours for the master's degree.

The program is designed for candidates who already hold the Standard Professional I license or initial license to teach and wish to pursue more advanced study in a field of education.

Field experiences (school-based activities) are required across the curriculum of the M.Ed. programs.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a personal statement and resume.

Teacher Education and Development Concentration

The Ph.D. in Educational Studies with a concentration in Teacher Education and Development requires a minimum of 60 credit hours.

Higher Education Concentration

The Ph.D. in Educational Studies with a concentration in Higher Education requires 60 credit hours and is intended for experienced higher education administrators, student affairs professionals, and qualified scholars. Students develop the skills, knowledge, and attitudes necessary for investigating, understanding, and shaping the dynamic relations among students, institutions of higher education, and society. Graduates pursue careers as scholar-practitioners in student affairs and higher education or as faculty or adjunct instructors.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncc.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a:

- Personal Statement
- Resume

Degree Program Requirements

Required: 60 credit hours

Teacher Education and Development Concentration

Required: 60-72 credit hours

All students must meet the requirements described below. Additional course requirements are determined on an individual basis through planning by the student and their doctoral advisory/dissertation committee.

60-72
Concentration Course Requirements
The concentration should complement the student’s interests and, therefore, is individually designed. In consultation with the advisor, students will select a coherent set of concentration courses focusing on specific problems of theory, policy, or practice in higher education and are appropriate for the student’s professional goals and interests.

**Required Milestones***

- Residency (Immersion)
- Research Competency
- Plan of Study
- Comprehensive Exam (Written & Oral)
- Dissertation Proposal
- Admission to Candidacy
- Dissertation Defense
- Filing the Final Approved Dissertation

* General information about milestones for doctoral programs is available in Section III (p. 807) of the Graduate Policies (p. 788) page in the University Catalog. For information about how milestones are accomplished for a specific program, please refer to the doctoral program’s handbook.

Design and Making in Education, Post-Baccalaureate Certificate
The Design and Making in Education Post-Baccalaureate Certificate focuses on Making/Makerspaces across formal and informal learning contexts. Students learn a suite of Making practices, informed by theoretical lenses grounded in equity and strength-based approaches.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

Certificate Program Requirements

Teaching English to Speakers of Other Languages, Post-Baccalaureate Certificate
The Post-Baccalaureate Certificate in Teaching English to Speakers of Other Languages requires 18 credit hours and is intended for those with a bachelor’s degree in any field and documented evidence of having studied a foreign language. The curriculum is designed to develop the knowledge, skills, and dispositions of those who are currently teaching or desire to teach language-minority adults and children to understand, speak, read, and write English in a variety of community, educational, and business settings.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a personal statement and resume.

Add-On Licensure in Reading
Required: 18 credit hours

The add-on program in reading is designed for professionals who have already completed a master's program in education or who are currently enrolled in a master's program and would like additional licensure as a reading specialist. The program requires 18 credits of course work. Some of these credits may be completed as part of another master's program such as those offered by the Department of Teacher Education and Higher Education or the Department of Specialized Education Services.

NC TEACH Alternative Licensure Program

North Carolina Teachers of Excellence for All Children (NC TEACH) is designed to recruit, train, support, and retain mid-career professionals as they become licensed teachers in North Carolina. The program is designed to offer residency license teachers the opportunity to earn an initial standard professional I license to teach in North Carolina. The Collaborative for Educator Preparation (CEP) administers the NC TEACH Alternative Licensure Program in the following areas:

- Elementary Education (K-6)
- Middle Grades (6-9) Language Arts, Math, Science, and Social Studies
- Secondary (9-12) English, Latin, Math, Science, and Social Studies
- K-12 English as a Second Language (ESL)
- K-12 Foreign Language (French or Spanish)

Students in the program enroll in a sequence of education courses and engage in field-based experiences as residency license teachers in local public school systems. Students may be required to take additional course work in their teaching area for licensure. For most of these teaching areas, students may apply up to 18 credits of NC TEACH course work toward a master's degree program provided they apply and are accepted.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

Alternative Licensure Requirements
Required: 18 or 24 credit hours

Content Courses
Students must have at least 24 credits in their teaching areas or passing scores on the PRAXIS II teaching examinations. After a review of transcripts, students may also be required to complete additional course work to meet teaching standards.

Elementary Education (K-6) Licensure Area
Required: 24 credit hours

### SOE Global Pathway Program

The School of Education Global Pathway Program is designed for international graduate students with conditional admission to various UNC Greensboro graduate programs. The program prepares students to build upon their prior knowledge to develop academic English language proficiency to be prepared for graduate studies; enhance intercultural competency through interpersonal, interpretive and presentational communication in both oral and written formats; and use campus resources and technology tools to interact and collaborate in the local and global academic communities.

www.uncg.edu/hhs (http://www.uncg.edu/hhs/)

Carl Mattacola, Dean of School
Kathleen Williams, Senior Associate Dean (through June 30, 2021)
Joi W. Bulls, Associate Dean for Undergraduate Affairs (beginning July 1, 2021)
David H. Demo, Associate Dean for Academic Administration (through July 31, 2021)
Scott E. Ross, Associate Dean for Academic Affairs (beginning August 1, 2021)
Esther M. Leerkes, Associate Dean for Research
Charles C. Dent, Assistant Dean of Operations and Administration
Lisa Walker, Assistant Dean for Research Operations
Larissa Witmer, Assistant Dean for Projects and Programs

About

In the School of Health and Human Sciences, academic programs are offered through the Department of Communication Sciences and Disorders, the Department of Community and Therapeutic Recreation, the Department of Human Development and Family Studies, the Department of Kinesiology, the Department of Nutrition, the Department of Peace and Conflict Studies, the Department of Public Health Education, and the Department of Social Work, including a program in Gerontology. There is also a graduate program in Genetic Counseling. Each department and program offers varied courses for all university students and programs of study leading to undergraduate and graduate majors and minors in their respective areas. The school's programs are designed to meet specialized interests of students and also the requirements of state and national accrediting agencies and professional associations.

The Department of Communication Sciences and Disorders provides opportunities for the study of normal speech, language, and hearing as well as the study of associated disorders, leading to the bachelor of science degree in Speech Pathology and Audiology. The courses offered in this program are pre-professional and prepare the student for further study at the graduate level. Faculty and students in Communication Sciences and Disorders provide services to clients in the University Speech and Hearing Center, and engage in cooperative work with area schools, hospitals, and other human service agencies. In addition, a Master of Arts degree is offered, preparing clinicians to serve children, youth, and adults with communication disorders. There is also a Ph.D. degree offering advanced study in teaching and research.

In the Department of Community and Therapeutic Recreation, a student majoring in Recreation and Parks Management may choose from two areas of concentration: Therapeutic Recreation or Community Recreation and Event Planning. These concentrations lead to the bachelor of science degree. A Community and Therapeutic Recreation minor and a master of science (M.S.) degree are also available. The undergraduate program has been fully accredited by the Council on Accreditation of Parks, Recreation, Tourism and Related Professions (COAPRT) since 1981.

The Program in Genetic Counseling offers an interdisciplinary master of science degree. The program is accredited by the Accreditation Council for Genetic Counseling (ACGC). Applicants admitted to the program are expected to enroll as full-time students, registering for the required courses for each of the four semesters of the program and for intervening summer sessions.

Programs in the Department of Human Development and Family Studies focus on early care and education, child and adolescent development, and family studies. At the undergraduate level, students prepare for entry level positions in early childhood settings and agencies, Birth through Kindergarten classroom licensure, community agencies serving children, adolescents and their families; and family-related careers in family, government, and community service agencies. Master's and doctoral programs provide opportunities for research and advanced study in these areas.

The Department of Kinesiology offers the major in Kinesiology leading to the bachelor of science degree. Students may select concentrations in Kinesiology and Physical Education and Health Teacher Education (licensure track). The department also offers minors in Sport Coaching and Community Youth and Sport Development. Kinesiology prepares students for careers in preventive and rehabilitative exercise and fitness, and may be tailored to meet the needs and interests of students planning graduate study in athletic training, medicine, occupational therapy, or physical therapy. This department also offers graduate studies leading to the master's degree and doctoral degrees (Ph.D. and online Ed.D.).

The Department of Nutrition offers undergraduate studies with majors in Human Nutrition and Dietetics, Nutrition and Wellness, and Nutrition Science and graduate programs for the master's degree, doctoral degree, and a post-baccalaureate dietetic internship certificate. The undergraduate Nutrition and Dietetics concentration (also known as the Didactic Program in Dietetics) and the Dietetic Internship program are accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND).

The Department of Peace and Conflict Studies offers a Bachelor of Arts, a Master of Arts, and a Post-Baccalaureate Certificate. Peace and Conflict Studies is an area of interdisciplinary study focusing on conflict management and resolution. Students receive professional preparation including strategies for building peaceful and just social systems, communities, and societies.

The Department of Public Health Education offers the Public Health major, leading to the bachelor of science degree. Within the Public Health major, students may select a concentration in Community Health Education or Health Studies (online only). The Community Health Education concentration is a professional program preparing graduates to become Health Educators. The requirements of the Community Health Education concentration meet the professional standards of the field of Health Education allowing graduating students to sit for the Certified Health Education Specialist (CHES) national credentialing exam. An online Health Studies concentration is available for those looking for a pre-professional or non-professional degree option. A Health Studies minor is also available. The department also offers graduate studies leading to a master of public health (M.P.H.) degree and the doctor of philosophy (Ph.D.) degree in community health education. Post-Baccalaureate Certificates (P.B.C.) in Health and Wellness Coaching and in Workplace Wellness are available. As a complement to the academic enterprise of the department, faculty, and students within Public Health Education are also actively involved in local and national research and outreach.

The Department of Social Work prepares undergraduate students for entry level generalist social work positions in public and private social
service agencies, health care organizations, courts, and school systems. The master of social work degree, offered in collaboration with North Carolina Agricultural and Technical State University, is the only joint program of its kind in the nation. The B.S.W. and J.M.S.W. programs are both accredited by the Council on Social Work Education. A joint Ph.D. degree program began in Fall 2019. The M.S.W. and Ph.D. are joint programs with North Carolina A&T.

The Program in Gerontology is housed in the Department of Social Work and offers an undergraduate minor in gerontology, a post-baccalaureate certificate in gerontology, and an online master of science in gerontology. Courses fulfilling the certificate program may be used to meet requirements in a degree program in accordance with the policies of the Graduate School.

About

The Department of Communication Sciences and Disorders (CSD) offers two graduate programs of study: a two-year Masters degree program in Speech Language Pathology and a Ph.D. program in CSD. An extension of the CSD Ph.D. program, entitled The Inter-Institutional Distance Education Agreement for Learning and Leadership in Communication Sciences and Disorders (IDEALL CSD) is available to part-time doctoral students living in the western region of North Carolina. IDEALL CSD is a distance educational agreement between UNC Greensboro and Western Carolina University (WCU). The UNC Greensboro Masters Degree Program in Speech-Language Pathology (SLP) is a nationally ranked program, accredited by the American Speech-Language-Hearing Association's Council on Academic Accreditation in Audiology and Speech-Language Pathology. Our undergraduate, pre-professional program prepares students with a background in speech, language, and hearing sciences, and in speech, language, and hearing disorders in anticipation of their continued studies at the graduate level.

- Speech Pathology and Audiology, B.S. (p. 635)
- Speech-Language Pathology, M.A. (p. 637)
- Communication Sciences and Disorders (IDEALL), Ph.D. (p. 638)
- Communication Sciences and Disorders, Ph.D. (p. 639)

Speech Pathology and Audiology, B.S.

The Speech Pathology and Audiology major provides a preprofessional program for those preparing for graduate study in speech-language pathology or audiology. The major is designed to satisfy some requirements for the N.C. license in speech-language pathology or audiology, although no license is awarded until completion of the master’s degree in speech language pathology and the Au.D. or Ph.D. in audiology. Instruction is designed to meet American Speech-Language-Hearing Association standards. Transfer students may require an additional semester to complete the undergraduate degree program. All undergraduates will register with the major code of SPAU, but will not be allowed to take CSD courses at the 300 level or above until formally accepted into the major.

Student Learning Goals

Students majoring in Speech Pathology and Audiology will be able to meet the standards detailed below.

- Identify the foundations of normal communication (speech, language, hearing).
- Explain the theories and processes involved in the identification and evaluation of communication disorders.
- Identify disorders of receptive and expressive written and oral language (phonology, morphology, syntax, semantics, and pragmatics).
- Identify disorders of speech production (articulation, voice, and fluency).
- Describe the cognitive and social aspects of communication.
- Relate issues of cultural diversity to communication and its disorders.
- Explain relationships of hearing and hearing disorders to speech and language development and disorders.
- Analyze and measure hearing function.
- Describe habilitation and rehabilitation of individuals with hearing impairment.

Admission Requirements

1. Students must be formally admitted to the Speech Pathology and Audiology Major. Only students with a written acceptance will be permitted to enroll in required courses at the 300 level or above.
2. Applicants for admission to the Speech Pathology and Audiology major may apply only after completion and/or transfer of 55 credit hours and must apply before enrollment in any required courses at
or above the 300 level in the major. Applicants must have an overall grade point average of at least 3.0 to apply to the major.

3. The grade point average is a minimum requirement and simple compliance does not automatically imply admission. In all cases, admission is competitive and limited by space available in the program.

4. Students seeking admission to the Speech Pathology and Audiology Major should proceed as detailed below.
   a. Secure an official transcript(s) of undergraduate course work completed at colleges and universities other than UNC Greensboro, and an unofficial transcript from UNC Greensboro; 
   b. Secure an application from the Communication Sciences and Disorders Program Office, 300 Ferguson Building, or online at http://csd.wp.uncg.edu/students/bs/; 
   c. Deliver both the transcripts and the completed application to the Program Office, 300 Ferguson Building, by May 15. 
   d. In some cases the Program may require additional information or an interview, so the application process should be initiated immediately after completion of 55 credits.

Criteria for Continuing in the Speech Pathology and Audiology Major

Failure to meet the following criteria will result in dismissal from the major and loss of approval to graduate.

1. Students must maintain a 3.0 GPA overall.
2. Students must maintain a 3.0 GPA in all CSD major courses (300 level and above).
3. Students who earn a grade of C- to D will be automatically placed on probation and required to replace the grade at UNC Greensboro. Student will remain on probation until grade is replaced with a satisfactory grade of a C or better.
4. Student will be dismissed if:
   a. They earn more than 1 C- or below in a major course and/or 
   b. They earn a grade of D- or below in a major course.
5. Students can only replace 1 grade in a major course at UNCG.
6. Students cannot replace a CSD course grade with a CSD course from another institution.
7. Failure to comply with all university regulations, including the Academic Integrity Policy, will result in dismissal from the major.

Overall Requirements

- 120 credit hours, to include at least 36 credits at or above the 300 course level

References

Receive a Certificate of Disciplinary Honors in Communication Sciences and Disorders; have that accomplishment, along with the title of the Senior Honors Project, noted on the official transcript; and be recognized at a banquet held at the end of the spring semester.

Honors Advisor

Contact Kristine Lundgren at k_lundgr@uncg.edu for further information and guidance about Honors in Communication Sciences and Disorders. To apply: http://honorscollege.uncg.edu/forms/disc-application.pdf

Speech-Language Pathology, M.A.

The M.A. in Speech-Language Pathology is accredited by the Council of Academic Accreditation of the American Speech-Language-Hearing Association (ASHA) and provides academic and clinical instruction sufficient for the Certificate of Clinical Competence (CCC) in speech-language pathology awarded by ASHA and licensure in the state of North Carolina.

The program requires 66 credit hours (34 credits in academic course work and 32 credits in clinical course work, excluding clinical practicum credits earned) and provides a lifespan approach for advanced study of language, speech, swallowing, non-speech communication systems, and hearing in persons of all ages. The UNC Greensboro Speech and Hearing Center, the hearing and speech laboratories, and a variety of human service agencies provide ample practical and research experiences.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a written personal statement, not to exceed two double-spaced typed pages, focusing on the applicant's unique qualifications and interests in the field of speech-language pathology and the master's program at UNC Greensboro.

Students are admitted for full-time study only. Permission for exceptions must be approved by faculty. Typically, students are enrolled full-time for two consecutive academic years including one summer session.

Students without an undergraduate degree in communication sciences and disorders should expect to spend approximately one year taking preprofessional courses (see the undergraduate CSD major in the catalog) required for graduate course work and should consult with advisors in this program for course selection that will meet degree, certification, and licensure requirements.

Upon admission, students will be assigned an academic advisor, who will provide information regarding academic and clinical aspects of the program.

Total Credit Hours 66
IDEALL CSD is a UNC Greensboro degree. Students apply to IDEALL CSD through the UNC Greensboro Graduate School and graduate with a UNC Greensboro graduate doctoral degree.

The IDEALL CSD Ph.D. program requires students to obtain 66 credit hours with 27 credits completed through WCU and 39 credits completed through UNC Greensboro. Students who enter with a master's degree are required to earn 54 credits of course work and 12 credits minimum of dissertation. IDEALL CSD doctoral students will follow the exact course requirements that on-campus UNC Greensboro CSD Ph.D. students are required to take. WCU courses will be delivered in a face-to-face format while UNC Greensboro courses will be delivered via distance/hybrid/face-to-face technologies. A listing of those core areas is found below.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

Prospective students will apply to the IDEALL CSD Ph.D. program through The Graduate School at UNC Greensboro. Admission procedures will follow those described in the UNC Greensboro University Catalog and practiced by the doctoral program in Communication Sciences and Disorders.

Applications to the IDEALL CSD Ph.D. Program are completed online through the UNC Greensboro Graduate School website. The following materials are required for an applicant to be considered for admission to the UNC Greensboro CSD Ph.D. Program:

- University Transcripts
- GRE scores; TOFL scores for international students
- GPA minimum of 3.0
- Current vita
- Sample of writing
- Three letters of recommendation
- Interview with the CSD Director of Graduate Study for Doctoral Education and a potential faculty sponsor in the applicant's research area of expertise

Deadline for application is February 1.

A WCU faculty representative will sit on the program admissions committee for IDEALL CSD applicants, WCU will allow visiting IDEALL CSD students to enroll in courses pertaining to their studies. UNC Greensboro will remain the students' home institution.

**Degree Program Requirements**

**Required:** 66 credit hours

**Plan of Study and Individual Program Planning Committee (IPPC)**

Each doctoral student will have an IPPC assigned by the UNC Greensboro CSD Department Chair. Admitted students will work with their CSD faculty mentor in designing the student’s Plan of Study; the IPPC helps evaluate the student’s needs and assists in developing the Plan of Study.

IDEALL CSD students will have a UNC Greensboro faculty sponsor as chair of their IPPC, in charge of directing the dissertation and the submission of all UNC Greensboro Graduate School forms. The UNC Greensboro CSD Department will submit names of WCU faculty with Ph.D.
adjunct appointments with UNC Greensboro, and the UNC Greensboro Adjunct WCU faculty can serve on an IDEALL CSD’s student committee.

The student must pass each of the reviews and examinations listed below.

1. CSD courses include CSD 760 Advanced Seminar in Communication Sciences and Disorders, CSD 780 Independent Study, and CSD 790 Directed Research.

2. IDEALL CSD doctoral students select a related minor area theme and take courses from one or more disciplines around that theme. Thus, not all the minor area courses will be taken in the same department. The Intersecting Disciplines are individualized for each doctoral student and will be the same requirement for WCU IDEALL CSD students. Many of our UNC Greensboro CSD students have selected courses from the Psychology, Gerontology, and Special Education Departments for their Intersecting Disciplines topic area. With the approval of the IPPC, select at least 12 credits of course work in a related discipline that is centered around a theme rather than a single area of study (i.e. aging, neuroscience, leadership, clinical supervision, etc.). The IPPC helps evaluate the student’s needs and assists in developing the Plan of Study.

3. Students may select tools courses from CSD courses or interdisciplinary doctoral courses taught by the UNC Greensboro School of Health and Human Sciences. The UNC Greensboro CSD department and the UNC Greensboro School of Health and Human Sciences will offer hands-on practicum courses in the areas of teaching, grant writing, clinical supervision, and academic administration.

4. IDEALL CSD students may take a fifth statistics course and earn a minor in statistics. 12 credits of statistics courses at WCU. These courses will then be transferred to UNC Greensboro. This requirement follows the UNC Greensboro CSD Ph.D. program requirement of 12 credits of statistics courses. The CSD Department does not have a specific statistics course sequence that all students must follow. Most of our Ph.D. students take their statistics courses through the UNC Greensboro Educational Research Methodology department.

5. Students will take three terms of CSD 751 to fulfill this requirement.

Reviews and Examinations

Qualifying Exams: The IPPC will prescribe the areas and elements of the exams. The exams will take place after at least three-quarters of the course work in the Plan of Study is completed and will follow the policies and guidelines as outlined in the UNC Greensboro Graduate School policies.

Dissertation: Dissertation Proposal Defense, Approval, and Advancement to Candidacy. Following completion of course work, qualifying exams, student will have an oral defense of their dissertation proposal (topic, literature review, and methods). Upon approval of their doctoral committee of their approval of dissertation proposal, the student may make application to The Graduate School for admission to candidacy for the doctoral degree.

Final Oral Examination: Doctoral candidates will successfully pass an oral examination of their independent dissertation study to members of their doctoral committee.

Communication Sciences and Disorders, Ph.D.

The Ph.D. in Communication Sciences and Disorders is designed for advanced study in communication sciences and disorders, intersecting disciplines, and development of research and teaching strategies. Students with backgrounds in speech language pathology, audiology, or other disciplines are encouraged to explore with the faculty the new frontiers in scientific discovery that link previous academic achievement and future study. Part-and-full-time study is available.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

Prospective students will apply to the CSD Ph.D. program through the Graduate School at UNC Greensboro. Admission procedures will follow those described in the UNC Greensboro University Catalog and practiced by the doctoral program in Communication Sciences and Disorders.

Applications to the CSD Ph.D. program are completed online through the UNC Greensboro Graduate School website. The following materials are required for an applicant to be considered for admission to the UNC Greensboro CSD Ph.D. program:

- University Transcripts
- GRE scores; TOFL scores for international students
- GPA min of 3.0

Stuart J. Schleien, Department Chair and Graduate Program Director, Therapeutic Recreation
Kimberly Miller, Director of Undergraduate Studies
Ben Hickerson, Graduate Program Director, Community Recreation Management

About
The Department of Community and Therapeutic Recreation is committed to offering an academically challenging program of undergraduate education coupled with a solid foundation of a liberal arts education. The program has been accredited by the NRPA/Council on Accreditation of Parks, Recreation, Tourism and Related Professions (COAPRT) since 1981.

Mission
The Department of Community and Therapeutic Recreation prepares recreation, park, and leisure services professionals to enhance health, wellness, and quality of life among individuals and communities through excellence in teaching, research, and community engagement.

Vision Statement
The Department of Community and Therapeutic Recreation aims to shape individuals and communities to be healthy, active, inclusive, and empowered through recreation and parks.

Values
The Department of Community and Therapeutic Recreation is guided by the execution of its mission and vision by the following fundamental values. We value:

• Recreation as a basic human need and right of all people;
• Enhanced health, wellness, and quality-of-life for individuals and communities;
• Human growth and development through opportunities for self-expression, creativity, and self-determination;
• Protection and equitable access to parks, open space, and other natural resources; and
• Inclusive communities.

Recreation and Parks Management, B.S.
The Recreation and Parks Management major prepares students to pursue careers in community recreation and event planning and therapeutic recreation, and prepares students to pursue graduate study at the master's level.

Overall Requirements

• 120 credit hours to include at least 36 credits at or above the 300 course level
• Both field experiences are typically offered only during the summer sessions and should not be taken during the same summer; students should plan accordingly.

</tbody>
</table>

Recognition

Receive a Certificate of Disciplinary Honors in Community and Therapeutic Recreation; have that accomplishment, along with the title of the Senior Honors Project, noted on the official transcript; and be recognized at a banquet held at the end of the spring semester.

Honors Advisor

Contact Stuart Shleien at sjschlei@uncg.edu for further information and guidance about Honors in Community and Therapeutic Recreation. To apply: [http://honorscollege.uncg.edu/forms/disc-application.pdf](http://honorscollege.uncg.edu/forms/disc-application.pdf)

Accelerated B.S. in Recreation and Parks Management to M.S. in Parks and Recreation Management

Application and Admission

Qualified UNC Greensboro undergraduate students who are pursuing the B.S. in Recreation and Parks Management may apply for admission to the Accelerated Master’s Program (AMP). A cumulative undergraduate GPA of at least 3.5 based on at least 30 credits earned at UNC Greensboro is required. Applicants must have completed at least 60 college-level credits and may not apply for admission to the AMP before the first semester of the junior year. Applicants will not be required to take an entrance exam. All applicants must complete the Accelerated Master’s Program information when applying for admission to the graduate degree program.

Courses

Admitted students may apply a maximum of 12 credits of graduate-level course work (each course carries 3 credits) from the following course list toward completion of both the undergraduate and graduate degree, provided that they earn a grade of B (3.0) or better in each course and fulfill graduate-level requirements:

All additional degree requirements for the M.S. in Parks and Recreation Management remain the same.

Community and Therapeutic Recreation Undergraduate Minor

This minor complements a number of majors, including Biology, Business Administration, Communication Studies, Counseling and Educational Development, Geography, History, Hospitality and Tourism Management, Human Development and Family Studies, Kinesiology, Political Science, Psychology, Public Health, and Social Work. Sixteen credit hours are required.

Students interested in a minor in Community and Therapeutic Recreation can declare their minor with the University Registrar’s Office, but should also contact the Department of Community and Therapeutic Recreation to speak with an advisor.

Program Requirements

- Minimum of 16 credit hours

The M.S. in Parks and Recreation Management requires 36 credit hours. Students may choose one of the following two concentrations: Community Recreation Management or Therapeutic Recreation. The student, after discussing career goals with his/her advisor, may choose either the thesis or non-thesis option. If the student selects the non-thesis option, the advisor will determine (based on amount of professional experience) whether the student completes a project, an internship, or a combination of a project and an internship. For example, a student choosing the non-thesis option and having minimal professional experience will be required to complete an internship. Students must meet with their advisor or the Director of Graduate Study before registering for any course work.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a current resume and a professional statement including career goals. Interviews are encouraged for all applicants and required for graduate assistants.

Students in the Therapeutic Recreation concentration who do not have an undergraduate degree in therapeutic recreation will be required to take one of the following two courses at the undergraduate level:
CTR 231 Introduction to Therapeutic Recreation or CTR 235 Disabling Conditions and Therapeutic Recreation. Other support courses not taken at the undergraduate level may also need to be completed by Therapeutic Recreation students: Anatomy and Physiology, Lifespan Human Development, and Abnormal Psychology.

Total Credit Hours: 36-39

---

1. Required of all students.
2. For Therapeutic Recreation concentration students only.
3. Students in the Therapeutic Recreation concentration with the CTRS credential will complete 9 credits; students without the credential will complete 15 credits. See the concentration requirements for additional details.
After consultation and approval of their academic advisor, the student selects 6-9 credits of 500- to 700-level course work that constitutes a specialized knowledge base (line of study) relevant to the student's academic and professional interests and goals. Students in the Therapeutic Recreation concentration who do not hold the CTRS credential will not have a specialized line of study.

** Required only for students who do not hold the CTRS credential.

### Accelerated B.S. in Recreation and Parks Management to M.S. in Parks and Recreation Management

**Application and Admission**

Qualified UNC Greensboro undergraduate students who are pursuing the B.S. in Recreation and Parks Management may apply for admission to the Accelerated Master’s Program (AMP). A cumulative undergraduate GPA of at least 3.5 based on at least 30 credits earned at UNC Greensboro is required. Applicants must have completed at least 60 college-level credits and may not apply for admission to the AMP before the first semester of the junior year. Applicants will not be required to take an entrance exam. All applicants must complete the Accelerated Master’s Program information when applying for admission to the graduate degree program.

**Courses**

Admitted students may apply a maximum of 12 credits of graduate-level course work (each course carries 3 credits) from the following course list toward completion of both the undergraduate and graduate degree, provided that they earn a grade of B (3.0) or better in each course and fulfill graduate-level requirements:
Genetic Counseling

School of Health and Human Sciences

996 Spring Garden Street

www.uncg.edu/gen

Lauren Doyle, Program Director and Graduate Program Director

About

An interdisciplinary Master of Science in Genetic Counseling is offered through The School of Health and Human Sciences. The program is accredited by the Accreditation Council for Genetic Counseling (ACGC). Applicants admitted to the program are expected to enroll as full-time students, registering for the required courses for each of the four semesters of the program and the intervening summer sessions.

Academic Professional Associate Professor
Randi Leigh Culp Stewart

Academic Professional Assistant Professor
Rachel Mills

Lecturer
Sonja Eubanks Higgins

Graduate-level faculty

Genetic Counseling, M.S. (p. 646)

Genetic Counseling, M.S.

The M.S. in Genetic Counseling program is accredited by the Accreditation Council for Genetic Counseling (ACGC). The program is designed to prepare students with the knowledge and proficiencies necessary to practice as genetic counselors in a variety of settings including prenatal, pediatric, adult, and cancer genetics. Upon completion of the program, students are eligible to apply for certification by the American Board of Genetic Counseling (ABGC).

A total of 62-64 credit hours are required for the M.S. in Genetic Counseling. The program includes required and elective course work, laboratory experience and clinical internships. Students are also required to complete a research project as the culminating experience for the degree.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a personal essay, resume, and evidence of successful completion of at least one upper level undergraduate course each in general genetics and biochemistry and at least one undergraduate course in statistics. Applicants who are evaluated as meeting the standards for admission will be invited for a required personal interview with the admissions committee.

It is recommended that applicants have previous experience in a volunteer or paid position working in social service agencies or with crisis counseling organizations. It is also recommended that applicants have previous exposure to genetic counseling via shadowing or internship experiences.

Total Credit Hours 62-64

* Select a graduate level research course (1-3 credits) tailored to the student's capstone project or research interest with approval of the Program Director.

** Comprises the Capstone Experience.

**Elective Courses**

An elective relevant to the student's professional goals will be selected during the second semester of the program. Electives must be approved by the program director. With approval of the program director, students may select an additional (optional) elective in the fourth semester of the program.

**Clinical Internships**

The clinical rotations are an integral part of the program and serve to provide students with opportunities to increase their general clinical knowledge, gain experience with genetic counseling for a variety of indications, and develop the necessary skills and competencies required for the practice of genetic counseling. Under the supervision of on-site, board-certified genetic counselors, students will progress from observation to participation in various aspects of clinical genetic services. Evaluation/feedback of the student's activities and progress will be an ongoing component of the clinical rotations. At the end of each rotation, a formal written evaluation will be conducted by the Clinical Supervisor and reviewed with the student. Students will be required to keep an accurate logbook of clinical cases according to guidelines provided by the Accreditation Council for Genetic Counseling. Students will complete a summer clinical rotation (GEN 698 Summer Clinical Rotations) during Summer Session II of the program. Summer clinical rotations will be available at the following sites: Carolinas Healthcare System, Duke University Medical Center, Fullerton Genetics Clinic, Cone Health System, University of North Carolina at Chapel Hill, Wake Forest School of Medicine, and Women's Health Specialties in Wilmington. Students may also make arrangements for a summer clinical rotation at another site with permission of the program director.

During the second year of the program, students will be assigned to four clinical rotations (GEN 718 Clinical Rotations I/GEN 719 Clinical Rotations II). Second year clinical rotations will be available at the following sites: Carolinas Healthcare System, Duke University Medical Center, Cone Health System, University of North Carolina at Chapel Hill, Wake Forest School of Medicine, and Fullerton Genetics Clinic.

**Research Project**

The culminating experience for students in the genetic counseling program will be a formal research project (GEN 748 Research Project/GEN 749 Research Project). The research project may consist of a detailed case study and library synthesis, a clinical application, or an original clinical or laboratory research project. Students must select a project during the second semester of the program. All projects must be approved by the program director. Projects will be completed under the guidance of a research project committee, which will consist of a chair and two other members. Adjunct clinical faculty may serve on research project committees. Students will be required to submit a detailed written report of their project and to make an oral presentation about their project to their classmates and the faculty.

Catherine Scott-Little, Director of Birth Through Kindergarten Graduate Program
Anne Fletcher, Director of Undergraduate Studies
Karen LaParo, Director of Birth Through Kindergarten Undergraduate Program

About

The Department of Human Development and Family Studies offers an undergraduate program leading to the Bachelor of Science degree in Human Development and Family Studies. The programs include the study of the development of individuals and families throughout the life span, seeking to improve their well-being through the creation, use, and dissemination of knowledge. Programs of study in the department are multidisciplinary, requiring a synthesis of knowledge from the social and behavioral sciences and from the field of education. The goal of the Department of Human Development and Family Studies is to provide the best opportunity in North Carolina for undergraduates to prepare for careers in child, adolescent, adult, and family care services; in the care and education of children with/disabilities from birth to kindergarten; teaching in community child care programs and in preschool and kindergarten classrooms in the public school; and in cooperative extension and state agencies.

The Human Development and Family Studies undergraduate major offers students three different major/concentration options. Early Care and Education prepares students for careers in child care centers and agencies, private kindergartens, and hospital child care. Birth Through Kindergarten Teacher Education prepares students to teach in North Carolina public preschools and kindergartens, in addition to child care centers and other early care agencies. Birth Through Kindergarten Teacher Education and Early Care and Education are also available online for students transferring in with an A.A.S. degree in early childhood from a N.C. Community College. Child, Youth, and Family Development prepares students for careers in family, governmental, and community service agencies that serve children, adolescents, adults, the elderly, and their families.

The internship program within the department provides students with opportunities for professional experiences in the career field of their choice. The department also administers the Child Care Education Program at three sites with an enrollment of 80 children in all-day child care. All serve as laboratories for the study of children and their families.

The Department of Human Development and Family Studies faculty have a wide range of research interests and methodological approaches. The faculty's research interests cluster in five focal areas:

- Early childhood development, care, and education including social, emotional, and cognitive development in young children, child care, and early childhood education;
- Parent-child relationships;
- Adolescence;
- Close relationships, marriage, and divorce; and
- Human development and family diversity in sociocultural context.

Faculty use a variety of quantitative and qualitative approaches including tests of children's social and cognitive development, micro-analytic analyses of peer and parent-child interactions, surveys, interviews, feminist methodologies such as photovoice and interpretive inquiry, and the design and evaluation of educational and intervention programs for children, family members, and educational personnel. Within these general areas of concentration and varied methods of inquiry, students focus upon more specific topics of study.

Graduate course work in human development and family studies focuses on individuals and families as they relate to friendship and kinship networks, the workplace, and economic, human service, health, and formal and informal educational systems. Graduate students have considerable flexibility in tailoring their studies to special interests and career goals. The department also offers several graduate programs jointly with the Department of Specialized Education Services: a M.Ed. in Birth-Kindergarten Interdisciplinary Studies in Education and Development; a Post-Baccalaureate Certificate in Birth-Kindergarten Initial Licensure; and a Post-Baccalaureate Certificate in Leadership in Infant and Toddler Learning. For information about these programs, see the Birth Through Kindergarten section under Interdisciplinary Programs at https://catalog.uncg.edu/interdisciplinary-programs/birth-kindergarten/.

### Human Development and Family Studies Undergraduate Minor

**Program Requirements**  

- Minimum of 18 credit hours (minimum of 12 credits in HDF)

Completion of 18 credits in HDF courses with a C or better as provided below.
Human Development and Family Studies, M.S.

The M.S. in Human Development and Family Studies requires a minimum of 40 credit hours (including thesis) and prepares graduates to conduct research or to embark on a doctoral program of study.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to a review of the admission materials required by The Graduate School, the department considers the compatibility of the student's interest areas with those of the faculty and with curriculum emphasis, as well as the student's availability for full-time graduate study.

**Total Credit Hours 40**

* Area of specialization courses are selected jointly by the student and the faculty advisory committee. All 6 credits must be fulfilled through content courses, and at least 3 of the 6 credits must be taken within the Department of Human Development and Family Studies. Research methods and statistics cannot count as area of specialization courses for the M.S. degree.

M.S. Doctoral Track

Individuals intending to continue on to doctoral studies in Human Development and Family Studies at UNC Greensboro may apply to the M.S. Doctoral Track, which offers exceptionally well-qualified applicants the opportunity to gain admission to the master’s and doctoral programs simultaneously. This program is designed for students who would like to obtain their M.S. and then proceed directly to the Ph.D. program. Students accepted into the Doctoral Track must fulfill all requirements for the M.S. and the Ph.D. and will earn both degrees. Students not accepted into the M.S. Doctoral Track may still be accepted into the M.S. only.

Human Development and Family Studies, Ph.D.

The Ph.D. in Human Development and Family Studies requires 91 credit hours beyond the baccalaureate degree (for students entering the program in the M.S. Doctoral Track) or a minimum of 51 credit hours beyond a master’s degree. Entering doctoral students who have completed a master’s degree at another institution or department must fulfill (or have comparable substitutions for) all of the requirements of the HDFS M.S. degree program. Assessment of prerequisite courses occurs at the time of admission to the program. These requirements must be fulfilled in addition to completing the minimum of 51 credits of course work and research shown below.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to a review of the admission materials required by The Graduate School, the department considers the compatibility of the student’s interest areas with those of the faculty and with curriculum emphasis, as well as the student’s availability for full-time graduate study.

M.S. Doctoral Track

Individuals intending to continue on to doctoral studies in Human Development and Family Studies at UNC Greensboro may apply to the M.S. Doctoral Track, which offers exceptionally well-qualified applicants the opportunity to gain admission to the master’s and doctoral programs simultaneously. This program is designed for students who would like to obtain their M.S. and then proceed directly to the Ph.D. program. Total Credit Hours 51

* The Ph.D. program requires the completion of 18 credit of elective course work, selected jointly by the student and the faculty advisory committee, beyond the minimum of 9 credits of specialization course work taken for the M.S. Of the 18 credits to be taken for the Ph.D., 9 credits must be fulfilled through structured electives. Specific offerings of HDF 602 Special Topics in Human Development and Family Studies will be eligible for inclusion in target areas specified by the department.

** All doctoral students will complete a two-semester teaching practicum supervised by the student’s advisor or the advisor’s designee. The practicum requires the student to serve as an assistant, then as a co-instructor, of a course (or courses) at the 200, 300, or 400 level.

Required Milestones*

- Residency (Immersion)
- Plan of Study
- Research Competency

- Comprehensive Exam (Written & Oral)
- Dissertation Proposal
- Admission to Candidacy
- Dissertation Defense
- Filing the Final Approved Dissertation

* General information about milestones for doctoral programs is available in Section III (p. 807) of the Graduate Policies (p. 788) page in the University Catalog. For information about how milestones are accomplished for a specific program, please refer to the doctoral program’s handbook.

Jenny Etnier, Department Chair
Randy Schmitz, Associate Department Chair
Aaron Terranova, Director of Undergraduate Studies and Graduate Program Director, M.S.A.T.
DeAnne Brooks, Graduate Program Director, M.S. and Ph.D.
Pam Brown, Graduate Program Director, Ed.D.
Jen Farrell, Graduate Program Director, M.S., Applied Sport Psychology

Mission Statement The mission of the Department of Kinesiology is to prepare professionals at both the undergraduate and graduate levels through excellence in teaching, research, and service so that they may encourage enhanced performance and quality of life of all citizens of the Piedmont Triad and beyond through active lifestyles and lifetime physical activity.

Transfer Students
Students who enter the UNC Greensboro Kinesiology major as transfers in the junior year should expect to take at least an extra semester of work unless they enter with a strong background in science (KIN 291, KIN 292) and physical activities courses. For those students seeking Teacher Licensure who are also required to complete a second academic concentration, the time commitment may be further extended.

Kinesiology, B.S.
The Kinesiology major prepares students for careers in sports medicine, preventive and rehabilitative exercise and fitness. Graduates are able to pursue careers in fitness, personal training, cardiac rehabilitation, exercise physiology and related fields. Additionally, completing this major is a first step toward providing students with the necessary academic and clinical experience for future study in allied health fields. Examples include, but are not limited to, athletic training, physical therapy, occupational therapy, physician’s assistant, podiatry, dentistry, and medicine.

Student Learning Goals
1. Students completing this program will demonstrate a basic knowledge of anatomy.
2. Students completing this program will demonstrate a basic knowledge of biomechanics.
3. Students completing this program will demonstrate a basic knowledge of exercise physiology.
4. Students completing this program will demonstrate a basic knowledge of sociohistorical foundations of Kinesiology.
5. Students completing this program will demonstrate a basic knowledge of human development over the lifespan.
6. Students completing this program will apply the basic scientific theories and principles that serve as a foundation for the allied health and medical professions.

7. Students completing this program will demonstrate a basic knowledge of the structure and function of the human body and the stresses associated with movement, exercise and the demands of various physical activities.

8. Students completing this program will demonstrate a basic knowledge of the prevention, care, and treatment of injuries and illnesses that commonly occur in physical activity.

**Overall Requirements**
- 120 credit hours, to include at least 36 credits at or above the 300 course level
- All KIN courses must be completed with a grade of C (2.0) or higher
- No required KIN course may be taken more than twice. Students who receive a grade below C twice in the same KIN prefix course will be withdrawn from the KIN major.

* Four Activity courses must be completed with a grade of C (2.0) or higher. A maximum of two Activity courses may be taken in the same semester. Activity courses which are sequential—e.g., beginner, intermediate, advanced—may not be taken concurrently. Once a course has been successfully completed, a student may not enroll in a lower level course for the same activity. A maximum of two DCE courses may be substituted for Activity courses provided the DCE courses are officially listed by the University as STU courses (identified as Studio Schedule Type on the Course Schedule).

** A minimum of 3 credits of anatomy and 3 credits of physiology is required. Anatomy/physiology combined courses must be at least 6 credits to count as both anatomy and physiology. Students may take multiple levels of combined anatomy and physiology courses (A&P I and A&P II) in order to achieve the minimum 6 credits.

†† No Activity course (see list below) may be used as a KIN direct elective, KIN 000 courses which transfer to UNC Greensboro will not automatically be counted as KIN direct electives, but may be counted on an individual basis via appeal.
† Counts toward GEC GNS requirement.
†† Counts toward GEC GSB requirement.

Electives
Electives sufficient to complete total 120 credit hours required for degree.

Activity Courses Options
The following courses are identified as activity courses:

- KIN 101 Beginning Volleyball
- KIN 104 Beginning Basketball
- KIN 106 Beginning Soccer
- KIN 110 Ultimate
- KIN 115 Disc Golf
- KIN 130 Weight Training
- KIN 135 Fitness Running
- KIN 140 Flag Football
- KIN 150 Swimming for Non-Swimmers
- KIN 151 Beginning Swimming
- KIN 171 Beginning Badminton
- KIN 175 Beginning Tennis
- KIN 180 Rock Climbing
- KIN 201 Intermediate Volleyball
- KIN 203 Fitness Swim
- KIN 204 Intermediate Basketball
- KIN 206 Intermediate Soccer
- KIN 214 Sports Performance: Racquet Sports
- KIN 252 Low Intermediate Swimming
- KIN 263 Basic SCUBA and KIN 263L Skin and SCUBA Diving Lab
- KIN 264 Advanced SCUBA
- KIN 271 Intermediate Badminton
- KIN 272 Tae Kwon Do

Disciplinary Honors in Kinesiology

Requirements
- A minimum of 12 credit hours as defined below.
- A grade of at least B in all course work used to satisfy the Honors requirement in Kinesiology
- UNC Greensboro cumulative GPA of 3.30 or better or, for transfer students, cumulative GPA of 3.30 or better from all prior institutions.

Physical Education, Teacher Education (K-12), B.S.
The Physical Education and Health Teacher Education major leads to dual licensure for teaching in North Carolina and most other states. The dual licensure program prepares a student to teach physical education and health in grades K–12. Throughout the program there are opportunities for active observation, assisting teachers, peer and small group teaching, and a culminating student teaching experience with public school students, including those with special needs.

A second academic concentration in Healthful Living is required for completion of this major.

Student Learning Goals
Students completing this program will understand physical education and health content, disciplinary concepts, dispositions and tools of inquiry related to how individuals learn and develop physical literacy, movement skills, and lead healthy lifestyles. They will demonstrate effective verbal, nonverbal, and media communication techniques. They will be able to plan and implement a variety of developmentally appropriate instructional strategies, and use both formal and informal assessment to inform instructional practice. A focus will be on becoming a reflective practitioner who collaborates with others and seeks opportunities to grow.

Overall Requirements
- 122 credit hours, to include at least 36 credits at or above the 300 course level
- All KIN courses must be completed with a grade of C (2.0) or higher.
- No required KIN course may be taken more than twice. Students who receive a grade below C twice in the same KIN prefix course will be withdrawn from the KIN major.
- In addition to the related area requirements listed below, students in this concentration must complete a second academic concentration consisting of 18 credits of course work in Healthful Living.

* Four Activity courses must be completed with a grade of C (2.0) or higher. A maximum of two Activity courses may be taken in the same semester. Activity courses which are sequential - e.g. beginner, intermediate, advanced - may not be taken concurrently. Once a course has been successfully completed, a student may not enroll in a lower level course for the same activity. A maximum of two DCE courses may be substituted for Activity courses provided the DCE courses are officially listed by the university as STU courses (identified as Studio Schedule Type on the Course Schedule).

** A minimum of 3 credits of anatomy and 3 credits of physiology are required.
1 To qualify for graduation, all majors must achieve a grade of C (2.0) or better in each required course with a KIN prefix and the following:
BIO 271 & BIO 271L, BIO 277 & BIO 277L.
2 KIN 354, KIN 450, KIN 454, KIN 460, KIN 461:
   - Requires entrance into the PHHT major
   - Must be taken at UNC Greensboro for graduation and licensure.
   - Requires current certification in First Aid and CPR.
   - Requires Professional Liability Insurance.

Electives
Students will need to take elective hours prior to graduation. The number of electives needed varies based on course selection and any transfer credits. At least 122 credit hours are required to graduate. Students must complete at least 12 credits of electives with at least 6 credits coming from KIN courses.

Additional Requirements
- A minimum GPA of 2.50 is required for entry (application required) into and continued enrollment in the Physical Education and Health Teacher Education (PHHT) Program. Evidence of 20 hours of working with children in a physical activity setting is also required for admittance to the PHHT program. A 3.0 GPA is also required for entry into the UNC’s Teacher Education program (application required) and for licensure by the State of North Carolina. Passing Praxis Core Academic Skills for Educators scores (fee) are also required for entry into the UNCG’s Teacher Education Program.
- A departmental application process is required to enter the program. Prior to acceptance into the Physical Education and Health Teacher Education Program, students will be classified as pre-Kinesiology majors.
- A background check (fee) will be required for entry into the UNC Greensboro Teacher Education program and/or prior to any practical experience in the school setting.
- Liability Insurance (fee) will be required prior to any practical experience with children on campus or in a school setting.
- Students are required to pay a student teaching special fee prior to their student teaching experience.
- First Aid and CPR (fee) certification is required and must remain current for the entire student teaching experience (Student Teaching and Seminars in Physical Education).
• To qualify for graduation in this major and licensure, all majors must complete a Taskstream Portfolio (fee).

• To qualify for graduation in this major and licensure, all majors must attempt the Praxis II: Health and Physical Education: Content Knowledge test. For additional information about the Praxis II, please see the North Carolina Department of Public Instruction website at http://www.ncpublicschools.org/licensure/

• Licensure application must be submitted through the UNC Greensboro Teacher Education program at the completion of the PHHT program (fee).

• To graduate, all majors must obtain at least 36 credits in courses at the 300 level or above.

• Students in this major who do not graduate within 7 years or who leave school and later reenter are held to the current program requirements at the time of crossing from the seventh to the 8th year, or are held to the current program requirements during the year of reentry.

• Appeals of any of these requirements must be filed with the appropriate departmental committee within one academic year.

Disciplinary Honors in Kinesiology

Requirements

• A minimum of 12 credit hours as defined below.

• A grade of at least B in all course work used to satisfy the Honors requirement in Kinesiology

• UNC Greensboro cumulative GPA of 3.30 or better or, for transfer students, cumulative GPA of 3.30 or better from all prior institutions.

Recognition
Receive a Certificate of Disciplinary Honors in Kinesiology; have that accomplishment, along with the title of the Senior Honors Project, noted on the official transcript; and be recognized at a banquet held at the end of the spring semester.

Honors Advisor

Community Youth Sport Development Undergraduate Minor

The CYSD (Community Youth Sport Development) minor is designed for undergraduates with an interest in fostering relationships with youth through sport and physical activity as a means to teach social and personal responsibility.

The CYSD minor may be chosen by any degree-seeking UNC Greensboro student. The required 21 credit hours fortifies major course of studies related to teaching, mentoring, youth program design, implementation and evaluation, and cultural awareness.

Program Requirements

• Minimum of 21 credit hours

Sport Coaching Undergraduate Minor

The Sport Coaching Minor may be chosen by any degree-seeking UNC Greensboro student. Students will learn the profession of sport coaching including the nature of the profession, qualifications, skills, and issues relative to coaching in community, youth sport, and interscholastic sport activities. Students will culminate their minor experience with opportunities to assume various responsibilities in selected sports under the guidance of qualified coaches.

Program Requirements

• Minimum of 19 credit hours

Athletic Training, M.S.A.T.

The 48 credit-hour, entry-level Master of Science in Athletic Training, accredited by the Commission on Accreditation of Athletic Training Education (CAATE), provides academic and clinical instruction sufficient for eligibility to sit for the Board of Certification (BOC) Examination.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

Admission to the M.S.A.T. is competitive, limited, and not guaranteed to those who meet the minimum requirements. In addition to the admission requirements set forth by The Graduate School, applicants must also meet the admissions requirements set forth by the Athletic Training Education Program as described at http://klin.uncg.edu/academic-programs/graduate/areas-of-study/athletic-training/application-process/. The following prerequisites are required for admission eligibility and must be verifiable during the application process:

- Satisfactory completion (C or better) of required prerequisite course work in human anatomy, human physiology, biology, chemistry, biomechanics or physics, and psychology.
- Additional satisfactory completion (C or better) of course work in exercise physiology and nutrition is preferred.
- Documentation of clinical observation/experience under a Certified Athletic Trainer with a minimum of 50 (>75 preferred) hours within 2 years prior to program application.

The application deadline is January 15 of each calendar year after which qualified applicants will be invited by the Program Director for an on-campus visit for a personal interview at the applicant’s expense. Students must also verify that they can comply with the program’s technical standards. Detailed information regarding the application process, technical standards, expenses, prerequisites, and post-admission requirements are available at http://klin.uncg.edu/academic-programs/graduate/areas-of-study/athletic-training/application-process/.

Kinesiology, M.S.

The M.S. in Kinesiology offers both a 36 credit hour thesis option and 36 credit hour course work only option. Concentrations in Applied Neuromechanics, Community Youth Sport Development, Curriculum and Pedagogy Studies in Physical Education, Exercise Physiology, and Sport and Exercise Psychology are offered in the thesis option. Concentrations in Applied Sport Psychology, Community Youth Sport Development, Curriculum and Pedagogy Studies in Physical Education, Exercise Physiology, Motor Behavior, Sport and Exercise Psychology, and Sports Medicine are offered in the course work only option. For both options, a minimum of 24 credits must be completed in the department.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit supplementary application materials required by the department.

Degree Program Requirements

Required: 36 credit hours

Breadth Requirement

To enhance their knowledge of the field of Kinesiology, students who do not have an undergraduate major or minor in Kinesiology will consult with their advisor to select appropriate elective courses from at least two of the eight disciplinary areas (Applied Neuromechanics, Applied Sport Psychology, Community Youth Sport Development, Curriculum and Pedagogy Studies in Physical Education, Exercise Physiology, Motor Behavior, Sport and Exercise Psychology, Sports Medicine) outside the
student's own concentration area. Credit requirements for the Breadth Requirement are listed in the footnote for the electives requirement of each option or concentration.

</tr>
</tbody>
</table>

¹ Core Grade Requirement for Applied Sport Psychology Concentration: Students must receive a B or better in KIN 644 to satisfy degree requirements. KIN 644 may be taken a maximum of two times to achieve this outcome. Withdrawal from the program will be recommended if the student fails KIN 644 the first time the course is taken. The student may appeal this decision to the graduate faculty in Sport and Exercise Psychology. If a B or better is not earned after taking the course twice, the student will be automatically withdrawn with no opportunity to appeal.

² In consultation with your advisor, select KIN 645 or KIN 649 to satisfy the AASP requirement for Psychological Foundations of Behavior (K7).

³ One elective course (3 credits) must be selected to satisfy the AASP requirement for Diversity and Culture (K8). Students who do not have an undergraduate major or minor in Kinesiology must consult with their advisor to select one elective course (3 credits) to satisfy the Breadth Requirement.

### Non-Credit Professional Development Requirements

In addition to the 36 credits of course work, students are required to attend weekly professional development meetings and the departmental colloquium during each of the Fall and Spring semesters in the program.

### Community Youth Sport Development Concentration

In addition to the Research Techniques Requirement (KIN 601 Applying Research to Professional Practice) listed under the Course Work Only Option, students in the Community Youth Sport Development Concentration must also complete the following requirements:

<table>
<thead>
<tr>
<th>Code</th>

<td>12</td>
<td></td>
</tr>
</tbody>
</table>

⁵ With approval of the student’s advisor.
Students must receive a B or better in KIN 670 to satisfy degree requirements. KIN 670 may be taken a maximum of two times to achieve this outcome. Withdrawal from the program will be recommended if the student fails KIN 670 the first time the course is taken. The student may appeal this decision to the Graduate Faculty in Exercise Physiology. If a B or better is not earned after taking the course twice, the student will be automatically withdrawn with no opportunity to appeal.

** With approval of the student’s advisor. Students who do not have an undergraduate major or minor in Kinesiology must consult with their advisor to select up to two elective courses (6 credits) to satisfy the Breadth Requirement.

### Motor Behavior Concentration

In addition to the Research Techniques Requirement and the Integrative Experience (Capstone) requirement listed under the Course Work Only Option, students in the Motor Behavior Concentration must also complete the following requirements:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>KIN 643</td>
<td>Mechanical Analysis of Motor Skills</td>
<td>3</td>

</tr>
<tr>
<td>KIN 744</td>
<td>Applied Sport Psychology</td>
<td>3</td>
</tr>
</tbody>
</table>

** With approval of the student’s advisor. Students who do not have an undergraduate major or minor in Kinesiology must consult with their advisor to select up to two elective courses (6 credits) to satisfy the Breadth Requirement.

### Sport and Exercise Psychology Concentration

In addition to the Research Techniques Requirement and the Integrative Experience (Capstone) requirement listed under the Course Work Only Option above, students in the Sport and Exercise Psychology Concentration must also complete the following requirements:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>KIN 644</td>
<td>Psychology of Sport and Exercise</td>
<td>3</td>
</tr>
</tbody>
</table>

** With approval of the student’s advisor. Students who do not have an undergraduate major or minor in Kinesiology must consult with their advisor to select up to two elective courses (6 credits) to satisfy the Breadth Requirement.
The combined M.S./Ph.D. track in Kinesiology consists of a minimum of 78 credit hours beyond the baccalaureate degree and is intended for the most exceptional students (see Application and Admission section). It is anticipated that completion of the M.S./Ph.D. track will reasonably span five years. By the end of Year 2, students will enroll in a minimum of 6 credits of integrative/research related activity to meet the requirements of the M.S. degree if they choose not to continue on to completion of the Ph.D. degree. For those students already enrolled in the M.S. degree, it is expected their M.S. course work will already include many of the foundational courses for their discipline. In this case, additional course work in Years 3 and 4 will primarily consist of intensive research and dissertation credits. Specific course work will be determined by the student’s advisor and advisory committee, consistent with each sub-discipline.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions.

In addition to the application materials required by The Graduate School, applicants must submit supplementary application materials required by the department.

Exceptional students who have an appropriate baccalaureate degree and who demonstrate superior ability and a high level of motivation and dedication to research and learning are eligible to apply directly into the M.S./Ph.D. track. Current master’s degree students in kinesiology who wish to pursue the Ph.D. may apply once they have completed at least 18 credits of foundational course work in their discipline, have demonstrated dedication to research, and have not yet formally proposed their thesis. Students must apply for admittance to the M.S./Ph.D. and must identify one of the possible concentration areas (Applied Neuromechanics, Exercise Physiology, Curriculum and Pedagogy Studies in Physical Education, Sport and Exercise Psychology, or Kinesiology.)

### Sports Medicine Concentration

In addition to the Research Techniques Requirement and the Integrative Experience (Capstone) requirement listed under the Course Work Only Option, students in the Sports Medicine Concentration must also complete the following requirements:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>KIN 576</td>
<td>Nutrition and Physical Fitness</td>
<td>12</td>

<td>Psychological Aspects of Sport Injury</td>
<td>12</td>
</tr>
</tbody>
</table>

**Concentration Electives (18 credits)**

* With approval of the student’s advisor. Students who do not have an undergraduate major or minor in Kinesiology must consult with their advisor to select up to two elective courses (6 credits) to satisfy the Breadth Requirement.

**Kinesiology, M.S./Ph.D.**

The combined M.S./Ph.D. track in Kinesiology consists of a minimum of 78 credit hours beyond the baccalaureate degree and is intended for the most exceptional students (see Application and Admission section). It is anticipated that completion of the M.S./Ph.D. track will reasonably span five years. By the end of Year 2, students will enroll in a minimum of 6 credits of integrative/research related activity to meet the requirements of the M.S. degree if they choose not to continue on to completion of the Ph.D. degree. For those students already enrolled in the M.S. degree,
Year Five
12 credits of dissertation
Benchmark: Completion of and oral defense of dissertation

Required Benchmarks
Continued progression in the M.S./Ph.D. track is contingent on satisfactory progress through each year of study. Progress will be formally assessed each Spring as follows:

Year One
Preliminary Screening (Early/Mid Spring)
The preliminary screening will consist of a formal evaluation of the scholarly work completed from the time of admission through the completion of 18 credits of coursework (counting work in progress in a current term). This screening must occur during the second semester of study, so that a decision can be made prior to admission and graduate assistantship decisions for the upcoming Fall. An advisory committee consisting of a minimum of 3 members (the student's advisor, Director of Graduate Study, and at least one other) will conduct the first year preliminary screening review. The intent is to determine relatively early in students’ academic careers whether or not they display the high quality of academic achievement necessary to pursue and successfully complete the doctoral degree. Excellent students will be encouraged to continue in the program. Students who do not meet the requirements will be strongly urged through counseling by their advisory/dissertation committee to complete the M.S. degree level and pursue other intellectual/career avenues.

In order to progress to Year 2, all members of the student's preliminary screening committee must review all criteria and confirm satisfactory progress in the preliminary evaluation.

Year Two
Research Competence (End of Spring Semester)
Students will be expected to be actively engaged in research from the beginning of their studies in Year 1. In Year 2, students will be expected to complete a comprehensive research project by the end of their second year of study. This project should encompass all aspects of the research process, including the following:

- Conception and design of the project
- Acquisition and reduction of the data
- Analysis and interpretation of the data
- Written summary of the work (e.g. Submission ready manuscript)
- Oral presentation of the work

To progress to Year 3, the student's M.S./Ph.D. advisory committee must approve the work.

Year Three
Comprehensive Examination
When the student has completed a minimum of three-quarters of the coursework (60 credits) contained in the program of study and completed the research skill requirements, they are then eligible to take the comprehensive examinations. Each doctoral student is required to pass the doctoral preliminary examinations which consist of both a written and oral examination, per the guidelines of The Graduate School and the Department of Kinesiology.

For more information, please visit http://kin.wp.uncg.edu/graduate-2/graduate-prospective-overview/.

Kinesiology, Ed.D.
The Ed.D. in Kinesiology is an interdisciplinary online degree program specifically for practicing professionals who have a minimum of three years professional experience in Kinesiology or related fields and desire a doctorate focused on scholarship and professional practice in advocacy, and teaching. The Ed.D. in Kinesiology requires a minimum of 54 credit hours (42 credits of course work and 12 credits of dissertation). Our aim is to bring together a community of scholars to develop action-oriented leaders in the field of Kinesiology.

Of the 54 credits of required course work, a minimum of 24 credits must be completed in KIN, excluding dissertation hours.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit supplementary application materials required by the department and described in detail at http://kin.wp.uncg.edu/graduate-2/requirements-and-guidelines-for-application-for-graduate-study/.

Most applications are reviewed in the Spring for Fall admission. The application deadline to receive full consideration for admission is January 15; however, applications will be accepted through mid-April.

Degree Program Requirements
Required: 54 credit hours minimum

Campus Visits
Students will make three required visits to campus as part of this program to foster a sense of community with their peers and the UNC Greensboro faculty, to familiarize them with the technology, to present their dissertation proposal, and to present their dissertation, while also fulfilling their residency requirement.

Required on-campus visits:
- Orientation (Summer prior to Year 1 course work; 3 days)
- Dissertation proposal (Spring, Year 3; 3-5 days)
- Dissertation presentation (Spring, Year 4; 3 days)

A minimum of 54 credit hours (a minimum of 42 credits of course work and a minimum of 12 credits of dissertation) are required to earn the degree. KIN 701, KIN 715, KIN 716, KIN 723, KIN 750, KIN 751, KIN 778, and KIN 779 are required courses for all students.
Required: 60-66 credit hours

Kinesiology, Ph.D.

The Ph.D. in Kinesiology requires a minimum of 60 credit hours. Some students are required to take additional hours beyond the minimum. Students may choose to take a general course of study in Kinesiology or choose from four concentration areas: Applied Neuromechanics, Curriculum and Pedagogy Studies in Physical Education, Exercise Physiology, and Sport and Exercise Psychology. Students must complete a minimum of 24 credits in Kinesiology, excluding dissertation hours.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit supplementary application materials required by the department.

Residency

The Department does not recognize summer session as part of the residency requirement for Ph.D. students. Two consecutive 15-week semesters of study in which a student is enrolled for a minimum of 6 credits of course work each term is needed to satisfy the residency requirement. Course work taken in summer sessions may, of course, be included in a student’s program.
KIN 719  Muscular Aspects of Exercise Physiology  3

Ron F. Morrison, Department Chair
Lauren A. Haldeman, Director of Undergraduate Studies
Jigna M. Dharod, Graduate Program Director

About

The Department of Nutrition offers course instruction, research experience, and fieldwork opportunities. The curriculum is designed to train students in the three areas of focus listed below.

- Human Nutrition and Dietetics —develops and educates students to work as agricultural extension agents; dietitians in hospitals, long-term care facilities and public health programs; nutrition education specialists; sports nutrition; consultants and entrepreneurs.
- Nutrition Science —prepares students for entry into medical, dental, chiropractic or graduate school; trains students for research and development in the biomedical, biotechnical, and pharmaceutical industries.
- Nutrition and Wellness —provides instruction and experience in the basic nutritional sciences, community nutrition, public health education, and kinesiology, enabling graduates to work in a variety of settings such as voluntary and community health organizations, health care, government, education, and the fitness industry. This concentration also prepares students for graduate training in nutrition, public health education, and kinesiology.

Graduate Study

The Department of Nutrition graduate programs leading to the Master of Science (M.S.) and the Doctor of Philosophy (Ph.D.) degrees in nutrition both offer specializations in community nutrition and nutrition education, human/clinical nutrition, and cellular and molecular nutrition. Background courses in general chemistry, organic chemistry, biochemistry, mammalian physiology, and general nutrition are required for all degree programs. Upon entry, a Plan of Study is developed by students and their advisors or Advisory Committees to develop strengths in the area of interest the student has chosen.

Accreditation

The accreditation agency of the Academy of Nutrition and Dietetics is the Accreditation Council for Education in Nutrition and Dietetics (ACEND). ACEND is recognized by the US Department of Education as a Title IV Gatekeeper. This recognition affirms that ACEND meets national standards and is a reliable authority on the quality of nutrition and dietetics education programs. ACEND is also a member of the Association of Specialized and Professional Accreditors (ASPA) and abides by its code of good practice.

Nutrition, B.S.

Criteria for Progression in the Major

New first year and transfer students are required to have a minimum 2.50 cumulative GPA to be admitted to the B.S. in Nutrition. Additionally, all continuing students must maintain a cumulative GPA of at least 2.50 throughout the completion of the Nutrition major. Students that change their Nutrition major or concentration during the academic year will be held to the minimum 2.50 GPA requirement. If the GPA drops below 2.50, students will be contacted in writing by the Undergraduate Program Director indicating that they have dropped below the threshold and will have one semester to increase the cumulative GPA to at least 2.50. If this does not happen, the student will be dropped from the Nutrition major.
the following semester. Notifications to students will be made at the beginning of each fall and spring semester.

A student must earn a grade of C (a C- is not acceptable) or better in all required NTR and related area courses to graduate in each of the three concentrations offered by the department. Furthermore, students must earn a C or better in prerequisite courses to enroll in specific upper-level courses (see course listings). A student may not receive credit for any NTR course by special examination.

