GEOGRAPHY, B.A.

The Geography Major requires four courses from a selection of 15 and requires a minimum of 27 credit hours in geography above the 100 level. Students may elect a general geography major or they may complete additional courses for a concentration in Urban Planning, Earth Science, or Geographic Information Science. Students may also complete a major in Geography with Social Studies High School Teaching Licensure.

Student Learning Goals

Students completing this major are expected to demonstrate a basic competence in earth science, human geography, and regional geography. In addition, they are expected to be able to successfully investigate geographic problems using the current research techniques and methodologies of the discipline and to clearly and effectively express their findings in both written and oral form.

Overall Requirements

- 120 credit hours, to include at least 36 credits at or above the 300 course level
- A minimum of 27 credits in geography above the 100 level. Only grades of C- or higher will count toward completion of the major and concentrations.
- No more than 6 credit hours from GES courses numbered 160-170 and 360-400 may be applied to the major.

Human Geography

Select one of the following:

- GES 103 Introduction to Human Geography
- GES 301 Cities of the World
- GES 302 Urban Geography: Land Use
- GES 303 World Population Problems
- GES 304 Introduction to Transportation Analysis
- GES 306 World Economic Geography
- GES 315 The Geography of World Affairs

Regional Geography

Select one of the following:

- GES 102 The Historical Geography of the Western World
- GES 104 World Regional Geography
- GES 313 Natural Resource Regions of North America
- GES 333 Geography of Europe
- GES 340 Geography of East Asia
- GES 344 Geography of the United States and Canada
- GES 491 Current Topics in Regional Geography
- GES 451 Seminar in Regional Geography

Optional Concentrations

Any of the optional concentrations as detailed following the major requirements may be added, but a concentration is not required.

- Earth Science
- Geographic Information Science
- Urban Planning

Electives

Electives sufficient to complete the 120 credit hours required for degree.

Earth Science Concentration Requirements

A central theme of geography is human interaction with the earth’s physical environment. This concentration permits students to apply the basic scientific principles of physical geography, cartography, and natural resource analysis to the problem of ensuring a high quality of life through maintenance of the natural processes that support human existence. This concentration also provides training to enhance the employment opportunities of students with a strong interest in environmental assessment and resource evaluation.

Select a minimum of five courses of the following:

- GES 205 Environmental Change: Its Nature and Impact
- GES 305 Environmental Hazards Assessment
- GES 312 Geomorphology of North America
Geography, B.A.

GES 330  Elements of Hydrology
GES 357  Principles of Cartography
GES 358  Geographic Information Systems
GES 359  Remote Sensing of Environment
GES 418  Biogeography
GES 419  Advanced Weather and Climate-Synoptic Climatology
GES 457  Advanced Cartography
GES 459  Advanced Remote Sensing-Imaging
GES 450  Applied Physical Geography

† Counts toward GEC GNS requirement.

Geographic Information Science Concentration Requirements

Students with this concentration will develop skills in using maps, geospatial computer programs, and remotely sensed images to answer geographic questions relevant to land use planning, urban development, geomorphic or biogeographic processes, or environmental impact assessment. A capstone course (GES 421), which includes a faculty-directed major project, is completed in the final semester.

Code  Title  Credit Hours
Additional Concentration Requirements 15

Required
GES 121 & 121L  Introduction to Geographic Information Science and Intro to Geographic Information Science Laboratory 3
GES 357  Principles of Cartography 3
GES 358  Geographic Information Systems 3
GES 359  Remote Sensing of Environment 3
Select at least one of the following:
GES 457  Advanced Cartography 3
GES 459  Advanced Remote Sensing-Imaging 3
GES 421  Geographic Information Science * 3

* Taken after the completion of the other Additional Concentration Requirements.

Urban Planning Concentration Requirements

The inter-regional shift of people and jobs in the United States and elsewhere over the past decades coupled with the movement away from large central cities has increased the need for formal urban and regional planning. Planners are needed in the private sector as well as in state and local governments to provide the appropriate kinds of economic and community development that will ensure a high quality of life in both developed and developing countries. In a growth region like the Southeast, geographers with a planning background are in increasing demand.

Code  Title  Credit Hours
Additional Concentration Requirements 24

Required
GES 105  Introduction to Human Geography 3
GES 301  Cities of the World 3

‡ Counts toward GEC GNS requirement.

Geography as a Second Major

• Minimum of 27 credit hours

A student may obtain a second major in geography along with any other major. The student should take 27 credits, including four core courses listed above for the Geography Major. Students considering this option should consult a faculty member in the department.

Disciplinary Honors in Geography

Requirements

• A minimum of 12 credit hours as defined below.
• UNC Greensboro cumulative GPA of 3.30 or better or, for transfer students, cumulative GPA of 3.30 or better from all prior institutions.

Code  Title  Credit Hours
Required 3-6
HSS 490  Senior Honors Project 3
or GES 493  Honors Work 3

6 credits of Honors course work in the major 6
3 credits of Honors course work in the major or another area 3

Recognition

Receive a Certificate of Disciplinary Honors in Geography; have that accomplishment, along with the title of the Senior Honors Project, noted on the official transcript; and be recognized at a banquet held at the end of the spring semester.

Honors Advisor

Contact Jay Lennartson at gjlennar@uncg.edu for further information and guidance about Honors Geography. To apply: http://honorscollege.uncg.edu/forms/disc-application.pdf

Accelerated B.A. to M.A. in Applied Geography

Application and Admission

Qualified UNC Greensboro undergraduate students who are pursuing the B.A. in Geography may apply for admission to the Accelerated Master's Program (AMP). A cumulative undergraduate GPA of at least 3.5 based on at least 30 credits earned at UNC Greensboro is required. Applicants must
have completed at least 60 credits and may not apply for admission to the AMP before the first semester of the junior year. Applicants will not be required to take the GRE. All applicants must complete the Accelerated Master's Program information along with their application for admission to the graduate degree program.

**Courses**

Admitted students may apply a maximum of 12 credits of graduate-level course work from the following course list toward completion of both the undergraduate and graduate degree, provided they earn a grade of B (3.0) or better in each course and fulfill graduate-level requirements:

<table>
