The Department of Mathematics and Statistics offers undergraduate and graduate degrees. The goal of all of the Department's programs is to produce students who are both technically competent and sufficiently well grounded in theory that they can contribute to fundamental research in their chosen specialty. There are many opportunities for graduates of mathematics programs in industry, government, business, research, and teaching.

The faculty consists of nationally and internationally recognized researchers in diverse areas of mathematics, statistics, and mathematics education. They are outstanding professionals committed to teaching excellence, and they take great pride in guiding students to enjoy the beauty of mathematics. The department has been hosting various professional conferences and special events, lecture series, colloquia, and seminars. These activities have greatly enhanced the student learning experience at UNC Greensboro.

**Mission Statement**
The mission of the Department of Mathematics and Statistics at the University of North Carolina at Greensboro is to provide intellectual leadership in the mathematical sciences that is of direct benefit to the State of North Carolina and that commands national and international respect for the quality of its educational programs and for its depth of scholarship.

**Undergraduate**
The Department of Mathematics and Statistics offers undergraduate programs leading to the B.A. and B.S. degrees in Mathematics, as well as a minor in Mathematics and a minor in Statistics. To give a professional direction to the student's liberal arts education, the mathematics major may choose a concentration in mathematics, statistics or high school teaching licensure. There are many opportunities for math majors in industry, actuarial sciences, government, business, and secondary school teaching. The mathematics programs also provide excellent preparation for graduate studies in many areas, including computer science, economics, engineering, law, mathematics, operations research, and statistics.

**Graduate**
The department offers a variety of outstanding graduate programs. A graduate degree in Mathematics is not only an excellent choice for students who pursue a career in teaching and/or research, there are also many opportunities in banking, consulting, government, and the IT industry. Most of our graduate students are supported via attractive graduate assistantships.

The Department of Mathematics and Statistics offers a Ph.D. in Computational Mathematics, a M.S. in Applied Statistics, a M.A. in Mathematics, and a Post-Baccalaureate Certificate in Statistics. Additionally, students pursuing a doctoral degree from another department at UNCG may obtain a doctoral minor in statistics.

**Professor**
Maya Chhetri
Richard H. Fabiano
Sat Narain Gupta
Scott James Richter
Ratnasingham Shivaji, Helen Barton Excellence Professor
John Stufken, Bank of America Excellence Professor, Professor
Haimeng Zhang

**Associate Professor**
Gregory C. Bell
Igor Erovenko
Talia Fernos
Xiaoli Gao
Tom Lewis
Sebastian Georg Manuel Pauli
Jonathan T. Rowell
Filip Saidak
Clifford Dieter Smyth
Brett Allen Tangedal
Dan Yasaki

**Assistant Professor**
Yu-Min Chung
Michael B Hull
Jianping Sun
Yi Zhang

**Visiting Assistant Professor**
Elizabeth Fowler Lewis
Thomas A McConville

**Lecturer**
Monika Goel
Matt Winston Jester

**Senior Academic Professional**
Tracey H. Howell

**Graduate-level faculty**