No NTR course or related area course for which a grade of C (a C- is not acceptable) or better is required for the major may be taken more than twice. Students who receive a grade below C, which includes a C-, twice in the same NTR course or related area course for which a grade of C or better is required for the major will be dropped from the major.

### Suggested Academic Workload Guidelines

The faculty of the Department of Nutrition recognizes that many of its students must hold jobs to support college expenses. The faculty wishes to emphasize that academic excellence and scholastic achievement usually require a significant investment of time in study and out-of-class projects. To provide guidance to students in planning their academic and work schedules, the faculty have endorsed the following recommendations:

1. In general, students should plan to devote 2–3 hours outside of class for each hour spent in class. Thus, students with a 15 credit hour course load should schedule between 30–45 hours weekly for completing outside-of-class reading, study, and homework assignments.

2. Students who are employed more than 5–10 credits each week should consider reducing their course loads (semester hours), depending upon their study habits, learning abilities, and course work requirements.

### Overall Requirements

- 120 credit hours, to include at least 36 credits at or above the 300 course level
- Students must earn grades of C (2.0) or better in all major and related area required courses.

### Degree Program Requirements

#### University Requirements (p. 771)

#### General Education Requirements (MAC) (p. )

### Major Requirements

Select one of the concentrations as detailed following the major requirements.

- Human Nutrition and Dietetics
- Nutrition and Wellness
- Nutrition Science

### Electives

Electives sufficient to complete total 120 credit hours required for degree.

### Human Nutrition and Dietetics Concentration Requirements

(and Didactic Program in Dietetics)

### Nutrition, M.S.

The M.S. in Nutrition offers a thesis option (37 credit hours minimum) and a non-thesis option (40 credit hours minimum). The thesis option is research-based and designed to prepare students for research, administration and practitioner positions in nutrition, or for progression to the Ph.D. program. A written thesis is required for graduation. The non-thesis option is designed to prepare students for consulting, administrative, and practitioner positions in nutrition. A comprehensive examination must be passed. The registered dietitian (RD) credential must be obtained for a career in dietetics.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a letter of intent that includes research and professional objectives and that identifies faculty with research interests most central to student research and career interests.

Prerequisites for admission to the graduate program in nutrition include: 2-3 semesters of biology (general biology with lab, human physiology) and 3-4 semesters of chemistry (inorganic chemistry with lab, organic chemistry with lab, biochemistry).

### Degree Program Requirements

#### Thesis Option

**Required:** 37 credit hours minimum

At least 26 credits must be in 600-level courses. The minimum requirements include:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>NTR 609A</td>
<td>Seminar in Nutrition</td>
<td>1</td>

Research Techniques (6 credits minimum)

NTR 673 Nutrition Research Methodology 3
Select at least 3 credits from the following:
  NTR 601 Directed Study in Nutrition
  NTR 623 Current Trends in Nutrition
  NTR 653 Problems in Food and Nutrition
  NTR 670 Research Skill Development

Electives (20 credits minimum)
Select at least 20 credits of electives *

Total Credit Hours 40

* From other 500- or 600-level NTR courses or other graduate-level courses as approved by the Graduate Advisory Committee.

Electives
Select at least 20 credits from other 500- or 600-level NTR courses or other graduate-level courses as approved by the Graduate Advisory Committee. 15 elective credits will come from the DI course requirements for those students who are completing the Dietetic Internship requirements as part of their graduate program of study.

Comprehensive Examination
The written examination is offered at specific times each year. Please consult with the Graduate Program Director for the exam date.

Nutrition, Ph.D.

The Ph.D. in Nutrition requires a minimum of 61 credit hours. The focus of the doctoral program is the development of critical thinking, problem solving, communication, and organizational skills and the application of these skills to a nutrition-related research problem. The research goal of the department is to optimize human health. This is done through a wide variety of research approaches. Program strengths include nutritional assessment and intervention, nutritional biochemistry, molecular roles of nutrients, nutrition and disease, community nutrition, nutrition education, and life-span nutrition. Graduates of the doctoral program are prepared for careers in research, teaching at the college or university level, consulting, and management.

At least 75% of all course work, exclusive of dissertation credits, must be at the 600 or 700 level. Students entering the Ph.D. program with a M.S. degree may be granted a waiver for some requirements if they have successfully completed equivalent course work. This decision will be made after evaluation by the student’s major advisor and the doctoral Advisory/Dissertation Committee.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a letter of intent that includes research and professional objectives and that identifies faculty with research interests most central to student research and career interests.

While the Ph.D. program primarily admits students with a master’s degree, the graduate committee will consider baccalaureate students with exceptional academic and undergraduate research experiences.

1 4 credits total in NTR 709A are required.
2 With approval of the Advisory/Dissertation Committee.
3 A minimum of 12 dissertation credits (NTR 799) are required.

Comprehensive Examination
The student will consult with his/her Advisory/Dissertation Committee about the specific format of the written and oral sections of this examination.

For Students Who Completed their M.S. at UNC Greensboro
Students who have completed their M.S. degree in the Department of Nutrition at UNC Greensboro will have already completed the majority of the Required Core Courses, Nutrition Research Methodology, and at least one statistics course. Therefore, their program of study will include primarily Research Techniques credits and Research and Dissertation credits. Credit received for courses taken as part of the M.S. degree cannot be counted towards the Ph.D. degree. The majority of credit hours must be at the 600-700 level. The minimum course work is shown below.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).
Dietetic Internship, Post-Baccalaureate Certificate

The Post-Baccalaureate Certificate in Dietetic Internship requires 15 credit hours. Courses fulfilling the certificate program may be used to meet the requirements in a degree program in accordance with the policies of The Graduate School.

The Dietetic Internship at UNC Greensboro is currently granted accreditation by the Accreditation Council for Education in Nutrition and Dietetics (ACEND). ACEND is a specialized accrediting body of the Academy of Nutrition and Dietetics with oversight by the United States Department of Education.

ACEND
120 South Riverside Plaza
Suite 2000
Chicago, IL 60606-6995
(800) 877-0877, ext. 5400

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

The certificate program for the Dietetic Internship is designed for students with a bachelor's degree from an accredited college or university who have completed the Didactic Program in Dietetics, as required by The Academy of Nutrition and Dietetics, and wish to become eligible to take the national registration examination to become a registered dietitian (RD). To be eligible for the Dietetics Internship, completion of the undergraduate program must be within five years of application to the internship.

Varied work experiences in dietetics and/or food service management are preferred. The selection process is very competitive. Due to the limited number of placements that can be made for a given year, not all applicants who meet the minimum requirements may be selected.

A separate application to the DI program is required and students must apply to such programs following the American Dietetic Association's computer matching application process. After selection into the program at UNC Greensboro, students must then submit an application to The Graduate School as well as all required application materials. In addition to these materials, applicants must provide an ADA Verification Form from their undergraduate institution and a personal essay stating their interests and experience in dietetics.

A limited number of positions in the DI program are set aside for graduate students who wish to complete both the graduate degree and DI program. Students who are eligible for these positions must complete the application form but do not have to participate in the computer matching process. Students interested in this option must contact the Director of the Dietetic Internship at UNC Greensboro for more information.

Douglas Fry, Department Chair
Jeremy Rinker, Director of Undergraduate Studies
Marcia Hale, Graduate Program Director

About
The Department of Peace and Conflict Studies takes a dynamic and interdisciplinary approach to the study of peace and the practice of conflict management, resolution, and transformation. Undergraduates in this field of study will gain an understanding of peace science and peace scholarship while actively engaged in their communities proactively transforming conflict.

Online Options
Undergraduate
Students may complete a PCS major or minor completely online. The curriculum is identical in content and focus with the residential program; courses are usually offered simultaneously in residential and online formats. For more information, visit http://pacs.uncg.edu.

Graduate
Both the certificate program and the master’s program are available online; all web-based courses run parallel to residential courses on campus and the curriculum is identical. Online classes are conducted asynchronously via web connection. Lectures, discussions, assignments, supplementary materials, feedback, and assessments are accessed online. See the program website for more information.

**Peace and Conflict Studies, M.A.**

The M.A. in Peace and Conflict Studies is dedicated to providing high quality, professional training in multiple conflict intervention and prevention skills such as mediation, negotiation, facilitation, restorative practices, violence prevention, and collaborative problem solving. Students engage in community-based learning through a variety of courses to build practice, intervention, and research skills. The program focuses on pragmatic approaches to solving personal and social problems in a variety of social settings. Students are exposed to an array of techniques and strategies to achieve nonviolent solutions to conflict that arises in diverse family, organizational and community environments.

The program promotes a systemic and critical perspective to the challenges facing individuals, families, organizations and communities in both a global and local analytical and practical perspective. With an interdisciplinary commitment to social justice and human rights, we train professionals to seek collaborative, constructive and conciliatory methods for resolving human conflict. Our goal is to mold reflective conflict professionals—practitioners with a critical understanding of theory, research and a range of methods, local and global perspectives, and an appreciation of diversity, peace development and social justice.

The M.A. in Peace and Conflict Studies requires completion of 33 credit hours and is built on a comprehensive core curriculum of six academic courses and seminars. Flexible course schedules in the evenings allow students of all ages, challenges, job requirements, technology, and delivery needs to participate in the learning process.

The master’s program is available completely online and is identical in content and focus with the residential program. For more information, visit http://pacs.uncg.edu or email the Graduate Program Director, Dr. Marcia Hale, mhale@uncg.edu.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application material required by The Graduate School, applicants must submit a personal essay on their interest and expectations of the M.A. in Peace and Conflict Studies and may be asked to complete an interview with members of the admissions committee.

* Or 400-level PCS electives.
* The capstone course is designed to complete the integration of theory, global and cultural awareness, intervention skills, project management and public policy issues. Through individually designed capstone projects or research papers, students will analyze and synthesize what they have learned throughout the curriculum, exploring issues individually and within learning communities, to deepen their experience in the evaluation of practice and the process of ongoing knowledge building.

** Students may select up to two courses (6 credits) outside of PCS that fit their area of study in consultation with the Graduate Program Director.

Electives Requirement
Elective courses are selected with the approval of the faculty advisor to design a student’s pathway through the program.

Peace and Conflict Studies, Post-Baccalaureate Certificate

The Post-Baccalaureate Certificate in Peace and Conflict Studies prepares students for the changing nature of professional development, organizational knowledge and change through scholarship and research. The certificate program can be beneficial to those who have already received a graduate degree in their current area but would like to specialize in conflict management. It is also appropriate for those who possess an undergraduate degree and are seeking to obtain broad knowledge of the conflict and peace studies field or for professionals who have already earned a graduate degree in their professional field and would benefit from research and theory and additional practice skills in a range of conflict studies.

The certificate requires 12 credit hours. A maximum of 4 credits from graduate courses taken in or transferred from other programs may be applied to the requirements of the certificate program upon the approval of the Graduate Program Director and in accordance with policies of the Graduate School. Courses taken for the certificate program may be used to meet requirements in a degree program in accordance with the policies of the Graduate School.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

Mike Perko, Graduate Program Director

Mission
The mission of the Department of Public Health Education is to promote health by supporting the learning, decision-making and capacity of individuals, groups, and communities. In collaboration with Piedmont Triad community organizations, the department prepares professional health educators and advances public health practice and knowledge.

Public Health Education, B.S.
The Department of Public Health Education offers the Bachelor of Science (B.S.) degree in Public Health Education major with a concentration in Community Health Education or Health Studies (an online degree program). Both concentrations provide a foundation in the core areas of public health including: social and behavioral sciences, epidemiology, public health statistics, and health policy and administration. Only students in the Community Health Education concentration are eligible candidates for national credentialing as a Certified Health Education Specialist (CHES.). The Health Studies Online concentration is an online option available for second-degree seeking students looking for a non-professional degree to complement their current professional or career experiences.

Community Health Education Concentration
Increasing national interest in health and health promotion attracts students to the undergraduate degree program in Community Health Education. The concentration provides field experiences in public and private agencies as part of the professional preparation program. Students are prepared to design and implement health promotion programs in the community. Graduates have careers in national, state, and local health agencies, health and human services organizations, and business and industry; and many continue on into graduate study.

Health Studies Online Concentration
The program leading to the Bachelor of Science in Public Health, Health Studies Online concentration, is designed to prepare individuals for positions in health-related fields and provide a base for graduate study. The Health Studies Online concentration will allow time and location bound students to complete an undergraduate degree without relocating to the UNC Greensboro campus. Our graduates, like other graduates in general education programs, are competitive in the job market for careers in administration, education, health sciences, human relations, and public service, and in other governmental, community-based and/or nonprofit settings.

Students requesting admission to the Health Studies Online concentration may apply to the major only after earning a prior degree (A.A., A.S., B.A., B.S., or equivalent; an A.A.S. is not an equivalent option) from an accredited college or university and completion of courses that satisfy General Education requirements.

Criteria for Admission to the Public Health Education Major
Students must be formally admitted to the Public Health Education major through an application process and select a concentration of Community Health Education or Health Studies Online. Students are considered Pre-Public Health (PPHT) until the student is formally accepted into the Public Health (PHTH) major.

Only students who have formal, written acceptance into the PHTH major will be permitted to register in upper level public health education (HEA) courses, typically completed in the junior and senior years. Admission cannot be sought into the major until completion or transfer of 45 credit hours. The application deadline is April 1 of each year. Applications are obtained from the Department of Public Health Education. Transcripts obtained from the Department of Public Health Education. Transcripts
from all post-secondary schools attended must be submitted with the application. Admission to the university does not guarantee acceptance into the PHTH major. Conditional admission may be granted if students are still completing the prerequisite courses, but full admission to the major cannot be granted until all admission criteria for Community Health Education or Health Studies Online concentration have been successfully completed.

**Overall Requirements**
- 120 credit hours, to include at least 36 credits at or above the 300 course level
- Students must continue to maintain the cumulative GPA requirement of 2.50 to progress and graduate. Students who drop below a 2.50 overall GPA will be dropped from the program.
- No HEA course or health-related area course for which a grade of C or better is required for the major may be taken more than twice (a C- is not acceptable). Students who receive a grade below C twice in the same HEA course or health related area course required for the major will be dropped from the major.

**Major Requirements**
Select one of the concentrations as detailed following the major requirements.
- Community Health Education
- Health Studies Online

**Electives**
Electives sufficient to complete the 120 credit hours required for degree.

**Community Health Education Concentration Requirements**

**Minimum Criteria for Admission to the Concentration**
Pre-public health students must meet the following criteria to be accepted into the major and declare the Community Health Education concentration. Students should meet these minimum requirements before submitting an application to the concentration.

1. **GPA**
   Overall grade point average of 2.50 or higher.
2. **Prerequisites**
   A grade of C (2.0) or better in each of the prerequisite health-related courses listed below or their equivalent. Prerequisite courses may be repeated only one time to earn the minimum required grade or better.

Community Health Education, M.P.H.
The Master of Public Health requires 45 credit hours and consists of 39 credits of course work and a 6-credit internship/practicum in a community setting. All required courses are offered in the evenings and meet once each week. Students can enroll as a full-time (2 year, 4 courses per week) or part-time (3 year, 2-3 course per week) graduate student. The professional preparation program is for qualified students from a variety of academic and professional backgrounds who are interested in careers that involve the development and management of population-based health promotion and disease prevention activities within communities. The program’s approach to professional practice includes reflective practice, a theoretical base, network development, leadership development, and cooperation and collaboration with
community health organizations. Throughout the curriculum, special attention is given to community involvement, effective communication, and uses of technology. The curriculum emphasizes the application of health education skills and knowledge with a variety of community populations, as well as the practical application of research findings to health problems and includes preparation in the core areas of public health. Special attention is also given to community engagement, social justice, and the root causes of health within society. The degree program prepares graduates for careers in public health and health care settings at local, state, regional, or national levels.

The M.P.H. program is accredited by the Council on Education for Public Health (CEPH) and the professional requirements are based on the CEPH accreditation and the professional responsibility areas and recommendations of the Joint Commission of the Society of Public Health and the American Association for Health Education. Graduates of the program are eligible to sit for the national Health Education Specialist credentialing exam for the profession and become a Certified Health Education Specialist (CHES), or with a qualifying experience, a Master’s Certified Health Education Specialist (MCHES). Students are also eligible to sit for the national exam to become Certified in Public Health (CPH) credential. By the end of the program students will have preparation in the Core Areas of Public Health and in the Seven Areas of Responsibility for Health Education Specialists (assessment, program planning, implementation, evaluation, administration and management, resource, and communication and advocacy).

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the minimum admission materials required by The Graduate School, applicants should submit:

• A resume.
• A one-page statement of professional goals as related to the M.P.H. program. In your statement, include consideration of:
  • How the program will help advance your personal and career goals.
  • How you became interested in pursuing a career in public health generally and in community health specifically.
  • How your volunteer, educational, work, and/or personal experiences led to your decision to pursue a career in public health.
  • What specific areas of public health and community health education you are interested in.
  • What your vision is for your future career in public health or community health education.
  • Why you are interested in the M.P.H. program at UNC Greensboro.
• Three letters of recommendation. Your reference providers are required to write a letter on your behalf in addition to filling out the required form. We also recommend that at least one of your letters of recommendation come from a professor or course instructor.

Applicants can enroll as either full-time or part-time students. All required courses except the internship are offered in the evenings. Full-time students are expected to take four courses each fall and spring semester for two years. Part-time students usually take two courses each fall and spring semester, and one course each summer, over three years.

* Chosen in consultation with the student’s advisor.
** In addition to the field-based learning experiences in courses throughout the program, students are required to integrate and synthesize their acquired skills and knowledge in an applied situation that approximates some aspect of professional practice in community health education. This is done through an internship/practicum in a community health agency. Prior to the internship/practicum, students plan their work in an applied program planning class.

### Community Health Education, Ph.D.

The Ph.D. in Community Health Education is designed to engage doctoral students in an active learning environment that prepares them academically and professionally to conduct significant public health research and advanced practice. Graduates of the doctoral program take roles as researchers, academics, and public health leaders and professionals committed to social change and to facilitating the resolution of public health outcomes important to the community and field. The Ph.D. requires 63 credit hours beyond an appropriate master’s degree (90 credit hours without a qualifying master’s degree). Students who enter with a master’s degree are required to earn a minimum of 48 credits of course work and 15 credits of dissertation work. The department’s faculty have a strong base in approaches that embrace the social ecological framework and are committed to community engaged interaction and research.

The educational objectives of the Ph.D. program are to:

• Provide an ecological perspective of health and the related advanced theory important in preparing students for careers in practice-based research.
• Prepare students to function as leaders in community-based prevention research in academic, research, or public health organizations.
• Provide experiences to ground students’ research in the problems and issues facing public health education practitioners and policymakers.
• Provide research experiences designed to develop the technical, conceptual, and communications skills required for independent research.

Assessment of courses or experiences applicable to the degree occurs at the time of admission into the program. The student’s doctoral program committee will work with each candidate to develop a course of study within the framework of the program and informed by the student’s personal interests, past course work, and professional experiences.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the minimum admission materials required by The Graduate School, applicants should submit:

• A statement of purpose, not to exceed two single-spaced pages, that includes:
  • Your research interests, how they developed (including how your volunteer, work, and personal experiences led to your interests), and who on our faculty you would be interested in working with and why.
  • Your career goals.
  • Why UNC Greensboro is a good fit for you and why you are a good fit for UNC Greensboro.
• Three letters of recommendation. Your reference providers are required to write a letter on your behalf in addition to filling out the required form. We also recommend that at least one of your letters of recommendation come from a professor or course instructor.

For best consideration, materials should be provided by December 1 although strong students will be considered on a rolling basis until the class is filled. Admission is for the Fall only and applicants can be admitted as either full-time or part-time students.

## Degree Program Requirements

**Required:** 63 credit hours (90 credit hours without a qualifying master’s degree)

The Ph.D. in Community Health Education requires 63 credit hours beyond an appropriate master’s degree (90 credit hours without a qualifying master’s degree). Students who enter with a master’s degree are required to earn a minimum of 48 credits of course work and 15 credits of dissertation work.

Entering doctoral students who have not completed one or more of the Public Health Core or Health Education Core courses must complete these courses as part of their program in addition to the minimum 63 credit hours (HEA 758 is required for all doctoral students).

- TED 738 Mixed Methods Research Design in Curriculum and Instruction 3

### Electives (15 credits)

Select 15 credits from the following:

- HEA 712 Management of Community Health Organizations 3
- HEA 722 Social Epidemiology 3
- HEA 725 Advanced Community Health Projects 3
- HEA 735 Topics in Community Health Research 3
HEA 740  Global Health Issues
HEA 762  Gender and Health
HEA 776  Problems Seminar
ERM 767  Foundations of Educational Measurement Theory
KIN 745  Seminar: Social Psychology and Physical Activity
PSC 620  Urban and Regional Development Policy

**Dissertation (15 credits)**

HEA 799  Doctoral Dissertation Research  15

Total Credit Hours  63

---

1. **Public Health Core** courses may be waived with an accredited M.P.H./M.S. degree or related degree.
2. HEA 718, HEA 721, and HEA 726 may be waived with an accredited M.P.H./M.S. in Health Education or Health Education-related degree. HEA 758 is a required course for the **Health Education Core**.
3. HEA 758 is required for all doctoral students.
4. Students should work with their advisor and committee to select coursework complementary of expected dissertation method needs. Additional methods courses taken beyond the required courses may count as part of elective requirements.
5. The list provides examples of possible electives. Elective choices should be made under the advisement of the student's doctoral program committee. A minimum of 6 credits of HEA courses is required. Additional methods or professional development courses taken above those required may be counted toward elective requirements.

---

**Health and Wellness Coaching, Post-Baccalaureate Certificate**

The Post-Baccalaureate Certificate in Health and Wellness Coaching prepares students for effective professional practice and the eligibility to apply for a national certifying exam to become a certified health and wellness coach.

For information regarding deadlines and requirements for admission, please see the [Guide to Graduate Admissions](https://grs.uncg.edu/prospective/guide/).

**Certificate Program Requirements**

**Required:** 9 credit hours

Jeffrey Shears, Graduate Program Director, Joint M.S.W.
Jay Poole, Graduate Program Director, Joint Ph.D.

Mission of the Department of Social Work

The mission of the UNC Greensboro B.S.W. Program is to prepare culturally competent, ethical social workers who embody the core social work values as described in the National Association of Social Workers Code of Ethics. These core values include: service, social justice, the dignity and worth of the person, the importance of human relationship, integrity, competence, human rights, and scientific inquiry. Human rights and social justice are key components of what social workers do, and an important part of our mission is for students to apply these values and ethics in their social work practice. We prepare students to engage with others at the intersection of culture, race, gender, and class, to promote healthy functioning for individuals, families, groups, organizations, and communities. Our goal is the transformation of personal history into professional identity through mentoring, teaching, research, and our signature pedagogy – field education. Faculty promote social, economic, and environmental justice through research, engaged scholarship, and collaboration with social services agencies. Learning takes place within an intentional, collaborative community that respects and embraces diversity and promotes inclusion.

Department Goals

1. Prepare graduate and undergraduate students to become competent, engaged social workers who demonstrate the knowledge, ethics, values, and skills of the profession.
2. Prepare graduates to work effectively with diverse and marginalized people.
3. Prepare students to facilitate inclusion at all systems levels—individual, family, group, organization, community, and policy.
4. Create a learning community that respects diversity and encourages the exploration of difference.
5. Increase engagement with social service agencies and other community institutions to promote social change.
6. Conduct change-oriented research to promote social and economic justice.

Mission of the Bachelor of Social Work Program

Our mission is to prepare competent, ethical social workers who will become the backbone of the social services delivery system in the Piedmont Triad and beyond. We prepare students to engage with others at the intersection of person and environment, race, gender, and class, in order to promote healthy functioning for individuals, families, groups, and communities. Our goal is the transformation of personal history into professional identity through mentoring, teaching, our signature pedagogy—field education, research, and engaged scholarship. Learning takes place within an intentional, collaborative community that respects and embraces diversity and promotes inclusion.

The Joint Master of Social Work

The Joint Master of Social Work (M.S.W.) program represents the efforts of faculty at North Carolina Agricultural and Technical State University (NCA&TSU) and The University of North Carolina at Greensboro (UNC Greensboro). This is a single academic program with participation in instruction by faculty from each department. Instruction is conducted on the campuses of both universities. The program is accredited by The Council on Social Work Education and the curriculum has been designed by the joint faculty to provide students with a multicultural clinical social work education. The model for the curriculum is based on CSWE social work competencies and contemporary, state-of-the-art theory and practice methods. The curriculum is organized by generalist year, specialization year, and field instruction. The primary purpose of the M.S.W. program is to prepare students for multicultural clinical social work practice.

Each M.S.W. student completes 1008 hours of internships in community agencies. A 42-credit hour Advanced Standing option is available for highly qualified students who have graduated from a CSWE-accredited B.S.W. Program; these students complete a 672-hour advanced internship.

Gerontology

The mission of the UNC Greensboro Gerontology Program is to teach, apply, and create gerontological knowledge through collaborative relationships with academic disciplines, community organizations, and businesses to enrich the lives of older adults and their families. Graduates are prepared to be leaders in the profession and to serve older adults locally and nationally through the health, business, non-profit, and academic sectors.

Three goals reflect the mission of the Gerontology program:

1. Provide a transdisciplinary curriculum that gives new and seasoned professionals the knowledge and skills necessary for a successful career working with older adults.
2. Facilitate and support opportunities for students to participate in innovative coursework that further their academic and professional goals in the field of gerontology.
3. Provide professional training and experiences in gerontology in order to enhance understanding of and professional practice using research and theories on aging.

Program Administration

The Gerontology Program is proudly housed in the Department of Social Work in the School of Health and Human Sciences.

212 Ferguson Building
www.uncg.edu/gro (http://www.uncg.edu/gro/)

About

The goal of the Gerontology Program is to provide opportunities for learning and practice that create competent and capable gerontologists who meet the needs of the aging population. Students are provided with a scientific, broad and integrated view of aging through collaborative relationships with academic disciplines, community organizations, and businesses in order to approach issues of aging from a truly biopsychosocial perspective. The undergraduate and graduate
programs in Gerontology prepare students for careers in agencies and organizations serving older adults and their families.

The UNC Greensboro Gerontology Program offers an Undergraduate Minor in Gerontology, a Post-Baccalaureate Certificate in Gerontology, and a Master of Science in Gerontology.

**Affiliated Faculty**

**Rebecca G. Adams, Gerontology Undergraduate Coordinator, Professor**  
Elise K Eifert, Gerontology Graduate Coordinator, Assistant Professor

**Undergraduate**  
Rebecca Adams, Gerontology Undergraduate Coordinator  
336-256-1020

The Gerontology Program offers an undergraduate minor in Gerontology that requires 12 credit hours to complete.

Undergraduate students who plan to undertake graduate study at UNC Greensboro, and who need no more than 12 credits of work to fulfill all requirements for the bachelor’s degree, may enroll in the Graduate School. See the Dual Registration in the University Catalog.

**Graduate**  
Elise Eifert, Gerontology Graduate Coordinator  
336-256-1099

A Post-Baccalaureate Certificate and a Master of Science degree in Gerontology are offered through the Gerontology Program. The graduate programs are fully online and tailored to working, adult learners. Programs are flexible and practitioner oriented with a focus on authentic learning and developing practical knowledge and skills for the job market.

The Post-Baccalaureate Certificate in Gerontology curriculum provides students enrolled at UNC Greensboro in another degree earning program with the opportunity to link their primary discipline with Gerontology. The P.B.C. requires a minimum of 12 credit hours of course work. Visit the P.B.C. program page at [https://catalog.uncg.edu/health-human-sciences/social-work/gerontology-pbc/](https://catalog.uncg.edu/health-human-sciences/social-work/gerontology-pbc/) (p. 694) for information about applying and admission and the certificate requirements.

The Master of Science in Gerontology curriculum provides the professional foundation necessary to prepare students for practice as a Gerontologist. Courses are designed to provide students with opportunities to master core competencies in the Gerontology discipline according to the Academy for Gerontology in Higher Education. The M.S. requires a minimum of 30 credit hours of course work. Visit the M.S. program page at [https://catalog.uncg.edu/health-human-sciences/social-work/gerontology-ms/](https://catalog.uncg.edu/health-human-sciences/social-work/gerontology-ms/) (p. 690) for information about applying and admission and the degree requirements.

**Social Work, B.S.W.**

The purpose of the Social Work major is to prepare students for entry level generalist practice in social work. This is a professional program of study which is strongly grounded for the first two years in liberal arts; the second two years focus on the professional curriculum. The program prepares students for work with individuals, families, groups, organizations and communities.
Accreditation
The program is accredited by the Council on Social Work Education for an eight-year period ending in June 2029.

Admission to the Social Work Major
The student who wishes to formally declare Social Work as a major should consult with the Undergraduate Program Director. Admission is competitive and limited. Decisions concerning admission are announced by January 1 and are effective with the beginning of the spring semester. Admission to the major is based upon the criteria listed below.

1. Required courses
   Satisfactory completion of the courses listed below with a grade of C or higher.
<table>

6. Application process
   An application process and approval of the Director of Field Instruction

General Information
Admission to the university does not constitute acceptance to the department. Academic credit is not awarded for life or work experience. Community social work agencies cooperate with the Department of Social Work in providing field work experiences for the students. The number of students placed for field instruction is determined by the availability of these resources. At times, there may not be an approved site for student placement and there may be delay in meeting that part of the graduation requirements.

Students enrolled in the practice sequence are individually responsible for their own transportation to and from community agencies. Students are required to provide proof of liability and malpractice insurance. Malpractice insurance information is available in the departmental office.

Students who fail to enter senior year field instruction within two years of completion of all Bachelor of Social Work foundation courses* must reapply for admission to the social work program. The Director of the Bachelor of Social Work program in consultation with the student and faculty will decide what social work courses, if any, must be repeated prior to reapplying for admission to field instruction.

Students who enter field instruction and fail to successfully complete it must reapply for admission to field instruction within two years of completion of all Bachelor of Social Work foundation courses*. If more than two years elapse, the student must reapply for admission to the social work program. Students who have previously entered field instruction and have not successfully completed it may only reapply once for readmission.

* Social work majors who take the SWK course instead of STA course will need to also take a general math course to meet the MAC requirement. MAT 112 is recommended.

** All students must establish elementary competence in culture and human diversity. To do so, a student may establish foreign language proficiency (through 102) at the elementary level (0-6 credits) or complete 6 credits in course work chosen from the courses listed.

Optional Concentration

The optional concentration as detailed following the major requirements may be added, but is not required.

• Social Work with Special Subject-Area Licensure in School Social Work

Electives

Electives sufficient to complete the 120 credit hours required for the degree.

Social Work with Special Subject-Area Licensure in School Social Work Concentration Requirements

Students intending to become licensed for school social work by the Department of Public Instruction need to complete the licensure program which has been developed with the School of Education (see School of Education Licensure Programs).

In addition to completing the requirements for the social work major, the student must be admitted to the Teacher Education Program, have
a minimum cumulative 3.0 GPA, and successfully complete the courses listed below.

Field Instruction courses must be taken in a school social work setting.

Licensure for school social work is granted by the North Carolina Department of Public Instruction. Students interested in School Social Work Licensure should contact the advisor for School Social Work Licensure in the Department of Social Work.

### Disciplinary Honors in Social Work

#### Requirements
- A minimum of 12 credit hours as defined below.
- UNC Greensboro cumulative GPA of 3.30 or better or, for transfer students, cumulative GPA of 3.30 or better from all prior institutions.

#### Recognition
Receive a Certificate of Disciplinary Honors in Social Work; have that accomplishment, along with the title of the Senior Honors Project, noted on the official transcript; and be recognized at a banquet held at the end of the spring semester.

#### Honors Advisor
Contact Daniel Rhodes at dtrhodes@uncg.edu for further information and guidance about Honors in Social Work. To apply: http://honorscollege.uncg.edu/forms/disc-application.pdf

### Gerontology Undergraduate Minor

The Gerontology minor is designed for undergraduates with any major who are interested in a career in aging or personally interested in the topic. This minor should be of special interest to undergraduates planning to pursue careers in the allied health fields, with businesses or non-profits providing services or products to older adults and their families, or after attending graduate school, as researchers in their respective fields.

Students will learn to locate information relevant to the aging experience and communicate it effectively to others, describe the variety of aging experiences, analyze current opportunities and constraints on how people age, and interpret data and apply theories of aging to gain perspective on their own futures as older adults and to identify areas for change.

Working with the Gerontology Undergraduate Coordinator and their major advisors, students will have an opportunity to complete a program of study customized to help them meet their own career or personal goals. Many of the courses, including GRO 201 Envisioning Your Old Age (the only required course), are offered online and, with planning, it is possible to complete the minor entirely online.

### Overall Requirements

The Gerontology minor consists of four 3-credit courses, one of which is required (GRO 201) and none of which can count as credit towards the major.

### Program Requirements

- Minimum of 12 credit hours

Gerontology, M.S.

The M.S. in Gerontology is a fully online program requiring 30 credit hours of course work including a capstone with field experience.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a personal essay elaborating on their experience and/or interest in working with older adults.

Accelerated B.A. or B.S. to M.S. in Gerontology

Application and Admission

Undergraduate students at UNC Greensboro may apply for admission to the Accelerated Master's Program (AMP) in Gerontology. A cumulative undergraduate GPA of at least 3.5, based on at least 30 credits earned at UNC Greensboro is required. Applicants must have completed at least 60 credits and may not apply for admission to the AMP before the first semester of the junior year.

All applicants must complete the standard application requirements for the M.S. in Gerontology program including three letters of recommendation and a statement of purpose. Applicants to the AMP must also submit an academic writing sample and a resume.

Courses

Up to, but not more than, 12 credits of graduate courses may be double-counted. For a course to apply toward both degrees, the student must earn a grade of B (3.0) or better in the course and fulfill graduate-level requirements.

The M.S. degree requires 30 credits of graduate-level course work. If the maximum of 12 credits is double-counted toward both the undergraduate and graduate degrees, the student must complete a minimum of 18 credits of further graduate-level course work to complete the M.S. degree.

Please see the University Catalog for a full description of the M.S. degree requirements.

The following courses may be counted toward both an undergraduate degree and the M.S. in Gerontology degree. All courses leading to the completion of the M.S. degree must be approved by the GRO Graduate Program Coordinator.

Please consult with an advisor to determine how courses taken at the graduate level will meet requirements in the bachelor's degree program. All degree requirements for the M.S. in Gerontology remain the same.

Social Work, M.S.W., offered jointly with North Carolina A&T State University

Program Goals

Four program goals reflect the mission of the Joint Master of Social Work program in three complementary areas: the provision of a quality master's level social work curriculum, service to the people of North Carolina, and scholarship.

• Create an intentional learning community which recognizes, understands, supports, and honors diversity and difference, especially for students from oppressed groups.
• Prepare graduates to engage in culturally-competent, effective, ethical, multiculturally-competent clinical practice.
• Collaborate with consumers and colleagues to promote social and economic justice and improve the lives of the people of North Carolina and beyond.
• Conduct and disseminate community-engaged scholarship which contributes to the knowledge base of the profession and promotes effective social work practice.

Curriculum Plan

The Joint Master of Social Work program with the Department of Sociology and Social Work at NCA&TSU offers two-year and advanced standing program options. Students in the full-time two-year option complete 60 credit hours of course work. The advanced standing option requires 42 credit hours in one calendar year. All students must complete courses in the prescribed sequence to progress successfully to completion of the degree program.

The curriculum design of the program provides students with a theoretical and applied education in social work to enhance and promote multicultural clinical social work practice. The program is organized to insure that all students, as advanced social work practitioners, will be prepared to independently engage in clinical social work practice with individuals, families, and small groups, and to work effectively within organizations and communities around issues of social justice and access to services.
Generalist Year Curriculum
In the generalist curriculum, students complete 30 credits of course work. Students complete courses in social work and social welfare policy, social work practice and human diversity, social work practice with individuals, social work practice with groups, and family theory and intervention. Students also complete courses on foundations of clinical social work practice, social work and social justice, social work research methods, and two generalist field instruction and seminar courses. The purpose of the generalist course work is to prepare students for the specialization curriculum.

Specialization Curriculum
In the specialization curriculum, students complete an additional 30 credits of course work. Students complete two courses in advanced social work clinical practice, an advanced research course, and a course on organizational practice from a clinical perspective. They also complete two semesters of advanced field instruction and seminar. Students also complete two graduate-level electives, which must be approved by the student’s educational advisor.

Advanced Standing Option
Advanced Standing students have been admitted into Advanced Standing with a B.S.W. degree and complete 42 credits of graduate course work to obtain the M.S.W. They begin their graduate course work in the summer taking 12 credits of course work. This course work builds a content bridge between B.S.W. course work and the specialization year curriculum of the M.S.W. program.

School Social Work Licensure
Students intending to become licensed at the graduate level for school social work by the North Carolina Department of Public Instruction need to complete the Licensure Program, which has been developed with the School of Education.

In addition to completing the requirements for the JMSW Program, the student must be admitted to the Teacher Education Program and successfully complete SWK 651 Advanced School Social Work. The advanced year field instruction (SWK 640 Field Instruction III and SWK 647 Field Instruction IV) must be taken in a school social work setting. Graduate licensure in school social work is granted by the North Carolina Department of Public Instruction. Students interested in school social work licensure should contact the school social work coordinator in the Department of Social Work.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

A Joint Admissions Committee comprised of faculty members from UNC Greensboro and NCA&TSU review applications and recommend applicants for admission. The review process ensures a consistent and fair evaluation of applicants.

In addition to the application materials required by The Graduate School, applicants must submit a personal statement, a case analysis, a Volunteer/Work Experience form, and show evidence of a liberal arts foundation that includes 18 credits of Social and Behavioral Sciences (political science, psychology, anthropology, economics, ethnic/global studies, history and sociology); 6 credits of Humanities; 3 credits of Human Biology or Human Development; and 3 credits of Statistics.

Applicants must demonstrate intellectual and personal qualifications considered essential to the successful practice of social work, such as sensitivity and responsiveness in relationships, concern for the needs of others, adaptability, good judgment, creativity, integrity, and skill in oral and written communication.

The M.S.W. program does not grant academic credit for life or work experience. Only students who have been admitted to the program may take social work courses. Specific policies governing student progression in the program may be found in the JMSW Student Handbook and in the JMSW Field Instruction Manual.

Applicants to the Advanced Standing option must have earned a Bachelor of Social Work degree from a Council on Social Work Education accredited program within the past 10 years, have a GPA in social work courses of 3.5 or better, and provide a recommendation from his/her B.S.W. field supervisor (as one of the three recommendations required).

Degree Program Requirements

School Social Work Licensure

Students intending to become licensed at the graduate level for school social work by the North Carolina Department of Public Instruction need
Social Work, Ph.D., offered jointly with North Carolina A&T State University

North Carolina Agricultural and Technical State University and UNC Greensboro offers a joint doctoral degree in social work (JPhD). Grounded in two richly historic universities, one a historically Black college or university (NCA&TSU) and the other the historical women’s college of the University of North Carolina system (UNC Greensboro), the program is built on the cornerstones of diversity, multicultural responsiveness, and community engagement. Students in the program will receive the benefits and privileges of being enrolled on both campuses and the degree will include the seals and official signatures from both universities. The curriculum encourages students to explore several aspects of research including quantitative, qualitative, and community-engaged approaches. Additionally, students are encouraged to use electives to explore other areas or specialization in a particular area. Using the teacher/scholar model, the JPhD program encourages students to prepare for careers in academia and as leaders in the community.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

Applicants to the Joint Ph.D. in Social Work must have earned a master’s degree in social work from an accredited institution and demonstrate potential for doctoral studies.

In addition to the materials required by The Graduate School, applicants must submit:

- GRE scores (if requesting a waiver, explain why in the personal statement)
- A resume/cv that demonstrates the student’s:
  - Education
  - Substantive areas of expertise or interest
  - Professional positions
  - Teaching or training experiences
  - Research or grant experiences
  - Professional publications and presentations
  - Professional affiliations, honors, awards
  - Service
- A personal statement describing their:
  - Professional goals
  - Previous professional/academic experience as evidence of potential for engaging in doctoral-level scholarship
  - Interest in the Joint Ph.D. in Social Work program
  - Research interest they would like to pursue in the doctoral program and a tentative plan for research
  - A sample of professional writing that demonstrates intellectual potential such as:
    - Research proposal
    - Grant application
    - Professional report or publication
  - Three academic or professional references that attest to the student’s academic ability, nature of work performance, commitment to social work values, and ability to conduct scholarship
  - An interview may be required

Electives (12 credits)
Select 12 credits of elective courses ** 12

Dissertation (15 credits)
SWK 799 Dissertation 15

Total Credit Hours 48

* Students should work with their advisor and committee to select course work that facilitates their dissertation method needs. Additional methods courses taken beyond the required credits may count as part of the electives requirement.

** Students should meet with their advisor to select courses that meet their professional interests and development. Students may select courses from UNC Greensboro and NC A&T to fulfill the electives requirement. SWK 885 may be repeated one time for a total of 6 credits.

NC A&T courses that may count as an elective include:
- ADED 716 Research in Adult Education
- COUN 770 Applied Research in Counseling
- COUN 810 Descriptive & Inferential Statistics
- COUN 830 Design Methodology & Implementation
- COUN 865 Analysis of Qualitative Research
- LEST 815 Research Design and Methodology
- LEST 860 Qualitative Research
- LEST 862 Quantitative Research

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by the Graduate School, applicants must submit a personal essay elaborating on their experience and/or interest in working with older adults.

Students wishing to pursue the certificate in gerontology while pursuing a graduate degree should consult with the Gerontology Graduate Coordinator and with the department of interest.

Gerontology, Post-Baccalaureate Certificate
The Post-Baccalaureate Certificate in Gerontology is a fully online program requiring 12 credit hours of course work. The program provides an opportunity for those who have completed a bachelor’s degree in another field to obtain a greater understanding of theory and research related to aging and to gain the knowledge needed to better serve older adults in fields such as human services, health and wellness, and recreation. The program must be successfully completed during four academic years. Courses fulfilling the certificate program may be used to meet requirements in a degree program in accordance with the policies of the Graduate School.
JOINT SCHOOL OF
NANOSCIENCE AND
NANOENGINEERING

2907 East Gate City Blvd., Greensboro, NC 27401

jsnn.ncat.uncg.edu/ (http://jsnn.ncat.uncg.edu/)

Administration
Sherine Obare, Dean
Yirong Mo, Chair
Dennis LaJeunesse, Graduate Program Director

About
The Joint School of Nanoscience and Nanoengineering (JSNN) is a collaboration of North Carolina A&T State University and The University of North Carolina at Greensboro. JSNN's research and educational programs focus on the emerging areas of nanoscience and nanoengineering. The strengths of the two universities in the basic sciences and in engineering make them ideal partners for this new, interdisciplinary school. JSNN faculty and students will be able to access laboratories and classrooms at NC A&T, UNC Greensboro as well as the leading edge JSNN faculty at the University Research Park.

Nanotechnology is often referred to as convergent technology because it utilizes knowledge from a diverse array of disciplines including biology, chemistry, physics, engineering, and technology. Nanotechnology is rapidly becoming a large part of the world's economy, generating an array of materials, technologies, and new products. JSNN's Master of Science in Nanoscience and Ph.D. in Nanoscience degree programs have been developed to meet the need for trained professionals in the emerging high technology industries using nanotechnology.

JSNN has six research focus areas—nanobioscience, nanometrology, nanomaterials (with special emphasis on nanocomposite materials), nanobioelectronics, nanoenergy, and computational nanotechnology. These technical areas will afford numerous opportunities for collaboration with industrial partners.

Mission
The mission of the Nanoscience Department in the Joint School of Nanoscience and Nanoengineering is to prepare students from a variety of backgrounds to conduct interdisciplinary fundamental, applied, and translational Nanoscience research, and support a collaborative research environment that leverages transdisciplinary research platforms.

- Nanoscience, M.S. (p. 696)
- Nanoscience, Ph.D. (p. 697)
- Advanced Materials, Post-Baccalaureate Certificate (p. 699)
- Analytical Instrumentation, Post-Baccalaureate Certificate (p. 699)
- Medical Science, Post-Baccalaureate Certificate (p. 699)
- Nanoscience, Post-Baccalaureate Certificate (p. 700)
- Synthetic Biology, Post-Baccalaureate Certificate (p. 700)
Nanoscience, M.S.

The 31 credit hour, non-thesis, online M.S. in Nanoscience follows the Professional Science Master’s degree model, featuring course work in nanosciences and business and an internship to provide practical experience. It is designed for students with strong backgrounds in technical fields who seek additional specialized training to qualify them for positions in companies that work in the field of nanotechnology.

The on-campus M.S. in Nanoscience Thesis Option is a 31 credit hour program that includes the completion of a 6 credit thesis. Students are expected to start their research project during their first year in the program.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a personal statement indicating their interest in the program and a current Curriculum Vitae.

Qualified applicants will have a B.S. degree in an area related to nanoscience (physics, chemistry, biology, mathematics, computer science, or engineering).

**Nanoscience Elective Courses (3 credits)**

Select 3 credits of electives from NAN graduate courses *  3

**Nanoscience Instrumentation Elective Courses (9-11 credits)**

Select three courses (9-11 credits) from the following: **  9-11

- NAN 604  Nanotechniques
- NAN 615  Introduction to Spectroscopy Methods in Nanoscience
- NAN 623  Optical Microscopy for Nanoscience
- NAN 624  Particle Beam Microscopy for Nanoscience
- NAN 625  Molecular Biology in Nanosciences
- NAN 630  Advances in Nano-Biosensors

**Nanoscience Scientific Ethics (1 credit)**

- NAN 710  Scientific Integrity  1

**Nanoscience Practicum (3 credits)**

- NAN 618  Lab Protocols and Practice  3

**Science Communications (3 credits)**

- NAN 619  Science Communications  3

**Internship/Practicum (Capstone Experience) (3 credits)**

- NAN 698  Professional MS in Nanoscience Internship  3

Total Credit Hours  31

* Students may select relevant courses from outside NAN in consultation with their committee/advisor.

** Or other courses approved by the student’s committee/advisor.

### Nanoscience, Ph.D.

The Ph.D. in Nanoscience requires a minimum of 49 credit hours and is designed to prepare students to take positions in industrial, governmental, or academic research settings by providing a solid background in nanoscience theory and experimental techniques through course work and dissertation research. Advanced elective courses in nanoscience areas ensure students will have substantial depth of understanding in their area of interest and enable them to effectively carry out advanced nanoscience research.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a personal statement indicating their interest in the program and a current Curriculum Vitae.

Qualified applicants with a B.S. degree in an area related to nanoscience (physics, chemistry, biology, mathematics, computer science, or engineering) and, as a minimum, completed calculus through differential equations may apply to the Ph.D. program.

### Degree Program Requirements

**Required: 49 credit hours**

**Advanced Nanoscience Courses (12 credits)**

Select one concentration option (12 credits) from the following:  12

**Without a concentration**

- NAN 727  Principles of Quantum and Solid State Physics
- NAN 729  Mathematical Methods in Modeling Complex Systems
NAN 731 Systems and Synthetic Biology
NAN 732 Nanomaterials Chemistry
NAN 733 Physical Biology
Two approved elective courses (6 credits)

Synthetic Biology Concentration

NAN 731 Systems and Synthetic Biology
NAN 732 Nanomaterials Chemistry
NAN 733 Physical Biology
Two approved elective courses (6 credits)

Material Science and Nanomaterials Concentration

Additional Required Courses (13 credits)
NAN 707 Lab Protocols and Practice 1 6
NAN 708 Science Communications 1 6
NAN 710 Scientific Integrity 1

Dissertation Research (18-30 credits)
NAN 790 Doctoral Research 2 6
NAN 799 Nanoscience Dissertation Research 3 12-24

Total Credit Hours 49

1 Students must complete NAN 707 and NAN 708 twice each for a total of 6 credits each.
2 Students must take NAN 790 twice for a total of 6 credits.
3 Students must complete a minimum of 12 credits in NAN 799.

Materials Science and Nanomaterials Concentration

Required Courses (6 credits)
Select two courses (6 credits) from the following: 6
NAN 727 Principles of Quantum and Solid State Physics
NAN 729 Mathematical Methods in Modeling Complex Systems
NAN 732 Nanomaterials Chemistry

Elective Courses (6 credits)
Select two courses (6 credits) from the following: * 6
NAN 728 Nanotechniques
NAN 748 Macromolecular and Supramolecular Chemistry
NAN 749 Introduction to Spectroscopy Methods in Nanoscience
NAN 755 Biomimetics and Biomaterials
NAN 762 Nanoscale Reactions
NAN 764 Materials, Syntheses, and Processes by Design
NAN 771 Computational Quantum Nanochemistry

Total Credit Hours 12

* Or elective course approved by the student’s committee and advisor.

Synthetic Biology Concentration

Required Courses (6 credits)
Select two courses (6 credits) from the following: 6
NAN 731 Systems and Synthetic Biology
NAN 732 Nanomaterials Chemistry
NAN 733 Physical Biology

Elective Courses (6 credits)
Select two courses (6 credits) from the following: * 6
NAN 750 Nanomedicine

* Or elective course approved by the student’s committee and advisor.

Required Milestones*

- Residency (Immersion)
- Plan of Study
- Research Competency
- Comprehensive Exam (Written & Oral)
- Dissertation Proposal
- Admission to Candidacy
- Dissertation Defense
- Filing the Final Approved Dissertation
- Publication of at least one Peer-Reviewed Manuscript
- Annual Committee Meetings
- Attendance and Participation in Departmental Seminar Program

* General information about milestones for doctoral programs is available in Section III (p. 807) of the Graduate Policies (p. 788) page in the University Catalog. For information about how milestones are accomplished for a specific program, please refer to the doctoral program’s handbook.

Accelerated B.S. in Physics to Ph.D. in Nanoscience

Application and Admission
Qualified UNC Greensboro undergraduate students who are pursuing the B.S. in Physics may apply for admission to the accelerated B.S. to Ph.D. in Nanoscience. A cumulative undergraduate GPA of at least 3.5 based on at least 30 credits earned at UNC Greensboro is required. Students must also maintain a 3.5 GPA in the courses listed under Major Requirements and Additional Area Requirements in the undergraduate program. Applicants will be required to take the Graduate Record Examination (GRE) during the second semester of their junior year. Applicants must have completed at least 60 credits before applying for admission to the accelerated program. During the summer after their junior year applicants will complete the accelerated program information when applying for admission to the Ph.D. degree program.

Admitted students may apply the following 12 credits of graduate-level course work toward completion of both the undergraduate and graduate degree, provided that they earn a grade of B (3.0) or better in each course and fulfill graduate-level requirements:

<table>

* Or elective course approved by the student’s committee and advisor.
Please consult with an advisor to determine how the courses taken at the graduate level will meet requirements in the bachelor’s degree program.
All degree requirements for the Ph.D. in Nanoscience remain the same.

## Advanced Materials, Post-Baccalaureate Certificate

Advanced materials are engineered materials with designated properties created by specialized process and synthesis technology, and involves nanomaterials which are materials "with any external dimension in the nanoscale or having internal structure or surface structure in the nanoscale." The study of advanced materials has touched all aspects of human life and is a growing and active field. Advanced materials require a broad knowledge in chemistry, biology, physics, materials science, and engineering. The Post-Baccalaureate Certificate in Advanced Materials program allows students with STEM bachelors degrees to understand the fundamental concepts in advanced materials and prepare them for their future careers related to this ever-expanding field.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

A baccalaureate degree in Chemistry, Physics, Engineering, Biology, or a closely related STEM field.

### Certificate Program Requirements

## Analytical Instrumentation, Post-Baccalaureate Certificate

Analytical instrumentation concerns quantitative measurements that are required in every area of science, engineering, and technology. It has been at the heart of scientific advances particularly in the fields of nanoscience and nanotechnology and will continue to dominate in the future. The Post-Baccalaureate Certificate in Analytical Instrumentation program is designed to provide basic knowledge and skills to students and train them for careers in research in academia, industry, government labs, hospitals, and other technologically oriented enterprises.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

A baccalaureate degree in Chemistry, Physics, Engineering, Biology, or a closely related STEM field.

## Medical Science, Post-Baccalaureate Certificate

Medical science concerns human health and there is a growing interest in health-related studies. The Post-Baccalaureate Certificate in Medical Science program allows students with STEM bachelors degrees to understand the fundamental concepts in medical science and prepare them for their future careers related to this ever-expanding health-related field.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

A baccalaureate degree in Chemistry, Physics, Engineering, Biology, or a closely related STEM field.

Nanoscience, Post-Baccalaureate Certificate

Nanoscience is the study of small things and advances in this field are making it possible to create innovations such as ultra-small senses, advanced drug delivery systems and novel materials. Nanoscience requires a broad knowledge in chemistry, biology, physics, materials science, and engineering. The Post-Baccalaureate Certificate in Nanoscience program allows students with STEM bachelors degrees to continue their study and understand the fundamental concepts in nanoscience and prepare them for their future careers related to this ever-expanding field.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

A baccalaureate degree in Chemistry, Physics, Engineering, Biology, or a closely related STEM field.

Total Credit Hours 12

* Transfer courses may not be used to satisfy the certificate requirements.

** With the approval of the department chair or the Graduate Program Director.

Synthetic Biology, Post-Baccalaureate Certificate

Synthetic biology involves redesigning biological systems such as enzymes for useful purposes by engineering them to have new abilities and functions. It can be used to find solutions in medicine, manufacturing, and agriculture. The Post-Baccalaureate Certificate in Synthetic Biology program allows students with STEM bachelors degrees to understand the fundamental concepts in synthetic biology and prepare them for their future careers related to this ever-expanding field.
SCHOOL OF NURSING

Nursing and Instructional Building
1007 Walker Avenue
Greensboro, NC 27412
336-334-5400
http://nursing.uncg.edu

Administration
Debra J. Barkdale, Dean
Heidi V. Krowchuk, Associate Dean for Academic Programs
Lynne P. Lewallen, Associate Dean for Academic Affairs
Audrey Snyder, Associate Dean for Experiential Learning and Innovation
Debra Wallace, Senior Associate Dean for Research and Innovation
Carrie Hill, Director of the RN-B.S.N. Program
Catherine Sykes, Director of the Pre-licensure B.S.N. Program
Peggy Trent, Graduate Program Director for the M.S.N. Program
Lori Lupe, Graduate Program Director for the D.N.P. Program
W. Richard Cowling, Interim Graduate Program Director for the Ph.D. Program
Kelly Stamp, Department Chairperson, Family and Community Nursing
Pamela Johnson Rowsey, Department Chairperson, Adult Health Nursing

Mission
At the UNC Greensboro School of Nursing we are taking giant steps anchored by transformation and focused on: Inclusive Communities, Passionate People, Innovative Practices and Extraordinary Outcomes.

The School of Nursing offers an undergraduate program leading to the Bachelor of Science in Nursing degree. The first two years of study are in general education, basic sciences, humanities, and basic nursing. The majority of work in the junior and senior years is in nursing. An RN-BSN program is offered for Registered Nurses who hold an Associate's degree or Diploma in Nursing.

The School of Nursing offers a Master of Science in Nursing degree. The pre-licensure BSN program offered by the School of Nursing is approved by the North Carolina Board of Nursing.

The School of Nursing offers a Master of Science in Nursing degree to prepare persons for a leadership role in nursing education and nursing leadership and management. The School, along with the Bryan School of Business and Economics, offers the M.S.N./M.B.A. The School of Nursing offers the Doctor of Nursing Practice to prepare advanced practice nurses and executive nurse leaders. The School of Nursing offers the Ph.D. in Nursing to prepare nurses as scientists in academia and industry.

Philosophy
The philosophy of the faculty at the School of Nursing is a statement of the beliefs and values they hold about the discipline and profession of nursing, as well as nursing education. The conceptual framework and the goals of the undergraduate and graduate programs are built upon this philosophy. Nursing is both a practice discipline and a profession. Comprising the discipline is a unique body of knowledge that is integral to nursing practice, nursing education, and nursing leadership and management. The body of knowledge is continuously developed and refined as an outcome of scientific, historical, philosophical, and ethical inquiry. Nursing knowledge is generated about health experiences and behaviors of persons across the life span. Testing and validation of interventions used in nursing practice generates evidence to support best practices. The metaparadigm concepts of person, environment, health, and nursing form the foundation upon which inquiry and the profession are based.

Nurses use knowledge developed by the discipline to promote optimal health in people and to achieve professional goals. Nursing is an essential component of the health care delivery system and includes the provision of care for those with illness, disease, or dysfunction. Professional nursing is characterized by inquiry, caring, and practice. Nurses are professionally, ethically, and legally accountable for the care they provide, and their practice includes independent and collaborative functions.

Nursing education is built upon a foundation of a broad general education and professional nursing curriculum that provides opportunities for learners to attain knowledge and competencies required to practice nursing. Mature learners identify their own learning needs and assume responsibility for continued learning. Effective teachers establish a learner-centered environment that promotes collaboration among themselves and their learners for achievement of educational goals. Baccalaureate education prepares nurses to practice as generalists, while specialty education at the master's level prepares nursing administrators and educators. At the doctoral level, nurses are prepared as scientists to practice in academia and industry and as advanced practice nurses for delivery of healthcare.

Undergraduate

About
The School of Nursing offers a pre-licensure undergraduate program leading to the Bachelor of Science in Nursing Degree. The first two years of study are in general education, basic sciences, and humanities. The majority of the work in the junior and senior years is in nursing. A Veterans’ Access Program (VAP) is also offered, leading to the Bachelor of Science in Nursing degree. Additionally, the School offers a Registered Nurse to B.S.N. program, where licensed RNs prepared at the diploma or associate degree level can earn a Bachelor of Science in Nursing.

Accreditation
The pre-licensure BSN program offered by the School of Nursing is approved by the North Carolina Board of Nursing.

The Bachelor of Science in Nursing program at UNC Greensboro is accredited by the Commission on Collegiate Nursing Education (http://www.ccneaccreditation.org).

Please see complete details on School of Nursing admission, policies, requirements, programs, and courses.

Students are responsible for all costs associated with their own health care. Students are required to have health insurance through a private source or through the option offered by the University. Students are responsible to provide their own transportation to clinical experiences.

Graduate

About
The School of Nursing offers the Master of Science in Nursing degree program which is designed to prepare persons for leadership roles in nursing education and nursing leadership and management. The School of Nursing also offers two Doctoral degrees—the Doctor of Nursing Practice and the Doctor of Philosophy. The Doctor of Nursing Practice program is designed to prepare advanced practice clinicians and executive nurse leaders. The Doctor of Philosophy program prepares nurse scientists for roles in academia and industry. Admission by
The Graduate School does not guarantee admission to a specific concentration.

Accreditation(s)

The Master of Science of Nursing and the Doctor of Nursing Practice programs at UNC Greensboro are accredited by the Commission on Collegiate Nursing Education (http://www.ccneaccreditation.org).

The Nurse Anesthesia concentration of the Doctor of Nursing Practice program is also accredited by the Council on Accreditation of Nurse Anesthesia Educational Programs, 222 South Prospect Ave., Suite 304, Park Ridge, IL 60068-4010, phone 847-655-1160, http://coacrna.org.

Graduate Programs

- Post-Baccalaureate Certificate in Nursing, Nursing Leadership and Management, or Nursing Education
- Master of Science in Nursing, M.S.N. with Nursing Leadership and Management concentration or Nursing Education concentration
- Master of Science in Nursing/Master of Business Administration, M.S.N./M.B.A. in Health Management [Offered jointly by the School of Nursing and the Bryan School of Business and Economics.]
- Doctor of Nursing Practice, D.N.P. with Adult/Gerontological Primary Care Nurse Practitioner concentration, Post-Baccalaureate; Nurse Anesthesia concentration, Post-Baccalaureate; or Post-Master
- Doctor of Philosophy, Ph.D. in Nursing

Enrollment Requirements for All Graduate Nursing Students

- Evidence of current liability insurance coverage appropriate to concentration or program.
- A three hour chemistry course for anesthesia concentration.
- Competency in basic health assessment prior to NUR 651, NUR 713, NUR 713L, and NUR 771A/NUR 771B.
- Completion of statistics course prior to enrollment in NUR 705 or NUR 715.
- An approved criminal background check prior to enrollment in clinical courses, including NUR 614, NUR 651, NUR 713, NUR 713L, NUR 742, NUR 771A/NUR 771B, and NUR 790.
- Satisfactory completion of Advanced Cardiac Life Support (ACLS) for nurse anesthesia students. All other concentrations require Basic Life Support (BLS) prior to enrollment in clinical practica.
- Evidence of all immunizations identified on Parts A and B of the UNC Greensboro Health History and Immunization Form, excluding the meningococcal vaccine.
- Other requirements, for example, influenza vaccine and drug screens, may be necessary to meet contractual agreements with affiliating clinical agencies.

Prior to enrollment in directed research, clinical courses, internships, or project/thesis/dissertation coursework, students must provide evidence of current unrestricted North Carolina licensure as a registered nurse or unrestricted RN licensure in a state covered by the multi-state Nurse Licensure Compact. Students who are residents of North Carolina must hold unrestricted North Carolina licensure as a registered nurse.

Students should provide evidence of nursing licensure and BLS to the School of Nursing Office of Student Affairs and evidence of health history and immunizations to the UNC Greensboro Student Health Services. Copies of all records, including immunizations, should be retained by the student to submit to the School of Nursing credentialing system prior to enrollment in clinical courses.

Students are responsible for all costs associated with their own health care. Students are required to have health insurance through a private source or through the option offered by the University. Students are responsible to provide their own transportation to clinical experiences.

Physical and/or Emotional Problems That Do Not Respond to Treatment

Students in any program can be dismissed from the School of Nursing for physical and/or emotional problems that do not respond to appropriate treatment and/or counseling within a reasonable period of time.

Investigation and Evaluation

When faculty members identify a student who presents physical and/or emotional problems that do not respond to appropriate treatment and/or counseling, they immediately suspend the student from the course. Faculty notify the Course Chair and/or Program Director within the School of Nursing. Upon determination by the faculty, Course Chair and Program Director, that the physical and/or emotional problems warrant dismissal from the School of Nursing, the Dean will be notified.

The Dean, in consultation with the faculty, and upon review of the documentation, will make a decision regarding recommending dismissal of the student from the School of Nursing.

The Dean of Nursing will send to the Vice Provost for Graduate Education, written notification of the recommendation. If the Dean of Nursing recommends dismissal from the School of Nursing, the Vice Provost of the Graduate School will notify the student. Should the student wish to appeal the decision, the student will submit a written request to the School of Nursing Appeals Committee. The Dean of Nursing will provide to the committee the accumulated correspondence or documentation related to the issue.

A request for an appeal should occur within seven working days of written notification of the decision from the Vice Provost for Graduate Education.

Hearing Process

The chairman of the School of Nursing Appeals Committee will thereafter notify the student, the faculty member, Course Chair and Program Director as to the time and place for a hearing to determine whether the physical and/or emotional problems warrant dismissal.

The Committee will hold a closed hearing within ten days at which time the faculty member, Course Chair and Program Director will be present and will provide documentation and other oral or written evidence regarding the incident. The student will be present and will be given an opportunity to provide documentation and other oral or written evidence regarding the problem. The student will be allowed an advocate/support person at the hearing; however, the support cannot speak and cannot be an attorney.

Following the factual presentation, the Committee will convene in executive session to determine whether the problem warrants dismissal from the School.

The Committee shall make its recommendation in writing to the Dean of Nursing and forward pertinent documentation. The Committee may recommend dismissal from the School of Nursing major, or reinstatement in the program.
Post Hearing Process
The Dean of Nursing may accept, reject, or modify the Committee's recommendation. The Dean's decision will be made after review of the minutes of the hearing and report to the Committee. If the Dean of Nursing accepts the Committee's recommendation to dismiss the student from the School of Nursing, the recommendation will be forwarded to the Vice Provost for Graduate Education who will notify the student. The Dean of Nursing will notify the faculty member(s) as to the determination.

A student who has been dismissed may reapply for admission to the School of Nursing.

Policy on Unsafe Practice
The nursing faculty of the School of Nursing have an academic, legal, and ethical responsibility to prepare graduates who are competent as well as to protect the public and health care community from unsafe nursing practice. It is within this context that students can be disciplined or dismissed from the School of Nursing for practice or behavior which threatens or has the potential to threaten the safety of a client, a family member or substitute familial person, another student, a faculty member, or other health care provider.

Student Awareness
All students are expected to be familiar with the principles of safe practice and are expected to perform in accordance with these requirements. Within courses, counseling and advising processes, and other instructional forums, students will be provided with the opportunity to discuss the policy and its implications.

