In the School of Health and Human Sciences, academic programs are offered through the Department of Communication Sciences and Disorders, the Department of Community and Therapeutic Recreation, the Department of Human Development and Family Studies, the Department of Kinesiology, the Department of Nutrition, the Department of Peace and Conflict Studies, the Department of Public Health Education, and the Department of Social Work. There is also a graduate program in Genetic Counseling. Each department and program offers varied courses for all university students and programs of study leading to undergraduate and graduate majors and minors in their respective areas. The school’s programs are designed to meet specialized interests of students and also the requirements of state and national accrediting agencies and professional associations.

The Department of Communication Sciences and Disorders provides opportunities for the study of normal speech, language, and hearing and the associated disorders, leading to the bachelor of science degree in Speech Pathology and Audiology. The courses offered in this program are pre-professional and prepare the student for further study at the graduate level. Faculty and students in Communication Sciences and Disorders provide services to clients in the University Speech and Hearing Center, and engage in cooperative work with area schools, hospitals, and other human service agencies. In addition, a Master of Arts degree is offered, preparing clinicians to serve children, youth, and adults with communication disorders. There is also a Ph.D. degree offering advanced study in teaching and research.

In the Department of Community and Therapeutic Recreation a student majoring in Recreation and Parks Management may choose from two areas of concentration: Therapeutic Recreation or Community Recreation and Event Planning. These concentrations lead to the bachelor of science degree. A Community and Therapeutic Recreation and a minor in Travel, Tourism, and Commercial Recreation, in addition to a master of science (M.S.) degree, are also available. The undergraduate program has been fully accredited by the NRPA/AALR Council on Accreditation since 1981.

The Program in Genetic Counseling offers an interdisciplinary master of science degree. The program is accredited by the American Board of Genetic Counseling (ABGC). Applicants admitted to the program are expected to enroll as full-time students, registering for the required courses for each of the four semesters of the program and the intervening summer sessions.

Programs in the Department of Human Development and Family Studies focus on early care and education, child and adolescent development,
in gerontology. Courses fulfilling the certificate program may be used to meet requirements in a degree program in accordance with the policies of the Graduate School.

Further details about specific major programs can be found in the alphabetical Department listings. Graduate degree programs and graduate-level courses are more completely described in the University Catalog.

**Graduate Administration**

David Demo, Interim Dean
Robert W. Strack, Interim Associate Dean for Academic Administration
Kathleen Williams, Senior Associate Dean for Academic Undergraduate Programs

**About**

We are a group of faculty, staff, and students who value outstanding teaching, research, community engagement and service. Our dedicated and experienced faculty engage undergraduate, graduate and doctoral students in a love of learning, the creation of new knowledge, a spirit of entrepreneurship, and a commitment to our vision of making the world better, safer, healthier, and more humane and just.

**Mission Statement**

The School of HHS, through teaching, scholarship, community engagement and service, prepares new generations of professionals, leaders, scholars, and entrepreneurs to enhance the quality of life of individuals, families, and communities.
