6

# **PSYCHOLOGY, B.S.**

The Psychology Major provides a background for entry into a variety of professions other than psychology where understanding the principles of behavior and cognition is important. It also provides the necessary background for individuals planning to do graduate work in either basic or applied psychology.

The curriculum provides students with a structured, sequenced exposure to six core areas in psychology. These are: behavior analysis; biopsychology; clinical psychology; cognitive psychology; development psychology; and, social psychology. The curriculum also affords handson experience with scientific psychology via laboratory courses and field experiences.

The Psychology Major for the Bachelor of Science degree serves students who want additional training in science, math, statistics, and research methods relative to the Bachelor of Arts degree.

### **Overall Requirements**

- 120 credit hours, to include at least 36 credits at or above the 300 course level.
- · Minimum 46 credits in Psychology (PSY).
- Students must earn a grade of at least C- in all Psychology courses required for the major.