Definition
An unsafe practice is defined as:
An act or behavior of the type which violates the North Carolina Nursing Practice Act, Article 9 of Chapter 90 of the North Carolina General Statutes (NCGS 90-171.37; 90-171.44).
An act or behavior of the type which violates the Code of Ethics for Nurses of the American Nurses Association.
An act or behavior which threatens or has the potential to threaten the physical, emotional, mental or environmental safety of the client, a family member or substitute familial person, another student, a faculty member or other health care provider. For prelicensure undergraduate students this is defined as any Reckless Behavior or repeated At Risk Behavior as identified on the NCBON Just Culture Nursing Student Practice Event Evaluation Tool (SPEET). See https://www.ncbon.com/vdownloads/just-culture/just-culture-speet.pdf).
An act or behavior (commission or omission) which constitutes nursing practice for which a student is not authorized or educated at the time of the incident.

Investigation and Evaluation of an Unsafe Practice
When an incident occurs which a faculty member believes may constitute an unsafe practice, he/she shall immediately notify the student and instruct the student to leave the clinical setting. The faculty member will notify the Course Chair and/or Program Director within the School of Nursing.

The Course Chair and/or Program Director will investigate the incident within three working days to determine whether there are grounds for believing that an unsafe practice has occurred. If the incident is minor, the faculty member, in consultation with the person named above, may require remedial work or instruction for the student.

If the incident is major, the Course Chair or Program Director, in consultation with the involved faculty member, will review the student's clinical performance evaluations, academic record, and potential for successful completion of the major in nursing. Based upon this careful and deliberate review, a decision to reprimand the student, require withdrawal from the clinical course, or to recommend dismissal of the student from the School of Nursing will be made. The Dean will be informed of the decision and will send written notification of the decision to the student via certified mail.

Should the student wish to appeal the decision, the student will submit a written request to the School of Nursing Appeals Committee. The Program Director or course faculty will provide the accumulated correspondence or documentation related to the issue to the Committee.

A request for an appeal should occur within seven working days of receipt of written notification of the decision from the Dean.

Hearing Process
The Chair of the School of Nursing Appeals Committee will thereafter notify the student, the faculty member, Course Chair and Program Director as to the time and place for a hearing.

The Committee will hold a closed hearing within ten working days of receipt of the request for an appeal, at which time the faculty member, may be present and will provide documentation and other oral or written evidence regarding the incident. The student will be allowed an advocate/support person at the hearing; however, the support person cannot speak at the hearing and cannot be an attorney.

Following the factual presentation, the Committee will convene in executive session to review the actions taken against the student for unsafe practice and to make a recommendation regarding the resolution of the incident. The Committee will base its recommendation on the evidence presented at the hearing.

The Committee shall make its recommendation in writing to the Dean and forward pertinent documentation. The Committee may recommend the following remedies: support for the action taken, remedial work or instruction, a reprimand, withdrawal from the course, or dismissal from the School of Nursing.

Post Hearing Process
The Dean may accept or reject the Committee's recommendation. The Dean's decision will be made after review of the minutes of the hearing and report of the Committee. The Dean will notify the student and the faculty member(s) as to the decision made. Dismissal from the School of Nursing does not constitute dismissal from the University. A student who has been dismissed may reapply for admission to the School of Nursing.

Appeal of Policies
If a student wishes to appeal a policy in the School of Nursing, the student should complete a “Student Appeal Request.” The Student Appeals Committee hears student appeals. Students may obtain the request form and discuss the appeals process with the Chair of the Committee, the Associate Dean for Academic Programs, or the Director of the student's Program.
Readmission After Withdrawal

Any student who is withdrawn or withdraws from the program must apply for readmission through normal admission procedures.

Nursing, B.S.N.

The School of Nursing offers an undergraduate program leading to the Bachelor of Science in Nursing Degree. The first two years of study are in general education, basic sciences, and humanities. The majority of the work in the junior and senior years is in nursing. A Veterans’ Access Program (VAP) is also offered, leading to the Bachelor of Science in Nursing degree. The School also offers a Registered Nurse to B.S.N. program, where licensed RNs prepared at the diploma or associate degree level can earn a Bachelor of Science in Nursing.

The Nursing B.S.N., R.N. to B.S.N. concentration is available in traditional as well as online formats.

Accreditation

The pre-licensure Bachelor of Science in Nursing program offered by the School of Nursing is approved by the North Carolina Board of Nursing.

The Bachelor of Science in Nursing program at UNC Greensboro is accredited by the Commission on Collegiate Nursing Education (CCNE) (http://www.ccneaccreditation.org).

Admissions and Policies

Nursing B.S.N.

Admission and Progression

Admission for Pre-licensure Students

Students must be formally admitted to the School of Nursing which is an upper division major. Only students who have formal, written acceptance into the School will be permitted to register in nursing courses and complete work for the major. Admission should normally be sought during the sophomore year. The application deadline is February 1 of each year. Applications are obtained from the Advising Center in the School of Nursing. Transcripts from all post-secondary schools attended must be submitted with the application.

Technical Standards for Admission, Academic Progression, and Graduation

Consistent with its mission and philosophy, the School of Nursing at The University of North Carolina at Greensboro (UNC Greensboro) is committed to providing educational opportunities to facilitate student learning. The School of Nursing programs prepare students to think critically and practice nursing competently and compassionately in rapidly changing practice environments. All efforts are designed to build nursing knowledge, enhance nursing practice and patient safety, foster professional integrity, and ultimately improve the health outcomes of individuals, families, groups, and communities across the continuum of care. Certain functional abilities also are essential for the delivery of safe, effective nursing care. The UNC Greensboro faculty have determined that the technical standards listed below must be met by all students for admission, progression and graduation from the undergraduate and graduate nursing programs, with or without reasonable accommodations. If a student is unable to meet these technical standards, the student will not be allowed admission, or to remain enrolled in or to graduate from the nursing program.

In addition to classroom learning, clinical learning occurs throughout the program and involves considerations that are not present for classroom accommodations (such as patient safety and clinical facility requirements). Any applicant or student who seeks accommodations prior to or immediately after enrolling in the nursing programs must also request an assessment of the types of reasonable accommodations needed for all the types of clinical experiences required in the nursing program.

An individual must be able to independently, with or without reasonable accommodation, meet the following technical standards of general abilities and those specifically of: a) communication; b) motor; c) observation; d) cognitive, conceptual, and quantitative; e) behavioral and interpersonal attributes; and f) professional conduct. Individuals unable to meet these technical standards, with or without reasonable accommodation, will not be able to complete the program and are encouraged to pursue other careers.

General abilities: The student is expected to possess functional use of the senses of vision, touch, hearing, and smell so that data received by the senses may be integrated, analyzed and synthesized in a consistent and accurate manner. A student must also possess the ability to perceive pain, pressure, temperature, position, vibration, and movement, which are important to the student's ability to gather significant information needed to effectively assess and evaluate patients. A student must be able to respond promptly to urgent situations that may occur during clinical activities including, but not limited to, performing basic life support, paging the rapid response team, operating equipment at the bedside, and asking another nurse for assistance and must not hinder the ability of other members of the health care team to provide prompt patient care.

Communication abilities: The student must communicate effectively and sensitively both verbally and non-verbally to elicit information and to translate that information to others with whom they interact. The student must have the ability to read, write, comprehend, and speak the English language to facilitate communication with patients, family members, and other members of the health care team. In addition, the student must be able to review and maintain accurate patient records, present information in a safe, professional and logical manner, and provide patient education and counseling to effectively care for patients and their families. The student must possess verbal and written communication skills that permit effective communication with instructors, clinical staff, and other students in both the classroom, laboratory, and clinical settings.

Motor abilities: The student must be able to perform gross and fine motor movements with sufficient coordination needed to perform complete physical examinations utilizing the techniques of inspection, palpation, percussion, auscultation, and other diagnostic maneuvers. The student must develop the psychomotor skills reasonably needed to perform or assist with procedures, treatments, administration of medication, management and operation of diagnostic and therapeutic medical equipment, and such maneuvers required to assist with patient care activities such as lifting, wheelchair guidance, and ambulation. The student must possess the manual dexterity that is required for certain activities, such as drawing up solutions into a syringe. The student must have sufficient levels of neuromuscular control and eye-hand coordination, as well as possess the physical and mental stamina to meet the demands associated with extended periods of sitting, standing, moving, and physical exertion required for satisfactory and safe performance in the clinical and classroom settings. These include, but are not limited to, performing CPR, and completing a typical nurse's clinical assignment, including working a 12-hour shift.

Observation abilities: The student must have sufficient capacity to make accurate visual observations and learn from demonstrations in
the clinical, classroom, and laboratory settings. Likewise, the student must have sufficient capacity to perform health assessments and interventions; observe diagnostic specimens; and obtain information from digital, analog, and waveform representations of physiologic phenomena to determine a patient’s condition. In addition, the student must be able to accurately document these observations.

Cognitive, Conceptual, and Quantitative abilities: The student must be able to develop and refine problem-solving skills that are critical to practice as a competent nurse. Problem-solving includes the abilities to measure, calculate, reason, analyze, and synthesize objective and subjective data, and to make sound decisions, often in a time urgent environment, that reflect consistent and thoughtful deliberation and sound clinical judgment. The student must have sufficient capacity to comprehend three-dimensional and spatial relationships. Each student must demonstrate mastery of these skills and possess the ability to incorporate new information from peers, instructors, preceptors, and the health-related literature to formulate sound judgment in patient assessment, care planning, intervention, and evaluation of care.

Behavioral and Interpersonal attributes: Personal comfort with and acceptance of the role of a nurse functioning under supervision of a clinical instructor or preceptor is essential for a nursing student. The student must possess the emotional health required for full utilization of the student’s intellectual abilities; the exercise of good judgment; the prompt completion of all responsibilities in the classroom and clinical settings; and the development of mature, sensitive, and effective relationships with patients and other members of the health care team. Each student must be able to exercise stable, sound judgment and to successfully complete patient assessments and nursing interventions in a timely manner. Understanding that all student interactions with patients, instructors, preceptors, and other members of the health care team are confidential and are not shared with others is critical in establishing ethical and professional nursing practice. The ability to establish rapport and maintain sensitive, interpersonal relationships with individuals, families, and groups from a variety of social, emotional, cultural and intellectual backgrounds is critical for nursing practice. The student must be able to adapt to changing environments; display flexibility; accept and integrate constructive criticism given in the classroom and clinical settings; effectively interact in the clinical setting with other members of the health care team; and learn to function cooperatively and efficiently in the face of uncertainties inherent in clinical practice.

Professional Conduct: The student must be willing to learn and abide by professional standards of practice. They must possess attributes that include compassion, empathy, altruism, integrity, honesty, responsibility, and tolerance. The student must be able to engage in patient care delivery in all settings and be able to deliver care to all patient populations including, but not limited to, children, adolescents, adults, individuals with disabilities, medically compromised patients, and vulnerable adults. The student must also be able to adapt to and function effectively in stressful situations that may occur in the classroom and in the clinical settings, including emergency situations. The student may encounter and must be able to navigate multiple stressors while in the nursing program, including, but are not limited to, personal, patient care, family, faculty/peer, and or program related.

UNC Greensboro’s mission is to provide optimal educational opportunities for all students, including those with disabilities. The University recognizes that reasonable accommodations may be necessary for students with disabilities to have access to campus programs and facilities. In general, University policy calls for accommodations to be made on an individualized and flexible basis for qualified students with disabilities. Students are responsible for seeking assistance at the University and making their needs known. Any applicant or student with questions or concerns about their ability to meet these technical standards, with or without accommodations, or who would like to arrange reasonable accommodations, should contact the Office of Accessibility Resources & Services (https://ods.uncg.edu/) at (336) 334-5440 or oars@uncg.edu.

Process for Requesting Reasonable Accommodation
Optimal Disclosure Prior to Admission
Candidates for admission to the School of Nursing are not required, prior to admission, to disclose that they will require reasonable accommodations in order to meet the Technical Standards. Candidates may, however, voluntarily disclose prior to admission the fact that they will require reasonable accommodations to meet the Technical Standards. If the student elects voluntarily disclosure before admission, this information will not be considered by the university on the question of whether the student should be admitted. Instead, assuming the student is admitted, the information will be used after admission to determine whether the student will be provided any requested accommodations pursuant to the process described below.

Disclosure After Admission
If the student requests a reasonable accommodation in a timely fashion, an interactive process involving the student, Associate Dean for Academic Programs in the School of Nursing, relevant faculty members and the Office of Accessibility Resources and Services will be commenced to determine what, if any, accommodations will be provided to the student. In all cases where a student has requested an accommodation in a timely fashion, the student must cooperate with the Associate Dean for Academic Programs in the School of Nursing and Office of Accessibility Resources and Services in an interactive process to determine whether the student is qualified for accommodations and what, if any, accommodations will be provided pursuant to applicable laws. The Office of Accessibility Resources and Services will assist the student in coordinating documentation and evaluation of the student, which may include asking the student to provide requested documentation of a qualified disability.

No accommodation will be offered that would jeopardize the safety of patients or clients or the university student. No accommodation will be offered that would fundamentally alter or substantially compromise these technical standards or any other academic standards deemed essential to graduation by the university, including all course work, fieldwork, clinical practica, and internships.

Minimum Criteria for Admission
Students may not enroll in required nursing courses without being admitted to the School. Application for admission is possible while students are still completing the prerequisite courses, but unconditional admission cannot be granted until admission criteria have been successfully completed. Admission to the university does not guarantee acceptance into the nursing major. Various health care agencies in Piedmont North Carolina cooperate with the School of Nursing in providing clinical learning experiences for students. The size of each incoming junior class is determined by the availability of these clinical resources. Therefore, it is impossible to assure space for every student who meets the criteria.
1. GPA
   Overall grade point average of 3.0 or higher
2. Minimum grade
   A grade of C (2.0) or better in each of the courses listed below.

3. Repeat
   No more than two of the above prerequisite courses may be repeated to earn the minimum required grade or better. Prerequisite courses may be repeated only one time.

Priority Admissions

Priority in admission (subject to space availability) will be granted to students who meet the criteria detailed below.

1. Status
   Enter UNC Greensboro as new, first-time freshmen.
2. Cumulative GPA
   Earn a cumulative GPA of 3.50 by the end of the third semester.
3. Courses
   Complete the items below by the end of the third semester, with a 3.0 (B) or better in each course completed. Courses must be completed at UNC Greensboro.

4. Residency
   Complete 3 semesters at UNC Greensboro (minimum of 45 credits)
5. Earn a score of 78 or above on the ATI TEAS-V (Test of Essential Academic Skills).
6. Meet all other admission requirements for the upper division nursing major.

Non-Priority Admissions

Students who do not meet the criteria for Priority Admissions above, but who meet the Minimum Criteria for Admission, may still apply for admission.

The process for admission will consider the items listed below.

1. Cumulative GPA for all college-level courses completed
2. Grades earned in the required science, social science, and English courses
3. Grade improvement over time
4. Score on the TEAS-V (Test of Essential Academic Skills)
5. Probability of completing all required courses in the next four semesters
6. Availability of space.

Registered Nurses

RNs interested in completing the B.S.N. degree need to meet the university’s requirements for admission. A registered nurse who brings advanced placement may build a minor in order to complete the 120 credits required for graduation.

Registered nurse students must make a C (2.0) or better in the qualifying courses* to be admitted into the 400-level nursing courses. Thirty (30) hours of credit will be awarded to RN–BSN students for completion of associate or diploma nursing courses upon satisfactory completion of the qualifying courses*.

Registered nurse students must provide evidence of current, active, unrestricted RN licensure prior to admission to the required 300-level courses, and must have a current, active, unrestricted North Carolina RN license prior to enrollment in the required 400-level courses.
Registered nurse students who hold unrestricted RN licenses in states covered by the multi-state Nurse Licensure Compact do not need to be licensed separately in North Carolina, unless they become residents of North Carolina. See the NC Board of Nursing website at www.ncbon.com/ (https://www.ncbon.com/). The length of time required to complete the program varies with each individual.

* Qualifying Courses:
  - NUR 370
  - NUR 371

Criteria for Progression in the Major
1. Students must earn a grade of C (2.0) or better in all required 200- to 400-level nursing courses in order to progress and graduate. An overall grade point average of 2.0 or better is required to graduate.
2. Failure to earn a grade of C (2.0) or better will result in immediate dismissal from the School of Nursing.
3. Students in the upper division clinical nursing courses who interrupt their studies for personal or academic reasons for longer than one year must reapply for admission to the upper division. (This item does not apply to RN to B.S.N. students).
4. The required 200- to 400-level courses in the pre-licensure program are designed to be completed in two academic years. Students who voluntarily withdraw from one or more of these required courses are considered to have withdrawn from the program and must apply for readmission prior to enrolling in the next semester.

Grading in Practicum and Laboratory
A grade of unsatisfactory in lab or clinical practicum in nursing courses will result in a course grade of F.

Appeal Procedure Related to Progression Policies
If a student wishes to appeal a policy in the School of Nursing, the student should complete a “Student Appeal Request.” The Student Appeals Committee hears student appeals. Students may obtain the request form and discuss the appeals process with the Chair of the Committee or the Associate Dean for Academic Programs. The Student Appeal Request form may be printed from the School of Nursing website, http://nursing.uncg.edu.

General Information
1. Substitutions for prerequisite courses may be made with prior approval from the Office of the Associate Dean, School of Nursing.
2. Qualified students are encouraged to take Honors courses in the arts and sciences.
3. All students are encouraged to take either Advanced Placement Exams, Biology Department exemption exam, or CLEP exam for the BIO prerequisite course.*
4. The pre-licensure B.S.N. program is designed to be completed in 9 semesters [four academic years plus one summer] of full-time study. Some students may wish to spread the requirements over 10 semesters, or to attend additional summer school. Depending on the number of transfer hours a student brings to UNC Greensboro, registered nurses may be able to complete the program in 3 semesters of full-time study, but part-time study is also available.
5. A detailed School of Nursing Student Handbook that contains additional information is available on the Web at nursing.uncg.edu (https://nursing.uncg.edu/).

Clinical Information
1. Nursing majors are required to purchase uniforms; estimated cost is $180. Uniforms are required for clinical activities in the 200- to 400-level nursing courses. Students usually purchase uniforms in the second semester of the sophomore year.
2. Students enrolled in 200- to 400-level courses with a clinical component are responsible for their own transportation to and from the agencies used for clinical activities/practicum experiences. Car owners are reminded that current liability insurance is required by North Carolina law.
3. Students admitted to the major must provide evidence of the following by July 1 (forms will be sent to students earlier in the summer):
   a. Annual negative results from either a QuantiFERON or T-Spot blood test. Students with a positive result from a QuantiFERON or T-Spot test should see their Health Care Provider for a chest x-ray.
   b. A tetanus toxoid immunization—every ten years with at least one Tetanus, Diphtheria and Pertussis (Tdap)immunization since age 12 years.
   c. Rubella and Measles evidence as required by the university
   d. Evidence of a positive titer for Mumps or evidence of two doses of Mumps vaccine (evidence of 2 MMR is acceptable)
   e. Evidence of chicken pox immunization or positive titer
   f. Evidence of Hepatitis B immunization. Students who begin their series of immunizations after January 1, 2007 must also have evidence of a post-vaccination positive titer, or evidence of revaccination, unless they are still in the initial course of immunization. For students in the pre-licensure program, the initial series must be started prior to the first year of clinical, and a positive titer or evidence of beginning the second series of immunization is required prior to the start of the second year of clinical.
   g. Evidence of immunization against influenza (seasonal flu shot) in the last 12 months or declination form on file in the School of Nursing—annual requirement
   h. Evidence of certification by the American Heart Association in Health Care Provider cardiopulmonary resuscitation (CPR). Students must remain continuously certified in American Heart Association Health Care Provider CPR.

* BIO 111/BIO 111L is a prerequisite for the following:
  - BIO 271/BIO 271L
  - BIO 277/BIO 277L
  - BIO 280/BIO 280L
  - KIN 291
  - KIN 292
i. Satisfactory evaluation signed by the student’s physician, nurse practitioner, or physician’s assistant indicating the applicant’s physical and emotional health to provide nursing care. Rarely, immunization requirements must be changed on short notice. Students will be informed of changes as soon as they occur.

4. Registered nurse students are responsible for items listed under “General information”, with the following modifications:

a. Registered nurses are not required to purchase uniforms, but must wear identifying name tags and lab coats or uniforms appropriate to the clinical setting. Specific requirements will be discussed in each clinical course.

b. Immunization requirements listed must be on file in the School of Nursing prior to beginning a clinical course. Forms are sent to students who preregistered for clinical courses. Students who do not preregister and have not received the immunization forms should stop by the Advising Center of the School of Nursing to obtain the forms.

c. The letter of physical and emotional health to provide nursing care is not required for Registered Nurse students.

5. Students are responsible for all costs associated with their own health care. On-campus students taking six (6) or more credits are required to have health insurance. Other students are encouraged to have health insurance, and to be familiar with its provisions.

6. Beginning January 1, 2005, all nursing students must have an approved criminal background check prior to beginning clinical activity. For RN to B.S.N. students, results must be submitted prior to beginning the Nursing Practicum course work or any other course with a clinical component (by August 1 for fall semester or December 1 for spring semester). For students in the pre-licensure program, results must be submitted by June 1, prior to enrolling in the required 300-level nursing courses. The university has contracted with Certiphi.com (http://Certiphi.com) to perform this service. The cost is to be paid by the student. The results will be kept in the student’s School of Nursing file and will be destroyed upon graduation, withdrawal, or termination from the program. The Associate Dean for Academic Affairs will receive the results of the criminal background check of each undergraduate student. The School will not use this information in any way except to verify to clinical agencies that students have been subjected to the background check and to release a copy of the information to the agency, if requested. Students must sign two release forms (copies available in the Student Affairs Office), which will authorize the release of the information to the clinical agency, if requested. Directions on obtaining the background check are available in the Student Affairs Office.

7. Beginning July 1, 2009, all students must have a negative urine drug screen by a National Institute of Drug Abuse (NIDA)-approved lab prior to clinical activity. The screen must test for the following drugs: AMP (amphetamine), BAR (barbiturates), BZO (benzodiazepines), COC (cocaine), THC (marijuana), MTD (methadone), mAMP (methamphetamine), MDMA (ecstasy), OPI (opiate), PCP (Phencyclidine), PPX (propoxyphene), ALC (alcohol), and OXY (oxycodone). In some cases, such as when results are inconclusive, it will be necessary to repeat the test. Note: Many labs in North Carolina are not NIDA-approved. The agency has contracted with Corporate Screening to do the drug screens, although tests from other NIDA-approved labs are acceptable if they screen for all the required drugs. Directions on obtaining the drug screens from Corporate Screening are available in the Student Affairs Office.

8. If none of the clinical agencies under contract with the School of Nursing are willing to allow a student to participate in clinical activities at that agency because of information gathered from urine drug screen testing, background check, or other pre-clinical screening required by clinical agencies, the student will be required to withdraw from the nursing program.

### Policies for Nurses

#### Unsafe Practice Policy

The nursing faculty of the School of Nursing have an academic, legal, and ethical responsibility to prepare graduates who are competent as well as to protect the public and health care community from unsafe nursing practice. It is within this context that students can be disciplined or dismissed from the School of Nursing for practice or behavior which threatens or has the potential to threaten the safety of a client, a family member or substitute familial person, another student, a faculty member, or other health care provider.

#### Student Awareness

All students are expected to be familiar with the principles of safe practice and are expected to perform in accordance with these requirements. Within courses, counseling and advising processes, and other instructional forums, students will be provided with the opportunity to discuss the policy and its implications.

#### Definition

An unsafe practice is defined as listed below.

1. An act or behavior of the type which violates the North Carolina Nursing Practice Act, Article 9 of Chapter 90 of the North Carolina General Statutes (NCGS §90-171.37; §90-171.44)
2. An act or behavior of the type which violates the Code of Ethics for Nurses of the American Nurses’ Association
3. An act or behavior which threatens or has the potential to threaten the physical, emotional, mental or environmental safety of the client, a family member or substitute familial person, another student, a faculty member or other health care provider
4. An act of behavior (commission or omission) which constitutes nursing practice for which a student is not authorized or educated at the time of the incident.

#### Investigation and Evaluation of an Unsafe Practice

When an incident occurs which a faculty member believes may constitutes an unsafe practice, he/she shall immediately notify the student and instruct the student to leave the clinical setting. The faculty member will notify the Course Chair and/or Program Director within the School of Nursing.

The Course Chair and/or Program Director will investigate the incident within three working days to determine whether there are grounds for believing that an unsafe practice has occurred. If the incident is minor,
the faculty member, in consultation with the Course Chair or Program Director may require remedial work or instruction for the student.

If the incident is major, the Course Chair or Program Director, in consultation with the involved faculty member, will review the student’s clinical performance evaluations, academic record, and potential for successful completion of the major in nursing. Based upon this careful and deliberate review, a decision to reprimand the student, require withdrawal from the clinical course, or to dismiss the student from the School will be made.

The Dean will be informed of the decision and will send written notification of the decision to the student via certified mail.

Should the student wish to appeal the decision, the student will submit a written request to the School of Nursing Appeals Committee. The Program Director will provide the accumulated correspondence or documentation related to the issue to the committee. A request for an appeal should occur within seven (7) working days of receipt of written notification of the decision from the Dean.

Hearing Process
The Chair of the School of Nursing Appeals Committee will thereafter notify the student, the faculty member, Course Chair, and Program Director as to the time and place for a hearing.

The Committee will hold a closed hearing within ten (10) working days of receipt of the request for an appeal, at which time the faculty member, Course Chair, and Program Director may be present and provide documentation and other oral or written evidence regarding the incident. The student may be present and will be given an opportunity to provide documentation and other oral or written evidence regarding the incident. The student will be allowed an advocate/support person at the hearing; however, the support person cannot be an attorney, and will not be permitted to speak.

Following the factual presentation, the Committee will convene in executive session to review the actions taken against the student for unsafe practice and to make a recommendation regarding the resolution of the incident. The Committee will base its recommendation on the evidence presented at the hearing. The Committee shall make its recommendation in writing to the Dean and forward pertinent documentation.

The Committee may recommend the following remedies: support for the action taken, remedial work or instruction, a reprimand, withdrawal from the course, or dismissal from the School of Nursing.

Post-Hearing Process
The Dean may accept or reject the Committee’s recommendation. The Dean’s decision will be made after review of the minutes of the hearing and report of the Committee. The Dean will notify the student and the faculty member(s) as to the decision made.

Dismissal from the School of Nursing does not constitute dismissal from the university.

A student who has been dismissed may reapply for admission to the School of Nursing.

Dismissal of Students Who Present Physical or Emotional Problems That Do Not Respond to Treatment Policy
Students can be dismissed from the School of Nursing for Physical and/or emotional problems that do not respond to appropriate treatment and/or counseling within a reasonable period of time.

Investigation and Evaluation
When faculty members identify a student that presents physical and/or emotional problems that do not respond to appropriate treatment and/or counseling, they immediately suspend the student from the course. Faculty notify the Course Chair and/or Program Director within the School of Nursing. Upon determination by the faculty, Course Chair, and Program Director that the physical and/or emotional problems warrant dismissal from the School of Nursing, the Dean will be notified. The Dean, in consultation with the faculty, and upon review of the documentation, will make a decision regarding dismissal of the student from the School of Nursing. The Dean will send written notification of the decision to the student. Should the student wish to appeal the decision the student will submit a written request to the School of Nursing Appeals Committee. The Dean will provide the accumulated correspondence or documentation related to the issue to the committee.

A request for an appeal should occur within seven (7) working days of written notification of the decision from the Dean.

Hearing Process
The Chair of the School of Nursing Appeals Committee will thereafter notify the student, the faculty member, the Course Chair, and Program Director as to the time and place for a hearing to determine whether the physical and/or emotional problems warrant dismissal.

The committee will hold a closed hearing within ten (10) working days at which time the faculty member, Course Chair, and Program Director will be present and will provide documentation and other oral or written evidence regarding the incident. The student will be present and will be given opportunity to provide documentation and other oral or written evidence regarding the problem. The student will be allowed an advocate/support person at the hearing; however, the support person cannot be an attorney, and will not be permitted to speak.

Following the factual presentation, the Committee will convene in executive session to determine whether the problem warrants dismissal from the School. The Committee shall make its recommendation in writing to the Dean and forward pertinent documentation. The Committee may recommend dismissal from the School of Nursing major, or reinstatement in the program.

Post-Hearing Process
The Dean may accept, reject, or modify the Committee’s recommendation. The Dean’s decision will be made after review of the minutes of the hearing and report of the Committee. The Dean will notify the student and the faculty member(s) as to the determination.

Dismissal from the School of Nursing does not constitute dismissal from the university.

A student who has been dismissed may reapply for admission to the School of Nursing.
Veteran's Access Program in Nursing

The UNC Greensboro VAP will have three tracks as detailed below.

- One for the non-RN veteran student who wishes to accelerate the program.
- One for the non-RN veteran student who wishes to receive military experience credit for some courses but not accelerate their nursing program.
- One for the RN veteran student in the RN to B.S.N. concentration.

All VAP students will need 120 credit hours to graduate. This may be comprised of transfer credit, credit earned at UNC Greensboro, or credit by competency testing and/or exam; however, 31 credits of course work must be taken at UNC Greensboro.

UNC Greensboro grants 6 credits for military experience and basic training.

VAP students’ Joint Services transcript will be assessed individually to determine specific General Education course requirements, using American Council for Education (ACE) principles. This process will be used to determine learning gaps for each VAP student. A learning gap analysis will determine the specific courses for which the veteran may be eligible to receive credit through transfer credit evaluation, competency skills testing, and standardized examination.

Overall VAP requirements for the Nursing major are detailed with the information for the general Nursing major.

Overall Requirements

- 120 credit hours, to include at least 36 credits at or above the 300 course level

Degree Program Requirements

Select one of the following:

- PHI 121 Contemporary Moral Problems
- PHI 220 Medical Ethics
- RCO 203 Residential College Seminar in Philosophical/Religious/ Ethical Principles

Select one of the following:

- ATY 100 Contemporary Non-Western Cultures
- SOC 101 Introduction to Sociology
- SOC 202 Social Problems in Global Context
- RCO 215 Residential College Seminar in Social and Behavioral Studies

* The course listed requires a 3.0 GPA or higher to enroll.
Completion of both courses in a two-course sequence of Anatomy and Physiology I and II can be used to substitute for Human Anatomy (or Clinical Human Anatomy) and Human Physiology (or Clinical Human Physiology) courses.

Completion of a higher level chemistry course, can be used to substitute for General Descriptive Chemistry I and Introductory Chemistry Laboratory. Completion of 2 higher-level chemistry courses and their labs can be used to substitute for General Descriptive Chemistry I, General Descriptive Chemistry II, and Introductory Chemistry Laboratory.

Completion of Psychology 241, Developmental Psychology, from the N.C. Community College System, can be used to satisfy the Human Development Across the Life Span requirement.

Requirements listed above must be completed prior to enrolling in 300- or 400-level nursing courses. Because of the time commitments involved with the 300- and 400-level nursing courses, and the difficulties in scheduling non-nursing courses concurrently with nursing courses, students should try to have most GEC course requirements completed prior to entering the upper division major.

Residency Requirement

Students must also meet the Residency Requirement of 31 credits of course work earned at UNC Greensboro.

Electives

Electives sufficient to complete 120 total credit hours required for degree.

B.S.N. as a Second Degree Option

Students with a previous baccalaureate degree are considered to have met the liberal education requirements with their first degree.

Upper-Division Admission

The same Minimum Criteria for Admission as undergraduates apply.

University Requirements

VAP students will be directly admitted to the upper division of the Nursing major after acceptance into the university and successful completion of pre-requisite course credit.
Completion of other university requirements for the degree. The plan of study for VAP students wishing to accelerate will be determined individually based upon transfer credit and/or competency testing using national exams.

### R.N. to B.S.N.

#### Nursing B.S.N., R.N. to B.S.N. Concentration Requirements

North Carolina graduates of an Associate in Applied Science in Nursing program will fall under the RN to BSN Uniform Articulation Agreement, jointly approved by the NC Community College and the University of North Carolina Systems. Students that fall under the Uniform Articulation Agreement are not required to complete General Education (MAC) Requirements. To be eligible for the Uniform Articulation Agreement, a potential student must:

- Enter a NC Community College Nursing program on or after Fall Semester, 2015
- Earn an Associate Degree in Nursing at a NC Community College with a GPA of at least 2.0
- Earn a C or better in all courses included in the first three blocks of the plan.
- Be licensed as an RN prior to applying to the RN to BSN program.

#### Second Degree R.N. to B.S.N. students:

Students with a previous baccalaureate degree are considered to have met the liberal education requirements with their first degree.

#### Students Who Don’t Fall into a Category

Students who graduated from out-of-state schools, private NC institutions, diploma nursing programs, or associate degree nursing programs that are not part of the Articulation Agreement:

Graduates of foreign nursing programs will be advised on an individual basis.

#### Current License

RN students must hold a current, active unrestricted RN license in North Carolina or in a state covered by the multi-state Nurse Licensure Compact. For questions see the NC Board of Nursing website at [www.ncbon.com](https://www.ncbon.com/).

#### Credits Awarded

30 credits awarded upon successful completion of the bridge courses NUR 370 & NUR 371 and is equated to: NUR 210, NUR 310, NUR 310L, NUR 320, NUR 320L, NUR 340, NUR 340L, NUR 355, NUR 360, NUR 360L, NUR 365, NUR 380, and NUR 385.

**Required:** 120 credit hours, to include at least 36 credits at or above the 300 course level

- The Nursing Major, with R.N. to B.S.N. Concentration is available in a traditional as well as an online format.

R.N. to B.S.N. for 2Plus Students Option

Students that have completed an Associates of Applied Science in Nursing from a NC Community College prior to Fall Semester 2015, are required to meet the following competencies of the UNC Greensboro General Education Program (MAC):

- Quantitative Reasoning - 3 credits
- Health and Wellness - 3 credits
- Critical Thinking and Inquiry in the Humanities and Fine Arts - 3 credits*
- Critical Thinking and Inquiry in the Social and Behavioral Sciences - 3 credits*
- Critical Thinking and Inquiry in the Natural Sciences - 3 credits*
- Diversity and Equity through the Humanities and Fine Arts OR through the Social and Behavioral Sciences - 3 credits

* Each of the three Critical Thinking and Inquiry MAC competencies must be taken from a different department. (FMS, HSS, and RCO courses are not subject to this exclusion.)

Students that have completed an Associates of Applied Science in Nursing from a NC Community College prior to Fall Semester 2015, are NOT required to meet the following competencies of the UNC Greensboro General Education Program (MAC):

- Foundations - 3 credits
- Global Engagement and Intercultural Understanding through the Humanities and Fine Arts OR through the Social & Behavioral Sciences - 3 credits
- Data Analysis and Interpretation in the Natural Sciences 3 credits
- Written Communication - 3 credits
- Oral Communication - 3 credits

Required: 120 credit hours, to include at least 36 credits at or above the 300 course level

- The Nursing Major, with R.N. to B.S.N. Concentration is available in a traditional as well as an online format.

R.N. to B.S.N. under the Veteran's Access Program (VAP) Option

The (VAP) option is for Armed Forces Veterans from any branch, including past service in the Reserves or National Guard who have military health experience or training.

Required: 120 credit hours, to include at least 36 credits at or above the 300 course level

- The Nursing Major, with R.N. to B.S.N. Concentration is available in a traditional as well as an online format.

Recognition
Students who complete Disciplinary Honors receive a Certificate of Disciplinary Honors in Nursing and have that honor, along with the title of their Senior Honors Project, noted on their official transcripts. Students who complete both General-Education Honors and Disciplinary Honors are distinguished for special recognition and receive a Certificate of Full University Honors in Nursing.

Honors Advisor
Contact Ratchneewan Ross (rRoss2@uncg.edu) for further information and guidance about Honors in Nursing. To apply: http://honorscollege.uncg.edu/forms/disc-application.pdf

Nursing, M.S.N.

The Master of Science in Nursing degree offers two concentrations: Nursing Leadership and Management and Nursing Education.

The concentration in Nursing Leadership and Management requires 37 credit hours and is designed to be completed in six semesters of full-time study, beginning in August and ending in May of the final year. The concentration in Nursing Education requires 38 credit hours and is designed to be completed in seven semesters, beginning in August and ending in December of the final year.

All degree requirements must be met within five academic years of initial enrollment. In addition to courses required for the degree program, students may enroll in independent study courses to enhance their program of study. No foreign language is required.

Please refer to the preceding enrollment requirements for all graduate nursing students.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

The Associate Dean for Academic Programs reviews the credentials of each applicant in collaboration with faculty from each specialty area. Exceptions to the requirements can be made on the recommendation of the faculty. The Associate Dean for Academic Programs forwards the admission recommendation to the Vice Provost for Graduate Education who makes the final decision.

Applicants must have the following credentials:
- Current unrestricted licensure as a registered nurse in one of the fifty states or validated credentials by CGFNS for international applicants. Residents of North Carolina must hold unrestricted North Carolina licensure as a registered nurse.
- Baccalaureate degree in nursing from a program accredited by a nationally recognized accrediting agency.
- Minimum of one year clinical experience full time.
- A personal statement is required for consideration of admission to the Nursing Education Concentration M.S.N. program or post-baccalaureate certificate; the Nursing Leadership and Management Concentration M.S.N. program or post-baccalaureate certificate; the post-baccalaureate certificate in Nursing.
- An interview is required for selected applicants for the Nursing Education Concentration M.S.N. program or post-baccalaureate certificate; the Nursing Leadership and Management Concentration M.S.N. Program or post-baccalaureate certificate; the post-baccalaureate certificate in Nursing.
- Nonresidential international students are required to participate in a telephone interview.

Degree Program Requirements

Nursing Leadership and Management Concentration

Required: 37 credit hours

Withdrawal from the program will be recommended if the student:

- Fails to register for two consecutive semesters (Fall and Spring) in the nursing curriculum.
- Has earned a B - or below in more than 6 credits of course work.
- Has earned a B - or below in any nursing specialty course.
- Has earned a failing grade in any course.
- Has a GPA that indicates the inability to meet the 3.0 required for graduation.
- Does not complete requirements for the degree within the time limit (5 academic years).

**Doctor of Nursing Practice, D.N.P.**

### Post-Baccalaureate D.N.P.

#### Adult/Gerontological Primary Care Nurse Practitioner Concentration

The Adult/Gerontological Primary Care Nurse Practitioner concentration for post-baccalaureate students is designed to be completed in 8 semesters beginning in the Fall semester and ending in the Spring semester of the third year. The concentration requires a minimum of 73 credits and 1,020 advanced practice practicum hours.

#### Nurse Anesthesia Concentration

The Nurse Anesthesia (CRNA) concentration for post-baccalaureate students is designed to be completed in 9 semesters beginning in the Fall semester and ending in the Summer semester of the third year. The concentration requires a minimum of 107 credits and 3,060 advanced practice clinical hours.

All degree requirements must be met within seven academic years of initial enrollment. In addition to courses required for the degree program, students may enroll in independent study courses to enhance their program of study. No foreign language is required.

### Post-Master's D.N.P.

The Post-Master’s D.N.P. program is available to nurses who have a master’s degree in Nursing with the specialty of Nursing Leadership/Administration, Clinical Nurse Leader, Clinical Nurse Specialist, Certified Nurse Midwife, Nurse Practitioner, Nurse Anesthetist, or Nursing Informatics. Nurses who have a master’s degree in Nursing with the specialty of Nursing Education who have completed the UNC Greensboro School of Nursing 15-credit Post-Baccalaureate Certificate in Nursing and the Nursing Administration specialty are also eligible to apply.

The Post-Master’s D.N.P. program is designed to be completed in 5 semesters beginning in the Fall semester and ending in the Spring semester of the second year. The Post-Master’s D.N.P. requires a minimum of 30 credits and 1,000 D.N.P. hours (clinical hours obtained in the master’s program are included in the 1,000 hour total). In addition, all Post-Master’s D.N.P. students must complete 300 hours of D.N.P. project and D.N.P. essentials work.

All degree requirements must be met within seven academic years of initial enrollment. In addition to courses required for the degree program, students may enroll in independent study courses to enhance their program of study. No foreign language is required.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

### Post-Baccalaureate D.N.P. applicants must meet the following Application and Admission Requirements:

- Current unrestricted licensure as a registered nurse in one of the 50 states or validated credentials by CGFNS for international students.
Residents of North Carolina must hold unrestricted North Carolina licensure as a registered nurse.

- A baccalaureate degree in Nursing from a program accredited by a nationally recognized accrediting agency.
- A minimum of one year full-time critical care clinical nursing experience for the Nurse Anesthesia concentration.
- An inferential statistics course, a chemistry course, and health assessment course at the undergraduate level are required prerequisite courses.
- A minimum of a 3.2 GPA is required from the undergraduate nursing program.
- A resume.
- A personal statement of 400 words or less that discusses the applicant’s nursing background and future goals.
- Three professional nursing references (mix of educational and professional sources).
- An interview is required for applicants.
- Nonresidential international students are required to participate in a telephone interview.

**Post-Master’s D.N.P. applicants must meet the following Application and Admission Requirements:**

- Current unrestricted licensure as a registered nurse in one of the 50 states or validated credentials by CGFNS for international students seeking to study in the U.S. Residents of North Carolina must hold unrestricted North Carolina licensure as a registered nurse. International students who complete their entire course of study outside the U.S. must be approved to practice as a Registered Nurse or the equivalent title in their home country.
- Master’s degree in Nursing with the specialty of Nursing Leadership/Administration, Clinical Nurse Leader, Clinical Nurse Specialist, Certified Nurse Midwife, Nurse Practitioner, Nurse Anesthetist, Nursing Informatics from a program accredited by a nationally recognized nursing accrediting agency. International students who complete their entire course of study outside the U.S. must hold a Master’s Degree in Nursing from an approved University in their home country. Additionally, they must have clinical experience in an advanced nursing role in their home country.
- All APRNs must hold national certification appropriate to their specialty. If national nursing specialty certification is not available in the home country, this certification is not required to apply for the DNP.
- Applicants with a master’s degree in Nursing with a focus in Nursing Education from a program accredited by a nationally recognized nursing accrediting agency are eligible for admission after successful completion of the UNC Greensboro School of Nursing 15-credit Post-Baccalaureate Certificate in Nursing with the Nursing Leadership and Management specialty.
- An undergraduate statistics course is a required prerequisite course for the Post-Master’s D.N.P.
- A minimum of a 3.2 GPA is required from the master’s nursing program.
- A resume.
- A personal statement of 400 words or less that discusses the applicant’s nursing background and future goals.
- Three professional nursing references (mix of educational and professional sources).
- An interview may be required.

**Required Withdrawal**

Withdrawal from the program will be recommended to the Graduate School if the student:

- Fails to register for two consecutive semesters in the nursing curriculum.
- Has earned a grade of U or B- in more than one AGNP DNP specialty course.
- Has earned a grade below a B- any AGNP DNP specialty course.
- Has earned a grade of U, F, or WF in any core course.
- Has a GPA that indicates the inability to meet the 3.0 required for graduation.
- Demonstrates unsafe practice as defined in the School of Nursing Unsafe Practice Policy.
- Does not complete requirements for the degree within the 7-year time limit.

The Associate Dean for Academic Programs reviews the credentials of each applicant in collaboration with faculty from each specialty area. Exceptions to the requirements can be made on the recommendation of the faculty. The Associate Dean for Academic Programs forwards the admission recommendation to the Vice Provost for Graduate Education who makes the final decision.

Total Credit Hours 30

* NUR 898E may be taken up to three times for a maximum of 6 credits total.

**Required Withdrawal**

Withdrawal from the program will be recommended to the Graduate School if the student:

- Fails to register for two consecutive semesters in the nursing curriculum.
- Has earned a B- or below in more than 6 credits of course work.
- Has earned a B- or below in any course.
- Has a GPA that indicates the inability to meet the 3.0 required for graduation within the required curriculum.
- Does not complete requirements for the degree within the 7-year time limit.

**Nursing, Ph.D.**

The Ph.D. in Nursing requires 57 credit hours. Up to 15 credits may be transferred into the program.

Please refer to the enrollment requirements for all graduate nursing students.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

The Associate Dean for Academic Programs reviews the credentials of each applicant in collaboration with faculty from each specialty area. Exceptions to the requirements can be made on the recommendation of the faculty. The Associate Dean for Academic Programs forwards the admission recommendation to the Vice Provost for Graduate Education who makes the final decision.

Applicants must have the following credentials:

- Current unrestricted licensure as a registered nurse in one of the fifty states or validated credentials by CGFNS for international applicants. Residents of North Carolina must hold unrestricted North Carolina licensure as a registered nurse.
- Master’s degree in nursing from a school accredited by a nationally recognized accrediting agency.
- In addition to the application materials required by The Graduate School, applicants must submit a 300-word statement of research goals in doctoral program related to promotion of optimal health for ethnic minorities, women, children, or older adults.
- Selected applicants must participate in an interview with Graduate Nursing Faculty.
- Please refer to the preceding enrollment requirements for all graduate nursing students.

Applicants must have the following credentials:

- Baccalaureate degree in nursing from a program accredited by a nationally recognized accrediting agency.

## Certificate Program Requirements

**Required: 12-15 credit hours**

The School of Nursing Post-Baccalaureate Certificate programs provide the opportunity for baccalaureate-prepared registered nurses to further their knowledge in three different areas: Nursing, Nursing Leadership and Management, and Nursing Education. All courses are offered online and are designed for working professionals.

- Students must successfully complete at least 12-15 credit hours, depending on the certificate category, during a two-year period of time to earn a certificate.
- Credits generated in the certificate program may be used to meet requirements in a degree program in accordance with the policies of the Graduate School.
- To meet individual needs, courses may be taken across all three categories or focused within a few categories.
- To earn the certificate in Nursing Leadership and Management, all four courses (15 credits) within that category must be taken.
- To earn the certificate in Nursing Education, both NUR 615 and NUR 616 are required, and an additional course within that category must be selected. Requiring 3 courses (9 credits) satisfies a requirement of the NC Board of Nursing to teach in an undergraduate program; to achieve the required 12 credits, another course from another category may be selected.
- To earn the certificate in Nursing, students may enroll in four courses (12 credits) from any of the three categories: Nursing Leadership and Management, Nursing Education, and Core and Support Courses.

Upon successful completion of the four courses, students receive a post-baccalaureate certificate. If courses are completed across several categories or within the Core and Support Course category only, a post-baccalaureate certificate in Nursing is issued.

## Nursing Leadership and Management

15 credits are required to complete the certificate in Nursing Leadership and Management; due to the sequencing of courses, it is advised that students begin courses in the Spring semester.

About

The Master of Arts in Applied Arts and Sciences encourages innovative graduate studies across traditional disciplinary boundaries. Its applied integrative approach fuses the study of the arts and sciences with methodologies encouraging social innovation and collaborative creativity.

Graduate Programs

- Post-Baccalaureate Certificate in Global Studies
- Master of Arts (M.A.) in Applied Arts and Sciences
  - Applied Arts and Sciences, M.A. (p. 722)

eLearning, Post-Baccalaureate Certificate

The Post-Baccalaureate Certificate in E-learning offers learning professionals the opportunity to deepen the theory and practical application of e-learning design in their work and advance their leadership.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a personal statement elaborating how the certificate will further their personal and professional goals.

Global Studies, Post-Baccalaureate Certificate

The online Post-Baccalaureate Certificate in Global Studies seeks to instill in students a solid knowledge of particular cultures, while also providing training in the analysis of global trends. Students will learn how to make connections between their knowledge of a particular part of the world and the larger trends and issues that affect all societies. 15 credit hours must be successfully completed during a three-year period to earn the certificate.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a personal statement elaborating how the certificate will further their personal and professional goals.

Birth Through Kindergarten

- Birth-Kindergarten Interdisciplinary Studies in Education and Development, M.Ed. (p. 724)
- Birth-Kindergarten Initial Licensure, Post-Baccalaureate Certificate (p. 725)
- Leadership in Infant and Toddler Learning, Post-Baccalaureate Certificate (p. 725)

Birth-Kindergarten Interdisciplinary Studies in Education and Development, M.Ed.

The synchronous online Master of Education (M.Ed.) program in Birth-Kindergarten Interdisciplinary Studies in Education and Development is offered jointly by the Department of Human Development and Family Studies and the Department of Specialized Education Services. The program prepares students to assume leadership roles in diverse settings (both education and community-based) that develop and implement programming for young children with and without disabilities, ages birth to five, and their families. The degree consists of a minimum of 37 credit hours of graduate course work beyond the bachelor’s degree.

Two concentrations are offered: one in Early Childhood Leadership and Advanced Teaching Licensure and another in Early Childhood Leadership and Program Administration.

The concentration in Early Childhood Leadership and Advanced Teaching Licensure is designed for students with a Standard Professional I or initial license seeking education in early childhood leadership and an advanced teaching license. Those with an initial license in another field of education must satisfy prerequisite requirements and complete eight weeks of student teaching (which adds 6 credit hours to the program). Students are eligible for the "M" advanced license in BK upon successful completion of the program.

The concentration in Early Childhood Leadership and Program Administration equips teachers, directors/administrators, technical assistance providers, and other professionals working closely with early childhood educators to be leaders in the field. It includes advanced training in a variety of areas, including personnel development and support, financial management, early childhood systems and policy, leadership and mentoring, child and program assessment, and curriculum within the context of family-centered practices to work effectively with diverse children and families in inclusive settings.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

Applicants to the Early Childhood Leadership and Advanced Teaching Licensure Concentration must also submit documentation of their initial teaching license.

An interview and writing sample may be required.

The GRE is not required.

Degree Program Requirements

Required: 37 credit hours

Additional academic work may need to be completed by students without foundational skills or content knowledge in early childhood. Credits may only be applied toward the M.Ed. degree from the Birth-Kindergarten Initial Licensure or the Leadership in Infant and Toddler Learning Post-Baccalaureate Certificate courses (see the Birth-Kindergarten: Initial Licensure or the Leadership in Infant and Toddler Learning Post-Baccalaureate Certificate program requirements). The amount of credit that may be applied toward the M.Ed. degree varies depending on the concentration a student selects. Examples of courses that may be applied toward the M.Ed. degree program include SES 601 Introduction to Inclusive Birth-Kindergarten Services and SES 603 Screening/Assessment in Inclusive Early Childhood Services.

Course Work Related to Research (6 credits)

ERM 604 Methods of Educational Research 3
HDF 650 Theory and Research in Early Childhood 3

Concentration (10 credits)

Select one of the following concentrations:

Early Childhood Leadership and Advanced Teaching Licensure Concentration

Early Childhood Leadership and Program Administration Concentration

Practicum (6 credits)

SES 604 Internship in Inclusive Early Childhood 6

Total Credit Hours 37

Professional Portfolio (Capstone Experience)

The final portfolio is the culminating experience. It includes two components:

1. A written document that includes a series of reflective essays, and
2. An oral defense, discussing the content of the essays and rationale for the use of documents.

Applicants must submit an application to The Graduate School, which includes:

- Professional statement, a current resume;
- Official transcripts with a GPA of 3.0 or higher; and
- Three letters of recommendation with at least one academic reference if possible.
This portfolio will demonstrate the mastery of skills and knowledge in the program competency areas. It is submitted by the student and evaluated by a team of two faculty and one practicing professional. If the portfolio and presentation do not meet departmental standards, one revision is allowed. The final portfolio is required of all students graduating from the program.

* To be selected from list or with approval of advisor. Other courses with approval of advisor.

** 6 credits in SES 649C is required, as applicable, if student's initial licensure is in an area other than Birth-Kindergarten.

**Leadership in Infant and Toddler Learning, Post-Baccalaureate Certificate**

The online Post-Baccalaureate Certificate in Leadership in Infant and Toddler Learning requires 19 credit hours and is offered jointly by the departments of Human Development and Family Studies and Specialized Education Services. The program is designed to provide students with graduate level training and an initial teaching license in BK. Students also have an option for transitioning from this program into the M.Ed. program in which they may be eligible for an advanced license in BK. Course work from the plan of study for the Post-Baccalaureate Certificate may be applied to the M.Ed. in Birth to Kindergarten: Interdisciplinary Studies in Education and Development provided the student meets all admission requirements of The Graduate School, the Department of Human Development and Family Studies and the Department of Specialized Education Services.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

The certificate is available to individuals with a bachelor’s degree in early childhood education, child development, early childhood special education, or a related field.

Students who wish to transition into the M.Ed. program must submit a new application for the M.Ed. to The Graduate School. It is the students’ responsibility to initiate the process and review it with their advisor.

Leadership in Infant and Toddler Learning, Post-Baccalaureate Certificate

simultaneously, students must meet all requirements for admission to The Graduate School, Human Development and Family Studies, and Specialized Education Services.

The certificate is also open to graduate students with background knowledge in early childhood education, child development, early childhood special education, or a closely related field. Students who are enrolled in the LITL certificate program and wish to enroll in the M.Ed. program must submit a new application for the M.Ed. program to The Graduate School. It is the student’s responsibility to initiate the process and, if accepted to the M.Ed. program, review program requirements with the advisor.

Health Management

• Health Management, M.S.N./M.B.A. (p. 727)

Health Management, M.S.N./M.B.A.

The combined M.S.N./M.B.A. is offered jointly by the School of Nursing and the Bryan School of Business and Economics and requires a minimum of 62 credit hours.

Please refer to the enrollment requirements for all graduate nursing students.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

The Associate Dean for Academic Programs reviews the credentials of each applicant in collaboration with faculty from each specialty area. Exceptions to the requirements can be made on the recommendation of the faculty. The Associate Dean for Academic Programs forwards the admission recommendation to the Vice Provost for Graduate Education who makes the final decision.

Applicants must meet the following requirements:

• Current unrestricted licensure as a registered nurse in one of the 50 states or validated credentials by CGFNS for international students. Residents of North Carolina must hold unrestricted North Carolina licensure as a registered nurse.
• Baccalaureate degree in nursing from a program accredited by a nationally recognized accrediting agency.
• Minimum of one year full-time clinical nursing experience.
• Satisfactory MAT/GRE score.
• An inferential statistics course and health assessment course at the undergraduate level are required prerequisite courses.
• A minimum of 3.2 GPA is required from the undergraduate nursing program.
• A resume.
• A personal statement of 400 words or less that comments on applicant’s nursing background and discusses future goals.
• Three professional nursing references (mix of educational and professional sources).
• An interview is required for selected applicants.
• Nonresidential international students are required to participate in a telephone interview.

Degree Program Requirements

Required: 62 credit hours

Computer Literacy

Upon entry to the M.S.N./M.B.A. in Health Management program, students should have a working knowledge of word processing and spreadsheet applications in a PC environment. Familiarity with Excel is required.

Statistics

ECO 250 Economic and Business Statistics I of pre-M.B.A. workshop in statistics is recommended to meet the program prerequisite for statistics.
Informatics and Analytics

Informatics and Analytics, M.S.

The Master of Science in Informatics and Analytics develops leaders and problem-solvers who possess the knowledge and skill to thrive in the data science industry.

The program includes six interdisciplinary courses that establish a strong foundation in data science principles. In addition to the core program, students specialize in a concentration of interest.

The hallmark of the UNC Greensboro program is a unique capstone experience that links knowledge-with-practice and equips graduate students with key skills for professional success.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a statement of purpose that outlines their career goals, how the M.S. in Informatics and Analytics will advance their career goals, and how their background has prepared them to enter the program.

Integrated Professional Studies

UNC Greensboro Online

915 Northridge Street
336-315-7044
http://bips.uncg.edu

Karen Bull, Dean, Division of Online Learning
Muktha Jost, Associate Dean, Division of Online Learning
Courtney A. Harrington, Associate Director of Undergraduate Programs, Division of Online Learning

Rationale and Program Objectives

The Integrated Professional Studies program provides an innovative, flexible, transdisciplinary online degree. The degree focuses on the attainment of 21st century work skills identified by employers as critical professional preparation for the jobs of the future. Students will learn and apply core skills to specific professional contexts through case studies and other collaborative projects, and will build a portfolio demonstrating their growth throughout the degree. The professional/career/industry areas of focus enable students to tailor curricula to their specific career goals.

Student Learning Goals

Students completing this program will be able to demonstrate the items listed below.

1. Articulate and apply skills earned through a strong liberal education background of a comprehensive general educational program.
2. Integrate and apply universal competencies in systems and design thinking, quantitative literacy, and new media literacy to a range of real-world situations.
3. Apply self-awareness and global awareness and cultural understanding to a broad range of real-world situations in a rapidly shifting demographic environment.
4. Systematically and consistently apply knowledge and skills from the universal competencies to a chosen professional career area of focus (health and wellness; arts, entertainment, and media; service; self-designed) across a range of real-world situations.

* Integrated Professional Studies Online, B.S. (p. 730)

Integrated Professional Studies

Online, B.S.

Overall Requirements

• 120 credit hours, to include at least 36 credits of courses at the 300 course level or above.
• Students must earn grades of C (2.0) or better in all major and related area required courses.

LLOYD INTERNATIONAL HONORS COLLEGE

205 Foust Building
336-334-5538
http://honorscollege.uncg.edu

Omar H. Ali, Professor and Dean of the College
Rebecca Muich, Assistant Dean
Angela Bolte, Assistant Dean
Christopher Kirkman, Senior Academic Honors Advisor and Coordinator of International Honors
Eric Toler, Coordinator of Data and Student Records/Honors Academic Advisor
Julie Boyer, Coordinator of Admissions and Academic Advisor
Portia Harris, Coordinator of Programming and Academic Advisor
Linda Dunston-Stacey, Budget and Operations Manager

About
Lloyd International Honors College (LIHC), a member of the National Collegiate Honors Council, provides motivated, high achieving undergraduate students in all fields of study with an enhanced education that has an international focus. LIHC is an intellectually engaged community devoted to fostering critical thinking, global awareness, and strong preparation for professional, civic, and personal pursuits using experiential learning opportunities and innovative pedagogies of performance, play, and improvisation.

Admission to Lloyd International Honors College
Admission to Lloyd International Honors College is required to take courses offered by the Honors College and to participate in many of Lloyd International Honors College’s programs. Admission processes for International Honors and Disciplinary Honors are detailed on the website. Minimum requirements to be considered for admission depend on the applicant’s status at the time of application. Admission to the college is competitive. Meeting minimum requirements does not guarantee admission.

Incoming First-Year Students
To be eligible to apply for admission to Lloyd International Honors College, the prospective student must meet minimum test score or high school GPA requirements set by the college, which can be found on the college’s website.

Transfer Students
Students transferring to UNC Greensboro with no more than two semesters at another institution may be eligible to apply for International Honors. The prospective student must meet minimum test score or high school GPA requirements, which can be found on the college’s website. Students transferring to UNC Greensboro after any number of semesters at another institution may be eligible for Disciplinary Honors. An aggregate transferable GPA of 3.30 is required from all former institutions. Transcripts to verify the aggregate GPA should be submitted to Undergraduate Admissions from all prior institutions attended. Students must also have at least one semester at UNC Greensboro with at least a 3.30 GPA before applying for Disciplinary Honors.

Continuing UNC Greensboro Students
Continuing UNC Greensboro students must have at least a 3.30 UNC Greensboro GPA to apply to either International or Disciplinary Honors. They must meet with an Honors academic advisor to receive the application for current students. If applying for International Honors, they must meet with an Honors academic advisor to review their options and receive the application for current students. If applying for Disciplinary Honors, students may apply directly on the LIHC website.

Lloyd International Honors College Petition Policy
Incoming first-year UNC Greensboro students who do not meet one of the specified criteria for admission to Lloyd International Honors College may petition the dean for admission. When the candidate makes a persuasive case that he or she is fully capable of succeeding in International Honors, the dean may admit the student. A student admitted through the petition process will be expected to meet all of the requirements for maintaining good standing in the International Honors Program, and is subject to the same rules as other Honors College students, including the conditions requiring suspension or removal from the college.

Programs
Lloyd International Honors College offers two enhanced academic programs—the International Honors Program and the Disciplinary Honors Program. Students who complete both the International Honors Program and the Disciplinary Honors Program are recognized for their high achievement and awarded Full University Honors.

International Honors
The International Honors Program is designed to complement and enrich the university’s General Education Program for students in any major. Students who complete the International Honors Program replace regular general education courses with Honors general education courses, reach the intermediate level of language competency in a second language, and complete a semester of study abroad, thus providing themselves with a solid liberal education with international and global perspectives, that is a valuable foundation for study in any major and for life after graduation.

Disciplinary Honors
The Disciplinary Honors Program allows students in all majors to do Honors work in their majors or in upper-division interdisciplinary studies. Through Disciplinary Honors, students have the opportunity to study topics in depth and to do research under the supervision of a faculty member, thus giving themselves a competitive advantage when applying to graduate school or beginning a career.

Community College Memoranda of Understanding

- Alamance Community College (NC)
- Durham Technical Community College (NC)
- Haywood Community College (NC)
- Robeson Community College (NC)
- Southwestern Community College (NC)

Students who graduate from the five listed community colleges with a college-transferable degree [e.g., Associates in Arts (A.A.) or Associates in Science (A.S.)] may earn the Designation of Honors Graduate from
Lloyd International Honors College at UNC Greensboro. The student must transfer in at least 12 hours of Honors course work, be accepted into Lloyd International Honors College through the UNC Greensboro admissions process, and complete the following:

- Proficiency in a foreign language (at the 204-level or higher),
- An approved international experience,
- Disciplinary Honors in the major (with grades of B or better in all Honors work), and
- Achievement of a 3.30 GPA or higher at the time of graduation from UNC Greensboro

To apply for this program, students planning to transfer from the five listed community colleges must submit a Transfer Application to UNC Greensboro through the UNC Greensboro Undergraduate Admissions Office and indicate interest in applying to Lloyd International Honors College. Students will then receive an invitation to apply to LIHC through the "Current UNC Greensboro Student Application."

Students entering LIHC under this memorandum of understanding must apply by April 1 in order to be eligible to begin disciplinary honors in the following fall semester, or by November 1 in order to do so in the following spring semester. Students entering under this memorandum must maintain good standing and fulfill other requirements that the college applies to all Honors students.

Courses

Honors courses are taught by faculty members who are among the best at UNC Greensboro, who are deeply engaged with their disciplines, and who are dedicated to helping students achieve their greatest potential. Honors courses are typically small (15–25 students) and foster discussion, collaboration, and mutual discovery among students and faculty. Typically, Honors courses fulfill a variety of university and departmental requirements.

There are several types of Honors courses:

- Honors Seminars in which students explore interdisciplinary topics in greater breadth and/or depth than in typical courses while fulfilling General Education Core requirements;
- Honors sections of regular UNC Greensboro courses that allow students to explore other topics or continue to do Honors work in their major;
- Honors Tutorials and Honors Independent Study through which students either individually or in small groups work with a faculty member on a topic of mutual interest;
- The Senior Honors Project in which a student, under the guidance of a professor, produces a research project.
- Disciplinary Honors Contract courses that allow students to enhance a regular undergraduate course and receive Honors credit for that course. Note: Honors Contract courses can be used only to fulfill Disciplinary Honors Program requirements; they cannot be used to fulfill International Honors Program requirements.
- Embedded Honors courses. These are special sections of regular UNC Greensboro courses that meet in lecture with a larger non-Honors version of the course. While Honors students in embedded Honors courses share lectures with their fellow non-Honors students, they have a different syllabus and may have different texts, other readings, and additional assignments. Embedded Honors courses require the approval of Lloyd International Honors College and the associated department or school.

The variety of Honors courses, and particularly the chance to customize one’s curriculum through tutorials and independent studies, means that students have considerable control over their own education. Moreover, many of the advanced Honors courses, such as the Senior Honors Project, allow students to do original and sophisticated work, and are an excellent preparation for graduate school, professional training, and other post-graduation endeavors.

Honors Academic Advising

Lloyd International Honors College staff offers advanced group and individual advising to help students discover the best ways to take advantage of Honors at UNC Greensboro, and to make sure that students have the needed support and encouragement along the way to completing their degrees. A variety of informal information sessions and colloquia are also provided for students interested in talking about particular topics of interest such as study abroad, internships, or graduate school.

Extra-Curricular Activities and Student Involvement

Lloyd International Honors College sponsors a number of extracurricular events. Among these events are orientations for both International Honors and Disciplinary Honors, the annual Honors Symposium, the Artist-in-Residence program, Food for Thought, Monday Play!, Bon Voyage, Bon Retour, lectures and special performances, field trips, and community service projects. Honors students can participate in the Honors Ambassadors program, the DRAGONS Peer Mentoring program, the Gray Hall Fellows program, and the Student Reflection Leaders program.

Honors Abroad Experiences

In collaboration with UNC Greensboro’s Office of International Programs, Lloyd International Honors College from time to time offers Honors Abroad Experiences for Honors students interested in an honors-enhanced study abroad experience at select locations. To be considered, students must:

1. submit an Honors Abroad application to Lloyd International Honors College and
2. be accepted for study abroad at an appropriate location by the International Programs Center.

Accepted students are given an all-expenses paid (except for food) week, or more, at a foreign location with a UNC Greensboro faculty member.

