Students who have already taken biology courses as part of their undergraduate program should contact the Head of the Department of Biology to determine if any of those courses can be accepted as meeting some of the requirements for the Standard Professional I License in Biology at UNC Greensboro.

Direct questions about these requirements to the Head of the Department of Biology.

Graduate Programs

Graduate students enrolled in either program have the opportunity to work with a research advisor from among 23 full-time faculty. Research areas range from the ecological to the cellular level, and include aquatic ecology, trophic interactions in lakes and streams, plant-microbe-herbivore interactions, microbial food chains, infectious disease ecology, plant evolution and population ecology, animal behavior, aging, cell motility, developmental, chromosome, cell cycle and viral genetics, neuroendocrine control of metamorphosis and glucose homeostasis. (Go to https://biology.uncg.edu/position/research-faculty/ for a detailed descriptions of faculty research). The broad range of training and research expertise among faculty members allows for an integrative approach to research studies in Biology for the M.S. degree and in Environmental Health Science for the Ph.D. degree. Faculty in the department are funded from the National Institutes of Health, the National Science Foundation, and a variety of private funding agencies.

Professor
Amy L. Adamson
Jim Coleman
Bruce K. Kirchhoff
John Z Kiss
John J. Lepri
Yashomati Mulchand Patel
Paul A. Steimle

Associate Professor
Mark Daniel Hens
Zhenquan Jia
Karen S. Katula
David L. Remington
Malcolm D Schug
John E. Tomkies
Gideon Wasserberg

Assistant Professor
Ramji K Bhandari
Louis-Marie Jean Fabrice Bobay
Sally E Koerner
Bryan S McLean
Ayalew Ligaba Osena
Kasie Tyler Raymann
Joseph M Santin
Akira Terui

Senior Lecturer
Joseph Clayton Bundy
Margaret K Hood
Robin (Roberta) Maxwell
Elizabeth S Tomlin
