

IN-STATE STUDENTS

In-State students are not required to hold an assistantship or fellowship appointment to be eligible for an In-State Tuition Award. The amount awarded may range from covering the cost of 1 credit hour through full-time. The amount indicated on the hiring proposal is placed on the students account. If a student registers for more credits than the award covers, the student will be billed for the difference. These are non-service awards.

Additional financial policies and procedures can be found on our Financial Information (<https://grs.uncg.edu/financial/>) website.