Students accepted into an Honors Abroad Experience enroll in HSS 310, a three-credit Honors course, in addition to whatever courses are taken at the host institution. HSS 310 requires that students meet with a UNC Greensboro faculty member before traveling abroad to discuss readings about their trip and the character of the country they are about to visit. Students and the UNC Greensboro faculty member then spend approximately a week exploring and taking in cultural activities abroad associated with a particular academic topic. During their semester, students travel and engage in a variety of writing assignments that allow them to reflect on their experience. Finally, students gather for a colloquium upon returning to UNC Greensboro the following semester.
Honors Awards
Lloyd International Honors College administers awards that recognize high achievement. At the Honors Convocation every spring, the college’s Honors Council bestows the Provost Student Excellence Award, the university’s highest academic undergraduate honor, on outstanding seniors. At the end of each semester, the Honors College honors students who have successfully completed one of Lloyd International Honors College’s programs at a cording ceremony or banquet.

Honors Housing
North and South Spencer Residence Halls and Gray Honors Residence Hall are housing options for Honors students and are required for incoming freshmen living on campus. Incoming Honors first-year students may apply to live in North and South Spencer Residence Halls upon their acceptance into the International Honors program. Gray Honors Residence Hall serves sophomore through senior Honors students who are interested in Undergraduate Research and/or community engagement. Current Honors students who desire to live in the Honors Residence Halls must be in good standing (have a 3.30 UNC Greensboro GPA at time of application) and are required to remain in good standing and to meet other requirements that can be found on the Honors College website in order to continue living in the hall.

Honors Council
Omar H. Ali (Chair)—Dean of Lloyd International Honors College
Deb Bell—College of Visual and Performing Arts
Melody Patterson Zoch—School of Education
Nadja Cech, Sarah Daynes, and Cerise Glenn Manigault—College of Arts and Sciences
Ratcheneewa Ross—School of Nursing
Adrienne Craig—Student Affairs
Eloise Hassell—Bryan School of Business and Economics
Tim Johnson—Housing and Residence Life
Kathleen Macfie—International and Global Studies Program
Maria Anastasiou—International Programs Center
Marcia Hale—School of Health and Human Sciences

Lloyd International Honors College administers UNC Greensboro’s Honors Programs: the International Honors Program, the Disciplinary Honors Program, and Full Honors, combining the requirements of International and Disciplinary Honors.

Disciplinary Honors Program
The Disciplinary Honors Program allows students in all majors to do Honors work in their majors or in upper-division interdisciplinary studies. Through Disciplinary Honors, students have the opportunity to study topics in depth and to do advanced research under the supervision of a faculty member, thus giving themselves a competitive advantage when applying for graduate school or beginning a career. In order to participate in and take Disciplinary Honors courses, students must have a 3.30 grade point average at the time of registration and meet all other course prerequisites.

Recognition
Students who complete the requirements for the Disciplinary Honors Program receive a Certificate of Disciplinary Honors in [major/Interdisciplinary Studies], have that accomplishment, along with the title of their Senior Honors Project, noted on their official transcript, and are recognized at a cording ceremony or banquet at the end of each semester.

Requirements
The requirements for the Disciplinary Honors Program vary by Major (students should check the individual departments in this Bulletin for details on specific course requirements) but, at a minimum, includes those provided below.

1. Minimum GPA
   UNC Greensboro GPA of 3.30 or higher at graduation

2. Honors course work
   At least 12 credit hours of Honors course work with grades of A or B as listed below.
   a. Course work in the major
      6 credits Honors course work in the major
   b. Honors project course
      HSS 490 Senior Honors Project
   c. Additional course work
      3 credits of Honors course work in the major or another area

In some departments, graduate-level course work qualifies as Honors for undergraduates.

For those students who wish to pursue Disciplinary Honors in Interdisciplinary Studies, the requirements are as provided below.

1. Minimum GPA
   UNC Greensboro GPA of 3.30 or higher at graduation

2. Honors course work
   At least 12 credits of Honors course work with grades of A or B as listed below. At least 6 credits must be at the 300 level or higher.
   a. Course work
      9 credits Honors course work
   b. Honors project course
      HSS 490 Senior Honors Project

Requirements for Specific Majors
The requirements for the Disciplinary Honors Program vary by major. Each academic department at UNC Greensboro has a faculty Honors Liaison who is knowledgeable about both his or her programs and International Honors. You are encouraged to get to know the Liaison in your department, especially by the time you are a junior and fully in your major.

Specific information about pursuing Disciplinary Honors within any of the departments or programs listed below is provided with the information for that entity in this Catalog.

• Accounting and Finance
• African American and African Diaspora Studies
• Anthropology
• Archaeology
• Art
• Arts Administration
• Astronomy
• Biology
• Chemistry and Biochemistry
• Classical Studies
• Communication Sciences and Disorders
• Communication Studies
• Community and Therapeutic Recreation
• Computer Science
• Consumer, Apparel, and Retail Studies
• Dance
• Economics
• English
• Environmental Studies
• French
• Geography, Environment, and Sustainability
• German
• History
• Human Development and Family Studies
• Information Systems and Supply Chain Management
• Interior Architecture
• International and Global Studies
• Kinesiology
• Management
• Marketing, Entrepreneurship, and Hospitality and Tourism Management
• Mathematics and Statistics
• Media Studies
• Music Education
• Music Performance
• Music Studies
• Nursing
• Nutrition
• Peace and Conflict Studies
• Philosophy
• Physics and Astronomy
• Political Science
• Psychology
• Public Health Education
• Religious Studies
• Social Work
• Sociology
• Spanish
• Specialized Education Services
• Statistics
• Teacher Education and Higher Education
• Theatre
• Women’s, Gender, and Sexuality Studies

Full University Honors

Students who complete all the requirements for both the International Honors Program and the Disciplinary Honors Program are recognized for completing Full University Honors. Courses used to fulfill the requirements of one of those programs cannot be used to fulfill the requirements of the other.

Students who earn Full University Honors receive a Certificate of Full University Honors in [major/Interdisciplinary Studies], have that accomplishment, along with the title of their Senior Honors Project, noted on their official transcript, and are recognized at a banquet held at the end of each academic year.

International Honors Program

The International Honors Program is designed to complement and enrich the undergraduate study of motivated and high achieving students in all majors. In order to participate in Honors and enroll in courses, students must be admitted into, and maintain good standing in, the International Honors Program. Students who complete the International Honors Program take Honors courses in a wide range of subjects, reach a basic level of language competency in a second language, and study abroad through an approved program. Courses taken in fulfillment of the requirements for the International Honors Program typically also fulfill the university’s General Education Core requirements.

Requirements

To successfully complete the International Honors Program, a student must be a member of Lloyd International Honors College at the time of graduation, have a UNC Greensboro GPA of 3.30 or higher at graduation, have achieved a GPA of 3.0 or higher on all honors work attempted in the first two semesters of membership in the honors college, and have completed the course work detailed below with grades of B (3.0) or higher.

1. Course work
   a. Seminar
      A first-year Honors seminar (3 credits) in the first semester after having been admitted to Lloyd International Honors College
   b. Colloquium
      Colloquium course to be taken in the first semester after having been admitted to Lloyd International Honors College
      HSS 198 Honors Colloquium
   c. Additional course work
      9 credits of additional Honors course work.

2. Additional requirements
   In addition, a student must also complete the items detailed below.
   a. Language
      Master a language other than their native language through the equivalent of the 204 level of language courses taught at UNC Greensboro.
      Ancient languages and sign languages are permitted. This requirement can be fulfilled by any combination of course work, placement tests, and appropriate evidence of mastery through other documentation.
   b. International experience
      Complete an approved international experience, usually in the form of studying abroad for a semester or a full academic year.
      To document completion of the international experience, students must register either for HSS 299 or IGS 297 in the semester following the international experience.

Recognition

Students who complete the requirements for the International Honors Program receive a Certificate of International Honors, have that accomplishment noted on their official transcript, and are recognized at a cordling ceremony or banquet at the end of each semester.
International Programs Center

Maria Anastasiou, Associate Provost for International Programs
Denise Bellamy, Senior Director of IPC/Director of Study Abroad and Exchanges (SAE)
Heidi Bretz, Assistant Director, SAE
Monica Scovell, Assistant Director, SAE
Logan Stanfield, Study Abroad Coordinator, SAE
Jennifer Kelley, International Student & Scholar Services Lead & International Student Advisor
Norma Velazquez, Senior International Advisor (Students and Scholars)
Stephanie Guzman, Program Coordinator
Delisha Stafford, Assistant Director, ISSS/SAE
Alex Parsons, Administrative Coordinator
LaToya Winslow, Financial Coordinator

About
As the university's central point of contact for all of its international activities, the International Programs Center (IPC) develops, coordinates, and supports global learning opportunities for students. IPC's work supports UNC Greensboro's diversity, equity, and inclusion goals.

Education Abroad
A UNC Greensboro student in good standing may engage in a summer, semester, or academic year opportunity abroad in several ways.

Exchange Programs
Through various exchange agreements, a UNC Greensboro student may exchange places with a student in another country for a semester or academic year. Under these arrangements, students study abroad for approximately the cost of being in residence at UNC Greensboro. Students can choose from over ninety exchange partner programs in more than forty-five countries. Examples of our partner program locations include Australia, Botswana, Canada, Chile, China, Estonia, Finland, France, Germany, Italy, Japan, Korea, Mexico, New Zealand, Peru, Poland, South Africa, Spain, Sweden, Turkey, and the United Kingdom. The cost of such study is about the same as being in residence at UNC Greensboro. Because of such exchanges UNC Greensboro hosts about 130 international exchange students per year from our partner universities.

Faculty-Led Programs
UNC Greensboro professors regularly develop and lead student group programs overseas for course credit. Over the past few years, groups have gone to such countries as Costa Rica, China, Greece, Spain, United Kingdom, and Tanzania, among many others. Faculty lead students abroad on interculturally immersive short-term programs during Winter Break, Spring Break, and over summer.

Virtual Global Programs
UNC Greensboro students may take advantage of virtual international experiences to learn a language, access subject areas as taught by partner institutions, or even engage in an internship with an organization abroad. These affordable, credit-bearing opportunities allow students to engage

Additional Education Abroad Programs
Students can also take advantage of dozens of semester and summer study programs, internships, and research abroad opportunities offered by UNC Greensboro partner universities, affiliated education abroad providers, and faculty members. Although not student exchange programs, many of these education abroad options can offer a cost effective means to engage in global efforts.

Non-UNC Greensboro Affiliated Education Abroad Programs
A UNC Greensboro student may spend a summer, semester, or year abroad under the auspices of a group or institution that is not affiliated with UNC Greensboro but is approved by the UNC Greensboro Study Abroad Committee. While generally more costly than ISEP or the UNC Greensboro programs, this option may be of interest to students seeking particular experiences not otherwise available. Note that for UNC Greensboro transfer credit to be awarded, for non-credit curricular requirements to be satisfied, or for UNC Greensboro financial aid or scholarships to potentially apply, approval of a Non-UNC Greensboro Program must be granted by the International Programs Center prior to participation.

International Student and Scholar Services
UNC Greensboro is home to more than 450 degree-seeking international students and scholars who represent 65+ countries around the world. Specific services and advocacy are provided by the International Student and Scholar Services (ISSS) for degree-seeking international students and visiting scholars, including faculty, researchers, and observers. IPC provides services from the time of initial contact through the student or scholar’s entire experience at the university.

Fellowships Advising and Mentorship
Housed in the International Programs Center (IPC), the Fellowships Advising and Mentorship (FAM) unit provides information and support to UNC Greensboro undergraduate students, recent graduates, and graduate students applying for nationally and internationally competitive fellowships and scholarships. Opportunities include undergraduate and graduate study, research, and teaching—often in other countries.

FAM works with faculty and units across campus to provide advice and feedback for candidates at all stages of the application process, from planning to applying to final submission, helping applicants to become more competitive for scholarships.
System-Wide Initiative: Baden-Württemberg North Carolina (BW/NC) Exchange Program

On behalf of the UNC System, IPC/SAE is responsible for the administration of the Baden-Württemberg state-to-state Exchange Program (https://sites.google.com/uncg.edu/bwniec-exchange/home/). We established this study abroad exchange partnership between North Carolina’s 15 university campuses and the 9 Baden-Württemberg universities in Germany. The BW/NC Exchange Program allows students to continue enrollment on their home campus while studying abroad at an exchange institution in Baden-Württemberg or North Carolina for no additional tuition.

Committees

All IPC activities are carefully supervised and supported by the following committees:

- Discretionary Funds Committee
- Global Leadership (GLP) Steering Committee
- International Students and Scholars Services Committee
- IPC Advisory Committee
- Study Abroad Committee
Preprofessional Programs

UNC Greensboro offers courses required for admission to medical, dental, pharmacy, veterinary, occupational therapy or physical therapy schools, or as needed for entrance into law school. A suggested two-year pre-engineering curriculum prepares students to transfer to schools with engineering programs.

At UNC Greensboro, Preprofessional Programs are not majors in which degrees can be earned nor do they prescribe courses required for graduation. Rather, these “Programs” are meant to identify students with an interest in applying to a post-graduate professional school in the health sciences, engineering or law. Therefore, students who choose to designate an interest track must still select an academic area of study as their major.

Students elect to become associated with the Preprofessional Programs by selecting an interest track which matches their future career aspirations (see below for list of possible tracks). Making this election through a form provided on the SpartanConnect website then allows UNC Greensboro to provide targeted advising and support to assist students in preparing for application to their post-graduate schools of choice. The election form can be accessed via the following link: https://spartancentral.uncg.edu/forms/pre-professional-interest-tracks/

Students interested in designating a preprofessional interest track are urged to seek advising early in their academic careers.

Interest Tracks

Health Sciences
Pre Medicine (M.D.or D.O.)
Pre Physician Assistant
Pre Dentistry
Pre Physical Therapy
Pre Occupational Therapy
Pre Pharmacy
Pre Veterinary Medicine

Law

Caitlin Saraphis, College of Arts and Sciences Advising Center
Randy Schmidt, Professor, Department of Kinesiology
Casey Taylor, Lecturer, Department of Biology
Aaron Terranova, Associate Professor, Department of Kinesiology

Students should declare the appropriate Pre-professional interest track by using the form provided on our SpartanConnect website (https://spartancentral.uncg.edu/forms/pre-professional-interest-tracks/). Students with these declared interest tracks will be assigned to a member of this committee to assist in planning their program of study as their secondary advisor. They will also be automatically enrolled in the (ORG) Pre-professional Programs group in Canvas, which will provide resources and communication about upcoming events, opportunities, and deadlines.

The admission requirements vary slightly among the various schools and programs. For specific information students should review the websites of the medical, dental, and veterinary medical schools to which they are interested in applying. Other sources of information are current volumes of Medical School Admission Requirements and Admission Requirements of American Dental Schools.

Most professional training programs require a core of courses (“prerequisites”) that must be completed before admission. They can be successfully incorporated into almost any major. The choice of major does not significantly affect the student’s probability of admission to a given professional graduate school. Students should give consideration to any major that they find interesting and in which they excel. Nearly all professional schools require completion of a bachelor’s degree.

The achievement of outstanding academic credentials should not be accomplished at the expense of sacrificing extracurricular activities. Professional programs prefer students who have actively pursued their interests, especially in the areas of leadership, service to underserved populations, and clinical or health-related experiences. (Physician assistant and veterinary medicine schools require specified hours of clinical care experiences for competitive application.)

In addition to course work, virtually all professional schools require some form of standardized test prior to consideration of a student’s admission application. These tests are usually taken in the spring before application
is made in early summer. Medical schools require the Medical College Admission Test (MCAT), dental schools the Dental Admission Test (DAT), and veterinary medicine schools and physician assistant schools the Graduate Record Examination (GRE) Aptitude Test.

Applications to professional schools are made a year before expected matriculation, usually between June and October. This means that the course work included on the standardized entrance test must be completed by the end of the junior year of college in order to move straight from college to professional schools the following August without a “gap” year. With this being said, students should be aware that completing requirements to apply after the senior year would allow them to spread out the required courses, pursue minors or second majors, or study abroad, which may increase the success of students in admissions to professional schools. In the application year, early application to professional schools (by August 1) is strongly recommended, as interviews and acceptances go first to the earliest applicants. (Physician assistant schools start in either August or January, so their application cycle begins in April.)

Professional school applications are made directly to Centralized Application Services for each type of graduate program. The American Medical College Application Service (AMCAS) is the agent for allopathic medical schools, the American Association of Dental Schools Application Service (AADSAS) is the agent for many dental schools, the American Association of Colleges of Osteopathic Medicine (AACOMAS) is the agent for osteopathic medical schools, the Central Application Service for Physician Assistants (CASPA) is the agent for physician assistant schools and the Veterinary Medical College Application Service (VMCAS) is the agent for most veterinary medical schools. Application information is available from those services directly and through the Canvas Pre-professional Programs group resources. Medical, dental, PA and vet schools not subscribing to the centralized application service must be contacted individually.

Students interested in other post college health careers such as Optometry, Podiatric Medicine, Chiropractic Medicine, Genetic Counseling, etc. are encouraged to declare a Pre-medicine interest track as well, to have access to the resources and Health Careers Advisory Committee for assistance in planning their programs of study.

### Pre Medicine Recommended Courses

Allopathic and osteopathic medical schools generally require the categories below:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIO 111</td>
<td>Principles of Biology I &amp; 111L</td>
<td>12</td>

<td></td>
</tr>
<tr>
<td>BIO 472</td>
<td>Histology</td>
<td>4</td>
</tr>
</tbody>
</table>

### Pre Dentistry Recommended Courses

Dental school preparatory course requirements are usually much like those for medical school; however, they may also require anatomy in addition to the classes listed above.
Pre Physician Assistant Recommended Courses

Physician assistant programs are more variable in requirements than medical schools. While still requiring the same Biology and Chemistry courses as medical and dental schools, they typically do not require Physics courses, but add courses in Anatomy, Microbiology, Genetics, and Medical terminology.

Pre Veterinary Medicine Recommended Courses

Veterinary school course requirements are considerably more extensive than those for medical or dental schools. In addition to specifying all of the above courses in mathematics, chemistry, and biology, these programs typically require or recommend more courses in animal science, general microbiology, animal nutrition, and possibly some business courses. Several hundred hours of work experience with animals or in a veterinarian’s practice is required. Students interested in veterinary school should make contact with the school and with the advisory committee at an early stage of their undergraduate careers, to discuss how to meet these requirements.

Pre Engineering Advisors

Promod Pratap, Associate Professor, Department of Physics and Astronomy

The following two-year pre-engineering curriculum offers preparation for students who plan to transfer to engineering programs in other institutions. This program has been approved by the Subcommittee on Engineering Transfer for transfer to the engineering programs at North Carolina A&T State University, North Carolina State University, and The University of North Carolina at Charlotte. Students interested in engineering should contact the advisors above as soon as possible.

See the designated General Education requirements and approved course listings. Recommended are a beginning course in literature, history (200 level), history or philosophy of science, and communications*. Some engineering programs require proficiency in a foreign language through the level of the first year (101–102). Students should make appropriate selections after consultation with an advisor. More information may be found on the Web at h [http://physics.uncg.edu/academics/engineering.html]https://physics.uncg.edu/undergraduate-program/pre-engineering-at-uncg/

Note that the one-hour Kinesiology activity courses may be taken in any semester; most engineering schools require at least two PE. credits.
changes in occupational therapy now require that all students completing a degree in occupational therapy after January 1, 2007 must obtain the master's degree.

Students seeking admission into a Master of Science program in Occupational Therapy may declare a major in Recreation and Parks Management (RPMT), with an emphasis in Therapeutic Recreation, but will be expected to complete a core of additional courses.

**Requirements**

Requirements for entry into an M.S. program in O.T. generally include the courses detailed below. Additional recommendations may include (depending on the master's program of interest to student) a course in either an academic or community-based setting that requires the skills of the body and mind, such as art, music, dance, recreation, sports classes, theater, etc. First aid and CPR certification may also be required. Students should contact an advisor for assistance in planning their program of study.

**Pre Pharmacy Advisors**

Nicholas Oberlies, Professor, Department of Chemistry and Biochemistry
Robin G. Maxwell, Senior Lecturer, Department of Biology

Students seeking a professional degree in Pharmacy may follow a Pre Pharmacy curriculum at UNC Greensboro. In some cases, it is possible to complete the prerequisites in two or more years and then transfer to a school of pharmacy. An additional three to four years will then be required to complete the Doctor of Pharmacy degree. There are 137 accredited schools of pharmacy in the United States. The North Carolina schools
are the University of North Carolina at Chapel Hill, Campbell University, Wingate University, and High Point University.

Completion of the Pre Pharmacy work at UNC Greensboro does not guarantee admission to pharmacy school. Students should consult a Pre Pharmacy advisor before registering for courses. Those planning to apply to out-of-state pharmacy schools should bring along information from those schools.

### Requirements

Prepharmacy requirements generally include the courses as listed below. Many schools specify other humanities and social science courses, including communication studies, for a total of around 64 credit hours. Some research experience is also strongly recommended or required to be competitive for most pharmacy schools. Students will also be required to take the Pharmacy College Admission Test before applying to pharmacy school.

### Pre Physical Therapy

#### Advisors

Robin G. Maxwell, Senior Lecturer, Department of Biology
Randy J. Schmitz, Associate Professor, Department of Kinesiology

Six doctoral programs in physical therapy (DPT) are currently available in North Carolina. They are at Duke University, Elon University, UNC-Chapel Hill, East Carolina University, Western Carolina University, and Winston-Salem State University.

Students seeking a DPT degree may major in any academic area but will be expected to complete a core of science courses. The minimum grade point average for admission is 3.0 on a 4.0 scale. Volunteer experience in physical therapy is required for admission.

### Requirements

Requirements for the MPT and DPT generally include the courses listed below.

Additional recommendations include computer literacy and course work in biomechanics, and genetics. Students should contact the programs directly to ensure that they meet current requirements for each school. A complete listing of accredited physical therapy programs is available from the American Physical Therapy Association.

American Physical Therapy Association
1111 North Fairfax Street
Alexandria, VA 22314
703-684-APTA

Students should contact an advisor for assistance in planning their program of study.

Melody Zoch, School of Education

About

The Residential Colleges (Ashby, Grogan, and Strong) provide a small college environment within the large university setting, with the advantages of both available to students. Administered by the Residential Colleges Office in the University Teaching and Learning Commons, the Residential Colleges are curricular and co-curricular academic communities designed around high-impact educational practices and populated by first- and second-year students who live together in a residence hall and take a common core of general education and capstone courses around a particular concept such as social justice and contemporary media literacies (Ashby), professionalism and team-based learning (Grogan), or sustainability and hands-on research (Strong). Having been a part of the UNC Greensboro academic community since 1970, these innovative living-learning environments offer a full slate of general education courses in Minerva’s Academic Curriculum (MAC) in addition to a series of core courses that speak to and engage with a key concept that frames the curricular and co-curricular programming in each RC. The Residential College model is founded on the idea that students who engage with faculty, take classes together in small communities, and connect their intellectual and academic experiences to their lives and communities have a better chance at thriving in college, while learning to explore new ideas and asking how that knowledge might benefit others.

Open to first- and second-year students in every major on campus, the Residential Colleges help students develop a strong foundation in critical inquiry, writing, speaking, and problem solving, as well as personal and social responsibility. Rich in traditions, the Residential Colleges each maintain a series of annual signature events and unique academic and social programs. The following unique curricular foci and signature pedagogies/methodologies integrate the courses and learning experiences within each RC:

Ashby Residential College in Mary Foust Hall
Curricular Focus: Social Justice and Contemporary Media Literacies
Signature Pedagogy/Methodology: Multi-l literacies and Genre Work

Grogan Residential College in Grogan Hall
Curricular Focus: Professionalism
Signature Pedagogy/Methodology: Project- and Team-Based Learning

Strong Residential College in Guilford Hall
Curricular Focus: Sustainability
Signature Pedagogy/Methodology: Field Work and Hands-on Research

Vision

Drawing on our rich histories, the Residential Colleges offer students innovative and multidisciplinary courses, close working relationships with faculty, and leadership opportunities that encourage intellectual curiosity, personal development, and civic engagement. Additionally, the Residential Colleges provide opportunities for faculty to refine their teaching praxis through supported development in High-Impact Educational Practices (HIPs).

Requirements

Admission into one of the Residential Colleges is required for enrollment in courses and participation in co-curricular and social programs offered by the Residential Colleges. To apply for admission, incoming students respond to Residential College-specific questions on their university application. Once enrolled in the Residential Colleges, students may earn graduation cords and be eligible for awards and scholarships by fulfilling the following minimum requirements:

1. Fulfillment of RC-specific participation expectations, including residency in a Residential College
2. Completion of 6–9 credits of core RCO courses that meet the university’s Minerva’s Academic Curriculum (MAC) general education requirements
3. Completion of a capstone RCO course, including presentation of an undergraduate research project

Ashby Residential College

University Teaching and Learning Commons

124 Mary Foust Hall
336-334-5915
http://ashby.uncg.edu (http://ashby.uncg.edu/)
Ashby Residential College Core Values
Liberal education, multiliteracies, innovative learning, and social justice.

Vision Statement
Ashby Residential College is a home on campus where students can relate serious academic studies to communal issues and personal development. Ashby upholds a tradition that fosters friendships, a commitment to life-long learning, and a responsibility to the community.

Mission Statement
Ashby Residential College fosters a holistic academic community grounded in liberal education and multi-literacies. Our primary intellectual and social commitments are to global engagement, social justice, and multi-literacies, which includes sustainability, wellness, and global human rights. Our innovative, multidisciplinary curriculum and self-governing activities encourage students to:

- Integrate and apply knowledge to societal challenges with progressively higher levels of explorations and expectations;
- Organize, plan, and implement projects that foster personal development, innovation, leadership, and civic engagement; and
- Develop with faculty, staff, and alumni a strong and diverse community connected by a respect for individuality and a balance between public and private values.

Overview
Ashby Residential College, founded in 1970, is the oldest residential college in North Carolina. We value faculty-student interactions and emphasize small-seminar classes that meet UNC Greensboro general education requirements. In-house programs provide support in terms of advising, library access, research, and developing skills in speaking and writing. Self-governing activities encourage students to integrate and apply knowledge to societal challenges, implement projects that foster personal development, innovation, leadership, and civic engagement. Mary Foust Hall houses approximately 120 co-ed freshmen and sophomores. All students who have been admitted to UNC Greensboro automatically qualify for application to Ashby. Anyone who wishes to receive more information about the program is encouraged to contact the Ashby Office, located in 124 Mary Foust Hall, 336-334-5915, and to visit the website: http://ashby.uncg.edu.

Ashby Residential College in Mary Foust is an inclusive, two-year program that offers a unique living and learning environment for a co-ed student community of approximately 120 freshmen and sophomores with a limited number of Upper-Class Mentor participants. Ashby is a small college but with immediate and complete access to the diverse facilities, programs, and departments of a larger university. Ashby provides a setting that encourages innovative study, small classes, unity of academic and social experiences, and close student-faculty contacts. A Residential College Coordinator, who serves on the faculty, resides in the hall. Other faculty members have offices in the residence hall. Students and faculty serve on governing committees and participate together in special events within the community.

Every semester, the Ashby curriculum includes approximately eighteen courses taught by faculty from departments across campus. These courses meet UNC Greensboro general education requirements as well as requirements for a variety of majors. All students are asked to participate in one of the ARC multidisciplinary core courses, which represent four to five integrated courses from the Ashby curriculum, and to choose another class from the other curricular offerings, which represent a wide range of academic subjects. These seminars, along with varied types of independent study and community service work, make up approximately six hours of a student’s semester course load. The remaining semester hours are taken within the greater university. Ashby students are not only full members of UNC Greensboro, but are also encouraged to participate in the life of the university.

Grogan Residential College

University Teaching and Learning Commons
108 Grogan Hall
336-334-5898
http://grogan.uncg.edu

John Sopper, Program Chair of Ione Grogan Residential College, Department of Religious Studies
Sarah Colonna, Associate Program Chair of Ione Grogan Residential College, Women’s and Gender Studies Program

About
Grogan Residential College is a two year, residential and academic program that serves undergraduate students in all majors offered at UNC Greensboro. Recognizing the changing realities of work, Grogan helps students connect their passion, curiosity, and interests to their learning and development as future professionals. Grogan offers a personalized approach, project-based learning strategies, and opportunities for broad-based leadership and professional development.

Grogan College also serves as a “teaching innovations lab” where UNC Greensboro faculty develop new and more effective approaches to teaching and learning. Through its unique residential environment, dedicated faculty, innovative CORE courses and related experiential learning opportunities, Grogan College helps students develop perspectives, aptitudes, and skills needed for sustained professional success in a changing world.

Mission Statement
Grogan Residential College fosters active lifelong learners and creative future professionals.

Members of Grogan College:

- Take Grogan Core courses that connect passion and curiosity to learning and professional development.
- Live with other students who share similar academic and professional interests.
- Connect with faculty through courses, workshops, field experiences, and other programs.
- Engage with peer mentors.
- Develop a capstone portfolio that effectively communicates the value of their Grogan experience and articulates their future professional path.
Strong Residential College

University Teaching and Learning Commons

121 Guilford Hall
336-334-1325
http://strong.uncg.edu

Sara Littlejohn, Program Chair of Warren Ashby Residential College and Cornelia Strong Residential College, Department of English
Anne Barton, Associate Program Chair of Cornelia Strong Residential College, Department of History
Will Dodson, Residential College Coordinator of Cornelia Strong Residential College, Department of Media Studies

About

Strong Residential College, founded in 1994, fosters a holistic academic community grounded in liberal education with an intellectual commitment to sustainability and hands-on research.

Strong College strives to help students make connections to the larger, global landscape by focusing on creating sustainable social, economic, structural, aesthetic, and environmental futures through fieldwork research, reflection, and learning—an approach that ultimately threads observation and analysis into intentional connections between education and social responsibility.

Students in this closely knit community will take at least two core courses focused on sustainable communities during their four semesters in the program and will also have the option of taking Minerva’s Academic Curriculum (MAC) courses open only to Residential College students. In the fourth semester, students will complete independent capstone projects structured around the concept of sustainable communities. During the two years of the program, students will develop their leadership skills through participation in Strong College committees and will live in Guilford Residence Hall.
EQUALITY OF OPPORTUNITY IN THE UNIVERSITY

The University of North Carolina at Greensboro is committed to equality of educational opportunity and does not discriminate against applicants, students, or employees based on race, color, creed, gender, age, national origin, disability, military veteran status, political affiliation, or sexual orientation. The University of North Carolina at Greensboro is open to people of all races and actively seeks to promote racial integration by recruiting and enrolling a larger number of black students. This commitment is in keeping with Title IX of the Educational Amendments of 1972 and Section 504, Rehabilitation Act of 1973.

The following is reprinted from http://hrs.uncg.edu/Affirmative_Action/.

Admission to, employment by, and promotion in the University of North Carolina and all of its constituent institutions shall be on the basis of merit, and there shall be no unlawful discrimination against any person on the basis of race, color, religion, sex, sexual orientation, gender identity, national origin, age, disability, genetic information, or veteran status. (Chapter 1, Section 103)

UNC Greensboro’s Statement of Commitment to Equal Opportunity

The following is reprinted from http://hrs.uncg.edu/Affirmative_Action/.

The Statement of Commitment to Equal Opportunity has been separated into three statements outlined further on the website linked above.

1. Statement of Nondiscrimination on the Basis of Sexual Orientation
2. Statement of Commitment to Equal Opportunity - Women and Minorities
3. Statement of Commitment to Equal Opportunity - Individuals with a Disability and Veterans

In addition to adherence to the UNC Greensboro Policy on Discriminatory Conduct, the university aims to achieve within all areas of employment a diverse faculty and staff capable of providing for excellence in the education of its students and for the enrichment of the total university community. In seeking to fill openings, every effort will be made to recruit in such a way that women and minorities will have an equal opportunity to be considered for and appointed to all vacant positions. All appointments, promotions, and all other personnel actions, such as compensation, benefits, transfers, training and educational programs, tuition assistance, travel assistance, research grants, support for graduate assistants, social and recreational programs, will be administered without regard to race, color, religion, sex (including pregnancy), gender identity, national origin, political affiliation, sexual orientation, genetic information and age, including sexual harassment, in such manner as is consistent with achieving a staff of diverse and competent persons. Unlawful discrimination, harassment, and retaliation are strictly prohibited.

Overall responsibility for the development and implementation of the University’s Affirmative Action Program resides with the chancellor. The Affirmative Action Officer has been given the responsibility to monitor the effectiveness of the University’s Affirmative Action Program and to assist in affirmative action policy and planning. This does not diminish in any way the responsibilities of deans, department heads, managers, and supervisors to assist in administering the affirmative action policy and planning through promulgation of information.

The University of North Carolina at Greensboro reaffirms its commitment to equality of opportunity in its relationships with all members of the university community.

* The UNC Greensboro discriminatory conduct policy includes protection for transgendered individuals, and actual or perceived gender identity or expression, within its prohibited discriminatory conduct.
Equity in Athletics Statement

Pursuant to the federal Equity in Athletics Disclosure Act, information about equity in UNC Greensboro’s intercollegiate athletics programs may be obtained from the UNC Greensboro Athletic Department.

UNC Greensboro Athletic Department
337 HHP Building
UNC Greensboro
Greensboro, NC 27402

Policy Concerning Abuse of Alcohol and/ or Illegal Drugs

In accordance with the Federal Drug-Free Schools and Communities Act Amendments of 1989, which require that all students receive annual notice of the laws and/or policies regarding alcohol and drug abuse, the following information is provided:

Illegal or abusive use of drugs or alcohol by any member of the university community can adversely affect the educational environment and will not be accepted. Abuse of these substances can result in numerous physical and psychological health problems. Substance abuse is a factor in organ damage, increased risk of personal injury, impaired judgment, a factor in sexually transmitted diseases, and more.

Policies on alcohol and drugs can be found in the Policies for Students Manual distributed to all students upon their entrance into the university community. They also can be accessed via the Web at https://policy.uncg.edu/university-policies/illegal_drugs/.

Services for students experiencing problems with alcohol and other drugs are available through Student Health Services. They include the Medical Clinic (336-334-5340) and Counseling Center (336-334-5874). The School of Education houses the Nicholas A. Vacc Counseling and Consulting Clinic (336-334-5112) which offers a Substance Information Program (SIP) for education and assessment. Educational programs are also provided through the Department of Recreation and Wellness, http://recwell.uncg.edu/wellness/ (336-334-5924).

Right-To-Know Statement

Pursuant to the federal Student Right-to-Know Act, UNC Greensboro graduation rates may be obtained from the Office of Institutional Research.

Office of Institutional Research
PO Box 26170
Greensboro, NC 27402-6170
336-324-5320

Public Records Policy

The full Public Records Policy can be accessed at https://policy.uncg.edu/university-policies/public_records_uncg/.

The University of North Carolina at Greensboro will be responsive to public records requests while at the same time striving to maintain the confidentiality of certain records as required by law. This policy shall be implemented in accordance with the North Carolina Public Records Act and other applicable federal and state laws. This Policy complies with the North Carolina Attorney General’s North Carolina Guide to Open Government and Public Records. See https://ncdoj.gov/wp-admin/admin-ajax.php?juwpfsadmin=false&action=wpfd&task=file.download&wpfd_category_id=141&wpfd_file_id=17891.

All records created or received in the course of public business by the University or its employees, in whatever format, including paper, photographs, recordings, computer records and emails, constitute public records, unless an exception applies.

Persons who seek to access the public records of the University should direct a written request to the University unit, e.g., department or division, from which the particular records are being sought. For example, student record requests should be directed to the Registrar or Student Affairs. Personnel records requests should be directed to Human Resource Services (SPA employee records) or the office of the Provost (EPA employee records). Law enforcement records requests should be directed to the UNC Greensboro Police Department. Requests for information with regard to University athletics should be directed to the Athletics Department. If the requester cannot or will not reduce an oral request to writing, then the records custodian of the unit will reduce the request to writing and will obtain the requester’s agreement to the accuracy of the writing before proceeding further.

Accreditation Status

The University of North Carolina at Greensboro is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award baccalaureate, master’s, specialist, and doctoral degrees. Questions about the accreditation of UNC Greensboro may be directed in writing to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097, by calling (404) 679-4500, or by using information available on SACSCOC’s website (www.sacscoc.org) (https://www.sacscoc.org/).

Those interested may contact the Southern Association of Colleges and Schools Commission on Colleges for accreditation-related purposes such as inquiring about the accreditation status of UNC Greensboro, asking questions about the accreditation process, or to pursue procedures for filing complaints. All other inquiries, such as admission requirements, financial aid, educational programs, etc., should be made directly to UNC Greensboro, 336-334-5000.

Military-Affiliated Students

Military-affiliated student information is available via the Military-Affiliated Services Office website at https://military.uncg.edu (https://military.uncg.edu/).

The Graduate School

Graduate student information is available via the Graduate School website at https://grs.uncg.edu (https://grs.uncg.edu/).

Research Centers and Institutions

Center for Community-Engaged Design
102 Gatewood Studio Arts Building
(336) 334-5320
uncg.edu/iar/cc-ed (http://uncg.edu/iar/cc-ed/)

The Center for Community-Engaged Design is an interdisciplinary research center that fosters community/university partnerships for meaningful research and design of the built and natural environments. Housed in the Department of Interior Architecture at the University
of North Carolina at Greensboro, CC-ED collaborates with community partners, non-profit organizations, and municipal departments to address design-related projects in underserved areas and for underrepresented populations in the Piedmont-Triad area. Through community-engaged processes of research, service, visioning, teaching, and learning, CC-ED brings innovative design thinking and methodologies to bear in areas where resources are most limited.

**Center for Housing and Community Studies**

Suite 3605 Moore Humanities and Research Administration Building  
(336) 334-3731  
chcs.uncg.edu (http://chcs.uncg.edu)

The UNC Greensboro Center for Housing and Community Studies will stimulate the development and facilitation of interdisciplinary and community-based housing and community research, evaluation, and practice in the context of institutional and community collaborations. Through multidisciplinary and community-engaged research the Center for Housing and Community Studies provides data, analysis, planning and evaluation that aids non-profit and governmental agencies in providing fair, affordable, and healthy housing and building safe and sustainable communities for all.

**Center for Industry Research and Engagement**

474 Bryan Building  
(336) 334-4471  
https://bryan.uncg.edu/faculty-staff/research-resources/center-for-industry-research-engagement/

Drawing on the expertise of the faculty of the Bryan School of Business and Economics, the Center for Industry Research and Engagement (CIRE) performs high-quality applied research in economic policy and business practice, including economic-impact analyses, industry studies, regional economic profiles, feasibility studies, opinion surveys, program assessments, and updates of current economic conditions.

**Center for the Health of Vulnerable Populations**

210 Moore Nursing Building  
(336) 334-3701  
nursing.uncg.edu/about/community/ (https://nursing.uncg.edu/about/community/)

The mission of the Center for the Health of Vulnerable Populations (CHVP) is to improve the knowledge of health disparities and vulnerable populations through research, collaboration and education. This includes initiatives to alleviate those disparities, thus improving the health, access, quality of care and quality of life of vulnerable populations. Strategies are designed to address the NIH Roadmap, Healthy People 2020, and Healthy Carolinians 2020 through partnerships with community stakeholders. To fulfill the mission, the Center:

1. Promotes and enhances research on aging, culture, disease processes, ethnicity, health care delivery, disparities, health education, health policy and health risks and behaviors;  
2. Fosters collaborative research within the School, across the University and state, and involving community and international partners;  
3. Disseminates research information to teachers, researchers, business leaders, health care providers, policy makers, the public and the international community; and  
4. Develops new knowledge that contributes to better health, fewer health disparities and improved health care for vulnerable populations.

The CHVP activities include research training, research studies, grantsmanship, and outreach health education community partnerships.

**Center for New North Carolinians**

915 W. Gate City Blvd.  
(336) 334-5411  
cnnc.uncg.edu (http://cnnc.uncg.edu)

The Center for New North Carolinians (CNNC) is committed to advancing the capacity of immigrants and refugees by building bridges between immigrant populations and existing communities throughout the state of North Carolina. This is done via community-based outreach and advocacy, educational programming, research and evaluation, immigrant and refugee leadership development, cultural brokering, and educational opportunities for faculty and students. The CNNC was established in 2001 and currently serves clients from over 31 countries including but not limited to Bhutan, Burma, Central African Republic, Cuba, Democratic Republic of Congo, El Salvador, Eritrea, Ethiopia, Iraq, Mexico, Sudan, Syria, and Vietnam. Several ongoing projects include: AmeriCorps ACCESS Project, Community Centers, Thriving at Three, Immigrant Health ACCESS Project, Interpreter ACCESS Project, Microenterprise for Refugees in the Triad, Latino Community Coalition of Guilford, and Research Fellows.

**Center for Translational Biomedical Research**

6500 Laureate Way, Suite 4226  
Kannapolis, NC 28081  
(704) 250-5810  
ctbr.uncg.edu (http://ctbr.uncg.edu)

The UNC Greensboro Center for Translational Biomedical Research (CTBR) is housed in the UNC Nutrition Research Building at the North Carolina Research Campus (NCRC) in Kannapolis, NC, about 70 miles southwest of Greensboro. Scientists at the Center are conducting studies to understand the molecular mechanisms of disease pathogenesis and progression, identify biomarkers for diagnosis, and discover novel interventions for disease prevention and treatment. The current research activities at the Center focus on metabolic diseases, including steatohepatitis and diabetes mellitus. These studies entail molecular biology, metabolomics and proteomics approaches. Graduate students who are interested in joining the Center are encouraged to apply through graduate programs of the Department of Nutrition and the Department of Chemistry & Biochemistry.

**Center for Women’s Health and Wellness**

Mail: 401 Coleman Building  
Room: 126 Coleman Building  
(336) 334-4736
The mission of the Center for Women's Health and Wellness is to help bring about a world where adults and children, of all gender identities and expressions, are able to live safe, healthy, productive and meaningful lives at home, school, work, and in their communities. We are particularly interested in advancing the health, wellness and quality of life of girls, women and LGBTQI individuals. Our goals are to:

1. Develop an interdisciplinary program of research and community-engaged scholarship; and
2. Connect research to practice through research dissemination, community education and service.

The Center’s work is organized to provide interdisciplinary, community-informed solutions to specific social issues that build on the strengths of our university, faculty, students, and community partners. The Center is currently comprised of programs that focus our work in four areas: preventing and responding to gender-based violence; advancing girls and women in sport and physical activity; advancing breastfeeding and reproductive health; and advancing the health, wellness and quality of life of LGBTQI populations. Administratively the Center is housed within the School of Health and Human Sciences.

Center for Youth, Family, and Community Partnerships
1001 W. Gate City Blvd.
(336) 334-3659
cyfcp.uncg.edu (http://cyfcp.uncg.edu)

The Center for Youth, Family, and Community Partnerships (CYFCP) is dedicated to building the capacity of families, service providers, researchers, teachers, and communities to promote the social, emotional, and cognitive well-being of children. In partnership with colleagues from across the University and the community, the Center:

- Carries out basic, applied, and action research;
- Translates research into effective programs and practice;
- Infuses community perspectives into university research and teaching;
- Facilitates strategic problem-solving processes; and
- Promotes programs, practices, and policies that are likely to yield positive outcomes for children and their families.

With funding from federal, state, local, and foundation grants, the Center’s current initiatives focus on family-centered, system of care approaches to mental health service delivery and training of service providers, parenting, early childhood mental health and readiness, youth violence prevention and intervention, community health, and community-based evaluation.

Institute for Community and Economic Engagement
3710 MHRA
(336) 256-2578
communityengagement.uncg.edu (http://communityengagement.uncg.edu)

Collaborators working with the Institute for Community and Economic Engagement (ICEE) focus on infusing community engagement into the strategic goals of the university and issues of importance to communities across the Piedmont Triad, state, nation, and world. ICEE supports, elevates, and amplifies the efforts of faculty, staff, student, and community colleagues from across all sectors as they employ teaching, learning, research, creative activity, and service in pursuit of these goals.

The institute serves as a central communication hub for community engagement activities, relationships, resources, scholarship, best practices, and outcomes. ICEE works campus-wide with academic affairs, student affairs, and administrative offices to integrate community engagement into core academic work and systems to advance institutional and community aims.

ICEE activities fall into six strategic areas.

1. The institute enhances the pursuit of scholarly agendas and practices of community engagement.
2. It promotes community engagement as a strategy to achieve key institutional goals among departments, programs, offices and units that offer student teaching and learning opportunities.
3. It tracks and assesses the broad range of community-engaged activities, programs, and initiatives across the university;  
4. It works to expand UNC Greensboro’s capacity to identify and establish mutually beneficial community-university partnerships.  
5. It strengthens UNC Greensboro’s reputation as a collaborative, inclusive, responsible, and effective member of the communities of which it is a part.  
6. It supports initiatives to grow community engagement relationships and community-engaged scholarship.

Institute for Data, Evaluation, and Analytics (IDEA)
1702 MHRA
(336) 256-0426
idea.uncg.edu/ (https://idea.uncg.edu/)

The Institute for Data, Evaluation, and Analytics (IDEA), formerly known as the Center for Social, Community and Health Research and Evaluation, is a “virtual organization” developed to promote and support UNC Greensboro’s wide expertise in data analytics, evaluation, and research. It provides a visible and easily accessible point of contact for the external community seeking consulting services and technical assistance. IDEA is composed of university partners (faculty, departments, other centers) spanning a wide range of skills and supported by a comprehensive array of analytical software and technology as well as a robust computing environment with data security and comprehensive backup. By working collaboratively with personnel, units, departments, investigators, other UNC Greensboro Centers, and agencies on data collection and analysis efforts, IDEA provides technical assistance to the UNC Greensboro community and to outside agencies and programs and allows UNC Greensboro and community, institution, state, national, and international partners to meet their accountability goals and objectives and to increase their capacity to serve their constituencies.

Institute to Promote Athlete Health and Wellness
437 Coleman Building
(336) 334-9727
athletewellness.uncg.edu/ (http://athletewellness.uncg.edu/)
The Institute to Promote Athlete Health & Wellness is at the forefront of excellence in health promotion for athletes of all ages and levels of competition. The Institute’s vision is to improve the health and wellness of athletes through the translation of prevention research to effective policies and practices. Areas of focus include, but are not limited to

1. Alcohol and other drug education/prevention,
2. The prevention of interpersonal violence,
3. The promotion of effective stress management, decision making, and communication skills and
4. The promotion of healthy relationships and emotional health.

Their mission is to work collaboratively with a variety of organizations to provide educational resources and support through evidence-based programming, training, research, and evaluation to effectively promote athlete health and wellness thereby fostering lifelong athlete development. The Institute accomplishes this by providing valuable technical and research/evaluation support for organizations that serve athletes.

**Medicinal Chemistry Collaborative**

435 Sullivan Science Building  
(336) 334-5402  
mcsquared.uncg.edu/ (https://mcsquared.uncg.edu/)

Natural products research examines plants, microorganisms, and other elements of the natural world to identify potentially beneficial chemical entities, such as anticancer agents, antibiotics, and agrochemicals. Studying the activities of these substances allows researchers to optimize their effectiveness and develop similar materials (analges) with ideal biological properties. Natural products research provides insight into the effectiveness of herbal remedies, basic biological processes, and more. By leveraging expertise across disciplines, the Medicinal Chemistry Collaborative looks at the larger picture and pursues richer and more fruitful discoveries.

**North Carolina Entrepreneurship Center**

1718 MHRA Building  
(336) 256-8649  
ncec.uncg.edu (http://ncec.uncg.edu)

The North Carolina Entrepreneurship Center (NCEC) is a campus-wide, cross-disciplinary center that has community engagement building student and community connections as its primary focus.

Our mission is to help entrepreneurs start and grow their businesses, and to serve as a catalyst for the creation of sustainable and globally competitive enterprises in the Piedmont Triad, North Carolina, and beyond.

NCEC offers a range of outreach, instructional, and research opportunities including seminars, workshops and conferences featuring entrepreneurship education for students and faculty. It also offers extra-curricular entrepreneurial opportunities including public forums to educate the campus and community about entrepreneurship; lectures by visiting experts in various types of entrepreneurship; and business idea competitions and programs that create diverse opportunities for growing the entrepreneurial mindset.

**North Carolina Sales Institute**

441 Bryan Building  
(336) 334-4413  
bryan.uncg.edu/business-partners/ncsi/ (https://bryan.uncg.edu/business-partners/ncsi/)

The North Carolina Sales institute provides world-class sales education and research, carried out by two separate entities within the Bryan School: the Department of Marketing, Entrepreneurship, Hospitality & Tourism (MEHT) and the Office of Executive Education. The NCSI is a coordinating mechanism that works actively to integrate the elements of credit- and non-credit teaching, as well as research focused on sales. The target audiences are undergraduate and graduate students, current or aspiring sales professionals, and organizations in the private, public, and non-profit sectors, in the Piedmont Triad Region, the state of North Carolina, and beyond. The combination of undergraduate and graduate education and ongoing faculty scholarship, in conjunction with the membership opportunities for executive education through the Bryan School Office of Executive Education and the NCSI Sales Leadership Roundtable is unequaled by anything currently in existence in the state.

**The SERVE Center at UNC Greensboro**

Dixon Building  
Gateway University Research Park  
5900 Summit Avenue  
Brown Summit, NC  
(336) 315-7400 or (800) 755-3277  
serve.uncg.edu/ (https://serve.uncg.edu/)

The SERVE Center at UNC Greensboro is an educational research and evaluation, technical assistance, training, and dissemination center. Since 1991, we have worked with educators and policymakers in the Southeast and nationally on improving educational outcomes. Our research and evaluation projects have ranged from large-scale experimental designs to small-scale qualitative studies on topics extending from early childhood to high school reform. We have conducted over 200 program evaluations for states, districts, schools, and other organizations. Our work is funded by a variety of sources including contracts (with federal entities, states, districts, schools, and others) and competitive grant awards. Key aspects of current work are:

- Services for at-risk students. A cornerstone of SERVE’s work in helping to improve services in this area is the operation of the National Center for Homeless Education (NCHE funded by the U.S. Department of Education). NCHE at SERVE Center operates as a national information clearinghouse and technical assistance provider to support the implementation of the McKinney-Vento Act (Title X, Part C of the No Child Left Behind Act). SERVE Center also operates the North Carolina state homeless education program.

- Evaluating high school reform. Through funding from the Institute of Education Sciences, SERVE is conducting a seven-year experimental study of the impact of early college high schools in North Carolina. We are also evaluating the scale-up of this reform model nationally (serving as project evaluators for two U.S. Department of Education Investing in Innovation projects that seek to apply early college high school principles to traditional high schools).

- Program evaluation services. SERVE provides a variety of research and evaluation services to states, districts, higher education institutions, and nonprofit agencies. For example, we currently have contracts to evaluate the Read to Achieve and the 21st Century Community Learning Programs in North Carolina and various other K-12 curriculum and teaching enhancement projects.
ADMISSION TO THE UNIVERSITY

- Undergraduate Admissions (p. 752)
- Graduate Admissions (p. 762)

Undergraduate Admissions

UNC Greensboro seeks prospective students with ability, character, motivation, and the intellectual potential to meet UNC Greensboro standards of performance. UNC Greensboro’s admission decision is based on an evaluation of the applicant’s secondary school record and/or college record, including the overall grade point average, an optional essay for freshman applicants, and SAT or ACT scores. These factors are used to determine the applicant’s probability of success at UNC Greensboro.

This policy applies to the admission of freshmen and transfer students. The University of North Carolina at Greensboro is committed to equality of educational opportunity and does not discriminate against applicants, students, or employees based on race, color, national origin, religion, sex, age, or disability. This commitment is in keeping with Title IX of the Educational Amendments of 1972 and Section 504, Rehabilitation Act of 1973, the ADA of 1990, and other applicable federal and state laws. The Affirmative Action Officer [UNC Greensboro, PO Box 26170, Greensboro, NC 27402-6170; (336-334-5009)] is responsible for coordinating compliance and investigating complaints.

For traditional freshman and transfer applicants, interviews are not used as criteria for admission. Individual appointments for information purposes may be arranged by contacting the Office of Undergraduate Admissions, 336-334-5243, in advance of the date a campus visit is planned.

Adult students who do not meet regular admission requirements may be considered for admission through the Office of Undergraduate Admissions.

Over-enrollment or state budgetary constraints may require the restriction of admission during a given year or the adjustment of minimum requirements or application deadlines. Visit the website at http://admissions.uncg.edu or call the Undergraduate Admissions Office, Armfield-Preyer Admissions & Visitor Center, 336-334-5243, for complete admissions information.

Admission Decision

After all required information is received by the Office of Undergraduate Admissions, applicants are notified by letter of their acceptance, rejection, or other action taken on their applications. International applicants are notified of decisions by the International Programs Center.

Accept Offer of Admission

Students admitted before April 1 for the fall semester must accept the offer of admission by May 1 by confirming online in their SpartanLink portal. Students admitted after April 1 for the fall semester and all students admitted for the spring semester must accept the offer of admission online within four (4) weeks from the date on their letter of admission. If a student does not confirm intent to enroll, the student’s application is subject to cancellation.

Adult Students

UNC Greensboro encourages qualified adult students to complete their undergraduate degrees.

Persons who are age 21 or older and have completed high school (or earned an adult high school diploma or GED) may be considered for admission. Persons under 21 years of age must have fulfilled the Secondary School Units Required to be eligible for consideration. Some adult students may be admitted for full-time course work, some may have their hours limited to promote academic success, and some may be advised first to complete preparatory course work elsewhere.

Priority consideration applications (including all required credentials) are due by March 1 for the fall semester or October 1 for the spring semester. The final application deadlines are July 15 for fall and December 1 for spring (space permitting).

1. Complete the UNC Greensboro application form online in the SpartanLink portal (https://spartanlink.uncg.edu) or via Common App (https://www.commonapp.org) and submit with the application fee no later than July 15 for fall or December 1 for spring.
2. Submit official transcripts for the secondary school attended (and GED scores or adult high school diploma, if applicable) and from any post-secondary institution(s) attended, even those granting summer, extension, developmental, and technical credit.

Applicants will be notified of a decision as soon as possible. Admitted students should confirm their intention to enroll by confirming online in the SpartanLink portal within four weeks from the date of acceptance, if possible. Confirmation of late acceptance must be made by the registration deadline. Before enrolling, students must complete all steps to enrollment (found in the UNC Greensboro Enrollment Checklist in the SpartanLink portal).

Auditors

Auditing a course is the privilege of being present in the classroom when space is available. No credit is involved, no examinations are required, and no grades are reported. Attendance, preparation, and participation in classroom discussion and activities are at the discretion of the department and the instructor. Online courses cannot be audited. Registration for audited courses begins the first day of classes for a given semester and ends on the last day of late registration.

Current UNC Greensboro Students

See the Auditing Courses topic in the Academic Regulations and Policy section.

Visiting Auditors (Persons Not Requiring a Record of Enrollment)

A person not currently enrolled at UNC Greensboro who desires to audit a course and who does not require a record of enrollment should secure a Visiting Auditor form from the Office of Undergraduate Admissions. This can be found on our website at https://admissions.uncg.edu/apply/visiting/.

A Visiting Auditor may audit courses for a fee of $125. If the Visiting Auditor is aged 65 years or older and is a resident of or lives in North Carolina, there is no fee for auditing a course.

Auditors must secure permission from the course instructor before submitting their completed form to the University Registrar’s Office. Only courses approved by academic departments are open to auditors.
Visiting auditors are permitted in lecture courses when space is available with the written approval of the department head or the instructor teaching the course. Persons may register as visiting auditors beginning the first day of classes for any given semester.

**Division of Online Learning**

The Division of Online Learning offers credit and non-credit programs that extend its academic resources to meet professional and personal learning needs of individuals.

These programs may be offered on campus, off campus, or online, and include regular university credit courses, short courses, and events. Persons need not be admitted to UNC Greensboro in order to register for some of these courses but must meet course prerequisites. Students wishing to include this work in their degree programs should consult their advisors.

Registration for these courses is handled by the Division of Online Learning, Becher-Weaver Building, 915 Northridge Street. For information access the UNC Greensboro Online Web page at http://online.uncg.edu or call 336-315-7044 (toll free 1-866-334-2255).

**Domestic Applicants with International Credentials**

Applicants who are US citizens, US nationals, US permanent residents, pending permanent residents, political asylees, refugees, DACA students, or undocumented students are considered as “domestic” applicants and should apply through the Office of Undergraduate Admissions. Applicants under a temporary protected status (TPS) must apply through International Programs. For additional information please contact the Office of Undergraduate Admissions at 336-334-5243. International athletic applicants must be approved for admission by both the International Programs Center and the Office of Undergraduate Admissions.

**Application Procedures for Domestic Freshmen with any International Credentials**

1. Complete the UNC Greensboro application forms. A $65 application fee must accompany the application. This fee covers the cost of processing the application and is subject to change; it is not refundable and is not applicable toward tuition or other costs. The application deadline is March 1. Applications received after that date will be considered on a space available basis.

2. Submit certified copies of all official secondary records including certificates, degrees, or diplomas in original language of issue and a certified English translation. Official records must be sent directly to the Office of Undergraduate Admissions. Applicants who have studied in the US must request that their high school counselors forward their transcripts directly to the Office of Undergraduate Admissions.

3. Students with any international college or university credentials must submit detailed or course-by-course transcript evaluations from a company recognized by NACES or from AACRAO by the March 1 deadline in order for an admission decision to be made. Please visit www.naces.org or www.aacrao.org to obtain a list of qualified evaluation services.

**English Language Proficiency**

Applicants whose first language is not English are required to prove English proficiency by one of the following means:

- TOEFL—Test of English as a Foreign Language with a minimum Paper-Based score of 550 or a minimum Internet Based score of 79.
- IELTS—International English Language Test System with a score of 6.5 or higher.
- MELAB (Michigan English Language Battery) test result of 80 or higher.
- SAT—Scholastic Aptitude Test with a verbal score of 400 or higher.
- ACT—American College Test with an English sub-score of 17 or higher.
- Successful completion of a college transferable English course (minimum requirement: grade of C or better).
- Successful completion of the INTERLINK Language Program at UNC Greensboro.

Please have all scores sent to UNC Greensboro directly from the testing agency.

**Application Procedures for Domestic Transfer Students with any International Credentials**

1. Complete the UNC Greensboro application forms. A $65 application fee must accompany the application. This fee covers the cost of processing the application and is subject to change; it is not refundable and is not applicable toward tuition or other costs. For transfer students, the priority deadline for submitting the application and all credentials is March 1 for fall and October 1 for the spring semester. Final deadlines for transfer applicants are July 15 for fall and December 1 for spring (space permitting).

2. Submit certified copies of all official secondary records including certificates, degrees, or diplomas in original language of issue and a certified English translation. Official records must be sent directly to the Office of Undergraduate Admissions. Applicants who have studied in the US must request that their high school counselors forward their transcripts directly to the Office of Undergraduate Admissions.

3. Submit certified copies of all post-secondary records including certificates, degrees, or diplomas in original language of issue. Official records must be sent directly to the Office of Undergraduate Admissions. Applicants who have studied in the US are required to submit official transcripts from each postsecondary institution previously attended (including summer school and extension). Official transcripts must be sent directly to the Office of Undergraduate Admissions.

4. All postsecondary academic records obtained outside of the US must be evaluated by a company recognized by NACES or from AACRAO prior to the application deadline in order for an admission decision to be made. Please visit www.naces.org or www.aacrao.org to obtain a list of qualified evaluation services. All secondary records must have a certified English translation. You may also contact the International Admissions Coordinator in the International Programs Center at ipc_adm@uncg.edu to request an in-house credential evaluation be done on your translated international transcripts.

Course descriptions and/or course syllabi must be submitted to the Transfer Articulation Division of the University Registrar’s Office. Course descriptions and/or course syllabi must be in English and translated by an accredited translation service or by appropriate UNC Greensboro faculty.
English Language Proficiency
Applicants whose first language is not English are required to prove English proficiency by one of the following means:

- TOEFL—Test of English as a Foreign Language with a minimum Paper-Based score of 550 or a minimum Internet Based score of 79.
- IELTS—International English Language Test System with a score of 6.5 or higher.
- MELAB (Michigan English Language Battery) test result of 80 or higher.
- SAT—Scholastic Aptitude Test with a verbal score of 400 or higher.
- ACT—American College Test with an English sub-score of 17 or higher.
- Successful completion of a college transferable English course (minimum requirement: grade of C or better).
- Successful completion of the INTERLINK Language Program at UNC Greensboro.

Please have all scores sent to UNC Greensboro directly from the testing agency.

Former UNC Greensboro Students
The following individuals must reapply for admission to UNC Greensboro by the posted deadline for the semester or summer term for which they wish to return:

- a former student who has been suspended or dismissed* for academic or disciplinary reasons,
- a former student who has not been enrolled for two consecutive terms (excluding summer), and
- a graduate of UNC Greensboro.

Readmission of former students is not automatic and students must meet prevailing admissions standards to be eligible to return to UNC Greensboro. This policy only applies to undergraduate degree seeking students.

* Former UNC Greensboro students who left on academic dismissal must also petition the university to return by submitting an Academic Dismissal Appeal. Contact the Students First Office, Forney Building, 336-334-5730, for more information on the appeal process. Formerly dismissed students who successfully petition to return must agree to participate in a program sponsored by the Students First Office during their first semester upon return. Failure to meet the conditions of this program will result in immediate dismissal from the term. Formerly dismissed students who are readmitted will be notified about the details of this program when their appeal is approved. Former students may not return during a summer term.

The Office of Undergraduate Admissions reserves the right to request additional information regarding an applicant’s activities and responses to questions required by the UNC system. If additional information cannot be collected prior to the above deadlines, the application may be denied and the student will need to reapply for future terms. For this reason, we encourage applicants to submit all required materials well in advance of the posted deadline.

Freshmen
A freshman is defined as a first-time undergraduate who is a degree-seeking student with no prior post-secondary experience (after high school). Summer is not considered a degree-seeking term.

Secondary School Preparation
Candidates for admission to the freshman class must submit a secondary school diploma (or its equivalent) and at least 15 acceptable units of credit from an accredited secondary school. (A unit is defined as credit given for a course which meets for one period daily during the entire school year or its equivalent.) Students must present the required Secondary School Units.

It is recommended that prospective students take one foreign language unit and one mathematics unit in the 12th grade.

Secondary School Units Required
(Minimum course requirements)

<table>
<thead>
<tr>
<th>Subject</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>English (emphasizing grammar, composition, and literature)</td>
<td>4</td>
</tr>
<tr>
<td>Foreign Language (2 consecutive units of one foreign language)</td>
<td>2</td>
</tr>
<tr>
<td>Mathematics (Algebra I, Algebra II, Geometry, one advanced course beyond Algebra I)*</td>
<td>4</td>
</tr>
<tr>
<td>Science (including at least 1 unit in life or biological science, at least 1 unit in physical science, at least one laboratory course)</td>
<td>3</td>
</tr>
<tr>
<td>Social Science (1 unit in US history; 1 unit in history, economics, sociology, or civics)</td>
<td>2</td>
</tr>
<tr>
<td>Total Required Units</td>
<td>15</td>
</tr>
</tbody>
</table>

* Please contact the Office of Undergraduate Admissions for an approved list of courses that satisfy the fourth mathematics requirement.

Application Procedures for Freshmen
1. Complete the UNC Greensboro application online (https://spartanlink.uncg.edu or https://www.commonapp.org), including optional essay. A $65 application fee must accompany the application. This fee covers the cost of processing the application and is subject to change; it is not refundable and is not applicable toward tuition or other costs. The application deadline for priority consideration for freshman admission is December 1, and March 1 is the official deadline. Applications received after March 1 will be considered on a space-available basis.

2. Submit an official transcript of secondary school work. Applicants must request that their school counselors forward their transcripts, including courses in progress, weighted cumulative grade point average on a 4.0 scale, and rank in class, directly to the Office of Undergraduate Admissions. Students currently enrolled in secondary school should request that the courses in progress and cumulative grade point average be listed on the transcripts.

3. Take the SAT administered by The College Board or the ACT Assessment. If possible, this test should be taken in the spring of the junior year and in the fall of the senior year of secondary school. It is recommended that test scores be sent directly from The College Board or from the ACT Assessment Program to the Office of Undergraduate Admissions. For information about the SAT, visit the ETS Website at www.ets.org. You may also write or call The College Board SAT Program, Princeton, NJ 08541, 866-756-7346. UNC Greensboro’s College Board code number is 5913. For information about the ACT, you may visit the ACT website at www.act.org.
You may also write or call ACT, PO Box 168, Iowa City, IA 52243, 319-337-1000. UNC Greensboro’s ACT code number is 3166.

4. The Office of Undergraduate Admissions reserves the right to request additional information regarding an applicant’s activities and responses to questions required by the UNC system. If additional information cannot be collected prior to the above deadlines, the application may be denied and the student will need to reapply for future terms. For this reason, we encourage applicants to submit all required materials well in advance of the posted deadline.

Some majors and programs have additional admission requirements noted in the program information in this Bulletin.

