The objectives of the curriculum are:

1. To provide an understanding of the use of scientific methodology in psychological research at both intermediate and advanced levels. This understanding will include a familiarity with the design of observational, survey, and experimental studies; principles of inference from scientific data; the logic of statistical testing; and the scientific literature.
2. To provide basic knowledge in primary areas of the discipline through an array of required intermediate-level core courses;
3. To develop depth of understanding in areas of the discipline specific to students’ individual interests;
4. To ensure that students can write clearly and effectively in an appropriate professional style.

In addition to the B.A. and B.S. programs for undergraduates, the department has a Ph.D. program and a terminal M.A. program for graduate students.

Students who wish to seek teacher licensure should see School of Education Licensure Programs as well as below. Such persons should contact the departmental Director of Undergraduate Studies as early as possible.

The Psychology Department offers two graduate training tracks—a terminal MA in general experimental psychology and a PhD with specializations in clinical, cognitive, developmental, and social psychology. Students may apply to either or both tracks. The MA degree is earned as part of the doctoral programs. The clinical program has been continuously accredited by the American Psychological Association since its initial accreditation in 1982. The next site visit is in 2021.

At both levels, the objective is to provide the combination of a sound scholarly foundation with methodological and practical skills that will enable the student to function in a variety of academic, research, and service settings. The program has four major areas of concentration:

- Clinical (Eddington, Jensen, Keane, Mendez Smith, Nelson-Gray, Stein, Vrshek-Schallhorn, and Wisco)—includes research training and clinical training in a variety of service settings.
- Cognitive (Delaney, Guttenstag, Kane, Marcovitch, Touron and Wahlheim)—includes basic research in human memory, attention, cognition, and language.
- Developmental (Boseovski, DeJesus, Guttenstag, Johnston, Keane, Marcovitch, Touron and Wahlheim)—includes basic research in behavioral, cognitive, language, and social development in infant, child, adolescent, and adult humans and in animals.
- Social (Baker, Boseovski, Cassidy, Silvia, and Zell)—includes basic research in social phenomena, e.g., aggression, attitudes, communication, gender relations, intergroup comparison, and social competence.

The goal of the terminal MA program is the conferral of the Master of Arts degree. Those who successfully complete the terminal MA, however, may apply to the PhD program. In addition, students with master’s degrees from other institutions are welcome to apply to the PhD program. Past work from other MA programs is evaluated to determine which requirements of our program have been satisfied.

The Psychology Department has additional policies and procedures that are described in the Psychology Graduate Student Handbook, which is accessible electronically at https://psy.uncg.edu/wp-content/uploads/2018/02/Psychology-Graduate-Student-Handbook-2017-2018.pdf.

**Professor**

Rosemary N Gray
Robert E Guttenstag
Timothy D Johnston
Michael J Kane
Susan P Keane
Stuart Marcovitch
George Frederick Michel
Terri L. Shelton, Carol Jenkins Mattocks Distinguished Professor
Paul Silvia, Professor/Lucy Spinks Keker Excellence Professor
Julia M Smith
Dayna R Touron

**Associate Professor**

Janet J Boseovski
Peter Delaney
Kari M Eddington
Douglas W Levine
Gabriela L Stein
Ethan Zell

**Assistant Professor**

Levi Robert Baker-Russell
Brittany S Cassidy
Jasmine Marie DeJesus
Michaeline Rae Jensen
Suzanne Vrshek-Schallhorn
Christopher N Wahlheim
Blair E Wisco

**Senior Lecturer**

Ashleigh H Gallagher
Pamela R Ladrow

**Lecturer**

Pamela R Ladrow
Psychology Disciplinary Honors Requirements

At least 12 credit hours in psychology as detailed below.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Select 6 credits from the following:</td>
<td></td>
</tr>
<tr>
<td>PSY 401</td>
<td>Academic Writing in Psychology</td>

* These courses may be taken more than once for credit to satisfy this requirement.

Qualifications

- 3.30 or greater cumulative GPA at graduation
- 3.30 or greater GPA in Psychology
- A declared Psychology Major

Recognition

The designation “Completed Disciplinary Honors in Psychology” and the title of the Senior Honors Project will be printed on the student’s official transcript.

Honors Advisor

See department’s honors liaison for further information and guidance about Honors in Psychology.
