

BIRTH-KINDERGARTEN INTERDISCIPLINARY STUDIES IN EDUCATION AND DEVELOPMENT, M.ED.

The synchronous online Master of Education (M.Ed.) program in Birth-Kindergarten Interdisciplinary Studies in Education and Development prepares students to assume leadership roles in diverse settings (both education and community-based) that develop and implement programming for young children with and without disabilities, ages birth to five, and their families. The degree consists of a minimum of 37 credit hours of graduate course work beyond the Bachelor's degree. Additional academic work may need to be completed by students without foundational skills or content knowledge in early childhood. Prerequisite credits may not be applied toward the M.Ed. degree unless they are Birth-Kindergarten Initial Licensure program courses (see Birth-Kindergarten: Post-Baccalaureate Initial Licensure Certificate). Prerequisite requirements must be satisfied as early as possible in the program. The Birth-Kindergarten Graduate Program Committee approves any transfer credit.

Two concentrations are offered: one on Early Childhood Leadership & Advanced Teaching and another on Early Childhood Leadership & Program Administration.

The concentration in Early Childhood Leadership & Advanced Teaching is designed for students with a Standard Professional I or initial license seeking education in early childhood leadership and an advanced teaching license. Those with an initial license in another field of education must satisfy prerequisite requirements and complete eight (8) weeks of student teaching (which adds 6 credit hours to the program). Students are eligible for the "M" advanced license in BK upon successful completion of the program.

The concentration in Early Childhood Leadership & Program Administration equips teachers, directors/administrators, technical assistance providers, and other professionals working closely with early childhood educators to be leaders in the field. It includes advanced training in a variety of areas, including personnel development and support, financial management, early childhood systems and policy, leadership and mentoring, child and program assessment, and curriculum within the context of family-centered practices to work effectively with diverse children and families in inclusive settings.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions.

Applicants must submit an application to The Graduate School, which includes: a professional statement, a current resume, official transcripts with a GPA of 3.0 or higher, and three letters of recommendation with at least one academic reference if possible. Applicants to the Early Childhood Leadership & Advanced Teaching concentration must also submit documentation of their initial teaching license. The GRE is not required. An interview and writing sample may be required.