Early Graduates
Students who plan to complete high school in fewer than four years with the intention of enrolling at UNC Greensboro are considered on a case by case basis. To determine if you are eligible to enroll as an early high school graduate, please contact the Office of Undergraduate Admissions at 336-334-5243. In addition, early high school graduates must meet the following criteria to be considered for admission:

- Submit the UNC Greensboro application and application fee prior to the deadline.
- Submit a final high school transcript with an official graduation date that is prior to the intended enrollment date at UNC Greensboro.
- Satisfy the minimum course requirements prior to graduation.
- Submit official SAT or ACT scores.

Please note that students who enroll as early graduates are not eligible to be considered for UNC Greensboro scholarships.

Graduate Students
Students interested in working toward a graduate degree or students who hold a bachelor’s degree and wish to continue their general education should consult the Graduate Bulletin or contact the Graduate School Office, 241 Mossman Building, 336-334-5596, for admission information. The Graduate Bulletin is available on the Graduate School website at http://grs.uncg.edu.

Immunization Clearance
Students who have been admitted to UNC Greensboro are required by North Carolina State law to submit an immunization form with appropriate verification of immunizations. This form is supplied by the admitting office and must be satisfactorily completed and returned to Gove Student Health Center.

Failure to comply with this requirement within thirty calendar days from the first day of registration may result in the student’s being administratively withdrawn from the university.

For detailed information see https://shs.uncg.edu/immunizations.

Students subjected to an administrative withdrawal for failure to comply with medical clearance requirements are entitled to a refund, subject to the guidelines of the Refund Policy.

Inter-Institutional Registration
Students taking courses through an inter-institutional agreement must meet the standards for participation in the program as set by their home institution and must follow the rules and policies of both campuses.

Greater Greensboro Consortium and/or North Carolina Inter-Institutional Agreement
A student attending a college or university through the Greater Greensboro Consortium (Bennett College, Elon University, Greensboro College, Guilford College, High Point University, Guilford Technical Community College, and North Carolina Agricultural and Technical State University) or through the North Carolina Inter-Institutional Agreement (with Duke University, North Carolina Central University, North Carolina State University, the University of North Carolina at Chapel Hill, and the University of North Carolina at Charlotte) is not classified as a visiting student at UNC Greensboro and does not go through the admissions process for the fall or spring semesters. Students wishing to register for regular—or main campus—courses at UNC Greensboro through the Greater Greensboro Consortium or the North Carolina Inter-Institutional Agreement should contact the registrar of their home institutions. For Summer Session, the Greater Greensboro Consortium is in effect only with North Carolina Agricultural and Technical State University.

UNC Greensboro students wishing to take courses at one of the consortium institutions should request a consortium form from the University Registrar’s Office, 180 Mossman Building, 336-315-7044.

Students attending other schools participating in the Greater Greensboro Consortium or the North Carolina Inter-Institutional Agreement who are interested in taking courses in the UNC Greensboro Summer Session should request a Summer Session Bulletin from the Division of Online Learning (336-334-5414) and submit the application form found in that publication.

Students who wish to register for courses at UNC Greensboro and who are not enrolled at another UNC system school must answer campus safety questions, per UNC Policy 700.5.1[R]. Students may be required to submit to a criminal background check, based on their answers to the campus safety questions.

UNC Online Inter-Institutional Agreement
A student interested in taking an online course through one of the UNC system schools may consult The University of North Carolina Online website, http://online.northcarolina.edu/subjectlistc.php, for a list of available courses. Registration requests also may be made through this website.

International Credentials

International Student Admissions
The International Recruitment and Admissions Office (IRAO)

The International Recruitment and Admissions Office (IRAO) welcomes qualified applicants from around the globe, appreciating the intellectual and cultural talents international students add to the UNC Greensboro campus. Our mission is to be a magnet for international talent, a leader for international enrollment growth, and a sincere, welcoming campus. The IRAO advances enrollment through ethical and responsible recruitment practices and provides service excellence from point of inquiry to admission review. We celebrate diversity in meaningful ways and aim to be a catalyst for academic, personal, and professional success of admitted students.

Visit the IRAO Website at: https://intladmissions.uncg.edu/
International Admissions
UNC Greensboro invites motivated, qualified applicants from around the world. The university is an ideal destination of choice for international students to pursue their academic and professional goals. The university fosters a welcoming, inclusive campus amidst an intellectual and culturally diverse student body. The campus appreciates the academic strengths and talents international students bring and provides a full range of student support services from the International Programs Center (IPC) to help them succeed. In addition to its challenging, high quality degree programs, the university is a friendly, safe, beautiful campus of 20,000 proud Spartans of which 700+ international students represent more than 90 countries.

Definition of International Applicants
International applicants at UNC Greensboro are defined as those who currently hold, or are seeking a valid, F1 visa or other non-immigrant visa category authorized under the USCIS to engage in full-time academic studies, or part-time academic studies, where applicable.

U.S. citizens, lawful permanent residents (LPR), pending LPR, DACA, political asylees, refugees, undocumented individuals, should apply as a domestic applicant through the UNC Greensboro online application, SpartanLink, located on the Office of Undergraduate Admissions website or through The Common Application.

Applicant Categories
Freshman: A student directly from high school with no prior college/university coursework.

Freshman Transfer: A student who has less than 24 transferrable credit hours from an accredited college/university.

Transfer Student: A student who has already earned a baccalaureate degree from an accredited college/university.

Second Degree-Seeking Student: A student who has already earned an Associate of Arts degree from an accredited college and is seeking a second bachelor's degree at UNC Greensboro.

Application Procedures
To apply, please submit the following:

- A Completed International Admissions Application
- A nonrefundable application fee of $65, payable online
- Official English Language Proficiency score report
- Official transcripts from each college/university attended
- Official secondary school transcripts, in English (for those with < 24 credit hours of college/university coursework)
- Essay / statement of purpose (optional, but strongly encouraged for consideration of scholarships)
- Recommendation letter(s) are optional
- SAT or ACT: Required if graduating from a U.S. high school; Optional if graduating from an overseas high school.

English Language Proficiency Requirement
UNC Greensboro accepts the following minimum English Language Proficiency results for direct entry.

IBT TOEFL 79
on becoming a Spartan and can then expect to receive routine email communication from UNC Greensboro. Students who have been admitted to UNC Greensboro are also required by North Carolina State law to comply with state immunization requirements prior to enrollment or within thirty calendar days from the first day of registration, along with other university deadlines. Admitted students are also required to purchase the student health insurance policy; comparable insurance may be submitted for possible waiver.

Overseas Course Credentials

Students are not required to submit a course credential report (i.e., ECE, SpanTran, WES) except in cases when authentication of foreign transcripts cannot be achieved and/or where course equivalencies to U.S. standards cannot be accurately determined.

Contact Information

Prospective international students should direct their inquiries and/or application status to:

UNC Greensboro
International Recruitment & Admissions Office
1202 Spring Garden St.
241 Mossman Building
Greensboro, NC 27412 USA

GlobalSpartan@uncg.edu
https://intladmissions.uncg.edu/

Part-Time Degree Students

Students who plan to enroll on a part-time basis and who wish to work toward a degree are considered “part-time degree students” and should follow the standard admissions procedures. Part-time students are those who enroll in fewer than 12 semester hours. Tuition and fees are determined by the number of semester hours taken and by in-state or out-of-state residency.

Reserve Officers’ Training Corps (ROTC)

The United States Air Force and Army Reserve Officers’ Training Corps programs are available to UNC Greensboro students at North Carolina Agricultural and Technical State University (in Greensboro). As a member of the Greater Greensboro Consortium, UNC Greensboro offers students these opportunities for leadership training and a commission in the Army or Air Force through cross-registration.

The university will grant credit for ROTC courses taken at N.C. A&T. UNC Greensboro students will be awarded elective credit and quality points for ROTC courses completed at A&T through the Consortium.

Residency

The Residency Determination Service is the entity responsible for all undergraduate classifications of residency for tuition purposes in North Carolina. Residency classification for tuition purposes determines in-state or out-of-state status and may impact admission, tuition, scholarship, or financial aid eligibility.

A residency determination from RDS is required for undergraduates applying for admission, readmission, or transfer to any NC college or university, public or private, who wish to receive the benefits of in-state tuition and/or eligibility for state grants. Complete the RDS online interview process at http://www.ncresidency.org.

Second Baccalaureate Degree Students

An applicant who holds a baccalaureate degree from an institution accredited by the Accrediting Commission for Community and Junior Colleges (ACCJC) Western Association of Schools and Colleges, Higher Learning Commission (HLC), Middle States Commission on Higher Education (MSCHE), New England Commission of Higher Education (NECHE), Northwest Commission on Colleges and Universities (NWCCU), Southern Association of Colleges and Schools Commission on Colleges (SACSCOC), and WASC Senior College and University Commission (WSCUC) and who wishes to take undergraduate work toward a second baccalaureate degree in a different field should follow the instructions below.

1. Complete the application form online (https://spartanlink.uncg.edu or https://www.commonapp.org) and submit with the application fee. Priority consideration applications (including all required credentials) are due by March 1 for the fall semester or October 1 for the spring semester. The final application deadlines are July 15 for fall and December 1 for spring (space permitting).
2. Submit official transcripts from each postsecondary institution previously attended (including summer school and extension) by the above deadlines.
3. An application fee, currently $65, not refundable and not applicable toward tuition and other costs.
4. The Office of Undergraduate Admissions reserves the right to request additional information regarding an applicant’s activities and responses to questions required by the UNC system. If additional information cannot be collected prior to the above deadlines, the application may be denied and the student will need to reapply for future terms. For this reason, we encourage applicants to submit all required materials well in advance of the posted deadline.

An applicant holding a baccalaureate degree and taking course work for credit for other purposes must apply through the Graduate School.

Exception I: second-degree applicants to Preprofessional Programs, including the Pre-Medical Program, should apply through the Office of Undergraduate Admissions.

Exception II: All students seeking Standard Professional I Licensure in the same major as their degree should contact the School of Education Office of Student Services at 336-334-3410.

Summer Session

Currently enrolled UNC Greensboro students who are continuing their studies at UNC Greensboro may begin registering for summer courses in November, at the same time they register for spring classes.

New or visiting students planning to attend Summer Session at UNC Greensboro must apply through the Office of Undergraduate Admissions. Summer Session courses may be obtained in mid-October by accessing the Summer Session Web page, or by contacting the Division of Online Learning (336-315-7044).

Permission to register for Summer Session does not constitute admission to the university nor any of its programs for fall or spring semesters.
Transfer Credit

Transfer Articulation Services

Located in the Registrar's Office, this unit enters transfer credit course work into the student's official record. Also, in association with university faculty, this unit is responsible for determining how postsecondary-level courses and credits transfer to UNC Greensboro, applying admission-level transfer credit regulations, and enforcing the provisions of the North Carolina Comprehensive Articulation Agreement. Students with questions about transfer credit are encouraged to contact Transfer Articulation Services at transfercredit@uncg.edu.

Transfer equivalencies for courses that have been accepted for credit from other institutions, in-state and out-of-state, can be found on UNC Greensboro's Transfer Evaluation System available on the Undergraduate Admissions website at https://admissions.uncg.edu/credit-opportunities.

The Transfer Articulation staff encourages all students who have accepted admission to the university to check the status of their transfer credit by reviewing their degree audit report regularly. Beyond admission to UNC Greensboro, Transfer Articulation staff will also evaluate and approve certain courses from other institutions to transfer to UNC Greensboro for currently enrolled students. Students who are considering enrolling at another institution during the summer or for a distance learning opportunity are encouraged to contact the staff to seek a preliminary evaluation.

Transfer Credit Policies and Limits

Institutional Accreditation

UNC Greensboro is accredited by the Southern Association of Colleges and Schools Commission on Colleges. The primary service area for the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) includes Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Texas, and Virginia. SACSCOC does accept applications from international institutions that can meet its accreditation standards. The accreditation standards of this Commission require member institutions to analyze credit accepted for transfer in terms of level, content, quality, comparability, and degree program relevance; therefore, course credit for undergraduate degree-seeking students that originates from other SACSCOC member institutions can be readily evaluated by Transfer Articulation Services.

These requirements are consistent with the Accrediting Commission for Community and Junior Colleges (ACCJC) Western Association of Schools and Colleges, Higher Learning Commission (HLC), Middle States Commission on Higher Education (MSCHE), New England Commission of Higher Education (NECHE), Northwest Commission on Colleges and Universities (NWCCU), Southern Association of Colleges and Schools Commission on Colleges (SACSCOC), and WASC Senior College and University Commission (WSCUC). UNC Greensboro recognizes the accreditation standards of these agencies; course credit originating from any institution accredited by these agencies for undergraduate degree-seeking students can be readily evaluated by Transfer Articulation Services.

Other Accredited Institutions

Applicants from post-secondary institutions that are not accredited by the above agencies must meet the requirements in effect for admission to the freshman class, including satisfactory secondary school records and SAT scores, as well as meet the transfer requirements of a 2.0 GPA on a 4.0 scale.

Validating Examinations

Some departments at UNC Greensboro require an examination to validate transfer credit. These examinations are administered by the department or school involved.

Professional School Admissions

Admission to the university does not constitute selection into any of the professional schools.

Minimum Transferable Grade

Transfer credit to be awarded is determined by the quality and quantity of the student's previous college work. Course work completed with a grade of C-, D+, D, or D- will not transfer. Transfer courses are evaluated on a course-by-course basis.

Transfer Credit Limit

The sum total of transfer credit from two-year college(s), that may be applied toward an undergraduate degree may not exceed 64 semester hours.

Repeated Courses

The university's Repeated Course Policy applies to transfer credit. In the case of duplicate transfer credit, only the first instance in which credit can be awarded will remain on the UNC Greensboro academic record.

Programs and Articulation Agreements

Comprehensive Articulation Agreement

The North Carolina General Assembly, the Board of Governors of the University of North Carolina, and the State Board of Community Colleges are committed to the simplification of transfer of credits for students and thus facilitating their educational progress as they pursue associate or baccalaureate degrees within and among public post-secondary institutions in North Carolina. The Comprehensive Articulation Agreement (CAA) is a statewide agreement governing the transfer of credits between NC community colleges and public universities in North Carolina, and as has its objective the smooth transfer of students, providing certain assurances to the transferring student by identifying community college courses that are appropriate for transfer as electives, and specifying courses that will satisfy pre-major and general education requirements.

The CAA establishes the procedures governing the transfer of credits for students who transfer from a North Carolina Community College to a constituent institution of the University of North Carolina. To be eligible for the transfer of credits under the CAA, the student must graduate from the community college with an Associate in Arts (AA) or Associate in Science (AS) degree and have an overall Grade Point Average (GPA) of at least 2.0 on a 4.0 scale and a grade of “C” or better in all CAA courses. Students who do not complete the degree are eligible to transfer credits on a course-by-course basis. Students officially enrolled in an AA or AS program at a North Carolina community college prior to Fall Semester 2014 are subject to the conditions and protections contained in the CAA in place at the time of their initial enrollment as long as they have remained continuously enrolled.

Community college graduates of the Associate in Arts or Associate in Science degree programs who have earned 60 semester hours in approved transfer courses with a grade of "C" or better will receive at least 60 semester hours of academic credit upon admission to UNC Greensboro. A student who completes the Associate in Arts or Associate in Science degree prior to transfer to UNC Greensboro will have fulfilled the university’s lower-division general education requirements, but not intermediate-level general education requirements like the College of Arts and Sciences’ foreign language requirement. Also, due to degree
requirements in some majors, additional lower-division courses at UNC Greensboro may be required beyond the general education courses and pre-major courses taken at the community college.

**Reverse Transfer Program**
This program awards an associate degree to students who previously attended a NC community college and earned at least 16 community college course credits. Student will earn their associate degree while completing courses for a baccalaureate degree at the four year institution. There is no cost to participate in the Reverse Transfer program. Students should contact their community college for fees related to printed diplomas and participating in graduation ceremonies.

Students who transfer to a North Carolina university from one of the 58 North Carolina community colleges are given the opportunity to combine the credits earned at the university with credit already earned at the community college to determine if the associate degree requirements have been met.

Students with fewer than 16 credits may receive notification about the program after logging into UNCGenie. UNC-GA and community colleges will determine student eligibility for the program. Students are responsible for opting in and the community college evaluates transcripts and awards associate degrees. The awarding of the associates degree will vary according to how many credits the student has earned.

Please see the official Frequently Asked Questions (FAQs) for eligibility and answers to all questions: www.northcarolina.edu/reversetransfer.

Students who participate in North Carolina’s Reverse Transfer Program and earn an Associate of Arts or Associate of Science will satisfy the university’s lower-level General Education Program (Minerva’s Academic Curriculum - MAC) requirements per the Comprehensive Articulation Agreement. Requirements that are not met within this program are:

- intermediate-level MAC courses
- Writing/Speaking Intensive within the major

UNC Greensboro academic advisors can guide your completion of university degree requirements, not the degree requirements for other colleges. Participating students assume responsibility to understand and meet final associate degree requirements.

**2Plus Programs**
The 2Plus program is for those North Carolina community college graduates who hold a specific Associate in Applied Science (A.A.S.) or Associate Degree in Nursing (A.D.N.) degree and desire to transfer into UNC Greensboro with advanced standing, pursuing a specific UNC Greensboro major. Articulation notices are sent to North Carolina community colleges listing the 2Plus admission requirements. Specific details of each notice may be obtained from the UNC Greensboro Office of Undergraduate Admissions.

2Plus Articulation students are transfer students with several unique requirements and procedures. Details governing their enrollment are provided for in the articulation notices. The decision for admission is based on successful completion of the A.A.S./A.D.N. Degree and other specific factors outlined in the 2Plus articulation notice. Students admitted under the 2Plus agreement must notify Office of Undergraduate Admissions to change their major. A change in major may result in a change in the student’s transfer credit evaluation.

No combination of 2Plus and community college transfer credit may exceed 64 semester hours.

More details about 2Plus admission requirements are available at the 2Plus website: https://admissions.uncg.edu/apply/transfer/2plus-programs.

**RN to BSN Articulation Agreement**
This uniform, statewide academic progression agreement promotes education advancement opportunities for registered nurses moving between North Carolina community colleges and UNC Greensboro in order to complete BSN degrees. Specific details of the notice may be obtained from the UNC Greensboro Office of Undergraduate Admissions or the School of Nursing which include general education and nursing prerequisite courses. Students who follow the progression degree plan will meet entrance requirements to UNC Greensboro’s RN to BSN programs.

**Eligibility for the Uniform Articulation Agreement**
A potential student must:

- enter a NC Community College Nursing program on or after Fall Semester, 2015.
- earn an Associate Degree in Nursing at a NC Community College with a GPA of at least 2.0.
- earn a grade of C or better in all courses included in the first three blocks of the progression plan.
- be licensed as an RN prior to applying to the RN to BSN program.

For more details of the agreement’s progression plan, please reference the UNC Greensboro School of Nursing website: http://nursing.uncg.edu/undergraduate/rnbsn.

**NC School of Science and Math Articulation Agreement**
In addition to examination programs, UNC Greensboro has an established articulation agreement with North Carolina School of Science and Mathematics (NCSSM) since 2010. NCSSM is the only secondary school in the UNC System. Students will be granted credit based on the course equivalencies and related requirements listed below. Students will be granted credit only, grades earned at NCSSM are not factored into a UNC Greensboro’s student grade point average.

It is required that students earn a grade of B or higher in all the NCSSM courses listed below, grades of B- or lower are not acceptable. Moreover, most NCSSM courses listed are part of a sequential program. A grade of a B or higher must be earned in all courses within the sequence to receive transfer credit.

Secondary School Course Credit and Advanced Placement

Transfer credit or exemption from specific degree requirements may be earned by meeting university established minimum scores in recognized examination programs such as AP, IB, or SAT Subject Exams. Students should contact their secondary school counselors regarding dates and local test centers.

Cambridge International Examinations

Cambridge International A and AS Level course credit (and/or higher placement) may be awarded after evaluations of documentation. Please contact the International Programs Center or Transfer Articulation Services for further information.

College Board Advanced Placement (AP) Program

Secondary school students enrolled in AP courses may receive college credit by taking AP examinations upon completion of the courses. Official score reports should be submitted with the application. AP exam scores reported on other transcripts will not be evaluated for transfer credit. Please visit the College Board’s AP Score Reporting Services website to order scores to be sent to UNC Greensboro: https://apscore.collegeboard.org/scores/score-reporting.

Please refer to the following website for a complete list of transfer credit awarded at UNC Greensboro for AP courses:

https://reg.uncg.edu/ap.

College Board SAT: Subject Tests

Those who have strong academic preparation are encouraged to take one or more of the exams listed below. Examination dates are available in secondary school counseling centers or by writing to College Board SAT Program, Princeton, NJ 08541, phone number 609-771-7600. You may also visit the ETS website at http://www.ets.org.

* For tests taken before March 1995.

College Board SAT: Writing Exam

Exemption from ENG 101 will be based on a score of 650 or above on the SAT Writing Exam. Questions about these exemptions appearing on a student’s degree evaluation should be directed to the Students First Office.

International Baccalaureate (IB) Program

Secondary school students enrolled in International Baccalaureate courses may receive college credit by taking IB examinations. Official score reports should be submitted with the application. IB exam scores reported on other transcripts will not be evaluated for transfer credit. Students should request that their test scores be sent to UNC Greensboro. Please visit the International Baccalaureate website for steps to order scores be sent to UNC Greensboro: www.ibo.org/programmes/diploma-programme/assessment-and-exams/requesting-transcripts.

Please refer to the following website for a complete list of transfer credit awarded at UNC Greensboro for IB exams: https://admissions.uncg.edu/tes.

Credit For Military Training And Prior Learning Assessment

Military Course Credit

Elective credit for military training may be awarded where UNC Greensboro has comparable courses and upon receipt of an official transcript from the Community College of the Air Force or a Joint Services Transcript.

DSST Exams

The DSST Credit-by-Exam program offers students the opportunity to use their knowledge acquired outside of the classroom (perhaps
from reading, on-the-job training, or independent study) to accomplish their educational goals. While the exams are funded for active-duty military, DSST exams are not just for those in the military. Adult learners, homeschooled students, and military veterans are also eligible to earn college credits through DSST. Students can visit their website to review offered exams, test preparation, and locate a test center: www.getcollegecredit.com.

**College Level Examination Program (Subject Examinations Only)**

The College Board offers these examinations at permanent test centers throughout the United States. Test center information can be obtained from secondary school counselors or by writing to C.L.E.P., Box 6600, Princeton, NJ 08541. The test is designed for persons who have done college-level work outside college and can successfully demonstrate what they know. Students can visit their website to review offered exams, test preparation, and locate a test center: https://clep.collegeboard.org.

For a complete list of transfer credit awarded at UNC Greensboro for CLEP subject exams, visit https://admissions.uncg.edu/TES and search for CLEP.

**Transfer Students**

A transfer student is defined as an undergraduate who has attended another postsecondary institution after graduating from high school. Well-qualified students with 24 transferable semester hours or more of college credit from an accredited institution are encouraged to transfer to UNC Greensboro to continue their studies.

**Requirements and Procedures**

For consideration as a transfer, students must have at least a minimum 2.0 GPA on a 4.0 scale on all previous work attempted and on all transferable course work from a college or university accredited by the Accrediting Commission for Community and Junior Colleges (ACCJC), Western Association of Schools and Colleges, Higher Learning Commission (HLC), Middle States Commission on Higher Education (MSCHE), New England Commission of Higher Education (NECHE), Northwest Commission on Colleges and Universities (NWCCU), Southern Association of Colleges and Schools Commission on Colleges (SACSCOC), and WASC Senior College and University Commission (WSCUC). Grade point averages are recalculated by UNC Greensboro to determine admissibility. Transfer students must be in good standing and eligible to return to their last attended undergraduate, graduate, or professional institution.

For transfer students, the priority deadline for submitting the application is March 1 for fall and October 1 for the spring semester. Final deadlines for transfer applicants are July 15 for fall and December 1 for spring (space permitting).

Transfer students are required to submit the following, by the above deadlines:

1. UNC Greensboro application forms showing true and complete information.
2. Transfer students who are under the age of 21 or have less than 24 transferable credits must present 15 acceptable units of credit from an accredited secondary school as well as an ACT or SAT score sent directly from the testing agency. (See specific course units listed in information about freshmen.)
3. Official transcripts from each postsecondary institution previously attended (including summer school and extension).
4. A list of courses in progress including course number, course name, and semester/quarter hours of credit.
5. An application fee, currently $65, not refundable and not applicable toward tuition and other costs.

After receipt of the above credentials, the UNC Greensboro undergraduate admissions staff reviews the application to determine admissibility. The Office of Undergraduate Admissions reserves the right to request additional information regarding an applicant's activities and responses to questions required by the UNC system. If additional information cannot be collected prior to the above deadlines, the application may be denied and the student will need to reapply for future terms. For this reason, we encourage applicants to submit all required materials well in advance of the posted deadline.

**Veterans**

Students with three years of military service qualify for admission and may apply as freshmen without having to meet minimum high school requirements.

Veterans Affairs benefit enrollment certification is handled by the Military-Affiliated Services office (http://military.uncg.edu), 336-334-5632, email military@uncg.edu.

UNC Greensboro is on the list of approved institutions that can provide training under the Department of Veterans Affairs Educational Training Program. A veteran wishing to receive educational benefits should apply first to the Department of Veterans Affairs for a Certificate of Eligibility. The student then applies for admission to UNC Greensboro through normal admissions procedures. The issuing of a Certificate of Eligibility by the VA does not automatically assure a student of admission to UNC Greensboro.

When enrolling at UNC Greensboro, the veteran should present a Certificate of Eligibility to the Military-Affiliated Services office requesting that certification of enrollment be sent to the VA. This Certification of Enrollment is necessary before educational benefits can be received. Certification of Enrollment must be requested for each academic semester and for Summer Session.

**Visiting Students**

**College Level**

College-level visitors may apply through the Office of Undergraduate Admissions.

NOTE: Former UNC Greensboro students are not permitted to take classes as visiting students.

**High School Level**

High school seniors with superior academic credentials may want to supplement their high school curriculum with courses at UNC Greensboro. To determine if you are eligible to enroll as a visiting student, contact the Office of Undergraduate Admissions at 336-334-5243. Admission as a visiting student does not imply regular admission to UNC Greensboro.

In addition, visiting high school applicants must:
• Submit the UNC Greensboro application and the application fee.
• Have a letter of permission from parent(s) and from the high school principal sent directly to the UNC Greensboro Office of Undergraduate Admissions. The letter must include permission to take a specific UNC Greensboro course.
• Request that an official high school transcript and SAT or ACT scores be sent to the UNC Greensboro Office of Undergraduate Admissions.

Graduate Admissions

Graduate Admissions and Matriculation

All degree, certificate, or non-degree-seeking students (except UNCG faculty and staff) must submit a nonrefundable application fee to the University before the application is processed. The Admissions section (https://grs.uncg.edu/prospective/guide/) of the Graduate School’s website lists current application fees and supplemental documents by program.

Overview

Admission into a UNCG graduate degree or certificate program is a process shared by the Graduate School and the graduate program. To be considered for graduate admission, applicants must meet the requirements of the Graduate School and of the graduate program.

Faculty in the graduate programs recommend students for admission to the Graduate School after they have assessed each prospective graduate student's potential. Programs have significant discretion in determining admission standards and class size based on factors such as availability of academic mentors, financial support, laboratory space, and student distribution within interest areas. Each graduate program maintains a graduate program handbook that describes admissions expectations specific to that program.

Neither an academic record exceeding minimum requirements, nor satisfactory scores on standardized tests, nor professional expertise alone will assure an applicant’s admission in this competitive environment. Rather, the overall record must indicate the strong likelihood that a prospective student will complete graduate study successfully.

Each application to the Graduate School will result in one admission decision. Offers of admission are not official until approved by the Dean of the Graduate School. Official admission decisions are communicated to applicants by email from the Dean of the Graduate School. Prospective students can view the status of the admission application online at the application portal. Click “Manage Your Account” and then “View All Forms.”

UNCG has staff who are charged with international recruitment. Additionally, UNCG uses independent contractors in the recruitment of international students. Agreements between Independent Recruiting Agencies and UNC Greensboro include a statement under the Contractor Responsibilities section that the Contractor shall "Recruit students with requisite academic qualifications who meet or exceed the university’s admission requirements." UNCG provides those requirements in written materials, such as the UNCG Catalog, and in training sessions conducted by the Director of the Office of International Recruitment. The Graduate School Office of Admission has no direct contact with independent recruiting agencies. Students recruited by any means are shown no favoritism in the admissions process. This information is withheld from programs as they evaluate applicants. The only reason this information is collected is to analysis the efficacy of recruitment efforts.

Successful applicants are offered admission for a specific program in a specific term.

Minimum Requirements for All Applicants

• Completion of a bachelor’s degree from a U.S. college or university accredited by a regional accrediting association; or complete an international degree that is equivalent to a U.S. bachelor's degree from a college or university recognized and approved by the Ministry of Education or Commission responsible for higher education in the country where the degree was earned.
• All applicants must submit one transcript with the Bachelor’s degree posted or a current “in progress” transcript.
• If an applicant is offered admission, the student is required to submit a final official transcript indicating the degree was earned. (See Matriculation Requirements.)
• Applicants must submit a completed online application and a nonrefundable application fee. To be considered for an assistantship, students must check the box on the application.
• Applicants whose native language is not English must demonstrate English proficiency. (See English Language Proficiency.)
• Applicants who are unable to demonstrate English proficiency may apply for conditional admission and earn their proficiency in the Global Pathway program. (Global Pathway)

The Graduate School reserves the right to verify the accuracy and authenticity of the educational documents submitted.

Specific Graduate Program Requirements

Visit UNC Greensboro’s Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/#tablepress-2) for any additional requirements. Note that some programs may specify additional material (e.g., portfolio, auditions, test scores) which requires preparation.

Disposition of Application Materials

Credentials or supporting materials submitted for admission to the Graduate School become the property of the University and are not returned. No copies will be provided to third parties outside the University except when compelled by legal authority. Copies will, however, be provided to appropriate offices at the University in the interest of academic matters or financial awards relative to the applicant. Applications and supporting documents are retained according to the retention policies of the state of North Carolina.

Matriculation Requirements

• Domestic Students: All newly matriculated domestic students must submit a final official transcript with the completion of the bachelor's or master's degree posted to it.
• International Students: Newly matriculated international students, whose most recent degree(s) was earned at a non-US institution, are required to submit to a NACES approved evaluation service (ex: EP JS&A, Spantran, ECE, WES), proof that you have graduated from the institution listed on the unofficial transcripts submitted as part of the application process and that the degree awarded is equivalent to a US bachelor's degree. You will be expected to submit an official transcript for this evaluation. A course-by-course evaluation is not required. If using Spantran, click on SPANTRAN (https://spanside.secure.force.com/SpantranApplication/?Id=f106cd12:101a-4363-bc3c-ad54b9469f95) for the specific UNCG Graduate School form.
English Proficiency

UNCG accepts the following methods of demonstrating English proficiency:

- Test Scores
  - TOEFL 79 IBT (use code 5913)
  - *In response to the Covid-19 pandemic, we are accepting the TOEFL iBT® Special Home Edition (https://www.ets.org/s/cv/toefl/at-home/) score report for tests dates taken up through December 31, 2020 for Spring 2021 and Fall 2021 applications. The same IBT 79 is accepted for direct admission.
  - IELTS 6.5 Band Score (select University of North Carolina Greensboro Graduate Admissions)
  - **In response to the Covid-19 pandemic, we are also accepting the IELTS Indicator (https://www.ieltsindicator.com/book/) (same 6.5 band score) report for tests dates taken up through December 31, 2020 for Spring 2021 and Fall 2021 applications.
  - Duolingo English Test DET 110 (https://englishtest.duolingo.com/applicants/)
  - ELS 112
  - Kaplan English Advanced Level
  - PTE Academic 67

**ELPs must not be more than two years old from date of application submission.

- English Language Proficiency may also be demonstrated by successful completion of the following:
  - UNCG School of Education (SOE) Global Pathway Program (https://soeglobalpathway.uncg.edu/) Level III (Bridging Level)
  - INTERLINK (https://interlink.edu/student-application/) Level 5 / Level 12 Online Program
  - Saudi Arabian students: INTERLINK is a a SACP approved ESL program
  - American Language Academy (https://ala.edu/greensboro/) Level 5
  - Mentora College’s Intensive English Program (http://www.mentoracollege.edu/pathways-partnerships/)

An international applicant is automatically considered English Proficient under the following circumstances:

- The applicant is from a country where English is recognized as the primary, official language.
- The applicant is or will be a graduate of a U.S. regionally accredited university.
- The applicant is or will be a graduate of a non-U.S. college/university where English is the primary language of instruction.

Note: All new admitted international students will undergo a UNCG-administered English assessment. Students who may benefit from additional support services in reading, speaking, and writing will be notified of campus resources available to them. International Teaching Assistants may be asked to take ESL 631 before they will be allowed to serve as an Instructor of Record.

Conditional Admission and SOE Global Pathway Program

Applicants who have not met the minimum English language proficiency score may apply for conditional admission. Simply check the Pathway Program on the graduate application.

If admitted conditionally, applicants must successfully complete the UNCG School of Education Global Pathway Program (https://soeglobalpathway.uncg.edu/), which satisfies the English Language Proficiency score requirement.

I-20 and DS 2019 Issuance

For I-20 and DS 2019 issuance, as required by USCIS, international applicants must show evidence of sufficient funds, for a minimum of one year, to support one’s education and living expenses while at UNCG. Financial forms may be downloaded from within the graduate application or on The International Programs Center (IPC) webpage at: https://international.uncg.edu/about-ipc/forms-handbooks-policies/.

Transcripts

Departments/programs may require additional transcripts.

Pursuing Multiple Degree Programs

Students are prohibited from pursuing multiple degree programs at the same time.

Non-credential-seeking (Visiting) Students

Non-degree students who wish to take graduate-level courses (courses numbered 500 – 749) must have earned a baccalaureate degree from an accredited college or university and must apply through the Graduate School. The Graduate School does not admit an individual as a non-degree student (as if they were in a program). Instead, approved non-degree students will receive notice from the Graduate School that they may register for classes. Visiting students are restricted from registering for any course that is not on a program’s list of approved courses.

Non-degree students who wish to take undergraduate-level courses (courses numbered 100-499) must apply through undergraduate admissions, even if having previously earned an undergraduate degree.

Non-degree seeking students must apply for each semester in which they wish to enroll. A non-refundable fee is charged each time a non-degree seeking application is submitted. An undergraduate transcript(s) from the degree-granting institution required with an initial application; this is waived in subsequent applications.

Non-degree students who wish to take graduate-level courses may take courses numbered 500 –749 that have not been restricted by the departments (see Non-degree Seeking Applicants (https://grs.uncg.edu/prospective/visitingapplicants/)) With the instructor’s approval, non-degree seeking students may submit a written petition to the Graduate Program Director or the Department Head to enroll in a restricted course; however, independent study is reserved for only degree seeking students.

To pursue a degree at any time, a non-degree student must formally apply for admission to the Graduate School. If the student meets all Graduate School and program standards and is granted admission, a maximum of nine (9) credits earned while in non-degree status may be applied to the academic program. Credit earned must fall within the timeline for completing the degree or certificate.

Non-degree seeking students are not eligible for financial aid.

*Visiting students are not permitted to enroll in courses numbered 750 or higher.*
Public School Personnel
Public school teachers and administrators who wish to take courses solely for licensure renewal credit may do so as non-degree seeking students. Students who meet all requirements for admission as a graduate degree student will also receive the licensure renewal credit.

If credit is to be applied to a graduate degree, the student must submit an application to the Graduate School before the completion of the course.

Deferral of Admission
With permission from the Graduate Program Director, students admitted to a degree or certificate program may defer matriculation for a maximum of one year from the initial term of admission. Deferral is not possible for many degree programs.

To request a deferral of admission, admitted students must select Deferral in the Intent to Enroll form that will be emailed to them once they have been admitted. The request will be sent to the appropriate department’s Graduate Program Director for consideration. The deferral request must be for a specific term and may not exceed one year from the original term of admission.

The department will forward the form request to the Graduate School for processing, and the Graduate School will notify the student of the decision. If the student does not request a deferral, or if the department does not approve the requested deferral, and the student does not enroll for the original term of admission, the student will have to reapply for admission. If the requested deferral is approved and the student does not enroll for the approved deferred term of admission, the student will have to reapply for admission.

Financial awards are not deferred.

Military-affiliated students should contact the Graduate School for individual assistance with extended deferrals.

Readmission and Catalog Policy
The University Catalog is the publication that documents all academic policies, regulations, and program requirements for a given academic year for all students and programs.

A student’s catalog year identifies the set of curriculum requirements and regulations for program completion. The catalog year is established for the individual student upon declaration or change of the program.

A student may change a catalog year without a change of program or minor only to a more recent catalog. The student may request this change formally through their department.

Any student who has been inactivated must reapply for admission to the University. If admitted, the student will be assigned to the catalog requirements for the program in effect for the re-admit term.

Readmission after Academic Dismissal
A student who is dismissed for academic reasons will be eligible to submit a new application after two semesters or the equivalent and may be admitted only upon the recommendation of the major department head or Graduate Program Director and with the approval of the Dean of the Graduate School. While on academic dismissal, students are not eligible to take courses as a non-degree seeking student.

Fresh Start Admission for Master’s Degrees
A returning graduate student with a GPA lower than 3.0, who has been dismissed or withdrawn from the Graduate School may request a “fresh start” when changing or returning to a graduate program leading to a master’s degree or certificate at UNCG. A fresh start is defined as beginning a graduate program and having the graduate academic record recalculated to reflect no credits attempted and no graduate grade point average for the new or returned to program; however, all graduate courses previously taken at UNCG will remain on the student’s academic record. The attempted credit hours from all courses will be counted for financial aid eligibility (as applicable).

To be eligible for a fresh start, the student must meet the following criteria:

- A period of at least two years must have passed since the student withdrew or was dismissed from a UNCG graduate program;
- The student must be recommended for admission into the program by the appropriate department; and
- The student must request and be granted a fresh start from the Graduate School.

Courses completed in a previous UNCG graduate program will not transfer nor will they be applied to the requirements of the new or returned to program. The new program must be finished, and the degree must be conferred within five years of the completion of the first new course.

At most, one fresh start will be granted to any one master’s student at UNCG. Final approval for a fresh start application rests with the Dean of the Graduate School.

Accelerated Master’s Programs
An Accelerated Master’s Program (AMP) allows a student to begin accumulating credits towards completion of a UNCG graduate degree while still enrolled as an undergraduate. Successful undergraduate applicants are given an early decision on their graduate application pending successful completion of the baccalaureate degree. These graduate-level courses will count towards both the baccalaureate degree and the graduate degree; the grades will be recorded on both transcripts.

No more than 12 graduate credits taken as an undergraduate may be applied toward the undergraduate degree.

Undergraduate students may apply for admission to the AMP as they enter junior status (60 semester hours). Minimal criteria for admission will include an undergraduate GPA of at least 3.5 in the related major and any additional criteria as determined by the academic unit. Transfer students may apply if their cumulative GPA from their previous institution was at least a 3.0, or if they have earned a 3.0 (with a 3.5 in courses related to the major) at UNCG during their first semester.

The student must apply for admission to the AMP through the Graduate School. To ensure a timely decision and access to course enrollment, students must apply for admission to an Accelerated Master’s Program by July 1 for Fall AMP course enrollment, November 15 for Spring enrollment, and April 1 for Summer enrollment.

International students who are admitted into an Accelerated Master’s Program should work with the Graduate School and the International Programs Center to apply for a visa extension.
A student enrolled in an AMP program is prohibited from Dual Bachelor’s-Master’s Registration.

Dual Bachelor’s-Master’s Registration

Students who do not wish to enroll in a UNCG graduate program may register for graduate-level courses if they have no more than twelve (12) credit hours remaining to fulfill the requirements of their bachelor’s degree program. Students must apply for admission to a graduate program before requests for dual registration can be approved, but they do not have to be formally admitted until the end of the semester in which credit is earned. For dual registration status, the approvals of the Graduate School, the University Registrar’s Office, the Graduate Program Director in the appropriate graduate program(s), and the student’s undergraduate major adviser are required.

Total graduate credit obtained in this dual status may not exceed 12 credits. Graduate courses are not applied to the undergraduate degree.

A student enrolled in Dual Bachelor’s Master’s Registration may not be concurrently enrolled in and AMP program.

Faculty as Students

Faculty at UNCG may not pursue a graduate degree or certificate in their home department or degree-offering unit. For exceptions, the unit dean may petition the Dean of the Graduate School.
TUITION AND FEES

Tuition and Fee information is available via the Cashiers and Student Accounts Office at https://csh.uncg.edu (https://csh.uncg.edu/).
ACADEMIC REGULATIONS AND POLICIES

- University Policies (p. 767)
- Undergraduate Policies (p. 771)
- Graduate Policies (p. 788)

University Policies

Academic Integrity Policy
First responsibility for academic integrity lies with individual students and faculty members of the UNC Greensboro community. A violation of academic integrity is an act harmful to all other students, faculty and, ultimately, the entire community. Specific information on the Academic Integrity Policy and obligations of faculty and students may be found online at http://academicintegrity.uncg.edu. Names of College and School members of the Academic Integrity Advisory Group may be found online at this site as well as under the link "Academic Integrity at UNC Greensboro/Resources for Faculty.” The Administrative Coordinator for Academic Integrity can be reached at 336-334-5514.

Auditing Courses
Current UNC Greensboro students may audit courses upon the written approval of the instructor. Auditors must register officially for the class. Attendance, preparation, and participation in the classroom discussion and laboratory exercises shall be at the discretion of the instructor. An auditor is not required to take examinations and tests and receives no credit for the course.

Registration may not be changed from audit to credit or from credit to audit status after the end of schedule adjustment.

A full-time UNC Greensboro student (registered for 12 or more credit hours) may audit one course per semester without an additional fee. A part-time UNC Greensboro student (registered for fewer than 12 credits) may audit no more than two courses per semester and is charged a $15.00 fee for each audited course.

See the Auditors topic in the Admission to the University section for auditing options other than current UNC Greensboro students.

Catalog Year Policy
Approved by the Provost to be effective February 5, 2018; revised and approved by the Provost to be effective April 30, 2021.

The Academic Catalog is the publication that documents all academic policies, regulations, and program requirements for a given academic year for all Undergraduate and Graduate students and programs.

A student's catalog year identifies the particular set of curriculum requirements and regulations, including general education and university requirements, in effect for program completion. The catalog year is established for the individual student upon declaration or change of the program.

A student may change a catalog year without a change of program or minor only to a more recent catalog. The student may request this change formally through their department.

Any student who has been inactivated must reapply for admission to the university. If admitted, the student will be assigned to the catalog requirements for the program in effect for the re-admit term.

Policy Addendum for 2021–22 Academic Year
To best accommodate students during the transition of UNCG’s general education program, undergraduate students who declare or change their academic program can elect to remain on their existing catalog year and general education program, or they may change to the current catalog year relevant to the effective term and switch to the MAC program.

Students must complete the program requirements and general education program for the catalog year they are in.

Students who are moving to a program that was not established in their existing catalog year must move to the current catalog year.

This addendum applies to the 2021-2022 academic year only and expires on August 1, 2022 unless otherwise extended.

Class Attendance
Regular class attendance is a responsibility and a privilege of university education. It is fundamental to the orderly acquisition of knowledge. Students should recognize the advantages of regular class attendance, accept it as a personal responsibility, and apprise themselves of the consequences of poor attendance. Instructors should stress the importance of these responsibilities to students, set appropriate class attendance policies for their classes, and inform students of their requirements in syllabi and orally at the beginning of each term.

Student’s Responsibility
1. Knowledge of each instructor’s attendance policy and monitoring his or her class absences throughout the term.
2. Familiarity with all materials covered in each course during absences and make-up of any work required by the instructor.
3. Inform each instructor as far in advance as possible when conflicts or absences can be anticipated (e.g., athletic team events, work, medical procedures, religious observances, etc.) by e-mail, phone, or by contacting the main office of the department that offers the course.
4. Provide appropriate documentation so that each instructor can make an informed decision as to whether or not the absence is excusable.
5. Initiation of requests to make-up work missed because of class absences. The decision to assist the student with make-up work, including tests, rests with the instructor.
6. Follow-up on all notices from the Registrar regarding course enrollment in order to correct registration.

Instructor’s Responsibility
1. Setting of reasonable regulations for class attendance as appropriate for class content, organization, methodology, and size.
2. Description of attendance policies in course syllabi and announcement in class, particularly at the beginning of each term.
3. Maintenance of class attendance records of enrolled students as appropriate for the attendance policy.
4. Exaction of penalties for unsatisfactory class attendance. Possible penalties are lowering the course grade, including a grade of F, and, in extreme circumstances, dropping the student from the course.
Dean of Students Office Responsibility

1. Notify each instructor on the student’s behalf when personal reasons (e.g., family emergency, illness, bereavement, birth of a child, military duty, etc.) prevent the student from properly notifying each instructor because of circumstances beyond the student’s control. The student or the student’s representative should contact the Dean of Students Office (336-334-5514) if the student is unable to make direct contact by e-mail or phone with each instructor or is unable to leave word with each instructor’s department.

2. Review documentation by a licensed health professional and confirm its receipt with each instructor if the student experiences a medical or psychological event that significantly impairs their ability to function successfully or safely as a student.

The student should be aware that assistance of the Dean of Students Office does not change in any way the outcome of the instructor’s decision regarding the student’s academic work, grades and performance in any given course.

Religious Observance

Approved by the Office of the Provost, August 2010

1. The university allows for a limited number of excused absences each academic year for religious observances required by the faith of the student.

2. Students must notify instructors of absences in advance of the date of the religious observance. Instructors have the authority to specify, via written notice to students, the amount of lead time required and may require that the nature of the religious observance be specified and the student’s participation be confirmed in writing by an official of the religious organization.

3. When appropriate notice is provided by a student, the student must be granted at least two excused absences per academic year under this policy and must be allowed to make up or waive work and tests missed due to these particular absences. With regard to any test or other assignment that a student would miss due to notice of a required religious observance, faculty members may require the student to complete the test or assignment in advance of the originally scheduled date of the test or assignment. Beyond the minimum terms and limits of this policy, instructors maintain authority to establish and enforce the attendance policy for the courses they are teaching.

4. The requirement for students to make such requests for excused absences applies only to days when the university is holding class.

Appeals

If a student thinks there is a discrepancy between the instructor’s exaction of a penalty for unsatisfactory class attendance and the stated policy or that there is an extinguating circumstance that may affect the instructor’s decision, then he or she should first make a request to the instructor. If desired, the student may further appeal to the Department Head, the Dean of the School or College, and the Provost, in that order.

Cancellation for Non-Attendance

In circumstances in which a student was charged for or received a grade for a class that they never attended, the student should request a Cancellation of Course(s) for Non-Attendance through the University Registrar’s Office. The student is responsible for demonstrating eligibility for cancellation under this policy. Cancellations cannot be processed for students who attended a class, even one time. (Important note: Class attendance for online courses is tracked based on a student’s log-in records and activity in Canvas or relevant online Learning Management System). Requests for Cancellation of Course(s) for Non-Attendance must be submitted within one year of the term in which the courses were taken. No cancellations will be made once a student has been awarded a degree for a course on record previous to that degree’s award. Once verified with instructors, all requested courses will be removed from a student’s registration and will not display on a transcript.

Copyright Compliance Policy

The following is reprinted from The University Policy Manual and can be accessed at https://policy.uncg.edu/university-policies/copyright_compliance/.

The University of North Carolina at Greensboro promotes the responsible and ethical adherence to intellectual property rights. This policy seeks to promote this goal. All students, faculty, staff, and authorized affiliates of the University are expected to comply with United States copyright laws. These laws apply to copyright-protected materials regardless of whether they are reproduced in digital, electronic, print, or other form. Copyright ownership by members of the University community is addressed in the Copyright Ownership and Use Policy.

All users of University technology resources must abide by the guidelines set forth in the Acceptable Use of Computing and Electronic Resources Policy (https://policy.uncg.edu/university-policies/acceptable_use/). Unauthorized replication, installation, or distribution of copyright protected material is prohibited. Users who download software that is not covered by an existing license may be held personally liable for any legal claims or litigation that should ensue due to the illegal use of such software.

Copyright infringement notifications will be acted upon in accordance with the requirements of the Digital Millennium Copyright Act (http://its.uncg.edu/DMCA/) (DMCA) 17 U.S.C. 512(c)(3) by the DMCA Agent, following established procedures. Violations of the DMCA may result in denial of access to University computing equipment and systems, and to disciplinary action.

Allegations of copyright infringements found on University computer resources should be sent to:
DMCA Agent

Discriminatory Conduct

The following is reprinted from The University Policy Manual and can be accessed at https://policy.uncg.edu/university-policies/discriminatory_conduct/.

The University of North Carolina at Greensboro is committed to the principle that educational and employment decisions should be based on an individual's abilities and qualifications and should not be based on personal characteristics or beliefs that have no relevance to academic ability or to job performance. Accordingly, UNC Greensboro supports policies, curricula and co-curricular activities that encourage understanding of and appreciation for all members of its community. UNC Greensboro will not tolerate any harassment of or discrimination against persons. UNC Greensboro is committed to equal opportunity in education
and employment for all persons and will not tolerate any discrimination against or harassment of persons on the basis of race, color, religion, sex, sexual orientation, gender identity, national origin, political affiliation, genetic information, veteran status, disabling condition, or age.

This policy applies internally as well as to the University’s relationships with outside organizations, except to the extent that those organizations, including the federal and State government, the military, ROTC, or private employers do not yet recognize sexual orientation as protected.

The University’s educational and employment practices are consistent with Section 103 of The Code of The University of North Carolina. In addition, the University complies with North Carolina General Statutes 126-16 and 126-17, Title VII of the Civil Rights Act of 1964, as amended, the Civil Rights Restoration Act of 1988, Title IX of the Education Amendments of 1972, the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, the Vietnam Era Veteran’s Readjustment Assistance Act of 1974, and other federal and state laws relating to discrimination in educational programs and employment. In accord with Executive Order 11246, the University has in place an Affirmative Action Plan which states the University’s commitment to the concept and practice of equal employment opportunity for all persons regardless of race, color, religion, sex, sexual orientation, gender identity, national origin, political affiliation, genetic information, veteran status, disabling condition, or age.

Any employee who believes he or she has been treated unfairly based on any of the above characteristics should contact his or her immediate supervisor, or the next level supervisor if the immediate supervisor is the subject of the allegation. Students should contact the Office of Student Affairs.

Retaliatory action of any kind will not be tolerated against any person for making a good faith report of discrimination or on the basis of that person’s participation in any allegation, investigation or proceeding related to the report of discriminatory conduct. Every UNC Greensboro employee and student is charged with the responsibility to be aware of and abide by this policy. Failure to abide by this policy may subject the violator to disciplinary action up to and including dismissal.

**Drug and Alcohol Policy and Operational Procedures**

The University of North Carolina at Greensboro seeks to maintain an environment supporting the pursuit and dissemination of knowledge. The use of illegal drugs by any member of the community interferes with the activities through which the University meets its goals, and the use of illegal drugs will not be tolerated. The University will take all actions necessary, consistent with federal, state, and local laws, and University policy, to eliminate illegal drugs from the University community. The Policy on Illegal Drugs can be found at https://policy.uncg.edu/university-policies/illegal_drugs/. Additionally, UNC Greensboro is committed to sustaining an environment that enables members of our community to acquire knowledge, develop intellectual skills, and become more thoughtful and responsible members of a global society. The University recognizes the improper and excessive use of alcohol may negatively affect the health and safety of students, faculty, staff, and the Greensboro community. The full Illegal Use or Abuse of Alcohol Policy and Resources can be found at https://policy.uncg.edu/university-policies/illegal_use_abuse_alcohol/.

**Dual Registration as Undergraduate and Graduate**

Undergraduate students at UNC Greensboro who plan to undertake graduate study at UNC Greensboro, and who lack no more than 12 credit hours of work to fulfill all requirements for the bachelor’s degree, may enroll in the Graduate School. Total graduate credit obtained in this dual status may not exceed 12 credits. Students must apply for admission to a graduate program before requests for dual registration can be approved, but do not have to be formally admitted until the end of the semester in which credit is earned. For dual registration status, the approval of the Dean of the Graduate School and the student’s major advisor are required.

Students should be advised that approval for dual registration neither guarantees nor constitutes acceptance into any graduate program.

**Immunization Clearance**

Students who have been admitted to UNC Greensboro are required by North Carolina State law to submit an immunization form with appropriate verification of immunizations. This form is supplied by the admitting office and must be satisfactorily completed and returned to Gove Student Health Center. Failure to comply with this requirement within thirty calendar days from the first day of registration may result in the student’s being administratively withdrawn from the university. For detailed information see https://shs.uncg.edu/immunizations (https://shs.uncg.edu/immunizations/). Students subjected to an administrative withdrawal for failure to comply with medical clearance requirements are entitled to a refund, subject to the guidelines of the Refund Policy.

**Online Sections and Online Programs Policy**

Students in online programs are restricted to enrollment in online sections.

Online sections with regular meetings patterns, including optional meeting patterns, must have meeting days and times scheduled in the student information system and published in the schedule of courses prior to registration. These sections are synchronous in delivery method.

Online sections without mandatory and/or optional meeting patterns shall not have meeting days and times scheduled in the student information system nor shall instructors impose them once the registration schedule is posted. These sections are asynchronous in delivery method.

**Sexual Harassment**

UNC Greensboro prohibits Sexual Assault, Sexual Exploitation, Intimate Partner Violence, Stalking, Sexual or Gender-Based Harassment, Complicity in the commission of any act prohibited by this policy, and Retaliation against a person for the good faith reporting of any of these forms of conduct or participation in any review or proceeding under this policy (collectively, “Prohibited Conduct”). These forms of Prohibited Conduct are unlawful, undermine the character and purpose of the University, and will not be tolerated. For the full policy on Sexual Harassment, see https://policy.uncg.edu/university-policies/sex_gender_harrassment/.
Student Code of Conduct

All students are responsible for conducting themselves in a manner that helps enhance an environment of learning in which the rights, dignity, worth, and freedom of each member of the academic community are respected. The full UNC Greensboro Student Code of Conduct can be found at https://sa.uncg.edu/handbook/student-code-of-conduct/.

University Directory Information

The University Registrar’s Office maintains student demographic data and provides it for the online University Directory.

Release of Student Directory Information

Unless a student requests in writing to the contrary, federal law permits the university to release Directory Information to the public without the student’s consent.

Directory Information is information in a student’s education record that would not generally be considered harmful or an invasion of privacy if disclosed. At UNC Greensboro, Directory Information consists of:

- Student’s first and last name
- Major field of study
- Dates of attendance
- Enrollment status
- Anticipated graduation date
- Degrees awarded
- Awards (including scholarships)

Additionally, UNC Greensboro designates some information as Limited-Use Directory Information. The use and disclosure of this information is restricted to: (1) university officials who have access, consistent with FERPA, to such information and only in conjunction with a legitimate education interest and (2) external parties contractually affiliated with the university, provided such affiliation requires the sharing of Limited-Use Directory Information. Limited-Use Directory Information consists of:

- Local and permanent address
- Student e-mail address
- County, state, or US territory from which the student originally enrolled
- Telephone numbers
- Participation in officially recognized activities and sports
- Weight and height of members of athletic teams
- The most recent previous educational agency attended by the student

Suppression of Student Directory Information

Under the 1974 Family Educational Rights and Privacy Act (FERPA), the student has the right to request in writing that the disclosure of this information be withheld from persons outside the university. Please note that this information can only be suppressed from the public, not from university officials. The suppression request includes both Directory Information and Limited-Use Directory Information as defined by UNC Greensboro policy.

A student must file a form requesting suppression of information with the University Registrar’s Office. A request to suppress information must be filed while the student is still enrolled at the university.

Once a student’s information is suppressed, it will not be printed in the Commencement Program upon the student’s graduation, without the student’s written consent. The suppression of information remains in effect until revoked in writing by the student, even after the student is no longer enrolled at the university. Former students may request in writing that earlier suppression requests be revoked.

Parents’ Information

Information concerning parents of students (names, addresses, phone numbers, etc.) is not made available as it is not considered directory information.

Release of Grades and GPA Information

Grades and grade point averages are never released to agencies or persons outside the university without the written consent of the student, unless otherwise provided for by law. Grades and GPA information are not given out over the telephone.

Withdrawal for Students Called to Active Military Duty

Military Call-Up Policy

Leaving Prior to the Completion of a Term

A student voluntarily or involuntarily called for active military duty in the Armed Services Reserve or the National Guard is eligible to elect one of the following options for leaving prior to the completion of a term:

A. Complete Withdrawal Option (without academic penalty)

- Tuition and general fees are fully refundable.
- Health fees are generally fully refundable, except for students who have used UNC Greensboro health services. These students would be billed at the service rate to a maximum charge equivalent to the health fee. Students who have enrolled in the Student Health Insurance program should contact the Agent for information on a prorated refund of premium.
- Room and board is refunded based on the number of weeks the room is occupied and the meals consumed.
- The student is still responsible for all miscellaneous charges such as library fines, parking tickets, health service charges, etc.

In order to be eligible for a refund under these guidelines, the student must contact the University Registrar’s Office and provide the following:

- a copy of his or her call-up papers; these serve as documentation for the refund of tuition and fees
- a mailing address to which the student would like the refund to be sent

The University Registrar’s Office will notify appropriate offices of the student’s withdrawal including Undergraduate Studies, the Graduate School, Financial Aid Office, Housing and Residence Life, and the Cashiers and Student Accounts Office.

In order for a student living in UNC Greensboro housing to receive a refund from the Department of Housing and Residence Life, room keys must be returned to the appropriate office.

If a student is receiving financial aid when called to active duty, financial aid must be repaid according to federal and state guidelines before a refund will be issued by the UNC Greensboro.

B. Early Exam Option
A student who is required to report for military duty not earlier than four calendar weeks prior to the date a semester ends as stated in the official catalog of the UNC Greensboro (or after completion of at least 75% of the enrollment period in a non-standard semester) may, when authorized by the instructor, take the final exam early and be given full credit for all courses that have an average grade of C or better. Students are not eligible for refunds for which they receive credit.

C. Incomplete Grade Option

A student who is required to report for military duty prior to the completion of a term may take a grade of incomplete in a course and complete it upon release from active duty. Course completion may be accomplished by independent study or by retaking the course without payment of tuition and fees. Under federal financial aid policies, a course that is retaken in this manner may not be counted toward a student’s enrollment load. An eligible student who receives an incomplete for any course is not entitled to a refund of tuition or fees paid.

Returning to UNC Greensboro Within the Same Term

A student called for active duty and subsequently released within the timeframe to re-enroll during the semester of withdrawal may pursue re-enrollment within the same term. UNC Greensboro will make every effort to accommodate the request. Individual contacts with faculty involved will determine appropriateness of returning to a course.

Returning to UNC Greensboro at the Start of a New Term

A student voluntarily or involuntarily called for active military duty in the Armed Services, Armed Services Reserves, or the National Guard who wants to return to UNC Greensboro must submit an application for readmission to UNC Greensboro Undergraduate Admissions.

The returning student is eligible to have the application fee waived if:

1. The student selects the option to pay by check during the application process.
2. The student notifies the UNC Greensboro VA Certifying Official of the intent to return and provides a copy of orders, confirming dates of call to active duty.

The re-enrolled student is technically ineligible to participate in early registration for the term of re-enrollment; however, UNC Greensboro will arrange a priority window to assist the student in returning with appropriate classes that are applicable toward the field of study.

Undergraduate Policies

- Academic Requirements and Limits for Undergraduates (p. 771)
- Academic Standing at UNC Greensboro (p. 772)
- Average Time to Graduation (p. 773)
- Classification of Students (p. 773)
- Course Credit Regulations and Limits (p. 774)
- Course Selection (p. 775)
- Course Withdrawal Policy (p. 775)
- General Education Program (p. 776)
- Grading (p. 777)
- Honors for Second Degree Recipients and Transfer Students (p. 780)
- Majors, Minors, Double Majors and Simultaneous Degrees Policy (p. 781)
- Steps to Graduation (p. 782)

- University Requirements (p. 783)
- Academic Program Terminology (p. 784)
- Withdrawal from the University (p. 788)

Academic Requirements and Limits for Undergraduates

Baccalaureate Degree Requirements and Limits

- 120 - Minimum number of credit hours required for an undergraduate degree
- 36 - Minimum number of credits required toward the degree at or above the 300 course level
- 31 - Minimum required credits in residence at UNC Greensboro
- 31 - Minimum required credits in residence at UNC Greensboro beyond the first degree for a second undergraduate degree
- 2.0 - Minimum cumulative GPA required for graduation

Credit Hour Regulations and Limits

- 12 - Minimum number of credits in which undergraduates must enroll per semester to qualify for full-time status
- 18 - Maximum number of credits per semester in which an undergraduate may enroll without special permission
- 64 - Maximum number of credits allowed for 2-year transfer credit
- 12 - Maximum number of credits allowed for physical education credit

Dean's List Qualifications

- 6 - Minimum number of credits a student must have completed at UNC Greensboro to be eligible for Dean's List
- 6 - Minimum number of credits in which a student must be enrolled for a given semester
- 3.50 - Minimum required GPA for the semester
- B- - Minimum grade earned for the semester (no grade may be lower than B-)

Chancellor's List Qualifications

- 30 - Minimum number of credits a student must have completed at UNC Greensboro to be eligible for Chancellor's List
- 12 - Minimum number of credits in which a student must be enrolled for a given semester at UNC Greensboro
- 3.65 - Minimum required cumulative GPA

Transfer students must be enrolled for at least one semester at UNC Greensboro to be eligible for the Chancellor's List.

Graduation With Honors Requirements

- 45 - Minimum number of credits a student must complete in residence at UNC Greensboro by end of senior year to be eligible for graduation with honors
- 3.90 - Minimum required GPA for Summa cum laude
3.70 - Minimum required GPA for Magna cum laude
3.50 - Minimum required GPA for Cum laude

Second Degree Honors Required Hours
45 - Minimum number of credits a second degree candidate must complete toward the second degree in residence at UNC Greensboro, with the required GPA, to be eligible for graduation with honors.

Simultaneous Baccalaureate Degrees Residency Hours
31 - Minimum number of credits in residence a student must complete beyond requirements for the first degree in order to receive a second, simultaneous baccalaureate degree.

Academic Standing at UNC Greensboro

The following requirements and procedures for maintaining academic good standing became effective in Fall 2017 for undergraduate students and was modified by Faculty Senate in April 2017.

Undergraduate students are expected to be aware at all times of their academic standing and are responsible for knowing whether or not they are on Academic Good Standing, Academic Warning, Academic Probation, Academic Suspension, or Academic Dismissal. Students may check their academic standing via UNCGenie.

UNC Greensboro reserves the right to deny enrollment to any student, even though the student has met the minimum grade point average required, if it is apparent from the student's academic record of required courses that the student will not be able to meet graduation requirements.

The Academic Good Standing Policy applies to enrollment during any term, including summer term. Students may be placed on Academic Warning, Academic Probation, Academic Suspension, Academic Dismissal, or restored to Academic Good Standing based on their academic performance during Summer Session. Academic performance for both summer terms is evaluated at the end of Summer Session II.

Academic Good Standing Policy
(For degree-seeking students entering the university Fall 2014 and after. Students who entered the university as degree-seeking undergraduates prior to Fall 2014 are grandfathered into the policy last published in the 2013–14 Undergraduate Bulletin.)

To maintain Academic Good Standing at UNC Greensboro, undergraduate students will be required to satisfy all of the following requirements:

- Maintain a minimum 2.0 cumulative GPA.
- Earn 67% of their credits each term.

Failure to satisfy all of the requirements above will result in Academic Warning or Academic Probation.

Academic Warning
Academic Warning will occur when an undergraduate student maintains a minimum 2.0 cumulative GPA but earns less than 67% of their credits.

Academic Warning may result in Academic Probation. A student who is able to maintain a 2.0 cumulative GPA but does not earn 67% of their credits will continue on Academic Warning each consecutive semester until the required minimum percentage of hours is earned.

Academic Probation
Academic Probation will occur when an undergraduate student in Academic Good Standing or on Academic Warning fails to maintain a minimum 2.0 cumulative GPA.

Undergraduate students who fall on Academic Probation will be required to satisfy all of the following requirements during their next term of enrollment:

- Limit enrollment to a maximum of 16 credits each fall and spring term and 8 credits in the summer term until Academic Good Standing is restored.
- Earn a minimum 2.30 term GPA each term until a 2.0 cumulative GPA is restored.
- Enroll in and successfully complete the requirements of ARS 100.

Failure to meet the requirements for Academic Good Standing while on Academic Probation may result in Academic Suspension. A student who is able to maintain a 2.0 cumulative GPA but does not earn 67% of their credits will be placed on Academic Warning.

