Mathematics as a Second Major
Requirements for a Second Major in Mathematics are the same as for the
Mathematics Major (B.A. or B.S. degree).

Accelerated B.A. to B.S. to M.A.
Application and Admission
Qualified UNCG undergraduate students who are pursuing the B.A. or
B.S. in Mathematics may apply for admission to the Accelerated Degree
and the M.A. in Mathematics program. A cumulative undergraduate GPA
of at least 3.5 based on at least 30 hours earned at UNCG is required.
Applicants must have completed at least 60 semester credits and may
not apply for admission to the ADP before the first semester of the
junior year. Applicants are also required to take the Graduate Record
Examination. All applicants must submit the Request for Accelerated
Degree Program to the Graduate School and must simultaneously apply
for admission to the M.A. program in Mathematics.

Admitted students may apply up to 12 semester hours of graduate-level
coursework toward completion of both the undergraduate and graduate
degree, provided that they earn a grade of “B” (3.0) or better in the course
and fulfill graduate-level requirements. The graduate courses the student
will take within the Accelerated Degree Program in Mathematics must
be approved by the Director of Graduate Study, must be specified on
the Request for Accelerated Degree Program, and must be chosen from
among the following courses:

Degree Program Requirements
Please consult with an advisor to determine how the courses taken at the
graduate level will meet requirements in the bachelor’s degree program.

All degree requirements for the M.A. in Mathematics will remain the same.
