INFORMATION SYSTEMS, PH.D.

The Ph.D. in Information Systems requires 71 credit hours and is an innovative research degree program designed to prepare professionals and research scholars of the highest quality for careers in academic information systems units and other organizations. The program enhances the traditional Ph.D. program with four distinctive elements: commitment to practical relevance, emphasis on producing quality teachers, research apprenticeship, and interdisciplinary research.

The program is primarily for full-time students and is available to students with master’s degrees in appropriate areas such as business, computer science, public administration, engineering, or the social sciences.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a one-page personal statement and a resume. Applicants should consult the Ph.D. Program Director for specific admission requirements.

Students without a master’s degree in business will need to take additional courses to establish an understanding of business processes.

Degree Program Requirements

Required: 71 credit hours

Leveling Courses/Prerequisites

<table>

Students with no business background must take at least three of these four courses:

- MBA 702  Financial and Managerial Accounting
- MBA 706  Marketing Management
- MBA 708  Operations for Competitive Advantage
- MBA 709 (COURSE INACTIVE)

* In consultation with the Ph.D. Program Director.

ISM 785  Behavioral Theories of Information Systems Research

ISM 786  Principles of Scientific Inquiry in Information Systems Research

ISM 788  Seminar in IS Research Methods

Select three courses (9 credits) from the following:

- ISM 753  Information Systems Research Seminar I
- ISM 754  Information Systems Research Seminar II
- ISM 755  Information Systems Research Seminar III
- ISM 756  Information Systems Research Seminar IV

IS Teaching Education (4-7 credits)

Select 4-7 credits

IS Research Seminars (7-8 credits)

Select a minimum of 7 credits

Knowledge Area (9 credits)

Select 9 credits, possible courses include:

- ISM 701  Predictive Analytics in Information Systems Research
- ISM 702  Data Visualization for Information Systems Research
- ISM 704  Cyber Security Principles in Information Systems Research
- ISM 706  Global Cyber Threats and Risk Management
- ISM 707  Information Technology Driven Disruptive Innovations
- ISM 703  Cognitive Computing and Artificial Intelligence in Information Systems Research
- ISM 705  Blockchains and Cryptography in Information Systems Research

Research Methodology (12 credits)

Select 12 credits, possible courses include:

- ELC 664  Introduction to Qualitative Inquiry: A Social Justice Approach
- ERM 682  Multivariate Analysis
- ERM 731  Structural Equation Modeling in Education
- STA 661  Advanced Statistics in the Behavioral and Biological Sciences I
- STA 662  Advanced Statistics in the Behavioral and Biological Sciences II
- STA 671  Multivariate Analysis

Dissertation (18-24 credits)

</table>

Total Credit Hours 71

* Chosen in consultation with the Ph.D. Program Director. Courses in other departments may be taken with the approval of the advisor.

** Taken throughout the program.

Organizational Research Internship

Required of students lacking relevant work experience, as determined by the Ph.D. Program Director.

Research Apprenticeship

Two papers must be submitted for publication in conference proceedings or journals prior to taking written comprehensive examinations.
Comprehensive Written Examination
Upon completion of the required course work and research apprenticeship, the student will be eligible to sit for written comprehensive examinations. The major examination will have two parts:

- The first part will be composed of IS content from various courses and existing literature.
- The second part will be designed to evaluate the research readiness of the student.

Typically, the major examination is given in the Fall semester. If the student fails at the first attempt, a second attempt may be allowed by the Ph.D. Program Director.

Oral Examination
Following the successful completion of the written comprehensive examination, the student will be given an oral examination by the doctoral Advisory/Dissertation Committee. Upon successful completion of the oral examination, the student may apply for doctoral candidacy.

Proposal Defense
Following the oral examination, the student will prepare a dissertation proposal that will be defended before the doctoral Advisory/Dissertation Committee. The defense may be attended by others outside the committee.

Dissertation
A minimum of 18 credits will be devoted to research that culminates in the preparation of the required doctoral dissertation.