In cases where circumstances beyond the student's control have interfered with the student's academic performance, students placed on Academic Suspension may request immediate reinstatement by submitting an Academic Suspension Appeal. Contact the Students First Office, Forney Student Success Commons—Suite 101, 336-334-5730, for more information on the appeal process.

Academic Suspension
Academic Suspension will occur when an undergraduate student on Academic Probation fails to maintain either a minimum 2.30 term GPA or a minimum 2.0 cumulative GPA.

All students who fall on Academic Suspension are ineligible to enroll at UNC Greensboro for one fall or spring term.

NOTE: Summer Session is not considered a term away for the purposes of Academic Suspension. After a one-term suspension, students may apply for readmission to the university via the Office of Undergraduate Admissions.

If readmitted, upon return from Academic Suspension, an undergraduate student will be considered on Academic Probation and is required to satisfy all of the following requirements during their next term of enrollment:

- Limit enrollment to a maximum of 16 credits each fall and spring term and 8 credits in the summer term until Academic Good Standing is restored.
Failure to satisfy all of the Academic Suspension requirements above may result in Academic Dismissal at the end of the term. A student who is able to restore a 2.0 cumulative GPA but does not earn 67% of their semester hours will be placed on Academic Warning.

In cases where circumstances beyond the student’s control have interfered with the student’s academic performance, students placed on Academic Dismissal may request immediate reinstatement by submitting an Academic Dismissal Appeal. Contact the Students First Office, Forney Student Success Commons—Suite 101, 336-334-5730, for more information on the appeal process.

**Academic Dismissal**

Academic Dismissal will occur when an undergraduate student on Academic Probation after returning from Academic Suspension fails to maintain either a minimum 2.30 term GPA or a minimum 2.0 cumulative GPA.

All students who fall on Academic Dismissal are ineligible to enroll at UNC Greensboro for one academic year.

NOTE: Summer session is not considered a term away for the purposes of Academic Dismissal. After a one-year dismissal, students may request permission to return to the university by submitting a Return from Academic Dismissal Appeal and must apply for readmission to the university via the Office of Undergraduate Admissions. Contact the Students First Office, Forney Student Success Commons—Suite 101, 336-334-5730, for more information on the appeal and readmission process.

If readmitted, upon return from Academic Dismissal, an undergraduate student will be considered on Academic Probation and is required to satisfy all of the following requirements during their next term of enrollment:

- Limit enrollment to a maximum of 16 credits each fall and spring term and 8 credits in the summer term until Academic Good Standing is restored.
- Earn a minimum 2.30 term GPA each term until a 2.0 cumulative GPA is restored.
- Enroll in and successfully complete the requirements of ARS 140.

Failure to satisfy all of the Academic Dismissal requirements above may result in Academic Dismissal at the end of the term. A student who is able to restore a 2.0 cumulative GPA but does not earn 67% of their semester hours will be placed on Academic Warning.

In cases where circumstances beyond the student’s control have interfered with the student’s academic performance, students placed on Academic Suspension or Academic Dismissal may request immediate reinstatement by submitting an Academic Suspension Appeal or Academic Dismissal Appeal. Appeals must be submitted by the published deadlines, which are located in the academic calendar and the University Catalog. Events and/or circumstances that merit an appeal include officially documented unanticipated personal life events, officially documented unanticipated serious medical difficulty, and/or officially documented serious psychological difficulty. Students are strongly encouraged to contact the Students First Office for assistance before officially submitting an appeal.

An Academic Suspension Appeal or Academic Dismissal Appeal will be reviewed by the Academic Appeals Committee. Once an appeal has been submitted, students will be notified of the results of their appeal via their UNC Greensboro email account. All academic appeal decisions are final.

As mandated by the university, a student whose Academic Suspension Appeal or Academic Dismissal Appeal is approved must agree to participate in the designated Academic Recovery Program, coordinated within the Students First Office, during the next term of enrollment. Failure to participate in and successfully complete the requirements of the designated Academic Recovery Program will result in immediate Academic Dismissal at the end of the term.

**Average Time to Graduation**

Many factors affect both the length of time and the number of credit hours an individual student will require to complete the baccalaureate degree. Full-time undergraduate students are expected to complete at least 12 credit hours per semester. Failure to complete an average of 15 credits per semester may lengthen the student’s time to graduation. Some majors do require formal admission beyond that required for admission to the university in general.

Students should meet with their academic advisors regularly to plan their academic schedules. To graduate, students must complete specific university requirements as well as requirements within the major. Students who change majors may find that additional requirements must be fulfilled. Changing majors excessively, or after the third or fourth semester of study, may also lengthen the time to graduation.

Criteria for admission to a specific major (outlined in the University Catalog) and continuation in that major may include a university grade point average exceeding that required for continuation within the university as a whole. Students considering such majors should become familiar with the guidelines, and work with an academic advisor, as soon as possible to ensure that they meet the criteria.

**Classification of Students**

The following classifications became effective for fall 1996 and thereafter for newly admitted undergraduates (transfer students and freshmen).

Undergraduate students are classified as freshmen, sophomores, juniors, and seniors. These classifications are determined by the number of credit hours completed (including hours transferred from another institution). The classifications are as follows:

<table>
<thead>
<tr>
<th>Classification</th>
<th>Semester Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Freshman</td>
<td>0–29.9 credits completed</td>
</tr>
<tr>
<td>Sophomore</td>
<td>30–59.9 credits completed</td>
</tr>
<tr>
<td>Junior</td>
<td>60–89.9 credits completed</td>
</tr>
<tr>
<td>Senior</td>
<td>90 or more credits completed</td>
</tr>
</tbody>
</table>
Course Credit Regulations and Limits

Correspondence Credit

Up to 64 credit hours in correspondence and extension credit may be applied to the completion of work for an undergraduate degree with the further stipulation that not more than one-fourth of the requirements for the degree may be completed in correspondence credit. Academic departments may establish such course and credit limitations in acceptance of correspondence credit as may be required by specific degree programs.

Although UNC Greensboro correspondence credit is treated as transfer credit at the time of admission, it will be thereafter considered "Residence" credit for degree certification purposes.

Correspondence credit earned from institutions other than UNC Greensboro is always treated as transfer credit. It will have no impact on the UNC Greensboro grade point average. Only credits will be applied toward UNC Greensboro degree requirements.

Extension Credit

UNC Greensboro extension credit, earned either on or off campus, will be considered transfer credit for admission purposes. Up to 64 credit hours in extension and/or correspondence credits may be applied to completion of work for an undergraduate degree. Academic departments may establish such course and credit limitations in acceptance of extension credit as may be required by specific degree programs.

Although UNC Greensboro extension credit is treated as transfer credit at the time of admission, it will be thereafter considered "Residence" credit for degree certification purposes.

Non-Credit Courses

Non-credit courses do not count toward graduation nor are they calculated in the student's GPA. There are currently no non-credit courses available.

Physical Education Credit Limit Policy

Any university student may take up to 12 credit hours of elective credit in physical education activity courses to apply toward graduation.

Repeated Courses

If a course or its equivalent is taken more than once for credit and is not repeatable for credit, credit will be applied toward degree requirements only once.

Summer Session Credit

Students may enroll for no more than seven credits during each of the two summer sessions, unless permitted to take an increased load by their assigned academic advisor.

Advanced Placement Credit (AP Credit)

In compliance with the UNC system policy 700.10.1 [R], UNC Greensboro accepts Advanced Placement (AP) Exam Scores from the College Board for scores of three or higher on one or more AP Exam(s). To help improve student's completion and progression towards a degree, qualified AP Exam(s) Score will be awarded for specific credit hours aligned with the equivalent UNCG course(s). A list of corresponding credits and accepted scores may be found on the University Registrar's Office website.

Transfer Credit

Comprehensive Articulation Agreement

The North Carolina General Assembly, the Board of Governors of The University of North Carolina, and the State Board of Community Colleges are committed to the simplification of transfer of credits for students and thus facilitating their educational progress as they pursue associate or baccalaureate degrees within and among public post-secondary institutions in North Carolina. The Comprehensive Articulation Agreement (CAA) is a statewide agreement governing the transfer of credits between N.C. community colleges and public universities in North Carolina, and has as its objective the smooth transfer of students, providing certain assurances to the transferring student by identifying community college courses that are appropriate for transfer as electives, and specifying courses that will satisfy pre-major and general education requirements.

The CAA establishes the procedures governing the transfer of credits for students who transfer from a North Carolina Community College to a constituent institution of The University of North Carolina. To be eligible for the transfer of credits under the CAA, the student must graduate from the community college with an Associate in Arts (AA) or Associate in Science (AS) degree and have an overall Grade Point Average (GPA) of at least 2.0 on a 4.0 scale and a grade of "C" or better in all CAA courses.

Students who do not complete the degree are eligible to transfer credits on a course-by-course basis. Students officially enrolled in an AA or AS program at a North Carolina community college prior to Fall Semester 2014 are subject to the conditions and protections contained in the CAA in place at the time of their initial enrollment as long as they have remained continuously enrolled.

Community college graduates of the Associate in Arts or Associate in Science degree programs who have earned 60 semester hours in approved transfer courses with a grade of "C" or better will receive at least 60 semester hours of academic credit upon admission to UNC Greensboro. A student who completes the Associate in Arts or Associate in Science degree prior to transfer to UNC Greensboro will have fulfilled the university's lower-division general education requirements, but not intermediate-level general education requirements like the College of Arts and Sciences' foreign language requirement. Also, due to degree requirements in some majors, additional lower-division courses at UNC Greensboro may be required beyond the general education courses and pre-major courses taken at the community college.

If a student from a North Carolina Community College System (NCCCS) college believes the terms of the Comprehensive Articulation Agreement (CAA) have not been honored by UNC Greensboro, the student may invoke the CAA Transfer Credit Appeal Procedure. Steps to file an appeal can be found in Appendix E of the Comprehensive Articulation Agreement document (https://www.nccommunitycolleges.edu/academic-programs/college-transferarticulation-agreements/comprehensive-articulation-agreement-caa). Students who do not complete the degree are eligible to transfer credits under the CAA, the student must graduate from the community college with an Associate in Arts (AA) or Associate in Science (AS) degree and have an overall Grade Point Average (GPA) of at least 2.0 on a 4.0 scale and a grade of "C" or better in all CAA courses.

If a student from a North Carolina Community College System (NCCCS) college believes the terms of the Comprehensive Articulation Agreement (CAA) have not been honored by UNC Greensboro, the student may invoke the CAA Transfer Credit Appeal Procedure. Steps to file an appeal can be found in Appendix E of the Comprehensive Articulation Agreement document (https://www.nccommunitycolleges.edu/academic-programs/college-transferarticulation-agreements/comprehensive-articulation-agreement-caa).
(MSCHE), New England Commission of Higher Education (NECHE), Northwest Commission on Colleges and Universities (NWCCU), Southern Association of Colleges and Schools Commission on Colleges (SACSCOC), or WASC Senior College and University Commission (WSCUC) for the transfer credit to be accepted.

Transfer credit to be awarded is determined by the quality as well as the quantity of the student’s previous college work. Course work completed with a grade of C-, D+, D, or D- will not transfer. Transfer courses are evaluated on a course-by-course basis.

The sum total of transfer credit hours from two-year college(s), extension, or correspondence courses that may be applied toward an undergraduate degree may not exceed 64 semester hours. No combination of 2Plus and transfer/extension credit may exceed 64 semester hours on the student’s transfer equivalency worksheet.

The University’s Repeated Course policy applies to transfer credit. If a course or its equivalent is taken more than once for credit and is not repeatable for credit, credit will be applied toward degree requirements only once. In the case of duplicate transfer credit, only the first instance in which credit can be awarded will remain on the UNC Greensboro academic record.

Current UNC Greensboro policy stipulates that courses completed in technical, vocational, or professional programs at community colleges or courses from technical colleges or proprietary institutions cannot be accepted in transfer, unless they are part of a 2Plus Program. These programs give students with articulated Associate in Applied Science degrees access to a limited number of degrees at UNC Greensboro.

Credit for Military Training

Elective credit for military training may be awarded where UNC Greensboro has comparable courses and upon receipt of an official American Council of Education transcript.

Course Selection

Adding Courses

Students may add courses to their schedules during the Drop/Add period. Between the end of the Drop/Add period and the 10th day of classes, a student desiring to add a course may do so only with the written approval of the instructor.

Late Adds

After the 10th day of classes, adding with instructor permission will be accepted by the University Registrar’s Office only under extraordinary circumstances.

Course Levels

Course level numbers are structured as follows:

<table>
<thead>
<tr>
<th>Course Level Number</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>100–199</td>
<td>Intended primarily for freshmen</td>
</tr>
<tr>
<td>200–299</td>
<td>Intended primarily for sophomores</td>
</tr>
<tr>
<td>300–399</td>
<td>Intended primarily for juniors</td>
</tr>
<tr>
<td>400–499</td>
<td>Intended primarily for seniors</td>
</tr>
<tr>
<td>500–599</td>
<td>For all graduate students</td>
</tr>
</tbody>
</table>

600–749  For all graduate students, including doctoral
750–799  Doctoral level only

Course Loads

Twelve credit hours is considered full-time status for undergraduates. An undergraduate student must be enrolled for a minimum of 12 credits to qualify for full-time certification to any organization.

Full-time undergraduates normally take five courses per semester. Since a majority of courses carry three hours of credit with some carrying four hours of credit, a normal course load is 15 or 16 credits per semester. To complete most undergraduate degrees in four years, students should plan to carry 15 or 16 credits per semester.

Undergraduates may not take more than 18 credits per semester except with the approval of their assigned academic advisor. Students who have cumulative grade point averages of 3.0 may be authorized, in special circumstances and at the discretion of the Dean of Undergraduate Studies, to carry a maximum of 21 credits of course work.

Suggested Academic Workload Guidelines

Students should be aware that academic excellence and scholastic achievement usually require a significant investment of time in study, research, and out-of-class projects. To provide guidance to students in planning their academic and work schedules, the following recommendations are offered:

1. In general, students should plan to devote between 2–3 hours outside of class for each hour in class. Thus, students with a 15 credits course load should schedule between 30–45 hours weekly for completing outside-of-class reading, study, and homework assignments.

2. Students who are employed more than 5–10 hours each week should consider reducing their course loads (semester hours), depending upon their study habits, learning abilities, and course work requirements.

Course Withdrawal Policy

The following requirements and procedures for maintaining Academic Good Standing became effective in Fall 1996 for newly admitted degree-seeking undergraduates (freshmen and transfer students), modified by Faculty Senate in April 1998 and modified again in November 2013 in compliance with UNC Policy 400.1.1[R].

Withdrawal from Current Term Courses

16 credit hour limit for course withdrawals

Beginning Fall 2014, all undergraduate students will be limited to withdrawing from a maximum of 16 credit hours during their undergraduate career. This limitation does not include course withdrawals completed within the course adjustment period (as identified on the Academic Calendar) that do not count as attempted hours and are not limited to 16 credits. Students who have not exceeded their 16 credit limit may withdraw from a course or courses after the course adjustment period and within the first eight weeks of the term without incurring a WF grade (Withdrawn Failing). Withdrawal from courses within the 16 credit limit will be indicated on a transcript with a grade of WX.

Course withdrawals after eight weeks or in excess of 16 credits will incur a WF grade (Withdrawn Failing).
Courses of less than one semester’s duration, including Summer School courses, shall have shorter withdrawal deadlines (proportional to the course adjustment and eight-week deadline for the regular semester). All withdrawal deadlines are published on the University Registrar’s Office website.

All WX courses count as attempted hours and are subject to academic standing, financial aid, and Satisfactory Academic Progress rules and calculations.

**Withdrawing from a Course with Extenuating Circumstances**

Undergraduate students with appropriate cause, as determined by officially documented military deployment, medical, psychological, or unanticipated personal life events, or administrative reasons, may petition for an exemption from the 16 credit limit and the eight-week deadline by initiating a Course Withdrawal Request through the Students First Office. The Course Withdrawal Request Committee, under the purview of the Students First Office, shall be responsible for authorizing Course Withdrawal Requests in consultation with the instructor of every course, and with other departments or agencies as needed. If a Course Withdrawal Request is authorized, all requested courses will be indicated on a transcript with a grade of WE (Withdrawn with Exception).

If a student withdraws from all courses, the student is considered officially withdrawn from the university. See section on Withdrawal from the University.

All WE courses count as attempted hours and are subject to financial aid and Satisfactory Academic Progression rules and calculations; they do not count in academic standing calculations or GPA calculation.

**Withdrawing from Courses Retroactively**

Undergraduate students shall be given one year following the term in which a course or courses were taken to submit a Course Withdrawal Request with the Students First Office. Students who seek to withdraw from a course or courses retroactively must meet the conditions under Withdrawing from Current Term Courses and the Course Withdrawal Request Committee, under the purview of the Students First Office, must authorize the request. Students are strongly encouraged to contact the Students First Office for assistance before officially submitting a Course Withdrawal Request. If a Course Withdrawal Request is authorized, all requested courses will be indicated on a transcript with a grade of W (Withdrawn) for classes taken prior to Fall 2014, and a grade of WE (Withdrawn Exception) for courses taken in Fall 2014 and thereafter. Students who have graduated may not withdraw from courses retroactively.

Neither the course withdrawal (WX) nor the course withdrawal with an exception (WE) can be replaced under the university’s Grade Replacement Policy or forgiven as part of the Academic Renewal Policy.

**General Education Program**

**Minerva’s Academic Curriculum (MAC)**

Minerva’s Academic Curriculum (MAC) aims at competency achievement and includes competency achievement and gaining familiarity with varied areas of knowledge. Through MAC coursework, undergraduate students will engage in learning experiences to achieve 11 competencies across disciplines, totaling 33–34 credit hours depending on individual course hour structure.

Other requirements and opportunities in the major program, the minor program (if applicable), and the total undergraduate experience build on the foundation of MAC courses and contribute to the attainment of these goals. Alternative ways to demonstrate competencies will be available to students with relevant prior experience or documented disabilities.

**Competencies and Requirements**

**Foundations**

Requirement: 3 credits  
Schedule Attribute: MAC Foundations  
Foundations courses connect students to the campus community by combining university transition content, information literacy, and transferable skills to facilitate academic and personal development.

**Written Communication**

Requirement: 3 credits  
Schedule Attribute: MAC Written Communication  
Written Communication courses intensively focus on the teaching and learning of transferable writing strategies, including invention, arrangement, style, and revision.

**Oral Communication**

Requirement: 3 credits  
Schedule Attribute: MAC Oral Communication  
Oral Communications courses intensively focus on student development of oral communication knowledge and abilities, including presenting and interacting in contexts such as public speaking, interpersonal communication, and group communication.

**Quantitative Reasoning**

Requirement: 3 credits  
Schedule Attribute: MAC Quantitative Reasoning  
Quantitative Reasoning courses prepare students to apply mathematical reasoning to formulate and solve problems from a variety of contexts and real-world situations.

**Health and Wellness**

Requirement: 3 credits  
Schedule Attribute: MAC Health and Wellness  
Courses in this competency focus on health and wellness as well as information literacy. These courses provide explicit instruction in how to understand decisions as they impact the health and wellness of individuals or communities.

**Critical Thinking and Inquiry in the Humanities and Fine Arts**

Requirement: 3 credits  
Schedule Attribute: MAC CritThink Hum and Fine Art  
*Exclusion: Each of the three Critical Thinking and Inquiry competencies must be taken from a different department. (FMS, HSS, and RCO courses are not subject to this exclusion.)

Through these courses, students acquire a working knowledge of the foundational tools for reasoning, including constructing sound arguments, evaluating the quality of evidence, and forming judgments about the evidence, arguments, and conclusions of others in Humanities and Fine Arts disciplines.
Critical Thinking and Inquiry in the Social and Behavioral Sciences*
Requirement: 3 credits
Schedule Attribute: MAC Crit Think Soc and BehavSci
*Exclusion: Each of the three Critical Thinking and Inquiry competencies must be taken from a different department. (FMS, HSS, and RCO courses are not subject to this exclusion.)

After completing courses in this competency, students should have a working knowledge of the foundational tools for reasoning, including constructing sound arguments, evaluating the quality of evidence, and forming judgments about the evidence, arguments, and conclusions of others in Social and Behavioral Science disciplines.

Critical Thinking and Inquiry in the Natural Sciences*
Requirement: 3 or 4 credits
Schedule Attribute: MAC CritThink Nat Sci
*Exclusion: Each of the three Critical Thinking and Inquiry competencies must be taken from a different department. (FMS, HSS, and RCO courses are not subject to this exclusion.)

In the context of natural sciences, critical thinking means explaining, predicting, and reasoning about the behavior of natural systems, or the outcomes of observations or measurements, using arguments based on established scientific principles and models. In the context of natural sciences, inquiry means developing, deepening, refining, or extending concepts, principles, and models to explain natural systems, based on empirical observations.

Global Engagement and Intercultural Learning through the Humanities and Fine Arts or through the Social and Behavioral Sciences
Requirement: 3 credits
Schedule Attribute: MAC Global and Intercultural

Courses in this competency provide students with knowledge and critical understanding of similarities and differences across world cultures over time and emphasize the development of global perspectives and skills to engage cross-culturally.

Diversity and Equity through the Humanities and Fine Arts or through the Social and Behavioral Sciences
Requirement: 3 credits
Schedule Attribute: MAC Diversity and Equity

Courses designated in this competency focus on systems of oppression, structures of power, and institutions, while making connections to US or global societies and examining intellectual traditions that address systems of injustice.

Data Analysis and Interpretation in the Natural Sciences
Requirement: 3 credits
Schedule Attribute: MAC Nat Sci Data Analysis

Courses in this competency foreground the role of quantitative data analysis and interpretation of empirical information in the development of scientific theories and models. Most courses meeting this requirement will include a laboratory section, so students can have adequate hands-on experience working with data in context.

Students Transferring to UNC Greensboro

Please refer to the Comprehensive Articulation Agreement topic on Course Credit Regulations and Limits page of the Academic Regulations and Policies section (p. 774).

A North Carolina community college student who satisfactorily completes, with a grade of “C” or better, courses identified in the Universal General Education Transfer Component will receive credit applied toward the MAC course requirements.

Students who transfer to UNC Greensboro will automatically have their transcripts evaluated for equivalency with MAC. Students can also petition to have particular transfer courses evaluated for particular competencies, via the Office of the Dean of Undergraduate Studies.

Grading

Academic Renewal

The following policy was approved by the UNC Greensboro Faculty Senate on October 2, 2002; amended October 23, 2006; amended March 4, 2015.

Academic Renewal allows formerly enrolled students who have been readmitted the possibility of having grades earned during their previous attendance period to be forgiven (excluded from GPA calculations). Students initiate the request for Academic Renewal by filing a form with the Students First Office.

Formerly enrolled students who left UNC Greensboro with a cumulative GPA below 2.00 may pre-qualify for academic renewal when:

- they have not been enrolled in any institution of higher education for a minimum of one year (one fall and one spring semester);

or, as an alternative:

- they have completed 24 credit hours of transferrable college credit with a 2.50 GPA since their last enrollment at UNC Greensboro.

Upon being readmitted and/or reactivated under the provisions of this policy, pre-qualified students may apply for Academic Renewal after earning at least a 2.30 GPA on their first 12 credits following re-enrollment. If a student earns fewer than 12 credits in their first term after re-enrollment, all hours and grades earned in consecutive terms (concluding with the term in which the 12 credits total is reached) will be considered for this requirement. If a student earns more than 12 credits in the first term after re-enrollment, all hours and grades earned in that term will be considered for the GPA requirement. Thereafter, the student must meet the standard for continuation in the university Academic Good Standing policy.

All Academic Renewal requests should be submitted to the Students First Office and will be reviewed for approval by the Academic Renewal Review Committee.

Upon meeting the Academic Renewal requirements, previously completed courses in which grades of a D+ or below were earned will be forgiven. The recomputed GPA will be calculated from the courses in which grades of C- or higher were earned. All courses taken will appear on the academic record and count toward attempted hours. Grades will be forgiven only once during a student’s career and cannot be reversed.

Students who receive approval for an Academic Renewal Request cannot utilize the Grade Replacement Policy in future semesters.

Chancellor’s List

Undergraduate students are eligible for the Chancellor’s List who meet the following criteria:

- did not receive any grade of D or F.
- achieved a grade point average of 3.5 or higher for the semester

Exclusion: Each of the three Critical Thinking and Inquiry competencies must be taken from a different department. (FMS, HSS, and RCO courses are not subject to this exclusion.)
• achievement of 30 or more credits at UNC Greensboro
• a cumulative grade point average of 3.65 or higher
• current enrollment at UNC Greensboro in 12 or more credits
• be in Academic Good Standing

In the case of transfer students, at least one semester of enrollment at UNC Greensboro is required.

Recognition is accorded the recipients of this honor. The Chancellor’s List is published on the University Registrar’s website after all grades have been processed for the respective fall or spring term. The achievement also appears on the academic transcript.

**Dean’s List**

Undergraduate students are eligible for the Dean’s List who meet the following criteria:

• carry six or more credits of course work graded on an A, B, C, D, or F basis
• earn a grade point average of 3.50 or better and have no grade below B- for the semester
• be in Academic Good Standing

The list is compiled at the end of each semester or when a grade change is processed after a semester for all students whose grade point average falls within the range at the time the report is prepared.

Recognition is accorded the recipients of this honor. The Dean’s List is published on the University Registrar’s website after all grades have been processed for the respective fall or spring term. The achievement also appears on the academic transcript.

**Final Course Examinations**

Final examinations may be required at the discretion of faculty and must be scheduled in course syllabi with information available to students on the first day of class.

**Change of Examination Schedule**

A student desiring to change the meeting time of a final exam should make the request directly to the class instructor. It is the instructor’s prerogative to grant such requests. In instances where students have more than two exams within a 24-hour period, they may apply to the University Registrar’s Office, 180 Mossman Building, for permission to change their exam schedules. The usual process is to change the middle examination in a sequence of three. All requests for changes in examinations must be filed with the University Registrar’s Office before Reading Day.

**Undergraduate Final Grade Appeal Policy**

Revised and approved by the Faculty Senate on April 28, 2021.

If a student wishes to appeal an assigned final grade, the student should first discuss the concerns with the instructor within 90 calendar days after the final grade has been posted. If the student feels that policies were violated and not properly handled by the instructor, then the student will complete a grade appeal form housed in the Office of the Dean of Undergraduate Studies. After consultation with this office, the student may further appeal to the department head, the dean of the school or college, and the provost, in that order.

Grade Appeals will be considered only in the most exceptional circumstances, and are approved only in cases where the evidence strongly supports the student’s claim. Please note that simple disagreement about what constitutes fair grading is not grounds for an appeal. Department or school handbooks and/or the instructor’s syllabus define standards for grading in any given course. When a student elects to remain in a class after reading these materials, the student is understood to have accepted the grading terms for the course. The instructor is not obligated to deviate from grading standards outlined in the department or school handbooks and/or the syllabus.

**Examples that do merit a final grade appeal include:**

• The instructor has miscalculated a final grade;
• The instructor has violated the grading policies outlined in the syllabus without reasonable cause;
• The instructor has not provided a reasonable explanation of how the student’s work was evaluated.

**Examples that do not merit a final grade appeal include:**

• The instructor’s grading policies differ from other instructors in the department, college or school, or university.
• The instructor’s Attendance Policy differs from other instructors in the department, college or school, or university.
• The instructor’s Late Work Policy differs from other instructors in the department, college or school, or university.
• The grade distribution in the class in question is lower than in other sections of the same course.
• The student’s grade in the course is significantly lower than grades the student earned in similar courses.
• The grade in question will trigger academic probation, suspension, or dismissal, or will result in the loss of financial aid eligibility.

Departments and/or units are required to make available their grade appeal process online to make the process clear for students. Final grade appeal process should include department, unit, and university process with the timeline information found on the Office of the Dean of Undergraduate Studies website.

**Grade Points/Grade Point Averages (GPA)**

UNC Greensboro uses a credit hour and grade point system for evaluating undergraduates. Credit hours represent the number of course hours completed. Grade points are determined by the number of credits attempted and the grades earned.

The grade point average is determined by dividing the accumulated number of grade points earned by the accumulated number of semester hours undertaken. Hours attempted but not passed must be included in this calculation. However, a second F or WF in the same course is not used in computing the grade point average. Courses graded on the P/NP or S/U basis and courses transferred from another institution may not be used in determining the UNC Greensboro grade point average.*

Note: Effective January 2020, courses taken through cross-registration with another institution are considered transfer credits. Grades do not appear on the UNC Greensboro transcript and are not calculated in the GPA.**

Beginning with courses taken in Fall 1996, plus/minus grades are incorporated into the GPA for all undergraduates.

### Grade Replacement Policy

*Revised and approved by the Faculty Senate on April 28, 2021.*

A UNCG undergraduate student can request permission to use the Grade Replacement Policy for up to four (4) courses (maximum of 16 credit hours) in which they have earned a grade of C-, D+, D, D- or F/WF. *

In cases where a Grade Replacement Request is permitted, the original grade in a UNCG course will be removed from the Grade Point Average (GPA) calculation and replaced by the grade earned in the repeated UNCG course. However, all final grades and attempted credits from all course attempts will remain on a student’s permanent academic transcript and calculated in determining eligibility for academic majors and financial aid satisfactory academic progress (as applicable).

The following exclusions will prohibit students from using the Grade Replacement Policy from specific courses:

- Courses in which the final grade earned was the result of an Academic Integrity violation, which are recorded by the Office of Student Rights and Responsibilities
- Courses taken in future semesters once a student has applied and been approved for the Academic Renewal Policy
- Grade Replacement Requests submitted after a degree is conferred

Grade Replacement is permitted for courses that have undergone course prefix or course number changes through the Undergraduate Curriculum process.

Students must initiate a Grade Replacement Request by filing a Grade Replacement Request form with the University Registrar’s Office. Once processed, all grade replacements are final and can only be reversed by approved appeal.

In the case of all other repeated courses in which the Grade Replacement Policy is not utilized, attempted credits and grade points from all attempts will be counted fully in the GPA; however, credits earned for the course will count only once in the total hours for the degree.

Appeals for any exceptions to the parameters above, including requests to use Grade Replacement for courses in which a student has earned a C or higher, must be submitted in writing to the Office of the Dean of Undergraduate Studies in the Division of Student Success for consideration prior to registering for the repeat course.

*Due to the academic impact of the Covid-19 pandemic, courses originally taken or repeated in Spring 2020, Summer 2020, Fall 2020, and Spring 2021 semesters will not count against the four (4) course maximum number of Grade Replacements permitted by this policy.*

### Grade Reports

Final course grades are made available to students at the end of each semester on UNCGenie, UNC Greensboro’s student information system. Students can view and print copies of their grades from UNCGenie.

### Grades

A grade in a course is based on the quality of the student’s classroom and written work throughout the semester. Most course grades are not solely based on the final examination alone.

If a course or its equivalent is taken more than once for credit and is not repeatable for credit, credit will be applied toward degree requirements only once.

### Grading System For Undergraduates

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent—indicates achievement of distinction and excellence in several if not all of the following aspects: 1) completeness and accuracy of knowledge; 2) intelligent use of knowledge; 3) independence of work; 4) originality.</td>
</tr>
<tr>
<td>B</td>
<td>Good—indicates general achievement superior to the acceptable standard defined as C. It involves excellence in some aspects of the work, as indicated in the definition of A.</td>
</tr>
<tr>
<td>C</td>
<td>Average—indicates the acceptable standard for graduation from UNC Greensboro. It involves such quality and quantity of work as may fairly be expected of a student of normal ability who gives to the course a reasonable amount of time, effort, and attention.</td>
</tr>
<tr>
<td>D</td>
<td>Lowest Passing Grade—indicates work that falls below the acceptable standards defined as C but which is of sufficient quality and quantity to be counted in the hours of graduation if balanced by superior work in other courses.</td>
</tr>
<tr>
<td>F</td>
<td>Failure—indicates failure that may not be made up except by repeating the course.</td>
</tr>
</tbody>
</table>
Incomplete—indicates that the completion of some part of the work for the course has been deferred because of prolonged illness of the student or because of some serious circumstances beyond the student’s control. Concomitantly with the recording of an Incomplete grade, the instructor files with the head of the school or department concerned the student’s average grade and the specific work that must be accomplished before the Incomplete can be removed. Incomplete grades may be recommended by the university physician, the Counseling and Testing Center, and by the Dean of Undergraduate Studies. See also the topic Incomplete Grades in this section.

IP
In Progress—indicates that the course work was planned to continue beyond a single semester.

NC
No Credit—indicates an audited course.

NR
Not Reported—indicates a final grade was not submitted prior to the official end of the semester according to the university’s academic calendar.

P/NP
Passing/Not Passing—used for designated courses only; courses graded P/NP are so indicated in the course description.

SA
Satisfactory

SP
Special Exam

US
Unsatisfactory

W
Withdrawal—indicates a course from which the student withdrew during the first eight (8) weeks of classes; no academic penalty is attached to a grade of W; see also Course Withdrawal.

WE
Withdrawal Without Penalty—Individual Course

WF
Withdrawal with Failure—indicates a course from which the student withdrew after the first eight (8) weeks of classes; a WF is computed in the student’s GPA; see also Course Withdrawal.

WM
Withdrawal Without Penalty—Full Term, Military

WN
Withdrawal Not Passing—used in courses designated P/NP

WT
Withdrawal Without Penalty—Full Term

WX
Withdrawal With Penalty

Incomplete Grades
An Incomplete grade may be removed by completion of the deferred work. The time line for which all deferred work must be submitted by a student is determined at the discretion of the instructor and should be clearly outlined via a written document summarizing the course work to be completed and any deadlines for submission. A student should not re-register for the course in order to remove the Incomplete. An Incomplete received during a semester or in summer session must be removed within six months from the last day of examinations in the term in which the course was taken. This deadline indicates the final date that an instructor may submit a grade change to remove the incomplete grade. The parameters for removing an incomplete grade, including any deadlines for which work must be submitted by a student, are at the discretion of the instructor.

An incomplete not removed within this time limit is automatically converted to an F on the student’s academic record by the University Registrar’s Office. A graduating senior who incurs an incomplete and who has completed all requirements and enough semester hour credits and grade points to graduate may do so even though the Incomplete grade is outstanding. If the Incomplete is not removed within the required six months, it will be converted to F at the end of that period of time. When an Incomplete is removed, it may be replaced by A, B, C, D, F, or, in certain designated courses, P, NP, S, or U.

Retroactive Grade Change
A retroactive grade change is a change in an officially recorded grade. A grade becomes officially recorded when the Registrar so stipulates. Except to correct clerical errors or to resolve an incomplete grade (see Incomplete Grades), a retroactive grade change is an extraordinary action and is granted only in the most compelling circumstances. No change may occur unless the instructor who gave the grade initiates the formal process of a retroactive grade change. The change must also be approved by the instructor’s department head and by the instructor’s dean.

Students who seek a retroactive grade change to a W are referred to the section on Withdrawing from Courses Retroactively in the Course Withdrawal Policy.

Retroactive grade changes are not made for students who have graduated.

Credit Hours
Credits for all courses are reported in credit hours. A credit hour credit equals one 50-minute class period per week or its equivalent throughout one semester. The number of credits given for each course is listed as part of the course description.

Honors for Second Degree Recipients and Transfer Students
To maintain equity with students who have attended all four years at UNC Greensboro and who may have a semester GPA that would qualify them for honors, the following policy is in place: Any second degree candidate or degree candidate who transferred to UNC Greensboro from another
Majors, Minors, Double Majors and Simultaneous Degrees Policy

Major
The major is a field of study in which a student must specialize in an academic discipline or interdisciplinary area of study by taking a minimum of 27 credit hours in a specified selection of courses in the subject matter(s) as a part of the requirements for completion of an undergraduate degree program. All students must complete the requirements for at least one major, in addition to general education requirements, to successfully earn a bachelor’s degree. The major appears on the transcript.

All undergraduate degree-seeking students must meet the requirements to declare and be accepted into a major prior to the completion of 60 credits of credit. Transfer students entering with more than 60 credits must declare and be accepted into a major prior to registration of their first term at UNC Greensboro.

The student may declare the major in one of the following ways:

- Upon completion of the initial undergraduate freshman, transfer, or international admissions application.
- By formal request to the department of the new degree program.

Concentration
A concentration is a structured plan of study within select majors comprising a specified cluster of courses. The requirements for a concentration are determined by the department. The concentration appears on the transcript.

Minor
A minor represents an optional, secondary field of study for a degree-seeking student; no student may declare a major and a minor in the same discipline. A minor requires additional coursework beyond what is already required for a related major. The minor appears on the transcript.

Pre-Major
A pre-major is a designated pathway for interested undergraduate students to gain entry into a UNC Greensboro undergraduate major/degree program. A pre-major functions principally as an advising tool that helps departments guide interested students into required preparatory coursework and to advise them on any other major requirements. Acceptance or assignment into a pre-major does not guarantee acceptance into the associated major.

Preprofessional Programs
UNC Greensboro offers all courses required for admission to certain professional schools. The Pre-Professional Programs are not majors, but areas of interest. Students must select another academic area as the major.

Double Major
A student who fulfills the specified requirements for two different majors under a single degree program (e.g. B.A., B.S.) prior to graduation completes a double major. For example, a student may complete a Bachelor of Arts (B.A.) with majors in Music and Political Science or a Bachelor of Science (B.S.) with majors in Psychology and Business Administration.

The successful completion of prerequisite and curriculum requirements for both majors are required in order to complete the degree program with a double major. A student must declare a primary major and fulfill the General Education requirements of the primary major. For double majors, one diploma is issued and both majors are recorded on the student’s transcript.

Simultaneous Degrees
A student who fulfills the specified requirements for distinct programs from different degrees prior to graduation will be awarded simultaneous degrees. For example, a student may complete a B.A. in Economics and a B.S. in Physics.

The student must complete an additional 31 credit hours beyond the degree plan with the higher number of required credit hours. Successful completion of prerequisite and curriculum requirements for each degree is required in order to complete both degrees. In order to graduate, the student must complete two graduation applications (one application for each degree).

For students who receive simultaneous degrees, two diplomas are issued, and both degrees and majors are listed on the student’s transcript.

Change of Degree Program,Major, Concentration, and/or Minor
An undergraduate student may change the degree program which consists of major and/or concentration and/or minor and may enroll in a new degree program provided that the student meets the prerequisites for admission to the new degree program. See Student Catalog Year Policy for establishing the requirements for the changed degree.

The change of degree program (major, concentration, or minor) must be requested through and approved by the department of the new degree program. The department will submit the approval to the University Registrar’s Office for processing.

A student who has earned 60 or more credit hours cannot change his/her major to Exploratory/Undecided.

Second Baccalaureate Degree
Students who have previously earned bachelor’s degrees from UNC Greensboro or other accredited institutions may apply to a program leading to a second baccalaureate degree. The major selected for the second baccalaureate degree must be in a different academic discipline from that of the first degree.

Students seeking a second baccalaureate degree must:
Complete no fewer than 31 credits at UNC Greensboro within the second baccalaureate degree requirements.
Achieve a minimum grade point average of 2.0 on all work attempted toward the second degree.
Satisfy all requirements for the second degree.

Students who hold a baccalaureate degree from an accredited institution will not be required to satisfy the UNC Greensboro General Education Requirements for the second degree.

Baccalaureate Minor After Degree Awarded
Students who have earned a bachelor’s degree from UNC Greensboro may not enroll in a program of study leading solely to a minor.
Steps to Graduation

By the beginning of the semester or summer session in which graduation is expected, undergraduates must officially apply for graduation to the University Registrar. Fulfilment of all requirements for the degree applied for, as well as official application for the degree, are the student’s responsibilities.

Academic Requirements

Candidates for a baccalaureate degree must satisfy all of the specific requirements of UNC Greensboro and of the School/College and department in which they major. They must present for graduation the specific number of semester hours required for the degree with a minimum cumulative overall grade point average of at least 2.0 on all credits undertaken.

At least 36 of the total credits for the degree must be at the 300 level or above.

Graduation Requirements

Students must complete the specific number of credits required for the degree with a minimum cumulative overall grade point average of at least 2.0 on all hours undertaken; at least 36 of the total credits for the degree must be at the 300 level or above; all students must complete at least 31 credits in residence at UNC Greensboro for the degree.

Residence Requirements

All students must complete at least 31 credits in residence at UNC Greensboro for the degree, 12 of which must be in the major field and 9 of which must be in the minor if a minor is sought. After enrollment, Extension credit and Correspondence courses offered by UNC Greensboro are considered residence credit; however, credit earned by special examination is not considered residence credit.

Time Requirements

Minerva’s Academic Curriculum (MAC)

The following policies regard time allowed for completion of MAC and MAC + CIC requirements. The Office of the University Registrar can provide additional details.

MAC or MAC + CIC Requirements

Students must meet the General Education or General Education and College Additional Requirements (CIC) for graduation as stated in this University Catalog in effect at the time of original enrollment at UNC Greensboro. If the student fails to graduate within seven years, however, the university has the option of enforcing:

1. The original requirements, or
2. The MAC or MAC + CIC requirements in effect at the time the seven year period expired, or
3. The MAC or MAC + CIC requirements in effect at the time of re-enrollment if the student withdrew.

* Typically, the UNC Greensboro Office of the University Registrar will make the choice among these options in consultation with the department in which the student chooses to major.

Major Requirements

Students must meet the departmental major requirements in effect when the student declares or, if required by the department, is formally admitted to a school/college major. If the student fails to graduate within seven years, however, the university has the option of enforcing:

1. The original requirements, or
2. The major requirements in effect at the time the seven year period expired, or
3. The major requirements in effect at the time of re-enrollment if the student withdrew.

* Typically, the department in which the student chooses to major will make the choice among these options in consultation with the UNC Greensboro Office of the Dean of Undergraduate Studies.

Application for Graduation

All undergraduate students are required to file an application for graduation with the University Registrar’s Office at the beginning of the semester in which they plan to graduate. The online degree application is available via UNCGenie.

This application is required for processing the final degree audit and for printing diplomas. See the topic Miscellaneous Fees and Expenses in the Expenses, Payments, and Refunds section. The fee is nonrefundable. The deadline dates for filing are also published each year in the Academic Calendar and on the University Registrar’s Office website.

Students who do not graduate in the semester for which they file a graduation application must refile for the next term in which they expect to complete their degrees.

Applications are accepted for a short period of time beyond the published deadlines in order to allow for extenuating circumstances; however, once the application for a term is disabled and deemed closed, students must apply to graduate for the next available term. These deadlines are not negotiable as notification of the candidates for graduation are submitted to the Board of Trustees for official action shortly after the deadline dates for filing each term.

Graduation with Latin Honors

Graduation with Latin honors is based on all courses (including the last semester’s work) for which grades and grade points are given. Any senior is eligible for honors who, at the end of the senior year, has completed at least 45 credits of work in residence at UNC Greensboro. This does not include hours for which credit and grade points have been received by special examinations. Honors information printed in the commencement program is based on course work completed through the previous semester, as is the list provided for the purchase of honor cords.

Latin honors are awarded to graduating seniors as follows:

Summa cum laude (with highest honor) achievement of a minimum grade point average of 3.90

Magna cum laude (with great honor) achievement of a minimum grade point average of 3.70

Cum laude (with honor) achievement of a minimum grade point average of 3.50

Commencement Ceremonies

Commencement ceremonies are held in May and December of each year; there is no formal ceremony in August. The names of August degree recipients are printed in the December commencement program and listed on the University Registrar’s Office website.
Commencement Participation Policy
Approved by the Chancellor, February 19, 2003

Students completing all degree requirements by the end of the spring semester are encouraged to participate in May Commencement. Students completing degree requirements by the end of the fall semester are encouraged to participate in the December Commencement. There is no ceremony in August for summer graduates.

Students completing degree requirements by the end of the Summer Session may participate in either the May (preceding the completion of the summer term) or the December (following the completion of the summer term) commencement ceremony by applying to graduate for the summer term, paying the graduation fee, and completing the RSVP form found at http://commencementcentral.uncg.edu. Note that the names of August graduates appear only in the December commencement program.

Please note: Degree candidates will neither earn degrees nor be graduated from the university until they have completed all degree requirements. Participation in a commencement ceremony does not presume graduation from the university.

Students who do not apply for graduation before the published deadline for any semester must apply for graduation during the next semester. Students who have applied for graduation but fail to meet the requirements must reapply for graduation by the published deadline for the semester in which they will fulfill the requirements.

Degrees are conferred only after all requirements are completed and the Board of Trustees has taken official action.

Visit http://commencementcentral.uncg.edu for information about the commencement ceremonies.

University Requirements

Undergraduate Degrees and Degree Requirements

UNC Greensboro offers six baccalaureate degrees:

- B.A. Bachelor of Arts
- B.F.A. Bachelor of Fine Arts
- B.M. Bachelor of Music
- B.S. Bachelor of Science
- B.S.N. Bachelor of Science in Nursing
- B.S.W. Bachelor of Social Work

Requirements for a Bachelor’s Degree

A bachelor’s degree from UNC Greensboro is awarded to a student who has met the following requirements:

1. Successful completion of a minimum of 120 credit hours, distributed as follows:
   b. Additional College/School requirements
   c. Major subject and related areas: as required by program
   d. Electives: as required by program

Total minimum credits: 120

2. A grade point average on the credits attempted of not less than 2.0
3. At least 36 credits of courses at the 300 course level or above
4. At least 31 credits in residence at UNC Greensboro, 12 of which must be in the major field and nine (9) of which must be in the minor if a minor is sought

The College of Arts and Sciences and each of the five professional academic units—Joseph M. Bryan School of Business and Economics; School of Education; School of Health and Human Sciences; School of Nursing; and the College of Visual and Performing Arts—have structured their individual degree programs to comply with this all-university degree framework.

Average Time To Graduation

Many factors affect both the length of time and the number of credit hours an individual student will require to complete the baccalaureate degree. At UNC Greensboro the median number of months to graduation for full time students is 46. The median number of credit hours completed is 125.

Full time undergraduate students are expected to complete at least 12 credits per semester. Failure to complete an average of 15 credits per semester may lengthen the student’s time to graduation. Some majors do require formal admission beyond that required for admission to the University in general.

Students should meet with their academic advisors regularly to plan their academic schedules. To graduate, students must complete specific University requirements as well as requirements within the major. Students who change majors may find that additional requirements must be fulfilled. Changing majors excessively, or after the third or fourth semester of study, may also lengthen the time to graduation.

Criteria for admission to a specific major (outlined in this Bulletin) and continuation in that major may include a University grade point average exceeding that required for continuation within the University as a whole. Students considering such majors should become familiar with the guidelines, and work with an academic advisor as soon as possible to ensure that they meet the criteria.

Changes In Degree Requirements And Other Regulations

The University reserves the right to make changes as required in course offerings, curricula, academic policies, and other rules and regulations affecting students, to be effective whenever determined by the University. These changes will govern current and formerly enrolled students. Enrollment of all students is subject to these conditions.

Basic Technology Competencies

UNC Greensboro recognizes that the ability to utilize appropriate technologies is an essential proficiency for a university graduate in the twenty-first century. The university has established a list of Basic Technology Competencies in the categories of computer operation; setup; maintenance and troubleshooting; word processing; spreadsheet/graphing; library research; networking; telecommunication; use of Internet/Web; media communications; and multimedia integration. The list of these competencies is available as an on-line resource, and provides several means available to UNC Greensboro students for acquiring each competency, with options that include campus workshops, computer lab staff support, and websites. Go to UNC
Academic Program Terminology

Greensboro Basic Technology Competencies to view and access these resources.

UNC Greensboro students are expected to use a variety of these basic technology competencies and additional competencies relevant to their fields of study. Incoming students should review the basic competencies and work to correct any deficiencies.

Information and Research Skills Competencies

In addition to basic technology skills, information literacy, which is the acquisition of information skills and research competencies, is an important Learning Goal of the General Education Program. Familiarity with information resources is essential in acquiring such skills, and these skills should be integrated into the academic curriculum. To assist students in gaining these skills, UNC Greensboro’s university libraries offers two levels of information literacy instruction to undergraduates:

1. First-Year Undergraduates—students achieve orientation to research skills by completing the Library’s Web tutorial and/or attending an instructional session, led by a librarian, that is integrated into one of their courses.

2. Upper Division Undergraduates—students who have not achieved the objectives of library instruction for first-year students may use the Library’s Web tutorials designed for this purpose. In addition, more advanced skills may be gained through sessions that relate directly to course assignments and are arranged by teaching faculty for specific classes. Librarians tailor instruction to specific disciplines and assignments and also meet with students to offer individual assistance.

See the following for additional information: http://library.uncg.edu/info/help/classes_and_tours.aspx and http://library.uncg.edu/research/tutorials/

Student Outcomes Assessments

UNC Greensboro requires students to participate in student outcomes assessments from time to time prior to their graduation. Most of these activities consist of in-class assessments. However, students may also be invited to complete tests measuring other learning outcomes such as information literacy or science. These tests may occur outside of the classroom and at different times in a student’s career. Scores on these tests are not used to evaluate students on an individual basis, but are used to evaluate learning across the university’s programs. Participation is expected.

Academic Program Terminology

Guide To Course Descriptions

Course descriptions are comprised of the following information:

• course number—each course description is represented by a three-letter prefix (indicating the department or program within which the course is taken) and a three-digit course number.
• course title
• course credit (in parentheses)—after each course title are two (or three) numbers separated by colons which indicate credit hours, lecture, and laboratory hours.
• description of course content
• prerequisites and/or corequisites
• courses with which the course may be cross-listed (i.e., Same as . . .)
• frequency of offering
• General Education credit (Distribution)
• special information (Notes), which may include:
  • special restrictions or other requirements
  • repeat-for-credit notation, if course can be repeated
  • grading mode, if other than letter grade
  • previous course occurrences, if renumbered or prefix changed (i.e., Formerly . . .)
  • equivalent course credit

See topics listed below for explanations of the above items.

Course Prefixes

Listed below are the current graduate and undergraduate course prefixes.

AAD - Arts Administration
ACC - Accounting
ADS - African American and African Diaspora Studies
APD - Apparel Product Design
ARB - Arabic
ARC - Archaeology
ARE - Art Education
ARH - Art History
ARS - Academic Recovery Seminar
ART - Studio Art
ASL - American Sign Language
AST - Astronomy
ATY - Anthropology
BIO - Biology
BLS - Humanities
BUS - Business Administration
CCI - Classical Civilization
CED - Counseling and Educational Development
CHE - Chemistry and Biochemistry
CHI - Chinese
CNS - Consortium
CRS - Consumer, Apparel, and Retail Studies
CSC - Computer Science
CSD - Communication Sciences and Disorders
CST - Communication Studies
CTP - Comprehensive Transition and Postsecondary Education
CTR - Community and Therapeutic Recreation
DCE - Dance
ECO - Economics
ELC - Educational Leadership and Cultural Foundations
ENG - English
ENS - Ensemble
ENT - Entrepreneurship
ERM - Educational Research Methodology
ESL - English as a Second Language
FFL - Foundations for Learning
FIN - Finance
FMS - Freshman Seminars
FRE - French
FYE - First Year Experience
GEN - Genetic Counseling
GER - German
GES - Geography, Environment, and Sustainability
GRC - Grogan College
GRK - Greek
GRO - Gerontology
GRS - Graduate School
HDF - Human Development and Family Studies
HEA - Public Health
HED - Higher Education
HHS - School of Health and Human Sciences
HIS - History
HSS - Honors Programs
IAA - Advanced Data Analytics
IAB - Bioinformatics
IAC - Computational Analytics
IAF - Informatics and Analytics Foundations
IAG - Geospatial Analytics
IAL - Cultural Analytics
IAR - Interior Architecture
IGS - International and Global Studies
IPC - International Programs Center
ISL - Integrated Studies Lab
JNS - Japanese Studies
KIN - Kinesiology
LAT - Latin
LIS - Library and Information Science
LLC - Languages, Literatures, and Cultures
MAS - Master of Applied Arts and Sciences
MAT - Mathematics
MBA - Master of Business Administration
MCP - Middle College
MGT - Management
MKT - Marketing
MSC - Military Science
MST - Media Studies
MUE - Music Education
MUP - Music Performance
MUS - Music
NAN - Nanoscience
NTR - Nutrition
NUR - Nursing
ONC - Online NC Interinstitutional
PCS - Peace and Conflict Studies
PHI - Philosophy
PHY - Physics
PSC - Political Science
PSY - Psychology
RCD - Residential College
RCS - Retailing and Consumer Studies
REL - Religious Studies
RUS - Russian
SCM - Supply Chain Management
SES - Specialized Education Services
SOC - Sociology
SPA - Spanish
SSC - Social Sciences
STA - Statistics
STH - Sustainable Tourism and Hospitality
STR - Strong College
SWK - Social Work
TED - Teacher Education
THR - Theatre
UNCX - UNC Exchange
VPA - Visual and Performing Arts
WCV - Western Civilization
WGS - Women's and Gender Studies

Course Numbers and Levels
Course level numbers are structured as listed below.

<table>
<thead>
<tr>
<th>Course Level Number</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>100-199</td>
<td>intended primarily for freshmen</td>
</tr>
<tr>
<td>200-299</td>
<td>intended primarily for sophomores</td>
</tr>
<tr>
<td>300-399</td>
<td>intended primarily for juniors</td>
</tr>
<tr>
<td>400-499</td>
<td>intended primarily for seniors</td>
</tr>
<tr>
<td>500-599</td>
<td>for all graduate students</td>
</tr>
<tr>
<td>600-749</td>
<td>for all graduate students, including doctoral</td>
</tr>
<tr>
<td>750-799</td>
<td>doctoral level only</td>
</tr>
</tbody>
</table>

Undergraduates are reminded that a minimum of 36 credit hours must be completed at the 300 level or above to meet graduation requirements.

Course descriptions for graduate-level courses (600 and 700 level) are printed in the University Catalog.

Course Credit Hours
Credits for all courses are reported in credit hours. A credit hour credit equals one 50-minute class period per week or its equivalent throughout one semester. The number of credits given for each course is listed as part of the course description immediately following the course title.

Course Type Abbreviations with Instructional Delivery Method

<table>
<thead>
<tr>
<th>Code—Title (Organized/Individual)</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACT—Physical Activity (OC)</td>
<td>A course requiring students to participate in physical training, physical conditioning, or other physical exercise activities, sports, or games.</td>
</tr>
<tr>
<td>ADN—Administrative (IS)</td>
<td>For administrative use only. Placeholder or other administrative courses used to generate registration activity for a student for billing or other administrative purposes.</td>
</tr>
<tr>
<td>CBE—Competency Based (OC)</td>
<td>A course requiring students to demonstrate specific knowledge and skills aligned with clearly defined programmatic outcomes. Courses are typically self-paced and part of a designated competency-based education (CBE) program.</td>
</tr>
<tr>
<td>CLN—Clinical (OC)</td>
<td>A course requiring medical- or healthcare-focused experiential work where students test, observe, experiment, or practice a field or discipline in a hands-on or simulated environment.</td>
</tr>
<tr>
<td>COL—Colloquia (OC)</td>
<td>A course requiring students to participate in an unstructured or informal meeting for the exchange of views on a specific topic with an expert or qualified representative of the field or discipline.</td>
</tr>
</tbody>
</table>
| DSC—Recitations (OC)              | A course requiring the extended expression of thought supported by generally-accepted principals or theorems of a field or discipline led by a teaching assistant or instructor under the guidance of a permanent
faculty member, which often supplements or expands upon the content of a related or co-requisite course. CS campus requires a meeting pattern/ location.

DTS—Dissertation or Thesis (IS)

IND—Individual Study (IS)
A course requiring students to participate in individualized, independent, directed, or guided studies under the supervision of an expert or qualified representative of the field or discipline that cannot be otherwise classified as Internship, Field Experience, Cooperative Education, Practicum, Recital, Performance, or Ensemble.

INT—Internship, Field Experience, or Cooperative Education (IS)
A course requiring students to participate in a partnership, professional employment, work experience, or cooperative education with an entity external to the institution, generally under the supervision of an employee of the given external entity.

LAB—Lab (OC)
A course requiring scientific- or research-focused experiential work where students test, observe, experiment, or practice a field or discipline in a hands-on environment, typically held in 210 designated spaces.

LEC—Lecture (OC)
A course requiring the extended expression of thought supported by generally-accepted principles or theorems of a field or discipline led by an expert or qualified representative of the field or discipline.

LEL—Lecture and Lab (OC)
A course that requires the combined attributes of a Lecture course and a Lab course.

PRC—Practicum (OC)
A course requiring students to participate in an approved project or proposal that practically applies previously studied theory of the field or discipline under the supervision of an expert or qualified representative of the field or discipline.

PRF—Recital, Performance, or Ensemble (IS)
A course requiring recital-, performance-, or ensemble-focused experiential work, including individual lessons, where students practice or rehearse and ultimately perform works of music, dance, or theatre for a jury or audience.

SEM—Seminar (OC)
A course requiring students to participate in structured conversation or debate focused on assigned readings, current or historical events, or shared experiences led by an expert or qualified representative of the field or discipline.

SLF—Correspondence (IS)
A course requiring the institution to provide instructional materials, by mail or electronic transmission, including examinations on the materials, to students who are separated from the instructor. Interaction between the instructor and the student is limited, is not regular and substantive, and is primarily initiation by the student; courses are typically self-paced.

STT—Student Teaching (IS)
A course requiring students to instruct or teach at an entity external to the institution, generally as part of the culminating curriculum of a teacher education or certification program.

STU—Studio (OC)
A course requiring visual- or aesthetic-focused experiential work where students test, observe, experiment, or practice a field or discipline in a hands-on environment.

Course Description
The description of a course is necessarily brief and is intended to give students a concise overview of course content. A course syllabus, which contains complete details about a course's content and requirements, may be obtained from the department or instructor.

Course Prerequisites and/or Corequisites
A prerequisite is a course that must be completed before another course may be taken. A corequisite is a course that must be taken concurrently with another course. Prerequisites and corequisites are indicated with the heading Prerequisite or Corequisite followed by the requirements that must be met before that course may be taken. A student may not enroll in a course without having completed the proper prerequisites unless these prerequisites have been waived by the head of the department in which the course is offered.

Cross-Listed Courses
Each semester a number of courses are cross-listed with courses taught in a different department. These courses meet in the same room at the same time but have different course prefixes and may have different numbers. Cross-listed courses are listed under the Cross-Listed Courses heading (“Same as . . .”). Students should be aware of cross-listings before registering in order to avoid taking a course for which they will not receive additional credit.

Frequency of Course Offering
Many courses indicate the semester(s) in which they are usually offered. This information is listed under the Offered heading:

- Fall and Spring—course usually offered both fall and spring semesters.
- Fall and Spring and Summer—course usually offered fall and spring semesters and summer session.
- (Fall or Spring)—course usually offered either fall or spring semesters.
- (Fall or Spring or Summer)—course may be offered fall semester, or spring semester, or summer session.
- (Fall or Spring or Winter)—course may be offered fall semester, or spring semester, or winter session.
- (Fall)—course usually offered fall only.
- (Spring)—course usually offered spring only.
- (Summer)—course usually offered summer only.
- (Alt)—course usually offered only in alternate semesters or years.
- (Even, Odd)—course usually offered in even or odd semesters or years.
- (Occ)—course offered occasionally.

Students should also be aware that regularly scheduled undergraduate classes for which fewer than ten students enroll (or graduate classes for which fewer than five students enroll) will be offered only with special approval of the Provost. If enrollment does not justify continuation of a class, the class may not be offered that semester.

General Education Requirement Abbreviations
See the General Education Program topic in the University Requirements section.
Other Course Restrictions
Some courses carry additional restrictions (Freshmen only; Majors only; etc.). Such restrictions are also listed in the prerequisite notation.

Repeat-for-Credit Notation
Some courses may be repeated for credit under special circumstances. Such information is listed in the Notes.

Grading Method
Courses are graded by letter grade (A–F) unless otherwise noted in the course description. If a course is graded other than by letter grade, this information is stated after the prerequisite listing. Also see the topic on Grading in the Academic Regulations and Policies Section.

Pass/Not Pass Courses
Undergraduate/advanced undergraduate courses that are graded P/NP (Pass/Not Pass) or S/U (Satisfactory/Unsatisfactory) and are so noted in their descriptions.

Equivalent Course Credit
A number of undergraduate courses have course content that is considered equivalent to other similar courses. The course entry in this bulletin will contain a notation under the Notes heading—such as “Students may not earn credit for both . . . .” Students should be aware of such equivalencies before registering in order to avoid taking a course for which they will not receive additional credit.

Undergraduate Areas of Study
Undergraduate areas of study include all majors, concentrations, teacher licensure programs, minors, and second majors that are available to UNC Greensboro students. Students seeking a baccalaureate degree must select a primary major, and may, after consultation with an advisor, also select a minor or a second major.

Major Description And Program Requirements
A major is a formalized curricular program leading to a degree. A concentration is a formalized curricular sequence established to achieve a specific goal within a major. Each academic unit or department establishes the course requirements for each major program, concentrations within a major, and related area requirements. All program requirements follow the general structure described below.

Major Description
The following information is always included at the beginning of the major listing:

1. Name of major
2. Degree awarded
3. Total credit hours required for the degree
4. Area of Study Codes (AOS)
5. Concentrations available (if more than one area of study is available)

Program Admission Requirements
Special program admission and/or continuation requirements, if any, are listed immediately following the description of the major and degree. A number of programs have requirements that must be met before the student can be formally admitted to the major and permitted to take upper-level courses. Such requirements usually involve completion of foundation courses, achievement of a certain GPA, and completion of a specified number of credit hours. Certain programs require portfolio review or audition for admission.

Program Course Requirements
General Education Requirements
All students completing undergraduate degrees at UNC Greensboro are required to complete General Education Core and Marker Requirements. All undergraduate programs follow General Education requirements. Most programs in the College of Arts and Sciences have College Additional Requirements (CIC) in addition to the General Education requirements. General Education core and marker requirements, including specific courses specified by the program, are listed prior to the major requirements.

Major Requirements
Major requirements include all courses that must be taken within the major department for completion of the degree. All undergraduate majors require a minimum of 27 credits in the major program of study.

Related Area Requirements
A number of majors require courses from other departments or programs for completion of the degree. Such courses are listed as “Related Area” requirements following the major requirements.

Teacher Licensure Requirements
Programs that lead to teacher licensure also list teacher licensure requirements.

Second Academic Concentration Requirements for Teacher Licensure Programs
Several teacher licensure programs require students to complete a second academic concentration in addition to the primary major program. Students in teacher education programs should check with their advisors or with the School of Education Licensure Programs for available second academic concentrations.

Electives
Most programs do not specify which electives a student must take although some may make suggestions. Electives are those courses taken to complete the credits required for the degree after fulfilling General Education requirements and major, related and/or other program requirements.

Minors
A minor is a formalized curricular sequence taken by a student outside his or her major area of study. Programs that can be taken as minors are described following descriptions of the major and second major. A minimum of 15 credit hours in a department is required to complete an area of study as a minor. Several areas of study can be taken only as minors. See individual programs for details.
Special Curriculum Option (Plan II)
For students whose intellectual interests and professional goals span more than one Academic Department, a special curriculum option—called Plan II—allows students to design an individualized interdisciplinary course of study drawing on existing faculty expertise and interest. Plan II programs should reflect the same kind of rigorous intellectual investigation found in UNC Greensboro’s established department based majors. Rigorous intellectual investigation varies by discipline, but typically involves a scaffolded set of courses that build upon each other; some degree of formal theoretical analysis is often, if not universally, desirable.

Developing an individualized program is a time consuming process, often taking one year from initial intent to final approval. Students must file a statement of intent to pursue Plan II with the University Curriculum Committee prior to completing their first 45 institutional credit hours, and submit the full plan for review prior to completing their first 60 institutional credit hours. Students desiring to pursue Plan II should be advised that there is no guarantee that their proposed program will lead to graduation until it has been fully approved.

Required steps have been adopted by the Undergraduate Curriculum Committee for approving Plan II programs. The following is an abbreviated description of the procedures that must be followed:

1. Consult with the Student’s First Office regarding established UNC Greensboro majors &/or minors to determine if a program that supports the student’s interdisciplinary goals already exists (Plan II programs that replicate existing programs with minor variations will not be approved).
2. Select a faculty advisor with academic expertise in the primary component of the interdisciplinary major.
3. With the help of the faculty advisor, select another faculty member with expertise in a different component of the interdisciplinary major, as well as a representative of the Unit Advising representative to serve on an advisory committee.
4. Develop a formal proposal with the advisory committee.
5. Proposal must be reviewed by the lead faculty advisor’s academic unit’s curriculum committee.
6. Proposals are then reviewed by the Undergraduate Curriculum Committee

Minor modifications to an approved Plan II program may be made if approved by both the faculty advisor and the University Registrar’s Office. Other modifications require the full process outlined.

Withdrawal from the University
Undergraduate students who find that they must withdraw from the university can do so by withdrawing from all courses through UNCGenie. Undergraduates who withdraw from all courses are considered to be withdrawn from the university and must seek reactivation or readmission through Undergraduate Admissions to return to school in subsequent terms.

