COMPUTER SCIENCE, B.S.

The courses in the Computer Science Department are designed to teach the foundations of computing rather than a particular technology, so that the student is prepared to adapt to changing technology. Students are exposed to various programming languages and computing systems.

The job market in computer science is strong. A student completing a bachelor’s degree with a strong academic record can expect job offers as a systems programmer or analyst, applications programmer, systems support staff member, technical staff member, or similar positions. The undergraduate curriculum has also been designed to prepare students for graduate studies (master’s and doctoral degrees) in computer science. Qualified students who have an interest in research will have opportunities to participate in projects with department faculty during undergraduate or graduate studies.

In addition to the regular B.S. program, students may pursue a concentration in Data Science and Big Data, which is designed to provide Computer Science B.S. students with key knowledge of appropriate theories, algorithms, and technologies, towards development of analytical systems/models for disparate, complex, and small/large scale datasets. Students completing this concentration will have learned skills necessary to tackle a wide variety of data-focused scientific, social, and environmental challenges.

Students must maintain a grade point average of at least 2.0 in the core courses, required electives, and required supporting discipline courses.

Because computer science courses change rapidly, it is recommended that the sequence CSC 130, CSC 230, CSC 330 be completed within 4 consecutive semesters.

The B.S. degree in Computer Science program is accredited by the Computing Accreditation Commission of ABET (www.abet.org (http://www.abet.org)).

Overall Requirements

- 120 credit hours, to include at least 36 credits at or above the 300 course level

Optional Concentration

The optional concentration as detailed following the major requirements may be added, but is not required.

- Data Science and Big Data

Electives

Electives sufficient to complete the 120 credit hours required for the degree.
Data Science and Big Data Concentration Requirements

- 15 credit hours as defined below
- Students in the Data Science and Big Data Concentration must satisfy all requirements for the B.S. in Computer Science, and must complete the following courses.*

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CSC 330</td>
<td>Advanced Data Structures</td>

</tbody>
</table>

Electives 3
Select 3 credits from the courses below

- CSC 425        Bioinformatics
- CSC 429        Artificial Intelligence
- CSC 454        Algorithm Analysis / Design
- STA 431        Introduction to Probability
- STA 435        Theory Linear Regression

* CSC 330 and CSC 471 are currently required in the B.S. program, and other CSC courses below may be used to satisfy B.S. elective requirements as well as concentration requirements.

Disciplinary Honors in Computer Science

Requirements

- A minimum of 12 credit hours as defined below.
- A grade of B or higher in all course work used to satisfy the Honors requirements in Computer Science and at least a 3.30 overall GPA at graduation.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>

<td>Honors Work in Computer Science *</td>
<td>6</td>
</tr>
<tr>
<td>HSS 490</td>
<td>Senior Honors Project **</td>
<td>6</td>
</tr>
</tbody>
</table>

Select 6 credits from the following:

- CSC 415        Computer Graphics
- CSC 416        Digital Image Processing
- CSC 425        Bioinformatics
- CSC 427        Numerical Analysis and Computing
- CSC 429        Artificial Intelligence
- CSC 439        Introduction to Compiler Design
- CSC 442        Human-Computer Interface Dev
- CSC 454        Algorithm Analysis / Design
- CSC 461        Principles of Computer Architecture
- CSC 471        Principles of Database Systems
- CSC 477        Principles of Computer Networks
- CSC 478        Principles of Wireless Networks

* Taken first in the sequence.
** Taken second in the sequence.

Recognition
Receive a Certificate of Disciplinary Honors in Computer Science; have that accomplishment, along with the title of the Senior Honors Project, noted on the official transcript; and be recognized at a banquet held at the end of the spring semester.

Honors Advisor
Contact Lixin Fu at l_fu@uncg.edu for further information and guidance about Honors in Computer Science. To apply: http://honorscollege.uncg.edu/forms/disc-application.pdf

Accelerated B.S. to M.S.

Application and Admission
Qualified UNC Greensboro undergraduate students who are pursuing the Bachelor of Science (B.S.) in Computer Science may apply for admission to the Accelerated Master's Program (AMP). A cumulative undergraduate GPA of at least 3.5 based on at least 30 credits earned at UNC Greensboro is required. Applicants must have completed at least 60 credits and may not apply for admission to the AMP before the first semester of the junior year. Applicants will not be required to take the GRE. All applicants must complete the Accelerated Master’s Program information along with their application for admission to the graduate degree program.

Courses
Admitted students may apply the following 12 credits of graduate-level course work toward completion of both the undergraduate and graduate degree, provided that they earn a grade of B (3.0) or better in the course and fulfill graduate-level requirements:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CSC 652</td>
<td>Theory of Computation</td>
<td>3</td>
</tr>
<tr>
<td>CSC 654</td>
<td>Algorithm Analysis and Design</td>
<td>3</td>
</tr>
<tr>
<td>CSC 662</td>
<td>Principles of Operating Systems</td>
<td>3</td>
</tr>
<tr>
<td>CSC 677</td>
<td>Principles of Computer Networks</td>
<td>3</td>
</tr>
</tbody>
</table>

Please consult with an advisor to determine how the course taken at the graduate level will meet requirements in the bachelor's degree program. All degree requirements for the M.S. in Computer Science remain the same.
