NANOSCIENCE, PH.D.

The Ph.D. in Nanoscience requires a minimum of 49 credit hours and is designed to prepare students to take positions in industrial, governmental, or academic research settings by providing a solid background in nanoscience theory and experimental techniques through course work and dissertation research. Advanced elective courses in nanoscience areas ensure students will have substantial depth of understanding in their area of interest and enable them to effectively carry out advanced nanoscience research.

For information regarding deadlines and requirements for admission, please see the Guide to Graduate Admissions (https://grs.uncg.edu/prospective/guide/).

In addition to the application materials required by The Graduate School, applicants must submit a personal statement indicating their interest in the program and a current Curriculum Vitae.

Qualified applicants with a B.S. degree in an area related to nanoscience (physics, chemistry, biology, mathematics, computer science, or engineering) and, as a minimum, completed calculus through differential equations may apply to the Ph.D. program.

Degree Program Requirements

Required: 49 credit hours

Advanced Nanoscience Courses (12 credits)

Select one concentration option (12 credits) from the following: 12

Without a concentration

NAN 727    Principles of Quantum and Solid State Physics
NAN 729    Mathematical Methods in Modeling Complex Systems
NAN 731    Systems and Synthetic Biology
NAN 732    Nanomaterials Chemistry
NAN 733    Physical Biology

Two approved elective courses (6 credits)

Synthetic Biology Concentration

Material Science and Nanomaterials Concentration

Additional Required Courses (13 credits)

NAN 707    Lab Protocols and Practice 1 6
NAN 708    Science Communications 1 6
NAN 710    Scientific Integrity 1

Dissertation Research (18-30 credits)

NAN 790    Doctoral Research 2 6
NAN 799    Nanoscience Dissertation Research 3 12-24

Total Credit Hours 49

1 Students must complete NAN 707 and NAN 708 twice each for a total of 6 credits each.

2 Students must take NAN 790 twice for a total of 6 credits.

3 Students must complete a minimum of 12 credits in NAN 799.

Materials Science and Nanomaterials Concentration

<td>Mathematical Methods in Modeling Complex Systems</td>
<td></td>
</tr>
<tr>
<td>NAN 732</td>
<td>Nanomaterials Chemistry</td>
<td></td>
</tr>
</tbody>
</table>

Elective Courses (6 credits)

Select two courses (6 credits) from the following: 6

NAN 728    Nanotechniques
NAN 748    Macromolecular and Supramolecular Chemistry
NAN 749    Spectroscopy Methods in Nanoscience
NAN 755    Biomimetics and Biomaterials
NAN 762    Nanoscale Reactions
NAN 764    Materials, Syntheses, and Processes by Design
NAN 771    Computational Quantum Nanochemistry

Total Credit Hours 12

* Or elective course approved by the student's committee and advisor.

Synthetic Biology Concentration

<td>Physical Biology</td>
<td></td>
</tr>
</tbody>
</table>

Elective Courses (6 credits)

Select two courses (6 credits) from the following: 6

NAN 750    Nanomedicine
NAN 752    Molecular Biology in Nanosciences
NAN 753    Introduction to Stem Cell Biology and Ethics
NAN 754    Immunology
NAN 755    Biomimetics and Biomaterials
NAN 757    Nanomechanics

Total Credit Hours 12

* Or elective course approved by the student’s committee and advisor.

Required Milestones*

- Residency (Immersion)
- Plan of Study
- Research Competency
- Comprehensive Exam (Written & Oral)
- Dissertation Proposal
- Admission to Candidacy
- Dissertation Defense
Filing the Final Approved Dissertation
Publication of at least one Peer-Reviewed Manuscript
Annual Committee Meetings
Attendance and Participation in Departmental Seminar Program

* General information about milestones for doctoral programs is available in Section III (https://catalog.uncg.edu/academic-regulations-policies/graduate-policies/#sectioniiisummaryofgraduateschoolregulationsforallcertificatesanddegreestext) of the Graduate Policies (https://catalog.uncg.edu/academic-regulations-policies/graduate-policies/) page in the University Catalog. For information about how milestones are accomplished for a specific program, please refer to the doctoral program's handbook.

**Accelerated B.S. in Physics to Ph.D. in Nanoscience**

**Application and Admission**
Qualified UNC Greensboro undergraduate students who are pursuing the B.S. in Physics may apply for admission to the accelerated B.S. to Ph.D. in Nanoscience. A cumulative undergraduate GPA of at least 3.5 based on at least 30 credits earned at UNC Greensboro is required. Students must also maintain a 3.5 GPA in the courses listed under Major Requirements and Additional Area Requirements in the undergraduate program. Applicants will be required to take the Graduate Record Examination (GRE) during the second semester of their junior year. Applicants must have completed at least 60 credits before applying for admission to the accelerated program. During the summer after their junior year applicants will complete the accelerated program information when applying for admission to the Ph.D. degree program.

**Courses**
Admitted students may apply the following 12 credits of graduate-level course work toward completion of both the undergraduate and graduate degree, provided that they earn a grade of B (3.0) or better in each course and fulfill graduate-level requirements:

<table>

</tr>
<tr>
<td>NAN 605</td>
<td>Mathematical Methods in Modeling Complex Systems</td>
<td>3</td>
</tr>
</tbody>
</table>

Please consult with an advisor to determine how the courses taken at the graduate level will meet requirements in the bachelor’s degree program. All degree requirements for the Ph.D. in Nanoscience remain the same.