Students withdrawing from the university within the first eight weeks of the term will be indicated on the transcript with a grade of WT (Withdrawn - Total). All WT courses count as attempted hours and are subject to financial aid and Satisfactory Academic Progression rules and calculations; they do not count in academic standing calculations or GPA calculation.

Graduate Policies
Preface
The UNCG Graduate School Handbook contains the policies, procedures, regulations, and deadlines, as created and revised by the Graduate School’s Policy Committee. Revisions are finalized by the Graduate Council, after a one-month comment period open to Graduate Faculty. It is the student's responsibility to know and to follow all policies, procedures, regulations, and deadlines. Each graduate program maintains a handbook that describes admission expectations specific to that program and may have additional regulations.

SECTION I: Covers general academic requirements and regulations.

SECTION II: Covers financial information, assistantships, fellowships, and credentialing process for graduate teaching associates.

SECTION III: Provides a summary of Graduate School regulations for all certificates and degrees.

Official University Communication: According to UNCG University policy, e-mail is the official method of communication. All official communications will be transmitted through UNCG University e-mail to students’ official UNCG email addresses at the “uncg.edu” domain. Students are responsible for monitoring this e-mail account at all times while enrolled at UNCG. Failure to monitor this account may result in missing important announcements and deadlines and will not serve as a basis for an appeal or modification of deadlines. For answers to questions about Graduate School policies, contact the Office of the Dean of the Graduate School at 336-334-3287 or e-mail the Dean’s administrative assistant.

* Last Updated: April 24, 2020.

Section I: Academic Requirements and Regulations
Graduate Admissions and Matriculation
All degree, certificate, or non-degree-seeking students (except UNCG faculty and staff) must submit a nonrefundable application fee to the University before the application is processed. The Admissions section (https://grs.uncg.edu/prospective/guide/) of the Graduate School’s website lists current application fees and supplemental documents by program.

Overview
Admission into a UNCG graduate degree or certificate program is a process shared by the Graduate School and the graduate program. To be considered for graduate admission, applicants must meet the requirements of the Graduate School and of the graduate program.

Faculty in the graduate programs recommend students for admission to the Graduate School after they have assessed each prospective graduate student's potential. Programs have significant discretion in determining admission standards and class size based on factors such as availability of academic mentors, financial support, laboratory space, and student distribution within interest areas. Each graduate program maintains a graduate program handbook that describes admissions expectations specific to that program.

Neither an academic record exceeding minimum requirements, nor satisfactory scores on standardized tests, nor professional
expertise alone will assure an applicant's admission in this competitive environment. Rather, the overall record must indicate the strong likelihood that a prospective student will complete graduate study successfully.

Each application to the Graduate School will result in one admission decision. Offers of admission are not official until approved by the Dean of the Graduate School. Official admission decisions are communicated to applicants by email from the Dean of the Graduate School. Prospective students can view the status of the admission application online at the application portal. Click “Manage Your Account” and then “View All Forms.”

UNCG has staff who are charged with international recruitment. Additionally, UNCG uses independent contractors in the recruitment of international students. Agreements between Independent Recruiting Agencies and UNC Greensboro include a statement under the Contractor Responsibilities section that the Contractor shall “Recruit students with requisite academic qualifications who meet or exceed the university’s admission requirements.” UNCG provides those requirements in written materials, such as the UNCG Catalog, and in training sessions conducted by the Director of the Office of International Recruitment. The Graduate School Office of Admission has no direct contact with independent recruiting agencies. Students recruited by any means are showed no favoritism in the admissions process. This information is withheld from programs as they evaluate applicants. The only reason this information is collected is to analysis the efficacy of recruitment efforts.

Successful applicants are offered admission for a specific program in a specific term.

Minimum Requirements for All Applicants

- Completion of a bachelor’s degree from a U.S. college or university accredited by a regional accrediting association; or complete an international degree that is equivalent to a U.S. bachelor's degree from a college or university recognized and approved by the Ministry of Education or Commission responsible for higher education in the country where the degree is earned.
- Applicants must submit one transcript with the Bachelor’s degree posted or a current “in progress” transcript.
- If an applicant is offered admission, the student is required to submit a final official transcript indicating the degree was earned. (See Matriculation Requirements.)
- Applicants must submit a completed online application and a nonrefundable application fee. To be considered for an assistantship, students must check the box on the application.
- Applicants whose native language is not English must demonstrate English proficiency. (See English Language Proficiency.)
- Applicants who are unable to demonstrate English proficiency may apply for conditional admission and earn their proficiency in the Global Pathway program. (Global Pathway)

The Graduate School reserves the right to verify the accuracy and authenticity of the educational documents submitted.

Specific Graduate Program Requirements

Visit UNC Greensboro’s Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/#tablepress-2) for any additional requirements. Note that some programs may specify additional material (e.g., portfolio, auditions, test scores) which requires preparation.

Disposition of Application Materials

Credentials or supporting materials submitted for admission to the Graduate School become the property of the University and are not returned. No copies will be provided to third parties outside the University except when compelled by legal authority. Copies will, however, be provided to appropriate offices at the University in the interest of academic matters or financial awards relative to the applicant. Applications and supporting documents are retained according to the retention policies of the state of North Carolina.

Matriculation Requirements

- Domestic Students: All newly matriculated domestic students must submit a final official transcript with the completion of the bachelor’s or master’s degree posted to it.
- International Students: Newly matriculated international students, whose most recent degree(s) was earned at a non-US institution, are required to submit to a NACES approved evaluation service (ex: EP, JS&A, Spantran, ECE, WES), proof that you have graduated from the institution listed on the unofficial transcripts submitted as part of the application process and that the degree awarded is equivalent to a US bachelor’s degree. You will be expected to submit an official transcript for this evaluation. A course-by-course evaluation is not required. If using Spantran, click on SPANTRAN (https://spanside.secure.force.com/SpantranApplication/?Id=f106cd12-101a-4363-bc3c-ad54b9469f95) for the specific UNCG Graduate School form.

English Proficiency

UNCG accepts the following methods of demonstrating English proficiency:

- Test Scores
  - TOEFL 79 IBT (use code 5913)
  - **In response to the Covid-19 pandemic, we are accepting the TOEFL iBT® Special Home Edition (https://www.ets.org/s/cv/toefl/at-home/) score report for tests dates taken up through December 31, 2020 for Spring 2021 and Fall 2021 applications. The same IBT 79 is accepted for direct admission.
  - IELTS 6.5 Band Score (select University of North Carolina Greensboro Graduate Admissions)
  - **In response to the Covid-19 pandemic, we are also accepting the IELTS Indicator (https://www.ieltsindicator.com/book/) (same 6.5 band score) report for test dates taken up through December 31, 2020 for Spring 2021 and Fall 2021 applications.
  - Duolingo English Test DET 110 (https://englishtest.duolingo.com/applicants/)
  - ELS 112
  - Kaplan English Advanced Level
  - PTE Academic 67

**ELPs must not be more than 2 years old from date of application submission.

- English Language Proficiency may also be demonstrated by successful completion of the following:
  - UNCG School of Education (SOE) Global Pathway Program (https://soeglobalpathway.uncg.edu/) Level III (Bridging Level)
  - INTERLINK (https://interlink.edu/student-application/) Level 5 / Level 12 Online Program
• Saudi Arabian students: INTERLINK is a a SACM approved ESL program
• American Language Academy (https://ala.edu/greensboro/) Level 5
• Mentora College’s Intensive English Program (http://www.mentoracollege.edu/pathways-partnerships/)
• An international applicant is automatically considered English Proficient under the following circumstances:
  • The applicant is from a country where English is recognized as the primary, official language.
  • The applicant is or will be a graduate of a U.S. regionally accredited university.
  • The applicant is or will be a graduate of a non-U.S. college/university where English is the primary language of instruction.

Note: All new admitted international students will undergo a UNCG-administered English assessment. Students who may benefit from additional support services in reading, speaking, and writing will be notified of campus resources available to them. International Teaching Assistants may be asked to take ESL 631 before they will be allowed to serve as an Instructor of Record.

Conditional Admission and SOE Global Pathway Program
Applicants who have not met the minimum English language proficiency score may apply for conditional admission. Simply check the Pathway Program on the graduate application.

If admitted conditionally, applicants must successfully complete the UNCG School of Education Global Pathway Program (https://soeglobalpathway.uncg.edu/), which satisfies the English Language Proficiency score requirement.

I-20 and DS 2019 Issuance
For I-20 and DS 2019 issuance, as required by USCIS, international applicants must show evidence of sufficient funds, for a minimum of one year, to support one’s education and living expenses while at UNCG. Financial forms may be downloaded from within the graduate application or on The International Programs Center (IPC) webpage at: https://international.uncg.edu/about-ipc/forms-handbooks-policies/.

Transcripts
Departments/programs may require additional transcripts.

Pursuing Multiple Degree Programs
Students are prohibited from pursuing multiple degree programs at the same time.

Non-credential-seeking (Visiting) Students
Non-degree students who wish to take graduate-level courses (courses numbered 500 – 749) must have earned a baccalaureate degree from an accredited college or university and must apply through the Graduate School. The Graduate School does not admit an individual as a non-degree student (as if they were in a program). Instead, approved non-degree students will receive notice from the Graduate School that they may register for classes. Visiting students are restricted from registering for any course that is not on a program’s list of approved courses.

Non-degree students who wish to take undergraduate-level courses (courses numbered 100-499) must apply through undergraduate admissions, even if having previously earned an undergraduate degree.

Non-degree seeking students must apply for each semester in which they wish to enroll. A non-refundable fee is charged each time a non-degree seeking application is submitted. An undergraduate transcript(s) from the degree-granting institution required with an initial application; this is waived in subsequent applications.

Non-degree students who are permitted to enroll for graduate courses may take courses numbered 500 –749 that have not been restricted by the departments (see Non-degree Seeking Applicants (https://grs.uncg.edu/prospective/visitingapplicants/)). With the instructor’s approval, non-degree seeking students may submit a written petition to the Graduate Program Director or the Department Head to enroll in a restricted course; however, independent study is reserved for only degree seeking students.

To pursue a degree at any time, a non-degree student must formally apply for admission to the Graduate School. If the student meets all Graduate School and program standards and is granted admission, a maximum of nine (9) credits earned while in non-degree status may be applied to the academic program. Credit earned must fall within the timeline for completing the degree or certificate.

Non-degree seeking students are not eligible for financial aid.

* Visiting students are not permitted to enroll in courses numbered 750 or higher.

Public School Personnel
Public school teachers and administrators who wish to take courses solely for licensure renewal credit may do so as non-degree seeking students. Students who meet all requirements for admission as a graduate degree student will also receive the licensure renewal credit.

If credit is to be applied to a graduate degree, the student must submit an application to the Graduate School before the completion of the course.

Deferral of Admission
With permission from the Graduate Program Director, students admitted to a degree or certificate program may defer matriculation for a maximum of one year from the initial term of admission. Deferral is not possible for many degree programs.

To request a deferral of admission, admitted students must select Deferral in the Intent to Enroll form that will be emailed to them once they have been admitted. The request will be sent to the appropriate department’s Graduate Program Director for consideration. The deferral request must be for a specific term and may not exceed one year from the original term of admission.

The department will forward the form request to the Graduate School for processing, and the Graduate School will notify the student of the decision. If the student does not request a deferral, or if the department does not approve the requested deferral, and the student does not enroll for the original term of admission, the student will have to reapply for admission. If the requested deferral is approved and the student does not enroll for the approved deferred term of admission, the student will have to reapply for admission.

Financial awards are not deferred.

Military-affiliated students should contact the Graduate School for individual assistance with extended deferrals.
Readmission and Catalog Policy
The University Catalog is the publication that documents all academic policies, regulations, and program requirements for a given academic year for all students and programs.

A student’s catalog year identifies the set of curriculum requirements and regulations for program completion. The catalog year is established for the individual student upon declaration or change of the program.

A student may change a catalog year without a change of program or minor only to a more recent catalog. The student may request this change formally through their department.

Any student who has been inactivated must reapply for admission to the University. If admitted, the student will be assigned to the catalog requirements for the program in effect for the re-admit term.

Readmission after Academic Dismissal
A student who is dismissed for academic reasons will be eligible to submit a new application after two semesters or the equivalent and may be admitted only upon the recommendation of the major department head or Graduate Program Director and with the approval of the Dean of the Graduate School. While on academic dismissal, students are not eligible to take courses as a non-degree seeking student.

Fresh Start Admission for Master’s Degrees
A returning graduate student with a GPA lower than 3.0, who has been dismissed or withdrawn from the Graduate School may request a “fresh start” when changing or returning to a graduate program leading to a master’s degree or certificate at UNCG. A fresh start is defined as beginning a graduate program and having the graduate academic record recalculated to reflect no credits attempted and no graduate grade point average for the new or returned to program; however, all graduate courses previously taken at UNCG will remain on the student’s academic record. The attempted credit hours from all courses will be counted for financial aid eligibility (as applicable).

To be eligible for a fresh start, the student must meet the following criteria:

- A period of at least two years must have passed since the student withdrew or was dismissed from a UNCG graduate program;
- The student must be recommended for admission into the program by the appropriate department; and
- The student must request and be granted a fresh start from the Graduate School.

Courses completed in a previous UNCG graduate program will not transfer nor will they be applied to the requirements of the new or returned to program. The new program must be finished, and the degree must be conferred within five years of the completion of the first new course.

At most, one fresh start will be granted to any one master’s student at UNCG. Final approval for a fresh start application rests with the Dean of the Graduate School.

Accelerated Master’s Programs
An Accelerated Master’s Program (AMP) allows a student to begin accumulating credits towards completion of a UNCG graduate degree while still enrolled as an undergraduate. Successful undergraduate applicants are given an early decision on their graduate application pending successful completion of the baccalaureate degree. These graduate-level courses will count towards both the baccalaureate degree and the graduate degree; the grades will be recorded on both transcripts.

No more than 12 graduate credits taken as an undergraduate may be applied toward the undergraduate degree.

Undergraduate students may apply for admission to the AMP as they enter junior status (60 semester hours). Minimal criteria for admission will include an undergraduate GPA of at least 3.5 in the related major and any additional criteria as determined by the academic unit. Transfer students may apply if their cumulative GPA from their previous institution was at least a 3.0, or if they have earned a 3.0 (with a 3.5 in courses related to the major) at UNCG during their first semester.

The student must apply for admission to the AMP through the Graduate School. To ensure a timely decision and access to course enrollment, students must apply for admission to an Accelerated Master’s Program by July 1 for Fall AMP course enrollment, November 15 for Spring enrollment, and April 1 for Summer enrollment.

International students who are admitted into an Accelerated Master’s Program should work with the Graduate School and the International Programs Center to apply for a visa extension.

A student enrolled in an AMP program is prohibited from Dual Bachelor’s-Master’s Registration.

Dual Bachelor’s-Master’s Registration
Students who do not wish to enroll in a UNCG graduate program may register for graduate-level courses if they have no more than twelve (12) credit hours remaining to fulfill the requirements of their bachelor’s degree program. Students must apply for admission to a graduate program before requests for dual registration can be approved, but they do not have to be formally admitted until the end of the semester in which credit is earned. For dual registration status, the approvals of the Graduate School, the University Registrar’s Office, the Graduate Program Director in the appropriate graduate program(s), and the student’s undergraduate major adviser are required.

Total graduate credit obtained in this dual status may not exceed 12 credits. Graduate courses are not applied to the undergraduate degree.

A student enrolled in Dual Bachelor’s Master’s Registration may not be concurrently enrolled in and AMP program.

Faculty as Students
Faculty at UNCG may not pursue a graduate degree or certificate in their home department or degree-offering unit. For exceptions, the unit dean may petition the Dean of the Graduate School.

Eligibility to Remain in Graduate School
The Graduate School may dismiss a student for academic reasons, violation of the academic integrity policy, and/or student conduct violations as described in each program’s graduate handbook.

Academic Good Standing
Students enter Graduate School with no academic standing and are expected to earn at least a GPA of 3.0 in their first semester to be placed in Academic Good Standing. Continuing students must maintain a cumulative GPA of at least 3.0 in all graduate course work at UNCG to remain in Academic Good Standing.
Academic Probation
Any student whose cumulative GPA for all graduate courses falls below 3.0 will be placed on Academic Probation, effective for the next term during which the student is enrolled. Probationary status will be removed and the student returned to Academic Good Standing if (1) the student’s GPA for each term during which the student is on probation is 3.0 or better, and (2) the student’s cumulative GPA for all graduate courses is at least 3.0 at the end of the semester in which the student completes nine (9) semester hours after being placed on Probation. If Probationary status is not removed upon the completion of 9 semester hours after being placed on Probation, or if the student achieves a term GPA below 3.0 while on Academic Probation, the student will be dismissed from the program and will be ineligible to continue in the Graduate School.

Students on probation are ineligible for assistantships or fellowships.

If the Graduate School determines that it is not possible to return to Academic Good standing within the allotted credit hours for graduation, that student will not be placed on Academic Probation. Instead, that student will be immediately dismissed from the Graduate School.

Students who meet the criteria to be placed on Academic Probation more than once in the same program will not be placed on Academic Probation; instead, they will be immediately dismissed from the Graduate School.

While on Academic Dismissal, students are not eligible to take graduate-level courses as a non-degree seeking student.

Should a student complete or withdraw from one academic program and begin study in another academic program, all grades remain part of the student’s academic record and contribute to the student’s cumulative graduate GPA, except in case of a Fresh Start admission.

Students may refer to Graduate Grading for a more detailed description of grading policies.

Graduate Exams
Graduate students who fail any written or oral milestone exam must petition their advisory committee for permission to take it again. The Graduate School will dismiss any graduate student who fails two attempts for a milestone exam.

Satisfactory Progress Toward Degree
All graduate students are required to demonstrate satisfactory progress towards degree completion. Department Handbooks shall document the procedure to annually assess students’ progress to degree completion. The Graduate Program Director (GPD) must notify the Graduate School of any student determined not to be making satisfactory academic progress; that student shall be placed on Academic Probation. A student who subsequently fails to make satisfactory progress towards the degree and be removed from probation shall be dismissed from the Graduate School.

Satisfactory Academic Professionalism
Satisfactory performance in the Graduate School also involves maintaining the professional standards and academic progress expected in a discipline or program. Failure to maintain the standards or progress set out in a student’s departmental or program handbook may result in dismissal from the program.

Satisfactory Academic Progress for Financial Aid
Federal and state governments require each educational institution to define standards of progress for students seeking financial aid. All students who wish to qualify for financial aid while attending UNCG must meet the following standards:

- Minimum grade point average
- Minimum semester credit hour completion rate
- Cumulative completion rate—attempted vs. earned hours
- Completion of a degree within a maximum number of credit hours

To view the complete SAP (Satisfactory Academic Progress) Policy click here (https://fia.uncg.edu/forms/2018-19/1819SAPpolicy.pdf) to view the document.

Student Rights, Responsibilities, and Registration

Rights
Students are entitled to privacy, expression, nondiscrimination, non-harassment, and the opportunity to appeal, petition, or contest university actions pursuant to the procedures referenced below.

Responsibilities
The student is responsible for:

- observing all university and Graduate School policies, regulations, procedures and academic requirements, including specific requirements of the program; and
- maintaining a high standard of academic integrity.

Academic Integrity Policy
Academic integrity is founded upon and encompasses the following five values: honesty, trust, fairness, respect, and responsibility. First responsibility for academic integrity lies with individual students and faculty members of the UNC Greensboro community. A violation of academic integrity is an act harmful to all other students, faculty, and the entire community. Specific information on the Academic Integrity Policy and obligations of faculty and students may be found here (https://osrr.uncg.edu/academic-integrity/).

Appeals for Academic Decisions
Qualified faculty members are expected to exercise objective judgment in making academic decisions. Under certain circumstances specified below, students may appeal these decisions. Students must submit appeals in writing and include all documented evidence. Students will receive written determinations regarding their appeals.

Students may appeal to the Graduate School under at least one of the following circumstances:

- The academic decision was applied in a manner inconsistent with University policy.
- The academic decision was arrived at arbitrarily or the policy was unequally applied.
- There was a flaw in the student’s right of due process.

The procedure specified below is to be used to resolve grievances against decisions or actions that were made by employees or agents of UNCG that would adversely affect the student’s progress toward a graduate degree.
Graduate Student Grievance Procedures (Pending Graduate Council Approval)

Graduate students may use this procedure to file a grievance against an adverse decision made by a University faculty member or program director ("academic officer(s)") that violates University policy or applicable laws.

What May Be Grieved

1. Decisions made by academic officers that:
   a. Adversely affect the graduate student; and,
   b. Involve a misapplication or misinterpretation of University policies, regulations, rules, or a violation of state or federal law.
2. Graduate Student Final Course Grades

What Is Not Covered By This Procedure

Adverse Decisions

Informal Grievance Procedure

Before submitting a formal grievance, the graduate student shall first attempt to informally resolve the issue with the academic officer responsible for the action or decision being grieved. The student shall discuss the problem in a meeting with the academic officer within 15 business days after receiving notice of the adverse action. If informal resolution is unsatisfactory, the student may proceed by filing a written formal grievance with their Graduate Program Director ("GPD").

Formal Grievance Procedure

1. The graduate student must submit a written appeal (email allowed) addressed to their GPD within thirty (30) business days following the informal discussion. The Graduate Program Director or the Unit Dean may extend the time limit for good cause shown if the grievant makes a request for extension of time within the thirty (30) day period. If the grievance is against the GPD, then the student should submit the formal grievance to their Academic Unit Dean ("Unit Dean"). Filing occurs when the written grievance is submitted to the GPD or the Unit Dean.
2. This communication must clearly set forth, in reasonable detail:
   1) what decision is being challenged, 2) which academic officer made the decision, 3) how the policy, regulation, rule, or law was misapplied or misinterpreted, and 4) the remedy sought. The graduate student may attach additional documentation or evidence if necessary.
3. The GPD or Unit Dean shall review the submission, consult with the academic officer involved, and provide a written decision by email to the graduate student within 30 business days after the filing date. An additional extension may be granted for good cause shown, and the need for an extension and the anticipated decision date will be communicated to the graduate student by email.
4. If the student is not satisfied with the outcome at this level, the student may submit a written notice of appeal (email allowed) to the Dean of the Graduate School within fifteen (15) business days of receiving the written decision.

Graduate School Appeals

The Dean of the Graduate School will convene the Graduate Appeals Committee after receiving timely written notice of appeal. The Appeals Committee is comprised of members of the Graduate Council who are assigned to this standing committee. The Appeals Committee must review all written documentation in the case, and it must provide the graduate student grievant with an opportunity to appear in person to present testimony and evidence. The student appearing before the Appeals Committee may bring one support person who is not allowed to address the committee. The Unit Dean or their designee shall be invited to the hearing to observe but will not participate.

Appeal Committee Procedure

1. The Appeals Committee Chair may provide a brief overview of the appeal at the beginning of the hearing. This statement shall be limited to an objective summary of the issues present in the appeal.
2. The student will state their case. There will be no interruptions, but committee members may ask clarifying questions by asking permission from the Appeals Committee Chair.
3. The academic officer whose decision is being appealed will state their case. There will be no interruptions, but Committee members may ask clarifying questions by asking permission from the Appeals Committee Chair.
4. Committee members may also ask questions of any other involved parties present.
5. The Student will to respond and ask questions of the academic officer and other involved parties who previously provided information
6. The Appeals Committee will have the opportunity to ask final questions of both the student and the academic officer.
7. The members of the Appeals Committee will deliberate in private.
8. The Appeals Committee Chair will send a written report within fifteen (15) business days to the Unit Dean or designee and the Dean of the Graduate School. This report must describe the facts of the appeal as determined by the Appeals Committee after hearing the evidence and the Committee's recommendation for the action to be taken.
9. The Unit Dean or designee and the Dean of the Graduate School shall jointly review the report and consult with the Provost. Then, the Dean of the Graduate School will make the final University decision and provide copies of this decision in writing to all involved parties within 20 business days of receiving the Appeals Committee report. This decision is final.

Grade Grievances

Applicable Circumstances

1. Graduate students may appeal a final course grade within 30 business days of the posting date, if:
a. The grade assignment is detrimental to the student; and,
b. One of the following is true:
   i. The grade was calculated in a matter inconsistent with University policy, the syllabus, or changes to the syllabus; or,
   ii. There was an arithmetic or clerical error; or,
   iii. The instructor failed to assign or remove an Incomplete ("I"), or to initiate a grade change as agreed upon with the student; or,
   iv. A No Report ("NR") grade caused a student to be placed on probation or dismissed from the graduate school.

2. This grievance procedure does not apply to test grades, partial grades, or grade changes resulting from Academic Integrity violations that are administered by the Office of Student Rights and Responsibilities.

Grade Grievance Procedure

1. If an attempt to obtain an informal resolution is unsatisfactory, then the student may submit a written complaint or email to the instructor who assigned the grade, with a copy to the department head for review.
2. If the instructor is no longer employed at UNCG, the department head assumes the role of the instructor.
3. The written complaint must identify the basis of the grade appeal and must state in detail the applicable criteria for the appeal and why the student believes that the grade should be changed.
4. If the request is approved by the instructor and endorsed by the department head, then the instructor will change the final course grade.
5. If the appeal is not endorsed by the instructor and department head, then the student may forward the written complaint to the Unit Dean for further review, within fifteen (15) business days.
6. The Unit Dean reviews the written complaint and informs the instructor of the student's appeal. The instructor may file a written response within ten (10) business days of receiving notice from the Unit Dean. Within a reasonable time, normally no longer than fifteen (15) business days, the Unit Dean sends a written response to the student, with a copy to the department head and instructor. The Unit Dean's response shall include a recommendation of whether or not the instructor should re-evaluate the student's work in the course(s).
7. The instructor determines if a grade change is warranted, and if so, will submit a grade change.
8. If this outcome is not satisfactory to the student, then the student may file an appeal with the Graduate School by submitting the same written complaint to the Dean of the Graduate School within 15 business days of receiving notice of the unsatisfactory outcome. No additional documents may be submitted.
9. This appeal is governed by the steps listed in Section above for Graduate School Appeals.

Student/Advisor Responsibilities and Plan of Study

The student is responsible for continuing in satisfactory academic standing and for meeting all degree requirements and deadlines for graduation or licensure. In addition to graduate student policies detailed in the Catalog, graduate students are expected to comply with the general regulations of the University as set forth in the UNCG Policies for Students available online here (https://sa.uncg.edu/handbook/policies/).

Academic Advisory Committee

The academic program's Graduate Program Director (GPD) or its Department Head assigns each graduate student an initial academic advisor(s). This initial advisor (documented in Banner) could be the GPD or any other member of the Graduate Faculty. If the Department appoints Academic Advisory Committees, the appointment form must be submitted no later than the close of the registration window for the second semester of study, before the completion of eighteen (18) hours.

Plan of Study

The student is expected to develop an initial Plan of Study (POS) in consultation with the assigned advisor(s). This POS is a guiding document that interprets curriculum requirements and arranges an orderly sequence of activities for the student's progress toward the anticipated degree. It is evaluated and approved by the Graduate Program Director and then filed with the Graduate School. This must be accomplished no later than the close of the registration window for the second semester of study, prior to the completion of eighteen (18) hours for doctoral and MFA students and before completion of 50% of course work for master's students. Upon formation of the Thesis or Dissertation committee, the chair of that committee becomes the student's advisor, documented in Banner. Students are advised to consult with their advisors frequently and to request changes to the POS as needed. Each time a POS is changed, the new POS must be filed with the Graduate School.

Course Credit

Transfer Credit (Graduate)

In some instances, work done in other institutions may be counted toward the degree. Hours only, not grades, may be transferred from other institutions. Please see the Summary of Master's Requirements and Summary of Doctoral Requirements in Section III for transfer credit information specific to the type of graduate program.

If transfer credit is to be considered, the following stipulations must be present:

- All credit offered in transfer must have been taken at an accredited graduate school and not have been used to complete the requirements for a degree.
- All credit to be transferred must fall within the time limit for the degree/certificate.
- The student must have earned at least a grade of B (3.0) (or the equivalent) on all transfer credit.
- The credit must be recorded on an official transcript placed on file with the Graduate School.
- All credit must be approved both by the Graduate Program Director in the student’s academic program and by the Dean of the Graduate School.
- Transfer credit must be necessary to meet specific degree requirements.

Quarter-hours do not transfer as semester hours. A fraction of an hour of credit will not be transferred. See equivalent samples below:

- 2 quarter hours transfer as 1 semester hour.
- 3-4 quarter hours transfer as 2 semester hours.
- 5 quarter hours transfer as 3 semester hours.
- 6-7 quarter hours transfer as 4 semester hours.
• 8 quarter hours transfer as 5 semester hours.
• 9-10 quarter hours transfer as 6 semester hours.

Upon recommendation by the student’s academic program, the Graduate School reviews requests for courses to be transferred for credit toward a graduate degree. Such work must represent graduate-level courses relevant to the degree being sought, with course content and level of instruction resulting in student competencies at least equivalent to those of currently enrolled students as determined by the academic program. Students seeking transfer credit should be prepared to submit a syllabus to their academic program.

Undergraduate Courses
Courses approved for undergraduate credit only (100-499), including required prerequisite courses, will not be counted toward academic program requirements, do not count toward full-time enrollment status, do not appear on the graduate transcript, and will not factor into the student’s GPA. These courses are ineligible for financial aid.

Auditing Courses
To audit a course, students must obtain written permission of the course instructor and the academic program chair. Students can request this permission only after the end of the official registration period.

Retroactive academic credit for an audited course is not permitted. If a student requires credit for a previously audited course, the student must enroll for the course and fulfill all assignment to receive a course grade and academic credit.

Registration Status
The Graduate School serves as the Dean’s Office authorization for University Registrar forms.

Full-Time Registration
To be considered full-time, students must enroll in a minimum of nine (9) credit-earning graduate credit hours. There are two instances described below when a student enrolled for three (3) credits is awarded full-time status.

Master’s and MFA - 3 Credits as Full-Time Status
After completing all required course work, a master’s student may be considered full-time while enrolled in a 3-credit hour thesis course (699), DCE 697 or 698, or THE 699. Master’s students may maintain full-time status with 3 credits of 699 for two terms.

Doctoral Candidacy - 3 Credits as Full-Time Status
After entering candidacy status, a doctoral student is considered full-time while enrolled in 3 credits of dissertation (799). Doctoral candidates may maintain full-time status with 3 credits of dissertation enrollment until completion of the number of dissertation credit hours specified by their programs in the University Catalog.

Extension Status
Students who have already enrolled in the maximum number of 699/799 hours but who have not yet completed the requirements for thesis/dissertation enter extension status. To maintain continuous enrollment, extension students are required to enroll in and pay for tuition and fees for at least one extension hour.

The following applies to students in extension status:
• Students must be enrolled in 9 credit-hours to be considered full-time.
• The Graduate School will no longer contribute towards the UNCG sponsored health insurance.

• Students may purchase this insurance if they are enrolled in at least one extension hour.
• Students in extension status lose eligibility for all state-funded support but may be supported by external funds. Contact the Graduate School for more information on this option.

Permission to enroll in extension courses will require verification by the committee chair that the student is making satisfactory progress. These credit hours will not count toward the degree, may impact eligibility for federal financial aid support, and may adversely impact loan repayment schedules. Official information may be found by clicking here (https://studentaid.gov/manage-loans/lower-payments/get-temporary-relief/).

Continuous Enrollment
Students pursuing a graduate degree or certificate program are required to be enrolled from the time of matriculation through degree/certificate completion. Continuous enrollment is defined as completing a minimum of one (1) hour of graduate credit (including 699/799/801/802/803) every fall and spring semester, or one semester during the academic year in combination with a summer session. This course work must be approved for the student’s program of study and selected in consultation with the departmental Graduate Program Director and/or advisor or committee chair. State funds may not be applied to support tuition for any course that is not documented on the student’s Plan of Study.

All graduate students must be enrolled for at least 1 credit during the semester in which they are scheduled to receive their degrees/certificates. This may include extension courses (801/802/803).

Any student who breaks continuous enrollment must apply for re-admission to the university. If re-admitted, the student will be assigned to the catalog requirements for the program in effect for the re-admit term.

Visa Requirement for International Students
Failure to maintain continuous and accurately reported full-time registration can have severe consequences, including, but not limited to, loss of visa status and deportation. Each term, the academic department must supply a letter to the International Programs Center verifying that the student remains in good standing and is making satisfactory progress toward completion of the degree. Official information on maintaining visa status is located here (https://international.uncg.edu/international-students-and-scholars/degree-seeking-students/maintaining-your-status/) in the International Programs Center.

Please note: Certain restriction may apply on distance and online course enrollments. International students should consult with their graduate program with questions about maintaining full-time enrollment.

Registration while on Assistantship or Fellowships
Each student holding a service (assistantship) or non-service (fellowship) appointment must be registered full-time to hold that position during the fall and spring semesters. Faculty members who wish to request an exception to this requirement may do so by filling out the Reduced Course Load Request Form (https://grs.uncg.edu/faculty/). International students must also contact the International Program Center if they request a reduced course load. (See Section II: Financial and Employment Information and Regulations for more information.)

Dissertation Registration
Students may not register for dissertation (799) until they have achieved candidacy. Programs with documented external licensing or accreditation requirements that impact the normal progression to candidacy may be exempted from this requirement.
Milestone Exam Registration
Students must be registered in the semester any milestone exams are taken and graded; this is normally a fall or spring semester. A student who registered full-time in the immediately preceding spring and upcoming fall terms may take comprehensive exams during the summer without registering for summer session. Students who are eligible to take exams over the summer should not expect to receive results of the exam until early in the fall semester.

Changes to Registration
The Graduate School serves as the Dean’s Office authorization for University Registrar forms.

Adding Courses
Courses may be added only during the official add period. Please refer to the University Registrar’s Calendar for official add period dates for the standard semester and summer terms.

In rare cases, the Graduate School may authorize a student to enroll in a course after the census date in a given term. Effective dates are not altered. For courses scheduled outside the standard term dates, proportional deadlines are similarly applied.

Dropping Courses
Drop deadlines for the standard semester and summer terms are given in the University Registrar’s Academic Calendar (https://reg.uncg.edu/calendars/). To drop a course outside the normal drop period, the student must complete and obtain the required signatures on the Registration Drop/Add Form (http://www.uncg.edu/reg/Forms/DropAddForm.pdf), available through the student’s academic program or the Graduate School. For courses scheduled outside the standard term dates, proportional deadlines are similarly applied.

No regularly scheduled course may be dropped in the last two weeks of classes in a fall or spring semester or during the last week of a summer session. For courses scheduled outside the standard term dates, proportional deadlines are similarly applied.

Important note: Dropping a course after the census date may have financial and academic consequences. Please refer to Financial Consequences of Academic Actions in Section II.

A student registered for and wishing to drop an interinstitutional course follows the same procedures and deadlines as required for dropping courses at UNCG.

Official withdrawal from the University is required if a student wishes to drop all courses after census date.

Independent Study Registration
Independent study is reserved for degree-seeking students. Non-degree seeking and certificate students are not eligible to register for courses considered to be Directed Student Learning, (independent work with an instructor). No student may register for an Independent Directed Studies course as a substitute for existing courses.

Degree-seeking students must have completed several regular courses of graduate work and be in academic good standing to be eligible for the course type IND (independent study). Registration for independent study must have the approval of the instructor, the Department Head, and the Dean of the Graduate School.

Master’s students may register for no more than 3 credit hours of independent study per semester and may count no more than 6 credit hours of independent study toward satisfying the minimum requirements for the master’s degree.

Doctoral, Doctoral Track, and M.F.A. students may count no more than 15 credits of independent study toward degree requirements.

Cross Registration
The Graduate School participates in the three interinstitutional agreements:

- Interinstitutional Registration
- the Greater Greensboro Consortium
- UNC Online

Students taking courses through a cross-registration agreement must meet the standards for participation in the program as set by their home institution, including the transfer credit policies of the Graduate School, and must follow the rules and policies of both campuses. Students must be registered for at least half of their hours at UNC Greensboro the same semester in which they register through either the Interinstitutional or the Consortium agreement. Under Interinstitutional Registration and the Greater Greensboro Consortium, enrollment and payment of tuition and fees take place on the home campus. For UNC Online, students must pay the appropriate tuition and fees to the visited institution.

Courses taken through cross-registration are considered transfer credit and although the course title will appear on the student’s UNC Greensboro transcript, grades are not recorded or calculated into the student’s overall GPA.

Regardless of modality, no cross-registered course may be taken pass/fail (satisfactory/unsatisfactory, etc.), and all courses must earn a specific grade to be eligible for transfer. Please refer to the Graduate Grading section of this Handbook for the policy concerning interinstitutional grading.

Application forms and information are available at the Graduate School and the University Registrar’s Office. The student must fill complete the application form and obtain their Graduate Program Director’s signature certifying the following requirements:

- an equivalent course is not available on this campus,
- the course is appropriate for the student’s degree program, and
- it is a graduate-level course according to the current numbering schemes in the visited institution’s catalog.

Interinstitutional Registration
The Interinstitutional Registration program with North Carolina State University, University of North Carolina at Chapel Hill, University of North Carolina at Charlotte, North Carolina Central University, and Duke University allows degree-seeking graduate students at UNC Greensboro, with the approval of Dean of the Graduate School and their Graduate Program Director, to take courses at these specific campuses. Eligible courses are limited to traditional, campus-based courses. Distance learning, extension, and online courses are not eligible through the interinstitutional agreement.

Greater Greensboro Consortium
Through membership in the Greater Greensboro Consortium (GCC), UNC Greensboro also participates in an open-access agreement with North Carolina Agricultural and Technical State University, High Point University, and Elon University. With permission of their Graduate Program Director
and UNCG’s Dean of the Graduate School, degree-seeking students may register for campus-based courses at Consortium Schools.

**UNC Online Interinstitutional Agreement**
The UNC Online Interinstitutional Agreement allows degree-seeking graduate students at UNC Greensboro to take online courses at the 15 other UNC system schools. This requires approval by the Dean of the Graduate School and their Graduate Program Director. Students must pay the appropriate tuition and fees to the visited institution. Approved requests should be submitted through UNC Online (https://online.northcarolina.edu/).

Note: Courses taken through cross-registration with another institution are considered transfer credits. Grades do not appear on the UNC Greensboro transcript and are not calculated in the GPA.

**Cancellation of Registration**
The University will cancel registration under the following circumstances:

**Failure to Attend**
Students who did not attend or participate in any courses will have their registration cancelled.

* If a student attended or participated in any portion of his/her courses, then Dropping Courses or official Withdrawal from the University processes should be followed. Appropriate justification and approval by the academic program should be included with the cancellation request prior to submission for electronic processing by the Graduate School.

**Academic Ineligibility**
The Graduate School will automatically cancel the registration of those students who become academically ineligible. (See Eligibility to Remain in Graduate School.)

**Nonpayment of Tuition and Fees**
A student's registration will be canceled if they do not pay tuition and fees (or properly arrange for a payment schedule) by the payment deadline given in the University Registrar's Calendar.

**Failure to Submit Immunization Records**
North Carolina law requires immunization records. The Certificate of Immunization (https://shs.uncg.edu/wp-content/uploads/MedicalHistoryForm_Spring2019.pdf) or record of immunization must be filed within 30 days of first registering for classes. All new, transfer, and readmitted students (who have not attended UNCG during the previous year) must submit a completed immunization record to Student Health Services to avoid registration cancellation.

The Annual Immunization Report is done each fall. The statute applies to all students except students residing off-campus and registering for any combination of:

- Off-campus courses
- Evening courses (classes beginning after 5 p.m.)
- Weekend courses
- Enrollment in fewer than five credit-hours in Greensboro Campus courses that meet before 5p.m.

For additional information about the University's Cancellation policies (https://catalog.uncg.edu/academic-regulations-policies/university-policies/), please refer to the Office of the University Registrar.

---

## Graduate Grading

### Permanent Grades

Permanent grades include all grades except NR, IP and I. The distinction between permanent and temporary grades is used to regulate grade changes.

### Grading Scale for Permanent Course Grades

Plus/minus grades are incorporated into the GPA for all graduate level courses according to the following scale:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Grade Points Awarded Per Hour of Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.0</td>
</tr>
<tr>
<td>A-</td>
<td>3.7</td>
</tr>
<tr>
<td>B+</td>
<td>3.3</td>
</tr>
<tr>
<td>B</td>
<td>3.0</td>
</tr>
<tr>
<td>B-</td>
<td>2.7</td>
</tr>
<tr>
<td>C+</td>
<td>2.3</td>
</tr>
<tr>
<td>C</td>
<td>2.0</td>
</tr>
<tr>
<td>F/WF</td>
<td>0.0</td>
</tr>
<tr>
<td>W</td>
<td>0.0</td>
</tr>
<tr>
<td>S/U</td>
<td>0.0</td>
</tr>
</tbody>
</table>

### Grade Point Average (GPA)

The grade point average is determined by dividing the accumulated number of grade points earned by the accumulated number of semester hours undertaken. Hours attempted but not passed must be included in this calculation. Courses graded S/U and courses transferred from another institution (except those courses taken through cross registration) may not be used in determining the UNC Greensboro grade point average.

### S-U Courses (Graduate)

Grades for the following courses are reported as Satisfactory (S) or Unsatisfactory (U):

- Thesis and dissertation courses upon completion (699, 799)
- 800-level extension courses (801, 802, 803)
- Other courses as indicated in the departmental listings

### Temporary Grades

**Not Reported (NR)**
The NR grade is assigned by the Registrar's Office in instances in which the instructor does not report a grade and the semester has officially closed. Failure to submit a grade may cause a student to be placed on academic probation. All NR grades must be removed before final degree clearance.

**Incomplete (I)**
The symbol I indicates inability, for reasons beyond the student's control, to complete course requirements by the end of the term in which the course was offered. The Incomplete may be removed by completion of the deferred requirements within six months from the last day of examinations in the term in which the course was taken. An Incomplete not removed within this time limit automatically becomes an F. A grade of I in any course, including work not required for the student's program, must be removed before graduation. A grade of I cannot be removed with a grade of W.
In Progress (IP)
Extension of thesis, research extension, and extension of dissertation courses may be graded with IP on a limited basis, but faculty advisers are required to provide documentation of the student’s satisfactory progress toward completion of the program. There are other courses that use this grade as well, typically courses that can extend beyond normal semester dates (e.g., an internship, practicum, etc.).

In the case of a thesis, master’s production, or dissertation in progress, a grade of In Progress (IP) will be recorded each semester of registration for credit until successful completion of the thesis, master’s production, or dissertation, when a final grade of Satisfactory (S) will be assigned.

Cross-Institutional Grading
For a cross-institutional course to apply as transfer credit towards a UNCG student’s graduate degree, the cross-institutional course may not be taken pass/fail. Grades earned for courses taken via cross-institutional registration do not factor into a student’s academic eligibility calculation.

Grade Change
Non-temporary course grades are permanent grades. A permanent grade change may be initiated only by the instructor and only in cases of arithmetic or clerical error, and then only with the approval of the department head of the instructor’s academic program. If a student receives a course grade other than incomplete (I), an instructor may not initiate a change of a course grade as a result of reevaluating the quality of the student’s performance or as a result of additional work (whether that work is specified in the syllabus or not) performed by the student. Final approval resides with the Dean of the Graduate School.

Such grade changes must be finalized no later than the last day of classes of the next succeeding fall or spring semester.

Repeating a Course for Credit
Except for independent study or where specific provision is made in the Catalog, no student may repeat for credit a course for which he/she has earned credit. If a student repeats such a course, the grade will be recorded on the transcript, but no additional credit will be allowed toward graduation. A failing grade remains on the student’s academic record permanently.

Graduation and Commencement
GPA Requirement for Graduation
For the completion of graduate programs, the GPA for graduate courses taken since matriculation in the program must be at least 3.0, even if they are not required on the Plan of Study. A higher GPA may be required in the major field at the option of the major department.

In the case of a student who has attempted the minimum number of credit hours for the degree or certificate without achieving the required GPA, the Dean of the Graduate School, upon the recommendation of the department, may permit the student to continue taking courses in an effort to earn the required minimum GPA. If permission is granted, a maximum of 25% of the course work hours required for the program may be added to the plan of study, not to exceed 12 credit hours. The additional credit hours may not be independent study.

Commencement Ceremony
Master’s students completing all degree requirements by the end of the spring semester are encouraged to participate in the May Commencement ceremony. Students completing all degree requirements by the end of the fall semester are encouraged to participate in the December Commencement ceremony. Students completing all degree requirements by the end of the Summer Session may participate in either the following December or May Commencement ceremony by applying before required due dates (see Graduate School calendar) to graduate, paying the graduation fee, and notifying the Graduate School. Degree candidates will not earn degrees nor be graduated from the University until they have completed all degree requirements. Participation in a commencement ceremony does not presume graduation from the University.

Doctoral Hooding Ceremony
Only those doctoral candidates who have successfully defended their dissertation may participate in the Doctoral Hooding Ceremony. Students defending in the spring semester are expected to participate in the May ceremony. Students defending in the fall semester are expected to participate in the December ceremony. Students completing all degree requirements by the end of the Summer Session may participate in either the following December or following May ceremony. Students must apply before required due dates (see Academic Calendars) to graduate, pay the graduation fee, and notify the Graduate School.

Students who plan to defend after the cut-off date for graduation may apply to participate in that semester’s hooding ceremony but will not be listed in the program. These students will be listed in the commencement program during the semester in which they complete all degree requirements. Participation in the hooding ceremony does not presume graduation from the University. Doctoral candidates will not earn degrees nor be graduated from the University until they have completed all degree requirements.

Applying for Graduation
Students may not be admitted to and graduate from the same degree program in the same academic term. However, students who are in academic good standing in a degree program may be admitted to and graduate from a concurrent certificate program in the same academic term.

Students must formally apply for graduation (or to participate in the doctoral hooding ceremony) to the Graduate School by the end of the first week of classes during the term in which they plan to graduate. Degrees are awarded at the end of each semester and the second summer session (i.e., in December, May, and August).

All graduate students must be enrolled for at least one credit during the term in which they are scheduled to receive their degree. This may include extension courses (801, 802, 803). (See the Continuous Enrollment policy under Registration Status in Section I.)

Diplomas and transcripts of students owing money to the University will be withheld until their account is cleared. Students may not be admitted to and graduate from the same degree in the same academic term. However, students who are currently enrolled in a degree-seeking program, may apply to and graduate from a certificate program.

Students who do not apply for graduation before the published deadline for any semester may apply for graduation during the next semester. Students who have applied for graduation but fail to meet the requirements must reapply for graduation by the published deadline for the semester in which they will fulfill the requirements. Degrees are
conferred only after all requirements are completed and the Board of Trustees has taken official action.

**Graduation Fee**
The graduation fee is payable in the Cashier’s and Student Accounts Office. Students who do not graduate in the term for which they originally applied must file a new application but will not be assessed an additional fee. Students should contact the Graduate School regarding status.

**Degree Name Changes**
In the event that the name of a degree changes after a student graduates, graduates will be awarded a degree by UNC Greensboro with the official name and credential of the academic program's degree at the time of graduation and will not be able to change that degree at a later date if officially changed by the University.

**Medical or Personal Issues**

**Leave of Absence**
UNC Greensboro supports a leave of absence policy to assist graduate students who are temporarily unable to continue their programs. The leave of absence may extend for up to one academic year.

Current students who must break continuous enrollment may apply for a leave of absence. Students choosing this option must file a Graduate School Request for a Leave of Absence that states the reason for the requested absence and that they will neither use University resources, nor require faculty communication or interaction during the leave period. If the leave of absence extends beyond one academic year, the student's matriculation is closed, and the student must re-apply for admission to the Graduate School.

International students on F-1 visas must remain continuously enrolled until the thesis, dissertation, capstone project or directed study is completed. International students cannot apply for a leave of absence from the Graduate School. Those international students who wish to apply for a leave of absence are advised to consult with the International Program Center.

It is the student’s responsibility to ensure that the proposed leave is compatible with the regulations of any granting agency from which funding would normally be received during the leave period and that such agencies are informed of the proposed leave. Students on student loan programs should inquire with the Financial Aid Office and/or lender regarding any consequences that such a leave may have on their ability to receive future aid or on their repayment status.

Graduate students on assistantship, who are granted a leave of absence, will have their salary and stipend suspended during the period of their leave. If feasible, the remainder of their appointment will be held for them upon their return to the next term. If a graduate assistant and Graduate Program Director disagree on the leave or its arrangements, students may appeal to the Graduate School. (See Appeals for Academic Decisions under Student Rights, Responsibilities, and Registration in Section I.)

**Preparing the Application for Leave of Absence**
In consultation with the supervising faculty member, the Application for Leave of Absence form is to be completed by the student and signed by both the student and the advisor or supervising faculty member. The application is to be submitted to the Graduate Program Director for review and signature before being forwarded to the Dean of the Graduate School. Whenever possible, application should be made in advance of the anticipated leave or as soon as possible after commencement of the leave.

**Withdrawal from the University or a Course**
Graduate students who must withdraw from the University for any reason may do so by dropping all courses online through UNCGenie until the last day to drop without academic penalty. Course withdrawals that occur after this date are automatically assigned a WF grade, which is calculated as an F (failing) grade.

Students whose registration for all courses is cancelled by the University must seek reactivation or readmission through the Graduate School to return to school in subsequent terms.

**Withdrawal After Drop Deadline Due to Extenuating Circumstances**
Graduate students with appropriate cause as determined by officially documented military deployment, medical, psychological, or unanticipated personal life events, or administrative reasons, may petition the Graduate School for an exemption from the published Withdrawal from a Program or a Course Policy.

The Graduate School shall be responsible for authorizing exemption requests in consultation with the instructor of every course, and with other departments or agencies as needed. If a Course Withdrawal Request After the Drop Deadline is authorized, all requested courses will be indicated on the transcript with a grade of W.

A course abandoned with insufficient reason for withdrawal is assigned the grade of F. In certain cases, faculty may initiate the withdrawal procedure for cause.

If a student withdraws from all courses, the student is considered officially withdrawn from the university.

**Retroactive Withdrawal Policy**
In very rare cases, students who have experienced extenuating circumstances may request to retroactively withdraw from all courses in a term up to one year following the term in which the courses were taken. Students may not request to withdraw from specific courses; the request to withdraw must be for all courses a student enrolled in for the requested withdrawal term. If a Retroactive Withdrawal Request is approved, the student will be withdrawn from all courses in the requested term and receive W grades on their transcript for those courses. A grade of W will not negatively affect GPA or academic standing at the University. In accordance with the Academic Integrity Policy, a request to retroactively withdraw from courses will not be approved for a course(s) in which an academic integrity violation has resulted in a F grade.

Students must initiate the Retroactive Withdrawal Request by contacting the Graduate School.

**Health Insurance Plans**
As stipulated by the UNC Board of Governors, all students enrolled at UNCG are required to have verifiable health insurance coverage. To ensure that this requirement is met, all students will automatically be billed for the Student Health Insurance Plan (SHIP) each semester through their Student Account. Students who have a creditable health insurance plan and do not wish to participate in SHIP must submit their active health insurance information by completing an on-line waiver request through the Student Blue portal prior to the posted deadline each semester. A student who fails to submit a waiver request is required to pay the amount posted to their account.
Criteria for Graduate Students to be Eligible for SHIP
- Enrolled in a degree-seeking program
- Enrolled in one (1) or more credit hours, including extension credit. (Online Program students are not eligible for the plan.)

Conflict of Interest
Student-Faculty Relationship
It is essential to the promotion of high academic standards and maintenance of sound professional practice that the student-faculty relationship be free of real or apparent conflicts of interest based on familial relationships. To this end, a member of the faculty shall not serve in any capacity that will involve evaluating the academic performance of a graduate student when there exists between them a relationship in the first or second degree of affinity or consanguinity or when they otherwise are so closely identified with one another as to suggest a possible conflict of interest.

Students as Faculty
Graduate students should not be assigned to graduate assistantships that generate conflicts of interest. Graduate students may not teach any course at the 500-level or higher.

A student pursuing a graduate degree at this institution may not be appointed as a member of the General Faculty, except under both of the following conditions:
- the appointment begins in the same semester that the degree is awarded.
- the conditions of employment are approved by the Graduate School, the Department Head and Unit Dean, of the program in which the student is pursuing a degree, and the employing academic Department Head and Unit Dean, if appropriate.

Graduate students should not be assigned as an instructional assistant for any course at the 500-level or higher. In these situations, the Graduate Program Director must file the Conflict of Interest Form with the Graduate School for evaluation.

Graduate students normally do not teach other graduate students from the same academic program. However, there are times when a graduate student must enroll in an undergraduate pre-requisite course with another graduate student serving as Instructor of Record. In these situations, the Graduate Program Director must file the Conflict of Interest Form with the Graduate School for evaluation. In such cases, a full-time faculty member must be designated as the graduate student’s teaching supervisor and be responsible for grading the graduate student’s work.

Section II: Financial and Employment Information and Regulations
Tuition and Other Charges
Tuition for Graduate Students
All students must pay tuition and fees according to the schedule printed in the University Registrar’s Calendar unless they qualify for a deferment. Refer to the University Cashier’s Office for current cost of attendance information. Financial aid cannot be used to satisfy balances carried forward from a prior academic year.

Residence Status for Tuition Payment
As a state-supported institution, the tuition rate for legal residents of North Carolina is less than the tuition rate for nonresidents. All students claiming North Carolina residency must file through the North Carolina’s Residency Determination Service (https://ncresidency.cfnc.org/residencyInfo/).

Students classified as in-state pay only the resident tuition rate. Students classified as out-of-state pay the out-of-state differential and the resident tuition.

Information regarding residency requirements is also available on the Residency Determination Service website. A new application for residence status for tuition purposes may need to be submitted with all reapplication or readmission requests.

Fees for Graduate Students
University fees support non-academic services for students. The University works to keep fees competitive with peer institutions and only charges students what is defensible in covering costs associated with the services provided. For a list of required fees for graduate students, see the Cashier’s and Student Accounts Office (https://csh.uncg.edu/). All graduate students are responsible for paying student fees.

Payment methods
The Cashier’s and Student Accounts Office (https://csh.uncg.edu/) details student billing information, payment due dates and methods, payment plans, and fees. Graduate assistants are eligible for the payment plans that are described on the Accounting Services website under Payment Plans (https://csh.uncg.edu/payment-plan-information/).

Late registration service charge
A student has not completed registration until all required steps have been taken, including payment of tuition and fees. Any student failing to complete registration on the published deadline dates will incur a late enrollment charge. See the Registrar’s Registration Guide (https://reg.uncg.edu/registration/) for deadlines.

Past due accounts
Any indebtedness to the University which becomes past due immediately jeopardizes the student’s enrollment, and no such student will be permitted to enroll for an ensuing semester or summer term. Billing fees and/or collection costs may be added to the indebtedness. Further, any student who fails to pay all indebtedness to the University, including collection costs, may not be issued a transcript or diploma. Unresolved debts may be turned over to a collection agency, reported to a credit bureau, and/or deducted from state income tax refunds.

Debts include, but are not limited to, parking violations, library fines, residence hall fees, academic fees, and others. Disputed settlements of University fees, returned checks, EFTs, and credit card payments are determined by the Cashiers Office.

Refunds
Refunds of tuition and fees, and the policies governing them, are described on the Accounting Services Policies and Procedures (https://sys.uncg.edu/policies/accounting-services/#policy-11-1) page, with additional details at the Student Financial Services page.
Doctoral Student Status

Doctoral Students are placed in one of three categories, pre-candidate, candidates, or extension. Graduate School Benefits are different for each status.

Assistantships

The term Graduate Assistant is the umbrella term that encompasses all types of graduate student service appointments.

All assistantships are administered by individual units (departments, colleges, centers, etc.). Any student interested in an appointment as a graduate assistant should make direct contact with the department, college, or unit of interest. Each unit may have deadlines for applying for positions and/or specific requirements for the assistantship.

Students may also consult the Graduate Assistantship Applications listed in UNCG Human Resources Spartan Talent search postings found here (https://spartantalent.uncg.edu/postings/search/).

All policies on graduate teaching assistants adhere to the UNC System policy Guidelines on Training, Monitoring, and Evaluating Graduate Teaching Assistants (https://www.northcarolina.edu/apps/policy/) (400.3.5.1[6]).

Acceptance of an Offer of Financial Support

UNCG is a member of the Council of Graduate Schools and adheres to the following resolution:*  

Acceptance of an offer of financial support* (such as a graduate scholarship, fellowship, traineeship, or assistantship) for the next academic year by a prospective or enrolled graduate student completes an agreement that both student and graduate school expect to honor. In that context, the conditions affecting such offers and their acceptance must be defined carefully and understood by all parties.

Students are under no obligation to respond to offers of financial support prior to April 15# earlier deadlines for acceptance of such offers violate the intent of this Resolution. In those instances in which a student accepts an offer before April 15, and subsequently desires to withdraw that acceptance, the student may submit in writing a resignation of the appointment at any time through April 15. However, an acceptance given or left in force after April 15 commits the student not to accept another offer without first obtaining a written release from the institution to which a commitment has been made. Similarly, an offer by an institution after April 15 is conditional on presentation by the student of the written release from any previously accepted offer. It is further agreed by the institutions and organizations subscribing to the above Resolution that a copy of this Resolution or a link to the URL should accompany every scholarship, fellowship, traineeship, and assistantship offer.

~ Council of Graduate Schools, Resolution Regarding Graduate Scholars, Fellows, Trainees and Assistants. Renewed October 2014.*

* This resolution applies to offers of financial support only, not offers of admission.

Eligibility for Graduate Assistantships

UNCG Greensboro recognizes that Graduate Assistants are students first; Graduate Assistants have remunerated responsibilities to the institution, but those duties should support the educational aspirations of the student’s academic program.

To qualify for a graduate assistantship, students must be fully admitted and enrolled full-time in a graduate degree program. On rare occasions, an international student who is conditionally admitted may receive an assistantship if enrolled in the SOE Global Pathway (https://soeglobalpathway.uncg.edu/academics/) and they are close to meeting the UNCG proficiency standard. Departments must seek approval from the Dean of the Graduate School prior to making such an award.

Students who are employed in full-time positions either inside or outside the University are not eligible for assistantships.

The primary objective for graduate assistants is to pursue their individual course of study. However, these students are also employed by the University to teach, conduct research, or assist with administrative duties. Graduate assistantships are mutually beneficial to both students and the University. Assignments should be directly related to the student’s field of study or provide the opportunity to develop transferable, professional skills.

Graduate Student Assistantships benefit the student by providing:

• financial assistance to graduate students while they pursue their degree
• teaching and research experience for graduate students
• training in high impact practices in pedagogy
• opportunities to develop professional skills

Graduate Student Assistantships benefit the university by providing:

• instruction for critical teaching needs
• research support for our research active faculty
• administrative support for many areas of the university in support of our mission

Regardless of the source of funding, the responsibility for administering all graduate student financial support resides in the Graduate School in the office of the Dean of the Graduate School. The Graduate School closely monitors the state dollars budgeted as tuition support. Units are solely responsible for supplying stipend funds. Units may also provide additional tuition support to that allocated by the Graduate School or may supplement the Graduate School’s contribution towards student eligibility for health insurance support.

Open Graduate Assistantships are expected to be used to recruit new students to UNCG. In the case of a documented retention issue, or an identified personnel need, please contact the Graduate School.

Types of Appointments

The term Graduate Assistant is the umbrella term that encompasses all types of graduate student appointments. The following titles are used for graduate students at UNCG to help identify those students with duties that require higher levels of experience for the position held. (SACSCOC) Graduate Assistants who serve in multiple capacities should be given the title representing the preponderance of the assigned work. In all cases, a student who is serving as an Instructor of Record must be assigned as a Graduate Teaching Associate (GTA).

Graduate Teaching Associate

The Graduate Teaching Associate (GTA) is a graduate student, enrolled in accordance with their plan of study, who serves as Instructor of Record for an undergraduate course in the discipline. The Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) requires that all Graduate Instructors of Record (GTA) have *earned at least 18
graduate semester hours in their teaching discipline, be under the direct supervision of a faculty member experienced in the teaching discipline, receive regular in-service training and be evaluated regularly. This student has full responsibility for a course, including leading the class and assigning grades. Associates may also lead discussion sections, grade papers and exams, or supervise laboratory sections. Graduate Teaching Associates may NOT teach graduate-level courses.

Graduate Instructional Assistant
The Graduate Instructional Assistant (GIA) is a graduate student, enrolled in accordance with their plan of study, who may assist with grading and other administrative responsibilities related to a course, but they are not responsible for final grades. GIAs may be listed in the schedule for labs, recitations, tutorials, etc. that are linked to a course with a credentialed Instructor of Record. These courses are designated with an R or an L after the course number and are linked to the Lecture course taught by the faculty member. This may include lab assistance and set-up, serving as a lab supervisor, meeting students in office hours or group settings to provide tutorial assistance, lead recitation sections, or other duties, but does not deliver new course content. GIAs serve under the direct supervision of the faculty member who is instructor of record and a member of the graduate faculty, participates in pre-service training, and receives regular in-service training as well as planned, periodic evaluations.

Graduate Research Assistant
The Graduate Research Assistant (GRA) is a graduate student, enrolled in accordance with their plan of study and assigned to work in a faculty member's lab or provide fundamental support for a faculty member's research. The supervising faculty member may or may not be the student's main advisor. Duties of research assistants vary by discipline and lab but include all tasks needed to pursue research in a given area, such as: data collection, entry, and analysis; reviewing the literature and other library work; writing reports; copying, filing, and collating; organizing and/or cleaning the lab or office.

Graduate Clinical Assistant
The Graduate Clinical Assistant (GCA) is a graduate student, enrolled in accordance with their plan of study and engaged in clinical teaching, research, or clinical practice under the supervision of or in collaboration with a member of the graduate faculty. These students may be assigned case-loads, group counseling, crisis intervention, outreach programming, personality assessments, maintaining clinical records, or other clinical duties as assigned.

Graduate Office Assistant
The Graduate Office Assistant (GOA) is the title given to graduate assistants when there are no expectations of classroom teaching or grading. This individual may staff an open laboratory, studio, or workshop, where students complete assignments or work on projects; provide non-graded, individual instruction or tutoring; or help faculty prepare and manage classroom materials. The office assistant may also perform academic duties such as assisting in non-central roles of faculty research. An office assistant may also be assigned to a wide variety of other responsibilities that are not related to instructional or research processes but support the mission of the University. Graduate students who have appointments in non-academic units are always classified as office assistants.

The Graduate School reserves the right to withdraw an assistantship appointment at any time because of failure to meet basic eligibility requirements, including maintaining adequate academic performance (3.0 GPA) and satisfactory progress toward degree, or for violation of University policies. Units may also withdraw an assistantship based on failure to follow guidelines or for substandard performance in assistantship duties.

Graduate Assistant Training
Hundreds of graduate students serve as teaching or lab assistants or graders each semester, supporting the mission of excellent undergraduate education at UNCG. To ensure high-quality experiences for undergraduates as well as our new teaching associates and instructional assistants, the Graduate School requires each student appointed as grader, lab assistant, instructional assistant, clinical assistant, or graduate instructor of record to attend Graduate Assistantship Training. This comprises a series of online tutorials to be completed over the summer and a full-day workshop on the Monday the semester opens. These are appointments as GTA, GIA, and GCA. If a GRA is working with undergraduate students in any capacity, they are required to take the online training.

Training for newly assigned GTAs and GIAs occurs on the Monday before classes begin each fall. Programs may require additional teaching assistant training that is more specific to the discipline. The Graduate School maintains an active roster of all students who have successfully completed Assistantship Training.

Credentialing Process for Graduate Teaching Associates
SACSCOC requires that Instructors of Record be credentialed by the course. The GPD must file the initial credentialing form no later than the start of the semester before a Graduate Teaching Associate may be added to the schedule of courses. Any time a Graduate Teaching Associate receives a new course assignment, the GPD must credential that student for the new assignment. Departments are expected to maintain accurate records documenting the SACSCOC mandated faculty supervision and observations. Graduate Instructional Assistants do not need to be credentialed, but they must attend mandatory TA training. To credential a Graduate Teaching Associate, click http://go.uncg.edu/gta-credentialing/.

Appointment Process
All appointments for assistantships must be processed at least annually through the Graduate School. Selection of assistantship recipients, notification of the appointment, duration, and the stipend amount are the responsibilities of the department or unit making the offer. The appointing unit must use the approved graduate assistantship hiring proposal in Spartan Talent. The hiring proposal must include a clear description of the expectations of the assistantship, the anticipated beginning and ending dates (not more than 12 months per appointment letter), stipend amount, average hours of service per week, the work schedule (where appropriate), and the conditions for reappointment, if any.

In addition, the graduate assistant must be apprised of the financial penalties related to academic fees that may be incurred if the assistantship starts after the beginning of the semester or is terminated before the end of the semester or session. Units making the appointment may include an attachment to the standard hiring proposal where it is necessary to specify duties and other requirements and terms of
the appointment but may not alter the language of the standard hiring proposal.

