

CHEMISTRY, B.S.

The Chemistry Major (B.S.) provides very thorough undergraduate training in chemistry and an excellent background for students planning to undertake graduate work or to enter the chemical industry. It differs from the B.A. in requiring additional advanced courses in chemistry and/or related sciences. Students who complete this program will be certified to the American Chemical Society upon graduation as having fulfilled the Society's rigorous requirements for undergraduate professional training. The sequence in which the required courses are taken is important, and the student should work closely with a chemistry advisor in planning a schedule.

The concentration in Chemistry Research offers students the option to specialize in research and be exposed to three or more years of research. The concentration is designed to prepare students for graduate study in chemistry, biochemistry, medicine, and related professions or for employment in chemistry, biochemistry, or related industries. The exposure to research will build strong research, communication, and leadership skills. Such skills are in great demand.

The concentration in Biochemistry offers students the option to specialize in biochemistry within the curriculum leading to the B.S. in Chemistry. This concentration is designed to prepare students for graduate study in biochemistry, medicine and related professions, or for employment in biochemistry or biotechnology related industries. The sequence in which the required courses are taken is important, and the student should work closely with a chemistry advisor in planning a schedule.

Overall Requirements

- 120 credit hours, to include at least 36 credits at or above the 300 course level; note that licensure programs may require credits beyond the minimum listed.
- Only major requirement and related area requirement courses at or below the 300-level in which grades of C- or better are earned will be counted toward the major. Students must earn a C- or better in prerequisite major requirement and related area requirement courses before advancing to subsequent courses. Students must have an overall GPA of at least 2.0 in CHE courses at UNC Greensboro.

Major Requirements

Select one of the concentrations as detailed following the major requirements.

- Chemistry
- Chemistry Research
- Biochemistry

Electives

Electives should be sufficient to complete the 120 credit hours required for the degree. Additional advanced mathematics courses are advised. Additional chemistry courses above the 100 level may be taken.

PHY 291	General Physics I with Calculus	
PHY 292	General Physics II with Calculus	
MAT 196	Calculus A	
MAT 296	Calculus B	
<i>Select one of the following:</i>		
MAT 310	Elementary Linear Algebra	
MAT 396	Calculus C	
MAT 390	Ordinary Differential Equations	
<i>Select at least one of the following which was not chosen above:</i>		
CHE 427	Introduction to Medicinal Chemistry	
CHE 490	Internship in Chemistry and Biochemistry	
CHE 493	Honors Work	
CHE 436	Computational Chemistry	
CHE 453	Advanced Organic Chemistry I	
CHE 455	Organometallic Chemistry	
CHE 468	Introduction to Chemical Biology	

BIO 355	Cell Biology
BIO 392	Genetics
BIO 406	Adv Topics in Genetics
BIO 479 & 479L	Neurobiology and Neurobiology Laboratory
CSC 230	Elementary Data Structures and Algorithms
CSC 330	Advanced Data Structures
CSC 339	Concepts of Programming Languages
CSC 427	Numerical Analysis and Computing

Disciplinary Honors in Chemistry and Biochemistry Requirements

- A minimum of 12 credit hours as defined below.
- UNC Greensboro cumulative GPA of 3.30 or better or, for transfer students, cumulative GPA of 3.30 or better from all prior institutions.

Code	Title	Credit Hours
Required		3
HSS 490	Senior Honors Project	
6 credits of Honors course work in the major		6
3 credits of Honors course work in the major or another area		3

Recognition

Receive a Certificate of Disciplinary Honors in Chemistry and Biochemistry; have that accomplishment, along with the title of the Senior Honors Project, noted on the official transcript; and be recognized at a banquet held at the end of the spring semester.