Where students are to be continued (reappointed) for the next fiscal/academic year, each contract should be revised to reflect expectations for the coming year starting each July 1 (or in the case of appointments of less than 12 months, the start of the contract).

Specifying duties

Work assignments for students should be clear and specific and should reflect a relationship to the student’s academic program. Duties to be accomplished by any graduate assistant must be agreed upon in writing by the student and the faculty advisor (or supervisor).

At no time may a graduate assistant receive academic credit for the work assigned for the assistantship. Supervisors should make a clear distinction between the work to be performed for the assistantship and the work being performed toward completing the degree. For example, it would be unusual for time spent completing class assignments to be part of the duties of an assistantship. Hours spent on thesis or dissertation research would not routinely be considered part of assistantship duties unless the research and the assistantship are part of an externally funded research project and that research directly supports the work of the project.

Where duties require students to work outside the hours typically expected according to the appropriate University calendar (e.g., nights, weekends, holidays), the appointment letter should specifically describe these expectations.

Maximum work hours

A typical graduate assistantship will require an average of 15–20 hours of service per week and this must be clearly described in the appointment letter. Projected hours per week should be in line with the stipend.

To remain in compliance with the Fair Labor Standards Act (FLSA), the Graduate School recommends that students should not normally conduct service work (research or teaching assistantships) more than 20 hours per week. This recommendation enables them to work on their own studies and research for at least the remaining 20-hours per work week. Requests for hours above 20 require approval from the Dean of the Graduate School. In no case will students be permitted to conduct service work on campus for pay more than 29 hours per week.

Graduate Program Directors in each graduate program are best informed to make these service assignments on an individual basis and should be responsible for monitoring that service expectations do not impede any student’s significant progress toward their degree.

A student may have multiple graduate assistantships or hourly appointments by the University; however, it is the responsibility of the secondary employer to receive permission of the primary employer and the Graduate School prior to assignment of any additional work, and to ensure that the maximum work load of 29 hours per week (20 hours per week for F-1 visa holders) is not exceeded.

Graduate assistants are not permitted to accept off-campus employment without permission from the Graduate Program Director and Dean of the Graduate School.

Graduate Assistants requesting to work more than 20 hours per week must fill-out the Exemption to 20-hours Requirement form.

Work calendar, University holidays, and leave

Graduate assistants are expected to develop a plan with the department of employment in which they will meet the service obligation to which they have agreed. As with all professional employees, graduate students are expected to communicate with their employer in a timely manner if absences occur or if they are unable to fulfill their responsibilities.

Graduate assistants will be expected to work their average hours during the typical nine-month Academic Calendar, including during the exam period. Graduate assistants holding nine-month appointments are entitled to the official University holidays and/or breaks accorded nine-month faculty. Graduate assistants with 12-month appointments are entitled to the official University holidays accorded to 12-month administrative staff.

Graduate assistants are not required to work during the following circumstances:

- Fall Break, Spring Break and the holiday break between fall and spring semesters
- State holidays such as Thanksgiving (Thursday and Friday), Memorial Day, 4th of July, Martin Luther King, Jr. Day, etc.
- When the university is officially closed for emergencies

Any expected deviation from the typical calendar must be specified in the offer (e.g., being present to feed lab animals during holidays, working on weekends or at night, etc.) Graduate assistants do not accrue leave. They are expected to work typical hours per week according to the calendar specified by their program.

Leave without pay

Graduate assistants may request up to four weeks of leave without pay per semester and one week of leave without pay per summer session for illness of a close family member, death in the immediate family, or personal illness or hardship. If leave without pay is not approved by the supervisor of the graduate assistantship, the graduate assistant may petition the Dean of the Graduate School for approval.

Parental leave

A graduate assistant is eligible for up to six weeks of parental leave. The request for parental leave must be made to the department at least one month in advance, with notification provided by the department chair to the Dean of the Graduate School. The Graduate School encourages the department and student to work together to enable the student to maintain enrollment and employment status during this time. The Graduate School can help explore options on an individual basis.

Stipends

At no time may a graduate assistant be paid less than the North Carolina Minimum Wage. The Graduate School does not currently regulate or cap assistantships as long as they exceed the minimum threshold. We expect that stipends should be commensurate with market, experience, and skills, and should be equitable with other stipends within the department that involve similar responsibilities.

Payroll, I-9, and First Day of Work

Graduate assistantships typically start at the opening of the semester, usually a week before classes begin. However, there may be good reasons why an assistantship should start before the semester begins, such as to provide preparation time for teaching a class, to provide training, to accommodate the timeline of a research project, to address administrative tasks that need to be completed prior to the start of the
semester, etc. Appointments for new fall semester assistantships may therefore start as early as July 1. Regardless of start date, a student may neither begin a work assignment, nor be added to payroll unless an I-9 is on file.

Continuing graduate students enrolled and employed in the spring, who plan to continue their education in the fall, can remain in a student worker status during the summer, employed as either a graduate assistant or graduate hourly.

Important Note: The start of the fall semester (August Payroll) is the busiest time of the year to process payroll. Students assigned a start date and the student produces the mandatory I-9 prior to August 5 of any given year, that graduate assistant will not receive a paycheck until the end of September.

A new incoming graduate student may be hired as a temporary employee student prior to July 1. On July 1, that student will convert to Graduate Assistant status.

Fees as a graduate assistant
A student on an assistantship must pay fees for graduate students as listed on the Cashier’s Webpage.

Student Responsibilities to Maintain a Graduate Assistantship
Minimum enrollment
To hold a graduate assistantship, a student must maintain full-time status. (Faculty advisors may request an exception to this policy by clicking here (https://docs.google.com/forms/d/1EWexZtoWa0m2FLkaRujgxuhYb8J4Gh-twLud8Xf0wAo/edit/).) Students on assistantship are not required to enroll in summer courses.

- Undergraduate courses required by the program of study will not be considered to satisfy this requirement.
- The Graduate School reserves the right to disallow a student who is not enrolled full-time to receive an assistantship.
- Summer school is not supported by state appropriations; therefore, no tuition support is available for summer enrollment, nor are students expected to enroll.

Performance and good standing
To remain eligible to continue receiving assistantship support, students must be in compliance with all policies contained in the Graduate School Policies & Procedures section of the Catalog and policies from the department/program awarding the assistantship.

- Students must maintain minimum enrollment levels, maintain at least a 3.0 GPA, make satisfactory progress toward the degree, perform at a high level in the assistantship duties, and follow all other expectations of conduct appropriate to a graduate student.
- Failure to comply with these expectations can result in loss of support and other sanctions outlined in the Catalog. Conduct, ethical, and integrity violations can lead to immediate termination of the assistantship as well as other sanctions outlined in the Catalog.

Health Insurance Contribution
As determined by the UNC Board of Governors, all students enrolled at UNCG are required to have verifiable health insurance coverage. Students who have private health insurance should visit Student Blue (https://shs.uncg.edu/student-insurance/) for information on opting out of the UNCG Plan. Graduate Assistants who receive the minimum stipends listed below AND are receiving full tuition support are eligible for a Graduate School contribution towards their premium if they have elected NC Student Blue.

- The amount available fluctuates each year.
- Minerva Scholars are automatically eligible for a minimum 75% contribution towards their premium. The remaining funds are then applied equally to all eligible Graduate Assistants.

Minimum Stipend Levels to Trigger Health Insurance Support
- $6,000 per year for Master’s students
- $8,000 per year for MFA students
- $9,700 per year for Doctoral students

Renewal of Assistantships
Although programs try to support graduate students through the average length of program, graduate assistants have no right to continuing support beyond the term of a current appointment. Renewal of an assistantship can only occur where funds are available, and where performance during the prior appointment has been reviewed and found to be acceptable.

When graduate assistants are not performing within acceptable standards, we encourage supervisors to communicate feedback to students in writing early and often during the appointment.

Because graduate students often rely upon support from assistantships, it is ideal to communicate intent to renew or to not renew an assistantship as early as is practical.

International Student Employment
International graduate students are required to hold proper immigration status before any assistantship can be paid or attending benefits ensue. Special employment regulations for international students are governed by the Code of Federal Regulations and the Department of Homeland Security/U.S. Citizenship and Immigration Services (USCIS). To ensure compliance with the Code of Federal Regulations, detailed information about international student employment and procedures for applying are available in the International Programs Center (https://international.uncg.edu/).

Speaking Proficiency for International Graduate Teaching Associates
UNCG complies with North Carolina System requirements to assure that all instructional activities are conducted by individuals possessing appropriate proficiency in written and oral use of the English language. Instructional activities include lectures, recitation or discussion sessions, and laboratories. The individuals to be certified include graduate students for whom English is not the first language. (See English Proficiency under International Applicants in Section I.)

Social Security Card for International Students
Every student with an F student visa or M student visa who is granted employment authorization by the U.S. Citizenship and Immigration Services (https://www.uscis.gov/) (USCIS), needs a Social Security Number. For information on how to apply for a Social Security Number, click here (https://studyinthestates.dhs.gov/obtaining-a-social-
security-number/). International Students shall not begin work until they have obtained a Social Security Number and produced this for I-9 verification. Please visit the International Program Center (https://international.uncg.edu/international-students-and-scholars/) for more information.

New international graduate assistants assigned as an instructor of record may not be eligible to work at the start of the semester. The student should notify their supervisor if there is need to cover instructional duties for a short period of time.

**Hourly Off-Campus Employment for International Students**

Permission for off-campus employment must first be requested through the International Programs Center. Off-campus employment generally is unavailable to international students during the first academic year and should not be considered as a means of financial support.

Students with F-1 visas may apply to the USCIS for limited off-campus work authorization after their first year of study.

**Fellowships**

Fellowships are monetary awards that require no service or work from the student. Fellowships may be institutionally awarded (through the Graduate School or one of UNCG’s graduate programs) or they may be externally awarded and brought to UNCG. Fellowships are awarded by government agencies (federal, state, local), private foundations, industries, professional groups, and others. The Graduate School maintains a list of available fellowships on its website that includes information on many prominent external fellowships.

Students do not apply for UNCG Graduate School Fellowships; they are nominated for consideration by faculty. Typically, fellowships are awarded on merit and some require demonstrated financial need.

Unless otherwise stipulated by the grantor and/or donor, holders of fellowships or traineeships are required to maintain full-time status.

Fellowship recipients are eligible for appointment as graduate assistants. For students simultaneously holding fellowships or traineeships and assistantships, the normal department stipend should be provided. The non-service fellowship is in addition to the stipend.

Most UNCG Graduate School Fellowships are for one year only. Departments may request that the total amount of the fellowship be paid out over a specified number of years. Fellowships may be withdrawn at any time for failure to maintain satisfactory academic status or for violating University policies.

Please see the Graduate School Webpage on Fellowships (https://grs.uncg.edu/financial/fellowships/).

**Minerva Scholars**

This is the highest recognition doctoral and MFA students can receive at UNC Greensboro. Minerva Scholars are chosen by the department; there is no application process. The co-curricular program available to Minerva Scholars provides a unique opportunity for students to be involved in their own professional development while building a sense of community among diverse disciplines.

Minerva Scholars can explore and gain a better understanding of the inner workings of an institution of higher education. As part of the professional development aspect of the program, Minerva Scholars further learn and develop a variety of project management skills, advanced critical thinking, and research and writing skills. A variety of cultural opportunities are also be provided for Minerva Scholars.

Minerva Scholars are guaranteed 75% of health insurance coverage provided they select the UNCG graduate student health insurance plan. Minerva Scholars have priority for additional health insurance support if funds become available. Only Minerva Scholars are eligible to apply for a Dissertation Completion Fellowship. Although most Graduate School Fellowships are for one year only, students will retain the Minerva designation throughout their time at UNCG.

**Tax liability**

Tax laws change every year and in unpredictable ways, at both the federal and state/local level. Students receiving any financial aid, including assistantships and fellowships, fee waivers, and other support, should consult a qualified tax liability tax advisor. The Internal Revenue Service offers guidelines for tax responsibility for fellowship and other stipend awards under the topics “Scholarships, Fellowship Grants, Grants, and Tuition Reductions” (for U.S. citizen students) and under the topic “Taxation of Non-Resident Aliens” (for non-U.S. citizen students). The Graduate School is not authorized to provide tax advice.

**Tuition Support**

Requests for tuition remission and in-state tuition awards are initiated by the academic program in which the student is enrolled. Tuition remission and in-state tuition awards are available fall and spring semesters only. No summer awards are made.

Units making GA appointments may, at their discretion, recommend partial tuition support in proportion to the hours worked (e.g., a 10-hour assistantship may be assigned a 50% tuition award; a 15-hour assistantship may be assigned a 75% award, etc.). This must be communicated as part of the hiring proposal and contained in the appointment letter signed by the student.

**Out-of-State Students**

Out-of-State students must be awarded a fellowship or assistantship appointment of at least $2,000 to be eligible for a Tuition Remission Award, which reduces tuition to in-state rates. If awarded, the out-of-state tuition differential will be paid on the student’s behalf for the first year of an assistantship. Students are expected to make a good faith effort to obtain NC residency by the end of the first year. International students on an F1 Visa are exempt from this expectation.

Out-of-State students who are awarded a Tuition Remission Award may also be eligible for an In-State Tuition Award. The combination of these two awards covers all tuition, but students remain responsible for University fees.

Out-of-State students may not be awarded an In-State Tuition Award unless they have already been awarded a Tuition Remission Award.

**In-State students**

In-State students are not required to hold an assistantship or fellowship appointment to be eligible for an In-State Tuition Award. The amount awarded may range from covering the cost of 1 credit hour through full-time. The amount indicated on the hiring proposal is placed on the students account. If a student registers for more credits than the award covers, the student will be billed for the difference. These are non-service awards.
Additional financial policies and procedures can be found on our Financial Information (https://grs.uncg.edu/financial/) website.

Eligibility
Students must meet the following criteria to qualify for tuition remission and/or in-state tuition awards:

1. Students must be degree-seeking and full-time. Certificate students are ineligible.
2. Out-of-State Students enrolled in doctoral, doctoral track, or stand-alone master’s programs must receive at least the state-mandated minimum stipend of $2,000.
3. Students must maintain academic good standing, 3.0 GPA or above.

Important note: Students determined at any point in the semester to no longer meet the eligibility requirements to receive a tuition remission and/or in-state tuition award will have the full amount of any tuition remission and/or in-state tuition award rescinded and are then personally responsible for paying the full cost of tuition for that semester.

Duration of Graduate School Support

- Stand-alone master’s program students should not expect tuition remission and/or in-state tuition awards beyond four semesters.
- MFA students should not expect tuition support beyond the expected number of semesters to completion. Some programs are four semesters, others six semesters.
- Doctoral students (or students in doctoral track sequence programs) should not expect tuition remission and/or in-state tuition awards beyond ten semesters. (Departments with students who complete a stand-alone master’s program and are subsequently admitted to a doctoral program may petition the Graduate School for additional semesters of support.)

Individual programs are permitted to grant additional semesters of tuition support provided Graduate School funding sources are not used. Semesters in which the student does not receive a tuition award from the Graduate School do not count toward the semester limits.

Students who are enrolled in an academic program, do not complete the degree, and later enroll in a different program are only eligible for the maximum semesters of eligibility as noted above during their enrollment at the University.

Financial Consequences of Academic Actions

Termination of Assistantships
Termination of an assistantship is different than non-renewal. Non-renewal of an assistantship refers to a situation in which a student completes an appointment and is not offered another. Termination of an assistantship refers to a situation where an assistantship is ended prior to the end of the appointment. Termination may be initiated by the Department, the Graduate School, or the student. Termination of an assistantship can have significant and permanent consequences for a student and should only be undertaken after clear feedback on deficiencies and attempts to assist the student in meeting expectations.

Financial Liability From Loss of Assistantship
Stipend payments will cease immediately upon termination of an assistantship, regardless of the reason for termination. Any pay received erroneously more than the contracted amount or after termination of the assistantship must be returned to UNC Greensboro.

Students who have received a tuition remission and/or in-state tuition award who resign or are terminated from their University assistantship prior to the end of the semester (for personal, financial, medical, or any other reason) will have the full amount of their tuition remission and/or in-state tuition award rescinded and are then personally responsible for paying the full costs of tuition for that semester. Tuition remission and/or in-state tuition awards are not prorated.

Appeals to the above policy must be directed to the Graduate School, along with a written recommendation from the Dean, Department Head, or Graduate Program Director for the student’s academic program, and a letter of confirmation from Student Health Services if the resignation is for medical reasons.

For international students who are required to have an assistantship to maintain immigration status or students required to maintain an assistantship for other reasons, loss of an assistantship may change the ability to continue studies at UNCG. Loss of an assistantship may also change eligibility for certain forms of financial aid. It is the student’s responsibility to understand these implications and work with appropriate offices where necessary.

Termination by Student
Graduate students who decide to terminate their assistantship appointments should consult with the assistantship supervisors as soon as possible — and if possible, at least two weeks prior to termination — to ensure a smooth transition in hiring a replacement graduate assistant. The notice of termination, prepared by the student, should be both verbal and written. Withdrawal from the University (that is, withdrawing from all classes) will result in the termination of an assistantship. International students should consult with appropriate offices relating to immigration/visa status if considering this option.

Termination for Academic Deficiency
An assistantship may be terminated for academic deficiency if a student drops below the minimum credit hour requirement or fails to meet other academic requirements as described under Academic Good Standing under Eligibility to Remain in Graduate School in Section I. Any student placed on probation will be terminated from their assistantship by the Graduate School. Students may lose their assistantship without being dismissed from the University.

Termination for Failure to Perform Duties
If, in the opinion of the immediate supervisor of the graduate assistant, a student is not carrying out the duties of their assistantship satisfactorily, the supervisor will immediately provide feedback to the student and attempt to resolve the problem. All conversations and feedback will be documented and placed in the student’s written record with a copy provided to the student. If the student’s performance remains unsatisfactory, the student will receive a written warning from the department chair (or designee) delivered through official UNCG email detailing the nature of the problem.

If, after this formal warning, the student fails to improve to reasonable standards, the department chair will give the student a written notice of termination of assistantship. This letter of termination will be sent to the student through official UNCG email and will specify the date of termination and any requirements for vacating the position. At least two weeks should elapse between the written warning and the notice.
of termination. The Dean of the Graduate School will be notified of the termination.

**Termination for Cause**

An assistantship may be terminated without notice for serious violations of UNCG’s community norms and values, including violations of the Academic Integrity Policy. Allegations regarding violations of this nature should be referred to the appropriate disciplinary body. If a student is unable to perform their duties resulting from violations such as these, their assistantship shall be suspended pending completion of due process. A student suspended from their assistantship but found not to not be guilty of the alleged violations shall be reinstated in good standing and reimbursed for lost assistantship revenue.

**Termination Due to Loss of External Funding or Financial Exigency**

A sudden or unexpected loss of funding from either an external funding source or (in very rare cases) a dramatic change to the University budget environment may result in the termination of an assistantship. While the University works diligently to reduce the probability of this outcome, it is possible that unexpected developments could require this step. Unexpected loss of external funding cannot be used to justify termination of assistantships not directly funded by that project.

Should the University receive notification that research funding will be discontinued, the affected graduate students will be notified with as much advance notice as possible. Departments shall make every effort to secure funding to enable affected students to continue throughout the current semester.

**Adding a Course**

Students who have received a tuition remission and/or in-state tuition award that is less than nine (9) credit hours and registers for more than the amount awarded may contact their Graduate Program Director to see if funds are available to cover the additional costs. If funds are not available, the student will be billed and is responsible for paying for the additional credits.

**Dropping a Course**

Students who have received a fellowship, tuition remission, and/or in-state tuition award who drop a course at any point in the semester will be re-evaluated to ensure that they still meet the eligibility requirements to receive financial support.

Students who meet the eligibility requirements and for whom the reduction in credit hours occurs before the census date (generally two weeks after classes begin) may have their financial account adjusted with no penalty. Please refer to the Academic and Financial Policy (https://sys.uncg.edu/policies/accounting-services/#policy-11-1) Regarding Tuition and Drop Dates for further details on the consequences of dropping a course after the census date.

**Withdrawal**

Withdrawal from the University constitutes an immediate termination of support. (See Termination by Student above.)

**Hourly on-campus Employment**

Nonacademic employment opportunities are available on-campus on a first-come, first-considered basis. Once all appropriate requirements are met, applications may be made directly to the hiring source.

**Protections**

Graduate students at UNCG are future colleagues and should be treated with respect befitting that status. Students are entitled to a workplace free from harassment and/or discrimination. If students feel they have been subject to a hostile work environment, harassment, discrimination, abuse, or have any other concern about working and academic conditions, they should contact the Office of Equity, Diversity, and Inclusion (https://diversity-inclusion.uncg.edu/), Office of Human Resources (https://hrs.uncg.edu/), or the Dean of the Graduate School (kjburke@uncg.edu).

It is considered misconduct for individuals to enter into a romantic or sexual relationship with any student for whom they currently serve in an evaluative, directing or supervisory role, or in circumstances where the student is part of a group of students whom they oversee, regardless of whether the relationship is consensual.

**UNCG Policy on Discrimination and Harassment**

UNCG is committed to equal opportunity in education and employment for all persons and will not tolerate any discrimination against or harassment of persons on the basis of race, color, religion, sex, sexual orientation, gender identity, national origin, political affiliation, genetic information, veteran status, disabling condition, or age.

**Section III: Summary of Graduate School Regulations for All Certificates and Degrees**

**Graduate Certificates**

A graduate certificate provides a credential to document the acquisition of skills and knowledge in a narrowly focused subset of a broader field. Certificates may provide a credential in the focus area with as few as nine (9) and as many as twenty-seven (27) credit hours. Certificates may be pursued independently, or degree-seeking students may choose to embed a certificate within their plan of study.

Students may be interested in gaining both a graduate degree and a certificate credential. Students must be admitted to both programs. A matriculated, degree-seeking student who is concurrently pursuing a certificate may apply academic credit to both the certificate and degree programs. The certificate functions as an area of specialization, like a minor. Enrolled students do not have to pay the application fee to pursue a concurrent certificate.

All students must apply to and be accepted by Certificate Programs.

Students who have graduated and then later discover they have fulfilled requirements for a certificate may neither apply for that certificate, nor be awarded it.

Graduate certificates do not automatically qualify for federal financial aid unless the certificate has been approved through the gainful employment requirements.

**Summary of Requirements for Certificates**

- Full admission to a certificate program.
- A plan of study submitted to the Graduate School when applying for graduation.
• Satisfactory completion of all course requirements.
• A minimum GPA of 3.0 in all certificate courses and a minimum overall GPA of 3.0.
• Payment of the graduation fee.

Semester Hours Required for Certificates
In general, certificate programs range between twelve (12) to eighteen (18) semester hours of graduate courses with at least half of this course work at the 600-level or above. No certificate may require fewer than nine (9) hours. A certificate program may petition for a 9-credit program if that number of credits is associated with external demands. No more than three (3) semester hours with a grade of C+ (2.3) or C (2.0) will count towards a certificate.

All courses for a certificate will be letter graded except for internships, practicums, independent projects, or clinical work.

Plan of Study for Certificates
The course work comprising the certificate program must be an integrated and organized sequence of study.

Independent Study for Certificates
Independent Study is not permitted for certificate students.

Transfer Credit for Certificates
Subject to time limits, a maximum of three (3) semester hours of transfer credit will be accepted toward a certificate upon recommendation of the department. (See Transfer Credit under Course Credit in Section I for more information.)

Master’s Degrees and Specialist in Education Degrees
Summary of Requirements for Master’s and Specialist Degrees
• Full admission to a master’s degree program.
• Submission of plan of study to the Graduate School prior to 50% of program completion.
• Satisfactory completion of all course requirements.
• Achievement of the required B (3.0) GPA overall: for courses listed on the plan of study, and, if required by the department, for the major.
• Minimum requirements for the degree: no more than six (6) semester credit hours evaluated as C+ (2.3) and/or C (2.0).
• Completion of all milestone requirements: as required by degree program (foreign language, comprehensive exams, etc.).
• Capstone Experience: at the discretion of individual programs, may include some combination of (a) comprehensive written or oral examination, (b) thesis or research paper, (c) portfolio, (d) creative work, and/or (e) internship experience.
• An application for graduation and the final Plan of Study filed with the Graduate School by the end of the first week of classes of the term in which the degree will be granted.
• Payment of the graduation fee.
• Payment of all accounts owed the University: diplomas and transcripts of students owing money to the University withheld until the account is cleared.

All the requirements above must be met by the deadlines stated in the Academic Calendar. Some special programs may have additional requirements not listed above but explained in materials supplied by the major department or school.

Requirements for Master’s and Specialist Degrees
Plans of Study for Master’s and Specialist Degrees
The Plan of Study sets the specific requirements for the degree as determined by the advisory committee, consistent with the specific program guidelines and Graduate School policy. These credits constitute the core of each student’s graduate degree curriculum.

The Plan of Study must be signed by the student and Graduate Program Director/designee at the earliest practical time following the student’s admission to the Graduate School, but no later than 50% of the program’s completion. The plan must indicate the following:
• All courses the student is expected to complete as a minimum requirement, including courses required for the major, supporting courses, number of elective hours, and courses recommended for transfer.
• Courses required by the department but not counted toward the degree, including prerequisite courses.
• No more than six (6) semester hours of independent study.
• No more than six (6) semester hours of credit evaluated as C+ (2.3) and/or C (2.0) applied toward the minimum hours required for the degree.
• Capstone Experience.

Credit earned for STA 667 Statistical Consulting is not applicable to a graduate plan of study.

Undergraduate courses or courses not required on the POS are not eligible for financial aid or state funding.

Language Requirements
The following degree programs require demonstration of foreign language proficiency: History M.A., English M.A., Music M.M. (voice and conducting), and French/Spanish M.A., M.Ed. and M.A.T. Specific requirements are stated under the respective departmental program description in the University Catalog and further defined in department handbooks. Exceptions to any language requirement are made at the discretion of the major department.

Capstone Requirement
A capstone experience is a complex assignment that involves many steps and serves as a culminating academic and intellectual experience at the end of an academic program. Typically, capstones provide evidence of synthesis and evaluation. The capstone experience may comprise a comprehensive written or oral examination, thesis or research paper, portfolio, creative work, internship, or some combination of these courses.

Institutional Review Board (IRB) approval is required for research involving human subjects. In addition, both the supervising faculty member and the student researcher must have a current CITI certificate on file with the Office of Research and Engagement. For students whose research involves animals, Institutional Animal Care and Use Committee (IACUC) approval is required. Required approval must be obtained prior to initiating any such research with these populations.

Capstones should be completed in the final stages of the master’s degree.
If a failing grade is given on the first attempt to satisfy the capstone requirement, the student may be allowed one additional attempt, with permission of the Graduate Program Director. If the student fails to meet the department’s minimum criteria for the capstone experience on the second attempt, the GPD shall notify the Graduate School will subsequently send the student a letter of dismissal from the program.

Maximum credit allowed for Capstones is six (6) hours. Additional extension hours may be required to maintain continuous enrollment but do not count toward the degree, do not qualify the student for graduate school support, and are ineligible for financial aid.

Specific Requirements for Thesis Students

Students propose and prepare a thesis under the guidance of a thesis committee comprising a chair and at least one other member appointed by the Graduate Program Director. The chair must be a full member of the Graduate Faculty; other committee members may be adjunct members. Although all members of the committee may come from the major department, appointment of one member from another department is allowed.

An oral examination on the thesis may be required at the discretion of the major department or school, either for the individual or all students in a thesis program.

The process for submitting the approved thesis to the Graduate School has two components: 1) Submitting the approval copy and 2) Submitting the final copy. Specific instructions affiliated with each step are available on the Graduate School’s website [http://grs.uncg.edu/enrolled/etd/]; deadline dates are available in the Academic Calendar (https://reg.uncg.edu/calendars/).

Students submit their thesis via the online submission system available on the Graduate School’s website [http://grs.uncg.edu/enrolled/etd/]. The submission must conform to UNC Greensboro’s formatting requirements and must be uploaded by the deadline dates as specified in the Academic Calendar. The Graduate School requires all approved theses to be published through UMI Dissertation Publishing/ProQuest Information and Learning. There is no charge for basic publishing; however, optional services requested by the candidate during submission may have associated charges.

Examinations

If the capstone for a master’s or specialist program is a written or oral exam, the student register during the semester(s) in which exams are graded. The Graduate School permits examinations to be rescheduled or held via distance technologies in cases of extreme hardship. The department head will ensure that all participants agree with the chosen format.

Transfer Credit and Cross-registration for Master’s and Specialist Degrees

(See Transfer Credit under Course Credit in Section I for more information.)

At the master’s and specialist levels, credit may be given for graduate work taken at other institutions, but certain conditions must be met:

- It must be approved both by the student’s major department and by the Dean of the Graduate School.
- It must be necessary to meet specific degree requirements.
- Transfer credit may not exceed one-third of the minimum number of hours required by the student’s program not including thesis or capstone hours.
- Cross-registration at other UNC institutions, in combination with transfer credit, may not exceed 50% of the total hours required by the student’s program.
- All credit offered in transfer must have been taken at an accredited graduate school and not have been used to complete the requirements for a previously-earned degree.
- Such work must have been taken within the five-year time limit.
- The student must have earned a grade of B (3.0) or better on all transfer credit. In a four-letter grading system, only credit earned with either of the top two grades is transferable. The transfer of credit where a grade of P or its equivalent is received in a two- or three-letter grading system (such as P-F, S-U, or H-P-F) reduces hour for hour the number of C grades earned that may count toward the minimum requirement for the degree.
- The credit must be recorded on an official transcript placed on file with the Graduate School.

Hours only, not grades, may be transferred from other institutions. When grades are provided for cross-registered courses, the grade will factor into the GPA. Quarter-hours do not transfer as semester hours. A fraction of an hour of credit will not be transferred. See sample below:

2 quarter hours transfer as 1 semester hour.
3-4 quarter hours transfer as 2 semester hours.
5 quarter hours transfer as 3 semester hours.
6-7 quarter hours transfer as 4 semester hours.
8 quarter hours transfer as 5 semester hours.
9-10 quarter hours transfer as 6 semester hours.

Students must secure approval from their major advisor and the Dean of the Graduate School in advance of registration at other universities. In general, however, not less than two-thirds of the total program for the master’s and specialist degrees must be completed at The University of North Carolina at Greensboro.

All credit to be transferred must come within the time limit described above and must be supported by filing an official copy of the transcript with the Graduate School. No credit will be transferred unless it is required to meet specific degree requirements.

No more than three (3) semester hours of institute and workshop credit may be counted toward satisfying the minimum requirements for the master’s and specialist degrees.

Master of Fine Arts Degrees

M.F.A. programs are specialized graduate programs that focus on the actual practice of a creative skill. This concentrated professional degree is intended to provide the student with an advanced education prior to becoming a practicing professional. MFA students produce creative work throughout the program; capstone projects are expected to demonstrate a high level of professional competence and maturity.

M.F.A. degrees are typically sixty (60) credit hours. Admission is based on a combination of undergraduate academic history, professional experience, and demonstrated creative skill.
UNCG offers M.F.A. degrees in Creative Writing; Dance with a concentration in choreography; Drama with concentrations in Acting, Directing, Design; and Theatre for Youth; Interior Architecture; and Studio Arts.

**M.F.A. Requirements**

**Plan of Study M.F.A. Degrees**

The Plan of Study will determine specific requirements for the degree as determined by the advisory committee, consistent with the specific program guidelines and Graduate School policy. These credits constitute the core of an M.F.A. graduate degree curriculum. The Plan of Study must be signed by the student and Graduate Program Director at the earliest practical time following the student's admission to the Graduate School, but no later than the registration period during the second semester of enrollment. The plan must indicate the following:

- All courses the student is expected to complete as a minimum requirement, including courses required for the major, supporting courses, number of elective hours, and courses recommended for transfer.
- Courses required by the department but not counted toward the degree, including prerequisite courses.
- No more than six (6) semester hours of independent study.
- No more than six (6) semester hours of credit evaluated as C+ (2.3) and/or C (2.0) applied toward the minimum hours required for the degree.
- Capstone Experience.

**Capstone Requirement for MFA**

Each candidate for the M.F.A. should be required to present a final body of work or culminating performance demonstrating professional competence in the field. A written document or thesis that demonstrates a student's ability to think critically and contextualize their work historically and/or theoretically and within the landscape of contemporary practices is a requirement of some programs, but the focus of the capstone experience should be creative or visual work.

Unless otherwise specified, M.F.A. students are subject to the academic policies associated with master's and specialist degrees.

**Doctoral Degrees**

A doctoral degree is the highest degree a student can earn for graduate study. Course work leading to the doctoral degree is planned to give students a comprehensive knowledge of their field of specialization and a proficiency in the methods of research. The final basis for granting the degree is their grasp of the subject matter across a broad field of study, their competence in planning and conducting research, and the ability to express themselves adequately and professionally both orally and in writing. Only the dissertation committee can certify that they have earned this degree.

UNCG offers two classifications of doctoral degrees. The Ph.D. is classified as doctoral degree of research and scholarship. The D.N.P., D.M.A., and Ed.D. are classified as a doctoral degree of professional practice.

Many doctoral programs require students to have previously earned a master's degree. Some doctoral programs allow students with a bachelor's degree to matriculate directly into the doctoral degree program; others are admitted through a doctoral track program.

**Master’s Doctoral Track Permission to Proceed**

A student admitted to the Graduate School into one of the doctoral track programs is required to earn a master's degree. Upon completion of 30 credit hours, the Graduate Program Director must evaluate each doctoral-track student and submit the Recommendation to Proceed Beyond Master’s Degree Form to the Graduate School for each student who is considered qualified and recommended for doctoral study. Students who are recommended to continue in the doctoral program are not required to file a separate application with the Graduate School. Students recommended to continue are subject to the same examination policies of all doctoral students. Students are coded into Banner as master's students until the master's degree is awarded. At that time, students who have been recommended to continue will be moved to doctoral pre-candidate status in Banner.

**Doctoral Degrees of Research and Scholarship**

These are doctoral degrees that require advanced work beyond the master's level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement.

**Doctor of Philosophy (Ph.D.)**

The degree of Doctor of Philosophy is conferred upon those students who have completed, with high distinction, a prescribed period of intensive study and investigation culminating in an original dissertation offering a significant new contribution to knowledge in their subject.

A Ph.D. may be earned in Business Administration, Chemistry and Biochemistry, Communication Sciences and Disorders; Community Health Education; Computational Mathematics; Consumer, Apparel, and Retail Studies; Counseling and Counselor Education; Economics; Educational Research, Measurement and Evaluation; Educational Studies; English; Environmental Health Science; Geography; History; Human Development and Family Studies; Information Systems; Kinesiology; Music Education; Nanoscience; Nursing; Nutrition; Psychology; Social Work, and Special Education.

**Doctor of Musical Arts (D.M.A.)**

The Doctor of Musical Arts degree program is a performance-oriented degree offered only in the School of Music. The requirements of the Graduate School apply to the Doctor of Musical Arts; however, due to the highly specialized nature of the degree, the student should consult the Graduate Program Director in the School of Music and the D.M.A. Graduate Handbook (https://vpa.uncg.edu/wp-content/uploads/2019/09/DMA-Handbook-8-2019.docx) for specific requirements and procedures.

**Doctor of Education (Ed.D.)**

The major premise of the Doctor of Education degree program is that students receive depth in subject matter as well as professional development. Therefore, the program is purposely flexible, allowing the students to develop, with their advisory committee, a course of study best suited to their ability, experience, and major professional goal. It is expected that each student will make a significant research contribution to the discipline culminating in a scholarly dissertation. An Ed.D. may be earned in Educational Leadership or in Kinesiology.

**Doctoral Degrees of Professional Practice**

These are doctoral degrees that are conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice or teaching. Dissertations for these doctoral degrees require the planning and
execution of an original project demonstrating substantial artistic or scholarly achievement following disciplinary norms. They often focus on applying existing knowledge and theories in original ways. The dissertation for the D.M.A. comprises live performance with written scholarship.

Doctor of Nursing Practice (D.N.P.)
The Doctor of Nursing Practice degree program is an applied degree offered only in the School of Nursing. The requirements of the Graduate School stated below apply to the Doctor of Nursing Practice; however, due to the highly specialized nature of the degree, students should consult the University Catalog for information regarding the specific requirements and procedures for the Doctor of Nursing Practice (p. 716).

Minor
Certain doctoral programs may permit, encourage, or require a minor, which is a formalized curricular sequence of advanced work in one or more areas outside the major field but cognate to it. Students should ask the chair of their advisory/dissertation committee if a minor is appropriate or required. The minor must consist of at least 12 hours of study. The student’s advisory/dissertation committee approves the minor, and it must appear on the doctoral plan of study.

For information concerning the doctoral minor in educational research and methodology, human development and family studies, information systems, and statistics, see the relevant academic programs.

Concurrent (embedded) Certificates
Students may pursue a graduate certificate concurrently with their doctoral program. Courses taken as part of a certificate program may also satisfy degree requirements. Certificates function similarly to a cognate, which is a minimum of nine (9) hours of course work organized around a narrow subfield. Certificates provide doctoral students with the ability to earn enhanced credentials. Enrolled students do not have to pay the application fee to pursue a concurrent certificate.

Summary of Requirements for all Doctoral Degrees
- Admission to a doctoral program, including the removal of any deficiencies identified at the time of admission.
- An initial academic advisor: assigned upon receipt of the intent to enroll form.
- An approved advisory committee: filed in the Graduate School by the end of eighteen (18) semester hours.
- An approved plan of study: signed by the GPD and all other committee members and filed in the Graduate School by the end of eighteen (18) semester hours.
- Completion of all milestone requirements (e.g. language, research, exams).
- Completion of the immersion requirement.
- Completion of any required diagnostic qualifying examination.
- Completion of all course requirements in the student’s approved program of study.
- Completion of the preliminary written and oral examination and any required additional work resulting from this examination.
- Formation of an approved dissertation/project committee with an assigned chair/document mentor: filed in the Graduate School before a student may defend the proposal.
- Acceptance of a dissertation/project proposal: the approved topic filed in the Graduate School.

- Admission to candidacy upon the satisfaction of the requirements above (formal application to be made in the Graduate School).
- Submission of a dissertation/document acceptable to the dissertation/project committee.
- Satisfactory public oral defense of the dissertation.
- Acceptance of the dissertation by the Graduate School. (Submission requirements differ for each type of doctorate; students should consult their Graduate Program Director.)
- Application for graduation with the Graduate School: filed by the end of the first week of classes of the term in which the degree will be granted.
- Payment of the graduation fee.
- Payment of all accounts owed in the University, diplomas and transcripts of students owing money to the University withheld until the account is cleared.

The requirements above are the minimal requirements of every doctoral program at UNCG and must be met by the deadlines stated in the Academic Calendar. Detailed explanations of these minimum requirements follow. Some programs may have additional requirements not listed above but are explained in detail in the specific doctoral program handbook. Students are expected to familiarize themselves with all program requirements.

Admission to Doctoral Programs
Admission to a doctoral program may occur in one of three ways:

- Some programs may permit admission to a doctoral-track program directly from an undergraduate program in the case of exceptionally well-qualified applicants. The department will notify students if they are to move seamlessly into doctoral-level course work. The Graduate Program Director must file the Permission to Proceed to Pre-Candidacy Status. The decision to continue (or not) must be made no later than the completion of thirty (30) credit hours. Students in doctoral-track programs who are not allowed to continue may be awarded a master’s degree if the student has completed all requirements of the stand-alone master’s degree.
- A student who has been awarded a master’s degree from another institution must apply and be admitted to a doctoral program. The program will either administer a set of diagnostic exams, or carefully examine syllabi to determine which courses from the master’s degree may apply to the doctoral plan of study.
- A student who has been awarded a master’s degree from another institution must apply and be admitted to a doctoral program. The program may either administer a set of diagnostic exams, or carefully examine syllabi to determine which courses from the master’s degree may apply to the doctoral plan of study.

In addition to satisfactory entrance examination scores and recommendations (explained in the application materials), final approval of the major department or school and of the Dean of the Graduate School are required.

Admission to doctoral programs is highly competitive. At times, academically qualified applicants may be denied due to program capacity constraints.

Admitted students are placed in Pre-Candidate Status. Pre-Candidates acquire knowledge and tools needed to undertake original and independent research. They are exposed to the breadth of content in their discipline and learn the associated research theories and methods to focus intensively on a narrow and original area of research. A student
achieves candidacy [all but dissertation (ABD)] upon completion of all pre-candidacy milestones.

**Academic Advisor(s) and Committees**

The Graduate Program Director is assigned as the initial Academic Advisor and is expected to guide the student in the selection of course work until the academic advisory committee is formed.

**Academic Advisory Committee and Chair**

The Academic Advisory Committee must be appointed, and the appointment form submitted, no later than the close of the registration window for the second semester of study (prior to the completion of eighteen (18) hours. The Academic Advisory Committee is appointed by the Dean of the Graduate School upon the recommendation of the major department head and must be mutually acceptable to the student and all committee members. This committee may be comprised of only one member of the Graduate Faculty. Any other members of the department who are also members of the Graduate Faculty may serve on an Academic Advisory Committee. The Academic Advisory Committee may mentor the student in all aspects of the program until the Dissertation Committee is formed and approved.

**Doctoral Committees**

The minimum number of faculty required for all doctoral committees is three, with the majority from the program. The chair must be from the department and a member of the graduate faculty; adjunct members may serve but may not chair. Individual programs handle committee assignments in the manner that best suits progress to degree completion for that discipline. It is not unusual for a student to have an academic advisory committee who guides the student in the pre-candidacy phase and a final dissertation committee with the expertise to guide and mentor the specific topic of dissertation research.

Faculty serving on committees are expected to approve the Plan of Study; evaluate any diagnostic or qualifying exams; rule on special programmatic decisions and policy applications; prepare, approve, and evaluate the preliminary (written and oral) examination; guide the dissertation; and, serve as the examining board for the oral defense. Depending on department culture, these responsibilities may be extended beyond the student’s committee. However, only the approved Dissertation Committee has the authority to determine if the proposal has been accepted and the dissertation defense has passed.

**Dissertation Committee and Chair**

The Dissertation Committee, comprising at least three graduate faculty (with a suggested maximum of five), should be finalized prior to the defense of the dissertation proposal. The Chair serves as the primary mentor and in consultation with the committee, guides the student in the preparation of the dissertation proposal, the dissertation itself, and conducts the final oral examination (dissertation defense). Only the Dissertation Committee may accept the dissertation proposal and determine the results of the dissertation defense.

Programs will determine whether a member outside of the discipline is required or not. The Dean of the Graduate School appoints this committee upon the recommendation of the major Department Head or Graduate Program Director and must be mutually acceptable to the student and all committee members. Of the three members, the chair must be from the program department, and at least two must be Members of the Graduate Faculty. An appointment as a Courtesy Member of the Graduate Faculty must be made for any member from outside the University.

Individual doctoral programs may have additional dissertation committee requirements. Students should consult the program handbook for specific details.

The Graduate Program Director coordinates committee appointments and adjustments and is ultimately responsible for ensuring compliance with Graduate School policies. (See Policy on Appointment to the Graduate Faculty (https://drive.google.com/file/d/13orBJE9NBnO-YcGtzVbYHoSqZYsPky3o/view/) for further details).

Students and Faculty may wish to consult the document Best Practices in Advising and Mentoring Graduate Students (https://grs.uncg.edu/wp-content/uploads/2019/09/Best-Practices-in-Graduate-Mentoring.pdf). This document contains the formal policies and procedures that govern these relationships and conveys general expectations for both faculty and students.

**Doctoral Requirements**

**Research Competence**

Research and innovation are central to doctoral education. Therefore, competence in research is required of all doctoral students. Whereas the specific requirements will vary from field to field and according to the student’s professional objective, the plan of study must provide for proficiency in techniques of research that not only are appropriate to the field of study but also will help prepare prospective holders of the doctorate to continue their intellectual and professional growth.

**Language Requirement for the Ph.D. in English, History and the D.M.A. in Music**

Doctoral students in English, History, and Music (voice and conducting) each have foreign language requirements. Students should consult their program handbook for detailed information on how to satisfy this requirement.

The language requirements must be passed prior to the comprehensive examinations and prior to admission to candidacy.

The language or languages used to satisfy a language requirement must be approved by the student’s major advisor. French, German, and Spanish are most frequently used. A student whose native tongue is a language other than English may use English, but not the native language, to satisfy a language requirement. When English is offered, the Department of English or the student’s major department in consultation with the Department of English will administer the examination. A statement certifying the candidate’s proficiency in English must be filed in the Graduate School before the comprehensive examination may be taken.

**Doctoral Students and Immersion Within a Community of Scholars**

The Graduate School expects all graduate programs to encourage and provide opportunities for immersion of doctoral students in scholarship. Immersion goals can be achieved by multiple means, including, but not limited to, individual and group research training; providing access to resources such as libraries, research equipment, scholarly materials, and laboratories; providing networking opportunities with UNCG and external scholars and graduate students; participation in scholarly seminars presented by scholars from UNCG or elsewhere; assisting with developing applications for external funding of scholarly endeavors; participation at scholarly conferences; and publications or other forms of scholarly dissemination.

Doctoral students are expected to satisfy an immersion requirement, which provides them the opportunity for an extended period of intensive
study and intellectual and professional development among a community of scholars.

Immersion “allows students to concentrate focused time on their degree, acquire the necessary habits, attitudes, skills, and insights” (CGS, 2005) required for contributions to scholarship and have opportunities to work closely with other scholars, including faculty and other graduate students. These scholarly skills, attitudes, and experiences go beyond acquiring knowledge in classes and in experience in professional practice.

The Immersion Requirement for doctoral degree programs (Ph.D., Ed.D., D.M.A., D.N.P.) can be accomplished through one of two mechanisms:

1. Two consecutive semesters of six-credit-hour enrollment on campus. Programs will be expected to provide opportunities during those two semesters to cultivate immersion in scholarship and achieve the goals of residency. Students completing residency via full-time enrollment should understand residency goals and plan not only to complete required courses, but also to sustain scholarly engagement and immersion in research, scholarship and professional development.

2. Program-specific alternative immersion plan. Academic degree programs may propose alternative methods by which enrolled students in the program will achieve immersion goals to be approved by the Graduate School. The approved plans will be documented in the Catalog as well as on the program’s Plan of Study template. Program-specific alternatives may be proposed for doctoral degree programs offered online or for site-based programs.

Courses taken by UNCG degree students via interinstitutional registration earn immersion credit as if they were courses on UNCG’s campus.

Credit Requirement’s for Doctoral Degrees
The minimum credits required for direct-entry doctoral programs are forty-five (45) hours inclusive of dissertation hours. Doctoral programs that award a master’s degree as part of the doctoral program must comprise a minimum of sixty (60) total hours, with thirty (30) earned post-master’s. Students enrolling in a program with an earned master’s in a related field must complete at least are thirty (30) course hours before enrolling in dissertation hours and an additional twelve (12) credits minimum must be dissertation hours.

A minimum of eighteen (18) credit hours of didactic course work and a minimum of twelve (12) hours of dissertation research are required for any doctoral degree.

Transfer Credit for Doctoral Degrees
In some instances, work done in other institutions may be counted toward the degree, particularly work culminating in a master’s degree from an institution accredited by the Accrediting Commission for Community and Junior Colleges (ACCJC) Western Association of Schools and Colleges, the Higher Learning Commission (HLC), the Middle States Commission on Higher Education (MSCHE), the New England Commission of Higher Education (NECHE), the Northwest Commission on Colleges and Universities (NWCCU), the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC), or the WASC Senior College and University Commission (WSCUC) and representing an appropriate area of study. If the student proposes the transfer of credit from another graduate school, the work for which credit was received must be covered by the preliminary examination, and the transfer must be recommended by the student's advisory/dissertation committee before the Graduate School will credit the work to the student’s doctoral program.

A maximum of one-third of non-dissertation course credit hours may be transferred to a doctoral program.

The following conditions apply to transfer credit for doctoral program:

- All credit offered in transfer must have been taken at an accredited graduate school.
- Such work must have been taken within the time limit described above.
- The student must have earned a grade of B (3.0) or better on all transfer credit. In a four-letter grading system, only credit earned with either of the top two grades is transferable.
- The credit must be recorded on an official transcript placed on file with the Graduate School.
- The credit must be approved by both the student’s doctoral advisory/dissertation committee and the Dean of the Graduate School.
- The credit must be necessary to meet specific degree requirements.

Hours only, not grades, may be transferred from other institutions. Quarter-hours do not transfer as semester hours. A fraction of an hour of credit will not be transferred. See sample below:

2 quarter hours transfer as 1 semester hour.
3-4 quarter hours transfer as 2 semester hours.
5 quarter hours transfer as 3 semester hours.
6-7 quarter hours transfer as 4 semester hours.
8 quarter hours transfer as 5 semester hours.
9-10 quarter hours transfer as 6 semester hours.

Students must secure approval from their doctoral committee and the Dean of the Graduate School in advance of registration at other universities.

To ensure that the courses fall within the time limit permitted, the transfer credit will be accepted finally and posted to the transcript only at the time of completion of the degree requirements.

(See Transfer Credit under Course Credit in Section I for more information.)

Milestones for Doctoral Programs
Doctoral education comprises a set number of credit hours earned through graded courses as listed in the course requirements above, an original dissertation, and a series of scholarly requirements and exams that are referred to as milestones.

To support the philosophy and practice of the Graduate School to respect disciplinary norms and expertise, the Graduate School does not concern itself with the process by which milestones are accomplished. Your program is expected to adhere to the overarching purpose of each milestone. Information on how these milestones are accomplished must be clearly documented in each Doctoral Program Handbook, which is the authoritative source for the procedures for satisfying milestones. All students shall be subject to these processes. Failure to do so may be grounds for a student grievance.
**Diagnostic Exams (optional)**
The Graduate School does not require programs to administer diagnostic examinations. However, some programs require that new students take a diagnostic exam given and evaluated before the close of the drop/add period. Diagnostic exams serve to identify deficiencies requiring prerequisite course work, acceptability of any transfer credit, and/or inform the Plan of Study.

**Plan of Study and Permission to Continue in a Doctoral Program**
A Plan of Study for the doctoral degree must be filed with the Graduate School no later than the close of the registration window for the third semester of study for approval by the Dean of the Graduate School. This is generally before the completion of eighteen (18) credit hours. The Plan of Study requires the signature of the Graduate Program Director and all other members of the academic or dissertation advisory committee. The Dean of the Graduate School reserves the right to refer any or all plans of study to the Graduate Council for review and recommendation.

Filing the plan of study by the end of the first year signifies permission to continue in the Graduate School. Students who fail to file the Plan of Study upon completion of eighteen (18) hours will have a registration hold placed on their account. This hold will remain until an approved Plan of Study is filed with the Graduate School.

Copies of the approved Plan of Study must be filed in the student’s permanent academic record in the Graduate School, in the department’s files, with the chair and each member of the advisory/dissertation committee, and with the student. Any subsequent changes in the Plan of Study must be submitted to the Graduate School for approval.

The Plan of Study must indicate the following:

- Major and minor fields of study.
- All prerequisite or leveling course work.
- Specific courses the student is expected to complete as a minimum requirement with at least eighteen (18) hours of didactic course work and a minimum of twelve (12) hours of dissertation. (If the topic for a Seminar or Topics Course is not yet determined, the GPD may indicate just the Course Number or other such placeholder.)
- All specific course requirements, language, and research requirements of the major department.
- No more than one quarter of the course work credited to the degree, exclusive of the dissertation, at the 500 level.
- No more than 15 semester hours of independent study. (See additional requirements above to pursue Independent Study.)

The following constraints apply:

- No credit evaluated lower than a B (3.0) may be applied toward satisfying a degree requirement.
- Additional hours must be taken for any hours earned with a grade of B- (2.7) or less.
- Credit earned for STA 667 Statistical Consulting is not applicable to a graduate plan of study.

**Qualifying Examination (optional)**
The Graduate School does not require programs to administer qualifying examinations, which are typically taken at the end of the first year. In such cases, qualifying examinations are intended to provide an early, general assessment of a student's proficiency in content and/or conceptual understanding of the research process. They may also serve to inform the Plan of Study. If a student is recommended for withdrawal, the Graduate School must be notified.

**Milestones Examinations Required for All Doctoral Programs**
A committee of at least three members of the graduate faculty must participate in the preparation and holding of all milestone examinations. Although other members of the program may provide input, it is the sole decision of the established committee to determine the result of a milestone exam. A unanimous decision is required to pass.

A student who fails any milestone examination is terminated from graduate work at UNCG unless the committee unanimously requests a re-examination. Only a single re-examination will be allowed; it can encompass written, oral, or both components as determined by the advisory committee. If the GPD or the Graduate School denies the request, the student's program is terminated, and the Graduate School will send the student a letter of dismissal from the program. In all cases, a student will be dismissed from the Graduate School if any required or option milestone exam is failed a second time.

The Graduate School must be notified in a timely manner upon completion of all milestones.

**Comprehensive Examination**
The written and the oral comprehensive examinations together constitute a comprehensive examination of the student's command of the field. This is the exam of breadth. The definition of "comprehensive" varies by academic program, but here means an examination whose thoroughness in all ways conforms to the best accepted practices within the discipline. The form of the comprehensive examination in any degree program is described in that graduate program handbook and all students shall be subject to the written policy and procedures.

The overarching purposes of the comprehensive exam are to:

- evaluate the student's overall proficiency in a body of knowledge and skills after most of the program of study is completed;
- test the candidate's knowledge of all transferred courses;
- discover any weaknesses in the candidate's knowledge that need to be remedied by additional courses or other instruction; and
- determine the candidate's fitness to continue work toward the doctorate.

Each doctoral student is required to pass the doctoral comprehensive examination. A student may attempt the comprehensive examination only on the recommendation of the advisory committee and only after a student has satisfactorily completed all prerequisite course work, removed identified deficiencies, satisfied language requirements, and completed most of the course work contained in the program of study. Individual departments may have additional requirements. The exam should be taken one or two semesters before the semester of anticipated candidacy to allow the committee to make changes to the Plan of Study if necessary.

The written part is scheduled and prepared based on what is indicated in the program handbook. The questions may cover any aspect of the course work taken by the student during the period of this graduate study or any subject logically related and basic to an understanding of the subject matter of the major and minor areas of study. Any transferred course work is subject to examination at the time of the preliminary examination. The questions are designed to measure the student's proficiency in their field and the adequacy of preparation for research.
The result of the written exam must be filed with the Graduate School before the oral portion may be held.

The written exam may result in one of three determinations:

- Pass
- Conditional (Put conditions in writing and be clear on a due date)
- Fail

Any requirement for re-writes of any portion (or all) of the exam constitutes a Conditional result. Conditional grades must be reported to the Graduate School indicating the conditions and due date. If the committee so determines, any identified weaknesses may be addressed during the oral portion of the exam, which constitutes a Pass. In the case of a Non-Pass, the student must petition the committee for permission to retake the exam. If granted, the student must wait until the following semester to ensure enough preparation time.

The oral portion of the preliminary examination should be scheduled within one month following the passing of the written examination. The purpose of the oral examination is to explore in greater depth questions on the written exam and to ensure a comprehensive understanding of the field of specialization and related areas. Many programs also require students to present and/or defend the dissertation proposal as part of the oral preliminary exam. In such cases, the dissertation committee must be formally appointed and in attendance for the oral portion of the preliminary exam.

The oral exam may result in one of three determinations:

- Pass
- Conditional (Put conditions in writing and be clear on a due date)
- Fail

Any requirement for re-examination constitutes a Conditional result. Conditional grades must be reported to the Graduate School indicating the conditions and due date. In the case of a Non-Pass, the student must petition the committee for permission to retake the oral exam. If granted, the student must wait until the following semester to ensure enough preparation time.

Any student who fails either portion of the comprehensive examination twice or whose petition for a re-examination is denied will be dismissed from the program.

**Dissertation Proposal Approval (required)**

The Graduate School encourages and supports the wide range of dissertation topics and methodologies generated in the programs. The dissertation proposal represents a formal understanding between the Dissertation Committee and the doctoral student. The proposal approval along with the final oral defense of the dissertation constitute the exam of depth. This agreement outlines the work to be done and the intellectual rigor the Committee expects from the student. The proposal functions as a map, guiding the student towards the effective completion of the dissertation project.

The dissertation proposal should substantially advance the doctoral candidate toward completion of the dissertation. In many cases, it takes the form of the preliminary chapters of the dissertation. The proposal should contain detail enough to describe the significance, background, and rationale for the dissertation and the work the Candidate will perform for the dissertation. Proposal approval is initiated often as part of the oral portion of the preliminary exam. Some programs expect a proposal defense that is a scheduled and announced public event. However, the deliberations of the Dissertation Committee shall be private. Program handbook must have clear processes as to how proposals are accepted.

**Multiple Authored Dissertations**

In situations where dissertations have multiple authors, it is the responsibility of the advisory/dissertation committee chair to identify the percentage of proposed work to be developed by each of the contributors and submit it to the Graduate School for approval. To be submitted as part of a student’s dissertation, the student must be primary author. This must be done at the proposal stage and again at the final defense if the original plan has been revised. (See Dissertations with Multiple Authors form [https://grs.uncg.edu/wp-content/uploads/2012/02/Dissertations-with-Multiple-Authors.pdf].)

**Admission to Candidacy**

In general, students should advance to candidacy no later than three calendar years after the first enrollment in a UNCG doctoral program, a doctoral track student may often take four years. A student who does not achieve candidacy within three years and is not making satisfactory progress may be recommended for academic probation or dismissal.

Students must apply for candidacy by the deadline specified in the academic calendar during the semester they expect to complete all requirements for candidacy. The Graduate Program Director must submit the Admission to Candidacy form and a final plan of study to move a student to candidacy status. This will certify that the requirements for candidacy will have been met by the end of a given semester. As soon as grades are filed for that semester, the Graduate School will inform the GPD and the student if they have been moved to candidacy status. Normally, the enrollment status of a student who achieves candidacy will be changed for the start of the next semester. However, students who achieve candidacy after the start of a semester but prior to census, will have their status moved to candidacy. Candidacy allows students to retain Graduate School benefits and eligibility for financial aid by enrolling in three (3) credits of 799.

No changes to a Plan of Study are permitted once a student is admitted to candidacy. Students admitted to candidacy are considered all but dissertation (ABD) and may only register for 799.

**The Dissertation**

The dissertation is the product of a thorough investigation of a basic and significant problem or question within the major area of study. An appropriate plan of research must be developed and executed by the student under the general guidance of the chair and the dissertation committee. Institutional Review Board (IRB) approval is required for research involving human subjects prior to acceptance of a dissertation based on such research. The same holds true for dissertations involving animals.

The dissertation requirement is designed to develop the capacities of originality and generalization in the candidate. It should foster and attest to the development in the candidate of ability in scientific inquiry, understanding and proficiency in the techniques of scholarship, and the art of exposition within the field of specialization.

The dissertation committee, with such other professors as may be appointed by the Dean of the Graduate School, shall examine the dissertation. No dissertation shall be accepted unless it secures unanimous approval of the dissertation committee.

It is expected that the dissertation will serve to demonstrate the student’s ability to contribute to the development of research or scholarship within the discipline. As such, a successful defense certifies that the
dissertation is a demonstration of the student’s ability to identify a problem, develop a methodology, carry out the necessary steps to gather data, analyze the findings, and form a defensible conclusion.

In the case of non-traditional dissertations that may contain chapters or sections with multiple authors, it is necessary to clarify the contribution of the dissertating student and others who may contribute to the dissertation. (See Dissertation Proposal Approval under Milestones for Doctoral Programs.)

It is expected that the dissertating student will be identified as the primary author of each of the chapters. The introduction to the dissertation must be solely authored by the dissertating student and must contain the theoretical framework that unifies the chapters that follow. The dissertating student also must be the sole author of the concluding chapter in which the significance of the various articles is explained. It is also expected that within the dissertation, appropriate attribution will be given to the other authors who contribute to the chapters.

Oral Defense of the Dissertation
The doctoral candidate who has successfully completed all other requirements for the degree must defend the dissertation orally in a public format. The defense will be scheduled by the chair of the dissertation committee in consultation with the other committee members. Without permission from the entire doctoral committee, the final oral defense may not take place during regularly scheduled University holidays and breaks. Students must submit the dissertation title, date, time and location of the oral defense at least two weeks prior for publication by the Graduate School. Defenses should not be scheduled during holidays, or at other times faculty and students are not regularly expected on campus.

The dissertation committee administers the oral defense according to program guidelines. The defense is open to all members of the University community who may wish to attend, as required by state laws on public meetings. However, the deliberations of the Dissertation Committee are private. The results of the defense are to be reported in writing to the Dean of the Graduate School.

It is not uncommon for a student to be required to complete additional work on the dissertation after a successful defense. The Doctoral Committee Chair should sign the dissertation approval page only after the student has satisfied the required additional work. Committees should not pass a student on a defense if the additional work required is significant.

Filing the Final Approved Dissertation
Students file the dissertation electronically via the online submission system available on the Graduate School’s website. The dissertation must comply with the rules prescribed by the Graduate Council in the Guide for the Preparation of Theses and Dissertations. The approved electronic submission must be uploaded by the deadline as specified in the Academic Calendar.

Students submit their dissertation via the online submission system available on the Graduate School’s website (http://grs.uncg.edu/enrolled/etd/). The submission must conform to UNC Greensboro’s formatting requirements and must be uploaded by the deadline dates as specified in the Academic Calendar. The Graduate School requires all approved dissertations to be published through UMI Dissertation Publishing/ProQuest Information and Learning. There is no charge for basic publishing; however, optional services requested by the candidate during submission may have associated charges.

The Graduate School requires students to publish their dissertation with UMI Dissertation Publishing/ProQuest Information and Learning. All students’ dissertations are also published on NC DOCKS. There is no charge for traditional publishing; however, optional services may incur charges.

The process for submitting an approved dissertation to the Graduate School has two components: 1) Submitting the signed approval copy and 2) Submitting the final copy. Specific instructions affiliated with each step are available on the Graduate School’s website (http://grs.uncg.edu/enrolled/etd/); deadline dates are available in the Academic Calendar (https://reg.uncg.edu/calendars/).

Important note: Dissertation hours vary according to the program but are never fewer than twelve (12) semester hours, normally taken in units of three (3) semester hours. Students who have exhausted all available dissertation hours but remain unfinished will be placed in extension status.

Time Limits for Graduate Degrees

Time Limits for Certificates
Certificates awarded from UNCG indicate that our students have current, usable knowledge in their field; therefore, the certificate curriculum, including the optional capstone, must be completed within five academic years, from the date the first courses carrying graduate credit applicable to the student’s program are begun. Students who are concurrently enrolled in a degree program and certificate must complete the certificate during the time limits of that degree.

Time Limits for Master’s and Specialist Degrees
Advanced degrees awarded from UNCG indicate that students have current, usable knowledge in their field; therefore, the master’s curriculum, including the thesis, must be completed within five academic years, from the date the first courses carrying graduate degree credit applicable to the student’s program are begun.

Time Limits for Master of Fine Arts Degrees
Advanced degrees awarded from UNCG indicate that students have current, usable knowledge in their field; therefore, the M.F.A. curriculum, including the capstone, must be completed within five academic years, from the date the first courses carrying graduate degree credit applicable to the student’s program are begun.

Time Limit for Master’s Doctoral Track Programs
Advanced degrees awarded from UNCG indicate that students have current, usable knowledge in their field; therefore, doctoral track curriculum, including the dissertation, must be completed within ten academic years from the date the first courses carrying graduate degree credit applicable to the student’s program are begun.

Time Limits for Doctoral Degrees
Advanced degrees awarded from UNCG indicate that students have current, usable knowledge in their field; therefore, all requirements for the doctorate, including the dissertation, must be completed within seven academic years. Post-master’s (or equivalent) credit that is to be applied to the student’s doctoral program must be no more than seven years old when the degree requirements are completed. This means that all course work to be credited to the student’s doctoral program must fall within
a seven-year period beginning with the date the first courses carrying graduate-degree credit applicable to the student's program are begun.

If credit to be transferred was earned before enrollment at this University, the seven-year period commences with the beginning date of the term in which the transfer credit was earned.

The seven-year time limit does not apply to students who are admitted to a Doctoral Track Program (combined master’s/doctoral). In this case, the time limit is ten years.

**Semester Hours Required for Graduate Degrees**

Consistent with regional accreditation by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC), UNCG requires a minimum of thirty (30) hours beyond the bachelor's degree for any master's degree, sixty (60) hours for doctoral programs that award a master's as part of the doctoral degree requirements, and forty-five (45) credits minimum for direct entry doctoral programs that do not require a student to earn a master's degree.

- Minimum semester-hour requirements, which vary by the program, are stated under the respective departmental program description in the *University Catalog*.
- Credit that is applied toward completion of one degree cannot be applied to another degree.
- No course below the 500 level will be counted towards graduate degree requirements.
- In all programs, at least one half of the work credited toward the degree must be in 600-level courses or above.
- Doctoral students must enroll in 700-level courses or above.
